FRENCH NOTE CASTS SHADOW OVER AID PLAN

Nation Refuses To Disarm Further Under Existing Political Conditions

Washington, July 24.—(AP)—The French memorandum to the League of Nations claiming France cannot disarm further under existing political conditions in Europe today cast a shadow over the elation President Hoover manifested over the success of his recent diplomatic moves to aid Germany.

With the seven power conference in London ended with a marked degree of success, American authorities turned their attention to the French document for the first time. Though comment was withheld, they did not disguise their disappointment at the tone of the memorandum.

The French attitude was interpreted as a definite setback to plans for the disarmament conference at Geneva next February, the success of which President Hoover hoped would result from economic rehabilitation of Europe.

In announcing his plan for a moratorium on international debts in June, the chief executive expressed hope it would not only contribute to the economic recovery of Europe, but would so improve international good will that it would pave the way for a successful disarmament conference at Geneva.

Since the World War France has been the big question mark in all disarmament discussions. Officials here take the view that the outcome of the Geneva conference will depend largely on the attitude France assumes.

Although it has been known that France would like to have political guarantees before joining any movement to reduce arms, her outright announcement of this policy was not expected at this time.

France has not only refused to disarm under present conditions, but said she would not reduce her armaments without agreements from other nations to protect her in case of attack. She also demanded a guarantee of her political stability.

If France maintains that attitude those familiar with the situation acknowledge that she will determine material progress at Geneva. Neither Great Britain or the United States is expected to accede to the French demand.

However, in government circles a hope persists that the French memorandum was advanced for tending purposes, or to bolster that nation's government politically at home, and that the note did not express her final word on the matter.

Washington officials were hoping that the European trip of Secretary Stimson of the State Department would go far toward smoothing the path for the Geneva conference.

To Question Man In Connection With Death of 2 Boys

Asheville, July 24.—(AP)—C. R. King, 35-year-old native of Yancey county, was held here today for questioning in connection with the deaths of Burton Hensley and Woodrow Wilson, Yancey county youths whose bodies were found nine months ago on a burning brush pile near Memphis.

King was arrested here Sunday after, authorities said, he had returned from a visit to Texas.

The officers said they were seeking to determine if a watch King had was the same one Wilson carried at the time of his death. They said Wilson's watch chain was dangling loose from his pocket when his and Hensley's bodies were found by two woodchoppers.

Authorities also were investigating reports that King had told several persons he was with the two youths shortly before they were attacked and their bodies pitched in the brush fire. The boys, cousins, were on a leisurely trip through Tennessee when they met death.

Horses Lose Out With Coast Guards

Elizabeth City, July 24.—(AP)—One of the last strongholds of the horse-coast guard stations on isolated beaches—has fallen before the advance of the motor age.

Thirteen tractors the first delivery of a consignment of 21, have been distributed to coast guard stations in the seventh district.

For years horses have been used to haul rescue boats to scenes of wrecks along the coast.

They are subject to sandblindness on the beaches, however, and motor advocates point out that a tractor can haul more than a horse.

RANGERS CALLED OUT IN BRIDGE DISPUTE

The new free bridge over the Red river between Denison, Tex., and Durant, Okla., became the center of a dispute when Gov. W. H. Murray of Oklahoma objected to the fact that Texas had not opened the bridge. After Murray ordered the bridge barrier torn down, Gov. Ross Sterling of Texas ordered Rangers to the scene. They are shown guarding the rebuilt barrier at the Texas end of the bridge.

NEW PRODUCTS ARE ADDED TO FOOD DISPLAY

Two Additional "Home Canners" Place Exhibits At Merchants Ass'n.

The movement to increase interest in the conservation of surplus fruits and vegetables gained greater momentum here yesterday with the offering of more products for the window at the Merchants Association.

The two exhibitors were Mrs. Brooks Tucker and Mrs. Oscar Tucker. Their products consisted of pickles, okra, peaches, peas, soup mixtures carrots and corn.

Mrs. J. C. Galloway of Grimesland placed the first products on display the beginning of the week, and others are expected to take part during the next several days.

One of the miniature canning plants used by the housewives in the preparation of their products was also put on display in the window of the Merchants Association and has attracted considerable interest of those who realize the big part which the canning movement is going to play in the life of the section in the future.

The plants have been purchased by co-operating merchants and are being released to those desiring to use surplus fruit and food crops during the summer. The plants may be paid for in cash or with canned products.

The movement to bring about a more widespread conservation of home grown products was started some time ago by the Merchants Association cooperating with the Home Demonstration Department. Over a score of plants are already in operation and it was thought the number would be greatly increased during the next few weeks.

The preservation of surplus fruits and vegetables is one of the main objects of the live-at-home plan which has been boosted by leading agriculturists the last two years, and it is generally conceded that it will play an important part in improving conditions in the rural communities, enabling the farmers to live at home comfortably despite prices for cash crops.

Everybody has been invited to visit the office of the Merchants Association to see what thrifty women of the farming communities are doing to keep the wolf away from the door during the coming winter. In the words of one of the leaders of the movement, "It is one of the most far-reaching plans started in this section in years and should be of inestimable value in the restoration of improved times."

Germany Turns To U. S. For Additional Aid In Solving Money Trouble

Chancellor Bruening Pins Hope On Secretary Stimson Whose Presence In Berlin, It Is Hoped, Will Reassure German People That Wealthy America Is Interested in Their Fate

London, July 24.—(AP)—Chancellor Bruening and Foreign Minister Curtius, who are appreciative of the help given Germany in her financial crisis by the seven-power conference but are convinced that more is needed, turned today to the United States.

They pinned their hope on Secretary of State Stimson, who agreed to accompany them home to Berlin, where it was hoped his presence would reassure the German people that the wealthy American republic is interested in their fate.

The German statesmen counted on the friendly gesture of the secretary of state to assist them in retaining the confidence of their country in eliminating any tendency toward panic dealing with the opposition of Nationalists and Communists who are dissatisfied with the results of the London conference.

In Berlin the secretary will discuss with German leaders the question of further financial aid to Germany by the United States.

He volunteered to make the visit during the session of the conference. (Continued on page six)

EDENTON MAN SENT TO ROADS

Several Other Defendants Find Way to Roads and Jail in County Court

Keley Copeland, of Edenton, charged with the larceny of an automobile tire and wheel from W. C. Craft here several weeks ago, was sentenced to 12 months on the roads by Judge W. L. Whedbee, presiding over the weekly session of County court in this city yesterday.

The theft was alleged to have been committed while Craft's automobile was parked near the post-office. Copeland went back to Edenton where he was nabbed and returned to Greenville to face trial.

Five other cases were disposed of by the court which usually meets on Tuesday, but which was prevented doing so on account of Judge Whedbee being engaged in a referee's hearing.

George Washington was given 90 days on the roads and Martha Parker sixty days in jail after they were convicted on a charge of possessing whiskey. Both are colored.

Herbert Rogers, charged with assault with a deadly weapon, drew six months on the roads.

Martha Hemby, colored, charged with stealing dresses from Mrs. Luther Whitehurst, was given 30 days in jail and ordered to pay Mrs. Whitehurst \$7 for the stolen property.

James Clark colored, charged with assault, drew nine months on the roads.

DUVAL NEW CITY CLERK

Elected for Period of One Month to Succeed Reid Gaskins, Resigned

J. O. Duval was elected temporary clerk of the city of Greenville at a special session of the Board of Aldermen at the city hall last night. He was chosen for a period of one month at a salary of \$175.

Mr. Duval will succeed Reid Gaskins who resigned about a week ago to accept the position as head teller in the new State Bank and Trust Company which will be formally opened here tomorrow morning at 9 o'clock. Mr. Gaskins served the city nearly two years during which time he rendered highly satisfactory service.

Mr. Duval held the office of city clerk for several years prior to the election of Mr. Gaskins and is well known by members of the administration and the citizenship generally. He was chosen for the office over three other applicants.

The election of a clerk precipitated considerable argument among members of the board, and Alderman Boyd, who opposed the acceptance of Mr. Duval, promptly offered his resignation. He was told that his resignation could not be accepted at the special session, and was asked to reconsider the step.

John Mitchell, cashier of the State Bank and Trust Company, explained the offer of his bank to take over the deposit of the City of Greenville. The board passed a resolution authorizing transfer upon payment of the required sum.

Frank Hawks Again Breaks Speed Mark

New York, July 24.—(AP)—Capt. Frank Hawks has again shattered the speed record for a flight from New York to Havana and return.

He landed at Floyd Bennett airport, Brooklyn, at 8:03 p. m. EST, just eight hours after leaving New York at 12:03 p. m. His actual flying time was 14 hours 35 minutes, which included time out for refueling and food.

His own record was broken by one hour and 14 minutes, and the title taken away from him Saturday by James Goodwin Hall, broker-aviator, was lowered by 27 minutes.

Hawks left New York at 3 a. m. yesterday and arrived in Havana in 7 hours, 36 minutes, after stopping at Wilmington, N. C., and Miami. His return trip was even faster.

He said he averaged 197 miles an hour on the round trip.

Marcellus Fleming, Sr. Died This Afternoon

Marcellus Fleming, Sr., 54, died at his home here this afternoon at 1 o'clock following illness of several weeks.

Funeral services will be conducted from his late home tomorrow afternoon at 4 o'clock.

MANY INJURED IN DISORDERS AT SANTIAGO

Anti-Government Students Remain Barricaded and Dare Troops to Fire

Santiago, Chile, July 24.—(AP)—Anti-government students who remained barricaded in the University of Chile last night in defiance of an ultimatum and dared troops to fire on them, stuck to their posts today while the authorities attempted to deal with them peacefully.

Meanwhile from 300 to 500 persons nursed cracked heads and other injuries received during a turbulent night in the course of which a fire arms store was looted, several street cars wrecked and the principal streets were the scenes of almost continuous clashes between demonstrations and police. Mournful men, armed with lances were used to quell the demonstration.

A few hours after he had become premier of Chile yesterday, Carlos Frodden took over the task of restoring order, and he quickly served notice on the barricaded students that unless they vacated their stronghold they would be fired upon. At that time about 2,000 students and sympathizers were estimated to be in the building.

The students refused to budge, and word got about that they had decided to set fire to the building, and if need be, die in it rather than surrender. This decision, it was said, was communicated by telephone to President Carlos Ibanez against whom the demonstration was directed.

When the ultimatum expired at 10 p. m., there was no broadcast from the troops. Subsequently it was reported the government decided not to resort to extreme force.

Shortly after the ultimatum had been made public, the Physicians Association resolved to call a city-wide strike and treat no one except wounded students in case troops were used by the authorities.

The principal military leaders of Chile today renewed their pledges of loyalty to President Ibanez, and he is conceded to have the unwavering support of the Carabineros, the strongest armed organization in the country.

FLIERS FAIL TO GET AWAY

New York-to-Turkey Airmen Forced To Turn Back On Account Heavy Load

Floyd Bennett Airport, New York, July 24.—(AP)—Russell Boardman, J. L. Horn and John Poland failed in an attempt to start on a non-stop flight to Istanbul, Turkey, today, when they were forced to dump 450 gallons of gasoline in Jamaica Bay to save themselves from crashing.

Their gasoline-jaded monoplane, unable to rise more than 100 feet, was wallowing in the choppy waves of the bay when they pulled the emergency valve and saved themselves from possible disaster.

The airplane, lightened by the loss of almost two-thirds of its gasoline supply, shot into the air. They turned back and landed, nine minutes after their take-off at 4:32 a. m. EST.

The Boston fliers said they would decide on their next start after getting some much-needed sleep. They had been up all night preparing for the 5,000 miles journey. They left for their hotel soon after landing.

Newton Widow to Appear At Inquest Into Man's Death

King's Mountain, July 24.—(AP)—Eight or ten witnesses, including Mrs. Charlotte Young, 37-year-old Newton widow, were under summons to appear as witnesses here today at an inquest into the death of Thomas J. Phillips, Lenoir automobile dealer.

Phillips died at a 25-by-30-foot Monday night of a pistol wound inflicted a few hours earlier during an automobile ride with Mrs. Young, who said he shot himself.

Coroner R. E. Lutz of Shelby, also summoned Mrs. Phillips as a witness at the inquest, set for 2 p. m. In addition to his widow, Phillips is survived by a small son.

Mrs. Young, whose husband was a Newton glove manufacturer, died three years ago, is a daughter of E. A. Smith, King's Mountain cotton mill owner. She recently came here to live with her father. She has two children, a boy and a girl.

Governor Henry Murray Proclaims Martial Law at Red River Toll Bridge Leading to Texas As Three Hundred National Guardsmen Go On Duty; Plans to Prevent Opening of the Bridge in Spite of Court Order; Rangers On Duty On the Texas Side

Durant, Okla., July 24.—(AP)—Armed national guardsmen of Oklahoma were paraded by Governor William Henry Murray today to show his defiance of forces which would prevent his blockading a toll bridge across the Red river to Texas, just south of this city.

Nearly three hundred guardsmen were held in readiness here for an emergency which might arise, while in detachments of 30 they prepared for an unceasing vigil at a narrow strip of highway leading to the Oklahoma entrance to the toll span.

Declaring a Houston, Tex., Federal court action by the Red River Bridge Company owners of the toll bridge to have the blocked roadway opened would be "an invasion of the rights of the sovereign State of Oklahoma," Governor Murray proclaimed martial law in the immediately affected area last night. Adjutant-General Charles F. Barrett took charge.

\$900,000 in Bonds Sold By the State

Raleigh, July 24. — (AP) — The State of North Carolina today sold two bond issues aggregating \$900,000 to the Page Trust Company of Raleigh and other North Carolina points at par with an interest rate of four per cent.

"The very best the state has ever made," Captain Nathan O'Berry, state treasurer, said as he expressed the opinion that this was the first time in the history of the state that such an amount of bonds had been purchased by a North Carolina concern without outside connections.

Yesterday the bonds were offered for sale but, when the lowest bid carried an average rate of 4.11 per cent for the two issues, which run 20 and 36 years to maturity, Captain O'Berry rejected all offers.

"North Carolina will never sell bonds at a higher rate than four per cent while I am treasurer," he announced.

Hood Attempts to Recover Securities Held At Asheville

Asheville, July 24.—(AP)— Buncombe county and the City of Asheville, left with a mass of securities of doubtful value and no money on hand when the Central Bank and Trust Company closed last fall, may lose even this last straw which was held as collateral for approximately \$7,000,000 deposited in the bank.

Gurney Hood, state banking commissioner, today filed suit in Buncombe Superior court to recover the securities, which bear a total face value of approximately \$9,000,000.

The complaint alleges the transactions between the governmental divisions and the bank were not bona fide, that the public officials deliberately and knowingly tied up the deposits when they knew the bank was insolvent, and therefore are not entitled to the customary protection of public deposits through collection of bonds or collateral.

The suit, filed by Judge Thomas L. Johnson, attracted a number of large depositors as intervening plaintiffs. Among these is the receiver for the Central Securities Corporation, a Central Bank subsidiary which held \$3,000,000 worth of the bank's certificates of deposit when it closed.

Warns Lawyers to Speed Up Justice

Chapel Hill, July 24.—(AP)—A warning that unless the legal profession reforms and speeds up administration of justice, it must stand aside while someone else does the job, today was before the State Bar Association at its annual meeting.

The warning was sounded by Charles G. Rose of Fayetteville, in delivering the president's address at the opening meeting of the convention last night.

Mr. Rose said that unless the legal profession leads the way to some reform in procedure and finds the way to secure a swifter and more certain punishment for the criminal, "the long suffering public will force upon us some other method of the administration of justice."

"The bench and bar," he said, "must deliver the goods for which our courts and all of their machinery are designed. It is therefore incumbent upon us to clean up our household or stand aside while the cleaning is going on."

James Grafton Rogers, dean of the university of Colorado Law school, who has for several months been serving as assistant secretary of state, also spoke last night.

Speakers for today included P. W. Phillips of Washington, former member of the U. S. Board of tax appeals, and Prof. Albert Coats, of the university law school.

ABOUT TOWN

Persons who have not been to the office of the Merchants Association to view the products of the conservation movement in this county should do so at once and gain some idea of what the women of the farms are doing toward feeding their families during the fall and winter.

The products were canned with home canning plants, a score or more of which are in operation in different parts of the county at this time. With the aid of these outfits the farmers' wives have been able to can a considerable quantity of fruits and vegetables which would be thrown away otherwise.

The movement is receiving the hearty approval of the Merchants Association, and the Home Demonstration Department of the county, and an effort is being made to place as many of the canning plants as possible and inspire more people to conserve the things which they consume at home all the year around.

One of the canning plants has been placed on exhibition along with the canned goods and anybody desiring to fully acquaint themselves with the plan should visit the association office and have it explained to him.

Tomorrow will be a big day in Greenville with the opening of the new bank to take over the affairs of the old National Bank which closed last December. The public has been given a cordial invitation to attend the opening and get acquainted with the personnel, and hundreds were expected to attend.

The opening of the bank represents long months of hard labor on part of the group of business men, who, realizing the need of another banking institution, started a movement that culminated in success.

It is impossible at this time to estimate the good which the community will derive from the opening of the bank. Closed banks always take a considerable amount of money out of circulation, but when they are re-opened or a new bank takes their place, a similar amount of money is restored to public use.

The new bank has been approved by the Federal Comptroller of Currency and the State Department of Banking, which means it will begin its career in splendid condition. With co-operation of the public it will be able to increase its usefulness to the community and become a vital factor in the restoration of good times.

The officers are men of the highest integrity—men who have lived in the community and state all of their lives and who have rendered a high type of service to the people. They will forever be on the alert to see that the interests of their patrons are considered at all times and attempt to bring back the prosperity which gave way before the wave of depression two years ago.

Members of the Pitt County Post of the American Legion will go to Morehead City Sunday to take part in the annual convention of the State Department.

As usual, the local post will do everything it can to send ample representation, and all members have been called on by Commander J. S. Elliott to make it a point to attend.

The convention this year will be one of the most important in years and many things will come up for consideration. The program contains plenty of interesting features, including a speech by Senator Bailey and a parade of the legionnaires.

Greenville will send its delegation with a report of a very successful year during which membership was held at normal despite depression which has held the section in grip for the last two years.

The Pitt County post has stressed the importance of increased membership throughout the year and this has been largely responsible for the organization holding its own.

All members should make every effort to attend the convention and derive inspiration from mingling with the men who fought on the other side of the Atlantic that the

world might be saved from the heel of German autocracy.

One can't be too careful while behind an automobile steering wheel.

This fact was brought home with great force this week when a young man met death after his companion lost control of his car.

It pays to keep all of the mental faculties alive while driving along the congested highways of the state, and while many accidents are of an unavoidable nature, attention to operation of the car should bring about a reduction of casualties and fatalities.

Many a man that started out for a pleasure ride has ended in a hospital or undertaking establishment and those who wish to avoid the same fate should keep their mind on the alert while on the highways.

The idea of converting the Merchants Association into a Chamber of Commerce with a department for merchants seems to be gaining general favor in this community.

It is believed by many that a Chamber of Commerce would receive more widespread support than the Merchants Association is receiving, and that the merchants would enjoy the same privileges and benefits in the new organization as they do in the old.

The Merchants Association at this time is filling the same mission a Chamber of Commerce fills, yet it is not drawing from the same circle of public interests.

It takes money to run any kind of an organization and the only direct way to raise it is through increased membership.

The movement looking to the creation of a Chamber of Commerce should be continued until something definite has been accomplished.

Atlantic Beach Arranges Splendid Program for Legion

Atlantic Beach, July 24.—An elaborate entertainment program has been arranged for the several thousand legionnaires, auxiliary members and visitors expected here for the annual conventions, and Manager R. W. Gordon, of Atlantic Beach, cordially invites the public in general to share the unusual features he has planned for the gala week-end.

Beginning with a special Saturday night dance at the beach casino with music by Oliver Naylor and his famous broadcasting orchestra, the program will continue Sunday, with an afternoon concert from 3 to 5 o'clock in the casino by the Camel City band, an official American Legion band.

From 12:15 to 5 a. m. Monday morning at the casino there will be a midnight dance and frolic. Excellent night club entertainers from New York will give a Broadway revue, including specialties by five New York dance girls, acrobatic dancing and other specialty numbers. Barring and Lazur, fresh from triumphs at the Roxy theatre, who made a sensational hit at the casino last week-end, have been held over for additional adagio dances.

Another free concert will be given from 3 to 5 o'clock Monday afternoon by a military band, on the boardwalk. Then will come the parade in Morehead City, extending for more than two miles. This will be followed at 9 o'clock at the beach by a magnificent display of fireworks and another cabaret ball.

The fireworks display is said to be the largest exhibit ever put on in this section of North Carolina and to be well worth traveling scores of miles to witness. Among the many features will be the staging of the Battle of Verdun, with mammoth machine gun effects, the Battle of Vimy Ridge and thundering flash curtains of enormous size; the American Legion and Auxiliary emblems; Flanders' Poppy field; Mother's Gold Service Star; and numerous fountains, sprays, shells, flowers and other fireworks effects.

On Tuesday afternoon there will be a concert on the boardwalk by the Oliver Naylor orchestra. That night there will be another dance at the casino, at which time Harry Walker's sensational revue will appear again in their marvelous acts, climaxed by Barring and Lazur, said to be the best dance team of the type ever seen in East Carolina.

Plans are going forward rapidly for the convention and many other arrangements are being made for the events. Thousands of visitors are expected. Senator Josiah W. Bailey, Senator Cameron Morrison, Gov. O. Max Gardner and national officers will be among the chief guests of the legion. Mrs. John Gilmore, of Nashville, Tenn., national vice-president, southern division, will be the chief speaker before the auxiliary convention.

Mayor Chicago Says Roosevelt Wet Enough to Suit Wets of the West

New York, July 24.—(AP)—Mayor Anton J. Cermak of Chicago, by virtue of his office as one of the reigning heads of Illinois democracy is for Governor Franklin D. Roosevelt of New York for President.

"From all that I have read about Governor Roosevelt and from all that I have learned about his views," the mayor said, "my judgment is that he is wet enough to be acceptable to our wet party in the west."

Mayor Cermak revealed his choice of Roosevelt after a private talk with former Governor Alfred E. Smith, titular head of the National Democratic party.

In the mayor's opinion, Mr. Smith will not again seek the Presidential nomination.

"Nothing he said to me would indicate that he was or would be a candidate, and in my opinion, he does not expect to," Mayor Cermak said.

Smith, he added, was very friendly towards Roosevelt.

He said that Illinois favored a wet, and "a candidate must be honestly wet to stand the test with us in the Illinois Democracy."

Mayor Cermak lunched with Governor Roosevelt and with Mayor Frank Hague of Jersey City, considered one of the most powerful Democratic leaders of the east.

Mayor Cermak in a radio address last night defended Chicago as a much maligned city. He said Chicago would make a bid for both political conventions in 1932.

FARM NOTES

By E. F. ARNOLD
 County Agent

Next week is farmers' convention week at State college and every farmer who possibly can go will find it a worth-while trip. Why not take a little vacation and attend the convention? There will be no charge for rooms at the college dormitory. Carry along your bed linen and toilet articles. Meals can be had on the campus at 35c each. So you see a vacation taken this way will not cost much.

Tobacco Demonstrations
 More than fifty farmers attended the tobacco demonstration field meetings held on the farms of H. V. Stator and J. C. Parker, E. Y. Floyd, state extension tobacco specialist, S. G. Lehman, state tobacco disease specialist, and Dr. Clayton, plant disease specialist from Washington, D. C., were on hand to assist the county agent in conducting these meetings. Control methods for a number of diseases which affect both the yield and quality of the tobacco crop in this section were brought to the attention of the growers. Cultural methods were also observed and it seemed to be the unanimous opinion of those present that the ridge method was the best practice for Eastern Carolina farmers to follow.

hot weather. How much of your garden are you putting in your pantry for the cold bad winter days? You can do this in two ways: canning and drying. Tin cans glass containers and sugar cost money and perhaps will keep some farmers from conserving their surplus vegetables. However a great many vegetables can be dried at a very small expense. It is the simplest and cheapest method of conserving surplus vegetables.

Vegetables and fruits may be dried in the sun, stove or by use of kiln for that purpose. Extension circular number 50 which gives definite instructions on drying the different fruits and vegetables; you may order same by writing F. H. Jeter, State College Station, Raleigh, N. C.

PATS DISPLAY UNUSUAL FIRE AGAINST CAPS

Charlotte, July 24.—(AP)—The Greensboro Pats have turned over a new leaf and taken a place temporarily at least by the side of the Charlotte Hornets as the firebrands of the league.

After a string of five consecutive defeats, the Kanemen apparently became mired of losing. When the Raleigh Caps rolled into Greensboro the middle of the week for a series, the Pats cut loose.

The result was that two straight victories over the second place invaders 9 to 8 Wednesday night and a more decisive score of 5 to 3 last night.

Although they downed their opponents, last night's victory came rather dear for the Kanemen. Jimmy Maus, catcher and former N. C. University star, was badly hurt in putting out Clifton at the home plate, and Joe Joseph, second baseman, suffered a broken thumb in another accident of the night.

Maus was taken to a hospital where 15 stitches were required to close a deep spike gash above the left knee. He will be out of the game for several days.

The nine was hit hard by these injuries since Manager Johnny Kane and Hal King, slugging infielder, are nursing hurts suffered in previous games.

While the Pats were putting a crimp on Raleigh's style, the Hornets won another game, beating Winston again 3 to 1, to flash 11 full games ahead of the runner-up Caps.

Henderson turned the tables on the Bulls at Durham—after taking a 3 to 2 licking the night before, they flew into the Bovines for a 12 to 3 triumph last night.

George Whitted used three hurlers in a fruitless effort to check the onslaught of the Birds, while steady old Rube Crews, league veteran, went the route for the winners.

The High Point at Asheville match was rained out. The Tourists walloped the visitors 6 to 2 Wednesday night.

BROWNS WIN ANOTHER GAME

(By HUGH S. FULLERTON, JR.) Associated Press Sports Writer

The American League furnishes two shining examples of teams that are getting along well because they have good men to finish games when their starting hurlers get into trouble. These are the second place Washington Senators and the St. Louis Browns, leaders of the second division.

The Browns depend on four men Stewart, Gray, Bladholder and Herbert to start most of their game with Collins coming in at times. But when they wobble, big Chad Kimssey, Dick Coffman, or Stiles or Braxton are ready to step in. Herbert opened the action against Washington yesterday but gave way to Kimssey after he had filled the bases in the sixth. Between the two they allowed nine scattered hits and recorded a 6 to 4 victory.

The New York Yankees and Detroit Tigers furnished another contrast in finishers. George Pipgras took over the Yankee mound after Herb Pennock weakened in the ninth and pitched four fine innings, while Art Herring, who relieved Earl Whitehill in the thirteenth promptly loaded the bases and gave the Yanks a 7 to 6 victory. Babe Ruth's 26th homer and Lou Gehrig's 30th provided the game's other features.

Philadelphia's Athletics needed no finishing pitcher as they increased their margin over Washington to ten full games with their tenth straight victory. George Earnshaw held the Cleveland Indians to five hits to win 5-2. Jack Russell of Boston also went the route as the Red Sox hit two Chicago pitchers hard to beat the White Hose 13 to 4.

Carl Hubbell of the Giants and Silas Johnson furnished the pitching features of the National League as they battled through a ten inning duel. Hubbell allowed only four hits and gained a 4 to 2 victory in

the tenth when Fred Leach rapped out the eleventh hit off Johnson with runners on second and third.

Four Chicago hurlers allowed the Boston Braves only five hits while the Cubs made 12 off Ed Braudt, but Boston won by a 6 to 3 count by taking advantage of Chicago's five errors.

It was hit and hit again at Pittsburgh as the Pirates battered the Brooklyn Dodgers into a 17 to 6 defeat.

The defeat left Brooklyn 61-2 games behind the St. Louis Cardinals who with the Phillies, were kept idle by rain for the second successive day.

SPORTS SLANTS

"I have seen Bill Tilden play the championship tennis for upwards of a dozen years," remarked a veteran of the journalistic wars upon leaving the Forest Hills stadium after

Big Bill walloped Vincent Richards in the professional finals "but I never saw him play better than he did today. He was, in my opinion, unbeatable, by pro or amateur.

Dempsey, Jones, Tunney, Cobb, Spaker, Kilburn and others have retired from the competitive arena, where they were in a way contemporaries of Tilden in the golden age of American sport.

Yet Big Bill carries on, not with mere gestures, but with as magnificent a display of tennis artistry as we have ever seen. Tilden is 38. His trick knee was handicapping him as far back as 1926, when he lost the American championship.

The youngsters of American amateur ranks he has put on an amateur comeback for a tall, elderly gentleman whose future was supposed to be well behind him.

The Tilden that walloped Richards with such consummate ease on a quiet Sunday afternoon in July would be 4 to 1 to beat Doeg, Shields or any other American; at least even money to "take" Henri Cochet, the one-time Nemesis of Big Bill.

Army-Navy Rumors
Old Man Football is still in the bullpen, warming up for an early getaway, but there is an occasional suggestion around Broadway these mid-summer days that the Army

and Navy are "on the verge" of patching it up again.

The service rivals haven't tossed anything at each other, except pleasant words, since they joined hands in celebrating the Pagan-keepsie regatta victory of the sailors.

It is understood the Navy wants to move one of its outstanding football games to New York this year, perhaps the contest with Southern Methodist, now booked for Baltimore November 21, the week before the Army plays Notre Dame in the Big Ten.

No doubt S. M. U. would be willing, inasmuch as the Texans are looking for "spots." The only metropolitan opposition November 21 is the Fordham-Bucknell contest.

Market Report

Cotton--Stocks--Grain

N. Y. COTTON

New York, July 24.—(AP)—Cotton opened steady today 8 to 13 points lower, under foreign, commission house and Wall Street selling in response to relatively easy Liverpool cables.

Although trading was quiet, selling pressure increased moderately in the early market in sympathy with lower opening of the stock market and with demand restricted prices eased further to net losses of 17 to 24 points. July liquidation was in evidence as trading in the current month ends at noon today. Over night advices from Europe were regarded as somewhat less favorable and checked demand.

Liverpool cables said that there had been a small mixed trade in that market with calling offset by liquidation. Manchester reported a lack of confidence with business in cloth and yarns limited.

GRAIN MARKET

Chicago, July 24.—(AP)—Suffering from a striking curtailment of speculative demand, wheat went steadily downward today. Pit transactions amounted to less than half the volume of a week ago. Export business was also slack, with Argentina and Australia capturing the bulk and North America doing little.

STOCK MARKET

New York, July 24.—(AP)—Wall street gave more attention to domestic affairs today, after being preoccupied for some time with the European crisis.

The first result was the crystallization of opinion as to what action will be taken on U. S. Steel's dividend next week. A reduction of the 87 annual rate is now widely expected, probably to a 45 or possibly a 44 rate.

The stock market naturally developed some heaviness as result of this view, but the possibility of such a development had been largely discounted, and stock was not offered for sale in any volume. In fact, the market remained extremely stagnant.

Losses of 2 points in U. S. Steel and American Can were partially regained after the first few minutes of trading. A few issues advanced moderately, including Gillette, Mack Truck, and International Business Machines, the first named responding to settlement of litigation with United Cigar Stores. Most of the prominent issues moved very narrowly.

Earnings statements now appearing in large numbers continue, in the aggregate, somewhat better than expected, although it is well known that the best statements usually appear first. Chrysler managed to duplicate the results of the second quarter of a year ago with a net of 73 cents a share. DuPont reported \$2.23 a share for the first half of the year, against \$2.84 in the like period of a year ago. U. S. Industrial Alcohol, however, had a deficit for that period of \$52,485, as contrasted with a profit of about that amount the first half of 1930.

Wall street still recognizes that the European situation remains menacing. The further loss of \$20,000,000 in gold by the Bank of England today, on top of yesterday's loss of \$25,000,000 is regarded as unfortunate. The higher discount rate thus far failed to accomplish its purpose. Sterling has recovered only partially and France continues to take London gold, although New York bankers are willing to forego the profits for such operations.

BATTLESHIP RUN BY RADIO

(Continued from page one) her great searchlight at radio commands. Then the order "full speed ahead" was given and she moved at 26 knots or about 30 miles an hour. Her radio robot was doing the work of 80 men.

For 17 miles the Perry followed its crewless leader. The Stoddert guided by mechanical hands and electrical nerves, left a wake of green water as straight as a string, while the Perry, with an experienced seaman at her helm, made flat curves with her wake across the azure blue sea 200 yards behind.

"We haven't tested all the possibilities as yet," Commander Alexander said, "but they seem as limitless as the imagination."

Enroute back to San Clemente Island something snapped in the radio equipment. The Stoddert came to a stop automatically, turned off her steam, and whistled lustily for help.

As the tests had been completed, her crew returned and within 40 minutes she was under way again.

The Stoddert was ordered decommissioned recently and converted into a target for battle practice. Airplanes using dummy bombs will attack her Monday.

SOCIAL QUARTETTE TO BROADCAST FROM RALEIGH

The Social Quartette, colored musical organization, will broadcast from the radio station at Raleigh Sunday afternoon from 5 to 5:30. The quartette is composed of Herman Waters, first tenor; Charlie Gorham, second tenor; Justus James, first base; Joseph Bernard, second base.

The program will consist mainly of negro spirituals. The organization has broadcast from Raleigh several times the last year.

HORSE SHOE TOURNAMENT AT WESTBROOK'S SATURDAY

The cross-country race from the courthouse to Westbrook's will start at 10 o'clock Saturday morning. Boys entering the race be present at the starting place and give in your name. The horse-shoe tournament will start at Westbrook's at 10:30 Saturday morning. Free swimming passes for the week to the winners.

LIFE SAVING CLASSES TO RECEIVE AWARDS

Next Wednesday will be a great day at Westbrook's swimming pool if the weather permits. Five in the senior life saving class will demonstrate their life saving ability and receive their certificates and emblems. Three members of the junior life saving class will also be on the program, two of the members are girls. About fifty other certificates will be awarded boys and girls who have learned to swim this year at Westbrook's.

It is expected that the H-Y girls will present their Chinese missionary drama at the end of the swimming and life saving program.

This fine opportunity for boys and girls to learn to swim and save life is made possible through the liberal contribution of the business and professional men of the city. Come out and see Greenville youth from all parts of the city pass their tests and receive their certificates.

The pool is filled with fresh water today, so bring your family and cool off.
