ORDINANCES ARE PASSED BY ALDERMEN

Budget Still Hanging Fire as Board Waits on School Board's Figures.

Ordinances to be in effect in the city of Greenville during the fiscal year were passed at an adjourned session of the Board of Aldermen at the city hall last night.

The board met specifically for the purpose of completing work on the budget but this was impossible because of the fact that the city schools had not been able to determine the amount of money they will receive from the State.

However, it was the consensus of opinion of the board that the school system should be operated as economically as possible and a committee from the board will meet with the school board within the next few days and impress upon that body the importance of curtailing expenses wherever possible.

Also there was a little matter of \$10,000 which the city loaned the schools last year to prevent the teachers from going home without the last month's pay, which will be brought up at the meeting and the city will ask the school to make some definite plans for the settlement of the debt.

It was said at the meeting that the school board was letting the loan "ride" without making any effort to repay the fund, claiming that the schools were due that much in exchange for the site at the present time occupied by the Sheppard Memorial Library, which the school board was said to have transferred to the city free of charge.

The aldermen—the majority all new but augmented by a few old ones with keen memories—couldn't remember the mention of \$10,000 in the library site transaction and the subject will be broached by the committee of aldermen when they meet with the school board within the next few days.

The board adopted all of the old ordinances with exception of two or three changes. One new ordinance was included: this prohibiting the distribution of handbills on the streets and in automobiles within the city limits. The penalty for violation was placed at \$10. While distribution of handbills has been permitted for several years, no ordinance had previously been adopted.

In connection with the ordinance providing for inspection of fresh meats and the operation of fish peddlers throughout the city was referred to committee, and a committee was also requested to investigate and report on the non-payment of franchise tax by filling stations.

Three copies of a desk map of the city of Greenville, drafted by W. C. Dresbach, were purchased for use by the various city departments.

Mayor Flanagan reported on the sale of the \$100,000 gas plant bonds at Raleigh several days ago stating that the city was to be congratulated upon the fact that its bonds were in demand. He said there were several bidders for the Greenville bonds but that sale was made to the Branch Banking & Trust Company of Wilson.

Regarding a complaint from Mrs. W. H. Long that the city take some steps to prevent runaway automobiles from damaging her property on Colatch street, the aldermen declined to take any action but granted Mrs. Long permission to make any improvements she desired along the streets under supervision of the street committee.

The recent proposal to build a fence along the highway to cut off view of the city dump pile on the north side of Tar river was flatly turned down following investigation of a committee appointed at a recent session. The committee, however, recommended the placing of a gate at the entrance to prevent promiscuous dumping of trash adjacent to the highway.

The request of Manly Sellers, former patrolman for a month's vacation salary, was refused following investigation by the committee appointed at the session the first of the month.

Alderman W. L. Patrick was employed as assistant tax collector by the city at a salary of \$125 a month over a long list of applicants. He will assume his duties the first of September.

Following announcement of his employment, Mr. Patrick resigned as alderman from the second ward. The board deferred choosing a successor until the next session.

Alderman Boyd expressed appreciation of the retiring alderman's service to the city after which the board recessed to meet almost daily until the budget has been finally completed.

Believing Hankow To Be Doomed By Flood, Natives Begin Fleeing

Hankow, Aug. 21.—(AP)—Believing Hankow doomed to total destruction by the Yangtze river flood, all natives able to do so were fleeing today as the great stream began to rise again. Hundreds of thousands of residents of Hankow and its sister cities, Wuchang and Hayang felt the depths of despair as they saw the irresistible waters advance once more after having receded from the record levels of yesterday. The majority, however, were unable to escape. To hundreds of these, death was a welcome release from conditions in which further existence seemed impossible.

Despite the repugnance of suicide among the Chinese, this means of escaping the terrible consequences of the flood was being used by an increasing number. Hankow, with a population of 826,000 had become the principal island city of modern China. Alongside its ancient sisters, it was (Continued on page two)

INDICT WOMAN FOR SLAYING

Grand Jury Returns True Bill In Case of Mrs. Jesse Williams At Smithfield.

Smithfield, Aug. 21.—(AP)—Mrs. J. Williams of Clayton was indicted for the murder of her husband, Jesse J. Williams, prominent political leader of Johnston county, in a bill of indictment returned by the Johnston county grand jury.

Mr. Williams, chairman of the Democratic executive committee of Johnston county, died at his home in Clayton on the night of June 28 of a pistol wound in the breast. After an investigation of over a month and at the end of three public hearings, a coroner's jury returned a verdict that Williams came to his death from a pistol in the hands of his wife.

The bill of indictment today charged that Mrs. Williams "Did unlawfully, feloniously and with malice did kill and murder one Jesse J. Williams on the night of June 28."

Mrs. Williams told her physician on the night that her husband died that he had killed himself. An absence of powder burns on the dead man's body or clothing led to the lengthy investigation by the coroner.

SHOW CRIME COST IN N. C.

Wickersham Committee Gives Figures On Criminal Justice in This State.

Washington, Aug. 21.—(AP)—In the maze of figures presented by the Wickersham commission upon the high costs of crime in the United States, special reference was made to the expenditures for securing criminal justice in North Carolina cities.

A huge total of \$243,551,915 was reported expended to this end alone during the fiscal year 1930. The average per capita cost of criminal justice in the cities studied was placed at \$5.47 for the fiscal year 1930.

Goldthwaite H. Dorr and Sidney P. Simpson of the New York bar, who engineered the study for the commission, reported these total figures represented the effort of "hundreds of investigators throughout the country," and constituted data never before available.

The part played by the North Carolina cities studied was listed as follows:

Criminal police court—Charlotte \$136,577; Durham \$92,215; Greensboro \$310,934; High Point \$71,280; Raleigh \$82,105; Wilmington \$74,656; Winston-Salem \$162,754.

Cost of criminal prosecution—Charlotte \$2,855; Durham \$3,161; Greensboro \$3,751; High Point \$31,686; Raleigh \$3,050; Wilmington \$1,879; Winston-Salem \$3,394.

Cost of criminal courts—Charlotte \$26,497; Durham \$18,105; Wilmington \$10,592; Winston-Salem \$25,412.

Cost of penal and correctional institutions—Charlotte \$81,124; Durham \$39,515; Greensboro \$41,823; High Point \$31,258; Raleigh \$22,186; Wilmington \$38,898; Winston-Salem \$81,587.

Cost of prohibition—Durham \$2,469.

Total cost—Charlotte \$247,053; Durham \$155,775; Greensboro \$179,014; High Point \$123,061; Raleigh \$122,712; Wilmington \$118,025; Winston-Salem \$273,147.

Per capita—Charlotte \$2.99; Durham \$2.99; Greensboro \$3.34; High Point \$3.35; Raleigh \$3.28; Wilmington; \$3.66 Winston-Salem \$3.33.

SEEK COTTON CONTROL PLAN

Conference At New Orleans Plans to Legislate Production Of Staple.

New Orleans, Aug. 21.—(AP)—By unanimous vote, the New Orleans Cotton Conference today adopted a resolution by agricultural Commissioner J. E. McDonald, of Texas, for the appointment of a committee to meet at once and submit a report to the conference during the day on a plan to control cotton acreage by law.

Governor Huey P. Long, who called the conference to consider his proposal to stop entirely the planting of cotton next year named the committee as follows:

Texas, Commissioner of Agriculture McDonald; Representative O. C. Patman and O. H. Cross; Oklahoma, Representative Weaver; Georgia, Commissioner of Agriculture Talmadge; Arkansas, Governor Parnell; Lieut.-Gov. Wilson, Senator Caraway and Representative Graham; South Carolina, Gov. Blackwood; Alabama, W. C. Coker; J. B. Barnett; Mississippi, Dr. C. B. Warner, Rep. Ross Collins, Rep. Whittington and Robert S. Hall; Louisiana, Gov. Long, Senator Broussard, Rep. Sandlin, James Thompson, Reuben T. Douglas; Florida, J. G. Peace; Missouri, J. B. Shannon.

The other cotton states were not represented on the committee.

The committee was directed to go into session immediately and report later to the full conference.

Governor Long opened the meeting by outlining his plan for the complete stoppage of cotton growing next year and gave credit for the origin of the plan to Rep. John Sandlin of the fourth Louisiana congressional district.

He said the plan was feasible, constitutional and advisable. The governor contended it would not be the first time states had stopped the raising of a crop as it had been done to exterminate the boll weevil and citrus pests.

NEGRO PAYS FOR SLAYING

Ben Goldston is Electrocuted at the State Prison for Killing of Another Negro.

Raleigh, Aug. 21.—(AP)—Ben Goldston, Chatham county negro, was electrocuted at state prison today for the murder of John Headen, another Chatham negro. Goldston had previously admitted his guilt. He made no statement in the death chamber. His face bore a slight smile as he died. It required two shocks to snuff out the 36-year-old negro's life. The current flowed through his body 2 minutes and 28 seconds and then 1 minute and 12 seconds before he was pronounced dead.

J. J. "Pap" Perkins, new co-executioner at the prison, officiated at the switches.

Goldston's confession that he was guilty of the killing of Headen stopped an attempt on the part of his counsel to secure executive clemency for him.

His attorneys had appeared before Tyre C. Taylor, executive counsel, and had been assured that the negro's case would be considered seriously. From Mr. Taylor's office the men went to see Goldston at the prison. He was casually asked if he was guilty, all expecting him to continue to maintain his innocence. To the astonishment of all he admitted his guilt and described his commission of the crime.

Goldston shot Headen following a quarrel. His first shot did not kill the man so Goldston found (Continued On Page Three)

ACTRESS REPORTED ENGAGED

Alice White, flaming flapper of the films, is shown in New York City, with Sidney Bartlett of Chicago, to whom she's reported engaged.

Dry Law Enforcement Costs \$0.32 Per Capita

Washington, Aug. 21.—(AP)—A per capita expenditure by the people of the United States of \$0.32 was estimated today by the Wickersham report on "the cost of crime" to be the price of federal prohibition enforcement efforts.

Selecting the fiscal year ended June 30, 1930 for study, the report showed federal expenditures for prohibition approximating 1.03 per cent of its total expenditures for all purposes.

In one of the most complete authoritative analyses of prohibition costs ever published, the report estimated state by state the cost to the government; of enforcing the dry law, leaving out of consideration all expenditures by the states themselves, and also the \$9,000,000 appropriation for the prohibition bureau it split up the cost; of marshals, prosecutors, courts and criminal law enforcement as follows:

North Carolina, \$178,377; South Carolina \$224,911.

SAYS NO FRAUD IN BANK CASE

Attorneys for Lea Attempt to Show State Has Not Produced Convincing Evidence

Asheville, Aug. 21.—(AP)—W. R. Francis, attorney for Col. Luke Lea of Nashville, Tenn., contended the state had failed to show the Central Bank and Trust Company here was defrauded as he addressed the jury today in Lea's trial with three others on charges of defrauding the bank of \$1,300,000.

Francis took up the bill of indictment item by item and argued that the state had not presented convincing evidence he four defendants conspired to defraud the bank, as the prosecution contends, or that the bank was defrauded.

The attorney spoke to a jury from his home county of Haywood. The jury was selected from a special venire brought from Haywood which adjoins this (Buncombe) county.

Lea, chain newspaper publisher, financier and former U. S. senator, is on trial with his son, Luke Lea Jr.; E. P. Charlet of Nashville, and Wallace B. Davis, who was president of the bank, which failed last fall.

Francis spoke for an hour and 20 minutes. Near the end of his address, Judge Barnhill rebuked him for what the jurist held was an insinuation that L. P. McLendon and T. L. Johnson, special prosecution attorneys, were employed by foes of Col. Lea.

McLendon and Johnson told the court when the trial started that they were employed by Governor Gardner at the request of Solicitor Zeb V. Nettles. McLendon asked and was granted permission to reply to Francis when he speaks.

L. E. Ginn, of Memphis attorney for the defense, followed Francis in addressing the jury.

He read freely from various court decisions holding that acceptance of unsecured or other notes which later proved valueless was not a crime unless deliberate intention to defraud was proved.

Ginn asserted these state had produced no evidence that the defendants had intent to defraud or otherwise injure the bank.

Distinguished Visitor Hendersonville.—(AP)—Richard B. Russell, Sr., Chief Justice of the Georgia Supreme court and father of Georgia's governor, is visiting Judge Michael Schenk here.

CRIME COSTS AMERICA MILLIONS OF DOLLARS INVESTIGATION SHOWS

Two Towns Wiped Out As Forest Fire Rages

Boise, Idaho, Aug. 21.—(AP)—A force of 200 fire fighters held a forest fire at bay as it surged within half a mile of the town of Placerville, Idaho, today.

The fire with the ghost mining towns of Quartzburg and Granite already in its maw, was held in check during the night, but the fighters expressed concern over what the day would bring in winds and high temperatures to spur on the flames.

The telephone operator at Placerville said: "We can hold it for a while anyway."

Many residents of the place fled to the bottomlands to join the band of 300 refugees already driven out. (Continued on page two)

COLLEGE ENDS SUMMER TERM

Diplomas Awarded to 83 Young Women at Closing Exercises Held Today.

The twenty-second summer session of East Carolina Teachers College came to a close today. The diplomas were given to eighty-three young women, being one of the largest summer graduating classes that the institution has ever had.

The address to the graduating class was delivered by Dr. R. H. Wright, president of the college. At the close of the address, Dr. L. R. Meadows, director of the summer school, read the names of the graduates and diplomas were given and degrees conferred by Dr. Wright.

In his speech Dr. Wright said in part: "Occasions like this always bring a feeling of both intellectual and emotional joy, for you have accomplished what you set out to do. My life has been made happier during the last 22 years since I have been president of this college, through the accomplishments of its students."

Dr. Wright then went into a brief review of the educational and material progress of North Carolina and showed how within the past few years we have drifted into the habit of laying more stress on material things than upon the spiritual things. He pointed out how the people back home however, are still clinging to the determination to see to it that their children are educated, as has been demonstrated recently in many futile attempts to vote of special taxes for schools.

"Teachers of North Carolina," he said, "have upon their shoulders at least a major part of the responsibility of rearing a generation that will elect men to office that will safeguard the spiritual values of civilization."

He pointed out the drift toward the centralization of government, both in state and national affairs, and the growing tendency toward governmental agencies laying more and more stress upon money, property budgets and the material things of life rather than education and the spiritual things that count far more. Budgets he said, like the Sabbath, should be made for the people, and not the people made for budgets.

"If we want laws enforced," he said "we must elect men to office who themselves keep the law. When judges and solicitors who buy and drink blockade liquor must enforce the prohibition law, it will not be very well enforced."

It is one of the sacred duties of the teacher, he pointed out, to help rear a generation of citizens with a civic consciousness trained against such practices. Speaking directly to the teachers he said, "You must be responsible for the spiritual values and the lives of the teachers are the greatest sermons ever preached. So live and conduct yourselves that your lives will be a glow of inspiration and righteousness."

The following are graduates of the two year normal course: Emma Ethel May Barco, Roper; Emma Grey Cobb, Sharpness; Sarah Jennings Coward, Aullander; Mrs. Fayette Harrell Cox, Moyock; Jackie Davis, Durham; Julia Kinsey Davis, Winston; Margaret Kemp Davis, Windsor; Mrs. Hubert Dixon, Farmville; Lena Dunn, Roberts; Rena Dunn, Roberts; Mary Elizabeth Ebron, Pinpoint; Hettie Edwards, Pine Level; Louis Hampton Edwards, Armour; Mary Ma-

They reported today that they were being towed to Muroto Bay, Shimushu island 15 miles, southwest of Ketoi. A later message announced the arrival Colonel Lindbergh said he would spend two or three hours working on the motor and then test it.

Incidentally the colonel, who never has said much about the peril of his famous solo-flight from New York to Paris in May, 1927, disclosed that his first night aloft in his plane in the treacherous currents off Ketoi was "the worst I have ever experienced."

Mrs. Lindbergh shared that experience with him. The remainder of the night last Wednesday night in the cramped quarters of the plane, a few hundred feet from the rocky shore which doubtless would have ground their plane to pieces had it not within reach.

They had been forced down by fog as they flew toward Nemuro on their next to last hop from the United States to Tokyo, the first major city they hoped to visit in

(Continued on page two)

Wickersham Places Total Cost at Above a Thousand Million Dollars in Report Submitted to President Hoover; Prohibition Named as One of Main Contributors to High Cost of Enforcement of the Law; Do Not Advocate Decreased Cost Through Reduction of Agencies.

Washington, Aug. 21.—(AP)—The Wickersham commission placed the annual cost of crime in this country at beyond a thousand million dollars.

Its latest report reached no lump-sum estimate but contained a series of staggering statistics which even in their conceded incompleteness showed a tremendous toll taken yearly by criminality.

Prohibition was named by the 657-page document made public today after resting for at least a week on President Hoover's bookshelf, as a heavy contributor to this high cost.

It was estimated that \$34,828,550, or two-thirds of all the government funds appropriated for the administration of federal criminal justice during the year 1929-30 were expended toward prohibition enforcement alone.

Studying almost every page of the report were scores of other certified and estimated figures dealing with both the annual direct and indirect cost of crime. Totalled they reached well above the \$1,119,790,000 mark, or more than \$3,000,000 a day.

Here are some of the major readings:

Hundreds of investigators delving into the records of 300 cities of more than 25,000 population, found annual expenditures to combat crime were more than \$247,000,000.

Investigation into the activities of the 48 states found expenditures of approximately \$61,730,000 annually upon penal and correctional institutions and parole.

The federal government was shown to contribute about \$2,768,000 annually to criminal justice, of which prohibition gets 66 per cent, the anti-narcotic and motor vehicle theft laws 10.8 per cent and all other criminal laws but 23.2 per cent.

More than \$10,000,000 is paid each year in the larger cities for crime protective services; more than \$65,000,000 is lost annually through known fraudulent uses of the mails; known forgeries account for another \$40,000,000; total of insured property annually totals more than \$47,747,000, while \$108,000,000 more is contributed for crime insurance.

In addition, indirect costs estimated to run into the hundreds of millions were noted, even where actual figures were unavailable.

Goldthwaite H. Dorr, and Sidney P. Simpson of the New York bar, who engineered the study of the commission, asserted these figures were but fragmentary. It was "wholly impossible," they added, to make an accurate estimate of the total economic cost of criminality in the United States.

It was pointed out that the limitation of time and funds had balked even an estimate upon such huge levies as those extracted by organized bootlegging, extortion, racketeering, thefts of uninsured property, fraudulent bankruptcies, bucketshops, and confidence games, ranging from the sale of "gold bricks" to fixing fights and races.

However, the findings actually set down in statistical form were said by the entire commission to "strikingly confirm the accuracy of the general belief that crime imposes a tremendous economic burden on the community."

"It should not require the dramatic effect of some lump-sum total figure," the commission said, "to emphasize the importance and necessity from a purely economic standpoint, of dealing adequately with the problem of preventing crime and controlling the criminal."

Nevertheless, the 11 members made clear they did not advocate a reduction in the cost of crime through slicing the cost of law enforcement agencies.

The commission asserted these costs were "of less economic importance" than the cost of crime.

WILL CONFER WITH GIFFORD

President to Discuss Unemployment Situation at His Virginia Mountain Camp.

Washington, Aug. 21.—(AP)—In the quiet of his Virginia mountain fishing camp, President Hoover will weigh and discuss the unemployment problem over the week-end with Walter S. Gifford, newly appointed director of relief activities.

The Chief Executive will leave late today or early tomorrow for his Rapidan retreat. Gifford, president of the American Telephone and Telegraph Company, will arrive in Washington tomorrow morning and go immediately to the camp.

In addition to discussing plans and policies for the new organization, the President with the advice of Gifford will select a number of additional names to be added to the list of the advisory committee announced yesterday.

Mr. Hoover reached into all walks of life to pick a group of three score men and women on whom he and Gifford will depend for advice the coming winter. The names of labor leaders, and social service workers were alongside those of former public officials and heads of great industries.

(Continued On Page Three)

Disabled Plane, Battered by Ocean Currents, Taken to Another Island.

Nemuro, Japan, Aug. 21.—(AP)—The Lindbergh monoplane progressed a short distance toward Nemuro today at the end of a tow rope.

After having been stranded since early Wednesday because of fog and motor trouble off Ketoi island the "black hole" of the Kurile Archipelago, Col. and Mrs. Charles A. Lindbergh were forced to accept the aid of the government steamship Shimushu Maru, in getting their helpless plane to an anchorage safer than the wild little island 410 miles northeast of here.

They reported today that they were being towed to Muroto Bay, Shimushu island 15 miles, southwest of Ketoi. A later message announced the arrival Colonel Lindbergh said he would spend two or three hours working on the motor and then test it.

Incidentally the colonel, who never has said much about the peril of his famous solo-flight from New York to Paris in May, 1927, disclosed that his first night aloft in his plane in the treacherous currents off Ketoi was "the worst I have ever experienced."

Mrs. Lindbergh shared that experience with him. The remainder of the night last Wednesday night in the cramped quarters of the plane, a few hundred feet from the rocky shore which doubtless would have ground their plane to pieces had it not within reach.

They had been forced down by fog as they flew toward Nemuro on their next to last hop from the United States to Tokyo, the first major city they hoped to visit in

Resignation Of Labor Government Looms In England

London, Aug. 21.—(AP)—Resignation of Ramsay MacDonald's Labor government became a possibility today as an outgrowth of Great Britain's economic and financial crisis.

The situation became more complicated and difficult as the cabinet maneuvered in vain to reconcile widely divergent views as to how the budget is to be balanced and a deficit of half a billion dollars is to be avoided.

In the face of a non-committal but clearly hostile attitude toward the government economy program, the prime minister was placed in the position of facing a special session of Parliament and trying to force his proposals through with the support of the opposition parties against a section of his own party.

The immediate aspects of the problem became more political than economic or financial this afternoon as the government's predicament was revealed.

ABOUT TOWN

The police department is to be commended for rounding up the band of thieves that has been operating in the business section of the past week or so.

The city is troubled by minor robberies each year, but so far the police have been able to bring the majority of the culprits to justice in short order.

It is impossible to say to what extent the youthful thieves would carry their crimes without the quick action of the authorities and business men and citizenship generally should feel deeply indebted to the police department for the expeditious handling of the cases.

If business isn't as good as it used to be, don't sit down and growl and groan.

The time to do the most effective work is when depression sets in and no one knows it better than giants of business and industry who have lived through many panicky periods without giving up in despair.

It's true this part of the country has been face to face with one of the most critical hard times since years, but leaders of the business world say better times are ahead and unanimously agree that the time to act has come.

If business is not as good as you as it should be, look about and see what you have to offer the people and let them know about it. Use the columns of your daily newspaper for dissemination of this information and before you realize it conditions will undergo a surprising improvement.

The Eastern Carolina Chamber of Commerce held a "pep" meeting in Kinston a night or so ago and attempted to instill in its membership the advisability of forgetting depression and of digging harder than ever for the enormous volume of business transacted in this part of the state each season.

More "pep" meetings should be held by the business men who have permitted themselves to remain in the same old rut despite the advice of business leaders to buck the line harder than ever to get to the road of prosperity.

The sectional chamber has started a movement that should be of value to every locality of the world that has been hard hit by the depression and the sooner it is begun the better it will be for everybody concerned, and very few are not concerned.

Buyers have begun returning from northern markets where they bought liberally of the latest creations for the winter season. Fall goods were purchased during the early summer and the majority of stores already have these on display.

Claiming to be the "Principal Shopping Center of Eastern Carolina," it has become necessary for Greenville merchants to provide themselves with the most colorful showing to be found in the east and not many of them if any have failed to do just that.

The showing at virtually all of the leading stores will be one of the most brilliant probably ever exhibited in this locality, and people who come from a distance of many miles to view them will not go away empty.

The reorganization of the Hoover unemployment committee has just about been perfected and a short time now work will begin in an effort to provide for the thousands of men and women throughout the country who have suffered severely from the shortage of jobs the last two years.

The situation in this connection is probably more serious in this country than it has ever been before and the committee has a monumental task ahead of it if it meets the demands of the uncounted thousands by the coming of winter.

Although the situation in the United States is bad it is nothing

compared with other countries which have suffered from a similar cause for many years. Where we have thousands suffering for work, the other nations have millions suffering both from hunger and want.

The economic situation, as deplorable as it may seem is bound to be adjusted if the various nations maintain their equilibrium and the more committees put to work to investigate conditions and attempt to provide for them, the sooner we may expect to see a pronounced improvement.

TWO TOWNS WIPED OUT AS FOREST FIRE RAGES

(Continued from page one) Red Cross officials were investigating the condition of the refugees. Most of them lost everything in the flames, even their jobs, for the Gold Hill and Idawa Mine mill which furnished employment for a large portion of the town of Quartzburg, was burned with \$500,000 loss.

Boise Idaho, Aug. 21. (AP)—Quartzburg and Granite Creek, ghost towns with histories dating back to the earliest mining era of Idaho, were in ashes today and a third town, Placerville was in danger as the result of widespread forest fires.

Near Placerville 300 refugees, driven from their home in the path of a doggedly advancing fire, were huddled on a sand flat fringed by the blaze.

A fourth town, Centerville, was for a time completely encircled by fire but was believed to have been saved last night.

There was a lull in the ferocity of the flames when darkness brought cool air to the burning district, but fire fighters held out little hope of quenching the flames before another hot sun came today to speed them along.

Under a driving wind the Quartzburg fire broke out of control yesterday and swept down the canyon on three sides of the town. Sensing the danger, all but two of the inhabitants had fled.

The remaining pair, Fred Daly, postmaster, and Mrs. Daly, remained in their stone house while the flames reduced the rest of the village to ashes. They were unhurt. The Daly home and three other buildings were the only ones to remain.

The four towns are located on a closely knitted maze of little creeks which in the early days yielded gold to the early welders of the pit and pan.

Little was left of Granite Creek, the fire taking a small Catholic church, a dwelling and a large barn. No casualties were reported. Quartzburg reported all residents accounted for. They recalled it was the second serious fire there in two years, the previous one burning down 14 buildings at the mine.

At Placerville, Mrs. Lizzie Robinson, telephone operator and storekeeper, and her two daughters, insisted upon remaining there as long as their services could be of help.

North of the burned towns a battle was being waged against flames in the Idaho forest. Lightning started eleven fires there yesterday and fighters were rushed to the scene by airplane, motor truck and pack horses.

CRIME COSTS AMERICA MILLIONS OF DOLLARS YEARLY, REPORT SHOWS

(Continued from page one) portance than the losses inflicted by the criminal so that it is much more important from an economic standpoint to increase the efficiency of the administration of criminal justice than to decrease its cost.

The commission recommended that "nation-wide thorough and scientific studies of racketeering and organized extortion should be made."

It also urged "the efficiency of police administration" be increased to a level "commensurate" with the expenditures made for this service; that economy be effected in penal treatment through the use of probation and parole; that more money be spent of prosecution; that steps be taken for the suitable compensation of jurors and witnesses; and that encouragement be given waivers of trial by jury.

Earlier the Dorr-Simpson report dealt at length with federal expenditures for prohibition enforcement, adding approximately \$5,000,000 for civil proceedings in connection with this enforcement to the \$34,823,550 already estimated. It pointed out that this would total more than 68 per cent of all monies spent for federal law enforcement.

BELIEVING HANKOW TO BE DOOMED TO NATIVES BEGIN FLEEING

(Continued from page one) only a fishing village until opened to foreign trade in 1861. Then its rapid growth began. In 1927 it served for a short time as the capital of Nationalist China. An incident typical of the misery was witnessed by the Associated Press correspondent while going about in a sampan. The boat encountered an aged man and woman standing armpit deep in the flood. They refused to heed the boatman's cry to move aside and asked him to strike them down. The aged couple said their reason and their fear that the "water dragon" wrath would be visited upon them prevented their

'QUEEN HELEN' SMILES, PLAYS AND LOOKS ON

But she dropped the smile and got down to serious business when she defeated Edith Sigourney of Boston 6-0, and 6-0, as the center picture shows. After her match she became a spectator and the cameraman caught her in the interesting pose shown at right as she watched other women net stars in their struggle for the national tennis titles.

committing suicide but asserted they would welcome death. Still another river was on the rampage today. The newest inundations were along the banks of the Hwai Ho which runs through northern Honan, Anhwei and Kiangsu provinces.

News of the added catastrophe in northern China was conveyed today by the National flood relief commission by the Hwai river. Conservancy commission which reported on counties in the three provinces inundated, an area of 9,000 square miles was under three to ten feet of water.

MISS MARY RACHAEL TEEL ENTERTAINS

Miss Mary Rachael Teel delightfully entertained a number of friends at her home Thursday morning in honor of her house guest, Miss Dorothy Poole of New Bern. Four tables for bridge were arranged in the living room which was very pretty, decorated with summer flowers. After several progressions Miss Pattie Whitehurst was found to hold high score and was presented a dainty compact. To the honoree, Miss Poole, lingerie was given, while low score, a novelty bracelet, went to Miss Ruth Dudley.

The hostess, assisted by little Jane Smith, served delicious punch and wafers throughout the game.

Those playing were Misses Dorothy Poole, Jean Brown, Julia Gaylord, Rebecca Benson, Louise Tadlock, Anna May Holliday, Rosamond Vandye, Helen McGinnis, Helen Edwards, Frances Woolard, Margaret Eakes, Berta Elise Arnold, Helen Johnson, Lilly Williamson, Ruth Dudley and Pattie Whitehurst.

PRAYER MEETING SUNDAY NIGHT AT CLEVE ELKS'

An invitation has been extended all former members of the Men's and Women's Christian Federations of this city and county to attend a prayer meeting which is conducted each Sunday night at the home of Mr. Cleve Elks one mile off the hard-surfaced highway from Ballard's X-roads. C. D. Smith is leader of the meeting.

Honors Small Nieces.
Farmville, Aug. 19.—Miss Vivian Case entertained at a unique party on Wednesday morning, a doll party given in honor of her small nieces, Misses Vivian and Catherine Dall of Portsmouth, Va. The dolls and their wee mothers arrived at 10:00 o'clock and after a proper display of interest in each other's children the mothers sat down on the lawn for a social. Guests included: Misses Vivian and Catherine Dall, Delphia and Margie Lee Parker, Alice and Olive Taylor, Christine Joyner, Ann Jones, Etta Frances Harper, Yvonne Smith, Catherine and Miriam Gates, Louise Morris, Lilla Gaynor and Mavis Leggett.

NEGRO PAYS FOR SLAYING
(Continued From Page One)
out where he was being treated for his wounds and went there and killed him.

Mr. West is the oldest son of Mr. and Mrs. Ray West of Walstonburg. After graduating at Annapolis in the spring of 1890, he resigned, accepted a position with the Standard Oil Company, and has been living in Seminole for the past twelve months. He leaves Friday to spend two years in Colombia, South America, where he will represent the Standard Company. Mrs. West will follow as soon as her passport is issued.

ONE KILLED IN HAVANA CLASH
(Continued From Page One)
notified Miguel Mariano Gomez, former mayor, from Santa Clara to carry the battle to the capital, holding that the revolt's success hung by a thread.

American consular officials at Neuvas and the head of the garrison discredited over the telephone published reports that a rebel expeditionary force had made a successful raid on that city.

They said there was no hint of rebel activity in that vicinity.

A communique from army headquarters said federal troops had defeated a force of 200 rebels near Gthara, scene of bitter and prolonged fighting the first of the week. More than 30 insurgents were said

to have been killed, 20 others wounded, many prisoners taken and the remainder dispersed.

Fernandez Quevedo, chief of staff of the navy, said that the Danish boat Frederiksberg which was reported to have been bombed by an airplane near Antilla, had refused to stop when ordered. She was bombed and machine gunned, he said, but was not badly damaged. She is now off Cape Mambi.

WILL CONFER WITH GIFFORD
(Continued From Page One)
The burden of organized relief, however, will fall heaviest on Gifford. The President has informed him that the whole force of the administration will be at his disposal and has let it be known at the White House the telephone man will have a completely free hand.

The advisory committee will be exactly what its name indicates, the White House said. The entire administrative function will rest with Gifford and with Fred C. Croton, whom the President has chosen as assistant director. Croton has been acting chairman of the President's emergency committee which will be absorbed by the larger Gifford organization.

No announcement has been made as to how the Gifford group will be financed. The President's emergency committee has received its financial assistance from the funds of the secretary of commerce. There is still money available in its fund. The service of Gifford, Croton and the advisory committee, will be volunteered.

NO UNDERTOW NOTED AT ATLANTIC BEACH
Atlantic Beach, Aug. 21.—No unusually high waves or strong undertows were noticed here Wednesday such as were reported with tragic effects at other coastal resorts. It is stated by R. W. Gordon, manager of Atlantic beach, who attributes the safety of the local beach to the fact that it is one of only two beaches along the seaboard that have a southern exposure.

A large crowd was in bathing here Wednesday, but no casualties or accidents were reported. There has never been a drowning at the beach here. Five years ago there was a fatality farther up the shore but physicians attributed the drowning to heart failure.

Red Work Continues
Murphy.—(AP)—Work of hard surfacing highway No. 28 from here to the Tennessee border near Ducktown was begun this week.

Two Former Bankers Face Trial at Halifax
Halifax, Aug. 21.—Three bankers and three prominent Halifax county citizens today entered pleas of guilty when arraigned before Judge W. C. Harris in Superior court on charges of violating the state banking laws.

Market Report

Cotton--Stocks--Grain

N. Y. COTTON

New York, Aug. 21.—(AP)—Cotton opened steady today 12 to 15 points higher in response to reports of firmer markets abroad and rather less favorable crop advices from the southwest.

The buying was said to be coming chiefly from shorts, Wall Street and Liverpool sources, while the south was a moderate seller on the advances with the offerings increasing slightly after the call.

December contracts, after selling up to 7.05 on the initial demand, reacted to 6.98 with the general list ruling about 8 to 10 points net higher at the end of the first half hour.

Liverpool cables reported covering trade calling and buying for a reaction with a cessation of liquidation in that market, and said the demand for cotton cloth from China was sustained. Egyptian futures in Alexandria were 37 to 45 points higher and the spot quotation for Indian cotton in Liverpool was 6 points higher.

GRAIN MARKET

Chicago, Aug. 21.—(AP)—Corn fell late today to a new bottom price level unmatched heretofore this season by September contracts. Liquidating sales of September corn were in progress, and new crop deliveries were dragged lower as a result of sympathy. Wheat reacted with corn, notwithstanding reports by the Canadian Growers' Pool suggesting that 5,400,000 acres of the 23,000,000 of wheat seeded this spring in Canada had been abandoned.

STOCK MARKET

New York, Aug. 21.—(AP)—The stock market was a pale and listless affair today.

Continued lack of convincing signs of autumn recovery on trade, news ticker discussions of the prospect of wage cuts in the steel industry, gossip in automotive circles indicating a somewhat protracted period of quiet before new models are put on the market around Nov. 1, all tended to dishearten the bullish element. Even the oil shares ran into considerable profit taking and turned distinctly heavy.

Losses of 1 to 2 points appeared in such issues as U. S. Steel, American Telephone, American Can, Allied Chemical, DuPont, Air Reduction, Standard Oil of California, Texas Corp., Atlantic Refining, Socony-Vacuum, Atchafalpa, Bethlehem Steel, New York Central, Johns Manville, Safeway, Pennney, Case and American Tobacco B. In the motor and accessory shares, losses were largely fractional, although Bohn Aluminum, a recent pool favorite, fell back 3 points. Sellings were more active after midday.

The weekly mercantile reviews reflected little save summer quiet. The weekly gain of \$14,000,000 in brokers loans, his first upturn since the week ended July 1, reflected the little flurry of pool activity last week in an effort to attract the public. She weekly Federal Reserve statement showed that the recent withdrawals of funds by foreign sources from the open market through sales of bills and placing the funds on deposit with the Federal Reserve, had ceased.

NEWS BRIEFS

From Over The City and County

FALKLAND FARMER BRINGS HUGE CUCUMBER TO TOWN

One of the largest cucumbers seen here this year was placed on exhibition in the window of the business office of The Reflector today.

The "cuke" was grown by James L. Corbett, tenant on the R. E. Harris farm near Falkland. It weighs five pounds, is fourteen inches long and 13 inches around. Corbett said the cucumber was of the improved long green type.

LOCAL FISHERMEN REPORT BIG CATCH AT SWANSBORO

T. Y. Walker, C. B. Rowlett, A. H. Critcher, W. A. Darden, Jack Foley, George Woodward and Lebron Spence have returned from a fishing trip to Swansboro. They reported a big "catch" and would have done even better had not the sharks been quite so numerous. Appearance of wide-mouth sharks produced jumpy nerves and hauls were not as accurate as they would have been under different conditions.

ALDERMEN'S LONG HOURS DISTURBING TO FAMILIES

Wives of members of the Board of Aldermen are having hard times these days, sitting up late at night waiting for their husbands to return.

Twice within the last month the "city fathers" including the affable mayor, have remained in session until 12 o'clock at night, and it is evident they have several other long sessions coming to them before the budget is finally completed. "Baldy" Hobgood, who always sticks with the board, regardless of time, really became concerned over the lateness of the hour last night and suggested sending a policeman to his home to keep his people company until he could get there.

However, the meeting was just over when the proposal was being offered, and the police department was not called on for extra duty.

PIONEERS MEET TONIGHT

The Pioneers will meet tonight at 7 o'clock at Westbrooks. The Pioneers wishing to go on the picnic on Monday must give in their names not later than Saturday morning. A good time is in store for all who go.

The Junior Room and old library building are undergoing a thorough cleaning and redecoration and will be ready for the H-Y, Pioneers and Friendly Indian meeting next week.

OPEN FOR ADULTS

The water at the deep end at Westbrooks is 10 feet, and suitable for good swimming and diving. The pool is open on Saturdays and Sundays for adults. Come and bring your friends, to the most sanitary swimming pool in this section.

Unemployed Employed

(Greenville)—(AP)—Tobacco drying plants here have furnished employment to approximately 400 negro women.

PATS OPEN CRUCIAL PLAY AT RALEIGH

Charlotte, Aug. 21.—(AP)—

Greensboro and Raleigh, two up and coming members of the Piedmont league, open one of those well-known crucial series in the Capital City today that may play a prominent part in deciding the runner-up in loop percentages.

Charlotte, it is generally conceded, will cop the pennant without great difficulty. The Hornets are approximately 11 games ahead of Raleigh, in second place, with only 30 contests left to play.

The Pats, fresh from two merciless wins over Henderson, are less than four game behind Raleigh, idle for the last two nights because of rain. Three games, including the Saturday twin-bill are scheduled at Raleigh.

The last time the clubs met, July 27 and 28, Greensboro lost one game 4 to 1 and won the other 2 to 1. These scores, are a fair indication of how evenly the teams are matched.

Just how seriously Raleigh is taking this fight; to remain in second place may be gleaned from Eddie Winston, business manager of the Caps.

Winston made known here that the club was getting ready to hire the best ball players it can find to enable it to finish the season ahead of Greensboro. He said he knew they would be ineligible for the post-season series, but added "Raleigh's got to get in it first."

After holding Henderson hitless the night before, Greensboro last night allowed the Birds only one hit in eight innings before rain stopped the batting practice. The Pats engaged in while chalking up a 19 to 0 win. Newsome did the twirling for Greensboro and Payne, centerfielder, got the only Henderson hit.

Winston-Salem lost its ninth game by taking a 5 to 4 locking from Asheville. It was the seventh straight win for the Tourists.

The Durham-Raleigh and High Point-Charlotte games were rained out.

McLarnin Whips "Billy" Petrolle

New York, Aug. 21.—(AP)—The clan of McLarnin can rest easy today so far as the threat of battle-scarred little Billy Petrolle, the one-time Fargo Express, is concerned.

Chunky, pink-faced Jimmy McLarnin, the pride and joy of the clan, settled the matter quite convincingly last night before a small and only mildly aroused crowd at the Yankee stadium. Jimmy whipped the battered Petrolle so decisively, in ten rounds, that it became quite monotonous before

the formalty of raising the gloves by the referee. This was McLarnin's second straight triumph over Petrolle. It was by far the more decisive of the two and altogether wiped out the stigma attached to the McLarnin escutcheon by the slugging Jimmy absorbed one night at Madison Square Garden last winter.

Before receiving the unanimous decision, McLarnin did everything but put Billy on the floor. Petrolle managed this himself, on one occasion in the fifth round when he fell flat from the force of a wild swing that completely missed its target.

Before receiving the unanimous decision, McLarnin did everything but put Billy on the floor. Petrolle managed this himself, on one occasion in the fifth round when he fell flat from the force of a wild swing that completely missed its target.
