## LUKE LEA FOUND GUILTY IN ASHEVILLE BANK CASE

### NEW BRITISH GOVERNMENT BEGINS WORK

#### MacDonald Takes up Reins of Office Surrounded by Perplexing Problems.

London, Aug. 25.—(AP)—J. Ramsay MacDonald, twice Socialist Prime Minister of Great Britain, took up the reins of non-partisan government today with the realization that either he had committed political suicide or that history would number him among the empire's great statesmen.

In some circles it was said that by going into the wilderness with a handful of followers in a desperate effort to set the nation's financial house in order he had incurred the bitter animosity of the immensely powerful Trades Union Congress and probably won the hostility of a considerable section of the Labor party executive.

It was freely commented by these observers that whatever else might happen, Mr. MacDonald never again would be the head of a labor government or even an outstanding figure among labor politicians.

In advocating a slash in the dole, it was said, he had by one step cut himself off from the labor executive and from the great mass of labor trade unionism, representing the very life-blood of the party.

On the contrary, there were those who said that by sacrificing his political ambitions for what he believed to be the ultimate good of the nation he had established himself in the hearts of the people as the man of the hour and that posterity would rank him with Gladstone and Disraeli.

The most obvious point expressed was that the Labor party, the most powerful in the kingdom, had been split from top to bottom by the division in the cabinet which led to the fall of the MacDonald ministry. It was considered that a blow to its authority and prestige which will cripple it for years to come.

Reasonably certain of a majority of 100 in the House of Commons, the strange bedfellows thrown together by the exigencies of Great Britain's economic crisis spent this day working out details of personal government.

Prime Minister Ramsay MacDonald today announced the personnel of his cabinet:

- Ramsay MacDonald, prime minister.
- Stanley Baldwin (Conservative) President of the Council.
- Philip Snowden (Labor) Chancellor of the Exchequer.
- Sir Herbert Samuel (Liberal) Home Secretary.
- Lord Sankey (Labor) Lord Chancellor.
- Lord Reading (Liberal) Foreign Secretary.
- Sir Samuel Hoare (Conservative) Secretary for India.
- J. H. Thomas (Labor) Secretary for Dominions and Colonies.
- Neville Chamberlain (Conservative) Minister of Health.
- Sir Philip Cunliffe-Lister (Conservative) President of the Board of Trade.
- Sir Donald MacLean (Liberal) President of the Board of Education.
- Sir Henry Betterson (Conservative) Minister of Labor.
- Lord Londonderry (Conservative) First Commissioner of Works.
- Lord Lothian (Liberal) Chancellor of the Duchy of Lancaster.
- Lord Amulree, Sir Secretary.
- Austin Chamberlain (Conservative) First Lord of the Admiralty.
- Sir Archibald Sinclair (Conservative) Secretary for Scotland.
- The secretary for war and minister of agriculture are to be announced later.

Baton Rouge, La., Aug. 25.—(AP)—A formal call to Louisiana Legislators to meet tonight to act on a cotton growing prohibition law for 1932 was issued today by Gov. Huey P. Long.

### PUSH DRIVE ON N.Y. CRIMINALS

#### Manhattan Police To Arrest all Suspicious Characters and Gunmen at Once.

New York, Aug. 25.—(AP)—In a drive against crime the police today started a roundup of suspicious characters and known gunmen. Scores were arrested.

Police vacations were cancelled. Every available detective and police man, including several hundred clerical workers, went on duty, either in squad cars or on foot. In two boroughs alone there were 49 arrests. Police cruising cars were being equipped with radio.

Twenty thousand persons crowded Madison Square Garden last evening in an anti-crime mass meeting. Hours before the meeting began, fire officials ordered the doors closed. First plans were for a meeting in Central Park. Thousands went to the park unaware of a change.

Prohibition and crooked politics were blamed by speakers for gang outbreaks.

Bainbridge Colby, secretary of state under President Wilson, asked: "Why is this condition of affairs tolerated?"

"The answer," he continued, "is that it is congenial to the whole spirit of our local government."

"Ours is a government of pull. Immunity from prosecution, exemptions from penalties, illicit favors, the myriad shapes privilege takes, are the first, last and most vital concerns of the organization which dominates the city administration."

"The simple facts remain that New York has ceased to be a safe place to live in."

Governor Roosevelt wrote urging honest judges, prosecuting officers and honest police. He warned against being attracted by the glamor thrown around the gunman and urged that citizens do their duty as jurors and witnesses.

Vice President Curtiss wired that an implacable stand by citizens against enemies of society had his support.

A committee of 70 was named to

### Protests Against Reduction of Open Season on Fowls

Charlotte, N. C., Aug. 25.—(AP)—A protest has been lodged with the U. S. Bureau of Biological Survey by Senator Cameron Morrison against reduction of the open season on migratory waterfowl to less than 90 days.

In writing his opposition to the proposed plan Senator Morrison explained that the "entire central and southern coastal regions of the county have no representation on the advisory committee and respectfully request a hearing if drastic action is contemplated."

### HIS SON AND DAVIS ALSO FOUND GUILTY

#### E. P. Charlet Adjudged Not Guilty; Recess of Court to Prepare Motions.

Asheville, Aug. 25.—(AP)—Col. Luke Lea, Nashville, Tenn., newspaper publisher and former United States Senator was found guilty in Superior Court here today of conspiring to defraud the Central Bank and Trust company of \$1,136,000.

His son, Luke Lea, Jr., and Wallace B. Davis, who was president of the bank which failed last fall, were found guilty with him. E. P. Charlet, of Nashville, a business associate of Lea, tried with the other three, was found not guilty.

The Leas and Davis were convicted of conspiracy under two counts and the two Leas, under an additional conspiracy count.

In addition, the Leas and Davis were convicted of actual misappropriation of funds.

Charlet was found not guilty on all counts.

Maximum sentences under the jury's verdict would be: Luke Lea, Sr., and Luke Lea, Jr., 60 years in prison and a \$45,000 fine.

Wallace B. Davis 50 years in prison and a \$35,000 fine.

The defendants and their wives received the verdicts without any show of emotion.

The defendants and their counsel immediately went into a conference.

Judge M. V. Barnhill then recessed court until 2 P. M. to allow time for the preparation of motions.

Defense attorneys announced they were preparing motions for a new trial and that if it was refused they would appeal. Pending hearing of motions, Judge Barnhill made no announcement respecting the passing of sentences.

None of the three convicted men would comment, nor would their attorneys.

### CANNON TAKES NEW CRACK AT SENATE PROBE

#### Says Inquiry Personal Attack by Two Men under Catholic Domination.

Washington, Aug. 25.—(AP)—Bishop James Cannon, Jr., in a cable today from London charged that the Senate's inquiry into his 1928 anti-Smith campaign activities was a "purely personal attack by a vindictive Democrat and a Boston congressman under Roman Catholic domination" and not an attempt to frame remedial legislation.

The message was sent to the Senate campaign funds committee as it prepared to resume its inquiry into the Southern Methodist churchman's use of \$65,300 in Virginia in 1928 against Alfred E. Smith. The inquiry was scheduled to start at 2:30 p. m.

Bishop Cannon's charges referred to Senator Glass, Democrat of Virginia, under whose resolution the committee is working, and Representative Tinkham, Republican of Massachusetts, who has complained that the bishop violated the corrupt practices act in failing to report all his expenditures.

### LINDY RESTS AT NEMURO

#### Flier and Wife Sleep Late Following Arrival in Japanese Town.

Nemuro, Japan, Aug. 25.—(AP)—Charles and Anne Lindbergh, who expect to conclude by tomorrow a 7,132-mile flight from the United States to Tokyo, won a much-needed rest today.

Retiring early last night after an exciting day—exciting to the town of Nemuro if not to the fliers—they retired early, and at 9 o'clock this morning they were still sleeping.

Meanwhile the town's citizenry, in the absence of the fliers themselves, contented itself with looking upon the Lindberghs' boots, Anne's tight-laced size 31-2's and Charles' number twelves, which were in a boot rack at the entrance to the inn in accordance with an old Japanese custom. And the innkeeper, Kikunokamura, and his wife tipped about, whispering to their many children: "Shinukani shibuku," meaning "Keep quiet."

It was expected that Colonel Lindbergh would spend some time today working on the big monoplane that carried him and his wife across northern Canada, Alaska, the Bering Sea and down the Kurile island chain to this town. The plane showed the effects of the severe buffeting it took from the waves off Ketoi island, in the central Kuriles, and while being lowered eighteen miles from Ketoi to Muroton bay by a Japanese government steamer.

The plane's condition was not believed so serious as to prevent a take-off for the Kasumigaura (Continued on page four)

### Hoover Evolves Plan For Attack on Crime

#### ALL CRIMINALS ARE AFFECTED

#### Expect Action Will be Based on Sixty Concrete Suggestions of Wickersham Report

Washington, Aug. 25.—(AP)—President Hoover had before him today more than 60 concrete suggestions for a simultaneous attack from all sides up on the nation's crime problem.

Each bore the seal of the Wickersham commission and represented the \$500,000, two-year effort of that body to build up legal machinery to compete with modern criminality.

At least 12 of the three-score recommendations would require legislative action and one a possible constitutional amendment.

With this completed work resting upon the White House bookshelf, it was said authoritatively that President Hoover already is evolving a plan for strengthening Federal law enforcement activity.

Gangster, racketeer and professional criminal would fall within the scope of this plan, which will be influenced undoubtedly by the mass of data laid before him by the commission he appointed.

Should the president confine himself entirely within the range of the Wickersham recommendations, some of the possibilities would be these:

Economy would be gained in the administration of criminal justice through the expenditure of more money, since the annual expenditure to this end of around \$347,000,000 "is of less importance than the losses inflicted by the criminal."

Congress would begin the consideration of a revised code of criminal procedure, seeking to remedy a commission finding of "far too many loopholes of escape for the guilty person" and too many "technicalities favor able to the accused" existing in the present code.

Widespread alliances reported between "criminals and corrupt politicians," extending their power over the police forces in many metropolitan areas, would be acted against.

Legislation or a constitutional amendment would be adopted to allow judges and prosecutors to follow the commission suggestions that they be allowed to comment "on the failure of the accused to testify," aimed at reducing the reported usage of third degree methods. (Continued on page three)

### 36 INDICTED IN COAL FIELD

#### Former University of Washington Co - Ed Charged with Criminal Syndicalism.

Harlan, Ky., Aug. 25.—(AP)—Thirty-six more indictments were returned in the Harlan coal fields cases here today including one charging criminal syndicalism against Mrs. Jessie London Wakefield, former University of Washington co-ed.

Other indictments included one against Ralph Steel, charged with criminal syndicalism; one each against Woody Emery and Hagery Layne charged with slaying Jesse Pace, a deputy sheriff last April, and three against Lloyd Gilbert in connection with the Everts clash May 5, in which four were killed. The other indictments charged robbery of stores at Everts.

The indictment against Mrs. Wakefield, a representative of the International Labor Defense, charged she had aided and counseled physical violence, destruction of property, freeing by force of the miners held in jail and had counseled and suggested to various persons "to wipe Sheriff J. H. Blain and Circuit Judge D. C. Jones from the map," and had counseled unlawful acts "as a means of accomplishing political ends, bringing political revolution and overthrow of constitutional law and right."

Bond for Mrs. Wakefield, who is 23 and formerly of Seattle, was fixed at \$5,000. She has been in jail for several weeks. Steel's bond was fixed at \$3,000.

Al Benson, former assistant chief of police at Everts, made \$15,000 bond today on the three murder counts against him in the Everts case. Joe Cawood, former town school trustee at Everts, held in the same case, already had made bond. Judge Jones yesterday acted under the law permitting the court to exercise discretion as to bond in murder cases, announced the defendants could be freed on \$5,000 bond for each count against them.

United States Attorney George Z. Medall (above) of New York investigated the disappearance of Hisashi Fujimura, importer, who was missing when a steamer on which he was a passenger reached New York.

### Probes Sea Mystery

#### Woman Tells of Horror That Followed Priest River Conflagration.

Spokane, Wash., Aug. 25.—(AP)—The larger fires in the area quelled, graphic stories of the horror that followed the Priest River, Idaho, conflagration were trickling into Spokane today.

Blazing animals, running until they dropped dead, farm families, hundreds of persons in want, their homes razed, was revealed by Mrs. F. Chant, who lives at Coaling, Idaho, on the edge of the devastated area.

"The heat was so great," she said, "that it stirred up tomatoes that tore up big trees by the roots. One rancher, Cal Huff, was on the roof of his barn, trying to keep flying cinders off the roof when such a gust carried the roof to a neighbor's barn, setting it afire."

Huff, she continued, was thrown off the swirling structure, and landed in a tree uninjured. All his ranch buildings burned.

Settlers, hemmed in by the blaze which forested said traveled 2 miles in two hours, fled to streams for safety.

Some of them stood for hours all but submerged. Many became ill with pneumonia and rheumatism after they were rescued.

"It was terrible to see horses, calves, cows and chickens burn," Mrs. Chant said. Their cries filled the air. One poor horse ran down the road, after all over, and finally dropped dead. Such scenes were common.

"Lots of crippled deer have been seen—some with ears buried off, others their tails, a foot or two and others blinded."

ABOUT TOWN

Pitt County National Guardsmen captured two distinct honors during the recent encampment period at Fort Bragg by winning the middleweight and lightweight boxing championships.

In recognition of their feat the commanders were presented loving cups. They will be the envy of the entire state artillery unit somebody comes along with sufficient fighting ability to win the same honor, and it will be a long time before such happens if the boys have their way about it.

Captain J. Con Lanier is proud of the showing made by his men. He commended them for their deportment and the splendid way they handled themselves during the grueling tests on the training field.

The captain does not share the admiration alone because everybody in the county is proud of the record the young soldiers have established and confidently looked forward to the day when they will be able to come back home with even greater laurels.

With the season of half holidays over, Greenville business men have turned their attention to providing for the thousands of shoppers who will visit the city during the fall and winter months.

Already shipments of goods have been received from northern markets and are being put in place daily as the merchants attempt to get in readiness for the opening of the tobacco market — the beginning of the busiest season of the year.

Buyers have been to northern markets and purchased an extensive as well as brilliant showing of merchandise and when the shoppers come here they will find unsurpassed values for men, women and children. In fact, the merchants have brought liberally for every member of the family and the goods may be purchased at prices comparing favorably with the largest cities of the country.

Greenville caters to people within a radius of many miles, and those who visit the city to take advantage of the fall and winter offerings should be able to save enough on their purchases to defray their cost of transportation. Greenville gives values at prices within range of every pocketbook and persons who fail to buy here will miss the opportunity to get the best to be had at a splendid saving.

Henry Ford has frankly told his employees that unless they plant a garden and raise as much of their own food as possible they will not be given further employment.

The ultimatum applied only to men with families, and was made for the purpose of impressing upon the employees the importance of raising the things they use at home in order to cut down the cost of living.

If every concern in the nation adopted a similar plan there would be little use for farmers, but since there are corporations in big cities whose employees have no garden room, somebody is bound to supply vegetables and such stuff for them.

The plan Mr. Ford has adopted is all right in that all of his employees have gardens, but if it applied to the entire country many a man would be walking the street with nothing to do.

Schools of the country are going to have hard sledding this year and it is incumbent upon appreciative patrons to co-operate with members of their faculty to see that maximum results are obtained even though appropriations are reduced considerably over last year.

This applies especially to people in the country where the schools must exist on the money appropriated to them or be forced to summer the consequences.

School authorities, co-operating with state officials, are making every possible effort to apply the new school law in the wisest manner possible, but this is a monumental task that will require both

patience and perseverance, and probably almost superhuman effort before finally being accomplished. Everybody wants the schools to be run in the most efficient manner possible, and if this is accomplished it is going to be necessary for the public to help school officials and give them the best of co-operation they can.

Operation of public schools has always been a big job, but it is a bigger job today than ever because of the serious economic situation that has brought about decreased school appropriation, and if the end of the year is to witness success in the educational realm both school officials and the public must still together in an effort to make it so.

NEWS BRIEFS From Over The City and County

OUT-OF-TOWN LAWYERS ATTENDING COURT HERE

NEW STENOGRAPHER IN COURT HERE THIS WEEK

Miss Gussie Edwards, of New Bern, is acting as substitute stenographer in the civil term of Pitt County Superior court which convened in this city yesterday with Judge N. A. Sinclair, of Fayetteville, presiding. CUP SOLDIER CAPTURED AT CAMP WILL BE ON DISPLAY HERE SOON

One of the two silver loving cups captured by boxers of the local military unit while in encampment at Fort Bragg will be placed on display in the window of the business office of the Daily Reflector sometime this week, it was stated today by Captain J. C. Lanier.

The cups were awarded to Corporal Bud Bullock and Private James Johnson for capturing the champion in the lightweight and middleweight bouts.

It was at first planned to place both cups on display but one of the guardsmen was called out of the city and carried his cup with him.

COUNTY COURT POSTPONED ACCOUNT SUPERIOR COURT

RUNAWAY AUTOMOBILE CRASHES INTO BUILDING

It is impossible to say what a car is going to do—especially when cranked in gear.

A man, whose name could not be determined, cranked his car on Third street, near the Proctor hotel, early this morning, and the machine darted off before he could get into it and ran almost half a block before crashing into the tailorshop and an adjoining house at the corner of Third and Cotnach street. A woman, who was sitting in the car attempting to manipulate the gears while the man did the cranking, became frightened and jumped to safety before the crash.

Only minor damage was done to the two buildings and car but the incident excited considerable curiosity among pedestrians who happened to be along the street at the time.

ALDERMAN TO DISCUSS SCHOOL SITUATION WITH MEMBERS SCHOOL BOARD

The Board of Aldermen and members of the city school board will meet this week to work out plans for the operation of schools during the coming session.

Enactment of the McLean school law has brought about an unprecedented situation in financing the schools, and the two boards plan to "put their heads together" in an attempt to provide sufficient funds to maintain the schools at the usual state of efficiency.

The schools asked the state for \$54,000 to defray the six months term as provided under the new law, but only received approximately \$45,000 in allotments made by the Equalization Board last Saturday.

The school board has asked the Board of Aldermen for a 20 cent tax rate to provide for the extended term and to make up for the shortage of the state appropriation, and this is one of the questions that will be considered when the two departments gather in special meeting.

Some time ago we announced an oriental rug would be awarded the lady that showed the most interest in the pool during the season. For a time three ladies were close runners; but during the last few weeks, the prize fell to Mrs. H. L. Hodges. The rug is an imported silk or oriental tapestry rug.

The Friendly Indians had a fine picnic yesterday; seven hours of real activity made them feel like hunting a bed when they returned home.

Deranged Father Spirits Children Away in Airplane

Lone Pine, Calif., Aug. 25.—(AP)—A father who stole an airplane and used his limited knowledge of piloting to fly away with his two small children whom he had forcibly taken from his estranged wife was believed to be hiding in the Inyo mountains today after effecting a safe landing in a dry lake bed.

The father, Henry Billingsley, 40, left two notes in the abandoned plane demanding immunity from prosecution and that his wife agree to return to him. The notes were found last night after the plane was recovered, virtually undamaged in the lake bed, four miles from here.

Billingsley got possession of the plane at Bishop, Calif., yesterday by taking the children to the airport there for a ride. He seized the controls and roared away while the pilot who was to have taken him aloft stood nearby.

Previously he had called at the home of his estranged wife and removed the boys, calling back that he intended to take them up in an airplane and "kill everybody." Fliers at Bishop said Billingsley had handled the controls of a plane only twice before, and never had flown alone.

Officers said automobile tracks leading away from the scene of the landing showed how Billingsley escaped. Sheriff Tom Hutchinson expressed the belief Billingsley was me by an accomplice and that they took the children to a deserted cabin in the Inyo foothills.

The abductor's actions and his notes led the sheriff to express the belief he was deranged.

Wake Up Your Liver Bile—Without Calomel

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sunk and the work looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily.

If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in blemishes. Your head aches and you feel down and out. Your whole system is poisoned.

It takes those good old CARTER'S LITTLE LIVER PILLS to get these two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely.

But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Resist a substitute.

Warning: Any case on the docket that is not definitely set for trial on this calendar is open for trial if called at any time during the term. This August 20, 1931. D. M. CLARK, Solicitor.

HOOVER EVOVING PLAN FOR ATTACK ON CRIME

(Continued from page one) ods to obtain testimony.

In addition, if the commission suggestions are followed, more money will be expended upon prosecution; more adequate compensation will be given witnesses and jurors; docket procedure will be improved to provide more speedy trials; waivers of jury trials will be encouraged and the functions of the grand jury curtailed.

There would be "nation-wide, thorough the scientific studies of racketeering and organized extortion," carried forward despite warning by commission experts that such inquiry would be "highly dangerous" to the investigators.

Commission members found that "The present prison system is antiquated and inefficient," that it does not reform the criminal and "falls to protect society."

A new type of penal institution would be provided in which iron bars would play a smaller part, save for the hardened few, where work would be provided for all, education stressed and the sick, insane and drug addicted segregated.

The members found that "brutal disciplinary measures have no justification" in prisons and said "we recommend they be forbidden by law."

Should President Hoover desire to go still further, reaching beyond the recommendations of the commission as a whole into the suggestions of individual members and experts, he would find ground for the creation of a federal "institute of human research" to determine the causes of crime, and for the extension of employment bureaus instead of prisons.

Lea faces further trials in various courts. While on trial here he was scheduled to appear in East Tennessee Federal District Court in connection with the failure of the Holston Union National Bank at Knoxville. The Federal Court waived its right to allow the case here to proceed.

At Nashville while on trial here Lea was indicted by the grand jury for defrauding the Liberty Bank and Trust Company there. His son and Charlet were likewise indicted.

The City of Asheville is suing Lea for collection of notes it received for a part of the \$4,000,000 it had on deposit in the Central Bank when it closed.

# Market Report Cotton--Stocks--Grain

## N. Y. COTTON

New York, Aug. 25.—(AP)—Cotton opened steady today, 12 to 16 points lower in response to the lower Liverpool cables which evidently caused liquidation or reselling by some of yesterday's buyers.

Liverpool and the continent were credited with selling here during the early trading, while there was some selling by the south and commission houses, but the offerings were fairly well taken by covering or trade buying at the initial decline.

This demand was sufficient to give the market a generally steady time during the early trading and after selling off to 7.14, December was holding around 7.16 at 10:30 o'clock with active months showing net losses of 12 to 14 points.

Liverpool cables reported hedging, local and Bombay liquidation in that market and said there was an improved cloth demand from both the near and far East.

## GRAIN MARKET

Chicago, Aug. 25.—(AP)—Grain prices marched grimly along the downward trail today, all deliveries of wheat, corn and rye again at low prices for the season.

Selling pressure while not heavy, was more than sufficient to fill the limited buying orders. Scattered stop loss orders in wheat were uncovered on the way down. Rallies in all grains were feeble.

Pit observers were unable to explain the continued selling which has carried prices steadily downward, except by the absence of a large speculative short interest in the market.

## STOCK MARKET

By CLAUD A. JAGGER  
(Associated Press Financial Editor)

New York, Aug. 25.—The financial markets remained laggard today, and a few experimental bullish efforts in stocks made early in the session were soon abandoned.

Wall Street's attention was focused on the developments in England, which, on the whole, were regarded as distinctly reassuring, and on a directors' meeting of the United States Steel Corp. late in the day, although there was no indication from the steel offices that there would be anything to announce after the meeting.

Several issues were pushed up a point or so in the share market during the morning, but these advances were largely cancelled as the tobacco issues, American Can, and Radio met considerable selling. In the tobacco, the American Tobacco and Liggett and Myers common and class "A" shares lost 2 or 3 points. Morning advances of a point or so in Union Pacific, Case and American telephones were converted into losses of like extent. After a further drop in McKesson's triplets and Allied Chemical sold off about as much. U. S. Steel pushed up a point, then lost its rise. Radio moved in a narrow range, but was traded in considerable volume.

There has been considerable gossip in Wall Street over the possibility of an announcement of a wage reduction resulting from the U. S. Steel meeting, but authoritative information has been completely lacking.

There were some rumors at that time that a wage reduction might be announced, but some ordinarily well-informed quarters felt that action on wages would be deferred until sometime after the effects of reductions in salaries and the cut in the common dividend had become apparent.

## present in every tobacco leaf

"They're out—so they can't be in!"

Every LUCKY STRIKE is made of the finest tobacco leaves the world can offer—the finest from Turkey—the finest from Kentucky, Tennessee, Virginia, Georgia and the Carolinas—the Cream of many Crops throughout the world. But all tobacco leaves, regardless of price and kind, as nature produces them, contain harsh irritants. LUCKY STRIKE'S exclusive "TOASTING" Process—a process that mellows, that purifies, that includes the use of the modern Ultra Violet Ray—expels certain harsh irritants naturally present in every tobacco leaf. We sell these expelled irritants to manufacturers of chemical compounds, who use them as a base in making sheep-dip\*, as well as a powerful spraying solution for trees, flowers and shrubs—enough to permit the daily dipping of over 50,000 sheep or the daily spraying of many thousands of trees. Thus, you are sure these irritants, naturally present in all tobacco leaves, are not in your LUCKY STRIKE. "They're out—so they can't be in!" No wonder LUCKIES are always kind to your throat.
