### France and Germany Agree on Reparations

#### New Accord at Lausanne Terminates Controversy Over Last Debt Payment

#### GERMANY WILL PAY HUGE SUM

Under Agreement Germany's Final Payment is Fixed at \$750,000,000; Announcement of the Agreement Received at Washington with Interest but Stimson Was Silent on the Question

Lausanne, Switzerland, July 8.—(AP)—France and Germany have reached a complete agreement on the issues under discussion at the debts and reparations conference, it was officially announced this afternoon.

Under the agreement Germany's final reparations payment is fixed at a nominal three billion gold marks (\$750,000,000). Bonds for that amount will be issued at a price of ninety cents.

The preamble to the agreement declares that reparations are finally ended, and that a new effort in relations among nations is commenced on the basis of reciprocal confidence.

Announcement that an accord had been reached was made while Premier Herriot of France was holding a final conference with Prime Minister Ramsay MacDonald of Great Britain in the latter's chamber.

The fishing touches to the text of the accord will be made late today.

Washington, July 8.—(AP)—Announcement of a complete Franco-German agreement at Lausanne on reparations and war debts was received today at the State Department with interest, but Secretary Stimson was silent on the two questions, which are held here to be separate and distinct.

The fixing of Germany's final reparations payment at approximately \$750,000,000 reduces its obligations to less than one-tenth of the total fixed under the Young plan three years ago.

The gentlemen's agreement linking reparations with Europe's war debts was looked upon in some circles as patently opening the way for new appeals to the United States for a scaling down, if not actual cancellation of what it owed this nation.

When the Europeans submit their agreements individually to this government the United States will consider them. Until then Secretary Stimson has nothing to say about war debts.

The funded indebtedness of fifteen European nations to the United States exceed \$11,000,000,000. About 90 per cent is due from Great Britain, France and Italy.

Should Europa propose that debts to this country be scaled down in the same proportion as German reparations are cut under the new

American Experts at Geneva Look With Disfavor Upon English Proposal

Geneva, Switzerland, July 8.—(AP)—American naval experts united today in criticizing a move for a new five-power naval parity launched from British sources yesterday.

The British plan was broached shortly after a set of counter-proposals to the Hoover disarmament plan was announced in the House of Commons at London. It was contained in a press interview given anonymously by a high British authority.

#### ROUND THE WORLD FLIGHT AMBITION BLASTED BY CRACKUP

James Mattern and Bennett Griffin abandoned their effort to set a new speed record around the world when they wrecked their plane in a peat bog half way between Berlin and Moscow. They mistook Borisov for Moscow while having trouble with the controls and landed on the only available field, which was not near good enough.

#### FUND FOR POOL GROWING HERE

Total of \$45.00 Contributed Since Fund Campaign Opened Yesterday

Contributions to the fund being raised to help pay for the operation of Westbrook swimming pool had reached \$45.00 today and hope was expressed that the goal of \$200 would be reached in the next few days.

Announcement of the campaign to raise funds to help support the pool was made by the Greenville Recreation Association, operators of the pool, following a meeting yesterday morning, and contributions since that time have been quite liberal.

It is the idea of the association to obtain 40 contributions of \$5.00 each to take the place of twenty donations of \$10 each made by a group of leading business men last year, who find it impossible to make similar gifts this year because of financial conditions.

However, the gifts will not be confined to \$5 alone for anybody desiring to contribute is requested to do so. It was stated that donations of any size would be appreciated as the association goes about its effort to continue operation of the pool the remainder of the season.

The pool is considered a great asset to the preservation of life at this season of the year when thousands of people go swimming, and health and other protective features thrown about the swimmers at Westbrook's constitutes a safeguard that has increased the popularity of the recreation center.

Two life guards are on constant duty all the time the pool is open and this assures complete safety for inexperienced swimmer as well as the more expert ones. The health requirements are under direction of Dr. R. S. McGeachy, director of Pitt County Health Department, who stated that the water had probably the highest rating of any pool in this part of the state.

Members of the association are proud of the interest which has been shown.

#### Attempt to Rescue Men From Sunken Submarine

Cherbourg, France, July 8.—(AP)—Salvage vessels hovering above the spot where the submarine Promethee went down yesterday reported air bubbles on the surface this afternoon.

They also found the Promethee's telephone buoy and it was believed that there was still a telephone connection with the ship on the bottom.

The submarine, with more than 60 men aboard, lay in 245 feet of water, seven miles north of Cape Levi.

It is a bad spot, with treacherous currents and an uneven bottom.

#### STORMS KILL TWO PERSONS

Cleveland, July 8.—(AP)—Tornado winds, lightning and heavy rainfall, which swept over parts of Ohio and Indiana late yesterday, killed two persons, injured more than 20 others, and did heavy damage to property.

A bolt of lightning killed Wallace Hall, 35, of Amherst, O., while he was plowing in an open field near that town, and at Cincinnati, John Stover, 7, was killed when lightning struck a tree beneath which he and other children were playing.

Earl Seeley, working with Hall, and Norman Luebert, one of the Stover boy's playmates, were knocked unconscious, but were not seriously injured.

About twenty persons suffered injuries at Vernon, Ind., a village of 600, when a tornado wrecked the business district and damaged more than one hundred residences. Other communities were damaged.

#### DEATH PROBE IS CONTINUED

Fatal Shooting of Smith Reynolds Still Probed as He is Laid to Rest

Winston-Salem, N. C., July 8.—(AP)—Simple funeral service, in sharp contrast to their luxurious surroundings, were held here today for young Smith Reynolds, one of the heirs of the huge tobacco fortune, who was shot to death on his estate near here Wednesday.

Reynolds' bride of three months, the former Libby Holman, Broadway revue favorite, who collapsed when told of her husband's death, came from seclusion for the first time since the shooting to attend the service. She sat with other members of the family.

Ab Walker, close friend of Reynolds and the first to reach him after the shooting, was one of the pallbearers.

The Reynolds estate which has been closely guarded for the past two days, was thrown open today and many curious poured in to join with relatives and friends in the simple rites. Another large crowd was at the cemetery several miles away.

Winston-Salem, July 8.—(AP)—Dr. W. N. Dalton, county coroner, today ordered an inquest into the death of Smith Reynolds and set it for 4 p. m. today.

Dalton, who had said he would officially record the death of Reynolds as a suicide, summoned a jury of six men today, took it to the Reynolds estate to view the body and then ordered the inquest.

He summoned as witnesses the several house guests of the couple as well as the members of a dinner party at the Reynolds home earlier on the night of the shooting.

Among the witnesses called were C. G. Hill, in whose honor the dinner party was held; Miss Blanche Yuka, New York actress, a guest in the home; Ab Walker, the first

#### DEFER ACTION ON RELIEF BILL

Senate Democrats Fail to Reach Agreement on Attitude Toward Measure

Washington, July 8.—(AP)—Senate Democrats in conference today were unable to reach a decision on their attitude toward the \$2,100,000,000 unemployment relief bill and action by the Senate on the measure was postponed until tomorrow.

The conference was called to decide whether the Democrats would support Speaker Garner in fighting for the bill containing provision for loans to individuals to which President Hoover is opposed. After two hours of deliberation, the conference recessed until tomorrow. Senator Robinson, the Democratic leader, said plans for adjournment also were discussed and a general desire to speed up conclusion of the session was expressed.

Democratic national conventions held a light to the Board of Aldermen of Greenville when it comes to the important matter of nominating candidates for public office.

The board last night set something of a record from the standpoint of endurance in balloting for the election of a mayor pro-tem, two members to the board of trustees, a sanitary inspector and three fire truck drivers.

The principal fight, centered around the office of mayor pro-tem and seven ballots were cast before Herman Duncan received a sufficient vote to assure his election.

Lined up against Duncan in the battle of ballots were J. H. Boyd, former mayor pro-tem, and J. L. Hassell. For five successive ballots the vote stood three for Hassell, three for Duncan and two for Boyd. At the expiration of the sixth ballot, Alderman Boyd withdrew from the contest, and Duncan obtained a five to three verdict over Hassell on the seventh ballot.

#### Young Woman Is Drowned In Ayden Section

Ayden July 8.—Miss Ellie Andrews, 29, was drowned yesterday afternoon at Edwards' bridge, near Ayden, at 5 o'clock and the body was recovered about 6:30.

Miss Andrews was a native of Jones county, near Trenton, but for some time had been living with her uncle, J. M. Andrews on the farm owned by J. R. Turnage, near the scene of the tragedy.

She was in bathing with a number of young people, none of whom could swim. They were wading in shallow water and the victim accidentally stepped into a deep hole and none of the party were able to rescue her.

The funeral will be held this afternoon at 3 o'clock at Friendship church near Trenton.

#### Parties Make Different Moves For Public Vote

Washington, July 8.—(AP)—Whatever turn it may take in the more decisive days to come, the presidential campaign is beginning with the two major parties preparing an entirely different approach, for once, to the affections of the American voter.

The Republicans, putting their faith in a don't-rock-the-boat appeal, are making their plans on the theory that the public, in times of stress, is inclined to swing toward conservatism, and try no experiments.

Following an entirely different line of reason, the Democrats are banking on the nation's readiness to reject precedents and seek a new pathway out of trouble.

It is a matter of dispute among politicians how far this situation will advance the long-awaited realignment of political groups into "conservatives" and "liberals" in place of Republicans and Demo-

#### SHOW WEALTH OF FILM STARS

Chaplin, Mary Pickford and Husband Three Wealthiest People in Filmland

Los Angeles, July 8.—(AP)—Three of Hollywood's most famous figures—Charles Chaplin, Mary Pickford and Douglas Fairbanks, all of whom were pioneers in the film industry—are indicated as the colony's three wealthiest individuals in tax assessment rolls published today.

Chaplin, who made his money by making funny antics performed with a cane, derby hat, and pair of baggy trousers, listed taxable stocks and bonds at prices prevalent on March 1, of \$7,687,570. Cash and solvent credits amounting to \$295,000 also were listed by the film comedian.

Second to Chaplin on the tax rolls is Mary Pickford, with stocks worth \$2,316,940. Interests in foreign trusts amounting to \$176,190 and real estate valued at \$192,260.

Mary's husband, Douglas Fairbanks, ranks third with stocks worth \$1,384,090. Interests in foreign trusts of \$235,700 and real estate assessed at \$75,480, in addition

SUMMER MORNING SERVICES AT METHODIST CHURCH

The summer morning services at Jarvis Memorial Church will be held in connection with the Sunday school session. The preaching service will begin at 9:45 and will end about 10:30, then all classes will assemble for their work until 11:00.

This schedule of services has been followed the past two years and proved to be very acceptable. When the question of the summer services was put before the congregation last Sunday this plan or schedule lacked only two votes being unanimously adopted.

The preaching service next Sunday morning will begin at 9:45. The public is invited to all the services of the church.

## E. E. Powell Dies Near Grifton

Ayden, July 8.—E. E. Powell, a prominent farmer of Pitt county, died at his home near Grifton yesterday morning at 7 o'clock and is to be buried this afternoon at 4 o'clock in St. John's cemetery. He was eighty-three years of age, but had been in declining health for the past five years.

The funeral services will be conducted at St. John's Episcopal church by his rector, Rev. A. C. D. Noe, of Ayden, assisted by Rev. C. W. Howard, of Kinston.

Mr. Powell was born at Hookerton in Greene county and lived there until eighteen years old, at which time he married Miss Mary Perry of Chocowinity, Beaufort county, and they moved to late home place in Pitt where he spent the intervening years.

Mrs. Powell died in 1904 and the following year he married Miss Salome Wilson of Williamston, who survives him.

Mr. Powell was a vestryman and faithful communicant of Old St. John's church, Grifton and for many years superintendent of the Sunday school. His life and service have been an inspiration to the community and his passing will bring a deep sense of loss to his host of friends.

He is survived by his wife, two daughters, Mrs. Annie Fleming and Miss Eugenia Powell, both of Grifton; four grandchildren, E. W. Fleming, Mrs. K. E. Price and Miss Lucy Fleming of Grifton and H. C. Fleming, of Washington, D. C.; eleven great-grandchildren, a survivor.

The active pall-bearers were E. W. Fleming, Heber Fleming, K. E. Price, and Eugene Price, of Grifton, and T. E. Hooker and E. G. Flanagan of Greenville.

## LAST DAY EXPECTED TO SET NEW RECORD

Tomorrow is the last day of the Miller-Jones Family Shoe Store sale which began on Thursday morning, June 30th. This store, located at 408 Evans street, has sold literally thousands of pairs of men's, women's and children's shoes at the lowest prices in their history, said N. R. Joyner, manager of the store.

Yet in spite of the thousands of shoes sold there are still countless bargains in dress and work shoes for men and boys, dress pumps, sports shoes and street wear shoes for women, as well as shoes of every type for growing boys and girls.

The Miller-Jones Company owns and operates its own modern daylight factories and sells these shoes direct to the buying public through their own retail stores. This direct-to-consumer method enables them to offer fashionable, well-made shoes at practically wholesale prices. But even with this efficient and practical method of retailing the retarded buying and general business conditions failed to dispose of sufficient shoes to accommodate the new stocks so it was decided to hold a general sale in all of the Miller-Jones stores.

This sale has been highly successful. It has enabled the 1-1/2 store to clear its shelves and it has enabled the people of this city to stock up on good, serviceable, fashionable footwear at surprisingly low prices. There is but one day left during which the sale prices will continue.

Pitt Man Paroled. Sentenced to serve two years in state's prison last January for non-support and abandonment, Robert Lee Whitfield, of Pitt county, was paroled by Gov. O. Max Gardner along with twelve others from other parts of the state today.

## Aged Minister Found Guilty of Bad Conduct

London, July 8.—(AP)—The Rev. H. P. Davidson, grey-haired rector of Stiffagey, was found guilty today on several of the charges of improper conduct with young women which he faced at the recent sensational church trial here on an accusation of immorality.

F. K. North, chancellor of the Diocese of Norwich, who presided at the trial, handed down the decision. Sentence will be pronounced later by the Bishop of Norwich, and it was indicated the rector may appeal.

He had denied all the charges in his picturesque defense at the trial, declaring he came to London from his country parish to do uplift work among the unfortunate girls, hundreds of whom he said he helped.

This statement of the rector's, the chancellor said in his decision, was an "issue of absurdities" and the rector an absolutely discredited witness upon whom no reliance could be placed.

## Rum Runners Burn Cargo

Williamston, N. C., July 8.—(AP)—Three men were under arrest here today and 315 gallons of whiskey, alleged to have been the property of the trio, had gone up in flames touched off by an official match.

Deputy Administrator P. M. Caudle was tipped by Elizabeth City officials that a load of liquor was bound this way, and with his officers he spread a net into which Allen Smith, negro, drove a truck of whiskey.

Guarding the truck were two automobiles. One, in front, escaped.

# Gambler's Throw

By EUSTACE L. ADAMS

SYNOPSIS: Besieged by his own gang, Limpy Ashwood, with Emory Mueller and the men Ashwood has abducted defend Ashwood's island base. Jerry Calhoun is racing by airplane after the members of the gang who have captured his wife; also kidnaped by Ashwood. A detective, Stevens, is with him.

Chapter 34  
 "SHOOT A HER PROPELLER"  
 The other three separated, two of them dodging behind one tree after another until they had worked their way as close to the house as they dared. The fifth pulled a handkerchief out of his pocket and advanced boldly, waving the white bit of cloth.

"Par enough, Mueller," called Ashwood as the gangster reached easy halting distance.  
 "Come out on the porch, Limpy," yelled the lone man. "I want to talk to you."

"You hardly inspired me with confidence," retorted the other, "while you have a white flag in one hand and a gun in the other."  
 Mueller placed his automatic upon the ground at his feet. Ashwood limped out on the porch. Under his straightforward gaze, the man with the flag of truce shifted about uneasily.

"Limpy," he said at last, "we don't want to bump you off, but we want two-thirds of all the jack you got in the house. We'll take your word for how much you got."  
 "Aren't you flattering?" mocked the slender, white-haired man from his exposed position on the porch.  
 "Mueller, aren't you the man who persuaded the others to join Luce's mob?"

"What if I am?"  
 "Nothing of importance," replied Ashwood evenly, "except that I'm going to write your name on a bullet."  
 "What about the jack? Are you going to kick in? If you don't we'll charge the house and take it all."  
 "Charge if you like," retorted the cripple indifferently. "I'd advise you, Mueller, to remain behind a tree."

As sudden flush suffused the gangster's face. So quickly that the eye could scarcely follow his movements, he dropped the flag and scooped up the automatic.  
 Emory, crouched behind his table, felt his own gun kick back in his hand. He saw Mueller stand upright, rigid, a look of astonishment replacing the rage on his features. Standing still as a statue, the man dropped the gun, coughed and suddenly pitched forward, full length upon the sawgrass.

A gust of machine-gun bullets rattled against the sides of the house and knocked long splinters from the porch rail. Ashwood turned, calm and unharmed, and strode back into the living-room, where he took his place beside Emory.  
 "Much obliged, old thing," he said quietly. Then, turning toward the others, "They'll be coming, now. Don't let one of them slip past the house. We can't have an attack from the rear."  
 "How long now, Jerry?" asked the detective.

"Ten or fifteen minutes, at least. If that bird could get another fifty revolutions a minute out of his engine we'd never catch him!"  
 "I'll be wanting to poke this gun out of the window."  
 Jerry showed him a sliding panel in the non-shatterable glass windshield and warned him against firing through the shimmering art of the propeller. Then both lapsed into silence, their eyes fixed upon the regular blur of blackness which was slowly resolving itself into the distinguishable outline of an amphibian.

All sense of forward motion was long since gone. Draining steadily through the night skies with the utter blackness of the water ever beneath them both men in the cabin felt as though they had been flying for hours without getting anywhere. There were no islands directly below by which they might gauge speed or distance. The dark mass of the coast line rolled past their right wing like a treadmill.

A sudden stream of spitting fire shot from the rear of the amphibian's fuselage. Jerry's heart thumped, but finds it impossible to reduce some units of her navy below the present standard.

This information was broadcast to the entire world yesterday in a special message to Parliament, making it necessary for the powers to get their heads together in an effort to see what they can do to meet the demands of all the big powers.

It is difficult to arrange a reduction plan acceptable to all the nations by reason of the divergent needs of each individual nation. What would be acceptable to some powers would not meet the requirements of others, as revealed in the British answer to the Hoover program, and extended study of the problem is going to be necessary before armament reduction is definitely accomplished.

That a decision is not only desired but very necessary in view of the financial difficulties of the world is very evident, and it is generally hoped representatives of the powers will deal directly with Britain and try to reach an agreement.

Great Britain wants to do everything possible to promote adoption of the Hoover plan for armament

munities because no provision had been made for charity cases here.  
 Dr. McGeachy asserted the situation was heart-rending. He told of dangerous cases coming under his supervision, and said something should be done to provide a place for them. He touched upon the typhoid situation in this county, saying nine cases of fever had been reported in the county this year. He stressed the importance of inoculation and told of what the health department is doing to improve the situation.

The board took the proposal under advisement and a committee of three was instructed to report the results of their investigation at the next meeting.

The councilmen, taking cognizance of the several cases of typhoid reported in Pitt county, adopted a resolution offered by Alderman Boyd that the public take advantage of free inoculations offered through the Pitt County Department of Health and in that way contribute their bit to the success of the immunization campaign conducted by the department. The necessity of such action was declared particularly advisable in view of the increased number of cases of typhoid reported from virtually all sections of the state.

Matt Harter was granted permission to continue operation of his pool room, and Wiley Krcov, colored, was given permission to operate a billiard parlor now existing on Evans street. A similar request from Austin Harris was denied until more information could be obtained as to the location suggested.

The colored firemen were remitted \$25 license fee on a recent dance when it was revealed that they would have to go into their own pockets to make up part of the fee. The remitted fund will be applied to entertainment of the colored firemen of the state here in August. The firemen were given permission to stage three dances during the convention.

A page advertisement was purchased by the board in a good-will edition to be issued by The Daily Reflector in the near future. C. B. Rowlett informed the board of the information relative to Greenville and the county which the edition would contain and said thousands of copies would be sent to all sections of the county.

C. W. Hearne, chairman of a committee named to consider sanitary and meat inspections, recommended consolidation of the two departments, and the proposal was approved. Dr. Alex Viola will head the department and details of operation were to be worked out by the committee.

The insurance committee, at the suggestion of Alderman Warren, was instructed to investigate an insurance policy for protecting employees of the city in case of accident or death with power to act. Aldermen Hearne and Taft were asked to act on the committee during consideration of the proposal.

Alderman Hobgood suggested that filling stations be asked to close at 9 o'clock on Sunday morning to give employees a chance to attend Sunday school. The proposal was deferred until the next meeting and the old ordinance committee was asked to investigate the situation and report at the next meeting.

The board decided to set aside a flat sum of \$1,200 annually for volunteer firemen in the place of the usual payroll. Speaking for the firemen, George Clark said they were willing to accept any disposition the board made of the question and would remain loyal to

the cause, Alderman-Boyd highly commended the firemen and said their loyalty was deeply appreciated.

The board ordered an appropriation of \$80 to defray expenses of four firemen to the state firemen's convention to be held at Hamlet in the near future.

 Mrs. Charles H. Sabin, the Republican leader of the organization, said:

"Citizens' Roosevelt-for-President committees will be started in every state. We are going to make a concentrated drive for members in the South."

The women wet leaders, whose organization claims a million members with division in forty-two states, threshed out their views in an all-day meeting yesterday at the home of Mrs. Edward S. Moore in Roshyn, Lang Island. Of the fifty women present, twenty-nine were described as Republicans.

The vote, including proxies and mail ballots, stood 51 to 19 on the two paragraphs of the resolution dealing with the support of the presidential candidate. The committee, however, unanimously endorsed the Democratic repeal plank, urged support for congressional candidates committed to repeal and suggested that the members back congressional candidates of their own parties provided they favor repeal.

## ABOUT TOWN

Not many people were surprised to learn that Al Smith would support the Democratic party in the forthcoming presidential drive in spite of his disappointment at the Chicago convention.

The New Yorker and former nominee for president may have his faults but he hardly could go back on his party at a time when it is faced with the possibility of success.

He may not approve of some of the things done by the convention, especially when Roosevelt forces defeat his prospect of getting the nomination himself, but he has shown the world he is at least big enough to forgive and forget and turn his influence back into the channels of Democracy.

With him will come the influence of hundreds of great leaders in various parts of the country and that means nothing more or less than success for the Democrats in November.

Two people were killed in this highway division as result of automobile accidents during the month of June, according to records from the office of the highway patrol lieutenant.

The number is the same reported for the last three or four months, and if we can't improve the situation, it is gratifying to know that we are not going backwards.

While we have been holding our own, other communities have experienced constantly increased toll of death from highway accidents, and will continue to do so unless something is done to bring the public face to face with the danger of reckless driving.

The State Highway department has issued considerable information regarding safe and sane automobile driving the last several years, but little results have been achieved. People don't seem to be able to get it in their heads that they are as liable to be killed as anybody and so ahead recklessly exposing themselves to uncounted dangers day after day.

One noticeable thing about records of accidents is the fact that experienced and not inexperienced drivers are usually to blame. This is evidence of over-confidence and means disaster in automobile driving as well as in anything else.

It is time for the public to waken to the dangers confronting him along the highways and to observe every precaution to prevent permanent injury or loss of life.

Efforts to raise funds for the Westbrook swimming pool, should receive attention of the people provide a safe place of recreation avoid a safe place of recreation or the children of the community during the hot summer months.

Forty persons will be asked to contribute at least \$5 each to make the operation possible, and it was hoped others would contribute as much as they are able to and in that way do their bit by a form of liveness that is saving human life or the city each year.

## HOW DO THEY DO IT?

# YANKS DROP THIRD GAME TO DETROIT

By GAYLE TALBOT  
Associated Press Sports Writer  
The events of the next fortnight should tell pretty definitely how the land lies in the American League, whether the Yankees are to continue their headlong flight toward the championship or will be challenged by one or more of their rivals.

With Bill Dickey, their slugging catcher, on the suspended list, and Lefty Gomez pitching ragged ball for the first time this year, the Yanks find themselves short of two vital cogs. Too, they appear on the edge of that slump which every team, no matter how great, must expect sometime during the season. They dropped their third straight to Detroit yesterday in 10 innings, only the second time since the race began they have lost more than two in a row.

The second place Tigers put on a rousing finish to capture their opener with the leaders, 8 to 5. They jumped on Gomez, who appeared in a relief role, for three runs in the ninth to knot the score and then routed the Castilian in the tenth with three more. Jonathan Stone, Tiger outfielder, knocked in two runs in each of the big innings. Gomez, losing his third game against 14 victories, walked four batters in the fatal tenth. The win placed the Tigers within six and one-half games of the top.

The Washington Senators, who put up a hot fight for the top early in the season, fell into the second division when they were beaten by Cleveland, 3 to 2 and 4 to 3. Jack Russell and Mel Harder went the route for the Indians.

The third place Athletics could get no better than an even break with Chicago, losing the first, 13 to 2, when they were held to six hits by the coast rookie, Pete Dagnall, and winning the nightcap, 9 to 3, behind Rube Walberf. The St. Louis Browns broke a five-game losing streak by slugging three Boston pitchers for 17 hits and an 8 to 2 decision.

Pittsburgh's winning streak was stopped at six straight and its hold on the National league reduced to two and one-half games by the New York Giants, who profited by a pair of errors to win, 4 to 3. Heine Meine threw away his own game in the eighth when he heaved wildly past third on an attempted forceout. Wait Hoyt, pitching relief, held the Pirates helpless the last three innings.

## PIEDMONT IS OFF ON 6-CLUB RACE TODAY

Charlotte, July 8.—(AP)—The Piedmont league, minus two long-standing members, took a new lease on life today, started playing a new schedule and trying to make a six-club race as interesting as an eight-club pennant fight.

Under the new schedule, Durham, which would have played at Charlotte, was forced to jump from Asheville to Raleigh. Charlotte goes to Wilmington, and Winston-Salem, which was to have entertained Raleigh, goes to Greensboro.

High Point, taking a 12 to 9 licking from Greensboro, wound up in a tie with Wilmington for fourth or fifth place. Raleigh and Greensboro being tied for third. The Pointers had won two of their five starts in the second half pennant race.

Asheville lost less, or, to be more exact, nothing. The Tourists had lost all of their four starts, winding up their Piedmont career with an 8-3, 4-1 loss to Durham.

Their departure leaves Winston-Salem holding the bag at the foot of the standings ladder, the Twins having completed their comedown from the invincible club which for weeks defied all attempts to dislodge them from first place during the first half.

Charlotte yesterday ran its string of victories to five straight, four of them since he first half opened, with a 6 to 2 victory over the Twins, their league leadership, however, was reduced to a half game, the Bulls climbing to within easy striking distance by their double win. Raleigh, defeated Wilmington 7-3, remained tied with Greensboro in the next bracket, with 3 games won and two lost.

If you once have a taste of the New NuGrape, you always come back for more. It's just that sort of a flavor—a mysterious something, born of plump Concord grapes and sunshine. There is nothing anywhere near like it, with its bouquet of dew-ripened grapes, and its sparkling, dancing life—as of champagne.

Next to impossible to keep the New NuGrape on ice at home—the family sneaks in for "just another bottle," even when a case is purchased at a time. But since Nature and Science brewed it and brought it to its delightful state of appetizing perfection—you can drink as much as you please as often as you please.

There is no substitute for the New NuGrape. Accept none, for it would only mean disappointment. The genuine is sold everywhere for 5¢.

New York, July 8.—(AP)—Cotton futures opened steady, 2 to 7 points higher in response to reports of agreement at Lausanne and firmer cables, but met opposition owing to more favorable weather and pre-bureau liquidation.

Offerings were absorbed on set-backs of 5 to 6 points, and the market steadied up again on further covering of trade buying which came partly through houses with Liverpool and Continental connections. At the end of the first hour July was selling around 5.92 and December 6.21, or about 5 to 7 points net higher.

Reports from Lausanne made a favorable impression on sentiment here and in Liverpool, aid was mentioned as a probable factor in the buying for foreign account. Liverpool cables reported general buying in that market on the encouraging Lausanne news and said there was a fair demand for cotton cloth from India. The early trading here included some further evening up in preparation for the government acreage report at midday.

Chicago, July 8.—(AP)—Helped by an improved tone in the New York stock market, highest prices today in wheat came during the late transactions.

Extraordinary new rainfalls over parts of Kansas, 4 to 8 inches in some places, counted as a further bullish influence. The new rainfalls emphasized that the domestic wheat movement was far under last year's figures, primary receipts amounting today to less than a third of the total a year ago.

STOCK MARKET

By CLAUDE A. JAGGER  
(Associated Press Financial Editor)

New York, July 8.—(AP)—The stock market refused to be allotted out of its narrow trading range of the past three weeks today by the Franco-German agreement on reparations, although further stimulus was imparted to bonds.

Stock traders, imbued with deepened pessimism over the low state of corporate earnings, evidently felt that a settlement of the reparations question, vitally important as it may be over a period of time, could do little toward changing the immediate situation. The most encouraging aspect of the market was again its disinclination to break through its previous lows.

The list pushed up 1 to 2 points in the early dealings, but quickly relapsed under fresh selling pressure. Save for a few soft spots, however, the list failed to go under yesterday's close, and stiffened again by early afternoon. American Telephone was a soft spot, declining more than 2 points to a new low under 72, before recovering. First National Stores, Safeway Stores and Coca-Cola dropped 2 to 3, and Detroit Edison 6. Eastman and International Harvester sagged a point to new lows. Several of the leaders, including American Can, U. S. Steel, Consolidated Gas and Standard of New Jersey showed small fractional gains by early afternoon.

The market has fluctuated in an extremely narrow range during the past three weeks, as measured by the average, and some quarters in Wall Street appear determined to prevent the list from breaking through into new low ground in a way which would precipitate another wave of selling of bank loan collateral. With a period of extremely slim earnings at hand, however, and further paring of dividends confidently expected, buyers have remained extremely cautious, despite such hopeful signs as the reparations agreement, a better tone in commodities and completion of gold withdrawals. Some quarters, as a matter of fact, stubbornly remain extremely bearish.

International bankers said the reparations agreement should bring a check to the forced export of German goods, removing a source of pressure against prices, and should protect the large private credits to Germany, chiefly held by New York and London.

STATE MUST REDUCE EXPENSES THIS YEAR

Raleigh, July 8.—(AP)—The state of North Carolina must reduce its expenditures from the general fund \$3,600,000 this fiscal year under money spent last year if the budget is to be balanced, Henry Burke, assistant director of the budget, said today.

Gov. O. Max Gardner simultaneously announced that he would meet in joint session with the council of state and the advisory budget commission here Tuesday to discuss the state's fiscal condition, embracing all institutions, departments and the public schools.

It was understood here that another cut in salaries is impending for all state employees, in departments as well as institutions.

The cost of all departments and institutions last year, Burke said, was about \$5,300,000 and it is now estimated that allotments to them this year will be about \$4,300,000, a cut of \$1,000,000 imposed in addition to previous cuts of 30 per cent of the legislative appropriations of 1931.

This cut leaves \$2,600,000 which must be trimmed from some other source, probably the six months school fund if the state can find any means to get around special laws passed by the 1931 General Assembly providing that the school fund could not be cut.

WOULD TAX BEES

Burlington, July 8.—(AP)—The privilege and tax committee of the Board of Aldermen here is about to put its legal finger on bees.

Looking toward the possibility of deriving more revenue, the committee contemplates taxing bees and hives. But the bee industry is small and the committee has arrived at nothing except the point of contemplation.

the hull was located was to call for help from the Italian salvage vessel Ariglio II which left Brest for Cherbourg immediately.

One of the seven men who were saved told a story this morning which if it was accurate, indicated that some of the men on the ship might have been drowned quickly.

This man was on the deck when the Prometheus sank. There was a hissing noise which brought the captain up from below in a hurry, he said. Apparently the captain saw at a glance that his ship was in danger, for he ordered all hands below and all doors shut quickly.

"Four doors were kicked shut," said the sailor, "but there was another open to the officers' compartment. I saw one of the men try to close it but it jammed. Then the ship went out from under our feet and we were swept into the water. It looked to me as though the sea would go through that door with nothing to stop it."

RAP BRITISH NAVAL MOVE

(Continued from page one)

Britain, France and Italy would be expected to join in the parley.

The British program, one of the American critics said, was merely a renewal of a ten-year-old controversy in which the British had "sought by reducing the size of our ships to keep our navy in home waters."

"The British have naval bases all over the world," he explained, "and do not want large ships, but the United States, lacking these bases, is required to maintain large ships with a wide cruising radius."
