SEEK BIG SUM
FOR WATERWAY
WORK IN STATERivers Harbors Bill
Recommends Expenditure
of \$3,170,750 in
The Carolinas

Washington, April 9.—(AP)—Waterway improvements in North Carolina and South Carolina totaling \$3,170,750 are included in the Rivers and Harbors bill now before the House.

However, \$2,811,400 already has been allotted by the PWA to cover four of the projects.

Chief among the proposals for those states was one providing an eight foot channel on the Cape Fear river between Fayetteville and Wilmington at an estimated cost of \$1,520,000 of which \$1,120,000 in PWA funds already have been allotted.

The other major projects in the Carolinas was construction of the Charleston to Winyah Bay, S. C. waterway.

Other projects included: Construction of a channel from Pamlico Sound to Beaufort, N. C., at a cost of \$41,400, an amount already allotted by the PWA.

Improvement of the Roanoke Sound to Hatteras, N. C., at a cost of \$27,000.

Construction of the inland waterway from Beaufort to Jacksonville, N. C., and from New River to Jacksonville, N. C., at a cost of \$117,000. Improvement of Smith Creek near Wilmington at a cost of \$11,000.

Roanoke River
Is Expected To
Reach 39 Feet

Raleigh, N. C., April 9.—(AP)—A warning that the Roanoke River would reach a stage of 39 feet, eight feet out of its banks in the vicinity of Weldon by Thursday, was issued by Lee A. Denson, meteorologist of the United States Weather Bureau here.

The lower portion of the river around Williamston has been in flood stage for sometime, Denson said, but no report of damage has been received. Damage reports are usually received after the water begins to recede.

Denson also reported the lower portion of the Tar, Neuse and Cape Fear Rivers are in flood stage and the rise of the stream in the upper portions will prolong their condition. The waters have not reached the overflow stage in any portions.

BOARD TO HEAR
SCHOOL PLEAResolutions For Ninth
Month of School To
Be Considered This
Afternoon

A special meeting of the Board of Aldermen was scheduled for 5 o'clock this afternoon to consider resolutions from the Board of Trustees of City Schools for calling an election to vote a supplement for a nine months' school term.

The matter was called to the attention of the board in regular monthly session last Thursday evening by J. H. Rose, superintendent of the city school system, but action was deferred until appropriate resolutions could be prepared.

The resolutions were decided upon at the monthly meeting of the school board Thursday morning, but it was impossible to get them in proper form in time for the meeting of the aldermen that night.

Mr. Rose told the aldermen the extra month of school had been endorsed by Parent-Teacher organizations of the city as well as the Rotary and Kiwanis clubs and that it was a step in behalf of the children of the community and not to increase facilities of the various institutions.

He estimated the cost of operation of the extra month as between \$7,500 and \$7,000. The state supports the eight months' term.

Several other towns and cities of the state have voted supplements for a nine months' term and it was argued that Greenville should be among those giving its children the same advantages as the others.

After having several teeth removed, Ben Cantwell expects to be a big winner with the Braves this year. In 1933 he won twenty games, but last year his arm was sore and his victories were limited to five.

KIWANIS HEAD
HERE APRIL 11Paul McMillan of
Charleston, S. C., to
Attend Inter-City
Meeting Thursday

Plans had been completed here today for the appearance Thursday evening of Paul McMillan, of Charleston, S. C., governor of the Seventh Division of Kiwanis, who is scheduled to deliver the principal address at the Inter-City meeting scheduled for the local club at 6:30 o'clock.

D. C. Moore, Jr., secretary of the Greenville organization, said invitations had been extended to number of clubs to be present to hear the district governor, and all have accepted. Both Goldsboro and Wilmington have signified their intention of sending good delegations as well as Kinston and other points. Jacksonville, described as the "baby club" of the district, will also be represented.

Governor McMillan notified Judge Dink James, president of the local club and also divisional lieutenant-governor, that he planned to come to Greenville during his visit to the district meeting at Raleigh, and since that time plans have been under way here for his entertainment.

The regular meeting of the club was moved up one day because of the visit of the governor, and all members have been notified to note the change in date.

The subject of Mr. McMillan's address has not been determined, but he is expected to speak on the work of the international organization and deal particularly with what is being accomplished by clubs of the division.

Rochester, which sold Johnny Mize first baseman, to Cincinnati, has signed another youngster for a trial at that post. He is Arnold Anderson, who hit .352 in the Middle Atlantic League last year.

THE NATIONAL WHIRLIGIG

News Behind The News.

Washington
By GEORGE DURNON

TRAP: Senatorial critics of the National Recovery Administration have hit upon a new strategy to kill off the sorely beset coding agency.

They propose, simply an extension of NRA for another year in its present form. This, it is urged, would do away with most of the impending Congressional fight over modification of the administration act and extension for two years.

On its face the idea is guileless enough. NRA dies on June 16 and President Roosevelt was its creator. But there is plenty of TNT concealed under the opposition suggestion.

Many of our national legislators are out to hamstring completely the already crippled Blue Eagle. They have decided any changes in the original act would defeat their efforts.

SMASH: Here's why Court rulings against constitutionality of NRA have become almost chronic of late. Many more cases are pending.

BODY FAVORS
NINTH MONTH
FOR SCHOOLSHigh School Parent-
Teachers Unani-
mously Endorse
Movement

The proposal seeking a nine months' school term for Greenville was endorsed unanimously at the regular meeting of the Parent-Teachers' organization of the High School at the High School building last night.

Resolutions passed by the Board of Trustees of city schools calling on the Board of Aldermen to call an election to vote an assessment for the ninth month of school were to be presented to the city fathers in called meeting late this afternoon.

Action of the High School organization came in the wake of similar action by other Parent-Teachers' organizations of the city in addition to the Rotary and Kiwanis Clubs.

In addition to hearing considerable favorable sentiment in behalf of the extra month of school, the parent-teachers last night heard Dr. J. R. Potts, Vanceboro evangelist deliver an interesting talk on the subject, "Heroes and Heroines of Education." The talk was very illuminating and in keeping with the number of splendid messages delivered by Mr. Potts here the last several months.

Approximately 150 persons attended the meeting and were said to have been highly pleased with the movement to obtain a longer school year for Greenville. The action, it was stated, is taken in the interest of the children of the community and not for the purpose of improving the school system or increasing teachers' salaries.

Rev. J. A. Melver, pastor of Emmanuel Baptist Church, president of the organization, presided over the gathering.

RIVER BEGINS
FALLING HEREFlood Waters of Tar
River Reach Crest
Last Night; Falls Two
Inches Today

Tar River which has been on the rampage since the latter part of last week, started falling last night after reaching its crest at 14.5 feet, it was reported this morning by B. T. Clark, local weather observer.

Mr. Clark said the river had fallen to 14.1 when the reading was made this morning, and expected to be several inches lower by tomorrow morning.

Rain the last two days is not expected to cause continued rise of the river as at first reported, and in a short time now, barring further heavy rainfall in upper sections of the State, the river is expected to be normal.

With the flood waters falling, the search for the body of the youth drowned here last Friday was expected to be pushed with renewed vigor. Although grappling operations have been continued daily, they were handicapped greatly by the rushing flood waters.

Considerable low grounds were covered by the muddy waters, but no damage to livestock had been reported.

If there should be any modification of the original National Recovery Act all of the pending cases would become "moot"—which means the courts would throw them out and wait until new cases had been submitted on the basis of the new law.

If NRA is extended another year in its present form its foes believe that within those 12 months the courts will have held the entire structure to be unconstitutional.

BI-PARTISAN: Certain Senators are convinced that the efforts of the Roosevelt administration to have a new law written are destined primarily to delay final court action until the recovery agency has become so highly entangled in the nation's industrial structure that no court would dare invalidate it.

The Justice Department's withdrawal from a Supreme Court showdown on the Belcher lumber case is cited as proof of the administration strategy. If a new NRA law is written that fundamental suit would have to start from scratch again.

Sees Small Diversion
From Highway MoneyPREPARE FOR
CONCLAVE AT
STRESA, ITALY

Raleigh, N. C., April 9.—If the General Assembly diverts an addition to \$630,000 to \$790,000 a year from the highway fund to the general fund, it will be taking that amount from what otherwise would be spent on the unpaved country roads.

Chairman Capus M. Wainick of the State Highway and Public Works Commission said today, and not from what will be spent for the construction, since most of the construction will be done with Federal money.

"I do not think the General Assembly is going to let the counties and the sections with concrete and hard surfaced roads out-trade the counties that do not have as much paved mileage and here the secondary roads need attention," Wainick said.

For if this additional money is diverted from the highway fund to the general fund, it will have to come out of the maintenance fund for the secondary roads, since we cannot reduce the amount to match Federal funds for new construction. Hence it will be the people who live on the unpaved roads who will suffer by means of this diversion."

MRS. JACKSON
PASSES AWAY

Funeral Services to be Conducted From Late Home Tomorrow Afternoon

Mrs. N. W. Jackson, 58, died at her home on Seventh Street at 7 o'clock this morning following illness of two and a half years beginning with a stroke of paralysis. She suffered a second stroke Friday from which she failed to rally.

Funeral services will be conducted from the late home Wednesday afternoon at 3:30 o'clock by her pastor, Rev. Worth Wicker, rector of St. Paul's Episcopal Church. Burial will be made in Cherry Hill Cemetery.

Mrs. Jackson was born in Pitt County and before her marriage was Miss Ruby H. Boyd. She was married September 5, 1894, to N. W. Jackson and moved to Greenville from Vanceboro in 1900. She had been making her home here since that time.

She was a member of St. Paul's Episcopal Church. Although confined to her home for two and a half years, Mrs. Jackson bore her illness cheerfully and with Christian fortitude. She was a loving mother and devoted her attention mainly to her church and family.

She is survived by her husband and the following children: Mrs. L. C. Evans, Greenville; Mrs. W. K. Whitehurst, Elizabeth City; Mrs. Paul A. Scott, Greenville; W. Perrell Jackson, Greenville; Mrs. A. W. Simmons, Wilson; Mrs. B. E. Scarborough, Rutherford College. She is also survived by several grandchildren: Clifford Evans, Ella Francis Evans, Paul Alton and Jack Scott and Marjorie Jackson. Surviving also is one sister, Mrs. W. T. Gaskins, of Vanceboro.

The following will act as pallbearers: Active: Dr. A. D. Frank, J. C. Gaskins, J. P. Harrington, M. L. Turnage, David L. Turnage, J. Hicks Corey, L. B. Redditt and W. E. Moore, Jr.

Honorary: Dr. R. J. Slav, L. W. Scott, W. E. Moore, S. A. Haskins, H. C. Edwards, Frank Savage, S. T. White, J. G. Move, J. R. Move, E. G. Flanagan, Francis Bowen, W. C. FARMERS TO
RECEIVE LESS
PARITY MONEYFarm Adjustment
Payments For 1935
To be \$20,000,000
Less Than in 1934

Washington, April 9.—(AP)—A. A. officials estimated today they will pay out approximately \$550,000,000 to American farmers for taking part in the 1935 crop adjustment program. This is \$20,000,000 less than the payment for 1934.

At the same time the officials indicated there was a growing sentiment in the Agricultural Adjustment Administration to develop a new type of production control which would be based on regions rather than on crops.

Benefit and acreage payments made to farmers, are approaching the billion dollar mark. Reduced payments this year will come largely in the corn-hog and tobacco programs where restriction have been used.

Cotton farmers will receive more than they did last year, officials estimated. On the basis of present contracts, officials estimated \$126,906,000 will go into the southland as compared with \$115,000,000 for 1934.

PUSH PROBE OF
ROBBERY HEREExpected Arrest in
Salvage Company
Store Entrance Fails
To Materialize

Police continued their investigation today in the robbery of the Salvage Company, Evans Street Store, Sunday night, but up to the noon hour today no arrests had been reported.

Describing the robbery as an "inside job" yesterday, Chief of Police George Clark said he expected to make an arrest by tonight, but it was understood today that the clue he was working on at the time failed to bring results.

A considerable amount of clothing was taken by the thief or thieves who lifted a bar to the back door to gain entrance to the building. Although the stock was checked yesterday, it was impossible to determine the total loss. Several suits of clothing and other wearing apparel, however, were known to be missing.

The police head based his opinion that the robbery was an inside job on the way the building was entered. Fingerprints were taken at the door, but these failed to bring forth expected results in the investigation yesterday.

Although Mr. Clark was in Dur-dur today on official business, the investigation was being pushed forward here by other members of the department, and it was said something definite was expected shortly.

LEGISLATIVE
RAMBLINGS

By C. A. PAUL

The section of the revenue bill adopted by the House imposing a higher tax on chain gasoline filling stations and removed by the Senate Finance Committee, may be put back into the bill in the Senate in spite of the efforts of the gasoline companies to keep it out, a good many observers here believe today.

It is generally conceded that there has been a good deal of "trading" going on in the Senate over both the dividends tax section and the chain station tax section. The prevailing opinion is that the group opposed to the dividends tax section is in the majority and that it has gained some votes by agreeing to vote for the higher filling station tax section if some of those favoring the higher chain filling station tax would agree to vote to keep the dividends tax out of the revenue bill.

The chain filling station section now in the revenue bill is that adopted by the Joint Finance Committee before it was reported into the House and taxes the filling stations at a much lower rate than the Barker substitute section adopted by the House when proposed from the floor by Representative Oscar Barker of Durham. Barker estimates that his section will yield at least \$600,000 a year in revenue and

Late News Flashes

In The Legislature
Raleigh, April 9.—(AP)—The senate this afternoon debated the controversial three per cent sales tax after Senator Burroughs of Guilford offered an amendment to the biennial revenue bill to eliminate the entire article pertaining to the retail levy.

Without argument the income tax was adopted by the committee of the whole except for those sections which dealt with taxes on dividends on stocks. Proponents of the levy voted by the house would tax dividends from all stocks as normal income secured a temporary postponement of the study of the various sections which the proposal would affect.

The senate finance committee eliminated the house section.

The senate had shown unexpected speed in adopting the entire article of franchise taxes except those levied on domestic and foreign corporations. It had completed the rest of the tax bill except the new tax on chain filling stations.

In an unusual maneuver for the North Carolina legislature 26 senators, a majority, signed an amendment by which the floor based tax

Track Last Night

Wilson, N. C., April 9.—Railroad detectives and Wilson police today were baffled for clues to the identity of persons who abandoned a stolen automobile in the path of President Roosevelt's special train here last night.

Expressing belief that the automobile was not put on the tracks in a deliberate attempt to wreck the Presidential special, officers said their information seemed to definitely establish that two "young men" both white, were in the car and tried to turn around on the crossing. A tire blew out and the car struck on the tracks. As the train approached the men ran. A short time after the Presidential special crashed into the car here, a Florida special crashed into another automobile at Aycock crossing, in Wilson County. No details of the accident were received here, but it was understood nobody was hurt.

The club ladies have been working on the festival for quite a while now and when it is thrown open hundreds of people are expected to inspect the exhibits.

Cigarettes with an estimated value of \$100, reported taken from a Norfolk Southern freight car here last night, were recovered today by the local police department.

Chief of Police George Clark stated yesterday afternoon that the cigarettes were located a short distance from the city where they had been recovered by four negroes arrested Saturday in connection with two freight car robberies.

In the second robbery a considerable amount of rayon goods, belts and other things were taken from another Norfolk Southern train, but the major part of this was recovered next day.

The men being held to the robberies are Boston McNeal, Frank Austin, Eddie Barnes and Robert Betha.

Chief of Police George Clark said McNeal is actually charged with the theft of the cigarettes, and the others are held responsible for the second robbery.

The cigarettes were missed by the train crew at Marsden and Greenville was immediately notified. McNeal was taken off the train at Farmville.

McNeal, the police said, has been connected with the freight car racket for a number of years and served several terms on the roads for participating in robberies of this kind. In fact, he was said to have just completed a term on the roads when he was taken into custody on the new charge.

All four men were scheduled to be given preliminary hearing probably today or tomorrow. It was understood that each confessed to the charge shortly after being taken into custody.

Barnes, who was arrested in Wilson, was wounded in the thigh by a pistol bullet as officers chased him through the railroad yards there.

Art Exhibit Here 2
Days This Week

Plans had been completed today for the Community Fine Arts Festival to be given at the Woman's club, East Carolina Teachers' College and Sheppard Memorial Library Wednesday and Thursday, April 10th and 11th.

The festival is being sponsored by the Greenville Woman's Club, assisted by the Junior Woman's club and Pitt County Home Demonstration Women.

All exhibits of the festival, the detailed program issued this week indicated, will be hung in the Woman's club building except that of Mrs. Closs Hearne which is in the Sheppard Memorial library.

The Woman's club will be open to the public on Wednesday from 2 p. m. until 10:30 p. m. and on Thursday from 9:30 a. m. until 10:30 p. m. The library will observe its regular hours from 2 p. m. until 9 p. m.

Mr. J. H. B. Moore is chairman of the Community fine arts festival.

Exhibitors for the festival are: Miss Mary Tillery, Raleigh; Art Class of Meredith college; James A. McLean, Raleigh; pupils of Southern School of Creative Arts, Raleigh; Metropolitan Museum of Art, New York City; Macbeth, N. Y. The quarterly meeting of the executive board of the East Carolina Council of the Boy Scouts of the United States will be held in the directors room of State Bank building here this afternoon from 3 to 5 o'clock, it was announced this morning.

Representatives of the organization from Rocky Mount, Wilson and Greenville are expected to be in attendance.

Officers making up the board include W. K. Helms, president; F. E. Winslow, first vice president; O. F. Smith, second vice president; Ben P. Eagles, Jr., representative of the national council; Charles D. Easton, Jr., scout commissioner; E. T. Curtis, treasurer; John J. Shaw, scout executive, and Leon Keaton, Jr., assistant executive.

District chairman are Dr. O. H. Combs, Greenville; Rev. F. H. Craighead, Rocky Mount, and W. M. Wiggins, of Wilson.

Greenville members of the board are Joe Taft, chairman of the activity committee; K. T. Patrick, chairman of the civic service committee; F. C. Harding, chairman of court of honor; Rev. A. W. Fleischmann, chairman of the reading program, and D. H. Conley, chairman of rural scouting.

Would Lift Cotton Tax
Washington, April 9.—(AP)—Saying "the whole textile industry is facing bankruptcy," Henry P. Kendall, textile operator told the Senate NRA investigating committee today he had asked President Roosevelt in a special memorandum to lift the cotton processing tax from cotton mills.

In return from such action Kendall said it would be fair to sell the industry for a ten per cent wage increase.

John Cabel Breckinridge, of Kentucky, who became vice-president of the United States in 1891 at the age of 36, was the youngest man ever elected to the position.

As plans go forward for the spending of the work relief money it is to be hoped that no time will be lost in getting the program for the elimination of railroad crossings under way. Elimination of a large part of the 30,000 unprotected railroad crossings in this country would do much to cut down the accident tolls. There is one crossing in Pitt County where enough property has been destroyed to pay for the elimination of the crossing to say nothing of the fact that a dozen people have been killed at this crossing and many injured.

Every civic organization before which the matter of the nine months school term here has been presented has unanimously endorsed the movement. In view of this we feel that the city board will not hesitate to call the requested election on the matter and there is little doubt that vote will be favorable. For the small amount of money involved our city cannot afford not to adopt the nine months school term.

This is the month for listing taxes in North Carolina but just how much smaller the listing of personal property will be now than it would have been had the listing date been January 1 instead of April. Virginia lists taxes as of January 1 and our state as of April 1 and the result is that following the listing date in Virginia thousands of dollars worth of taxables find their way to Virginia before the listing date in this state with the result that neither states gets any taxes on it. The matter of changing the tax listing date is before the present General Assembly but whether that body will take favorable action on the matter is yet to be seen.

KEY: NRA foes hold up the gold clause decisions as examples of the type of edicts which might emanate from the courts if NRA becomes a revitalized part of the New Deal structure. Even if it is unconstitutional under a strict reading of the law, nothing can be done about it.

The fact, however, that the government did abandon its contest of the Becher lumber case indicates the New Dealers figured out the idea of making all pending legislation "proof" first.

So far, the White House has been able to drive body wanted legislation through Congress despite all opposition. The game has been getting increasingly tough. Final outcome of the NRA strap will be illuminating as to just who's in the saddle.

PARTNERS: New pressure is about to be applied to the drive to interest the public in buying "baby bonds"—those experimental securities being offered by the Treasury at figures within the reach of any investor.

When these modern-day versions of the War Savings Stamp first were offered Treasury officials made it clear they did NOT have to use the proceeds for Federal financing purposes. This was, and is, true. Uncle Sam doesn't have to fool around selling \$25 bonds to get his rent money.

But the first month's sales of baby bonds—\$38,000,000 worth—was disappointing. Between \$50,000,000 and \$100,000,000 had been expected. The real idea behind these bonds is to get a lot of hardworking people to invest in government securities. The more who do, the more others there will be who are apt to resent and resist extreme left-wing monetary proposals. Or so the New Dealers figure and they have arranged for a more high pressure selling campaign.

SNARLING: Huey Long yawns for Jim Farley's scalp. Georgia's Senator George would rejoice over Wallace's resignation. Pat Harrison harbors no affection for Madame Perkins. Scores of Congressional Democrats have their knives out for "Honest Harold" Ickes. Hull's internationalism has outraged gentlemen of the 100 per cent American variety on Capitol Hill. There have been mutterings about Cummings and Roper. Even Swanson and Dern have not gone unscathed.

This just about accounts for the New Deal cabinet. Criticism of its functioning is getting louder and bolder.

But up to the other day Kingfish Long was the only member of Congress to indulge in direct criticism of President Roosevelt. Huey was joined—ever so briefly—by Rep. Bertrand Snell of New York, minority leader of the House. Snell wasn't even able to complete his caustic remark about the President's recent vacation before he was shushed down—but observers counted it significant that finally a Republican had gotten up the gumption to toss direct bricks.

Legislative Ramblings

(Continued from page one)

may yield as much as \$1,000,000 a year. The section adopted by the Finance Committee and put back in the bill by the Senate Finance Committee will yield about \$300,000 a

year, according to committee estimates. This section was devised by a sub-committee of which Senator Carl L. Bailey, of Washington County, was chairman. He is expected to lead the fight for the retention of the committee section and to maintain that it will yield as much in the long run as the Barker-West

Virginia plan, as adopted by the House.

The gasoline and oil companies, however, are still waging a relentless fight against both the Barker section and the committee section since the adoption of either will increase their taxes. It is understood that they are suggesting a compromise that instead of either of these sections, the Assembly increase their regular license taxes as much as 25 per cent, or even as much as 50 per cent. It is not believed that this compromise will be accepted, however.

An effort will be made by Representative Gregg Cherry of Gaston County to get the bill ahead several others introduced several weeks ago providing for a State-wide textbook rental system out of the House Education Committee and before the House this week, he said here today. While some changes may be made in the committee he hopes that it will be reported out virtually as he introduced it. The bill would create a single State Textbook Commission which would have full power to select, adopt and let contracts for textbooks as well as have authority to set up the State-wide rental system and fix the rental charges for books for the various grades.

The enactment of a rental textbook bill offers about the only way by which this General Assembly can give the people of the State any relief, since it has already removed all local taxes for schools and other

State purposes." Representative Cherry said. "However, a rental textbook system would save the parents of school children from \$3,000,000 to \$4,000,000 a year, according to reliable estimates, compared to what they are now paying for school books. I think the General Assembly owes it to the parents of the State to set up this rental system and remove this heavy burden from their back and pocketbooks."

Representative Cherry points out that there are approximately 900,000 children enrolled in the public schools, and that if every child purchased all the books he or she should have, the total cost would be between \$6,000,000 and \$9,000,000 a year. He believes that a rental system can be set up that will provide every child with all the books needed at less than half the present cost, so that they can rent books that now cost from \$10 to \$25 a year each at a rental of from \$2 to not more than \$5 a year in the high school grades.

Bitter opposition to the rental plan is already developing from the textbook publishers and from some of the school forces. But the advocates of the rental plan believe they can put it over despite this opposition.

CERTIFICATE OF DISSOLUTION
State of North Carolina
Department of State
To All to Whom These Presents May Come—Greeting:

Whereas, It appears to my satisfaction, by duly authenticated record of the proceedings for the voluntary dissolution thereof by the

unanimous consent of all the stockholders, deposited in my office, that the Hooker-Meeks Hardware Company, Incorporated, a corporation of this State, whose principal office is situated at No. 323 Evans Street, in the town of Greenville, County of Pitt, State of North Carolina (E. T. Meeks being the agent therein and in charge thereof, upon whom process may be served), has complied with the requirements of Chapter 22, Consolidated Statutes, entitled "Corporations," preliminary to the issuing of this Certificate of Dissolution:

Now, Therefore, I, Stacey W. Wade, Secretary of State of the

State of North Carolina, do hereby certify that the said corporation did, on the 19th day of March, 1935, file in my office a duly executed and attested consent in writing to the dissolution of said corporation, executed by all the stockholders thereof, which said consent and the record of the proceedings aforesaid are now on file in my said office as provided by law.

In Testimony Whereof, I have hereto set my hand and affixed my official seal at Raleigh, this 19th day of March, 1935.

STACEY W. WADE,
Secretary of State.

The program offers variety in chorus, quartette, and solo numbers interspersed with selections from the band and orchestra groups. The High School mixed chorus of forty voices, has been asked this year to sing in Greensboro with a massed chorus of four hundred voices from the best schools in the state.

This concert offers to all the people of Greenville an excellent opportunity to enjoy an hour of the best musical entertainment, to help defray traveling expenses to the State contest in Greensboro, and to know what the high school boys and girls can do and are doing under the able direction of Miss Shindler and Mr. McDougle.

First Church of Christ, Scientist
"Unreality" was the subject of the Lesson-Sermon in all Churches and Societies of Christ, Scientist, on Sunday, April 7, 1935.

The Golden Text was from John 7:24. "Judge Ye according to the appearance, but judge righteous judgment."

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "In the beginning was the Word, and the Word was with God, and the Word was God. The same was in the beginning with God. All things were made by Him; and without Him was not anything made that was made." (John 1:1-3.)

The Lesson-Sermon also included the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "In the Gospel of John, it is declared that all things were made through the Word of God, 'and without Him the logos, or word, was not anything made that was made.' Whatever is valueless or baneful, He did not make; hence its unreality." (Page 525.)

Mrs. L. W. Redd Hostess
The George B. Singletary Chapter U. D. C. met at the home of Mrs. L. W. Redd Friday afternoon, April 5th. The Bessie Reid Bed Fund being the April project, received due consideration, and the treasurer was instructed to send the chapter's quota. This is a tubercular fund, and we are glad to report that owing to reduced charity rates, we are now able to keep two patients instead of one as formerly.

It was with keen regret that the chapter received the resignation of Mrs. Will Moore, the president. Mrs. J. L. Fleming graciously consented to fill the unexpired term. Tentative plans were made for Memorial day, which will be announced later. Mrs. Percy Wells will have charge of Flag Day, May 10th.

The Jefferson Davis Scholarship, a prize of two hundred dollars is open to high school seniors. It is hoped many will compete for this award. The scholarship is maintained at the University, State and East Carolina Teachers College.

The district meeting at Farmville was informally discussed at the social hour, during which the hostess served a most refreshing sweet course.

College Y. W. C. A.
In the series of Y. W. C. A. vespers services at the College conducted by representatives from the various colleges and university Y. W. C. A. in the State, the object has been to have the members of the local organization see what is being done in other places.

A deputy from Shaw University conducted the services last Sunday night, and the four young women who contributed to the services gave an excellent idea of what is being done for and by the Y. W. C. A. at that institution. The music was especially good. One young woman sang four solos, two classics, one from Bach and one from Beethoven and two spirituals. Her accompanist showed that she was an excellent musician.

One young woman had charge of the service, reading the Scripture lesson and making the introductory remarks and announcements. Another made an excellent talk on Christian fellowship pointing out the three ways by which this is obtained: by association with Christian people, through reading and studying the Bible, and by contact with God. The center of the movement should be the Church, she said, and it is the chief agency from which Christian Fellowship should radiate.

REVENUE BILL WILL PASS IN PRESENT FORM

Measure Expected to Go Through Senate Virtually as it Came From Committee

By J. C. BASKERVILLE
Reflector Bureau
Sir Walter Hotel

Raleigh, April 9.—The revenue bill will finally be passed by the senate in just about the same form as it came from the senate finance committee, it was agreed in legislative circles here today, despite the fact that the senate is expected to consume all of this week before finally passing the bill.

This means that the bill as finally passed will contain:

The 3 per cent sales tax with all exemptions removed, and extended to include charges made by hotels, cafes, restaurants and boarding houses.

The diversion of between \$630,000 and \$790,000 more from the highway to the general fund, in addition to the \$1,000,000 diversion approved by the house.

The increased tax on foreign and domestic corporations, which will amount to \$1.75 on each \$1,000 or capital surplus and undivided profits.

It is also expected that the bill as finally passed by the senate will not contain:

The provision adopted by the house but struck out by the senate finance committee which would tax all dividends from stock in domestic corporations as normal income and taxable under the income tax section of the bill.

The floor space feature of the chain store section, which the house struck out of the bill and which the senate finance committee put back in it.

The chain filling station section as adopted by the house and removed by the senate finance committee.

There are indications that a stiff fight will develop over the inclusion of boarding houses under the 3 per cent sales tax that an effort will be made to exclude them entirely from this tax, although the prevailing belief here now is that the tax will be imposed on the larger boarding houses in accordance with the new section applying to boarding houses.

adopted by the senate finance committee. Some think this section may be changed by the senate excluding a large number of boarding houses from the application of the sales tax.

An effort will be made by the lower sales taxes of "two percents" to reduce the sales tax to 2 per cent, it is agreed. But this effort is expected to fail, just as it failed in the house and later in the senate finance committee, largely because the "two percents" have nothing to offer with which to make up the difference of \$3,500,000 a year in revenue which would be lost as a result of the reduction of the sales tax to 2 per cent. Most of the alternate plans to get additional revenue have already been proposed and defeated either in the house or in the committee, with the result that it is conceded that the house would not agree to them even if the senate adopted them. Accordingly, the effort to reduce the sales tax rate to 2 per cent is expected to fail, even though it may take up one or two days time in the senate.

The section proposed by the finance committee to increase the amount to be diverted from the highway fund to 3 per cent of gross gasoline sales, which will make the amount diverted about \$1,790,000 a year instead of only \$1,000,000 as enacted by the house, is also expected to bring about a bitter fight in the senate. But the fact that the revenue bill and appropriations bill can-

not be brought anywhere near a balance without diverting this additional amount, is expected to prevail in the long run, especially since it is conceded that the senate will follow the lead of the committee and strike out the provision taxing dividends from domestic corporations, which removed from \$500,000 to \$800,000 a year of revenue from the bill. But those senators who are opposed to highway diversion in any form and who maintain that highway funds should be used for highway purposes only, are expected to put a fight-to-the-finish against this proposal.

RUSSELL MAY AND TY WAGNER SIGN-UP HERE

The first two players of the Greenville club of the Coastal Plain league were signed up at a meeting of the Board of Directors of the local club at the Williams Funeral home here last night.

They were Ty Wagner and Russell May, catcher and pitcher, respectively, of the championship Greenville club last season. Both were present and put their names on the dotted line.

Following announcement yesterday of the hiring of "Bo" Farley, former Greenville third sacker, as manager of this year's club, the player committee named by the board of directors at a recent meeting, will meet Farley in Wake Forest Wednesday where they will confer with the remainder of the prospective Duke Players expected to be added to the local roster this season.

It was said that fourteen capable players with good records to their credit would be on hand when the season swings open during the early part of June, and Greenville which got away to a late start in capturing a place in the championship series last season, is expected to be among the leaders immediately the season opens.

The signing of May and Wagner was received with considerable gratification by the board members last night in view of the important part which the two Duke stars played in winning the flag last year. May will again appear on the firing line for Duke this season, while Wagner will hold the post as captain and catcher.

May's fine pitching played a conspicuous part in capturing the pennant last season. In fact, he pitched the final game against the apparently indomitable Kinston club, giving Greenville the necessary win for the championship.

Wagner's heavy stick was an important factor in the series also. His long drives accounted for number of the Greenville runs in the final series as well as throughout the season when long drives meant runs. The names of the remainder of the men under consideration were not divulged today but it was said they have fine records back of them and that the process of elimination, or "weeding out" which for the past two years has caused Greenville to get away to a slow start, is expected to be done away with this year by lining up material with proven records behind them.

The player committee will hold a meeting here immediately following their return from Wake Forest to confer with the remainder of the prospective Duke players and it is possible that the list of most of the club will be made public at that time.

W. & M. Will Play Teachers On Wednesday

On Wednesday the Pirates of East Carolina Teachers College will play a double-header with the Norfolk Division of William and Mary College here. Crack Rogerson or Stowe will pitch for the Pirates. Ayers will complete the battery. There have been three games called off during the past week because of wet field and cold weather. There are four boys on the squad from Greenville: Bostie, shortstop; R. Hodges, first base; J. Hodges, third base; and Madrin, second base. The games will be played at the college field at 2 o'clock.

Tarboro Golfers Here Tomorrow For Tournament

It was announced today that the Greenville Country Club will be hosts to the Tarboro Country Club here tomorrow in the Gold Leaf Golf Association Tournament. Luncheon will be served at the club at 1 o'clock.

All local golfers were urged to attend the luncheon and take part in the tournament.

Late News Flashes

Continued from Page One

provision in the license levy on chain stores was eliminated. The senate then rejected the committee chain store graduated tax scale and put the higher levy voted by the house.

Rep. O'Berry of Wayne introduced a measure in the house to make kidnapping by force or through fraud a capital felony in the state and Rep. Tomlinson and Schoals of Meclintburg offered a new bill to require that all automobiles sold after January 1 be equipped with safety glass.

Rep. Douglass of Wake introduced a measure to amend the constitution if the voters approved so as to make terms of office of legislators, sheriffs and coroners four years instead of two.

The house passed a bill of Barnes of Wilson county, to permit Wilson commissioners to accept a site for a monument to World War veterans. The body also passed a bill by O'Berry of Wayne to amend the 1935 law on photographers.

Push Relief Work at Capital Washington, April 9.—(AP)—

A new decentralization of the PWA was forecast today by Sec. Ickes to speed new projects under the \$3,000,000 work relief program.

The objective in adopting a greater degree of home rule, Ickes said, was to accelerate spending and to coordinate public works with other portions of the program for putting 3,500,000 jobless men to work.

The PWA administrator discussed this phase of the giant program as the capital greeted President Roosevelt's return to push the work relief bill into action.

Mr. Roosevelt's arrival also was awaited by Congressional leaders worried over the legislative prospect of the administration social securities program.

Carrying sternly worded provision for taking away all excessive war earnings, the McSwain anti-war profit measure was passed by the House, 367 to 15, and sent to the Senate.

Just before passage the house by a vote of 205 to 183 voted to eliminate a section permitted to conscription of man power in war time.

The senate passed the house bill authorizing \$38,000,000 for construction of buildings and equipment at naval station on all coasts and in Hawaii and the Canal Zone.

The measure was recommended by Sec. Swanson and now goes to the White House.

New York Cotton

New York, April 9.—(AP)—Cotton futures opened steady three to five advance in response to higher Liverpool cables which was partly offset by foreign selling.

Trading was moderately active and orders seemed to be pretty evenly divided. At the end of the first half hour July was selling around 121 and December 1093 or four to six points net higher.

Demand tapered off after the closing of the market abroad and prices turned reactionary. July after selling up to 1121 eased off to 1115 with the market at midday quiet within a point or two either way of yesterday's closing quotations.

N. Y. Stock Market

New York, April 9.—(AP)—The stock market got back on its feet today after a slight tumble and once again began its slow but steady advance.

While there was no rush for the majority of equities a cheerful atmosphere seemed to prevail in the board rooms and now and then a new face appeared to watch the ticker tape.

The new swas without definite color.

Grains were narrowly irregular with realizing in corn proving a resisting force.

Cotton was in firm demand. Bonds a little more than held their own.

Foreign exchanges were quiet but mixed.

The closing stock tone was firm. Transfers were 730,000 shares.

HANG-OVER NO. 2—SPIRITUOUS DRINKS
Raw liquor actually sears the stomach linings, pickles the stomach. The system cannot function normally with such a condition. Hang-overs and other punishment follows. It is better to avoid this pickling by mixing the liquor with plenty of 7-Up, or using 7-Up on the side. Failing to do this, drink a glass or two of 7-Up the "morning after." The acid is neutralized—stomach is purified and nature restores harmony. 7-Up is not just another soda. There is no substitute for 7-Up. 7-Up sold wherever Bottled Drinks are sold. Order a case today from your grocer.
Next will be No. 3 Hang-Over—Over Smoking.

WE ASKED NEWSPAPER PEOPLE:

"IS THIS FACT
IMPORTANT TO YOU?"

"CAMELS ARE MADE FROM FINER, MORE EXPENSIVE TOBACCOS—TURKISH AND DOMESTIC—THAN ANY OTHER POPULAR BRAND."

(SIGNED) R.J. REYNOLDS TOBACCO COMPANY
WINSTON-SALEM, NORTH CAROLINA

VALUE! "Camels are made from costlier tobaccos. They're the real 'extra value' cigarette," says E. E. C. Pickwood, ace news-photographer, who often uses fast airplanes to get "front page pictures" for a great New York newspaper. "I'm loyal to Camels," Pickwood continues. "They taste so much richer and smoother—never frazzle your nerves. I have smoked Camels for years and I, too, would 'walk a mile for a Camel.'"

FLAVOR! "Camels have a great taste—rich and pleasing," says Herman J. Lamkin, linotype operator. "I've smoked them for many years. Camels don't ever affect my nerves."

SO MILD! Miss Margaret Nichols, woman reporter, says: "Camels have a mild flavor—delicate and pleasing—entirely different from any other cigarette. Camels taste better!"

ENERGY! An editor's experience: "Smoking Camels is the way to ease strain," says Ray Baker. "Camels bring back my 'pep,' and I can tackle the next big story with renewed energy!"

HEALTHY NERVES! Pat Robinson, sports writer, says: "I've been smoking Camels ever since they were put on the market—at least two packs a day. They never upset my nerves."
