EDGAR HOOVER MAKES ARREST PUBLIC ENEMY

Capture of Alvin Karpis Is Personally Handled by Chief

FACING CHARGES
OF KIDNAPING

Eight Federal Officers Accompany Gangster on Plane Trip to St. Paul

St. Paul, May 2.—(AP)—Alvin Karpis, the nation's public enemy number one who was captured last night in New Orleans, arrived at the municipal airport at 8:50 a. m. (CST) today and a few minutes later was whisked away by federal agents to the department of justice headquarters in the federal building.

The plane which brought Karpis here from the Louisiana city carried eight federal agents beside the long-sought leader of the gang who kidnapped William A. Hamm, Jr., St. Paul brewer, for \$100,000 ransom June 15, 1933 and then abducted Edward G. Bremer, St. Paul banker, for \$200,000 six months later.

At the Kansas City airport an attendant said Karpis was chained to his seat and was not permitted to leave the plane during a stop there.

Twenty St. Paul federal agents had awaited the arrival of Karpis and his guards at the St. Paul airport since 3 p. m.

It was presumed Karpis would be taken to the Ramsey county jail in St. Paul, where six others with whom he was indicted only 10 days ago for the Hamm kidnaping are being held.

J. Edgar Hoover, head of the department of justice personally supervised handling of the notorious outlaw.

The little St. Paul gunman and two companions surrendered without a shot in New Orleans last night to federal raiders in the first arrest ever made in person by Hoover.

Rev. J. J. Murray To Hold Services In City Next Week

Native North Carolinian to Conduct Series of Meetings at First Presbyterian Church

On Monday evening at 7:45 at the First Presbyterian church the series of special evangelistic services under the Rev. J. J. Murray, D. D., of the Lexington Presbyterian church, Lexington, Virginia will begin.

Dr. Murray has announced his theme as "The All-Sufficient Christ," which is also the subject for his first sermon to be given Monday night. It is expected that large and appreciative congregations will be on hand each night to hear the guest speaker. His messages are expected to have an especial appeal to the young people of the community.

Dr. Murray is a native North Carolinian and has spent most of his ministry in eastern North Carolina before going to the Lexington, Virginia church, which is now the third largest in the Synod of Virginia. In addition to his pastoral and executive duties, Dr. Murray has given much time to speaking before youth groups and various assemblies. The local church feels most fortunate in having secured his services for this week of special emphasis.

Sponsoring nights for the different groups within the local church have been announced as follows: Monday, the Session; Tuesday, the Diaconate; Wednesday, Circle One of the Auxiliary; Thursday, Circle Two of Auxiliary; Friday, Circle Three of Auxiliary; Sunday morning, May 10, the college classes and Sunday night, May 10, the young peoples' societies.

Special music will be given during the week by the choir, under the direction of A. E. Muehlberger, Choir Director and Dr. Claude M. Simpson, newly-elected organist of the local church.

Greenville Men Held On Federal Charges

Lewis H. Curry and Ellis Nassau Hatten, alias Ellis Nassau, both of this city, will be tried in the September term of Federal court at Washington, N. C., on charges of using the mails to defraud.

The two men, arrested by Deputy Marshal, B. F. Buck, yesterday, were given a hearing before Mrs. Anna Paul, United States commissioner, in Washington and ordered held under \$10,000 each. Bond was furnished for both.

TOWNSEND PLAN CALLED A 'RACKET' AMID BOOS

To the accompaniment of boos from a hostile crowd at Battle Creek, Mich., that interrupted a congressional investigation of the Townsend Old Age Pension Plan, Rep. Clare E. Hoffman, Republican of Michigan, declared the inquiry has proved the plan is a "racket." He is shown (standing in the foreground) questioning Mrs. Pearl Plough, secretary of the Kalamazoo Townsend club, shortly before the hearing adjourned. (Associated Press Photo)

RECORD GAINS IN PRODUCTION

Associated Press Index Reveals Increased Activity

New York, May 2.—(AP)—Industrial production during the past week advanced to a new top for the year at the highest level since June, 1930. The Associated Press index of industrial activity today was 87.2.

The latest figure compared with 85.8 in the previous week and 72.9 a year ago.

All components, save cotton manufacturing, registered gains. Steel mill activity continued to push into high ground for the year.

Car loadings were up on increased shipments of coal. Electric power production and residential building improved in the week. Cotton manufacturing slumped.

Attempt To Solve Fatal Beating Of Tennessee Matron

Police of Chattanooga, Tenn., Hunt "Nice Looking" Young Man in Death of Young Woman

Chattanooga, Tenn., May 2.—(AP)—Working on varying death statements, police hunted a "nice looking" young man today for the fatal beating of pretty Mrs. Ella Mae McConnell.

Detectives said the 23-year-old wife of a theatre manager and mother of twin babies, may have been the victim either of a maniac or a rejected suitor.

Mrs. McConnell, found beaten and slashed in her apartment just before the dinner hour Thursday, died yesterday after giving rambling and conflicting accounts of the attack.

Investigators hesitated to place much credence in any of her statements because of her semi-conscious condition.

McDonald In Spotlight Of Gubernatorial Race

Reflector Bureau, Raleigh, May 2.—Is Dr. Ralph W. McDonald of Winston-Salem going to continue to remain in the lead for the Democratic nomination for Governor, as at present, or is he going to have difficulty in holding on to what support he already has? Will he show even more strength than is now evident and win the nomination in the first primary, as his supporters are now predicting, or will he do well to stay in first place or even second from now until June 6? Or will the intensive organization work which both Clyde R. Hoey and Sandy Graham and their managers have been doing begin to take effect and show results soon and now down the lead which Dr. McDonald is now conceded to have in most sections of the state?

These questions are being heard more frequently and being discussed more here than any others, as a result of the tremendous lead Dr. McDonald is conceded to have in most of the eastern counties and in many of the Piedmont counties.

EXPECT HEAVY COTTON YIELD

Rains Banish Fears of Drought in Lone Star State

New Orleans, May 2.—(AP)—With rains banishing fears that Texas would be left at the post in this year's cotton crop appeared to be off to a good start.

While it was argued that anything could happen before the 11 cotton states come down the home stretch in August, heavy precipitation in Texas seemed definitely to have broken a widespread drought that threatened for a time to cut deeply in the Lone Star State's yield.

Prices, quick to respond to any potential increase in the crop, dropped back nearly \$2 a bale during the early part of this week although a surprise reversal of trend restored some 50 cents of this loss yesterday.

Crop experts pointed out that another favorable development was the excessive cold weather of the last winter. In some areas in the cotton states the low temperature wrought havoc with the boll weevil and other pests.

As the second week of selling of loan cotton drew to a close there was no indication of a letup in world demand. As fast as the cotton could be passed through the official channels it was being snapped up both here and abroad.

Forsyth Man Has Clear Majority in Five-County Poll

Copyright 1936, by The Daily Reflector and 25 Co-operating North Carolina Newspapers

More voters hitched their wagons to Dr. Ralph McDonald's ascending star as additional votes have been received in The Reflector five county poll of the gubernatorial race. More than 60 ballots have been received since the last published tabulation and McDonald's clear majority in the combined five county vote has increased from 18 to 35. According to today's tabulation Dr. McDonald has a clear majority in three of the five counties and is leading in Beaufort county, with Graham running a close second in that county with a two to one vote over Hoey who occupies third place in Beaufort. In Hyde county McDonald is leading Hoey by one vote with both candidates having a 6 to one vote over Graham in that county. Of the votes received since the last tabulation Hoey and McDonald broke even on the teachers' vote each receiving one vote from the women teachers. Hoey received another physician's vote making the count in that tabulation two for Hoey and one each for McDonald and Graham. McDonald continued to lead in the farm vote by receiving 14 to Hoey's 3 and Graham's 2 in the last batch of votes received.

Other recent votes received by the various candidates are as follows: McDonald received 3 votes from the unemployed, one each from a plasterer, a contractor, a retired merchant, a clerk, a salesman, a bookkeeper, a credit bureau investigator, an electrician; six from retail merchants, two from life insurance agents, one from a teacher and 7 from unclassified voters.

In addition to his three farmer votes Hoey received one each from a teacher, a physician, an unemployed person and 8 unclassified votes.

Graham in addition to his two farmer votes received two from merchants, one from a bookkeeper, one from a clerk, one from a hotel keeper and five from unclassified voters.

At the close of today's voting all the ballots received by the 25 newspapers co-operating in the statewide poll will be tabulated and on next Thursday the co-operating newspapers will simultaneously publish the first statewide tabulation of the standing of the four candidates in the 100 counties. In this immediate territory the returns on this statewide newspaper gubernatorial poll are available only through the columns of The Reflector.

Many of the questions now being asked will be answered in the forthcoming and subsequent statewide tabulations. Watch The Reflector for this first hand news on the political trend in this state as it applies to the gubernatorial race. Votes received by The Reflector up until this morning follow:

EFFORTS MADE TO SET RATES OUT OF COURT

Southern Bell Counsel Have Offered 'Minor' in Conference

DISCUSS ORDER
REDUCING RATES

Commission Said To Have Offered 'Minor Concessions' to Utility Company

Raleigh, May 2.—(AP)—Efforts were being made here shortly after noon between the Southern Bell Telephone and Telegraph company and the state utilities commission to compromise telephone rate reductions ordered some 16 months ago by the commission, authoritative sources said.

The rates ordered into effect January 1, 1935 would save 78,000 customers of the Southern Bell an estimated \$321,000 annually. Effectiveness of the rates was stayed by court order.

Official sources said the commission had offered some "minor concessions" to the Telephone company, rather than press their fight on rates through possible further lengthy court procedure was considering acceptance of most of the reductions.

Definite announcement this afternoon as to the compromise or decision to continue the fight was expected from the telephone counsel.

If an agreement is not reached today, Judge G. V. Cowper of Winston, said he would not be able to issue his order in the case before mid-July.

The concessions offered by the commission are understood, authoritatively, not to involve increases of more than 35 cents on any reductions. It was learned adjustments had been offering exchanges at Charlotte, Asheville, Washington, Raleigh and several other cities, but that lower rates in small towns would not be altered. None of the rates would go back to the present level.

Postpone Inquest Due To Condition Swansboro Youths

Three High School Boys Killed In Highway Accident; Others Are Seriously Hurt

Swansboro, N. C., May 2.—(AP)—An inquest into the death of three Swansboro high school baseball players was continued until next week when the jurors empaneled at 4:00 yesterday reconvened at 11:00 o'clock today. The postponement was necessitated because of inability of injured members of the party to attend the inquest at this time.

Howell Jones, 18, of Swansboro, and Grady C. Koriech, of Morehead City, driver of a loaded log truck that collided with the small truck in which the ball players were traveling to White Oak for a ball game are the most seriously injured, but their condition today was reported as satisfactory.

ONE OF INJURED BOYS HAS SISTERS IN CITY

Carlton Hattell, one of several Swansboro high school baseball players injured in a highway wreck yesterday afternoon in which three youths were killed, is a brother of Mrs. F. W. Heslep and Miss Lillian Hattell of this city.

Mrs. Heslep and Miss Hattell visited their brother last night, leaving here immediately after hearing of the accident.

While they reported the youth in a serious condition, they said he was not as critically injured as had first thought.

Pitt County Doctors Attend Annual Meet

A large delegation of Pitt county physicians will attend the annual convention of the State Medical Society, to be held in Asheville next Monday, Tuesday and Wednesday.

Dr. N. Thomas Ennett, Pitt county health officer, is chairman of the section of the society on public health and education. He left today for the convention.

Among those from this county who will attend the convention are Drs. K. B. Pace, W. M. B. Brown, T. M. Watson, F. B. Haar of Greenville, Dr. John Mewborn of Farmville, Dr. T. G. Basnight of Stokes and Dr. G. G. Dixon of Ayden.

Thirty-eight per cent of Kansas counties increased tax levies this year for relief purposes.

HAILE UNYIELDING IN WAR CRISIS

Rep. Zioncheck And Bride Run Afoul Tar Heel Law

Solon Overhauled In Brunswick County For Speeding

Challotte, N. C., May 2.—(AP)—Rep. Marion Zioncheck, whose fast-driving twice has brought him under charges, ran afoul of the law again today but was allowed to continue his honeymoon trip after being detained several hours. Sheriff J. A. Russ of Brunswick county overhauled the Washington congressman's roadster two and a half miles south of here on U. S. highway No. 17 this morning. He said the car was making 70 miles an hour.

Zioncheck and his bride of four days, a former PWA stenographer, were brought back here and detained at the sheriff's office while he communicated with Alexandria, Va., officers. Zioncheck failed to appear at Alexandria yesterday to answer charges of reckless driving and disorderly conduct and a capias was issued for him.

Advised that Alexandria did not care to have Zioncheck returned there, Sheriff Russ permitted him to continue on his way.

Peace Convention Open All Nations Suggested By U. S.

Plan to Be Offered for Consideration at All-American Peace Conference at Buenos Aires

Washington, May 2.—(AP)—Conclusion of a new neutrality convention opened to the signatures of all nations has been proposed by the United States government for consideration by the forthcoming All-American peace conference at Buenos Aires.

This was announced today by the State Department in a list of items which the United States recommended for consideration of the Inter-American parley summoned recently by President Roosevelt to perfect peace machinery in the western hemisphere.

THE NATIONAL WHIRLIGIG News Behind The News

By RAY TUCKER
PREDICTION: Don't be surprised if Harry Hopkins shakes up his relief personnel from top to bottom within the next few weeks. And the man who will be responsible for the overhauling is quiet Senator Frederick Van Nuys of Indiana.

The Senator recently returned to his home state to check reports that ex-Republican Wayne Cox—mentioned in "Whirligig" some months ago—was using his influence as WPA regional director to feather several political nests—his own and Gov. Paul McNutt's. The Senator obtained evidence which convinced him that WPA was a haven for budding and broken-down politicians. He relayed his

proof to Mr. Hopkins and Mr. Roosevelt and they didn't brush it aside as they have Rush Holt's charges of derelictions in West Virginia.

Coming from Senator Van Nuys, these charges are serious. He is a New Dealer, an anti-time-limiter and a man of restraint. He predicts privately that WPA, unless reorganized and reformed, will turn out to be a liability instead of an asset in November.

ATTACKS: The undercurrent concern over a revival of the religious issue in the 1936 campaign is more serious than most people realize. Strangely enough, it is the religious or semi-religious organizations

Ethiopian Delegate Says King of Kings May Establish Exile on French Riveira

Paris, May 2.—(AP)—The French foreign officer received a message today from Addis Ababa which reported that the palace of Emperor Haile Selassie had been pillaged.

The message from the Ethiopian capital declared that disorder and pillaging were reported in various parts of the city and French nationals had taken refuge in their legation.

French officials at Addis Ababa confirmed the departure of Emperor Haile Selassie with his family by special train, due to arrive at Djibouti tonight.

London, May 2.—(AP)—Sir Sidney Barton, British minister to Ethiopia advised his government today that Emperor Haile Selassie had left Addis Ababa by train for Djibouti, French Somaliland.

Sir Sidney declared in a wireless message that the Ethiopian capital is the scene of widespread disorder. The disturbances include shooting and looting the report to British officials from the minister asserted.

Paris, May 2.—(AP)—Wolde Mariam, Ethiopian delegate to the League of Nations, said today Emperor Haile Selassie might come to the French Riveira to establish his residence in exile. "I hope he comes to France but I do not know his plans," said Mariam, who is also Ethiopian minister to France. "I do not know what is going to happen."

First, "I want some official news," he added, explaining that he had been without official word from Addis Ababa for several days and that he had been unable to get his messages through to the Emperor.

The minister said the Negus has money deposited "in different parts of the world."

Official French sources believe that the Italians are willing for the Emperor to come to France, preferring that he stay out of British territory.

Dispatches to Rome reported the Italian northern army meanwhile had temporarily halted its advance on Addis Ababa as the fascist troops prepared to push forward in the wake of an advance guard.

Between the blackshirts and the gates of Addis Ababa was an undetermined number of Ethiopian defenders hastily summoned by Emperor Haile Selassie to make a last stand.

Two of Candidates Retire From Race For Pitt Solicitor

Eli Bloom and Hamner Hannah Withdraw From Campaign; Brown and Whedbee Remain

The race for solicitor of Pitt county Recorder's court today had been narrowed down to a two-sided campaign. Two of the four announced candidates having withdrawn their names from the field.

Eli Bloom, who was one of the first to announce his candidacy, today officially withdrew from the race, explaining that he had made other connections in the legal field which necessitated his retirement from the race. He said the nature of the new connections would be announced at a later date.

Hamner (Ham) Hannah, who announced only this week, announced his retirement from the race to devote more of his time to the law firm of which he is a member.

CIVIL WAR VETERAN WANTS TO VISIT OLD FARM IN BRONX

Asheville, N. C., May 2.—(AP)—Ninety-six-year-old L. P. Austin would like to visit the Bronx borough, New York City—to see how the old family farm site has changed.

The Union army veteran was reared on his father's 104-acre farm in what is now known as the Bronx, he says.

Many of our residents
continue to declare that they
wish the State Highway

put out by a flying rock.

Again we urge those who

which threaten to make next fall's
contest a counterpart of the 1928
Hoover-Smith squabble.
Several seemingly isolated man-
euvers foreshadow a politico-relig-
ious controversy. Some time ago
Catholic, Protestant and Jewish
leaders formed a national organi-
zation to combat the rising tide of
bigotry. Then Stanley High, former
dry apostle, heads a Good Neighbor
League which is obviously de-
signed to assist Mr. Roosevelt and
to stave off ministerial enmity as
revealed in various polls of the
clergy.

On the same day that Mr. High
announced the formation of his as-
sociation Washington learned of a
pseudo-Klan movement to defeat
FDR. It is headed by William H. An-
derson, former Anti-Saloon League
superintendent in New York who
served a Sing Sing term for em-
bezzlement. Some of his charges
against the administration person-
alities and policies are unprintable.
But they are endorsed by several
eminent clergymen whose imprima-
teur carries great weight among
numerous classes of voters.

JOB: Washington diplomats lifted
their eyebrows when Moscow
shifted Boris Skvinsky from the
Capital to the post of Ambassador
to Afghanistan. From 1922 on Mr.
Skvinsky had quietly nursed the
cause of Russian recognition and
his transfer at this time seemed
like an unwarranted demotion.

Although the diplomatic scene is
still misty, the fogs are clearing.
Turkey has organized the Moslem
nations of Iran, Iraq and Afghanis-
tan into an alliance for safeguard-
ing of their interests. It is supposed
anti-Italian and anti-German—
therefore pro-British. Though Mos-
cow recently negotiated a treaty
with France, it hopes to keep on
good terms with London against
the day of conflict with Japan.
British representatives in Asia
Minor—army officers, commercial
representatives, and some diplomats
—are notoriously anti-Soviet. So it
is Ambassador Skvinsky's unofficial
assignment to ally that suspicion
and to convince the local boys that
there's no reason why Moscow com-
munist and London capitalist
can't be a bunch of jolly good fel-
lows—for a while at least.

Chapter 10

DARK OUTLOOK

THE girl was following Mary up
the stair.
"Good night," Dirk said.
She turned beneath the old Ver-
ones lamp burning in its niche in
the wall.

"Good night. You'll tell Timothy?"
He promised again. Watched her
pass up the stair, melt into the shad-
ows at the top. Went out to tell Tim-
othy.

The girl looked about her in the
tower-room. Darkly paneled walls,
glowing in the soft light. An im-
mense bed, buxom as to mattress
and pillows, having a crimson
spread, a canopy and draped crim-
son curtains. There was the same
crimson silk at the windows, and
shading the night-lamp, and there
was a huge, secretary desk, a chest-

him all night. Rupert would know
nothing, would have to be told.
Dirk, determined that the telling
should come from him, wondered as
he dressed how he might protect
Hope in the narrative.

Rupert would most likely behold
himself as an honest man who had
been victimized in a moment of ir-
responsibility. It would require no
acquaintance with Hope's circus
connections to make him cast her off
—if he could. In any case, he could
make her life as intolerable as Tor-
robin would have done. Desperate
as her affairs may have been, Dirk
could not see that Hope had bettered
them by this solution. He knew Rup-
ert.

"I wish to heck she'd merely asked
him to let her stay awhile."
Of course she may have done this,
and Rupert's provision have been
that she marry him first. It may even
have been (though she had not said
so) that his own, smashing of Tor-
robin's nose had necessitated her flight.

Dirk listened at Hope's door as
he went down the hall. There was no
sound there, nor at Rupert's. At
breakfast he asked Timothy if Mrs.
Joris had rung.

"Neither Mr. nor Mrs. Joris, sir."
He ate his grapefruit slowly, man-
aged eggs and bacon, toast and mar-
malade, his eyes on the stair. He did

on-chest of drawers, a wardrobe
painted in a rich design of fruit, a
long mirror in a gilded frame.

The bed was smoothly turned for
the night, and a nightgown folded
on the pillow.

"Nora's Ma'am," explained Mary.
"Nora, the housemaid. And Jane's
slippers. They'll be too big, I'm
thinking," with a glance at the little
feet. "But the smallest among us.
And I brought you one of Mister
Dirk's robes. . . . Here is your bath
and dressing-room, Ma'am. And that
door leads to Mister Rupert's
room. I hope you sleep well. Here's
the bell. Perhaps you'll ring when
you want breakfast."

"Yes," said the girl. "I'll ring."
She stood waiting for Mary to go.
"Good night, Ma'am."

"Good night. Thank you."

The door closed, and the girl went
to it, and turned the key. There was
only a bolt on the door that led to
Rupert's room. It was a huge bolt,
and tight, but the girl's strong brown
young hands shot it into place. She
crossed the room then, and, pushing
the draperies aside, opened the casement-window.

Through a clearing in the trees
she could see the Hudson River,
flowing a dark gleam, just beyond
the castle wall. A boat moved slowly
along it, making a path of light. They
seemed very close.

Closer still, were the wet beech
leaves, the ivy wrapping the old
stone of the tower; the faint, bitter
smell of dahlias, and now and then
a small rustle in the blackness of
the trees—drowsy wings, or a
stealthy wind. It was the dark, se-
cret hour just before the dawn. Pres-
ently the light would come filtering
into the black cup of the night.

The girl turned from the window.
Slowly she undressed, put on the
nightgown, turned out the lamp, and
crept into the great bed.

DIRK, who had slept but sparsely,
awoke at nine with a dim con-
sciousness that it was Sunday, and
that something had happened. He
remembered last night and rose,
aware that reality was upon them
now, and a situation to be faced.
Rupert would not be about yet.
Rupert would be sleeping still the

treaty has aroused tremendous
concern for national safety among

The original 1903 treaty was a
typical "T. R." proposition. It gave

A careful reading of the private
copy, however, reveals that Uncle
Sam surrenders nothing but ver-
bal authority. The right to defend
the canal and to confiscate need-
ed property is preserved, but the
authority is couched in language
soothing to the patriotically mind-
ed Latins. Our only concession is
that natives and crews of passing
ships shall not buy chewing gum
from American concessionaries and
thereby deprive local merchants of
trade. It's dime instead of "dollar

diplomacy."

CREDULOUS: Topnotch diplo-
mats in the State Department are
worried over the apparent break-
down of our intelligence service
abroad. Uncle Sam might have
made several serious international
mistakes if he had acted on the ad-
vice and information carried in
diplomatic pouches.

Here are several world questions
on which Washington was misin-
formed at a time when correct data
was essential: (1) That Benito
Mussolini's conquest of Ethiopia
was a physical and military impos-
sibility. (2) That the League of
Nations and particularly England,
was prepared to take extreme
measures against Italy. (3) That
England would support France in
repulsing Hitler's invasion of the
Rhine. None of these predic-
tions has come true. But they
affected preliminary policy-making
at Washington and might have in-
volved the U. S. in difficulties
abroad.

Although they won't admit it,
our diplomats at Washington sus-
pect that their colleagues on for-
eign assignment still bank too
heavily on British informants and
not on their own legwork and
headwork. So Cordell Hull is on his
guard as never before.

New York
By JAMES McMULLIN
CURTAINS: Bill Green's an-
nouncement that the American
Federation of Labor is taking no
official position—as yet—in the po-
litical campaign reveals a new
phase in the struggle for control
of the labor movement between
John Lewis' industrial unionists
and the old guard craft unionists.
The Federation is traditionally
non-partisan in politics. It endorses
candidates of either party who
support its legislative demands.
This year Lewis, David Dubinsky
and George Berry jumped out
ahead of the parade by organizing
the Labor Non-Partisan League for
Roosevelt—thus taking the play-
away from the Federation's ac-
credited leaders. Green is now try-
ing rather belatedly to offset this move
and reassert his leadership by de-
claring the Federation's official in-
dependence. Eventually he and his
associates will climb on the Rose-
velt bandwagon—but they don't
want to let it appear that they
are being dragged aboard by the
Lewis faction.

There is also the angle—as we
have indicated before—that the
Labor Non-Partisan League for
Roosevelt is privately intended by
its sponsors to form a nucleus for
a labor third party movement to
develop in 1937 or later and the in-
with La Follette's Progressives and
other similar groups. Unless this
movement is headed off it means
curtains for the Federation old
guard leadership—as Green is well
aware.

CAUTION: Senator La Follette's
giving notice that he will try to
hammer down income tax exemp-
tions and soak the modest taxpayer
does not disturb New Yorkers. He
is supported by a few few observers
expect the move to make first base.
The Senate subcommittee is
moving cautiously in this tax busi-
ness. It is getting Treasury infor-
mation first—and members say this
information doesn't always tally

with the House bill. "It's a devil
of a job," a committee member is
reverted as saying. "I don't pretend
to know what this bill does to Am-
erican industry—we get conflicting
stories. I know that whatever we
do will be unpopular."
Able banking men say the move
can be delayed but cannot be stop-
ped.

WORSE: Administration approv-
al of Senator Tydings' trial balloon
resolution for Porto Rican indepen-
dence is a bow towards the Pan-
American conference. The inference
for Latin American consumption is
that the United States does not
wish to dominate any Latin people
against the latter's will. But this
doesn't mean that the Tydings
gesture will lead to action in the
near future.

American sugar interests favor
Porto Rican independence for pre-
cisely the same reason that they
backed Philippine independence.
Any move that lessens competition

from U. S. possessions is syrup to
them. These interests have a lot
of influence in Washington but
they will be too astute to do any
open lobbying for the Porto Rican
proposal. Ernest Gruening—pinkish
chief of Territorial Affairs under
Secretary Ickes—endorses the Ty-
dings resolution publicly, but for
different reasons.

Porto Rican conditions are ad-
mittedly bad. Local politicians play
on anti-American sentiment and
get away with it. The Gruening
management appears to financial
New York to have made matters
worse.

SAVES: Professional bears had
lots of fun playing the stock mar-
ket short right after President
Roosevelt's New York speech on
April 25. They did the same thing
when he spoke on April 13 and they
will probably repeat the perfor-
mance on similar occasions later. So
far they have made a tidy piece of
change by giving Roosevelt the
Hoover market treatment.

Meanwhile the Securities Ex-
change Commission and the Fed-
eral Reserve Board remain unflin-
g in their opposition. They pri-
vately regard the shakeout as
healthy. It puts the brakes on bull-
ish enthusiasm that was beginning
to over-reach all reasonable pros-
pects for business improvement
and thus chills speculative ardor
in general.

That's all to the good from the
viewpoint of these agencies as long
as it isn't carried to extremes. It
saves them the trouble of inter-
vening themselves to keep the specu-
lative situation under control.

BACKERS: One factor which is
hurting Alf Landon's candidacy be-
hind the scenes is that many Re-
publican leaders who are privately
defeatists for 1936 have attached
themselves to his cause.

These leaders are building for
1938 and 40—believing that this
year is lost no matter whom they
nominate or what they do. They
are therefore less concerned about
picking the best vote-getter at
Cleveland than about reshaping the
party to their control in later and
presumably more fruitful years.

This element wants to get rid of
the Borah influence in the party,
even at the cost of a serious tem-
porary split. They are therefore
prepared to make a last ditch fight
for Landon as the best means to
that end and are unconcerned
about the immediate consequences
of such a fight. The Kansan has
more backers of this type than you
might suspect—and they are using
him purely as a means to an end.

McDONALD IN SPOTLIGHT

JOHN TYROLVNBEBBIO JO

(Continued From Page One)

tion is working quietly and saying
as little as possible in order to keep
the McDonald confidence at its
highest peak, while they systemat-
ically go about the business of cut-
ting the props from under him.
The Hoey and Graham supporters
also maintain that the revelation
of the McDonald strength has only
served to make their friends and
workers redouble their efforts and
that from now a big change is go-
ing to take place. The Hoey and
Graham forces admit they are both
scared and worried, but only
enough to make them work harder
than ever and with more effective-
ness. They point out that an army
always fights hardest and most
fiercely when it is scared and has
its back against a wall and must
fight its way out or surrender. They
are convinced there will be neither
defeat nor surrender.

The fact that Hoey is conceded
to have more than twice the
strength of Graham at the present
time and that McDonald's strength
is admitted to be less than that of
his three opponents, is causing a
definite trend towards Hoey at the
present time, most observers agree.
This is proving greatly encouraging
to the Hoey managers and not so
encouraging to the Graham back-
ers, although the Graham strate-
gists are still ding-donging their
theme song, which is to the effect
that Graham is the only candidate
who can defeat McDonald in a
second primary, with the refrain
that if Hoey gets into a second
primary with McDonald that "The
Forsyth Man" will unmercifully
wallop Hoey. The Hoey forces an-
swer this line of argument with

the contention that in a second
primary the long-haired Shelby
orator could put up a much more
effective battle against the ex-col-
lege professor than could Graham.

OTHERS CLAIM GREATER ECONOMY—Fairbanks-Morse Proves it to You

SEE WHY THE Conservador CUTS ELECTRIC BILLS

The Conservador is a shell-lined inner door for storing most frequently used foods. It is located behind the main door. It prevents cold air from rushing out and warm air from rushing into the main compartment when the outer door is opened to get one of these oft-used items.

Check these 15 F-M features against any refrigerator

- Beauty and Maintenance
- Dulux Finish (Black Kish Plate)
- Finger-tip Hardware
- Conservador
- More usable storage space
- Economy
- Fairbanks-Morse Precision Manufacturing experience
- Safe, efficient conventional machine unit
- Slow speed—longer life—accessible for service
- Finest Cooling Unit
- Fast freezing—generous ice supply
- Removable Baskets—easy cleaning
- Quiet Operation
- Insulation
- Price

TOOK inside a dozen ordinary re-
frigerators and you see practically
the same things.

Then look inside the new Fairbanks-Morse. The very first thing that greets your eyes is visible proof of lower operating cost—the exclusive patented **CONSERVADOR**. As quick as a flash you will see exactly why the **CONSERVADOR** is the biggest money-saving feature ever put into a refrigerator.

More Usable Storage Space
Greater economy isn't all we can demonstrate. The **CONSERVADOR** also gives you more usable storage space. It puts the oft-used items up front where they are easy to reach... Keeps them from cluttering and crowding the main storage compartment.

Allen-Davis. Farmville, N. C., May 2.—A wedding of considerable interest in this State and in Tennessee, that of Miss Margaret Scarborough Davis and William Alexander Allen, Jr., was solemnized Wednesday evening at 7:30 o'clock in the Methodist church, in a ceremony of impressive beauty and dignity. Rev. C. B. Mashburn, Christian minister, officiated in the absence of the pastor, Rev. J. C. Wooten.

Ferns provided a lovely background of greenery for the all white altar decorations of lilies, snapdragons and narcissus, and myriads of cathedral candles in tall standards shed a soft radiance over the nuptial scene.

Organ music was rendered prior to the service by Mrs. R. M. Smith, of Mt. Airy, the program consisting of "Oh, Thou Sublime Sweet Evening Star," by Wagner, "Cantilene Nuptiale," by Dubois, and "My Heart At Thy Sweet Voice," by Saint-Saens. The Bridal Chorus from "Lohengrin" was used as the processional and Mendelssohn's Wedding March as the recessional. Goddard's "Berceuse" (Jocelyn), was softly rendered during the ceremony. Immediately preceding the entrance of the bride, James Bray, of Mt. Airy, tenor, sang "At Dawning," and after the ceremony rendered "O Perfect Love," as a benediction.

The bride entered with her father, who gave her in marriage.

Miss Janie Davis, sister of the bride, was maid of honor. The bridesmaids were Miss Dora Elliott, of Fuquay Springs and Miss Helen White, of Greenville.

Wyatt W. Allen, of Dixon Springs, Tenn., brother of the bridegroom, was best man, and the groomsmen were Dr. F. M. Davis, of Greenville, brother of the bride, and James R. Lang.

Ushers were "Buck" Atkinson, of Greenville, Marvin Lancaster, of Wilson, D. W. Hodges, of Kinston, and Irvin Morgan, Jr.

The bride, graceful and lovely, was beautifully gowned in white satin, fashioned along princess lines, pearl trimmed and with peacock train, and wore a Venetian lace rose point veil, a gift of her sister, Miss Janie Davis, and purchased by her in Venice. Her tiered bouquet was of brides roses and valley lilies, with a corsage center for traveling.

The maid of honor was gowned in white Chantilly lace and wore a white tulle halo. She carried an arm bouquet of white carnations, sweetpeas, and stocks, semi-showered.

The bridesmaids dresses were identical, being made of Chantilly lace, Louise Boulanger design, with net capes. They also wore tulle halos and Kelly green slippers, and carried arm bouquets of white mixed flowers tied with Kelly green ribbon.

The bride's mother, Mrs. F. M. Davis, wore an electric blue chiffon gown with shoulder bouquet of orchids. Miss Elizabeth Davis, sister, wore an ivory lace dress with a corsage of pink roses and valley lilies.

Mrs. Allen, a descendant of two of the pioneer families of Pitt and Wilson counties, and of much prominence in the State, is the youngest daughter of Mr. and Mrs. Francis Marion Davis. She received her education at Salem College, Winston-Salem, and East Carolina Teachers College, Greenville.

Mr. Allen is the son of William Alexander Allen, Sr., of Dixon Springs, Tenn., and the late Mrs. Allen. He attended the Staunton Academy in Virginia and the University of Tennessee, and is a member of the Phi Gamma Delta fraternity. He holds the position here of factory manager with the R. J. Reynolds Tobacco Company.

Following the ceremony the parents of the bride entertained at a formal reception at their home on Church street.

Mr. and Mrs. A. C. Monk greeted the guests upon arrival, and punch was served from an alcove near the entrance by Mr. and Mrs. R. O. Lang, Miss Eva Mae Turnage and Miss Mary Fria Rouse.

Mr. and Mrs. J. I. Morgan introduced the guests to the receiving line, which was formed in the west parlor, and composed of Mr. and Mrs. F. M. Davis, Mr. and Mrs. W. A. Allen, Rev. and Mrs. C. B. Mashburn, Miss Helen White and Dr. F. M. Davis, Miss Dora Elliott and James R. Lang, Miss Janie Davis, Mr. and Mrs. D. W. Hodges, Mr. and Mrs. W. Allen, Miss Carrie Wiggins, Irvin Morgan, Jr., Miss Elizabeth Leake, Greensboro, Bobbie Davis, Miss Elizabeth Davis, and James Bray, Mr. and Mrs. R. M. Smith.

Mr. and Mrs. B. O. Turnage directed the guests to the dining room, where Mr. and Mrs. J. T. Thorne received.

The Davis home was lovely with a profusion of flowers, the dining room being decorated exquisitely for the event. An Italian lace cover was used on the table centered with brides roses and snapdragons flanked by white candles burning in silver candelabra. This buffet decoration was a cleverly contrived miniature of the wedding party.

Miss Annie Perkins and Mrs. John B. Joyner served the green and white hors d'oeuvres from the table, and nuts, mints and decorated cakes were passed by Mrs. J. L. Walker.

Mrs. R. L. Smith, Miss Edna Foust Harris and Miss Mary Alice Beaman.

Mr. and Mrs. G. W. Davis directed the way to the gift room where Dr. and Mrs. P. E. Jones received.

Mr. and Mrs. J. Y. Monk presided over the register and Mr. and Mrs. T. C. Turnage said the farewells.

About three hundred friends called during the evening.

After the reception Mr. and Mrs. Allen left for a motor trip to Florida.

For traveling the bride wore a modish beige suit with a harmonizing fox collar and British brown accessories.

Upon their return Mr. and Mrs. Allen will be at home in Farmville.

Science Club Open House

The College Science Club, by having annual "Open House" for the public, scored a second success in their efforts to present, by exhibits of many kinds, experiments, demonstrations, with clear explanations, either on labels or by students, the practical, every day values of science and the scientific basis of commonplace products and familiar things in life.

Having two days instead of one, and a schedule for different groups, proved to be an excellent plan, as it scattered the crowd. People could see the exhibits better and take time to follow experiments. The exhibits of projects by the students showed accurate knowledge and presented in such forms that they could be understood by those inspecting them, and the explanations and demonstrations were so clearly given by the guides that even difficult processes seemed simple.

The students worked out their projects in connection with class work and the experiments were made in the laboratories, under the supervision of teachers in the Science Department, Dr. R. J. Slay, director of the department, and Misses Hunter, Cassidy, Mack and Wilson.

Miss Hunter was responsible largely for the extensive display of exhibits in the biology rooms and laboratory. Miss Mack for the others in biology. Dr. Slay for those in physics. Misses Mack and Cassidy for those in chemistry and astronomy, and Misses Wilson and Mack for those in hygiene and nature study.

Jimmy Carr, president of the Science Club, the sponsors of "Open House," and his staff of officers, George Willard, and Misses Blanche Pearson and Margaret Banke, and the 125 members of the club acting as guides and demonstrators, all worked untiringly to make the occasion a success.

Among the exhibits which have not been mentioned before and which attracted especial attention last night were these: the model of Greenville milk pasteurization plant, the artistic presentations of plant and animal tissues, the evolution of the thermometer from the crudest form to the delicate clinical thermometer, the miniature models of motors at work, the tricks in chemistry at the "Chemical Magic" table, the mechanical man with the blood moving through the circulatory system, the analyses of various cosmetics, and of patent medicines, the classified fruits and vegetables, and food charts, the bird houses and charts, wild flowers, the turning of a penny into a silver coin by playing was a pleasing trick. Another popular trick was the pouring of milk, wine and water from the same pitcher. The model of the water plant and the experiments showing the purification of water by such processes as distillation, aeration, chlorination, coagulation, and boiling, attracted much attention.

Punch and cakes were served to those who attended last night by a committee composed of Misses Jean Tate, Rachel Stone and Sudie Williamson. Miss Doris Mewbra was chairman of the large committee of guides and marshals. Wesley Bankston and Miss Henrietta Tucker form the publicity committee for the club.

Dr. MacBryde At College

"The Human Touch of Our Lord on Earth" was the subject of the second talk by Rev. Duncan D. MacBryde, college Y. W. C. A. quarterly speaker, at the vesper hour last night.

In showing that Christ came not only to teach but to touch, he gave seven different kinds of touch, healing, quieting, illuminating, reassuring, liberating, childhood and the healing touches.

"For every Robinson Crusoe," stated Mr. MacBryde, "you will find at least one good man Friday, for human beings cannot live alone."

Rev. Duncan M. Bride Talks Union Services

Noted Visiting Minister to Preach in City Sunday Night

At the union evening service tomorrow night sponsored by the congregations of the Presbyterian and Christian churches, the Rev. Duncan MacBryde of Union Seminary, Richmond, Virginia will preach.

Mr. MacBryde, who was recently awarded a scholarship from the seminary to study in Edinburgh, Scotland next year, was licensed and ordained as a minister of the Presbyterian Church last week by Fayetteville Presbytery. He is in Greenville as the quarterly speaker for the college Y. W. C. A. A large attendance from both congregations and of visitors is expected to hear his message. The service will be held in the First Presbyterian church at 3 p. m.

Scout Troop No. 30 Wins Baseball Game

Troop 30 of the Greenville Scouts scored a decisive victory over troop 21 of Washington by the score of 14-1. The game was played at 10 a. m. at the Third street stadium.

For the local Scouts A. B. Brace lead in hitting with 3 hits out of 4 trips to the bat. Nobles, Tyson and Hardy collected 2 singles each. Nobles batted pitching a 3-hit game, scored 3 runs, one of them a home. For Washington Kelly, after a bad start in the first frame, pitched a good game until he was relieved in the sixth by Holloman.

Score by innings: R H E
Troop 21 000 100 1 3 4
Troop 30 422 132 14 10 0
Said: Troop 30, Denton and Taylor.

Warns of Misleading Ways Get Govt. Jobs

Washington, D. C., May 2.—The United States Civil Service Commission has sent a notice to post offices, warning that misleading information is being given the public by representatives of some of the correspondence schools which sell "civil service" courses.

For a long time, the Commission has been receiving complaints from different parts of the country which indicate that opportunities for obtaining Federal employment have been greatly exaggerated.

It was made clear that no school has any connection whatever with the Civil Service Commission or with any other branch of the Government, and also that the Commission has no agents who solicit applications for civil service positions or who sell "civil service" courses.

No school can "guarantee" Government employment and none is given information regarding examinations, or any other information, which is not available to the general public. The Commission stated that it does not recommend any school, and explained that it is not necessary for anyone to take a course with a so-called civil service school in order to compete in a civil service examination.

A special point was made of the fact that information concerning examinations may be obtained at any time, without cost, from the Secretary of the Civil Service Board at any first- or second-class post office or from the Commission's office in Washington, D. C.

GREENIES GAIN NINTH VICTORY

Louis Gaylord Pitches Team to Wide Victory

The local baseball team scored a decisive win, behind the pitching of Louis Gaylord and Dubose Simpson, over New Bern yesterday. After getting off to a bad start by losing the first five games, the team got out of their slump and added yesterday to their string of victories a win over New Bern, 10 to 2.

Simpson, starting pitcher for the locals had too many hits and walks marked against him, so he was replaced by Louis Gaylord, star relief hurler for the team. Gaylord, at the close of the game had five strikeouts to his credit against four hits. Mitchell, pitching all the game for the visitors, had four strikeouts to his credit against twelve hits.

George Clark set the pace for the hitting of both teams by getting three singles out of four trips to the plate. He was followed by Laureates, Forbes, Pierce, and Gaylord with two hits each to their credit. Mitchell and Hand led New Bern by getting two hits each.

abated, but the whole man was restored to healthy relationships to his fellowmen and to God and freed from sickness-causing sins and attitudes.

Jesus healed the morally sick—those who had demons, or who had fallen into sin. He healed men as men, restoring their wholeness as persons, rather than healing just deaf ears or blind eyes. His conception of the wholeness of man included man's eternal and life-giving relations to the heavenly Father. So that when Jesus set out to heal men he began with a larger idea of the wholeness of man than that held by any physician, unless that physician has himself been persuaded that human life is primarily something derived from God and having its wholeness in relation to God.

We shall never succeed fully in the attainment of life and health for men, not even fully in any phase of their life, until we have made sound and whole the relationships of men and of society to God and the reactions of men and society to God.

Farmville H. D. Club

The Farmville H. D. Club met Monday afternoon with Mrs. Herman Baker. The club is preparing to build a club house in the near future. S. T. Lewis has given them a lot for the building and Bob Davis has contributed the roof. Jack Lewis has given the sills and A. C. Monk has given \$10 on the building fund. The club has made a quilt which has netted quite a bit. They'll soon be able to invite you to their club room. Miss Tabitha DeVisconti made an interesting talk on "Birds."

Washington Federation Meeting.

Mrs. J. H. B. Moore, Mrs. Chester Harris, Mrs. J. Brooks Tucker and the home agent attended the Washington County Federation meeting in Roper last Tuesday. Mrs. Moore made the principal address at this meeting.

Falkland H. D. Club

The Falkland Club met at the home of Mrs. H. C. Mayo Tuesday night. There were fourteen in attendance.

Council Meeting

Twenty-three women attended the called meeting of the council Wednesday afternoon at which time a program was prepared for the district meeting.

Farmville No. 2 Club

The sister club of Farmville met at the home of Mrs. B. F. Weaver Thursday afternoon. The May meeting will be held Thursday at the home of Mrs. L. W. Andrews.

Red Oak H. D. Club

There were 42 in attendance at the Red Oak meeting in the club building Friday afternoon.

Littlefield H. D. Club

Littlefield, the sister club of Winterville, met Friday afternoon with Mrs. F. McCoy Tripp.

4-H Encampment

Several home agents made a trip to White Lake last Sunday to check on the equipment there. The girls who are eligible to go to camp the week of June 8 will be very fortunate. The buildings, beds, bath houses, grounds and the water are all ideal for a 4-H camp.

District Meeting

The annual district meeting of Martin, Beaufort, Washington, Tyrrell and Pitt counties will be held in Robersonville Baptist Church on next Wednesday at 10 o'clock. A large attendance is expected.

Washington Trip

In a few days it will be time to go to Washington. Women from all parts of the world are planning for this meeting of the Farm Women of the World. Buses will leave Greenville early Sunday morning, May 31, and return June 3. It is necessary to know who is going by Saturday, May 9. Letters have been mailed to all club women giving details of the trip.

Club Schedule For Next Week

"AS RELIGION SEES IT"

By The Rev. Harold Stanley Stewart (Pastor, First Baptist Church Oak Park, Ill.)

Pastor Envisions New King of Physicists—Doctors of Future Will Seek to Heal Men Spiritually As Well as Physically, Minister Predicts

Conception of Disease

Up till now a man who has been sick has often gone from physician to physician and not been healed, and then has gone to some mental healer, some charlatan, some fakir and has been healed—unmistakably healed. What has happened? The physician has been working on the end-result of the man's disease. He has found a sick organ and he has patched away at that but has not somehow cured the man himself. The charlatan, on the other hand, as inspired a confidence, or worked a trick that has cured the man and the organ has gotten well in consequence.

In other words, we have regarded disease as something that belongs wholly to the body. But it does not belong wholly to the body; it belongs to the man. This idea was foreshadowed long ago by Socrates when he said, "Just as you ought not to attempt to cure eyes without head, or head without body, so you should not treat body without soul." And Hippocrates, moving in the same direction, said "In order to cure the human body, it is necessary to have a knowledge of the whole of things."

Healing Men

Here is the point: you cannot make a man well by making his leg well if his mind is sick. You cannot cure a man by making his leg and his mind well if he is subject to such pressures from his whole social environment that he is constantly endangered with nervous breakdown. We may be thankful that there is a movement among physicians to treat men and to seek to heal men rather than to treat and seek to heal merely diseases.

Therefore, we surround ourselves with physicians, with psychiatrists, with vocational directors, with adult educators and, I am ashamed to say, with astrologers and palm-

ists and phrenologists and all the unhealthy brood of fakirs, in order that we may keep whole and find our way. And when we have succeeded in reaching the age of sixty in soundness of body, death comes staring at us around the corner, ready to break up the patchwork we have devised in trying to devise a life.

Life's Complexity

For what is happening is this. We surround ourselves with a variety of instruments and agencies. We group ourselves into societies. We set up national defenses and work out economic orders and we devise and establish laws for the common good. And yet, with all this, life is a frail and threatened thing. Our social organizations are constantly on the verge of disruption. Wars hang over us with their ominous threat. Millions are always on the borderline of starvation and for the individual there is always the danger of failure, either in health or in morals or in the whole undertaking of life.
