UPPER BRANCH READY TACKLE BIG PROBLEMS

To Take Up Liquor, Tax, Appropriations and Security

LIQUOR DEBATE SET FOR TUESDAY

House Has Little To Do Pending Action of Senate on Controversial Measures

Raleigh, Feb. 15.—(AP)—North Carolina's assemblymen returned to the capital today to tackle liquor, tax, appropriations and social security bills.

The senate tomorrow will begin debate on the house local option liquor bill, which wet leaders in the upper chamber said would be passed by at least three votes.

The bill would set up a state board of control for county operated stores and would allow any county to hold a referendum on whether it wanted the stores.

Eighteen of the state's 100 counties now have liquor stores as a result of local legislation rushed through the 1935 legislature in its closing minutes.

The senate probably will start a debate Wednesday on the \$75,000,000 a year revenue bill which the house passed in record time last week.

Also before the senate is the record high \$145,000,000 appropriations bill which the house passed in four and one half minutes Friday night.

Christian Pastor Speaks On Theme 'Return To Faith'

Another Large Congregation Overflows Methodist Church at Joint Sunday Evening Service

"The Return to Faith" was the subject upon which the Rev. W. A. Ryan of the local Christian church spoke at the community union service held last night. The Rev. T. McM. Grant, Methodist church, presided while the Rev. R. C. Grady, Presbyterian church, read the scripture and led in prayer.

Congregational singing was under the direction of J. H. Rose, with an unexcelled quartet, composed of Miss Agnes Fullilove, Mrs. Dink James and Messrs. Tabor and Parkinson, singing Baines' "Incline Thine Ear" as a special offertory number.

Another large congregation overflowing into the Sunday School auditorium, was on hand for the service.

Pointing out that few were capable of taking the roads of intellectualism and culture, the speaker reminded the congregation that at least three very simple, and often overlooked ways, could be utilized by all people during this "age of doubt" which he held was no different from previous "ages of doubt," in an honest attempt to return to faith in God.

"The Road of Service. The main road, which leads back to the open gate of the throne-room of God. Every man can travel it—rich or poor, cultured or uncouth. When a man's hands are busy caring for humanity's needs, he doesn't have time for quibbling doubts. It was no accident that Jesus Himself went on with His acts of service and healing, when the disciples if we approached Him dubiously. If we would lose ourselves in unselfish, self-forgetful service we, too, would learn we were just doing what Jesus did.

"The Road of Human Personality. You can't study human beings without believing in God. Some without back of man is a source from which he draws. Somewhere back of man is an answer to man—his intelligence, his idealism, his progress.

"The Road of the Church—a highway into which all other roads merge. We misunderstand the church as an ecclesiastical organization. But I like this definition of the church, which another has given, as being nearer the truth: 'The church is a divine society that is the union of those who love in the interest of those who suffer.' The church as undertaken a great task—the building of the Kingdom of God on earth. It is going to take venturesome souls to make up its personnel. Any contemplation of the church turns one's thoughts back to God," the speaker concluded.

False Alarm Toledo, O. (AP)—Firemen, summoned to extinguish an automobile fire, were nonplussed when they drew abreast of J. Dunn in his eight-year-old model with a smoking oil stove on the seat beside him. He said it was cheaper than his new-fangled built-in car heaters.

GMC TIME CLOCK RINGS AGAIN

Time clocks, silent during the paralyzing six-week General Motors strike, ring again as these women workers go on duty at the Fisher Body plant at Cleveland. Operations were partially resumed at this plant a few days before 100,000 striking automobile employees were to return to their jobs over the country. (Associated Press Photo)

FRANCE WARNS ITALY DESIST AIDING REBELS

Prepared to Demand International Control of Support

BRITISH VESSELS FIRE ON PLANES

Big Guns Opened Up After Bombs Dropped Near Destroyers by Rebels

(By Associated Press) France, with warning words to Italy, is prepared to demand international control of foreign support for the Spanish Insurgents by February 28, authoritative sources said today.

Authoritative predictions that a Franco-British blockade of the Portuguese coast would be sought if Portugal remained adamant against supervision of its borders followed Premier Blum's declaration France can not accept continued violations of non-intervention.

Blum told Italian Ambassador Vittorio Cerruti that the landing of Italian forces near Malaga, Spain, was a flagrant violation of non-intervention and France will not tolerate "open invasion" of Spain.

Two British destroyers fired at an airplane, "believed to be a Spanish insurgent plane," official sources reported in London, when it tried to bomb them off the coast of Algeria.

The plane was said to have dropped six bombs near the destroyers, Havock and Gypsy, without damage to them. Official protests immediately were sent the Spanish insurgent headquarters at Salamanca, Spain, and at Palma, Mallorca.

Deputy Collector Internal Revenue To Come To City

Agent to Be Here March 9, 10 and 11 to Aid Taxpayers in Making Out Income Returns

A deputy collector of the Internal Revenue department will be in Greenville on March 9, 10 and 11 to assist taxpayers in preparing their income tax returns.

No charge will be made for this assistance.

Persons whose net income is \$1,000 or over or gross income is \$5,000 or over and single, or if married and not living with husband or wife, are required to file a return.

All married persons living with husband or wife whose net income is \$2,000 or over or whose gross income is \$5,000 or over are required to file a return.

Form 1040A should be used if the net income does not exceed \$5,000 and is derived chiefly from salaries and wages. Form 1040 should be used for net incomes of more than \$5,000, or net incomes regardless of amount derived from a profession or business, including farming, or from rents or sale of property. All returns must be filed in duplicate with the collector of Internal Revenue for the district in which a taxpayer resides or has his principal place of business. The deadline for filing returns is March 15.

A penalty of not more than \$10,000 or imprisonment for not more than one year, or both, is provided for willful failure to make returns on time. An additional fine to 25 per cent of the amount of the tax may be levied.

Legislature Is Expected To Adjourn By Mid-March

Reflector Bureau. Raleigh, Feb. 15.—With the legislature already two-thirds through its work within 33 legislative days and with indications that it may mold up and adjourn by not later than the middle of March—it can adjourn even earlier—many are wondering what has happened to speed things up.

To those who went through the 1931, 1933 and 1935 sessions, which lasted far into the spring and almost into summer, the speed and progress of the present session is almost astounding. They just can't figure it all out.

The biggest factor in the present burst of legislative speed, of course is that this general assembly has a bullish revenue market to deal with and has the prospect of a steadily increasing revenue yield to look forward to instead of a declining field, which was the case until 1935.

The result was that the finance committees could count on the present revenue bill yielding about \$6,000,000 more revenue during the next two years than it has during the past two, without increasing any of the taxes in it at all. In fact, present indications are that the surplus at the end of this fiscal year will be nearer \$6,000,000, than the \$3,000,000 estimated by Commissioner of Revenue A. J. Maxwell and the Budget Bureau.

PROPOSE VOTE RETIRE JUDGES

Amendment to Constitution Suggested By Sen. Burke

Washington, Feb. 15.—(AP)—A proposal for a constitutional amendment to compel retirement of federal judges at the age of 75 emerged today from the welter of the court reorganization controversy.

Senator Burke (D-Neb.), chief opponent of President Roosevelt's court program, said he would propose such an amendment.

"There can be no compromise," he asserted, "for the President's plan to increase the size of the Supreme court unless judges over 70 retire."

While the reorganization fight spilled over party lines at the capital, the court itself met in the marble hall for a brief session. It handed down only one decision.

The House began debate on the second of the session's major supply bills, a \$1,500,000,000 measure for the treasury and postoffice departments for the fiscal year beginning July 1.

Included in the proposed appropriation was \$750,000 for the establishment of trans-Atlantic air mail service beginning about November 1.

Court To Review Law Prohibiting AAA Tax Refunds

Justices Consent to Pass on Appeal of Alabama Firm in Efforts to Recover Levies

Washington, Feb. 15.—The Supreme court agreed today to review litigation over the law prohibiting refunds of invalidated AAA processing and floor stock taxes, unless proof is given the levies had not been shifted to the consumer.

The justices consented to pass on an appeal filed by the Anniston (Alabama) Manufacturing Co. in its efforts to recover \$270,000 paid the government. The company lost in the Fifth Circuit Court of Appeals.

The court agreed to review this controversy after minor opinion. It adjourned for two weeks, thereby delaying decisions on constitutionality of the Washington law establishing minimum wages for women and on whether the 1933 congressional resolution abrogating payment of obligations in gold applied to bullion as well as coin.

Hunter Bags Record Deer

Sterling, Colo. (AP)—J. C. Copesey, Sterling hunter, has been informed the deer he killed during the 1936 season in Colorado has a spread of antlers greater than any on record.

The information came to him in a letter from an organization known as "Records of North American Big Game," of New York.

Copesey's deer, killed near Pueblo, Colo., had antlers which measured 31 inches. Hunters estimated it weighed 225 pounds when killed.

PINKERTON PERPLEXED BY PROBE

Robert Pinkerton, youthful president of the Pinkerton National Detective Agency, seems perplexed at the Civil Liberties Committee when asked to turn over to the Senatorial investigators confidential reports. On advice of counsel, he refused to give the probes certain documents, or to reveal the names of his "secret operators" in the General Motors Corporation plants during the "sit-down" strike. Senate Group May Charge Pinkerton With Contempt

Both Houses of Congress Busy on Routine Matters

Washington, Feb. 15.—(AP)—A senate committee expects to vote early this week on whether to prefer charges of contempt against Robert Pinkerton, youthful head of the widely known detective agency.

Pinkerton refused to name operative who reported union activities during the General Motors strike.

The committee investigating violations of civil liberties said its exposure of more than 100 "labor spies" during the investigation of industrial operatives had helped to cripple such activities.

At least the firm is going out of business as a result of the inquiry, the committee said.

While labor leaders prepared to negotiate a new wage and hour contract between coal miners and operators, house members sought a solution of the coal industry's problems.

The ways and means committee considered the Vinson bill for federal regulation of the \$11,000,000,000 soft coal industry. The bill is based on a price fixing arrangement. The Supreme court invalidated the labor provisions of an earlier act.

On President Roosevelt's schedule for this week was a message to congress about farm tenancy and crop insurance. The message will submit the findings of the President's farm tenancy committee, headed by Secretary Wallace.

Both houses of congress handled routine affairs, but the debate over Mr. Roosevelt's court reorganization proposal continued before the public.

College At Louisburg To Hold Extra Term

Louisburg, February 15.—Students from Pitt County now enrolled at Louisburg College and others from this section who desire summer training in business subjects, farm and industrial mechanics and regular college credit courses will be interested in the announcement made this week that Louisburg College will hold its first summer session this year.

The summer school will be held as a result of the demand on the part of students now attending the College and also many other persons in this part of North Carolina who desire short term work in practical or cultural subjects that can be completed within a period of five or six weeks.

Criminal convictions in the Philippine Commonwealth dropped to 11 per 10,000 population in 1935, the lowest percentage in 32 years.

SEVEN ESCAPE HALIFAX FARM

Fate of Captain, Steward and Motorists from Whom Heavily Armed Desperadoes Commandeered Automobiles Unknown

Raleigh, Feb. 15.—(AP)—Seven heavily armed convicts including three serving terms for murder, escaped from Caledonia prison farm today and this afternoon the penal divisions reported they apparently had two prison officials and several other hostages as they wrecked a car near Essex.

The fate of Captain I. D. Hinton, in charge of personnel at Caledonia, and Steward W. L. Roberts, and of motorists from whom the escaping desperadoes took automobiles was unknown.

Capt. Bruce Poole of the Raleigh police telephoned from Rocky Mount the escapees transferred themselves and their hostages "10 or 11 persons in all" from the car wrecked between Louisburg and Spring Hope to another commandeer machine.

Earlier reports had it the convicts had split in two groups, one going South from Louisburg and the other North, but the Rocky Mount information indicated they had not split or had not got back together.

The escapees were announced as C. F. Yeager, sentenced to eight to 10 years in Union county in August, 1933, for breasting and entering.

Ralph Page, a life termer from Burke county sentenced in August, 1933, as an accessory before the fact in first degree murder.

Clark York, sentenced in July, 1934, to 45 years for bank robbery in Duplin and to 30 years for second degree murder in Surry.

Arthur Polk, serving 45 years and five to 10 years for bank robbery in Duplin.

Bill Payne, serving upward of 43 years for robbery and bank robbery convictions in Orange, Surry, Forsyth and Richmond counties.

Robert S. Smith, sentenced in Wayne in 1928 to six to nine years for robbery and in Halifax to 12 to 15 years for second degree murder.

Prison officials said the desperado men equipped in the stockade at Caledonia, forced them to lead them to the gun room and stocked up with weapons and ammunition.

Raleigh, Feb. 15.—(AP)—Four or more prisoners kidnaped a captain and steward at Caledonia prison farm in Halifax county this morning and escaped in the direction of the Virginia state line.

FLOOD WATERS NEARING GULF

Crests Are Reported 'Flattening Out' on Trip to Sea

New Orleans, Feb. 15.—(AP)—The Mississippi river's flood crests were reported "flattening out" today as they rolled closer to Vicksburg in its journey to the Gulf of Mexico.

The "flattening" process, Meteorologist J. T. Lindsey said, would slow the movement of the crests, but would not increase the strain of the main line levee system.

Lower valley dwellers from Cairo to New Orleans had new assurances from army engineers there was no cause for worry anywhere.

The situation for inhabitants of a 50 square mile area of inundated lowlands northeast of Vicksburg was not so encouraging and refugees continued to pour into camps provided by the Red Cross, federal and state agencies.

At Baton Rouge, Governor Rickard, Leche ordered levees on the Louisiana side of the river in Concordia parish patrolled by national guardsmen to relieve them of the weight of thousands of grazing cattle and hogs driven from lowland pastures by backwaters.

Drunkenness Charges Tried In City Court

Six of the seven defendants convicted in the regular Monday morning session of City court were tried on charges of public drunkenness. Two of the defendants were white men, the rest being Negroes.

Dick Sneed, Negro, was fined \$5 and costs upon conviction of failing to stop at a stop-light.

Maek Perkins, Oscar Carney, Tom Robinson and Joe Valentine, Negroes, and D. L. Smith and Joe Moore, white men, were convicted of drunkenness and each taxed with the costs.

Y. W. C. A. Conference Closes
The vesper services last night closed the three-day series of Y. W. C. A. services and conferences held at the College by Miss Mary Herring, of Raleigh, who was the guest quarterly speaker of the Y. W. C. A. for the winter quarter.

The life of Jesus and its relation to the lives of young people, especially those in College today, was the subject of her talk last night. The life of Jesus in its holiness cannot be reproduced, she said, but his spirit has been given to people. No matter how rushed he was, she stated, his life was always characterized with the utmost poise, for he knew how to spend each moment of his time. He understood and was wise in speaking with people and was always sufficient for every sacrifice. He went about doing good, she pointed out, always using every opportunity to express the love of God for his fellowmen.

Miss Herring compared the personalities of people with the lights from stained glass windows, each different but each perfect, set none could be more beautiful without the light of God glowing through them.

Her concluding thought was that God has given people all the necessary equipment for being good Christians but what they do with it remains with them.

Miss Catherine Cheek and Madeline Bakas sang a duet, "The Nearer the Sweeter."

The "Y" hut was the scene of a lovely supper party last night in honor of Miss Herring. This was sponsored by the Senior Cabinet members. A cold plate was served by the social committee, of which Miss Marie Dawson is the chairman. The guests were President and Mrs. Leon R. Meadows, the Y. W. C. A. faculty advisors, and Miss Emma L. Hooper, Miss Lois Orvis, Dr. E. L. Henderson, and the members of the Junior "Y" cabinet.

FOAM BATH REDUCES
Beauty baths play an important part in a good looks campaign. One of the most interesting is the foam bath which a New York Beauty expert gives to reduce weight. Air is forced into the water through a tube to make a mass of bubbles. These break against the skin, producing a gentle massage which is said to reduce weight.

Warm baths should never be extremely hot. Take them at a moderate temperature, and allow time to relax in the tub for a few minutes before you begin the scrubbing process. For that choose a good Turkish-toweling face-cloth and a soap selected for its benefit to the skin rather than its perfume. Scrub thoroughly and finish with a brisk toweling.

Baths for reducing weight are now given by beauty experts. Margaret Brumard gives a foam bath, in which air is forced through a tube into the water, making a mass of bubbles. These break against the skin and produce a gentle massage which is said to reduce weight.

Step into an empty tub and run the cold water until it covers the ankles, constantly moving the feet up and down to avoid shock. Bend down, scoop the water in your hands, splashing it over arms, legs, chest and back. Step out of the tub and give yourself a vigorous toweling until the flesh glistens.

Freshmen-Junior Dance
A good orchestra, a snappy stage show, five hundred hosts, hostesses and guests in the beautifully decorated Robert H. Wright auditorium, transformed into St. Valentine's court, made the annual Freshmen-Junior dance given on Saturday night the most brilliant social event of the winter.

Paul Jones' orchestra from Rocky Mount furnished the music. The stage show was made up of tap dancing and popular songs. James Smith and Fannie Cooper gave a soft shoe dance. "Sophistication," Miss Alice Allgood gave a tap dance and sang "Pennies from Heaven." Miss Josephine Wade sang "I've Got You Under My Skin" and "Blue Moon" and Miss Ethel Pidgeon sang "Good Night My Love."

The brilliant scene of the Court of St. Valentine greeted the guests as they entered. A canopy extending over the dance floor was formed by white streamers strung with red hearts and fastened to the gallery by red ribbons. At the entrance a bed of red tulips with green grass gave a garden effect of St. Valentine's court.

On the stage opposite the entrance was St. Valentine's mansion against a background of white with which was scattered red hearts. The orchestra was seated on a lower stage decorated in the same manner.

At the end of the stage show, the president of the Junior class, Miss Elizabeth Copeland, was presented a vase of lovely snapdragons by Oulton Britton, president of the Freshman class, who was master of ceremonies.

PEACE ACTION
The Greenville Council for Peace Action was organized in January, 1936, and since that date has worked consistently in Greenville and vicinity in behalf of a program for peace action. Open forums and informative discussions have been held, led by the staff of local citizens, and augmented by prominent leaders in the national peace programs. Believing that an essential step in the program for the preservation of peace is that of insuring the neutrality of our country, the following resolution was adopted at a meeting of the Council on February 13, 1937.

Be it resolved that the Greenville Council for Peace Action hereby favors:

1. A national defense policy based on defense of our soil from attack and not of our interest abroad; and, to this end, that a civilian board be appointed by the President to determine and define defense.

2. The easing of international economic tensions and the stabilization of currencies.

3. The enactment of stronger neutrality legislation, making it mandatory upon the President to forbid the shipment of arms and other munitions of war, the extension of loans and credits to any belligerent, and that the necessary limitations be placed upon the several billions of foreign funds invested in American securities.

4. International cooperation in the settlement of disputes by peace-

English Writer to Address University Faculty Society
Chapel Hill, Feb. 15.—Dr. E. C. Greedy, author, sociologist, and former consulting physicist in England and the United States, will address a meeting of the Faculty Society of the University of North Carolina at Chapel Hill, at 7:30 o'clock in Graham Memorial at the University.

The subject of Dr. Greedy's address will be "Towards a Psychological Analysis of Society," taken from his book which is now being published. A general discussion will follow his talk.

A graduate of the Imperial College in London, Dr. Greedy was a former member of the British Sociological Society and research professor at Lehigh University. He is the author of "Human Nature in Business."

Professor Predicts "Thimble Size Future Library Explains How"
Norman, Okla. (AP)—You may be able to store a 100,000-volume library in a small cabinet one of these days.

J. J. Hill, assistant librarian at the University of Oklahoma, says this can be brought about by micro-photography.

Books would still be printed, for a picture of each page would be taken. The developed and printed film would be projected on a small screen.

"Facsimiles of some of the greatest manuscripts ever written, costing thousands of dollars in copy now, could be made for three or four cents a foot," Hill explains.

He says about 1,000 pages could be photographed on a film bound into the size of an ordinary book.

All male residents of many Philippine provincial towns were conscripted without pay to save coconut trees and rice, corn and sugar crops from locust hordes.

PLAN EROSION FOR CHEROKEE

Project Would Be Undertaken for Flood Control

Reflector Bureau.
Raleigh, Feb. 15.—From Cherokee county in Western North Carolina to Cairo, Ill., at the junction of the Ohio and Mississippi rivers, is a long distance, yet activities of the federal government in the mountain country are of vital concern to the future safety of the flood-menaced city, according to James M. Gray, associate regional director of the Resettlement Administration.

The connection is seen by Mr. Gray in the fact that the headwaters of the Hiwassee river rise in Cherokee county. The Hiwassee empties into the Tennessee, which in turn empties into the Ohio.

Land use planning being carried on by the Resettlement Administration in Cherokee county, coupled with equally valuable forestry work and the work of the Tennessee Valley Authority, will affect directly the extent of future floods on the Ohio river, Mr. Gray said.

"Our land use planning specialists have been for some time making an intensive study of the entire county. Maps based on aerial photographs and careful ground work have been drawn, showing all streams, clear lands and forests. These maps also indicate the areas suitable for farm crops and the areas which should be devoted to forests, protected watersheds, reservoirs or artificial lakes for flood control.

"This planning job in Cherokee county is being carried on with the co-operation of the TVA. It is in this county that the TVA is constructing the Hiwassee dam which, I understand, is one of the largest concrete dams in the country planned primarily to impound water for flood control."

The land use division of the Resettlement Administration is "pointing the way" toward better use of "land resources throughout the nation," Mr. Gray said.

Chairman Refutes Charge That Bill Was "Railroaded"

Ward Declares That No "Pressure" Was Brought to Bear on Appropriations Measure

Reflector Bureau.
Raleigh, Feb. 15.—The appropriations bill was in no sense "railroaded" through the house when it was passed on all three readings at the night session Friday night of last week, it is being pointed out today by those who were present.

"For while it is true that the bill was passed virtually without any debate or discussion no 'pressure' was put on the bill and it is recalled that Chairman D. L. (Loyd) Ward of the appropriations committee, told the house members present that if there was a single member who wanted the bill to go over or who was not satisfied with it or who wanted the bill held over, he would not press for its passage. Since no opposition was voiced against the measure, the house proceeded to enact it in record time. Accordingly, Ward's friends here feel that those who have been intimating the bill rushed through at the Friday night session are doing both him and the entire membership of the house an injustice.

There are two principal reasons for the quick enactment of the appropriations bill by the house, causing for an appropriation of \$79,331,000 the first year of the biennium and of \$70,134,000 the second year, it is being pointed out.

The second reason for its quick enactment was that the revenue bill had already passed the house and the members knew that if the appropriations were increased any, that the revenue bill would also have to be increased and thus bring it back to the house for three more readings.

Ree Leaf
says
It's quicker because it's liquid...
Just take two teaspoonfuls of Capudine in a little water. Almost before you realize it the headache has eased away and you are comfortable again. Pleasant to take. No narcotics. Equally effective for neuritis and other pains due to functional causes.

ARE YOU Miserable?
MANY women suffering from headache, backache, nervousness, irritability, due to functional disturbances, should try that vegetable tonic favorably known for nearly 70 years as Dr. Pierce's Favorite Prescription. See this Mrs. I. N. Kemp of 417 N. Third St., Wilmington, N. C., who says: "Some years ago I became so nervous I was unable to sleep. I suffered from headaches and pains in my back, due to functional irregularities, had no appetite and felt so weak and tired-out I was scarcely able to perform my household duties. Dr. Pierce's Favorite Prescription made a remarkable difference in me. It felt like a new person was able to sleep and enjoy my meals. Buy now! New size, 10c. Liquid \$1 & \$1.50.

How's Your Health?

By Dr. Iago Goldston
HOW TO RUIN YOUR DIGESTION

Set yourself to the task with grim determination, for it isn't easy. The digestive tract is a gut for punishment. A little abuse now and then won't ruin it. But determined, persistent abuse eventually will make you into what the doctors call "an interesting case."

First then, favor the American dietary of meat and potatoes, pie and coffee. These make a mushy meal available everywhere. Avoid milk, eggs, fruits and vegetables. By reputation they are all foods for invalids. Don't stop to reason why, just don't take 'em. There will be time enough when you are an invalid.

Following such a diet, you will become demoralized and vitamin-starved. The resulting symptoms may range from porphria to night-blindness. But then that makes life interesting.

Follow no schedule or plan of eating. Be free and independent. Eat when you like (and just for spite sometimes even when you don't like). After all, why should a grown-up person be bound down by the needs of the digestive tract?

Eat often and drink between meals. The bedtime luncheon, taken preferably on the other side of midnight, and consisting of something reputedly hard to digest (greasy and heavily spiced tid-bits) will do much to help ruin your digestion.

And when your digestion begins to falter and complain, don't grow

Stomach Gas So Bad Seems To Hurt Heart
"The gas on my stomach was so bad I could not eat or sleep. Even my heart seemed to hurt. A friend suggested Adierka. The first dose I took brought me relief. Now I eat as I wish, sleep fine and never feel better."
—Mrs. Jas. Miller.

Adierka acts on BOTH upper and lower bowels while ordinary laxatives act on the lower bowel only. Adierka gives your system a thorough cleansing, bringing out old, poisonous matter that you would not believe was in your system and that has been causing gas pains, sour stomach, nervousness and headaches for months.

Dr. H. L. Shook, New York, reports: "In addition to intestinal cleansing, Adierka greatly reduces business and other anxieties. Give your bowels a REAL cleansing with Adierka and see how good you feel. Just one spoonful relieves GAS and stubborn constipation."

Here's How A Golf Ball Is Made

A Shot of liquid is injected into a small rubber center about the size of an overgrown marble. The liquid, which expands when warm, gives a golf ball life.

A Stretch pull of 250 yards of slack rubber band to 300 and the core is machine-wrapped after being frozen at 40 below zero for an hour.

Half Shells molded from a composition of Brazilian balata, pitch and latex encase the banded ball and are vulcanized under high pressure and heat. Molds imprint the surface grids.

Paint sprays from hooded guns as the big wheel revolves. The twirling fingers — three coats are "baked" 18 hours each at 80 to 100 degrees.

Dimples are painted on in various colors with trademark and "four some numbers" that help identify otherwise identical balls.

Punishment lies ahead for the finished product. Golf balls are subjected to tests for durability and distance.

N. C., and bounded on the North by W. H. Moyle and Sam Harder; on the East by Sam Harder, V. C. Chemical Company, (formerly the Teal land), and Dave Turner; and on the South by J. L. Speight and W. H. Moyle; and on the West by J. E. WEST LEADERS FACE BARRIER

High Point Must Meet Greensboro And Winston-Salem

Chapel Hill, N. C., Feb. 15.—High Point players, two observers this week, are it can rightfully claim a place in the State Class A finals with Greensboro's Eastern champion, E. R. Rankin, Secretary of the North Carolina High School Athletic Association, revealed today in his league tabulations.

The Panthers will come face-to-face with a rival of long standing Tuesday night when they play host to the runner-up Greensboro outfit. The Furniture City quint is looked for a second series with Winston-Salem at High Point Friday night. A Greensboro victory would likely necessitate a play-off between these two leaders for the Western Conference title. The Panthers must take both games to clinch first honors.

The situation in the West is strikingly different. Reynolds, May, a former Duke university baseball and basketball star, has successfully piloted Greenville in the first Western Class A championship since the A loop was organized back in 1935. His charges have gone on to win through a seven game Conference round.

The Grebles eked out a 23 to 21 decision over Durham's strong center artists Tuesday night to remove a doubt as to their superiority for the Western Conference. Greenville routed Raleigh, 1918 state champion 32 to 9, for its seventh win. Durham topped Rock, 32 to 18 in the lone court engagement.

The schedule this week follows: Feb. 16—Raleigh at Winston, Feb. 18—Greenville at Raleigh.

Greensboro pulled within a half game of High Point by beating Salisbury, 23 to 26, and Charlotte, 29 to 26. This week's Western point lists: Feb. 15—Salisbury at Charlotte and Greensboro at High Point, Feb. 19—Winston-Salem at High Point, Greensboro at Gastonia and Charlotte at Salisbury.

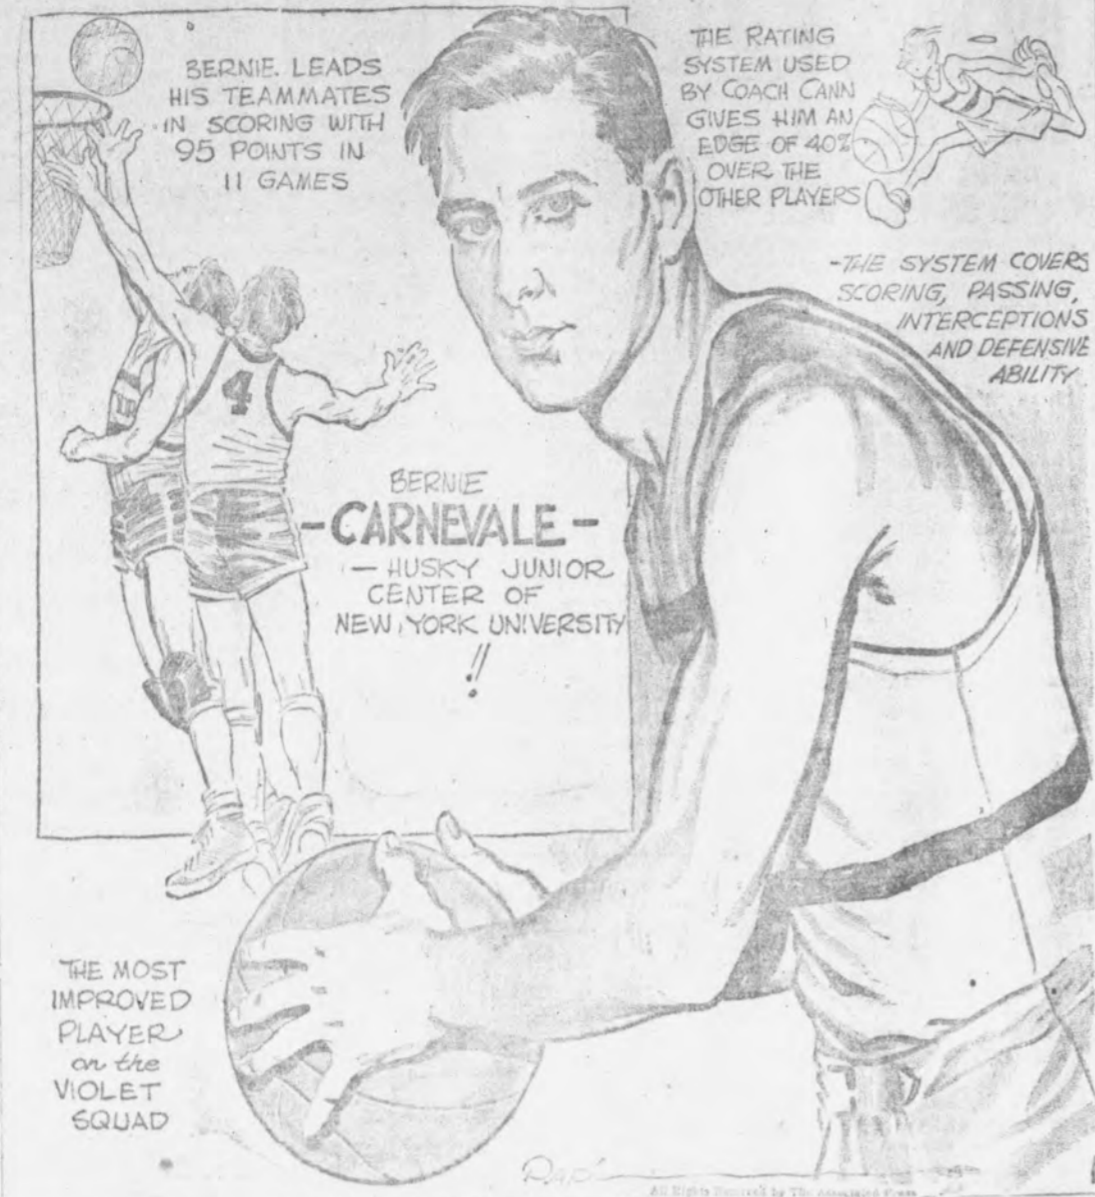

Dates have been set for the State Class A and B line games. The B winners will meet at Chapel Hill Tuesday night, March 2 and 3. A C game will meet on the following night here. Both games will start at 8 o'clock and will be played in the T. Can.

In the Class B competition, most of the District titles have already been determined.

The Class A standings follow:

Team	W	L	PTS
Greenville	7	0	1003
Durham	5	2	714
Rocky Mt.	4	4	500
Raleigh	6	4	673
Winston	9	4	800

SPORT SLANTS

Catch Howard Gunn of New York University has a unique system of rating players on his basketball squad.

Without any fanfare, Greenville has jumped to the front as No. 1 Violet point-guard. He tallied 83 in 11 games. The bulky junior is fast for his 6 foot 2 inches. He was stuck in all games when it was apparent that he could not stand the strain of continuous jumping and remain effective under the basket.

As forward, Terrence was twice as effective as was a second string player. Carnevale is effective in any spot.

Carnevale is the only member of the N. Y. U. squad from outside New York state. He hails from Raritan, N. J. He has developed tremendously since joining the squad two years ago.

Violets Improve

Return of Irvin White to the Violet squad should help. Last season White was an alternate and a very accurate shot. He was ineligible under this season but his skills are still there.

Coach Cain's team is not the power it has been, but it is far from a pushover. Aggressive and possessing the team spirit, it has improved and should do better as the season wears on.

Under Coach Cain, the Violets registered 143 victories against 61 defeats. 103 teams scored 6286 points while allowing their opponents 3401 points 1933-34.

Cain's 1933-34 team went thru the season undefeated, winning 16 games. The Violets carried that streak on into 1934-35 with triumphs in their first 11 to bring the string up to 27 straight victories, longest in Violet history.

Open Hearing Set Tuesday Morning On Election Law

Principal Consideration to Be Given Measure Embodying Committee Recommendations

Raleigh, Feb. 15.—All those people interested either in changing or not changing the state's present election laws will have a chance to present their views on the matter next Tuesday morning.

Senator Kelly E. Bennett, Bryson City, chairman of the election law committee, has announced that a public hearing will be held then, and that principal consideration will be given the measure recently introduced by Senator Hale of Bannockburn. These bills embody the changes in the election laws recently recommended by the Democratic state executive committee.

While most observers feel that the Administration backed and Democratic committee sponsored bills will go through with a minimum of change or amendment, they likewise believe that there will be more than a little wrangling with the committee. Certainly there will be if opponents of the measure let law try to make a showing. If possible, however, that they will realize the futility of making a cut and dried plan of action and will simply give up the struggle for the time, at least.

Perhaps the most sweeping proposal in the Johnston bills is that making mandatory a complete new registration in every county of the state. The absentee ballot provisions are not changed enough to make any material difference, but provisions surrounding the use of markers at the polls are to be tightened to a marked extent.

While most observers feel that the Administration backed and Democratic committee sponsored bills will go through with a minimum of change or amendment, they likewise believe that there will be more than a little wrangling with the committee.

Assets increased over \$5,000,000, the total amount now standing at \$67,632,246.

Capital, surplus, special reserves and contingency funds total \$4,200,000, representing an extra margin of safety and protection for the benefit of thousands of people who are insured in the Jefferson Standard.

More than \$10,000,000 went into high-class mortgage loans. Approximately 40% of our total admitted assets is in first mortgage loans.

Real estate holdings decreased more than \$850,000.

Policyholders and beneficiaries received \$6,310,155 in 1936.

More than ninety-three million dollars have been paid to policyholders and beneficiaries since organization in 1907. Our record in this respect is one of which we are especially proud.

Income from all sources totaled \$15,367,587, an increase of 10% over 1935.

25,000 policies were sold in 1936.

New life insurance sales totaled \$50,720,000, an increase of 1.2% over 1935. This gratifying increase, when added to the millions of insurance on our books, brings the amount of life insurance in force in the Jefferson Standard to the substantial total of \$348,000,000.

ROW RAGES ON HIGHWAY BILL

Both Diversion Backers and Foes Claim Victory

Reflector Bureau.
Raleigh, Feb. 15.—A controversy is still raging here between the anti-diversionists and the diversionists as to who succeeded in the fight in the house over diversion of a portion of the highway fund to the general fund.

Most of the anti-diversionists feel that they won a tactical victory in the compromise, even though they admit that the diversionists won out in retaining the privilege of diversion as much of the highway fund as may be needed to balance the budget, if the revenue from the general fund is not sufficient.

The diversionists, on the other hand, are confident that they are the ones who won the biggest victory in the compromise, since they point out that if the general fund actually needs it, the Governor can still divert up to \$2,000,000 a year from the highway fund for the first year of the biennium, although they agree that another general assembly will intervene before he could divert any at the end of the second year. For under the terms of the compromise amendment adopted, not a dollar of highway revenue can be diverted until the end of the fiscal year, and then only after every dollar of general fund revenue has been exhausted, including all of any possible surplus.

The anti-diversionists, however, maintain that they really won the victory, in that they defeated the plan which has been in effect for four years under which the general fund got \$1,000,000 a year from the highway fund each year, whether it was needed to balance the budget or not. They also maintain that the present revenue bill will provide enough to balance the general fund balance without any highway money, with the result that it is very likely no highway money will be needed at all by the general fund, or at best only a small amount. They maintain that while the diversionists may have saved their faces as a result of the compromise, that the highway fund protectors saved the money—which is what counts.

JEFFERSON STANDARD YEARLY REPORT IS ONE OF PROGRESS

The thirtieth annual meeting of the stockholders and directors of the Jefferson Standard Life Insurance Company of Greensboro, North Carolina, was held on January 25th. Reports from various department heads and other officials of the company were heard and then President Price presented a general report, which was hailed as indicative of splendid progress.

"I can say without reservation," President Julian Price stated at the annual meeting of the stockholders immediately preceding the session of the board of directors, "that as the company commences the celebration of its 30th anniversary it is in the best financial condition in its history."

"Our admitted assets show an increase of over \$5,000,000 for the year. We are glad to report another decrease in our real estate holdings. Our real estate account decreased \$850,000, representing an 11 percent decrease for the year. We have been very active in the mortgage loan field during the year, placing ten million dollars in first mortgages and we show an increase of approximately \$7,000,000 in our mortgage loan assets. The substantial decrease in our policy loans indicates a continued improvement in the financial status of our policyholders."

Total income of the company during the year was shown to be \$15,267,587, an increase of approximately 10 per cent over that of 1935.

"During the year 1936" President Price reported, "the company paid \$6,310,155 to policyholders and beneficiaries, making a grand total of \$93,660,805 paid since organization of the company in 1907. Between 65 and 70 percent of the huge sums that life insurance companies are paying to beneficiaries and policyholders goes to living policyholders who paid the premiums."

N. Y. Stock Market

New York, Feb. 15.—(AP)—The stock market lacked resistance today and yielded fractions to around three points under modest offerings. Brokers said declines were attributable in some measure to the Washington conference of Secretary Morgenthau and other monetary authorities designed to bring some regulation on the inflow of foreign capital.

Bonds were irregular, commodities mixed.

New York Cotton

New York, Feb. 15.—(AP)—Cotton futures opened steady, one point higher to four lower with low Liverpool cables partly offset by trade buying.

May futures between 12.44 and 12.46 and prices shortly after the first half hour showed gains of two points to declines of three points.

May sold up to 12.49 and prices at midday were two to three points net higher for old crop positions and two lower for new crops.

SEN. GRAVELY WIELDS POWER

Nash Man Regarded As Legislative Strong Man

Reflector Bureau.
Raleigh, Feb. 15.—As the session goes on here, Senator Lee L. Gravelly, of Rocky Mount, is being regarded more and more as one of the really "strong" men in the upper house. In fact there are a number of experienced observers who unhesitatingly pronounce him the ablest law maker among the fifty who compose the Senate.

In practically every important phase of the session "he" has been prominent and his influence has been widely exerted. On the Tobacco Compact bill his was one of the leading voices. In the joint appropriations committee he has taken a leading part in every decision. It was he who was chosen to explain in detail the Old Age Assistance measure, and he did his work so well that the bill passed by 45 to 1.

In the current liquor fight he is in the forefront and opponents of a statewide referendum freely concede they have drawn much of their strength through Senator Gravelly's efforts. His opponents admit they fear him as much as any man in the legislature.

Yet, withal he has not yet reached the project which is nearest his heart and with which he will be most closely connected. This is the proposal to appropriate something like a quarter million dollars for use by the department of conservation and development in advertising to the world the advantage and resources of North Carolina. It is predicted on all sides that he will see this through to enactment.

Senator Gravelly is serving his fourth term. In 1935 he was chairman of the appropriations committee and it was thought that he might be picked to head finance at this session, but in the primary for lieutenant governor he backed George McNeill while W. P. Horton was successful. As a result he was not assigned the most important post, but was named chairman of the committee on conservation and development.

SENATOR COMPLAINS OF LEGISLATIVE DELAY

Okla. City, Okla. (AP)—Senator Nat. Taylor of Strong City thinks there is too much legislative delay.

He arose the other day in the state senate and demanded of Al Nichols, president pro tempore, "Where is my resolution to make the red bud the official tree of Oklahoma? I introduced it several days ago."

Nichols consulted the journal clerk and reported: "It is in the agriculture committee of which you are chairman."

When fellow senators meeting, Taylor called a committee meeting.

Better Farm Year
Sacramento, Calif. (AP)—Gross income of California agricultural products will be about \$200,000,000, A. A. Brock, state director of agriculture estimates. Substantial increases have been shown every year since 1932, when gross income sank to \$172,148,000, Brock said.

Washington Daybook

By Preston Grover

Washington—Chief Justice Charles Evans Hughes can blush like a school girl.

He did it when suddenly he was put on the spot at the opening of arguments on constitutionality of the Wagner labor act.

Morris Ernst, Newspaper Guild attorney, arose with Solicitor General Stanley Reed as The Associated Press case opened and asked for 20 minutes of court time to be accorded the government.

Seemingly taken by surprise Hughes hesitated for several seconds, face reddening. A day or two before the President had intimated pointedly that Hughes and five other elderly justices should get off the court and out of the way of Wagner act and like measures.

Hughes finally remarked that a "very liberal" allowance of time, two hours and a half, had been made to the government and opposing counsel for their arguments. If the government wished to share its time with Mr. Ernst, the court would permit it.

It was a neat parry and put upon Senator Reed the job of telling Ernst, who stood beside him, that he couldn't have any of the government's time. There was some disappointment among those observers who thought Ernst, author of a recent book on the court and constitution and a liberalist crusader, might have done quite as well as government counsel.

Any street car motorman could run the senate subway cars connecting the office building and capitol under the plaza, but there is a stern additional requirement. Operators must know at sight all 96 senators. They have right of way on the cars.

When a senator gets aboard, the car must start—even if some humbler character has foot in air to climb on. But operators may keep the laity waiting while finishing a smoke at the end of the line.

Years ago some rascal with clipped out a picture of a near naked and paled in the wall of the press room in the treasury building. The place quickly grew into a gallery of such clipping, many made exceptionally tart by app headlines, posted alongside.

Recently the WPA came along with a cleanup project, scraped the walls free of "art" and painted them a billowy gray-green.

Marion's tray reporters were pretty upset by it. For long years the art display has discouraged visits by women reporters, since it removal, the masculine veteran's complaint, the "gals" reporters have drifted in freely.

FEAR IS FELT ON WORK BILL

Short Hour Advocates See Danger in 55-Hour Pact

Reflector Bureau.

Raleigh, Feb. 15.—Despite the fact that they approve the principle underlying the 55-hour week bill introduced by Representatives McBryde and Uzell recently, advocates of a shorter working week and day in North Carolina are a bit fearful that enactment of the measure may lead to a lengthening rather than a shortening of hours in such a key division as the textile industry.

They have studied statistics issued by the department of labor and have noticed that there are at present only 12 mills in the state out of 382 reporting to the department in which the work week is more than 50 hours.

On the other end, the statistics show that eighty per cent of all the textile mills are operating on the 40-hour week which was inaugurated under the Blue Eagle of NRA and its now discarded codes.

As they see the situation, enactment of a bill specifying that 55 hours shall be the North Carolina maximum work (there is now absolutely no roof, the sky being the limit) might be taken by industrialists to give them carte blanche to work their employees up to the very edge of the law. Thus, they fear, the measure might become a boomerang. It is reliably reported that the 55-hour bill was actually written by and with the consent of big industrial interests.

Talks To Parents

Tommy Told Lies

In a family of truthful people, Tommy stood out like a sore thumb. He seemed unable to tell the truth. At first his lies were evasions, an effort to get out of a tight situation. He would deny having stolen candy or gone to the movies because it saved him a scolding.

His mother reasoned with him, his father punished him. He was told that lying was wicked, that he would surely come to a bad end if he did not mend his ways. When these measures proved unavailing, Tommy was made a public example in the family. No one would believe him, and his parents made a show of doubting every statement the boy made.

"That is the only way to treat liars," they reasoned. "Tommy must learn how the world regards dishonesty."

Tommy gave up even trying to tell the truth. No one believed him, so he might as well give up the struggle. He was beaten from the outset.

mission, said Captain R. D. Hinton, in charge of personnel at the farm, and Steward W. L. Roberts were overpowered and taken by "the heavily armed" prisoners, who commandeered a state prison truck.

All telephone lines to the farm had been cut, Wayne said, and guard reinforcements were rushed from here and other points in case other trouble had developed at Caledonia.

The escapees, Wayne said, headed from the farm toward Halifax, then turned on route 561 toward the Virginia line "and its our theory they went on into Virginia."

The big prison farm is located on the Roanoke river in Northwestern North Carolina, only some 50 miles from Virginia.

Captain Charles Farmer of the highway patrol here notified Virginia patrol headquarters of the escapes and also put his men in the vicinity on the trail of the escapees.

Critics R-A-V-E

"YOU ONLY LIVE ONCE"

BECAUSE: "It shocks and moves you with its breath-taking excitement!" as Howard Barnes points out in the N. Y. Herald-Tribune.

BECAUSE: "It is paced at such brisk speed that its impact is breath-taking . . . so profoundly stirring, furiously exciting, unqualifiedly fine!" as Bland Johanson says in the N. Y. Daily Mirror, who adds: "You Shouldn't Miss It!"

BECAUSE: "One stirring sequence tumbles upon another . . . sinewy, well knit, undeniably exciting!" as Robert Garland maintains in the N. Y. American, who says, "A gilt-edged cast, if there ever was one!"

BECAUSE: "It is intense, absorbing, poignantly real . . . a brilliant compound of suspense and swift action!" as Frank S. Nugent exclaims in the N. Y. Times.

BECAUSE: "At the Rivoli it is holding audiences tense!" according to Eileen Creelman, N. Y. Sun, who adds, "Pictures Aren't Often as Good as This."

"I recommend 'You Only Live Once' to you because it is keen and adult melodrama, because of the superb performance that Sylvia Sidney contributes, because of the work offered by Henry Fonda, because of Lang's vigorous and vital direction!" says William Boehnel in the N. Y. World Telegram.
