DARING AMERICAN FLIER 'SNEAKS' ACROSS OCEAN

1938 PROGRAM FOR POTATOES IS ABANDONED Most Daring Attack By Air In Aviation History Waged By Japanese Naval Fliers

Not To Undertake Marketing Quotas For This Year

SEVERAL STATES VOTE DOWN PLAN

Declared not Feasible to Make Program Applicable in Some Areas; Not Others

Washington, July 18. — (AP) — The Agricultural Adjustment Administration announced today it would not undertake a marketing program designed to control interstate shipments of potatoes in 13 states because of lack of uniformity in the vote of growers who participated in the referendum.

The states, comprising eight early and intermediate producing areas, were Alabama, Arkansas, California, Florida, Georgia, Maryland, Mississippi, North and South Carolina, Texas and Virginia.

Lawrence Myers, marketing section chief, said the vote of 7,000 producers who participated was about 75 per cent in favor of the program, but that growers in California, Maryland and South Carolina voted unfavorably and in six other states the vote was less than two-thirds favorable.

He said it would not be feasible to make the program applicable in some areas and not in others.

Still Located In Belvoir Township

Two members of the Sheriff's office and two Pitt County ABC enforcement officers yesterday morning located and destroyed a 100-gallon capacity still in Belvoir township.

The plant, near the old Parker place, was in operation when the officers came upon it, but the men got away. The officers said the still was surrounded by a reed thicket and the operators heard them coming and fled.

About 25 gallons of whiskey was found about the still. Five hundred gallons of beer also was found.

Sixteen sticks of dynamite were used to destroy the still and equipment.

Officers taking part in the raid were D. M. R. W. King and R. W. Tyson and ABC Officers J. M. Ward and J. L. Taylor.

Funeral Held Sunday For Mrs. Essie Willis

Mrs. Essie Willis, 52, died at her home near Ennis Saturday morning at eleven o'clock after an illness of six months. Funeral services were conducted from the home Sunday afternoon at four o'clock by the Rev. Duff Tolar, Free Will Baptist minister of Chocomaun, N.C. Burial followed in the Willis family cemetery nearby.

Mrs. Willis is survived by her husband, C. T. Willis, one daughter, Mrs. Clifford R. Tolar and three grandchildren. She was a member of the Macedonia Free Will Baptist church.

Wayne County School Project Is Approved

Washington, July 18. — (AP) — The Public Works Administration announced today 59 non-federal projects have been allotted \$3,924,300. There were 45 school projects, including one in Wayne county for \$45,000.

Liquor Sales

Raleigh, July 18. — (AP) — Liquor sales in North Carolina's 20 counties operating stores dropped to \$437,798.10 in June from \$456,132.70 in May, the State Board of Alcoholic Control reported today.

Sales reports for June included Beaufort county, \$15,077.40; Edgecombe county, \$20,699.95; Nash county, \$15,175.80; Pitt county, \$23,845.30; Vance county, \$10,549.05; Wilson Co., \$16,649.50; Greene county, \$2,347.45; Johnston county, \$12,101.05.

HOW SPANISH MAP LOOKS TODAY

This map shows the division of Spain after two years of bloody civil war. Seventy percent of the country is dominated by Insurgent forces. Important events are labeled in chronological order.

Explosion At Refinery Kills Three; Injuries 75

COURT HELD BY JUDGE DARDEN

Jurist Declares Tribunal is No Collecting Agency

City Recorder W. A. Darden served notice this morning that his court was not to be used as a collecting agency for persons claiming damage in automobile wrecks.

Judge Darden made the statement after it developed that one of two defendants in a case growing out of a collision had called officers for the purpose of forcing the other person involved to pay for property damage. The charges against each of the defendants, S. E. Venters and Marshall Cox, were dismissed.

Judge Darden explained, however, that when traffic laws were violated the defendants would be held guilty and justice meted out accordingly.

A jolly pros was taken against defendants involved in another wreck. The two charged with careless and reckless driving were Earl Briley and Joseph A. Baker.

Two members of the Greenville baseball team, Sam Lankford and Phil Morris, were taxed with the costs of court on charges of being drunk and engaging in riotous and disorderly conduct and with assault. The two already had been released by the club.

Tom Williams, Negro, was acquitted of a charge of being drunk and disorderly. Robert Teel, Negro, was bound over to Superior court under bond of \$200 on charges of breaking and entering and destroying personal property.

George Hodges was ordered to pay the costs of court upon conviction. (Continued on page two)

Fire At Sinclair Oil Company Brought Under Control

Wellsville, N. Y., July 18. — (AP) — A spectacular explosion early today spread new havoc in the \$15,000,000 Sinclair Oil Company refinery after three men were killed and 75 injured in a chaos of fire and explosions last night, but firemen finally appeared to be bringing the fire under control.

A storage tank containing 2,500 barrels of naphtha exploded shortly before daybreak. No one was reported injured, but a similar tank exploding last night sky-rocketed across the nearby Genesee river and killed three spectators on the opposite bank.

Chief Hollis Johnston of the company's fire department, said damage, including business, as well as stock and equipment, would reach about \$5,000,000.

Hog Market Opens at Increase in Prices

Raleigh, July 18. — (AP) — The hog market at Rocky Mount opened strong today after a decline the latter part of last week, the Department of Agriculture reported, and a top price of \$10 a hundred pounds was listed.

The animals, averaging 160 to 220 lb., ruled at \$10, up 25 cents from Saturday and \$235 advance since May 13.

The 220 to 250 pounders went at \$9.90.

A DIFFERENCE

A farmer who a century ago could grow five acres of corn can today, by the use of modern machinery and equipment plant, cultivate and harvest 20 times that much.

Invaders Land Despite Rifle and Machine Gun Fire

GROUND CHINA CRAFT ARE FIRED

Meanwhile Artillery Duels Continue Between Jap Ships and Chinese Batteries

Shanghai, July 18. — (AP) — Japanese naval fliers today carried out what a Japanese naval communication described as the "most daring attack in the history of military aviation."

During a large-scale attack upon Chinese airmen at Nanchang a squadron of Japanese bombing planes landed at the airport despite rifle and machine-gun fire from the Chinese defenders, the communication stated.

Then the bombers crews jumped out of their planes, it was said, and with torches set fire the seven grounded Chinese planes, seized two machine-gun magazines as war booty, chased Chinese fleeing in a gasoline truck into a neighboring rice field and returned to their base unscathed.

Long range artillery duels between Japanese warships and Chinese land batteries continued along the Yangtze river, but war maps showed that the Japanese had made little progress during the past two weeks in the Yangtze sector.

The main concentration of Japanese warships still was at the Matowchen boom, 175 miles down the river from Hankow, while land forces were held below Kiukiang, 135 miles below the provisional capital.

The warships reached Matowchen July 5 after three weeks of hard fighting. An attempt to advance overland from the north banks of the river in conjunction with the naval advance was meeting similar resistance.

Nine Get Licenses To Wed Last Week

Nine marriage licenses were issued during the past week, four of the permits going to white and five to colored couples.

White couples: Paul Cullifer and Genevieve Bowers of Bethel, Harry Slaughter and Ross Lee Tripp of Graven county; Elmo B. James and Beatrice Wynn of Martin county; E. F. Congleton of Carolina township and Vivian Morton of Colerand.

Colored couples: Johnnie Peyton and Athelene Murphy of Winterville; Richard Patrick and Onetta Rasberry of Swift Creek; Arthur Lee White and Doris Langley of Greenville; Paul Donaldson and Hattie Little of Greenville; Joe Pruden of Greenville and Maggie Lee Person of Bethel.

Local Couple Injured In Auto Wreck Better

Mr. and Mrs. W. R. Jones, who were injured in an automobile accident Friday afternoon, were reported by hospital attaches to be getting along satisfactorily today.

Although both were still confined to the hospital, Dr. W. I. Wooten said they were showing improvement.

CZECH-GERMAN TENSION EASES

Sudeten Germans Believed Willing To Compromise

Praha, July 18. — (AP) — A hint that Czechoslovakian Sudeten Germans are in a mood to compromise on their demands for autonomy encouraged President Edouard Benes and members of his cabinet today as they began consideration of proposed administrative reforms.

The hint that the Sudeten Germans, over whom Reichsfuehrer Hitler has proclaimed Germany's right of "protection," were in a bargaining frame of mind came from Wilhelm Sedekowsky, political advisor. (Continued on page two)

THREE DIE IN BUS-AUTO CRASH AT JACKSONVILLE

Three persons were killed and 26 others suffered injuries when a small automobile and a beach-bound bus collided near Jacksonville, Fla., in a torrential rain. This picture shows the wreckage of the two vehicles.

BATTERY A IN TOP CONDITION

National Guard Unit Leaves for Maneuvers July 28th

William S. Tyson, acting commanding officer of Battery A, 113th Field Artillery, North Carolina National Guard, declared today the local unit was in first-class condition for the annual encampment at DeSoto National Park, in Mississippi, the latter part of the month.

Sixty-four men and four officers will make the trip and join in maneuvers, declared to be the greatest in the South since the civil war. The regular army, reserve officers and National Guard from eight Southern states will participate in the maneuvers at the national park near Hattisburg.

Battery A will leave here at 5 a. m. on the morning of Thursday, July 28. The first stop will be at the South Carolina State Park at Cheraw, where Captain L. A. Brock, who recently left here to go to South Carolina, will join the unit and assume control during the maneuvers. Capt. Brock will resign as commanding officer following the return of the unit, since he has been transferred to South Carolina.

The second night will be spent near Louisville, Ga., the third night at Auburn, Ala., and the fourth night at Meridian, Miss. The unit will arrive at the DeSoto park on the fifth day out, August 1st, and will leave on August 10th, arriving back in Greenville on August 14.

The four officers of the local unit are Capt. Brock, First Lieutenant Tyson and Second Lieutenants J. H. Moye and J. E. Waldrop. Tyson said the battery has been undergoing extensive training and would be in "fine shape" for the annual encampment.

The announced reason for the maneuvers is to determine the ability of troops of the third army to assemble at their home stations, move to an area of concentration by various means, rail, motor or air, participate in a tactical exercise under field conditions, and then return to their home stations. It is not a test, but rather a means where better training can be secured through coordinated effort over unfamiliar terrain, and comes as a culmination of previous summer trainings at separate encampments.

Mrs. Ryan is the mother of a son born to her six weeks before she married Ryan.

Mrs. Ryan later charged Ned Sparks, a soda fountain attendant, of Washington, D. C., was the father of the child.

Her counsel was awarded \$7,500 in fees.

Ryan's failure to contest his wife's suit moved Justice Cotillo to further criticism of him, remarking that he displayed "no manly courage."

(Continued on page six)

Queen Marie Dies

Bucharest, July 18. — (AP) — Dowager Queen Marie, of Rumania, who helped shape the destiny of her country for a generation, died today in her 63rd year.

The queen mother, famed for her beauty, died at her palace at Sinaia, the royal summer residence, at 11:25 a. m. EST.

King Carol, her son, and Crown Prince Mihail and Princess Elizabeth of Greece, were at the queen's bedside. Her husband, King Ferdinand, died in 1927.

The queen had been dangerously ill for most of the past year.

TAR HEEL GIRL AWARDED SUM

Mrs. Martha Barkley Ryan Gets \$833.33 Monthly Alimony

New York, July 18. — (AP) — Mrs. Martha Barkley Ryan today was granted a separation and \$833.33 monthly permanent alimony from Earl Allen (Pat) Ryan, wealthy heir to part of the Wall street fortune of Thomas Fortune Ryan. The separation and alimony were granted in Supreme Court by Justice Salvatore Cotillo.

Ryan did not defend his wife's suit.

Justice Cotillo called Ryan "a perfect example of pampered youth who is the recipient of a very large income."

Mrs. Ryan and her husband were married in North Carolina and Ryan left her almost immediately after the ceremony. Ryan then insisted he had no recollection of marrying the Morganton, N. C. girl.

Mrs. Ryan is the mother of a son born to her six weeks before she married Ryan.

Mrs. Ryan later charged Ned Sparks, a soda fountain attendant, of Washington, D. C., was the father of the child.

Her counsel was awarded \$7,500 in fees.

Ryan's failure to contest his wife's suit moved Justice Cotillo to further criticism of him, remarking that he displayed "no manly courage."

RADIO STATION STILL SOUGHT

New Bern, However, Favored in Report of Examiner

Local sponsors of a radio station for Greenville declared today hope for securing a permit had not been abandoned and explained that the report of an examiner recommending a station for New Bern was not final.

It was declared that a board of six judges will have to pass on the recommendation of the examiner. This board is expected to render its decision in 30 days or so. Meantime, it was declared here, local efforts would be continued in the hopes of having the board overrule the examiner.

A corporation headed by J. J. White of Greenville is seeking a permit to operate a station on the same frequency being sought by New Bern.

The examiner's report recommended that Nathan Frank of New Bern be granted the permit and that the application of the Greenville group be denied.

The principal finding of fact on which the recommendation was based follows:

"Evidence was offered by each applicant to establish a need for the additional radio broadcast service proposed to be rendered to the cities of New Bern and Greenville, North Carolina. Evidence was offered concerning the radio service available to each city, and in each case this service is secondary. However, it appears that Greenville enjoys considerably more broadcast service than does New Bern. Evidence was also adduced concerning the population of each city involved, and shows that New Bern is approximately 30 per cent larger than Greenville. The evidence shows that Greenville is one of the leading tobacco markets of the world, but this industry is inactive approximately eight months of the year, while the industries in New Bern are more diversified, and the advertising patronage of a station in New Bern would be more constant from the various businesses and industries. Consequently, it appears that a greater need for the service proposed has been shown to exist in New Bern than in Greenville."

He insisted that he was the most "surprised" flier in the world when he found he had down the Atlantic.

He said he thought he was flying west to his home in Long Beach, California.

Asked how he felt, the newspaper quoted him:

"Fine. I had a very good trip. I was never in trouble. I flew at least 6,000 feet altitude all the way, high above the storms and the clouds. My engine never missed once."

Reminded he did not have a license to fly the ocean, he said, "Oh, gee. That's right. But, man, I did not mean to do this at all."

SINGLE-MOTOR PLANE USED ON MYSTERY TRIP

Flight Made in Antiquated Ship in 28 Hours, 13 Mins.

PERMIT REFUSED FOR TRIP IN 1937

Unexpected Arrival In Ireland first News from Flier Since He Left New York

Dublin, Ireland, July 18. — (AP) — Douglas Corrigan, the American flier who took off from New York on a flight to "California," dropped unexpectedly from the skies today at Baldonnel, Ireland.

He made the flight in an antiquated single-motor plane of the vintage of Col. Charles A. Lindbergh's Spirit of St. Louis in 23 hours and 13 minutes.

He took off from Floyd Bennett field Sunday at 4:17 a. m. EST and landed at Baldonnel airport from Dublin at 8:30 a. m. EST.

Although a watch had been kept for the lone flier in Ireland after news of his "mystery flight" from New York, his landing here caused the greatest surprise.

Corrigan last year was refused a United States permit to attempt the trans-Atlantic flight to Ireland. Nothing had been heard from him since his take off. He had no radio and only the barest navigating instruments.

Most airmen on this side of the Atlantic had not conceded the daring American one chance in a hundred of making the Atlantic crossing after reading cabled accounts of his "dilapidated" craft.

Because of the Department of Commerce's rejection last year of his application for a permission to make such a flight and because strict regulations cover such ocean trips, officials at Floyd Bennett field had doubted he would try a "sneak" hop.

The officials had believed he carried only a navigating map of the United States with optional northern and southern routes across the continent.

Before he arrived unheralded in New York slightly more than a week ago, his name was known only to pilots and west coast aviation experts. They ranked him as a fine craftsman and a man who knew airplanes, thoroughly.

CORRIGAN MAKES TRANS-ATLANTIC FLIGHT ON \$69.69

Chicago, July 18. — (AP) — Douglas Corrigan's expenses from New York to Ireland were \$69.69 and he landed, he said, with exactly \$15 in his pocket.

He gave this information over the trans-Atlantic telephone to the Chicago Evening American. Asked how much his trip cost, he replied, "You figure it out. I used 280 gallons of gasoline at 24 cents a gallon."

That figures \$69.60.

He insisted that he was the most "surprised" flier in the world when he found he had down the Atlantic.

He said he thought he was flying west to his home in Long Beach, California.

Asked how he felt, the newspaper quoted him:

"Fine. I had a very good trip. I was never in trouble. I flew at least 6,000 feet altitude all the way, high above the storms and the clouds. My engine never missed once."

Reminded he did not have a license to fly the ocean, he said, "Oh, gee. That's right. But, man, I did not mean to do this at all."

4:00 p. m.—Story Hour at Sheppard Memorial Library.

7:30 p. m.—The Memorial Baptist choir will hold its weekly practice.

8:00 p. m.—The Methodist choir will hold its usual weekly practice.

FRIDAY

2:00-6:00 p. m.—Outdoor Reading Room at Sheppard Memorial Library open.

Badham-Carr.

Mr. and Mrs. Richard Paxton Badham of Edenton announce the engagement of their daughter, Miss Sarah Paxton Badham, to Charles Albert Carr, son of Mrs. Charles Stuart Carr and the late Mr. Carr of Norfolk, formerly of Greenville. The wedding will take place in the early autumn.

Miss Badham attended St. Mary's College and the Woman's College of the University of North Carolina. Mr. Carr is a graduate of the University of North Carolina. He is quite well known here and has many relatives in this city.

Raleigh, July 18.—Mr. and Mrs. John Huske Anderson, Jr., entertained at a buffet supper last evening at their home on White Oak Road honoring Miss Sarah Badham of Raleigh and Edenton and Charles Albert Carr of Greenville, whose engagement is announced today.

Garden flowers in colorful arrangements were used throughout the residence and in the dining room, where supper was served, the table held a centerpiece of pink flowers, flanked by lighted pink candles.

Guests of Mr. and Mrs. Anderson for the announcement supper were Miss Badham and Mr. Carr, Miss Shirley Haywood and John Park, Jr., Miss Holly Allen and Stuart Carr of Greenville, Miss Mary Palmer and Rudolph Turk, Miss Eleanor Nunn and Dick Harris, Miss Cokey Caffery and James Skinner of Greenville, Mrs. Mollie Hickman and Dr. Robert Ruark, Mrs. Sunshine Bowers and Charles Lee Smith, Mr. and Mrs. Tom Powell, Jr., Mr. and Mrs. Willis Smith, Mr. and Mrs. George London of Southern Pines and Mr. and Mrs. Tom Cox of Darlington, S. C.

Bill Hearne, representative of the Mutual Provident Life Insurance Company, has returned to Greensboro after spending several days with his parents, Mr. and Mrs. W. A. B. Hearne.

Mrs. F. R. Minney, who has been visiting her parents, Mr. and Mrs. W. A. B. Hearne, left Sunday for Detroit, Michigan, where she will join Mr. Minney. She was accompanied to Detroit by her sister, Miss May Hearne, who will visit friends in Washington, D. C., Cleveland, Ohio, and Newark, N. J., before returning.

Rudolph Rietache, Cincinnati, Ohio, has moved to Greenville where he has accepted a position with the State Neon Co. His family will join him at a later date.

J. S. Rouse has moved from Summit street to 209 East Ninth street.

Mrs. D. R. Perkins of Stokes, Route 1, spent today in town.

Mr. and Mrs. Clifton Stokes, Mr. and Mrs. Linda Stokes have returned from Asheville and Chimney Rock, where they spent a few days.

Congleton-Morton. Mr. and Mrs. J. Otis Morton announced the marriage of their daughter Vivian Lee to

Mr. Everett Congleton on Sunday, the seventeenth of July nineteen hundred and thirty-eight, Greenville, North Carolina.

On Sunday morning Miss Vivian Lee Morton of Greenville, became the bride of Mr. Everett Congleton of Stokes, at the parsonage of Jarvis Memorial Methodist Church. Rev. T. McMillan Grant performed the ceremony.

The bride wore a navy blue triple sheer crepe dress with matching cape. Her accessories were also of navy blue. She wore a shoulder corsage of red radiant roses and Gypsophelia.

Mrs. Congleton is the attractive daughter of Mr. and Mrs. J. Otis Morton of Greenville, formerly of Raleigh. She attended the Raleigh public schools and also the Greenville high school, from which she graduated with the class of 1936.

Mr. Congleton is the son of Mr. and Mrs. H. F. Congleton, Sr., of Stokes. He received his education in Stokes and is now connected with the Stokes and Congleton store there.

The bridal couple left after the ceremony for a trip to the western part of the state.

Rhythm Orchestra. Mrs. C. A. White's Rhythm Orchestra will give a concert on Tuesday afternoon at 4 o'clock at Sheppard Memorial Library.

Birth Announcement. Mr. and Mrs. Chester Allen of Greenville announce the birth of a son, Linwood Ray, on Wednesday, July 13th, 1938.

Birth Announcement. Mr. and Mrs. B. H. Mixon of Henderson, announce the birth of a daughter, on Monday, July 18, 1938, Henderson, N. C. Mrs. Mixon prior to her marriage was the former Miss Ruth Thorne of this city.

Game wardens in South Texas report the 1938 season was one of the best breeding seasons for birds in six years.

Over 103-4 million women were gainfully employed in the U. S. at the time of the 1930 census, six times as many as in 1870.

MODES of the MOMENT

APPLE BLOSSOM FAN—Frivolous, flowery and pink is this summer fan. It is fashioned of apple blossoms anchored to a bamboo stick and makes a striking accessory to a black frock.

Prepare To Close 1st Summer Term

The first term of the summer session of the college will close Wednesday with around 50 candidates for degrees applying for graduation. Graduation exercises will not be held until the second six weeks of the session, the summer commencement being scheduled for August 27.

Registration for the second six weeks term will be held on Thursday, July 21; and if it works out as the registration for the first term did, there will be an unusually heavy enrollment.

A number of new courses were scheduled for this summer, some of which have been given this term, and some of which will be given in the term about to open.

Among the new ones in the coming term will be Coach Alexander's special courses in the field of physical education. He will give officiating team sports and contests, and scouting activities and camp guidance.

In the course on scouting and camping there will be actual experience in week-end camps.

A large enrollment is anticipated.

POLITICIANS KEEPING EYE ON MUNI LEAGUE MEETING

(Continued from page one) nance Ends Here" is a red flag to North Carolina municipalities and the League. In 1933 a man-sized war broke out in the legislature to have part of the gasoline tax returned to towns and cities to keep up state highways within incorporated limits. The munis lost.

Two years later the effort was renewed, this time with success, the Munis getting a half million dollar annual refund, which they were to use in maintaining state highway system roads running over municipal streets.

In 1937 the Leaguers launched another offensive, trying for a still greater appropriation, but were repulsed, with Rockingham's Clarence Stone leading a counter-attack in which he termed the League of Municipalities "the Liberty League in North Carolina." They did, however, keep the half million annual refund.

It's an entirely open secret that the League will be back to the wars again next January, prepared to fight harder than ever.

The main contention of the city officials, who make up the League membership, is that urban dwellers pay an estimated 65 per cent of the total highway fund. Hence, they contend, it is utterly unfair to spend none of the gasoline tax collections on city street construction and maintenance. Even the half-million annual subsidy is nothing like what the municipalities should get in fairness and equity, the League contends.

And so the politicians eye the League meeting. They know, in general, the stand of the Munis and they know, in general, what act to expect. They are keenly interested, nevertheless, in finding out details of the coming campaign and learning the personnel of committees which will have charge of pushing it.

Although the League is non-political and non-partisan in theory, and generally speaking, in practice, the politicians realize that the League is composed of chosen representatives of about 85 per cent of the state's population. Naturally, they do not want to antagonize this kind of group.

It is likely to offer a pre-view of the 1940 gubernatorial field—what with Commissioner of Revenue A. J. Maxwell and State Treasurer Charles M. Johnson already on the list of speakers. Both these gentlemen are much talked of as 1940-likes, and there may be others on the Asheville program before the meeting is called to order.

They were accompanied on the trip by W. C. Clark.

There were approximately 300 dealers at the convention from the Southeastern states. Much of the meeting was devoted to a study of the Purina farm, which covers about 360 acres, where the only test farm of its kind in the United States is operated.

The party was gone a week, going via the northern route which included the Smoky Mountain National park, Norris Dam, through coal mines and oil fields. Returning the southern route, the party came through of Atlanta and thru the area recently visited by floods.

Established in 1925, the 360-acre Purina Mills Experimental Farm at Gray Summit, Missouri is devoted entirely to the testing of feeds and feeding programs for livestock and poultry. Annually, ten thousand farmers, scientists, county agents, agricultural instructors, agricultural students, and feed merchants, from all over the United States, Canada, and several foreign countries, come to see this farm. They find it a practical experimental station managed by farm reared, college-trained men. It has come to be regarded as "America's feeding headquarters"—a most exacting testing ground for determining what shall be included in high quality feeds.

Local People Return From Purina Meeting

Bill Drum, owner and operator of Drum's Electric hatchery, and W. L. Kirkpatrick, salesman for Purina livestock and poultry feeds, have just returned from the annual convention of Purina dealers, held in St. Louis.

They were accompanied on the trip by W. C. Clark.

Local People Return From Purina Meeting

Bill Drum, owner and operator of Drum's Electric hatchery, and W. L. Kirkpatrick, salesman for Purina livestock and poultry feeds, have just returned from the annual convention of Purina dealers, held in St. Louis.

They were accompanied on the trip by W. C. Clark.

There were approximately 300 dealers at the convention from the Southeastern states. Much of the meeting was devoted to a study of the Purina farm, which covers about 360 acres, where the only test farm of its kind in the United States is operated.

JUNE CLINICS HELD IN PITT

(Continued from page one) ing cough 7 cases, no scarlet fever and no infantile paralysis though as you recall, we had one case of infantile paralysis reported in the month of May.

"While we have had no case of Rocky Mountain Spotted Fever reported in Pitt County this year it might be well to call to your attention the present situation in Virginia. Tuesday's papers quoted Dr. Riffin, Virginia State Health Officer, to the effect that there had already been 35 cases reported in Virginia this season with 3 deaths.

"Typhoid Clinics were held in more than 60 centers throughout the county and the number receiving complete treatment was 2092 white and 1342 colored, making a total of 3434. The number of diphtheria vaccinations was 427.

"The treatment at the several Venereal Disease clinics is holding up well when we take into consideration that this is a very busy time of the year for the rural citizens; the treatments for May were 1253, treatments for June 1135, a decrease of 118 treatments. The number of Wassermanns taken in June, for diagnosis was 271 giving a total attendance at the Clinic for the month of June of 1406.

"The attendance at the Maternal and Infant Welfare Clinics for May was 83 and for June was 73, a decrease of 10. It is probable that this decrease, as in the case of the decreased attendance at the Venereal Disease Clinics, is due to the fact that this is a very busy time of year on the farm.

"The State Orthopedic Clinic, held every first Friday in the Greenville Health offices continues to serve a large number of cripples. This Clinic, as you know, serves not only Pitt County but Carteret, Pamlico, Beaufort and Hyde as well. It is conducted by Dr. Hugh A. Thompson of Raleigh and is sponsored by the Rotary Club of Greenville.

"The Community Sanitation program is meeting with reasonable success when we consider that this is the time of the year when the farmers income is very low. The number of privies installed in the past two months was 89. We are confident that with the opening of the tobacco market there will be a marked increase in the number of privy placements, but may I add that this increase can be markedly accelerated if we have the active cooperation of the members of this Society. By active co-operation we mean that you urge your landlord tenant to provide a sanitary privy for his tenant. It is our settled opinion that here, as everywhere else in the Health Department's program we can move no faster and go no further than is represented by the support and the active cooperation of the medical profession. Since the family physician is, as he should be, the court of last resort in all health matters, he is still the most potent factor in the promotion of preventive medicine and health education.

COURT HELD BY JUDGE DARDEN

(Continued From Page One) of being drunk and disorderly. M. A. Smith also was taxed with the costs upon conviction of being drunk and disorderly.

Kenneth Rowe, Negro, convicted of being drunk, riotous and disorderly and with assault, was given a 60-day sentence, suspended upon payment of \$10 and costs.

Wilbur Dixon and Alice Lee Cox, Negroes, were convicted of fornication and adultery, and Dixon was given a six months road sentence and the girl a six months sentence at the county home, the sentences suspended upon payment of court costs. The defendants appealed to

SHORT SHOTS

By HENRY AVERILL

Raleigh, July 15.—Investigators for C. B. Deane, apparent loser in the Eighth Congressional district, report that one had his "nose crushed" and another was "knocked cold" by a mob which took away from him affidavits they had collected in Davidson county revealing, they claim, gross irregularities in the runoff primary July 2.

W. O. Burgin, face-of-the-returns victor, sends a telegram to Mr. Deane regretting the "seeming discourtesies" to his probers.

Add new synonyms: "Crushed nose," "knocked cold," "seeming discourtesies."

Yep, it probably did seem just a bit discourteous, to say the least.

A couple of prominent North Carolinians are to get a chance to sing their favorite theme songs this week.

On Thursday at the North Carolina Department of Agriculture's Piedmont Test Farm, Commissioner of Agriculture Scott will dwell on the subject of "Marketing," while Dr. Frank P. Graham, the University's president and Dave Clark's bugaboo, will hold forth on "Federal Aid to Education."

Incidentally, there's something of a story behind the title "North Carolina Department of Agriculture's Piedmont Test Farm."

That's what Department invariably request that it be called—they want every test farm (Piedmont or other) prefaced with "North Carolina Department of Agriculture's."

Just an example of the bitter, unspectacular in-fighting that goes on almost constantly between State D. of A., U.S.D.A., and the State College Extension Service. It is noted that the programs printed for Thursday's affair is titled: "Thirty-third Annual Field Day. Piedmont Station, N. C. Department of Agriculture, North Carolina Experiment Station, United States Department of Agriculture, Cooperating." Are they?

In a recent item, this correspondent quoted State Senator-to-be John Umstead as favoring laws restricting or abolishing the use of markers at the polls in North Carolina, as well as a low prohibiting solicitation of votes in the vicinity of voting booths.

He told this bureau that long before there was any such flare-up as has resulted from this year's primaries.

Now the Orange county legislator is convinced there will be action in the 1939 General Assembly and he is prepared to stand for complete elimination of all absentee voting provisions in the law.

"All these charges of fraud and all this publicity have given those of us who already wanted election reforms new hope that we'll be able to get something done this time," he said.

At the root of the trouble, he believes, is the complete and supreme indifference of some 60 or 70 per cent of electorate who really don't give a hoot about the whole business anyway. It's this large group which is used by the peddlers and purveyors of absentee ballots, he is convinced.

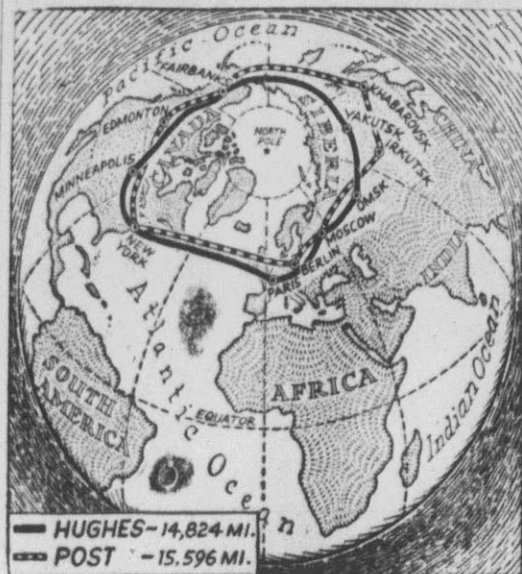

News dispatches tell of a Negro woman who was summoned for jury duty in Mecklenburg, then showed up at the courthouse protesting she couldn't serve because she had "two white chillun to take care of" as her job.

Then, the dispatch continued, she was told that the "Supreme Court recently ruled that women are ineligible for jury service in North Carolina."

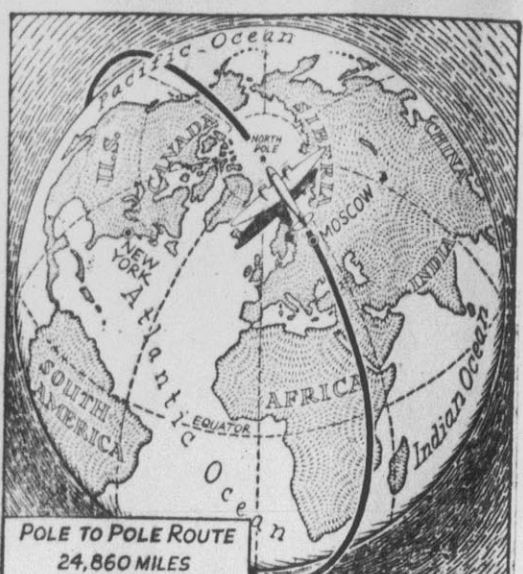

If she was so told, she was misinformed. The Supreme Court recently dodged the question of woman's eligibility as a North Carolina juror by holding that a mere male, as defendant, cannot raise the question because he has not been discriminated against.

What the court would hold if a woman brought the question before it is something no one knows—probably not even the court members.

Hughes Probably Won't Cash In On His Flight: Pioneers Never Do---It's The World That Profits

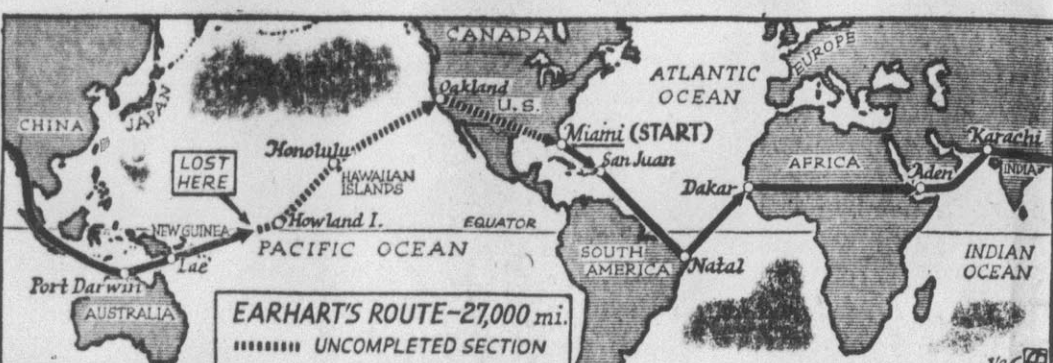

THE "EASY" WAY round the world—just around the top of it—was taken by Post and Hughes. Post did it in 7 days, 18 hours; Hughes in 3 days, 19 hours.

A HARD WAY would be to cross both poles. Mikhael Gromoff, Russian trans-polar flier, thinks a non-stop flight that way will be the next spectacular achievement.

There's Still A Chance To Set Records

ANOTHER HARD WAY was Amelia Earhart's route. A flier who went around the world exactly on the equator would cover 24,902 miles.

By MORGAN M. BEATTY
(AP Feature Service Writer)

Now that Howard Hughes has gone and done it—at a cost of \$300,000—what will it get him?

The answer probably is—nothing tangible. Wiley Post got little enough besides fleeting fame. Other pioneers have had less.

But on the other hand, if history repeats, the world at large may get untold benefits from this newest, fastest circling of the globe.

For by rocketing around the world in less than four days, the shy and wealthy Texan joined the mythical fellowship of the few humans who have hitched their wagon to the star of geographical conquest through the centuries.

They Had An 'Urge'

Like the others, his exploit represents a mythical urge with a capital "U". There's no other explanation for it. While stay-at-homes have thought that the earth conquerors wanted only fun, fame or fortune, the record does not bear that out.

A few, like Sir Francis Drake, did bring back gold, but even he drove later that a "secret instinct" saved him on. Most found fame, but almost never a great profit. Some, like Magellan and Cook, found death. But many of them, from Columbus and De Gama on down, opened the way to freeride navigators for fabulous profits and to humanity great advances.

Men Knew; They Did

The nub of the situation here is the same as it was in Columbus' day; the same as in Lindbergh's. Wise men knew in Columbus' time that ocean could be crossed, but it took Columbus to prove it and win the new world. Aviators knew in Lindbergh's youth that the Atlantic could be flown, but it took Lindbergh to do it and open up the field of experimentation that will soon lead to establishment of transatlantic lines. Scientists last week knew that the world could be rounded in four days or less, but it took Hughes to do it.

What new field will be opened up? Round-the-world commercial flights or round-the-world war flights?

History can't answer, but it can tell what has become of the great geographical ventures of the past.

Then Came Planes

Earth conquest was seemingly completed when the airplane came along with the turn of the century. With a score of years, the United States Army had sent a daring crew of its fliers around the world. Com-

tendence upon these courses will enable the electrical contractors of the state to render better and more efficient service to the citizens of North Carolina.

"The Short Course for Electrical Contractors conducted by the Electrical Engineering Department of the school of Engineering at State College, and sponsored by the N. C. Association of Electrical Contractors and N. C. Board of Examiners of Electrical Contractors recently given at Raleigh, proved such a success that it is now planned to make the course an annual affair," declared P. C. Kemp, local electrical contractor who has just returned from Raleigh where he attended the course.

Eminent men in the field of electrical engineering spoke on problems common to every electrical contractor and their solution. New inventions, their application and use, were discussed by the speakers on the program. The purpose of the short course was to stimulate discussion and to promote an exchange of ideas among those present as well as to offer technical information of value in the pursuit of their work. In this purpose the short course far exceeded the expectations of the sponsors, and has led to the establishment of the course as an annual affair at State College, in Raleigh. In the years to come the programs will be arranged far enough in advance for each speaker to prepare a paper. These papers will later be published in the form of an Engineering Experiment Station bulletin for state-wide distribution. At-

HOWARD HUGHES

On His Way

pared with Wiley Post, and Hughes, these men might have been flying in a blond box. They had to stand up in the cockpit and fly almost against the waves in fog-infested seas. They hedge-hopped over icebergs in the North Atlantic. The science of aeronautics had not yet produced the power and the gadgets to lift planes above these surface dangers.

To Knowledge: Addition

The Army fliers spent 175 days on their world voyage in 1924. Then the Graf Zeppelin in 1929 sailed around the world in 20 days and four hours, with comfortable passengers. Wiley Post and Harold Gatty followed in their plane two years later, making an eight-day trip. Post made it alone in 1931 in 7 days and a few odd hours.

And now Howard Hughes! Each flight around the world added scientific and practical knowledge to aviation. Only once before had a world voyage produced scientific knowledge of immediate value to civilization. In 1775, Captain Cook, painstaking English navigator, discovered the remedy for scurvy.

The Gadgets Multiply

Now, each year produces its new gadgets to make voyaging safer. Hughes has his altimeters, air speed indicators, turn and bank indicators, temperature gauges, and engine performance indicators. He had drift indicators, magnetic compasses, gyro compasses, the new automatic pilots, and radio.

Columbus, Magellan, Drake and Cook had none of these things. Even Lindbergh had few of them. In addition these men had the terror of the unknown ahead of them. But it matters little about the degree of courage each of the pioneer world voyagers has shown. Their real value is their pioneering. It has never failed to inspire their set of humanity to follow.

AROUND THE WORLD

1519—Magellan by ship, 1,083 days.
1889—Nellie Bly, by train and boat, 72 days.
1913—John H. Mears, by train and boat, 35 days.
1924—U. S. Army planes, 175 days.
1929—Graf Zeppelin, 20 days, 4 hours.
1931—Post-Gatty, by plane, 8 days, 15 hours, 51 minutes.
1932—Post (alone), days, 18 hrs., 49 1-2 min.
1938—Hughes, 3 days, 19 hrs.

Colored News

The meeting at Warrenton, N. C., was largely attended by the farmers of the state and they received valuable information. Farmers were urged to live up to the "live-at-home program," which includes year-

round gardens, poultry, pigs, cows, feed and food.

It was gratifying to the agent to see dear old Pitt county measuring arms with other counties represented. One among the best Negro farmers in Pitt (Joe Daniel) was on the program and spoke during this meeting.

The next annual conference will be held at Windsor, Bertie county. DENNIS DUPREE, Negro County Agent.

THIMBLE THEATRE (Starring Popeye)

LOVE ON THE RANGE

BY NELSON C. NYE

The Story So Far

Under the name of Abe Street, quick-fire Ankrom takes a job on the troubled Rafter T ranch to help lovely Lee Trone. Colonel Struthers and his daughter Betty come to visit, and Ankrom recognizes Struthers as an impostor, Kelton Dreen. Dreen is shot and Betty tells Ankrom she did it. Rafterford, the burly sheriff, questions them all, including Claydell, a neighboring rancher. Then he turns on Lee.

Chapter 15

LEE TRONE'S red lips curled scornfully. "I'll bite," she said. "What was it?"

Rafterford scowled. "You're talking to the sheriff of this county now. I expect a civil answer."

"Very well," she answered. "I was not under the pepper tree when that man was killed."

"Where were you?"

"I was walking toward it from the rear of the bunkhouse."

Ankrom saw suspicion in the sheriff's glance. "Why?"

"It was warm inside and I wanted to get some air."

"Why did you happen to pick that pepper tree to head for?"

"I wanted to be alone. The shadows were dark there and I didn't think anyone would see me."

There were puzzled corrugations on the sheriff's forehead. "I have often felt like being alone, myself," he said. "But I can't see why you would want to be alone when old friends you hadn't seen for years had just arrived."

"I felt strange toward them. Somehow I couldn't accept them as old friends," Lee said simply. "I could not help feeling that they were strangers—and they were, you know. Her glance went to the girl who called herself Betty Struthers. "Why did you and that man practice this imposture on us?" she asked curiously.

A tear fell slowly from one moist blue eye as the girl from Paso Pinto faced her hostess. "Miss Trone, you'll never forgive us, I know, but we knew the real colonel and his daughter. He had often told us of the Rafter T. I have always wanted to spend a summer on a ranch. Finally I persuaded father to impersonate—"

she broke off and, turning her head away, put a handkerchief to her eyes.

Ankrom wondered if this were the truth. He felt strongly inclined to doubt it, for he knew the man she called her father was Kelton Dreen, and so far as he had ever heard, Kelton Dreen had no daughter. Too, he recalled the place where first he'd seen this girl. No, he decided, this yarn was a lie. But the girl was a clever actress.

He saw the sheriff looking at her closely, saw the sudden tautening of Rafterford's figure. "Isn't this bogus colonel really Kelton Dreen, the Tombstone gambler?"

"Thought so," the sheriff grunted. "Dreen," he told the others, "is that tinhorn that made a lot of brag about gettin' that shootin' fool, Blur Ankrom. Seems like Ankrom gunned this Dreen's cousin couple years back, an' the gambler swore he'd never rest till he evened the account."

"What's all that got to do with us?" Trone asked, pulling himself together. Ankrom saw that the fit of shaking had gone out of him.

"Maybe nothing," the sheriff answered. "Then again it might have a whole heap to do with you. It all depends. . . . He broke off to frown at Claydell who was grinning.

"He means," Claydell chuckled, "that one way of explainin' Dreen's presence on your ranch in any guise—"

"Button your lip, damn you!" Rafterford snarled.

The rancher returned the sheriff's glare with bland surprise. "Was I about to give state secrets away?"

"Some day," Rafterford's voice was deeply vibrant, "you're going to push me too far, Claydell. When that time comes you better have your holster greased."

"You remind me of a spoiled boy. When you can't have things all your own way you sulk. It's time you grew up."

A Warning

BEFORE Rafterford could reply, Claydell went on: "You may be the sheriff of this county, unfortunately, but that don't come anywhere near givin' you a corner on the conversation. Any time I feel the urge to break forth in speech, neither you nor all your sheep-herdin' deputies are going to hold me back. This here's a warning, Rafterford. You watch your step!"

While the sheriff stood spluttering with purple face, Claydell bowed to the others regretfully and took his leave, permitting his revolver to lay upon the floor where Rafterford's boot had shoved it. Perhaps, Ankrom thought, he had forgotten the weapon. At any rate, he left without it and a few moments later his

purring motor faded on the distant night.

Ankrom's abrupt laugh broke the silence. Claydell's departure had left behind.

"What the hell you laughin' at?" Rafterford snarled.

"Laughin' at the way that fella curled you up an' left you gaspin'," Ankrom chuckled.

"Oh, you are, are you? Well, you keep right on laughin' then while you got the chance. When you're all through I'll give you a few things to say that'll give you an opportunity to laugh on the other side of your mug!"

"Hop to it, then. It's long past my bedtime an' nothin' makes me so dang obstreperous as missin' my beauty sleep."

"You knew," growled Old Man Trone, cutting sharply into Ankrom's sentence, "that that fellow impersonatin' Colonel Struthers was a damned fake, sir! Why don't you expose him?"

Ankrom's face grew sober as he gazed into the stern accusing eyes of Lee's father. "I was waitin'," he answered, "to see how far the skunk would carry it."

He saw Lee's glance travel past him to the girl from Paso Pinto, whose head was still averted. "I think his brain was addled by a pretty face," Lee said.

Hot color flowed through Ankrom's cheeks. "Perhaps it was," he told her quietly. "But you needn't worry about it happenin' again. With a curt bow he turned toward the door and went striding toward the door."

Rafterford's voice came leaping after him: "C'mere! You tryin' to slide out on me like that? You better stick around!"

Wild Hoofbeats

ANKROM, looking back, saw that Rafterford's hand was at his hip. He grinned coldly at the sheriff. "I expect that's your way of advisin' me to linger in this county. Well, don't fret yourself. I'll stay, all right. I guess you ain't used to my kind, brother. I belong to a breed that sticks to the last gasp."

All right, Curly Wolf," the sheriff grided. "You listen now. You saw me prove that this Struthers dude was really Kelton Dreen, the gambler. Dreen's been spendin' a heap of time in the last two years chasin' after one Blur Ankrom. This Ankrom killed Dreen's cousin in a gun fight. Now it seems to me it would put you in an awkward spot, seein' as how Dreen was killed here tonight, was I to prove that your real name's Blur Ankrom. That's somethin' for you to be mullin' over while you're gettin' in that beauty sleep you men tioned!"

With the sheriff's ominous words still coursing through his mind, Ankrom sat on the edge of his bunk several minutes later, bent double in the task of pulling off his boots. But suddenly his fingers ceased all operations. From the slope leading down from the ridge hemming the valley rang a wild rattle of hoofbeats.

For one breathless second he sat there listening. Then with a bound he was on his feet and moving toward the open door with long swift strides. In the shadow outside the doorway he halted to gaze across the night. But no moving thing met his stare along the trail leading down from the ridge.

With hurried quiet he moved to the rear of the bunkhouse. What he saw stilled the breath in his throat, injured as he was to danger.

A forward-bent rider with flapping arm and flapping legs was tearing madly down that treacherous ranch path from the valley's rim. Ankrom's eyes glinted narrowly as he watched that crazy course. It seemed impossible that horse and rider at that fearful pace should reach the valley's floor alive.

His being quickened as the reckless saddle-slicker drove his rocketing mount across the stream. Between the buildings and straight across the yard they tore, the horse braking to a stop in a cloud of dust as Ankrom rounded the far corner of the bunkhouse. He heard the rider hit dirt, saw him go toward the ranch-house's veranda at a staggering run, stiff-legged from long contact with the saddle.

Ankrom saw the ranchhouse door burst open; saw dark figures come spilling out across the porch like red ants from a burning log. They were silhouetted black against the front room's lighted windows so that by their shapes he could guess at their identities. He heard the sheriff's low curse and Old Man Trone's excited voice hurling questions.

The runner stopped, stood swaying before the ranch-house steps as he fought for breath. There was a sob in the words that finally came: "Rustlers! boss—they've got that beef we had on the northwest range!"

Ankrom saw Trone's form shrink back as from a blow; saw a trembling hand come up to brush across his forehead. Trone's question came from a thickened throat: "Wiped clean . . . ?"

"Clean as a bound's tooth!" the puncher blurted.

Greenies Lose Week-End Series To Snow Hill's Billies

LOCALS BOW TO BILLIES TWICE

Greene County Crew Makes Clean Sweep Weekend Series

Snow Hill, July 18.—Lefty Raymond (Oh. Pshaw) Zschau of the Snow Hill Billies held Greenville to three hits Sunday afternoon as the locals triumphed, 4-1.

Zschau yielded only one hit except in Greenville's scoring inning, the fourth. Lowery hit a fly to left, and the blow went for two bases when Joyner lost the ball in the sun. Korba's single then drove in Lowery.

Joe Bistoff's single and Tony Maisano's homer gave the Billies two runs in the second. They made the others in the fourth, and the first came on an inside-the-park homer which came close to being nothing more than a fly-out.

Baker, first up in the fourth, hit to deep right center. Simpson, centerfielder, gave chase. He ran and ran—and made a one-handed grab for the ball as he neared the fence. He crashed into the fence, and the ball bounced off the wall. Simpson gave pursuit, picked up the ball, and threw it in—and then he collapsed. He had to leave the game. Three stitches had to be taken to close a gash in the Greenville gardener's chin. Three planks are being placed in the fence this afternoon.

"Gracie" Allen featured afield for Greenville. Snow Hill fielding stars were Mewborn, Maisano and Taylor.

The Greenies lost a slow, but close game to the Billies at Third Street Park here in Greenville on Saturday. The score was 7-5. In the very first inning the Billies were presented with four runs thru the courtesy of the Greenville ball club. The Billies didn't even get a base knock. Don King, who was on the mound, retired the first two Snow Hillians in order, and then a few walks mixed with some miscues gave the Billies a wonderful start.

New Bern - Tarboro Divide Weekend Tilts

New Bern, July 18.—If Ace Elliott hasn't given special thanks to a trio of his teammates — Myers, Maynard and Ware—for his pitching win yesterday over New Bern's Bears, the Ace should do so right away and should apologize for the delay. Those boys gave him great support.

New Bern came up with only six scattered hits while losing to the Ace and the Tarboro Serpents, 8-2, yesterday.

Three-run spurges in the second and fourth were more than enough to guarantee victory, but the Serpents added singletons in other innings.

Bullpen Berry, who relieved Burgess in the fourth, offered good relief pitching.

Saturday, the Bears had no trouble in trimming the Serpents, 5-1.

Score by innings: R H E
Tarboro 030 301 001—8 13 0
New Bern 100 010 000—2 6 2
Elliott and Dick; Burgess, Berry and Thornton.

ALL-STAR GAME THIS AFT'NOON

Coastal Plain Event Being Staged in the Kinston Park

Today's the day for that long-planned Coastal Plain League battle of all-star teams.

The all-star clubs will clash in Kinston's new park, starting at 4 o'clock, and indications are that they will play before East Carolina's largest sports crowd in a long, long time.

Fans of league towns will have a gala day—they'll be able to pull for both teams and to second-guess on both teams.

Two lineup changes on Tommy West's club were made necessary because of injuries suffered by players first chosen. Earl Carnahan of Ayden will replace Birch Douglass of Greenville at first base, and Lefty Flora of Goldsboro will replace Durden Archer of New Bern on the pitching staff.

An injured hand will keep Archer out of action; Douglass was hurt last week when he dove over the catcher in a scoring play. Carnahan was originally one of the utility players on West's club, and his place in that capacity will be taken by Doigt Morris of Goldsboro.

The Lineups

West, Kinston pilot, will have this lineup:
Earp, Williamston, shortstop.
Ware, Tarboro, second base.
Harper, New Bern, third base.
Wyrostek, Kinston, rf.
Campbell, Tarboro, centerfield.
Black, New Bern, leftfield.
Carnahan, Ayden, first base.
Overton, Goldsboro, catcher.
Pitchers—Hurley, Kinston; Lefty Caliguiri, p.

Utility players—Smith, Greenville; Longest, Snow Hill; Morris, Goldsboro.

The boss of the opposition forces will be Peashead Walker, Snow Hill manager. His lineup will be:
Bistoff, Snow Hill, catcher.
Gasaway, Ayden, centerfield.
Knowles, New Bern, rightfield.
Mullinax, Goldsboro, leftfield.
Stringfellow, Kinston, third base.
Patton, Kinston, first base.
Mewborn, Snow Hill, second base.
Myers, Tarboro, shortstop.
Pitchers—Herring, Ayden; Gettel, Snow Hill; King, Greenville.

Managerial jobs went to the pilots ranking one-two in a poll of fans—West winning the No. 1 spot. They chose their players from nominees of the fans' poll—and the selections had to be made so that each league club was represented on each side.

Opposing pitchers at the start probably will be Bill Herring and Ed Hurley.

Martins Hit Eagles For Pair of Victories

Williamston, July 18.—A three-run rally by the Williamston Martins in the eighth inning decided a fine pitching duel today and gave Red Swain a 4-2 victory over Nowak of Kinston.

The eighth-inning tallies came on singles by Villepique and Stanley, a sacrifice by Ignasiak, a triple by George Bowen, and an outfield fly.

Nowak blanked the Martins for eight innings. Charlie Wilcox broke the spell by hitting a homer in the seventh.

Kinston's runs came in the 4th on a combination of three hits and a sacrifice.
The No. 1 batter of the game was Manager Tommy West of Kinston who hit a double and two singles for four tries. Charlie Wilcox hit a single in addition to his homer, and his 500 per centage led the Martins.

On Saturday the Martins also defeated the Eagles in a well-played game, 6-5.

Prior to today's game the two clubs were tied for fourth place.

Score by innings: R H E
Kinston 000 200 000—2 7 2
Williamston 000 000 13x—4 8 0

Baseball's First 99 Years

By GARDNER SOULE

LARRY DOYLE, an old New York Giant player, once had to lash his bat to his wrist with a leather thong because of protests from rival players and umpires. The bat had frequently flown out of his hands, causing danger to all persons in the vicinity.

RUNYAN WINS P. G. A. TITLE SECOND TIME

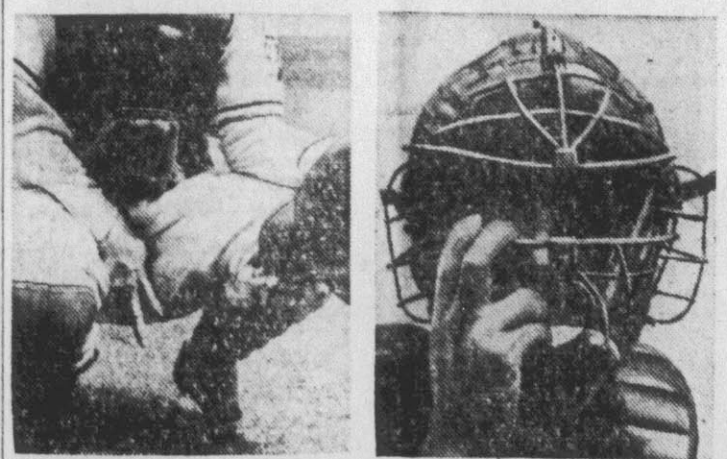

Paul Runyan (right) of White Plains, N. Y., won the National P. G. A. championship title for the second time by defeating Sam Snead (left) of White Sulphur Springs, W. Va., at Shawnee-on-Deleware. With them is shown the championship cup.

Easiest Signal Is Best, Says Hemsley, Whose Catching aided Feller's Pitching

Bob And Rollie Talk Over Their Signals

Watch Runner at 2nd Base

Two Fingers: Curve Ball

By RAY BLOSSER
Cleveland, (AP)—Ralston Burdett Hemsley, as one former schoolboy wonder to another, signals Bob Feller that every American league batter has a weakness.

"If they didn't they'd all his 900 per cent," says the 30-year-old Hemsley, who started with Pittsburgh when he was only 19, after three years with Frederick, Md.

The Cleveland Indians obtained Hemsley from the St. Louis Browns this year to catch the Iowa speedball flash after Hemsley greatly impressed him on a post-season barnstorming tour. So "Rollie" a traditional wad of tobacco in his mouth, took young Master Robert in hand.

Feller has great confidence in Hemsley and feels he can toss better when Rollie is behind the plate. Hemsley has helped him gain more control and has also aided him in developing a good curve.

Baseball men call Hemsley one of the smartest receivers in the business. Joe Doaks, the loud-voiced guy with the bag of peanuts up in the stands, isn't much more surprised when Hemsley picks a man off base than the man himself.

"Bob's greatest trouble is his wildness—and that's about all," says Hemsley.

Offers Good Target
"In just go out and talk to him, and tell him out to worry about the batter. The other thing to pull him out of it is to give him good targets—push the glove out at him."

Lefty Groves rejoins Joe Cronin's Red Sox

Boston, July 17.—Lefty Groves appeared in uniform Sunday for the first time since his arm went "dead" against the Detroit Tigers last Thursday.

Groves said his arm was regaining strength gradually, but that it still was indefinite when he would attempt to pitch again. Manager Cronin said, however, he expected Groves would see action next week if his arm continued to respond favorably to heat treatments.

When Hemsley's calloused right hand overlaps the front of his glove he may be signaling Feller: "We're changing our signals. The runner on second base is getting on to them."

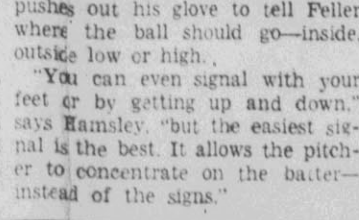

"About the only man you have to watch is the runner on second. Your legs and your glove keep the coaches on first and third from stealing them. The same goes for the dugout."

Feller's battery-mate is a good psychologist.
"It's a gamble you take, when you're in a tight spot, deciding whether to pitch to the batter's strength or weakness. I've seen batters frequently hit a ball on which they're supposed to be weak—just because they're looking for it. I've seen a lot of pitchers throw the ball right to the batter's strength because of that."

Gehring Tough
"But Charlie Gehring—You have to outguess him. He's liable to go up and take three straight curve balls, waiting for a fast one. The next time he might take three fast ones, waiting for a curve."

Just as the pitch is about ready to start and the batter must intently watch the pitcher, Hemsley pushes out his glove to tell Feller where the ball should go—inside, outside low or high.

"You can even signal with your feet or by getting up and down," says Hemsley, "but the easiest signal is the best. It allows the pitcher to concentrate on the batter—instead of the signs."

Shirley To Be Goldsboro Pilot Again 1939

Goldsboro, July 18.—Directors of the Goldsboro baseball club like Mule Shirley as a manager.

The Mule, one-time major leaguer, took over the local club several weeks ago. And today he was in possession of a contract making him the year-round big boss of the local Coastal Plain league club.

Directors got together Saturday night and elected Shirley for 1939. He will be in full charge of the team, officials said, and will remain in Goldsboro during the winter to make plans for next season.

Shirley, Greene county native, was a star at Carolina. He has played in a number of minor leagues in addition to the Washington club of the American league.

N. Y. Stock Market

New York, July 18.—(AP)—Stocks overrode light selling hadcaps in today's markets and selected issues, led by steels and motors, climbed fractions to around three points, with a few up five or so. The list loafed at moderately higher levels during the morning. Afternoon activity began to broaden on the advance and in the final hour the ticker tape fell behind several minutes as buyers bid up favorites. Transfers were about 1,400,000 shares.

Tar Heel Farmers To Make Hay Crop While Sun Shines

State and Federal Departments Predictions on July 1 Call For Biggest Crop in History

Reflector Bureau.

Raleigh, July 18.—North Carolina's farmers will this summer make more hay while the sun shines than ever before. If estimates of the State and Federal Departments of Agriculture materialize.

Prospects as of July 1, were for the greatest crop in the state's history, the crop reporting service forecast.

Setting an all-time record, growers have planted 1,028,000 acres of hay this year, a six per cent increase over the 1937 crop, which amounted to 987,000 acres.

Growing conditions this year have been almost ideal, according to W. H. Rhodes, the state Department of Agriculture's chief statistician, and if there is no setback between now and cutting time the 1938 crop will likely exceed the 1937 by some 50,000 tons, he predicts.

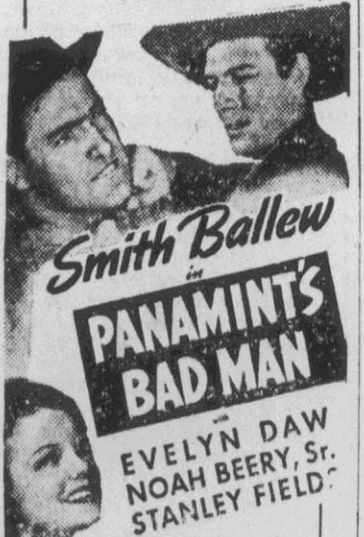

"The July 1 crop survey indicates a hay production of 874,000 tons, with an average yield of .85 ton per acre" said Mr. Rhodes. "This production, if realized, will be greater by 50,000 tons than that harvested last year, although the yield per acre in prospect is about the same as in 1937."

"Last month was ideal for the growth of all grasses and grass type crops, as abundance of moisture is a most favorable factor in its development. The condition of pastures as of July 1, averaging 92 per cent of normal for the state represents an improvement of eight per cent over pasture conditions a month previous to that date, and was ten per cent above July conditions last year."

Rhodes said that while it is too early to forecast yields of some hay crops, present prospects for all types of hays are excellent.

STATE PATROL WELL TRAINED

Tourists Responsive to Helpfulness Of Officers

(Editor's Note: This is another in the series of articles by local officials and civic leaders which the local committee Highway Patrol is publishing in co-operation with the Governor's Hospitality Committee for Pitt County emphasizing the needs for hospitality to visitors.)

Members of the State Highway patrol have been carefully trained in their duties as highway police officers. One of the principles upon which our activity is based is to be helpful to motorists in the use of the state highways.

We have found that tourists are most responsive and appreciative of friendliness and helpfulness of the patrolmen. There is no doubt but that we are in a position to add much to the pleasure of the visitors to our section. We can do this by being especially courteous to out-of-state tourists and that courtesy can be shown most effectively by our feeling and expressing a real interest in these guests as we come in contact with them and have numerous opportunities to assist them; thereby, giving these strangers concrete evidence that they are welcome and make them realize that this is a wonderful section and people, which will prolong their stay and cause them to return year after year.

While our main job is to see that the highways are properly used that the dangers of automobile travel

are lessened as much as possible, we have a further duty as uniformed representatives of the State of North Carolina, to properly represent the State in our contacts with guests from outside the borders of North Carolina. We cannot be true to the obligation unless we create a desire for other visits by them and visits by their friends and express to every visitor something of the welcome that North Carolina feels toward them.

We can express that welcome and hospitality in many ways. By doing unusual, and at times, very insignificant things for tourists we can be of service at times of distress. We can cheerfully give information about roads and give tips to be taken in this section. We can see to it that when we have parted from every visitor that we contact, unless our duty has required stern measures against them, that he has received personal good will from us and that he has had extended to him our expression of North Carolina hospitality.

Measles Epidemic Apparently Ended As Schools Closed

Twenty-Four Deaths From Disease during June Less than Half Number of M. Victims

Reflector Bureau

Raleigh, July 18.—End of the 1937-38 school term apparently was the beginning of the end for the measles epidemic which has raged in North Carolina during the first half of 1938.

At least, vital statistics for June showed only 24 deaths from the disease, less than one-half the number of victims in May, when a high of 51 was touched after a steadily increasing number of deaths each

month of the year. January had 16 deaths, the first month to show a startling prevalence of measles in serious form. December, 1937 had had but 5 deaths and November only 2. Therefore the deaths jumped to 21 in February, 48 in March, 46 in April and 51 in May; which with the June total of 24 no less than 206 for the first half of this year as compared with 25 in the first half of 1937, and only four in the entire first six months of 1936.

Health officials have not had a great deal to say about the measles outbreak, but it is known that they anticipated a sharp decline both in cases and deaths as soon as school ended, as the close association of children in the class rooms is particularly favorable to spread of the disease.

But while measles deaths declined sharply in June was no let up in the deaths from whooping cough, which has also been prevalent, something like epidemic form. Last month there were 32 whooping cough deaths, one more than in May, and six above last June's 26. Total whooping cough deaths for the first six months of 1938 was 124 exactly twice as many as in the corresponding period of 1937 when there were 62 such deaths. Through June, 1938 showed only 15 whooping cough deaths.

TAR HEEL GIRL AWARDED SUM

(Continued from page one)

hood" after having publicly charged that his wife "trapped" him into marriage while he was drunk, and then failing to uphold his allegations.

In awarding the separation, the justice made several references to "poor little rich girls" who marry "so-called nobility" and "drunken playboys" who possess fortunes which they did not earn and do not use for good purpose.
