

MINUTES OF THE STAFF MEETING OF THE PSYCHOLOGY DEPARTMENT

October 7, 1963

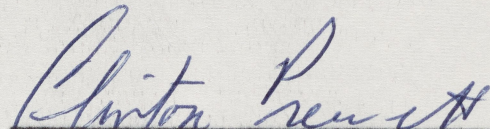

All staff members were present for this meeting which was devoted almost entirely to a presentation of the report of the Schedule Committee for the winter quarter.

Very brief reports were presented by Dr. Mandel, Chairman of the Brochure Committee, and by Mr. Graham, Chairman of the Curriculum Committee.

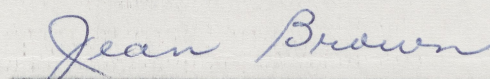

Dr. Griffith, spokesman for the Schedule Committee of Marshall, Gillis and Allen, presented the schedule for the winter quarter. After a long, agonizing, and tumultuous session the report was adopted subject to certain minor revisions.

This was a splendid in-service education meeting for the staff members in that, for perhaps the first time, it became clearly obvious to all class loads cannot be centered around the 10 o'clock and 11 o'clock hours and that considerable utilization of the building in the afternoons and nights will be necessary for the program to continue.

Dr. Prewett presented the latest information in regard to the new building and thanked the various committees for their dedicated work during the past month.

Clinton R. Prewett, Chairman

Jean Brown, Secretary
