

JUL 9 1971

MINUTES OF STAFF MEETING
Psychology Department

April & May, 1971

The total staff of the Psychology Department did not meet in a formal meeting during April or May, since no action was taken at the subcommittee meetings which required staff approval.

The Admissions Committee met four times during this period and the Personnel Committee met a number of times to discuss problems relative to a staff vacancy.

A number of called meetings of certain staff members were held during this time. The Committee on Research and Grants met once to discuss the proposals of Moore, Prewett, and Means and the North Carolina Psychological Association Advisory Committee (Dr. Prewett is President of the North Carolina Psychological Association) met twice during this time.

Clinton R. Prewett, Chairman
