GUAM DEFENSE IS SUPPORTED BY ROOSEVELT

Bill Authorizing \$5,000,000 Favored by President

VIEWS RELATED IN PRESS CONFAB

Declares, However, Improvement Not Necessarily Mean Fortifications

Washington, Jan. 20.—(AP)—President Roosevelt said today he favored the bill, authorizing \$5,000,000 for defense improvements on the island of Guam, but contended this does not necessarily mean fortifications.

In a long discussion with reporters of the item in the \$55,000,000 bill introduced yesterday in both houses of Congress the President also differentiated between authorizations and actual appropriations. He said an authorization does not necessarily mean that a proposed project ultimately would be carried to completion.

Mr. Roosevelt said a change in world conditions might permit abandonment of the whole thing.

Replying to a question, the President said his position was not changing. When asked if he favored fortifying Guam, the President asked if the pending bill provided for that.

His explanation, and it did not enter the President asserted that it provided only for deepening the harbor, for additional barracks for the small number of marines now on the island and improving landing facilities for planes.

The President talked to reporters a short while after it was authoritatively disclosed that the army proposed to double its present force of about 18,000 men in the Pacific Canal Zone to provide an adequate peace garrison.

This authoritative disclosure was made today after army officers, previously confined to the 20th Military Command, the War Department's plan to reinforce the vital waterway.

Beer Dealers See Bootleg Dangers

Reflector Bureau Raleigh, Jan. 20.—Bootlegging of beer is expected to be a large factor in North Carolina to lose a large amount of revenue in addition to being a tremendous competitive handicap to the dealers who want to pay their taxes honestly and in full. Mayor L. B. McLeander, representative of the beer dealers of the state told the joint Finance committee of House and Senate.

The Greenboro attorney was opposing the proposal of the Budget Commission to increase the tax on beer from one cent to one and a half cents per bottle.

He said the present method of collecting existing beer levies is inadequate and defective in that it permits bootleggers with faked bills of lading to points in other states to bring beer into North Carolina and distribute it without paying the tax.

He advocated the "crown tax" whereby each bottle of beer sold in the state would bear a distinctive mark showing that the tax on it has been paid.

Major McLeander cited to the committee statistics from other states designed to show that exorbitant taxes on beer, instead of bringing in greater revenue has, in fact, the opposite result.

He said that Mississippi, by increasing its tax, lost revenue, while in Texas, where taxes were reduced total revenues jumped.

He pleaded that beer be regarded just as any other product and that it not be singled out for special treatment.

(Continued on Page Two)

Transients

The city jail is being used more now for housing drunk and out transients than for locking up criminals.

Of the four persons booked at the police headquarters Wednesday, three were "sleepers" and the only person's name appearing on the blotter yesterday listed the same "sleeper."

The city has no means of taking care of transients who are unable to pay for a night's lodging and such people are allowed to sleep in the jail, being locked up just as prisoners. Officials feel this is a much better plan than having them roving the streets and looking for a box car or some other place to spend the night.

The "visitors" are turned out of the jail mornings and allowed to go on their way. They are not fed by the city.

QUITTING IN 'MUTINY' PROBE

Here are some of the witnesses who testified before a federal grand jury at Los Angeles investigating the charges against the first two members of the crew of the treasure-hunting schooner, Methia Nelson. The grand jury refused to indict the two. Above, Martha Bello, stepfather of the late Jean Harlow, and his bride, the former Evelyn Hesley; below, Richard Gulley, cousin of Anthony Eden, and Filomena Ronzy, maid of Countess Dorothy Di Frasco.

Employment Placements For 1938 Double 1937

NEGRO DIES AT STATE PRISON

Granville Man Pays Penalty for Robbery-Murder

Reflector Bureau Raleigh, Jan. 20.—A Negro died at the State Prison today for the robbery-murder of R. P. Moore, a storekeeper, last April 15.

A mask covered his face and he held his head over and for the first time at a gassing in North Carolina the witnesses did not see the facial contour of the dying man. Opinion of the witnesses was that the mask made watching of an execution much easier.

The Negro entered the death chamber at 11:01, was given gas 11:15. Dr. Felix Hightower, prison physician, said. The execution was delayed from 10:30 until 11 as prison officials refused to use some acid on hand for the gas generation and hurriedly secured some apparently more concentrated.

Deputy Sheriff W. T. Beasley of Granville county, who said he arrested Stovall in the Moore case, witnessed the execution. He said Stovall did not intend to kill Moore and that the Negro notified the man's family of the attack.

Forest service nurseries in Kansas produced 7,375,800 trees to be planted during 1938, officials estimate.

Nine Million, Not Seven Involved In Diversion

Reflector Bureau Raleigh, Jan. 20.—The budget appropriations bill calls for taking seven million dollars from the highway fund during the next two years but it is really nine million dollars of gasoline tax money that will be diverted, pointed out Clarence Stone, one of the legislative leaders against diversion. For some years there has been paid into the general fund, collected directly by the department of revenue and never going through the highway commission books at all, over a million dollars a year in the quarter-cent inspection tax. Only about one-tenth of it has been spent in inspection and testing work. This "diversion" has become an accepted policy is no longer met with serious protest.

Which explains the zeal of anti-diversionists to prevent adoption of a "permanent" revenue bill of any policy of diversion. They quote the old couplet: "Vice is a monster

as soon as a face. We first endure them pity, then embrace, then despise them. They are the same as the highway fund, collected for the purpose of the quarter-cent inspection tax. They fear will the proposed "sales tax" assessment against the gasoline fund.

The gas and oil inspection unit, a division in the department of revenue, last year operated on five inspection fees collected from keroline dealers, leaving all of the gasoline money to go into the general fund.

The state auditor's report for 1938 shows that this amounted to nearly a million dollars. Actual figures are as follows: Collected from gasoline inspection \$3,379,667, collected from keroline inspection, \$119,740.55. Expended by the inspection unit, \$122,187.77. This is left a net profit of \$3,257,480.55. Total general fund of \$978,927.44. Not (Continued on page five)

HOLT DEMANDS RECORD ON WPA BEFORE VOTING

Confirmation Or Rejection of Harry L. Hopkins Held Up

TALK PARLEY ON SURPLUS COTTON

Chairman Glass Sees No Hope of Reducing \$725,000,000 Relief Appropriation

Washington, Jan. 20.—(AP)—Senator Holt (D-Va.) demanded today that the Senate get a complete record of WPA activities before voting on confirmation of Harry L. Hopkins as Secretary of Commerce.

"The only reason for the elevation of Hopkins to Secretary of Commerce is his handling of WPA," the youngest Senator said as the Senate started its second day of debate on Hopkins.

Before the session started, Majority Leader Barkley (D-Ky.) said he and Senators McKellar (D-Tenn.) and Sheppard (D-Tex.) would answer criticism of Hopkins.

"I am not trying to delay a vote," Holt said. "But the people and the Senate have a right to know something about the conduct of WPA."

Holt, who talked for three hours yesterday, charged today that more than one million persons were added to WPA payrolls during the year before the November elections.

Meanwhile, Chairman Glass (D-Va.) of the Senate Appropriations committee said there would be no chance to reduce the \$725,000,000 relief appropriation bill in the Senate.

The veteran Virginian said he favored cutting the allocation, but it was evident there would be too much opposition to permit this.

Glass said he would concentrate his efforts there against any increase.

Also, President Roosevelt expressed the belief that an international conference to work out the problem of how to dispose of surplus cotton would be a very good thing.

He told a press conference that latest reports on the proposed wheat conference were that it was going very well in aiming for control of world surpluses.

He said he thought the same might be worked out for cotton.

With most of his New Deal social and economic program enacted, the President reached the middle of his second term today to find a growing independence in Congress and uncertainty clouding the outcome of his efforts for a united liberalism.

The biggest vote in history ushered him into his second inauguration in the ratification of the new constitution. He was elected by the biggest Democratic majorities ever in Congress, but little disputed.

Many persons talked of an era of good feeling, similar to that which followed James Monroe's nearly unanimous election in 1820.

Bids Called For On Street Improvements

The city of Greenville has called for sealed bids for the construction of street improvements, the proposals to be opened at 8 o'clock on the evening of February 22, regular meeting night of the Board of Aldermen.

The work contemplated will include approximately 8,500 square yards of bituminous surface treatment together with the necessary grading and conditioning of the sub-grade.

Meeting Set Tonight For Grocers In City

A meeting of all grocers and marketeers in Greenville has been called for 8 o'clock tonight in the offices of the Merchants Association in the post office building.

In announcing the meeting, Mrs. Cora S. Powell, executive secretary, stated the meeting would be open to all grocers and marketeers, whether they are members of the association or not.

The purpose of the session will be to discuss common problems faced by the certain group and will be in the form of an open forum.

NEW UNIFORMS FOR HIGH BAND

Start Move to Send Band to New York World's Fair

The Greenville High School band is to get brand new uniforms and the opportunity to parade at the World's Fair in New York on North Carolina Day in June as a result of action started by a group of local business men here today.

At a luncheon meeting at the Proctor hotel the group underwrote the order for the sixty uniforms costing \$1,500 and appointed a committee to seek an appropriation from the Board of Aldermen to defray the expenses of the band's trip to the World's Fair to take part in the North Carolina parade.

Joseph M. Taft was elected permanent chairman of the group to be known as "Friends of the High School." J. H. Waldrop was elected secretary-treasurer and P. L. Goodson and J. C. Waldrop were appointed additional members of the executive committee to handle solicitation of funds to pay for the uniforms. A World's Fair Committee to seek a city appropriation for the band's trip to New York is composed of R. M. Garrett, J. H. Rose, Dr. K. B. Pace, E. G. Flanagan and D. J. Whigham.

Mr. Flanagan, who is a member of the committee on the North Carolina exhibit of the World's Fair, told the group some of the plans to advertise this state to the world through the World's Fair and emphasized it would be a great advertisement for Greenville if its high school band appeared in the parade.

In underwriting the cost of the uniforms the group decided upon a plan to get sixty individuals or business firms each to purchase a uniform for the band and eighteen such purchases were made at the meeting.

These donating the sixteen uniforms today were as follows: E. G. Flanagan; Guaranty Bank and Trust Co.; B. M. Garrett; J. H. and J. C. Waldrop; Joseph M. Taft; J. H. Blount; D. J. Whigham; Dr. K. B. Pace; J. G. Lauterbach; J. H. Rose; J. B. Kittrell; C. P. Earhart and J. C. Penney; P. L. Goodson; Dr. John L. Winstead; W. D. Turner; W. H. Woodard; H. A. White and Sons; Coca Cola Bottling Works.

Persons or firms who would like to donate one of the uniforms, the cost of which is \$25, will please contact Joseph M. Taft or one of the committee members at once. All persons who do not feel that they can donate the full cost of a uniform but would like to make a donation toward the purchase of a uniform are likewise urged to contact one of the committee members at once.

INEBRIATE FORGETS WHERE HE LEFT CAR

Janesville Wis. (AP)—Police won't reveal his name, but they say others would be as forgetful and as honest as he.

The man walked into the police station all by himself.

"I can't find my car," he told the desk sergeant. "I got drunk and don't know where I left it."

After recovering from this frank confession the officers helped him find the car. They said they wish more intoxicated persons would forget where they leave their automobiles instead of trying to drive them.

Reflector Bureau Raleigh, Jan. 20.—Commissioner of Revenue A. J. Maxwell quit his accustomed role of hardboiled tax collector and pedagogue yesterday raising him enough late yesterday afternoon to become, briefly at least, an apostle of safety and an evangelist for the doctrine of better roads.

He appeared before the Joint Appropriations committee to explain the budget requests of the Highway Safety division and the Highway patrol and tarried long enough to answer leading and pointed questions from committee members primarily interested in such issues as diversion.

Text of the Maxwellian discourse might well have been "Let there be life" though he didn't let it down before delivery of his preachments.

He described North Carolina's record for highway safety as "unenviable" and pointed out that de-

WOULD IMPOSE STATE TAX ON POWER ENERGY

Quarter Cent Levy On Each Kilowatt Hour Proposed

NEW LIQUOR TAX ALSO SUGGESTED

Page, Bladen, Would Impose Levy Teach "The Evils of Alcohol" in Schools

Raleigh, Jan. 20.—(AP)—The legislature got from Representative Underwood of Hertford today a bill which would impose a new tax of one-quarter of a cent per kilowatt hour on all electrical energy produced or sold in the state by public utilities.

The measure would seek to make the tax applicable since 1935.

The House held the spotlight in the day's doings, the Senate meeting only a few minutes and receiving one new bill.

Representatives Cherry of Gaston and Stone of Rockingham, introduced three bills in the House to amend the law on unemployment compensation so as to change the scale of benefit payments; provide for the "employer-merit-rating" system of segregation of funds; and make provisions for seasonal industries.

From Representative Page of Bladen came a proposal to levy a tax of two and a half per cent on the gross sales of liquor with the money to go into a special fund to be used to teach "of the evils of alcohol" in the public schools.

A proposal also was sent in to provide for payment of Confederate pensions in 12 monthly installments, instead of semi-annually.

The Robinson bill to relieve car owners and operators from liability for injuries suffered by hitch hikers and voluntary passengers was taken from the unfavorable calendar and re-referred to committee.

The House enacted into law the Gardner bill which places receivers and other fiduciaries under the general statutes on embezzlement.

The House education committee ordered a public hearing January 27 at 11 o'clock, on the Barfoot bill to permit Indians in Sampson county who have finished school to attend the Cherokee Normal school in Robeson county.

The committee agreed that provision to make an adequate number of preachers available in years following epidemics should be incorporated in the school machinery as it studied the Finch-Jarvis bill to amend laws on teacher allotments.

Math Instructor Assumes Position

William A. Cordrey, Ph.D. from Peabody College, Nashville, Tenn., is joining the East Carolina Teachers College mathematics staff this term, according to Dr. Herbert ReBarker, head of the department. He will begin his work next Monday.

This addition to the staff had become imperative because of the pressure of a steadily increasing number of students and classes in mathematics.

Mr. Cordrey did his undergraduate work in Conway State Teachers College in his home state of Arkansas, and his advanced study at George Peabody College. He has had thorough training in both mathematics and physics.

At Peabody he served as president of the Psi chapter of Phi Delta Kappa, social fraternity, and as treasurer of the chapter there of the honorary educational fraternity Kappa Delta Pi.

Mr. Cordrey comes to his post here from Lambuth College, Jackson, Tenn.

Revives Old Fear Of Consolidation

Reflector Bureau.

Raleigh, Jan. 20.—The old fear of county consolidation found expression in the joint meeting of the House and Senate library committees yesterday. That and the other bugaboo of duplication prevented any action on the request of the State Library Commission for an appropriation of \$300,000.

Developing as the champion of public libraries were Senators Seapark of Gaston and Gardner of Cleveland, both of whom boasted of the five libraries in their communities. Senators Ward of Duplin and Sutton of Lenoir, raised the issue of duplication with school libraries and were not willing to recommend expenditure of any money for public libraries, unless they were handled in close cooperation with existing school facilities.

It was when Mrs. Beal, head of the library commission, proposed the library grouping counties together for the maintenance of adequate library service, that Senator Ward asked if that were not to be the first step toward consolidation of counties for all purposes. It was explained that the \$300,000 requested was to be used as state aid, and not as state maintenance, and that it could only be used where counties or towns actively participated in financing the service. In the case of many small counties, no one of them could afford a sufficient appropriation to justify installing a library; but by the use of "bookmobile" delivery, several of them jointly might well afford it. It was pointed out that the five counties of Currituck, Camden, Pasquotank, Perquimans and Chowan, but only one-third the population and one-fifth the taxable wealth of Guilford. A centrally located library was suggested. Answering that the people down there would rather not read than to read books emanating from another county, especially if there was any likelihood of coming counties for other purposes.

Scholars have found many similarities in the deponent and Basque languages.

There's A Beauty Suggestion In The Lifting of an Eyebrow

ORIENTAL

PIQUANT

Sigrd Gurie

CRESCENT

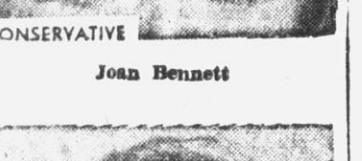

DAINTY

Paulette Goddard

DEBUTANTE

CONSERVATIVE

Joan Bennett

HOLLYWOOD

STUDIOUS

Carol Lombard

By BETTY CLARKE (AP Feature Service Writer)

Personally eyebrows may sound like a gas. But if you'll do a little experimenting with an eyebrow pencil you'll soon find that changing the shape of your eyebrows also changes the expression of your eyes. And your eyes, says Harry M. Spiro, head of the New York State Handdressers' and Cosmetologists' Association, are your most important feature.

There are two factors to keep in mind when you choose a new eyebrow, he says: the length and untrimmed your face.

If your face is long and narrow you probably will want to lengthen the eyebrows, to make your face look broader. If your face is too broad, you'll achieve an illusion of comparative thinness by keeping the brows fairly short.

Experimenting with three or four styles with eyebrow pencil before you make up your mind, is a good idea. There are eight styles of eyebrows Spiro defines thus:

ORIENTAL—The brow is low at the inner points, high at the outer

ends. Makes eyes appear longer. **PIQUANT**—More or less the opposite of the oriental; slightly thick or near brow; slants down.

CRESCENT—Leaves as much space as possible in the middle between brow and eye. It's carefully arched, leaving ends close to nose. Line may be drawn down a little (lengthened) at outer ends.

DAINTY—Short, sharp arch, makes face look thinner. Center of arch is thicker than the rest.

DEBUTANTE—Line is thin in comparison to the conservative.

CONSERVATIVE—Scrubby ends are removed but the natural contour is not changed much.

HOLLYWOOD—Near the nose, the brows are left thick. Ends are tapered as much as possible.

STUDIOUS—Brows appear to go straight across and drop at the corners. Makes the eyes look deeper.

HOUSEWIVES HINTS TO

Offer a little crust forms on top of bread dough when it is set to rise. To help prevent this, lightly spread the dough with a thin coating of melted fat applied on a pasty brush.

This is the way to keep rice hot. After it has boiled, drain, rinse in warm water and return to a kettle. Cover with cloth and set kettle in pan of hot water over low heat. The rice will continue to swell and keep hot and flaky for ten minutes. You can keep macaroni or spaghetti hot this same way.

Here is something to serve after a skating party or any outdoor exercise. Brown, split frankfurters in a small amount of fat heated in frying pan. Spread with chili sauce or catsup and tuck into split toasted rolls which have been well buttered. These are tops when served with hot cocoa or coffee. Have plenty on hand.

To lessen the cooking time for baked custard heat the milk to "smoking" in a double boiler before adding it to the rest of the ingredients.

MODES of the MOMENT.

To wear down south right now, and up north again next summer, an American designer makes this short-sleeved coat of turquoise suiting linen and sends it out over a turquoise linen dress dotted in brown. Here it is worn with a natural colored Breton straw hat banded in brown ribbon.

YOUR SCREEN TEST

(By the AP Feature Service)

A regular movie-goer who keeps up with his reading about the stars should be able to score at least 60 on this test. Each question counts 20, a grade of 60 is average, 80 excellent, and 100 colossal.

1. At least four Hollywood actresses, one of whom is shown here, use only one name. Can you name two of them?

2. What important announcement was made recently by Douglas Fairbanks, Sr.?

3. Name the movie star who for seven years (ever since it was started) has been selected by the national exhibitors' poll as one of the year's best draws at the boxoffice.

4. What actress, within 18 months starred in two pictures, each depicting almost the entire life of the same queen?

5. What is the name and nationality of the actor selected to succeed Warner Oland in his characterization of a well known Chinese detective?

Gas Gas All Time
Mrs. Jas. Eller says: "Gas on my stomach was so bad I couldn't eat or sleep. Gas even pressed on my heart. Adlerika brought me quick relief. Now I eat as I wish, sleep fine, never feel better."

ADLERIKA

A car that SAVES DOLLARS without PINCHING PENNIES ...

ECONOMY is one famous Ford word. **Quality** is another. And no Ford car has ever linked the two more clearly than the present Ford V-8! It marks a new high in fine transportation at low cost.

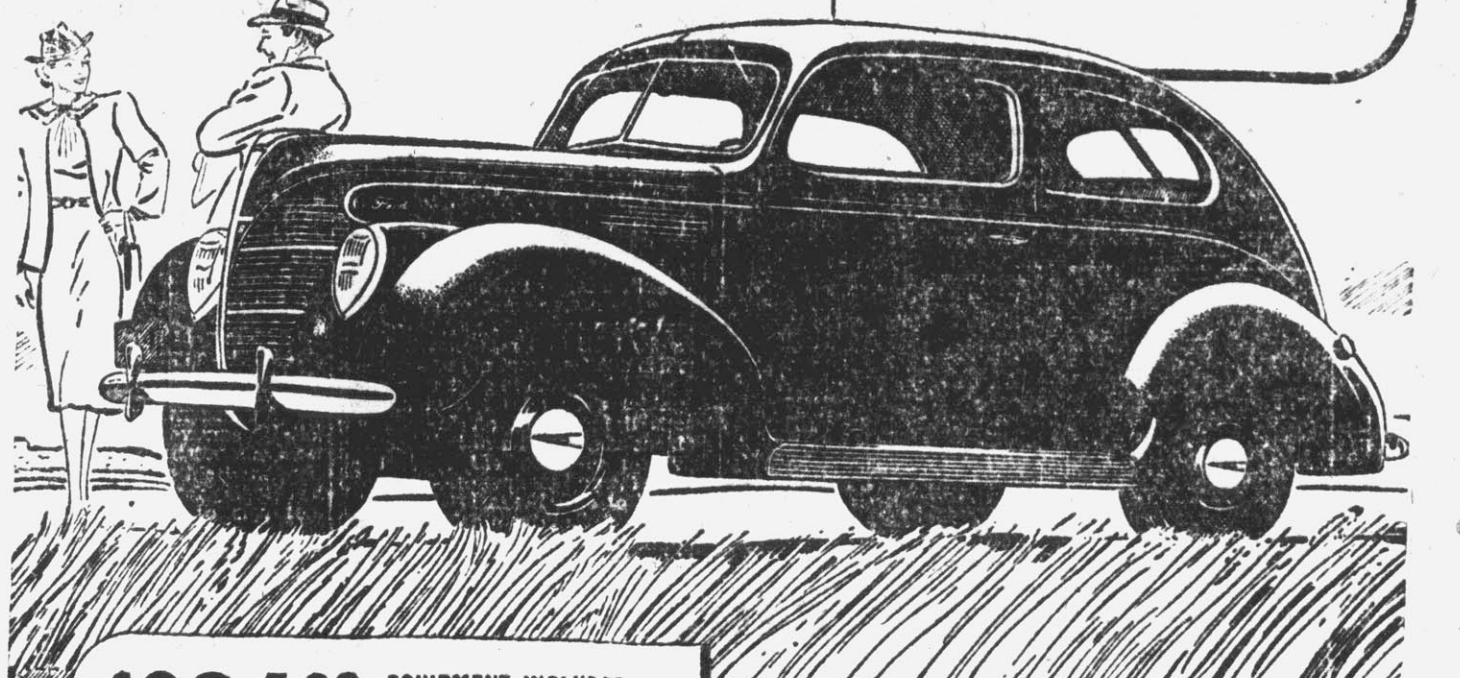

Its price is lower than Ford prices a year ago. **Operating economy** is now a matter of record with over 5 million Ford V-8 owners. **Low upkeep cost** is doubly assured—once by the stamina of Ford parts, and again by low cost Ford service.

For over-all economy, no Ford car has ever equalled this one. And with its thrift goes **quality**.

It is big, good-looking, easy-riding. It has fine appointments, generous luggage space, big hydraulic brakes. Passengers enjoy a quiet ride, as well as triple-cushioned comfort.

The Ford V-8 comes in 3 body types, each with your choice of thrifty 60 h.p. or brilliant 85 h.p. V-8 engine. Like all Ford-built cars, the Ford V-8 includes in its price much desirable equipment which isn't listed and charged for as extra.

- STYLE LEADERSHIP**—The luxury cars of the low-price field.
- V-TYPE 8-CYLINDER ENGINE**—Eight cylinders give smoothness. Small cylinders give economy.
- HYDRAULIC BRAKES**—Easy acting—quick, straight stops.
- TRIPLE-CUSHIONED COMFORT**—New flexible roll-edge seat cushions, soft transverse springs, four hydraulic shock absorbers.
- STABILIZED CHASSIS**—N8 front end bobbing or dipping. Level starts, level stops, level ride.
- SCIENTIFIC SOUNDPROOFING**—Noises hushed for quiet ride.
- LOW PRICES**—Advertised prices include many items of desirable equipment.

If you are suffering from a miserable chest cold, try this: Massage throat, chest, and back with Vicks VapoRub at bedtime. Then spread a thick layer on chest and cover with warm cloth. VapoRub goes right to work to bring relief—two ways at once. (1) Direct through the skin like a poultice; (2) Direct to the irritated air-passages with its medicated vapors. This poultice-vapor action loosens phlegm—clears air-passages—breaks tendency to cough—relieves local congestion. Often, by morning the cold is over. **VICKS VAPORUB**

BIRTHS EXCEED DEATHS IN N. C.

Only 33,000 Deaths in 1938 and 80,000 Births

Reflector Bureau
 North Carolina more than doubled deaths during the year, according to a recapitulation of monthly reports from the Bureau of Vital Statistics of the State Board of Health.
 According to this recapitulation there were 80,000 births against 33,765 deaths in 1938.

Last year's deaths showed a decline of 145 from 1937, with births showing a similar, though smaller, downward trend from the previous year. The 1937 total were 34,170 deaths and 80,644 births.

By Months the births of 1937 and 1938 were:

1938	1937
January	6,395 6,108
February	6,271 6,159
March	6,800 6,861
April	6,498 6,662
May	6,785 6,992
June	6,910 7,197
July	6,120 6,270
August	6,937 6,747
September	6,919 6,936
October	7,137 6,815
November	6,053 6,423
December	7,728 7,474
Totals	80,603 80,644

The big increase of about 250 births in December, 1938 over the last month of 1937 almost put the year's total up to that of the preceding year.

Deaths by months for 1938 and 1937 were:

1938	1937
January	3,098 2,796
February	2,918 2,865
March	2,968 3,277
April	2,596 2,932
May	2,862 2,870
June	3,099 2,858
July	2,635 2,598
August	2,703 2,578
September	2,412 2,486
October	2,779 2,681
November	2,462 2,767
December	3,233 3,379
Total	33,765 34,100

Pneumonia was the leading cause of death during the year, according to the recap, this disease claiming 2,777 victims during the period. For 1937 the leading cause of death was pneumonia, with 2,777 victims during the period. For 1937 the leading cause of death was pneumonia, with 2,777 victims during the period.

Second among death causes was cancer, with 1,907 victims, distributed more or less evenly throughout the 12 months in contrast to the sharp variations in deaths from pneumonia a seasonal ailment.

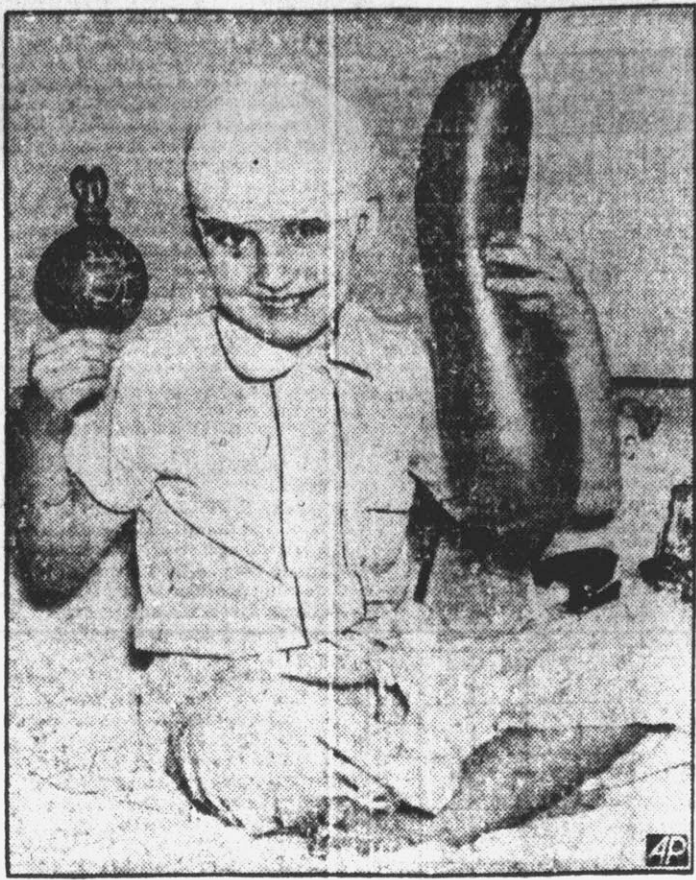

August and December each showed 137 cancer deaths, the top figure while the low was touched in October with 141.

Third highest death toll was taken by pulmonary tuberculosis, with 1,723 deaths.

Home deaths in 1938 numbered 344, almost one a day in the state, which was a decrease from 1937's 361. Suicides, on the other hand increased to 355 from the 312 shown in 1937.

Missouri farm lands now are selling for approximately 45 per cent of the 1927 price, a survey by the college of agriculture indicated. Average sale price in 1927 was \$59 an acre and in 1938 it was \$26.

CANCELS DEATH RENDEZVOUS

All concerned agreed that Hortense Holmes' death was only a matter of hours when meningitis developed following an operation for a brain abscess which had blinded and partially paralyzed the nine-year-old child. Her burial dress was prepared, an undertaker was engaged. Then Hortense suddenly began to recover. Here she is shown in an Atlanta hospital, happy because the doctor has promised she soon can go home to Pembroke, Ga.

A POLITICIAN'S TOUCH was displayed by French Premier Edouard Daladier on his arrival at Bastia, Corsica, during a triumphal tour of French empire outposts. Daladier kissed this Corsican girl, one of three who thus greeted him and presented him a gold watch and some carnations. Corsica is one of the islands mentioned in the Italian colonial demands.

NINE LIVES HAD 'VELMIE' after this dog belonging to the J. E. Saunders of Bayswater, England, had helped that many puppies—believed an unusual number for a bulldog.

THE MERIT (?) SYSTEM

The House of Representatives "without a dissenting vote," yesterday bowed to the will of the politicians and exempted all employees of the Unemployment Compensation Commission who have served six months, from standing the merit examinations to be held tomorrow. If all the present employees, regardless of competency, were to be blanketed into the service without having to prove their ability to hold their jobs, what was the use after all of putting in the merit system? Each day is proving that it is better in this state to be lined up "right" politically than to have honesty, ability and character.

A COUNTRY DOCTOR, Dr. Harriet McGraw (above) visited Washington, D. C., to meet with Mrs. Eleanor Roosevelt in connection with the annual infantile paralysis drive. Dr. McGraw, as the only physician, since 1919, in an 80-mile-square area surrounding Tryon, Neb., offered her aid for infantile paralysis fund-raising drive. With her is Keith Morgan, committee chairman.

Cofer Trial Witness
Mrs. Carrie Stevens of Macon, Ga., the state witness said by police to have furnished information leading to arrests in the slaying of the Rev. Dr. Charles H. Lee, Episcopalian rector of St. Simons Island, Ga., here is shown on the steps of the county courthouse at Brunswick, Ga. On trial at Brunswick is George Cleburn, Negro accused of the slaying. Scheduled to go on trial next week are Henry J. and W. H. Cofer of Brunswick, island resort operators indicted in connection with the slaying.

ONCE IN FOUR YEARS IS ENOUGH

The Page bill providing for a session of the legislature every four years instead of every two years, probably doesn't have the chance of the proverbial snow-ball in the hot place, but after all we believe that the plan is worth a trial. Already many of our county offices have been placed on the four-year plan, and now if we could get all state and national offices, including the election of congressmen on the four years basis and do away with our present system of an election every two years, we believe we would be much better off. Of course such a plan would work a hardship on the petty politicians who thrive on primaries and elections and those who receive their biennial handout in the way of jobs in the legislature, but we believe that the fixing of state and national policies on the quadrennial basis instead of the present biennial basis would have a stabilizing effect upon business as well as save the state a lot of money.

SHORT SHOTS

By HENRY AVERILL and LYNN NISBET

Reflector Bureau
Raleigh, Jan. 20.—Says the erudite and self-confessed infallible News and Observer in its "Under the Dome" column:

"Most of the people agitating for junking the gas chamber and returning to execution never witnessed an execution. They were influenced by a wave of sensationalism, now happily on the decline, that sprang from immature or deliberately sensational reporting."

Probably the most influential writer on the subject of execution methods is, and has been for a long time, Tom Best, the Greensboro News-Raleigh correspondent who has seen more executions and done more constructive writing in North Carolina than the entire staff of the News and Observer combined.

This corner wonders if Tom's was the writing to which Under the Dome refers as "immature" or was Tom merely "deliberately sensational."

The Best experience includes covering executions in North Carolina for 29 years, covering every North Carolina legislature since 1903, and service as city editor of

the News and Observer for two and a half years.

But inasmuch as he does not now adorn the pages of the News and Observer, he must, of necessity be either "immature" or "deliberately sensational" in the eyes of that vastly-too-self-satisfied journal.

And speaking of sloppy reporting, it is worth noting that the News and Observer's aggressive staff first proclaimed that there is an effort to the support of the twelfth grade and education, then turned round and attempted to portray the effort as abandoned because started by the liquor interests; when as a matter of fact the failure of News and Observer reporters to realize that all liquor and beer taxes automatically go to the general fund was alone responsible for the original story. No other paper or reporter fell into such an obvious error.

The biennially provocative, always alluring, and seldom profitable Slot machine is edging into the assembly picture. A bill may be expected within a few days providing for legalizing "games of skill, which do not pay off." It will be watched closely by anti-slot boys, proponents of the measure, however, are willing to promise a quarter million dollars for the general fund if the bill is passed, and the harassed money committees may risk one eye on it.

Only four states rank below North Carolina in ratio of public debt and ability to pay it, according to a statement made by Rupert Pickens of High Point before the library committee hearing yesterday.

Public hearings scheduled today on bills amending existing laws concerning support of illegitimate children and prostitution in bastard cases attracted some attention. Believed to be inspired by specific cases, the bills are statewide and if enacted into law will make the lot of these unfortunates more bearable.

"That red-headed Texas governor has something on the ball" remarked an anti-sales taxer this morning. He proposes a sales tax what is a sales tax, and if such a law were proposed in North Carolina lots of these big fellows who talk so much about making everybody pay some tax, would squawk louder than Gabriel.

Governor O'Daniel on Wednesday proposed that the Texas legislature adopt a 1-6 per cent "transaction tax" on financial old age pensions which he promised in his campaign. The tax would apply to every business transaction—real estate sales as well as the sale of a 6 pound bag of flour.

Establishment of one of the 11 national aviation schools at State College is particularly pleasing to the sponsors of an east-west mail air route across North Carolina.

What Is Your News I. Q.?

By The AP Feature Service

Each question counts 20 each part of a two-part question. 10 A score of 60 is fair, 80, good.

1. This is the Berghof. Where is it and how does it figure in the news?
2. How much did President Roosevelt say would be required for the new budget?
3. Is Bryan Grover (a) the Englishman who flew to Russia for his wife, (b) head of the New York world's fair, or (c) the real name of Pitcher "Lefty" Grove?
4. How did Spanish Loyalists meet the Insurgent offensive against Barcelona?
5. What congressional post is held by William B. Bankhead of Alabama? By Sam Rayburn of Texas?

ADMINISTRATOR'S NOTICE

Having this day qualified as Administrator of the Estate of J. I. Allen, late of Pitt County, North Carolina, this is to notify all persons, having claims against the estate of the deceased to file the same duly itemized and verified with the undersigned administrator at Greenville, N. C., Route No. 1, on or before twelve months from this date.

NOTICE OF SALE OF LAND UNDER MORTGAGE

By virtue of the power of sale and authority contained in a certain deed of trust executed on the 11th day of December, 1937 by L. E. Wilson to H. L. Jenkins, Trustee, and which deed of trust is duly recorded in Book E-22, page 266 of the Pitt County Registry securing certain indebtedness therein described. And whereas there has been default in the payment of the indebtedness secured in said deed of trust, and demand for foreclosure having been made by the holder of said indebtedness; the undersigned Trustee will offer at public sale before the Court-house door in Greenville, N. C., on the

23rd day of January, 1939
at 12 o'clock, noon

the following described tracts of land:

FIRST TRACT: Being in Winterville Township, and beginning at a stake on the road, corner of lot No. 2, and runs with the line of lot No. 2 up an avenue N. E2-1-2 W. 1633 chains to a stake, a corner of lot No. 2 in front of the J. L. Nobles house; then running with a line of lot No. 2 N. 61-2 E. 730 chains to a ditch, a corner of lots Nos. 3, 4 and 5, then with the line of lot No. 4 N. 30 East 1433 chains to a stake on a ditch; thence with said ditch N. 7 W. 230 chains to the new road; then with the new road S. 81 E. 730 chains to the old road; S. 79 E. 600 chains to an E. 600 chain corner of the hard surfaced road; then with the road S. 14-2 W. 19 chains to the beginning, containing 31.00 acres.

SECOND TRACT: Being in Winterville Township, and beginning at a corner of lot No. 7 in Winterville Township, and runs with his line N. 32-2 E. 730 chains to a stake on a ditch; thence with said ditch N. 7 W. 230 chains to the new road; then with the road S. 81 E. 730 chains to the old road; S. 79 E. 600 chains to an E. 600 chain corner of the hard surfaced road; then with the road S. 14-2 W. 19 chains to the beginning, containing 31.00 acres.

This is the 22nd day of Dec. 1938
H. L. JENKINS, Trustee
Jubus Brown, Atty.
Dec. 23-30-Jan. 6-13-39.

NOTICE OF SALE OF LAND UNDER MORTGAGE

By virtue of the power of sale contained in a certain mortgage executed by Moses Staton and wife Cora Staton to L. C. Lock on the 11th day of February, 1929, and recorded in Book Y-15, page 564 of the Pitt County Registry securing a note therein described, and default having been made in the payment of said note as in said mortgage provided, the undersigned mortgagee will on the

30th day of January, 1939 and before the court house door in Greenville, N. C., expose to public sale the following described tract of land:

Lying and being in Greenville Township, Pitt County, North Carolina and on the North side of Tar River, three quarters of an acre of land adjoining the Ed Fleming Farm, and on the North side of the Greenville and Washington Road, five and one-half miles Northeast from Greenville, N. C.

Terms of sale cash, and sale made to satisfy said mortgage.

This the 28th day of December, 1938
L. C. LOCK, Mortgagee.
Jubus Brown, Atty.

A Three Days' Cough Is Your Danger Signal

No matter how many medicines you have tried for your common cough, chest cold, or bronchial irritation, you may get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with any remedy less potent than Creomulsion, which goes right to the seat of the trouble and aids nature to soothe and heal the inflamed mucous membranes and to loosen and expel germ-laden phlegm.

Even if other remedies have failed, don't be discouraged, try Creomulsion. Your druggist is authorized to refund your money if you are not thoroughly satisfied with the benefits obtained. Creomulsion is one word, ask for it plainly, see that the name on the bottle is Creomulsion, and you'll get the genuine product and the relief you want. (Adv.)

LIFE AFTER 40 years of marriage holds but the pleasantest thoughts for Joseph Lhevinne and his wife, Rosina (above), who observed their 40th wedding anniversary by giving a concert in New York and playing many of the piano duets for which they're famous. The Lhevinnes first met at the Moscow conservatory as children and later won its highest musical honors.

or this notice will be pleaded as a bar to any recovery thereon.

All persons indebted to said estate will please make appropriate settlement with said administrator.

This the 5th day of January, 1939.
C. E. MANNING, Administrator of the Estate of J. I. Allen.
Harding & Lee, Atty.
1-6-39-11w67ms.

WITH THE COURAGE OF HER CONVICTIONS, wealthy Mrs. Harry Bijur marches with pickets in front of the fashionable New York building where she occupies a nine-room apartment. She denies any "red" leanings, says she'll help the men until they're put back to work. The signs carried by the pickets refer to the N. Y. state banking department which operates the building. Mrs. Bijur tells her friends. She and her husband have spent over \$3,000 feeding the more than 20 striking employes since the men were called out two months ago.

OFFER RELIEFS FOR HEADACHE

Two Bills Offered Could be so Termed Properly

Reflector Bureau
Raleigh, Jan. 20—Two bills offered to the house of representatives by Page of Bladen yesterday might each be designated "An Act for the Relief of Headaches in North Carolina." One would take pine tar derivatives out of headache powder manufactured or sold in the state, and the other provides for submission of a constitutional amendment fixing meetings of the legislature every four years instead of two, as at present.

The first bill, very short, simply amends the pure drug act of 1935 by adding "acetanilide" to the drugs which may not be used in any sort of remedy, patent or proprietary, made or offered for sale without being clearly marked as poison. The "poison" word in the bill is but the high-brow name for lowly pine tar, a present important ingredient in many headache powders sold at drug stores and filling stations.

The constitutional amendment bill goes much more into detail in suggesting how headaches may be relieved. If the amendment were accepted to the state constitution, the general assembly would consist of the same number of members as now in both houses, and they would be apportioned on the same basis. But they would be elected only at the same time as the governor is elected and would hold office for four years, being ineligible for re-election.

In support of the quadrennial idea, the scrapping member from Bladen, points out that the trend is toward longer terms for all other officers. The 1935 legislature lengthened terms of registers of deeds, treasurers, and other non-constitutional officers from two to four years, and substituted an amicus which was approved by the people last November increasing sheriff's and coroners' tenure to four years.

Japan's campaign against Westernization of its women recently reached the munitions industry. Several companies discharged all women workers who had permanent waves.

A bumper rice crop of 3,312,000 bags was shipped from Port Houston, Tex. wharves in 1938. Officials estimate the crop was worth \$500,000 to rice farmers of the Gulf coast.

Goodbye, Harvard

Feeling a bit sad over having to leave Harvard after many years as law professor, Felix Frankfurter is shown in his office on the campus as he prepared to leave for Washington following his confirmation by the Senate as Associate Justice of the United States Supreme Court.

Women In The News All Of These Have Troubles

ECONOMIC

One of the hundreds of sharecroppers camped along the road near Sikeston, Mo., in a mass demonstration against the sharecroppers' low economic status.

ADOPTED

Mrs. Harry Bijur, who has a 9-room apartment on swank Central Park West, in New York, joined the picket line with employees of the building. The seventh-generation New Yorker has fed the strikers two months and is "going to keep on helping until they're put back to work."

POLITICAL

Alice Lee Jemison, Seneca Indian, sobbed as she appeared before a Senate committee to object to the appointment of Felix Frankfurter to the Supreme Court. She asserted Frankfurter belonged to an organization that's forcing communism on the Indians.

RACIAL

Ema Schulein leans over her sister-in-law, Bertha Schulein as they arrive in New York to spend their old age with sons who have homes in the United States. Both women are refugees from Vienna.

Iowa in 1935 had the greatest number of horses, with 902,000. Minnesota and Illinois were tied for second with 746,000 each.

The United States horse population in 1935 amounted to 11,858,000 animals.

WANT ADS PAY

NINE MILLION, NOT SEVEN, INVOLVED IN DIVERSION

(Continued from page one)
diversion in the sense that it is taken from some other fund and placed in the general anti-diversionists points out that it is essentially diversion, since it is money paid by users of gasoline for a specific purpose, and is being used for another purpose. The road folks never get a chance at it, and their only interest in bringing it to the diversion argument is to show that a precedent once established is hard to break.

Another angle is that a great deal more of the inspection money collected could be profitably used in the work for which it is levied. Officials of the division admit that they do not need the whole million dollars. Strange as it may seem, they admit that they could not use it all. Twelve thousand filling stations, ranging from one to ten pumps each, and some forty thousand and kerosene dispensing pumps, require a lot of checking to see that the gasoline or kerosene sold is of the purity claimed by the seller. Sixteen inspectors and ten chemists can hardly keep up with it, though all parties agree that the division has done a good job. Another hundred thousand dollars would be well

spent and the users of gasoline would be greatly benefited by the increased efficiency of the inspection service. If given that, there would be little protest at use of the rest of the money somewhere else.

Indications are that the inspection tax diversion is going to have a large place in forthcoming debate on the question of taking more and more money from gasoline revenue and applying it to general state expenses.

EMPLOYMENT PLACEMENTS FOR 1938 DOUBLE 1937 TOTAL

(Continued from page one)
national in scope. Names are kept secret by the office, all orders, both by employer and employee, being designated by numbers. Mr. Cherry can cite numerous cases where persons have been found better jobs or better positions. Private employment is divided into four classes and each division, except agricultural workers, showed a decrease last year over 1937. The professional and commercial division, including administrative and supervisory workers, sales persons (inside and outside), handymen (retail stores), clerical workers and battery men (garages), placed 61 persons last

year, compared with 32 in 1937. The domestic service division, including personal service (domestic, institutional and outside) and maintenance secured jobs for 379 in 1938 and 123 in the previous year.

The industrial division placed 1,822 in 1938 and 457 in 1937. The division includes tobacco factory workers, skilled and unskilled, fertilizer factories, laundries, skilled and unskilled construction workers, saw mill and planing mill employees, coal and wood yard workers and food manufacturers.

The agricultural division, only one to show a decrease in 1938, provided jobs for 112 last year and for 230

the year before.
In addition to the private bona fide placements, the agency found jobs for 341 public workers in 1938 and for 239 in 1937. These placements chiefly were for WPA and PWA projects and for which the agency takes no credit. All persons employed on sub projects, however, are required to be registered with the employment bureau.

"We consider it a free service of real value to both the employer and the employee," declared Mr. Cherry adding that many in both classes were beginning to use it more and more.

NOTICE OF SALE OF CITY PROPERTY

Under and by virtue of the power of sale contained in that certain mortgage deed executed on the 11th day of December, 1928, by R. R. Forrest to J. S. Higgs which appears of record in Book Y-15 at page 490 in the office of the Register of Deeds of Pitt County, default having been made in the payment of the debt therein secured, the undersigned mortgagee will on Saturday, the 4th day of February, 1939, at 12 o'clock, M. before the courthouse door in Pitt County offer for sale and sell to the highest bidder for cash, the following described

real property, to-wit:
That certain lot lying and being in the Town of Greenville, Pitt County, starting on the North side of Myrtle Avenue fifty feet from an iron pin at the intersection of Myrtle and Paris Avenues, running East down Myrtle Avenue 50 feet, thence North 100 feet, thence West 50 feet, thence South 100 feet to the beginning, this being a part of lots Nos. 5 and 6 in Block "K".
This the 4th day of January, 1939.
J. S. HIGGS, Mortgagee.
Hending & Lee, Attys.

"Most Value For Your Money"

Here's a HOT number for COLD winter days

EYE OPENER! With all its extra value, this Buick sedan lists at \$51 less than a year ago!

NO OTHER CAR IN THE WORLD HAS ALL THESE FEATURES

- * DYNAFLEX VALVE-IN-HEAD STRAIGHT-EIGHT ENGINE
- * BUICK TORQUE-FREE SPRINGING
- * GREATER VISIBILITY
- * HANDSHEFT TRANSMISSION
- * ROOMIER UNIMESTEEL BODY BY FISHER
- * TORQUE-TUBE DRIVE
- * TIPTOE HYDRAULIC BRAKES
- * CROWN SPRING CLUTCH
- * "CATWALK" COOLING
- * OPTIONAL REAR AXLE GEAR RATIO
- * FLASH-BANK DIRECTION SIGNAL
- * SELF-BANKING KNEE-ACTION FRONT SPRINGING

Easy on the eye—easy to buy—on General Motors terms!

TAKE it out on a clear, crisp day when the frost nips through the sunshine and there's tingle in the air! Put it up against a long pull—a brief, brisk dash—a twisting, winding trail! We want to show you, mister, how much fun winter could be—if only you had a Buick to make your going sure and carefree! You'll press on the treadle—and find the thrill of the ski-run in the burst of ready power from the barely whispering, great eight engine. You'll swing around a curve—and find the poised sureness of the figure-skater in the way this Buick answers, even on winter's slippery roads. You'll brace yourself for a rut or bump—only to discover that Buick Coil springing has already ironed it out. You'll look out over the wide horizon—and know winter's beauties better through windows that let you see! In short, you'll have fun! All-winter fun! Fun unspoiled by the fussing and fretting it takes to keep an old car running. You'll start when you want to stop. You'll have a car that's new, and fit, and sound; batteries, brakes, engine, tires—they'll all be at their best at the time you need them most! Why not enjoy this winter for a change? This Buick, you know, is easy to buy—costs less than a year ago, less than you'd expect, less even than some sixes. And, we might add, it's easier to get deliveries now than it will be later when the rush is on. We hope we'll be seeing you—very, very soon!

"Better buy Buick!"

LOCAL LASSIES BEAT KINSTON

Independent Sextet Wins 2nd Game in Series, 19-11

The Greenville Independent girls' team, composed of young business and professional women of Greenville, last night scored their second successive victory over a Kinston Independent team, winning by a score of 19-11. The contest was played in Kinston.

Captained by the capable star center, Katy James, the local girls never let Kinston hold the lead and the Greenville misses were leading at the half, 11-7.

The team will meet Washington in their next game, which is scheduled for next week. The local lassies will be out for revenge, having been defeated by the Washington team in the previous contest between the two.

Other than Captain James, the local team is composed of Guards, Alberta Gibson, Christine Leggett and Marie Simpson; Forwards, Annie Laurie Askew, Jean Jones, and the following substitutes: Nick Proctor, Lib Kasey, Lila Rook, Sumrell, Lillian Barnhill, Mary Mills and Mildred Bowers. Miss Bowers was unable to take part in last night's game on account of illness.

'MILLION-DOLLAR' LINKS DISPLEASE ALASKANS

Seattle (AP)—They have a 'million dollar' golf course at Juneau, but players in the Alaskan capital want a new one.

The P. Taylor, chief engineer of the Alaska road commission, who played some winter golf on Pacific northwest courses, explained Juneau's course gets its high-priced title from the fact it is situated on a beach where waste gold is washed out with sand from the Alaskan-Juneau mine.

"It makes a fine golf course, if you like sand," Taylor said, "but some of the holes are under water when the tide is in. That makes the game a trifle difficult."

Cost of recovering the extra gold would exceed its value, so the mining company lets an estimated million dollars worth of gold-bearing silt provide the golf course.

NEGROES TAKE TWIN VICTORY

Both Boys and Girls Defeat Teams from Kinston

The local Negro high school won a double-header from Kinston last night. This was the second "A" class double-header for the locals this week. Both teams won from Wilson there Monday.

The local girls took the lead in the early moments of the game last night and were never threatened throughout the game. All the real work was done in the first half. The final score for girls of Greenville was 30, Kinston 8.

The boys' game was a nip-and-tuck affair from start to finish, with the score tied three times, at 7-all, 11-all and 15-all. With the visitors doing the advancing every time until the warning whistle the local passed to a one point lead and scored again at the whistle, giving them a lead of 19-11 at the final.

The locals will meet one of the best girls' teams in the state next Thursday when Parnoke high brings the outstanding Negro basketball team, Minnie Hunter, to town. Minnie played three years at Jamesville during the time Jamesville did not lose a single game. On one occasion Minnie scored 51 points in a single game. This game will be next Thursday. The local girls are planning to break Minnie's long winning streak of luck, take her rabbit's foot or really out-play her.

Newsaper Publicity Brings Coach a Team

Cleveland (AP)—The youthful coach of Western Reserve University's 27-year-old swimming coach is having dividends.

Research carried by intelligibility and financial distress, Jim Troughton called on the student newspaper and inserted this advertisement:

"Anyone who can get along without water-skiing is asked to report for tryouts."

He also asked the word around on handbills.

Response was instantaneous and heavy despite the school's dependence on a "borrowed" pool seven miles away. Troughton retained every man who reported, promising each against such teams as Pitt, Carnegie Tech and Michigan State. Pledges on a stop-work-five-attempts-a-week he thinks he is getting results.

Since the coach attends law school each morning he also is eligible to compete. An All-American he is, in fact his own best backstroke having won the eastern intercollegiate title twice.

Out Of Match

David Breece, a former Raleigh High school boxer, will not be able to compete in tonight's bout on account of infected wisdom tooth.

An effort is being made to arrange a program so that 6 matches will be had. The feature attraction of the evening will probably be the ACC fight.

Olympic Diving Upside Down (Europe Plans To Go To Town)

By SAM JACKSON (AP Feature Service Writer)

San Francisco — The art of diving has been turned upside-down—or rather down-side-up—by a ruling of the governing committee of the 1940 Olympic Games.

For the first time the American champions and world champions are being required to hit the water feet-first instead of head-first.

In vain the divers plead that this is not diving as defined in the dictionary. The Olympic council has spoken, and America's A. A. U.—wishing to be prepared for the 1940 games—has followed suit, made the feet-first dives compulsory for all competitions until further notice.

In Los Angeles, biathlete Marjorie Gestring, world champion of the three-meter springboard, is having to learn her specialty all over again. Helen Crenkovich of San Francisco, the second-ranking woman diver, is hard at work, too, on gymnastics she's never even heard of.

Dangerous Business

"The thing I don't like about it is the danger to the diver," says Phil Patterson, professional diving champion and Helen's coach. "It is a recognized fact that feet-first dives are injurious."

"I have the word of a recognized nose specialist that the continual forcing of water up the nostrils is likely to cause serious and painful sinus trouble. I require every diver I'm going to coach to put adhesive tape over the nose and breath thru the mouth."

Competitive diving for men consists of five required dives and five optional ones selected from a recognized list. Women do four compulsory dives and four optional.

For both men and women, new Olympic and A.A.U. rules require

Helen Crenkovich tapes her nose to practice feet-first diving.

And here she shows the prescribed way to enter the water.

two feet-first plunges. The point score for optional dives is such that, in Patterson's opinion, several more feet-first must be selected if the athlete hopes to win.

Help To Europeans?

The two new dives that everyone, men and women, must do from now on are the running flying single somersault and the backward single somersault layout. In both, the feet enter the water first.

"I think the reason for this change is the overwhelming success of American divers in world competition," Patterson says.

"The feet-first stunts are the type of thing done in gymnastics and tumbling which are so popular in Europe. Europeans believe the new dives give the other countries an edge in the United States.

"But the Americans will learn them all right. Don't worry about that."

Japanese commercial airlines do not use radio beams or directional finders. They do not fly at night, or even in bad daytime weather.

In Tokyo, capital of Japan, only the biggest streets have names. The houses are not numbered.

HIGHS TO FACE TOUGHEST FOE

Green Phantoms To Engage Goldsboro There Tonight

By "SMUT" BURKS

Facing their toughest opponents of the year, the GHS court contingent will journey to Goldsboro tonight to fight it out with the strong basketball five of Goldsboro High in a conference game. The lady cagers of GHS will oppose the Goldsboro high sextet in the preliminary of a double-header.

The junior basketballers will also play away tonight. They go to Rocky Mount where they will meet the junior Blackbirds of Rocky Mount High.

The Farley-coached G-men remain undefeated in 1939 court wars. The Phantoms have repelled three conference foes and are leading in the standings.

The Earthquakes of Goldsboro High are reputed to be a strong five, and are also undefeated in conference play.

Coach Farley will probably start the same combination which has started the previous games. John Lautares and Ford McGowan will be at the guard posts. Tracey Jordan at center, and George Sakas and Marvin Stocks will hold down the forward positions.

In the first game Coach Robeson will probably start Audrey Leggett, Betty Tyson and Joy Flanagan at forwards and at the guard posts will be Ray Dugree, Jane Harrison and Lib Wells. The lady Phantoms have one win and one loss to their credit so far and will be out for blood against the Earthquakes.

Bill Herrings Signs To Play For Kinston

Kinston, Jan. 20—Bill Herring, Atlantic Christian College coach and right-handed pitcher, has signed to play for the Coastal Plain League club here, Fred Henry, manager, announced today.

Herring, a former Wake Forest College athlete, whose home is in this part of the state, managed Ayden's Coastal Plain League club a part of last season. He was one of the best pitchers in the league. The salary the Eagles will pay him was not revealed.

Knocker-Outer

John Henry has hung up 49 knockouts over the last seven years. And quite a portion of these came in the last two seasons, against heavyweights. Although scaling down to the light heavyweight limit for title matches, Lewis has done most of his recent campaigning among the heavies.

Waltz Out, Says Joe

It has long been a saying that when two Negroes meet they forsake their usual foot-trot tactics for the more leisurely waltz. But Joseph has

Louis Finds Lewis Is a Knocker-Outer, Too, But Joseph Can't Scare Up Any Worryment

By DILLON GRAHAM (AP Feature Service Writer)

Pompton Lakes, N. J. — Joseph Louis Barrow is not an assiduous reader, even of boxing records, so he was a bit surprised when told that John Henry Lewis, his vis-a-vis in Madison Square Garden January 23, has never been knocked out.

"You don't say!" exclaimed the tan bomber.

Being of an obliging nature, Joseph quickly promised to entertain John Henry with a shuteye party—J. H. to slumber in a horizontal position while Joe lounsed lazily on the ropes and listened to the referee's tolling.

Ready For Distance

After a month's training in his Jersey retreat, the heavyweight champion declared himself in shape. The chart would say he will be prepared for a 15-round encounter but Joseph is habitually opposed to such overtime labor and confidently expects to be gnawing on a fried-chicken leg an hour after the starting gong.

Maxie Rosenbloom Has Been Lewis's Nemesis

Maxie Rosenbloom has been Lewis's nemesis. He has lost only seven fights and three of these were to Maxie. He beat Maxie once, and also won and lost to James J. Braddock, e's won 39 decisions.

Not only is he more experienced than Louis over the full route of their pugilistic careers but he has fought 28 rounds and trained hard for the Galento scrap that was called off when Tony was felled by pneumonia since the last time Joe faced n a glove.

It Has Been Shown Before That Joe Must Fight Often to Be at His Best

It has been shown before that Joe must fight often to be at his best, so it is worthy of note that Joe's layoff since beating Schmeling last June is the longest of his career.

Waltz Out, Says Joe

It has long been a saying that when two Negroes meet they forsake their usual foot-trot tactics for the more leisurely waltz. But Joseph has

John Henry Lewis "Ah'll win" Says Louis

ACC and Pirate Pugilists To Battle Here Tonight

By JAMES WHITFIELD

The reflector over the ring in the gymnasium at East Carolina Teachers College tonight will project light on some of the toughest pugilists who witnessed here in some time. The first punch will be delivered promptly at 8:30 o'clock.

In order to refresh your memory, Coach J. D. Alexander's punches will exchange blows with a battery of fighters, coached by Chick Andrews at Atlantic Christian College of Wilson.

Shifting strategy for the locals' roster loomed late today as preparations were made for the pre-giant athletic event. David Breece, one of the most valuable men on the E.C.T.C. boxing team, was having molar trouble. If his wisdom teeth are too painful, he will be substituted for the feature event, of which he was to be a part.

Jack Noe, 148 pounder, whose punch is as sure as death, would be matched with Jim Holliday Brown, weighing 145 pounds, if Breece is unable to participate. Breece and Holliday fought to a draw in the feature scrap when the boxing teams met at Wilson last week.

Other shifts also appear probable. Jesse Gray is slated to battle Billy Lee of A.C.C. Gray tips the scales at 142 pounds and Lee is in the same weight class. Charles Brian will offer the entertainment in a punching duel with Billy D. C. of the opposing contingent.

Herbert White, effective Wilson puncher, will make an effort to overcome the technique of Vernon

Other Shifts Also Appear Probable

Whatever the result, Louis knows the Joe-Henry arrangement doesn't shape up in the same category as his winter warmups last year against Natie Mann and Harry Thomas.

But it takes a mighty heap of dander to worry the calm Mr. Louis. "Ah'll win," he says, simply

No Truck With This

He says he'll endeavor to take Lewis to the cleaners as soon as possible.

But it takes a mighty heap of dander to worry the calm Mr. Louis. "Ah'll win," he says, simply

PIRATES SCORE 41-38 VICTORY

Defeat Wilson Teachers College of Washington, D. C.

The East Carolina Teachers College Pirates basketball team turned on the steam in the last minutes to nose out the Wilson Teachers of Washington, D. C., in a game in Washington last night 41 to 38.

Brook, Pirate center, netted 19 points to lead in the scoring. Shelton of E.C.T.C. and Gorden of Wilson Teachers shared second scoring honors with 13 points each. Simpson, new comer to the Pirate squad, netted 4 points and played a fine defensive game in holding G-zales, Wilson Teachers scoring threat, to four points.

The Teachers play the Lynchburg quintet in Lynchburg tonight.

Tyson, 119 pound Greenville boy, in last week's dealings, Norman Fleming, former Greenville high school athlete, bested White.

Pete Perkins, weighing 133 lbs., who edged into the popularity column last year, will offer the opposition for Wilson's Pee Wee Holmes. Harvey Braddy could not stand up under the punishment inflicted by H-hits at Wilson.

Another fight that will prove to be a thriller will be an outgrowth of the efforts of Joe (Dynamite) Williams, a local boy weighing 166 pounds, and Elmer Mottern, 169 pounds. The referee ruled last week's fight between these youngsters a draw.

1939 CHEVROLET

The Public Has Compared All Prices AND AGAIN THE PUBLIC IS BUYING MORE CHEVROLETS THAN ANY OTHER CAR!

You can safely look to public opinion for a fair, honest and reliable verdict on car values. . . . WHEN YOU BUY FERTILIZER

LOOK FOR THIS

NV POTASH 8%

The Tobacco Fertilizer or COTTON FERTILIZER you buy and use NOW will have a big influence on your next crop. That's why you should choose your fertilizer carefully. It does not always pay to buy on brand name alone. Check up on the analysis of the mixture. Find out about the crop-producing power of the materials it contains.

The final figure in your fertilizer analysis indicates its potash content. Tell your Fertilizer Man you want at least 8% POTASH in your mixture and ask for genuine NV POTASH, the same potash that has been used by Southern farmers for more than half a century.

North Carolina farmers prefer fertilizer well balanced with 8% POTASH, derived from genuine NV POTASH, because the small extra cost of the extra potash returns them greatly increased yields of better-quality crops. Your fertilizer price list will show you how little extra it will cost you to use an 8% POTASH mixture instead of the low-potash fertilizer you have used in the past.

The extra NV POTASH in an 8% POTASH fertilizer helps you to get greater benefits from the other materials in the mixture. The extra yields and extra quality that it produces are the most economical share of your crop. They cost you less and pay you more. All over North Carolina, farmers are using more NV POTASH, both in their fertilizer and as a side-dressing. Don't let them get the jump on you!

Side-Dressing Recommendations

FOR TOBACCO: The Tobacco Research Committee now recommends side-dressing tobacco with potash equal to 100 to 200 pounds of SULPHATE of POTASH per acre, to be applied within 20 days after transplanting.

FOR COTTON: The North Carolina Experiment Station recommends side-dressing cotton with 50 to 100 pounds of MURIATE of POTASH, or 125 to 250 pounds of KAINIT per acre on fields which have shown heavy Rust damage in the past and where the complete fertilizer treatment contains only 3% POTASH.

ANOTHER YEAR BEGINS

LOVE THAT ROCKED AN EMPIRE still seems to bind the Duke and Duchess of Windsor, who recently granted a camera interview at their villa near Cannes, France. It is from this winter home of the Windsors that the report came that the duke may visit England and the royal family in March, possibly without the wife for whom he abdicated the throne of England.

HIS DESIRE TO SERVE England in some way has long been the dream of the Duke of Windsor, shown above with his duchess in their study at Cannes, France. Their friends speculate on the outcome of Windsor's planned visit to his homeland, reportedly scheduled for sometime in March.

HEART DISEASE LEADS AS CAUSE OF DEATH

Chicago, Jan. 20.—Heart disease was shown in Chicago, board of health that 90 per cent of all deaths in this city during 1938, or approximately one out of every three deaths, were due to heart ailments. This is the highest percentage registered in the last six years.

CLAIMS THAT FOXES ARE AID TO FARMERS

Two exchange men will carry St. Paul, Minn., Jan. 20.—Winter eating habits of foxes are more beneficial than harmful to farmers, said Donald M. Hatfield, University of Minnesota Entomologist, after a study of the animals.

N. Y. Stock Market

New York, Jan. 20.—(AP)—Folly tendencies faded from the stock market today and about the best that could be said of the proceedings was that prices were no worse than mildly irregular.

At the start the list acted as though it would extend the late run-up of Thursday. Light selling soon made its appearance, however, and initial gains were erased in many instances. Dealings were appreciable near the fourth hour.

Bonds were selectively higher.
