NAZIS SCORE IN AERIAL BLOWS AGAINST FOES

Destroyer and Transport Ship Reported Sunk

BATTLESHIP HIT BY HEAVY BOMB

Reported German Successes Also Include Taking Over Control Of Railroad From Narvik

Berlin, April 17.—(AP)—A British battleship was hit squarely by a heaviest type air bomb, a destroyer was sunk and a transport ship also sunk in an aerial attack, Germany reported officially today.

DNB official German news agency said that full details of the aerial blows in a German attack on British naval forces off the Norwegian southwest still were to be learned.

A communique enumerated these successes for the German expeditionary forces:

1. The sinking of a British destroyer by a submarine northeast of the Shetland Islands.
2. A large transport ship hit squarely by the heaviest calibre air guns.
3. Norwegian forces in the north routed by Germans taking control of the railroad from Narvik east to the Swedish border. Authorized sources insisted Narvik still was in German hands despite a heavy British bombardment reported by the high command.
4. The German navy covered the transport of personnel and "material reinforcements" to Norwegian ports.
5. Forces ashore broadened the occupied area, developed coastal defenses and "fully prepared" fortifications for defense of Oslo.

Berlin, April 17.—(AP)—DNB, official German news agency, today described an air attack off the Norwegian Western coast in which one British cruiser was sunk by a direct bomb hit and two other cruisers were seriously damaged by German bombs.

Augmenting an earlier report (and apparently describing an action of yesterday) DNB said the cruiser which sank was hit by a bomb of the heaviest calibre and went down immediately.

The agency said the other two cruisers were hit by three heavy calibre bombs and such serious destruction was wrought that presumably the ships will not be able to return to British harbors.

(The DNB report apparently amplified a passage in today's high command communique which reported the sinking of a British submarine in an air attack off Mold fjord.)

Few Appointments Open For Clinic

Although the tuberculosis clinic conducted here is attracting a large number, a few appointments are open. It was revealed at the county health department today.

Any person having the slightest symptom of tuberculosis is urged to avail himself of this opportunity for an examination. It is preferred, but not required that appointments be made through the family physician.

The clinic is in its third week, the first week having been held in Farmville, Ayden and Bethel. It was conducted here all last week and will be concluded here this week.

Kiwanians from Here At Divisional Meet

Approximately 25 members of the Greenville Kiwanis club were expected to attend a division meeting to be held at the Cherry hotel, Wilson, tonight.

District Governor Charles W. Armstrong of Salisbury, was listed for the principal address. Lieutenant Governor Arthur A. Ruffin of Wilson, who succeeded W. J. Bundy, was to preside over the meeting.

In view of the divisional meeting, no local meeting will be held here Friday night.

Census Bureau Count Passes 100,000,000

Washington, April 17.—(AP)—The Census Bureau passed its count of the one hundred millionth American today with about 30,000,000 yet to go.

There's Plenty Of Life On The Western Front

All the fanfare of the European struggle is not in Scandinavia, but there's bustling activity on the Western front as shown here. This scene—somewhere near the Maginot line in the French army zone—shows how the roof of the house at the left and the church at the right bear signs of a visit from artillery fire. After all—there's really a war on the Western front.

Balkan Powers Order "Visitors" From Country

WAR HAMPERERS EXPORT TRADE

U. S. Shippers Suffer Heavy Blow By Restrictions

Washington, April 17.—(AP)—Great Britain's blockades in the Atlantic and Pacific, coupled with President Roosevelt's extension of the combat area forbidden to American ships, have interrupted or hampered American foreign trade involving nearly \$1,300,000,000.

Other war-time hazards and restrictions—the threat of German raiders, a Japanese blockade in the Far East, the "cash and carry" provision of the neutrality act—boost the figure even higher.

Experts near here estimate that more than one half of the country's foreign trade has been either eliminated or affected. The 1939 foreign trade total was \$3,177,344,138.

The combat area keeps American shipping from carrying goods to the country's principal markets of northern and central Europe, where American exports totalled \$1,172,948,023 last year.

Soviet Russia is the object of Britain's latest blockade measure. Ronald H. Cross, British blockade minister, told the House of Commons yesterday that Britain was taking all practical steps to detain American cargoes en route to Vladivostok, the Soviet Far Eastern port, whenever it was suspected they were really destined for Germany.

Virtually all American shipments to southwestern and southeastern Europe—they totalled \$113,046,452 in 1939—go through the Mediterranean and have to pass Gibraltar, control officials. The control is most rigid on goods consigned to neutrals adjoining Germany.

It's Mr. Roebuck And Not Mr. Smith in Race

G. W. Roebuck, farmer and experienced warehouseman, who is seeking election to the County Board of Commissioners from the Second district, was inadvertently referred to as Mr. Smith at one place in his announcement Monday.

Mr. Roebuck, in addition to his farming interests, has been connected with the tobacco warehouse business for the past 13 years, seven of which have been with the Star house.

Patients At Duke From 99 Counties

Durham, April 17.—During 1939 Duke hospital received patients from 99 North Carolina counties, 25 other states and Mexico, according to the hospital's annual report, just completed.

During the year more than 85 per cent of the patients were not able to pay the full cost of their medical care, and 72 counties of the state assisted them in amounts varying from \$7 to \$15,247.12, or five and one-half per cent of the cost of care of these patients. The churches and community friends contributed two per cent, the report shows; and the patients themselves contributed nearly 52 per cent.

Of \$286,540 cost of charity work to the hospital, more than 94 per cent was for the care of North Carolina patients.

Military engineers were formerly called trench-masters.

Clearing Nation Of Suspected Nazi Spy Agents

Budapest, April 17.—Southeastern Europe's little nations, fearing that the German war machine may soon turn in their direction, took stern measures today to eliminate Nazi sympathizers within their borders.

In Yugoslavia, Rumania, Bulgaria, Greece and Turkey, police launched nationwide investigations of resident German groups and individuals.

Government action to stamp out "fifth column" activity (boring from within a country by foreign political interests) was accompanied by intensified military preparedness in Rumania and Yugoslavia.

Belgrade, April 17.—(AP)—The Yugoslav government began today to clear the country of hundreds of German "visitors" suspected of spreading propaganda and spying for the German secret police.

The cleanup was begun in Belgrade, the capital, where thousands of leaflets telling Yugoslavs not to assist Germans had been scattered by Nazi sympathizers from automobiles.

Officials said that public opinion urgently demands stern measures to protect the national security as a result of the invasion of Scandinavia.

Twenty Germans arrested immediately after the leaflet barrage were expelled from Yugoslavia and an order was issued today that all foreigners still in Belgrade must leave within 10 days unless they prove that their presence is a "benefit to the Yugoslav government."

A house-to-house search was decided on by police of several cities.

The Scandinavian crisis brought into the open the government's far-flung campaign against German espionage which in recent weeks has allegedly expelled 50 Nazi military experts engaged in "prospecting for oil" in the vicinity of strategic points.

DEATHS SHOWN FOR 3 MONTHS

Guilford and Mecklenburg Lead In Fatalities

Reflector Bureau By HENRY AVERILL

Raleigh, April 17.—Mecklenburg and Guilford were the only double-digit counties in highway fatalities for the first quarter of 1940, according to records of the State Highway Safety Division, and even these too just did make it with ten deaths apiece.

For the state as a whole there were 172 fatalities in the first three months as compared with 176 in the corresponding period of 1939, the very substantial decrease in March making it possible to get under last year's figures for the quarter.

Cumberland and Robeson pushed the two leading counties close, for the death record, each of these having nine fatalities, an average of three a month.

At the other end of the list three were forty counties in which not a highway fatality occurred through March 31. These are Alleghany, Anson, Avery, Bertie, Caldwell, Caswell, Camden, Chatham, Chowan, Clay, Cleveland, Columbus, Craven, (Continued on Page Six)

PROJECT HERE BEING SOUGHT

Movement On To Curb Malaria In Green Mill Run

A movement for securing a malaria control project for Green Mill run was launched at a meeting of interested parties held in the Municipal auditorium yesterday afternoon at the call of Dr. N. Thomas Ennett, county health officer.

A committee was named to proceed with plans for the project. Dr. Ennett was named chairman, with M. K. Blount, C. W. Harvey, J. F. King and J. H. Waldrop members.

The stream "heads" at a point between the Farmville and Stanfordsburg road near Frog Level. It crosses the Aiden highway near the city, the New Bern highway near the overhead railway bridge, runs back of the college, crosses the Grimesland highway near the cemetery and flows into Tar River.

It is proposed to carry on the drainage work under a WPA project. C. L. White, Jr., of that agency declared it was the policy of the WPA to provide 75 per cent of the cost of malaria control projects with the sponsors providing 25 per cent.

It is proposed to start drainage work at the river, increasing the depth of the stream by four or five feet there and work toward the stream's head. It was pointed out that this depth would provide sufficient fall to keep the water flowing.

It is the purpose to dig a real canal, not just widen the present ditch, it was explained.

Drainage of the stream has been under consideration for some time as a malaria control project and it was on this basis that the Health Department became interested in the work.

Galveston, Tex.—(AP)—An oil painting of a man of distinguished appearance has hung in the Galveston courthouse for 40 years but nobody seems to know who he was. The portrait now rests in the office of Charles Dibley, district judge, who has been trying for five years to learn the identity of the man.

Local Scouts To Leave On Friday For Camporee

The annual trek of Boy Scouts from all over the East Carolina council to the annual Camporee in Kingston begins Friday. Boy Scouts from all over Eastern Carolina will gather at Kingston in the greatest rally of the scout year. Tents will be set up, temporary headquarters established and the Scouts will set down for a two-day period of camping, under expert leadership and supervision, under actual outdoor conditions.

Sam B. Underwood, Jr., Scout commissioner of the Greenville district, this morning announced that plans of scouts from Greenville to attend the Camporee were rapidly being completed and everything is expected to be in readiness so that on Friday the Scouts from Greenville will move out to Kingston without any delay. The following patrols, each patrol having about eight boys, have registered and will attend the Camporee: Beaver and Fox of Troop 30, T. A. Bryson, scout master; Lion, Indian, Plowing Arrow, Tiger of Troop 33, Sam Dege, scout master; Wild Cat, Fox and Panther of Troop 36, A. B. Stal-

THIRD SET OF PANAMA CANAL LOCKS OKED

Senate Approves Appropriation Of \$15,000,000

FUND INSERTED IN HOUSE BILL

Chief Of Naval Operations Says Department Would Welcome Disarmament After Present War

Washington, April 17.—(AP)—The Senate approved today a \$15,000,000 initial appropriation for construction of a third set of Panama canal locks.

The action came on a committee amendment to the \$23,362,517 House approved appropriation for non-military expenditures of the War Department.

Economy advocates still cling to a hope of preventing an increase of \$55,000,000 the bill carries for waterways.

As it stands, the appropriation measure would provide \$19,889,950 more than a similar bill approved by the House and \$2,069,917 more than President Roosevelt's budget estimates.

The House worked toward a vote on the Logan-Walter bill drafted to set up a single pattern for issuance of rules and regulations by administrative agencies and to expedite court reviews of such orders.

Representative Rogers (R-Mass.) broke into the Logan-Walter discussion with a speech proposing that Congress direct the State Department to establish a protectorate over Greenland "until such time as Denmark regains her sovereignty."

Admiral Harold R. Stark told the Senate Affairs committee that the navy would welcome a genuine attempt at disarmament when the European war ends.

The chief of naval operations asserted, however, that if a disarmament conference were called, the United States should insist that other nations make "a clean breast" of their naval strength.

Former Constable Given Six Months

Several more cases were removed from the Superior court docket this morning and yesterday afternoon as that tribunal continued in its third day of a two weeks' session.

Robert C. Davis, former constable of Ayden township, was convicted on two counts of driving drunk and was given three months in each, the sentences to run consecutively.

Bills of indictment in two cases were quashed on technicalities. One charged Jesse Sparger, colored, with larceny, and the other charged three Negroes, H. B. Williams, Monte Barnes and Willie Williams, with larceny.

Herman Vincent, white man, was put on probation for three years on a charge of breaking and entering.

Charles and Jesse L. McCafferty, Negroes, were acquitted of a charge of assault on a female.

Gene Hooker Brown, Negro, pleaded guilty to driving recklessly and judgment was suspended upon payment of the court costs.

Lela Taylor Sanders, colored, was given three months on a liquor charge.

Godfrey Dawson, colored, was given from two to three years on a charge of assault with a deadly weapon with intent to kill.

Britain Seeks Control Of Strategic Trondheim Port Now In Hands of Germany

Germans Silence Norwegian Fort

Stronghold Had Been Obstacle In Nazi Drive

Stockholm, April 17.—(AP)—A heavy bomb attack on the 50-year-old Norwegian fortress Hegra, about 25 miles east of the German-occupied Atlantic port of Trondheim, appeared today to have silenced the fortress' batteries, it was reported here.

The Hegra guns, although directed mainly against an attack from Sweden, formed an obstacle to Germany's control of the railroad extending from Trondheim to Sweden, along which the Nazis are consolidating a potential line of defense.

A train load of German troops slipped by Hegra's guns yesterday by a ruse and reached the Swedish border which is about 50 miles from Trondheim.

Meanwhile German troops hastened mopping up operations in southern Norway behind the potential line of defense from Trondheim to the Swedish frontier.

The front, apparently planned as a bulwark against possible attack by British troops reported to have landed on Norway's shores, was established yesterday.

The only German armed force north of Trondheim appeared isolated in the vicinity of Barvik.

Admiral Harold R. Stark told the Senate Affairs committee that the navy would welcome a genuine attempt at disarmament when the European war ends.

NAZIS GRANTED RUMANIA AREA

Granted Lease On 100,000 Acres of Timberland

Bucharest, April 17.—(AP)—The Rumanian Senate provisionally accepted today a government bill to give Germany a 30-year lease on almost 100,000 acres of timber-despite testimony of army officers that the lease would jeopardize national defense.

The minister of agriculture defended the bill on grounds that it was part of an economic understanding with Germany which greatly benefited Rumania.

Military experts said the vast forest reserves in central Rumania constituted a natural defense line.

High ranking officers declared that enactment of the bill would be a great strategic loss, a great strategic error, allowing Germany to send a large corps of experts and workmen into forests located at "the most vulnerable spot in the country" on the old Rumania-German border.

Germany previously had protested Bucharest's embargo on wheat exports and temporary stoppage of oil shipments, and it was acknowledged in official quarters Rumania is in an extremely difficult position.

LOCAL RELIEF IS SUGGESTED

Proposal Is Made In Address By Senator Taft

Washington, April 17.—(AP)—Senator Taft (R-Ohio), declared today that the administration of relief should be turned over to the states and municipalities with the federal government supplying approximately two-thirds of the total cost.

The Senator, candidate for the Republican presidential nomination, spoke before an American Federation of Labor organization of operating engineers.

The present federal relief program, he said, is inadequate. He also objected to use of relief labor on public works construction projects.

Taft declared that experience here and in England indicated that any attempt to meet the world relief problem "by a large scale public works program is far too expensive to be permanent or even effective."

"It is much better to adopt a (Continued on Page Six)

"Ghost" Walks

A "ghost" in the form of Sholem Bernstein (above), 29, walked into Kings county court, New York, and surrendered as a material witness in the investigation of the murder of a Brooklyn crime syndicate which contracted to commit murder at rates as cheap as \$1 a head. Police had thought Bernstein was the man whose dismembered body was found in Chicago April 15. He was placed under \$25,000 bail and paroled in custody of police.

She was the fifth acknowledged loss to Britain's undersea fleet since the war started.

Military observers expressed the view that a drive for Trondheim was developing as the first phase of British land operations in Norway.

They said that British forces, already in control of Narvik, were believed to be moving south toward German army pushing north from Oslo and Bergen in an attempt to cut Norway in two and retain the Southern half, which contains almost everything of value in the invaded kingdom.

Trondheim, a seaport and railroad junction, is the key to this operation, they said, because whichever side controls it has an immense advantage.

Nazi troops held Trondheim, having landed there in the first few hours of the invasion, but military sources here said the German garrison is not strong enough to resist the British and is being reinforced from the South.

London, April 17.—(AP)—The Ministry announced today that British warplanes had carried out bombing attacks on the air force at Trondheim, strategic German-held port on Norway's West coast, and on a seaplane base nearby.

The Ministry's communique follows:

"During last night Trondheim airmen were bombed by heavy bombers of the Royal Air Force. A large fire was seen to break out as a result of this attack.

"Subsequently a bombing attack was also made on an enemy seaplane base in the vicinity."

TAR HEEL GOP IN CONVENTION

Adopted Platform Urges Economy in Government

Charlotte, April 17.—(AP)—Whooping it up with gusto, Republicans opened their state convention here today in a festive mood and quickly adopted a platform that called for economy in government and discontinuance of "the fruitless system of taxation that is destroying enterprise and initiative."

Clifford Frazier of Greensboro, chairman of the platform committee, presented the document to 1,500 republican delegates and several thousand others amid round upon round of applause. W. H. Barkley of Morganton offered a resolution supplementary to the committee's inviting old line democrats to join with the republicans in a "return to first principles." The resolution was tabled and the convention proceeded to vote on the platform which was carried.

The platform also called for new election laws "that will guarantee to all parties equal rights and secure to every qualified voter a free ballot and an honest count."

The platform asked for a "non-partisan judiciary," a state-supported uniform system of public schools as provided for in the constitution with free educational opportunities for every child in the state.

On the controversial topic of liquor the platform said: "We oppose the legalized manufacture and sale of intoxicating liquors in any part of the state unless approved by the people in a state-wide referendum."

The platform said that "through the so-called economy of scarcity and international trade agreements, the farmer has lost the cotton markets of the world."

The "supremely important problem that today challenges the republican party x x x is how it may lead a bewildered people out of the 'valley of despair'."

On peace the committee reported: "We recall that one president of the United States was reelected because he 'kept us out of the war.' We were soon in it. Will we permit history to repeat itself. We are unalterable opposed to a third term for a president at any time."

Colombia placed a 2 per cent tax on capital prizes won in lotteries to aid the deaf and blind in the country.

OPERATIONS ON LAND STARTED

Nazi Declared To Be Rushing Up Reinforcements At Strategic Norwegian Port As British Troops Said To Be Closing In From North; Britain Acknowledges Loss of Submarine

London, April 17.—(AP)—Britain disclosed the loss of one of her new submarines, the Thistle, today while her forces in Norway apparently were racing the Germans for control of the strategic port of Trondheim.

The Thistle was a 1,575-ton vessel intended for general service and normally carried 53 men. The Admiralty merely announced that she was overdue from operations in the North sea and must be considered lost.

She was the fifth acknowledged loss to Britain's undersea fleet since the war started.

Military observers expressed the view that a drive for Trondheim was developing as the first phase of British land operations in Norway.

They said that British forces, already in control of Narvik, were believed to be moving south toward German army pushing north from Oslo and Bergen in an attempt to cut Norway in two and retain the Southern half, which contains almost everything of value in the invaded kingdom.

Trondheim, a seaport and railroad junction, is the key to this operation, they said, because whichever side controls it has an immense advantage.

Nazi troops held Trondheim, having landed there in the first few hours of the invasion, but military sources here said the German garrison is not strong enough to resist the British and is being reinforced from the South.

London, April 17.—(AP)—The Ministry announced today that British warplanes had carried out bombing attacks on the air force at Trondheim, strategic German-held port on Norway's West coast, and on a seaplane base nearby.

The Ministry's communique follows:

"During last night Trondheim airmen were bombed by heavy bombers of the Royal Air Force. A large fire was seen to break out as a result of this attack.

"Subsequently a bombing attack was also made on an enemy seaplane base in the vicinity."

Allied Help Sent Norwegian Forces

Paris, April 17.—(AP)—Allied reinforcements to Norway to bolster the Norwegian defenses against German invaders are steadily increasing, it was understood here today.

It was said that French as well as British troops are on their way. Some estimates placed the number of French troops at about 20,000.

Two companies of German infantry sustained a "severe" defeat when they attacked a sector of the Western front held by the British, military sources declared.

They said that despite heavy artillery support, the attackers were unable to penetrate the British line. The Germans estimated at about 600 men withdrew after violent fights, it was said, leaving a number of dead.

Social and Personal

Mr. and Mrs. C. S. Biche and Mrs. Mary Karpinski of Watertown, N. Y. were guests of Mrs. C. F. Carroll, Sr., Tuesday and Wednesday.

Mr. and Mrs. C. B. Whitchard, Jr. and Mrs. Gerald Debnam and Mrs. W. A. Darden are spending the day in Morehead.

Mrs. James S. Clark of Staunton, Va., is visiting her daughter, Mrs. Marvin Sugg.

Mrs. Marvin Sugg, who has been very ill at her home on East Fifth street is better today.

Friends of Mrs. L. A. Reason will regret to know that she is ill in Pitt General hospital.

Mr. and Mrs. James Keel have returned from Waldorf, Md.

Mrs. J. S. Willard has gone to Durham to be with her daughter, Mrs. W. C. Goodwin, who is ill.

Mrs. J. L. Kilgo left today for Greensboro to spend several days.

Misses Nell McGowan, Hazel Humming and Polly Martin, of Greenville, and Edgar Lee, Harold Upchurch and Loyce Smith, of Angier, visited the Tulip Gardens at Terra Ceia yesterday.

Mr. and Mrs. T. A. Person, Mrs. W. B. Tighman, Miss A. L. Congleton and Mrs. R. Bruton attended the Methodist district conference at Rainbow church yesterday.

Mrs. Fenner Phillips and son, Fenner III, have returned from a visit in Asheville. They will leave this afternoon for Washington to attend the Tulip Festival.

Junior Order Meets.
The Grifton Jr. O. U. A. M. Council No. 45 held its regular meeting Tuesday night, April 16th. A chicken stew was served at 7:00 p. m.

Following the stew Brother Alonzo Edwards, Trustee of Lexington Home, explained the working of the home since the state has taken it over. The meeting was well-attended and members were very interested in the work.

No Mid-Week Prayer Service
There will be no mid-week prayer service at Immanuel Baptist church this evening. The members are invited to hear Dr. Idemah at the Christian Church.

1940 Service League Ball.
The 1940 Service League Ball, given last night at the College Auditorium for the League's Hospital Red Fund was a brilliant success.

Dean Hudson and his Lance Orchestra furnished music and entertainment throughout the evening for the hundreds of dancers and spectators who attended the affair.

Each number was received with genuine enthusiasm, and expressions of appreciation of the solo voices of Frances Colwell, Sonny Stockton, Sam Latimer and the Dean himself were numerous.

Throughout the evening, dancers would stop to enjoy the entertainment the troupe afforded. One of the main attractions of the program was the half-hour broadcast made by the orchestra immediately preceding the dancing.

The Service League Ball Committee of which Mrs. W. L. Harrington is chairman is grateful for the liberal patronage of the ball received. Promoters of the ball are highly pleased with its success.

Christian Science Church.
"Are sin, disease, and death real?" was the subject of the Lesson-Sermon in all Christian Science Churches and Societies, Sunday, April 14.

The Golden Text was from Isaiah 33:22. "The Lord is our Judge, the Lord is our lawgiver, the Lord is our king; he will save us."

Among the citations which comprised the Lesson-Sermon were the following from the Bible. "Is any among you afflicted? Let him pray. Is any merry? let him sing psalms; and the prayer of faith shall save the sick, and the Lord shall raise him up; and if he have committed sins, they shall be forgiven him. Confess your faults one to another, and pray one for another, that ye may be healed. The effectual fervent prayer of a righteous man availeth much." (James 5: 13-15.)

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy. "The prayer that reforms the sinner and heals the sick is an absolute faith that all things are possible to God—a spiritual understanding of Him, an unselfed love. Regardless of what another may say or think on this subject, I speak from experience. Prayer, watching, and working, combined with self-immolation, are God's gracious means for accomplishing whatever has been successfully done for the Christianization and health of mankind." (Page 11).

Grimesland News
Mrs. W. A. Hudson was in Washington yesterday.

Mrs. Whitley of Washington, is visiting her daughter, Mrs. M. H. Godley this week.

Graham Hudson, son of Mr. and Mrs. W. A. Hudson, underwent an operation for appendicitis Monday at six o'clock at Tayloe hospital.

Mrs. Sam Smith, of Winterville, is visiting her daughter, Mrs. P. W. Majette.

Mr. Hewitt, home-room teacher of the ninth grade, had a wiener roast recently. Games and dancing were enjoyed. Music was furnished by recordings. Mr. Hewitt and other teachers accompanied the group.

Seniors have elected little Miss Thelma Jean Hardee, daughter of Mr. and Mrs. Oscar Hardee, and Paul Carr, Jr., son of Principal and Mrs. G. C. Carr as class mascots.

Social Calendar

WEDNESDAY

5:00 p. m.—The Girl Scout council will meet in Sheppard Memorial Library.

7:30 p. m.—Methodist choir meets for rehearsal.

THURSDAY

7:30 p. m.—The Knights of Pythias will meet.

7:30 p. m.—The choir of the Presbyterian Church will meet at the Church.

FRIDAY

7:00 p. m.—The Senior Choir of the Christian church meets.

SATURDAY

Now is the time to replenish your pool with gold fish and hyacinths.—Baker & Davis Hardware Co. 15-3ts

Black Jack News

C. W. Evans went to Duke Monday to see his daughter, Mrs. Estelle McClamb, who is a patient at Duke hospital.

The Ladies Aid Society of Black Jack, P. W. B. church, will meet at the home of Mrs. Heber Dixon on Saturday afternoon at 2:30.

The girls baseball team of Black Jack will play the girls' team of Clay Root Saturday afternoon at Black Jack. Come one, come all. Let's enjoy the game.

Mrs. J. S. Smith is ill at her home. The Seniors of Chicod high attended the high school day at E. C. T. C. Tuesday.

D. H. Conley, superintendent of county schools, spoke in the Chicod high school auditorium to the student body today at activity period.

Mrs. Curtis Spencer and Mrs. N. A. Clark were Ayden visitors on Monday night.

Dr. W. I. Wooten of Greenville was a visitor here Monday afternoon.

Mrs. Wilbur Hudson is in Tayloe Hospital, where she underwent an operation Tuesday morning.

The Missionary Society of the P. W. B. Church will meet at the home of Mrs. J. D. Hudson Thursday night at 7:30 o'clock.

Signs Of The Times
St. Louis, (AP)—Sam Breadon, owner of the St. Louis Cardinals, suggests a new way to curb the autograph business: "Get all the baseball players, movie stars and actors to band together and please to charge 10 cents for each signature."

The money to go to the Red Cross. That would raise a lot of money for a worthy cause for a year or two and then the autograph hunters would cease to be such a nuisance.

Intensive working of the Transvaal gold fields in 1939 boosted production.

Much Progress Made With Diesel Motors
The last two years have seen tremendous strides by the research workers who have been trying to improve on the crude engine that Dr. Rudolph Diesel patented in 1895. This progress has been great, and the Diesel engine has made its appearance in the United States about two decades ago.

Measured by the customary procedure in the automotive industry, the Diesel adaptation to the privately owned and operated passenger car might be regarded as "just around the corner," for the progress has been great.

The problem of weight per horsepower, cold weather starting and smoke control have been solved, says Charles F. Kettering, head of General Motors' research division. He points out as a tribute to Dr. Diesel that the basic principles followed by the German engineer, remain unchanged in today's models.

A few years ago when the possibility of developing a Diesel engine that weighed only two and one-half pounds per horsepower was regarded as fantastic, the apostles of gasoline motors could cite a dozen reasons why the compression ignition power plant never could be adapted to the "family car."

They said the smoke, cold weather starting and weight-per-horsepower perplexities could not be licked. They were overcome, however, and then they said cheap fuel was not certain but Dr. Kettering disagrees that this will be a problem as many stations already handle both, advertising crude oil for use in commercial vehicles.

"One thing a lot of 'average motorists' don't know," Kettering explains, "is that a Diesel engine will burn almost any kind of fuel; gasoline oil, lubricating oil or even kerosene. In fact, the three could be mixed, injected into the compression chamber and the engine would function."

With the adaptation of Diesels for passenger cars, definitely "just around the corner," and Diesels now being used in trucks, buses, trains, aeroplanes, boats, power plants, stores and factories, there are many opportunities for trained men in the industry, a new and exciting field of endeavor is opening for far-sighted individuals who believe in the future.

Classes now are being organized here for students who wish to complete courses in the study of Diesel engines.

Milk in Glasses.
Always rinse glasses that have held milk in cold water before washing them. Otherwise they might have a cloudy appearance or take extra time to shine when drying.

MODES of the MOMENT

by Adelaide Kerr

And when you feel like something different, consider a simple basic frock of black silk crepe with a bolero and tie-on skirt of black and white hound's tooth checked silk suiting. The dress can be worn without them under a spring coat. Designed by Hattie Carnegie.

GREENVILLE HI NEWS

THOMAS WILLIAMS

WINS FIRST PLACE

Janet Evans, ninth grade pianist, received a grade of one at Greenville yesterday in a contest for Junior high school pianists. She was one among several who received this honor.

"Prelude in G", by Handel; and "The Imp's Dance", by Ginz, were the selections played by Janet.

She is taking piano under Miss Eva Hodges.

GLEE CLUB LEAVES

Over fifty members of the Glee Club left this afternoon for Greensboro for the music contest.

This group included the mixed chorus, boys' quartet, mixed quartet, girls' trio, boys' trio, and several soloists.

Persons who furnished cars for the trip today are: Mrs. Luther Herring, Mrs. Jack Kilgo, J. C. Galloway, Dorothy Stokes, George Abeyounis, Mrs. John Williams, Bruce Thigpen, Miss Mary Shaw Robeson, Sam Whitehurst, Miss Mabel Lacey and the John Flanagan Buggy Co.

The band, which left yesterday will return tomorrow, but the Glee Club will remain through Saturday.

A total of twenty-three cars and one truck were needed to carry the two groups.

Four Anchors Topic Of Talk Last Night
Speaking to a full house at the Free Will Baptist Church last night, Rev. Clifton Rice discussed the subject "Four Anchors for Life."

The anchors mentioned were: Courage, Principle, Faith in the Bible, Faith in Christ.

The music program included the singing of "When We All Get To Heaven," by a mixed quartet and "Sweet Voice of Jesus" by the male quartet.

Tonight Rev. Mr. Rice speaks on "The Man Who Was Afraid of His Wife." The service begins at 7:45.

Hollywood

Sights And Sounds

By Robbin Coons

Reno, Nevada—The Hollywood preview junket really turned colossal this time. The premiere of the movie, "Virginia City," was all that advance ballyhoo promised it would be.

It brought a wholesale invasion of the divorce capital by Hollywood. All Hollywood had such a good time nobody once thought of establishing residence. It was probably the first time in movie history that a mob from Hollywood got within shouting distance of Reno and didn't ask the rates for a six-week stay.

As a first-timer here myself, I got a bit of a shock. I always had thought of Reno as a dateline for divorce yarns. Now I know Reno not only as a place where regrets are simplified, but as a strange wonderland of a town thriving amid natural beauties to which even Mark Twain never did complete justice.

Virginia City, a ghost town which came to bright life for the premiere, hangs precariously on the side of a snow-spotted mountain, glistening in the past and taking full advantage of its interesting present.

The view from the main streets would make a New Yorker swallow his gum and a Hollywood call for a technicolor, three-dimension camera. According to Death Valley Scotty, who was there when Virginia City was thinking about movies, there wasn't much time in the old days to contemplate the view.

The Virginia City folks were considerable, however. When they got to shooting things up, they usually excused the outsiders and made it a family affair. Scotty tells about the time he wandered into town, one Fourth of July in the boom days, and found the celebration practically over: "A Virginia City lady had taken umbrage at some stray remark and, with her trusty six-gun, had gone out and shot dead the first three men she saw."

The reason for our invasion—is a good action picture, which is nothing new for Michael Curtiz to deliver. The period is the Civil War, when Virginia City's gold was mighty important to both sides. Errol Flynn is the northern hero whose derring-do prevents the gold from reaching General Lee—in spite of all that Randolph Scott, aided by Miriam Hopkins, who falls in love with Flynn—can do to get the gold to the Confederacy. Humphrey Bogart, as a Mexican Robin Hood, puts in his hand and gun toward complication, and Alan Hale is there, hearty and rough-house to assist Flynn. Frank McHugh gets laughs.

It was a great gang of movie folks on the special train. There wasn't any hiding out in compartments to keep remote from the common herd of passengers. Muzzy May Robson stayed in her room, but the door was open and she and Lillian Hammer held gracious court there. Errol Flynn fraternized all over the train, and Rosemary Lane and Leo Carrillo lent their voices and talents to entertainment—long after they had a right to be tired out. This Mario Chamlee of the Met—what a voice and how generously he gave it! White-haired, bearded Hobart Bosworth, who once played at Virginia City, was there with reminiscences; and Tom Mix and Buck Jones, and Fred Stone, and Lillian Bond, and Wayne Morris, and Ron Reagan, and Jane Wyman.

Sunbonnets Are Bigger.
Paris (AP)—Bigger and better sunbonnets are thriving in new collections of Paris dressmakers. These match decollete beach frocks in dotted pique or checked cotton, and are distinguished by back draperies that form waist-long capes.

For Smoother Griddles.
Keep the pancake griddle bright and shiny by cleaning it thoroughly after using with steel wool or a wire mesh pot cleaner. A smooth, well-cleaned griddle bakes better pancakes.

Pennsylvania accounted for 1,808,000 bushels of America's buckwheat production in 1939, which totaled 5,739,000 bushels.

MRS. COOPER NO POLITICIAN

Wife Of Candidate is Good Housekeeper However

Reflector Bureau.
By HENRY AVERILL

Raleigh, April 17.—If Tom Cooper is elected governor of North Carolina (Wilmington's colorful mayor will say this ought to be "when," not "if") the people of the state will find a housewife and a homemaker as first lady of the state.

Mrs. Cooper, as those accompanying the candidate on his campaign tour can testify, is an excellent cook, and those who know her well report she is a meticulous housekeeper as well as being an efficient and economical household manager.

She was Miss Janie Collins, of Conway South Carolina, when she married Tom Cooper, after graduation from Columbia college, and during their more than three decades of married life, has presented him with two daughters, Misses Lois and Jane Cooper, the former a school teacher, the latter a technician at Duke hospital in Durham.

Mrs. Cooper is the perfect counterpart of the Wilmington mayor. She is pleasant and affable, a lot more quiet than her ebullient husband, but like him, she loves her friends and also, loves her enemies.

She has been, and is, prominent in work of the Methodist church and has taken an active interest in recreation in and around Wilmington, aiding interested parents in setting up recreation centers for their children for play under proper supervision.

Mrs. Cooper has never taken a very active part in politics, but has proved, nevertheless, a valuable ally to her husband; for there are many voters, especially in New Hanover, who will support Tom because he is Mrs. Cooper's husband.

In Cooper's checkered career she has been a balance wheel, and those who know her well say she has played a big part in his return to public service. She restrains somewhat her active husband, counsels him wisely and, in general, meet the requirements of a true helpmeet.

most rigid physical examination, do brilliant work in the ground school and then "flunk the course" when he takes to the air simply because he can't stand flying.

The Car You Want At Your Price

LET'S SWAP!

1936 CHEVROLET BUSINESS COUPE—Ideal for salesman or commercial traveler. Large luggage space. Turret Top Body, Knee-action. Black finish in excellent condition. Bumper guards and DeLuxe equipment. Radio and heater. Hurry before this car is sold—Only \$295.00

WHITE CHEVROLET CO., Inc.

Hints For Housewives
Asparagus shortcake is a spring treat for the family or a party luncheon. Make up regular biscuit dough and add 1/2 cup grated cheese for each 2 cups of flour. Bake biscuits as usual, split them while hot and cover them with creamed asparagus. Replace the tops and add more asparagus. With a fruit or vegetable gelatin salad, frozen dessert and coffee you have an ample menu for luncheon.

When buying buckles or buttons to be used on wash dresses, don't get the kinds that are glued onto the shanks. They will come off in laundering.

Water rings on varnished furniture often can be removed by rubbing them with a cloth dipped in camphor. Work quickly and wipe dry with a clean soft cloth. Rub with furniture polish applied on a soft cloth.

To encourage youngsters to eat all their soup, try topping the bowls with toast cut in animal shapes. Cut the bread with cookie cutters, toast it, butter and then slip on top the soup just as served.

Rub up the nickel faucets with cleansing tissues every day. Such rub ups will lighten the weekly cleanings.

WHO SHOULD GET WINGS? SCIENCE WANTS TO KNOW
Denver, (AP)—Medical science still seeks an answer to the question of "what makes a good airplane pilot tick?"

"Is a tall, husky man a better pilot than a short, slender man?" asked Dr. Michael L. Mason of the Northwestern University Medical school at a Denver medical meeting.

"Is one type of man better qualified to fly at an altitude of 25,000 feet than another man?"

"I suppose some of the answers will be obtained through the trial and error method."

He said the answers would simplify the problem of the Army Air Corps, which examines applicants for army flying jobs.

Occasionally, a man will pass the

Lazy Insides Answer All-Vegetable Way!
A quarter to half a teaspoonful of a spicy, aromatic laxative on your tongue tonight; a drink of water and there you are! That is the BLACK-DRAUGHT way to relieve constipation and its sour stomach, headaches. Leap Year or Bissextile, originated with the astronomers of Julius Caesar in 48 B. C.

The 1940 Oldsmobile convertible phaeton, in the Custom "8" Cruiser series is one of the two new convertible models announced this week by Oldsmobile. The new phaeton, comfortably seating six passengers, has an over-all length of more than 210 inches and features Oldsmobile's eight cylinder 110-horsepower engine. A large space for luggage is provided under the rear deck.

All Candidates Quiet On Campaign for Third Term

Reflector Bureau.
By HENRY AVERILL
Raleigh, April 17.—North Carolina's multitude of gubernatorial candidates are attempting to talk about almost everything under the sun, but so far none has broken the brooding silence that has gripped politicians of all classes about the North Carolina Roosevelt loyalty drive, headquarters for which were opened here Monday.

Perhaps this silence may have been broken by the time these lines get into print, up to the moment at which your reporter put them on paper the many "governors" seemed to be unanimous in agreeing with the old adage about "silence is golden" so far as the Roosevelt movement is concerned.

Which is more or less astonishing, as it would seem the natural thing to do for one or more of them to attempt to catch hold of the tail of the Roosevelt kite and go soaring aloft with it. It may be, perchance, that they do not think the kite is going to soar very high, though that would be at wide variance with what seems the best-informed comment on the subject.

In one of his speeches this week—or maybe it was late last week—J. M. Broughton lauded the national administration of President Roosevelt in almost the same breath with which he sung praises of the Hoey state regime. To this extent the Raleigh lawyer seems to have the edge on his principal rivals in declaration of loyalty to FDR.

Tom Cooper, of course, has repeatedly in the past sung the praises of Franklin D. and all his words; but he hasn't chanted any new chorus, or even a verse, since the North Carolina movement for a third term came out into the open.

Nor, so far as this reporter knows, has any of the others. Chances are that all the candidates are waiting to see what, if any, reaction the Roosevelt campaign stirs before committing themselves one way or the other.

There isn't even a Chinaman's chance that any of them will be misguided enough to come out openly in opposition to the program of loyalty to the head of the current administration; and it would seem offhand that it would be good strategy to plump strongly and loudly for FDR, who had the great mass of the Democratic votes behind him. The objection lies in the fact that the small percentage of Anti-Roosevelt Democrats include most of those who have what is known in everyday parlance as plenty of dough.

No dough is one of the things without which a gubernatorial campaign begins to take the status of a hot dog without the dog or a doughnut with nothing but the hole; with the result that no candidate is purposely or willingly going to estrange anybody he thinks might come through with a substantial cash contribution.

Wherefore, it is believed, the silence which fairly shrieks. One more reason is that nobody seems yet to be quite clear about the "whys, wherefores and how comes" of this Roosevelt campaign. It takes money to open statewide headquarters for any sort of drive and a very natural inquiry regarding the Roosevelt campaign is "who is putting it up?" and until that is answered to the satisfaction of curious candidates, no roar of approval or applause can be looked for.

Colored News

Agriculture Contest at Greensboro

Five boys of the agricultural department of the Pitt County Training school took part in a judging contest which was held at the A. and T. college at Greensboro. The products judged included: livestock, poultry, potatoes, corn and hogs. The boys that represented this school were Charles Dudley, Gaston Monk, E. C. Setzer, Jr., Curtis Jones and Alonzo Mills.

E. C. Setzer, Jr., of this school made the highest number of points of the 200 boys from all over the state. He made 792 points. As a result of his achievement, he received a gold medal and a free trip to Pinebluff, Ark., where he will represent the state of North Carolina in a national judging contest to be held in August.

Prof. E. C. Setzer, Sr., is in charge of the agricultural department in this school. This department has one of the best garden projects in the state. Severe winter did not prevent this department from having a year-round garden.—O. A. Dupree.

BOY SCOUT CAMPOREE

We have been informed by Chief Executive Scout John J. Sigwald and Mayor Jack Skinner that everything is in readiness for our 1940 Camporee in Kinston beginning Friday of this week.

We are urging every Colored Scout and citizen to visit this event if possible. One of the main reasons a large number of citizens are gratuitously giving their services to these boys is for the purpose of building citizenship. Every person has some standard of living which has its bearing upon society and his acts help to either raise or lower the standard of society in general. We try to instill in them the idea of doing a good deed each day. Such doing is a nucleus around which the idea of public service can be built and teaches the idea of helping to improve our environment. We do not hold George Washington in high esteem, as the father of our country, merely because he was the first president, but mostly because of his unselfish desire to make the world a better place in which to live. He could not have done such a great work by having an interest in his own job, business, profession, family and personal friends and in the meantime build a fence around them and let the rest of the world go by.

Regardless of what happened to us in the past (we are none perfect), each of us can do something each day to help improve our community, and from our own errors we should not refrain from an opportunity to help to prevent others from making the same or similar mistake. Each of us should ask ourselves this question: "What am I in the equation?" What am I doing aside from my daily work to help make the religious, educational, civic, social, and other activities better?

In so doing we will find many things to do and set examples that will serve as a guide to these boys and give them open minds and a right to render service wherever and whenever they can. This kind of service is the result of Christ's teaching: "God first, our neighbor next, we are last."

J. E. TAFT, Chairman
Organization and Extension, Colored Scouts, E. C. Council.

Gardening Clean-Up
Gardening and cleaning are hard on the hands, so equip yourself with extra rubber gloves and wear them every time you do this kind of work. Rub some cold cream under your nails before starting work—you will be delighted how quickly you can clean your nails after a good soap and water bath.

In grading eggs, the size of the air cell and the position of the yolk are two important points.

and whenever they can. This kind of service is the result of Christ's teaching: "God first, our neighbor next, we are last."

One Man Who Knows His Rights
Leavenworth, Kans. — (AP) — A patrolman saw a farmer park his car and walk away without placing a nickel in the machine. "Nickel, please," said the officer. "Young fellow," replied the farmer, "I read what it says on that contraption. It says that I can park here for two hours for five cents. Well, I have only been here 10 minutes and when the two hours are up I will put in the nickel." And that's what he did.

There Is A War
Berlin. — (AP) — The war is beginning to make itself felt here for most Germans it will hurt most. Beer production has been cut 25 per cent.

"MORE SIZE! STYLE! POWER! COMFORT!" FOR ONLY A LITTLE MORE MONEY!"

"I COMPARED OLDS WITH THE LOWEST PRICED CARS—FOUND THAT FOR ONLY A FEW DOLLARS MORE, THE BIG OLDS SIXTY GAVE ME A WHOLE OF A LOT MORE CAR!"

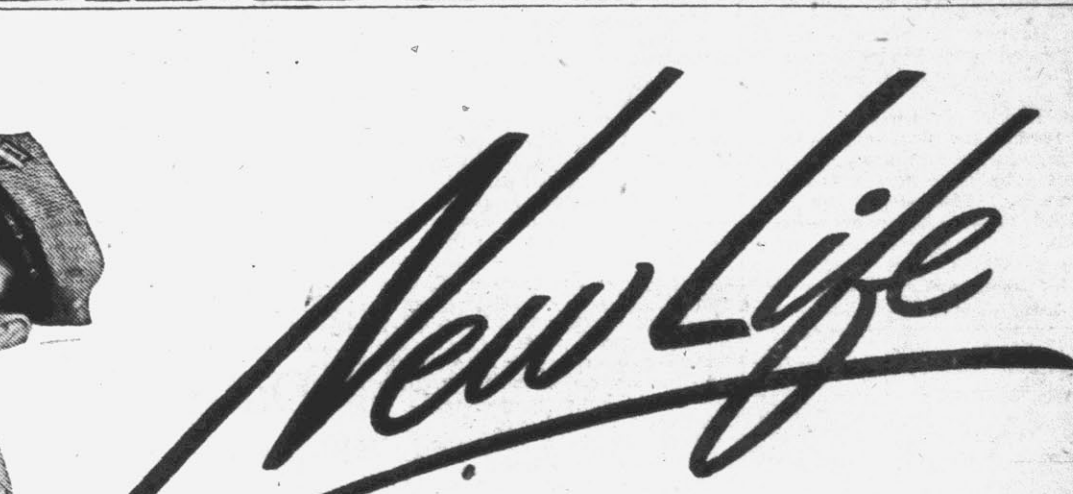

\$807

Think of everything you want in your next car — then think of Oldsmobile! Size? The big Olds Sixty is 197 1/2 inches from bumper to bumper. Style? Olds is known everywhere as "the best looking car on the road." Power? A big 95 H. P. engine puts Olds well out in front. Comfort? One ride convinces—Olds leads the league in luxury! Try it, today!

Olds prices begin at \$807 for Coupes, \$853 for Sedans, delivered at Lansing, Mich. Transportation based on rail rates, state and local taxes (if any), optional equipment and accessories—extra. Prices subject to change without notice. A GENERAL MOTORS VALUE.

Change now to OIL-PLATING... and "the old gray engine seems more like she used to be"

At birth her cylinder walls were almost like mirrors. The more of that polish you want to keep, the more you want your engine OIL-PLATED by changing now to patented Conoco Germ Processed oil.

OIL-PLATING in your engine, like chrome-plating on bumpers, stays constantly PLATED UP. For an apparently magnet-like attraction comes to Germ Processed oil from its man-made extra ingredient, so that engine parts are surfaced with their close-held shield of OIL-PLATING... drain-proof.

Remaining fully PLATED UP in the highest-speed engines, OIL-PLATING plainly keeps Wear from doing Summer "business as usual." Wear once thrived during starting periods, but now before the starter ever starts, your OIL-PLATED engine is ready-lubricated—a positive step toward preserving the old gray engine... or a new one. OIL-PLATED cylinders long keep the roundness of youth, and that makes your Germ Processed oil keep. Change today—to Your Mileage Merchant's Conoco station. Continental Oil Co.

Strength For The Day

By EARL L. DOUGLASS

UNCONSCIOUS LIES
The worst liars in the world are
very often entirely unaware of the
fact that they lie at all, because the
worst liars in the world are those
who lie to themselves.

There are lies and lies. Some peo-
ple tell the so-called white lies.
Other exaggerate. Still others
spread malicious tales about their
friends and neighbors. But the per-
son who tells the most damaging
lie is the chap who keeps deceiving
himself day after day and year af-
ter year. Perhaps he never utters an
untruthful word, but continually
he shields himself from reality by
assuming himself of something that
is not true. He excuses himself for
mediocrity. He deceives himself in-
to believing that his little indulgences
will never lead to anything serious.
He has soft cushions spread
everywhere upon which he alights
after every well-merited failure. No-
body can make him face the truth
about himself or about the world.
The man is the most dangerous of
all liars—he lies to himself.

People lie at different levels of
personality. The deeper the level
at which they lie, the more danger-
ous the lie. To deceive one's self is
to lie at life's deepest level.

Newspaper Syndicate)

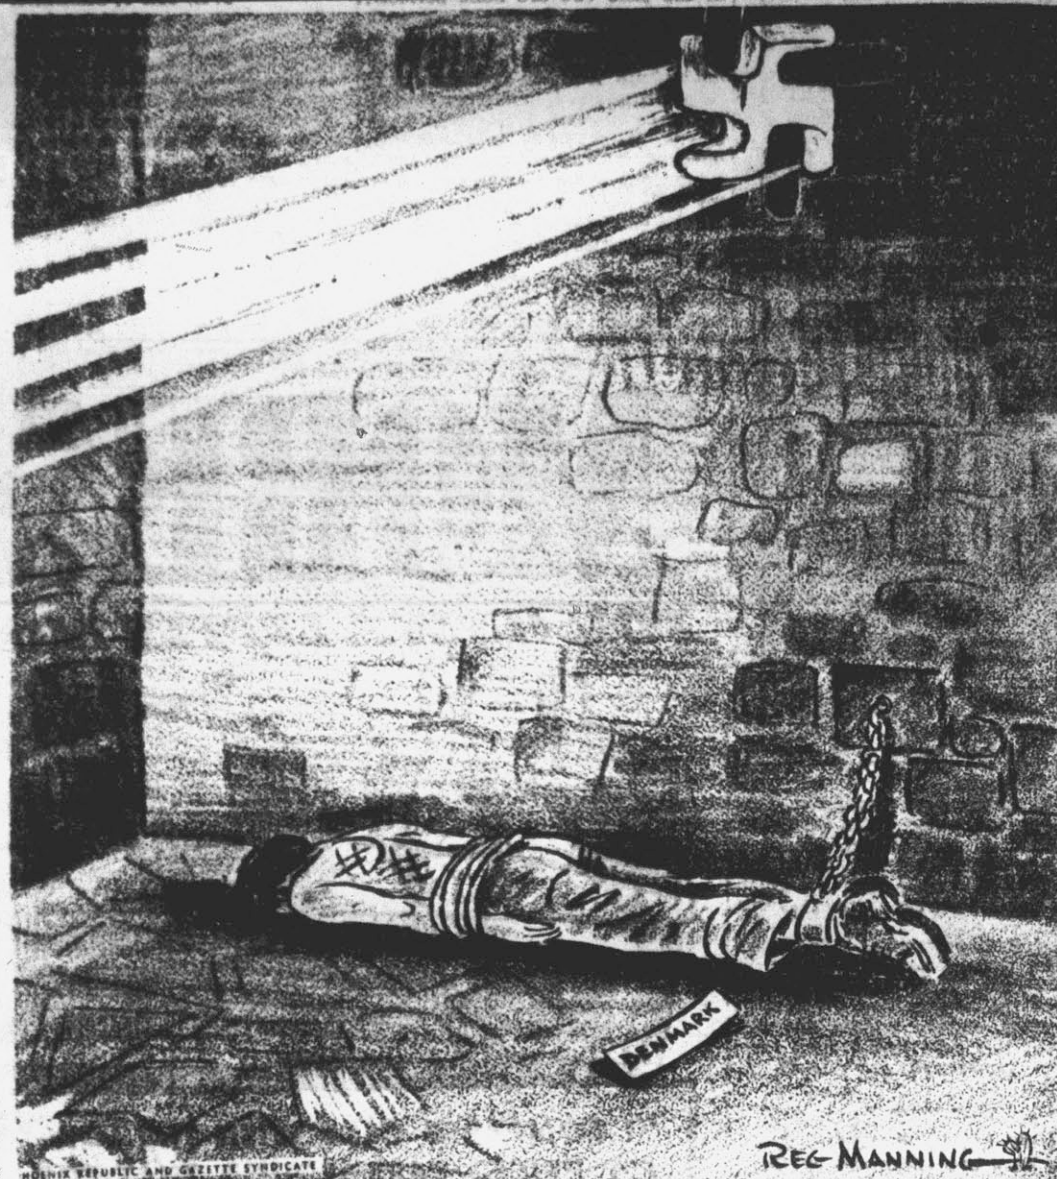

● There is the old saying
about "Something Rotten in
Denmark" and most people
consider it now literally true
since Hitler and his forces
have occupied the country.

● Now comes the word that
the Dies committee is to in-
vestigate Communist activi-
ties at the University of
North Carolina. While the
committee is about it some
attention might be given to
the Communist material
contained in some of the text
books of high schools in this
and other states.

● The movement for prop-
erly draining Green's Mill
run as a malaria control
measure, discussed here yester-
day, is we believe, a good
project and one that would
mean much to the health of
Greenville. This stream
skirts the entire southern
section of the city and af-
fords an ideal breeding place
for mosquitos. The draining
of this run together with an
intensive spring campaign
against mosquitos through-
out the city would make
Greenville a healthier and
more comfortable place this
summer.

● If you are not in the habit
of dimming your automobile
lights when meeting another
car on the highways at
night you had better acquire
the habit at once or you are
likely to be picked up by a

Protective Custody

patrolman. Bright lights are
one of the hazards of night
driving and the patrolmen
are out to curb this danger.
The next time you meet a
car at night and the driver of
that car dims the lights, you
had better do likewise for it
may be a patrolman and if
you fail to extend this cour-
tesy of dimming your lights
you will probably be sum-
moned to "tell the Judge"
why you didn't.

Washington Daybook

By Jack Stinnett

Washington.—Now I know what
they mean by Washington under-
ground.

No city in the country, without
a subway system, is so honey-comb-
ed with tunnels, catacombs, con-
duits and below-surface passages as
the nation's capital. It's a mystery-
writer's undiscovered delight.

The capitol itself is center of a
spider-web of tunnels and steam-
pipe conduits that finger their way
to the House and Senate office
buildings, to the Library of Con-
gress, the Supreme Court building
and down the capitol's backyard to
the Botanical Gardens.

Deeper down under the capitol
and the cluster of buildings there
are the railroad tunnels that run
from the Union Station.

There's hardly a government of-
fice building that doesn't have its
tunnels connecting with an annex,
a new or a sister building. All in all,
there probably are miles of these
alone—but there's nothing mysteri-
ous or eerie about them. They are
lighted and tiled and the pedestrian
traffic in them on a rainy day
around quitting time is heavier than
on the streets.

120 Above
But the catacombs that nobody
knows are made up of the system of
tunnels that run from the central
heating building and carry the big
steam mains out to all official sec-
tions of the city. The smallest of
these are four feet wide and over
six feet high; the largest eight feet
wide and seven feet high. Five
steam mains lead out of central
heating and these are locked against
the walls and ceiling of the tun-
nels. Steamfitters, working in pairs,
are making inspection tours up and
down the tunnels 24 hours a day—
but there are four and a half miles
of tunnel in the system and you
could spend hours down there with-
out seeing a soul.

The capitol's underground is not
on any Washington tour, but if you
know the right people, like Alex E.
Eadie, chief engineer, you might get
at least a look-in.

Dropping down through the spot-
less halls (hundreds of tons of coal
are burned there daily, but there's
not a sign of smoke or soot), I came
to the yawning mouth of the main
tunnel and was met by a blast of
120-degree dry heat that comes from
the asbestos-encased pipes. Surpris-
ingly, the heat becomes bearable
within a few minutes and after a
block or so of tramping, almost un-
noticeable.

The tunnels are lighted on a block
system, the traveler flipping on the
lights ahead and turning off those
behind at regular intervals. The
tunnels have a phone system, too,
that connects with central heating.
At most points, the heat is pretty
even, but the E-street extension is
known as the hell-hole of the sys-
tem. The temperature there is al-
most always around 160 degrees. It's
a Turkish bath for certain. Even the
hardy steamfitters make their in-
spections there on the run.

Battle Of The Catacombs
Like the sewers of Paris, the cap-

ital's catacombs have their story.
During hard winters of years past,
they housed a small army of bums.
In the early days of their habitation,
the hoboes would scurry out of the
tunnels when a fleet-footed scout
warned them of the approach of the
steamfitters, but later they began
to resent the intrusion.

Once there was a battle royal in
the tunnels. A group of bums chased
two steamfitters away, but the
pipeline boys returned with rein-
forcements and an arsenal of
wrenches. Some of the tramps prob-
ably are carrying cracked heads yet.
One hobo took up permanent
abode in a branch of the tunnel
down near the Potomac and refused
to be dispossessed until police gave
him quarters in the hoosegow.

One branch of the tunnel runs
into the White House. Another into
the Bureau of Engraving (where they
make our folding money) and
another into the treasury buildings.
At these points the steamfitters
have their troubles. The captain of
the guard has to be called out and
the steamfitters conducted on their
inspection tours by an armed escort.

It was the New Deal that turned
on the heat in Washington, the cen-
tral system being started in 1933,
but it was the old deal that plan-
ned it.

Lawrence, Kans.—(AP)—It's the
custom of college presidents to
shake the hand of seniors when they
hand them their university de-
grees. A Kansas State senior has
wagered \$25 he will wear a false
hand and leave it dangling in the
hand of the president when he
walks across the stage, come June
commencement time.

LITTLE SPHERE

By Jean Randall

YESTERDAY: Mrs. Arnold, who has an exaggerated idea of her responsibility toward her thirty-year-old ward Dorothy, asks Brenda to give up seeing Salts. Amused, Brenda refuses, but promises to keep away from Dorothy.

Chapter 12

A Little Adjusting

"WHY can't I ask Dorothy to my room?" Brenda asked Adelaide, after Mrs. Arnold had left. Mrs. Rostetter bridled gently.

"Dorothy, my dear child, is a very stupid person; one can hardly call her a girl. I doubt if she reads a single book in a year. She glances at the headlines of newspapers—if they have to do with murders. Mrs. Arnold's protectiveness toward her is almost a phobia. I think the matron who put Dorothy in her care in the first place was largely responsible for it. She kept impressing on the poor woman that the girl would receive her impressions from the person with whom she made her home. It's ridiculous, really—the way she spreads her skirts in front of Dorothy. Eric and Isobel make all sorts of fun of her; but Mac thinks it's sort of pathetic. But then Mac—"

Brenda rose abruptly. "I must get to work! And by the way, Adelaide, I've asked Hugh Salts to come here this afternoon. I hope you don't mind?"

Adelaide smiled demurely. "This is a boarding house, my dear. Who your guests and callers are is certainly none of my business!"

So Hugh came that afternoon, his eyes wary as a wild animal's but his mouth sensitive and almost tremulously smiling.

"You're sure this won't injure your social standing in The Street?" he inquired.

"How absurd!" Brenda exclaimed. "I'm proud to have the great Mr. Salts calling, let me tell you! When my friends at home know—"

He looked alarmed. "You haven't written them where I am? Oh, Brenda, I hope you haven't!"

"Is it a secret?" In her turn she was disturbed. "Because I'm afraid I have told one or two. I'm so proud of knowing you, you see. Hugh, why do you hide?"

"There are reasons." He seemed suddenly as vague as Adelaide herself. "Never mind, dear child. I'm flattered that you are proud. It's pretty swell—having a nice girl like you willing to know me."

The whole situation puzzled Brenda. What if his wife had gone home and had not come back? Did that affect the man himself, or his work? Probably, Brenda mused. Mrs. Salts was a cat, and Hugh was better off without her anyway. He seemed a lonely soul, poor Hugh!

"Who do you think you are?" Isobel inquired pleasantly that evening. "Mrs. Omnipotence? For I tell you, Brenda, not even a Burnham can carry on with Hugh as you're doing and not get herself talked about."

"Carry on?" Brenda ruffled indignantly. "I received a famous artist in the parlor of my board inghouse—in the afternoon. If that's carrying on, I wonder what they'd think of some of the things that happen in the Village!"

"Ah, but they wouldn't let them happen here, you see! This street has been—well, pure and undefiled in its morals since your grandfather's time; perhaps before. It's not for a young chick like you, my sweet, to come along and corrupt it."

"If it's never corrupted any more than I shall corrupt it, it's most fortunate. Yes, Grenadine, what is it?"

"Miss Mac say would you come down to the parlor a minute. He'd like to speak to you private-like."

'Keep Out'

BREND A cocked a mocking eye at her caller. "Now there, Isobel, is food for gossip, if you like! A young eligible man craves private speech with me—and after nightfall! Hadn't you better call Miss Ormond and Mrs. Arnold and tell them about it?"

In the parlor Mac said gravely: "I've tried all evening to get a word in with you but I've had no luck so I sent Grenadine to ask you to come down. I hope you didn't mind?"

"What is it?" she demanded briefly.

"I simply wanted to warn you to keep out of the Abernathy-Barrow affair," he said. "There are ramifications to it which you don't know; which you needn't know. Will you take my word that it's wisest to let the twins attend to their own affairs?"

The icy wrath which he had stirred in her twice before rose again.

"No," she answered deliberately. "I won't take your word, and won't keep out of their affair. It seems to me to need a little adjusting. And I'd have you know," she continued defiantly, "that I've been asked to adjust it!"

If not at the top. Everywhere it's 'Cooper and Broughton,' of 'Cooper and Horton,' or 'Cooper and Mac,' but it's always Cooper and Mac, well, but it's always something to me if not to you. Especially since it's always Cooper and a different other man in each county."

With his usual assistants already attached to various gubernatorial headquarters, John Larkins is having quite a time lining up a lady with sufficient political savvy and connections to take charge of the Roosevelt headquarters here.

An effort was made to get a leave of absence for Mac Oliver, of the Probation Commission, but it's "no go," reportedly because Governor Clyde Hoey turned thumbs down on the proposition.

Now it looks as though Ernestine Hines, of the Roadbuilder organization will be let off by her bosses long

"By whom?"

"By—Ned Barrow."

"I was afraid so," he sighed. "My dear girl, I wish you'd believe that I really want to be a friend of yours—not an enemy. And as a friend I tell you that mixing up with Barrow and Alaine will bring down a lot of trouble on your head. I know. I've lived here several years and I understand the situation as you can't hope to do—not for months, anyway. Barrow, heaven be praised, has gone to California for two weeks. Will you give me your word to do nothing about him and Alaine—most especially about Alaine—until he comes back?"

"My dear Mac," she began affably, "your solicitude is most gratifying—most gratifying indeed. But somehow I can't see how my helping a pair of lovesick youngsters out of a coil of trouble they've wound themselves up into is going to harm me in the least. Likewise—she cocked a mocking eye in his direction—"flattered as I am at your effort to look after me, I'm at a loss to understand why—"

"Yes, you said that before. I wonder about it myself—sometimes. Let's put it that I hate to see either fool or angels rushing in where they shouldn't tread."

"Take your choice," he said, and strolled away. "My last word is: you'll regret it deeply if you don't keep out of that mess!"

'Very Unjust'

BREND A had progressed from the back square to the second in her book. She was supremely dissatisfied with the result but, as she reminded herself almost tearfully, she couldn't stay or one chapter forever.

Viciously she had scratched out the word "sparkling" from the cardboard plan. It was as much as she could do to get Margaret and Brian to open their mouths to each other, much less engage in sparkling dialogue. Their stiff, formal sentences disgusted the young author beyond measure, but try as she would, nothing better came.

"And this makes three days to one chapter at that!" she thought. "At this rate I'll be forever writing the infernal book!"

She worked doggedly all morning and until nearly four in the afternoon when she decided that a brisk walk would clear her mind. It was a heavenly day with a blue haze on the hills beyond the town.

"I wish I had a car," she thought wistfully. "I'd like to drive out there and see the river. Oh!" She bumped into a young man who came dashing up the steps just as she went down.

"I beg your pardon!" His tone was distinctly sulky. "I hope I haven't hurt—Oh, it's you, Miss Burnham!"

"Brenda," she corrected with a smile. "Call me Brenda, Ab!"

"Of course! You and Alaine make a rather impressive pair, you know. Did you want to see Adelaide? I'm afraid she's out just now."

He glowered at her. "It's you I want to see!"

"I?" She glanced again at his wrathful young face and took a sudden decision. "That's your car at the curb, isn't it? Well, then suppose you take me for a little drive while we talk. I was just wishing I could get out to those hills."

He hesitated. Plainly the idea of driving about a girl with whom he had come to quarrel was a trifle disconcerting to him.

"You might as well," she assured him.

"All right!" He closed the door upon her, careful even in his annoyance to see that her skirts were protected, and went around to his own seat. "Look here, Miss Burnham, I—"

"Brenda!"

"Well, Brenda, then. But don't think that I intend being friends with you, because I don't! I know what you've been up to with Alaine. I know you're encouraging her to marry Ned Barrow and I want to tell you—"

"Encourage her? My dear boy, wasn't she packing to elope with him when I arrived on the scene? Didn't I talk her into postponing it, merely to give her time to make up her quarrel with you? I think," Brenda concluded plaintively, "you're very unjust!"

"A lot I care what you think," he told her with boyish rudeness. "If that was all that happened, it would be O. K. But it wasn't all. You sent Barrow off to California and got Alaine all stirred up over his going."

"I tell you, she never took him seriously before, no matter how often she threatened to marry him. But now—now! You knew the one and identical thing to keep her thoughts on him, make her wonder why he hasn't called or written."

"You understand a lot for a child of your age," she said coldly. "Child! I'm nearly twenty-one! And it doesn't take either age or wisdom to see through this little maneuver of yours."

Continued tomorrow

enough to take over and help Larkins with the drive.

Carl Barefoot, highway safety division attaché, came back from organization meeting of a Youth Highway Safety Club in Buncombe county with a good story explaining why youngsters drive so fast at night.

He says a young lady at the meeting has it this way:

"It's because parents are so inconsiderate of their children. They tell a boy who is going to a dance 25 miles away to be sure to get back by 11 o'clock or he won't get the car again. Of course he stays at the dance until 10:45, then tries to drive the 25 miles in 15 minutes. You see, it's all the parents' fault."

State Manager Burgin Pennell of the Maxwell forces fairly truths at

the mouth every time he thinks about.

"And yet," he explodes in private, "I'm expected to keep cool and in good temper at all times!!!"

The other day he got a rather mysterious phone call: "Please come up to Room 1017 on a very important matter right away." Repeated efforts to find out something about the nature of the "important matter" were fruitless, and so up to 1017 went Mr. Burgin on the theory that nothing should be overlooked.

When he got there he found a salesman for clothing who tried to interest him in a new spring suit.

ORDINANCE

THE BOARD OF ALDERMEN
OF THE CITY OF GREENVILLE

Section 1. That it shall be unlawful for any person to park any automobile, truck, bus, or other vehicle of any kind, within the parking space provided on the South side of Fifth Street between Washington Street and a point opposite the northwest corner of the New Municipal Building, and within the parking space provided on the West side of Washington Street between Fifth Street and a point opposite the southeast corner of the New Municipal Building on said Washington Street, for more than fifteen (15) minutes at any one time between the hours of 9:00 o'clock A. M., and 6:00 o'clock P. M. on any day other than Sunday.

Section 2. Any person violating this ordinance shall be guilty of a misdemeanor, and upon conviction shall be fined \$10 by the Court for each offense.

Section 3. All ordinances in conflict with the provisions of this ordinance are hereby repealed.

Section 4. This ordinance shall be in full force and effect from and after its ratification.

Ratified this 4th day of April, 1940.

J. O. DUVAL, Clerk.

A5-4ts.

Lemon Juice Recipe Checks Rheumatic Pain Quickly

If you suffer from rheumatic, arthritic or neuritis pain, try this simple inexpensive home recipe that thousands are using. Get a package of Ru-Ex Compound today. Mix it with a quart of water, add the juice of 4 lemons. It's easy. No trouble at all and pleasant. You need only 2 tablespoonsful two times a day. Often within 48 hours—sometimes overnight—splendid result are obtained. If the pains do not quickly leave and if you do not feel better, Ru-Ex will cost you nothing to try as it is sold by your druggist under an absolute money-back guarantee. Ru-Ex Compound is for sale and recommended by Bissette's Drug Store and good drug stores every-where. (adv.)

For House Of Representatives

I hereby announce that I am candidate for nomination as member of the North Carolina House of Representatives subject to the action of the Democratic Party in the coming Primary of May 25, 1940.

Bill Teller To Start On Mound For Greenies Tonight

SKIPPER GIVES LOCAL LINE-UP

Jenkins and Manager Only 2 Old Men To Start

Bill Teller, rookie hurler who hails from Richmond, Va., and who has been showing up good in workouts since joining the Greenville club, will receive the call to start tonight's game against the Batavia team at Guy Smith park tonight.

Manager Rube Wilson announced his complete starting line-up, but said that several other players would see action during the game, the second after-dark contest for the locals this season.

The complete starting line-up follows: Forbes, lf; Kracke, 2b; Samock, cf; Jenkins, 3b; Wilson, 1b; Wimbrow, rf; Watson, ss; Hoffman, c; Teller, p.

Skipper Rube has shifted Harry Jenkins, member of last year's team, to the clean-up position. Harry was not up to his usual batting average a good part of last year, but has shown considerable improvement during practice and exhibition contests this spring and he is expected to prove one of the main cogs in the Greenies' offensive. He got four for four in Monday night's game with the House of David team.

Jenkins and Manager Wilson are the only two members of last year's team in tonight's starting lineup.

One local boy, Harold Forbes, will start in left field tonight. He and other local boys are making good with the team during the training period and may be on the roster throughout the season.

NEGROES PLAN FOR FIELD DAY

Affair To Be Held In Greenville On Friday

A Field Day, for Pitt county colored schools will be held Friday of this week outside the Guy Smith baseball park. The morning program will begin at 9:30 and will be given to contest games, volleyball, softball, etc. The afternoon program will begin at 1:30 and will be as follows:

- Cherry Lane group, Clapp dance;
- Greenville group, Swiss dance;
- Winterville group, Virginia Reel; Bethel group, May pole; Grimesland group, Ayden group, Cotton Needs Pickin'; Farmville group, short pageant paying tribute to the queen.

The last number will be the winding of the May pole by students from each group—ten May poles being wound at the same time with a prize to the winning group.

Music will be furnished by the Pitt County Training school band. The public is invited to attend.

Hand embroidery engages 25,000 workers in Funchal, Madeira. Embroidered articles are the island's chief export trade item.

East Carolina Defeats ACC In Athletic Events

Locals Get 5-2 Diamond Win; Tennis Team Wins

Schools of Pitt county had a decided advantage over those of Wilson county in the athletic events of the fifth annual High School Day staged yesterday at East Carolina Teachers College.

Coach Bo Farley's Pirates upset Coach Bill Herring's Atlantic Christian College Bulldogs 5-2 in a baseball game; Coach H. C. Haynes' tennis team blanked the Bulldogs 7-0; and a softball team of Pitt county overpowered one of Wilson county 13-3.

Yesterday's triumphs in baseball and tennis enabled the Pirates to retain the traditional "Bo Funk" trophy. And that's one thing that made the students of the College go wild about the victory. Another help was the arch rivalry that exists between the schools.

Floyd Hinton opened the Pirates' scoring in the second when he drew a walk, advanced to second on Windy Winstead's single, stole third and scored on a wild pitch. Gardner's error, Futrell's single and Brown's single accounted for another in the fifth. Houston's error and Futrell's two-run single gave the Teachers three in the sixth.

One of the most interesting features of the game was the hitting of Mike Geffert, bespectacled catcher of the Bulldogs. Mike got a homer, triple, and a single in three trips. He takes off his glasses when he catches and puts them on when he bats. Maybe that's why he was able to detect Pitcher Kelly Martin's tricks.

Martin, veteran of the ECTC hurling staff, went the route for the Pirates, whiffing seven and yielding five hits. Monroe Harper, Bulldog hurler, limited the Pirates to a half-dozen safeties, but made good his stay with 10 strikeouts.

The box score:

ACC	Ab	R	H	O	A	E
Geffert, c	3	1	3	12	1	0
Houston, 1b	5	0	0	6	0	0
Gardner, 2b	3	0	0	1	2	1

Come On Girls

Girls or young business women interested in playing softball this summer are invited to attend a meeting to be held at Third Street school tomorrow night at 6:30 o'clock.

The meeting was arranged by a number of local girls interested in the sport with the cooperation of J. D. Simpson, president of the softball league, who has agreed to help the girls organize two or three teams.

Infants' clothing, on the unrestricted list in Germany since war's outbreak, has been placed on the ration-card system. Extra yarn allotments are procurable to encourage knitting baby clothes.

Home runs—Geffert; Stolen bases—Hinton, Martin; Sacrifices—Davis, Bullock, Gardner; Double plays—Treadway, Gardner and Houston; Left on bases, ACC 9; ECTC 6; Base on ball, off Martin 3, Harper 5; Struck out, by Martin 7, Harper 10; Hit by pitcher, by Martin (Geffert); Wild Pitches—Martin 2, Harper. Umpires, Latham and Roebuck.

Play Ball!

President Roosevelt officially opened the baseball season with a mighty heave at Washington when he tossed out the first ball in the game between the Washington Senators and the Boston Red Sox. This picture was made just as the ball left the President's hand. The ball is shown at the top of the picture. Joining the nation's No. 1 fan at the first 1940 game are (left to right): Postmaster General James A. Farley; the President; Clark Griffith, owner of the Senators; Joe Cronin, manager of the Red Sox and Bucky Harris, manager of the Senators.

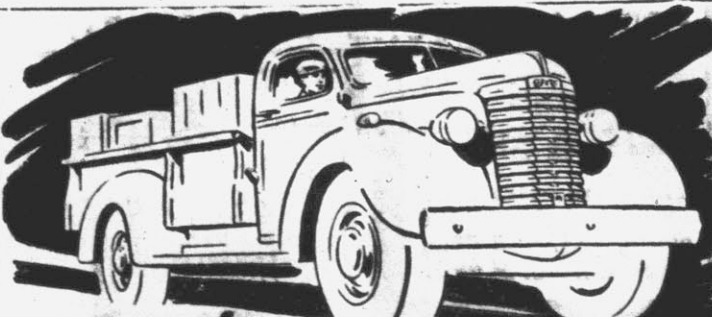

Water And Light Has Own Players

The Water and Light softball team will be composed entirely of employees of the local public utility, contrary to a statement in a news story yesterday giving the rosters of the various clubs.

Although most of the other teams

in the eight-team loop had to resort to outsiders to make up their quota, the Water and Light club found enough players in its own organization to form a team and have several substitutes.

Uruguayan industrialists have formed a cotton-growing company and will erect a \$1,150,000 yarn factory.

Man About Manhattan

By George Tucker

New York.—It has been years since the Black Spider variety of murder play has been successful on Broadway, and yet hardly a month passes that some supposedly smart producer doesn't come to premiere with another such drama that barely gets its head across the footlights before the ax-men chop it off. These kisses run into thousands of dollars and frequently they are followed by guest pieces in the newspapers, written by the producers and the playwrights themselves, which submit that the critics are ignorantly incompetent and sometimes perversely at fault.

It seems to me the greatest fault of the producers lies in their sense of selectivity. In an era torn by war, political crisis and economic upheaval, who wants to be reminded that tomorrow we may die? People want to laugh. They need to be taught how to relax. There is reality enough in the newspaper headlines to remind them to weep.

I walked into a 44th street theater the other night for the opening of a play which, up till three o'clock on the afternoon of its opening day, had cost its backers exactly \$31,000. This money was already down a rat hole. Unless the play caught on, unless the public found it acceptable, all the weeks of terrifying (to those who needed the jobs) and expensive and exhaustive work would be absolutely for nothing. By the end of the second act all but two of the critics had departed. Next morning the death notices were recorded in clear-cut statements by the critics.

The play ran through six performances, but actually it was as dead as the speakeasy era long before the first act curtain fell on the first performance.

You hear many people mention Hell-a-poppin and wonder why it continues to play to packed audiences. It is sneered at because it is based on prat-falls and low comedy that tickled grandpa 40 years ago. I hadn't thought of it until now, but Hell-a-poppin begins to make sense. It makes people laugh. It makes people get out of their seats and dance in the aisles. They come out into the streets after 11 o'clock in the evening with tears running down their cheeks, and if the tears quickly freeze on their faces, that is of no concern to the theater-goers themselves. They have plenty of warmth inside, the warmth that comes from the old time laughter that begins at the belt and shakes

What are the plays that have been successful in New York this season? Skylark, which is a light, sentimental comedy; The Man Who Came to Dinner, an out-and-out farce; The Mal Animal a screwball college comedy; Life With Father, the old family album with modern wisecracks; The Philadelphia Story, sophisticated comedy; and the musicals, the laughing, dancing, melodious reviews.

There are other successes, but with one or two isolated exceptions, they all must be predicated on the theory that laughter makes dollars.

To save coal, Italian industrialists have authorized a plant to produce methane gas for cooking and heating from sewage and garbage.

Do you keep your friendships in constant repair?

All who knew wise old Sam Johnson, the author of the first great English dictionary, were awed by his capacity for hard work and charmed by the witty company he drew around him to relax when work was done. Sam Johnson said that a man should always keep his friendships in "constant repair." He was right. A man is known by the company he keeps.

You know what friends mean...how they rally 'round you when your skies are gray...help untangle your thoughts and restore clear thinking...squench your foolish fears...bolster your confidence and give new

strength to your courage. And when skies are bright again, what a pleasure it is to gather your friends together to laugh over the past, enjoy the present and plan for the future with fortitude. With your friends about you, if you feel that you're rich...you're right.

Because of the companionship that Budweiser offers, it has been the center for circles of friends for generations. One sip tells you that it was making friends that made Budweiser, the Perfect Host.

N. Y. Stock Market

New York, April 17.—(AP)—General price advances met with profit-taking resistance in a nervous stock market today.

Gains and losses appeared to be in close balance toward the fourth hour.

Of paramount importance to Wall Street were the reports of the fluctuating tides of battle for the possession of Norway. In the course of the day some paper company shares reached new highs for the year.

Old, Old Story Told In Modern Versions

Those who are attending the services of the Eighth Street Christian church are discovering that the old, old story of Jesus of Nazareth is susceptible of fresh and vitalizing interpretation when told by a man to whom the story and its central figure are very real and very necessary to men and women of our modern age.

Dr. Idelman's interpretations and applications are not only given with a grace and charm altogether too rare in our hurried day, but they compel an attention which makes the ignoring of this Jesus of Nazareth an impossibility for those who listen.

The message last night on "The Disturbing Jesus" who troubles men when they do less and are less than they might do and be, was a message that brought the Lord of Life, with His marvelous power of penetration never satisfied until that personality submitted its powers and potentialities to the guiding grace of God. Dr. Idelman said that men are, always troubled, whether they are conscious of it or not, when their aims and ambitions and interests fall short of God's expectation; that they will continue to be troubled until life becomes loyal submissive to the spirit of Jesus Christ.

The number attending from other communions are indicative of the inclusive nature of the preaching, and utter absence of denominational emphasis in the messages of the preacher. These services will continue through Friday night only.

The public is cordially invited to attend.

Rug Representative At Taft's Thursday

A special representative of the Bigelow Weavers, makers of rugs and carpets, will be at Taft Furniture store on Dickinson avenue all day tomorrow for the purpose of providing customers with expert, individual advice on home decorating problems.

The representative, Jack Nobles, will have sample Bigelow carpets and rugs on display. The public is invited to witness the display.

NOTICE

I wish to express to my friends, supporters, and all who were interested in my campaign for the office of Register of Deeds my exceeding regret that, in my anxiety and zeal to contact voters, having solicited all of Saturday afternoon in Farmville, I failed to apply for registration with the County Board of Elections until three minutes too late that afternoon.

I also wish to hereby express my most sincere thanks for all promises of support, consideration and encouragement extended to me.

D. S. SPAIN, Jr.

Wake's Murder Trial Nearing Jury Stage

Raleigh, April 17.—(AP)—The defense and the prosecution presented their last witnesses today in the trial of Woodrow Cotten and his wife, Margaret Herndon Cotten, on charges of killing Mrs. Mary Lee Herndon, mother of Mrs. Cotten.

Coroner Roy M. Banks, called to the stand for Mrs. Cotten, said that she told him "She had prayed to the Lord and He had told her to tell the truth" when she repudiated an alleged confession that she shot her mother.

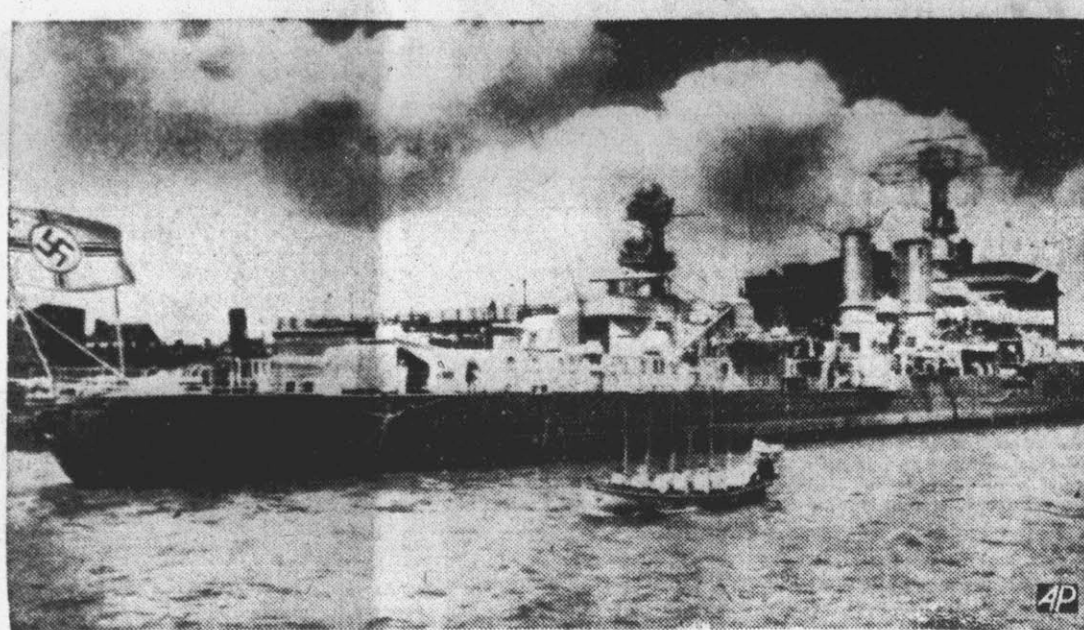

(Continued from Page One)
public works program on its own merits," he said, "and let it be handled by contracts and then handle the remaining unemployment on a relief basis."

German Cruiser Emden Reported Sunk Off Norway

Unofficial reports coming through Reuter (British) news agency say the German cruiser Emden (above) was sunk in the invasion of Norwegian waters. The Emden was the vessel which captured the American freighter City of Flint, causing an international incident. Meanwhile Germany has acknowledged two other cruisers, the Bluecher and the Karlsruhe, were sunk in Norwegian action.
