

GERMAN PORT HAMBURG VIRTUALLY DESTROYED

REFUSE PLACE LIMIT ON MEN TO BE CALLED

Amendment To Set Number At 900,000 Defeated

VOLUNTARY PLAN ALSO DEFEATED

Both House And Senate Committees Considering Compulsory Training Measure

Washington, Aug. 2.—(AP)—The Senate Military committee rejected today a proposal to limit compulsory service at this time to 900,000 men.

The committee voted down, seven to two, an amendment to the Burke-Wadsworth bill offered by Senator Lee (D.-Okla.) which would have limited the number of men to be drafted between October 1 and April 1, 1941, to 400,000 and between April 1 and October 1, 1942, to 300,000.

This action and rejection of an amendment by Lee for a 90-day period of voluntary enlistment seemed to have cleared the way for a final committee vote on the legislation next Monday.

While the Senate committee put the finishing touches on its version of the Burke-Wadsworth legislation, the House Military committee heard a succession of witnesses on the same measure. Some urged that voluntary enlistment be tried before a draft, other declared that voluntary system had "failed" a year and the draft must now be enacted.

As the Senate bill stood with rejection of the 900,000-man limitation it would call for registration of all men between the ages of 21 and 30, inclusive. An estimated 4,500,000 of about 8,000,000 registered would qualify for service, army officials report.

Negro Bound Over In Burglary Count

Columbus Williams, Negro, was bound over to Superior court under bond of \$900 at a preliminary hearing in Municipal recorder's court this morning on charges of second degree burglary.

The Negro is charged with having entered the home of Dr. M. B. Massey Wednesday night of last week while everyone was away from home and to have stolen \$7 from a pocket-book in a dining room.

The defendant failed to give bond and is being held in jail pending the August term of Superior court.

Harry Cannon, white man, was convicted of careless and reckless driving and was given a 30-day sentence, suspended upon payment of costs. The judgment also provided that the defendant be deprived of his driving license for six months.

Roy Grady, white, was convicted of drunkenness and given a 30-day sentence, suspended upon payment of court costs.

Officers Destroy Two Liquor Stills

Pitt county ABC officers yesterday helped to destroy stills in two adjacent counties. They continued their cooperation with officers of other ABC counties in an attempt to cut off the flow of illicit liquor into Pitt county.

Yesterday morning the local officers, working with Beaufort ABC officers located and destroyed a 50-gallon capacity copper distillery in the Batt "monkey run" in Beaufort county. The still was in operation when officers arrived, but the operators heard them approaching and made their get-away through the dense growth surrounding the plant. The still was fully equipped with a 50-gallon pre-heater and condenser. The officers found 1,000 gallons of new mash ready for distillation.

Yesterday afternoon the officers, working with Martin county officers located and destroyed a still in the Flat swamp section of Martin county. The distillery, a 50-gallon capacity copper outfit, was located only 500 yards across the Pitt-Martin line. Five hundred gallons of mash were found at the site. Also found was one barrel of molasses mash, from which "monkey run" is made. This was the first time local ABC officers have found molasses mash. The still appeared to have been run on Wednesday night.

The still found yesterday afternoon was the first ever located in that particular section although officers have searched in the area on numerous occasions.

President Comes Out For Service Training Measure

Flynn Succeeds Farley As Democratic Chief

Edward J. Flynn of New York was chosen chairman of the Democratic National Committee, succeeding James A. Farley, at conference President Roosevelt held at the White House with a committee named by the Chicago convention for that purpose. Flynn accepted the appointment, effective August 17. This picture shows the conferees with Flynn at extreme right, seated; Farley, President Roosevelt, Henry A. Wallace, vice presidential nominee, and Flynn, left to right, standing; W. W. Howes, first assistant postmaster general; Mrs. Mildred Jaster of Ohio, Miss Beatrice Cobb of Morganton, N. C., and David E. Fitzgerald of Connecticut.

New Canadian Contingent Arrives At British Port

BRITISH RAIDS ARE EXTENDED

Hamburg Not Only Military Objective Bombed

London, Aug. 2.—(AP)—The German port of Hamburg is "now practically in ruins," an authoritative British source said today, announcing that the expanding British air force has bombed more than 100 German cities and towns containing military objectives.

The port of Bremen, with its ship-building yards, docks and aircraft factory "has had thousands of bombs rained upon it" this source declared, while Cologne has been heavily pounded.

British airmen were asserted to have made attacks on more than 1,000 objectives in the last three months — attacks of "genuine weight and importance."

Many of the places hammered by the British in the air offensive are old world communities known to thousands of tourists.

These places, it was asserted, "have been converted into military and industrial centers vital to the military needs of Germany."

All attacks, this source said, were planned with studious care with the object of avoiding damage if possible to towns and cities which are non-military objectives.

French-Swiss Border Closed By Nazi Army

Geneva, Aug. 2.—(AP)—The German army of occupation in France has ordered closing of the Swiss-French border from Geneva to Basel, effective August 4.

Many observers viewed this as a new indication that the Germans are sealing all possible channels through which news of preparation for the invasion of Britain might reach the outside world.

Herbert Bonner Pays Brief Visit In City

Herbert Bonner, secretary to Congressman Lindsay C. Warren and who is believed to have the "inside track" to succeed his former boss as representative from the First North Carolina district, was in Greenville today greeting old friends.

Congressman Warren has been appointed Comptroller General of the United States.

Mr. Bonner declared that eight of the 14 members of the District Executive committee, which selects the nominee under normal procedure, had pledged him their support even before he had visited them.

Liberal Sprinkling Of Americans In The Division

A Northern British Port, England, Aug. 2.—(AP)—The forces guarding embattled Britain were reinforced today when another formidable contingent of the Canadian active service forces reached here.

The Canadians—with a liberal sprinkling of Americans—crossed the Atlantic on an armada of ocean liners under escort of British navy guns and with the friendly drone overhead of British planes.

As he led the contingent ashore, Major General Victor Odium, commander of the second Canadian division, declared that until the British take the offensive into Germany, "we can not feel we have done out duty."

One former member of the Michigan State Legislature declared there were a substantial number of men in his brigade from the United States.

"There would have been lots more," he added, "if we had not persuaded them to stay at home to look after their families."

He said they included 30 men from his home town alone, mostly American Legion members.

The United States members came from almost every region. Some had hitch-hiked their way up and across the continent to Canadian recruiting stations.

There was a scattering of Indians and Negroes.

Two Formally Out For Seat In House

The name of Jack Edwards, Greenville attorney, has been officially presented to the Democratic Congressional Executive committee as a candidate to succeed Representative Lindsay C. Warren, who has been appointed Comptroller General of the United States.

It also has been formally announced that Marvin K. Blount would be a candidate for the position. It was revealed at the Wednesday night meeting of the Pitt County Democratic Executive committee that Mr. Blount would be a candidate.

The names of several other Pitt county men have been advanced unofficially, but so far no others have formally announced as a candidate.

SIX KILLED AT N. H. CROSSING

One Of Victims From West Jefferson, N. C.

Canaan, N. H., Aug. 2.—(AP)—Six men were killed today when a truck owned by a Baltimore contracting company and a Boston and Maine train collided at a grade crossing in West Canaan.

Officials of the Baltimore company identified one of the dead as Robert Bolick of West Jefferson, N. C.

Two of the bodies were found on the cow-catcher of the locomotive, which traveled approximately 1,000 feet after the crash. Other bodies were strewn along the right-of-way.

The men were en route to a rural electrification project in West Springfield and Bolick was in charge of the crew.

The railroad issued a statement asserting the accident occurred at an "open crossing protected by automatic flashes which were operating properly," adding that "it was reported the weather was foggy."

Building Permits Off During Month

Building permits issued at the offices of the city clerk during July totaled only seven calling for alterations and new construction to cost \$12,300.

The July figures were far below the June figures—themselves considered small—when 11 permits were issued for construction to cost \$19,996.

Permits issued last month follow: Phil Kramer, erect one-story, six-room wood dwelling on Harding street, estimated cost \$3,500.

Claudia Johnson, remodel one-story dwelling on the corner of First and Reade streets, \$50.

S. G. Wilkerson, uardian for Mary Allen, repair one-story residence on Bonner's lane between Pitt and Clark streets, \$250.

Madeline Bradley, erect one-story six-room wood dwelling on New street, \$1,000.

Henry T. Barrow, erect two-story, eight-room brick veneer dwelling on Myrtle avenue near the West Greenville school, \$4,500.

R. B. Starling, erect one-story, six-room, wood dwelling on Evans street between Thirteenth and Fourteenth, \$2,500.

Sutton Service Center, erect one-story storage house on Wade between Dickinson avenue and Broad street.

REQUIRED FOR U. S. DEFENSE

Chief Executive Permits Quotation In Supporting Bill; To Leave Details Up To Legislature

Washington, Aug. 2.—(AP)—President Roosevelt declared today he was "distinctly in favor of a selective service training bill and I consider it essential to adequate national defense."

Specifically permitting direct quotation, the President made the statement at a press conference after a reporter asked for his opinions. The reporter said a report was going around that the chief executive was "not so hot about conscription."

The President replied that it all depended on which paper you read. He then entered upon a lengthy review of the conscription question.

He also announced that he and Democratic tax leaders in Congress were agreed that an excess profits tax should be enacted without delay.

All manufacturers working on defense orders know that such legislation was going to be passed, he said, and were proceeding to assemble materials even though contracts have not yet been signed.

The President said that Chairman Harrison (D.-Miss.) of the Senate Finance committee hopes to get final action in a month. He added that the legislation would clear up the important question of amortization which manufacturers were interested in.

In concluding his long discussion of a selective service training bill, the President permitted this direct quotation:

"I am distinctly in favor of a selective service training bill and I consider it essential to adequate national defense."

Declaring he had abandoned long ago the practice of sending up what he called ready-made bills to be rushed through Congress, Mr. Roosevelt added that he was leaving to the legislature the age brackets for registration under a compulsory training law.

Simpson Resident Claimed By Death

Noah Carson Moore, resident of Simpson for the past 25 years, died Thursday afternoon at 6 o'clock in Taylor hospital in Washington. He had been in declining health for the past two years.

Funeral services were conducted from Salem Methodist church in Simpson this afternoon at 3 o'clock by Rev. W. A. Crowe, pastor. Burial was in the churchyard.

Active pallbearers were G. S. Porter, H. H. Porter, Jesse Briley, Roy Edwards, J. B. Tucker and Fred Edwards.

Mr. Moore was born in Beaufort county November 26, 1868, son of the late Edward Martin and Margaret Ann Hall Moore. Until his health failed, he operated a blacksmith shop in Simpson.

He was a member of the Salem Methodist church of Simpson.

Surviving are his wife; one son, N. C. Moore, Jr., Greenville; six daughters, Mrs. Hyman Smith of Grimesland, Mrs. W. H. Nesbitt of Stantonsburg, Mrs. Will Hales of Grimesland, and Misses Dorothy Jean and Elizabeth Ann Moore of the home; four brothers, Jesse Moore of Hookerton, Henry Moore of Chocowinity, and John Moore of Chocowinity; three sisters, Mrs. J. Four Armies Head For Imaginary Front Lines

Training And Equipment At Peace-Time Peaks

Washington, Aug. 2.—(AP)—At peace-time peaks in training and equipment units of four United States armies were moving by rail and road today toward imaginary front lines on theoretical battlefields.

Mobilizing for the most extensive field exercises since the World war, 301,000 regular army, National Guard and reserve troops prepared to give a preview of mass maneuvers which, if Congress approves, may become a regular practice.

Extending its former policy of holding maneuvers in only one army area each year, the War department has ordered exercises in all four areas this summer. They will be a prelude to possible mobilization of all or part of the National Guard for a full year.

The length of the maneuvers has been extended from 14 to 21 days.

All 81 May Not Be Foreign Agents

Washington, Aug. 2.—(AP)—The War Department said today that a mistake in transmitting a message had resulted in an erroneous announcement that 81 aliens detained in the canal zone were "foreign agents."

The announcement was made yesterday by Secretary Stimson.

Eighty-one aliens have been detained "for deportation or other disposition," the department said, but it was admitted the army did not know whether any of them were foreign agents. Perhaps 60 or more of the 81 were reported from Panama to be of German origin.

Officials of the Republic of Panama said the aliens were known generally as "refugees."

All told about 800 or 1,000 such "refugees" were given temporary haven in the republic several months ago and some were given temporary employment on Panama Canal projects, the army said. The 81 men and women detained were among the latter number and are subject to deportation simply because their identification and passport are not in order.

Quiet Month For Local City Court

July proved another comparatively quiet month in police circles, only 60 defendants having been tried in Municipal recorder's court during the period.

Last month 42 defendants were tried. In July fines totalled \$55, compared with \$20 in June and July court costs amounted to \$197.40, compared with \$147.65 in the previous month. In July \$22 went to each of the Department of Justice and the Police Pension fund, while in June each fund benefitted by \$16.

Activities of the police department are expected to show an upward swing, however, as the fall nears.

Berlin Also Lays Claims To Effective Air Bombing

British Source Reports Hamburg Only One Of The Military Objectives Attacked In Nightly Raids; Berlin Counters With Claims Of New Blows On British Ships

(By The Associated Press)

Virtual destruction of the great German seaport of Hamburg by Royal Air Force bombers was claimed by an authoritative British source today, while Germany countered with the statement that its own raiders had struck new devastating blows against Britain's merchant fleet.

The British source, summing up the work of the Royal Air Force in the past three months, said Hamburg was only one of the military objectives attacked in nightly raids. Thousands of bombs have been rained on the port of Bremen with its ship-building yards, docks and aircraft factory, the same source said, and added that more than 100 German cities and towns where military objectives had been attacked.

Official Germany has said little about the raids carried on day and night, beyond insisting that they were against non-military points.

Today's Nazi claim was that the air force had sunk a large merchantman, a tanker and a mine patrol boat yesterday and that a submarine had reported sinking 72,000 tons of shipping.

The German air force, as usual, continued its attacks on the British Isles, dropping bombs on Scotland and Wales and varying the daily custom in England by dropping Hitler "peace or destruction" pamphlets.

Italy reported her air force had attacked a British naval squadron in the Balearic islands and said a battleship had been set on fire and several other warships had been hit.

The Italian high command also said the British submarine "Gardai" had been torpedoed and sunk and 52 of its crew of 55 taken prisoners.

Four-page leaflets captioned "A Last Appeal to Reason by Adolf Hitler" fluttered down in the pre-dawn darkness in southern and southwestern parts of England. The pamphlets contained extracts from Hitler's July 19 speech extending a peace feeler.

Bombs dropped by raiders were reported by the British government to have caused slight damage and "few" casualties.

Skeptical of German statements that invasion may be held off indefinitely in favor of bomb attacks and air and undersea blockade, British observers pointed out that the almanac indicates next Monday to Friday morning as the time high tides would favor attack. After that the favorable mornings would be from September 2 to September 7.

Defense Industry Gets Concessions

Wash., D. C., Aug. 2—(AP)—The House tax sub-committee voted tentatively today to permit national defense contractors and sub-contractors to deduct the entire cost of defense plant expansions from their taxable earnings. The deduction would be 20 per cent annually for five years.

At the same time the committee also voted to recommend to the full Ways and Means committee that this defense plant amortization plan be incorporated in a single bill along with an excess profits tax and a suspension of the Vinson-Trammel act restriction on warships and military plane profits.

Rep. Cooper (D-Tenn.), sub-committee chairman, announced that both committee decisions were unanimous.

The five-year amortization plan would apply to income and excess profits taxes.

BONNER SEEKS SEAT IN HOUSE

Issues Formal Statement Announcing Candidacy

Washington, Aug. 2.—Herbert C. Bonner, life long friend of Representative Lindsay Warren, and his secretary since he first entered Congress, has announced that he would be a candidate for the nomination as Mr. Warren's successor before the First District Democratic Congressional Committee, composed of 14 members. Mr. Bonner has been chairman of the committee for the last four years.

Bonner is regarded as one of the ablest secretaries in Congress and is personally known to the entire House. He is highly regarded by Speaker Bankhead and Majority Leader Rayburn and is one of the most popular men connected with the Congress. He is 49 years old, an over-seas World war veteran and is considered as an authority on veteran matters. At the present time he is an American Legion District Commander. Several leaders in the House today expressed the hope that he would get the nomination. Many former secretaries are now members of Congress, some of the notable ones being Senator Clark, and Representatives Cochran and Cannon, all of Missouri.

In making his announcement, Mr. Bonner, who left today for North Carolina, said:

"I did not know until yesterday of the final decision of my dear friend Lindsay Warren to retire from Congress. I have strongly urged him not to do it but I realize it is something that he alone must decide. His retirement will be regarded everywhere as a great calamity to his district, state and nation, which he has so honorably and brilliantly served for 16 years.

"I shall be a candidate for the democratic nomination to succeed him. I have a large acquaintance in every county in the district and I am familiar with the problems of every section. I am also thoroughly familiar with the vast files in Mr. Warren's office and the status of every matter pending in them. No one can know what it means to represent our district unless they have been in such an office as I have for the last 16 years.

"On account of my long experience, my close contact and intimate knowledge of all government departments and my friendship with a large majority of the House of Representatives, I believe that I am equipped and qualified to carry on the superior service the district and state have been receiving from this office. During the term of my service with Congressman Warren, it has been my good fortune to share his confidence in dealing with some of our greatest national problems and I feel without egotism that I have become acquainted with the leaders in the several departments and am familiar with the great issues involving the Department of Agriculture and kindred subjects. I mention this because our congressional district is one of the greatest agricultural sections of the nation and the office of Mr. Warren has been one of the intelligent meeting places for the promotion, planning and aid to the farmers of North Carolina.

"If this nomination should come to me, I will have no other interest than to devote every minute of my time and energy to this great and responsible position."

Man About Manhattan

By George Tucker

New York.—Being ever vigilant to do its duty by its customers, this department herewith commends to your attention the ornamental antics of a trio of humorists who, after seven years of shuttling their art between bargain basements and county fairs, have come into some belated and deserved recognition.

They are known professionally as the Three Pitchmen. Their individual names are Al Ganz, Al Meyers, and Vince Lapolla. Their forte is mimicking band leaders and musical instruments with kazoos, and in our opinion they are every bit the equal of the Four Radio Rogues.

Ganz is the tallest one, and while he plays the kazoo he mimics with a collapsible phonograph trombone which he keeps to his nose. Al Meyers, his brother-in-law, has a collapsible fiddle, and does all the talking. Lapolla is the pianist. So adept at kazoos are they that they can duplicate the tonal extremities of Hawaiian orchestras and brass bands. Their pantomime is exquisite. I caught them in the Rainbow Room, which is the first big league club they have ever played. "It's the first roof they ever had over their heads," explained Ed Seay (rhymes with tea) of Texas.

Ganz explained that he and his friends were "doing a pitch" in one of the Manhattan stores. That is to say, they were putting on their act and playing the kazoos for the benefit of the customers one day when a stranger suggested they go and see Mr. Roy, who handles the Rainbow Room for Mr. Rockefeller. This stranger took them to see Mr. Roy himself; an audition was arranged, and presently the Three Pitchmen were under the lush mazzas of that 65th-floor rendezvous, which must have seemed like the consummation of an unreal but very pleasant dream after all the thin, lonely years at state fairs and on bleak, wind-swept corners, waiting for something good to happen.

You can't describe these fellows, because real comedy is something intangible, not to be transcribed into sentences and paragraphs. The only way you can even begin to understand their work is to see them. They are not "new," because they

Chicago.—A boy just 8 years old, with slicked-down hair, mischief in his eyes, and a facile tongue, is radio's newest oracle.

He's Gerard Darrow. He astounds adults with the extent of his knowledge about everything from Greek mythology to the habits of rare fish. His father, Joseph A. Darrow, an industrial efficiency man, helps teach him and gives him practice quizzes. An aunt, Miss Elizabeth Darrow, has helped rear the boy since the death of his mother when he was 4 months old.

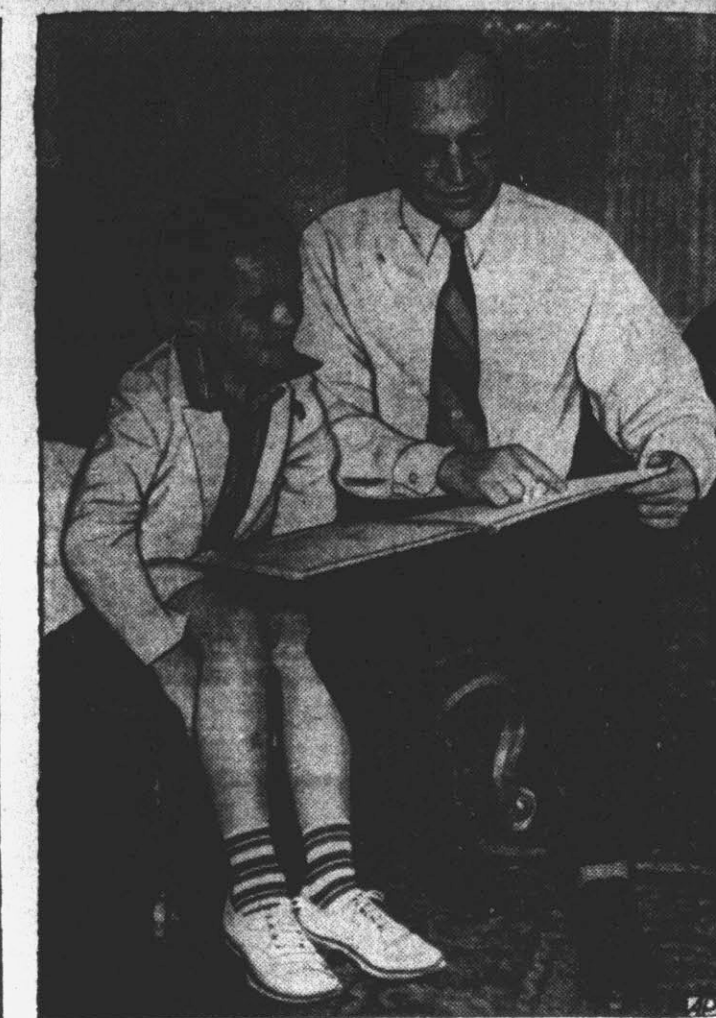

He Likes Turtles
Boy Scout work is credited with teaching Gerard bird and animal lore. From encyclopedias comes knowledge of myths and legends. But no one can explain Gerard's power of virtually total recall, his intuition, his logic, his self-command.

"With all his interest in scientific things, he is just a boy, through and through," says his father. As for the boy, he'll talk any time about his favorite topics. He'll confide that he sings while he reads, is fond of his two pet turtles and would like to visit the Galapagos Islands.

He acknowledges that one of his major ambitions was to fall out of his double-decker bunk, and that he can identify 500 birds.

Gerard will enter the third grade in the fall. He's not an enthusiast for formal schooling but his life at school has not been without its rewards.

He Dislikes Math
Because he was an acknowledged authority on birds, he was invited to speak to his fellow-pupils about them. Distracted mildly by a commotion in the audience, he paused and warned, "If that noise doesn't stop there won't be any more lecture." He was not disturbed again. Stymied by the mechanics of penmanship, Gerard prints in a wayward, elfish fashion that satisfies him but distresses his teacher. She

was especially surprised and baffled by Gerard's beards, and attached to the when she examined one of his last year's papers, darkened with an array of curious capitals. The O's wore hats, the U's and A's had prepos-

Do You Know The Answers? Gerard Did

Gerard Did

1. What's an apteryx?
A small bird of the ostrich family and a native of New Zealand. It doesn't fly and is becoming extinct.

2. What could you use to make candles if you were forbidden to use the ordinary sources of animal fat for tallow?
A candlefish. It is a small fish of the smelt family used by the Pacific coast Indians for its oil, which burns readily, makes good light but smells terrible.

3. Give the total number of legs you could count on two titmice and a mongoose.
Eight. The titmice have two each and the mongoose four.

4. Why would a self-respecting imitator use his vocal chords if he were asked to imitate a whelk, a stork, or a limpet?
A whelk and a limpet are types of shellfish. The stork has no call but makes a noise by clapping his bill.

5. Can you name three events in which golden apples played a part?
(a) Nuptials of Peleus and Thetis, when Discordia threw the apple among the gods (Paris later awarded it to Aphrodite, whom he judged most beautiful). (b) One of the 12 labors of Hercules; he brought some of the apples from the gardens of Hesperides. (c) Atalanta's race, which she lost because she paused to pick up three apples tossed in her path by Hippomenes.

The Varmint Season's On!

By JOHN GROVER

Washington.—Prehistoric monsters conjured up by Hollywood for shocker movies are tabbycat stuff compared with the horrific animals regularly discovered by the American Society of Sacred Stiff Scientists.

Curators of the United States National Museum and the Smithsonian Institution say that Mother Nature at her most malevolent never created beasts to equal the wierd and wonderful fauna reported in the United States every year. Newest member of the fearsome collection was described by the A.

S. of S. S. S. chapter of Preston, Md., in reports to state police. Their "thing" rose up on its hind legs uttering blood-curdling shrieks and yowls, interspersed with sub-human mutterings. It emitted a stench like a polecat, or maybe even poison gas. It was variously reported as black, green and variegated in color. Estimates of its height ranged from six to eight feet. Its footprints were "huge."

Impressed state coppers took casts of the footprints and hot-footed to Curator Stanley Young at the museum. Meanwhile eastern shoremen went armed with shotguns.

Young took one look at the footprint cast and told the policemen the Preston scientists had discovered a big dog, probably a mastiff.

It was old stuff to Young. People all over the country regularly "see" incredible monsters from sea serpents to sabre-tooth tigers. Not long since eyewitnesses saw a "cougar" kill a lamb near Bladensburg. Fosses armed to protect women and children. They found it was a police dog.

It's like that all the time. The werewolf-fiend-monster hybrids have one thing in common. They're all elastic. Young reports that they shrink like a bargain shirt when you get close to 'em.

Amateur scientists also keep the museums busy classifying "rare" fossils remains that usually turn out to be the skeletal remnants of a picnic lunch.

After years of coping with imaginations of laymen, the experts have evolved two broad deductions about human beings:

1. The average man believes anything buried more than two feet deep is prehistoric.
2. Scare anybody with a sudden movement on a dark road at night, and a rabbit becomes a horned kangaroo, and a dog a martian monster at the very least.

The Three Keys To The Mediterranean

So Far They Enable Britain To Keep The Doors Locked

Italy calls the Mediterranean "Our Sea." These three military bases make the Mediterranean largely a British Sea. Should Germany and Italy overcome Britain, peace terms probably would place these bases under Germany, Italy or powers (such as Spain) friendly to them. Gibraltar is bombed often nowadays. All civilians have left. Malta, say the Italians, has been bombed until it is no longer valuable as a British base. Fighting in Egypt will affect the Suez canal.

Greenies Out-hit Billies But Lose By Score Of 4-1

HONOR LADIES HERE TONIGHT

To Be Admitted Free To New Bern Contest

Snow Hill's Weeks allowed nine hits while his mates were garnering only six last night, but the local's blows were not as opportune as the Billies and the Greenies dropped the contest 4-1. Tonight will be another story, however, as the Greenies return here to engage the New Bern Bears in a Ladies' Night affair. All members of the fair sex will be admitted to the game as guests of the club management.

The lone Greenville tally came in the second inning on singles by Crowe, Scagg and Helleckson. The Greenies were never able to get another run across the plate although nine men reached base.

The Billies made one in the first and won with another in the second. Two more were added in the fifth. Skagg and Shelton got two each to lead the Greenies offensive. Not a single Snow Hill player got more than one safety. Only one player Wall, got an extra base knock. He came through with a double.

Two double plays on the part of the Billies cut short threatened scores by the Greenies.

Braves Score Win In Battle With Tigers

By LOUIS DUPRE
Friday morning in the Playground Ball League Leo Edwards of the East Braves held the West Tigers to three hits in the 3-2 thriller.
Both teams scored in the third, and West scored once more in the fourth. East tied things up in the seventh, and in the ninth Leo Edwards won his own game by driving in a run.
Leading the Braves at bat was Mitchell White with one for one. Tom Rowlette and Theodore Lupton with two for four were next. Jack Minges, Carl Allegood, and Henry Andrews were the only Tigers to get a safety.
This game was a pitcher's duel from beginning to end. Both pitchers, Floyd Dunn and Leo Edwards pitched a fine game and were credited with many strike-outs.

First Round Pairings To Offer Fast Games For Softball Tourney

Eighteen Teams Entered In Local Tournament

Pairings in the Eastern Carolina invitational softball tournament to open here Monday night were announced today by Reynolds May, chairman of the Junior Chamber of Commerce committee, in charge of the program.

Seven cities are sending teams here for the meet, which includes a total of 18 entries. The entries represent the best in the cities from which they will come.

The five teams generally regarded as the top seeded aggregations are the Wilson Aces, Wells of Goldsboro, Pattersons of Roanoke Rapids, Roanoke Rapids Mills Number One and the New Bern Dr. Pepper team.

DuBerry, who pitched 28 innings for his Roanoke Rapids team in the Raleigh tournament last year, may see action in the local affair.

The 8 o'clock game Monday night will see two of the best teams in the state match prowess, when Wells of Goldsboro meets Patterson Mills of Roanoke Rapids.

Four Greenville teams are entered. They are Double Cola, Blount-Harvey, Carolina Sales and R. C. Cola, which will enlist players from other teams for the tournament.

First round pairings follow:
Monday, August 5
7 p. m.—R. C. Cola vs. Wilson Aces

8 p. m.—Wells vs. Patterson Mills
9 p. m.—Runnymede of Tarboro vs. Carramont of Rocky Mount.

Tuesday, August 6
7 p. m.—Mayo of Tarboro vs. R. C. Cola of Rocky Mount.

8 p. m.—Maola of New Bern vs. Roanoke Mills No. One of Roanoke Rapids.

9 p. m.—Dr. Pepper of New Bern vs. Blount-Harvey of Greenville.

10 p. m.—Gulf Pride of Kinston vs. Neuse Lodge of Goldsboro.

Greenville's Double Cola drew a bye.
Second round play will get started on Wednesday night.

CLOSE BATTLE WON BY SALES

Semi-Finals Contests In Softball Loop Tighten

The two trailing teams in the Greenville softball semi-finals play scored victories last night to tighten the play-off.

In the first game of the program Carolina Sales, beaten in the two previous games, scored a 15-14 victory over Double Cola in a free hitting and scoring affair which left the score in games two to one.

In the other game of the evening Pepsi Cola defeated Blount-Harvey 7-5 to knot the count in games at one-all. The first scheduled contest was rained out.

The two teams will renew hostilities again tonight with Pepsi Cola playing host to Blount-Harvey in the first contest and Carolina Sales the home team in the night-cap.

Double Cola made eight of its runs in the second frame and five in the third, the only other tally coming in the last half of the seventh and falling one short of knotting the count. Carolina Sales kept plugging away at the lead until the last two frames when they got six in the sixth and four in the seventh. The Sales team exhibited a determination during the final two innings which was not to be denied.

Pepsi Cola's big frame came in the fourth, when the team made five runs to take a seven to four lead. Blount-Harvey, which had made three in the first, one in the fourth and the final tally in the fourth. Neither team was able to score after the fourth frame.

Jimmie Fox, slugging first baseman for the Boston Red Sox, essayed the catcher's role in a game with Cleveland at Cleveland. He was shifted from first to substitute for Gene Deaulets, first string catcher, who is on the injured list. Jimmie is shown getting ready to swing into action behind the plate.

Estimates of the London County Council for 1940-41 provide 9,000,000 pounds (\$40,440,000) for maintenance of civil defense.

New York, Aug. 2.—(AP)—Recovery steps were taken by steels and motors in today's stock market, but many other leaders were hesitant on the follow-up.
The list was a bit ragged at the start. A little bidding appeared around midday and lifted selected issues fractions to a point or so. There was a subsequent let-down and another mild comeback in the last hour. At that, closing quotations were a shade mixed.

Roundabout Revenge

Many an actor in this country, who has fled Germany or has ties to lands that Hitler has overrun has had vicarious revenge. Here are some who have appeared in anti-Nazi films:

Lionel Royce (right) was once acclaimed "the perfect Nordic peasant type" on German stage. He had to flee later, now appears in "I Married a Nazi."

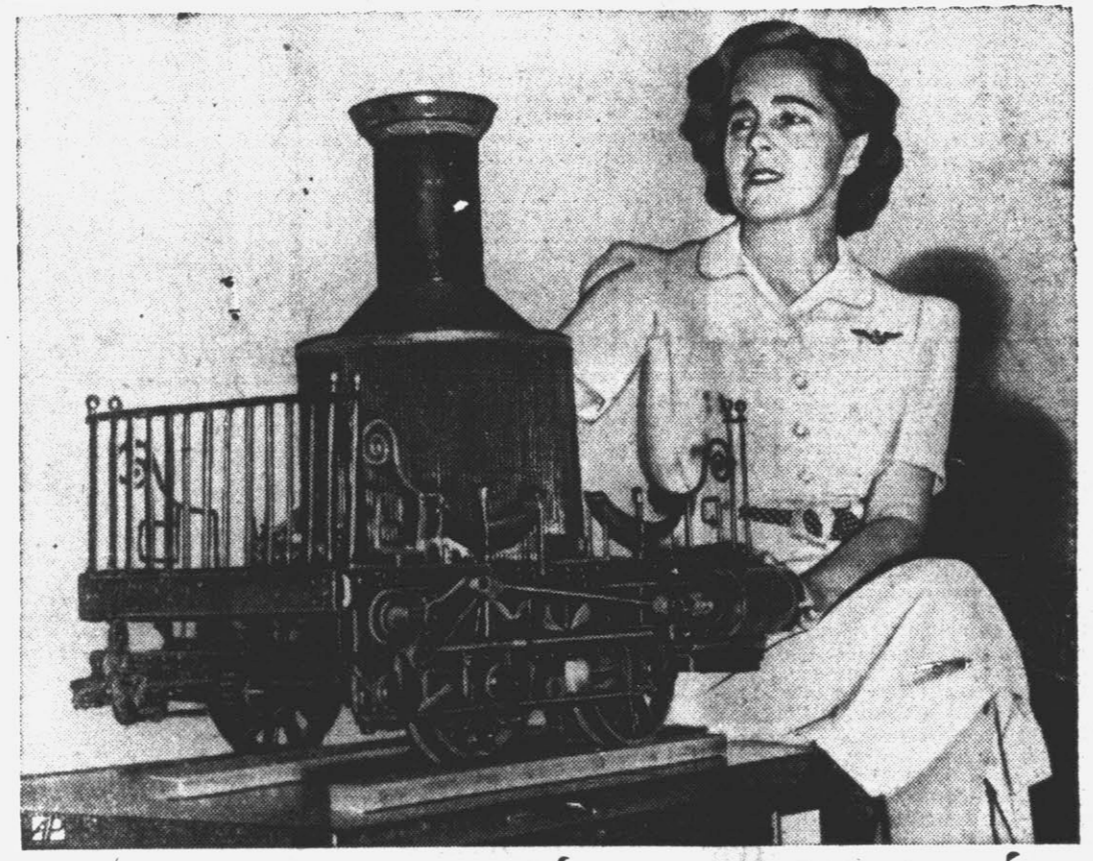

Albert Basserman, once called "Germany's greatest actor," is in "Foreign Correspondent."

Martin Kosleck plays the propaganda minister in "Confessions of a Nazi Spy."

Francis Lederer, with Edward G. Robinson in "Confessions of a Nazi Spy," is no German refugee; he is an American citizen. But his homeland was Czechoslovakia.

GONE ARE THE DAYS—1940's dizzy pace shames this type steam engine, granted a U. S. patent in July, 1837, and now in Washington office. Girl is Leonore Howe of Fairfax, Va.

No Basis For Arguments On License Revocations

Reflector Bureau.
By LYNN NISBET
Raleigh, August 2.—The monthly report of license revocations made by the Motor Vehicles Bureau shows the total number of drivers taken off the roads by counties, gives little basis for argument by either advocates of legal liquor or bone dry regime.
The report shows 429 licenses revoked in 77 counties, 23 counties having none. This does not mean, of course, that the drivers who were deprived of highway privileges live in the counties where license was revoked, or that the cause of their carelessness inners in that county.
As usual, drunken driving leads all reasons for license revocation. Of that total number 375 lost out on straight drunken driving charges while in 28 other cases liquor was involved to some extent, either as a contributing factor or by way of being transported. That leaves only 21 revocations due entirely to some reason other than liquor.
But in tabulation of figures with respect to counties in which ABC stores operate as compared with those where no drinks can be legally obtained, it is found that in six wet counties there were no revocations, and in 17 dry counties there were none. A little simple arithmetic shows that the percentage is almost identical.
In total number of revocations there were 112 in wet counties, and

N. C. FARMERS PAY UP LOANS

Few Delinquents Reported by Federal Agency

Reflector Bureau.
By LYNN NISBET
Raleigh, August 2.—Two out of every three North Carolina farms who borrowed money from the Rural Rehabilitation division of the Farm Security Administration have paid back loans as they matured, according to information from state offices here.
State Director Vance E. Swift announced that of 14,550 North Carolina farmers on the rehabilitation program, only 4,817 or 33 per cent were delinquent at the close of the fiscal year June 30.
Farm Security Administration loans are available to small farmers, tenants as well as farm owners, for the purchase of tools, workstock, fertilizer, seed, livestock and for improvement to farm lands and buildings. All loans are made on a dual-purpose plan for subsistence production for the family and for soil conservation. Each case is carefully investigated and the loan is "serviced" after it is made.
North Carolina has 1,260 "graduates" from the rehabilitation program. That is, they have paid back loans in full and presumably are now making their own way, since they have not applied for additional help.
A total of \$8,577,222 has been loaned to low income farm families in this state. This amount includes over two and a half million dollars for this crop year. Nearly four million dollars has been repaid, and since loans are made for five year periods, Mr. Swift thinks this repayment record is exceptionally good. FSA expects eventually to collect about 85 per cent of the loans said Mr. Swift.

296 in dry balliwicks. That would seem to favor the dry areas, but a further breakdown shows that dry Guilford led all counties with 27 while wet New Hanover had only 2. Dry Catawba had 17 and wet Johnston of comparable size, had the same number. Dry Davidson reported 15 and wet Wilson 2. Dry Forsyth had 14 and wet Wake 18.

All sorts of factors enter into such compilations, and the sponsor of any side of the argument can find support for his contention. Taken as a whole, however, the almost inevitable conclusion is that the proximity of legal liquor has little if any effect on the number of intoxicated drivers. Some dry counties adjacent to ABC stores or to Virginia or South Carolina border might feel an overflow from those areas. But the fact is that the heaviest drivers license revocations occurred in the central counties, geographically as far removed as possible from legal booze.
Some counties have continuously sitting courts with power to revoke licenses, while others do not and that will affect any particular month's report. In some counties highway patrol officers are always on the job, while in counties more remote they only get along once in a while.
Safety officials agree that the drivers license law is a splendid thing. Consideration is now being given to the proposal to call in all licenses and issue new term permits renewable every two, three or five years. Most important matter now occupying the safety division, however, is how to prevent the custom in many courts of revoking the same license three or four times.
Safety Director Ronald Hecutt admits that he has a good many headaches, but that nothing causes severe cerebral pains quite like the utter lack of respect which courts show for their own judgments in this respect. He thinks that perhaps a term license, granted only upon examination every three years might help that situation.
There were 3,219,000 Angora goats in Texas in 1938.
An Arab revolt generally is directed at the individual leaders rather than the leader principle, which is hereditary.
