Willkie Leaves New England For New York Tonight

ROOSEVELT TOUR HEADS FOR WEST

Chief Executive To Deliver Non-Political Address From Dayton At 9 O'clock Tonight

By The Associated Press Wendell L. Willkie, winding up his New England campaign tour, concentrated his efforts in Massachusetts today with a move into New York state scheduled for this evening.

Moving westward meanwhile his Democratic opponent, President Roosevelt, pressed an inspection of Ohio defense facilities toward Dayton, where tonight he will make an address billed as "non-political" on defense of the Western hemisphere.

The Dayton speech at 9 o'clock eastern standard time, will be broadcast on all domestic networks and by short wave to Latin-America.

The Roosevelt administration was termed by Willkie in his Boston speech last night "an irresponsible government."

The Republican nominee asserted that Mr. Roosevelt "says that Hitler and Mussolini would like to see him defeated this November."

"He does not say this directly x x he insinuates it," Willkie added. He leaves the real job to his hand-picked candidate for vice president and his hand-picked governor of New York.

"Dragging the European war into our domestic elections is not a responsible act. It is a reckless one."

New York, Oct. 12.—(AP)—Alan Valentine, director of National Committee of Democrats for Willkie, charged today that a pamphlet headed "Democratic Campaign Facts—1940" is being circulated to call attention to Wendell Willkie's German ancestry.

The document issued under the further heading of "Speakers Bureau, Colored Division, Hotel Biltmore, New York City," Valentine charged, is being furnished by Roosevelt campaign workers for the purpose of circulating x x x false and malicious charges.

In a statement Valentine quoted from the pamphlet in part as follows: "Wendell Willkie's father was born in Germany. Willkie's grandfather was born in Germany. Willkie's mother's parents were born in Germany. Willkie's wife was born in Kentucky of German parentage. His whole background is German."

To Send Ships To Bring Citizens From Far East

Liners Manhattan and Washington To Be Dispatched

Washington, Oct. 12.—(AP)—Secretary Hull said today that the liners Manhattan and Washington would be sent to the Far East to evacuate Americans as soon as the vessels could be placed in commission.

The Secretary of State added that there were now five American passenger vessels in Far Eastern waters, as well as some freighters. Efforts are being made, he said, to locate other ships in the Far East which could be used to evacuate citizens from Japan, China and other Oriental countries.

Hull said he had no information concerning reports from Shanghai that Japanese military forces were planning to occupy the International settlement and French Concessions there after Great Britain reopens the Burma road.

In the face of increasingly grave relations with Japan, the government warned United States nationals throughout the Far East this week that they should consider coming home while they can.

U.S. OFFERS HOME FOR ALL CREEDS

Chief Executive Declared Indispensable By State Chairman Of American Labor Party

New York, Oct. 12.—(AP) President Roosevelt saluted all Americans of Italian ancestry today and declared that "since the time of its discovery America has had a place for citizens of all races and creeds and through the combined genius of all of them has created an empire of freedom."

Mr. Roosevelt's special Columbus Day message was read at a rally of the Italian dress-makers union at the International Ladies Garment Workers union by Luigi Antonini, state chairman of the American Labor party.

"Among the groups which have unceasingly toiled and greatly contributed to the success of the American ideal of free men are the millions of Americans who are proud of their Italian inheritance, but whose loyalty to America is unquestioned," the President said.

"We have before us the great work of restoring a world dedicated to peace, cooperation and freedom and offer to their children the hope of playing a greater part in human progress."

Afterward Antonini told the rally that Mr. Roosevelt is "indispensable" to our America of today as Christopher Columbus was to the discovery of America in 1492.

ELDORA DOCKS AT LOCAL PORT

Sugar-Laden Freight Boat First To Utilize Port

The freight boat Eldora docked at the Greenville port terminal this afternoon, the first loaded ship to utilize the water transportation facilities, all phases of which have just been completed.

A trial run had been previously made to the local port, but the Eldora was the first to dock with a load of merchandise.

The vessel contained a complete load of sugar shipped direct from the Savannah Sugar Refining Corporation at Savannah, Ga., and consigned to J. B. Kittrell, Greenville broker and distributor for Dixie Crystal sugar.

It was only appropriate that Mr. Kittrell should be among the first to receive a shipment at the local terminal since he was one of those whose continued efforts secured the water transportation facilities for Greenville.

The Eldora was loaded in Savannah and came direct to Greenville. From now on the water route is expected to be used to a great extent.

Establishment of the local terminal is expected to make Greenville a large distributing center, with goods coming in by boat and being sent by trucks all over Eastern Carolina.

Evidence of this was seen in the statement by Mr. Kittrell to the effect that the Savannah refinery firm was planning to make this a distributing center, with sugar being brought here by water from disintegrating here at Fayetteville and as far west as Greensboro, W. G. Anderson, division sales manager for the company, has recently arrived in this city from Savannah and he and his wife are making their home here.

CITY SUPPORTS AIRPORT HERE

To Pay Half Of Cost Of Site If County Pays Half

Establishment of a City-County airport off the Greenville-Bethel highway came a step nearer last night when the Board of Aldermen in a special session voted to put up half of the money for the purchase of the proposed site if the county would match the sum.

It is proposed to purchase the Hines property on the north side of Tar river, just west of the Bethel highway about two miles from the city.

The project was proposed some time ago by the Greenville Junior Chamber of Commerce, which organization still is pressing the project, along with the aid and cooperation of a number of other interested citizens.

The Board of Aldermen adjourned Thursday night of last week to meet again last night to consider further the purchase of the proposed airport site.

After reaching the conclusion to bear half of the cost of \$6,500 purchase price of the site if the county would put up the other half, members of the board and others interested went to the court house, where the Board of Commissioners was in session to consider tax matters.

The question was put up to the county board, but because the full board was not present, it was decided to defer the matter until next Friday night when final action is expected to be taken.

Chairman J. N. Williams of the county board declared that it was the desire of the board to secure expressions of sentiment from the people of the county and invited citizens to attend the meeting next Friday night.

STATE 7TH IN SERVICE MEN

Begin Task Of Estimating Draftees For Each State

Washington, Oct. 12.—(AP)—Estimates of the number of military trainees to be supplied by each state on the first draft call were being completed today by selective service officials.

The figures, to be announced soon, will be used when the first call to arms under the conscription program is sounded, probably in mid-November. Sub-divided within the states, they will decide the number of draftees to be furnished by each of the 6,500 conscription areas in the country.

Officials reported that the estimates were based on the number of men expected to be eligible for service in each state with a credit to each for its share of the 1,015,471 regulars and reserves of the present army, navy and marine corps.

In this connection enlistment figures were made public showing that New York, the most populous state, has an estimated 77,351 men now serving in the nation's fighting forces, with Pennsylvania third at 63,299 and California third at 66,666.

Added to these to make up the ten states ranking highest in men in service were Texas, 64,430; Illinois, 48,484; Ohio, 37,030; Massachusetts 36,853 and North Carolina 29,121.

Registration Day Holiday For Many

Although no general holiday has been declared for the nation, state or city, the local banks and city and county offices will be closed all day Wednesday, registration day, under the selective service program.

Employees and officials of the banks and governmental units have volunteered their services to aid in the registration if they are needed and will be on the list of additional workers available in the offices of J. H. Harrell, chairman of the Pitt County Board of Elections, which has been chosen as the instrumentality through which the registration will be conducted.

It is estimated that there are 10,000 men in Pitt county between the ages of 21 and 35, inclusive, subject to the registration and the various registrars and judges will require additional help to complete the task in the one day set aside for the job.

Accepts Position As Head Of Draft

Madison, Wis., Oct. 12.—(AP)—President Clarence A. Dykstra of the University of Wisconsin said today he would accept the post of federal draft administrator offered him by President Roosevelt recently.

Nazi Troops March Into More Areas Of Rumania

Turkey, Prepared for War, Looks To Soviet Reaction To German's Drive Into East; Battle for Britain Continues In Air And In English Channel

By The Associated Press Truck loads of steel-helmeted Nazi infantrymen rumbled through the streets of Bucharest today as German military penetration of Rumania expanded and anxious Turkey, ready for war, looked toward Moscow for Soviet reaction to Germany's drive to the East.

In western Europe the battle of Britain went on in the air and on the sea. Nazi warplanes roared across the channel against London and a German torpedo boat flotilla was reported to have fought an engagement off the Isle of Wight with British submarine torpedo boats and destroyers.

The presence of the German troops in Bucharest gave the impression of Nazi occupation of the capital. Planes roared overhead and the swastika was unfurled at many hotels.

The official Turkish radio declared last night that "the Balkans and even Soviet Russia are on the brink of unexpected war."

At the same time German sources in Bucharest said the establishment of an axis air patrol over Rumania's closely guarded oil fields once again had closed the middle door to the British and predicted a prompt break in relations between Rumania and Britain.

The implication was that the Nazis acted because of a belief Britain had designs on rich oil supplies now under the wing of the German air force.

Nazi airmen attacking London reported today huge fires were raging in the city, but British dispatches said the German attacks lacked the intensity of previous assaults, although 36 areas of the capital were bombed.

London's overnight all-clear signal sounded about 2:30 a. m. much earlier than usual.

Royal Air Force planes struck through fog into Germany and at Nazi bases on the French side of the English channel, coordinating their attack with British long-range guns which engaged in a duel for more than three hours last night and today with German batteries. Flashes from the opposing guns ripped along the Dover and Calais areas in the longest cross-channel bombardment of the war.

Britons continued to leave Rumania for Turkey and Greece. Greece closely watched her Albanian border, where thousands of Fascist troops have been concentrated.

With the departure of the last British national from Rumania, severance of British-Rumanian diplomatic relations was expected.

Berlin, Oct. 12.—(AP)—Bombs of heavy calibre were dropped on military objectives near the famous London bridge in today's air attacks, informed sources said tonight.

Whether the ancient structure was damaged, it was not known. Another squad of German planes approached Hastings on the south coast and from a great height swooped in deep dives which resulted in damage to railways, gas works and large blocks of buildings.

304 DECLINSON AVE. Dial 2155

Bobo-Gorman. Greenville, N. C., Oct. 12.—Centering the interest of numerous friends throughout the South was the marriage on October 5th of Miss Edith Lang Gorman and Lewis Cary Bobo. The vows were spoken at the Third Presbyterian Church at 4 o'clock in the afternoon, with Rev. William McLeod Frampton officiating.

On the altar, against a background of palms and fern, large baskets of white chrysanthemums and many gleaming tapers formed an artistic setting for the wedding party.

As the guests assembled, Mrs. George Owens, organist, and Miss Mary June Lang, cousin of the bride, and George Rex, soloists, presented a program of nuptial music. Miss Lang sang "Because" by d'Harlot, and Mr. Rex "If God Left Only You." The traditional wedding marches were used.

Ushers were Floyd Dupree, Furman Bobo, Tom Bobo and Roy Bobo, the latter three brothers of the bridegroom. Another brother, Harold Bobo, acted as best man.

Mrs. Bobo's only attendant was her cousin, Miss Betty Martin, of Hickory, N. C., who was maid-of-honor. She wore a smart fall costume in beige with accessories of brown and carried bronze chrysanthemums.

The bride, who was given in marriage by her father, Jesse Reese Hawkins, wore a costume suit in river blue with trim of dyed squirrel. With this she wore a beaming hat and harmonizing accessories. Her bouquet was of white roses and orchids.

Kansas City, Mo., Oct. 12.—(AP)—The House of Deputies of the Protestant Episcopal church approved today a proposal that the church affiliate with the Federal Council of Churches of Christ in America.

The proposal now goes to the House of Bishops, which likewise must give it approval by a majority vote before it becomes effective.

Similar proposals have been voted down at triennial sessions of the church since the World war, when affiliation was first proposed. In the past the church has cooperated with the Council in a consultative capacity only. The proposal approved by the deputies today calls for full affiliation.

Strength For The Day By EARL L. DOUGLASS

LET US REDISCOVER AMERICA

Four hundred and forty-eight years ago today, Christopher Columbus "discovered America." And yet, of course, he didn't discover the greatest part of America. He discovered only a few islands. He made other voyages, but he never knew that the greater part of the new world consisted of a tremendous continent three thousand miles wide, destined to become, because of its natural resources, the richest area on the whole earth. This is a good time for us to rediscover America. The basic liberties for which men have given their lives have been crushed out in most countries. In this fair era of scientific achievement and in the year of the Prince of Peace, 1940, nations are savagely conducting war against each other's civilian populations and trying to reduce each other's fair cities to ash heaps. What about this beloved country of ours? Two things are to be said, at least. First, it is the God-blessed country on the earth, and we had better wake up to our good fortune. And second, unless we watch sharply, we will lose our liberties and fall under the yoke of dictatorship as surely as there is a God in heaven. The rediscovery of America in 1940 is as important as the discovery of America in 1492. All Rights Reserved - Babson Newspaper Syndicate

COOPERATION PAYS BIG DIVIDENDS

President Daniel J. Tobin of the Teamsters' Union recently got at the heart of the labor problem when he warned his organization, at its last international convention in Washington, that there is a saturation point in wages and hours. To go past that point or even, in some cases, to reach it "will destroy the employment and thereby destroy yourselves." Many employers are coming to the conclusion that this can work both ways. It has been pointed out by manufacturers who employ large groups of men and women that if they pay too low wages for too many hours work, they will eventually cripple the capitalistic system because an underpaid workman cannot consume the goods produced by capital. In other words, the employer who tries to beat down wages every time a labor contract is signed helps to break down the system he thinks he is defending. It has taken a long time for these basic principles to filter through to both labor and capital. But now there is a strong indication that both employee and employer realize they must cooperate to make the American system continue to pay rich divi-

Columbus Day

dends. This system, despite its faults, has given more comforts and a higher standard of living to the average worker than any other.

Aesop told the same story in a fable written several centuries before the birth of Christ. It concerned a simpleton who owned a goose that laid golden eggs. He killed it to try and get all the gold at one time—and found the goose empty.

The moral works both ways. Labor should not ask for unreasonable wages or it will eventually destroy the source of those wages. Neither should the employer try to win starvation wage contracts, or he will find himself with no market for the goods he produces. There is a happy medium where both labor and capital can meet to their mutual advantage.

Washington Daybook

Washington - Q I maintain legal residence in Omaha, Neb. Do I have to return there to register? A No. You can register in any district in which you happen to be on October 16. Q I have been married seven years. My wife works and is self-supporting. I have no other dependents. Will I be conscripted ahead of married men who support their wives? A Not necessarily. As I have pointed out before, there is a tendency on the part of selective service officials to skip the degree of dependency altogether and I happen to know that if some of them had the entire responsibility of interpreting the draft act, they would defer all married men (with probably the exception of those who are not even self-supporting). They simply feel that for the psychological and moral good of the country, it is better not to disrupt marital relationships unless conditions become more critical than at present. These officials at the moment are in the majority and it is likely that this "loose" interpretation of the dependency clause in the law will prevail.

Q I am the father of three children. My wife died a few years ago and there is no close relative who could take care of the children. My wife's will left the children (all minors) sufficient incomes to make them independent of my earnings. But if I were called into service, I don't know what would happen to our home. Do you think I will be called? A I don't think you will be referred to the answer to the previous question. If the demand for manpower far exceeded the supply you probably would have to come into the service. But at present the supply of manpower is adequate and I know it is the intent of national selective service officials not to work any drastic hardships on the American home. This is another of those problems that will have to be solved by your local board and, as in every borderline case, you have the right of appeal. Q I won't be 21 until next year. Do I have to register then? A The President, under the law, is empowered to order additional registrants whenever the need de-

mands it. Since no one knows what next year will bring, it is impossible even to guess at the answer to this question. If world conditions continue critical, it is likely that the President will order registration each year for the approximately 1,000,000 men who come of age every 12 months.

Q If I am in the second or third class, what are my chances of being conscripted? A So slight under the present law and present conditions, that you need not give it another thought.

In the World War, when the final age limits were 18 to 45 (instead of the present 21 to 35 inclusive), there were more than 24 million men registered in the third draft. There were less than 3,000,000 men inducted into the service and these were less than half of Class 1.

Q What if I marry between the time of registration and the first call? A Apply immediately (within five days, at least) for reclassification. If your local board is convinced that you married to evade the draft you may not get it, but no board is going to overlook the fact that there are thousands of marriages in the United States every day and that a certain number of these are bound to occur during the period you mention with no intent to evade the draft.

To The Editor: Let us hope the officials of Greenville may not hesitate in their duty to the public because of the censure of some too zealous champions of free speech. Those who in their error would allow these subversive zealots to undermine and overthrow everything that patriotic Christians would give their lives to perpetuate. We believe the officers of Greenville are capable of attending to their business. -Mrs. Charles McArthur.

Green Phantoms Take 19-0 Victory Over Plymouth Team

J. B. KITTRELL OFFERS THRILL

Races 45 Yards For Touchdown In The Fourth Period

With a reserve choked-line and a hard-driving first string backfield, the Greenville High Phantoms took an easy 19-0 victory over an out-classed Plymouth High eleven last night in the Guy Smith Stadium before a large crowd of cheering fans.

J. B. Kittrell, hard-driving full-back, furnished the highlight of the game when he dashed off-tackle eluding the Plymouth team forty-five yards for a touchdown. A neat block by John Spearman on the 5 yard line took out the last would-be tackler. This master came early in the fourth period of the game.

The local team racked up a total of ten first downs against the visiting eleven while the Rocks were not able to gain a single first down against a stronger Greenville line.

The first quarter of the game was a punting duel between Getsinger of the visiting eleven and Collins of the local high team. Due to a leg injury he received in the Goldsboro game, Collins was not able to get off his usual bread of punts. Many of them fell easy prey to the Plymouth backs.

Early in the second quarter the Farley men began a drive featuring the ball carrying of Spearman, Britt, and Kittrell, which took the ball and kicked the Plymouth team to their own-yard line. It was here that J. B. Kittrell took things in hand and went over the middle of the line for the initial touchdown of the game. Another drive was started during this second period but the half came with Farley's boys on the Plymouth three yard line.

The third period of the game proved to be another scoreless period for the Plymouth eleven but also came out to be a scoreless period for the Phantoms as well. A reverse in which Spearman did the lugging and a pass from Britt to Collins produced the only first downs of that period.

The fourth quarter came and with it came the local's last two markers. The first came early in the period on Kittrell's 45 yard run and the other was made by Spearman late in the last period from the 10 yard line. A pass from Britt to Collins set up the score. Collins was brought down on the 10 yard line and was injured on the play. He had to be replaced in the game.

Bill Britt attempted all three conversions, but the last two were blocked by the enemy lineman. The first try for point was good. The locals began again their successful passing attack which failed miserably against Goldsboro and completed 5 passes out of 9 attempts for a total of approximately 75 yards. Britt did most of the tossing except for a faked punt formation play by Collins and completed pass good for 15 yards from Snag Clark and Ralph Hunter, able reserves.

First stringers Paul Scott and Larry James were both out of the game due to leg and arm injuries received last week in Goldsboro. Both boys were missed badly in the line.

Credit in the line goes to John Collins, Alton Stoneham, Spencer Carroll, Brice Dale, Noah Lee Edwards, Sidney Johnson and a string of able reserves.

To Be First Such Event Ever Conducted Here

The first horse show ever planned for Greenville is scheduled to be held at the Greenville Riding academy, adjacent to Guy Smith stadium, tomorrow afternoon, starting at 1:30 o'clock.

Members and officials of the local riding association are making every effort to insure a success for the initial show ever held here.

Trophies have arrived and everything was in readiness for the event. The finest horses to be found in Eastern North Carolina will participate in the affair. Between 65

and 80 mounts are expected to be here from various places, including Tarboro, Goldsboro, Wilson, Raleigh and other places, in addition to Greenville.

While this will be the first horse show ever held here, a number of local horses have participated in shows elsewhere and have won first prizes in various events.

The program calls for a total of 15 events, including five-gaited saddle horses, three-gaited horses, walking horses, a fine harness class as a special added attraction. A musical chair event is being arranged to provide many thrills for the on-lookers as well as the participants.

One Final Thought
The importance of small concerns and the dangers of big concerns is not new. It has been discussed by philosophers and economists for the past 3,000 years. Only last night I was reading the first two chapters of Ecclesiastes—written 2,500 years ago. The writer was a captain of industry and the leading banker and investor of his time. He presents still another side of this whole question. Yes, I am bullish on properly-run small concerns in growing industries. The pendulum is about to swing in their favor.

Unique S. S. Class Is Organized Here

Church-goers in Greenville and Pitt county are expected to show much interest in a newly organized Sunday school class which has been started in Immanuel Baptist church.

This class, organized for young married couples, is named The Judson Couple class. As the name implies it was named for Ann and Adairan Judson, the well known missionaries who, when young and married, did such great work in Burma.

This class is unique in that all officers of the class serve jointly and together. That is, the presidents, vice presidents, etc., are man and wife together.

Judson Couple Class of Greenville is patterned after the Judson Couple class of the National Memorial Baptist church of Washington, D. C. Judson Couple class of Washington is recognized as one of the outstanding Bible classes of the nation's capital.

The class has not as yet formally elected its officers and a committee composed of Mr. and Mrs. A. T. Bilbro, Mr. and Mrs. W. S. Stafford, and Mr. and Mrs. H. A. Peterson, are conducting the business of the class until it meets in business session on October 16.

The lesson is currently being brought to the class by Rev. C. P. Patrick and Mrs. S. J. Everett.

Judson Couple class, "the class of homes," invites any young married couple who is interested in such endeavor to meet at 9:45 each Sunday morning at Immanuel Baptist church, 124 W. 8th street, Greenville.
