Fighting Aussies Check Japs In Malaya

Sent To Aid In Defense of Singapore

Two Japanese Armored Units Reported Shattered As Battle-Hungry, Jungle-wise Singing Aussies Bolster Malaya Defense; Fourteen Jap Tanks and 10 Armored Vehicles Knocked Out

By C. Yates McDaniel Singapore, Jan. 16.—(AP) Rallying around a fresh force of battle-hungry and jungle-wise Australians, the British Imperial defenders of Singapore appeared today to have checked the Japanese in their offensive toward this vital Oriental base.

Two Japanese armored units were reported shattered by the stiffened defense all along a shortened front in lower Malaya, aided by considerable aerial support.

While the air force smashed at Japanese truck and railway concentrations near Tampin, 120 miles west of Singapore, British fighting with fresh fury in the coastal strip north of the Malacca plain claimed to have knocked out 14 Japanese tanks and 10 armored vehicles. An official communique said advance guards of the Australians smashed six more tanks and 10 armored vehicles in their first battle since the Malayan invasion began, in the eastern part of Netro Sembilan state.

(BBC, quoting a Reuters dispatch on the Malacca coastal strip engagement, said "an enemy armored column was allowed to advance over a bridge prepared for demolition. When the column passed over the bridge it was blown up and the enemy engaged by artillery. Heavy casualties were inflicted on the Japanese and they ran for cover.")

The broadcast was heard in New York by CBS.

The Australians first fought yesterday in Eastern Netro Sembilan state, some 120 miles north of Singapore, while the main body of the Australians, slugging and eager for a fight, moved into battle positions on the main Malayan front for their first taste of fire.

Following up yesterday's success, the British command reported, a large force of planes attacked concentrations of Japanese transport and rolling stock on roads and railways in the Tampin area, 120 miles northwest of Singapore and west of yesterday's battle scene.

The command said the planes left several vehicles burning, damaged a number of railway trucks and inflicted casualties on the Japanese army.

(The scene of the air attack indicated the British were hitting just behind the Japanese front lines in preparation for a big battle in that sector just north of Johore state.)

The British also flew far to the rear of the Japanese spearhead pushing down western Malaya and sank a number of barges at Sungai Lingki, damaged several others, and attacked targets at Sungai Patani, northeast of Penang.

There was some contact with the Japanese on the western part of the front but the general situation remains unchanged, it was said.

(The reference to the western part of the front apparently means the area in Netro Sembilan nearer the coast from the scene of the Australian battle in Eastern Sembilan.)

Continuous Air Attacks Encountered By Forces Defending Luzon Island

In The Indies Batavia, N. E. I., Jan. 16.—(AP)—Japanese bombers attacked the Medan military base on Sumatra today and again bombed the Amboina naval air base in raids near the extremities of the far-flung Netherlands East Indies chain of islands.

The raids were announced by Aneta, which also reported an announcement that Dutch coastal batteries sank two enemy destroyers during the battle of Tarakan which ended Monday in Japanese occupation of the oil-rich island off northeast Borneo.

The naval station at Amboina, second in importance only to that at Soerabaja, also was attacked by the Japanese yesterday.

The island is in the Molucca group, between Celebes and New Guinea, and within easy bomber range of the Japanese beachheads on the Minahassa peninsula of Celebes.

FRENCH UNITS AID IN LIBYA

Assault On Axis Bolstered By Free French Forces Cairo, Jan. 16.—(AP)—Free French forces, ready for their first land attack on the Germans since the armistice of Compiegne, have arrived to support British Imperial and allied troops in their attack on Axis hold-out positions in the rocky highlands of Halwaya, on the Libyan-Egyptian frontier. British headquarters disclosed today.

The French were said to be fully equipped with tanks and armored cars, just as were the DeGaulle forces which fought against the Italians in Eritrea and Ethiopia during Britain's conquest of the Italian East African empire last year.

In the battle against the Halfaya garrison—estimated to consist of a mixed force of 7,000 Germans and Italians—today's British communique reported that "artillery on both sides is again active."

German and Italian entrenchments about Halfaya pass menace the supply lines of Britain's desert army which has knifed more than 300 miles to the west.

Mobile columns of the British were declared to be moving slowly westward along the Gulf of Sirte coast against stiff opposition "over country which has been heavily mined."

Referring to operations midway between the Egyptian border and Tripoli, the Libyan capital, the communique said little change was reported yesterday from the Agheila area.

Rome, Jan. 16.—(Official Broadcast Recorded by AP)—German and Italian air forces were declared by the high command today to have inflicted heavy losses on the British forces fighting for Axis-held positions at Halfaya pass, on the Libyan-Egyptian frontier.

In the central Libyan warfare, artillery duels were noted. "Enemy columns of the march and concentrations of motorized units and troops were bombed and machine-gunned and dispersed," the high command said. "Many vehicles were destroyed or damaged."

Three Hurricanes were declared to have been shot down and other planes were reported set afire or destroyed on the ground.

Baby Found With \$200 In Blanket

This five-week-old baby girl was abandoned in the corridor of a downtown office building in Philadelphia with ten \$20 bills tucked in her blankets with an unsigned note which read: "Please, take care of my baby. I'm sick and can't. This is all the money I have." She was placed in care of the Bureau of Public Welfare.

Felt Argentina To Fall In Line

May Join Sister Republics in Denouncing Axis

By JOHN MCKNIGHT Rio De Janeiro, Jan. 16.—(AP)—Indications that Argentina had changed her position and might swing into line with her sister republics in a resolution calling for a break of all relations with the Axis powers were seen today in informed quarters at the conference of American foreign ministers swung into action.

Pre-conference talks between her representatives and other conference leaders, in which Argentina was said to have been brought under considerable pressure by her sister republics, were believed to have averted a deadlock on the issue, one of the most important on the agenda.

The last obstacle to accord, however, was not yet removed. Observers expressed the belief that the border dispute between Peru and Ecuador left a stumbling block in the path of harmonious action.

Indications were that the resolution calling for a 100 per cent break in relations with the Axis would be tested today. It was placed before the conference this morning by Columbia's representative, Gabriel Turbay, ambassador to Washington.

It was believed the resolution condemned the Axis aggression against the United States as an attack on all the Americas, and pledged the American republics not to reestablish relations with the Axis powers separately.

The text of this and other resolutions will not be made public until Monday.

(In Buenos Aires, Acting President Ramon Castillo denied in a statement to the newspaper El Mundo that Argentina was not collaborating in the Rio De Janeiro conference. He said the Argentine delegation went to the Brazilian capital to discuss the best means of applying a system of collaboration whose machinery, he declared, never had been fully established.)

The conference opened yesterday afternoon with a round of speeches which sounded a harmonious note.

Engineer Dies In Albemarle Wreck Albemarle, Jan. 16.—(AP)—A Winston-Salem Southbound Railroad Locomotive was overturned and the engineer killed early today when a loaded oil tank truck and a freight train collided at a grade crossing in the center of Albemarle.

Jim Bufford, 55, of Winston-Salem, the engineer, was crushed to death.

RUSSIAN ARMY AT OUTSKIRTS OF TAGANROG

Tanks Assault Center 40 Miles West Of Rostov-on-Don

Official Dispatches Report Unbroken Series of Triumphs Along Entire 1,200-Mile Front

(By The Associated Press) Masses of Russian tanks were reported smashing today at the gates of German-held Taganrog, 40 miles west of Rostov-on-Don, as Marshal Semeon Timoshenko's Red armies pressed a general counter-offensive through the Ukraine and tightened a trap on 100,000 Germans in the Crimea.

"The Soviet forces are now battering fiercely at the gates of Taganrog," a British radio broadcast said.

Russian troops were reported fighting the invaders a few miles from Simferopol, the Crimean capital, 40 miles north of Sevastopol on the railroad to the Russian mainland.

The direction of the Soviet thrust against Simferopol was not given—whether executed by troops driving westward across the peninsula from Kerch and Feodosiya; from beachheads at Yevpatoryia on the west coast, or from Sevastopol itself. In any case, the threat against the main north-south rail line at Simferopol sharply endangered the Germans' chances of escaping.

On the basis of previous Soviet reports, the German forces at Taganrog had long since been isolated by Russian columns which by-passed the city in pursuit of the main Axis armies retreating along the Sea of Azov toward Mariupol.

Soviet front-line dispatches chronicled an unbroken series of Russian triumphs along the entire 1,200-mile battle line from Leningrad to the Black Sea.

In the northeast Ukraine, Red army troops were reported heavily assaulting German forces at Khar'kov, Russia's "Pittsburgh" of the Donets river basin, after piercing the city's outer defenses at several points.

On the central front, the phrase "history repeats itself" took on gloomy new significance for the Germans as Red army spearheads, adopting Nazi encirclement tactics, threatened half a dozen "anchor points" on Adolf Hitler's winter defense line.

A war map showing the positions of Soviet vanguards revealed all too clearly to Hitler that his strongholds at Kursk, Orel, Bryansk, Roslavl, Vyazma and Rzhev—key cities on a 350-mile defense arc—were endangered by the Soviet counter-sweep.

Russian troops were reported to have opened a direct front assault on Moshaisk, 57 miles west of Moscow, yesterday, and London said heavy fighting raged there today.

A bulletin from Hitler's field headquarters, making the first claim of a major success in weeks, asserted that German infantry had wrested control of "an important locality" from strong Red cavalry forces on the Central front.

The high command said more than 1,300 Russians were left dead on the battlefield.

Asiatic Fleet Takes Toll Of Nipponese Vessels

Three Enemy Transports and Two Large Cargo Vessels Make Total of 24 Enemy Craft Claimed By Navy And Marine Forces; No Change In Submarine Situation Off East Coast Reported

On U.S. Blacklist The State Department in Washington has announced that Axel Wenner-Gren (above), multi-millionaire Swedish industrialist with world wide interests, has been put on its blacklist just as he was considering formation of a \$100,000,000 syndicate in Mexico.

Washington, Jan. 16.—(AP)—The Asiatic fleet has sunk three enemy transports and two large Japanese cargo vessels in the Far East.

The Navy communique, based on reports received up to 9 a. m. EST, today, reported the submarine menace to the northeast coast of the United States "remains unchanged."

Text of the communique: "Far East: "Units of the U. S. Asiatic fleet report the sinking of five enemy vessels in Far Eastern waters. They include two large cargo ships, two large transports and one medium-sized transport. These sinkings are in addition to enemy casualties at sea previously reported.

"Atlantic area: "The submarine situation along the northeast coast of the United States remains unchanged.

"There is nothing to report from other areas."

The success of Admiral Thomas C. Hart's Asiatic fleet in waging its fight against the Japanese, even though dispersed of its base at Cavite, Philippine Islands, was underscored yesterday by the sinking of a speedy 17,000-ton Japanese passenger and cargo liner of the Yawata class.

The Navy gave no names or identification of the five additional Japanese ships sent to the bottom.

ASKS CURB OF LOCAL LEVIES

Doughton Suggests Move In Face Of Federal Boosts

Washington, Jan. 16.—(AP)—Chairman Doughton (D-NC) of the House Ways and Means Committee asked states and municipalities today to consider reducing their tax levies so that individuals could better bear the burden of new federal levies to help finance the war program.

Preparing to start committee consideration of President Roosevelt's request that Congress enact a new \$7,000,000,000 general tax bill—to be followed by a \$2,000,000,000 boost in social security levies—Doughton said:

"The federal government is going to economize on non-defense expenditures and the states, counties and municipalities should do the same thing. That would lighten the burden on many individuals and would help absorb some of the big taxes they are going to have to pay to their federal government."

"We have helped the states with their relief, roads and a lot of other projects in the past and now they might turn around and help us."

Doughton suggested, for instance, that state sales taxes could be reduced or eliminated to make way for a general sales tax which has been suggested as one method to raise part of the new revenues. Rep. Knutson (R-Minn), another Ways and Means committee member, recently suggested that state and federal sales taxes be consolidated, but primarily to reduce collection costs.

Some congressmen, however, pointed out that almost all states expected their revenues from gasoline and motor vehicle license taxes to decline because of the rubber and car rationing programs, and for that reason the legislators were none too sure that other state levies could be abandoned or reduced without interfering with essential functions of local government.

Doughton said that he still did not know when treasury and congressional tax experts would be ready to present a program for the committee to consider, or when Secretary of the Treasury Morgenthau would be ready to testify at hearings.

"But I think that we ought to get at this thing pretty soon," Doughton said.

Costa Rico To Get Lend-Lease Funds Washington, Jan. 16.—(AP)—Costa Rica, now building its first army, was allotted \$550,000 of lend-lease funds today to buy arms.

In another step to strengthen Central American defense, the Public Works Administration approved a \$20,000,000 loan to Honduras, Nicaragua, Guatemala, El Salvador and Costa Rica to help build the vital Pan-American highway.

WFC to Open Door To Girl Students

Wake Forest, Jan. 16.—(AP)—A precedent of 107 years was discarded by the Wake Forest College Board of Trustees yesterday in voting to permit women students to enter the junior and senior classes.

Heretofore a few women have been admitted only to the professional classes of law and medicine. Otherwise, Wake Forest has been strictly a men's institution. The admittance of women students is only for the duration of the war.

The trustees voted also to add several defense courses to the curriculum. Also a new college calendar was adopted to make it possible for students to be graduated in three years if they attend summer schools.

Legion Post To Meet Here Tuesday Night

The regular monthly meeting of the Pitt County Post No. 39, American Legion, will be held in the Greenville high school cafeteria at 6:45 p. m., Tuesday, January 20.

With a membership of 192, the new meeting place is able to accommodate 200 and a large attendance is requested for the meeting.

Women Troops Helsinki, Finland, Jan. 16.—(AP)—The Finnish army declared in its official communique today that the Russians had begun to send women troops on patrol expeditions into the Finnish lines.

(The Russians have declared no women troops were in the Red army, although some women have been used as auxiliaries in the army.)

Trawler Sunk London, Jan. 16.—(AP)—The Admiralty announced today that the trawler Lady Shirley which sank the German submarine U-111 on October 4, is overdue and considered lost.

Defense Meeting Tonight's meeting of the Pitt County Civilian Defense Council, to be held at the Municipal building at 8 o'clock, will be presided by W. F. Nutter of Raleigh, assistant director of the state council.

Prohibition

Washington, Jan. 16.—(AP)—The Senate defeated today an effort to Senator O'Daniel (D-Tex.) to obtain immediate consideration of a measure barring the sale of liquors, wines and beers at army and navy posts.

O'Daniel's motion to take up the bill, made on the anniversary of the ratification of national prohibition, was announced as lost on a voice vote.

Senator Johnson (D-Colo.) then demanded a standing vote. An unofficial count from the galleries showed the motion was lost by a margin of approximately two to one.

O'Daniel previously had urged the Senate in a lengthy prepared address, to approve the bill, originally introduced by his predecessor, the late Senator Morris Sheppard, often called "The Father of Prohibition."

Draft Board Head To Speak In State

Goldsboro, Jan. 16.—(AP)—Brig. Gen. Lewis B. Hershey of Washington, D. C., the national administrator of the Selective Service System, will address the Goldsboro Chamber of Commerce at its annual meeting February 10, Secretary J. W. Butler announced today.

The invitation was extended through Col. John D. Langston of Goldsboro, director of the section on planning selective service, who will accompany General Hershey to Goldsboro.

The WAR TODAY

By DeWITT MacKENZIE (World-wide News Analyst)

Well, they've finally flung the capabilities. Some are better at holding a line, some in the difficult rear-guard fighting, and the very long suit of the Aussies in rip-roaring attack, especially where there's hand-to-hand work with cold steel. We learned all that back in World War number one.

By the way, the Australians in the last war thought the Tanks were great fellers, and the feeling was mutual. It was the American 33rd division and Aussies, who staged the first Anglo-American attack of history. That was on July 4, 1918, when the two outfits went over the top on the Somme and fought their way shoulder to shoulder to the capture of Hamel. It was a grand show.

The Australians have gone into the British line about 120 miles up (Continued on page four)

Speaks To Students, The Reverend Leo Russell, pastor of the Centenary Methodist Church, New Bern, was guest speaker for the Methodist Student Association last night at the college. He spoke on the "Christian Situation," stressing the fact that "we must face not only the future, but the present."

In his most inspiring talk, Mr. Russell listed the four "anchors" necessary in facing this crisis: hope, faith, duty and love. "If we keep these," Mr. Russell said, "we shall be secure, unafraid, and happy, while the storm is on."

Mobile Spence Watson, who was in charge of the program, introduced the speaker. For the preliminary program Genevieve Hodges played a piano prelude; and the entire group sang "All Hail the Power of Jesus' Name," Z. W. Frazzelle read the Scripture, and Helen Stone gave the prayer. At a special selection, Lorraine Pritchard sang the ever beautiful "My Task."

The program was preceded by a business meeting which Annie Laurie Wilkerson, president, called to order. Miss Elizabeth Starneth urged members of the M. E. A. to be thinking of attending the annual state conference to be held in Chapel Hill, February 6-8, which she said is certain to be inspirational. Announcements were made of the training school to be held at the church January 18-25 and the weekly prayer service on Wednesday nights.

IN MEMORIAM
A tribute of love and devotion to the memory of our loved one, Benjamin T. Clark, who departed this life one year ago today, January 16, 1941.

Today recalls sad memories of a loved one gone to rest. And those who think of you today. Are the ones who loved you best. Some think we are not lonely when we are alone.

At times they see us smile; Little do they know the heartache we suffer all the while. We think of you in silence—No one can see us weep; but silent tears are shed when others are asleep.

Junior Red Cross News

EVELYN SCHELLER, Pub. Com.

There was excellent cooperation in Greenville last week, during the Junior Red Cross drive for papers, old magazines and cardboard boxes. A total of 4,640 pounds of paper was collected, earning \$16.27 for the Red Cross. Through the efforts of Mrs. J. B. James, trucks were procured to make a house to house canvass of the Greenville homes. Assisting on the truck were Jimmy Williams, Francis Jordan, Herbert Waldrop, Beverly Ballard, Louis Dupree; Frank Rankin, Carl Allgood and Layton Clark. Mr. C. K. Beatty, superintendent of the city street department, assisted greatly in this campaign. He has promised Mrs. James the trucks for the entire day.

Next week, the high school Junior Red Cross council will launch a victory drive for books. The books will be sent to the U. S. O. centers for the men in the service.

The Junior Red Cross has been helped by groups of school girls who are meeting regularly at the home of Mrs. J. B. James, chairman of the Junior unit, in order to knit for the soldiers. The Home Economics and Manual Arts Departments and Miss Naomi Newell's eighth grade English class, in the high school are making hot water bottle covers, caps, scarfs, and utility bags, and knitting sweaters. The sixth grade of the East Third street school was given a prize at the last parent-teacher meeting for having the most mothers present. They decided unanimously to give this money to the Junior Red Cross.

Forty Years Ago Today

THE DAILY REFLECTOR
Friday, January 16, 1942

This state was among the first to try to solve the problem of making its penitentiary self-sustaining without employing its convicts so as to come into competition with outside labor. It leased and bought farms on which it put its convicts to work. While this is better than employing them in making shoes, clothing and other things in which their work would come into competition with outside work, it does not pay for the chances which must be taken on unfavorable seasons, damage by droughts, floods, etc.

This system has proved so unsatisfactory that the state has given up its farms in Anson county and would save money by getting rid of its farms on the Roanoke in which it invested about \$70,000 and where it has lost in the past two years about \$45,000 by damage to dikes caused by freshets. — Wilmington Star.

COLLEGE HERE AIDS DEFENSE

Offering Special Courses During New Term

The special defense courses scheduled for this term on the East Carolina Teachers College campus are well started now, with about as many people attending as they can take care of.

The one called Defense Foods, taught by Mrs. Adelaide Bloxton of the college home economics faculty, had around 60 town and college women present at the class hour on Wednesday. It meets from 4 to 5 o'clock on Wednesdays and Fridays and is open to all without payment of a fee. Mrs. Bloxton deals with the foods necessary for health, the inexpensive foods that may be used, and building menus, and offers suggestions as to cooking.

The course for college students in home hygiene and care of the sick is a standard course of the Red Cross and is under the supervision of that organization. Dr. F. P. Brooks, college physician, lectures one hour a week to the class; and Miss Stella Grogan, head of the college infirmary, who served with the Red Cross in devastated areas in Europe after the first World War, gives the members of the class four hours of practical laboratory work in the infirmary each week. Improvised equipment which can be found in any home is used. Among the units of work that will be taken up are individual health and hygiene; hygiene in the home, including care of the aged and sick, and ways of meeting common emergencies; care of babies and children; indications of illness; and measures for prevention of illnesses.

A standard course of Red Cross Home Nursing open to everyone, which is sponsored by the Pitt County chapter of the Red Cross, is being taught on the campus by Mrs. Wallace Bourne of Greenville. By the invitation of the college Mrs. Bourne's two classes, one meeting on Wednesday and Friday from 3 to 5 o'clock and one on Tuesday and Thursday at the same hour are using rooms and equipment of the new classroom building. The members of these classes will be awarded the Red Cross certificate in home nursing when they have completed the course. This work covers home and community hygiene, care of babies and children, and elementary nursing.

Coach O. A. Hankner's regular college course in safety education and first aid covers all the material that the Red Cross certificate calls for and in addition the treatment of first aid problems dealing with athletics. This work does not, however, carry a Red Cross certificate with it. Its purpose is to give practical work and that will enable students to give first aid when needed in their regular school work, as well as in case of air raid or other emergencies. There are 43 in the class.

As a course in mechanical drawing is being asked for, W. H. McHenry will begin one on Tuesday night, January 20, in the industrial arts department of East Carolina Teachers College, located on the ground floor of the new Classroom building. The course is intended to help men and women get ready to take part in defense production. There will be no charge for it.

Eighth vs. Ninth on Tuesday, Jan. 27.

Japanese Threat Draws Nearer To Singapore

Here is a general view of the waterfront area in Singapore which is threatened by Japanese forces. Tokyo claims the Japs have advanced into Johore state, on 100 miles from Singapore, and said reinforcements northward for a "last desperate stand." Meanwhile, British and Dutch planes battled Jap air forces made last fall by Deane Dickson, writer and lecturer. In the distance are the northernmost islands of the Malay peninsula.

Japs Claim Success In Push Toward Singapore

The shaded area on this map indicates the approximate extent of the battle front in the Japanese drive toward Singapore after Tokyo claimed its forces had smashed through Sepang and Seremban to reach Tampin near the west coast of Malaya. The Japs also claimed they have occupied Gemas, strategic railway junction on the Johore border, and that their army rumbling southward from Kuantan was nearing Pekan. They said they controlled all of Pahang state north of the Pahang river.

County TB Clinic Will Be Conducted

The local health officer, Dr. Ennet, today again called attention to the free State County Tuberculosis Clinic to be held in Greenville on next Wednesday, Thursday and Friday, January 21, 22 and 23; in Farmville on Monday, January 20, and in Ayden on Tuesday, January 19.

All patients except those for tuberculosis tests only are seen by appointment. It is desired, though not required, that this appointment come through the family physician. From the appointments already made, there is every indication that it will be a full capacity clinic.

Dr. Ennet explained that the Tuberculosis Christmas Seal Sale just closed was so successful that there would be ample funds to give free X-ray to all deserving patients.

He suggests that all persons who have lived in a home where there was tuberculosis, and all persons Clarence Gray Dudley, Rt. 2, Ayden; Ernest LeRoy Willard, Jr., Greenville; Burney Gray Buck, Rt. 2, Greenville; Robert Galloway Little, Greenville; Joseph Walter Wilson, La Grange; Joshua Speight Ward, Spring Hope; Roger Paul Taylor, Greenville; Mack Welsh Allen, Rt. 1, Greenville; Jesse Boyd, Rt. 1, Grimesland; Johnnie Matthew McLawhorn, Rt. C. L. Russ Is Awarded Camp Davis Project

Contract for the plumbing and heating in the Red Cross field office building at Camp Davis has been awarded to C. L. Russ, plumbing and heating contractor, Greenville. It was announced today as the local contractor proceeded to assemble the materials needed in his particular line.

Robert E. Maggart, Red Cross field director in charge of Camp Davis activities, indicated the new building would be completed and ready for occupancy by March 20.

In the Red Cross field office building program for the eastern area, this is the 13th building to

be constructed. It is to house the offices of the field directors in camp. The Red Cross staff at Camp Davis now numbers seven persons, including two on duty in the station hospital recreation building.

Brooks Is Out.
Durham, Jan. 16.—(AP)—State Senator E. C. Brooks, Jr., of Durham said today that he intends to run for the State Senate from the Sixteenth District in the May primary. In disclosing his intentions, Brooks stated that he will make a formal statement later.

Georgia Boy Survives Pearl Harbor

Eugene Knight, Jr., gunner's mate, first class, from Stillson in Bulloch county, Georgia, is recovering in a San Francisco naval hospital from burns and machine gun wounds he suffered during the Japanese attack on Pearl Harbor. "I know I was in action only a half hour or so before the whole ship seemed to blow up," he said.

other bundles. "Ready?"
Yavinia settled herself
o the burlap upholstered

Then she let her thoughts run
over the events of the day, while
Rod busied himself babying the en-
gine—as he called it. There had
been a letter from her aunt in the
morning mail.
"You were terribly casual in re-
ferring to the man you'd met,"
Aunt Dorcas wrote. "I smell a rat.
I hope it means you're really hid-
ing a romance from my dear old aunt's
egle eye. A romance would be good
for you, my dear."
"Oh, to heck with it," she had
said, half aloud, tossing aside the
letter.
Then she had dug out the slacks.
They were rust-color, and there was
a bright yellow sweater to go with
them, also a rust and yellow ban-
dana. Sandals also, rusty brown
with touches of yellow here and
there. "One of our smartest out-
fits," the saleslady had said. "I
hear Katharine Hepburn and Dor-
is Cromwell have outfits just like
it."
"Go on, buy it!" Aunt Dorcas had
urged.
And she had done so, not that
she cared what Hepburn and Crom-
well wore, but because she was
tired of arguing with her aunt over
everything in connection with her
summer vacation wardrobe.
Lunch—a nap—some letterwrit-
ing—a shower, and then she had
gone forth to meet Rod.
"Here's your pie, Miss Prentiss," a
waiter had said.
"Thank you, Charles," was her
reply. "Here's something for you."
Charles had eyed the generous
tip, and said: "Thank you, Miss
Prentiss!"
Margot had seen her and called
out. "Going some place?"
"I'm not standing still, am I?"
she had replied, and waved her
hand gaily.

Hot Dogs and Pie
And now, at long last, she was
wearing the slacks and the things
that went with it, heading toward
an island with a handsome man
all in white.
The wind—the spray—the sun-
shine! It was invigorating, it seem-
ed to wash one's brain of all wor-
ries and doubts and fears!
"We'll soon be there!" said Rod.
"No walking the plank?" said La-
vinia. "Pirates used to make peo-
ple do that, didn't they?"
"Yes, so I've heard. But there are
only pirate ghosts on the island
now. And they're too busy trying
to find the treasure they buried to
bother with folks and planks."
"It looks much bigger than I
thought," Lavinia said, as they
drew nearer the island. "There's
quite a lot to explore."
"And we'll explore it!" Rod said
gaily. "Mind if we eat first? I'm
hungry."
"So am I," said Lavinia. "I'm
starved!"
Rod shut off the motor, and the
old boat drifted in. Just before its
battered bow struck the beach, he
jumped out, one end of a rope in
his hand.
"Sit tight!" he said. "I'll haul her
in."
There was the sound of the
boat's flat bottom scraping sand
and pebbles, and Lavinia got up.
She too leaped out, caught the
rope, and helped Rod draw the
craft up upon the sands. Then
when she had been made fast to a
rock, Rod and Lavinia stood look-
ing about them.
"We ought to find Mán Friday's
footsteps about some place," Rod
said.
And then for the first time in
days Lavinia remembered the Din-
osaurus and Dinosaurium.
"I wonder if prehistoric animals
ever roamed the island," she said.
"I think not," said Rod. "But per-
haps the whale that swallowed Jo-
nah came here to sun himself."
Rod caught her hand. "Come on,

Accused of Not Keeping Abreast With Aircraft

Washington, Jan. 16.—(AP)—Chairman George (D-Ga.) of the Senate Finance Committee declared today that the army and navy had "blindly failed" to keep abreast of aircraft developments in modern war fare.
He made the assertion while discussing the investment committee headed by Senator Truman (D-Mo.) which charged yesterday that poor planning and administration had resulted in inadequate and largely "mediocre" warplane production.
"Up until a few weeks ago," George declared, "the army and navy apparently had not afforded the air force its proper place in modern warfare. They were not up to date with their designs and blue prints and they hadn't done the work that should have been done."
(In New York last night, John H. Jouett, president of the aeronautical Chamber of Commerce of America, took pointed exception to the conclusions of the committee's report.

date," he asserted, "our American designed and built warplanes, including pursuit and bombers, have shown marked superiority on every occasion in combat with enemy planes and in other actions against

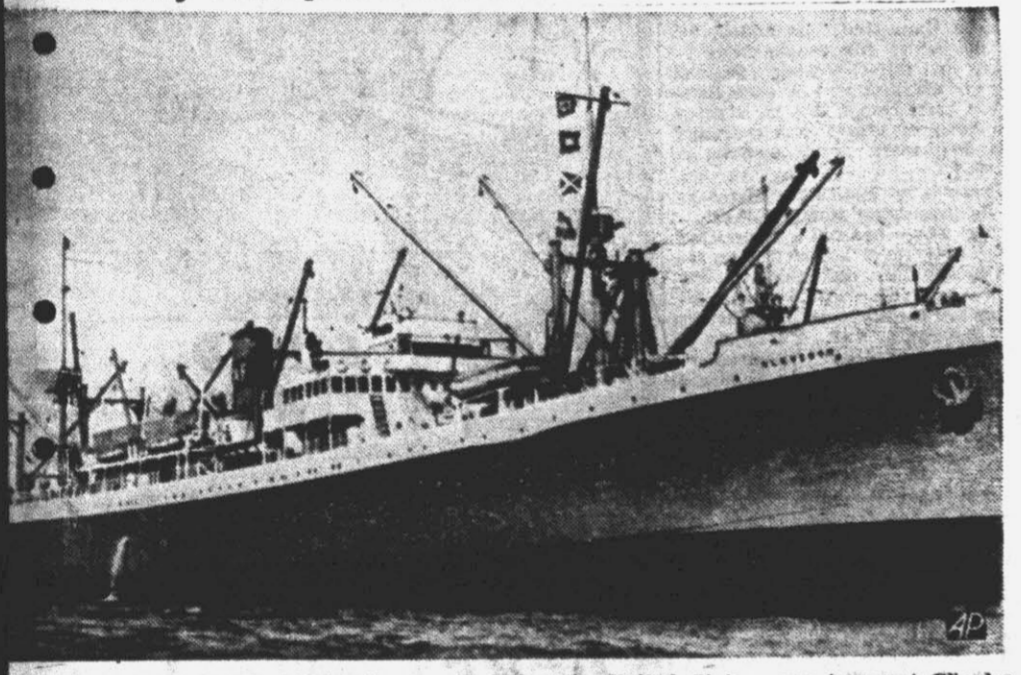

enemy forces on land and sea."
Publication of the Truman committee's report brought expressions of support from several members for continuation of the group as a war-time investigating body. The committee has asked for an additional \$100,000 to further its work and as soon as the report was made public, several Senators urged that more funds be granted.

Baby Born With Tooth—Like Dad

Dick Friend was just following a family trait, it seems, when he was born at Los Angeles equipped with a lower tooth. His mother, Mrs. Jack Friend, explained the baby's father and grandfather also were born with one tooth—and in just the same place.

I'll show you the little cove where we'll cook our hot dogs and eat our pie," he said.
They gathered up the things from the boat—the pie, the coffee-pot, the hot dogs, bread, butter, cheese, and a bundle containing an old tablecloth in which were rolled forks, knives and spoons, also a small bag of sugar, and a can of cream.
And presently, sitting crosslegged upon the sand, they were eating. It was peaceful. It was delightful. "I shall remember this moment as long as I live," Lavinia thought.
Then she recalled what her Aunt Dorcas had said about creating memories for the years to come, and smiled. "When I'm a gray-haired executive, sitting behind my desk on a not-so-busy day, I'll think of this spot, and of Roderick Elliott—and be happy." She bit into a juicy hot-dog, and took a swallow of coffee.
"Enjoying yourself?" Rod asked, smiling at her.
"That's putting it mildly," said Lavinia. "And you?"
"I'm happier than I've been in many a long month," said Rod. And there was no doubting his sincerity.

Is This Love?
"I suppose you used to explore the island when you were a little boy," said Lavinia, as she and Rod tramped through rocks and undergrowth to seek a view from the other side. "It's a wonderful place to come for make-believe."
"Yes," Rod said. "Grandfather used to bring me here." He pointed to a diminutive peninsula that jutted out into the water some distance from them. "We used to sit out there, while he told me tales of piracy and adventure."
"I'd like to have had a grandfather like that," said Lavinia. "I didn't have any grandparents at all; I mean, they died before I was born."
"I didn't know what I should have done without mine," said Rod. "I don't remember my paternal grandparents, but my mother's parents certainly helped to make my childhood a happy one. It nearly broke my heart when we went to England to live."
"Was it necessary to do that?" Lavinia inquired.
"My mother thought so. You see, my father lost his life in the other war—and my mother fell in love

Shortage

Raleigh, Jan. 16 (AP) — The N.C. State College Extension Service reported today that tobacco growers face a 25 percent shortage this year of cloth usually needed for protecting plant beds.
"Did you remember to bring along some cigarettes?"
"Yes, I did. And my pipe also. You don't object to a pipe, do you?"
"No, I like the smell of pipe smoke."
They sat down. They got the cigarette and the pipe going, and gazed out across the seemingly endless expanse of water.
Lavinia studied Rod's profile now and then, and found it extremely satisfactory. She also liked his sun- from his high, brown forehead. She had never, she thought, seen bluer eyes. She liked his hands too—slender and yet strong. In fact, come to think of it, come to a point where she was downright honest with herself, she liked everything about Roderick Elliott.
"Could I be falling in love with him?" she asked herself. And a voice down inside of her said: "Well, why not? Did you think you were invulnerable? Did you think you were a girl who couldn't do such a thing as fall in love?"
She tried to change her thinking, tried to think of the man there beside her in a more impersonal way. But she couldn't. And almost before she knew it she was saying to herself: "Why doesn't he turn, take me in his arms, and kiss me?"

Strength FOR THE DAY

By EARL L. DOUGLAS

DON'T THROW HAPPINESS AWAY

Some people throw happiness away with both hands. They have love, opportunity, fine heredity, good health—the makings of a happy life. But because they lack self-control, or have a jealous spirit, or nurse a grudge, or love money too much, they cast all chances of happiness away in exchange for some bauble, some tinsel toy not worth the having.

It very often happens that married couples, because they greatly dislike some little failing in each other, neglect the possibility of deep and abiding happiness. People who have been friends for years disagree over some petty matter, and henceforth are strangers to each other. Many a boy who has had everything under the sun given him and who should be a great success in life, has cast it all away in the pursuit of an aimless life of pleasure. Jealousy has shrewdly many a person off the road to happy, purposeful living and kept on pushing them until they went over the precipice. Judas Iscariot sold out a man who loved him for thirty pieces of silver, and many are those who have scoffed at love and trampled it under foot that they might gain riches.

Why do we cast away our treasure so recklessly? Why are we so prone to empty our hearts of gold and fill them with dross? It is easy to throw happiness away, but happiness thrown away is as hard to pick up as spilled water.

RIGHT HERE AT HOME

It is true of all of us are interested in the war and what is going on at the various fronts, but don't let us overlook the slaughter that is going on right here at home in North Carolina. The number of highway fatalities in this state during the present week is such as to demand immediate attention. A motorist who ventures on the highways and disregards the rules of common sense and safety is a potential killer and an enemy of mankind, and should be treated as such.

'MAKE OUR UNCLE SAM STRONG'

The letter from an Indian of Lehigh Reservation to Reg Manning as set forth in today's cartoon on this page, in reality should be an appeal to every American during this hour of our country's great need for strength to help overcome the forces that would destroy civilization. Make Uncle Sam a "Super Man" is the Indian's request to the cartoonist, and in compliance Reg has so drawn the figure of Uncle Sam.

It was quite easy for the cartoonist to make Uncle Sam big and strong on paper but that is too true at this particular time, for it might appear to many of us that right now most of Uncle Sam's strength is on paper or in the formative stage. Potentially we are the most powerful nation in the entire world and as a symbol of such a nation Uncle Sam should be big and strong, and must be remembered

"Make Our Uncle Sam Mighty"

ACTUAL LETTER FROM AN INDIAN Lehi Indian Reservation Arizona

Dear Sir,
I have notice the picture of My Uncle Sam—such a strong being.... I have 3 brothers in the army, my father 3 other full Indian but proud of their boys.... The boys, one in Artillery, one in Air Corps, one in Infantry. I rejected 7 times on account of having old—yet I am only 37 yrs.
My chance will come when I'll join my brothers. Oh what a happy day for my father and ma, even if we might not come back....

In peace time our Uncle Sam was frail because he is gentle and peace and loving freedom. Now Reg Manning draw our Uncle Sam like a Super Man. Indians will be proud, our brothers white will be proud all as. I'm from Reservation of Indians. we will help spank the Japs. Please draw our Uncle Sam to look mighty.

that each of us is a component part that goes into the make-up of this symbolic figure and unless as parts of that body we are strong the body of Uncle Sam will not be strong. In his simple request to the cartoonist we feel that this American Indian has in reality made an appeal that should strike home to the heart of every American and cause each of them to do his or her part to make this nation strong enough to be equal to the task that lies ahead.

Washington—The other day a friend showed me a letter from his mother who had traveled from Chicago to the Pacific northwest on one of the country's crack streamline trains. The weather was perfect. There had been no wrecks. Yet her train was 30 hours late in arriving at her west coast destination.

What occurred to me would have occurred to any one who heard the story and remembered 1917-18, when wartime transportation demands caused a nightmare of congestion on American railroads which finally caused the government to take them over. Could it be that the railroads of the na-

EXPOSITIONS ON PROPHECY AND THE APOCRYPHA

My Dear Sir:
Will you read Daniel, 9th chapter beginning at verse 36, to the end? In connection with this I quote from the Apocrypha Esdras 13-2-7, "And lo there arose a wind from the sea that it moved all the waves thereof. And I beheld and lo that man waxed strong with the thousands of — and when he turned his countenance to look, all the things trembled that were seen under him. And whosoever the voice went out of his mouth all was burned that heard his voice, like as the earth falleth when it feeleth the fire. And after this I beheld and lo he had groved himself a great mountain and flew up upon it."

Now read Revelation 16:12 to 14. You being a student of history and a busy man, I have omitted the writing of the three that precede the above readings as they refer to the reign of Emperors of the Chaldean, Persian, Grecian and Roman Empires. To examine these would require much of our time though they would be interesting. However just before these reading the writers take notice of World War and the exit of the Kaiser and the brief administration of Hindenburg.

In Daniel 11:36, we have the perfect picture of an absolute dictator, the end of whom is fixed in the mind and purpose of God, verse 37. His disregard for God and the heartaches of mothers, wives and sweethearts of men killed on the sanguinary field of battle that his own dominion may be expanded. In verse 38 is introduced a military weapon unknown to his fathers. Here the airplane enters the picture and the Apocryphal writer sees him fly. The mountain in the Apocrypha signifies a kingdom and the sees the Euphrates dried up to make a passage for military movement. As a student of history you are aware that Cyrus diverted the Euphrates from its channel that his army could take the city of Babylon, capital of the Chaldean Empire. Here it is "dried up" which is to say the oceans no longer remains a barrier to military movements; as an army can be transported across great spans of water. Verse 39 the modern army tank; by the use of which he has overrun smaller countries and appropriated their substance to himself.

The WAR TODAY

The peninsula from Singapore. Meantime the initial stages of the actual siege of Singapore itself has begun, with the Japanese making heavy bombing raids on the island. Refugees have been pouring into Singapore from the mainland, and the authorities have prepared for eventualities by mining the great causeway which connects the island and the peninsula.
The greatest weakness of the British continues to be in warplanes, and it is likely that the battle will turn on air-power.
The Dutch have turned to with a will and are fighting over Singapore with their allies. There also may be an indication that British air reinforcements are arriving at

DANIELS HEARD AT PRESS MEET

Speaks On Subject of Propaganda And Censorship
Chapel Hill, Jan. 16 (AP)—Joseph Daniels, Raleigh publisher and former Ambassador to Mexico, told the North Carolina Press Institute today that a "free press at war is as essential as in peace." Speaking on the subject "propaganda and censorship," Daniels said that "no man was ever born wise enough to be a censor over the

writing or speaking of others," and that "invariably wherever censorship of the press has existed it has dug up more snakes than it has killed."

"More than that," he added, "it has denied to the people facts to which in self-governing nations they are entitled, and by such denial has been responsible for stampedes born of gossip which always runs free when accurate news is denied."

"There is no institution so essential for preserving morale and stimulating whole-hearted cooperation to the great goal before the American people as a courageous press," Daniels asserted. "Editors and publishers are mobilized as never before in a righteous war. They stand solidly behind their government, ready to forego scoops which might give information to help the enemy, but insisting that the best assurance of solidarity at home is that the people shall be kept informed fully and the press unhampered in freedom to print everything that devotion to country dictates."

"A free press in war is as essential as in peace. It is to the glory of our country and its leaders that no such dumb censorship as courses other nations is imposed in this free republic. And it is the glory of the free press that it is ready to make any sacrifice now as in the world war to cooperate in winning the war that is essential to our four essential freedoms. If these are lost, all is lost."

Chapel Hill, Jan. 16 (AP)—The destiny of America in the 20th century, Walter Lippmann, the columnist, said here last night, is to "bring law and order and peace to the civilized world."
Speaking before the 18th annual North Carolina newspaper institute,

Local court fans will have an opportunity to see one of the finest basketball aggregations in all the south in action in the Wright gym at ECTC this evening, when the strong Norfolk Naval Base Quint engages the Pirates of East Carolina Teachers College at 8 o'clock.

The Norfolk team lists some of the leading teams in this section as victims this season. The Sailors doubled the score on the House of David team and on Davidson College, Virginia Polytechnic Institute, the National Business College of Roanoke, the Newport News Apprentices and the Portsmouth Professional team have fallen before the Norfolk Base five. Atlantic Christian College has been twice defeated by the Sailors, and ECTC suffered a setback at their hands in Norfolk on Monday of this week. Only the University of Virginia has taken the measure of the Norfolk team this season.

In the starting lineup for the Sailors will be Williams, Beckley, College and Powell, University of Cincinnati, at forwards; Brock, formerly of ECTC, at center; McCauley, Marshall College, and Blenkie, Purdue, at guards.

The Teachers, who have three victories and five defeats to show for the campaign so far, will be decided underdogs in this battle. Probable starters for the Buccaneers include forwards David Watson and Clyde Mann, center Jack Young, and guards Bob Young and Floyd Wooly. ECTC reserves likely to see action are forward Billy Greene and guard Wiley Brown.

It is possible that the Naval team may be accompanied by Bob Feller, acclaimed as the best pitcher in the major leagues while with Cleveland last summer. "Rapid Robert" is now doing his pitching for Uncle Sam's Navy and is stationed at the Norfolk Base. There is also a possibility that Gene Tunney, former heavyweight champion of the world and now lieutenant commander in charge of athletics at the Naval Base, may accompany the team to this city.

127 to 45

Fernbrook, N. C., Jan. 16 (AP)—Garnet Lowry, Fernbrook high school basketball player, tallied 63 points in a game with Piney Grove high. Fernbrook won the game, 127 to 45. Lowry has rung up 300 points in six games this season.

HIGHS TO MEET TARBORO FIVE

Phantoms To Play In Edgecombe City Tonight

Tonight the Green Phantom cagers travel to Tarboro to meet the Serpents in a hardwood conflict which will be reeled off in that city at 8 o'clock. For the past few years the Serpents have been keeping pace when it comes to producing good basketball teams and it can be expected that the team is up to usual par this year.

So far this season the locals have played two non-conference and two conference games. They dropped two close tilts to the Prexes of the Woodrow Wilson High of Portsmouth, Va.; the Goldsboro Earthquakes squeezed a win in the first conference battle and the Greenies went wild in crushing the Yellow Jackets of Elizabeth City to a score of 48-14.

The probable line-up which Coach Farley will put on the floor tonight when the first whistle blows will be James and Leonard Briley, guards; Gene Johnson and Larry Brown in the forward positions; and lanky Troy Riddle at center. Riddle and Brown have proved to be the offensive spark in the Phantom machine with both taking scoring honors in previous games.

Ingalls Trial Set.

Washington, Jan. 16. — (AP) — Laura Ingalls, widely known woman filer, pleaded innocent today in Federal District court to an indictment charging her with failing to register as a paid agent of the German Reich.

Judge James W. Morris set February 9 for the trial.

Carolina Five Invades South Carolina Teams

Tackle Clemson Tonight, USC Saturday Night

Raleigh, Jan. 16 — (AP)—North Carolina's fast and scrappy little quint will invade South Carolina tonight and tomorrow night and endeavor to prove that its upset victories recently over Wake Forest

and Fordham weren't flukes. The White Phantoms will tackle Clemson at Clemson tonight and South Carolina at Columbia Saturday night. Meanwhile, Duke's photo-finish boys will travel to Annapolis to play Navy Saturday night. The Tar Heels have inspired the North Carolina publicity office to some of the most inspiring prose produced herabouts recently. A communique from their publicity

office today had this to say about them: "Big Bob Rose and the Tar Heels Midgets, they are called, but the appellation is anything but derogatory. Those Midgets have been literally running their bigger opponents into the ground so far. And their blazing speed and fiery play have made a big hit with the crowds, win or lose. In fact, many fans say it is the most interesting team to watch that Carolina has had in recent years."

"The Midgets break like the wind. They dribble through and around the opposition like sand fillders scurrying up and down a beach. And then when they go into their famed cartwheel, they run and pass so fast, it's often hard to follow the ball. x x x The All-Southern Rose may be in the hole. Or it may

FDR SEES NEED FOR BASEBALL

Says Sports Should be Kept Going During Conflict

Washington, Jan. 16. — (AP) — President Roosevelt, a baseball fan from way back, urged today that the national sport be kept going during the war.

This was his personal rather than official point of view, expressed in a letter today to Kenesaw Mountain Landin, baseball high commissioner, who had written on January 14 inquiring what the President had in mind regarding continuance of professional baseball in wartime.

Mr. Roosevelt pointed out that fewer people would be unemployed, that the people would be working harder and longer hours than ever before, and hence should have an opportunity for recreation taking their minds off their work.

He suggested, too, that there be more night games, because they would give day workers a chance to see an occasional contest.

Mr. Roosevelt said that 300 teams, using 5,000 to 6,000 players, would be a definite recreational asset to at least 20,000,000 people and in his judgment, this was thoroughly worthwhile.

Australians Bomb Japanese Islands

New York, Jan. 16. — (AP) — Australian bombers attacked the Japanese Caroline Islands last night, and enemy craft struck twice today at Rabaul on the Australian island of New Britain in the Bismarck Archipelago.

A broadcast, heard by CBS, said one Australian plane was lost. Australian Air Minister Samuel Drakeford said there was extensive Japanese reconnaissance in the Bismarck group. He said there were no details of damage at Rabaul, which the Japanese have bombed before.
