

## Germans Claim to Have Halted Red With Great Losses

### Nazi Drive In Izyum-Barvenkova Sector Overshadows Russian Drive In Kharkov Area; Vichy Reports Russian Big Guns Were Bombarding City Of Kharkov

Moscow, May 29.—(AP) Nazi pressure against the Izyum-Barvenkova sector of the Donets Basin front subordinated even the Red army's operations before Kharkov in Soviet dispatches today and the only official claim concerning Thursday's fighting was that of another successful defense against attacks.

For the first time since Marshal Semeon Timoshenko hurled Red army shock divisions westward upon Kharkov's defenses May 12, that theater was not mentioned in the midnight communiqué.

"In the Izyum-Barvenkova direction (80 miles below Kharkov) our troops repulsed fierce attacks of enemy tanks and infantry," the Soviet Information Bureau said. "On other sectors of the front, nothing of significance occurred."

(Supplementing a declaration that German forces captured 165,000 troops through encirclement south of Kharkov, the Nazi high command said aerial bombardments had caused the Russians "almost unimaginable losses of men and materiel." A German armored division was said to have shot 25 Soviet tanks to pieces Wednesday during "desperate but useless attempt to break through the German ring.")

After a week in which Timoshenko's divisions drove hard upon Kharkov, the Germans took the offensive in the Izyum-Barvenkova sector 10 days ago in an effort to divert Red army strength.

The Information Bureau said 28 German planes were destroyed and Russian air squadrons demolished or damaged 32 German tanks, 233 trucks, 35 munitions carts and six railway trains Wednesday. It reported 18 Soviet aircraft were lost.

Northwestern front detachments were credited with killing more than 500 Germans recently.

London, May 29.—(AP)—The Vichy radio, in a report quoted as coming from the Soviet frontier, said today that Russian artillery had bombarded the city of Kharkov for the first time in three months.

"Our units operating on several sectors of the Leningrad front destroyed several firing positions and mortar batteries and killed about 500 enemy men and officers," the Information Bureau said.

Red army sources were said to have slain 135 Germans and captured prisoners in surprise raids on Nazi-occupied communities.

Speaking of an unidentified sector of the front, the bureau reported Soviet troops destroyed five German tanks and an armored car and killed hundreds of enemy to repulse a Nazi attack.

Berlin (From German Broadcasts), May 29.—(AP)—Nazi bombers severely damaged a Russian destroyer in the Black Sea yesterday and heavily attacked the besieged Crimean naval base of Sevastopol, the Germans announced today.

Six Russian planes were reported shot down in night raids over the Donets Basin.

Moscow, May 29.—(AP)—Red Star, the Soviet army newspaper, said today that 15 German planes had been shot down in four days in fights over Sevastopol, Black Sea naval base.

Since May 15, the paper's correspondent wrote, the Nazis have stubbornly tried to bomb the town, but have been driven off by anti-aircraft fire far from their target. Only an occasional plane penetrates this fire to drop its bombs at random, the report said.

### Impersonator

This man, listed as Arthur Osbourne Phillips, an ex-convict without medical training who posed his way into a high position on a hospital staff and successfully performed major operations, pleaded guilty at Chicago, Calif., to practicing medicine without a license. Authorities, who also charged him with having a concealed weapon, said he has prison records in Georgia, Alabama, Maryland, Idaho, New York and Pennsylvania. Officials said he invariably wore a military uniform, although he was not an army officer.

## APRIL TRAFFIC DEATHS FEWER

### Months Total Shows Decrease 14 Per Cent

Chicago, May 29.—(AP)—The National Safety Council reported today that the nation's traffic death toll compared with a year ago, dropped 14 per cent in April and 7 per cent in the first four months of 1942.

April accidents contributed 2,280 dead to the four-month total of 10,180 compared with 10,890 for the similar 1941 period.

Because of conflicting mileage reports the council was unable to ascribe how much of the drop was due to less travel resulting from conservation of cars and tires. A federal travel report for March indicated a slight increase over March, 1941, but reports from 13 states indicated a national decrease of 5 per cent.

The council believes motor travelers (Continued on Page Six)

## The WAR TODAY

By DeWITT MacKENZIE  
Wide-World News Analyst

This daily feature, conducted by DeWitt Mackenzie, Wide World news analyst, is being written in his absence for a fortnight by Fred Vanderschmidt.

The main part of the battle of Kharkov is over without any clear-cut decision.

That was to be expected. It will take time to assess the effect of the tactical, preventive assault which the Russian Marshal Timoshenko launched on May 12 against the German armies of the Ukraine which were poised to strike toward the Caucasus but were caught off balance before they could start.

Also it is too early to calculate the military meaning of the counter-attacks which the Germans have been conducting since May 16 to the south of the original bat-

## BIDDLE ASKS COURT TEST OF BRIDGES CASE

### West Coast CIO Leader To Fight Deportation Order

By JAMES J. STREIBIG  
Washington, May 29.—(AP)—Attorney General Biddle invited a supreme court test of his deportation order against Harry R. Bridges today as the west coast CIO leader announced he had "just begun to fight."

Biddle, reversing the Board of Immigration Appeals yesterday with an order to send Bridges back to his native Australia because of alleged Communist party connections, said he wanted the courts to "pass on the whole procedure as a test case."

The attorney general indicated a belief that Bridges immediately would take the matter into federal district court at San Francisco with a Habeas Corpus plea. From there the case could advance to the Circuit Court of Appeals and then to the Supreme Court, which never has ruled on the question decided by Biddle—that the Communist party "believes in, advises, advocates or teaches the overthrow by force or violence of the government of the United States."

So far as he knew, Biddle said at a press conference, it was the first administrative ruling of its kind with respect to Communism. Some federal courts have held similarly, however.

In San Francisco, Bridges, who has denied any connection with the Communist party, said Biddle's order was based on "misstatements, prejudice and perjured testimony which have characterized the entire case."

He telegraphed Donald Nelson, War Production chief, a pledge to "do all possible to offset any effect it might have on the production program and labor unity."

"I ask the American workers not to become confused, or shocked," he said in a statement, "by the attorney general's deportation order nor permit a weakening in any respect in our national unity. Now is the time, as never before, for greater production of arms and equipment for our men in the fighting forces."

## Nazi Air Force Growing Weaker

London, May 29.—(AP)—The German air force, now engaged from east, west and south, is inferior in numbers, manpower and quality to the powerful Luftwaffe which spread death and destruction throughout Europe in 1941, reliable air sources said today.

They estimated Germany's present first line air operational strength at 5,000 planes—1,500 less than in June, 1941. It was pointed out, too, that these planes are widely scattered whereas those of the faithful spring campaign two years ago were concentrated heavily.

Moreover, these sources said, Germany's aircraft production rate is dropping by comparison with that of the Allies, especially the United States.

County Chairman D. L. Turnage announced today that the Navy Relief fund contributions in this county had reached a total of about \$1325 with the reporting of an additional \$80 by local Chairman W. W. Brinkley. Greenville's total contribution to the \$400 mark with the county's quota of \$2,500 just a little more than half raised. Chairman Turnage today urged that all township chairmen throughout the county urge their co-workers to make their final drives tomorrow and get their reports in by Monday.

S. seamen from Java just ahead of the Japanese invader.

## Marshall Says European Continent To Be Invaded

### Army To Have 4,500,000 Men By End Of Year

New York, May 29.—(AP)—The British radio said today that "reports have circulated in Bern (Switzerland) that Reinhard Heydrich has died in Prague but these are not confirmed." CBS recorded the broadcast.

Heydrich, deputy Reich's protector for Bohemia and Moravia and Adolf Hitler's No. 2 Gestapo man, was injured in an assassination attempt two days ago.

## SIX OFFICES TO BE FILLED

### Only Fourteen Names On Primary Ticket

When Pitt county voters go to the polls tomorrow to cast their ballots to nominate candidates for office at the Democratic Primary they will have the unusual experience of having to nominate only six men. The only offices for which there are contests are United States senator, congressman, district solicitor, sheriff, judge of the county court and coroner.

Chico and Winterville townships have contests for constable.

The polls open at 6:30 a. m. and close at 6:30 p. m. War Time.

With the Australian ballot in use there is slight opportunity to predict which way the election will go until after the ballots have been counted.

During the past several days political observers who had predicted that the vote in the county would be unusually light, are changing their estimates as the campaign goes into the home-stretch.

The Republicans have a contest for United States senator, with two candidates in the field.

For United States Senator—Richard T. Fountain, Josiah W. Bailey.

For Member of Congress (First District)—Jack Edwards, Marvin K. Blount, Herbert C. Bonner.

County Ticket  
For Solicitor (Fifth Judicial District)—D. M. Clark, W. J. Bundy.

For Sheriff—J. Knott Proctor, J. L. Stocks, S. A. Whitehurst.

For Judge County Court—Dink James, Arthur B. Corey.

For Coroner—Griffin H. Rouse of Greenville, Dr. J. D. Hemingway. (Continued on Page Six)

## BRAZIL TAKES STRONG STAND AGAINST AXIS

### Has Adopted Shoot-On-Sight Policy; Nazi Subs Sunk

Rio De Janeiro, May 29.—(AP)—Brazil's armed forces were credited unofficially today with destruction of two Axis submarines and capture of another submarine and a German mother ship in a shoot-on-sight defense against maritime raids which the government-sponsored newspaper A Manha termed "organized piracy."

High official sources considered it "not impossible" that Germany would declare war upon Brazil, which was with the Allies in the first World war. She severed relations with the Axis January 28.

Propaganda tirades and submarine attacks, said the newspaper Diario Carioca, "give the impression that a war of the Axis against Brazil will break out in the near future."

O Journal said "We are not a belligerent country, but we will never permit them to challenge us at the doors of our house."

"The brave young men of the Brazilian air force are alert and they are good shots," it said.

Sinking six Brazilian ships and damaging of a seventh made it necessary for the non-belligerent nation to act "to safeguard our sovereignty, the liberty of our navigation and the lives of our undefended sailors," the Air Ministry said.

The Air Ministry announced in its first communiqué of the war last night that attacked off Brazil's 5,000-mile coastline had been sunk. It did not provide details, but a high government source reported earlier that a land-based Brazilian aircraft which answered a summons for help from a United States patrol plane had destroyed a submarine by dive-bombing off the northeast coast Saturday, leaving only huge oil slicks and floating wreckage.

Diario Carioca went beyond the communiqué with a declaration that (Continued on Page Six)

## Asks Local USO Workers To Meet

John G. Clark, Greenville chairman for the USO War Fund drive, has issued a call to his working committee asking that they meet with him in the City Hall auditorium Monday night at 8 o'clock. At that time Chairman Clark will district the city, pair off teams and make other final arrangements preparatory to the actual campaign for funds which begins Tuesday morning, June 2. Dr. W. I. Wooten, chairman for Pitt county, reports that other communities are making similar arrangements and will launch their respective drives at about the same time.

## Churches To Close For Commencements

A recent communication has been received by Dr. Robert S. Boyd president of the Greenville Ministers' Association, from Dr. L. R. Meadows, president of East Carolina Teachers College inviting the members and ministers of all the churches in the city to worship at the college both services, Sunday, December 7, members of Congress seeking his justification for expansion plans for the army, wanted to know "where American soldiers might be called upon to fight and just what was the urgent necessity for the army that we were endeavoring to organize and train."

"In reply I usually commented on the fact that we had previously fought in France, Italy, and Germany; in Africa and the Far East; in Siberia and northern Russia," Marshall said. "No one could tell what the future might hold for us. But one thing was clear to me, we must be prepared to fight anywhere, and on short notice."

"The possibilities were not overdrawn, for today we find American soldiers throughout the Pacific in Burma, China and India. They have flown over Japan. They are landing in England, and they will land in France. We are determined that before the sun sets on this terrible struggle our flag will be recognized throughout the world as a symbol of freedom on the one hand and of overwhelming power on the other."

The chief of staff said the confusion which existed in the minds of many Americans before Pearl Harbor was a thing of the past, and the American people, "solidly behind the army, are supporting wholeheartedly every measure for the prosecution of the war, and they are meeting with calm courage the vicissitudes inevitable in a war extending to the four corners of the earth."

"This attitude," Marshall said, "is exemplified in heroic measure by the parents and wives of those men who fought to the last ditch in the Philippines. Their fortitude was magnificent during those agonizing days of tragic uncertainty regarding their sons and husbands. The letters that have come to me from the mothers or wives of men lost in that Homeric struggle are my greatest reassurance that America has steeled itself for a terrible struggle, with the implacable determination to hammer out a complete victory—decisive and final."

The citizen army which the cadets will join in two weeks as second lieutenants was described by Marshall as "in physique, in natural ability, and in intelligence, the finest personnel in the world."

## CHINESE TAKE THE OFFENSIVE

### Capture Ten Positions In The Hupeh Province

Chungking, May 29.—(AP)—The Chinese high command reported today that "ten more points" on the outskirts of Ichang, Japanese-held Yangtze river stronghold above Hankow, had fallen to the Chinese forces in concerted attacks started three days ago.

This offensive action in Hupeh province was designed, no doubt, as indirect relief for Chinese forces subjected to a Japanese power drive in Chekiang province, hundreds of miles to Ichang's east.

Forces in the Ichang region were said to have inflicted heavy losses on the enemy, capturing two field guns and large quantities of supplies.

In fighting in Yunnan province of southwestern China, the Chinese said a portion of Japanese troops in Lungling advanced to the north last Wednesday. These soldiers were ambushed and wiped out, the Chinese said.

Simultaneously the Chinese high command announced today that up to dawn yesterday Kinhuwa, besieged capital of Chekiang province, was "still in our hands despite enemy" (Continued on page six)

## Tank Battles Raging Over 50 Mile Wide Front; Axis Forces Had Penetrated Deep Into British Lines; Free French Destroy 35 Axis Tanks In One Engagement

By ROGER D. GREENE  
(Associated Press War Editor)  
British desert fighters, heavily supported by American-built Kittyhawks and Boston bombers, threw back a German panzer column today after it had knifed 50 miles inside the British defense system in North Africa.

Front-line dispatches said violent tank battles raged in a 50-mile-wide belt between Sidi Rezegh and Ain El Gazala.

A British communiqué acknowledged that Axis forces had driven within 15 miles of historic Tobruk as German Field Marshal Erwin Rommel flung massive tank forces into the struggle—as many as 250 in a single column—and harked at Tobruk's immediate defenses at many points.

The British declared, however, that no fixed British land positions had been captured yet in the three-day-old battle.

Free French troops, fighting with the British, were credited with destroying 35 Italian tanks in a single engagement.

American-made tanks manned by the British were reported inflicting heavy losses on Axis armored forces attempting to knock out Tobruk as a prelude to a drive into Egypt.

A British army photographer, who escaped after being a Nazi prisoner for 13 hours, quoted a German lieutenant as boasting:

"We'll be in Tobruk by tonight. We've got Churchill by the throat this time."

But an RAF communiqué indicated that British warplanes had already demonstrated superiority in the air, declaring that Axis air activity was on a reduced scale while RAF planes constantly roared over the battlefield.

A single formation of American-built Kittyhawks was credited with destroying more than 65 Axis supply trucks, while American Boston (Douglas) bombers showered explosives among a concentration of 700 trucks.

British headquarters indicated that the outcome of the new desert battle was still in doubt.

For the first time, Premier Mussolini's high command announced the launching of an Axis spring offensive in Libya and asserted that since Wednesday morning the conflict had been developing "in favor of Axis troops."

British headquarters reported that British defenders of Tobruk, key citadel on the shores of the Mediterranean, smashed at least two Axis forays and were now engaging massed enemy forces in the vicinity of Knightsbridge, a desert track center, 12 miles south of Acroma. Acroma lies 10 miles due west of Tobruk.

Overhead, British and Axis planes crashed in furious dogfights and over opposing lines in bombing and machinegunning attacks.

A British war bulletin said two Axis columns had united around Knightsbridge, barely 15 miles below Tobruk, after racing around the British left flank at Bir Hacheim, the tiny "well of wisdom" oasis 50 miles southwest of Tobruk.

The British said one of the Axis columns thrust directly north in an attempt to reach El Adem, 15 miles south of Tobruk, but was hurled back.

London military quarters said Rommel's onslaught apparently had signalled the start of Adolf Hitler's long-heralded grand offensive of 1942, and declared they expected the German drive to be followed by a German offensive in southern Russia, striking toward the oil-rich Caucasus from positions now held along the Sea of Azov.

Conjecture also centered on a possible Nazi air-borne attack on Syria and Iraq.

## MacArthur Day

Washington, May 29.—(AP)—The Senate has voted to designate June 13 as Douglas MacArthur Day—in tribute to the heroic defense of the Philippines by General MacArthur, Lieut. Gen. Jonathan Wainwright and the officers and men who fought at Bataan and Corregidor.

## Primary Returns

Returns on Saturday's Democratic Primary will be compiled at the Daily Reflector office Saturday night and the public, as on all previous occasions of this kind, is cordially invited to be present and get the news of the primary first hand as it is received from the various voting places throughout the county, districts and state. In addition to reports on the races for Pitt county offices, there will be reports of the First Congressional District race, the Fifth Judicial District solicitorship race and the state-wide contest for United States Senator.

Just as fast as returns are received they will be announced over our loud speaker system and tabulated on a bulletin board in front of our building. For the benefit of those who

cannot be present at our office but who are interested in the returns we will be glad to furnish the information by telephone if they will Dial 3356 or 4364.

Immediately following completion of compiling the returns we will follow our regular custom of issuing our Election Extra of The Reflector for delivery to our subscribers early Sunday morning.

For the past sixty years the people of Pitt County have relied on The Reflector for their election returns and it is the hope of the management that as many as possible will be on hand at the office Saturday night.

# Uncle Sam Slowly Winning The Battle Of The Atlantic

## MORE SHIPPING IS NEEDED TO SPEED VICTORY

### Submarines Fail To Cut North Atlantic Supply Lines

By JOHN M. HIGHTOWER  
 Washington, May 29. (AP)—Despite heavy losses inflicted on American coastal shipping by Nazi submarines, naval experts said today that the United States was slowly winning the main campaign in the battle of the Atlantic. They emphasized, however, that only by steadily increasing production of both war and merchant ships could clinch the ultimate victory.

The greatest present need, it was said, is for more defensive craft—subchasers, blimps and patrol bombers—manned by experienced personnel.

The cold statistical results of the Atlantic battle to date are:

Three convoys of American troops and shiploads of equipment have arrived in the British Isles without the loss of a man.

The supply lines to Russia, Africa, Asia and Australia—springboards for offensive action—are open, primarily, naval authorities say, because warships have not been diverted to protecting coastal waters.

On the other side of the Atlantic, merchant ships of American and other nationalities have been sunk on the American side of the Atlantic since mid-January. Also on the loss side is the torpedoing of two and possibly three destroyers. The Jacob Jones was sunk off New Jersey in March. The Sturevant was destroyed by an "underwater explosion," which may have been either a mine or torpedo, in April, and early this week the Blakeley was damaged by a torpedo off Mariguine in the Caribbean.

The intensity with which the Nazis are waging undersea warfare in American waters is attributed by authorities here to their decreasing success, since the United States entered the war, in attacking convoys out on the North Atlantic.

Thwarted in their main purpose of cutting Allied supply lines, the U-boats have had to fall back on the indirect method of attacking where defenses appeared weakest. Several weeks beginning in January most of their raids were made along the middle Atlantic coast.

Then, presumably as counter-measures became more effective, they moved south, finally concentrating in the Gulf of Mexico and the Caribbean. It may be expected that when they believe the time is right they will strike again at the middle Atlantic. Meantime they may venture to the very mouth of the Panama Canal, as they have already struck at the mouth of the Mississippi and the St. Lawrence. Already have helled the oil refinery at Aruba.

The Navy has made no report on the effectiveness of its counter-measures since April 1 when it was announced that 24 Axis submarines including about half a dozen Japanese craft, had been sunk or presumed sunk. Since then there have been numerous reports, officially unconfirmed, of successful antisubmarine actions. These would indicate that in round numbers possibly 30 or more U-boats have been put out of action.

## UNFAIR TO LOVE

By Watkins E. Wright

Chapter 15  
 Kathleen Schemes  
 "It's in your power to get a good notice about me published in Foot-light News," said Daisy, "for a bed-time. You can make me or you can break me." She gave Joe an admiring look. "It must be wonderful to be able to wield such power."

"You're exaggerating," said Joe. "What I write doesn't carry that much weight."

"What you say about me not only means a lot to me," said Daisy "but to Dad also."

"You mean he wants you to make good as an actress?"

"No. It's not that, Joe. Dad drinks terribly."

"Gosh, I'm sorry."

"I do so want to get him into a cure," Daisy continued. "One of those places where they cure a man of drinking in ten easy lessons—or that learning to play the piano? Well, anyway, Joe, honey, I mean Dad is horribly cruel when he's drunk, even striking me at times. If I could get a good part in a play that has a long run on Broadway, I could use part of my salary to get him all fixed up. He's a darling when he's sober."

Daisy leaned forward, kissed Joe upon the forehead, gave him a little hug.

"You're sweet Joe," she said.

A short while later Joe was helping Daisy out of the car in front of the Linville Inn.

While they were talking, Kathleen passed in her uncle's roadster. Joe Pennell was sitting beside her. Paul and Daisy saw them at the same time.

"Paul's getting his ego fed," said Daisy, shrugging. "He does it everywhere we go."

"So that's what you call it!" said Joe, annoyed.

"Yes," said Daisy. "That's what you call it. Just that and nothing more."

Joe got back into his car. "Be seeing you!" he said, and drove off and early this week the Blakeley was damaged by a torpedo off Mariguine in the Caribbean.

The intensity with which the Nazis are waging undersea warfare in American waters is attributed by authorities here to their decreasing success, since the United States entered the war, in attacking convoys out on the North Atlantic.

## ADOPT POLICY WORK OR FIGHT

### Workers Must Take War Jobs Or Enter Army

Washington, May 29.—(AP)—The government has adopted a work-or-fight policy under which men with draft deferment as skilled workers will be called into the army if they refuse war jobs.

Manpower Chief Paul C. McNutt announced the policy last night and said it would apply to workers who "refuse to accept suitable employment in a war industry without reasonable cause."

The ruling backed up Wednesday's order "freezing" essential workers in war plant jobs to prevent pirating of labor by rival employers. In explanation of the freezing McNutt said only a few critical war plant areas would be affected immediately.

In each area where it is applied local committees of labor and management representatives will be set up to hear appeals of workers or employers whose requests for changes are denied by the federal employment service, the sole hiring agency for skilled war workers under the order.

Employers who fail to discontinue "poring" after a warning from the employment service will be reported to the manpower commission, the war production board, the war and navy departments and other authoritative agencies for "appropriate action," McNutt said.

He explained that the restrictions applied only to employers, but that every effort would be made to induce skilled workers "to accept employment in war industries in accordance with the relative urgency of need for the products of these industries."

A precedent for draft deferment cancellation was found in a world war order that after July 1, 1918, every man of draft age had to work in a useful occupation or go into the army.

## Announce Program For Summer Camps

"Forth," a national magazine says: "If you are one of those American parents who is wondering how best to keep up the health and morale of Tommy and Mary during the trying summer days ahead, do not forget your church camps and other good camps for this summer. These camps will be contributing their share to Uncle Sam's war effort on the home front. They will provide for your youngsters a safe vacation, far from congested city."

And since neither she nor her uncle had entertained guests out there for a long time, things were in a pretty dusty and unused condition. Her uncle went out with her several times, since he wanted to do some repairing in the vicinity of the little barbecue house.

The barbecue pit needed to have its sides mended, and the trenches had to be cleaned out.

It was fun; it was like old times—like the days before Kathleen let her ambition become an actress or shadow everything else.

To Be Continued

and strategic centers."

The Diocese of East Carolina, under the leadership of Bishop Thomas C. Darst, is providing camps for both adults and young people this summer at Camp Leach, on the Pamlico river, near Washington, N. C., at a reasonable cost. The schedule for the camps is as follows:

Adult Conference: June 7-12; Rev. E. F. Moseley, Kingston, director. For church school teachers and officers; members of the Woman's Auxiliary; leaders of young people.

Young People's Convention: From June 12 through dinner on the 14th. Senior Camp: June 15-28; Rev. Alexander Miller, Wilmington, director. Rev. John R. Tolar, Fayetteville, assistant director. For boys and girls 15-24 years.

Junior Camp: June 29-July 12; Rev. and Mrs. W. Tate Young, Fayetteville, directors. For boys and girls 12-14 years.

Midget Camp: July 13-26; Rev. W. R. Noe, Wilmington, director; Rev. E. C. McConnell, Beaufort, assistant director. For boys and girls 9-12 years.

Scholarship Camp: July 27-August 2; Rev. and Mrs. John W. Harcourt, Williamston, directors. Boys only, 10-16 years.

Transportation: Arrangements have been made for transportation at a reasonable cost between Camp Leach and Washington. Details will be furnished by the business manager upon request. This will make it possible for campers to reach Camp Leach by bus or train and from there on the special Camp Leach bus.

For more than ten years, young people representing almost every religious body in Eastern North Carolina have been attending Camp Leach. The manager of the camp is the Rev. Stephen Gardner, Washington, North Carolina.

## Negro Held On A Larceny Charge

James Redmond, Negro, was arrested yesterday and charged with the larceny of about \$12 from the Girl Scout office in the City Hall. Miss Jane McConnell, executive Girl Scout secretary, told police the money was missing from her desk.

After questioning, Redmond confessed and led officers to the money in the coal pile in the basement.

Redmond was serving six months in jail for breaking into J. B. Kittrell's warehouse in search of sugar. He has recently been serving as a trusty janitor at the City Hall.

## Negro High School Has Commencement

The C. M. Eppes Industrial High School for Negroes graduated 31 students at commencement exercises at the school gymnasium last night before an audience of nearly 1,000 persons. The exercises were a memorial to the late James L. Little.

Dr. Miles M. Fisher, pastor of White Rock Baptist church, Durham, and a graduate of the University of Chicago, delivered an impressive message to the graduates, in which he urged the Negro boys and girls to "keep on keeping on," as the late Booker T. Washington said to achieve success and make his life a lasting influence for good.

Col. Ed Flanagan, chairman of the board of education; June H. Rose, superintendent of city schools; W. E. Hooker, Mayor; Bruce Sugg, J. E. Winslow, Rev. Father Maurice, Mr. and Mrs. J. T. Little, Chester Wash and others participated in the program.

Professor Epps reported a very

successful school year. Colonel Flanagan presented the diplomas, Mayor Sugg, the certificates, and School Trustee Hooker, the awards.

June H. Rose complimented the faculty of the high school for exceptional efficiency and progress. The graduating class presented as a gift to the school a \$50 War Bond.

## Colored News

## Five Cases Heard In Police Court

The following cases were tried in Police Court today, with Judge L. C. Skinner presiding: Richard Keel, colored, drunk, costs; John Bush, colored, firing gun and damaging personal property, 30 days in jail, judgment suspended upon payment of \$25 fine, costs deducted; William A. Davis, colored, vulgar and profane language and disorderly conduct, 30 days in jail, judgment suspended upon payment of costs; on a similar charge, judgment was suspended.

In the case of William Arwood colored, disorderly conduct and as-

sault, guilty, capias to be issued on June 1 if defendant is in the city.

HUNDREDS of people in this community have decided that this whisky gives them more for their money. And there's a mighty good reason why, because Bard's Town Reserve is made by the very same methods used for the famous Kentucky Bourbons of old.

We use the sour-mash method—the old, slow way. We cook the mash at moderate heat—won't hurry. Fermentation is full 96 hours. The water used is natural limestone water from our own Bourbon Springs, so fine for whisky making that there has been a distillery on the spot for over 120 years.

These methods take time, but still you can get Bard's Town Reserve for only \$1.00 a pint. Try some today, and see for yourself what a buy it is.

## Strength FOR THE DAY

By EARL L. DOUGLAS

**GOD'S LOVE IS PERSONAL**  
The Bible assures us that God does not think about human beings in general terms but in particular. There are no "masses" in the sight of the infinite. "He calleth his own sheep by name." "The very hairs of your head are all numbered."

In our earth-bound way of looking at things, we frequently cannot see the personal soul in the crowd. We are blinded by the bigness of things. We do not see the trees for the woods, the individual sheep because of the flock, nor the tiny blade of grass because of the field. But with God it is different. We need never fear that our way is overlooked by God. There is not a detail in our life so minute that He is not conscious of it, no enterprise so small that He does not gather it under His loving care. He knows every happening along the road we follow, every traveler we meet on that road. He knows the perils of ascent and descent. He knows where the precipice is — and the green pasture.

The stars in His hand are like grains of sand, on the palm of a giant. But the smallest atom is also kept in its proper place because nothing escapes His notice. And all this power, we are to recollect, is under the control of a loving heart. Truly if we acknowledge Him, He will direct our paths. All Rights Reserved — Babson Newspaper Syndicate

### HOW ABOUT IT?

As a rule Pitt County is known to come through when called upon for worthy causes and yet the drive of the Navy Relief Fund that has been under way for the past ten days and is to end tomorrow has reached only slightly over half the county quota of \$2,500. There is still one more day in which to make your contribution to this most worthy cause of providing funds for the relief of families of men who are doing their part in the Navy, Marine Corps and Coast Guard. If you have not already donated to this cause get in touch with a committeeman in your community tomorrow and give as liberally as you feel that you can. Here in Greenville, W. W. Lee is chairman and if you call him tonight or tomorrow he will see to it that someone comes for your contribution. How about it, folks? We know you have had a lot of calls for contributions but at that our sacrifices are nothing compared to those being made by the men in our armed forces. Let's not leave this job half done.

### WEAR A POPPY

Tomorrow is Poppy Day when every citizen is asked to buy a poppy and wear it as a memorial to those brave men who gave their best in the first World War, and as an emblem of loyalty and whole-hearted support of those who are now engaged in the conflict for the freedom of the world. The proceeds of the sale of these little paper flowers is used for the benefit of disabled veterans of the first World

War and the present war and their families. You can give anything you wish, from a dime up, for one of the poppies, so everyone can afford to buy and wear one tomorrow.

### LET'S NOT BE SLAVES TO THE POLITICAL BOSSES

The people of the First Congressional District have the opportunity tomorrow to signify at the polls whether they wish to choose their own representative to Congress or whether they wish to continue to be controlled by ring politics that have prevailed so long in Eastern North Carolina. This will be the first time in eighteen years that there has been a contest for the office, and the present contest is between the holder of the office, placed there by a hand-picked group of politicians and two local citizens, who are offering themselves as candidates of the people of the county and district.

Folks who are holding political jobs in the district as a result of the influence of the political ring are naturally expected to cast their votes for their masters, but it is to be hoped that the citizens of Pitt County who are free to make their choice will score the double victory of nominating the man best qualified for the office and breaking up the ring control of the First District by casting their ballots for Marvin K. Blount.

### Washington Daybook

By Jack Silvers

Washington — Josephus Daniels at the age of 80 succeeded his son as editor of his Raleigh, N. C., newspaper. That along with being secretary of the Navy for eight years, ambassador to Mexico and a number of other things should be enough for any one man's claim to fame in a lifetime, but it isn't.

The elder Daniels holds one more distinction which no other man does (and probably none ever will be able to) lay claim to. It happened this way:

Back in pre-World War I days, Daniels got a telegram from the newly elected President Woodrow Wilson. The President asked if he would accept the post of secretary of the Navy. Daniels hesitated. He took the telegram home and discussed it with his wife.

If he accepted, he speculated, how about his assistant secretary? There was young Franklin D. Roosevelt. How would he do? Mrs. Daniels thought he was a splendid young man. Daniels carried his acceptance personally to Mr. Wilson. How about young "Frank" Roosevelt for assistant secretary? Mr. Wilson thought he was a splendid young man. So Franklin D. Roosevelt became World War I assistant secretary of the Navy.

Many years later, Josephus Daniels attended the inauguration of Franklin D. Roosevelt as President of the United States.

When President Roosevelt saw him, he said: "Hello, Chief." Daniels smiled. His return greeting was: "You're chief now." Roosevelt countered: "You always were and always will be chief to me."

And that's how it is to this day. There is hardly a man on Roosevelt's staff who doesn't call him "chief" — presidential staffers nearly always refer to the Big Boss that way — but the only man in the United States whom the President calls "chief" today is Josephus Daniels.

Congress is investigating. Apparently the President's "chief" also gets an ear on Capitol Hill.

battle-front dispatches, which generally not conclusive, indicate an unyielding, continuing Red army defense along the Donets river line. Undocumented German claims of this sort remind one of a stack of phonograph recordings of the same opus; somewhat different, perhaps in key and beat, but essentially identical.

tion of remnants" of the "annihilated" foe is being continued "relentlessly."  
Somewhere in between these usually is a phrase about "desperate but useless attempts" by the Russians to "break out of the German encirclement," which is known to the Teutonic military mind, for some curious reason, as a "kettle."

This dogmatic double-talk went very well last summer, but in October, Dr. Otto Dietrich, Adolf Hitler's press chief, came panting back home from Fuehrer's headquarters with a handful of statements and orders-of-the-day and announced flatly that Russia's last fully armed armies had been "annihilated" and her power to resist utterly destroyed by vast encirclement actions at Bryansk and Vyazma, on the main approaches to Moscow.

# Boston Red Sox Lose Twelve of Last Seventeen Tilts

## SENATORS WIN BY SCORE 7-1

### Yanks' Joe Gordon Now Leading Hitter

**By JUDSON BAILEY**  
Associated Press Sports Writer

The Boston Red Sox come close to being the worst road team in the major leagues and this malady, which has kept them from resembling pennant contenders in the past, now has placed even their first division berth in jeopardy.

The Cronin clouters were stopped 5-1 by the Washington Senators at the capital last night and now have lost 12 of their last 17 encounters, all but three away from home.

This slump, which contrasts with Boston's feat in winning 14 of its first 21 games while playing mostly at home, has dropped the club within a game of the fifth-place St. Louis Browns.

The Red Sox were held to seven hits last night by Early Wynn, who helped win his own game by getting two singles and driving in two runs. Broadway Charley Wagner gave the Nationals nine hits and eight walks.

Another result of this contest was the loss of the American league batting leadership by Bobby Doerr, who had been hitting above .400 till this week. Last night he dropped to .379, three points behind Joe Gordon of the New York Yankees.

Gordon extended his current hitting streak to 13 games yesterday and won a 3-2 decision for the world champions over the Philadelphia Athletics by rapping a single with the bases loaded and the score tied in the ninth.

Virgil (Fire) Trucks, strikeout king of International league last year, pitched his first complete game for the Detroit Tigers and held the Cleveland Indians to four hits for a 6-2 victory.

The St. Louis Browns rallied for four runs in the eighth inning to beat the Chicago White Sox 6-4 and gain their sixth victory in seven games. A double by Rick Ferrell knocked in the deciding runs.

The Brooklyn Dodgers set down the Boston Braves again 6-4, with Kirby Higbee pitching seven-hit ball and choking off a Boston rally that netted three runs in the ninth, two on a homer by Max West. Higbee struck out pinchhitter Ernie Lombardi to end the uprisings.

The St. Louis Cardinals took advantage of this outcome to strengthen their hold on second place in the National league with a 3-2 eleven-inning triumph over the faltering Pittsburgh Pirates, who now have lost 11 of their last 13 games.

Till the ninth it looked like another triumph for the Cooper brothers on the strength of Mor's strong pitching and a two-run homer by catcher Walker Cooper in

Charley Gehringer, veteran Detroit baseball hero, likens Dick Wakefield, Tiger farmhand at Beaumont, to Ted Williams.

Lou Boudreau already has done something no other Cleveland manager could do. He led his club to 13 straight wins, a record in that city.

The fourth, but the Pirates put across the tying run in the ninth and brought John Beasley on the scene for his second relief victory in two days. Two safe hits and a sharp single by Frank Crespi scored the winning run in the 11th.

The second bunt, by Martin Marion, resulted in a close play at first, bringing an argument that caused Ebbie Fletcher to be banished and an angry fan to come onto the field and attack Umpire Tom Dun after the game—although umpire Ziggy Sears ruled on the play.

Big Bill Lee, making a fine comeback this season, achieved his seventh victory by holding the Cincinnati Reds to six hits while the Chicago Cubs forged to a 2-1 triumph in 12 innings.

## Portsmouth Wins Extra Inning Tilt

Charlotte, May 29—(AP)—Greensboro tightened its strange hold on the Piedmont league race last night by trouncing the cellar-dwelling Winston-Salem team 5-2 in a 12-inning game.

The Red Sox took advantage of two Winston-Salem errors and a pair of base hits for three runs in the third extra inning. Walsh homered in the second for Greensboro and Unser hit for the circuit for the Twins in the fourth.

Charlotte, likewise, was hard-pushed to beat the Asheville Tourists 4-3. The Bees came through with two runs in the ninth. Kvasnak singled and scored on Roberts' double for the run that tied the game. Aderholt walked and Torres hit a roller to Gonaves at third but he bobbed the ball and Roberts scored.

John Zontini's single drove in the winning run as the Portsmouth Cubs defeated the Norfolk Tars 2-1 in an 11-inning game.

The only one-sided affair in the league last night was the Richmond-Durham game which the Colts won 8-2. Fletcher, the Richmond moundman, limited the Bulls to six scattered hits while his mates collected 15 safeties off two Durham hurlers.

New York, May 29—Outside of professional rassing, the best toughening-up exercise that has come to our attention lately is "suicide basketball." ... Instead of playing according to no-contact rules, the player who grabs the ball on the jump lugs it down the floor like a halfback and the opposition can use any means it wants to stop him. ... When the 47th field artillery ball team lost to the Oklahoma U. freshmen at Fort Sill the other day, the gent with the high forehead who filled in for the absent frosh second baseman and who did a neat job of hitting and fielding was Athletic Director Jap Haskell. ... ## N. Y. Stock Market

New York, May 29—(AP)—Typical pre-holiday indecision ruled the stock market today and, with news inspiration generally lacking, leading issues shifted over an irregularly downward course.

While scattered specialties managed to give a fairly good account of themselves, fractional declines were well spread over the ticker tape in the final hour. Transfers ran to around 250,000 shares.

attacks of the previous night.

The Chinese acknowledged, however, that Japanese forces bypassing Kinwha had swept 25 miles to the west to the railway town of Langyu.

The Japanese reached that point Wednesday, the communique said, and street fighting immediately followed.

"Bloody engagements are still proceeding on the outskirts," the communique added.

The Japanese were said to have launched more than 10 futile attacks against Lanchi, 10 miles north west of Kinwha, on Wednesday. They suffered high casualties, the Chinese said.

"Another 1,000 enemy troops were killed and wounded in a day-long battle in the Lanchi sector May 28," the communique declared.

The communique did not mention the Yunnan-Burma front.

## April Traffic . . .

(Continued from Page One)

el in March was virtually the same as in March, 1941, bringing to an end a continuous 41-month period of rising travel that began in September, 1938.

The north and south Atlantic regions, embracing the 17 states in which gasoline now is rationed, showed an average fatality drop of only 11 per cent for April, the month just prior to rationing.

The Pacific region, where ration-

ing has been discussed for Washington and Oregon, showed a one per cent drop in fatalities in April.

These regional decreases were far short of those in other major regions. The council has received reports that traffic in the eastern seaboard states increased with the announcement rationing was imminent.

It is reasonable to expect, the council said, that the rationing in the east will bring an even sharper drop in the national toll since those states last year accounted for a third of the national total.

## Two Pitt Soldiers Receive Promotions

Fort Jackson, S. G., May 29—Promotions of 14 enlisted men in the 113th Field Artillery Battalion at Fort Jackson were announced today by battalion officials. Four men were appointed corporals, and the other ten advanced to sergeant.

Promotions included: Service Battery: Sgt. Robert D. Jefferson, of Fountain, N. C., to staff sergeant.

Battery "A": Sgt. Charles A. Musselwhite, of Greenville, N. C., to staff sergeant.

## Brazil Takes . . .

(Continued from page one)

two submarines, not one, had been put out of action in this "first round."

A German submarine supply ship laden with oil, torpedoes and other materials, disguised as a Dutch craft, was reported in Recife to have been seized. There was no confirmation from government agencies in Rio De Janeiro.

St. Lucia, British West Indies, May 28—(Delayed)—(AP)—United States planes engaged a pack of Axis submarines a mile off Port Castries late yesterday while the U. S. destroyer Blakey, damaged by a torpedo three days earlier, limped the 20 miles from the Vichy-French island of Martinique to St. Lucia. Hundreds ashore watched the attack.

Watchers said at least one submarine must have been sunk judging from the quantities of oil which floated to the surface after the 15-minute bombing and depth-charge attack by the U. S. planes. No official announcement of sinkings was made.

## Promises 50,000 Planes This Year

New York, May 29—(AP)—Under Secretary of War Robert P. Patterson said last night that the United States would produce more than 50,000 airplanes this year.

Referring to President Roosevelt's call for 50,000 planes, Patterson said that many people believed it "a fantastic impossibility," and added: "But this year's production of planes by American industry will surpass the 50,000 figure by a healthy margin."

The under secretary spoke at a dinner in honor of Maj. Gen. Charles M. Wesson, who will retire on Sunday as chief of ordnance.

Patterson said that the output of tanks and ammunition was rolling along to new levels also.

"We are no longer counting our tanks by the tens or the hundreds but by the thousands," he said. "We measure our weekly production of millions of rounds."

"Tank for tank and gun for gun the weapons developed by the ordnance department are holding their own against the best the Nazis and Japanese can produce."

## Fail To Agree On Soldier Pay

Washington, May 29—(AP)—A joint conference committee failed to agree today on Senate and House differences in the military pay adjustment bill and Chairman Reynolds (D-NC) said it might be "some time" before another session is held.

Reynolds said he voted to accept a house-approved amendment to raise the minimum pay from the present \$21 a month to \$50 a month, but three other Senate conferees refused to yield on the Senate figure of \$42 a month.

The House sent the bill back to conference this week, ordering its conferees to stand by the \$50 amount, after the joint committee previously had agreed to the \$42 figure.

**Bomber Crashes.**  
La Salle, Colo., May 29—(AP)—A plane, identified by witnesses as an army bomber, crashed and burned on a northern Colorado farm today, fatally injuring its six or seven occupants.

## Airmen Exchange Blows With Japs

Allied Headquarters, Australia, May 29—(AP)—Allied airmen destroyed four Japanese planes and damaged several others while losing three of their own in attacks and defense over islands northeast of Australia yesterday, a communique announced today.

General Douglas MacArthur's headquarters said enemy airdrome installations at Lee, New Guinea, were raided "with good effect" and three large fires were started at Rabaul, New Britain, where the airdrome and a Japanese encampment were bombed and shot up.

Two enemy interceptors were listed as destroyed and five damaged in those forays while "we lost one plane."

A heavy fight was reported to have ensued when 20 Zero fighters encountered a large force of United Nations fighters over Port Moresby, an advanced Allied base in New Guinea.

"Two enemy planes were shot down and others were severely damaged," the communique said. "We lost two planes."

**No Change.**  
Hollywood, May 29—(AP)—There was no change today in the condition of John Barrymore, gravely ill since May 19.

Stimulants are being administered to aid the 60-year-old actor's flagging heart.

**Attack Axis Convoy.**  
London, May 29—(AP)—British bombers were reported officially to have fired four ships in an Axis convoy off the Dutch coast in widespread night operations, and relays of RAF planes swept high and low across the strait of Dover to northern France today.

The Air Ministry said several other ships probably were damaged.

**New Hospital.**  
Richmond, Va., May 29—(AP)—The President has approved the construction of a 30-bed hospital, nurses' home and public health center at Jacksonville, N. C., as a war public works project, at an estimated cost of \$307,700. C. L. Vickers, regional engineer of the Federal Works Agency, was advised today by Brigadier-General Philip D. Fleming, Federal Works Administrator.

It is planned to make ammonia from natural gas in the near future.
