

German Smash To Within 200 Miles Of Volga River

Russians Faced Two-Way Drive Industrial Center of Stalingrad; Nazis Have Pushed 170 Miles Eastward Within Week; Drives Continue Despite Heavy Losses

By EDDY GILMORE Moscow, July 13.—(AP)—The battle of the Don valley took a grave new turn today with the Germans pointing a menacing spearhead toward the Volga and the great industrial center of Stalingrad from bloodily won positions a scant 200 miles away.

After driving 170 miles eastward in a week, the Nazis were in the vicinity of the town of Boguchar, their deepest penetration on Soviet soil thus far, and were throwing tanks and planes by the hundreds and men by the thousands into their thrust.

With the position of the Red armies becoming more precarious the fighting in this southern sector today developed into a two-way German drive, one across the Don, before Voronezh and the other sweeping down the Don valley between the Don and the Donets.

Both these operations are of sufficient strength to carry unquestioned threats to Rostov, the north Caucasus and middle Volga regions.

The lower end of the German drive across the Don valley, which has been the Russians for a long time, presented a menace of growing proportions. There Marshal Timoshenko's forces were in a new line of defense which could not be less than 125 miles north of Rostov and 225 miles west of Stalingrad.

In the northern sector, the German operation which drove the Red army from Kantemirovka, 145 miles south of Voronezh, to the Boguchar area put the invaders about 200 miles west of the Volga at Stalingrad. Should the offensive in the central sector carry to Boguchar and the Don just beyond, it was obvious that the Red army could also be faced with the task of stopping a two-directional drive upon Stalingrad itself.

In some quarters here, it was held that such a strategic situation already existed. In still a third drive, north of Voronezh, the Germans were battering at unyielding Soviet defenders of that communication center's approaches. In this sector the Germans were reported battling to expand their positions on the east bank of the Don.

The Germans were achieving their successes at a tremendous cost in men and equipment in this all-out smash at the Caucasus, front-line accounts said.

The Russians were giving up every foot of ground grudgingly, strewing land mines before the advancing Germans and taking a tremendous toll of German lives and machines, Russian dispatches said.

Boguchar is about 50 miles farther east than Rostov, the southern anchor of the Red army line and the previous high-water mark of Nazi penetration. The Germans were pushed out of Rostov last year after taking it in their 4941 offensive. (Continued on Page Two)

Discuss Rationing Gas Tonight, 8:30

Operators of motor vehicle fleets including buses, trucks, taxicabs and other types of vehicles will meet at the court house tonight at 8:30. A representative of the Office of Price Administration will explain the rules and requirements of the gasoline rationing law.

Don L. Leach, field supervisor for the State OPA, called the meeting. The registration for gasoline rationing has been completed. The coupon law becomes effective July 22. After this date service station operators may only secure gas to replenish their gasoline supply with coupons. Severe penalties will be imposed for violations of the gas rationing law. R. H. Forrest, executive secretary of the Pitt County Rationing Board, stated.

Another Village

London, July 13 (AP)—Reuters said today that the Soviet Information Bureau had broadcast a report that the Nazis have wiped out a village in Telemark province of southern Norway and "shot all its residents, including women and children." A spokesman here for the Norwegian government-in-exile however, said "we have received no information that a village was wiped out in Telemark province."

Prisoner In Spy Trial Enters Courtroom

TO SHOOT KIN OF FUGITIVES

Nazis To Slay Relatives Of French Terrorists

Vichy, July 13.—(AP)—The Germans announced today in Paris they would shoot males over the age of 18 years who are members of families of fugitives from German military justice accused of terrorism or sabotage.

This applies to "all near male relatives in the ascending line as well as 'brothers-in-law and cousins.'" Women of the same degrees of kinship will be sentenced to hard labor and children of adults thus punished will be sent to reform schools, the announcement said.

A notice issued by the Gestapo director overnight to the press in the occupied area said: "After having observed the attitude of the French population in the (Continued on Page Six)

Mr. Ballard Chosen For Another Year

Rev. L. E. Ballard, of this city was unanimously reelected pastor of the Winterville Free Will Baptist church at the regular annual conference of the church held Saturday.

Rev. Mr. Ballard, also pastor of the Free Will Baptist church at Wilson, was recently chosen for another year by that congregation, but has not yet given definite answer to the call. The new conference year for both churches will begin November 1.

Mrs. Ballard was recently reelected as state auxiliary secretary for the Free Will Baptist church in North Carolina. The Ballards make their home at 909 Cotanch street.

War Maneuvers Started In State This Morning

Wadesboro, N. C., July 13 (AP)—The U. S. Army's first wartime maneuvers got underway in the Carolina today with an admonition by the director that "this may be the last dress rehearsal before the shooting for keeps starts for many of you."

"No part of warfare will be omitted in the activity which will include two new phases—air-ground and the final clean-up action," said maneuver director Maj. Gen. E. J. Dawley.

Cooperative planning of infantry action on the ground and in the air is necessary, General Dawley told the officers, for successful combat operations.

The maneuvers, operating on a 24-hour basis, will prove also that the training being experienced "now is the beginning of preparation that is continued abroad, the General said.

This preparation makes the advancing phase before actual combat

Biddle Reveals Arrest Associates Nazi Saboteurs

Fourteen In Custody Had Given Aid To Nazis Landed In U. S. From Submarines

Washington, July 13.—(AP)—The arrest of 14 alleged associates of the eight Nazis standing trial for their lives before a military commission was announced today by Attorney General Biddle. Biddle said that the group included six women and that the 14 persons were the "immediate contacts" of the German agents who landed on Long Island and Florida coasts from German submarines last month.

At the same time, Director J. Edgar Hoover of the Federal Bureau of Investigation said that the arrests had been made in Chicago and New York during the last three months and that the investigation of their activities, and of other possible contacts, was still underway. The 14 persons were described by the FBI as follows:

THREE MORE NEW CHINESE VESSELS SUNK DRIVE ON JAPS

Western Atlantic Toll Now Stands At 363 Ships Kai-Shek's Forces Recapture Island Of Futuo

By The Associated Press The sinking of a small unnamed Panamanian cargo vessel in the Caribbean on May 23 was disclosed today by the Navy, which added, however, that all members of the crew of 22 reached port safely.

Today's sinking and two disclosed yesterday raised to 363 the official Associated Press tabulation of allied and neutral ship losses in the western Atlantic since this country's entry into the war.

The two sinkings also occurred in the Caribbean, that of the sailing craft Carmen being reported from Ciudad Trujillo, Dominican Republic, as having taken place yesterday, and the Panamanian being announced by the Navy as a recent torpedo victim.

Twenty-four survivors of the Panamanian ship said their gun crew fired one shell at the undersea attacker but missed when the U-boat crashed-dived. Surfacing when the merchantman went down, the submarine treated by the wounded commander treated by a German physician, returned him to a lifeboat and called out "good luck" as he cruised away. One man was killed in this attack.

Survivors of the schooner, shelled by a submarine about five miles off Gaspar Hernandez, on the northern coast of the Dominican Republic, said on landing at Puerto Berge, that one sailor was killed during the shelling.

Twenty-two other craft were announced last week as having been (Continued on Page Four)

Ben Herring Enters Air Corps Training

Aviation Cadet Ben Herring left today for Flushing, Long Island, to enter the School of Aeronautics of New York University for a seven months' training in Meteorology after which he will be commissioned a second lieutenant in the Army Air Force.

Fishermen Capture 500-lb. Alligator

In a battle that lasted nearly two hours a party of fishermen from near killed a 12-foot alligator, weighing approximately 500 pounds, from boats in Neuse river between New Bern and Manteo beach Saturday. The fishermen encountered the saurian some distance from shore. They did some skillful maneuvering to avoid the lashing of the alligator's giant tail. They lassoed the amphibian, towed it ashore and skinned it.

Those in the party were H. P. Cunningham, Jr., C. B. Oakley, Hugo L. Williams, of this city, and F. H. Kennell, of Kennell's Beach. Cunningham kept the head and hide.

The WAR TODAY

By DeWITT MacKENZIE Wide-World News Analyst

Herr Hitler has continued to purchase mileage in Russian territory at a terrible cost in German lives over the week-end, thereby increasing the danger of severance of the central and southern Red armies and bringing him nearer to his dream of crashing the gateway to the Caucasus.

There is perhaps small satisfaction in the fact that this advance was to be expected because of the weight of the Nazi attack. In assessing the position, however, we must take into consideration a fact to which the Bolsheviks themselves point today, namely, that the invaders have a long, bloody course to pursue before they can hope to cut off the approaches to the Caucasus from the north, for the Red line still holds.

German Counter-Attacks Hurlled Back By British

U.S. Fliers Cited For German Raid

In ceremonies at a U. S. Army Air base in England, Major Charles C. Kegelman (right), of Ft. Reno, Okla., receives the Distinguished Flying Cross from General Carl Spaatz (left), Commander of U. S. Army Air Forces in Europe. In center is Lt. Col. Randall Horton of Long Beach, Calif. They were two of four American fliers cited for the Independence Day raids on German objectives.

British Navy Smashes Supply Base At Matruh

Axis Ammunition and Supply Ships Are Destroyed

By LARRY ALLEN With the British Navy active in the Egyptian desert, July 12 (disclosed) (AP)—British warships hurled more than 700 rounds of high explosive shells into the Axis vish supply base at Matruh, before dawn today, causing great destruction in the enemy's material dumps close behind the Egyptian battlefields.

Naval aircraft bombed the western Egyptian airport installations while scores of steel projectiles from the water, causing the sea runs, almost shore batteries and beat much of the sector into smoking, ravaged pulp.

The surprise bombardment caught a mass of small supply ships and swift motor torpedo boats resting at anchor in the harbor. A number were set afire. The great shells from the fleet set huge blazes ashore.

The warships pumped shells into Matruh for nearly a half-hour. The first round fell squarely on the target area and blasted the heavy Nazi anti-aircraft guns into rubble of twisted steel. Afterward, there was only the rattle of machinegun fire and bursts of small arms from ashore.

A medium sized ammunition ship in the harbor was blown to a thousand bits by a direct hit from (Continued on page two)

Gaylord Boys Doing Well In U. S. Army

Sergeant Louis W. Gaylord, Jr. in the military police detachment at Fort Bragg, is here visiting his parents, Mr. and Mrs. Louis W. Gaylord. He will leave Wednesday for Chickamauga Park, Tenn., to enter officers' training school.

Richard W. Gaylord, in the field artillery at Fort Jackson, S. C., who expected to visit here, sent word he had been promoted to corporal. Before he was able to make the trip Gaylord was promoted to sergeant and called off the trip.

Canadian Attack-Forces In Invasion Maneuver

By ROSS MUNRO Mountbatten, Britain's Commando chief, and Lieut. Gen. A. G. L. McNaughton, commander of the Canadian army in England, Lieut. Gen. Dwight D. Eisenhower, commander of the U. S. armed forces in the European theater, visited the practice area once to talk to senior United States army and navy officers there as observers.

A huge armada of the British navy put to sea several times with the Canadian force, staging in staggering dimensions dress rehearsals of the kind of work it would have to do in an invasion of the lowlands, France or Norway.

It carried the arms, ammunition, explosives, men and machines, that would be necessary to establish a continental bridgehead. Just as a gauge to the reality of the maneuver, a field company of engineers needed a whole week to repair damage to defense works set up by British troops "defending" (Continued on Page Four)

Consolidate New Gains Made West of El Alamein Yesterday; Auchinleck and Rommel Both Gathering Reinforcements For Crucial Test Expected Momentarily

Cairo, July 13.—(AP)—Britain's army of the Nile, once again bolstered by Australians, stood firm in its newly won positions 10 miles west of El Alamein today after repulsing sharp German attacks, but Marshal Rommel was reinforcing his forces by air and sea and preparing for a new thrust toward Alexandria.

Gen. Sir Claude Auchinleck also was drawing new strength from his stores and reserves in Egypt. With both sides thus hastily gathering power for new tests, present activity in the desert was viewed by British military circles as probing for favorable ground for future operations.

The newly won British positions at the El Alamein were believed so vital to Rommel's offensive plans that the British expected he would continue to attempt to recapture them before he begins a new bid for a complete Egyptian victory.

The British communique today said they had repulsed all German counterattacks on the positions so far.

At the same time British shock troops and artillery were reported harassing the enemy on the southern end of the front. Just above the Qattara depression, while in the center Axis forces were kept on the defensive by continued shelling.

Heavy tank storms interposed with their own armor, the British also had captured many prisoners, a communique said.

Two enemy planes were reported shot down over the front in Egypt and three more were reported knocked out of the sky over the British Mediterranean base of Malta.

Only one British plane was lost in these operations, headquarters said.

Today's communique gave little detail of the fighting west of El Alamein, merely reporting:

"In the northern sector yesterday our troops drove off an attack by the enemy on the northwestern area of positions occupied during our recent advance. However, that the hard-fighting Australian troops, whose arrival in the battle zone has given the British eighth army a fresh lift, were tightening their grip on newly won positions near T. V. Hill.

Capture of the positions announced by British headquarters yesterday, was accomplished in a heavy fighting during which 2,000 Axis troops were taken prisoner and 18 enemy tanks were knocked out of (Continued on Page Two)

Red Cross Worker Saves Boy's Life

Jack Sandiford, 17, of Fayetteville, over his life to the presence of a Red Cross first aid kit at Camp Leach, on Pamlico river. While diving Sandiford struck his head on a broken vitrols record on the bottom of the river and suffered a severe gash on his head. Digital pressure by the Red Cross instructor stopped the flow of blood to permit bandaging. Removal of the record fragments from the lad's head required surgeons an hour at Tayloe hospital, Washington. They said prompt first aid saved the boy from bleeding to death.

Sandiford was treated and taken to the infirmary at Camp Leach.

Explosion

Pertuisseau, Va., July 13 (AP)—An explosion of unexplained origin in the Norfolk Navy Yard today killed one man and injured five others, two gravely.

Eugene E. Bailey, 28, Negro, of Norfolk was dead on arrival at the Norfolk Naval Hospital. A shell fragment was found in the cause of death.

Bailey last week was N. A. Brown, 25, shipfitter's helper, of Suffolk, severe shock and compound fracture of the left foot, and Leary Kenneth McKinley, 21, shipfitter's helper, of Old Trap N. C., left foot torn off and compound fracture of right thigh.

Tarborough and McHenry were admitted as patients in the ward at Norfolk. The Navy Yard Public Relations office declined to give the location or the origin of the blast but said it occurred in the area used for building or equipment was damaged.

War Efforts Has Placed Tremendous Job On Railroads

FREIGHT LOAD HAS INCREASED 80 PER CENT

Passenger Travel And Car Space May Have To Be Rationed

By FRANK L. WELLES
Washington, July 13.—(Wide World)—American railroads are being run into this war much wiser and far better prepared to handle traffic for both military and commercial service than they were in the last one.

"It won't happen again," you hear the bosses say when they recall the war-traffic snarls of 1918. Still, they know they must deal with possible tie-ups if gas and rubber rationing forces highway traffic to the rails.

Today trains run faster, load more freight, pull heavier loads and operate on split-second schedules.

Operations are being run with a degree of caution, knowing the jam could get into it suddenly they had to take on a large share of the traffic of 4,850,000 motor trucks and 27,000,000 passenger automobiles.

They are trying to get priority on materials for 120,000 more freight cars this year and 150,000 in 1943, many more locomotives and at least 500 new passenger cars.

With material shortages bedeviling the War Production Board, these wants may not all be met.

John J. Felley, president of the Association of American Railroads, says some day shippers may not be able to get just the sort of service they want on the day they want it, and travelers, in large numbers, may not be able to get the accommodations they desire.

At present the passenger prospect is the toughest. Roads report a 30 per cent increase in public demand and an over-all 40 per cent use of extra cost accommodations by the armed forces. Traffic is becoming terrific in the larger population centers.

Hence, rail officials earnestly ask the public to cooperate in scheduling trips, and to forego week-end travel if possible. They have discontinued special train service to conventions, sports events, recreation spots and the like.

Meanwhile, the freight load on the rails has increased 80 per cent since the war began in Europe in 1914.

All must remember, says Joseph B. Eastman, war transportation director, that Uncle Sam is the most important shipper in the world to-

day. The railroads are handling more than 100 million tons of freight that they did handle in 1914, and doing it in 564,138 fewer freight cars. They haul one million tons of freight in a mile every minute last year.

"Remember the old wisecrack about going as slow as a freight train?" Well, these modern day engines haul along at 60 miles an hour dragging 125 loaded cars behind them. The mile-long freight is commonplace whereas, 20 years ago, a 10-car train was a danger and did not run 11 miles an hour including stops.

Railroad men say they are much more concerned about their ability to move commercial freight than they are about war traffic which, after all, has been only about 12 per cent of the national total. Eastman says car loadings may reach 1,000,000 a week by October, which would be about the weekly average during the boom days of the mid-20's.

The roads say they are prepared to handle a 10 per cent increase in freight with present equipment, but Eastman says he expects a 20 per cent rise in national production before 1943 and a 12 to 15 per cent rise in carloadings.

Yes, freight is going to move as usual—but there may be a great deal of inconvenience and space may have to be rationed in a way which will mean non-essentials will suffer long delays.

So Eastman has begun to cut out the frills such, for example, the practice of shipping canned goods from Chicago to Buffalo and backtracking the same kind of provender from New York to Illinois. Out goes the business of shipping steel from Birmingham to St. Louis, thence back to points in Mississippi so it can stay the payload of the railroad on which it started.

From now on this sort of traffic must be shared with the most direct lines.

Meantime, the tempo of freight movement has been pushed to the ceiling. Overnight freight between Jersey City and Pittsburgh travels the 526 miles in 765 minutes. The superhandline special leaving Chicago for Memphis every night does 537 miles in 770 minutes, and some passenger trains cover the 226 miles between Washington and New York in 215 minutes.

Just an idea of what freights are hauling: It would require 32,500 80-ton trucks—a column nearly 1,000 miles long—to carry on the highways an ordinary day's tonnage on just one division of one railroad serving Pittsburgh.

In the 7th century, Alexandria was credited with some four thousand palaces, as many public baths, three times as many shops and 400 theatres and places of amusement.

Tobacco Workers To Get More Pay

Raleigh, July 13.—(AP)—Labor Commissioner Forrest Shuford today estimated that 20,000 employees in North Carolina tobacco processing plants would get pay boosts when a 40-cent-an-hour wage order for the cigarette, cigar and tobacco products industry becomes effective August 10.

Shuford said that between 50,000 and 60,000 workers were employed annually in all branches of the tobacco industry in this state, and about 35,000 workers were employed seasonally by more than 100 redrying establishments. The pay of many of these workers, he said, does not come up to the 40-cent minimum set by the new wage law.

The new tobacco wage rate was recommended by a special industry committee and ordered by L. Metcalf Walling, national wage-hour administrator. Tar Heels serving on the committee included Douglas B. Mages of Duke University, public representative; S. E. Blane of Durham, employe representative; and James S. Picklen of Greenville and W. H. Oglebury of Durnam, employer representatives.

Shuford said the greatest number of North Carolinians affected by the wage increase would be employes engaged in grading, sorting, conditioning, redrying, stemming packing and storing tobacco. Previously, the minimum hourly wage for this group was 30 cents.

The average hourly wage in cigarette, snuff, chewing and smoking tobacco plants in North Carolina has been about 70 cents recently, Shuford said, and workers in these establishments would not be greatly affected by the new order.

Germans Execute Polish Soldiers

London, July 13 (AP)—A spokesman for the Polish government in exile said today that the Germans had executed 21 Polish soldiers at Bydgoszcz, charging that they had maltreated Germans they had in custody during the early days of the German invasion of Poland in 1939.

The spokesman said the executions, which have been announced in German newspapers, took place July 6 after a long trial during which the Poles were accused of "fantastic brutalities."

He asserted that the leader of the group, Captain Jan Drzewiecki, a well known Polish newspaperman, was singled out for "special treatment" and hanged in the market square after the population had been summoned to watch.

At present the passenger prospect is the toughest. Roads report a 30 per cent increase in public demand and an over-all 40 per cent use of extra cost accommodations by the armed forces. Traffic is becoming terrific in the larger population centers.

Hence, rail officials earnestly ask the public to cooperate in scheduling trips, and to forego week-end travel if possible. They have discontinued special train service to conventions, sports events, recreation spots and the like.

Meanwhile, the freight load on the rails has increased 80 per cent since the war began in Europe in 1914.

cause of his alertness in hearing the approach of Japanese planes December 7 when he manned an aircraft detection system to examine its operation while he was off duty. His warning went unheeded.

U. S. Bomber Crew Reaches Safety

Melbourne, Australia, July 13 (AP)—Three United States bomber crewmen have finally reached base from the New Guinea jungle after a futile attempt to fly out of encircling 8,000-foot high mountains in a 1914 model biplane which they patched up with bed sheets and stretcher canvas.

Clayton Named to Commerce Post

Washington, July 13.—(AP)—William L. Clayton of Houston, Texas, was nominated by President Roosevelt today to succeed Robert H. Hinckley as assistant Secretary of Commerce in charge of civil aeronautics.

Clayton was recommended for the appointment by Secretary of Commerce Jones, whom he has been serving as a special assistant. He formerly was deputy federal loan administrator in charge of procurement of strategic and critical war materials.

Before entering government service Clayton was one of the country's largest cotton factors and headed the firm of Anderson, Clayton and Company.

Robs Soldiers in Charlotte YMCA

Charlotte, July 13.—(AP)—Police were looking today for a red-haired man with a yen for storing valuables.

Private Robert Adams of Hickory told police that while he was taking a shower yesterday afternoon at the Y. M. C. A. here, a young man about 23, with neatly combed red hair and well turned out sartorially, informed him that he was an employe of the Y. M. C. A. and that all valuables should be checked with him for protection against theft.

Adams said he turned over his ring, a picture of a girl, his watch and pocketbook, which contained his furlough papers, driver's license and \$19 in cash.

Sergeant G. L. Gustafson of the quartermaster corps here said the man approached him while he was in swimming and he checked a watch and a pocketbook containing \$45.

These three U. S. soldiers have arrived in Seattle, Wash., with their front teeth blown out by the terrific concussion from Japanese bombs dropped on Dutch Harbor, Alaska. Left to right: Private Robert Millam of Chicago, Corporal E. Richardson of Hot Springs, Ark., and Corporal R. Prentice of Bokchito, Okla.

BARONESS AND HER CALF—Baroness Edna Leuhusen, formerly Edna Cudahy, feeds a calf on the Maryland farm of her husband, Baron Carl Leuhusen, former Swedish army officer.

As Nazi drive continued into Russia it assumed appearance of a pincer movement striking at Russia's two means of communication between Moscow and Marshall Timoshenko's southern armies—the Moscow-Moscow railway and the Don river. Upper thrust, as shown on this map, had driven almost to Voronezh, located on the rail line, while to the south the other thrust had fought its way to Rossosh. Nazi plan appeared to isolate Timoshenko, try to destroy him, then drive on into rich Cau casus.

GRAPE PICKER—A native South African worker picks a bunch of grapes in a vineyard near Capetown.

SAVE CLOTHES IN WARTIME!

...wash **WHITE** without Bleaching or Hard Rubbing

SEE MOTHER—BEAUTIFULLY WHITE AND WITHOUT USING BLEACH!

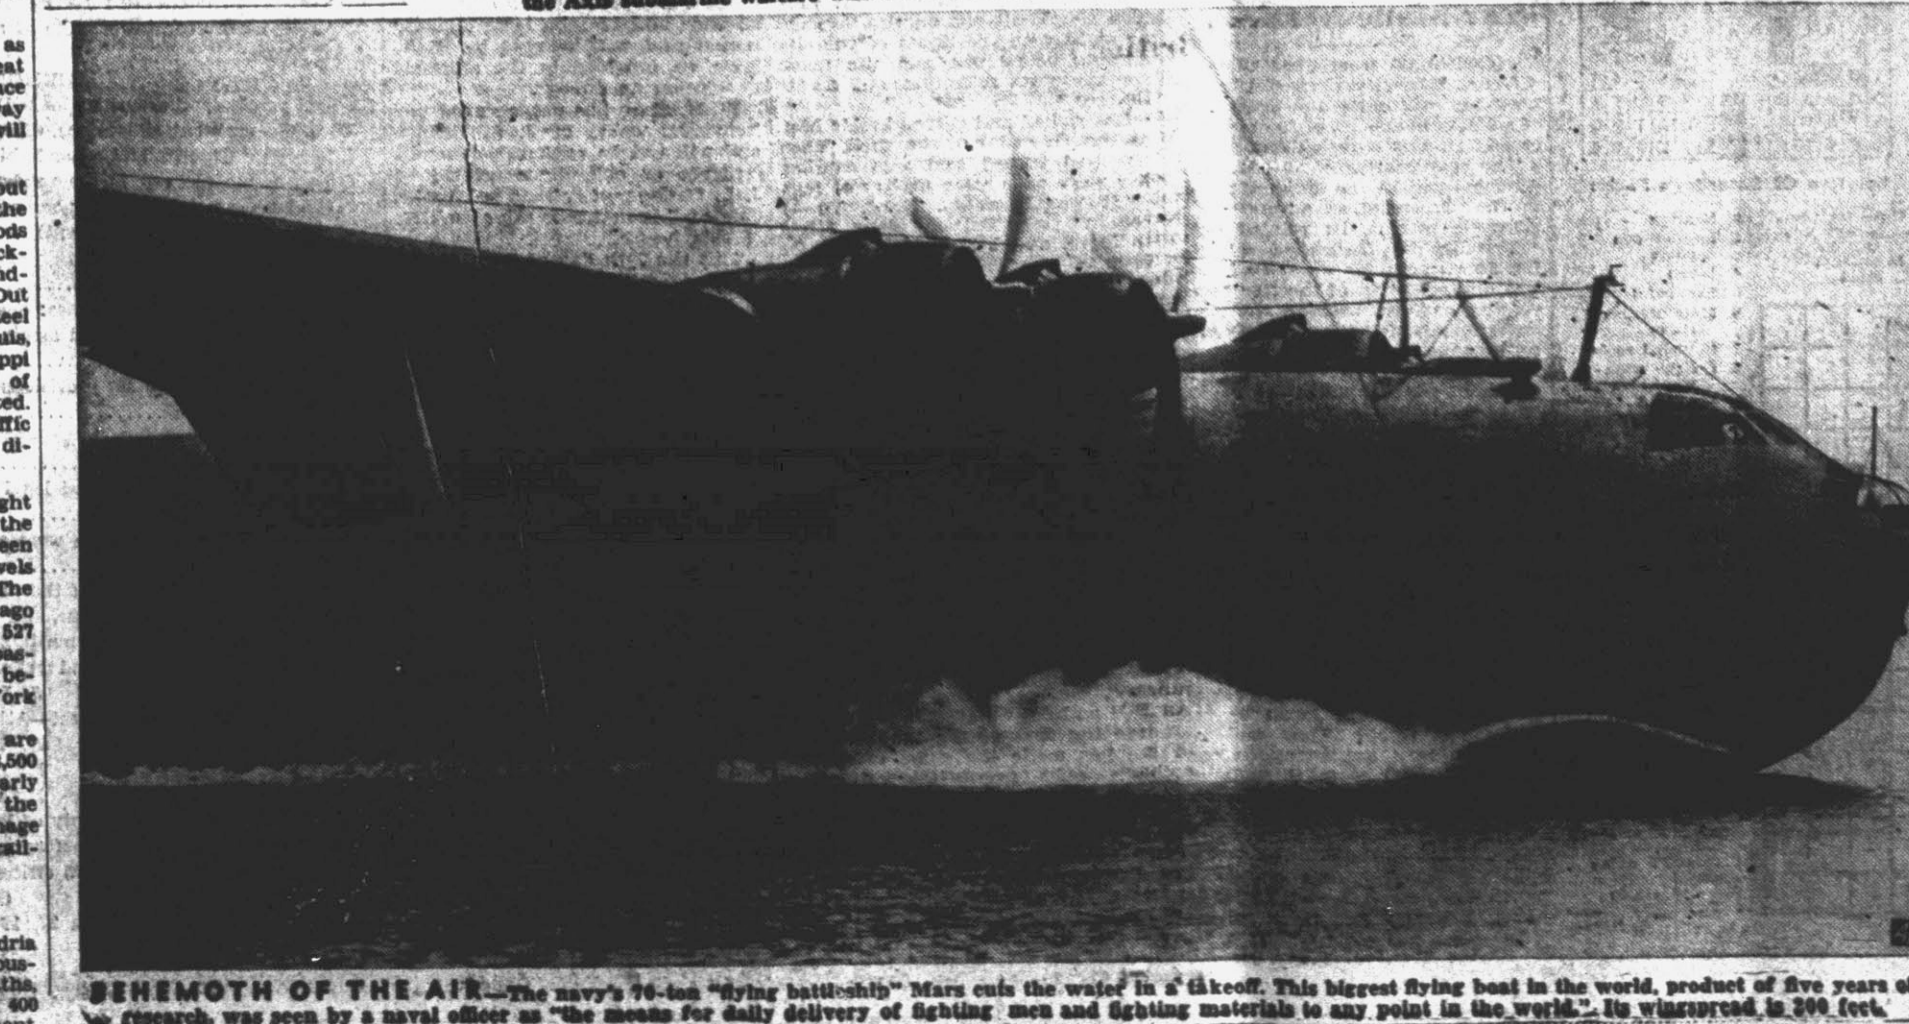

AND CLOTHES ARE BOUND TO LAST LONGER WASHED THIS OXYDOL WAY!

Let New Oxydol get your clothes gloriously white and clean by its rich, safe washing action without bleaches or hard rubbing

Declare user on washday wear and tear. Avoid harsh bleaching that can so easily weaken fabrics and fade colors. Avoid ruinous rubbing that wears clothes thin and threads bare before their time.

New Oxydol... with its rich, lively, "Haste-Bubble" action... washes your clothes so clean and white you will hardly believe you haven't used a bleach. Except for stains or unusual pieces, of course, your wash fairly sparkles—and without the risk of harsh bleaches... without hard rubbing.

In these war-time, use this modern soap that's so kind to your clothes. Safe for your colored washables. Safe even for your dainty washable rayon. Even milder now on hands.

BENEMOTH OF THE AIR—The navy's 76-ton "flying battleship" Mars cuts the water in a takeoff. This biggest flying boat in the world, product of five years of research, was seen by a naval officer as "the means for daily delivery of fighting men and fighting materials to any point in the world." Its wingspread is 200 feet.

Larry French Pitches Season's Tenth Straight Win

FORMER CUB HURLER IS A BIG BARGAIN

Yanks And Dodgers Both Split Double-Headers

By AUSTIN HEALMEAR
Associated Press Sports Writer

Lefty Larry French, leading pitcher of the major leagues and only undefeated hurler among all the regular starters, has turned out to be one of the biggest bargains since the Indians turned loose the island of Manhattan.

The Brooklyn Dodgers, who think nothing of putting out cash in five or even six figures for players they really want, picked up French for the waiver price of \$7,500 late last season and the 33-year-old left-hander hasn't been beaten since.

He won his tenth game of the year yesterday, holding the Pittsburgh Pirates to three hits in pitching the Dodgers to a 2-1 decision in the first game of a double-header.

The Dodgers lost the second game 4-4 and watched their National League lead shrink to eight lengths, but French reached the halfway mark in a season that promises to be his best in the majors. His best previous year was 1936, when he won 18 and lost nine for the Chicago Cubs.

If French continues his pace, he may cost the Dodgers plenty by October, for he has a trick contract calling for a salary based on the number of innings he pitches and the number of games he wins.

The St. Louis Cardinals drew one game closer to the leaders by whipping the Boston Braves, 5-1 and 9-3, the first on a two-hit pitching job by Harry Gumbert. Walker Cooper led the Cardinal assault in both games, hitting a home run, three doubles and a single in seven times at bat.

In the American league, the first place New York Yankees also divided a double bill but boosted their lead to four and a half games with the help of the St. Louis Browns. While the Yankees were losing to the Detroit Tigers, 6-4, and winning 2-11 in 13 innings, the Browns pitched a double defeat on the second place Boston Red Sox, 1-0 and 16-4.

Buddy Hassett saved the day for the Yanks, winning the nightcap with a two-run homer in the 13th inning.

The Cleveland Indians took both ends of their twin bill from the Washington Senators, winning the first, 9-7, with a power rally in the tenth inning and the second, 5-0, on Jim Bagby's eight-hit pitching.

The day's best pitching performance in the American league was turned in by Jake Wade, who held the Philadelphia Athletics to three hits and contributed three blows himself as the Chicago White Sox took the second game, 11-1. Roger Wolff pitched five-hit ball in winning the first game for the A's, 3-2, but snapped a 1-1 tie by walking in a run in the tenth inning and needed a walk, a triple by Elmer Valo and a single by Dick Siebert for two runs in the last half of the extra frame.

Johnny Vander Meer matched the pitching exploits of French and Gumbert by tossing three-hitter at the Philadelphia Phils as the Cincinnati Reds captured both ends of a bargain bill. Vandy struck out 13 men in winning, 2-0. Elmer Riddle pitched six-hit ball for the Reds in the nightcap, with Lonnie Frey doubling home the run that gave them a 2-1 triumph.

At Chicago, Lon Warneke made his first appearance since returning to the Cubs and was whacked soundly by the New York Giants, who captured the opener, 6-2, but the Cubs bounced back to square accounts, 8-3.

GOING PLACES—Lucille Lambert, named "Miss California," holds her trophy aloft as she walks at a Los Angeles pool.

Norfolk Wins Two From Bulls

Charlotte, July 13 (AP)—Close games and shutouts were the rule in the Piedmont League yesterday as the pitchers hit their hot-weather stride.

The Norfolk Tars took a twin bill from the Durham Bulls, 2-1 and 3-0 to draw into a tie for sixth place with the Idle Asheville Tourists. Walter Eubiel pitched a no-hitter in the nightcap, which went seven innings by agreement.

In other league action Richmond and Portsmouth divided a double header, the Colts winning the opener, 5-0, and the loop-leading Subs taking the nightcap 2-0. Charlotte bested the Winston-Salem Twins, 1-0.

In the curtain raiser at Norfolk Larry Kindred got a homer in the tenth for the win. Al Clark had got a four-bagger previously.

In Dubriel's no-hitter, Bob Kinball, Bull shortstop, reached first in the third inning of the nightcap when Kindred dropped a fly ball. Kinball sacrificed him to third but he was out a minute later on Vic Lombardi's fielder's choice. Lombardi died on second. They were the only Bulls to reach second. Rabbitt Rudisill, Tar third sacker, slapped one over the boards.

Curtis (Doc) Johnson buried a 4-hit ball in winning the Colts' game. It was Johnson's eighth win in a row and No. 11 for the season. A three-hit uprising in the seventh of the seven-inning nightcap gave the Cubs two runs and the decision in the afterpiece.

The Hornets' decision over Winston-Salem came in the eleventh after a keen mound duel between Bucky Jacobs, who captured his 9th

winner of the season, and Ted Gray, youthful southpaw.

Jacobs yielded only five hits, and Gray seven. In the eleventh Gray gave Charlie Roberts, Hornet shortstop, a pass to open the inning. Roberts went to third on Charlie Woodall's double. Fry then walked.

Carl Furillo, Montreal outfielder, has a fine throwing arm. He threw out 25 batters last season at Reading.

ed. Gray's seventh free pass, and Smut Aderholt skied to centerfield to send Roberts home with the winning run.

Walker Cooper, catcher for the St. Louis Cardinals, to a home run, three doubles and a single in seven trips to the plate to lead his mates to a double victory over the Boston Braves yesterday. The scores were 5-1, and 9-3.

Carl Furillo, Montreal outfielder, has a fine throwing arm. He threw out 25 batters last season at Reading.

ed. Gray's seventh free pass, and Smut Aderholt skied to centerfield to send Roberts home with the winning run.

DOWNSTREAM—Here are some of more than 40,000,000 spruce and pine logs now being floated down Quebec's St. Maurice river.

who insisted their September 10 fight be a non-title fust.

Sports Roundup

By HUGH FULLETON, JR.
Wide World Sports Columnist

By SID FEDER
(Fence-Hitting For Hugh Fullerton, Jr.)

New York, July 12—(Wide World)—Weather report: are those storm clouds brewing among the peaceful Pirates of Pittsburgh?

... The said several Enc players have their own idea why Al Lopez wasn't picked on the National League's all-star outfit. ... And some of 'em are rooting for A' to land a manager's job—whether it's in Smokytown or some other place.

Punching The (Mail) Bag
Ray Carlen writes to tell the boys not to pooh-pooh Henry Armstrong's comeback yet. ... Because it looks like the hammer still has a lot of fight left in him. ... And Willie Gilzenberg takes pen in hand to inform the folks that it wasn't his welterweight champ, Red Cochran, but Challenger Ray Robinson,

who insisted their September 10 fight be a non-title fust.

Quir-Program
Are the big leagues getting ready to welcome Pepper Martin back—

Dis-a And Dat-a
Buddy York gets a five-grand bonus if he knocks in 100 runs this year. ... He's on the 50-mark now.

But what the boys would like to know is who made a fancy fielder of him? ... The way he's improved, there's even hope for Zeke Bonura. ... Texas Ben Whitaker reports that Requested is all over his feverish knee, but he's been taken out of training again because of ankle trouble. ... And there's ng telling when the hard-hitting little bolt'll come back to the races. ... But that doesn't mean Sunny Jim Fitzsimmons hasn't got Apache back to where he'll give Shut Out and Awab a rassel for what's left of the three-year old championship.

That's not an air-raid siren you hear coming out of Madison, Wis., these evenings. ... Harry Stuhldreher just got a look at that ten-game schedule they've fixed up for his Badgers this fall. ...

Quir-Program
Are the big leagues getting ready to welcome Pepper Martin back—

of a manager? ... And what major race track as much as told the Turf Committee of America it wasn't making any plans to chip in to war relief, even though most of the big apple plants have kicked in with 100 G's apiece? ...

Army And Navy Forever—Also Marines
Ray Dimartino, Manhattan's 1936-38 fullback, is communications officer at the Bainbridge (Ga.) air my basic flying school now. ... And they say he never misses a signal these days. ... Incidentally, Bainbridge is getting quite a bit of gridiron talent lately. ... The commanding officer is Lieut. Col. G. F. West, who played a lot of tackle for the Citadel in the mid-20's. ... And ball stake, who came from Colorado to West Point around '37, is a, man for there. ... There may be no connection, but do you know that Port Knox, which recently got Lieut. Col. Ralph (Hand - Me - The - Phone) Sasse, the eminent gridiron brain, also has football games scheduled with Ohio State and Indiana, this fall? ... Jim Hance, who was a marine before he was dying for dear old southern Louisiana college as a sea-soldier again—down at the officers training school at Orlando, Fla.

have also been advised that the national interest requires that all calls to meet the manpower requirements of the armed forces must be filled on schedule. If any local board does not have a sufficient number of single 1-A men available to fill its call, it has been authorized to depart from the general rule of priority and use married men who ordinarily might be expected to be in category 3, if such departure is necessary to meet said call.

Boll Weevils Are More Prevalent

Washington, July 13.—(AP)—The Agriculture Department reported today that boll weevil infestation continued to be spotted in the cotton belt and advised growers in the 12 southern states where the weevils caused serious damage a year ago to make efficient use of poison to check the spread of the pest.
Reports from State and Federal entomologists indicated, the department said these conditions during the first week in July in the Carolinas.
South Carolina—No general infestation. Average throughout the state 11 per cent.
North Carolina—Weevils more abundant than for several years at this time but the situation not as serious as in some other states.

Dead Jap Flier ...

(Continued from Page One)
The last plane either didn't see the Zero or didn't have time to get out of the way.
"The Zero dived straight into the fuselage and cut clean through the tail."
"The Zero itself was smashed to pieces. The bomber kept on its course for a few seconds and then, after a wobble, went into a spin and plunged into the sea."
This has been at least one previous instance in which a Zero, with its pilot apparently dead, headed into an American bomber—but that time the bomber pilot dodged it without damage.

Two Fliers Killed Near Cherry Point

New Bern, N. C., July 12 (AP)—Two members of a bomber crew of four were killed when their bomber crashed into the Neuse river on Saturday afternoon at the Cherry Point, Maine base near here.
The pilot and the bombardier were killed. Another occupant suffered a fractured skull and the fourth member escaped without injuries.
The names of the crew were not announced until an investigation was made and the next of kin were notified.
Mrs. Frances Ulak, of Newark, N. J., said that she had been advised that her son, Second Lieutenant Eugene P. Ulak was killed in a plane crash near the base.

The pilot apparently attempted a landing, witnesses said, when something went wrong with the plane and it hit the water and nosed over.

Biddle Reveals ...

(Continued from Page One)
Miss Helwig Engemann, 35, a native of Brooklyn, was visited by Kerling in New York at the grocery where she works, immediately after the Nazi arrived from Florida. She helped Kerling in changing bills and knew that he had landed from a German submarine. She spent her childhood in Germany and returned to the United States in 1928.
Hermann Heinrich Faje, a close friend of Heinrich Henck, one of the four agents who landed at Axagansett, Long Island, from a submarine on June 13, Faje admitted. Hoover said, that Henck had told him how and why he came to the United States and asked him to keep \$3,600 which had been brought from Germany. Faje was born in Hamburg, Germany, in 1906 and arrived in the United States in 1928, being naturalized eight years later.
Maria Kerling, wife of the leader of the Florida group, was born in Germany in 1904 and came to this country in 1926. Both Mr. and Mrs. Kerling were members of the Nazi party in Germany. She was assigned a cabin on the steamship Nyassa, which sailed for Portugal with Germans being repatriated on June 13, the day the first group of saboteurs landed, but did not use her reservation.

Ernest Herman Kerkhof was described as having been "intimately associated with Maria Kerling, wife of Edward Kerling," for over a year. He was born in Germany 1906, came to the United States in 1924 and was naturalized in 1932. He was a member of the Von Hindenburg post of the Kytphauser Bund in New York.
Mr. and Mrs. Hans Max Haupt, parents of one of the submarine-borne saboteurs, have admitted. Hoover said, that their son informed them of his training as a saboteur in Berlin and of his manner and purpose in coming to America. It was admitted also, Hoover added, that their son brought a large sum of money from Germany, of which \$2,350 was found in the Haupt home and \$900 was recovered from a friend of the elder Haupt. The son stayed at his parents' home and they purchased an automobile for him in his father's name. Both of the elder Haupt were born in Germany, where he served as a soldier during the first World War. The elder Haupt belonged to numerous German organizations.
Harry and Emma Jaques were the first persons contacted by Hermann Neubauer after the latter's arrival in Florida. The Jaques admitted, Hoover said, that Neubauer told them how and why he came to this country and asked them to hold \$3,000 in \$50 bills, which FBI agents found hidden in a coffee jar in the Jaques' kitchen. Both of the Jaques were born in Germany. His true name is Andreus Heinrich Jans.
Mr. and Mrs. Otto Richard Wer-

gln were close friends of the Haupt family and Wergrin was contacted by Haupt shortly after his arrival in the United States. Wergrin was born in Arenswalde, Germany, in 1899, and served in the German navy during the last war. He came to the United States in 1926 and was naturalized at Chicago 10 years later. He was described as a Nazi sympathizer who had made un-American remarks.

Mr. and Mrs. Walter Wilhelm Froehling were described as "important contacts for the German saboteur agents." Froehling is an uncle of Herbert Haupt and was the first person contacted by him in Chicago.
Froehling admitted, Hoover said, that Haupt left a bag containing \$9,950 which was found by FBI agents. Both Mr. and Mrs. Froehling were born in Germany. He arrived in 1926 and was naturalized in Chicago in 1931.
Meanwhile, the military trial of the eight Nazi saboteurs who landed from U-boats was resumed on schedule today for its fifth session with a member of the defense counsel reporting that he had no idea how long it would continue. Some persons close to the prosecution counsel expressed the view that the secret hearing might be concluded in the next three or four days.

There was no evidence from outside the walled-up corridor on the fifth floor of the Justice Department building as to who might be appearing before the commission of seven generals, although it was known that a federal agent resumed the stand first for conclusion of cross-examination begun during the protracted session Saturday.
The only persons seen in the hall were members of the prosecution and defense staffs, heavily laden as usual with brief cases, folders and bundles of documents. Some messengers from the FBI wheeled in a load of papers on a small cart.

To Shoot Kin ...

(Continued from Page One)
occupied zone I have noted that a majority of the population is continuing to work in calm. Terrorist attacks, sabotage, etc., instigated by the English and Soviets are disapproved of and it is known that it is only the peaceable French population which suffers the consequences.
"I am resolved to guarantee to the French population in absolute fashion, in the midst of war, continuation of its work in calm and security but I have noticed that above all it is close relatives of the authors of terrorist attacks, of saboteurs and trouble-makers who help them before and after the deed."
"I therefore have decided to make use of the most severe penalty not only to strike at perpetrators of terrorist attacks, saboteurs and trouble-makers themselves after they are arrested but also, in case of escape, as soon as the fugitives names are known at families of these criminals if the latter do not present themselves during 10 days following their forfeits to German or French police stations.
"In consequence, I am announcing the following penalties:
"1. All near male relatives in the

ascending line as well as brothers-in-law and cousins from the age of 12 years will be shot.
"2. All women of the same degree of kinship will be sentenced to hard labor.
"3. All children under 18 years of men and women subjected to these measures will be sent to reform schools.
"I therefore appeal to all to prevent by means at their disposal terrorist attacks and acts of sabotage and disturbance and to give the slightest clue which could be useful to the Germans or French po-

Taft Furniture Co.

"I can't get him out of my blood"

me, who's known 'em all
..... and hated 'em all!

"I can't sleep thinkin' of him! And when I wake up he's there all right... like he was in my arms! How can a girl like me fall for a guy like him?"

A STORY SO STRANGE, SO WEIRD, YOUR PULSE WILL THROB AS NEVER BEFORE!
