

Social and Personal

Lt. Marion T. Bradshaw, U. S. Army Air Corps, arrived yesterday afternoon from Spence Field, Moultrie, Ga., to spend a brief furlough here with his parents, Mr. and Mrs. M. T. Bradshaw.

Mrs. Pearl Johnson of Farmville, is spending the week with Mr. and Mrs. D. S. Spain.

Miss Marjorie Suggs who is teaching in Snow Hill, will spend the week-end at her home in Greenville.

James B. Wilson of Norfolk, spent last night and today at his home in Greenville.

Social Calendar

FRIDAY

6:30 p. m.—Klwanis Club.

7:30 p. m.—Red Men meet.

Leaves Hospital.

Friends of Ed Williams, Jr., who has been ill with malaria in Pitt General Hospital, will be glad to learn that he has recovered sufficiently to return to the home of his mother, Mrs. Novella Mays Williams, on West Fifth street.

Card of Thanks.

I wish to express my deep appreciation to the Ladies' Aid Society of Rountree Christian Church, the Missionary Society of Ayden, and to the churches, the Missionary Society of Piney Grove and all others who have been so kind to me during the illness and death of my companion, P. M. Gurganus.

In Duke Hospital.

Mrs. E. F. Tucker, who has been ill of arthritis for nearly a year, left today for Durham to enter Duke Hospital.

BELL ARTHUR NEWS

Shirley Mae attended high school in Seward last winter. The bridegroom is a member of the military force at Seward, his particular work being to do with the quartermaster's corps.

The wedding was charmingly carried out, the home being tastefully decorated with flowers and greens. Wedding guests were neighbors in Seward, who came with gifts and best wishes for happiness for the young couple.

Following the wedding ceremony, Mr. and Mrs. Shell entertained with a wedding reception, attended by practically all Hope.

The bridegroom is the son of Mr. and Mrs. Lester Sutton of Greenville, N. C. He joined the army in 1940 and took his training in Minnesota, Wyoming, and Nebraska. He took a mechanical course at a transport motor school at Fort Crockett. For the past year he has been stationed in Alaska.

The bride and groom are making their home in Seward, Alaska.

Matrons To Meet.

Matrons of the Eighth Street Christian Church will meet with Mrs. L. B. Tucker on Monday at 3:30 p. m. Assisting hostesses are Mrs. J. R. Harrington and Mrs. D. H. Conley.

Returns From Hospital.

Mrs. J. C. Wooten has returned from Duke Hospital where she has been receiving treatment for several weeks. She was accompanied by her daughter, Miss Julia Wooten who will spend several days here.

Transferred.

Miss John W. Randeman of this city has been notified that her son, Private John D. McGlohon, has been transferred from Camp Pickens, Va. to Camp Blanding, Fla. He is in a Commando training unit.

Birth Announcement.

Mr. and Mrs. R. B. Harper announce the birth of a son, Ralph Buchanan, Jr., on Monday, August 31, in Pitt General Hospital. Mrs. Harper and infant son returned to their home, 211 Meade street, today.

Card of Thanks.

We wish to express our appreciation to the friends who were so kind during the long illness and death of our father.
The Children of S. D. Tucker, Sr.

Utley-Ward.

The marriage of Miss Ethel Louise Ward of Rocky Mount and Greenville, daughter of Mr. and Mrs. James Hiram Ward of Greenville, and Charles H. Utley of Wilson, son of Mrs. Charles H. Utley of Wilson, was solemnized on Saturday evening, August 29, at the Baptist parsonage in Tarboro. The Reverend V. A. Williams officiated at the impressive double ring ceremony.

The bride, who is a pretty blonde, wore for her wedding a dress of skyark blue crepe with matching off-face hat trimmed with a veil. Her accessories were of black and she wore an orchid at her shoulder. Mrs. Utley was graduated from the Bethel High School and attended the Southern School of Beauty Culture in Norfolk. She has been associated with Jean's Beauty Shop in Rocky Mount for a number of years.

Mr. Utley attended the Boulder Preparatory School in Boulder, Colorado. He has been associated with the North Carolina Theatre since 1934. He made his home in Rocky Mount for two years, serving as manager of the Carolina Theatre. For the past year he has lived in Wilson where he is manager of the Carolina Theatre.

Card of Appreciation.

We wish to express our greatest appreciation to our many friends, the nurses of Pitt General Hospital and the doctors for the kindness and sympathy shown during the recent illness and death of our baby and little brother.
Mr. and Mrs. L. F. Edwards and Harold Edwards.

Mrs. Charles H. Utley

Mrs. Utley, shown here, was Miss Ethel Louise Ward of Rocky Mount and Greenville, prior to her marriage on Saturday, August 29.

Forty Years Ago Today

THE DAILY REFLECTOR
September 4, 1942

Big Sales

This has been an immense week of sales on the Greenville tobacco market, keeping warehousemen, buyers and all connected with the market crowded almost to the highest capacity. Every day has been a big day, and a remarkable fact is prices have kept up. While neighboring markets are reporting a great slump in prices and advising farmers to hold off, such is not the case in Greenville, and there is plenty of money here to pay for all that comes.

In the rush today only estimates could be made of the quantity on sale. These are given as follows: Star, 75,000; Liberty, 75,000; Greenville, 60,000; Planters 50,000; Farmers 45,000.

as well as knowledge is invaluable.

First Day

Monday morning at 8:40 students attending junior high fled into the high school auditorium. Welcoming speeches were made by Supt. J. H. Rose, Charles Pace, Student Council president, and Shirley Warner, outstanding senior. Mr. J. Roy Wilkerson, the new principal, was introduced to the student body. New teachers were recognized and then home rooms were assigned to the pupils.

The same pattern was followed on Tuesday morning with senior high students.

Green Lights

Betty Thorne Forrest has been appointed editor of Green Lights for the 1942-43 year. Other members of the staff are Florence Horton and Joe Register, managing editors; Cora Redditt, feature editor; Ed Rawl, business manager; Sydney Dunn and Beverly Whitley, co-photography and sports editors; Edna Munford, assignment editor; Hubert Musselwhite, C. W. Koonce, Jack Teel and Billy Taylor, advertising solicitors; David Whitehead III, Edward Schwartz and Stephen Humble, reporters. Mr. J. R. Wilkerson replaces Mr. V. M. Mulholland as adviser and Mr. Sherman Parks remains technical adviser.

The date for the first issue of Green Lights this year has been set for Friday, Sept. 18.

HOMESICK!

Each time the boys march off to war With envy I turn green— I wish I were just half the man I was back in eighteen.

I gaze into the mirror Every time I comb my hair— I'm so afraid I've lost it, But that one hair still L. there.

My teeth?—oh, no, they aren't my own; Whose?—I don't know really— Yet I believe they'd enjoy some Good old army "corned willie."

My chest?—It's gone into my back, Stoop shouldered?—holly gee! "The Hunchback of Notre Dame" Had not one thing on me.

Yet I believe I'd keep up from Reveille until retreat— Cause far as I know I believe I do not have flat feet.

So boys (when Christmas rolls around) Each helmet that you see On foreign shores—look under it— Cause it just might be me.

I killed but fourteen Germans In the first war—(we were saps)— I'd like to kill a few more now— MacArthur's men will get the Japs. Edw. W. Hearn.

Note of Appreciation.

The Negro Women's Division of Civilian Defense wish to thank you for your most hearty cooperation in the First Aid Kit drive.

As much as we hope the kit will never have to be used for the purpose for which it was fitted, your contribution has helped to make it possible for us to be ready to meet any emergency.

Yours for Defense.

Belle M. Atkinson, Chairman, Negro Women's Division for Civilian Defense.

Allies Take ...

(Continued from Page One) warned against too much optimism, pointing out that the battle still is in its preliminary phases and that both sides are merely jockeying for positions.

Rommel, they said, has not yet suffered crippling losses to his armored strength and there is no indication that he is trying to avoid a showdown.

On the other hand, these sources said, the Axis chieftain has brought up to the battle line vast supplies for an offensive—including sufficient gasoline to feed his mechanized forces for 10 days of hard fighting.

The RAF, aided by the United States Army Air Corps, kept these supply dumps under an almost continual hail of bombs.

Dispatches from the front line last night told of no large scale action by the opposing land forces, but British armored units harassed advanced Axis elements, giving the enemy no chance to get set for the punch he evidently is trying to deliver.

The main body of Lieut. General B. L. Montgomery's Eighth army, meanwhile, remained poised, ready to hit back should Rommel make a mistake.

In Cairo the RAF issued a statement declaring the Axis had lost 2,582 planes in combat over the desert since the start of the war and putting losses of the United Nations at 1,503 planes.

Thus far this year, the statement said, Axis losses total 1,417 planes and British losses 1,114.

Reds Battle ...

(Continued on page three) which had crossed a water line," the communique said. (The Terek river flows past Mordok and the Grozny oil fields on its way to the Caspian Sea.)

The Germans were pictured as attacking southwestern defenses of Stalingrad ceaselessly with tanks forces in a narrow sector, tanks seeking to open paths for infantrymen.

"At a cost of enormous losses the Hitlerites succeeded in making a slight advance," the communique said. "In other sectors the enemy attacks were repulsed with heavy losses."

Soviet riflemen supported by tanks were declared to have broken into enemy positions above the city.

"In a fierce engagement the Red army men wiped out two companies of Hitlerites destroyed four tanks and nine anti-tank guns and captured five mortars and eight machineguns," the communique reported.

A Stalingrad dispatch said German planes, flying from various points of the compass, were attacking the city regularly in waves of 150 or more.

Reinforcements were declared to have given the German command a superiority of two or three to one over the Russians in some sectors.

(While the Soviet Information Bureau made no further mention of the Red army offensive launched on the central front a month ago today, a German dispatch broadcast from Berlin said strong Nazi squadrons "continued their unceasing and effective attacks on Soviet troops and tank concentrations in the Raveh area" on the upper Volga

northwest of Moscow. The Nazi purpose is two-fold: 1—to seize the Grozny oil fields to the east; 2—to advance upon Ordzhonikidze, 50 miles southwest of Grozny, the terminus of a military highway leading over the mountains to Tiflis. Once repulsed yesterday, Nazi shock troops struck back two hours later across a battle field strewn with tank wreckage and the bodies of about 400 German dead to force the Russians from strongly held positions northwest of Stalingrad.

Allied Planes ...

(Continued from Page One) The Chinese Central News agency reported from the Southern, or Canton, front that Chinese units in an overwhelming assault were pressing upon Sunk, only 15 miles north of Canton and had recaptured several more points about 25 miles to the northwest of the metropolis.

On the Min river estuary at Foochow in Fukien province, the Japanese also were reported withdrawing.

In the southwest Pacific, Allied bombers set big fires raging in the Japanese base at Salamaua, New Guinea; bombed enemy seaplanes at Faisi, destroyed fuel dumps at Buka and targets at Kietla, all in the upper Solomons; bombed and machine-gunned Japanese troops in the Kokoda area, New Guinea, and pounded sea-borne Japanese forces in the lower Solomons.

At sea, the navy in Washington reported, U. S. submarines, striking at Japan's far-drawn lines of supply, sank five more enemy ships, including a light cruiser—making a total of 99 Japanese vessels sunk or damaged by American under-seas craft since Pearl Harbor.

The navy said U. S. Marines were steadily tightening their grip on the Solomon Islands and that small enemy detachments attempting to regain footholds in the strategic archipelago were "being sought out and engaged."

Aged Citizen Died Yesterday

Mr. Cannady Moore, 84, died at his home near Gardner's Cross Roads yesterday afternoon. Mr. Moore, a prominent farmer, had been in declining health for more than a year.

Funeral services were conducted at the home by Rev. W. H. Brunson, of Ayden, this afternoon at 5 o'clock. Interment followed in Riverside church cemetery. Mr. Moore is survived by his wife, Mrs. Eula Stokes Moore, one daughter, Mrs. E. W. Jones, of Williamston, five sons, E. A. Moore, of Norfolk, E. D. Moore, of Ayden, George M. and Earl C. Moore of Vanceboro and Matt R. Moore of Grifton, 18 grandchildren and 23 great grandchildren.

Two Women Die In Explosion

New York, Sept. 4—(AP)—Two women, a 41-year-old aviatrix and a maid, were killed and nine persons injured today in an explosion in the fashionable Buchanan apartments on the East Side in Midtown New York. The blast was heard for 10 blocks.

The dead women were Mrs. David Cameron Oswald, a registered nurse, and a maid, Margaret Burke, 36, who died at a hospital after the explosion. Police reported there were long strips of adhesive tape around the living room door of the Oswald apartment. "It's obviously a suicide, because of the adhesive tape around the door," said Assistant Medical Examiner Eugene Clark.

Still In Style. Leavenworth, Kas., Sept. 4—(AP)—Millionaire Banker William T. Kemper, Jr., often listed among America's 20 best dressed men, is still right in style.

He's wearing the uniform of a private in the U. S. Army. The Kansas City financier, who heads the city's art institute in his spare time, was inducted yesterday.

DIES CHARGES FBI FELL DOWN

Asks Congress Not to Accept Biddle Report

DIES CHARGES—42. M. Washington, Sept. 4—(AP)—The FBI and the Dies Committee were at sharp odds today over the extent of subversiveness among federal employees.

Chairman Dies (D-Tex), accusing Attorney General Francis Biddle of having "failed utterly" to comply with congressional wishes, asked the House to reject a Justice Department report which criticized the committee indirectly for sending the FBI on a time-consuming search for disloyal government workers.

Dies, head of the special committee set up four years ago to investigate subversive activities, made his request in a letter to Speaker Sam Rayburn in which he referred to a recent act of congress asking the FBI to make the checkup.

The Justice Department, the Texan charged, did not want the assignment in the first place and "it is not strange that nothing but an attempt to swear our committee has resulted x x x."

Biddle's report said that as a result of 2,005 investigations, including many suggested by the Dies committee, only 36 government workers had been fired and 13 others disciplined. This result, he added, "was utterly disproportionate to the resources expended."

Dies retorted he could come to no conclusion except that what Biddle "has done in effect is to give a license to every government employee to engage in any Communist subversive activity so long as he does not go to the extent of actually carrying publicly a paid-up membership card in the Communist party."

Instead of fulfilling the mandate of congress, he added, "the attorney general has issued a meaningless conglomeration of statistics set in a framework of general conclusions which are either totally irrelevant to the issues involved or dangerous to the internal safety of this country if applied to employment in the federal government."

Dies said he had "conclusive proof" that many suspected employees "were put under strong pressure to resign voluntarily" before the FBI started its investigation.

Will License Meat Industry

Washington, Sept. 4—(AP)—In a move designed "to prevent the evasion of existing and forthcoming price regulations," the Office of Price Administration shortly will place the entire meat industry, except for retailers, under licensing control.

Announcement of the licensing program last night followed the beginning of court action against approximately 115 meat packers and wholesalers to compel compliance with price regulations. Effective September 8, OPA will automatically license "all packers, wholesalers and custom slaughterers, and make the license a required condition for selling any meat product subject to price regulation."

Need More Women For War Effort

Washington, Sept. 4—(AP)—Manpower Chairman Paul V. McNutt said today that one of every six women over 18 years old not now in the labor forces would be needed in the war effort, and he established a 12-member women's police committee in the war manpower commission.

"One out of every four housewives, perhaps one out of every three, between the ages of 18 and 44 will be employed," he said.

Latvian Vessel Sunk. Washington, Sept. 4—(AP)—The Navy announced today the sinking of a small Latvian merchant vessel by an enemy submarine in the Caribbean area about the middle of August. Survivors were landed at a Gulf coast port.

BE SURE THAT YOUR NEW FALL HAT IS A DOBBS FROM BLOUNT-HARVEY'S

This matter of Dobbs leadership is something far more than chance—or an occasional hit. Dobbs style leadership has been attained by the brilliant, consistent work of their style originators—just as their quality leadership has been achieved by the "know how" of Dobbs craftsmen, some of whom have been with them 50 years!

To you this means you can have complete confidence in the name Dobbs. It also means the great plus that all Dobbs customers enjoy. The keen pleasure of wearing hats that are not only correct in style, but the smartest looking.

That's why the phrase... It's the DOBBS! means the finest in hats to well dressed men everywhere.

All the new fall styles and colors. Gunstock Brown... Clay Grey... \$5 TO \$10 Marlin Blue... Willow.

U.S. Fights Propaganda 'Of Axis With The Truth'

"Democracies Have a Good Story To Tell" Says Elmer Davis

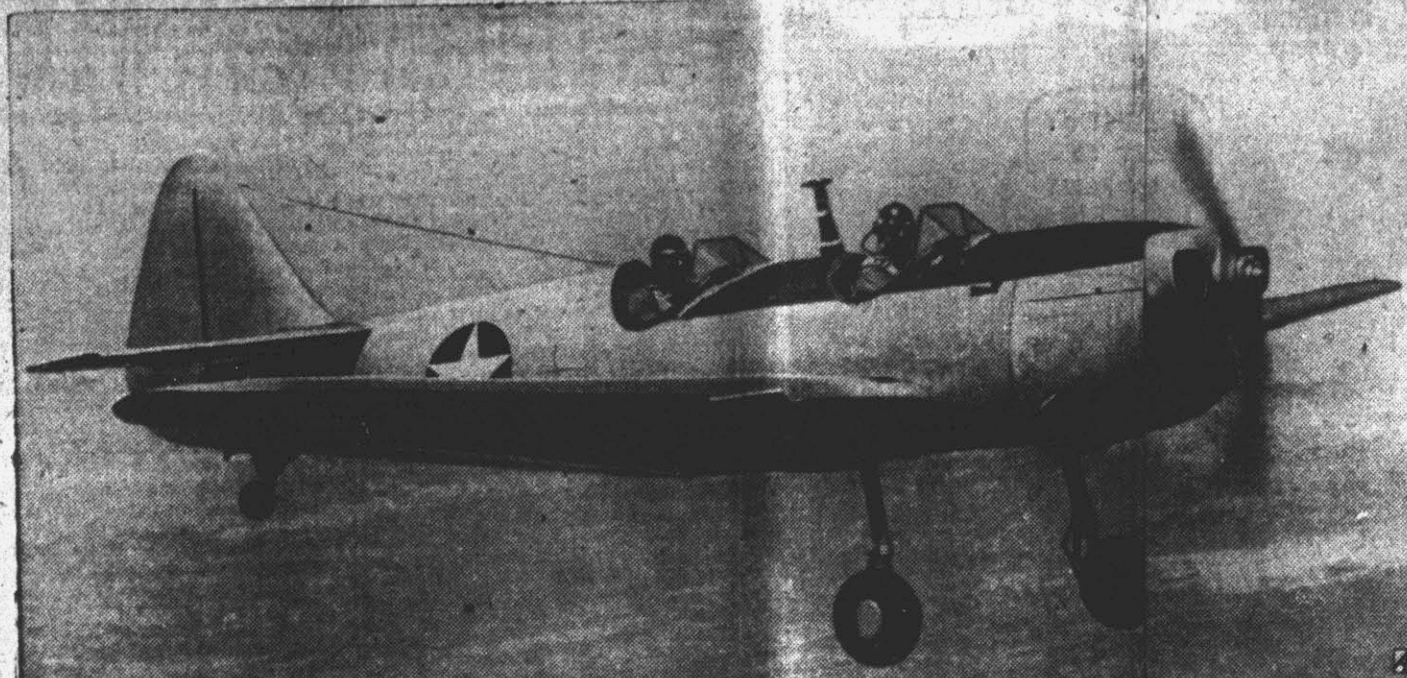

By TRUDI McCULLOUGH
New York, Sept. 3.—(Wide World)—A little German corporal said, after the defeat of 1918, "propaganda lost this war for us. It shall not happen again."
The German corporal was Hitler. His is the theory that propaganda is not only the communication of carefully culled news and words designed for demoralization, but that it is a military weapon.
He used it as a camouflage tactic when he focused attention on the Balkans before he marched into the Low countries.
He used it as a blockade maneuver when—with America still neutral and Britain suing for her favorable opinion—he helped keep England out of the lowlands until he could get there, by trumpeting England's intentions to invade.
He used it as a fright device in the case of "secret weapons"....he used it effectively to promote bloodless capitulations.
That is one kind of propaganda. Hitler's kind. And how remunerative it has been for him to date all the world knows. It is turned out by an incredibly well organized word mill that has thorough coordination with the military branches.

German communiques issue from headquarters and, before they are issued at all, military and propaganda men together are able to analyze, fictionize or create them. The propaganda men don't have to make the best of what the various military headquarters say after the communiques get into print.
Against this super-smooth mechanism, United States short wave radio has gone to war.
It's methods and tactics are very different. And U. S. short wave men have reasons for the tactics they employ.
So long as United States forces are not on the continent, they are more concerned with propaganda as a psychological weapon rather than as a military weapon.
Their work is directed at the people of enemy lands and the occupied countries. Their aim is to bring despair, to the first, hope to the latter.
Almost uniform procedure over the 14 great short wave transmitters directed at enemy dominated people is a program combining 15 minutes of news and 15 minutes of editorials and news features.
Uniform belief among the big stations and the government agency is that news and editorials must be kept separate. Truth in the news, they believe, is the biggest drawing card for listeners abroad, because "Europeans are sick and tired of propaganda."
Says Elmer Davis, director of the Office of War Information:
"Democracies have a good story to tell and they ought to tell it. We will tell it in increasing volume as our foreign service expands. The news we broadcast overseas is supplemented in Allied and neutral countries by general background information distributed by our outposts in London, Berlin, Stockholm, Cairo, Ankara, New Delhi, Chungking, etc."
"We stick to the truth, for we believe the truth is on our side. To enemy countries we broadcast news of the war. American production, etc.—again the truth—with only such omissions as actual military security may demand; but that news, in direction and emphasis, is producing the psychological effect most conducive to our victory."

anism, United States short wave radio has gone to war.

Milk Producers From Four Counties Hear Purina Dairy Specialist

Attending meeting were: A. J. Andreoli, E. E. Williams, Pantego, N. C.; L. C. Hardy, J. E. Fountain, Whitakers, N. C.; W. Edmondson, R. B. Havens, Tarboro, N. C.; J. Frank Weaver, K. F. Lindsay, Williamston, N. C.; C. W. Wilson, Ray Mayne, Adrian Bowen, Washington, N. C.; John T. Thorne, Roy Bowling, D. G. Allen, Farmville, N. C.; C. W. Harvey, County Agent F. F. Hendrix, Assistant County Agent S. C. Winchester, J. B. Webb, Jr., Lyle Leichter, Greenville, N. C.; J. E. Streetman, St. Louis, Mo.

Mr. Bill Drum, owner of Drum's Hatchery and Feed Store, was also present, and is shown holding "Flossie," 10 months old Grade Heifer, grown out from a baby calf in his store.

The meeting was held at the Woman's Club Building in Greenville on Monday, August 17th. Immediately following a noon lunch, Mr. J. E. Streetman, Dairy Specialist from the Purina Experimental Farm and Research Laboratory, St. Louis, Mo., presented to the group a Dairy Cycle Plan for breeding, management, sanitation, and feeding. Mr. Streetman discussed the "National Food for Freedom Program," stressing the great need for increased milk production. He told of the ruthless slaughter of dairy cattle in Europe by the Nazis and the part to be played by American Dairymen in feeding a hungry world both now, and after the war ends.

During the luncheon, several remarked of the difficulty of buying dairy herd replacements. Most interesting and timely was Mr. Streetman's discussion of The Purina Plan for raising larger and better developed replacements, at less cost, due to the savings of milk.

As evidence of what could be expected from this Growing Program, Mr. Bill Drum presented "Flossie" to the group. He explained how she was raised in his store to 4 months on Purina Calf Starters, and from then on he fed her on Purina Dry and Freshening Chow. Her record showed her weight at 456 pounds at ten months of age, with a total feed cost (including hay) of \$68.57. When approached with an offer considerably above this cost figure, Bill Drum refused to sell her. He plans to keep "Flossie" at his store until she freshens, to complete his demonstration of the Purina Dairy Cycle Program.

REPORTS—Joseph C. Grew, U. S. ambassador to Tokyo until Japan attacked Pearl Harbor, leaves Secretary of State Hull's office after reporting in Washington, D. C.

Social and Personal

Mr. Marion T. Bradshaw, U. S. Army Air Corps, arrived yesterday afternoon from Spence Field, Moultrie, Ga., to spend a brief furlough here with his parents, Mr. and Mrs. M. T. Bradshaw.

Mrs. Pearl Johnson of Farmville, is spending the week with Mr. and Mrs. D. S. Spain.

Miss Marjorie Sugg who is teaching in Snow Hill, will spend the week-end at her home in Greenville.

James B. Wilson of Norfolk, spent last night and today at his home in Greenville.

BELL ARTHUR NEWS

Mr. and Mrs. Beryl Newby and children, Mrs. Clyde Newby and son Clyde Merrill, visited Mr. and Mrs. John T. Wilkinson in Atlantic last week-end. George Newby returned home with them.

Meas. Billy and Angus Cullipher of Williamson visited their grandmother, Mrs. Nan Barber, during the week-end.

Mrs. Beryl Newby and children were Williamson visitors one day last week.

Louis Skinner Willoughby and Jack Nichols who went to Fort Bragg Wednesday, have returned home.

Little Miss Tribby Smith and her brother, Mark Hassell, who had their tonsils removed last week, are getting along nicely.

Prayer meeting Sunday night will be held with Mrs. Pittman Wayne.

P. T. A. Party.

The annual P. T. A. party in honor of the faculty was held Monday night in the school auditorium. Mack G. Smith acted for Mark H. Smith, school board chairman, in introducing members of the board and faculty. Those board members present were: Supt. D. H. Conley, Paul H. Smith, Mack G. Smith, Paul S. Raspberry and Chester Worthington. (Oscar Lee Erwin is the fifth member). The faculty for the current year is as follows: H. L. Hart, principal; Miss Lorraine Myers, Math; Miss Rosa Perra, Science; Miss Esther Koonce, Home Economics; Mrs. H. L. Hart, seventh grade; Miss Louise Kendrick, sixth; Miss Fannie Woodward, fifth; Miss Myrtle Peterson, fourth; Miss Ruth Beard, third; Miss Margaret Barnes, second, and Miss Mary Whitehurst, first.

Mrs. Bruce Strickland was at the piano during the evening's entertainment and singing was led by Lawrence Tyson, who also sang a solo, and a trio with his brothers, Edwin and Elbert Tyson, Jr. Games and contests were led by Mrs. Mack Smith and Mrs. Gilbert Davis. Punch and cookies were served during refreshment hour by Mrs. Earl Hemby, Mrs. R. E. Willoughby and Mrs. Roy Nichols.

Mrs. C. Wooten has returned from Duke Hospital where she has been receiving treatment for several weeks. She was accompanied by her daughter, Miss Julia Wooten who will spend several days here.

Mrs. John W. Randleman of this city has been notified that her son, Edwin, John D. McGlohon, has been transferred from Camp Pickett, Va., to Camp Blanding, Fla. He is in a Commando training unit.

Birth Announcement.
Mr. and Mrs. R. B. Harper announce the birth of a son, Ralph Buchanan, Jr., on Monday, August 31, in Pitt General Hospital.

Mrs. Harper and infant son returned to their home, 211 Meade street, today.

Card of Thanks.
We wish to express our appreciation to the friends who were so kind during the long illness and death of our father.

The Children of S. D. Tucker, Sr.

Utey-Ward.

The marriage of Miss Ethel Louise Ward of Rocky Mount and Greenville, daughter of Mr. and Mrs. James Hiram Ward of Greenville, and Charles H. Utey of Wilson, son of Mrs. Charles H. Utey of Wilson, was solemnized on Saturday evening, August 29, at the Baptist parsonage in Tarboro. The Reverend V. A. Williams officiated at the impressive double ring ceremony.

The bride, who is a pretty blonde, went for her wedding a dress of light blue crepe with matching off-face hat trimmed with a veil. Her accessories were of black and she wore an orchid at her shoulder.

Mrs. Utey was graduated from the Bethel High School and attended the Southern School of Beauty Culture in Norfolk. She has been associated with Jean's Beauty Shop in Rocky Mount for a number of years.

Mr. Utey attended the Boulder Preparatory School in Boulder, Colorado. He has been associated with the North Carolina Theatre since 1934. He made his home in Rocky Mount for two years, serving as manager of the Carolina Theatre. For the past year he has lived in Wilson where he is manager of the Carolina Theatre.

Card of Appreciation.

We wish to express our greatest appreciation to our many friends, the nurses of Pitt General Hospital and the doctors for the kindness and sympathy shown during the recent illness and death of our baby and little brother.

Mr. and Mrs. L. P. Edwards and Harold Edwards.

Mrs. Charles H. Utey

Mrs. Utey, shown here, was Miss Ethel Louise Ward of Rocky Mount and Greenville, prior to her marriage on Saturday, August 29.

Forty Years Ago Today

THE DAILY REFLECTOR
September 4, 1942

Big Sales

This has been an immense week of sales on the Greenville tobacco market, keeping warehousemen, buyers and all connected with the market crowded almost to the highest capacity. Every day has been a big day, and a remarkable fact is prices have kept up. While neighboring markets are reporting a great slump in prices and advising farmers to hold off, such is not the case in Greenville, and there is plenty of money here to pay for all that comes.

In the rush today only estimates could be made of the quantity on sale. These are given as follows: Star, 75,000; Liberty, 75,000; Greenville, 60,000; Planters 50,000; Farmers 45,000.

as well as knowledge is invaluable.

First Day

Monday morning at 8:40 students attending junior high filed into the high school auditorium. Welcoming speeches were made by Supt. J. H. Ross, Charles Pace, Student Council president, and Shirley Warner, outstanding senior. Mr. J. Roy Wilkerson, the new principal, was introduced to the student body. New teachers were recognized and then home rooms were assigned to the pupils.

The same pattern was followed on Tuesday morning with senior high students.

Green Lights

Betty Thorne Forrest has been appointed editor of Green Lights for the 1942-43 year. Other members of the staff are Florence Horton and Joe Register, managing editors; Cora Redditt, feature editor; Ed Rawl, business manager; Sydney Dunn and Beverly Whitley, co-photography and sports editors; Edna Munford, assignment editor; Hubert Musselwhite, C. W. Koonce, Jack Teel and Billy Taylor, advertising solicitors; David Whitchard III, Edward Schwartz and Stephen Humble, reporters. Mr. J. R. Wilkerson replaces Mr. V. M. Mulholland as adviser and Mr. Sherman Parks remains technical adviser.

The date for the first issue of Green Lights this year has been set for Friday, Sept. 18.

HOMESICK!

Each time the boys march off to war With envy I turn green—I wish I were just half the man I was back in eighteen.

I gaze into the mirror Every time I comb my hair—I'm so afraid I've lost it, But that one hair still is there.

My teeth?—oh, no, they aren't my own;

Whose?—I don't know really— Yet I believe they'd enjoy some Good old army "corned Willie."

My chest?—it's gone into my back, Stoop shouldered?—holly gee! "The Hunchback of Notre Dame" Had not one thing on me.

Yet I believe I'd keep up from Reveille until retreat— Cause far as I know I believe I do not have flat feet.

So boys (when Christmas rolls around)

Each helmet that you see On foreign shores—look under it— Cause it just might be me.

I killed but fourteen Germans In the first war—(we were saps) I'd like to kill a few more now— MacArthur's men will get the Japs. Edw. W. Hearn.

Note of Appreciation.

Dear Fellow Americans:
The Negro Women's Division of Civilian Defense wish to thank you for your most hearty cooperation in the First Aid Kit drive.

As much as we hope the kit will never have to be used for the purpose for which it was fitted, your contribution has helped to make it possible for us to be ready to meet any emergency.

Yours for Defense,
Belle M. Atkinson, Chairman,
Negro Women's Division for Civilian Defense.

Allies Take ...

(Continued from Page One)
warned against too much optimism, pointing out that the battle still is in its preliminary phases and that both sides are merely jockeying for positions.

Rommel, they said, has not yet suffered crippling losses to his armoured strength and there is no indication that he is trying to avoid a showdown.

On the other hand, these sources said, the Axis chieftain has brought up to the battle line vast supplies for an offensive—including sufficient gasoline to feed his mechanized forces for 10 days of hard fighting.

The RAF, aided by the United States Army Air Corps, kept these supply dumps under an almost continual hail of bombs.

Dispatches from the front line last night told of no large scale action by the opposing land forces, but British armored units harassed advanced Axis elements, giving the enemy no chance to get set for the punch he evidently is trying to deliver.

The main body of Lieut. General B. L. Montgomery's Eighth army, meanwhile, remained poised, ready to hit back should Rommel make a mistake.

In Cairo the RAF issued a statement declaring the Axis had lost 2,582 planes in combat over the desert since the start of the war and putting losses of the United Nations at 1,503 planes.

Thus far this year, the statement said, Axis losses total 1,417 planes and British losses 1,114.

Reds Battle ...

(Continued on page three)
which had crossed a water line," the communists said. (The Terek river flows past Moxdok and the Grozny oil fields on its way to the Caspian Sea).

The Germans were pictured as attacking southwestern defenses of Stalingrad ceaselessly with large forces in a narrow sector, tanks seeking to open paths for infantrymen.

"At a cost of enormous losses the Hitlerites succeeded in making a slight advance," the communists said. "In other sectors the enemy attacks were repulsed with heavy losses."

Soviet riflemen supported by tanks were declared to have broken into enemy positions above the city. "In a fierce engagement the Red army men wiped out two companies of Hitlerites, destroyed four tanks and nine anti-tank guns and captured five mortars and eight machineguns," the communists reported.

A Stalingrad dispatch said German planes, flying from various points of the compass, were attacking the city regularly in waves of 150 or more.

Reinforcements were declared to have given the German command a superiority of two or three to one over the Russians in some sectors.

(While the Soviet Information Bureau made no further mention of the Red army offensive launched on the central front a month ago today, a German dispatch broadcast from Berlin said strong Nazi squadrons "continued their unceasing and effective attacks on Soviet troops and tank concentrations in the Rzhev area" on the upper Volga

northwest of Moscow.
The Nazi purpose is two-fold: 1—to seize the Grozny oil fields to the east; 2—to advance upon Ordzhonikidze, 50 miles southwest of Grozny, the terminus of a military highway leading over the mountains to Tiflis.

Once repulsed yesterday, Nazi shock troops struck back two hours later across a battle field strewn with tank wreckage and the bodies of about 400 German dead to force the Russians from strongly held positions northwest of Stalingrad.

Allied Planes ...

(Continued from Page One)
The Chinese Central News agency reported from the Southern, or Canton, front that Chinese units in an overwhelming assault were pressing upon Sunk, only 15 miles north of Canton and had recaptured several more points about 25 miles to the northwest of the metropolis.

On the Min river estuary at Foochow in Fukien province, the Japanese also were reported withdrawing.

In the southwest Pacific, Allied bombers set big fires raging in the Japanese base at Salamaua, New Guinea; bombed enemy airplanes at Faisi, destroyed fuel dumps at Buka and targets at Kila, all in the upper Solomons; bombed and machine-gunned Japanese troops in the Kokoda area, New Guinea, and pounded sea-borne Japanese forces in the lower Solomons.

Once again, Gen. Douglas MacArthur's headquarters noted the absence of Japanese attempts at interception, thereby strengthening the belief in some quarters that Japan was withdrawing all available air power from the South Seas theatre for a new offensive elsewhere.

At sea, the navy in Washington reported, U. S. submarines, striking at Japan's far-drawn lines of supply, sank five more enemy ships, including a light cruiser—making a total of 99 Japanese vessels sunk or damaged by American underwater craft since Pearl Harbor.

The navy said U. S. Marines were steadily tightening their grip on the Solomon Islands and that small enemy detachments attempting to regain footholds in the strategic archipelago were "being sought out and engaged."

Aged Citizen Died Yesterday

Mr. Cannady Moore, 84, died at his home near Gardner's Cross Roads yesterday afternoon.

Mr. Moore, a prominent farmer had been in declining health for more than a year.

Funeral services were conducted at the home, by Rev. W. H. Brunson, of Ayden, this afternoon at 5 o'clock. Interment followed in Riverside church cemetery.

Mr. Moore is survived by his wife, Mrs. Eula Stokes Moore, one daughter, Mrs. E. W. Jones, of Williamson, five sons, E. A. Moore, of Norfolk, E. D. Moore, of Ayden, George and Earl C. Moore of Vanceboro and Matt E. Moore of Grifton, 18 grandchildren and 23 great grandchildren.

Two Women Die In Explosion

New York, Sept. 4.—(AP)—Two women, a 41-year-old aviatrix and a maid, were killed and nine persons injured today in an explosion in the fashionable Buchanan apartments on the East Side in Midtown New York. The blast was heard for 10 blocks.

The dead women were Mrs. David Cameron Oswald, a registered private airplane pilot in whose sixth-floor apartment the blast occurred, and a maid, Margaret Burke, 36, who died at a hospital soon after the explosion. Police reported there were long strips of adhesive tape around the living room door of the Oswald apartment.

"It's obviously a suicide, because of the adhesive tape around the door," said Assistant Medical Examiner Eugene Clark.

Still In Style.

Leavenworth, Kas., Sept. 4.—(AP)—Millionaire Banker William T. Kemper, Jr., often listed among America's 20 best dressed men, is still right in style.

He's wearing the uniform of a private in the U. S. Army.

The Kansas City financier, who heads the city's art institute in his spare time, was inducted yesterday.

DIES CHARGES FBI FELL DOWN

Asks Congress Not to Accept Biddle Report

DIES CHARGES—42. M
Washington, Sept. 4.—(AP)—The FBI and the Dies Committee were at sharp odds today over the extent of subversiveness among federal employees.

Chairman Dies (D-Tex), accusing Attorney General Francis Biddle of having "failed utterly" to comply with congressional wishes, asked the House to reject a Justice Department report which criticized the committee indirectly for sending the FBI on a time-consuming search for disloyal government workers.

Dies, head of the special committee set up four years ago to investigate subversive activities, made his request in a letter to Speaker Sam Rayburn in which he referred to a recent act of congress asking the FBI to make the checkup.

The Justice Department, the Texan charged, did not want the assignment in the first place and "it is not strange that nothing but an attempt to swear our committee has resulted x x x."

Biddle's report said that as a result of 2,095 investigations, including many suggested by the Dies committee, only 36 government workers had been fired and 13 others disciplined. This result, he added, "was utterly disproportionate to the resources expended."

Dies retorted he could come to no conclusion except that what Biddle "has done in effect is to give a license to every government employee to engage in any Communist subversive activity so long as he does not go to the extent of actually carrying publicly a paid-up membership card in the Communist party."

Instead of fulfilling the mandate of congress, he added, "the attorney general has issued a meaningless conglomeration of statistics set in a framework of general conclusions which are either totally irrelevant to the issues involved or dangerous to the internal safety of this country if applied to employment in the federal government."

Dies said he had "conclusive proof" that many suspected employees "were put under strong pressure to resign voluntarily" before the FBI started its investigation.

Will License Meat Industry

Washington, Sept. 4.—(AP)—In a move designed "to prevent the evasion of existing and forthcoming price regulations," the Office of Price Administration shortly will place the entire meat industry, except for retailers, under licensing control.

Announcement of the licensing program last night followed the beginning of court action against approximately 115 meat packers and wholesalers to compel compliance with price regulations.

Effective September 8, OPA will automatically license "all packers, wholesalers and custom slaughterers, and make the license a required condition for selling any meat product subject to price regulation."

Need More Women For War Effort

Washington, Sept. 4.—(AP)—Manpower Chairman Paul V. McNutt said today that one of every six women over 18 years old not now in the labor forces would be needed in the war effort, and he established a 12-member women's police committee in the war manpower commission.

"One out of every four housewives, perhaps one out of every three, between the ages of 18 and 44 will be employed," he said.

Latvian Vessel Sunk

Washington, Sept. 4.—(AP)—The Navy announced today the sinking of a small Latvian merchant vessel by an enemy submarine in the Caribbean area about the middle of August. Survivors were landed at a Gulf coast port.

BE SURE THAT
YOUR NEW FALL HAT IS A
DOBBS
FROM BLOUNT-HARVEY'S

This matter of Dobbs leadership is something far more than chance—or an occasional hit.

Dobbs style leadership has been attained by the brilliant, consistent work of their style originators—just as their quality leadership has been achieved by the "know how" of Dobbs craftsmen, some of whom have been with them 50 years!

To you this means you can have complete confidence in the name Dobbs. It also means the great plus that all Dobbs customers enjoy. The keen pleasure of wearing hats that are not only correct in style, but the smartest looking.

That's why the phrase...

It's the DOBBS!

means the finest in hats to well dressed men everywhere.

All the new fall styles and colors.

U.S. Fights Propaganda 'Of Axis With The Truth'

"Democracies Have a Good Story To Tell" Says Elmer Davis

By TRUDI McCULLOUGH
New York, Sept. 3.—(Wide World)

A little German corporal said, after the defeat of 1918, "propaganda lost this war for us. It shall not happen again."

The German corporal was Hitler. His is the theory that propaganda is not only the communication of carefully culled news and words designed for demoralization, but that it is a military weapon.

He used it as a camouflage tactic when he focused attention on the Balkans before he marched into the Low countries.

He used it as a blockade maneuver when—with America still neutral and Britain suing for her favorable opinion—he helped keep England out of the lowlands until he could get there, by trumpeting England's intentions to invade.

He used it as a fright device in the case of "secret weapons"... he used it effectively to promote bloodless capitulations.

That is one kind of propaganda. Hitler's kind. And how remunerative it has been for him to date all the world knows. It is turned out by an incredibly well organized word mill that has thorough coordination with the military branches.

German communiques issue from headquarters and, before they are issued at all military and propaganda men together are able to analyze, fictionalize or create them. The propaganda men don't have to make the best of what the various military headquarters say after the communiques get into print.

Against this super-smooth mechanism, United States short wave radio has gone to war.

It's methods and tactics are very different. And U. S. short wave men have reasons for the tactics they employ.

So long as United States forces are not on the continent, they are more concerned with propaganda as a psychological weapon rather than as a military weapon.

Their work is directed at the people of enemy lands and the occupied countries. Their aim is to bring despair to the first, hope to the latter.

Almost uniform procedure over the 14 great short wave transmitters directed at enemy dominated people is a program combining 15 minutes of news and 15 minutes of editorials and news features.

Uniform belief among the big stations and the government agency is that news and editorials must be kept separate. Truth in the news, they believe, is the biggest drawing card for listeners abroad, because "Europeans are sick and tired of propaganda."

Says Elmer Davis, director of the Office of War Information: "Democracies have a good story to tell and they ought to tell it. We will tell it in increasing volume as our foreign service expands. The news we broadcast overseas is supplemented in Allied and neutral countries by general background information distributed by our outposts in London, Belge, Stockholm, Cairo, Ankara, New Delhi, Chungking, etc.

"We stick to the truth, for we believe the truth is on our side. To enemy countries we broadcast news of the war. American production, etc.—again the truth—with only such omissions as actual military security may demand; but that news, in direction and emphasis, is producing the psychological effect most conducive to our victory."

Milk Producers From Four Counties Hear Purina Dairy Specialist

Attending meeting were: A. J. Andreoli, E. E. Williams, Pantego, N. C.; L. C. Hardy, J. E. Fountain, Whitakers, N. C.; W. Edmondson, R. B. Havens, Tarboro, N. C.; J. Frank Weaver, K. F. Lindsey, Williamston, N. C.; C. W. Wilson, Ray Mayne, Adrian Bowen, Washington, N. C.; John T. Thorne, Roy Bowling, D. G. Allen, Farmville, N. C.; C. W. Harvey, County Agent F. F. Hendrix, Assistant County Agent S. C. Winchester, J. B. Webb, Jr., Lyle Leichter, Greenville, N. C.; J. E. Streetman, St. Louis, Mo.

Mr. Bill Drum, owner of Drum's Hatchery and Feed Store, was also present, and is shown holding "Flores," 10 months old Grade Heifer, grown out from a baby calf in his store.

The meeting was held at the Woman's Club Building in Greenville on Monday, August 17th. Immediately following a 1:00 lunch, Mr. J. E. Streetman, Dairy Specialist from the Purina Experimental Farm and Research Laboratory, St. Louis, Mo., presented to the group a Dairy Cycle Plan for breeding, management, sanitation, and feeding. Mr. Streetman discussed the "National Food for Freedom Program," stressing the great need for increased milk production. He told of the ruthless slaughter of dairy cattle in Europe by the Nazis and the part to be played by American dairymen in feeding a hungry world both now, and after the war ends.

During the luncheon, several remarked of the difficulty of buying dairy herd replacements. Most interesting and timely was Mr. Streetman's discussion of The Purina Plan for raising larger and better developed replacements, at less cost, due to the savings of milk.

As evidence of what could be expected from this Growing Program, Mr. Bill Drum presented "Flores" to the group. He explained how she was raised in his store to smoothe on Purina Calf Starters, and from then on he fed her on Purina Dry and Freshening Chow. Her record showed her weight at 436 pounds at ten months of age, with a total feed cost (including hay) of \$60.57. When approached with an offer considerably above this cost figure, Bill Drum refused to sell her. He plans to keep "Flores" at his store until she freshens, to complete his demonstration of the Purina Dairy Cycle Program.

Strength FOR THE DAY

By EARL L. DOUGLAS

"BEWARE OF COVETOUSNESS"

Jesus was constantly teaching that nothing throws people out of spiritual alignment more often than the maintaining of a wrong attitude toward material things.

He was never deceived by appearances so that he glorified one class and condemned another. He knew so well what was in men that he sided neither with the capitalist nor with the proletarian. He knew the heart of those who had less than he and of those who had more than he.

Our Lord always took the position that there was nothing which more completely disintegrated a man's spiritual powers than does the passion to have more of this world's goods.

In the parable of the rich fool who would pull down his barns and build greater, Jesus said, "Beware of covetousness." And the word covetousness in the original Greek means "the desire for more."

Our Lord had nothing but praise for the so-called husbandman who, by diligence, prudence, and thrift worked himself into a position of competency.

But He had nothing but condemnation for the people whose passion was to lay up treasure, to raise their standard of living to heights of luxury, to fill barns and granaries to the point of bursting that they might eat, drink and be merry.

It is when the excitement of getting is at its height that God lays His hand upon the shoulder of the covetous man and says, "Thou fool, this night is thy soul required of thee."

A WISE ACTION

According to our way of thinking, the Board of Aldermen took proper action last night when it declined to permit the sale of fireworks in Greenville during the coming Christmas holidays. Similar action should be taken by the county if such a step is legal in order to prohibit the sale throughout the county. We don't know where the custom of using fireworks to celebrate such a sacred event as Christmas came from, but we do feel that it is an abominable one and should be stopped. Then, too, as badly as explosives of all kinds are needed for the war effort at this time even the small amount used in firecrackers should not be so wasted.

SOMETHING SHOULD BE DONE ABOUT IT

The matter of taxicabs came in for some discussion at last night's meeting of the city board and City Attorney R. B. Lee was instructed to get further information from proper authorities as to the legal aspects of licensing taxicabs. The matter was presented as a result of the belief that in some instances taxi licenses were being sought or secured in order to give the owners increased gasoline supplies, even though the cars so licensed were not even operated as public conveyances.

There is another side of the taxicab question that should be given some attention

Taking His Measure - For A Wooden Kimono

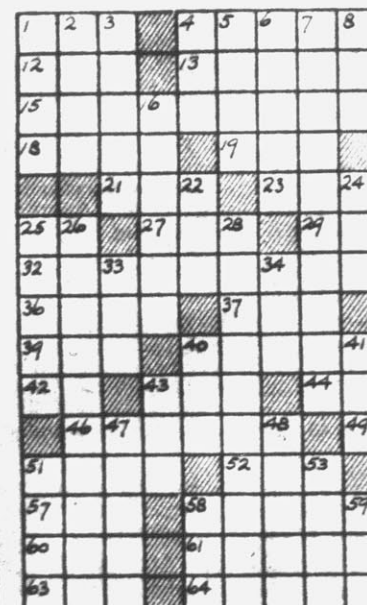

tion and if conditions are as some persons believe, action should be taken. There seems to be a general belief here that taxis are being used for immoral purposes and in the aid of prostitution, and reports from some of the nearby camps that service men, who have contracted venereal disease, state that it was in taxicabs in Greenville, lends strength to the belief. We make no charge that such conditions actually exist, but in view of the general belief and in view of the above mentioned reports, it is our opinion that the matter should be thoroughly investigated and that every effort be made to prohibit the operation of taxis by persons whose general character and reputation is not above suspicion.

lem that plagues Washington in wartime.

Vacation leave has been limited to two weeks. Civil service workers from the West wouldn't have enough time at home to make the trip worthwhile, so close-by vacations are the Washington rule. However, wartime weekly rates at mountain and shore resorts don't square with low clerical salaries. The girls were up against it.

They read that harvest labor was scarce on the Eastern Shore of Maryland and in Pennsylvania, and worked out a plan for no-cost vacations. They told several farmers they were farm-raised and would help in the harvest for board and room. They offered to pay their own bus fare.

When the farmers found the help was actually farm-raised girls who knew their way around a barnyard, instead of rotogravure farmerettes, they kicked in with \$21 a month in addition to board and room, and are doing everything possible to make the homesick rural girls feel at home.

The girls say it's swell, the next best thing to getting out with the harvest crews on Dad's place. They are arranging their vacations in sequence so the farmers who first backed the idea will have a steady supply of harvest labor when they need it.

The idea is spreading to other federal offices. There are thousands of farm-raised folks in the government, and if any considerable number of them go for the back-to-the-farm idea, it's going to help the tight farm labor situation in truck areas around the capital.

The press release to end all press releases has finally been perfected. Some of them have approached it actual value, but this one will never be bettered.

Joan Rowland, Associated Press librarian, opened an envelope from

the National Labor Relations board, heavily marked as hot stuff for the press, and found nothing but a blank sheet of paper.

Government girls go for ensembles with no stockings—with weather reservations. Here are the statistics. Wilbur, our agent for arduous research, reports that on a recent hot day, 112 of the first 200 women who passed his favorite lamp-post on Pennsylvania Avenue wore no hose. Of the 112, only 33 bothered to paint on cosmetic stockings.

On the first crisp day heralding autumn, Wilbur found only 58 of 200 braved the cool breezes without hose. He didn't bother to count the paint-ons. Losing interest, maybe.

The WAR TODAY

(Continued from Page One)
to the United Nations.
I think we may put it this way: By eliminating a powerful pro-Nazi influence from his cabinet and leadership of his party, Generalissimo Franco has—whatever his underlying purpose—strengthened the neutrality of his country, from the allied standpoint that is a gratifying sign of independence in the face of powerful Hitlerian efforts to make Spain a hewer of wood and a drawer of water for the Axis.

As a matter of fact, despite Serrano's strong friendship for Nazism, the generalissimo himself has all along maintained his freedom of action despite threats from the Axis powers. Franco's position has been extremely difficult and dangerous especially with a German army sitting on his border in France. Still, he has dared greatly and has persisted in sticking to the middle course.

Now Franco himself has taken over the leadership of Palange, and has placed in the foreign ministry Count Francisco Gomez Jordana, who long has returned to the Allies while diplomatic observers aren't inclined to jump to broad conclusions, it's a fair assumption that allied interests may profit.

As the allied powers look this situation over speculatively, it strikes me that there must pass through their minds the hope—perhaps vague, but still there—that if this autumn's fighting should swing strongly in favor of the United Nations, Generalissimo Franco might lean in their direction. Should Hitler be held in Russia, and his henchman Rommel be defeated in Africa, the allied camp would have a most attractive appearance.

What a godsend it would be for the Allies if Franco should join them and thereby make Spain the continental gateway for that second front; however, that's merely a fanciful exclamation on my part—a bit of wishful thinking. Still, queer things have happened in this war and probably will again.

Torpedo Attack Kills Crewmen

Melbourne, Australia, Sept. 4.—(AP)—Four members of the crew of an Allied ship were killed and six injured when a torpedo was sent crashing into its hull by a submarine off the southeast coast of Australia. It was disclosed today after the ship reached port.

A second torpedo missed. Shells were then fired over the bows and the submarine commander, speaking perfect English, ordered the crew to abandon ship.

The crew was afloat in two lifeboats for an hour before volunteers remanned the ship, sent out an SOS and received aid from tugs.

WILDERNESS GIRL

By LETA ZOE ADAMS

Chapter 20
The Hidden Menace
Descending to the next level they found themselves in a corridor with stuccoed walls and cement floor. A brief examination showed nothing of special interest.

More stairways and corridors and alcoves and narrow chambers.

Sandy had lost count of the levels they had descended, but presently he became conscious of a breath of air against his face. He halted at once.

"Is it my imagination, or do the rest of you smell something?"

"Smoke, maybe," Tyra said. "Only it is more pungent."

"Snap out your lights and let's stand here a minute."

At once they were enveloped in a darkness so complete that they could feel it pushing against them. Even their breaths seemed to come from beings outside themselves. Sandy did not know why he listened, but he did, intently. And he thought, he heard a sound, far off, an echoing sound—but it was gone before he could identify it. He pressed his torch switch for the darkness had become unbearable.

"There is certainly a current of air. It could hardly come from above, unless there is a system of air-shaft and that is unlikely. We didn't notice any drafts on the higher levels."

"Another thing," Gil remarked. "For being so low in these catacombs the air is surprisingly fresh."

Another flight of steps lay before them. With more than usual caution Sandy descended. At the bottom was a vestibule, but larger than many they had passed above. Sandy's light played upon a door space ahead. His pulse quickened. Another half dozen steps, and he stood in the door itself. He peered into the darting shadows made by the electric torch and held his breath, actually held his breath, in wonder.

It was a limestone cavern! Stalactites, glistening with moisture, dripped from the ceiling like a mass of icicles. The floor was powdered limestone. But these things caught Sandy's attention only momentarily. It was upon the objects in the cavern that his scientist's eyes lingered.

Inscribed stelae lined the walls like rows of sentinels. And in the center was an altar in the form of a squat-legged stone of massive proportions. Raising high on each end of the altar was the carved replica of a snake's head, the eyes glowing in the beam of the torch, the jaws open and rapacious. Since the whole altar was painted a vivid green, the effect was startlingly life-like in the weird light of the chamber.

"This is the ceremonial hall of the god," Sandy heard himself saying. "And there's our altar."

A voice inside him echoed, "But where are the guardians mentioned in the tablet?"

Where? The stone snakes, of course.

Under The Altar
Fascinated, they all stared into the stalactite-hung cavern.

Gil said a straining voice unlike his usual hearty tones. "What a job of natural phenomena! You suppose those old buzzards selected this site for their greatest temple because they could make use of these caves underneath?"

"Hard to tell," Sandy answered, shaking his head. "The ancient Mayas never did anything twice in just the same way, it seems. That's our reason for our interest in interesting to archeologists. And so puzzling."

He advanced toward the altar, sending the light beam over the lifted snakes' heads.

"The paint looks bright, chief," Gil remarked. "Do you think it could have been put on during Old Empire?"

Sandy's light moved along the top of the flat stone altar. "Probably the tribe that escaped with the codex kept it in repair until they migrated elsewhere or were wiped out. But here's another odd thing. Incense burners on the altar with the smell of copal still in them."

"That was what we smelled in the corridors," Gil said.

"But the smell of copal wouldn't hang in the air," Sandy pointed out, his brows knitting. He picked up an incense cup and turned the torch into it. "I'd stake my reputation this has been in use recently."

Tyra's voice, echoing sharply through the cavern, made them start.

"I think I hear something."

Instantly they all froze to attention. Was there a faint rustling sound or was it the result of an over-active imagination?

Sandy said, "Air currents in the passages. We'll get to work on the altar."

He directed his light beneath the stone slab. A space of about sixteen inches showed under the slatted legs. Stopping, Sandy scraped away the chalky limestone dust of the uneven floor. His fingers explored the stone.

"There seems to be a slab mortared here," he announced, after a breathless moment.

"Lord, chief," Gil burst out. "Do you think we've really found the Maya Key?"

Flight
He clipped off the last word realizing, apparently, that he had revealed their secret to Tyra.

Sandy still scraping at the dust, heard her say quickly, "Oh! It's the famous lost Rosetta-stone of the Mayas that you're hunting, then?"

Helen asked: "You know about it, Tyra?"

"Everyone who has lived in Mexico very long knows about it," Tyra stated, but there was a tremor of emotion in her voice. She added hurriedly, "What makes you believe it might be under this particular altar, Sandy?"

Sandy glanced up, grinning a little. "That's a long story. I'll tell you about it when I have more time."

Her eyes, in the light of the torches, were round and somehow troubled. Her lips parted as if she intended to speak again, then closed firmly.

Sandy said slowly, "There might be an altar under that stuff, but it'd be a devil of a job to find it."

Tyra asked, "Are you looking for a certain altar?"

"Yes," Sandy said briefly, avoiding her eyes.

And Gil put in, "Does the path go on from here, chief?"

It did, strangely enough. It led around a half-fallen wall to a courtyard, then through a low doorway to a narrow hall or chamber. Sandy halted in the doorway to examine the lintel, which was carved.

"Early Empire, all right," he stated.

Inside the chamber there was an odor of decay not unusual in the lush tropics but somehow disturbing in that place of the dead. Sandy snapped the switch of his electric torch and sent the yellow beam ricocheting over walls and floor. He gave a start as the light fell upon a black hole almost at his feet.

"A stairway! The mound must have underground rooms like the Great Pyramid at Palenque."

"Apparently the trail leads right to this staircase," Gil said. "Certainly is a poser how it got here."

There was no question about their going down into the pyramid. Wild horses could not have held Sandy back even though he felt that curious pricking at the base of his hair again when he set his feet upon the stairs. This was adventure and adventure is a siren.

To Be Continued

Spanish Upheaval . . .

(Continued from Page One)
tory for Allied diplomacy but said it undoubtedly weakened the Axis slightly.

Spain's position between British guns and Gibraltar and German guns in occupied France, President Roosevelt's proposal of post-war assistance in her reconstruction and traditional bonds linking Madrid with Latin American governments now largely arrayed against the Axis were variously cited.

A wait-and-see attitude, however, was adopted by prominent Spanish republicans who had fled to Mexico City.

Former Premier Indalecio Prieto said "it would not be going too far" to suspect the shakeup announced in Madrid yesterday was a maneuver to give Generalissimo Francisco Franco time to moulder his future policy around the outcome of the new Axis offensive in Egypt.

Franco, the brother-in-law of Serrano Suner, himself took over as council chief of the Falange, the only authorized political movement within Spain since the close of her civil war.

The foreign ministry went to Count Francisco Gomez Jordana, veteran soldier-statesman, a conservative nationalist who also held the post when the United States recognized Franco's government April 1, 1939.

Alexander W. Wedell, former U. S. ambassador to Spain, said at Richmond that the shift of foreign ministers "might be fairly translated as an indication that relations with the United States" would be examined with more moderation.

The London News Chronicle said it would "be rash to expect any drastic change of foreign policy," but described the dismissal of Serrano Suner as welcome news.

"Prospects for restoration of the monarchy have slightly improved," the newspaper said. "Prospects of an increase in Axis influence and even of the continuation of the use of Spanish ports by Axis submarines—an abuse of neutrality for which Serrano Suner has found endless excuses and denials—have slightly worsened."

Berlin radio broadcasts insisted there would be no change in Spanish foreign policy and implied that Franco sought primarily to eliminate long-standing friction between Falange politicians and his army.

Papers Will . . .

(Continued from Page One)
buildings.

"We are going to have to take bridges which may or may not be used," he added, "but we won't take bridges or tracks that are useful to the war effort."

Lieut. Gen. Brehon Somervell, chief of the army services of supply, reported that arms production schedules for September and October were so great as to exceed the capacity to provide material, and that schedules in the months following would be much heavier.

"We haven't won this war yet and we'll be a long time winning it," Somervell said. "This time it's not a question of 'how long,' but 'if.'"

The job of the newspapers, said Vice Admiral S. M. Robinson, chief of the navy's bureau of procurement and material, is to "shock the people into a realization of our true state of affairs," and to prove that the salvage campaign "is no boondoggling gesture to build synthetic morale."

"If the people are not convinced, your headlines may tell them how we finally arrived, only to find that we had come with too little and too late," Robinson concluded.

A minimum of 17,000,000 tons of iron and steel scrap must be rounded up in the last six months of this year to prevent the steel industry's furnaces from shutting down, it was estimated by Paul Cabot, deputy director of WPB's conservation division.

Leasing J. Rosenwald, director of the division, presided at the conference.

"This is the first time in the war that a high government official has appealed to the newspapers collectively for any emergency action," it was noted by Henry Dooley, president of the Omaha World-Herald.

MISSING FLIER REACHES BASE

Associated Press
Writer Is Still Missing

At An Allied Base In Australia, Sept. 4.—(AP)—Lieut. Duncan Serran of Manawa, Wis., pilot of a Marauder bomber which ran out of gasoline on a flight from Townsville, Australia, to Port Moresby, New Guinea, has reached this base after tramping through New Guinea jungles for 20 days.

His arrival left only two men missing of the five who were with him, one his navigator and the other Vern Haugland, Associated Press war correspondent who went to Australia from Los Angeles.

Serran said today that Haugland was last seen as he listened to instructions on the use of his parachute and then jumped into space 13,000 feet above New Guinea.

That was August 7. The first crewman to reach Port Moresby struggled in on August 17 and relief parties sent out then found two others.

Serran said today he had hopes both Haugland and the plane's navigator would get out of the jungle successfully, pointing out they might have caught fever or been injured on landing and thus were delayed.

Moreover, he said, natives in some parts of the island are scarce and it might take time to contact leaders for a trip to a friendly base.

Serran was flying his bomber with several other planes when "heavy soup" was encountered, he related. The flight leader took the planes over the soup and through a hole and reached the base before darkness.

"The leader had gas, I didn't but tried to follow as far as possible," Serran said.

"By this time the soup was thick and rough so I circled the jungles and gave orders to bail out."

"My radioman went out first, then the turret gunner, the tail gunner and then Haugland."

"The navigator told Haugland what to do and then bailed out right after him."

"This was the first time out for all of us."

The altimeter showed 13,000 feet but jagged mountain tops were reaching up within a few thousand feet of the plane and Serran decided a crash-landing would be suicide.

He jumped after the five others had bailed and then put the plane on its automatic pilot.

He couldn't get through between the pilot's and co-pilot's seats while still wearing his parachute—so he took it off, walked to the back of

before launching into an explanation of the "Nebraska plan."

the plane and donned his parachute again.

"I fastened the chute feverishly, fearing that the plane would cut out or the automatic pilot go on blink," he said. "When I bailed out it was almost dark."

Serran hit some trees but landed safely. He rolled up in his parachute and spent the night thus before starting the long journey south.

William Lang Has Gone Death Row

Sheriff's officers yesterday took William Lang, Negro farm tenant to the State Penitentiary at Raleigh, where he is to be put to death in the lethal gas chamber on Friday, October 23, for the murder of his wife, Nancy Lang, and Nann Powell, colored. Lang will spend the intervening time on Death Row.

A jury in Superior Court found him guilty of murder in the first degree Wednesday night. Judge L. H. Hamilton of Morehead City sentenced Lang to death yesterday morning. It was the first time in the memory of the present generation that a prisoner had heard his death sentence pronounced twice at the same trial.

Drunks Parade In Recorder's Court

Judge J. W. H. Roberts disposed of the following cases in city recorder's court today: Albert M. Allen, driving drunk, six months at \$50 and costs and to forfeit license for two years, judgment suspended on payment of fine and costs, and not to drive a car or drink liquor for two years. Jasper E. Lloyd, drunk and failure to pay tax for 30 days, suspended on payment of costs and \$3 tax fee. L. E. E. and Hubert Worthington, colored, drunk and disorderly and mutual assault, Hubert got 30 days, suspended on payment of \$15, costs deducted; Luby was acquitted. Willie Underwood, colored, drunk and disorderly, 30 days on street for costs deducted. L. W. Parrish, drunk, 30 days on roads. Charles E. Duncan, colored, disorderly conduct, 30 days, suspended on payment of \$15, costs deducted. Lester Thomas Heath, crashing a wheel, \$5 on costs, and Lannie Howell, drunk, 30 days or \$15, costs deducted.

Buck Newsom Hurls Shut-Out Against Cincinnati Reds

DODGERS WIN SCORE 4 TO 0

Cardinals Win From New York Giants 7 To 0

By JUDSON BAILEY
Associated Press Sports Writer

When the Brooklyn Dodgers bought big Buck Newsom from the Washington Senators last Monday for a price now understood to have been \$25,000, plus a minor league pitcher, they said the would be satisfied if the veteran won three games for them in the stretch drive for the National league pennant.

On that basis the showboat's debut for the Dodgers yesterday at Cincinnati was worth \$233.33 and Newsom, with his rare ability for a grand gesture, provided a performance to meet the value.

He shut out the Cincinnati Reds 2-0 on four scattered hits, no two in an inning, and struck out eight men in an almost airtight hurling duel with Johnny Vander Meer, who himself fanned eight and allowed only four safeties before being removed for a pinchhitter in the last eighth inning.

However, Vandy had one wild spot in his effort and it cost him an unearned run and eventually defeat. In the third inning he walked the first two men up, Augie Galan and Arky Vaughan. Newsom grounded into an unusual double play, ending Galan and himself and putting Vaughan on second, but Eric Tipton dropped Pee-wee Reese's liner to centerfield for a two-base error and Vaughan scored.

Joe Beggs, who went to the mound in the ninth, walked the first man and severed a single to Joe Medwick. Ray Starr hurried to the mound and fanned Dolph Camilli. Then Mickey Owen hit a long foul which Rightfielder Max Marshall caught, and Frenchy Bordagaray scored after the catch.

The victory, closing Brooklyn's last western swing of the season, kept the Dodgers 4½ games ahead of the St. Louis Cardinals, who crushed the New York Giants 7-0 behind the four-hit hurling of Lefty Howard Pollet.

The young southpaw hadn't won a game since June 7, but he exerted his old spell over the Giants, whom he had beaten three times in the spring, and the only club he has beaten all year except the Chicago Cubs.

The Cards made nine hits, five of them doubles in the box score, but three of them flukes on the field, as the Giants sabotaged old Carl Hubbell. With the bases loaded and two out in the third inning Ervin Dusak lifted a fly which fell safely between Babe Barba and Bill Jurgens for two bases. In the sixth, when St. Louis scored four times, Centerfielder Babe Young let two sinking liners go through him for doubles and barely held onto another after a juggling act.

Philadelphia's night game at

Carolina's All-Alumni Coaching Staff Maps Campaign

The new all-alumni football coaching staff at the University of North Carolina is getting down to business at Chapel Hill, planning for the fall campaign at the opening practice. Left to right: Tom Young, backfield coach; Head Coach Jim Tatum; Andy Bershak, North Carolina's All-America player in 1937, who will coach the ends; Gray Pritchard, line coach.

Pittsburgh was postponed.

In the American league the speeding Boston Red Sox gained half a game on the idle New York Yankees by smothering the Detroit Tigers 3-0 on four-hit hurling by Bill Butland, who now has won six in a row. The Red Soxers were held to five blows, but made them good for one run in the third and another in the sixth for their fifth straight triumph and 23rd in 27 games.

The Washington Senators turned the tables on the Chicago White Sox and swept a doubleheader 3-2 and 14-0, getting the stupendous sum of 20 hits off Thornton Lee and Ed Weiland in the second game while Rookie Rae Scarborough was checking Chicago on five. In the first encounter Sid Hudson pitched one-hit ball for seven strikeouts, but yielded three together for both White Sox runs in the eighth.

Syracuse shut out Baltimore in four straight in the last series between the two in the New York city. Snooker Drefs, southpaw pitcher of the Concord club of the North Carolina State League, hasn't lost a game at home this year.

Frederick Barbarossa, the first reigning German king, was chosen in the Romer, Frankfurt's 500-year-old city hall.

The Benedictines were the first monks to introduce monastic life into western Europe.

Portsmouth Leads In The Piedmont

Charlotte, Sept. 4—(AP)—Two garrison finishes by the Charlotte Hornets last night dropped Greensboro into second place, one point back of Portsmouth as the Piedmont league headed into the season's closing series beginning tomorrow.

Charlotte lowered the Red Sox colors 2-1 and 3-2, winning in the closing inning of each game. Charlie Roberts doubled in the ninth of the opener and tried to come all the way in when Johnny Fry singled. Lewis' rifle shot to the plate beat him but Bud Sheeley dropped the ball and the ball game. In the last of the nightcap Lyons walked and went to third on Woodall's scratch hit. Then Auld Harry Smith plodded up as a pinch hitter, swung the lumber into a fast ball and lofted out a fly that scored the ball.

same-run. The tried and found true combination of good pitching and heavy hitting gave Portsmouth a 7-2 decision over Richmond. Behind Woody Johnson's six-hit performance, the Cubs sprayed the outfield with 13 assorted blows.

Durham completed a sweep of its three-game series with Norfolk by taking the Tars 9-4, the Bulls making a four-run spurge in the ninth that wasn't actually needed.

Asheville rounded out the evening with a twin victory over the Twins of Winston-Salem in the finale of the cellar series. Scores were 2-1 and 3-2.

All clubs observed an open date today.

Sports Roundup

By HUGH FULLERTON, JR.
Wide World Sports Columnist

New York, Sept. 4—While the hollering is going on, what's the matter with Hank Borowy for the "rookie of the year" prize? We've had nominations for Vern Stephens of the Browns, Johnny Pesky of the Red Sox and Johnny Beasley of the Cards, but has any of them bettered Hank's four shutouts and that almost-no-hitter for the Yanks?

Guess folks around here got so used to Borowy when he used to win 'em all for Fordham that they forgot he's still a rookie in the big leagues. Wonder what the scorer would have called that one "hit" Wednesday if it had come in the ninth inning instead of the first? ...Erett Rodgers, West Virginia backfield coach, rolls out of bed every morning at 6 A.M. while the Mountaineers are in camp just to look for squirrels. ...If the team loses a couple of games the squirrels will be

around looking for him.

Headline Headliner.

When stories on the Newsom and Cullenbine deals came through the other day, the guy on the Detroit news desk penned this self-explanatory banner: "Bobs And Roy 'Inherit the Earth.'"

Signal Corps.

The Dodgers have called upon so many relief pitchers lately that Church Dessen and Frenchy Bordagaray have cooked up special signals for them. When Chuck indicates a fat man, Hugh Casey comes in; a thinman motion means Max Macon; for Ed Head, Dessen scratches his thigh; for Kirby Higbe he goes through the motions of eating a steak and for Whit Wyatt he pantomimes a man walking behind a plow.

Sportsmentation.

If you see Mike Getto, coach of the football Dodgers, looking nervously over his shoulder these days, he's probably expecting a guy to turn up with divorce papers. After that Green Bay tussle, Mike wrote his wife that he never wanted to see another Hutson. And he mailed the letter before he remembered that Mrs. Getto's family name is Hutson. Lawson Robertson, who coached five Olympic track teams, carries two letters in his pocket, one from General MacArthur and one from a Japanese Olympic official asking cooperation in staging the 1942 Olympics "because you are a peaceful nation like we are." ...Howard Kingsbury Smith, Tulane's 1936 track captain, is the new correspondent of a news weekly at Bern, Switzerland. ...Fritzie Zivic has had 18 fights since he lost the welterweight title to Red Cochrane a little over a year ago.

TODAY'S GUEST STAR.

Nixon Denton, Cincinnati Times-Star: "A middlewestern school has published a brochure, '3,500 facts about football.' The big fact is that not one of the 3,500, with a war on, means anything."

Service Dept.

Announcement at Fort Sheridan, Ill., that footballs are available at the post gym carries the significant note: "They can be assigned for one day only." ...A recent arrival at Camp Bowie, Tex., is Pvt. Guy D. Furious, a crack amateur boxer. With that name he ought to do all right in the weekly camp bouts. ...If coaching will do it, the Pensacola, Fla., Naval Air Base should turn out a fair football team. Assisting Lieut. Comdr. Patsy Clark are two former head coaches, Glenn Harmonson of Lehigh and George Sauer of Nebraska, and Weems Baskins, Ex-Mississippi line coach.

Bernie Masterson, Herb Brackett and Ed Danowski. Patsy also has a squad of about 80 experienced players. Most complete football brochure to hit this desk so far comes from the Great Lakes Naval Training Station.

Where There's Smoke.

Remember that crack Joe McCarthy once made that pipe-smoking baseball players were "too contented" for his team? Well when the Yanks' Newark farmhands and the Jersey Giants have a field day Sunday, one of the events will be a pipe-smoking contest. Wonder if the winning smoker will be fired?

New Guinea was the first south seas island known to Europeans.

Automobile Kills Deep Run Farmer

Kinston, Sept. 4—(AP)—Zack Harper, 68, retired farmer, died at hospital here last night of injuries suffered when he was struck by an automobile Wednesday at Deep Run. Coroner Farley A. Garner, who set an inquest for 8 p.m. Tuesday, said the car was driven by Jason Tyndall. Witnesses reported that Harper walked in front of the car, Garner said.

N. Y. Stock Market
New York, Sept. 4—(AP)—Stock leaders generally sat on the bench in today's market contest and left the field mainly to specialties which turned out to be notably erratic performers.
Low-priced stocks accounted for a somewhat better volume of around 325,000 shares. Small price variations ruled in the final hour although isolated wide spreads were in evidence.

County Fair ...

(Continued from Page One)
cials stated that this year's premiums would be paid in war stamps and bonds or in cash as the winners desired.
All members of the armed forces who attend the fair in uniform will be admitted free.
The midway this year will feature Cötlin and Wilson shows described by fair officials as the largest carnival that has shown at the local fair since its organization.
Officials in announcing the fair urged that the people of the county co-operate in every possible way to make the exhibits the best ever shown here.

Heavy Leaf ...

(Continued on Page Four)
129,124 pounds for \$2,312,835.26, an average of \$22.44.
Last year's figures for the corresponding periods were for the week sold 5,700,458 pounds for \$1,405,044.38, an average of \$24.65; for the first two weeks last season (eight selling days) 9,867,000 pounds sold for \$2,503,994.50, an average of \$25.38 per hundred.
Mr. Rankin stated that one of the reasons for the lighter sales to date this season on the local market was the fact that growers in this immediate section were later completing their curings and have not had time off to grade their tobacco and prepare it for market.

Opposition To ...

(Continued from Page One)
rebates to individuals.
Immediately after the treasury program was presented yesterday more than a majority of the committee members expressed opposition to it.
Stam said he agreed generally with Randolph Paul, treasury general counsel, that if a sales tax were to be levied it ought to be at a flat rate. While the treasury official suggested a levy on services as well, the congressional staff opposed this.
Chairman George (D-Ga.) told reporters the committee planned to decide whether it would write into the new revenue bill a spending tax as asked by Secretary of the Treasury Morgenthau, a sales levy or some other form of source collection of taxes before it acted finally on individual income rates.
Senator Byrd (D-Va.) said he believed Morgenthau has left no course open to the committee but to decide whether it would write into the new revenue bill a spending tax as asked by the house-approved revenue bill.
"From what the secretary says," Byrd told reporters, "there must be additional money raised beyond that provided in the house bill. As I see it, the sales tax is the only answer. Certainly, we can't impose such a ridiculously-involved spending tax as he has suggested. It would be easily possible for a man to pay more tax than his income under such a levy."
The Morgenthau plan would call for a 10 per cent levy on all the unexpended spendings of single persons who earned more than \$500 a year and of married persons with incomes of more than \$1,000. The latter would be given additional exemptions of \$250 for each dependent.

Rogers Guilty ...

(Continued from Page One)
Page went there and discovered the body. Sheriff's officers were called. Officers arrested Rogers and Marie Peavey next morning while returning to the scene of the killing. After questioning they were taken to Raleigh for safe keeping. The girl told officers that she was afraid of Rogers and was under his influence. An uncle provided bail for her.
Rogers was kept in State Prison from May until the trial began this week. He spent the time about 20 feet from Death's Row, he told a reported after the second degree murder verdict was rendered. He said he saw prison attendants fit a leather mask to a white prisoner's head in preparation for entering the gas chamber to die. A last minute reprieve saved the condemned man, and when Rogers left the prison the man was serving a long term and working in the prison yard.
Rogers has four young children, the eldest, a girl, is married, the boys are in an orphanage. He had been a farmer, but worked at a defense plant the past year.

Nazis Report Sinkings.
New York, Sept. 4—(AP)—A German broadcast said today that U-boats had sunk two coastal vessels within several hundred yards of the United States Atlantic coast and also had sunk a medium-sized American merchantman which offered gunfire resistance.
The DNB broadcast, attributed to Nazi military sources, had no confirmation.

DENY RELIEF SHIP PASSAGE

Japan Bars Red Cross Ship From Oriental Waters

San Francisco, Sept. 4—(AP)—With every foot of space packed with supplies for American prisoners in the Orient, the neutral relief ship Kanagawara remained at anchor today in a west coast port.
Pacific area headquarters of the Red Cross had no official comment on Tokyo broadcasts that Japan had refused passage of the Red Cross ship into Oriental waters.
The Kanagawara was laden with clothing, food, medical supplies, sweets and tobacco for the prisoners of Bataan and others held by the Japanese.

Tokyo, (From Japanese Broadcasts), Sept. 4—(AP)—Domel said today the government refused the American Red Cross permission for a chartered neutral ship to bring supplies to American war prisoners because "Japan could not permit free and uninhibited American collection of information in areas of war operation as such a voyage would render possible."
"The Japanese government never has refused to permit such relief as the news agency said, but has refused passage of neutral ships in strategic waters as a natural measure necessitated in the conduct of the war."

Domel declared furthermore that the Tokyo government had advised the American Red Cross through the International Red Cross organization at Geneva that Japan "is giving American war prisoners and internees fair treatment in accord with the principle of international law. Hence the government does not recognize any special need for additional comfort and relief."

Retain Aged White House Employees

Washington, Sept. 4—(AP)—Two veteran White House clerks who otherwise faced automatic retirement next month, were told by President Roosevelt today that "I don't want either of you to leave me as long as I'm here."
The two, Rudolph Foster and Maurice Latta, have seen history made at the executive mansion since before the turn of the century. Foster came to the White House under President Cleveland on March 5, 1897, and Latta followed on July 8, 1898, in the McKinley administration.
Foster will be 70 next month and Latta 72. The compulsory retirement age for government employees is 70, and Latta has received previous extensions of service.

Plane Goes After Stricken Sailor

Washington, Sept. 4—(AP)—A rescue mission to bring a sailor ashore for an emergency appendicitis operation was completed by the crew of a coast guard flying boat despite a rough-sea landing and a takeoff with damaged wings, the navy reported today.
When a destroyer offshore reported that Henry Castellano of Palisade, N. J., was suffering from acute appendicitis, Lieutenant Commander R. L. Burke, commanding the coast guard air station at Elizabeth City, N. C., assembled a crew and flew to the destroyer's position.
Waves were running 8 feet high but the plane made a successful landing. Castellano was transferred to the plane in the destroyer's motor whale boat, and although the tips of both wings of the plane had been damaged, Burke and his crew got it into the air and safely to shore. Castellano was taken to an Elizabeth City hospital where a successful operation was performed.

Praises Action Of Navy Fliers

Washington, Sept. 4—(AP)—Praising the performance of navy fliers in the Solomon Islands offensive, Major General A. A. Vandegrift of the Marines said today "their reaction on call was instantaneous and accurate—their preliminary bombardment wonderful."
In a personal letter to Lieut. Gen. Thomas Holcomb, commandant of the Marine Corps, Vandegrift spoke particularly of the support provided by carrier-based fighters and dive bombers for the landing operations by Marine amphibious troops under his command, which captured the Japanese base at Tulagi.

WAR SUPPLIES TO AUSTRALIA

Increased Quantity Materials Being Received

Canberra, Australia, Sept. 4—(AP)—The flow of Australia's essential war requirements from the United States is gradually increasing, Prime Minister John Curtin said in a statement today.
Planes, tanks, guns and equipment for the fighting forces make up more than half the lease-lend supplies received here to date, the Prime Minister added.
Among the remaining 50 per cent he listed machine tools for increasing Australia's own war production, tinplate, raw cotton, rolling stock, trucks, lubricating oils and petroleum products.

Even more important than this lend-lease aid, however, Curtin asserted, is the direct help which Australia has received from the United States through the presence of American armed forces in Australia.

Successes achieved by United States forces in the Coral sea, at Midway and in the Solomons have been of vital importance to this commonwealth, he declared.

In reciprocation for the lend-lease aid she is receiving, Curtin said, Australia is providing American forces here with various supplies and services.

Sabotage.
New York, Sept. 4—(AP)—The British radio broadcast a Stockholm report today saying the big British cellulose products factory at Valby near Copenhagen, had been destroyed by an explosion attributed to sabotage.
Three dead and eight wounded were located in the wreckage immediately after the blast, said the BBC broadcast, heard by CBS.
