Ickes Orders Six-Day Work Week Throughout Nation's Coal Industry

Wage Deadlock Between Miners And Operators Remains Unchanged; Secretary Tells Owners Mines Failing to Observe Order Forfeit Price Increases

Washington, May 4—(AP)—Fuels Administrator Ickes said today the deadlock between coal mine owners and operators remains the same as it has been except that the miners have gone back to work for another 15 days.

Ickes, who a little earlier in the day had ordered a six-day work week throughout the coal mining industry, said that negotiations for a settlement of the miner-operator wage dispute would have to be conducted directly by representatives of the owners and union, "subject to approval by the War Labor Board."

He said that he has no authority by law or by executive order to settle the dispute, and he told reporters flatly: "There is no way out of it means by-passing the War Labor Board."

"Negotiations must be carried on by representatives of the operators and miners subject to approval by the War Labor Board."

Ickes, at a special press conference, said he knew of no arrangements for the resumption of negotiations and that he had had no communication with either side since his conversations with United Mine Workers' President John L. Lewis Sunday.

Asked whether the 15-day truce called by Lewis Sunday night to start today was to return for anything Ickes would do, or try to do, the fuels administrator said, "no conditions were asked and none was given."

In New York City, Lewis, who earlier in the day declined to comment on the six-day work week order, said of Ickes' refusal to accept its terms: "I have no statement to make on this morning."

He said he suggested a two-week truce but that when Lewis left the fuels office here Sunday morning he Ickes did not know what the miners' president was going to do.

Asked why he had proposed a two-week delay, Ickes said he had just taken over the case at the direction of President Roosevelt, and "I wanted to get my feet on the ground."

While saying he has "no power or purpose to undertake negotiations," he added he would be "very glad to help in any way."

"Ickes was asked, 'the War Labor Board decides the dispute and Lewis refuses to accept its decision.'"

To Set Uniform Prices On Food

Atlanta, May 4—(AP)—Regional OPA Price Executive Joseph J. Spengler today announced that flat dollars and cents ceiling prices on 21 categories of food will be set for the southern region "probably by the first of next week."

Work already has begun, Spengler said, on surveys of prevailing prices in 15 southern cities with a view to implementing the new price order.

Included in the list of foods to be covered are packaged dried fruits, lard, coffee, processed fish, frozen fish, cooking and salad oils, shortening, canned citrus fruits and juices, evaporated and condensed milk, syrups, honey, flour and four fixes, macaroni and noodle products, peanut butter, sugar, cereals, poultry, packaged cheese and butter.

Cities where regional and local price officials are cooperating in the price survey include Columbia, S. C.; Raleigh and Charlotte, N. C.

Prices will be regulated by committees, Spengler stated and will be set by district pricing orders signed by directors of OPA district offices. The orders will apply only in the market areas specified in the several orders.

Production Rolls Up, But Still Short Of Goal

Washington, May 4—(AP)—Record-breaking production totals in aircraft, warships and merchant vessels were rolled up in March. Donald M. Nelson reported today, but first-quarter arms output still fell far short of the rate needed to meet military plans of 1943.

Aircraft output soared to 6,200 planes and four-engine bombers topped the 500-a-month rate for the first time, the War Production Board chairman disclosed in his monthly report.

U. S. EXTENDS OCCUPATION IN PACIFIC

Navy Announces Taking Over Of Russell Islands Off Guadalcanal Base

By The Associated Press American occupation of the Russell islands 18 miles off the northwestern tip of Guadalcanal was announced today by the Navy.

The occupation, which took place in February after the conquest of Guadalcanal, strengthened the position there and marked the second extension of Pacific bases announced in the last fortnight. On April 23 the Navy reported that Marine forces had moved into the Ellice islands, in the south central Pacific.

The Russell group was occupied without resistance.

The Navy also announced attacks on Japanese installations at Munda, in the central Solomons, at Rekata bay, on Santa Isabel island, and eight raids Sunday on Kiska in the Aleutian island chain.

A Japanese official called attention today to American and British war production and asserted that the Mikado's armies now had reserve material for a short period of the "war."

A Tokyo broadcast said "The productive strength of America and Britain is pitted against the productive strength of our nation. Strength of production is strongest in America. It is shops, plants and machines, not being produced at a tremendous rate."

Other Pacific war developments: Australia—Gen Douglas MacArthur's headquarters disclosed that admitted "heavy" Allied losses suffered in a battle Sunday over the Aradura Sea off Darwin, Australia, were caused by violent winds—not by Japanese fighting skill.

A spokesman said Allied fighters pursued the Japanese raiders far over the sea, and when they headed for home they ran into buffeting headwinds. Some were unable to land, others crash-landed on the Australian shore.

The extent of Allied losses was not given, but a spokesman said three pilots were missing after the battle against 21 enemy bombers and 30 fighters. At least 13 Japanese planes were destroyed, and was considered likely that others failed to reach their home base in the bad weather.

Burma—British headquarters said RAF bombers raided the big Japanese base at Akyab by day and night, setting fires, while other RAF planes strafed enemy troops along the Bay of Bengal coast farther north.

No change was noted in land fighting.

China—U. S. Army fliers were officially credited with blasting six Japanese planes out of the skies and probably destroying seven others in a running battle over Hunan province. Only one American plane was lost.

Fleming Renamed Grimesland Mayor

A. P. Fleming yesterday was re-elected Mayor of Grimesland for the third consecutive term in a close election in which his vote was 66 against 61 received by his opponent Leslie E. Elks.

Dr. C. H. Spengler, T. R. Rouse and H. H. Brooks were re-elected to the Board of Aldermen and T. R. Dixon and M. H. Godley were elected as the board's new members, the body having been increased from three to five. A. Elks was the only alternate candidate besides those elected.

Columbia Dean Dies. New York, May 4—(AP)—Dr. Herbert Edwin Hawkes, 70, dean of Columbia College since 1928, died today in the Harkness pavilion of the Columbia Presbyterian medical center after an illness of several weeks.

Crush Expedition

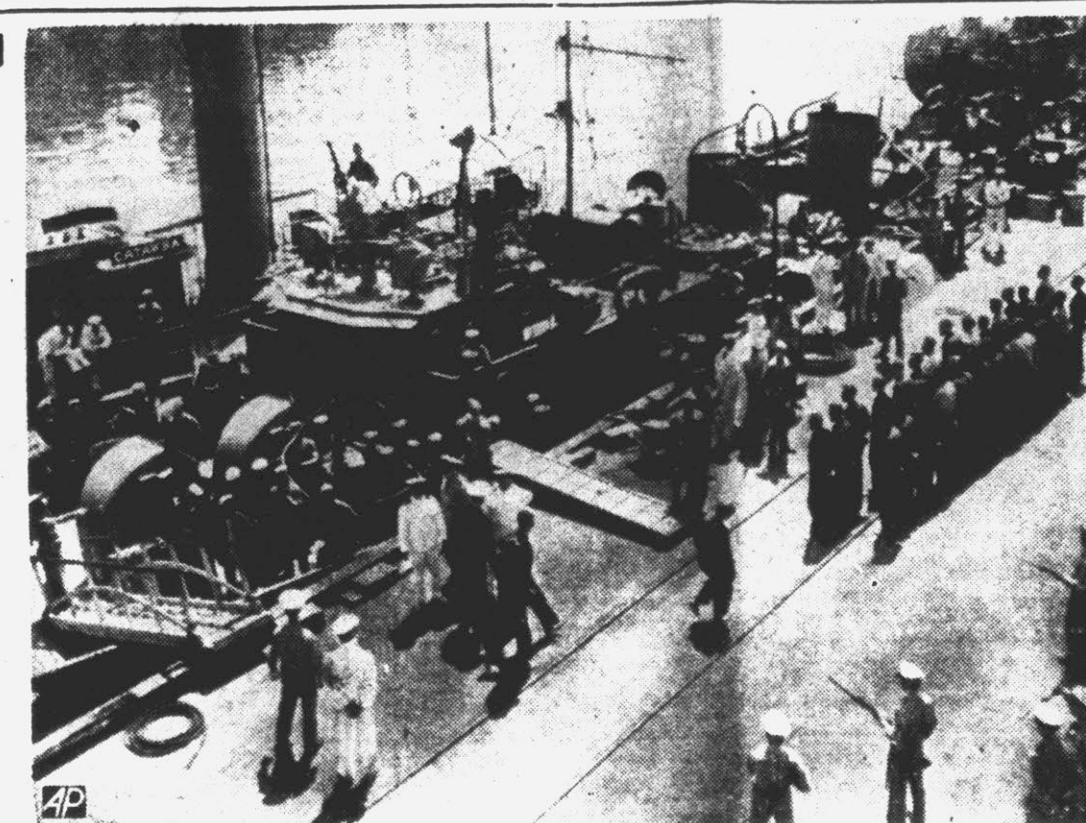

14—CRUSH EXPEDITION M. Washington, May 4—(AP)—An American light naval force, outnumbered two to one, repelled a Japanese supply expedition west of the Aleutian islands March 26, the Navy reported today, and damaged at least two enemy heavy cruisers and one light cruiser.

United States ships suffered only minor damage and casualties to personnel were extremely light, a Navy communiqué said.

The battle started shortly after dawn and lasted three and a half hours. It ended when daring destroyers made a torpedo attack on the Japanese and the enemy withdrew.

U-Boat Crew Prisoners Taken Ashore In U. S.

Thirty-three survivors of a German submarine sunk by the U. S. Coast Guard patrol craft Icarus off the Carolina coast are herded ashore at the Charleston, S. C., Navy Yard from the Icarus, under guard of Marines with fixed bayonets. The U-boat's commander, Kapitän L. U. von Helmut Rathke, stands beside his men in the front row at extreme right while his executive officer and a sailor (left center) approach the formation. (Associated Press photo from U. S. Navy).

CITY SCHOOLS CLOSE MAY 25

Dr. M. A. Huggins Of Raleigh to be Baccalaureate Speaker

By CHESTER WALSH The Greenville High School will hold commencement exercises Sunday evening, May 23, and Tuesday night, May 25, at 8 o'clock. There will be no outside speaker. The program will be made up of short talks by graduates and music by the club and the high school band under the direction of Harold McDougle. This type of program has been presented in Greenville before and met with public approval. Superintendent Rose stated:

One of the features of the graduating program will be the coming back of boys and girls from college to receive their high school diplomas. This is a result of a large number of this year's senior class going to college in January and February after passing college entrance examinations. They will don their caps and gowns with their classmates and receive their diplomas.

The principal, teachers and students and parents have manifested a patriotic spirit toward the school work this year while we have had to meet unexpected and unusual conditions as a result of the war, said Superintendent Rose today.

"They have taken a new grip," he operated in every way and cheerfully and all down the line. The youngsters and grownups have responded to every call and have functioned efficiently in the war work assigned the schools. Our high school students will rank with any in the country," Rose added.

Nazis Launch Offensive For Kuban Delta Area

Soviets Down 54 Enemy Planes In Two Days of Fighting

By EDDY GILMORE Moscow, May 4—(AP)—The battle for the Kuban Delta, an area reaching roughly from Novorossiysk on the Black Sea northward to the Sea of Azov, is in full swing and it is not unlikely this is the beginning of the great struggle of the summer.

Both sides apparently fought hard to hold their ground positions without change in the last few days, but a Tass dispatch from the Kuban told of another gigantic air battle west of Krasnodar, with the Soviet army shooting down 54 German planes while losing 21 of their own in two days.

This was the second time that the Germans have attempted to strike in the Krasnodar region since the resumption of spirited warfare in the Kuban—and this campaign finds Soviet aviation able to meet every challenge of the German air force with American-made planes carrying their lead in the still indecisive fighting.

There was increased activity in other sectors of the front with the Russian air force making itself felt by raids on German communications and airdromes.

The Russian midday communiqué as recorded in London by the Soviet radio Monitor from a Moscow broadcast did not mention any fighting in the Kuban during the night, although the midnight communiqué had told of 900 more Germans being slain in violent fighting, bring their toll to nearly 8,000 in recent days.

The German communiqué, as broadcast by the Berlin radio and recorded by the Associated Press, asserted that the Soviet army continued to attack the Axis Kuban bridgehead heavily but unsuccessfully yesterday. German line units shelled war factories in Leningrad, the communiqué claimed.

The German counterattacks, be- (Continued on Page Four)

TO TRANSFER AIRPORT LAND

Government To Officially Take Over Site Tomorrow

By CHESTER WALSH The Pitt County Commissioners and Greenville Board of Aldermen will hold a joint session at the Courthouse tomorrow morning at 10 o'clock to pass resolutions certifying the transaction of acquiring more than 100 additional acres of land to enlarge the county-city airport across Tar River for use as an auxiliary training base for the United States Marines.

Monday was the last day the property owners could take exception and none were filed. City Attorney R. B. Lee stated today that he delivered the final judgments in the condemnation proceedings to Superior Court Clerk J. Frank Harrington for his signature on all of the papers except those for the (Continued on Page Four)

Committee Approves Florida Barge Canal

Washington, May 4—(AP)—A Senate Appropriations subcommittee today approved an appropriation of \$28,000,000 for construction of a barge canal across Florida. Proponents had asked for \$44,000,000.

Chairman Thomas (D-Ore.) of the subcommittee said the \$28,000,000 was suggested by the army chief of engineers who told the committee that was all he could feasibly spend on the canal during the fiscal year beginning July 1.

Confidential sources reported the committee vote was 10 to 9 for the project.

The full committee is scheduled to act tomorrow afternoon.

Americans Continue To Pound Retreating Nazis

HOUSE WINDS UP DEBATE ON TAX MEASURE

Voting On Pay-As-You-Go Legislation To Begin This Afternoon

By FRANCIS M. LEMAY Washington, May 4—(AP)—The House voted in favor of the Republican-sponsored measure to cancel individual taxes on a year's income in order to get the nation's 44,000,000 taxpayers on a pay-as-you-go basis. But the action was subject to a later roll-call vote before becoming final.

The house compelled general debate on the pay-as-you-go tax bill this afternoon, and Rep. Carlson (R-Kan.) then formally offered the Republican-sponsored pay-as-you-go tax plan to the measure drafted by the Democratic majority of the Ways and Means committee.

The house voted to conclude debate and proceed with voting on the measure at 3:30 p. m.

It appeared virtually certain that all measure approved would provide:

1. For cancellation of at least one-half of the \$10,000,000,000 tax assessments against 1942 individual incomes.

2. A 20 per cent withholding levy against wages and salaries after deduction of allowable exemptions for family status.

After two days of final debate, the voting was set to begin before midnight. The 435 members had three major proposals to choose among:

1. The Ruml plan to skip a full income tax year, as modified in a bill by Rep. Carlson (R-Kan.).

2. The Democratic-supported plan to abate about 50 per cent of 1942 taxes through application of the much easier 1941 rates and exemptions to last year's individual incomes. Under this bill, the taxpayer would pay off the reduced 1942 obligations over the next three years (or sooner if he desired) while at the same time remitting on current income.

3. A compromise plan by Representatives Robertson (D-Va.) and Forand (D-RI) of the Ways and Means committee, which would abate the 6 per cent normal and 13 per cent first bracket surtax on (Continued on Page Six)

Two Children Die In Clayton Fire

Clayton, May 4—(AP)—Fire swept the home of Mrs. Jim Dodd late last night and took the lives of Jackie and Jerry Gower, small children of Mr. and Mrs. Worth Gower of Clayton and Kingston.

Soldiers from Seymour Johnson field who were visiting in the home and volunteer firemen tried in vain to rescue the children.

Mrs. Gower, who lived in the upstairs apartment, jumped from her bed when she heard screams and leaped from a window. She was slightly injured.

The fire apparently started in the downstairs apartment.

Halt Castoria Sales On Eastern Seaboard

New York, May 4—(AP)—Fifty representatives of the Centaur division of the Sterling Drug Company are contacting retailers, holding supplies of Fletcher's Castoria a Centaur product made in Rahway, N. J., to halt sales in the eastern states. Harold B. Thomas, Sterling vice president has revealed.

Thomas said telegrams had been sent 1,700 distributors and retailers ordering cessation of sales after complaints were received the product caused nausea. The ban includes the states along the coast from Connecticut to North Carolina and as far west as Ohio. Sales will be resumed following tests of the March and April shipments from the New Jersey plant, Thomas said.

Attack Antwerp

By The Associated Press The Berlin radio said that American bombers attacked the Belgian industrial city of Antwerp this afternoon, dropping bombs from a great altitude.

Heavy aerial combats were reported over the city and the German account, recorded by the Associated Press, said many parachutes were seen descending "indicating that a large number of American bombers must have been shot down."

"Casualties were exclusively among the civilian population," the report asserted. There was no immediate Allied confirmation of the raid.

Mystery Witness

Appearing before a House military subcommittee investigating fees on war contracts in Washington, this woman gave her name as Mrs. Eula Smith of Washington, but refused to testify about anything. She said she had been advised by counsel not to answer questions.

BELIEVE ALLIES PLAN INVASION

Vichy Says Sardinia And Sicily Will Be Points Of Attack

By E. C. DANIEL London, May 4—(AP)—The Vichy radio said today Allied movements reported simultaneously at Gibraltar and in Algerian waters may point to a large scale invasion attempt against Sicily and Sardinia, island stepping stones from North Africa to the European mainland.

The broadcast was recorded by Reuters.

Germany's chief military commentators suggested in a broadcast that major Allied forces might pounce immediately on the two islands without waiting for the end of the campaign to drive the Axis out of Tunisia.

The German commentator's foreboding followed reports by the Nazi-controlled stations that a huge concentration of Allied shipping was being assembled at Gibraltar, including a number of landing barges.

Stoutly said the American Fifth Army being held in reserve in Algeria and Morocco under Lieut. Gen. Mark W. Clark was being trained as a nucleus of several Allied armies.

Lieut. Gen. Kurt Dietmar, German High Command radio commentator, acknowledged that southern Europe affords "particularly favorable conditions for landing" but declared the construction of fortifications by the Axis on the invasion coasts and "the nature of the country" would impede such operations.

Uneasiness of the German propaganda spokesmen coincided with a report by the Morocco radio that Premier Benito Mussolini had sent a new appeal to Hitler for aid in repelling a possible invasion of Italy (Continued on Page Six)

Cotton Ceiling Price

Washington, May 4—(AP)—J. E. McDonald, Texas agricultural commissioner, said today he and other southern states commissioners have recommended to the Office of Price Administration the establishment of a floor price of 23 cents a pound and a ceiling of 25 cents a pound on government sales of stocks of seven-eighths inch medium cotton.

The Board of Aldermen, with Mayor Bruce Sugg presiding, met at the City Hall at noon today and certified the election returns. Those recalled will be sworn in on July 1, the ballot more than 10 years. He is mayor pro tem and a member of the police and other committees. Judge Robert was appointed judge of the Recorder's Court more than a year ago when Judge Louis C. Skinner returned to enter the Navy as an officer.

Pulitzer Prize Winners Announced By Trustees

New York, May 4—(AP)—Thornton Wilder's drama, "The Skin of Our Teeth," which roused Broadway critics to heated controversy with its satiric survey of the history of mankind is winner of the 1942 Pulitzer prize in drama.

Six journalists, four men and a woman in literature and a composer also are winners of Pulitzer awards, the trustees of Columbia University announced yesterday. The individual prizes of \$500 each were awarded on the recommendation of the advisory board of the university's graduate school of journalism.

The Omaha, Neb., World-Herald received the award of the American newspaper rendering "the most distinguished and meritorious service" in 1942 for its planning of a successful state-wide scrap metal collection campaign which later was used on a national scale.

To Associated Press photographer Frank Noel went the news photograph prize for a picture entitled "Water" showing an Indian sailor in a lifeboat pleading for water. Noel took the photograph after his ship had been torpedoed by the Japanese submarine in the Indian Ocean. Robert Frost, New England poet, won his fourth Pulitzer poetry prize with his volume of verse entitled "A Witness Tree."

Upton Sinclair, 64-year-old author of 51 volumes, won his first Pulitzer prize with the novel "Dragon's Teeth."

Allies Pass Mateur in Effort To Cut Communications Of Enemy Between Bizerte And Tunis; British Eighth Army Begins Heavy Bombardment

By WILLIAM B. KING Allied Headquarters in North Africa, May 4 (AP)—Swift-driving American troops, quick to capitalize on their middle position after the seizure of Mateur, pounded forward hard today on the heels of retreating Germans toward Ferryville, which is 10 miles to the northeast and the dock area of the naval base of Bizerte.

At the same time other forces fanned out toward the southeast and smashed to a point eight miles south of Mateur toward the line of the Tine river only six miles northwest of Tebourba, the gateway to Tunis.

After advancing about 10 miles the Americans were only 10 miles from Tebourba.

"The French, in a communique recorded by the Associated Press from the Algiers radio, said "considerable progress" was made north of Lake Achkel in a drive along the Mediterranean on Bizerte's defenses in cooperation with American troops and announced the beginning of a new offensive in the south."

"The British radio, in a broadcast recorded by CBS, said "long range Allied guns now have Ferryville under fire and several Axis airdromes in the area have now been made untenable by shellfire." Ferryville, on the southwest shore of Lake Bizerte, is about eight miles from the naval base which is situated on the northeast shore.

The broadcast said the Americans had come up against a new line of resistance "in the advance on Ferryville."

In the northeastward push, the Americans crossed the river Tine, despite the destruction of a bridge by the withdrawing forces of Col. Gen. Jurgen Von Arnim, and showed (Continued on Page Six)

Incumbents Win In Primary Yesterday

In the only two contests in yesterday's city primary-election, B. Fleming, incumbent, was re-elected to the First Ward to the Board of Aldermen over Ernest R. Dudley—207 to 116. Judge J. W. H. Roberts defeated Herman H. Duncan for the city recordership, 735 to 249.

Mayor Bruce Sugg and Aldermen J. Arthur Collins, Second Ward; Rufus V. Keel, Third, David A. Eysen, Fourth Ward, and A. E. Hobcock, Fifth Ward, and A. E. Elks, Bloom had no opposition. Mayor Sugg led the ticket.

Results of the primary-election are as follows:

First Precinct, Courthouse: For mayor, Sugg, 446; for judge, Roberts 410; Duncan, 132; for alderman, First Ward, Fleming, 207; Dudley, 116; solicitor, Bloom, 444.

Second Precinct, City Hall: For mayor, Sugg, 333; for judge, Roberts, 321; Duncan, 117; for solicitor, Bloom, 323; For alderman, Third Ward, Keel, 64; Fourth Ward, David A. Evans, 89; and Fifth Ward, A. E. Hobcock, 140.

The Board of Aldermen, with Mayor Bruce Sugg presiding, met at the City Hall at noon today and certified the election returns. Those recalled will be sworn in on July 1, the ballot more than 10 years. He is mayor pro tem and a member of the police and other committees. Judge Robert was appointed judge of the Recorder's Court more than a year ago when Judge Louis C. Skinner returned to enter the Navy as an officer.

The WAR TODAY

AN ANALYSIS OF THE NEWS

By DEWITT MACKENZIE The American capture of Mateur has set the whole northern part of the enemy line to rocking and has led to a general withdrawal of the northern sector to evacuate his forward positions.

That's the way it looks to the military mind. We folk back home can get a thrill from the knowledge that the relentless pressure, now resented bloody slog against a determined enemy in his strong positions along the craggy heights, meant warming up the axis hills in the face of heavy direct fire. It meant in many instances the capture of positions at the point of the bayonet.

Mateur is the strategic railway center which has linked Bizerte with the rest of Tunisia, including its sister port of Tunis to the south. The American operation is calculated to cause all the Axis forces between Mateur and the sea to the north to make a quick withdrawal to Bizerte, where the enemy on the south falls back towards Tunis.

The way things are going it looks as though Bizerte would shortly be isolated and come under siege. Not only are the Americans continuing their advance but there is a Franco-American force on the coast north of Mateur driving along the shore towards Bizerte.

Bizerte is one of the great naval ports of the world. It also has a big air field which will be an asset to the Allies once Tunisia is in the sack.

This fortified port may be a tough nut to crack. The French made it one of the strongest naval bases in the world. Bizerte has a trio of harbors. Behind the outer harbor, on the coast from Bizerte, the two being connected by a canal. The bay opens into Bizerte lake, a body of water fifty miles square and deep enough to provide anchorage for a vast fleet, including battleships. The port is equipped with all the facilities of a naval base including arsenal barracks and hospitals.

Registration

Registration for voting for the Student Council of next year's student council took place...

Student Council

Student Council will meet tonight at 7:30.

Teachers!

The general teachers' meeting which was scheduled for tonight has been postponed because of too many conflicts.

Junior-Senior

The Junior-Senior dance is Friday night in the high school auditorium. The Juniors have appointed students to act as special hosts...

Glee Club

The Senior glee club began work on the commencement music yesterday. The piece begun yesterday was "American Prayer."

Service League Elects New Officers

Mayor Sugg was guest speaker at the regular meeting of the Service League Monday morning. He expressed his and the city's appreciation of the many projects and activities undertaken by the league...

Interesting reports were given from the various committees. The representative from the Council for Childhood Improvement stated that the council had requested that a woman be included on the city police force.

The league will again sponsor a two week campaign for a girl scout.

Urgent appeal were made for help and time. The projects chairman especially urged that members spend as much time as possible in the annual dining room.

General groups of soldiers have been sent off by the Civilian Defense Committee for the month. This service will be continued during the summer.

Volunteers were secured to help in the school cafeteria, which started running on their own today.

The league voted to send a box to Charles Lee Fuchs who is in a Japanese prison camp in the Philippines. He was heard in a radio broadcast by a person in one of the western states, who wrote the Red Cross to get in touch with his wife. So far they have not been able to find her.

Before adjourning the league unanimously elected Mrs. Lee Folger as vice-president and Mrs. Norman Warren as treasurer.

Far Out In Front In Tunisia

Using a BC scope instrument, binoculars, and field telephones, three American artillerymen scan the horizon for signs of the enemy from their advanced observation post in the El Guetar valley in Tunisia.

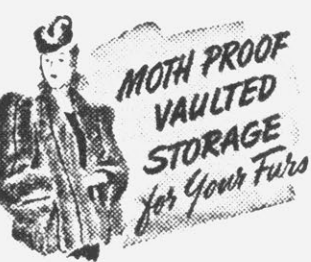

Art Gallery Opens On Daily Schedule

By LUCY CHERRY CRISP With this week the Art Gallery on the second floor, Sheppard Memorial Library, opens on a daily schedule again.

Generous contributions from a number of local citizens have insured for several months ahead the continuation of the work of the Art Center, with its office and work-shops in the basement floor of the library and the gallery on the second floor...

The exhibition now on display in the gallery is an interesting group of color lithographs, wood engravings, etchings, and dropprints by American artists...

Valuable as illustrative work for the study of graphic art processes such as lithograph, wood engravings, etc., this group of pictures offers enjoyment to the general public, as well as students of art.

FOODS FOR THE FAMILY

By Mrs. Adelaide Bloxton (Teacher of Home Economics and Head of the Home Management House of E.C.-T.C.)

By MRS. ADELAIDE BLOXTON (Teacher of Nutrition and Head of the Home Management House of East Carolina Teachers' College)

Lunch or Supper That third meal of the day, whether lunch or supper, is often the staple in our day's menu. It is usually, however, the most important, as it is the balance wheel for the day.

Planning a balanced menu is not nearly so simple as it is often pictured, but for well people those not trained nutritionists may get along if they follow some simple rules. The words "balanced meals" are possibly the most incorrectly used words in our language today.

Many dietaries in the South are very low in calcium and the vitamin B-complex. Both of these can be well worked in for lunch or supper and make up the deficiency for the other meals.

The B-complex is widely distributed in nature; but few things, except liver and yeast, have any great amount of it. The better known members of the B-complex are thiamin (B1), riboflavin, (B2), and niacin (nicotinic acid).

All of the better known members of water soluble. This tells us not to allow vegetables to stand in water before they are cooked and save all the water that was used in the cooking.

Good sources of thiamin are prunes, whole grains, peanuts, liver, milk, and pork, though almost half of the thiamin in pork is lost in cooking.

As riboflavin is not stored to any extent in the body, it should be eaten every day, yet it can be conserved somewhat better than thiamin. It is widely distributed in animal and vegetable foods.

When blacktongue in dogs was successfully treated by the use of nicotinic acid, the logical conclusion was that it might be a cure for pellagra in humans.

Following are some suggested menus that are low in ration points and in sugar. It will be noted that they are good sources of calcium and the B-complex vitamin.

Lunch or Supper Tomato soup Hot toasted cheese sandwiches Shredded lettuce, french dressing Hot gingerbread with lemon sauce Milk

Spaghetti and cheese with Tomato sauce (use tomato soup) Apple, nut and celery salad Milk or cocoa (iced)

Stuffed eggs on lettuce Potato salad Bread and butter Dried apricots Milk

Thick vegetable soup Toast strips Deep dish apple pie

Potato soup Club sandwiches (use lettuce, tomatoes, bacon) Apple sauce Cold baked custards

Marine Buried In Family Cemetery

Harry Moore Heath, 22, of the United States Marines, stationed at Cherry Point, who was injured when his car left the road and turned over between Ayden and Greenville Friday night, died of internal injuries at a Kinston hospital early Saturday morning.

Heath was alone when the accident occurred, highway patrolmen stated. A native of Greene County, Heath had been in the Marine Corps for two years.

Funeral services were held at the home of an aunt, Mrs. Noah Moringo, near Ormandville today at 3 p. m., with the Rev. D. W. Alexander, Free Will Baptist minister of Bethel, officiating. Burial was in the Heath family cemetery.

Surviving are his mother, Mrs. Melissa Meyer Heath of Snow Hill; two brothers, Fred Herman Heath of the Marine Corps, stationed at New River; and J. H. Heath of Snow Hill.

Chiropractors In Meeting At Raleigh

Raleigh, N. C., May 4 —(AP)—The State Board of Chiropractic examiners met here today to begin a three-day examination of 10 to 15 applicants for licenses to practice in North Carolina.

The meeting is being held in conjunction with the 27th annual convention of the North Carolina Chiropractors Association, which will open tomorrow and continue until noon Thursday.

Members of the board of examiners are Dr. J. A. Wood of Charlotte, president; Dr. Hal Pittard of Oxford vice president; and Dr. Carl H. Peters of Rocky Mount, secretary-treasurer.

Will Run Cannery Again This Year

As a result of a number of inquiries received recently, and as a result of a meeting held recently by interested agencies, J. H. Rose, superintendent of city schools, announced today that the cannery on the city property on 14th street, which has been operated by the schools with the help of the WPA, will be operated again this summer for the benefit, not only of the school lunch room program, but also for the benefit of the citizens in Greenville and the citizens in Pitt county who wish to avail themselves of the use of this cannery.

After a study of canning projects of this and other states, it was found that a cannery such as this could be operated with hired help, provided the people who have the food to can are willing to pay the price of the No. 3 (quart) can, approximately 3 1/2 cents at the present market price, plus 5 1/2 to 6 cents for processing.

The committee of nutritionists handling the matter also decided that all food must be processed at the cannery, so that there should be not more than an hour between the time the food is made ready for canning and the time it is canned. This is in order to save the vitamin values of green vegetables.

Last year the cannery processed about 18,000 quarts for the school lunch rooms of Greenville and the county schools. There is sufficient equipment at the cannery to can 1,000 quarts of food a day.

Details of the scheme will be announced later, telling the people how to get the benefits of the cannery. The cannery will not begin operation until about the second week in June, Mr. Rose stated.

Dr. Frank Speaks To Local Rotes

By WYATT BROWN Plain sabotage is what Dr. A. D. Frank, professor of history at East Carolina Teachers College, said he considered the strike of the coal miners which ended in a truce Sunday. Dr. Frank was speaking to the Rotarians at their Monday night meeting. He took a shot at John L. Lewis and called him a "high handed racketeer." Dr. Frank was speaking on current events and so com-

City Schools To Speed Graduation

In keeping with the spirit of the times the Greenville city schools are doing all they can to meet the needs of the high school boys and girls with respect to a program which will enable them to speed up graduation, Supt. June H. Rose stated today.

At the end of this month examinations will be given to the top third of this year's 11th grade. These will be college entrance examinations. Those boys and girls who pass these examinations will be allowed to receive their high school diplomas and then go on to college.

Other members of the class who do not pass this examination, or who do not take it, will be allowed to go to summer school this summer in the high school building to take work in two courses and be graduated in August. The summer school will be free. There will be no charge to the students for this service. The City School Board believes that this is a service due the boys and girls who will shortly be in the armed forces or in defense programs.

This will be the policy of the Greenville city schools until the close of the war, that is to allow all ambitious boys and girls to graduate in 11 years instead of 12. They are able to do this because of the fact that the high school lengthened its school day this year and

Threaten Reprisals Against Relatives

Algiers, May 4 —(AP)—An open threat that the Nazis would take reprisals against relatives in Germany of soldiers who surrendered on the battlefields of Tunisia "without due reason" was contained in a captured letter addressed to a German battalion commander and made public here today.

The letter, dated April 18 from Brigade headquarters, said it had been noted that officers and non-commissioned officers when facing critical situations had been surrendering and encouraging their men to lay down arms.

Fire Destroys Glass Works Launens, S. C., May 4 —(AP)—Eight warehouses and the paint shop of the Launens Glass Works here were destroyed by fire today with an unofficial estimated loss of \$250,000. Ten freight cars and their contents were destroyed also.

The main building escaped the flames. C. D. Easterby, president, said production would be resumed within a few days.

My Sincere Thanks I wish to express my thanks and appreciation to my friends and supporters, without whose able assistance my re-election could not have been achieved. It will be my purpose while in office to make every effort to conduct myself in such a manner as to deserve the confidence you have shown in me. L. B. FLEMING

Look up... they need your help!

YOU see American fliers training and patrolling up there every day. You read anxiously the news of the thousands more who fight in foreign skies the world around. There is something we at home can do to help these men. They fly on super high-octane gasoline. It gives them a vital edge in air combat. It adds

greatly to the speed and power of their engines. So far as we know, no enemy nation has been able to produce it in such quantities as we have. Right now the job is to get this fuel to these men in battle. To reach Europe or Africa quickly it must come from the Atlantic Seaboard—cutting shorter the scant supplies of petroleum products here.

Before you drive a needless mile... remember this— American boys are flying and fighting for you. Some of them are dying for you. Oil is their ammunition!... Use it wisely. ESSO STANDARD OIL COMPANY OF NEW JERSEY

Strength FOR THE DAY

By EARL L. DOUGLAS

SONGS IN THE NIGHT

One of the United States senators whose early life was lived under considerable privation and poverty, pays an extraordinary tribute to his mother.

He came from a Welsh household where his mother was always singing. She got up and prepared breakfast at half-past two in the morning for one son who went to work at that time. This son was just a little lad, somewhat afraid of the dark, and his mother would go with him to the gate, holding an old-fashioned lamp high in her hand, singing an old Welsh song, while he trudged out bravely into the dark. She would continue her singing, and then as the boy passed from her sight, her other son, some years older, returned from his work at that hour, would walk wearily out of the darkness, guided by his mother's lamp and her song. This senator has written in recent years, "The memory of her music has made my whole life sweet. When blue days come and hardships force me to despair, I turn my thoughts to her, and from her spirit my own takes hope again."

Songs in the night. The Bible speaks of the cheer of such melody. Sometimes it is the actual song of a loved one, as in the scene just described. More often it is the coming of a luminous thought, the tapping of new spiritual resources, the appropriation of a bright and living faith which changes the whole life from discord into harmony. Blessed are those who have loved and tried to look to or some faith to cling to that the hours of darkness drive them not to despair.

FOUNDATIONS FOR TWO FREEDOMS

Under-Secretary of State Sumner Welles in urging that agreements based on the principles of the Atlantic Charter be reached by the United Nations before an armistice is signed, so that among other things rehabilitation measures can be undertaken without delay, opens up a subject on the successful solution of which the future well-being and prosperity of our country and the world depends.

"Freedom from fear—the assurance of peace," says Mr. Welles, "and freedom from want—the assurance of individual personal security, require all the implementations which the genius of man can devise through effective forms of international cooperation."

Peace—freedom from fear—cannot be assured while war threatens anywhere throughout the globe—and until nations jointly exercise police powers to prevent armed hostilities. Freedom from want, Mr. Welles points out, depends upon people being able to find useful work continuously and to exchange the things they produce for the things other people can make. The problem of removing obstacles to fair exchange is more difficult than the problem of production. "It will take much wisdom, much cooperative effort, and much surrender of private, short-sighted and sec-

Message From Rommel

tional self interest, to make these things all come true. But the goal is freedom from want, individual security and national prosperity."

As one of the first steps in carrying out such a program, the world will be watching to see whether Congress takes favorable action on renewal of the Reciprocal Trade Agreements Act. Efficient and continuous production and fair exchange, which the Act encourages, are both necessary to the abundance which we seek, and the responsibility for maintaining a pattern of procedure rests more heavily on the United States today than ever before.

WASHINGTON IN WARTIME

By JACK STINNETT

Washington—Congressmen and government officials are convinced that the lid will blow off the black market story any minute now.

It probably will come as soon as Congress is comfortably settled after the Easter "vacation" and has had an opportunity to commune with itself on whether conditions are as bad throughout the rest of the United States as they are in

Washington.

Meatleggers, javeleggers, gasleggers, spudleggers and the rest are almost as common here as bootleggers were in any metropolitan center in the prohibition era.

My own simple investigations here have disclosed:

- (1) A congressman was approached by a furtive stranger in the halls of his apartment building, and offered one pound of coffee for \$1.25. I could use names and places except that the Congressman bought it—established connections with this javelegger and has turned in his name to OPA investigators.
- (2) A former well-to-do produce man is keeping office hours only in the mornings and driving a taxi in the afternoons and evenings. "Out of the latter he makes about \$250 a month." It was either get into the black market game or out of business," he said, "and I have two boys in the army." He told one of his customers, owner of three groceries, who was screaming for white potatoes. When the produce dealer told him he couldn't get potatoes, at any price, the grocer said, all right, he would go to the black market. "I can get all I want there and I've got hundreds of customers who will buy them at five cents for \$1." For a month Washington has received only one fifth its normal needs of white potatoes, receipts averaging only one car a day.
- (3) That the liquor black market has become so serious that Rep. Andrew J. May, of Kentucky, demanded the OPA crack down. The OPA has promised to do so, but the record shows officials assert there isn't manpower enough in the investigation division to pay attention to the small-time black market operators. Because that condition exists in other products, as well as in liquor, the small-time black market is flourishing unpunished

throughout the country as well as in the District of Columbia.

(4) That one out of every five auto drivers has little black market books with the names and telephone numbers of gasleggers. The telephone numbers are not used to call for deliveries, as in the days of bootlegging, but to find out if the dealers have any gas on hand before wasting what is in the tank by making the run to the filling station or garage where it is sold.

(5) That the black market in meat, for a time the most flourishing of all, has struck a snag in spoilage. So many butchers have been stung, and so many consumers have been caught the same way or made ill by overripe and un-inspected meats, that both public and dealers are beginning to shy away.

Just why the white light of publicity has not been turned on black market operations in this country to a greater extent is a mystery. It's true that responsible officials are reluctant to advertise their inability to cope with the situation, but it also is true that if the public were really aroused to the magnitude of this "flagrant and inexcusable violation of the anti-inflation program," as Mr. May calls it, we might move a long way toward stamping it out.

Pulitzer Prize . . .

(Continued from Page One)
was played by the Boston Symphony orchestra.

Awards in journalism included: Forrest W. Seymour of the Des Moines Iowa Register and Tribune, for distinguished editorial writing; Hans W. Boldwin of the New York Times for "distinguished correspondence" on the basis of his report of a tour of the southwest Pacific.

Ira Wolfert of the North American Newspaper Alliance for a "distinguished example of telegraphic reporting" in a series of three articles on the fifth battle of the Solomons.

George Weller of the Chicago Daily News for a distinguished example of a reporter's work in recounting how a pharmacist's mate performed an emergency operation in a submarine and saved a sailor's life.

Jay Norwood (Dingo Daring, New York Herald Tribune cartoonist, won his second cartoon prize with a drawing depicting a sentimental "red-tape" and entitled "What A Place For A Waste Paper Salvage Campaign."

The award for a book upon the history of the nation was won by Esther Forbes with "Paul Revere and the World He Lived In." A biography of Christopher Columbus, "Admiral of the Ocean Sea," by Samuel Eliot Morison, won the prize for an American biography teaching patriotic and useful services to the people.

The trustees and award of traveling scholarships will be announced later.

Production . . .

(Continued from Page One)
erage quarterly output for the succeeding quarters must average 27 per cent of program or half again as large as in the first quarter, to meet schedules in accordance with Military plans.

Launching of 134 merchant ships in March indicated that American shipyards had reached a production rate of 18,000,000 tons a year—approximately the 1943 goal. Although "subsequent months will have to be at a higher rate to reach the year's objective."

That a higher rate already has been achieved was disclosed in yesterday's report of the Maritime Commission that 157 merchant cargo were delivered in April and that five launchings a day "now has be-

HORSE PRAIRIE BY CLEM COLT

Chapter 25

They went scrambling up the perilous trail so steeply angling the almost sheer wall of the cliff-like butte called Black Point. They had nearly made the top when a shout and the quick flat cracking of rifles proved that the Stampede men below had sighted them. The whine of lead was like wasps' humming, and the shrill wild screams of rirochetts were enough to shiver a man's grip loose—but they made it, and Tubac hustled Sue back from the rim where the Stampede lead couldn't reach her.

"Them thievin' sons is right on our heels," called Winch, Pacer, darting back from the rim. They're swarmin' up the mine dump now—" He broke off at a sudden wild crashing of rifles, and went sprinting back and peered over the edge. He let out a screech. The rifle dropped from his hands with a clatter. He spun half around and dropped head first to the rocks below.

Sue screamed and even Tubac's cheeks went gray. He said: "That's what we'll get if we ain't careful! I think, Bill, we—" Then he saw Blackwater's face and stopped.

Blackwater said, "I guess we're done," and pointed wearily down the sloping trail they had figured to take. There were horsemen on it; they were climbing upward, the late sun flashing from the barrels of their rifles. "We're blocked behind and in front as well."

A rifle banged from the rim behind them and Tubac felt Blackwater, at his side, suddenly stiffen. Tubac whirled, dropping his rifle and snatching out his belt gun. Flame spate white from its leveled muzzle and a Stampede man, who was just in the act of hooking a knee over the rim, let go all holds and dropped from sight.

Sue, passing Jones, rushed to the side of the roaring Blackwater, but Tubac dared not look round to see to his partner. He had all he could handle if he was to keep that bunch come routine."

Nelson quoted the commission as reporting, however, that "high rates of labor turnover were threatening seriously the shipbuilding program."

March arms production, compared with February in the major categories, was shown as follows:

- Aircraft, up 11 per cent.
- Ground ordnance (tanks, guns, etc.) up 7 per cent.
- Navy and army vessels, including ordnance, up 14 per cent.
- Merchant vessels, up 7 per cent.
- Miscellaneous munitions (vehicles, uniforms, etc.), up 12 per cent.

The treasury said government corporations spent \$7,112,000,000 in March for war purposes, a daily rate 4 per cent above February. The index of munitions production, which takes November, 1941, as 100, reached 533.

The first effort saw them shift more than 30 divisions into the Kharkov area to recapture the city and sweep on to the Danets river where the Red Army held.

The second ambitious plan was north of Zhuzdra, which is 80 miles northwest of Orel. The Germans lost heavily in tanks and men then and had no gains to show for the campaign.

The third try was in the Kuban, and their attacks close to Novorossisk, in the mud flats of the middle delta, and near the sea of Azov all failed to shake the Russians.

With more men and more supplies they launched their current attempt.

To Transfer . . .

(Continued from Page One)
small May tract, involving about two acres, which will be acted upon in 20 days.

After the court signs the judgments the county and city will tomorrow pay to him the necessary funds specified by the board of appraisers for acquiring the property. This will be done at the meeting in the morning when the resolution certifying that the city and county own the property and that whenever the Navy Department turns back the property to the county and city, that the airport will be for public use.

The Civil Aeronautics Authority, Atlanta, Ga., made available \$800,000 for paving runways and other improvements at the airport. Blueprints and specifications were completed and sent to the CAA at Atlanta some weeks ago. There is nothing to delay calling for bids on the project and awarding the contracts. The contract will require that the paving be completed in 90 days. The airport tract comprises more than 600 acres. It is near the city, paved highway, a railroad and city water and electricity are available.

The U. S. Navy several days ago renewed its lease on the property. Mayor Bruce Sugg stated.

Merchant Ship Sun.

Washington, May 4.—(AP)—A medium-sized United States merchant vessel was torpedoed and sunk by an enemy submarine in the north Atlantic in mid-March, the Navy reported today. Survivors have landed at New York.

settle with Deckerman and some of those boys, and I didn't intend they should get away with anything."

He turned to smile at Sue. "I'm glad I did."

"Oh, Uncle Sam," she murmured, her eyes filling. "You're going to get well."

"Sure thing," Mueller said gruffly. "We'll have you to a doctor pronto. Looks like that bullet missed the lung."

"Either way," Sam Holeman smiled. "I've had some fun. Wish I knew who it was fired them Stampede buildings."

"It was Chacin an' his gang. We sweat like hogs tryin' to nab 'em," Mueller grinned. "but the whole gang crew got away."

"That's what I call justice," Sam sighed. "It was Deckerman an' McGillis that was makin' that fake money Sue's been tellin' me about, Marshal. You'd find their press an' the rest of the stuff down there in the mine where they been keepin' me prisoner. They finally guessed who I was and was goin' to leave me there to rot, they said, unless signed over all my holdin's to them."

He beckoned Tubac closer. "Get you an' my niece figurin' to get hitched up?"

Sue blushed. But she said defiantly. "We're not, Uncle Sam. Mister Jones wouldn't marry the best girl on earth—he's made that plain to me. Not even if her feet were paved with gold."

"Aw—I was jest talkin' to hear my head rattle then. Anyways, didn't know there was any girls like you! Doggone, you ain't goin' to hold that ag'in' me, are you?"

"Well, but—"

"C'mon," Tubac said. "We got to talk this over."

"You'll make a mighty fine pair," Old Sam said. "Don't want you disappointed. I'm leavin' you each a half interest in Horse Prairie. I'd sure hate to see the old ranch split."

PLAYERS MUST BE ALL 'ROUND MEN THIS YEAR

Shortage Makes It Necessary to Switch Men To All Positions

By JUDSON BAILEY
Associated Press Sports Writer

The most valuable player competition in the major leagues this year could very well be styled the most versatile player awards.

Wartime manpower shortages are causing managers to transplant their players from one position to another faster than most people can get the onion sets started in their victory gardens and if the spring shuffle is only the beginning, a fan must wonder how his favorite pitcher will do a shortstop in the fall.

The Phillies, with a pathetically small roster, are doing the most shifting of jobs and doubling up at two or more positions. Last week they brought outfielder Jim Wasdell from Pittsburgh and made him their regular first baseman, moving Babe Dahleren from that spot to shortstop. They have schoolboy Rowe pinchhitting in almost every game in which he isn't pitching and they frequently have had three or four players swap positions during the course of a ball game.

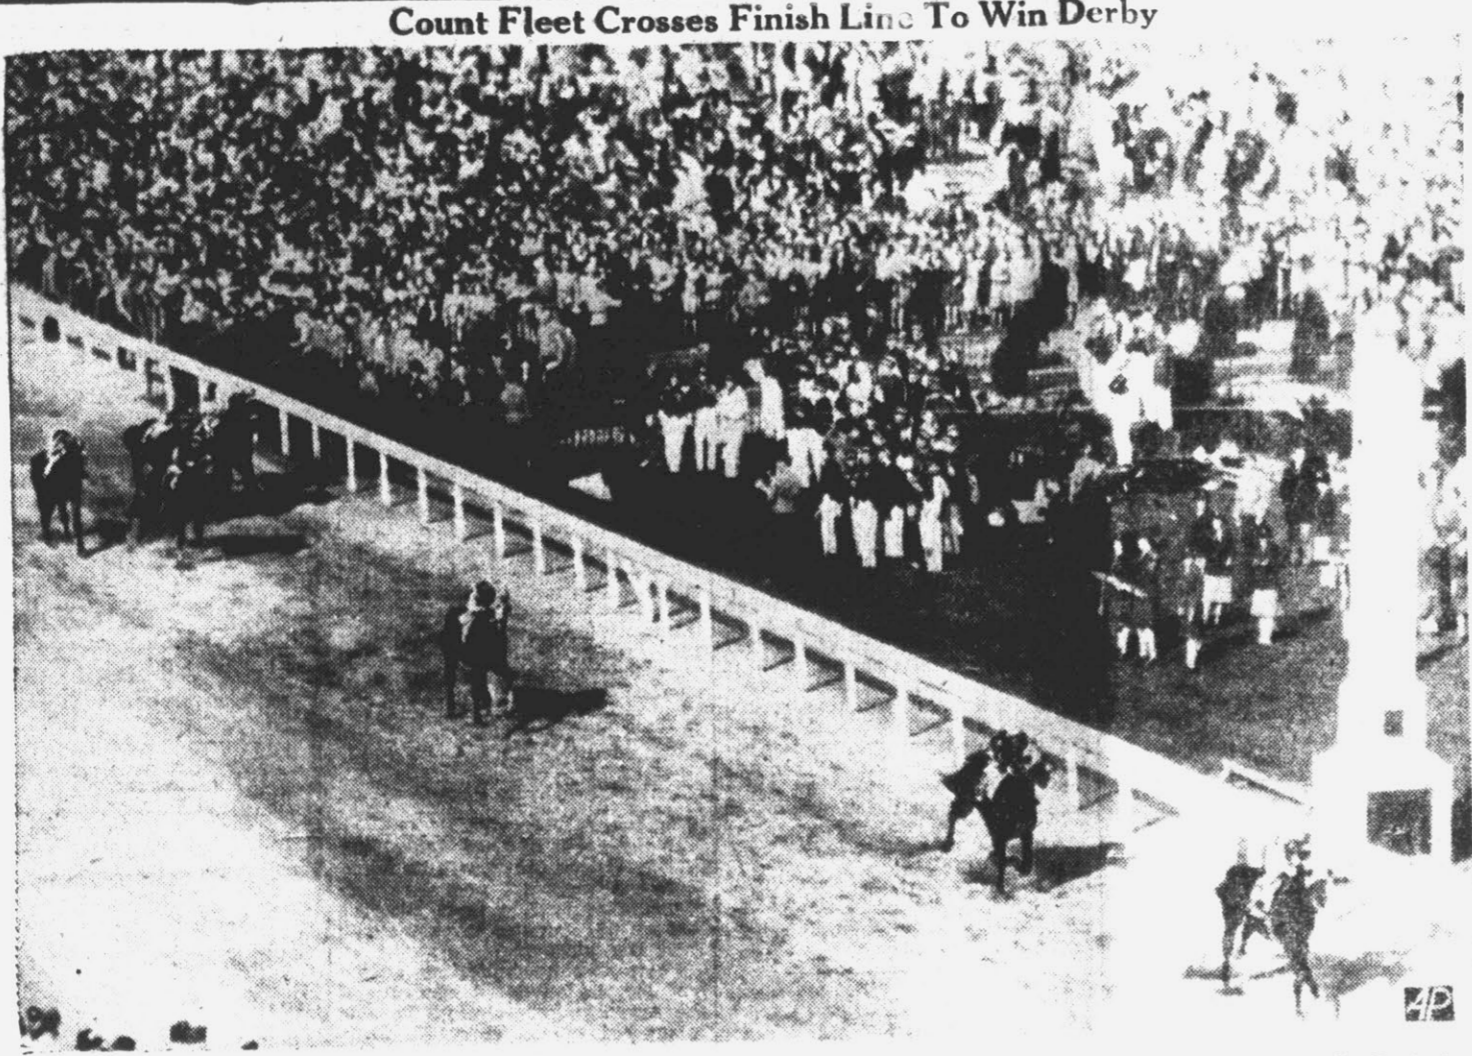

Other clubs are doing it too. The New York Yankees moved pitcher Johnnie Lindell to first base and then to the outfield in spring training and the Brooklyn Dodgers switched Billy Herman from second to third.

But one of the prize swans of the season was made yesterday by that indefatigable inventor, Frank Edison Frisch, who installed catcher Al Lopez at third base for the Pittsburgh Pirates.

Lopez has been one of the best backstops in the national league for many years, but his previous experience at the hot corner was limited to about two games in an emergency with the Dodgers a decade ago. A few fans still remember him stopping balls with his chest, a La Perouse Martin.

By putting Lopez on third Frisch was able to give a try at shortstop to Bob Elliott, who only year before last was an outfielder. The result of the newest experiment was that both Lopez and Elliott made an error yesterday and Cincinnati capped the major leagues' first morning game 7-5.

A crowd of 29,938 was on hand for the contest at 11:30 a. m. in Crosley field and the Reds general manager, Warren Giles, called his experiment a success. The fans thought so, too, for they saw them in the majors yesterday and in this usually weak-hitting Reds make 17 the Dodgers, downed the Phillies 5-3. Kirby Hube made his home in the major leagues' first morning game the Reds are now ready to year.

Count Fleet, three lengths ahead of Blue Swords, crosses the finish line at Churchill Downs to win the 69th running of the Kentucky Derby. Third horse is Slide Rule, and bringing up the rear is Eddie "Rochester" Anderson's Burnt Cork.

Piedmont League Opens New Season

Richmond, Va., May 4—(AP)—The Piedmont league ushers in its 1943 season today.

The opening action takes place on three fronts—Durham, N. C., Roanoke and Norfolk. Portsmouth and Norfolk officially raise the flag on the current campaign by getting together in a late afternoon or twilight affair, while the other games are set for tonight.

Ralph H. Daughton, president of the Class B circuit, announced at Norfolk last night that he had issued orders to the umpires "to speed up baseball games, especially in the Tidewater area."

"Diamond huddles are out," Daughton declared. "Managers won't be allowed to consult their pitchers but once an inning. If they do, they will be liable for fines."

lift the lid on night baseball for the season, too, with a floodlighted play carded against the Pirates tomorrow night.

Only one other game was played thought so, too, for they saw them in the majors yesterday and in this usually weak-hitting Reds make 17 the Dodgers, downed the Phillies 5-3. Kirby Hube made his home in the major leagues' first morning game the Reds are now ready to year.

really a "toughness" program all by itself. The only drawback is that it might not leave the boys in shape for flying. The scrubs rated track the No. 2 sport with boxing and swimming tied for third.

Birds of a Feather
Jimmy Johnston, reporting on his new Bantamweight fighter, Ham Wiloby, modestly claims the boy has possibilities of becoming a greater fighter than three great little men who performed under the Johnston Banner. Jim Driscoll, Owen Moran and Johnny Dundee, they're not in position to talk back. "You know," Jimmy confesses, "I've never seen Wiloby fight, but what the hell, Shakespeare never saw all the things he wrote about either."

One-Minute Sports Page
Frank Bruser, Kinard, the football Dodger, all-league tackle, has moved from his Mississippi hometown to take a defense job in Brooklyn. He'll be named the Dodger's line coach as soon as Capt. Dan Topping gets around to making the announcement. The Swedish legation asked the A. A. U. to okay having a Swedish newspaperman travel with Gunder Haaga when he comes here late this month to act as Haaga's manager but A. A. U. officials turned thumbs down. Clark Griffith recently declined a \$1500 offer for an ad on the ball center field signboard in the Washington ball park and then gave the space to the Treasury Department for a War Bond sign.

COLORED NEWS

Simpson School closed
The Simpson School closed Wednesday, April 28. Many improvements were made during the school year.

The yearly report is as follows:
Books \$20; Junior Red Cross \$2; Christmas Seals \$3; Lights \$10; Transportation of food \$6; Transportation of Books \$3.50; Coal for Kitchen \$3; School Bus \$32.50; Easter Seals \$3; Food for Lunch room \$50; Cook stove balance \$17.75; War Stamps \$4.10; Basket Ball \$2.17; Ornamentage \$7.15; 4-H Club \$2.50; 3 Brooms \$2.25; Shrubbery \$6.75; Song Books \$4.30; School Sermon \$8. Total \$191.77.

One-half of the money raised at the school sermon was given to one of the boys whose arm was broken on the school grounds during the school term.

Ickes Orders . . .

(Continued from Page One)
decision will you retain possession of the mines as long as he refuses to sign?

"I am not looking ahead to that," was the reply.

Asked when he would turn the mines back to the operators, he replied, "when the coal business is a going concern."

When asked whether he was "looking for a formula" that would settle the dispute, Ickes said emphatically, "not by a long way." On the other hand, he reiterated he lacked authority to "mediate" a settlement.

The coal-law order was not strengthened to approximately 380 mine operators now running their properties as agents for the government.

Ickes said mines failing to operate six days weekly would suffer cancellation of the price ceiling increases granted them by the Office of Price Administration to cover

the added costs of overtime pay.

In New York City, John L. Lewis, president of the United Mine Workers, said "no comment" when asked his reaction to the six-day week order.

Ickes' order to mine operators went out as the first day of a two-week temporary truce found the miners busily digging the war vital fuel with Uncle Sam as their new boss.

Pursuant to a request made by Ickes September 22, 1942, industry wage agreements were changed to permit the six-day week in order to increase coal production for expanding war time needs.

The amended agreements provided for payment of time and one-half or "rate and one-half" for all work in excess of 35 hours weekly.

Ickes estimates approximately 600,000,000 tons of bituminous, a record figure, and about 65,000,000 tons of anthracite, a record for recent years, must be produced in 1943.

During negotiations last month between bituminous operators and the United Mine Workers, Secretary of Labor Perkins proposed guarantee of a six-day week. She said that John L. Lewis, UMW chief, had agreed to it as a basis for a new contract.

Confusion developed, however, over the question whether Miss Perkins meant a six-day guarantee the year around, that is, an annual wage. She had made plain in Washington she did not mean a 52-

work guarantee, but only six days work in any week in which a mine worked at all.

How to attend your own "Funeral" ...and like it!

Yes, sir . . . about a week after Pearl Harbor we had more people wringing our hand and consoling us than we ever dreamed we knew.

We were "dead." Out of business. The sheriff was on the way.

Well, it may seem strange to you, but we've done okay here. By just staying in the tire business. No porch furniture, or fly swatters, or garden tools. Just tires. Our first love and our last. The business we know. The business we built up originally by earning a reputation as tire experts.

Maybe that's why hundreds of new customers have come to us during the last 17 months, along with our old friends. For advice from a tire "doctor." To bring us their certificates for new Generals or to get their tires recapped by our skilled mechanics (right in our own shop).

Maybe that's why so many large truck fleet operators, too, have given us the whole responsibility for keeping them on rubber . . . so they can meet the terrific demands of wartime hauling.

And, maybe handling The General Tire had something to do with it. If there ever was a time when people want Top-Quality it is now.

We appreciate deeply your confidence. We hope to continue to merit it and we are looking forward to that great day when you can drive out of here on the Tire of The Future . . . The Top-Quality General to come!

Sports Roundup

By HUGH FULLERTON, JR.

New York, May 4—(AP)—Every one of the sports writers who participated in a poll conducted by the North Carolina Navy Pre-flight school picked football as one of the ten best sports for physical development.

That's just about what the Navy had decided in advance, judging from the year-round grid programs at these schools, but it's rather surprising not to find water polo somewhere on the list.

That's a form of mayhem practiced down at the bottom of a swimming pool where the referee can't see what's going on and it's practi-

Governor's Son Threatened

Gov. Ellis Arnall of Georgia reported in Atlanta April 28 that a threat to kidnap his five-year-old son Alvan had been made in a telephone call to his wife by a man purporting to be Leland Harvey, escaped convict. Arnall said the man demanded that the hunt for him be "called off." Here are the governor, Mrs. Arnall and their son together in their home in Atlanta.

Should Cultivate Kindness Virtue

By WYATT BROWN "Kindness is a virtue which we are careless about cultivating," declared Reverend George W. Perry, pastor in his sermon Sunday morning at Jarvis Memorial Methodist Church. "You can count on the fingers of one hand the number of addresses or sermons on 'kindness' - chances are you can count them on one finger. This virtue is overlooked by those who regularly address audiences.

"It is the business of the individual to practice one of the fundamentals of Christianity, kindness." "We have been too much for ourselves. Too little for God. We have gone with the intelligence. Too many have put aside humility," Mr. Perry went on.

Mr. Perry exhorted his congregation to not save their words of praise for men after they are dead but to have the kindly attitude all along. "Look for the good things in men's lives all about you. The hallmark of Christianity is kindness," declared Mr. Perry in concluding his brief devotional preceding the administering of the Holy Communion.

House Winds . . .

(Continued from Page One) of the 1942 income of all taxpayers, increasing the last year's liability completely for about 90 per cent of taxpayers, with the total cancellation amounting to about \$7,500,000,000.

All three plans embrace identical provisions for the 20 per cent withholding levy, which would not be an additional tax but a means of weekly semi-monthly or monthly deduction from wages and salaries for current payment of taxes.

Governor Decrees Lower Speed Limit

Raleigh, N. C., May 4 (AP) - State Highway Patrolmen now can make it hot for you if you drive faster than 35 miles an hour. Heretofore, they only could reprimand - or report you to the CPA, but now the 35 MPH limit is official and has the force of law. Governor Broughton, in the first exercise of emergency war powers granted him by the General Assembly, decreed the low speed limit with the approval of the council of state. In his proclamation the governor explained that the action was in compliance with requests of the office of Defense Transportation to bring the state speed laws into conformity with a wartime federal limit on speed.

The council will confer Thursday on five recommendations by State Labor Commissioner Forest H. Shuford for labor law changes. They are: 1. That girls 16 to 18 be permitted to work on government contract until 10 instead of 9 p. m.; 2. That the Labor Commissioner be authorized to issue special permits for girls to work until midnight when necessary to the war effort; 3. That the Labor Commissioner be authorized to grant Army and Navy requests for women to work longer than a 48-hour week; 4. That he be authorized to issue permits, good for six months for to work overtime; and (5) That authorized additional overtime be compensated on an "equitable basis."

Reject Proposal For Tobacco Labor

Raleigh, May 4 (AP) - Heads of four tobacco warehouse associations in belts in the Carolinas and Virginia have rejected a proposal of the U. S. Tobacco Association designed to help relieve a farm manpower shortage and have countered with a plan of their own. This action was taken yesterday at a meeting here. The proposals were not disclosed, but a spokesman said plans formulated at a meeting of the U. S. Association in Danville, Va., last week were submitted and rejected and a new plan drafted. The conferees will meet here again next Monday to receive the reaction of the U. S. Association to the counter proposals.

Yesterday's meeting was the third for discussion of the problem. Others were held in Danville, Va., and Raleigh. The tobacco men, it was explained, are trying to work out a plan for slowing down sales during the marketing season in order to give farmers more time for harvesting their crops and seed. Several methods were considered, such as closing the markets for a day each week, shortening the selling hours, and regulating the sales so farmers could sell on a certain percentage of their crops each day.

Believe Allies . . .

(Continued from Page One) from the south. Sertorius acknowledged that the German submarine parks in the Mediterranean - a serious stumbling block to invasion whose elimination was given first priority in the plans President Roosevelt and Prime Minister Churchill formulated at Casablanca - had lost 50 per cent of their effectiveness in April because of unfavorable weather. A communiqué reported 415,000 tons of Allied shipping were sunk last month compared with 851,000 tons in March. The Moscow radio report and the German claims of submarine sinkings were unconfirmed by Allied sources.

Schools Will Operate Full Time Next Year

Raleigh, N. C., May 4 (AP) - Governor Broughton has announced after a study of reports of increased state revenues that North Carolina Public Schools will be operated for a full 180-day term next school year. The General Assembly in enacting the nine-month school law, authorized the Governor to shorten the term to 170 days if the state's financial condition necessitated. Broughton said yesterday general fund collections already made and conservative estimates for May and June indicated receipts exceeding former estimates by more than \$5,000,000 and that accordingly, the next school year would be 180 days.

Organic substances are being developed to replace copper and lead in fungicides for spraying orchards.

Dummy tanks used for antitank-gun practice are about one-third normal size and are generally made of wood.

Americans . . .

(Continued from Page One) ed toward Ferryville.

To the north of Lake Achkel the French African Corps with its fierce Moroccan goumiers and American elements pressed in upon Bizerte's western hill defenses threatening to flank the Axis.

There was no indication as yet how far the advanced elements of the American forces might be able to proceed toward Ferryville without meeting strong resistance. But high ground on the east side of the road a few miles from that objective afforded the Axis an opportunity to make a stand to protect the approaches to Bizerte.

The southern prong of the American offensive drove up the direct road from Beja to Mateur, then turned south and east toward the Tine river.

A ridge as well as the watercourse, however, intervened between the Americans and Tebourba, the objective of the British First Army which has engaged in bloody fighting in the hills along the Medjerda valley to the west for the past two weeks.

The American approach on Tebourba from the north threatened to

outflank the Axis defenses in the Medjerda valley and open the way for a direct march by the British on Tunis.

Allied troops along the rest of the 125-mile front failed to match the dramatic advances of the Americans but the British First Army made a slight advance in the hills 10 miles due north of Medjerda on the flank of the Medjerda valley thrust.

(The British radio in a French language broadcast recorded by the Federal Communications Commission, said the Eighth Army had opened a new attack north of Takrouna, five miles northwest of Enfidaville on the east coast, with Gen. Sir Bernard L. Montgomery signaling the offensive as usual by a victory over heavy barrage.)

The communique issued from Gen. Dwight D. Eisenhower's headquarters described the American and French advances as covering "many miles," and said the enemy had been forced to "evacuate all his forward positions" in the north after "10 days of relentless pressure and much heavy fighting."
