Soviets Smash Through German Lines In Drive Toward Black Sea Port

Capture Number Of Towns And Villages In Kuban Delta, and Report Slaying of 7,000 Enemy Troops; Red Aircraft Maintain Offensive Pressure

By EDDY GILMORE Moscow, May 6 (AP)—The Red Army, hammering today at the northeast approaches to Novorossisk, has taken a dozen more villages in the area in addition to Krymskaya and nine other towns which the Soviets announced they captured yesterday in smashing through the Kuban Delta bulge toward the Black Sea port.

One of the villages is about nine miles northeast of Novorossisk in the hilly marsh country through which the Soviet troops are sweeping the Germans toward the sea in a drive gaining daily momentum.

Massive artillery barrages paved the way for new thrusts and now-

London, May 6 (AP)—The Red army has advanced "far beyond" Krymskaya in the Caucasus and now is storming German fortifications, the Moscow radio reported today in a broadcast recorded here by the Soviet Monitor.

ed down hundreds of German and Rumanian soldiers in the front lines and in deeply-fortified positions.

Soviet bombing planes sprayed the Axis troops with bombs and cannon fire as they tried to cling to their defense points against the mounting pressure.

The loss of 7,000 dead and of numerous men captured in the last few days has weakened the Axis forces but their strength probably remains far from crushed.

Two major gains were achieved by the capture of Krymskaya, 17 miles northeast of the former Russian naval base.

It poised the Red Army in a position menacing the city and it cut the German-held railway between Novorossisk and Protoka, which is 36 miles northeast of the port.

At Protoka the railway connects with a highway that leads westward to the Kerch Straits, across which lies the Crimean peninsula. Protoka also is a junction for a railway that runs northward to the Sea of

Tobacco Men To Meet In Raleigh

Raleigh, May 6 (AP)—Heads of Tobacco Warehouse Associations in the old, middle, eastern and border belts will meet here Monday in the fourth of a series of conferences to consider means of relieving a farm manpower shortage during the tobacco marketing season.

Governor Broughton said yesterday he had conferred with representatives of the U. S. Tobacco Association and other tobacco men and he expressed hope that a plan would be worked out Monday for spreading the marketing season so that farmers will have more time to devote to picking cotton and harvesting peanuts and other crops.

The warehousemen declined to accept a proposal of the U. S. Association for slowing down the market and countered with a proposal of their own.

Says Nation Should Plan For Post-war Employment

Chicago, May 6 (AP)—Maj. Gen. Philip B. Fleming, Federal Works Agency Administrator, said today that plans should be made now for an overall national program of public works to stimulate employment in the post-war period.

"Otherwise, we are likely to go through the same old wasteful cycle of doles, made-work and relief projects," Fleming said in an address prepared for delivery to the War Construction Conference of the American Road Builders' Association.

"I think the time for merely speculative postwar planning has passed. The time for designing is here. We know now, or can soon find out, what our needs in respect to highways, flood control works, sewers, irrigation, soil reclamation, airports, public buildings, public housing, and flight strips are going to be if we are to enter upon that better world of which all men dream. The job

PREDICT NEW OFFENSIVE IN PACIFIC AREA

Tojo Says Japan Now Prepared To Deal Decisive Blow at Allies

By The Associated Press

Premier Hideki Tojo of Japan asserted today that the Mikado's invasion armies were "now prepared to deal a decisive blow at the enemy," and simultaneously a Chinese army spokesman said Japan was preparing to launch "an important move" in the Pacific war theater.

The spokesman said China was the most probable target of a new all-out Japanese offensive, although he conceded that an attack on India, Australia or even Soviet Siberia could not be ruled out.

Coincidentally, Chinese headquarters announced that the Japanese had opened a new drive against China's "rice bowl" in north Hunan and south Hupoh provinces, with 7,000 to 8,000 troops leading the assault.

Heavy fighting was reported in progress.

An Axis broadcast quoted Premier Tojo as declaring in Manila, in a speech marking the first anniversary of the fall of Corregidor, that Japan had strengthened all strategically important bases in greater East Asia and was prepared to strike.

"We are now in readiness to deal a thorough and crushing blow to the enemy's armed power," he said.

Other Pacific developments: American heavy bombers were officially credited today with raining more than 30 tons of bombs on Japanese-occupied Toungou, Burma while in the southwest Pacific big U. S. Liberators left a 5,000-ton Japanese ship sinking in flames off the coast of New Guinea.

U. S. Army Air Force headquarters said the raid on Toungou inflicted great damage on Japanese headquarters and other buildings there.

The Americans also blasted rail targets at Nanyang west of Mandalay, and RAF Wellington bombers heavily attacked rail installations at Promet.

On the Burma land front, British headquarters said Field Marshal Sir Archibald P. Wavell's forces dissolved Japanese troops from a hill near the Maungdaw-Butheung road, north of the big enemy base at Akyab, and inflicted casualties on the Japanese in minor fighting.

Progressive Ticket Elected At Grifton

Ivan Bissette, prominent businessman and farmer and leader in community and state affairs, was re-elected mayor of Grifton for his seventh two-year term at yesterday's primary election. He has been mayor of the enterprising Pitt county town on the Contentnea for 12 years. Mayor Bissette was unopposed.

H. P. Quinerly, R. A. Nelson and Dr. E. V. Tucker were elected town commissioners by a large majority over D. M. Seymour, C. E. Gardner and A. D. Wall.

To Return To China

Washington, May 6 (AP)—Liaison Gen. Joseph W. Stilwell and Maj. Gen. Claire L. Chennault will return to China soon.

Stilwell, commander of all army forces in the China-Burma-India theater, and Chennault, commander of the 14th United States Air Force in China, came here recently for staff conferences.

Make Final Report On N. C. Cotton Crop

Raleigh, May 6 (AP)—North Carolina farmers planted 51,000 more acres of cotton and harvested 175,000 more bales of lint in 1942 than they did in 1941. H. A. Patton, State AAA executive officer, announced today in a final report on last year's cotton production.

Total acreage harvested in 1942 was 846,000 acres, compared with 795,000 acres in 1941. Ginnings in 1942 totaled 735,000 bales of 503 pound average.

In addition to the lint cotton, Patton said, farmers obtained 324,000 tons of cotton seed in 1942, compared with 246,000 tons in 1941.

The 1942 crop, including both lint and seed, was valued at \$84,829,000, compared with \$61,476,000 in 1941.

Tin Can Drive

Tomorrow is the last day of the present tin can drive and housewives are urged to have all their available cans ready to turn in. The children of the city will call for them.

This Picture, Entitled "Water" Won Pulitzer Prize

This picture, entitled "Water," taken by Associated Press Photographer Frank Noel (left) in January, 1942, as he drifted in a lifeboat toward the northwest shore of Sumatra after surviving a ship torpedoing in the Indian ocean, was chosen as the 1943 Pulitzer prize winner "as an outstanding example of news photography." Noel was formerly stationed at Atlanta and Miami, and covered Florida baseball training camps.

TWELVE LOSE LIVES IN BLAST

Eighteen Rescued In Tennessee Coal Mine Explosion

LaFollette, Tenn., May 6 (AP)—Eighteen coal miners, huddling behind a hastily erected canvas barrier nearly 2,000 feet under ground, survived an explosion that rocked the Etma Coal and Coke Company mine and suffocated ten of their companions.

The miners, fighting against the deadly fumes of "black damp" for more than eight hours, barricaded and crawled from their barricaded cell last night as rescue parties freed them.

Two other miners who had joined the barricaded group, became panic-stricken and dashed from their enclosure to death from carbon monoxide fumes 400 feet away.

The explosion thundered through the East Tennessee soft coal mine yesterday afternoon, rocking it from tippie to the deepest seam.

Earl Turner, one of the first entranced men to reach the outside, said he herded his companions into an enclosure and erected a cloth canvas barrier to keep out the fumes.

Jim Raheis, 36, said the survivors "held out hope until 7 o'clock."

"The air was getting bad," he said, "and the oxygen was just about gone. There was so much dust we couldn't see. Then the rescuers found us at 3:30. Some of the boys were so weak they were crawling on their hands and knees."

Herman Gilbreath related how Albert Kitts and Oscar Ayres "decided to make a break for it" from the protected tunnel, only to collapse 400 feet away and die.

A coal mine official said the disaster, the worst in Tennessee since 1926 probably resulted from ignition of gaseous fumes. However, Mine Bookkeeper R. B. Parrott said a test by inspectors yesterday morning revealed no traces of gas.

Connally Strike Bill Before House

Washington, May 6 (AP)—The controversial Connally bill which would give congress' official blessing to government seizure of strike-crippled war industries and mines moved to an uncertain destiny in the house today.

It passed the senate, 63 to 16 late yesterday after three days debate, during which its author, Senator Connally (D-Tex.), beat back all efforts to return it to committee for further study.

In its final form, the bill not only legalizes the seizure of struck plants by the government, but also provides stiff criminal penalties for instigating strikes in them once they are placed under government operation.

Twelve Others Die In Iceland Crash

Washington, May 6 (AP)—The Iceland plane crash, in which Lt. Gen. Frank M. Andrews, commander of American troops in the European theater and Bishop Adna W. Leonard of the Methodist church were killed Monday took the lives of 12 other men.

The War Department in announcing the death list yesterday reported that Staff Sgt. George A. Eisel, of Columbus, Ohio was the only survivor. He escaped serious injury.

General Andrews, chief of staff 39-year-old Brig. Gen. Charles H. Barth of Walker, Minn., and Leavenworth Kas and two chaplains were among those killed. The chaplains were Col. Frank L. Miller of the office of the chief of chaplains, Washington, and Maj. Robert H. Humphrey, Lynchburg, Va.

Stalin Advocates Free And Independent Poland

Letter To New York Times Correspondent Gives Attitude Of Russians Toward Polish People

Moscow, May 6 (AP)—Establishment of a strong and independent Poland after the defeat of Germany was advocated by Premier Joseph Stalin in a letter to Ralph Parker, New York Times correspondent, made public here today by Tass, Soviet official news agency, and broadcast by the Moscow radio.

Stalin added that should the Polish people so desire, post-war relations between Poland and the U. S. S. R. should be based "upon the foundation of an alliance providing for mutual assistance against the Germans as the chief enemies of the Soviet Union and Poland."

Stalin's letter was written Tuesday in answer to questions addressed to him the day before.

The letter was published today in a copyrighted story in the New York Times.

Tass said Parker addressed a letter to Stalin in which he asked for answers to two questions of interest to the American and British public and said Stalin replied with the following letter:

"Dear Mr. Parker: On May 3 I received your two questions concerning the Polish-Soviet relations.

"Here are my answers. "First Question: Does the government of the U. S. S. R. desire to see a strong and independent Poland after the defeat of Hitler's Germany?"

"Answer: Unquestionably, it does. "Second question: On what foundations is it your opinion that the relations between Poland and the U. S. S. R. should be based after the war?"

"Answer: Upon the foundation of solid good neighborly relations and mutual respect, or should the Polish people so desire—upon the foundation of an alliance providing for mutual assistance against the Germans as the chief enemies of the Soviet Union and Poland."

Stalin.

"May 4, 1943."

London, May 6 (AP)—Premier Wladyslaw Sikorski said the Polish government-in-exile was "ready to give a positive answer to any Soviet initiative which will coincide with the interests of the Polish republic," in a declaration published here today.

The declaration was made in a letter to the New York Times in response to Stalin's assertion in a letter to the Times correspondent in Moscow, Ralph Parker, that the Soviet government wishes to see a strong and independent Poland. Sikorski's letter to the Times was re-leased to the press by the Polish government.

The WAR TODAY AN ANALYSIS OF THE NEWS

By DEWITT MACKENZIE Bulgaria, grimest and least loyal of the Balkans, reportedly is in the grip of one of those crises which descend suddenly on that part of the world.

From Turkey comes the report that 700 people have been arrested in Sofia, the Bulgarian capital, as the result of May day demonstrations. King Boris is said to have fled his capital, and if that's so, it suggests popular dissatisfaction with His Majesty's Hitlerian affiliations.

Curiously, many of the reports are coming from Berlin propaganda agencies. They say that the streets of Sofia are deserted.

The whole picture is calculated to give the idea of an impending upheaval.

Bulgaria long has been displaying a rash which indicated a complaint of a substantial part of the population against playing cat's-paw for Hitler and thus working against the Russians for whom many Bulgarians have a brotherly feeling.

King Boris is of Teutonic extraction, and he is only second in line in his dynasty. His father, Ferdi-

RENEW FIGHT FOR TAX BILL

Republicans May Take Rebatement Issue To House Floor

By JACK BELL

Washington, May 6 (AP)—Rebuffed by the House, Republican Rumlites enlisted some Democratic support and carried to the Senate Finance Committee today a fight for abatement of a full year's levies in the new current-collection tax bill.

Minority Leader McNary of Oregon said a move to substitute a modified version of the Ruml "skip year" plan of putting income taxes on a current basis would have full Republican support in the committee. If it unexpectedly fails there he said the Republicans would take the issue to the floor, just as their colleagues did unsuccessfully in the House.

The treasury told the Senate Finance Committee today that while there is "little room for choice" between three plans for current collection of taxes, the abatement of revenues proposed under the Carlson-Ruml measure advocated successfully by Republicans in the House "is thoroughly inequitable and unfair."

In an analysis of the House-approved Forand-Robertson bill, the rejecter Ways and Means Committee measure and the Carlson-Ruml plan, Randolph Paul, treasury general counsel, said that any choice between the three measures must be based primarily on the proposals to abate 1942 tax liabilities.

"Insofar as the distribution of forgiveness is concerned, the Treasury Department believes that both the Ways and Means Committee bill and the House bill distribute the cancellation of the 1942 tax on a reasonably equitable and fair basis," Paul said.

He added that the smaller amount of cancellation provided under the Ways and Means bill "results in a substantial increase in the revenue collections in the next few years at a time when such an increase is vitally necessary."

The Treasury, however, believes that the Ways and Means Committee bill possesses a definite advantage over the House bill," he added.

Allow Increase In Canning Sugar

Persons planning to can fruits, jellies and jams this year will have an increased allotment of sugar for this purpose, it was stated today by the Office of Price Administration.

In a letter to the Greenville Chamber of Commerce, Theodore S. Johnson, state director of OPA, gave the increased allotment at 25 pounds per person for canning purposes, from March 1, 1943, to February 29, 1944. The former allotment was five pounds per person.

"Referring to your letters in which you transmitted to us copies of resolutions passed by your Chamber of Commerce recommending increased allowances for home canning, we have received a teletype on April 30, increasing the allotment per person for home canning sugar to twenty-five pounds per person from March 1, 1943, to February 29, 1944, for canning of finished fruits, jellies and jams. We think this is a sufficient allotment to provide for almost all persons."

Realizing the need for home canning this summer, the local chamber passed resolutions favoring the increased allotment and took the matter up with the OPA some time ago in an effort to secure the increase which has now been granted.

Aldermen Meet Tonight

The Board of Aldermen will meet at the City Hall tonight at 8 o'clock. Routine business will be transacted.

British Blast Path To Plains Of Tunis

REVISION MADE IN STATE LAWS BY BROUGHTON

Governor Holds Down Speed Limit And Increases Labor Work Week

Raleigh, May 6 (AP)—Governor Broughton issued two proclamations today under his emergency war powers—one amending the state labor laws and the other fixing a speed limit of 35 miles an hour for all motor vehicles.

Both orders were approved by the council of state and copies were forwarded by Secretary of State Thad Eure to all law enforcement officers and to industrial employers.

The former speed limit of 60 miles an hour was lowered at the request of the Office of Defense Transportation.

Although both decrees went into formal effect at noon, the state highway patrol headquarters here said that no immediate reports were received of arrests for speeding. The entire patrol was under strict orders to arrest violators after 12 o'clock midday. Ration boards also were to be notified of the arrests.

The labor laws were amended in five parts in answer to a request from Labor Commissioner Forrest H. Shuford. The changes would allow girls between 16 and 18 to work on government contracts until 10 p. m. instead of 9 p. m. The labor commissioner would be allowed to issue special permits for girls to work until midnight when necessary to the war effort; the labor commissioner would be authorized to grant any army requests for women to work longer than the 48-hour week; the labor commissioner would be authorized to issue permits good for six months for men to work overtime; and would direct that authorized additional overtime be paid for on an equitable basis, with extra pay in no case to be less than one and a half times the usual compensation an hour for such

(Continued on Page Four)

Labor Board Takes Up Coal Wage Issue

Washington, May 6 (AP)—A War Labor Board panel started a public hearing on the soft coal wage dispute today with the expressed hope that President John L. Lewis and other United Mine Workers officials would change their minds and decide to attend.

Only the coal operators and their representatives and reporters were present as the hearing was opened to the public after a brief closed session. Cooke explained that normally panel hearings are open only to the contestants. But, he added, finding only one side represented, "the panel decided, with the approval of the board, to open the hearings to the press so that the public and the absent contestant may be advised of our day to day proceedings." In addition the chairman said, a verbatim transcript will be supplied to the UMW.

Officers Destroy Still ABC Officer J. M. Ward and sheriff's deputies destroyed a 50-gallon liquor still in the Ballard's Cross Roads section late Wednesday night. No arrests were made. They destroyed a 50-gallon steel drum, a 10-gallon doubler and a 50-gallon cooler and about 50 gallons of molasses mash.

Unanimous London, May 6 (AP)—William Gallagher, only Communist member of the House of Commons, informed the House Committee today that he had been invited to visit India and look into the situation there. Members promptly shouted "Go and stay there!"

Gen. Devers Named To Succeed Andrews

Washington, May 6 (AP)—Lieutenant General Jacob L. Devers, commander of the armored force, was named today by Secretary of War Stimson to succeed Lieutenant General Frank M. Andrews as commander of American army troops in the European theater.

Andrews was killed Monday in a plane crash in Iceland, and Stimson said his death deprived the country of "one of its most brilliant and gallant officers."

Devers, the Secretary said, already has shown "an immense capacity for organization and administration as head of the armored force," and in addition has been especially prepared for the European command by a recent trip of study and inspection to the entire European, North African and Middle East theaters of war.

Predicts Prompt Passage Of Civilian Supply Bill

By JOHN H. WIGGINS

Washington, May 6 (AP)—Legislation to create an independent civilian supply administration with as strong a claim on goods and services as the army or navy moved toward a senate vote today with an apparently large group of supporters predicting prompt passage.

While some opponents contended that a newly organized office of civilian requirements in the War Production Board would fill home front needs, sponsors of the measure argued that the WPB-dominated agency leaves the civilian population "as poorly off as before."

Although WPB Chairman Donald M. Nelson has opposed setting up an independent supply administrator as a threat to the war effort and a complication to present lines of administrative authority, sponsors of the bill declared a stronger voice is needed for civilians to keep

them healthy and functioning effectively in order to "produce and distribute what is required by our armed forces and Allies to win the war."

Senator Maloney (D-Conn.), author of the legislation, Minority Leader McNary (R-Ore.) and other expressed expectation of swift senate approval.

The projected civilian supply administration would differ chiefly from WPB's agency by providing for an appeal from any decision by the economic stabilization director and giving the civilian administrator a claim to supplies equal to the war and navy departments, lend lease, Board of Economic Warfare and the Office of Foreign Relief and Rehabilitation services and other agencies.

The administrator, a \$2,000,000 a year post, would be charged with securing

(Continued on Page Four)

AMERICAN AIR FORCE

Field dispatches said, and an armored column swung from an area above Mateur toward Ferryville, the bomb-torpedoed La Bizerte port, eight miles south of the naval base.

Djebel Chinitli was described as the biggest remaining barrier before the American and French units closing in upon Bizerte.

In a related drive at the southern end of the second U. S. Army Corps line, other troops pushed to a group of hills east of Eddekhlia on the way to Tebourba, six miles east of Eddekhlia and 18 miles west of Tunis. This area lies north of Djebel Bou Aoukaz, 12 miles northeast of Medjez-El-Bab, which was won by the British yesterday.

The northwest African Air Force, striking fresh blows at the Axis line across the Sicilian straits, sank two ships and severely damaged seven more.

Flying Fortresses sank an ammunition ship in the straits and damaged another in La Goulette harbor during a raid which also damaged several small craft, blasted barracks and oil storage and unloading depots and started many fires.

Allied fighter planes carried out (Continued on Page Four)

Social and Personal

Mrs. D. B. Willis of Elizabethtown is visiting Mrs. Edward Ricks on West Third Street.

Sgt. Charles B. Stokes of Yakima, Washington, arrived Wednesday to visit his wife Mrs. Charles Stokes and his parents Mr. and Mrs. H. M. Stokes of Greenville, Route 3.

Mrs. Jack Waters left Tuesday morning for New York to visit her husband, Pvt. Jack Waters who is stationed at Camp Shanks.

Dr. and Mrs. Paul Fitzgerald have returned from Raleigh where they attended the state meeting of the North Carolina Dental Society.

Ensign Samuel B. Dees of Jacksonville, Fla., is visiting his parents, Mr. and Mrs. J. E. Dees.

Pvt. Chester L. Fussell, of Camp Claiborne, La., is visiting his mother Mrs. J. C. Fussell, of Greenville, Rt. 2.

C. H. Humphries, representative of E. V. Price Company, custom tailors, who has been coming to Greenville for years, is spending several days here and making headquarters at Curtis Perkins' store on Evans Street.

Dr. Alfred Schultz has returned from the state meeting of the N. C. Dental Society in Raleigh.

Mrs. Vance Perkins and children who have been visiting in Kinston will arrive tomorrow to visit Mrs. Jesse R. Moore, Jr.

John G. Ashe, Jr., U. S. Maritime Commission, of Wilmington, and Elsign Katharine J. Ashe, U. S. N. R., are spending a few days with Mr. and Mrs. J. Arthur Jones Tuesday at Smith College, Northampton, Mass.

Aux Elizabeth White Perkins has returned from Baltimore where she visited her brother, James L. White who is seriously ill in St. Joseph Hospital. Mr. White was injured in a train accident several days ago. His conditions is slightly improved.

Sans Soule Book Club
The Sans Soule Club held a delightful meeting Tuesday afternoon at 3:30 at the home of Mrs. L. W. Gaylord on the Ayden highway, who was hostess for the afternoon.

Mrs. J. H. Waldrop, president called the meeting to order after which she greeted the guests, Mesdames Hagerty and Haney.

After a short business session the books were exchanged and then the meeting was turned over to the program chairman.

Mrs. W. L. Hall being our own club poetess, gave a most interesting program on Poetry. She read a selection of poems by Sara Teasdale, Edna S. Vincent Millay, Christine Rossetti, Carl Sandburg, Christopher Morley, Emily Dickinson, John Masfield and others as delightful as the poems by these authors were none were more enjoyed than the ones she gave of her own composition, particularly "A Prayer" and "My Jane".

Mrs. Gaylord, assisted by her mother, Mrs. King, served a salad course with coffee. —Reported.

Gaskins-Morton
In the presence of relatives and a few close friends, a marriage of impressive simplicity was solemnized at 5:30 o'clock Saturday afternoon, May 1st at the home of Mrs. Martha Phelps in Norfolk, Va., when her daughter, Mrs. Hester Phelps Morton became the bride of Jacob Claude Gaskins of Greenville, N. C.

The home had been tastefully decorated in green and white. A program of wedding music was rendered by Mrs. Beecher L. Rhodes and Miss Helen Phelps, sister of the bride sang, "I Love Thee," by Grace Miss Phelps wore a dress of aqua crepe with which she used pink accessories. Her corsage was of pink roses.

The Reverend Beecher L. Rhodes, pastor of the Baptist church, officiated. The couple was unattended. The bride was lovely in her dress of sheer navy blue crepe with white accessories and she wore a corsage of white orchids.

Immediately following the ceremony the couple left for a short wedding trip after which they will be at home on 408 East 10th Street in Greenville.

Mrs. Gaskins is the daughter of Mrs. Martha Phelps of Norfolk, Va., and the late W. T. Phelps and has always made her home in Greenville. Her charming personality has won for her a host of friends.

Mr. Gaskins is the son of Mrs. Emma Keen Gaskins and the late J. C. Gaskins of this city. He now holds a position with Greenville Feed Mills.

Promoted To Sergeant
Norman E. Mills, who has been stationed at Camp White, Ore., has been promoted to sergeant and will be transferred to another camp immediately as instructor.

At Camp Robinson.
Pvt. Lewis Sidney Bullock, founder and director of the North Carolina Symphonic Choir, which sang at the White House in Washington, on Boston Common, and over nationwide radio hookups from New York and also sang for Key Kever at his home near Hollywood, Calif., is now stationed at Camp Robinson, Little Rock, Ark.

From The Battlefield
Tech. Sgt. Dick Gonzales, of Long Island, who recently returned from Guadalcanal is a guest in the home of Dr. Alfred Schultz. Sgt. Gonzales was among the first group of marines from New River to visit Greenville in January, 1942.

The Wapiti is often called the American elk.

NEWS OF GREENVILLE HIGH

By COBA REDDITT

Graduation
The invitations for the Senior Class of 1943 graduation, Tuesday night, May 25, arrived today and

were given out along with calling cards.

Junior-Senior
The Junior Class is working hard on the decorations for the auditorium. The Junior-Senior will be a dance this year as the class at the first of the year voted it would be unpatriotic to have a banquet. The Junior-Senior begins at 9 o'clock tomorrow night.

Green Lights
The high school paper, Green

Lights, will be given out tomorrow morning to high school students.

Green Lights
The high school annual, Green Lights, will be sold to the high school students the 21st of this month. Seniors will collect their ad money over the week-end and turn it over to Henry Andrews. Prepare to do that!

Tin Cans
The homeroom collecting the most tin cans by tomorrow at homeroom period will receive the afternoon off.

Students will NOT be excused from school during the day to collect cans, as there will be no house-to-house collection. Students are asked to bring the tin cans of the school-childless neighbors-to-school also.

The Salvage Committee trucks will collect them from the school building.

New Officers
The following are the next year's officers for the 43-44 Student Co-operative Association. Voting took place yesterday. President is Ralph Fleming; vice-president is Mattie Harris Mayo; secretary is Mary Ann Harris, and treasurer is David Whichard. The voting ran close on most candidates.

Forty Years Ago Today

THE DAILY REFLECTOR
May 6, 1903

The central committee of the Confederate Veterans' Association of Pitt County met at the office of F. C. Harding last night to perfect an organization.

A motion was adopted to invite both chapters of the Daughters of the Confederacy to co-operate with the central committee in arranging for a dinner for the veterans at their annual meeting. Pitt County sent nearly 2,500 soldiers to the front and no braver troops ever marched into battle than the men who went from Pitt County. We are proud of their record and the history they made.

Some parts of a modern torpedo are so small that they could be lost beneath a fingernail.

The land route from Dakar to the Mediterranean is nearly 3,000 miles in length.

NOW! BAKE AT HOME WITH 25% TO 50% LESS SHORTENING!

YOU CAN BAKE AS MUCH AS EVER WITH OBELISK SELF-RISING (OR PLAIN) FLOUR IN THESE RATION-POINT-SAVING RECIPES

Ladies! Has rationing of shortening caused you to cut down your home baking? Are you worried about red ration points . . . wondering how you can buy enough shortening and still have enough points left for meat? Then stop worrying! Here is a laboratory-tested way to do as much baking as ever without using up your ration points. Now you can use 25% to 50% less shortening when baking with Ballard's Enriched OBELISK Self-Rising (or Plain) Flour.

☆☆☆

Chemists at the Ballard and Ballard laboratory, in collaboration with nutrition experts of a leading southern university, have discovered that you can bake light, tender hot biscuits by using only one tablespoon of shortening to every 1 1/2 cups of Ballard's OBELISK, the flour that made southern cooking famous.

Think what this means! Now you can bake 112 piping hot southern biscuits by using only two red ration points for the shortening.

Enough Biscuits for the Whole Family—Every Day in the Week

When you bake biscuits the Ballard way, you can serve four light, tender hot biscuits a day to every member of a family of four all week long—using no more red ration points for shortening than it takes to get a single 1/4-lb. pork chop.

Ask anyone in your family which he'd rather have—a one little pork chop or 112 delightful, golden brown biscuits.

By baking biscuits the Ballard way, you also save enough red ration points to secure all the butter you need for your biscuits.

Remember, under rationing, your family gets only three-fourths as much meat as before. Other nour-

ishing foods are also available in limited quantities only. Yet your family must get enough nutrition.

Your Family Needs Flour's Nutritional Benefits

Home baking—using Ballard's Enriched OBELISK Self-Rising (or Plain) Flour in ration-point-saving recipes—will help provide the nutritional benefits your family requires!

No wonder Uncle Sam has requested a 33 1/3% increase in the consumption of cereals—of which flour is the most plentiful! That is why

flour must now supply 30% more of our nutritive requirements than ever before!

Make sure that your family gets the healthful benefits of Calcium, Carbohydrates, variety of Proteins, Vitamin B₁ (Thiamin), Niacin (another important B Complex Vitamin), and Iron that Ballard's Enriched OBELISK Flour provides.

Remember! Use only one tablespoon of shortening to each 1 1/2 cups of OBELISK Flour—Self-Rising to assure correctness of leavening agents, or Plain if you prefer to add baking powder and salt yourself. Mix dough quickly and pop into an oven hot enough to bake biscuits golden brown in only 8 to 10 minutes.

Don't Cut Down on Home Baking!

For better meals, better health—bake at home with Ballard's Enriched OBELISK Self-Rising (or Plain) Flour. Sold on a MONEY-BACK guarantee. Valuable premium coupons in each economical sack or convenient carton. Ballard & Ballard Co., Inc., Louisville, Ky.

VICTORY BISCUITS

Have all ingredients—particularly the milk or water—well chilled. To every 1 1/2 cups of Obelisk Self-Rising Flour* add only one tablespoon of shortening. Cut in shortening thoroughly. Quickly add one-half cup of milk, and mix. Pat dough smooth, place on lightly floured board, and roll gently and quickly—don't press—until dough is about 1/2 inch thick. Cut with biscuit cutter and bake in hot oven at 475° F. for only 8 to 10 minutes.

*When using Obelisk Plain Flour, add one teaspoon baking powder and one-half teaspoon salt per cup of flour.

VICTORY CUP CAKES

1 cup Obelisk Self-Rising Flour*
3 tablespoons shortening
1/2 cup sugar
1 egg (whole)
1/4 cup milk
1/2 teaspoon vanilla and lemon
Cream shortening and sugar. Add egg and beat thoroughly. Mix in flour and milk alternately. Flavor. Bake in lightly greased muffin pans at about 400° F. for 15 minutes. Makes 10 to 12 cup cakes.

*When using Obelisk Plain Flour, add one teaspoon baking powder and one-half teaspoon salt.

BALLARD'S OBELISK Self-Rising or Plain FLOUR

Enriched with VITAMINS AND MINERALS

Strength FOR THE DAY

By EARL L. DOUGLAS

ACHIEVEMENT HAS A PRICE
What do you do with your spare time?

Many people fritter it away. A few renounce it. Some use it for fleeting moments for the production of masterpieces. Thomas Macaulay, employed in the British War Office, spent his odd moments sketching and finally completing his *Lays of Ancient Rome*. Anthony Trollope became one of the most voluminous writers in the history of English literature. Yet during part of his life he held a civil service position, and always he wrote between 5:30 and 8 a. m., producing 250 words every quarter of an hour and finding time during the rest of the day to hold a government position in the early years of his life, and in the days of his affluence to hunt three times a week and to have plenty of time for social enjoyments. Not a few men have made fortunes during their spare hours. Some of the greatest inventions have been made by men who worked on these things as a hobby, seeking relaxation in such hours after a strenuous day spent in their regular vocation.

We can do almost anything we set out to do, provided we are willing to pay the price. The wholesome mixture of energy, vision, and sound judgment can result in almost immeasurable achievement. It all depends on how much we are willing to discipline ourselves.

DON'T WASTE ANYTHING

With the sugar allotment for canning purposes increased to 25 pounds per person and with the facilities of the local cannery, previously used for canning the school lunch rooms, now available to the public, all the surplus fruits and vegetables in this community should be canned during the coming season. The food situation in the months to come is likely to be more serious than many people now anticipate and our people should see to it that every surplus item is canned for future consumption.

DO YOUR PART

The local tin can drive ends tomorrow and housewives are urged to have their cans ready when the children call for them. Those supervising the drive state that so far the children have been showing much interest in the drive and are doing a good job but in many cases the interest of the housewives is lacking. These tin cans are needed in our war effort and if you are one of those housewives who has not been cooperating, we urge you to get busy now!

A BIG ASSET

With the matter of procuring additional lands for expansion of our airport now completed local residents are looking forward eagerly to the day when the contracts will be let by the government and construction work on the project actually gets under way. This airport should mean much to Greenville and Pitt County

Chop, Chop, Chop

both as a war project and for civilian use after the war is over.

WASHINGTON IN WARTIME

By JACK STINNETT

Washington—Almost any day now you may hear that Joseph P. Kennedy, pre-war ambassador to Great Britain, once more is in the government picture. The fact that he has been out of it is one of the strange political phenomena of this war. It has been rumored at least a dozen times that he would take over this or that job. Members of Congress have made speeches about Joe Kennedy's talents not being employed in the war effort. Nobody much disagreed that he would make an admirable right-hand to that right hand of the President, James F. Byrnes. As a sort of lieutenant general on the home front, Kennedy was carrying on a public service that has been his forte almost from the day Roosevelt became president.

In 1933, Joe Kennedy became the first chairman of the Securities Exchange Commission. In some circles, there was a lot of grumbling in spite of his lowly beginnings on Boston's East Side. Kennedy was known as a Wall Street and "just another speculator." There even is a story that the President himself was not too sold on him for that job. But he gave it to him anyway and Kennedy sold himself to the public. Wall Street and the administration by creating out of the first nebulous SEC laws a workable set-up.

In time Kennedy moved over to

the Maritime Commission, and, according to some, set up the model for all-out wartime production.

In those days he was backing Roosevelt vociferously and financially. He had a hand in the second Roosevelt campaign, and an important one. If it hadn't been important, he never would have been appointed ambassador to the Court of St. James. That was his reward, but in his new post something happened.

Kennedy never has been accused of being an isolationist, but he didn't see eye-to-eye with the President on foreign policy, and being the outspoken fellow that he is, he said so.

He argued against lend-lease. His contention was that we should prepare for war first and form our alignments later. He wasn't keen for the third term although he did nothing to block it, even held up one of his major critical speeches until after the 1940 Chicago convention.

Somewhere, the relationship between President Roosevelt and Kennedy became noticeably cool. Kennedy came home from England and just didn't go back. No longer was he the frequent White House luncheon guest, nor even a Washington visitor. Periodically he was listed by the commentators as scheduled for this or that job, but it never materialized. Recently, however, he has been seen going in the White House gates more often than he did in SEC days.

Since we got into the war it has leaked out that Kennedy has turned down several jobs. It is said here that he didn't want any part of the dustings off that many of the administration appointees in war jobs were getting. In that, perhaps, he was wise. Yet there could be no tougher assignment than Civilian Supply director under Economic Stabilizer Byrnes. Aside from the public, Kennedy would be con-

stantly warring with WPB (Donald Nelson is reportedly opposed to having anybody as Civilian Supply officer outside of WPB), the Army, Navy and several others.

Any niche that the bespectacled Mr. Kennedy takes will be a tough one—but not too tough for the Irish-Catholic lad who did an Horatio Alger.

School Children Aid Can Collection

Miss Lyerly, principal of Third Street School says, "Yes, we are really getting quantities of cans. I just see where the children find so many but they bring some every morning and every afternoon."

Miss Phillipe says, "We have finished our own home and now we are helping our neighbors who have no children in school and we have a pile of cans."

Miss Wahl, principal of Training School, says, "We are getting tin cans, and tin cans, all the containers are full and the porch floor is full. All that are in will be packed away leaving space for tomorrow's supply."

The children of the colored schools are much interested and are bringing cans every day. They are being encouraged and helped by their teachers and by Prof. Davenport, the principal.

Housewives are certainly cooperating with the children, as usual, by having the cans prepared and ready for salvage. This special collection will be finished Friday. Keep on keeping prepared cans, however, there will be another collection later.

Predict Prompt . . .

(Continued from Page One) taining types and quantities of goods and services required by civilians, and the quantities of materials, manpower, facilities, transportation and other resources necessary for both the home and war fronts.

A determination of the need for rationing also would fall to the administrator—a power now held by WPB and the food administrator.

Soviets Smash . . .

(Continued from Page One) Azov. If the Red Army is able to drive a short distance from Kiymskaya to Verkhny-Bakamsky, they will cut the highway from Novosisk to another seaport town, Anapa, 29 miles northwestward on the Black Sea coast, just below the Taman peninsula.

Kiymskaya, once a city of 25,000, was taken in a flanking movement, the Russians said.

It was disclosed here that the "Paris Commune" flagship of the Soviet Black Sea fleet and other powerful naval units are in the Black Sea awaiting an opportunity to pounce upon any Nazi attempt to evacuate troops to the Crimea by sea.

Revision Made . . .

(Continued from Page One) work. The speed limit proclamation gives the state Highway and Public Works Commission authority to lower the limit even more in the vicinity of military areas, near plants engaged in war work, and where there is an abnormal traffic congestion.

View Warplane Tests

London, May 6 (AP)—Prime Minister Churchill, accompanied by only a few scientists and experts, recently viewed secret tests of late model warplanes so revolutionary in design they may change the whole trend of aeronautical development, it was announced today.

Successful test flights were made somewhere in Britain and elaborate secrecy measures were taken.

Plenty of Labor.

Washington, May 6 (AP)—Food Administrator Chester C. Davis reported today the Farm Labor Supply should be "sufficient to produce and harvest a 1943 crop up to the levels of the announced goals."

In a report to economic stabilization Director James F. Byrnes, Davis said that if the potential labor supply is fully used farm production need not suffer this year from lack of labor.

Transplanting Tobacco

Transplanting of tobacco is now in full swing in this and other counties. The movement of plants to the fields is later than usual. Cold weather retarder growth of the plants. Farmers report that there is less blue mold than in years. Plants are plentiful, but they are small, except in sections south of here. Incidentally, the government placed a ceiling price on tobacco plants.

Recommend Trade Extension

Washington, May 6 (AP)—A 3-year extension of the administration's Reciprocal Trade agreements program—not only to build American trade but as a means of securing world peace and preventing another global war—was recommended today in a majority report of the house ways and means committee.

British Blast . . .

(Continued from Page One) 1200 sorties. Individual flights yesterday in their biggest day's effort in the battle of Tunisia.

In all, 11 Axis aircraft were shot down yesterday. Four Allied planes failed to return.

In what appeared to be a desperate fight to organize defenses on the roads to Bizerte, along which both American and French forces have been pressing to distances as close as 10 miles, Axis troops counterattacked repeatedly yesterday in the area of Djebel Chemti, north of Lake Achkel.

All were repulsed and the Americans took more than 300 prisoners, most of whom were Italians.

South of the lake, Axis troops left behind on the 1,667-foot summit of Djebel Achkel, which lies between the Sidi Salem and Ferryville roads seven miles northwest of Ferryville, attempted to withdraw when they saw the American and French advancing on both sides of them. The U. S. Second Corps, however, forced them to stand and fight. The Americans gained a considerable portion of the hill, mopping up the enemy as they advanced.

British First Army troops of Lt. Gen. K. A. N. Anderson, following close behind an earth-rucking aerial bombardment and artillery barrage, rushed the blood-drenched Jebel Bou Aoukaz at 3 p.m. yesterday to win that height dominating the Medjerda river valley and the road to Tebourba. Thirty prisoners were taken.

By nightfall the entire mountain, which the Germans tried so desperately to defend throughout the last two weeks, was in British hands.

WAKE UP YOUR LIVER BILE —

Without Calomel—And You'll Jump Out of Bed in the Morning!

The liver should pour out about 2 pints of bile juice into your bowels every day. If this bile is not flowing freely, your food may not digest. It may just decay in the bowels. Then gas bloats up your stomach. You get constipated. You feel sour, sunk and the world looks pink.

It takes those good, old Carter's Little Liver Pills to get these 2 pints of bile flowing freely to make you feel "up and up." Get a package today. Take as directed. Effective in making bile flow freely. Ask for Carter's Little Liver Pills. 10¢ and 25¢.

The 800-foot hill, lying two miles east of the Medjerda-Bab road, was one of the Germans' last barriers before the wide Tunis plain.

As French and American troops pressed from the south and west toward Ferryville and Bizerte, the Allied air forces announced that tremendous damage had been done to both targets by the repeated aerial attacks which "all but immobilized Ferryville."

The attacks against Bizerte, important Axis supply post and naval base, were concentrated on the extensive quays and unloading facilities of the Lake Bizerte channel. Ferryville, the satellite port eight miles away on the southwestern edge of Lake Bizerte, has been repeatedly raised by concentrated formations, the report said. It is important because of its naval dockyard, complete with repair, refueling, coaling and storage facilities. Whole acres have been razed and havoc was wrought among dry-docks, workshops, barracks, warehouses and fuel installations. The off roofs in areas which escape force of the bomb-explosions tore direct hits.

War Garden Vic

"Squash the Axis!" says Vic, as he grows rows of vitamins. Rumford has taken on a war job too—supplying necessary minerals to the diet. In baked foods, 1 level teaspoon of Rumford Baking Powder supplies the individual minimum daily requirement of phosphorus, the requirement of calcium. FREE: Rumford's new folder, *Quick Breads*. CARRASQUEL HITS STRIDE AS PITCHER

Has Already Won Half as Many Games As Total Of Last Year

By JUDSON BAILEY

A lot of pitching surprises, as well as surprising pitchers, have sprouted this spring in the major leagues, but none has been any more amazing than that young (?) man from Caracas, Senor Alejandro Carrasquel of the Washington Senators.

The big Venezuelan is listed in the record books as 29 years old, 30 next July, but in appearance he looks to be anywhere between 30 and 40 and his teammates say there is no telling exactly how old he really is.

Anyway, he has been with Washington four years prior to this season without ever winning more than seven games. He reached this nominal peak last year, when he also lost seven.

In the face of this undistinguished precedent big Alex has opened the 1943 campaign by whipping the Philadelphia Athletics three times to take his place among a select little group of hurlers who have won three games without a defeat.

Carrasquel looked fast in spring training, but he was still rated as a relief pitcher when the Senators staged their inaugural with the A's on April 20. He worked the last five innings of that affair, allowed but two hits, and received credit for the victory. Five days later he was chosen to start against the A's at Philadelphia and proceeded to shut them out on two hits.

Yesterday he beat them again 8-1 on four hits and the only run against him came on an error in the ninth. Unfortunately Carrasquel can't keep pitching against the A's all season, but he already has ac-

STANDINGS

American League

Team	W.	L.	Pct.
New York	9	3	.750
Cleveland	8	4	.667
Detroit	7	4	.636
Washington	8	6	.571
St. Louis	4	6	.400
Philadelphia	5	9	.357
Boston	4	8	.333
Chicago	3	8	.273

National League

Team	W.	L.	Pct.
Brooklyn	10	3	.769
St. Louis	7	5	.583
Pittsburgh	7	5	.583
Boston	5	5	.500
Cincinnati	6	6	.500
New York	5	8	.385
Chicago	4	8	.333
Philadelphia	3	7	.300

cumulated almost half his total wins of a year ago and he has a lot to do with keeping the Senators sailing along in fourth place in the American League.

The New York Yankees remained on top the A. L. by nosing out the Boston Red Sox 4-3 again in the ninth inning with the help of a balk by Rookie Pitcher Anton Karl, who got excited when the Yanks loaded the bases and threw a pitch without having his feet on the rubber.

The second place Cleveland Indians divided a doubleheader with the Chicago White Sox. They won the first game 2-1 but dropped the nightcap - 2 when Dick Culler, Sox rookie third baseman, singled two runs across in the 11th inning. Wally Moses also stole home to add insult to injury.

Frank (Stubby) Overmire secured his place among the year's surprising new pitchers by holding the St. Louis Browns to four hits while the Detroit Tigers rapped out a 5-1 decision—their fourth straight over St. Louis this spring.

The Brooklyn Dodgers plowed the Philadelphia Phillies back into the National League cellar with an 18-6 drubbing on the strength of 23 hits good for a total of 30 bases.

The St. Louis Cardinals, having to struggle every day against the tough western clubs while the Dodgers are gazing on their tender western turf, were set down 2-1 in 14 innings by the Chicago Cubs as what looked to be a sure double-play grounder took a bad hop over second baseman Jimmy Brown's head. Both Claude Passeau of the Cubs and Max Lanier of the Cards went the whole route and allowed the same number of hits, 12, but Passeau helped himself by doubling home the tying run in the seventh.

New York's groggy Giants swept a doubleheader from the Boston Braves 5-1 and 7-3 after Manager Mel Ott had benched himself and Babe Herra for weak hitting.

Bucky Harris pitched and batted Cincinnati to a 3-2 triumph over the Pittsburgh Pirates in a night

Sports Roundup

By HUGH FULLERTON, JR.

New York, May 6 (AP)—If congress passes a bill calling for twenty per cent (or any other per cent) withholding tax, Al Weill wants to know if it will affect purses paid to boxers. "I might wind up as the stakeholder for 20 per cent," says Al, who admits that a lot of guys in the fight racket might look at the dough as a stake for a couple of trips to the racetrack.

Ford Frick casts a negative vote in the campaign to give Capt. Edie Grant, baseball's world war one hero, a place in the hall of fame at Cooperstown. "He just wasn't a good enough ball player, say one National League prey. . . . When the Phillies persuaded the Reds to take back Gar Del Savio, the unreformed sem-pro shortstop, Bill Dooly, Philadelphia baseball scribe, explained: "They just returned him marked 'Opened by Mstake.'"

Two For The Book
When the Port Sheridan, Ill., played the Benda Coal team of Berwyn, Ill., recently, not one of the six outfielders on the two teams registered a putout. The soldiers made only four nits, two of them

Fish Story
Celebrating the opening—or was it the closing—of the New Hampshire season, Roger Peabody, who had spent the winter up on Cannon Mountain supervising the tramway and the ski patrol, skied two miles down Cannon Trail from the summit, changed from ski boots to hip boots and went fishing in Echo lake. To make it a good story, he would have used his ski poles for a fly rod and caught a frozen trout.

Deep In The Heart Of
Joe Burnett, former Penn end now at the air force intelligence school at Harrisburg, Pa., tells this one. He was an assistant coach at Camp Daniel, Ga., last fall when husky

scratched through the infield, but when they reported for practice the next day there was only one bat on hand and nobody used it except to knock 'em out for fielding practice.

Scrap Collection
Pending an official checkup, it appears that Ken (Waterbury Republican) Alyta won Frank Menke's annual derby peking contest. Ken called them 2-2-3-4. Count Fleet, Blue Swords, Slide Rule and Amber Light. Outside of Mike Jacobs' shows at the baseball parks, it looks as if the Fort Hamilton arena will be the only outdoor fight club operating this summer. Promoters are required to provide concrete air raid shelter for the fan and only the army post has them. Taking a trip from Pimlico, Beulah Park race track is advertising. "The Allie can't spell victory with an absentee"

250-pound firm boy turned out for practice. Joe asked if he had any college pro to high school experience and the boy replied: "No, only semi-pro ball."

COLORED NEWS

Pitt County School News
The North Carolina School Health Coordinating Service is again offering fellowships to teachers who desire to attend the Child Health Conferences being offered at Bennett College in Greensboro and in North Carolina College in Durham. The courses included in the conferences are: Child Health Problems, School and Community Health Problems and Methods and Materials in Health Education. Integrated with these courses will be numerous conferences, discussions, demonstrations and field trips. Certain parts of the work will be carried out on a "workshop basis." A

Food and Nutrition Consultant to Wilson & Co.

MOTHER'S DAY—A KITCHEN HOLIDAY

Once a year you mothers come into your own. Not that you're not appreciated all of the time—goodness knows we couldn't get along without you! But on your own special day we take time to really tell and show you how we feel about you all the rest of the year. So when Suzy and Bob—and that goes for Dad, too—tell you that next Sunday is your day to have a holiday from the kitchen, you'll fall in line and really enjoy their desire to serve and please you.

Mother's Day Menu

- HAM-VEAL LOAF
- SLICED GREEN BEANS
- BAKED POTATOES
- TOSSED SALAD
- BUTTER BREAD
- RASPBERRY FLUFF
- MILK
- COFFEE

Even experienced cooks have to make plans, so that's where we commence. Mother's holiday doesn't really start until Sunday morning, so she won't mind checking your grocery list.

A BIT OF PREPAREDNESS
Hands polished? Aprons on? Then "four to go!"

Get a running start by mixing meat loaf Saturday.

To make the meat loaf, mix together 1 lb. Wilson's Certified Smoked Ham (ground) (8 points) and 1 lb. Wilson's Gela Sealed Veal (ground) (6 points). 2 cups soft bread crumbs 1 slightly beaten Clear Brook Egg, ¼ cup milk, 1 tsp. finely chopped onion, ¼ tsp. pepper and ½ tsp. salt. Pack in oiled ring mold (or loaf pan) and bake in a mod. hot oven, 350° F., 1 hour. Serves 8.

Beans sliced lengthwise require only about 8 minutes boiling, retaining color and vitamins better than when cooked a long time. Save points by seasoning with bacon drippings. They are extra good when you use Wilson's Certified Bacon.

Keep This a Surprise
Of course you can't bake fresh bread but you can almost make Mother think you did. Use day-old, sliced bread. Remove from wrapping, tie slices together firmly (but not tight). Spread softened Clear Brook Butter liberally over the top. Place in tightly covered roaster, and heat in a moderately hot oven, 350° F., about 25 minutes.

Salad's easy. It's simply head lettuce or curly endive made zesty with chives or onion and sliced celery, and prettied up with tomato wedges or carrot sticks. Mix gently with French Dressing just before calling Mom to eat. Garnish with hard-cooked Clear Brook Eggs, cut in wedges.

Dessert's really Bavarian Cream. Use Mother's recipe, substituting whipped evaporated milk if cream is scarce.

Be sure to look me up next week because I'm going to give you a secret that has made chefs famous.

George Rector

P. S. If the family haven't thought of giving you a holiday Sunday, give Dad a hint by showing him how easy it would be to follow the suggestions above.

When EXHAUSTION leads to Headache

Don't let headache double the misery of exhaustion. At the first sign of pain take Capudine. It quickly brings relief, soothes nerves upset by the pain. It is liquid—already dissolved—all ready to act—all ready to bring comfort. Use only as directed. 10c, 30c, 60c.

POTASH LIME FOR SALE BY Blount Fertilizer Co. 4-eod-31

Hog Market

Raleigh, May 6—(AP)—(NCDA)—Hog markets steady with top of 14 1/2 at Richmond and 13.90 at Rocky Mount.

Poultry and Eggs

Raleigh, May 6—(AP)—(NCDA)—Egg and poultry markets steady, receipts moderate. Raleigh—U. S. extras large (graded white) 36; colored hens 25. Washington—U. S. extras large 40; live poultry receipts too limited to establish prices.

Grain Market

Chicago, May 6—(AP)—A little buying came into the wheat market near the close today and, in the absence of any selling pressure, prices scored moderate advances. Other grains held near previous closing levels.

The buying of wheat appeared to be based upon continued reports of unfavorable weather for crop development in many sections of the growing area, as well as a boost in bread price ceilings in a few sections of the country.

Wheat closed 1/2 cent higher, May \$1.46, July \$1.45-\$1.45 1/2, corn was unchanged at ceilings, May \$1.00, oats were up 1/2 cent and rye showed gains of 1/2-3/4.

New York Cotton

New York, May 6—(AP)—Cotton futures opened 5 to 10 cents a bale lower. Noon prices were unchanged to 20 cents a bale lower, May 20.25, July 20.04, Oct. 19.92. Futures closed unchanged to 25 cents a bale lower.

Table with columns: Open, Last, Prev. cl. Rows for May, July, Oct., Dec., March, Middling spot.

N. Y. Stock Market

New York, May 6—(AP)—The stock market today wobbled slightly. Transfers were around 2,000,000 shares.

The "new high" category included Atlantic Coast Line, General Motors, Standard Oil (N.J.), Eastman Kodak, American Airline and Montgomery Ward.

Bonds just about held their own.

Table of FINAL STOCKS with columns for stock names and prices.

Tired Kidneys Often Bring Sleepless Nights

Doctors say your kidneys contain 15 miles of tiny tubes or filters which help to purify the blood and keep you healthy. When they get tired and don't work right in the daytime, many people have to get up at night. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder. Don't neglect this condition and lose valuable, restful sleep.

Back On Feet

Lieut. Gen. Lesley J. McNair, chief of U. S. army ground forces, who recently escaped death by a narrow margin on the Tunisian front, strides from a tent in Allied Forces headquarters in Tunisia. His arm, strapped to his side beneath his shirt, bears witness to his fractured shoulder. He also suffered a scalp wound. This picture came from Algiers via U. S. Army Signal Corps radiophoto.
