

Ten More Towns Captured By Allied Forces In Italy

Germans Fall Back to New Positions As Fifth And Eighth Armies Advance Four To Five Miles; Allied Air Fleets Smash Nazis In Italy And the Balkans

By EDWARD KENNEDY
Allied Headquarters, Algiers, Oct. 26.—(AP)—Allied armies in Italy have captured 10 more towns in advances up to four or five miles, it was announced today, and German opposition on the Fifth army front diminished as the Nazis apparently fell back to new positions.

It-Gen. Mark W. Clark's Fifth Army seized Ravenna only 15 miles south of the large transport city of Isernia, and an Eighth Army column striking up from the southwest took Objano, some 15 miles from Isernia on the main road from Campobasso.

The Fifth gained four to five miles in taking Ravenna, 19 miles north of Capua, and also took the towns of Cratichio, 2 1/2 miles west of captured Spauris, and Rocchetta.

Four other towns besides Boiano fell to the British, including Baranello, a strongpoint between Campobasso and Boiano, Spineti, four miles north of Boiano, Petrella and Palata.

Isernia, a key point in German Italy, was being threatened by the Fifth and Eighth armies from the south and southwest.

Some German rearguards still offered stubborn resistance. Francoise was captured in a fresh advance, westward aimed at the main enemy defense positions at Mondragone and Massico ridge which towers 2,500 feet. Rocchetta is four miles northeast of Spauris.

Official information from the front confirmed an earlier forecast that the Germans are preparing a major stand along a line from Mondragone on the west coast north-eastward through Venafrò and then across Italy to the area of Vasto on the Adriatic.

It was disclosed that the bridgehead gained by the Eighth Army across the Trigno river was near the (Continued on Page Four)

Tobacco Prices Stronger Today

On the eve of the sales holiday for the balance of this week, that became effective at the close of today's sales, prices on the Greenville tobacco market showed much improvement today especially on good and medium good tobaccos. The good tobaccos were selling from 47 to 49 cents a pound at the close of the sales.

Despite the fact that yesterday's offerings included much common tobacco the days average was around 41 cents and indications were that today's average would reach the 42 cent mark.

Season's sales through yesterday were 41,582,732 pounds for \$16,806,001.74, an average of \$40.42 per hundred pounds.

Navy Announces Casualty List

Washington, Oct. 26.—(AP)—The navy announced today 25 casualties, including 19 dead, 1 wounded and five missing.

This brings to 30,789 the total of navy, marine corps and coast guard casualties reported to next of kin since December 7, 1941, including 12,141 dead, 5,478 wounded, 9,021 missing and 4,169 prisoners of war.

Kinkaid Says Several Jap Subs Sunk At Kiska

Washington, Oct. 26.—(AP)—Vice Admiral Thomas C. Kinkaid, commander of the Aleutians area, disclosed today that "quite a few" Japanese submarines were sunk by American destroyers while the enemy evacuated its garrison on Kiska Island.

"We got quite a few and it was enough to make it hurt," he said at a press conference in which he outlined the long campaign that drove the Japanese from the Aleutians.

Kinkaid, Secretary of the Navy Knox explained, is in Washington prior to taking over new duties as commander of naval forces in the southwest Pacific succeeding Vice Admiral Arthur S. Grier, who will become commander of the ninth naval district with headquarters at Great Lakes, Ill., succeeding Rear Admiral John R. Downes, who is retiring.

Boy Carves Statue From Tree

Leonard Jones, 17-year-old sculptor of Columbus, Ga., proudly displays the gigantic statue of a man he is carving from an oak tree. He is explaining to his father (left) the technique he has used in the two months he has been working 12 hours a day to finish the statue before he is called for military service.

New Raids On Rabaul Raise Jap Plane Losses

BOOST TAXES ON LIQUORS

Committee Votes To Raise Levy To \$10 A Gallon

Washington, Oct. 26.—(AP)—The House Ways and Means committee voted today to boost the tax on liquor from \$6 per gallon to \$10, but rejected all proposals for any increase in tobacco or gasoline levies.

Marine and Others Injured In Wreck

Pvt. Floyd Ramsey, U. S. Marine from Cherry Point, was seriously injured and a number of children were hurt when a car turned over about 10 o'clock last night during the storm near Chapman's Cross Roads. The Marine was taken to Pitt General Hospital. He was to have been transferred this afternoon to the hospital at Cherry Point. A Mr. Manning took the injured children to New Bern for treatment, it was reported.

Eilwanger's ambulance was called to the scene of the wreck but the injured had been moved before he arrived. Details of the wreck were unavailable.

Kinkaid Says Several Jap Subs Sunk At Kiska

Kinkaid described how a destroyer force shut off Kiska and said, "We had some success in getting Japanese submarines. We hope some of them were full of evacuees, but we don't know."

Asked for estimate on the number sunk, he replied, "quite a few." Admiral Kinkaid said he believed evacuation of the Japanese garrison on Kiska, previously estimated at some 10,000 troops, was carried out by submarines and that if the Japanese had not given up the island "heavy casualties" might have resulted when American troops landed in August.

"When we landed," he said, "the beaches were much more strongly covered than we ever had dreamed and casualties would have been very heavy."

He said he believed troops and units not needed for combat were (Continued on Page Four)

ALL-OUT DRIVE FOR WAR FUND

Intensified Effort To Reach Quotas Be- gun Today

By CHESTER WALSH
"Fifty of the 3,500 Pitt county men in the armed forces have made the supreme sacrifice and given their lives in this war. The others who are out there fighting and being trained for battle expect us on the home front to do something besides give them uniforms and guns," said Mayor Bruce Sugg at a breakfast meeting of the United or National War Fund drive solicitors at Proctor Hotel this morning.

"The men and women who are going out today to give our people an opportunity to contribute something for the recreation and morale of the men of the army, navy and air corps and for the oppressed people in enemy occupied countries, have never had a higher commission assigned them. Everybody should contribute. I sincerely believe that our people will more than meet the quota and then be able to look the returning soldiers and sailors in the eyes when they come back with victory and feel that they did their duty at home," the (Continued on Page Six)

Airmen Blast Jap Positions

Chungking, Oct. 26.—(AP)—American bombers based in China have struck heavy blows at the Japanese in Burma and Indo-China to support Chinese ground troops, a communiqué from Lt. Gen. Joseph W. Stilwell's headquarters announced today.

The China-based Liberators dropped many bombs on Hanoi, 75 miles northeast of the Japanese base at Myitkya in southern Burma, to help the Chinese hold their front along the Salween river.

The Japanese are trying to push the Chinese across the river to minimize danger of an Allied counterattack on Myitkya, possession of which is considered essential for opening a land supply route to China.

Liberators with a fighter escort dropped 25 tons of bombs on Japanese installations in Indo-China with successful results and all American aircraft returned safely.

"At New Delhi a British communiqué said that RAF bombers and fighters were busy over Burma yesterday and that the Japanese had bombed the Cox's Bazar area above Akab causing casualties to a few civilians but no military damage."

"RAF Liberators bombed the Rancho central station and Akab, a principal port on the bay of Bengal, and fires were started in the target areas at both places."

Total air losses of the Japanese listed in today's communiqué accounts of widespread operations were 203 which raised to approximately 800 the number of enemy planes bagged within the last two-week period in the south and south-west (Continued on Page Six)

Grimesland Pledges Support War Fund

By CHESTER WALSH
Grimesland lined up for a successful drive to secure its quota of \$100 for the National or United War Fund at a meeting at the Grimesland school last night. A group of representative citizens formed an organization to canvass the territory and started the ball rolling by generously subscribing a substantial sum. It was stated that the Grimesland community had collected several hundred dollars for the fund and that the Negroes under the chairmanship of O. A. Dupree would turn in \$100 or more. G. P. Carr, principal of the school and War Fund chairman, presided. Pitt county's quota is \$37,500.

Mayor Bruce Sugg of Greenville, who has three boys in the armed forces; Mayor A. P. Fleming of Grimesland and Dr. C. H. Spiggle, vice chairman of the War Fund Drive, made inspiring talks. Others present were Dick Rouse, J. J. Elks, J. L. Outlaw, Rufus Galloway, Leslie Elks, P. W. Majette, Charles L. Godley and Mayhew Godley.

The workers today began personal solicitation in the township. They expressed confidence that Grimesland will do its part for the benefit of the men in the armed forces. American war prisoners in enemy territory and for people oppressed by the enemy.

Dr. Jenny, widely known Swiss newspaperman, writes that "in wide circles it is considered possible that Germany will break within a few weeks."

Ivan Yermashov, Soviet commentator, wrote the other day in the Red Star, organ of the Russian army, that a decisive blow through France by the western allies would bring about swift defeat of Germany and a quick end to the war.

Russian Armies Pursuing Bleeding Nazi Divisions

Russians Take Gateway To Crimea

The capture of Melitopol, gateway to the Crimea, was announced by Marshal Joseph Stalin. Coupled with the drive toward Krivoi Rog from the north, this threatens the entrapment of Nazis defending the Crimea. The shaded area is German-held territory, with the battle lines of August 23 and of September 23 showing the progress of the last two months of the Russian offensive that started July 12. The Russians extended their lines yesterday with the capture of the important industrial cities of Dnepropetrovsk and Dneprodzerzhinsk. (AP Wirephoto).

LEAF HOLIDAY NOW IN EFFECT

Governor Hopes Mar- kets Can Reopen Monday

Raleigh, Oct. 26.—(AP)—The North Carolina congressional delegation has been assured by the Commodity Credit Corporation that tobacco allotments to buyers will not be reduced and the corporation will support the markets to halt a recurrence of price declines. Gov. Broughton said today.

The delegation reported it obtained the promise after conferring with officials of the corporation and the Agricultural Adjustment Administration.

The War Food Administration, supervising tobacco sales, said Sunday that buyer allotments had not been curtailed. The statement was contrary to statements made by tobaccoists and warehousemen at a meeting here Saturday.

Gov. Broughton said the federal authorities explained the misunderstanding by saying they merely wrote to the buyers and pointed out that the estimated tobacco yield was less than originally believed.

The impression was left, the governor said, that the buyers should decrease their purchases which they (Continued on Page Four)

The WAR TODAY

AN ANALYSIS OF THE NEWS

By DEWITT MACKENZIE
(Associated Press War Analyst)

What justification is there for the various European reports that Germany is on the point of cracking up?

For instance, a dispatch from Scotland reports that British soldiers who have just returned from Nazi prison camps say German hope and morale are cracking under the strain of British and American air attacks.

London tells us that statements leaking out of Germany through neutral countries describe last week as the blackest of the war for Hitler, and hint at a critical situation on the home front.

Nazi commentators have made no bones recently of expressing grave concern over the fighting on the Russian front.

Dr. Jenny, widely known Swiss newspaperman, writes that "in wide circles it is considered possible that Germany will break within a few weeks."

Ivan Yermashov, Soviet commentator, wrote the other day in the Red Star, organ of the Russian army, that a decisive blow through France by the western allies would bring about swift defeat of Germany and a quick end to the war.

Brigadier General Curtis E. LeMay, commander of the U. S. heavy bomber division in England, says that German war industry will be

WLB Ruling On Illinois Coal Contract Expected

More Than 45,000 Miners Still On Strike In Eight States Today

(By The Associated Press)
Washington, Oct. 26.—With more than 45,000 soft coal miners still on strike in eight states, a War Labor Board decision on a proposed wage contract was an immediate possibility today.

Chairman William H. Davis finished a tentative opinion for submission to the entire board at resumption of the conferences.

Meantime, the "no contract, no work" attitude of many miners brought about some fresh walkouts despite pleas of the United Mine Workers that the men resume production.

Hearing Land Suit In Superior Court

By CHESTER WALSH
Divorce cases occupied the forenoon of yesterday's session of Superior Court. Judge J. Paul Frizell of Snow Hill, is presiding.

The court took up the case of D. Woodrow Worthington against Clifton Phillips Monday afternoon. This action involves the title and rents on a tract of land. Arthur B. Corey of Greenville is counsel for the plaintiff, R. B. Lee of Greenville, and J. A. Jones of Kinston, represent the defendant. Southgate Jones of Durham, a former president of the N. C. Joint Stock Land Bank, and W. C. Newton of Durham, are witnesses in the case.

Shortly after the Worthington-Phillips case was called it was postponed. In deference to the judge's ruling that a substituted trustee for the N. C. Joint Stock Land Bank of Durham was valid, the defendant, at the suggestion of counsel, took a non-suit and will go to the Supreme Court to ascertain the validity of the ruling. Worthington claims title to the land, Phillips the rents.

A divorce was granted to Doll Hines, colored, against Rosa Hines, on two years' separation. A decree was granted Collie V. Taylor against Aubrey Taylor, on the same grounds.

The case of J. C. Dixon and others against Scott Dixon and wife, involving title to certain land, was called this afternoon.

The following divorces were granted Monday on the grounds of two years' separation:

Colored—Apple Lee Saxon against Colonel Isador Saxon; Cassie Forbes against Edward Bennie Forbes; John Louis Patrick against Dora Robbins Patrick; Marvel Daugherty against Estelle Jenkins Daugherty; Joe Wilks against Rosa Lee Bullock Wilks; and Rodolph Duffy Albertson against Lucy Williams Albertson.

White—Annie Hardy Tripp against Willie Tripp.

Germans Lose Important Steel Center Of Bosnia

London, Oct. 26.—(AP)—German forces lost their last heavy industry center in Bosnia today when Yugoslav patriots captured the steel manufacturing city of Vares-Maydan, 20 miles north of Sarajevo, a communiqué of the Yugoslav national liberation army announced today.

The city fell to the guerrilla warriors of Gen. Josip (Tito) Broz, after a fierce 12-hour battle, the (Continued on Page Four)

To Place Fathers At Bottom Of List

Washington, Oct. 26.—(AP)—The house got its long-awaited fling at father-draft deferment legislation today.

Indications were it would, by nightfall, pass a bill to put husbands and fathers at the bottom of the induction list and strengthen the authority of Maj. Gen. Lewis B. Hershey in administration of the selective service law.

Up for action was a rewritten version of the measure on this subject which the senate passed several weeks ago when the upper chamber rejected proposals for an outright ban on general father-drafting.

The government, both men and women—2,985,404, of whom 2,825,904 are in continental United States—as of July 31.

Of those in the United States, 1,922,700 work for the War and Navy Departments, and about 84,000 have been given occupational deferments.

The Post Office Department, the next largest employer, has 315,741 workers of whom only 61—all postal inspectors—have been deferred.

In all other governmental agencies, 13,992 men have been granted occupational deferments.

The total occupational deferment figure is 98,953.

In addition, there are 2,003 uniformed personnel in the War Shipping Administration's training organization and 14,000 cadets in the training organization schools, who have been deferred, but the President said these men are not "really" (Continued on Page Four)

Germans In Disorder- ed Retreat From Dnieper River Bend Area In Action Which Nazi Military Commentator Ad- mits Is "Deciding Fate" Of Eastern War

By HENRY C. CASSIDY
Moscow, Oct. 26.—(AP)

Four hard-hitting Soviet armies today were pursuing the battered legions of Adolf Hitler retreating across southern Russia from the shattered Dnieper river defense wall toward the Bug river, 175 miles to the west.

Front dispatches indicated that the badly mauled Nazi forces were waging desperate but futile rear-guard battles along a 200-mile-long front from Kremenchug south to the Sea of Azov, intent only on saving as much as possible from what may prove to be the greatest German disaster since Stalingrad.

The German retreat, accelerated by the Russians' capture of the industrial cities of Dnepropetrovsk and Dneprodzerzhinsk in the great Dnieper bend yesterday, was bluntly characterized by a Russian communiqué as "disordered." It yielded "enormous quantities" of war material abandoned by the Nazis. Thousands of Germans were reported killed in fierce fighting on the flat Ukrainian steppes above the Crimea.

(London dispatches, based on Moscow advice and transmissions of danger emanating from Berlin broadcasts, estimated there were perhaps 2,000,000 Germans in the mass retreat across the Ukraine.)

(Indicative of Russian offensive strength in the far north, the Polish Telegraph Agency in London quoted underground sources as saying that the Germans have already mined Lwow in southeastern Poland, ready to blow it to ruins in the event of a Russian breakthrough on the White Russian front.)

It was Gen. Rodion Y. Malinovsky's third Ukrainian army which stormed Dnepropetrovsk to topple that great economic and military center. He was supported on his right flank by Gen. Iven S. Konov's second Ukrainian army group, while the fourth Ukrainian army, which captured Melitopol Saturday, backed him up on the left flank. The first Ukrainian army operating further to the north was believed plunging westward below Kremenchug to (Continued on Page Four)

Nazi Planes Over Britain Last Night

warplanes swooped over outlying districts of London last night to set the capital's air raid sirens screaming for the ninth time in 10 nights, but veered off without passing over the city itself after drawing a sputter of anti-aircraft fire.

A few enemy raiders also appeared over southeast England and East Anglia during the night, dropping bombs at two widely separated places, but no casualties and only minor damage were reported.

There was no indication of any night activity by the RAF's heavy bombers.

Yesterday, an Air Ministry communiqué said, RAF Typhoon bombers, escorted by fighters, attacked a Nazi airfield near Cherbourg and the power station at Caen, while RAF Mitchells and Dutch naval planes bombed an airfield near Brest.

Six planes, including two medium bombers, were lost in these operations, the bulletin said.

Declares Government Is Not Harboring Slackers

Washington, Oct. 26.—(AP)—Answering what he termed "mud-slingers" who have been calling the government a haven for draft dodgers and slackers, President Roosevelt said today that only 3.2 percent of the nearly 3,000,000 full-time civilian employees of the government had received occupational deferments.

To Vice President Wallace and Speaker Rayburn, for reading to senate and house, the President sent a 2,700-word letter of rebuttal to what he termed "groundless charges" and "irresponsible rumors." Many of these charges came from congressmen during arguments over the drafting of pre-Pearl Harbor fathers.

These "unfair accusations must be emphatically denied," Mr. Roosevelt asserted. Here are some of the figures he used to back up his denial:

Permanent full-time employees of

Social and Personal

Tech. Sgt. Ray D. Munford has returned to Camp MacRae after spending the week-end with his parents, Mr. and Mrs. H. R. Munford on Dickinson avenue.

Mrs. M. T. Pyle of Durham, is visiting her sister, Mrs. Robert R. Taylor, 704 East Fourth street.

In Veterans' Hospital.
Mr. James N. Woolard who is a patient in Veterans' Hospital, Fayetteville, underwent an operation this morning.

Injured In Plane Accident.
Capt. Max Minges left by plane today for El Paso, Texas, to visit his father, Herman Minges, who is ill there in William Beaumont General Hospital.

Ensign Minges was enroute to the west coast when his plane crashed. He received a fractured neck and two broken vertebrae.

Legion Auxiliary Meets.
A most interesting meeting of the American Legion Auxiliary was held yesterday at the Service Men's Home, with Mrs. J. L. Horne as hostess.

In business session the auxiliary voted a gift of \$50 to the United War Fund and a gift of \$25 to the Service Men's Center for a supper for visiting boys. They authorized the central fund payment for benefit of World War veterans and for their Thanksgiving present.

Following the business session, Miss Sallie Jovner Davis narrated in a most interesting way the story of Johnston Blakely of the War of 1812. North Carolina's part in educating his daughter and in giving to her a silver tea service was romantic and intensely interesting. The three weeks' visit this tea service made to our state during Governor McLean's administration, from a thousand-year-old castle in England was the climax of her enchanting story.

Commissioned First Lieutenant.
Joseph S. Lennon, son of Mr. and Mrs. R. S. Lennon of Wake Forest, was commissioned first lieutenant on October 23 at the Army Air Forces Navigation School at San Marcos, Texas.

Collingwood Speaks Here November 19th

Charles Collingwood, overseas reporter for the Columbia Broadcasting System, has been engaged to deliver a lecture at East Carolina Teachers College, Friday night, November 19, at 8 o'clock. It was announced today. There will be no reserved seats. Tickets will be placed on sale shortly.

Rain Storm Brings Relief To Section

More than half an inch of rain fell over a wide territory last night, bringing relief after an unusually dry period. Thunder and lightning and wind accompanied the storm.

Farmers today were busy planting oats and other winter cover crops. Growing cover crops came to life with the showers. The sky was overcast today with indications of more rain. A precipitous drop in the temperature brought out a lot of topcoats today.

NEWS OF GREENVILLE HIGH

By ED SCHWARTZ AND DAVID WHICHAID

Junior Red Cross
The Junior Red Cross organization held its first meeting of the year and the following officers were elected: President, Della P. Perry; Vice President, Frances Register; secretary, reporter, Hennie Ruth Whitchard; treasurer, Catherine Ann Jolly.

Cafeteria Tickets
Tomorrow, because of rationing registration in the auditorium, the cafeteria tickets will be sold at the Reade street entrance. Thursday, tickets will be sold in the foyer of the auditorium.

Ration Registration
Again tomorrow, ration registration will be held in the auditorium. Students are urged to continue cooperating by not using the auditorium for any purpose. The same students who helped with registration yesterday again assisted today. Students have been very cooperative and should be congratulated.

Friday, 2-5—Christian and Memorial Baptist women.

ECTC Graduates All Have Jobs

According to the records of the College Placement Bureau, all 1943 graduates of East Carolina Teachers College were soon placed in demand for people in industry and by government was, of course, brisk, but most of the graduates still went into teaching. The war-shortage of teachers is acute.

Of the 209 A. B. graduates, 166 are employed in teaching, 4 in advanced study, 3 in industry, 3 in office work, 7 in the U. S. armed forces, 11 in U. S. government departments. One is employed in laboratory work, one as a home demonstration agent, and one as a cafeteria supervisor. Ten are married and not employed outside the home.

Of the 21 B. S. graduates 7 are teaching, 12 are in the U. S. armed forces, one is doing office work, and one is a metallurgical laboratory worker.

Five M. A. Graduates are teaching. One is a supervising principal. The graduates not in the U. S. armed forces are working in New York, Pennsylvania, the District of Columbia, Virginia, Georgia and Florida, as well as in many parts of North Carolina.

The chief demand felt at the College is for teachers. The need for mathematics and science teachers is most acute now. The need for teachers, it seems apparent, will continue sharp for the duration of the war because of teachers turning to other sorts of work, and will remain so even after the war because of the reduced number of people now being trained as teachers.

Nearly 1,000,000 barrels of oil have been produced annually from Scotland's shales.

Forty Years Ago Today

THE DAILY REFLECTOR
October 26, 1963

There is beautiful weather for the Christian convention, and the moonlight nights keep our poor street lights from showing themselves.

Tonight the pleasure (?) will begin of waiting two hours for a train held at the big Weidon fair. And the nuisance will be kept up four days.

Had you thought that it is less than two months to Christmas?

Frost again this morning. Delegates to the Christian convention are arriving by every boat and train. So many delegates and visitors are here that it is impossible to print a list of the names or with whom they are stopping.

Attend Convention.

Representing the Baptist Student Union of East Carolina Teachers College at the Baptist Student State convention held at the First Baptist Church in Winston-Salem October 22 through 24 were Miss Mary Lee Ernest, student worker; Miss Carol Leigh Humphries of Wooddale, president of the BSU, and Miss Anne Shearin of Rocky Mount, Miss Kathryn Davenport of Gumberry, and Miss Gwendolyn Ward of Merry Hill, officers of the college BSU.

Some of the most outstanding and interesting speakers in the opinion of the group were a colored student speaker from Winston State Teachers College; a boy from Cuba who is now attending Campbell College; and a Chinese student from the Bowman Gray School of Medicine, a branch of Wake Forest College, in Winston-Salem.

Library News

Controversial Subjects

Far more than usual are controversial subjects featured in the current numbers of the magazines at the Sheppard Memorial Library. This may be due to the effect of war and the revolution in thought that it brings. But there is not freedom of speech, the right to express your opinion one of the four freedoms? To those who follow tradition closely and hate an argument the idea of freedom of speech may be distasteful, but to those who want to hear both sides of a question, the whole truth, this offers a splendid opportunity for study and debate. And not every reader any more disintegrates at the drop of a dissenting opinion.

More and more America is following the English example of respecting the other man's views and above all for his right to have different views and to state them wherever he pleases. But why, you ask, is it worthwhile for dissenting opinion to be presented? Because despite the widespread appeals for unity the gravity of our crisis demands that on most of the issues confronting us there shall be a difference of opinion and outlook. Never have such far-reaching and incredibly different questions presented themselves to the American people as today. The only hope is that by means of a free give-and-take of opinion we may come to an agreement on what our national aims shall be.

The following articles are illuminating to say the least: "Labor Against Itself," by Thurman Arnold, in Cosmopolitan—Here is an exclusive article of the greatest significance for all Americans, the writer describing specific and serious abuses and suggesting measures to save labor from its leaders.

"Synthetic Rubber Turns the Corner," by Harland Manchester, in Atlantic Monthly—A close student of new industrial techniques writes an illuminating article on the rubber question, answering many of the questionable pertinent questions on the subject.

"India—Yesterday, Today and Tomorrow," by Lord Halifax, in National Geographic—An article that touches on the questions in dispute today, treating them factually but letting the readers draw their own conclusions.

"Military Occupation and Then What?" by Hiram Netherwell, in Harper's—Already the problems of what to do with a European civilian economy after the conquering United Nations army has passed through are beginning to raise troublesome questions. This article is an analysis of this thorny prospect.

"Christian Missions—The Next Phase," by T. T. Brumbaugh, in

Engagement Announced

Miss Josephine Mary Elizabeth Puhaly, major and finance officer in the Tennessee Women's Defense Corps, whose betrothal to William Joshua Turnage, Jr., son of Mr. and Mrs. W. J. Turnage of this city, has recently been announced by her mother, Mrs. Mary Puhaly of Lorain, Ohio. The wedding will take place October 27.

Christian Century (Oct. 13)—A discussion of missionary expansion, dealing with the place and function of missionary service in the work of Kingdom building around the world.

"Everybody Helps At Our House," by Dorothy Haynes, in Parents' Magazine—A treatise on the value of shared responsibility that leads to a definite family unity and finally the happiest and most mature adulthood, sharing that responsibility is something that is grown into progressively, rather than suddenly.

"What Can You Give Me Today?" by Mary Frost Mahan, in Harper's Bazaar—Gives splendid explanation of why our food must be rationed and why it is so unevenly distributed.

Tune in WGTC Wednesday, Oct. 27, at 4 p. m., to hear Troop 4 under the direction of Mrs. Snyder, present "Building For Tomorrow."

You will hear all about Girl Scouts in other lands and Girl Scout Week in the United States.

Troop 4 appreciates the noble offers of Mrs. William Greene and Mrs. J. B. Smith for taking rationed gas to carry the girls to the radio station. Thanks Mrs. Greene and Mrs. Smith.

FATHERS OF YOUNG BOYS WILL BE INTERESTED in this Plan.

AN old proverb reads: "As the twig is bent so is the tree inclined." How applicable to youth! Right now, during his formative period, is the most important time of your son's life. The seed of future success or failure is now being planted—and your influence will largely determine the manner in which he grows.

The Jefferson Standard Juvenile Thrift plan will make partners of you and your boy. Write or phone today for information.

Congressman Bonner In City Short Time

Congressman Herbert C. Bonner was in Greenville a short time this afternoon. He was on his way to a meeting in Raleigh. He dropped in at the court house to see J. Knott Proctor, who becomes acting postmaster of Greenville on November 1, and others at the court house.

The First District representative was in a hurry. He smiled when a reporter told him that his appointment of Proctor to the postmaster ship had received general public approval.

Finches are the largest family of birds, having more than 1,200 species.

...from our graves WE THANK YOU

We died in the London Blitz, or was it Chungking...or Stalingrad? Our children were left behind...without care and shelter. Do you wonder we have worried so?

Now we are at peace for we know they are warm with good clothing. Their little bodies are getting strong again. They even laugh again. It is for this we thank you...for the mercy and generosity of your dollars.

* * *

Good old American dollars...your dollars, Mrs. MacDonald...your dollars, Mr. Greenbaum. Silver dollars from California...hard bitten dollars from the farm country...toil-won dollars from laboring men...crackling new bills from Fifth Avenue. Yes, your dollars have wrought miracles of human love and compassion.

They have healed broken bodies, fed the hungry and sheltered the homeless on all the United Nations Fronts. They have provided

hospitals, nursing homes, doctors and medicine...here and abroad.

They have helped care for the needy in your own home area...people who have been left behind on the home front while their sons or fathers are off at war.

They have brought cheer and "home" to the men in our Armed Forces through the splendid work of the USO.

They have given the "barbed wire legion," the war prisoners of all nations, a new lease on life.

Seventeen great services are now a part of the National War Fund, which is joined with our community's own war fund, thus making an efficient over-all organization serving on all three fronts...the Military Front, the United Nations Front and the Home Front. This year instead of giving many times to these different agencies, you give just once. So give generously; give all your heart can spare.

Strength FOR THE DAY

By EARL L. DOUGLAS

TRAINING IN RELIGION
In a greater percentage of cases than we are usually willing to admit, the spiritual life of human beings is made or unmade amid the affairs of family life. It is hard to see how men and women can fail to take advantage of the opportunity which God accords parents in this matter. The opportunity is not just something given today and taken away tomorrow. The period of childhood is long, and all these years the parent has the opportunity to do something with the heart of the child which will make it stand securely before the circumstances, which must later be confronted. Wise students of human nature are telling us today that when young people break down morally, it is usually because of some weakness which was neglected at a period in life when it might have been corrected.

How illogical it is for us to expect our children to be loyal to the Bible and the Church when they know almost nothing about them. These things may mean a great deal to us but it does not follow that they will mean a great deal to our children. They will mean something to our children only if the children are taught as we were taught. Religion is not something that can be absorbed without any study or training. Just as reading, writing, arithmetic, and geography have to be taught over again to each generation of children, so the Word and purposes of God have to be brought to their hearts in the same way.

Those branches of the Christian Church which emphasize religious education are wise, and those which neglect it are foolish.

All Rights Reserved—Babson Newspaper Syndicate

WE MUST DO IT

While progress has been made in the War Fund drive here, there is still a long way to go to reach our quota. Pitt County has never fallen down on any task assigned to it and we will not fall down on this one even if the drive has to be continued indefinitely until the goal is achieved. But remember, that those workers who are giving their time to directing the campaign and doing the soliciting are just as busy as you are, and the more ready your response to their solicitations the quicker their tasks can be completed. The raising of these funds is everybody's business and everyone should welcome this opportunity to have a part in helping our men in the armed forces, our suffering allies and carrying on our regular Community Chest activities here on the home front. The best way to prove your interest in these causes is to make your contribution as large as you possibly can. Don't put this off. Do it now.

DESERTERS, WHAT ELSE?

The head of the American Legion, recently addressing labor leaders, said that a man who lays down his tools on a war job to strike is just as guilty of an act of treason as a soldier who deserts his post of duty.

Labor leaders bitterly assailed this viewpoint, but their arguments are unconvincing. Morally, it is no less

We Are "Energetically Reversing The Fighting Direction" (Nazi Report)

ABOUT
FACE!

REC-MANNING

treasonable for a man to throw down his tools which provide a soldier with equipment to fight than it is for the soldier to throw down his weapons and refuse to fight.

Strikes cannot justify desertion of war jobs. In leaving their posts, they are traitors to a common cause, even though they enjoy immunity from punishment such as would be meted out to soldiers who desert.

WASHINGTON IN WARTIME

By JACK STINNETT

Washington—I wouldn't say that Washington or the Philippine government-in-exile was surprised when Japan picked Jose P. Laurel as first "president" of the newly "independent" Philippines, but an examination of the record of this latest Axis quisling leaves one a bit staggered.

Lanky, scholarly, President-in-name-only Laurel probably owes the United States as much as any Filipino living. He is a product of the public school system which the United States established in the islands. When he got ready for college, he chose Yale University and found his surroundings so sympathetic there that he was able to graduate magna cum laude in the law school.

He went back to the islands to become a professor in the U. S.

sponsored University of the Philippines school of law. He wrote textbooks which were adopted without quibble by the Philippine school system. He was recognized and honored as an authority on international law.

He played a prominent role—and note this—in drafting the Philippine constitution under the terms of the Tydings Independence Act, which would have become the law of the land when the Philippines were given their real independence in 1946.

If not with assistance, at least without any obstruction from U. S. authorities, he rose to a place of power and eminence in the Philippines. He became known as the "Filipino Borah," principally because of his "silver-tongued" oratory.

When it came time to send his son to college, he selected Harvard for him and Sotero Laurel was graduated in the class of '41. Thereon hangs a bit of family drama, for while his father is playing the role of the Laval of Manila, young Sotero is working hard as an employee of the Philippine government-in-exile in Washington.

When the Japs invaded the Philippines Laurel was a member of the island's Supreme Court. From that time on his spirit of "cooperation" with Japan's new order has been perfect.

A few months ago, it was reported by radio that a "fanatical" Filipino had taken a pot shot at the illustrious Quisling while he was playing golf on a suburban Manila course. Although the assassin was said to have made a "hole-in-one" shot, the man who was to become the Japs' first "president" of the "independent" Philippines apparently was not seriously wounded.

Just what subterfuges the Japs have used to enlist the services of a man of 52-year-old Laurel's caliber isn't known here but the fact

that they have been able to do it at all demonstrates clearly that they are exerting every effort to bring the 17,000,000 Filipinos under their thumbs in the "new Pacific order."

What they are struggling for now is to create a feeling among the Filipinos that "we are doing fine, General MacArthur, and we don't care if you never come back."

Opposing this propaganda-ridden Japanese puppet rule are 125,000 really free Filipinos here and in Hawaii (many of them in the U. S. armed forces); the Philippine government-in-exile here, with ailing President Quezon, but very active Vice President Osmena (who seems to be the political heir-apparent to the Quezon regime) at its head.

The WAR TODAY

(Continued From Page One)
of unexpected resistance on the part of the Nazis.

We must stop and ask ourselves why it is that Hitler is in such a precarious position. It is that we not only have grand fighting forces battling for us, but that the home fronts in America and Britain have produced materials with which Hitler has been driven into a corner.

Unrelenting pressure by that combination—the fighting forces and the home front—has turned the trick. By the same token, if we relax the pressure we give Hitler a fresh lease on life.

That's the most important thing we have to remember at this juncture.

Declares . . .

(Continued From Page One)

part of the civilian establishment of the government."

Mr. Roosevelt asserted that standards of deferment of government workers are much stricter than in private industry. Unlike a government employee, he said, a privately employed individual may request his own deferment even though his employer does not do so.

He said draft-age men in the War and Navy departments are being "released constantly" for military service and are being replaced in accordance with replacement schedules. The record, he said, is much better than the occupational deferments in private enterprise.

The greater part of the civilians in these departments, Mr. Roosevelt said, are engaged in war production in arsenals, ordnance plants, powder factories and navy yards, or in essential work at government depots, warehouses, proving grounds, air bases, naval training stations and hospitals.

Kinkaid Says . . .

(Continued From Page One)
evacuated first by the submarines and that later they started taking off combat units.

"They were very clever about it," said Kinkaid, adding that even 24 hours after the landing of American troops it was not known definitely that the Japanese had given up the island. For a time, he said, it was believed that the enemy had moved back into the hills, in which case, he said, long fighting would have been necessary.

That belief, he explained, was based on some extent upon the Japanese continuance in a road building operation until the last day any action was seen on Kiska. He also reported that some enemy buildings had been torn down, leading to a belief that the Japanese might have used the lumber to construct new installations in the hills.

He said frankly, "We were surprised that they all got out. When we got on the beach without being fired on we thought they were still back in the hills. We couldn't afford to assume they all got out."

Admiral Kinkaid described the Aleutians as "extremely important" in the defense against Japan, explaining they provide "a short route to Japan protected by a line of bases."

"From Seattle to Paramushiro (Japanese base in the northern Kurile island chain off Kamchatka) it is roughly 3,000 miles and three quarters of the way or more is protected by a chain of bases," he said. "It is the shortest route from our territory to Japan."

He described recent appearances of Japanese planes over the Aleutians as "just routine war."

Leaf Holiday . . .

(Continued From Page One)

Gov. Broughton reiterated, after a telephone conversation today with Gov. Colgate W. Darden of Virginia, that the markets in the eastern, middle and old belts would be closed after today and for the remainder of the week. He will confer again with Gov. Darden on Thursday and determine further action, he said.

Following closely the announcement that the markets would be closed, prices for lower grades jumped as much as seven cents a pound yesterday.

Gov. Broughton said the recess could be used by redrying plants to remove from warehouse floors tobacco already sold.

Broughton expressed hope that "we will receive such assurances from Washington that we will be able to reopen the markets Monday."

He said he had telegraphed North Carolina congressmen of the action taken by him and Governor Darden of Virginia Saturday and asking them to contact the proper officials to insist that proper steps be taken in line with assurance made earlier (that prices would be upheld.)

Boost Taxes . . .

(Continued From Page One)

that under the increased liquor tax, the total levy on a drink of 100 proof liquor, estimating 80 drinks to the gallon, would approximate 12.5 cents. The tax would be smaller on lower proof liquors.

The tax on gaming body also approved increases on other alcoholic beverages, as follows:

Beer, from \$7 a barrel to \$8; wine under 14 per cent alcohol from 10 cents a gallon to 15 cents; wine 14 to 21 per cent from 40 cents a gallon to 60 cents; wine over 21 per cent, from \$1 to \$2 a gallon; sparkling wines from 10 cents a half pint to 15 cents; other wines, from five cents a half pint to 10 cents.

The committee stipulated that within six months after the President declares an end to the war, the taxes on liquors, beer and wine should return to the rates as of January 1, 1943.

In providing for the sharp jump in the tax on whiskey, the committee for the first time followed recommendations of the treasury department. The congressional joint tax staff had recommended a boost from \$6 to \$8 a gallon.

The committee will vote later in the day on a long list of new excises and probably proposed increases in postal rates.

Meanwhile, discussions continued on proposals for a national retail sales tax.

Rep. Gearhart (R-Calif.), member of the committee, urged enactment on a sales tax, asserting it is the only way left open to obtain needed war time billions since other major proposals have fallen flat.

Committee members estimated the increased taxes on alcoholic beverages would yield an additional \$500,000,000 annually.

The treasury and the congressional tax staff both had recommended increases in tobacco taxes and the congressional experts had suggested a hike in the federal gasoline tax from 1.5 to 2 cents a gallon.

New Gains By . . .

(Continued From Page One)

communiqué, broadcast by the Free Yugoslav radio, said. German losses in men and material were heavy, the bulletin added. Two nearby railway stations were also destroyed.

In another battle far to the north, the partisans were said to have stormed into the town of Brcko on the Save river, but were forced to withdraw after the Germans rushed in 20,000 troops and strong formation of bombing planes from Serbia to reinforce the 5,000 men defending the town. The partisans said they blew up a strategic Save river bridge before retreating.

Near Andrijevica in Montenegro, German columns, aided by Albanian mercenaries, launched several attacks on units of the Yugoslav army second corps, but were sharply repulsed, the communiqué said, with 250 officers and men being killed. Widespread local fighting was reported from other fronts.

The Free Yugoslav radio has repeatedly charged that Yugoslav patriots fighting under Gen. Draja Mihailovic, field commander for King Peter, have joined with the Nazis in fighting Tito's partisans and cited several clashes around the Montenegro border in which units of Mihailovic's army were allegedly identified as being brigaded with the Germans.

Cairo dispatches yesterday quoted a radio message from Mihailovic in which he countered with a charge that Tito's partisans were not only attacking his army, but that Tito had claimed victories over the Germans for which his men alone were responsible. The message was issued through the Free Yugoslav government in Cairo. King Peter's government in Belgrade.

This is the first time that Mihailovic, who also holds the rank of minister of war in the Yugoslav government headed by King Peter, has personally disputed claims of the Free Yugoslav radio, although King Peter's spokesmen in London have condemned its communiques as exaggerated and misleading.

More than 120,000,000 tons of commerce moves through the port of New York each year.

Salvation Army To Back Home League

The Salvation Army Home League is sponsoring a war service meeting for women only at the Salvation Army Citadel on Dickinson avenue Wednesday night at 7:30.

The Home League of the Salvation Army is an organization for women. Any woman of the community, regardless of what church affiliation she might have, can become a member of this group. The Greenville Home League has a membership of 17. Mrs. Johnnie Godley, 1121 Myrtle avenue, is the secretary.

The meeting Wednesday evening was planned by Captain Speers of the Salvation Army and Mrs. Godley as the first to be held by the local group. A meeting of this nature will be held once a month. A special feature of the meeting Wednesday night will be a report of the work being done by the Home League to aid in the war effort. There will be a special gift for the mother present, with the largest number of children in Uncle Sam's service and the oldest and youngest mothers present. There will also be a small gift for every woman present.

During the past two months the Home League has been sending boxes to boys in the service and helping make comforts to be used in the Service Men's Home here in Greenville. Every woman interested in helping the war effort is invited to attend this meeting of the Home League. New names to be remembered with a gift from the Home League will be added to the list.

Favorable Action On Bankhead Bill

Washington, Oct. 26 (AP)—The Senate Banking committee approved today by a vote of 11 to 5 the Bankhead bill authorizing the treasury to spend up to \$30,000,000 annually for war bond advertising in newspapers.

Only one minor amendment, providing that the advertising be placed at prevailing space rates, was inserted in the bill.

Senator Bankhead (D-Ala.) said he would seek to call the bill up for consideration of the full senate "without delay."

As finally approved the bill provides that the treasury shall spend at least \$25,000,000 and not more than \$30,000,000 in bond advertising.

Half the fund to be utilized in papers published in communities of less than 10,000 population and half in cities over that figure.

Impressive funeral services were arranged for the unidentified victims, Rear Admiral W. E. Mumroe, commander of the seventh district, announced. One other body has been recovered and, after being identified, was held for relatives.

The two blacked-out ships, one northbound with a cargo of high-test gasoline and the other southbound in ballast, crashed close to shore.

Twenty-eight men leaped into the sea and escaped. The rest perished.

Rotarians Oppose Social Medicine

Members of the Greenville Rotary club in session last night went on record as opposing socialized medicine.

The resolution proposed in the Wagoner-Murray-Dingell bill now pending before the senate and adopted resolutions to be sent to the North Carolina senators and representatives urging that they vote against the bill.

The resolution sets forth that enactment of the law would:

1. Eliminate the free choice of a physician by the patient.

2. Result in the possibility of the patient being assigned to a hospital not of his choice.

3. Not encourage the physician to have the same individual interest in the patient.

The resolution points out that the proposed bill is another step in the centralization of power and restriction of principles which are contrary to the freedoms and privileges guaranteed by the constitution.

Navy Will Take Over Normandie

New York, Oct. 26 (AP)—The navy will take over the U. S. S. La Fayette, formerly the French liner Normandie, from salvaging contractors tomorrow and work in refitting and remodeling the vessel as a troopship is expected to begin shortly.

Restoration of the 83,000-ton ship which capsized after a fire February 9, 1942, will be marked by ceremonies at 10:30 a. m. at North river pier.

Capt. Bernard E. Manseau, U. S. N., supervisor of the salvage operations, carried out by the Merritt-Chapman and Scott Corp., will make the presentation to Capt. H. V. McKittick, U. S. N., representing Rear Admiral Monroe Kelly, commandant of the New York Navy Yard, Brooklyn.

Thanksgiving Menu

Washington, Oct. 26 (AP)—On Thanksgiving day, the army will be fed:

Fruit cup, roast turkey with dressing, cranberry sauce, mashed potatoes, buttered peas, corn, tomato and lettuce salad, celery, pickles, pumpkin pie, apples, grapes, candy, nuts and coffee.

The War Department, announcing the menu today, said every effort would be made to provide these courses even in the combat zones.

Nazi E-Boats Sunk In Running Battle

London, Oct. 26 (AP)—British light naval forces protecting a convoy sank four German E-boats and damaged seven more out of a force of 30 in a fierce five-hour running battle in the English channel off the coast of East Anglia Sunday night, the Admiralty announced today.

The British escort fleet, made up of destroyers and motor gunboats, swarmed down upon the speedy enemy craft as they began the attack shortly before midnight. The battle lasted throughout the night, the Admiralty said and all British ships rejoined the convoy without serious damage. Several casualties were acknowledged.

Burned To Death

High Point, Oct. 26 (AP)—Ira E. Strickland, 70, night watchman, was burned to death here this morning when fire of undetermined origin leveled a branch plant of the Randelman Chair Company. Damage was estimated at \$14,000.

President Better

Washington, Oct. 26 (AP)—President Roosevelt, who has had the grippe since last Friday, was reported by White House aides today to be "feeling a good deal better."

His fever had disappeared and Secretary William D. Hassett said Mr. Roosevelt apparently is "getting along first rate."

More Lightning

Los Angeles, Oct. 26 (AP)—Those P-38 Lightnings are going to increase in enemy skies.

An army air forces spokesman said that Lockheed Aircraft Corp. is converting practically its entire facilities to manufacturing the swift, long-range fighters, and their output is expected to be doubled.

To speed up the P-38 program, Lockheed will curtail manufacturing of transports.

Sportsman Dies

Philadelphia, Oct. 26 (AP)—Joseph E. Widener, millionaire sportsman, financier and art collector, died today at his home, in suburban Elkins Park. He was 71.

Widener had been in failing health for several years but his death was unexpected.

Belhaven Seaman Cited

Washington, Oct. 26 (AP)—The President of the United States has awarded the silver star medal, posthumously, to William Jay Jones, fireman first class, USN, of Belhaven, N. C., it was announced today.

The American drive also took it San Angelo, D'Alife, four miles northwest of Alife, and the British won firm possession of Busto, two miles north of Baranello.

The German retreat to the shortest and best defensive line between Naples and Rome, and reports that Field Marshal Erwin Rommel was bringing in more troops to northern Italy were accepted here as certain signs that the Nazis are determined to hold Rome at least through the winter and possibly intend even to launch a counter-offensive.

EXECUTORS NOTICE TO CREDITORS

Having qualified as executors of the estate of Meekin B. Haddock, deceased, late of Pitt County, North Carolina, this is to notify all persons having claims against the estate of said deceased to exhibit them to the undersigned at Greenville, N. C., to their attorney named below, on or before the 26th day of October, 1944, or this notice will be placed in bar of their recovery. All persons indebted to said estate are all please make immediate payment.

This is the 26th day of October, 1944.

LEE HADDOCK and JAMES WASHINGTON HADDOCK, Executors of the Estate of Meekin B. Haddock.

NOTRE DAME RATED TOPS

Army And Navy Second And Third; Duke Eighth

By HAROLD CLAASSEN
New York, Oct. 26.—(AP)—As if the expected 150,000 customers didn't know, 103 of the country's football experts agree that Saturday's games involving Notre Dame and Navy at Cleveland and Army vs. Pennsylvania at Philadelphia are strictly Grade A.

Ninety-seven of the typewritten experts selected the South Bend Irish as the best team in the country and rated their Saturday rivals from Annapolis as third.

Army retained second place and the Quakers skidded to sixth behind Southern California, despite a 33-0 trouncing dished out to Columbia.

The Trojans climbed at the expense of College of Pacific, whom they defeated Saturday by a 6-0 score.

The leading clubs, 10 points for the first place vote, nine for second, eight for third etc., (first place votes in parenthesis):

First ten:	
Notre Dame (97)	1023
Army (5)	891
Navy	683
Purdue (1)	583
Southern California	521
Pennsylvania	502
Michigan	431
Duke	229
Iowa Pre-Flight	215
College of Pacific	162

schoolboy footballers aren't war-conscious. We ballyhooed a local prep game with full force recently because it matched two undefeated teams. One player, after scanning a few wirecuts, muttered: 'All that stuff is just propaganda for the opposition.'

Laughing Latins
During the recent Pan-American tennis tournament at Mexico City, Referee Ernesto Lopez, who distinguished himself by calling foot faults against the visiting players, started exchanging wisecracks in English with the players during an exhibition match between Pancho Segura and Pauline Betz and Jack Knemeyer and Berta Garcia. The results were so hilarious that Berta, a chubby little girl from Havana, laughed so hard she couldn't serve and the spectators were more than a trifle puzzled. Argentine newspapers devoted a lot of space to the 20th anniversary of the famous Dempsey-Firpo heavyweight fight, asking: 'Is the championship going to remain forever in the United States?' And getting no answer from the 'wild bull' who still has a lot of the tame bulls (?) he collected during his fighting career.

Quote, Unquote
Ott Heller, who has played alongside 12 different defense men in 13 seasons of big-league hockey with the Rangers: 'Ching Johnson would take the man and he'd say: 'You just pick up the puck, kid when I get finished with the guy coming in. That's the way I've liked to play defense ever since.'

Shorts and Shells
Honolulu fight fans, who think they have the world's best bantam-weight in Rush Dalma, peeled off \$6,000 from their bankrolls and told Promoter Leo Leavitt to get Champion Manuel Ortiz out there for a fight. But Ortiz isn't listening. Boone Baker, one half of Coach Shorter Luster's 'wingback and a prayer' combination at Oklahoma U., is out of action for a month with a broken hand. And from the looks of the scores, maybe something happened to the prayer too. So far this season the grid giants have blocked four punts—three by Frank Cone—in three games. Last season only five punts were blocked in the whole National league.

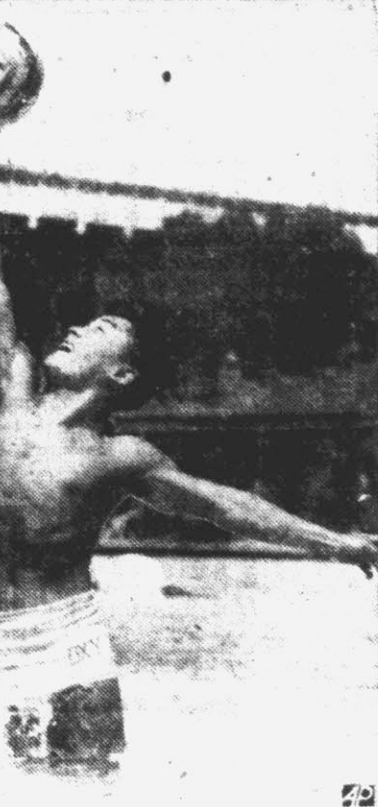

Blue jays are remarkable mimics, and can imitate human voice.

Tadpoles of the bullfrog are seven inches long, as large as the adult.

GOLFER—Seventeen-year-old Ilene Woods, Portsmouth, N. H., amateur golfer, has been asked to make four screen tests by four different film studios after one stage appearance.

DIVERS AT PLAY—Sammy Lee, former national diving champion, and Corrine Smith, holder of Pacific coast diving titles, have a little fun together in the water at the Olympic swimming stadium in Los Angeles, Calif.

GIVING PAPA A LIFT—Mike Svendsen, 7, gives his father, Bud Svendsen, center of the Brooklyn Dodgers grid team, a little help in practice. Bruiser Kinard is at the right.

LEO STAYS AS DODGER BOSS

Rickey Announces Durocher To Continue as Manager

By TED MEIER
Brooklyn, Oct. 26.—(AP)—The mystery of the 25th player* provided a new puzzle for Dodger baseball fans today in the wake of the solution for 'the riddle of the fired manager.' Branch Rickey, president of the club, neatly wrote finish to the fired manager* riddle by announcing yesterday he had decided to retain Leo 'Lippy' Durocher as manager for the 1944 season. Durocher, center of a player rebellion in July, was rumored on his way out especially after Rickey gave him his unconditional release last month in order to negotiate with him as a free agent.

No sooner had Rickey issued his announcement at a press conference than Durocher, asked if he could regain the confidence of his players, declared: 'I like all the players but one' of the 25 on the Dodger roster. Immediately the identity of that 25th player became the subject of wide speculation.

'Is it Billy Herman?' he was asked. Herman, star second baseman, had been reported in line for the managerial post.

'No, Herman is a great guy,' Durocher replied. 'It isn't Arky Vaughan, is it?' a writer asked. Vaughan, star shortstop and third baseman briefly turned in his uniform during the July rumpus that led to the immediate trading of Star Pitcher Bobo Newsom and the later departure of Joe Melwick and Dolph Camilli.

'It is not Herman or Vaughan,' Durocher asserted as Rickey nodded his head in agreement. 'But I don't want to go into personalities.'

'Well, will this guy be traded during the winter?' he was asked. Durocher hesitated and Rickey replied: 'I don't think Leo has such a feeling against the man that he can't tolerate him.'

For the first time in his six-year tenure at Ebbets field Durocher will be strictly a bench manager. Rickey did not disclose the terms, but Leo frankly said: 'It is the best I can

I've ever had since I've been in baseball.'

Rickey, referring to suggestions that Durocher took a salary cut, declared: 'I wouldn't advise anyone to go out on a limb on that.' Durocher reportedly received \$30,000 during 1943.

School Principals In Monthly Meeting

The Pitt County Principals' Club met at the Court House in Greenville on Thursday afternoon, October 21, with the president, E. F. Johnson, presiding.

The program was in charge of Newman Lewis of Chocoma, and G. P. Carr of Grimesland. Mr. Lewis discussed the problems of making the major responsibility for which lies with the principal. He reminded the club of the limited equipment available and of the need for checking carefully on drivers. Mr. Carr talked on ways teachers

can merit the increase in salaries, mentioning the following means of improving teaching: attending summer schools, night classes, and extension courses; the wise use of professional magazines and general reading; working on the home to keep up good morale.

"TALK ABOUT MILEAGE!"

Test car drivers in the Mojave desert learned plenty about the new GENERAL from American-Made* Rubber

Yes, General's test car drivers know the score. They kept accurate mileage records on the new General from American-Made rubber... as they went, around the clock, over desert roads.

Under the hot noonday sun and in the cold of desert darkness... through that peculiar, tire-destroying dust... these men kept at it to see how long these Generals would last.

* Synthetic rubber—created from American raw materials—by American chemical research and American production genius.

But—Tires are Still Precious

Because military needs come first—there are only a few civilian tires being made. There is still a tire shortage. So, until the time when everybody can have this new General, our earnest advice is to make your present tires last. Let us help you... with recapping, repairing, mileage advice... at Quality Tire Headquarters!

Sports Roundup

By HUGH FULLERTON, JR.

New York, Oct. 26.—(AP)—Chalk up another score for Deacon Branch Rickey. Plenty of baseball club presidents have tried to take the sting out of a disappointing season by firing the manager, but the Branch that grows in Brooklyn is the first one to figure out how to fire the manager and still keep him. Rickey gave Leo Durocher the heave-ho as player-manager just before the Buns staggered home at the end of the season, allowed a month for the fans to argue about a new manager and to remember that Leo never led the Dodgers any lower than third in his five seasons, and then took him right back again without the 'player' tag. That probably proves that Rickey prefers a manager who generally is in hot water to one who might never get hot. It may also prove that baseball news is scarce when Branch comes right out with such an announcement at the first meeting in his Montague street smokehouse.

Grain Market

Chicago, Oct. 27—(AP)—Wheat prices turned upward fractionally today and most other grains followed along, barley lagged behind most of the session.

Cash demand for wheat was good, and commercial interests were reported active in the futures market. Buying in other pits also offset liquidation on the upturn in some cases. A government quarterly report on wheat supplies in three positions was more than 250,000,000 bushels below a year ago, and this was interpreted as bullish by many traders.

At the close wheat was 1/4 to 3/4 higher, December \$1.54 1/4-3/4, May \$1.53 1/4, rye was unchanged to 1/4 up, December \$1.13 1/4, oats were 1/4 off to 3/4 up, and barley was 1/4 to 3/4 lower.

Hog Market

Raleigh, Oct. 26—(AP)—(NCDA)—Hog markets 10 cents lower with tops of 14.30 at Richmond and 14.15 at Rocky Mount.

Poultry and Eggs

Raleigh, Oct. 26—(AP)—(NCDA)—Eggs and poultry markets steady to firm.

At Bethel

LT. J. VINSON ELLENBERG

The Bethel Pentecostal Holiness Church began a revival meeting on Sunday, October 24. They have secured the services of Lt. J. Vinson Ellenberg. Services will be conducted each evening at 7:45 o'clock. Chaplain Ellenberg is an able minister of the Word. He is a graduate of Wake Forest College and Duke Divinity School. For the past five years he has served as dean and registrar of Holmes Bible College, Greenville, S. C. Of recent date he volunteered his services to his country and will enter Chaplain's School, Harvard University, Cambridge, Mass., some time next month for study before entering upon active duty.

The public is cordially invited to attend these services.

body be given an opportunity to contribute something to the war fund, which will provide comforts, good cheer and encouragement to the armed forces and people of the oppressed countries.

Immediately after the breakfast meeting half a hundred workers began an intensive campaign to raise the money. This war fund drive includes the local Community Chest. In fact, it includes everything except the Red Cross membership drive, which will be held next spring.

Chairman James T. Little reported that 37 per cent of Pitt county's quota of \$37,500 had been subscribed. No reports had been received from several of the townships.

The women's division at a luncheon meeting at the Rotary Club at 1 o'clock this afternoon perfected plans for soliciting in the residential sections and began work at once. Mrs. J. B. Kittrell, chairman, presided. Dr. H. G. Harney said the invocation. County Chairman James T. Little and Greenville Township Chairman Joe S. Moye explained the purpose of the War Fund as they did at the men's meeting this morning and outlined the plan of work. Prof. Ralph C. Deal of ECTC made an inspiring appeal in behalf of the men in the service and the people of the occupied countries. Captains were assigned their territory and the women started out to help raise the money.

WLB Ruling . . .

(Continued From Page One)

duction which has been hit hard. In many fields, the number who returned and those who newly joined the strikes was a matter of guesswork. The best available figures on the total still off the job were:

Alabama, 19,000; Kentucky, 8,000; Indiana, 7,000; Illinois, 5,500; West Virginia, 2,800; Pennsylvania, 1,400; Virginia, 1,000; Ohio, 400.

Some 1,500 miners picked up their tools again in Ohio and others returned in Alabama but 1,400 quit at a mine near California, Pa., and West Virginia reported seven mines failed to operate because 2,500 men did not show up.

The stoppages, and other losses in manpower, were blamed by the

Solid Fuels Administration for a loss of nearly 500,000 tons of bituminous coal production in the week ended October 18.

As some workers drifted back to the mines the WLB traced its back-to-work deadline of last midnight with the explanation that the leadership of the UMW was "making a sincere effort" to end the wildcat strikes.

The proposed contract before the board would grant upwards of \$1.50 a day more to Illinois miners by extending their work day to cover underground travel pay. The union has urged that it serve as a model for contracts throughout the industry but Appalachian operators have vigorously opposed it.

New Raids . . .

(Continued From Page One)

west Pacific.

Nearly 50 Liberators, heavily screened by fighters, opened the latest attack on Rabaul Saturday afternoon. Making a feint as if to attack warships in the harbor—the warships began to zig-zag frantically—the big bombers flew their 105 tons of bombs to the Rappo air-drome. Twenty grounded planes were destroyed for certain, seven others probably.

Fifty enemy planes swarmed to

the attack. The Liberators downed four for certain, eight probably. The Lightnings tagged 11 certainly and claimed five probables. There were no Allied losses.

Sunday, more than 50 Mitchell medium bombers, escorted by nearly 100 Lightnings, baffled Rabaul's anti-aircraft defenses as they had done October 12 and 13 by going in barely above the surface of the sea. The Mitchells wiped out 45 flaming bombers on the ground with machinegun and cannon fire and probably accounted for 10 others.

Upwards of 70 Japanese planes battled the raiders, in a one hour running fight. The Lightnings bagged 35 of these for certain and the Mitchells eight. Fifteen other probably crashed.

Japanese air-drome facilities and gun positions were badly smashed, in addition to the plane losses.

The destruction and probable destruction of a total of 168 planes for the two days accounted for the bulk of the 222 planes spotted on three air-drome October 19 by MacArthur's aerial reconnaissance-photographic units.

Today's communique reported the destruction of 22 planes in American air raids last Friday in the Bougainville-Choiseul sector of the Solomons and the sinking of a Japanese destroyer off Cape Orford, New Britain.
