Several Important Points Taken By Allies In Italy

Americans Capture Important Highway Center Of Venafro Pushing Nazis Back To Within Less Than 80 Miles Of Rome; Eighth Army Captures Vasto

By EDWARD KENNEDY Allied Headquarters, Algiers, Nov. 6.—(AP)—Allied forces in Italy smashed away the last remnants of the Germans' powerful Mas-sico ridge Trigno line in taking the key points of Vasto on the Adriatic and Venafro in the upper Volturno valley. It was announced today.

Forging ahead in the western sector, British patrols of the Fifth army crossed the Garigliano river to probe the new line which the enemy has formed north of there. Americans of the Fifth army drove ahead into the mountains after occupying Venafro in a fierce fight in the tortuous upper reaches of the Volturno.

The Germans attached such importance to this mountain fastness that they threw a new division—the 305th infantry—into the fight in a last minute effort to save it, but even these fresh Nazi fighters from the north were routed by the Americans.

In the air war, American medium bombers knocked out a large portion of the German air forces operating from Albania with a heavy raid yesterday on Berat Kucov airfield in the center of the tiny country. The field was one of the bases from which the Germans were operating against patriot forces in the Balkans.

There now are five German divisions in battle on the Fifth army front, it was disclosed, and three opposing the Eighth army.

In addition to a five-mile surge up the Adriatic coast to take Vasto, Eighth army troops also made gains of a mile and a half in the region. (Continued on Page Four)

V-12 Examination Here On Tuesday On Tuesday, November 9, at 9 o'clock the second qualifying test for civilians in the Army Specialized Training program and the Navy college V-12 program will be given to eligible candidates in the auditorium on the first floor of the new Classroom building on the campus at East Carolina Teachers College. The test is to be administered only to boys who will be 17-21 years old inclusive on March 1, 1944, and who have graduated from high school or are in the final school term. Those who make the required rank on the examination will be called in for further examination and interview. Upon the basis of all of this information the Army and Navy select the required number and assign them to a college program. Insofar as possible, the applicant is assigned to the college of his choice.

Students who were enrolled in college in the spring of 1943 are also eligible to take this examination. A minimum vision of 18-20 uncorrected is a present requirement. A good scholastic record is very important. All boys interested in taking the test are asked to obtain an information blank about the test and a card of identification from the principal of the Greenville High School. This card of identification must be presented to the test supervisor Tuesday morning in order to be allowed to take the test.

The WAR TODAY

AN ANALYSIS OF THE NEWS

By DEWITT KENZIE (Associated Press Column Analyst) Two days ago this column reported that the Japanese militarists who rule Nippon, recognizing they are doomed to defeat in this war, were said to be consolidating their new bloc of Asiatic nations with the idea of leading them against the whiter races 25 years hence.

Since then representatives of the Jap government and five puppet states have met in Tokyo to establish "the assembly of greater East Asiatic nations." These countries are the new Philippine republic, the Nanking government of occupied China, Thailand, Burma and Manchukuo.

COAL DISPUTE NOW SETTLED

War Labor Board Approved Wage Contract Yesterday

By JOSEPH A. LOFTUS Washington, Nov. 6.—(AP)—The long and bitter fight over coal miners' wages appeared virtually ended today with the War Labor Board's conditional approval of the Ickes-Lewis pay scale and a nod of assent from the United Mine Workers.

The WLB's principal reservation involves the formula for paying pieceworkers. But official union spokesmen observed: "We'll peacefully seek a solution of that and we'll go about the job of producing coal." After seven months of controversy and four paralyzing strikes which cost the nation more than 40,000,000 tons of coal this is the picture: UMW President John L. Lewis has a memorandum agreement with Fuels Boss Harold Ickes; under it the soft coal miner who formerly (Continued on Page Four)

Tobacco Market Has Firm, Steady Tone

The Greenville tobacco market had sold 43,502,818 pounds of tobacco for \$17,540,835.10 for an average of \$40.32 per hundred up to Thursday night. Sales Supervisor R. C. Rankin's official report shows. At the same time last year the market had sold 49,779,098 pounds for \$17,665,845.43 for an average of \$35.47 per hundred. This year the market has sold about 6,000,000 pounds less tobacco but the farmers were paid approximately as much as they received last year. Sales this week were 1,352,788 pounds for \$513,142.46 for an average of \$37.94. Previously sold 42,150,000 pounds for \$17,027,692.64 for an average of \$40.40.

MORE GERMAN TARGETS HIT

Nazi Industries Being Smashed By Allied Airmen

Mosquito bombers, in a quick follow up to a record American daylight attack yesterday on two Ruhr cities, attacked targets in Western Germany last night. The Air Ministry announced today.

The objectives attacked in the night assault were not immediately named, nor was there any hint of the size of the raiding force.

Yesterday, a huge fleet of American heavy bombers estimated at 700, loosing one of the heaviest air blows ever dealt to western Germany, blasted industrial and rail targets at Gelsenkirchen and Muenster in the wake of a similar staggering assault on Wilhelmshaven.

The sky armada, totaling upwards of 1,000 planes with fighter escort, bored through a wall of anti-aircraft fire which, one pilot said was "as intense as hell and as thick as raindrops" to reach its objectives. In the day's operations, which included attacks on northern France and Belgium, losses were 10 heavy bombers, two medium ones and five fighters as against 38 enemy fighters. Five heavy bombers were lost in the Wilhelmshaven raid.

The assault on Gelsenkirchen, where great synthetic oil works make that city a target almost as important as the Ploesti oil fields in Rumania, evidently was aimed at wiping out the Nazis' fuel sources, lack of which already has forced them to abandon aircraft on the ground in the Italian theater.

As London experienced another short alert last night, Air Minister Sir Archibald Sinclair gave the first official description of the new "secret plan" used by the Germans in recent attacks at London.

He said it was the Messerschmitt-410, a twin-engine fighter bomber which carried a navigator to help the pilot locate his target in high speed sorties, and which crossed the sky "in loaded cars."

Sinclair, praising the United States Air Force as "brave fighters and valiant comrades," said the RAP bomber command's strength had been increased 10-fold to "open the road to Berlin," and was now dropping 10 times the bomb tonnage loosed in the summer of 1940.

Ankara, Nov. 6.—(AP)—Two 260-ton U-boats under construction at Nikolaev, German-held Black Sea port at the mouth of the Bug river, have been dismantled and shipped to Galtz, Rumania, according to reports reaching here today.

Ayden And Bethel Go Over The Top

Ayden and Bethel townships have gone over the top in the war fund drive according to information made public here today. "Any time Ayden township is called on for anything you can just bet your last War Bond that they'll go in," said Jas. T. Little county chairman. "I'm sure the United War Fund of Pitt county, T. G. Worthington township chairman, Mrs. G. G. Dixon, vice chairman and A. F. Rouse, treasurer, together with many fine committees received hearty congratulations from campaign headquarters. Ed Rawl stated that he tried to find out from Mr. Worthington by phone this morning the names of those who really did the job and was told by Mr. Worthington that it was the consolidated effort of all his committees and not any special ones. Worthington said: "I never saw a group of people rally and work as hard in my life. It has been a real pleasure to serve as their chairman." Nice going, Ayden, your sons in the service and those who have given their lives are proud of you. Ayden's total contribution was \$3,772.15.

John Burton Bunting of Bethel was in Bell's Pharmacy yesterday afternoon and in walked Ed Rawl. "J. B., you fellows have done a good job on this United War Fund drive so far, but when are you going over the top?" asked Ed Rawl. "We'll do it tonight," said J. B. "Low about calling me," said Ed Rawl. "All right, just as soon as I get back and check with our township chairman, C. W. Everett," said J. B. "Sure enough, about nine o'clock, J. B. called and said: 'Well, we're over the top. And I want to tell you Everett has done a good job.' C. W. Everett did a good job. C. W. Everett, township chairman, J. B. Bunting, vice chairman, and J. P. Hooker, treasurer. F. L. Blount and J. B. Bunting are members of the county advisory board. Congratulations to Bethel and all those responsible for such a fine job. (Continued on Page Two)

Large Jap Naval Force Moving Toward Rabaul

Big Sea Battle Looms As Japs Apparently Plan To Try To Save Bougainville

Southwest Pacific Allied Headquarters, Nov. 6.—(AP)—Possibly 53 Japanese heavy and light cruisers—new stakes in the deadly game of destroyers, transports and freighters—a decision in the Solomons—are moving on Rabaul from Truk to within range of massed hundreds of American bombers.

Already the first bombs have hit one of the five southbound convoys in what shapes up as likely to be the most violent action since a 22-ship enemy convoy was destroyed by Allied planes last March in the Bismarck Sea off New Guinea.

Headquarters reported today the spotting of the enemy fleet units by six patrols and a spokesman made clear their every move is being watched this capital listing: Nineteen ships—five heavy cruisers, three light cruisers, five destroyers, two corvettes, a whaling ship and three large freighters or transports—seen Thursday north-west of New Ireland. A Liberator shadowed and photographed this force for two hours.

Nine ships—destroyers and possibly some cruisers—sighted Friday 60 miles from Kavieng.

Ten ships—a heavy cruiser, five destroyers, three cargo ships and a tanker—spotted, moving in two sections Friday north of Mussau island, and one of the destroyers was bombed.

Paul Frizzelle of Snow Hill in prefacing his eloquent message at the Kiwanis club's weekly supper session at Proctor Hotel last night.

"I appeared, with a colleague, in a most difficult case in court in Kingston. It was a case in which the attorneys had some rather disagreeable testimony to handle. Walsh, commenting in his news column about the hearing, praised the attorneys for the high plane on which they conducted it. His story was an inspiration to me then and ever since I have been on the Superior Court bench," the eminent Greene County jurist said. "We are living in a time when I sometimes feel that I am being swept off my feet," Judge Frizzelle said. "With millions of our sons in our quest of righteousness and the rekindling of the spirit of justice and brotherly love under the influence of the Ten Commandments, as exemplified by Christ, as the only foundation upon which our nation may thrive and prosper. Key City Of Kiev Is Taken By Russians

POSTWAR PLAN IS APPROVED

Sen. Reynolds Among The Five Voting Against Plan

By FRANCIS KELLY Washington, Nov. 6.—(AP)—Senators who rolled up an 85 to 5 endorsement of the peace principle enunciated at the Moscow conference now want to have a first-hand account of the document from the man who helped make it possible—Secretary of State Cordell Hull.

A movement was prompted to invite Hull to address a joint session of senate and house upon his return from Russia.

Senator Lucas (D-Ill.) said such a convocation would show the world that the United States and its elected representatives are intensely interested in the cause of world peace and the establishment of machinery to maintain it.

While the final decision rests with Hull it was learned that the movement for his appearance has the blessing of high government figures.

The showdown roll call on postwar policy came at 5:30 p. m. yesterday, cutting off two weeks' debate.

Fifty-one Democrats and 34 Republicans voted for the 30nally postwar foreign policy resolution. Only Senators Reynolds (D-NC) and Wheeler (D-Mont), Democrats, and Johnson (R-Calif.), Langer (R-ND) and Shivers (R-Minn.) voted no. Senator La Follette (Prog-Wis.), absent by reason of illness, had indicated before that he would have voted against adoption.

The resolution packed its big punch in two short paragraphs. In addition to resolving that the war be waged to complete victory and that this nation cooperate with its comrades-in-arms in securing peace, it pledged:

"That the United States, acting through its constitutional processes, join with free and sovereign nations in the establishment and maintenance of international authority with power to prevent aggression and to preserve the peace of the world.

"That the senate recognizes the necessity of there being established at the earliest practicable date a general international organization based on the principle of the sovereign equality of all peace-loving states, and open to membership by all such states, large and small, for the maintenance of international peace and security."

Germany's manpower is so exhausted that she likely will find it impossible to replace the army's staggering losses of the Russian campaign, U. S. army men now believe.

Even if the Russian announcement that Nazi casualties in the last four months amounted to 2,700,000 is taken at considerably less than face value, informed persons here said today, the German losses have been enormous, and to all practical purposes irreparable.

A month ago, military circles figured that Germany had 300 to 310 divisions. However, many of these divisions were assumed to be below strength, and made up of inferior personnel.

Japs Claim Big Naval Victories

By The Associated Press The Tokyo radio broadcast claims today of sweeping naval victories in the six-day period from October 31 to Nov. 5, during which the Japanese sank combined sea and air operations sank a large and a medium aircraft carrier and approximately 50 other Allied vessels in the south Pacific.

None of the claims had been confirmed from Allied sources.

The Japanese radio report, as recorded by the Associated Press, claimed the sinking of two aircraft carriers, five heavy cruisers, one medium cruiser, three light cruisers, three destroyers, two large transports and more than 40 landing barges.

Superior Court Adjourns Session

Judge J. Paul Frizzelle of Snow Hill adjourned the criminal term of Superior Court after one of the busiest sessions of the year. The docket was varied and contained a number of unusual and important cases. Attorneys and court officials praised the Greene county jurist for his prompt dispatch of the court's business, and reducing the heavy docket.

A civil term will be held the week of January 17, a criminal term the following week.

Cases disposed of yesterday included the following: Henry Craft, driving drunk, not guilty.

Stalin Announces The Capture In Special Order Of The Day; Fall of Ancient Capital Opens Floodgates For Russian Drive Into Poland And The Balkans

London, Nov. 6.—(AP)—Kiev has fallen to the victorious Russian army. Premier-Marshai Joseph Stalin announced today in a special order of the day.

The key Dniester river bastion and ancient capital of the Russians fell to Soviet columns which had been poised above and below the city for weeks after the Soviet offensive carried to the river barrier.

Suddenly, the Russian columns swung into action two days ago, blasting great holes through the Nazi positions and closing into the city.

The German high command had announced a few hours previously that the great fortress had been evacuated, with German troops pulling out under threat of encirclement.

The German announcement, broadcast from Berlin, said also that other Soviet columns had renewed their attacks on both sides of the Kerch strait in the eastern Crimea, and against the Ferekop isthmus, the northern entry to that peninsula.

Stalin's announcement termed the assault which drove the Nazis from the ancient fortress "a gallant outflanking maneuver" which at daybreak "captured by storm the capital of the Soviet Ukraine, the town of Kiev, vital industrial center and most important strategic center of German resistance on the right flank of the Dniester."

It also termed the capture of the (Continued On Page Four)

Veteran Back From The South Pacific

By CHESTER WALSH John David Register, 34, shipfitter (1st class), United States Navy, who is in Greenville on furlough after spending 18 months in combat zones, was on the troop transport Elliott last August when a Japanese torpedo plane crashed into the side of the ship in the South Pacific, sinking it. The officers and crew were picked up by a destroyer.

There were few casualties. Register participated in the first blitz at Guadalcanal and the island-to-island campaign. After the sinking of the Elliott Register was assigned to the transport Hunter Leggett which went to New Zealand on October 6, where he began the 10,000-mile trip home after 18 months sea duty in the Atlantic and the Pacific.

Register was on a transport for a time with John Lauters, Jr., and Joseph Smith, Jr., of Greenville. "All we talked about was home. Smith had been away from Greenville about six months and told us a lot of news. Lauters had been away from the States about a year. I had been at sea since September, 1941."

"It's tough fighting the Japs," Register said. "They would come at a ship in a swarm of 100 or more planes and did not fear the anti-aircraft fire. My experiences on a transport in the Atlantic led me to believe that the Germans respect Allied anti-aircraft fire."

Register is spending his furlough here with his parents, Mr. and Mrs. W. O. Register. He is to report at the destroyer base at San Diego, Calif., on November 24, for service on a new ship. He hopes it will be a destroyer instead of a troop transport, the young veteran said.

The Holiday Outlook

Babson Says, "Shop Now For Christmas"

New York City, Nov. 6.—New York has taken on the festive air characteristic of the pre-Christmas shopping rush. If conditions here are any indication—and they should be reflected proportionately in other cities and towns—retailers are going to wind up with a big year-end business. I expect to see Christmas trade in dollars equal the gross of last year. I am, however, concerned over stocks of merchandise. If shoppers do not immediately get busy they will find pretty nearly empty shelves. It is more important than ever to shop early.

Money Vs. Supplies Manufacturers of consumer goods are now receiving some small increase in materials but this will not relieve the pre-Christmas inventory situation. Consumers durable goods are way down. All kinds of merchandise are difficult to replace. Anyone, for instance, trying to buy miscellaneous household furnishings knows this. For the last month of record in New York City, sales of furniture were up nine per cent over a year ago but inventories were down 33 per cent. Any increase in the manufacture of consumer goods will not be felt for

some months. For some time, customers will have plenty of money to spend, but merchants will continue to have trouble with inventories. Wages, money in circulation, bank deposits and national income have reached such proportions that they have little meaning to the average man. I may say, however, that national income for the first seven months of this year showed an increase of 30.7 per cent over the corresponding period of a year ago. Seasonally there is usually a decline in November due to a decrease in the shipments of farm products. This, however, will have little effect upon the extent of this year's Christmas trade. The money for that is already in the pockets of customers. Guide For Shoppers Customers must now buy what they can find, not necessarily what they want. The average American family has scarcely felt any wartime inconveniences comparable to those existing in other countries at war. This is because we have been living upon inventories. These inventories are now running out. Labor shortages and military demands (Continued on Page Two)

AND WE CAN TRUST

"We need above all things to keep our minds fixed these days with the realization that God still rules all things," said Charles Gordon, the English general, on one occasion.

Such a faith also had Lincoln. "No human council hath devised or hath any human mind worked out these things," he declared.

"No human council hath devised or hath any human mind worked out these things," he declared. "They are gracious gifts of the Most High God, who, while dealing with us in anger for our sins, hath nevertheless remembered mercy."

Dr. Lyman Abbott who exercised great influence in this country a generation ago expressed the same thought when he said: "I no longer look back for the evidence that God was in history—though I believe He was in history—but I look to see Him in history now."

for replacements will prevent civilian supplies from being built up. Customers for many lines of consumer goods may be decidedly out of luck.

The outlook for toys is tough—no metal nor soft wood. Children's clothes are really scarce. This is due partly to an increase in the birth rate and partly to the fact that manufacturers can get more money out of other lines.

Radio tubes are in almost universal use. More are being manufactured than ever before, but civilians will get few of them. Few new radio sets are being made and inventories of pre-war models are about exhausted.

Luxury goods are being affected by labor shortages. Fur coats, however, are plentiful as is also expensive jewelry. Used automobiles are getting scarce.

This Christmas shopping season finds both merchants and shoppers in peculiar positions. My sympathies lie more with the merchants. They have certainly done a wonderful job. I hope in the end they will

With that unsavory job out of the way the Allies will have to embark on the task of educating the Japanese people into friendly relations with the west. That won't be easy. Possibly we have a concrete gauge of the difficulties which we are encountering with the Japanese diabolists in California.

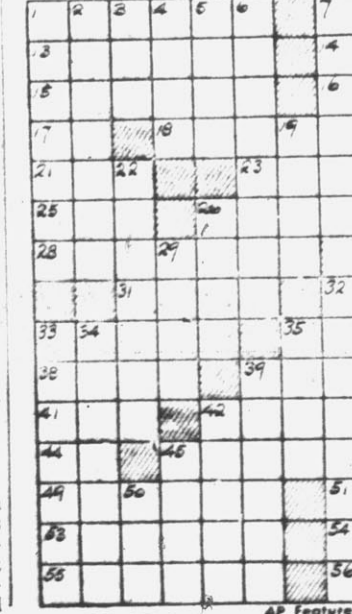

Meantime the western powers have to remove the causes of distrust and misgivings which exist even among our allies in the Orient. Probably a bit of self-analysis, to see that we ourselves are getting off on the right foot, would be in order.

To get them the Reich relaxed physical standards, virtually ended all employment in service trades, closed down thousands of retail shops, and even took men out of essential industry, replacing the latter with forced labor from occupied countries.

This drastic effort is believed to have been the last straw for Germany's manpower possibilities except for the increment of perhaps 500,000 youths who will become 17 each year.

New York Cotton

New York, Nov. 6.—(AP)—The cotton market resumed its decline today on increasing hedge selling and liquidation, influenced in part by new Allied victories which revived ideas regarding an early ending of the war and heavy cancellation of military textile contracts.

Futures closed (old contracts) 65 to 80 cents a bale lower.

received \$7 a day will receive \$8.50, agreeing to dig coal an hour longer, partly by halving his 30-minute lunch period. After his 40th hour underground he starts getting paid for travel time at time and a half.

In a six-day week his increase is about \$11.50, so that the average daily increase is closer to \$2 than \$1.50. His total week's earnings will be close to \$57. Some may earn more and the average would exceed \$60.

Provisions covering anthracite miners were fully approved. They grant 70 cents a day additional.

Only a few anti-climatic chapters of the 1943 coal drama appeared to remain: (1) the meeting of conditions with the W. I. E. attached to its approval of the Ickes-Lewis agreement; (2) determination of new ceiling prices and (3) restoration of the mines to their private owners.

The board 11 to 1 for approval, with Public Member Wayne L. Morse casting the lone dissenting vote. He denounced the policy of approving a contract "which appears to have been dictated at the point of the strike weapon."

some 25 miles inland.

The Germans, who in recent days have been using tanks in the Adriatic coastal sector, resisted fiercely at Vasto, where their protective mountains run down to a shelf beside the sea. Along this shelf runs the coastal road to Pescara—the back door to Rome.

In striking to Vasto, the Eighth swept through San Salvo where the Germans had held out more than a week, and on the basis of reports from the front this morning British are within 15 miles of the Sangro river, where the Germans undoubtedly will attempt another stand.

The Nazis are still resisting at some places along the north bank of the Trigno river, but their forces are threatened on both sides by Gen. Sir Bernard L. Montgomery's troops, and they are not likely to stay much longer.

The crossing of the Garigliano by British patrols, resisted fiercely on the Tyrrhenian coast, where the enemy flooded fields near the river. These patrols went into the hills north of the river to feel out German strength.

No crossing of the Garigliano in mass has yet been achieved, an Allied officer said.

U. S. Mitchell bombers and P-38 Lightning escorts devastated the Berat Kucov airfield, one of the bases from which the Germans are operating against guerrilla forces in the Balkans. There the Germans had concentrated Stuka dive-bombers outmoded on the battlefields of Italy but still deadly against the guerrillas who lack air support.

The raiders bored through heavy anti-aircraft fire and 10 enemy defenders to shower hundreds of fragmentation bombs among at least 20 fighters, and dive-bombers aground.

Claim Bombing Of Vatican City

London, Nov. 6.—(AP)—The German high command, repeating earlier broadcasts of the Berlin and Rome radios, asserted today that "enemy aircraft last night attacked Vatican city in Rome."

Mr. and Mrs. I. H. Morris will move at an early date from 300 Library street to 406 Harding street.

DO YOU FEEL NERVOUS RESTLESS HIGH-STRUNG

Do functional periodic disturbances make you feel nervous, cranky, irritable, fidgety, tired and "dragged out"—at such times?

Then start at once—try Lydia E. Pinkham's Vegetable Compound to relieve such symptoms. Pinkham's Compound is famous not only to help relieve monthly pain but also accompanying weakness, tired, nervous feelings of this nature.

Taken regularly—Pinkham's Compound helps build up resistance against such symptoms. For years thousands upon thousands of women and girls have reported benefits. Follow label directions. Well worth trying!

Guerrillas In New Assaults On Nazis

London, Nov. 6.—(AP)—Yugoslav guerrillas have launched an offensive to drive the Germans from the long Peljesac peninsula off the Dalmatian coast, a communique of the Yugoslav Liberation Army announced today.

Details of the Peljesac operation were lacking, but the bulletin reported heavy fighting between partisans and Germans in the slopes of Mount Zlatbor in Serbia, to the east.

A German garrison at Brezovac, near Byelova, in Croatia was liquidated by Gen. Josip Broz (Tito) forces, the bulletin said, and the railway line between Krievic and Byelova was reported severed at several points.
