## Air And Artillery Blows Hurl At Allies But Defenses Hold Against First Ground Attacks; Wind And Snow Slow Activity In Cassino Sector

By RICHARD G. MASSOCK  
Allied Headquarters, Naples, Feb. 26.—(AP)—The Germans, maintaining steady pressure on the Allied beachhead below Rome, harassed American and British forces with shells and bombs but were knocked back in their single small attack yesterday, headquarters announced today.

The ineffective Nazi stab was made on the Allied right flank in the Pontine marsh area about four miles from the coast at a point south of Cassino and west of Litorio. Taking advantage of the ravine terrain near Carroceto on the other end of the beachhead, the Nazis tried to slip through the Allied lines, but all their attempts were unsuccessful.

High winds sweeping the mountains on the Cassino front, together with snow hurries, helped to keep that sector more or less stationary except for patrolling, but the Germans again attacked a French-held hill northwest of Cassino and again were thrown back. On this front as well as on the beachhead heavy guns of both sides kept up their endless shelling.

Headquarters announced that 98 German planes were destroyed and 14 more probably were knocked down on the Italian leg of yesterday's simultaneous American heavy bomber assault against Regensburg, Germany, by bombers flying from Italy and Britain.

Thirty-nine bombers and five fighters were reported missing from the heavy bomber thrusts, also aimed at the Italian ports of Piume and Pola, the Yugoslav port of Zara, and an airfield near Graz in southern Austria.

The total of German fighters destroyed on the Regensburg mission and elsewhere yesterday was fixed at 95, setting a new record for the Mediterranean air force. The previous high was 78 German planes knocked out in Tunisia last April.

Indian troops of the Eighth army threw back three separate night attacks near Orsogna. Allied artillery fire also broke up an enemy raid at another point in the Orsogna area and a patrol inflicted casualties on the Germans in a clash north of Ariella, between Orsogna and the Adriatic coast.

Guns and supplies still were flowing into the beachhead.

# Strike Halts Armor Plate Production

Detroit, Feb. 26.—(AP)—CIO pickets turned some 3,000 workers back from gates of the Great Lakes Steel Corporation plant in suburban Ecorse this morning, halting all production in the only mill producing armor plate for U. S. navy landing barges.

The strike which started with the walkout of 500 workers Friday protesting discharge of an employee who left the plant without permission, has made 6,000 employees idle. The night shift stayed away from the plant last night, but fires were kept under the furnaces.

## AN ANALYSIS OF THE NEWS

By DEWITT MACKENZIE  
Associated Press War Analyst

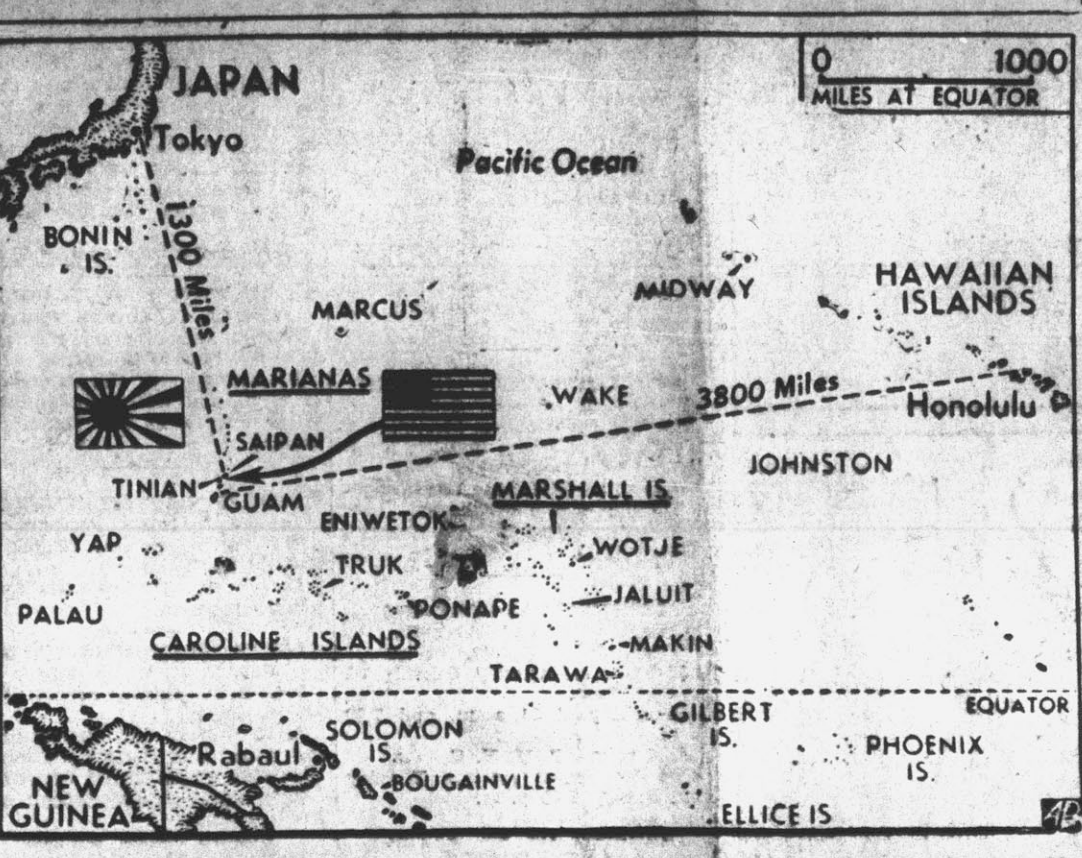

We are rapidly approaching the climax of the Allied experiment to determine how close we can come to bombing Hitler into submission. Less than a year ago British Prime Minister Churchill told a joint meeting of the senate and house in Washington that the use of air power by itself to bring about the collapse of Germany and Italy was an "experiment x x x well worth trying, so long as other measures are not excluded." Since then we've let loose a crescendo of bombing which contributed to Italy's collapse and now has reached a peak of intensity never before achieved—and it's rapidly increasing.

While it's generally agreed that the invasion is essential if victory isn't to be unduly delayed, yet there can be small doubt that Allied fighting men of all categories are wondering how long Hitlerdom can stand the round-the-clock assault which already has reached the frightful proportions of an upheaval of nature—like an earthquake.

We are rushing towards the climax of the second big scale experiment of history to see how close air power can come to defeating a nation. The first effort was by Hitler in 1940-41, when he tried to blitz England into submission.

We cannot judge the present offensive by what he did, for the

# Where U. S. Carrier Planes Hit Marianas Near Japan

The arrow from the American flag on the map points to Saipan and Tinian islands in the Marianas chain, where U. S. carrier planes bombed Jap installations. Distance indicators show the raid was made deep in Jap territory—3,000 miles from Honolulu but only 1,300 miles from Tokyo. (AP Wirephoto).

# REDS DRIVING TOWARD PSKOV Recent Attacks Widened Offensive Against Japan

## Recent Attacks Included Blows On Guam And Saipan; 135 Jap Planes Destroyed In Mariana Attack

By EDDY GILMORE  
Moscow, Feb. 26.—(AP)—Germany's White Russian armies counter-attacked desperately today in attempts to plug their crumbling central front but Soviet units fighting through heavy snows continued to exploit their large-scale breakthrough near Rogachev, front line dispatches said.

The drive from the northeast toward the Leningrad railroad and highway has placed the Russians in position to shell Pskov's outer defenses, press dispatches said, and the highway to the key rail center was reported now open except for the numerous barricades of minefields the Germans have been laying frantically.

The Russian southeastern arm was reported to have reached within five miles of Pskov, only 45 miles from Pskov and last important communications center to the east.

There the Russian columns stand but 50 miles northeast of Ostrov, a stronghold which the Germans must hold if they keep the Russian forces from throwing a pincer about Pskov.

This southeastern drive was considered in front line dispatches to be more significant than any thrust at the city itself at the moment.

(The British radio in a broadcast recorded by CBS quoted a Moscow report as saying that Pskov has been outflanked with one Russian column already at the town's outskirts and another column moving to the north. The broadcast quoted another report as saying the Red army's White Russian forces have made great progress from captured Rosachev and are rapidly approaching Bobruisk on the road to Minsk.)

Only six out of hundreds of attacking carrier planes were lost. Guam, American outpost occupied by Japan at the war's outset, was bombed for the first time.

The elusive Japanese fleet wasn't found at Saipan's Tanapag harbor—as it also had not been in great strength at recently bombed Truk—but a cargo ship was sunk; another was damaged and beached; a third was set afire; a patrol craft was blown up; and seven small boats were damaged.

Runways, seaplane aprons, air-drome facilities, fuel dumps and buildings were bombed heavily during the attacks on Saipan, Tinian and Guam.

The task force sent against the Marianas duplicated the February 16-17 feat at Truk of risking capital ships deep inside Japan's island defenses and emerging intact.

The task force caught Truk naval bastion in the Caroline group, completely by surprise. But the force moving on Saipan and Tinian, 700 miles northwest of Truk, was detected on the afternoon of February 21.

All that night and the following morning, Japanese land-based torpedo planes and bombers kept at the oncoming naval units. The warships put up a terrific anti-aircraft screen, bagging 19 planes. Covering aircraft shot down five more.

The carriers' torpedo bombers and dive bombers proceeded with their deadly business. Twice they swept down on Saipan and the nearby naval air base island of Tinian, 120 miles south of Saipan.

Despite being forewarned, 87 Japanese planes were wiped out on the ground in the carrier plane assault. Twenty-nine more were shot down in combat.

# Florida Boom Coming? Babson Bullish On All Southern States

Babson Park, Fla., Feb. 26.—When will the next Florida boom come? I assume one is coming sometime because such booms seem inevitable once in each generation. Those who got caught last time, 1925-1928, will not get caught again; but the children surely may. Moreover, there is more reason for a boom during the 40's than there was during the 20's.

Citrus Industry Profitable  
Oranges now bring about \$2 per box and grapefruit about \$1.50 per box on the trees. Cost of growing is about 60 cents a box. This is more than citrus sometimes sold for before the war. The average yield is about 150 boxes per acre for oranges and about 280 boxes per acre for grapefruit. The total Florida crop has grown from 33,000,000 boxes in 1931 to an estimated 68,000,000 boxes for this season. Many groves are now producing as much money as the entire grove sold for three years ago. A grove may be a good investment for a Florida family which can watch and work it. Those, however, who live in the north and are obliged to leave grove care to others may perhaps find this a good time to sell.

The same general principles apply to vegetable producers who are now enjoying a honeymoon irrefragable of labor troubles and ceiling prices. Those who raise beans, spinach, peppers, etc., are making big money provided they are not hit by frost, hailstorms or droughts. Not only are all growers in Florida subject to the law of supply and demand which, in the long run, regulates prices; but they are subject to freezes, floods and insects. Hence, one should judge the business by at least a five-year peacetime average not by the state as a whole, but for the section in which you now own property or are considering buying. Many citrus and vegetable growers could now be compared with Wall Street speculators in 1925-1928 before the crash in 1929. Growers better watch out.

Taxes Are Low  
Practically all municipal bond issues which defaulted after the war boom are again paying interest, but at much lower rates. This helps all property owners. Florida is one of the few states which gives a \$5,000 tax exemption on homes occupied by Florida citizens. It has no state debt and only limited personal property and inheritance taxes, with no state income taxes per se. Until two years ago, Florida had no labor troubles. Its people are friendly and as a rule go to church. Mortgages are being paid up. Thanks to the New Deal, people were saved their homes during the depression. More federal income taxes per capita are being paid by Florida citizens than by the people of any other southern state. This is a good barometer of prosperity.

Before the war, the tourist business was, perhaps, the state's most profitable industry. The war and lack of transportation have shot this to pieces. I believe it will come back bigger than ever with peace. Of course, Florida has its very expensive hotels; but there are millions of couples in the north who could both lengthen their lives and save money by spending every winter in Florida. Rents are reasonable, living costs low and doctors' bills far apart. A hearty welcome awaits all of good character. Just now there is no gasoline here, but after the war there will be more than enough. Moreover, the roads of the entire state are being improved.

## OFFER PEACE TO FINLAND

### Delegation Invited To Discuss Terms In Moscow

By JUDSON O'QUINN  
London, Feb. 26.—(AP)—An early peace growing out of current Finnish-Russian negotiations, appeared in prospect today as London diplomats expressed belief that Helsinki would accept Soviet terms, possibly early next week.

With the Red army in a strategic position to roll them back across the 40-mile-wide Karelian isthmus, the Finns are unlikely to refuse a reported six-point Russian proposal, it was regarded here.

The fact that the Russians are holding up a ground campaign against the Finns although their position on the Leningrad front is favorable was seen here as an indication that Moscow is keeping the door open and expecting a quick reply.

Russian terms reported from neutral countries, circulating unofficially in London although both the British and American governments presumably were fully informed, leave one knotty problem for the Finns—the internment of 100,000 German troops in northern Finland. This probably will be the main point of discussion if the Finns accept the reported Russian invitation to send military and political delegations to Moscow.

The fact that reports of the purported Russian terms were permitted by censorship to be printed in the Finnish press seemed an indication that the government was preparing the people for an important step soon.

The Stockholm Aftonbladet's Helsinki correspondent said the Finnish peace dilemma "is expected to be much clearer in the next few days. The government is expected to give a full report to Parliament very soon."

A Reuters dispatch from Stockholm said today the Russians were reported to have proposed that a Finnish military and political delegation go to Moscow as soon as possible to receive terms for quitting the war.

Stockholm dispatches, quoting unofficial informants, said yesterday and Thursday that Russian armistice conditions set the 1940 winter peace border and made no demands for changes in the Finnish government, but that the Finns were profoundly disturbed by the alleged demand that their army team up with the Russians in a drive against the Germans in the northern part of Finland.

## British Heavy Bombers Spread Ruin In Augsburg Engine Works; Regensburg In Flames Following Two-Way American Blow On Vital Airplane Works

By W. W. HERCHER  
London, Feb. 26.—(AP)—A massive fleet of British bombers carried out a crushing attack on the burning city of Augsburg last night, and piled up a total of more than 17,000 tons of bombs dropped on Germany in an unparalleled one-day offensive against the Reich's aircraft industry.

The German radio said large-scale attacks on the chemical center of Frankfurt were made at the same time, and the Swiss radio said night flights crossed Switzerland from Italy—raising the distinct possibility that Italian-based Wellingtons of the RAF again carried out a two-way British assault as they did the night before.

The air ministry communique announcing the operation against Augsburg said it was carried out in "very great strength" and that the city, a center of aerial engine production, was attacked twice during the night by large forces of Lancasters and Halifaxes.

"The weather was favorable and reports indicated the bombing was concentrated and effective," the communique added.

Twenty-four planes were lost in these assaults and in simultaneous Mosquito operations over southwest Germany and the low countries and in extensive mine-laying sweeps.

Flying Fortresses from Britain made the 1,600-mile round trip to Augsburg yesterday. Setting fires which lighted the way for the RAF, the night blow followed an unprecedented two-way stab yesterday at a single target—Regensburg's Messerschmitt factory. American heavy bombers flew from both Britain and Italy.

"It is a fair effort to recover the vital remnants of German fighter production," the Luftwaffe opposed our attacking forces furiously," army headquarters announced. "The 15th AAF (from Italy) encountered 250 to 300 enemy aircraft (and) destroyed 99 fighters in a violent and prolonged air battle."

Together the attacking forces destroyed 142 enemy aircraft against a loss of 89 heavy bombers. The 15th AAF lost 29 bombers the night of Feb. 25.

Photographs made at Augsburg, further, a Stuttgart ballbearing plant and Regensburg "showed good results," the communique said.

From the size of the force heard leaving Britain last night for the blow at Augsburg, 300 miles south-west of Berlin, it was probable that 2,000 tons of bombs were shown.

## TOKENS TO BE PUT INTO USE

### New Ten-Point Ration Stamps Good Tomorrow

Washington, Feb. 26.—(AP)—Ten point ration stamps and red and blue tokens as change will ease into use throughout the country starting tomorrow.

The new ration currency for buying meats, dairy products and processed foods becomes valid then, but the OPA expects light exchange, the first day since most stores will be closed. But the new system will get a full-blown test Monday with resumption of heavier buying.

The stamps to be used under the new plan are all in ration book No. 4—blue for processed foods and red for meats and fats. Each stamp has a ten-point value regardless of the figure on the face.

The first red stamps valid for meat are A-8, B-8 and C-8. They may be used through May 20. Every two weeks, three new stamps will become valid.

Blue processed food stamps will be validated in sets of five at the start of each month, with the first series of A-4, B-4, C-4, D-4 and E-4 good through May 20.

As change for their ten-point stamps, housewives will get tokens—blue in processed food purchases and red for meats and dairy products—and these will be good indefinitely. In no case, however, may stamps be cashed outright for a cash value.

## Paving Work At Airport Finished

All paving work at the airport including the enlarged parking aprons was completed on Thursday and the first section of the military road connecting the airport with Highway No. 11 was laid yesterday. The work of paving the road which is less than half a mile is expected to be completed in a very brief time. Blythe Brothers Construction Company which built the airport has contracted with the city to pave the north end of Rotary avenue at an early date.

## Today On The Home Front

### JAMES MARLOW and GEORGE ZIELKE

(Editor's Note: This is the sixth of six daily columns on the federal income tax.)

Washington, Feb. 26.—(AP)—The wife of a serviceman may postpone filing a federal income tax return unless she had 1943 income of her own amounting to \$1,200 or more.

But she may want to file a return anyway in order to collect a refund, where due, of taxes withheld from her pay.

In totaling her income for tax purposes, she does not include the allowance she receives from the government. The allotment from her husband's pay is part of her income, and as such, under the specific additional exemption of the first \$1,500 of his service pay.

The general rules on service income tax:

Members of the armed forces who are serving outside the continental United States or on sea duty may delay filing until their return or after the war.

If a married serviceman is entitled to delay filing, his civilian wife is entitled to the same postponement if her 1943 income was less than \$1,200.

If a serviceman owes no tax for 1943 and believes he's entitled to a refund of taxes previously paid for 1942 or 1943 (this "forgiveness" was explained earlier in this series), he may file a return for 1943 to establish a basis for the refund.

If he isn't entitled to postpone filing but finds himself unable to pay his tax, he may request delay of payment.

A serviceman, in addition to the exclusion of the first \$1,500 of service pay, gets the same personal exemption or credit for dependents as a civilian, even though he is necessarily separated from his wife and family. (You're still "married and living with husband or wife" if your spouse is separated from you only because of military duty.)

A serviceman's wife may take the full \$1,200 exemption of a married couple, plus the credit for any dependents.

If you're considering a joint return, note that under such a return, each is jointly responsible for the tax liability, in which case the serviceman's postponement privilege would mean nothing, since the full amount of tax could be collected from his wife.

If a man dies while in active service (in the forces of any of the United Nations), all his remaining unpaid taxes are cancelled, and any amount paid on his tax liability during the year of his death (or, for instance, through withholding by his former civilian employer), is to be refunded.

## Strength FOR THE DAY

By EARL L. DOUGLAS

**KEEPING SOUND SPIRITUALLY**  
We never catch a cold. Scientists tell us that we carry about in our bodies all the time enough deadly germs to kill a regiment of hardened troops. These never hurt us until our resistance is low. In a moment of weakness they pounce upon us. A cold blast of air, an unwisely chosen place, and the deed is done. We never catch a cold—rather, a cold, given certain favorable conditions, invariably catches up with us.

The way to avoid a cold is to avoid the conditions in which one may grow. Prophylaxis is the secret rather than treatment.

And the same is true in the things of the spirit. Once we fall into any evil way, it takes all we have in us and all God gives His needy children to get us out again. The lustful, the drunken, the dishonest are sometimes redeemed even in middle life and beyond. That is the meaning of the parable of the workers in the vineyard, where those who came at the eleventh hour received the same wage as those who had started long work at sunrise. But all this is exceptional. Most of those who in adult years are living good lives are so living because they were in some way prevented in earlier years from falling into evil pitfalls. Had they done so, extrication would have been difficult—not impossible, but difficult.

Helpful religious habits such as regular church attendance, Bible reading, and prayer are designed by the all-wise God to keep us in a sound state of spiritual prophylaxis. If the spirit is healthy, the flesh will not be overwhelmed. If we walk by the spirit, we shall not fulfill the lusts of the flesh.

## WASHINGTON IN WARTIME

By JACK STINNETT

Washington—Your capital in wartime.

I don't know if other communities are experimenting with it, but the Washington school system has developed a combined work study program that government officials and some private employers here say is the best little manpower boon that has come their way.

In the last semester, more than 300 high school students, majoring in business, have performed 80,000 man hours of work and earned for themselves an aggregate of more than \$40,000. In addition they have received credits toward graduation and those who have been graduated and didn't wish a college education have stepped right into permanent jobs as the pay of experienced workers.

A survey by school officials shows that these youngsters are working part time in agriculture, the War Manpower Commission, the Maritime Commission, State Department, Civil Service Commission, National Archives, the FBI, the National Education Association, and several private businesses, including groceries, filling stations and various retail stores.

Those working in the government take regular civil service examinations and are rated as part-time employees. Their average pay is 63 cents an hour, although some as "junior clerks" make much more. The pay, as a matter of fact, the survey shows, ranges from 40 cents to 75 cents an hour.

The students work from 15 to more than 22 hours a week and their high school classes each must carry at least four subjects, two of which are business courses, are so arranged that they have their afternoons free. For 15 to 22 hours, they are given one full school credit, and an additional half credit for all above that.

Scholastic standards must be maintained if the students are allowed to continue work, but instructors report that in most instances the youngsters have upped their grades while taking on outside duties.

The program is also making it possible for many boys and girls to

## Generosity

finish their educations who otherwise would have dropped out to fill the manpower gaps.

The early-while-you-learn principle is nothing new in education, but this 1944 application of it here on a wide scale is proving to be something that may become a permanent part of the high school program.

## BABSON

(Continued from Page One)

The South will be greatly improved. Aviation Will Help the South. Certainly after the war aviation will greatly help Florida and most southern states. Planes may leave New York, Chicago and other large northern cities every hour between 9 a. m. and 10 p. m. for Florida, Georgia, the Carolinas and other southern states. The Florida trip now takes about eight hours. Air fares will be lower than railroad fares when Pullman costs are included. Some people think planes will take vegetables north, freezing them on the way; that these planes will go to the stratosphere and "bird's-eye" beans, peas and strawberries. I do not see this myself but I do expect vegetables, flowers, etc., to be transported north by air from southern states after the war. Florida is also destined to be the jumping off point between the United States and South and Central America. This last is very important.

The aviation and other training camps in the south have been a great advertisement. Hosts of soldiers here tell me they surely are coming back to Florida to live after the war "if they can get a job." Of course, this is the rub, can they then get a job here? Florida is a wonderful place to live for those who have a small monthly income from real estate or from bonds or stocks. It is an ideal place for those who have retired on a pension; but I cannot yet recommend it as a

place to come for a young couple who are dependent upon what they earn. They better go to Texas or Alabama or some other state with an industrial future.

**Oil Boom Coming**

Oil has been discovered in Florida since I was here last winter. It is being pumped out of the ground every day by the Humble Oil and Refining Company about 45 miles southeast of Fort Meyers on the west coast, south of Sarasota. Most of the large oil companies are now securing leases throughout south Florida at from ten cents or more per acre. This money is all velvet to land owners because an oil lease does not interfere with raising cattle, citrus, vegetables or anything else. If you are so fortunate as to have oil discovered on your land later, you then get 12½ per cent of the oil in addition to your present lease money. Not only will this oil bring hundreds of millions of dollars to Florida but it should raise the prices of almost all land whether or not oil is found thereon. Those who get money from oil are sure to invest it in more land as they know nothing about stocks and bonds. Hence, this is no time to sell raw land in Florida.

**Planes Over Sweden**

London, Feb. 26 (AP)—Berlin broadcast a DNB Stockholm dispatch today saying Swedish anti-aircraft guns fired at from 10 to 20 planes over Swedish territory last night and that several magnetic mines which were dropped were found unexploded.

**Berlin Reports Sinkings**

The Berlin radio said today that German U-boats had sunk seven freighters totalling 35,185 tons and eight sailing vessels recently in the Atlantic, Mediterranean and Indian

ocean.

There has been no Allied confirmation of this number of sinkings.

# Social and Personal

Judge Dink James has returned from Duke Hospital.

Mrs. Sidney Crane of North Wilkesboro, is visiting her parents, Mr. and Mrs. Charles Horne.

Mrs. Roscoe Cox, Miss Marion Cox and Roscoe Cox, Jr., of Washington, D. C., are spending the week-end in Greenville.

Mrs. Tom C. Phelps of Lumberton, is the week-end guest of Mrs. W. W. Phelps.

Mr. and Mrs. Bob Hicks of Morehead City, are spending the week-end with Mrs. W. W. Phelps.

Miss Eula Mae Peyton of this city, is in Pitt General Hospital for an operation for appendicitis.

**Lay-Spear.**  
The marriage of Miss Rosie Williams, daughter of Mrs. Abraham H. Spear and the late Mr. Spear of Creswell, N. C., to Irving Howard Lay, son of Mrs. May V. Lay and the late Mr. Lay of Norfolk, Va., took place on Sunday, February 13, at 4 p. m., in the First Christian Church of Norfolk, with Dr. Gordon officiating. A program of wedding music was presented by Miss Mabel Lavy, organist. Before the ceremony, Chauncy German sang "I Love You Truly," and "At Dawning."

The bride was given in marriage by her brother-in-law, James Edward Collins of Greenville. Her wedding gown was of white slipper satin fashioned with ruffles of marquisette outlined in seed pearl embroidery, long sleeves, basque bodice and the fullness of the skirt forming a wide train. Her full-length veil of imported illusion fell from a coronet of seed pearls, and she carried an arm bouquet of Starlight roses and orchids. Her only ornament was a string of pearls, a gift of the bridegroom.

Mrs. James Edward Collins of Greenville, sister of the bride, was matron of honor. She wore an aqua marquisette dress over tulle slip, with headpiece of aqua ostrich plumes. She carried a bouquet of peach gladioli.

The bridesmaids were Miss Margaret Knapp of Norfolk, and Miss Alef Collins of Greenville, niece of the bride. Miss Knapp wore a dress of pink net over tulle slip with headpiece of pink ostrich plumes, and carried a bouquet of mixed spring flowers. Miss Collins wore a dress of yellow net over tulle slip with headpiece of yellow ostrich plumes. She carried a bouquet of mixed spring flowers.

Franklin M. Dennis of Ocean View, Va., was best man, and ushers were Rodgers Spruill and Harry Basnight of Norfolk.

The bride's mother wore a dusty rose two-piece dress with brown accessories. Her corsage was of yellow roses. The bridegroom's mother wore a light blue dress with navy accessories. She wore an orchid corsage.

For traveling, the bride wore a suit of navy blue wool with matching accessories and a corsage of white orchids.

Mrs. Lay is a graduate of Creswell High School and also attended East Carolina Teachers College. At present she is employed in the Norfolk post office.

Mr. Lay is a graduate of Norfolk High School and is employed in the Navy Yard.

After a wedding trip to New York, Mr. and Mrs. Lay will reside at 240 West Thirtieth street, Norfolk.

**Dinner Party.**

One of the prettiest parties of the season was on Saturday evening, February 19, when Miss Daphne McLawhorn entertained at a delightful dinner party at her home near Ayden. The lovely country home was tastefully decorated to carry out the Valentine idea. The centerpiece for the table was a lovely bowl of red and white carnations and fern. Long slender tapers were lighted among the flowers. The buffet was very pretty with its bowl of carnations, narcissus and fern on each side of which were candelabra with red tapers.

The two-course turkey dinner was served buffet style from the dining table. The girls found their partners for dinner by drawing names of the boys, and then were seated at individual tables which were covered with red and white valentine covers and centered with a red candle. Attractive valentine favors were placed at each guest's plate.

Before entering the dining room, the hostess stated that the leap-year idea would be used throughout the evening and the girls were to be unusually nice to the boys, helping them with their coats, seeing they were served and showing them all the courtesies a cultured gentleman would do for his lady friend. A prize was offered to the girl who was most thoughtful and courteous to her escort during the evening, which was awarded to Miss Betty Lou Worthington. Partners were required to eat their ice cream from forks tied together. Much fun was had in figuring out the best method of eating this way to the advantage of each.

The hostess's mother was assisted in serving by Misses Gay McLawhorn and Helen Joyce Whitehurst and Mrs. George Strickland.

Following dinner, the valentine and leap-year ideas were continued in a number of stunts and games. Outstanding among these were a magician stunt by Charles McLawhorn and an oratorical contest by Reid Coward, Bill Stroud and Miss Elsie Manning. To save time, all orations were given simultaneously, which made them very effective. The hostess was assisted in the games and stunts by Mrs. Donald Langston.

## Forty Years Ago Today

THE DAILY REFLECTOR  
February 26, 1904

Some men will have to answer on the day of judgment for the way they vote Wednesday.

It is time some of the men arrayed on the side of the saloons were getting ashamed of their company.

If a man votes for saloons and lives to see his son become a drunkard, he can blame only himself for it.

"The iniquities of the fathers will be visited upon the children," is recorded in Holy Writ. Father, will your vote be for iniquity?

## Red Cross News

The olive drab wool for army sweaters has arrived.

**Mrs. Tucker Entertains.**

Griffon, Feb. 26.—Mrs. Jack Tucker entertained at a party at her home here, having members of her contract club and invited guests. The home was tastefully decorated for the occasion with potted plants and greenery. Four tables were arranged for contract, which was played progressively. The highest scores for club members were compiled by Mrs. T. J. Williams and Miss Bert Johnson, while the guest award went to Mrs. Josh Worthington. They were given attractive gifts.

Other players for the evening were Mrs. Jack Chapman, Mrs. Alton Chapman, Mrs. A. D. Wall, Mrs. H. P. Quinley, Mrs. Vance Wall, Mrs. R. A. Nelson, Mrs. L. D. McCotter, Mrs. Ivan Bissette, Mrs. L. L. Mewborn, Mrs. Robert Mewborn, Paul Bradley, Mrs. J. T. Biggers, Miss Marie Chapman.

Mrs. Tucker served a delicious salad plate with tea and sandwiches.

**Mr. and Mrs. Bissette Hosts.**

Griffon, Feb. 26.—Mr. and Mrs. Ivan Bissette were at home Wednesday night to members of their contract club at a most enjoyable party. A patriotic note was used in favors and decorations suggestive of Washington's birthday.

On arrival, members were served a delectable supper at the individual card tables, following which bridge was played progressively at three tables. War stamps went to Mrs. T. J. Williams and Mr. L. L. Mewborn, as holders of high scores among club members. Mrs. George Suggs as guest, was given a novelty Mexican basket. Other players were Mr. Williams, Mrs. Mewborn, Mr. and Mrs. M. B. Hodges, Mr. and Mrs. C. R. Cobb and Mr. and Mrs. Robert Rasberry.

**"Brotherhood Week" Services Close.**

For the concluding service of "Religious Emphasis Week," the Rev. Charles Jones of Chapel Hill spoke last night to an audience at the college on "Jesus and Humility." He had led an informal discussion at noon in which he took up questions asked by students attending the meeting.

This series was Mr. Jones' sixth in colleges and universities in recent weeks.

Mr. Jones has had as his theme this week Jesus and his relation to various problems of brotherhood. He led a discussion period at noon and made a formal talk in the evening of each day, with discussion periods also in the dormitory parlors on Wednesday and Thursday nights.

"Religious Emphasis Week" was sponsored by the YWCA and YMCA at the college in observance of "Brotherhood Week."

**Masonic Notice.**

A. C. Tadlock, High Priest. T. I. Moore, Secy.

**Legion Auxiliary To Meet.**

The American Legion Auxiliary will meet at the home of Mrs. Roy Coburn Monday afternoon at 3:30. They will have as their special guests all wives of non-commissioned officers.

Mr. J. H. Rose will be guest speaker. All members are urged to be present.

## Eighth Street Christian Church

"Tell Me About the Kingdom of God—What Is It?" is the subject of the message at the Eighth Street Christian Church on Sunday morning when Dr. Haney will conclude a short series of sermons on the fundamentals of the Christian faith. About this subject Jesus was continually speaking during his earthly mission. The disciples had many notions about it but the conception of God was entirely different from theirs. What is the meaning of the Kingdom of God in our day, is the question addressed on Sunday morning.

At this service Miss Elizabeth Bridgers will sing a solo, "Star of God" by Coates.

The young people in their weekly C. Y. F. meeting on Sunday evening at 6:30 will discuss and answer some of their own questions and also will discuss the standards of requirements by which young people should be chosen to attend the summer conferences of young people.

The Disciples of Christ will hold two summer conferences for young people this year due to the fact that the number of youths desiring to attend these conferences is increasing year by year. The conferences will be held in Wilson during July and August.

The Eighth Street Christian Church will come on Sunday morning with an offering for war time needs in cooperation with the program of the national brotherhood in its attempt to raise \$250,000 for this purpose. Every member is urged to have a sacrificial share in this worthy cause. In the midst of our plenty we dare not let the faintest of mercy and compassion run dry. Others of our world are suffering dreadfully and we can at least share with them so that some of their burdens may be lifted. Truly the master desires us to say still, "Inasmuch as ye did it unto one of the least of these ye did it unto me."

The clinic is being conducted by Dr. Hugh A. Thompson, orthopedist, of Raleigh.

The State Orthopedic clinic will be held next Friday, March 3, from 12:30 to 4 p. m., in the Pitt County Health Department offices.

The clinic takes all types of cripples, both white and colored, free of charge, who are unable to afford private treatment. It is desired, though not required, that patients be referred by a physician or the welfare officer, and that the patient bring such note to the clinic.

## N. Y. Stock Market

New York, Feb. 26.—(AP)—Mild bidding for scattered rails and specialties served as a stock market prop today although many leaders slipped to slightly lower territory.

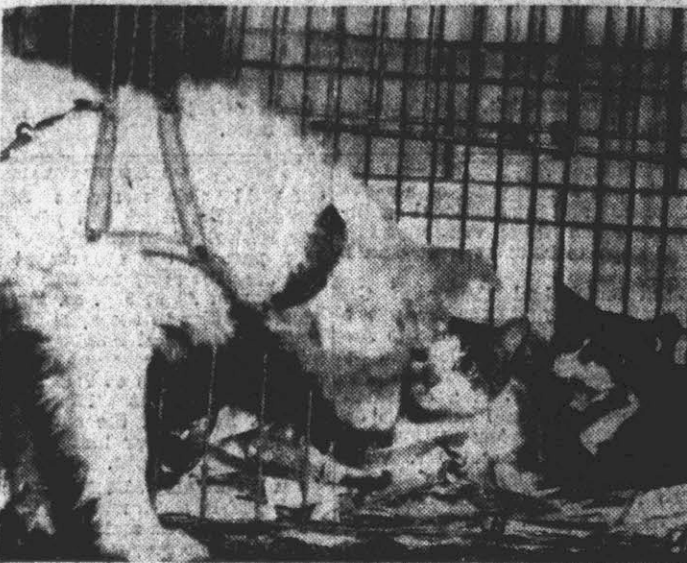

It was one of the slowest sessions of the past three months, turnover for the two hours running to around 300,000 shares. The direction, hazy at the start, remained indefinite near the close.

## Robert L. Humber Talks To Kiwanis Georgia Leaf May Come By Airplane

**By CHESTER WALSH**

Robert Lee Humber, international lawyer who lived many years in France and was in Paris at the time of the German occupation, paid fine tribute to the Greenville Kiwanis Club for its community work under the motto, "We Build." The scholarly and widely traveled speaker was presented by N. C. Brooks, chairman of the Business Standards committee, at the meeting at Proctor hotel last night.

Mr. Humber recounted some of the experiences of his youth when Bruce Sugg got him a job in P. C. Harding's law office when Dave Moore and other Greenville boys were playing baseball up and down the Atlantic Coast Line from Scotland Neck to Winston and winning most of the games. He told of attending a meeting of the New York Kiwanis Club with 300 members and 16 or 12 states represented. He impressed the Kiwanians when he said he had attended a Kiwanis meeting in Pittsburgh at which some of the organizers of Kiwanis International at Detroit during the first World War were present.

Discussing "Business Standards," the speaker painted a dramatic word portrait of the influence of business on culture and improving civilization since men traded skins and stones in commerce. Business had a potent influence on the discovery of America when business men sent Columbus in a ship to find a nearer route to India. Business had a large part in broadening the sphere of the church, he said.

Mr. Humber's eloquent after-dinner speech was informative, interesting and entertaining. His compliment to President Dick Bundy's inexhaustible exuberance of sparkling wit and good humor drew considerable applause.

Ed (Little Lamb) Rawl presented a silk American flag to the club. Arthur Corey led the pledge of allegiance to the flag. A. C. Tadlock inducted Luther Bishop, insurance adjuster, to membership in the club. "Tie (Sweetpea) Gardner led the singing of Kiwanis songs with Mrs. Ray Tyson as accompanist.

A feature of the program was the singing of "Our Love" and "When Smoke Gets in Your Eyes" by Mary Andrews, whichard, Elizabeth Bridgers and Hennie Ruth Whichard, with Eleanor Etheridge as accompanist.

Chairman Ed Rawl of the Kiwanis Minstrel Committee and Producer Ed Bloom and the various committee reported progress on plans for the minstrel to be presented two nights in April. Incidentally, the tickets will be reserved this year. The minstrel is for the benefit of underprivileged children.

## Well-Dressed Flier Allied Bombers ...

ered on that production center.

The communique, disclosing that the attack was by two separate forces of Lancasters and Halifaxes, indicated a new tactic employed by the RAF for the first time Thursday night against Schweinfurt, again had been used successfully.

Of the estimated 17,000 to 17,500 tons of bombs poured upon Germany since last Sunday it was probable more than half had been accounted for by the powerful American Eighth and 15th air forces.

The greatest U. S. fighter group ever dispatched from British bases—estimated at more than 1,000 planes—escorted the American bombers from England which dumped their loads on the Regensburg factory already burning from the attack of the Italy-based bombers.

The assault marked the third time this week that U. S. bombers from Britain and Italy struck at enemy targets at the same time, but it was the first time they both hit simultaneously. The RAF also took up the two-way attack Thursday night, with British-based bombers striking at Schweinfurt while formations from Italy blasted Stett.

retary.

He and "Jimmie" Byrnes, the War Mobilization director, were "like that" in the vernacular. He talked the language of the Agriculture Department. He listened sympathetically to Vice President Wallace, often counseled him in a friendly way.

McNary's death leaves the senate Republicans up in the air. Only Thursday they reelected him chairman of their conference and leader. They picked Senator Vandenberg of Michigan as vice chairman of the conference. Senator White of Maine as permanent assistant and temporary acting leader. Senator Wherry of Nebraska as whip and Senator Burton of Ohio as secretary.

Prominent Republicans said nothing would be done officially about filling the job for at least two weeks. White will continue to act in the meantime, but the way still is wide open for a decision on the major post.

For this the likely candidates are Senators Vandenberg, no confidant of the White House. Bridges of New Hampshire, one of the President's most vigorous critics, and Taft of Ohio, who has shown a disposition to compromise on such issues as food subsidies but who gives no quarter when he attacks the administration on some other fundamental issues.

ing into the beachhead area despite bad weather, continued Nazi shelling of the port of Anzio and a new attempt of the Germans to interrupt the process by making torpedo boat attacks at shipping off the harbor.

The Allied communique said an E-boat attack on the anchorage three nights ago was broken up by patrol craft.

Liberators bombing port and rail facilities at Fiume flew through thick heavy flak. Like the Regensburg raids, they met vicious fighter opposition, with some of the enemy planes carrying rockets. The crews reported direct hits on the harbor and nearby installations.

Pola's quays also were pounded and direct hits registered on a torpedo depot, while military buildings at Zara took many snags from bombs.

Beachhead air activity was light but A-38 invaders of the 12th air force bombed the coastal towns of Terracina and Sperlonga behind the German Cassino front, blocking German supply routes anew, and Warhawks took a crack at gun positions and troop concentrations near Campoleone.
