New Russian Offensive Smashes Twelve German Divisions In Ukraine

Soviet Forces Clamp Grip On Volochisk, On Double-Tracked Odessa-Lwow Railroad After Breaking 112 Mile Gap in German Defenses; 500 Villages Liberated

London, March 6.—(AP)—The Red army swept close today to the vital Odessa-Lwow railway, main artery supplying the Germans in the Dnieper bend, in a powerful new western Ukraine drive which Moscow announced, has routed 12 Nazi divisions and liberated more than 500 communities in two days.

A Soviet communique said the Russians were battling at the approaches to the station of Volochisk on the important line, 60 miles north of the Rumanian frontier. Severing of the railway would force the Nazis to rely on poor roads and one-track railways, or on the sea, for supplies or retreat.

Twenty salvos from 224 guns thundered in Moscow in celebration of the new victories, announced by Premier Marshal Joseph Stalin in a special order of the day and by two Soviet communique. Stalin disclosed Marshal Gregory K. Zhukov was commanding the first Ukrainian army in the drive, replacing Gen. Nikolai K. Vatutin, who was reported ill.

The announcements said at least 6,000 Nazis already had been slain in the push, which cracked German defenses on a 112-mile front and surged forward up to 31 miles. Joining with previously won positions in old Poland, the new line gave the Russians a salient from Dombrovitsa in the north, southwest to Lutsk and then southeast to Belozerkia—a line about 165 miles long.

The German communique yesterday admitted breakthroughs and Berlin broadcast said at least 12 to 14 rifle divisions and three tank corps—more than 200,000 men.

The Soviet bulletin also announced that far to the north, where the Red army has established a bridgehead across the Narova river in Estonia south of Narva, the communique made no mention of the fighting at Pakov, gateway to the Baltics where the Russians last week reported five miles north and east of the rail hub.

Moscow also reported that Russian torpedo and attack planes had sunk two transports, aggregating 14,000 tons, and a 700-ton minesweeper in attacks on a German transport in the Barents sea and had damaged a 7,000 ton transport. The sea route is one which the Nazis could use either in withdrawing or reinforcing their divisions in northern Finland.

Court Martial (AP)—The army announced today that three officers of the army air forces would be tried April 3 by a general court martial at Cincinnati, Ohio, on charges of neglect of duty in connection with allegedly faulty inspection procedures at the Wright Aeronautical plant at Lockland, O.

Deny Peace Moves (AP)—A Sofia dispatch to the Swedish press today quoted official quarters as denying foreign reports that Bulgaria was seeking a way to quit the war.

Stockholm, March 6.—(AP)—A Sofia dispatch to the Swedish press today quoted official quarters as denying foreign reports that Bulgaria was seeking a way to quit the war.

Through the Dardanelles and, more to the point, the Hitlerites must be cleaned out of the Aegean islands which block the entrance to the Dardanelles from the Mediterranean.

Anyway, of much greater importance is the fact that the Allies are in process of carrying out their oath to render the Axis powers guilty, Germany and Japan can see in this a preview of what's going to happen to their own navies and armies and air forces.

U. S. FORCES ON BURMA FRONT

Jungle-Hardened Veterans Clash With Japs

By PHILIP GROVER New Delhi, March 6.—(AP)—Jungle-hardened American soldiers—some of them veterans of Guadalcanal and the southwest Pacific—have gone into action in Burma the first American ground forces fighting as a unit on the Asiatic continent.

The Americans made a great looping attack far to the left of Chinese forces operating in the Hukawng valley, and have struck the Japanese lines nearly 10 miles behind their present front lines. The Americans inflicted heavy casualties on the Japanese in capturing Walabum, eight miles southeast of Maingkwang, chief village in the valley, by an encircling movement.

With capture of Walabum and Maingkwang, which fell to the Chinese, a Chinese-American pincer has been established around an estimated 8,000 Japanese.

These Americans are the only body of American infantry operating in Asia. They began training in India under Brig. Gen. Frank Merrill, adopting methods proved not only in the southwest Pacific, but by the colorful Brigadier O. C. Wingate who last year made a long-range penetration into Burma.

Merrill's troops, part of Lt. Gen. Joseph W. Stilwell's command, completed their preliminary training in central India, and then polished it off in the jungles of northern Burma.

They had their first brush with the Japanese more than a week ago, but not until today's penetration far behind the Japanese lines was their presence made public.

Brig. Gen. Merrill marched out of the Bagan jungle nearly two years ago, and now is leading jungle-trained men back in to re-win northern Burma so a new Burma road can begin carrying supplies to Chinese forces and to Maj. Gen. Clair L. Chennault's air force.

Some of the American troops were gathered from Puerto Rico and Panama as well as the southwest Pacific, and have been jungle-hardened to the highest degree.

The first march from a railhead to the Belvoir Negro Is killed on highway.

Frank, Hall, 70, Negro farm worker of the Belvoir community, was injured fatally Saturday night when a car driven by Richard (Bud) Parker struck him while crossing the highway. He died at Pitt General Hospital several hours afterwards.

According to State highway patrolmen, Hall crossed the highway to join his son, John Hall, on their way to their home in Belvoir.

Parker told authorities that the man walked in front of his car and that he could not avoid striking him. Coroner Griffin H. Rouse will hold an inquest Monday night at 8 o'clock.

Receive Coveted Oscars For Best Screen Performances

Here are today's brightest stars in the Hollywood firmament, selected by the Academy of Motion Picture Arts and Sciences as having given the best screen performances in 1943. AIRMAN BLAST JAP POSITIONS More Americans Pouring Onto Los Negros Island

Chungking, March 6.—(AP)—American Mitchells of the 14th air force, with fighter escort, destroyed from 30 to 50 enemy aircraft in the air and on the ground in a raid on Kingshan airdrome in the northern part of Hainan island Saturday, a communique from Lt. Gen. Joseph W. Stilwell's headquarters said today.

Gen Douglas MacArthur said today mopping up of the island was in progress and additional supplies and reinforcements were constantly being landed. "It was reported that the enemy also was renewing his strength after his costly defeat Saturday."

There was evidence of eastward movement of Japanese troops from the garrison at Lorengau on Manus island, adjacent to Los Negros island on the west, a headquarters spokesman said. This led to the belief that another battle was in the making.

Sporadic fighting flared as the Americans came up against enemy groups which survived the fierce battle Friday night and Saturday, when the Japanese hit the cavalrymen's defenses around the airdrome again and again without denting the line.

In this mightiest effort to retrieve the airdrome which fell so easily to the invaders Feb. 29, the Japanese left more than 700 dead, MacArthur said.

Three thousand Japanese have been killed or wounded since the landing, MacArthur said Sunday, against American losses of 61 dead and 244 wounded.

Allied aircraft bombed Japanese installations west of Momote, without interception, and American destroyers shelled islands at Seadler harbor at Lorengau, wrecking gun positions.

More than 100 Solomon-based army and navy bombers hit Rabaul Saturday with 164 tons of explosives, centering their attack on the waterfront. Damage could not be determined because of clouds. There was no interception.

A later sweep of navy Helcat and Corsair fighters over Rabaul Saturday, however, drew up eight Japanese planes, the first to oppose Allied blows at the base since Feb. 29.

British Destroyer Lost (AP)—Loss of the destroyer Inglefield was announced tonight. The Admiralty gave no details.

National Committee To Aid Anti-New Dealers

Washington, March 6.—(AP)—With White House approval, National Chairman Robert E. Hannegan has arranged to provide financial and other party assistance for many of the anti-administration Democrats in Congress who are running for reelection this year, including some who were marked as intended victims of the ill-fated purge of 1938.

Preaching that the Democrats must patch up their differences and face the Republicans as a united party, Hannegan has taken up where former Chairman Frank C. Walker left off in attempts to bring back into the fold some of the senators and congressmen who have been openly critical at times of President Roosevelt's policies.

This move, initiated by Walker before he turned the chairmanship over to Hannegan, has extended in some instances to senators who are not up for reelection this year, such as Senator Wheeler of Montana, Wheeler, however, reputedly has repulsed all overtures, including broad hints that some party leaders might find him an acceptable vice-presidential candidate.

But more headway apparently has been made with several others to whom the olive branch has been extended. Senator Tydings (D-Md.) against whose renomination Mr. Roosevelt personally campaigned in 1938, is expected to receive national committee assistance this year with the President's knowledge and approval.

Others reportedly include Senators Clark of Missouri, who faces a primary fight for renomination, McCarran of Nevada, Clark of Idaho, and Gillette of Iowa, as well as a number of house members.

American Heavy Bombers Pay Berlin Second Visit

NAZI ATTACK THROWN BACK

German Casualties on Rome Bridgehead 24,000

Allied Headquarters, Naples, Mar. 6.—(AP)—Allied beachhead forces have repelled another small German attack, it was announced today in a communique which also said that bad weather sharply reduced operations on all fronts in Italy.

Despite continuous rain and low clouds, fighter-bombers attacked shipping off the Yugoslav coast and gun positions on the fifth army front without loss.

Except for the one enemy attempt to plunge into the beachhead lines, ground operations were confined chiefly to routine patrolling in all fronts. Eighth army troops threw back a minor German attempt to probe their lines.

The new German thrust against the beachhead lines came near Cisterna in the same general area where American troops quickly restored their positions Friday night after a battalion of Nazi infantry had advanced slightly.

American artillery and mortar fire scattered a small German force attempting the new drive even before it reached advanced defense positions. A German tank concentration also was dispersed by shellfire, one tank being destroyed.

By EDWARD KENNEDY Anzio Beachhead, Italy, March 6.—(AP)—The Germans have suffered 24,000 casualties in three abortive attempts to wipe out the Allied beachhead below Rome and the hard fighting of the past month has disrupted enemy plans for meeting the expected spring invasion across the English channel, an authoritative source said today.

More important even than the heavy manpower losses from a strategic point of view is the fact that crack divisions which had been earmarked to meet Gen. Eisenhower's invasion are tied up in Italy.

The German high command decided because of natural advantages of terrain they could hold the Italian front with second class troops and were moving such units—like the 114th division—into the line, it was learned.

They planned to move more crack units, among them the Hermann Goering division, the 26th Panzer division, the 15th and 29th Panzer Grenadiers and the 90th light infantry, to the channel coast. The Goering division was in fact already aboard trains when the unexpected landing of Anzio compelled the Germans to retain all such divisions in Italy and bring in more troops from northern Italy, Yugoslavia.

The executive committee of the local chapter has selected J. Nat Harrison to direct a county-wide campaign to secure this money, and the week of March 20-27 has been designated as Red Cross week for this purpose.

Mobilization is now under way; hundreds of men and women have already volunteered their services; and before the date set for active solicitation of funds, the necessary forces will be enlisted for the tremendous task now confronting every one on the home front.

During Red Cross week the citizens of Greenville and Pitt County will be given the opportunity and privilege of rendering aid and comfort to men and women everywhere in the service of our country, either in combat or in camp.

Navy V-12 Tests To Be Held Here

The third Army-Navy College Qualifying test for the army special training program and the navy college program V-12 which will be given throughout the country on Wednesday, March 15, at 9 a. m., will be administered at East Carolina Teachers' College, Meigs, O.

E. Dowd, high school principal announced today. A booklet of general information which contains an admission-identification form may be obtained at Greenville High School. This form properly filled out will admit to the test students between the ages of 17 and 21 inclusive who are high school graduates or who intend to take the test should be made known immediately to O. E. Dowd in order that the necessary test supplies may be ordered.

The same examination will be taken by both army and navy candidates. The examination is designed to test the aptitude and general knowledge required for the program of college training and the program of college training and the program of college training and the program of college training.

Negro Youth Held On Murder Charge

Edward Williams, 18, Negro, is in jail here charged with murder in connection with the shooting of Sam Junior Clark, 22 Negro, during an argument over a woman, Carlee Combs, 18, early Sunday morning.

Williams confessed to Police Chief Herbert Wooten. He said he shot Clark with a pistol. The bullet entered in the region of the heart.

A passerby found the dead man shortly after daylight near the railroad and reported to police. Clark's body still was warm when found several hours after the shooting.

He chose to use the one that opened the door to eternity rather than the other one."

TURKEY TURNS ALLIES DOWN

Observers Believe Understanding Still Possible

By JOHN F. CHESTER Cairo, March 6.—(AP)—Reliable Cairo sources said today the Turkish government had flatly refused to enter the war or grant bases to the Allies except on complete delivery of a huge volume of war materials which would require months to ship and prepare for use.

At the same time it was said that considerable political difficulties had been thrown in the path of the British military mission which recently returned empty-handed from Turkey.

The Turkish general staff, it was stated, is good authority here. Declined to accept British estimates of the worst the Germans could throw against Turkey if she entered the war.

In the specific case of posing an air warfare, the Turks were said to have estimated German strength at 10 times above that given by British intelligence officers.

On Washington, it was reported Thursday that American lend-lease and British mutual aid shipments to Turkey were understood to have been suspended in a move apparently linked with preparations for the invasion of Europe.

Fighter-Escorted Forcibly Fight Way Through Nazi Defenses To Bomb Special Targets In German Capital; Berlin Reports Minimal Success Of The Raid

By GLADWIN HILL London, March 6.—(AP)—American heavy bombers in "very strong force" plowed through a great wall of anti-aircraft fire today and bombed Berlin for the second time in three days.

The returning fliers told of severe fighter opposition—and the German radio pictured one of the war's greatest air battles, raging over 350 miles from the Netherlands coast to Berlin.

One group of fighters said Berlin as a whole, despite the repeated bombings by the RAF which has made it the most-bombed city in the world, looked "a long way from being flattened." And "when people say there's no more Luftwaffe you can tell them they're nuts," observed Sgt. Charles W. Perry of West New York, N. J., a waist gunner, describing fighter opposition.

"At least eight or ten squadrons of the enemy came after our group," related Staff Sgt. Eldon Newman of Senath, Ohio. "Our escort was swelled but they made a hell of a battle. Those P-51s took on the whole Luftwaffe."

The fliers said several fires were left burning in Berlin. There was no indication immediately how many American bombers flew to the German capital, but some of the eighth air force's recent operations have sent 1,000 bombers into the sky.

The first official announcement said only that "targets in the Berlin district" were hit, without identifying them further or giving other details.

The surprise follow-up to Saturday's "reccerack" raid, by one formation of bombers, was a striking demonstration of the eighth air force's might, for it was the seventh operation of the heavy bombers in eight days.

Heavy fighter escorts accompanied today's formations on the round trip of more than 1,000 miles from British bases.

Thus Berlin, already seared by massive RAF night assaults, was brought under destructive hammer blows falling by day and night.

Presumably the American daylight attacks are aimed at precision (Continued on Page Two)

Germans Expecting Invasion Any Day

Stockholm, March 6.—(AP)—German newspapers give the impression that "the invasion may be expected any day now," a Swedish correspondent in Berlin said today, describing a fresh wave of anticipatory stories in the press.

A Hamburg newspaper said "one must expect invasion from many sides, and possibly some actions will only be feints designed to fool the German defenses."

Another paper said the German people "know there are no walls which cannot be stormed and no single weapon that can decide the war. They know too that there cannot be any decision that is not a 'big proof,' meaning an invasion."

Today On The Home Front

JAMES MARLOW and GEORGE ZIELKE

Washington, March 6.—(AP)—To anyone who has tried to get Pullman reservations, the Truman committee's report on use of such accommodations is an eye-opener.

The fact is, the committee says, that Pullman space isn't fully utilized. It offers the Pullman company figures for last September showing occupancy was 79.4 per cent of total possible use of the space.

While it is considered impossible ever to attain 100 per cent use, the committee "is convinced that more can be accomplished."

The trouble is, lots of train reservations which are going to be used aren't canceled in time to let other people use them.

This is in spite of the pleas of the railroad companies, which stress in advertising that failure to cancel may keep a serviceman from seeing his wife or family.

The Truman committee points fingers at: 1. Corporations engaged in the war program. In many cases, the committee reports, corporations make practice of buying Pullman space on the theory it might be needed and that the "small loss involved by losing the credit for the cancellation would be unimportant to the corporation."

2. Government agencies. "Blocks of Pullman space are reserved for government agencies such as the war and navy departments, the War Production Board

and the Office of Price Administration," the committee reports. "Much of the traveling done on behalf of such agencies could and should be eliminated."

The committee declares a change in the War Department's method of paying traveling expenses of officers was "significant" and "may contribute materially to the reduction of unnecessary travel."

That was elimination of what, in army jargon, was called the "gray train"; the officer's option—often profitable—of being paid 8 cents a mile to cover expenses, buying his own rail ticket out of that allowance.

Now the War Department allows a flat \$7 a day plus the actual transportation cost.

This, the Truman report says, "should have a tendency to discourage unnecessary and frequent long trips by officer personnel through rendering traveling less profitable and attractive."

All this doesn't mean the committee wants to encourage any unnecessary civilian travel. "The necessity for passenger travel, conservation will still remain," it says.

The WAR TODAY AN ANALYSIS OF THE NEWS

By DEWITT MACKENZIE Associated Press War Analyst

Few recent war transactions have created greater international speculation than the unexplained announcement that the Anglo-American allies are turning one-third of the Italian navy over to Russia.

The curiosity of Hitler's soothsayers is at white heat and Badoglio has expressed pained surprise that his Italian government wasn't even advised of the deal.

There's small ground for surprise in Badoglio's shrewd mind. While the allies hope to see Italy prosperous and happy after the war, she should understand thoroughly that she's going to pay dearly for her aggression.

Part of the price will be military impotence. Loss of her one fine navy is one of the penalties for helping cause millions of deaths and untold destruction. It's one of the penalties for shortening the lives of all of us by the number of wasted years which have to be devoted to war.

Naturally this handful of ships isn't going to turn the war upside down. They might be helpful in Mediterranean operations, manned by Red crews. They would be particularly useful if they could be got into the Black Sea to help clear the Germans out of the Crimea and turn their right flank in Russia.

However, before Allied ships can be sailed into the Black Sea we must have Turkey's permission to pass

Greenville Police Gone To New York

Police Chief Herbert Wooten and Patrolmen John R. Mobley and M. M. Ayscue left this afternoon for New York City to testify at a United States Army court martial in the trial of William David Lupton, 39, of Beaufort, on a charge of desertion. The hearing will be held Wednesday morning. The officers left ahead of time to avoid congestion in heavy travel.

Lupton, who claimed he was a former instructor in the Army Air Corps, was living with a tenant on Key Brown's farm near the city "to learn something about tobacco growing," he told his host. Police had him under observation and arrested him after receiving an anonymous letter suggesting that Lupton might be a spy. He was turned over to military authorities at Seymour Johnson Field in Goldsboro.

It isn't a question of "satisfying" the Kremlin. It's a matter of adjusting questions on the basis of one for all and all for one. Each of the Allies is, according to his own talents, pulling his weight in the war. Each therefore is entitled to equal consideration with the rest.

Russia doesn't happen to be doing (Continued on Page Two)

Strength FOR THE DAY

By EARL L. DOUGLAS

REACHING FOR FREEDOM
We are here in the world to grow
—and to grow means to be educated.
Nothing in God's world ever
stands still. We either go forward
or backward. We either are on the
up and up or on the down and out.

"Build thee more stately mansions,
O my soul.
As the swift season rolls!
Leave the low-voiced past!
Let each new temple, nobler
than the last
Shut thee from heaven with a
dome more vast.
Till thou hast built a fire-freeze;
Leaving thine outgrown shell
By life's unresting sea."

The lesson for us, therefore, is to
learn about life from its experiences.
There is much to be learned
from books, and more from people;
but the greatest teacher of all is
experience. Everything we do
educates us either in a positive or
a negative fashion. If the process
is what it ought to be, we leave
"the low-voiced past" and push
into something higher. We learn
some new skill out of every failure,
some new truth out of every mistake;
gain some new insight into
larger knowledge every time we
discover that we have followed a
will-o'-the-wisp.

WASHINGTON IN WARTIME

By JACK STINNETT

Washington—The first ration token
headache already is building up
at the Office of Price Administration,
but just how much of a pain
it is probably won't be known until
the latter part of May, possibly
even July.

It's the "hoarding" of tokens. It
was anticipated by OPA officials,
but like a lot of people who recognize
the first symptoms of illness,
they argue it really isn't very serious.
What makes it important is
that it could be.

When the token idea was first
decided upon, the collector menace
was considered and OPA even made
a survey of it. There were two factors
that made it seem unimportant.
The percentage of collectors in the
country is small and as soon as the
novelty wears off, it will be even
smaller. Besides, except for the
tokens taken out of circulation
and the expense of replacements,
it couldn't possibly have any effect
on the ration program.

But there has developed something
else—the hoarding of tokens (which
are good any time) by people who
haven't used all their ration stamps
in any period.
The tokens were no sooner on
the market than shrewd housewives
figured: "Why not use my stamps
today and save the tokens I net in
change for that rainy day when I
want to splurge?"
If this should become widespread,
a complete overhaul of the point
system would be necessary.

One reason OPA thinks the headache
won't become critical is public
opinion.

Another reason for not fretting
they claim, is that driers-out and
non-housekeepers will soon find
themselves with a basketful of tokens
for which they have no more
than the denominational ration
stamps they couldn't use up before.
Nevertheless OPA won't know if
it has a real or imaginary fever until
around May 20, when the first
ten-point stamps expire, or perhaps
July when the second reports
come in. If anything has to be
done, it probably won't be until
then.

In all other respects, the new token
system is going over with a
bang. OPA's sampling system reports
that initial dealings in tokens
as change for ration stamps were
most favorable. Grocers who had
been burning the midnight oil seemed
most happy about it all.

Overflow Crowd To Hear Bishop Darst

By CHESTER WALSH

Rt. Rev. Thomas C. Darst of Wilmington, bishop of the Episcopal Diocese of East Carolina, administered the rite of confirmation to 20 communicants at St. Paul's Episcopal Church yesterday morning. It was one of the largest classes in the history of the parish. Rev. Colgate Daugherty, rector of the church, stated. An overflow congregation attended the services. Bishop Darst preached a deeply spiritual and inspiring sermon. His subject was "Consecration." He felicitated the wardens and vestrymen and members of the congregation for their harmonious and cooperative spirit in carrying on the church work and predicted continued growth of the parish. A special program of music was presented by the choir. Dr. K. V. Gilbert of the music department of East Carolina Teachers College, talented violinist, assisted. The distinguished Episcopal prelate was a week-end guest of Mrs. E. B. Ficklen on West Fourth street. He and Mrs. Darst recently returned from a sojourn in Florida. He is much improved in health.

destruction of selected targets escaping the RAF's saturation raids. The heavy bombers raced to Berlin as Allied medium and fighter bombers attacked northern France—where Prime Minister Churchill said the Germans were preparing rocket and robot-plane installations—for the fifth successive day. Last night RAF Mosquitos attacked western Germany, without loss.

In London, Dingle M. Foot, parliamentary secretary of the Ministry of Economic Warfare, told a luncheon that when resistance in the air is overwhelmed "the destruction of German war industry will follow on a far greater scale than achieved in the last few weeks."

He said the intensified bombing will be more than "a policy of attrition designed to wear down German war potential over a long period—it represents the essential preliminary to invasion of Europe."

Last Wednesday was the only time in the last eight days that American heavy bombers have not cut the Fies De Calais area, Brunswick, southeast and northwest Germany and yesterday hit Nazi air bases in southern France. The bombers and fighters yesterday knocked down 27 enemy planes.

A German broadcast declared that "one of the greatest air battles of the war has been raging since 11:30 this morning over northwest and central Germany," extending from the Zuider Zee as far as the Hevel lakes near Berlin.

The radio said the air raid alarm sounded just before 1 p. m. (8 a. m. EWT). The Americans took a direct course to Berlin, the Germans said, and "during their incursion were continually pressed by the strongest forces of German fighter and destroyer aircraft, and were forced to execute evasive maneuvers by the fire of hundreds of anti-aircraft batteries."

"The attack had been expected by German anti-aircraft defenses after the first two American daylight thrusts had failed. The U. S. bombers flew in tight formations, protected on both sides by fighters and long-range fighters flying at higher altitudes," the Berlin radio continued.

The invasion that the greatest

The Ankara radio deplored what it called bitter comment of the British press on the turn in Turkish-British relations and declared that any attempt to bring pressure on Turkey would "bring exactly the opposite effect."

Youth Killed In Highway Accident

Hertford, March 6.—(AP)—Gideon Saunders, Jr., was instantly killed early this morning on the Hertford-Belvidere highway when the car which he is said to have been driving got out of control, decapitating him and throwing him ten feet into a near-by tree, according to Sheriff J. Only other occupant of the car was Percy Winslow who received only a slight scratch. Winslow was released under \$500 bond, according to the sheriff.

By WILLIAM B. KING
Ankara, March 6.—(AP)—Two Istanbul newspapers left the impression today that a new Turkish understanding with Britain still is possible despite an announcement that shipment of lease-lend and war supplies from England and the United States has been stopped.

"The policy of the democracies is our policy," said Vatan. "If the Allies were to do something in the Balkans, they would find us at their sides," said Tanin. "It is not true that the Allies can do nothing in the Balkans because we will not move. The truth is that we will not move because the Allies do not wish to live in the Balkans."

Tanin reported that aviators and technicians sent to Turkey by the British and American armies were preparing to leave and said that, while the flow of military supplies from Allied sources had been halted, shipments of rubber and tin would continue.

Be Quick To Treat Bronchitis

Chronic bronchitis may develop if your cough, chest cold, or acute bronchitis is not treated and you cannot afford to take a chance with any medicine less potent than Creomulsion which goes right to the seat of the trouble to help loosen and expel germ-laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Creomulsion blends beechwood creosote by special process with other time tested medicines for coughs. It contains no narcotics. No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough, permitting rest and sleep, or you are to have your money back. Simon Tucker Died At Home Yesterday

Simon B. Tucker, 64, died at his home near Greenville Sunday morning at 4:15 after several months of illness.

Funeral services were held at the home at 3 o'clock this afternoon. Dr. H. G. Haney, pastor of Eighth Street Christian Church, officiated. Burial was in Greenwood cemetery.

Mr. Tucker, son of the late C. and Malissa Cox Tucker, spent his life in the community in which he died. He served in the army in World War I. In 1925 he married Miss Mattie Mercer of Wilson.

Surviving are his wife; a daughter, Frances Mercer Tucker, and her son, Graham Tucker, of the home; and a brother Will A. Tucker of near Greenville.

Active pallbearers were E. H. Boyd, T. L. Brooks, L. W. Chery, Leon T. Hardee, C. Heber Forbes and A. O. Clark. Members of the American Legion were honorary pallbearers.

BEAUTIFUL DANCING ST AR COMING TO THE STATE THEATRE TUESDAY

Miss Sherry Marsh, beautiful dancing star, just recently completed one solid year's run at Earl Carroll's beautiful Theatre-restaurant in Hollywood, will be seen on the stage of the State Theatre Tuesday with the great stage revue "Revue of Tomorrow," the season's outstanding stage attraction. Among the headliners found on this show are the debutants, a chorus of eight beautiful girls; Jack and Betty Blainer, the world's fastest escape artists. Miss Betty Blainer is one of America's beautiful glamour girls. Dan Evans will entertain you with his quaint impressions of a Negro preacher; Teddy Mitchell, one of the outstanding singing stars on the stage today, will thrill you with his interpretations of Frank Sinatra, the Ink Spots and other great singers. His boogie wogie will put you in the aisles with laughter. From Ringling Bros. circus this show will bring you the outstanding dramatic act of all time, the Rubbyettes. All you hep cats and kittens don't miss Milt Henkins' great jive band, featuring the world's greatest drummer, Matty Amar. A better drummer than Krupa. All these great stars and many more you will see and hear with this great stage show coming to the State Theatre tomorrow. Attend the matinees and avoid the night crowds.

Sorority Meets at College. While in one hour 19 of its members folded 440 surgical dressings, the Greenville chapter of Delta Kappa Gamma, national sorority of women teachers, held its quarterly meeting Saturday afternoon in the Red Cross surgical dressings room in Austin Hall at the college. Miss Mamie E. Jenkins, president of the chapter, presided during the business meeting and informal conference that formed the program while surgical dressings were made.

In the brief social period which followed, simple refreshments were served by Miss Eva Keeter and Miss Christine Johnston. Miss Ella Bonner of Washington, N. C., and Mrs. Louella Stancill of Battleboro, were the out-of-town members present.

To Present Radio Program Tonight. On the broadcast from East Carolina Teachers College tonight at eight o'clock over WGTC, two soloists will be presented: Miss Jean Abeyounis, soprano, who is assisting Mr. Charles Fisher in the voice department, and Dr. Karl V. Gil-

The broadcast is the second in a series from the college under the auspices of the Faculty Radio Committee composed of Dr. Gilbert, Prof. Ralph C. Deal and Dr. Meredith N. Posey.

Eileen Farrell Concert Wednesday. When Eileen Farrell appears at the Wright Auditorium of ECTC on Wednesday night at 8:30, she will further substantiate the many acclaims she has received during the past three years.

Within three years Miss Farrell has secured nationwide fame, for she was one of the ten most popular singers of radio in a recent nationwide poll. It is through radio that she has received recognition, for she is one of the leading stars of CBS. Although radio has been her major work, she has been appearing in the concert field for the past two years and according to critics her programs are of the best quality.

Perhaps her remarkable success is the fact of her versatility, for Miss Farrell can sing with equal ease and skill the lyric, dramatic, and popular selections.

Miss Barrett Speaks At College. Miss Ella Stephens Barrett, acting state supervisor, Occupational Information and Guidance, in addressing the home economics seniors and staff members of East Caro-

lina Teachers College Thursday evening, gave many illustrations emphasizing the increasing need for guidance and all phases of personal work among both young people and adults. From her "diary" she brought interesting examples of "teen-age" boys and girls seeking the guidance that only a trained person can give. A knowledge and understanding on the part of the teacher of each individual student and the ability to use good counseling techniques are necessary to effective guidance, according to Miss Barrett, and the demand for trained counselors as well as teachers is far greater than the supply.

The speaker complimented very highly the guidance program being carried on by the college home economics staff members, referring especially to two studies recently made by them. The first, "Summary of a Cumulative Record of Home Economics Majors at East Carolina Teachers College," was made for the purpose of gaining an objective picture of the student's educational experiences and social background in her home surroundings, according to Miss Katherine Holtzclaw, chairman of the department, with the more effective curriculum may be developed, and that the content of individual courses may be changed to meet more fully the actual needs of the students.

The number of students majoring in home economics in the fall of 1943, as revealed by the survey, was 243, or 25.6 per cent of the total college enrollment for that term. The summary of the information gathered is accompanied by a descriptive picture of the average student, and recommendations made to provide for the needed individual and group guidance which is indicated and which staff members are now attempting to give.

The second survey which Miss Barrett referred to is a follow-up study of home economics graduates of the past 15 years. It is hoped that the additional information gathered will reveal the greatest weaknesses in the curriculum and will indicate further the type of guidance most needed.

On Thursday and Friday Miss Barrett accompanied Mrs. Ehel Watters of the home economics staff to visit student teaching centers at Williamston and Winterville high schools, respectively.

On Thursday evening Miss Barrett and Mrs. Watters were dinner guests of Misses Mavis Ballance,

Dorothy Wilson and Jessie Mary Wilson in the apartment of the home management house, with Mrs. A. E. Bloxton, director.

Finals Tonight

In Cage Tourney

The Farmville invitational basketball tournament for Pitt county schools will come to a close with two games tonight in which the Farmville girls will meet the Arthur girls at 8 o'clock and the Farmville boys will meet the Arthur boys at 9 o'clock.

The tournament, that got under way Wednesday, passed the semi-final stages Saturday night with both the girls' and boys' teams from Arthur and Farmville defeating their semi-final opponents. The Arthur girls won from the Fountain girls 25 to 10; Arthur boys defeated Bethel boys 30 to 23; Farmville girls won from Walstonburg girls 27 to 22; and Farmville boys defeated Belvoir boys 24 to 18.

France to meet the threat of an invasion of the Riviera. Through-out France many troops are required to keep resistance fighters from gaining control.

Bad weather is holding up present Italian operations.

The defense of the Cassino area now is mainly in the hands of parachute troops and the Germans are further strengthening their fortifications. They doubtless hope to make Cassino one of the epic of German military history.

The exact breakdown of the 24,000 German casualties was not given.

Of these 3,500 have been captured by Allied beachhead troops and a high percentage of the remainder were killed. Allied artillery having taken an especially heavy toll.

An American officer who got back to Allied lines after being in German hands said, "I saw German bodies piled up like cordwood while a common grave was dug for them."

SODA you can use and depend on

SHIPS RETURNING from other missions, are bringing natural soda from Chile—for this year's biggest of all food production jobs. It is soda you know all about—can store and handle easily—can depend on for top and side dressing. How much will there be? That's hard to say, but last year Chile sent 1,000,000 tons to U. S. farmers and think what that would mean this year.

● Properly applied, 1,000,000 tons of Chilean Nitrate would produce 250,000,000 bu. of oats or 100,000,000 bu. of wheat; 125,000,000 bu. of corn or 4,800,000 tons of forage crops; 6,000,000 tons of vegetables or 2,500,000 bales of cotton and 1,100,000 tons of cotton seed.

Natural Chilean Nitrate, always a big factor in food production, is absolutely vital this year—enough and in time for all essential needs.

Triplets

Winston-Salem, March 6—(AP)—Mrs. William Solomon of Kernersville, R. 1, gave birth to triplets yesterday at City Hospital.

The latest report from the hospital was that the three girls—Mary, Martha and Marie—and their mother were "doing fine."

Rural deaths in 1943 decreased 23 per cent as compared with 1942.
