ARMEN BLAST FRENCH COAST AGAIN TODAY

RAF Smashed Aircraft Repair Plants in Southern France Last Night; Italy-Based Bombers Downed 40 Enemy Planes Over Ploesti Yesterday

London, April 6. (AP)—The Germans' Frankfurt radio warned today that "enemy bombers are flying toward southeast Germany," possibly foretelling a penetration of the Reich by Italy-based bombers of the American 15th air force.

Meanwhile, U. S. Liberators bombed the "invasion coast" of France, striking at the Pas-De-Calais area for the second consecutive day under escort of Thunderbolt fighter planes.

Air headquarters said no aircraft were lost on the operation, which encountered only meager flak and no aerial opposition.

The raid represented a round-trip flight of at least 1,000 miles, but despite the length of the journey all but one of the big bombers returned, the Air Ministry said.

Meanwhile, U. S. Liberators bombed the "invasion coast" of France, striking at the Pas-De-Calais area for the second consecutive day under escort of Thunderbolt fighter planes.

Air headquarters said no aircraft were lost on the operation, which encountered only meager flak and no aerial opposition.

The raid represented a round-trip flight of at least 1,000 miles, but despite the length of the journey all but one of the big bombers returned, the Air Ministry said.

U. S. Troops Clear Up Hospital Tents After Bombing

American troops carry forward the grim task of cleaning up debris at a U. S. evacuation hospital at the front on the Anzio beachhead in Italy after a German bombing attack. The bombs killed two operators and wounded 56. Note the hospital tents with Red Cross signs on top. (AP) Wirephoto from U. S. Signal Corps radio.

Japanese Forces Exerting Pressure On Indian Front

Chinese Drive Against Japs in Northern Burma Americans Down 24 Enemy Planes

New Delhi, April 6. (AP)—Japanese forces continue to exert pressure all along the Assam front north of Imphal, but Allied troops have inflicted casualties on the enemy in ambushes laid along roads north and south of that Indian base, Admiral Lord Louis Mountbatten's headquarters announced today.

In northern Burma, meanwhile, the announcement said, Chinese forces are driving the enemy steadily southward in the upper Mogaung valley and are advancing on the village of Wakawung.

The bulletin also disclosed that 24 Japanese planes had been destroyed in an air commando attack against the Aungmye airfield in central Burma Tuesday.

Fighter pilots who returned to inspect the airfield on the following day reported that it appeared to be almost entirely destroyed by fire as a result of the six-minute raid. The attack was a complete surprise, the communiqué said, and was accomplished without loss to the commando squadron.

Heavy bombers hit Japanese positions in the area, the communiqué said. (Continued on Page Four)

Trustees Will Meet Tomorrow

Raleigh, April 6. (AP)—Trustees of East Carolina Teachers College will meet here tomorrow, principally to consider a request from President Leon R. Meadows that he be retired August 31, the end of the school year.

Sources here said they believed the meeting would be closed, and that a subcommittee would be appointed to consider the selection of a successor to Meadows. Names thus far advanced here are those of June Rose, superintendent of the Greenville schools, and Guy Phillips, chairman of the North Carolina Education Association.

Crops Damaged By Cold Weather

Raleigh, April 6. (AP)—The current cold weather already has damaged North Carolina's fruit and truck crops, and agricultural officials in all parts of the state said loss up to 50 per cent of normal production would result unless warmer weather is soon forthcoming.

Estimates were that the peach crop, which has weathered several cold snaps recently, was affected more than 30 per cent, and a 60 to 70 per cent destruction of the apple crop in the mountain regions, where temperatures fell to 19 to 20 degrees, was indicated.

Opinion in the strawberry and truck growing areas was that these crops had not been damaged yet, but C. L. Tate of Chadbourn, supervisor of the strawberry market there, said "another still, cold night will damage the berries considerably."

Protracted wet weather in the eastern part of the state is delaying the Irish potato crop, necessitating replanting because seed potatoes are rotting in the rain-soaked fields. P. H. Jameson, Pasquotank county farm agent, said the crop already had been cut in half in that area by the wet weather.

Continued low temperatures were in prospect, although slightly warmer weather was forecast for today.

ALLIES DEAL HEAVY BLOWS ON THE JAPS

Airmen Pound Enemy Positions as Ground Forces Move Forward

By The Associated Press Allied forces continue their attacks against the enemy strongholds throughout the Southwest and Central Pacific areas.

At Wewak northeast New Guinea, Fifth Airforce bombers dumped 206 tons of bombs Tuesday, destroying 13 Japanese planes on the ground and starting large fires without having a single shot fired at them.

Australians moving toward the enemy's Madang base, southeast down the coast, was last reported nine miles from Bogadjim, 29 miles south of Madang. An American contingent is 1 mile from Bogadjim.

In a day-long attack on well-purverized Rabaul, New Britain, 150 medium and light bombers led by 110 tons of bombs on airbases and other Japanese installations.

Mitchell bombers of the 7th army air force Monday gave Ponahe, Japanese eastern Caroline's outpost, its 27th bombing since Valentine's day.

Waka, a visit Admiral Chester W. Nimitz reported, sinking a small cargo vessel. Four enemy positions in the Marshall Islands were bombed.

Twenty-five Japanese fighters, not seven as first reported, were shot down by American Liberators over Truk Sunday, it was disclosed by 8th army air force headquarters.

Debaters Leave For Chapel Hill

Two Greenville High School debating teams left this morning for Chapel Hill to compete in the annual high school debating contest for the state championship and the Memorial Cup at the University of North Carolina.

Greenville High was one of only two schools to send affirmative and negative teams. Ralph Fleming and Richard Worsley make up the affirmative team and Gladys Tyndall and Len Wrennath the negative team.

Miss Nancy Urey and R. B. Starling accompanied the debaters. Forest City was the only other high school to be represented by two teams.

The topic this year is "Resolved That the United States Should Join the Other Nations in a Program of World Security and That the Association So Formed Should Have an Adequate Police Force."

The members of the debating teams met in Memorial Hall at 2 p. m. today for pairing and tonight will enter the semifinals. Winners of the semifinals will be matched in the final debate Friday night. Dean Robert B. House will preside.

In addition to the Greenville High affirmative and negative teams the following schools will participate: Oxford affirmative, John Nichols High (Oxford) affirmative, negative; Garland affirmative, negative; R. J. Reynolds (Winston-Salem) affirmative, negative; Kannapolis, negative; and Forest City, both affirmative and negative.

That if he is to be the standard bearer, he does not want to owe his election to any individual or single element in the party, or to have any other strings attached.

With a minimum of 132 convention delegates pledged or claimed for him as compared with 26 pledged to Lieut. Comdr. Harold E. Stassen and three to Gen. Douglas M. Arthur, Dewey seemed well-started toward such a goal.

While Dewey was on all counts the question of what Wilkie might do held the intense interest of Republican politicians who speculated on these possible developments.

1. Wilkie might plump for a Republican with liberal international views such as Stassen, thus giving that candidate's chances a boost.

2. He might return to the Democratic party which he quit before 1940—might even support a fourth term for President Roosevelt in preference to aiding a Republican who did not see eye to eye with him on foreign affairs.

3. There was some conjecture that Wilkie might be invited to share the ticket with the President.

4. He might head a new "bull moose" liberal movement away from the old line Republican party.

5. Or he might go along with the GOP nominee, whoever that may be, continuing his appeals for a "new world" program to preserve future peace, a peace he thus could hope to have some hand in formulating.

The Wilkie withdrawal may have paved the way for a Dewey bandwagon, especially in the south, where most Republican politicians have to get in the winner's parade.

Russian Troops Smashing Into Outskirts Of Odessa

Red Forces Yesterday Severed Last Major Railway Escape Route for 200,000 Nazis and Rumanians; Germans Trapped in Skala Area Being Annihilated

It was a happy reunion Paul McCoy, aged 5, held his dog, "Spot," just a plain bound, in a hospital at Columbus, Ohio, after the dog led a rescue party to a barren hill where Paul lay unconscious in the rain. "Spot" went for help after the boy became lost. (AP Wirephoto).

By EDDY GILMORE Moscow, April 6. (AP)—Russian storm troops pushed into the outskirts of Odessa today and the roar of battle echoed throughout the city.

Gen. Rodion Y. Malinovsky's cavalry and light tanks drove on the great Black sea port from three directions, front line dispatches said, advancing from positions which last night were only nine miles from the heart of the metropolis.

The right flank of Malinovsky's third Ukrainian army pushed thru the quagmires west of the city heading for the Odessa-Ovidopol spur railway—the last remaining escape route to Rumania for the defenders of Odessa, the dispatches added.

Even if the trapped Germans and Rumanians succeed in reaching Ovidopol, they must make the hazardous trip by ferry to Akkerman and thence by a winding single track railway to Rumania.

Malinovsky's cavalry and tanks had cut off the main escape route to Rumania by capturing Razdelnaya, 38 miles northwest of Odessa, and then pressing southwestward to take Strassburg, which commands a side road from Odessa to Traspol on the lower Dniester river.

If previous German practice has been followed commanders of the Axis forces in the Odessa area probably have already deserted their men and equipment, and have been taken out by ship and plane.

Four Red army pushes are being aimed at the heart of Odessa, the units which are closest to the city appear to be advancing down the banks of Lake Kuzaitzki from the captured rail station of Kubanka, 14 miles away.

A Red Star dispatch said recent heavy rains have complicated ground conditions but that Malinovsky's cavalry and light tanks are solving that problem. It reported that "big forces" of Germans are tied up in the direction of Odessa.

(Continued on page six)

Invasion Date Has Been Set

With the United States Army Somewhere in Britain: April 6. (AP)—"D" day has been set.

The Allied western invasion timetable has been worked out to the minutest detail.

Only a few high-ranking officers know the date, however, and only a few will know it beforehand.

But topflight commanders in talks with their officers and men are being amazingly frank in some respects—even to the extent of telling the troops the job cut out for them.

Among American troops who will participate in the initial assault on Adolf Hitler's fortress a growing tenseness can be noticed.

In their barracks the soldiers talk among themselves but there is tremendous, because in a way, a consciousness among them when they are outside camp.

Will Ask Aldermen Provide Recreation

By CHESTER WALSH The Board of Aldermen will meet in regular session at the City Hall tonight at 8 o'clock. In addition to routine business matters to be transacted a number of citizens are planning to appear before the board in behalf of a plan recently submitted for providing recreational facilities and a recreational director for Greenville young people.

The plan first submitted would require an expenditure of \$10,000 and would necessitate an increase in the city tax rate, it was stated.

Sentiment expressed in various circles and on the streets indicates that the people would oppose an increase in the tax rate at this time. Sentiment appears to favor the city spending some reasonable sum of money for playgrounds and recreation here at this time and development here at this time and development here at this time.

Generally expressed that it would be difficult at this time to secure the services of a properly trained recreational director, since men and women specially trained for this work are now working with the USO and the various armed force camps, business men and others said here today.

Alarm But No Fire The fire department was called to Gus Stokes' home on West Third Street last night but there was no fire. Smoke circulating in the house caused the occupants to suspect fire. The smoke did no damage.

(Continued on Page Four)

London Press Terms Strikes a Stab in the Back for the Armed Forces

By JAMES M. LONG London, April 6. (AP)—Fuel Minister Gwilym Lloyd George told the House of Commons today in an emphatically worded statement that "strike action in time of war cannot be justified" and simultaneously government moves indicated to end widespread stoppages in the mining and shipbuilding industries.

As the U. S. army lent a hand to speed mining operations in the Northumberland coal fields, Lloyd George declared that the coal crisis is the worst since 1926 and declared the government cannot stand aside and allow collective bargaining of the machinery of conciliation and arbitration in this vital industry to be weakened or destroyed.

He did not disclose by what means this was to be prevented, but Labor Minister Ernest Bevin has been authorized by the cabinet to deal with outlaw strike inciters under the wartime defense of the realm act and the government announced it was considering what special powers were necessary to stamp out outlaw walkouts.

American army authorities sent two huge mechanical excavators to one Northumberland pit and they were put to work at once strip-mining with approval of the fuel minister.

Lloyd George announced that 60 per cent of the Yorkshire pits now were operating, but said that the strike already has cost 1,000,000 tons of coal, has resulted in heavy losses to dwindling reserves, and (Continued on Page Four)

Ickes Predicts Fuel Famine Unless Deferments Granted

Washington, April 6. (AP)—Secretary Ickes said today that he had little hope that any coal miners under 25 will be deferred from the draft and forecast that it will mean more restrictions on the use of coal next winter.

At his news conference, the solid fuels administrator gave the coal manpower picture as follows:

There are 36,000 coal mine employees under 26, according to the latest survey. If none get occupational deferments, 20,000 of these will be inducted (others being 4-4-0 or deferred for miscellaneous reasons). This would mean a loss of 28,000,000 tons of coal.

Such a loss would be addition to the estimated 26,000,000-ton deficit under the year's requirements with existing manpower—a total deficit of 54,000,000 tons.

If miners 27 through 25 years old with three years experience were deferred, an estimated 8,000 men under 26 would be drafted with a consequent loss of 11,000,000 tons.

This proposal at one time was approved by the inter-agency committee (considering the question of (Continued on Page Five)

Today On The Home Front

JAMES MARLOW and GEORGE ZIELKE

Washington, April 6. (AP)—Here it comes again: the federal income tax.

By April 15, about 15,000,000 of the 50,000,000 taxpayers must file declarations of estimated 1944 tax and pay the first installment on any amount of tax that isn't being taken out of wages and salaries.

This includes you if:

1. You expect to have 1944 income of more than \$2,700 if single, or \$3,500 for a married couple. Or—

2. You expect to have outside income in addition to wages or salaries subject to withholding of taxes under pay-as-you-go of more than \$100 this year. Or—

3. Your income isn't subject to withholding of taxes. (Exception: Farmers, who may wait until December 15 to file—but if they wait will have to pay the whole amount of tax at that time.)

The declaration forms probably will look simple to you in comparison with the 1943 return you filled out a month ago.

You estimate your 1944 income and how much (if anything) will be taken out of your pay for the tax during the year, then start paying the difference in quarterly installments. (If you had a refund coming on 1943, and elected to have it applied against 1944, you subtract it from the first payment.)

If you use the short-form work sheet sent you by the tax collector, you need to do only one problem in decimals—the 3 per cent victory tax. The regular tax can be found in a table of figures on the work sheet.

There's an alternate, long-form work sheet for use in estimating taxes on incomes over \$10,000. This also may be used for detailed computation of taxes on smaller incomes.

In the short-form, the tax tables automatically provide for deductions of 8 per cent of your income.

Last fall, use of the short-form left some taxpayers facing unexpectedly high payments in March. However, the short-form produces tax figures approximating those which will result if the present "streamline" bill in congress becomes law, as expected, with its automatic deductions of 10 per cent of income up to a maximum of \$500.

For this reason, the short-form is particularly suitable now.

Note, though, that if the "streamline" bill becomes law, childless couples will face a tax boost, and in that event may find it advisable to file an amended declaration.

Gasoline—A-9 coupons expire on May 8.

The WAR TODAY

AN ANALYSIS OF THE NEWS

By DEWITT MACKENZIE (Associated Press War Analyst) If Anthony Eden resigns the British foreign secretaryship in order to devote his whole time to government leadership in the House of Commons, as is reported to be scheduled, it will put squarely to the test his qualifications as possible successor to the great Churchill as Prime Minister.

That will be the significance of the move if it eventuates. Many British prophets feel that Churchill's historic task of leading his people through the valley of "blood, toil, tears and sweat," from defeat to glorious victory, is drawing to a close. He and his chiefs of the Conservative party are said to feel that the comparatively youthful Eden—he is 46—is the man to shoulder the burden, and they're going to put him through the mill to find out.

One important sidelight is that when Eden takes the helm it will at long last bring the so-called "young conservatives" into power after many decades of battling with their elders for a place in the sun. Churchill belongs to the old guard. So did a long string of predecessors.

Maybe it's wrong to call that a sidelight. England, like the rest of the world, is on the verge of great changes, and coupled with those will be the post-war problems of reconstruction. It certainly is a

period when political adaptability and correct perspective will be at a premium.

So far as foreign affairs are concerned, there's no reason to anticipate any material change. The foreign minister doesn't lay down Britain's foreign policy in any event. He may propose some of it, but the prime minister is the last word, and what he says goes.

Many London observers think Lord Cranborne, secretary of state for dominion affairs, will become foreign secretary if Eden quits the post. That fits the picture well enough, for Eden and Cranborne are great friends and think alike on foreign policies. Cranborne followed Eden out into the political wilderness in 1938 when the latter resigned as foreign minister because he couldn't stand Premier Chamberlain's policy of appeasement towards Hitler.

Eden of course already is government leader in Commons, but his foreign office duties require so much time that he hasn't been working very hard at his other job. Regular leadership in Commons would put him on a hot spot, where he would either make or break himself in short order. It's one of the toughest assignments in British politics.

It calls not only for the inspiring qualities necessary for leadership, but for supreme tact.

It's an interesting commentary (Continued on Page Four)

Social and Personal

Miss Mary Holland left today for her home in Winston-Salem to spend Easter.

Mr. and Mrs. Albert Caskins and little daughter, Nancy, of Roanoke Rapids, are visiting Mrs. Caskins' mother, Mrs. Virginia Perkins.

Mrs. Earl Forbes has returned from Richmond and is recuperating from a recent operation at her home on East Eleventh street.

Mrs. Don Nicholson left yesterday to join her husband, Ensign Nicholson, in New London, Conn.

Mrs. John F. Holbrook of Chicago, is visiting her mother, Mrs. Olympia Jones.

Miss Ernest Brooks will arrive tonight from Washington, D. C. to spend Easter with her parents, Mr. and Mrs. N. C. Brooks.

Mrs. Aubrey Shackell returned to her home in Washington, D. C. today.

Miss Dorothy Mison is home from Mary Washington College, Fredericksburg, Va., for the spring holidays.

Corp. and Mrs. Robert D. Whitchard are visiting relatives in Greenville. Corp. Whitchard is stationed at Camp Howze, Texas.

Friends of Mrs. Arthur Davenport will be sorry to learn that she is ill in Pitt General Hospital.

Mrs. W. R. Skinner has returned to her home from Pitt General Hospital and is improving.

Miss Helen Zechel is spending this week in New York City and Princeton, N. J.

Mr. and Mrs. Russell Angstadt of Hetherseth, Del., will arrive today to spend Easter with Mrs. Virginia Perkins.

Junior Woman's Club Meets.
The Junior Woman's Club met on Wednesday night at the home of Mrs. E. M. Gibbs on Fourth street, with Mrs. Gibbs and Mrs. Jack Foley, Jr. as hostesses.

The meeting was called to order by Mrs. Ray MacKenzie, president, and immediately following the pledge and collect were read. Mrs. Charles Caskins, secretary, read the minutes of the last meeting. Old and new business was discussed, the new business consisting of the constitution of the Junior Woman's Club, read by Mrs. W. C. Shreve. After a discussion of the constitution, the hostesses served an ice course.

Third Street P. T. A.
The P. T. A. of the Third Street School will meet Wednesday afternoon, April 12, at 8:30 in the school auditorium. A very interesting musical program is being prepared by the fourth, fifth, sixth and seventh grades. Many beautiful numbers will be rendered by the children. All parents are invited to attend.

Postpone Coffee Hour.
The coffee hour for the wives of the officers, stationed in Greenville which was planned for this week by the Women's Club, has been postponed until next week.

Birth Announcement.
Mr. and Mrs. Floyd Mills of Greenville, Route 2, announce the birth of a son, Floyd Rudy, on Wednesday, April 5, 1944, in Pitt General Hospital.

Mrs. Mills is the former Miss Myrtle Ruth Tripp.

Social Calendar

THURSDAY
8:00 p. m.—Choir of Eighth Street Christian Church meets for rehearsal at the church.

FRIDAY
6:30 p. m.—Kiwanis Club.

St. Peter's Catholic Church.
Holy Week Services

Friday—Mass, 7:00 a. m.; Evening services, 8:00 p. m.
Saturday—Mass, 7:30 a. m.; Lenten last ends 12 o'clock noon.
Easter Sunday—Masses, 9:30 and 11:00 a. m.

Easter Egg Hunts.

There will be two Easter egg hunts for city children Friday at Coanache city park. All children of grammar grades are invited to come at 10:30 a. m. The children of the primary grades are invited to come at 3:30.

Remember the hour—10:30 in the morning, Friday, for grades 5, 6 and 7; and 3:30 in the afternoon for grades 1, 2, 3 and 4. Several hundred eggs have been cooked and dyed for this occasion. Prizes will be given to those finding the most.

The Easter egg hunt is the formal opening of the city park. The park program is being sponsored by the Legion Auxiliary and will be open each week day from 4 to 6 o'clock; on Saturday from 10 to 12 o'clock; and from 3 to 6 o'clock; and on Sunday from 3 to 6 o'clock.

Everyone is invited by the Legion Auxiliary to use the city park. A full time maintenance man is being provided and play leadership according to schedule. Several donations to the auxiliary by generous citizens have made this program possible.

Club Making Easter Corsages.

The Junior Woman's Club is making war stamp corsages for Easter this year, for the second Easter season.

The corsages for this season are white carnations with the stamps added and are quite attractive. Orders were taken last year for \$175 and \$3750 values. Regular corsages will sell for 50 cents for children, \$1.00 and \$1.50 for adults, made up with ten-cent stamps.

Orders may be placed for any price corsage and with 25 cents, 50 cents and \$1.00 stamps.

A display of these corsages may be seen in Best Jewelry Co. window and will be sold at a booth in front of Blount-Harvey's on Friday and Saturday, April 7 and 8.

Place your orders now with Mrs. George Wilkerson, 4215, or Mrs. John Blackman, 3320. Orders cannot be filled after today.

If flowers are preferred the florist will make you a combination corsage. They have the stamps and will be glad to make them.

Be patriotic and wear war stamp corsages for Easter.

Wilson's Weekly Bulletin
By George Rector
Food and Nutrition Consultant to Wilson & Co.

EASTER SYMBOLIZES NEW LIFE—NEW HOPE

Easter! The increasing warmth of the sun in April... the unfolding of buds and the bold, brave blossoming of flowers... the radiant awakening of the earth after a cold winter's sleep... these symbolize to man new life, new hope. Let us keep up the spirit of Easter time this year, for now, if ever, man's hope for a better new world is mounting wherever men are fighting for what is right.

Baked Ham—for a traditional Easter

It's fortunate that Wilson's hams require no more points than ordinary hams. Wilson & Co. makes two fine hams.

Wilson's Certified Tender Made Ham, long famous as "the ham you cut with a fork," is ready-to-serve cold, just as it comes from the market. Or heat it, if you prefer.

Wilson's Certified Smoked Ham, the original tender extra mild ham, must be thoroughly cooked at home.

GLAZING AND DECORATING

To cook, follow directions that come with each ham. One-half hour before done, remove ham from oven, score fat, sprinkle with brown sugar, dot with cloves and baste sparingly with 1/4 cup fruit juice mixed with 1/4 cup corn syrup.

Decorate if desired (except for leaves and stems) and return to oven to finish baking. Decoration above is easily made. Use wedges cut from slices of pineapple (canned or canned), slices of maraschino cherry; cut leaves and stems from green pepper. *Consisting of:* deviled Clear Brook Eggs in nests of endive.

Small Family, Few "Points"?
The point value on ham is extremely low now, so there is no need to miss out on the goodness of a Wilson's Certified Ham this Easter. If you can't get a whole ham, settle for a half ham or a ham steak and rejoice!

Put 1/4 cup light brown sugar into a 2-lb. slice of Wilson's Certified Smoked Ham, sprinkle with 10 whole

cloves, place in a baking pan, add 1/2 cup water and bake until fully cooked, about one hour. Serves 4 to 6.

If you select a slice of Wilson's Certified Tender Made Ham (ready-to-serve), simply heat through.

For a Gala Dinner
Boiled new potatoes, buttered and parleyed, are "tops" with ham; follow through with asparagus, a tossed spring salad and delectable hot rolls. For dessert, serve individual cakes with a depression cut out of center top (the next effect). Frost with white icing and cover top, including depression, with coconut tinted green. Fill "nest" with jelly bean candies and the children will be delighted.

EASTER BREAKFAST
Start Easter morning with the song of Wilson's Certified Bacon sizzling in the pan. It will bring the whole family to the table in a jiffy. Easter bunnies and eggs are inseparable so plan to have plenty of Clear Brook Eggs on hand for filling "short-orders" at each meal on Easter. It's an old custom—one we enjoy greatly.

Sincerely yours, George Rector

GROW MORE IN '44
We must grow 10 million tons of food in gardens in '44. The goal is 22 million Victory Gardens—two million more than last year. If you haven't already done so, make plans now to raise as much of your own food as possible this year.

EASTER SYMBOLIZES NEW LIFE—NEW HOPE

Easter! The increasing warmth of the sun in April... the unfolding of buds and the bold, brave blossoming of flowers... the radiant awakening of the earth after a cold winter's sleep... these symbolize to man new life, new hope. Let us keep up the spirit of Easter time this year, for now, if ever, man's hope for a better new world is mounting wherever men are fighting for what is right.

Baked Ham—for a traditional Easter

It's fortunate that Wilson's hams require no more points than ordinary hams. Wilson & Co. makes two fine hams.

Wilson's Certified Tender Made Ham, long famous as "the ham you cut with a fork," is ready-to-serve cold, just as it comes from the market. Or heat it, if you prefer.

Wilson's Certified Smoked Ham, the original tender extra mild ham, must be thoroughly cooked at home.

GLAZING AND DECORATING

To cook, follow directions that come with each ham. One-half hour before done, remove ham from oven, score fat, sprinkle with brown sugar, dot with cloves and baste sparingly with 1/4 cup fruit juice mixed with 1/4 cup corn syrup.

Decorate if desired (except for leaves and stems) and return to oven to finish baking. Decoration above is easily made. Use wedges cut from slices of pineapple (canned or canned), slices of maraschino cherry; cut leaves and stems from green pepper. *Consisting of:* deviled Clear Brook Eggs in nests of endive.

Strength FOR THE DAY

By EARL L. DOUGLAS

VIRTUES MAY BECOME VICIES
We were in a slight-seeing boat in Florida, and the lecturer, as we glided along a beautiful canal, told us to watch sharply because at a certain point the jungle would end and the everglades begin. "Within ten feet," he assured us, "the jungle will end and the everglades begin."

This figure returned to my mind recently as I discussed with someone the difference between thrift and avarice. Thrift is a virtue, avarice a vice; yet thrift quickly becomes avarice. A proper regard for the value of money quickly takes us over into a too-high regard for its value. Righteous indignation quickly spills over into malice and uncontrolled temper. The necessity for punishment on the part of parents, employers, and public officials can quickly lead them into a policy of revenge or a spirit of sadistic cruelty.

All virtues, if pressed too far, become vices. So quickly do we come upon the point of division between a virtue and a vice that we have to be on the lookout all the time lest we miss it. Within ten feet, the jungle becomes the everglades; and in the twinkling of an eye a quality designed to make a man noble can degenerate into a vice which may ruin him.

WASHINGTON IN WARTIME

By JACK STINNETT

Washington—He was just an ordinary sailor, machinist's mate third class. I didn't even get his name, but in a brief conversation I did ask him what he planned to do when the war is over.

"Me?" he said slowly and got a little start-eyed. "I'm gonna get me a farm and raise chickens and pigs and things."

This wouldn't be anything surprising except that he had been born and reared in Brooklyn and had never been closer to farm land than what nearby Long Island had to offer.

The point is that he is typical of a million or so men in service that the Department of Agriculture and Congress are counting on giving a helping hand when they get back from front.

There are a number of bills in Congress providing for readjusting the discharged service men to civil life, but one thing that is in almost every one of them and certain of passage in some form is provision for getting the would-be farmer off to a good start.

The prospective congressional provisions would (1) make direct loans to ex-service men who desire to buy farms; (2) provide for guaranteed mortgages, thus permitting banks and farm mortgage companies to make liberal loans; and (3) direct the Department of Agriculture to give all possible aid to these young farmers toward seeing that their efforts produce cash returns.

Since farm production is now being pushed to the limit an expanded post-war program may seem like a pipe dream, but agriculture officials will tell you that isn't so. Apparently the "economy of scarcity" which resulted in bonuses for plowing under everything from pigs to cotton has been abandoned. The idea now is that it will take years of maximum production to feed a post-war world.

As for available land, the experts estimate that the Army and Navy now have 3,000,000 acres of good farm land which can be returned to farming as soon as the war is over. In addition, blue prints are being drawn for reclamation of additional millions of acres principally through irrigation, but some also through drainage and flood control.

The Department of Agriculture estimates that there are now a million farm youths in the armed services. While a large percentage will return to their family farms and an additional number will make use of their service training to turn to other pursuits, there still will be hundreds of thousands who will want

Cracking A Tough Nut

— IS ONLY HALF THE JOB!

PHOTOGRAPH BY THE GAZETTE SYNDICATE

their own farms. There's probably even a greater number of farmers who have gone into war industry and will want to return to farming as soon as the lush wartime wages begin to shrink.

No consideration has been given so far to these ex-war workers but many officials here think that some similar provision will be made as soon as the "G. I. Bill of Rights" or something like it has become a law.

Unless all present signs are pointing in the wrong direction, the would-be farmers in the armed services are going to be given the biggest break of any of the discharges.

Dewey Out . . .

(Continued From Page One)
early if they expect to keep their party jobs."

However, it left the situation confusing in such states as Oregon and Maryland, where Wilkie's was the only name entered.

His name also is on the Nebraska preferential primary ballot for next Tuesday, along with that of Stassen, but the results are not binding on the 15 Republican delegates to be elected the same day.

While some of his Republican colleagues had kind words for Wilkie's stimulation of interest in the 1944 campaign, few of them expressed public regret that he had quit.

Governor Bricker, surprised at the announcement, said Wilkie had created interest "by freely and courageously discussing his conception of the issues that are facing us in this very serious situation."

There was no word from Stassen, but Senator Ball (R-Minn) praised Wilkie's views and courage, calling for the party to take a "forthright and courageous position" by nominating the former Minnesota governor.

Senators Taft (R-Ohio) and Nye

THE WAR TODAY

(Continued From Page One)
that Churchill, whom England has followed through hell and high water in the war emergency, is himself too much of an individualist to be a successful government leader in Commons in normal times. He's by nature a lone wolf, and but for that fact could have been prime minister a score of years ago. His colleagues always admired his genius, but writhed under the caustic tongue with which he liked to lash them.

Eden should make a good leader. He inspires confidence, has a pleasing personality, and is possessed of considerable tact, which may be an acquired quality. Anyway, he needs the experience in domestic affairs.

There's one other reason why Churchill requires strong leadership in Commons. The House has been getting out of hand a bit of late—even his own Conservative party—and has been challenging the old maestro.

Japanese Forces . . .

(Continued From Page One)
headquarters and a transit camp at Negrom Sawarn in a night attack which set blazes visible for 20 miles and blasted railway yards and jetties at Mouline.

With their line running six miles across the floor of the Mogaung valley, the Chinese took two tiny settlements, Mihlogar Tawng and Maranga Tawng, pin points a mile and a half east of the valley road, crossed a river southeast of Laban and eliminated a Japanese strong point at the confluence of two rivers about 40 miles north of Mogaung on the Myittha railway.

To the east, Burmese troops advancing on Myittha and the Sumpurung road reached the Giang river. This apparently is 45 miles north of Myittha, chief Japanese base north of the Burma road.

The commune said a Japanese general's sword and medals had been captured in the close fighting south of Imphal on the Tiddim road.

In the Assam offensive the Japanese have seized 15 miles of the Imphal-Kohima highway and are threatening Dimapur, 85 miles away on the Bengal-Assam railway. It was disclosed that American transportation troops are operating and maintaining this railway, having taken over on March 1 for the purpose of pushing maximum supplies through to the Burma and China fronts.

The Japanese threat so far had failed to halt the flow of supplies, which continued to pour forward. Should the Japanese block the railroad there still would be a highway and the rail route along the Brahamputra river which already are moving much material.

New York, April 6.—(AP)—The British radio said today that troops of the 17th Indian division had fought their way through the Japanese and reached Imphal after 21 days of action in which 1,800 enemy

casualties were inflicted. The report, recorded by CBS and NBC, said part of the action was along ten miles of the Imphal-Tiddim highway. Two weeks ago the Japanese asserted they had cut the division to pieces. Actually, the British radio said, the division had reached Imphal with a loss of less than a tenth of its transport.

Wet Ground Worry For Farmers Now

By CHESTER WALSH

Wet ground has delayed farmers several weeks in their spring work. Floyd F. Hendrix, Pitt county farm agent, said today. The recent cold periods have not bothered the farmers so much, "it's wet soggy ground that's holding them up in spring planting preparations," he said.

The cold has not damaged tobacco beds and there is little heard about blue mold so far.

Many of those who planted gardens too early last year bid their time this spring in planting and no damage has been reported. Irish potato seed are rotting in the ground and very few growers plan to replant the spuds. Hendrix estimates that there will be about 40 per cent of last years acreage planted to potatoes and he believes that there will be less than 1,000 acres of white potatoes harvested this year, about a third of last year's production.

Farmers who wish to take advantage of the government's 20 per cent increase in the tobacco acreage this year are "standing pat" until they can ascertain what the labor situation will be.

Incidentally, the North Carolina Employment office in Greenville has informed the county farm agent that they are receiving applications from Negro women for jobs. Farmers who need workers to weed tobacco beds and do other work suitable for women should communicate with the county agent. He will make necessary arrangements for procuring workers.

No reports of serious damage to fruit in this section have been made. Very little fruit is grown here. Incidentally, farmers and others who have grape vines and who have taken care of them, fertilized the vines and properly staked them up may net a substantial profit for the grapes next fall, a business man from central Carolina who is not in the farming business, told a group of interested listeners here today.

Britain . . .

(Continued from page one)

has stopped coal export to neutral countries.

"It has been possible to keep nearly all gas works in operation," he said, "but the position of many now are precarious."

He declared the bulk of the strikers were "completely out of hand and refused to accept the advice of their leaders."

The total of the striking Tyrosire miners has dropped from 90,000 at the start of the week to 60,000 and a non-related strike of 20,000 Clydeside and Tyneside shipbuilding apprentices apparently has collapsed, but the general labor crisis appeared yet to be broken.

It Belfast 30,000 shipyard, aircraft and engineering workers remained idle. About 15,000 of 20,000 shipyard workers turned up this morning but after last minute talks went home. Several hundred dockers resumed work.

Fuel Minister Lloyd George's condemnation of coal strikes in Britain was strongly echoed today by the London Star in an editorial titled, "Blackmail."

SEEKS VACCINE AGAINST POLIO

Scientist Believes Infantile Paralysis Can Be Prevented

By GARBER DAVIDSON

San Marino, Calif., April 6—(AP)—Dr. Carl Edward Rosenow, professor of experimental bacteriology at the Mayo Foundation in Minnesota, says he is working on the development of a vaccine against infantile paralysis.

The veteran scientist said in an interview here that he believes it will be possible to use the vaccine widely as a preventive injection for children and adults, just as such inoculations have been used in smallpox and other diseases.

Dr. Rosenow for years has stood almost alone among the experts in declaring that infantile paralysis is due to a streptococcus. Virtually all others attribute the disease to a virus, a very small organism which has not been isolated.

The Mayo physician claims that he has identified this small organism as a form through which streptococci pass at one stage in life. He has been making reports for years on his evidence of this dual life of strep germs. His latest evidence comes from the electron microscope.

If he is right, streptococci might furnish the material for a successful vaccine. He explained that the vaccine he is now developing is made without use of serum from horses. He has previously used horse serum in treating infantile paralysis but that, he said, has limitations.

Because the method he is now developing has not been submitted to fellow scientists by publication in a scientific journal, Dr. Rosenow was reticent and declined to discuss the technical details. He was resting from his work at the home of his son here recently, but took time out from his short vacation to address a chemical seminar at the California Institute of Technology in Pasadena.

"I have isolated the streptococcus and found that it has made a serum," he said. He declared that the serum has been used successfully in treating afflicted persons and that, by its use, a diagnostic skin test has been developed to determine in the early stage if a patient has the disease.

Dr. Rosenow referred to a monograph he prepared some months ago, published in Scientific Monthly, in which he stated that the use of his "poliomyelitis anti-streptococcal serum" in 20 epidemics resulted in a death rate consistently lower than in cases in which the serum was not used.

The method, he said, was to immunize horses with freshly isolated strains of the living streptococci from patients. Then the serum was extracted from the horses and used for treatment of afflicted persons. Again in the course of the 20 epidemics studied, Dr. Rosenow said 2,664 sufferers were treated with the serum and that 252 or 9.5 per cent died, in the 2,737 who were not treated, deaths totaled 583 or 21 per cent.

College To Observe Holiday For Easter

East Carolina Teachers' College will close Friday for a short Easter recess it was announced today. Classes will be resumed next Tuesday, April 11, at 8 o'clock.

Hull Will Speak On Foreign Policy

Washington, April 6—(AP)—The State Department announced today that Secretary Hull will make a 35-minute speech on foreign policy Sunday.

The address is expected to be an elaboration of the secretary's recently summarized 17 points of foreign policy with some specific examples of the way in which that policy is working out.

Warns Against New Sub Raids

U. S. Naval Base, Bermuda, April 6—(AP)—Secretary Knox said today a mass attack by German U-boats may come "soon" against Allied shipping.

The naval secretary spoke at a celebration of the third anniversary of the establishment of the naval base on this British island. He said that Germany now is concentrating upon building submarines "to the virtual exclusion of all other kinds of vessels," and added:

"We have been bombing their installations and factories but their submarine production has by no means stopped and we have a good idea of the rate at which they are launching their U-boats. They will undoubtedly come out in mass soon."

Knox said it was "anybody's guess" whether the U-boats again will come into waters of the western Atlantic to wage warfare against merchant shipping. "But if they should you will be prepared for them."

The navy secretary disclosed in his address that the Bermuda naval base, sometimes called "the Pearl Harbor of the Atlantic," cost "upwards of thirty-four million dollars," excluding work done here by the navy's seabees.

Army Needs Women In North Carolina

The army sent out a hurry call today for women to fill vacancies at posts and camps, airfields and hospitals in North Carolina. According to an announcement by Cpl. Elsie Sanford of the Greenville Army recruiting substitution, women who enlist in the Women's Army Corps (WAC) now can virtually pick their own jobs and select their location.

The Army needs more WAC's at Camp Davis, Seymour Johnson Field, Fort Bragg, Wilmington, Morris Field, Charlotte, Camp Sutton, Camp Butler and Sedge Field, Greensboro. Dozens of other camps in the southern states need women volunteers to fill army jobs.

Jobs open, Corporal Sanford said, include clerical, general clerical as well as those requiring a knowledge of typing and stenography—cooks and bakers, statistical and financial clerks, drivers of light automotive equipment, photographers, business machine operators, drafting, radio operators and repairers, instrument repairers, medical and hospital technicians, supply and stock clerks, and teletype operators.

The army is depending on the women of the nation to volunteer for these jobs. Members of the WAC, Cpl. Sanford pointed out, receive the same benefits as do servicemen.

The local Army recruiting substitution station on the third floor of the City Hall, telephone 3218.

"Feeling Grand"
Washington, April 6—(AP)—President Roosevelt remained in his White House study again today, busying himself with a basket of paper work.

Presidential Secretary Stephen Early reported the chief executive was feeling "fine, grand" and would hold a press conference tomorrow morning.

Bread Supply Cut
Lisbon, April 6—(AP)—A new bread ration announced today, reflecting a wheat shortage, curtailed consumption to six ounces daily of first class bread or 9 1/2 ounces of second class dark bread.

Bread is the mainstay of all Portugal, which eats less meat per capita than any other European nation, even in peacetime.

It is estimated that industry loses the equivalent of 1,000,000 employees' work every day because of illness and injury.

About one-third of the active medical practitioners in the U. S. are in the services.

Tired Kidneys Often Bring Sleepless Nights

When disorder of kidney function permits poisons to matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headache and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

SAYS QUINTS AUTHENTIC

Argentine Doctor Substantiates Parents' Claims

Buenos Aires, April 6—(AP)—The Dionnes appeared today to have an authentic set of rivets for quintuplet honors.

Dr. Jose Alejandro Beruti informed the Argentine Medical Association that after a careful investigation he saw no reason to doubt that Aires bore quintuplets last July 15—two boys and three girls.

Dr. Beruti, head of the obstetrical department of the University of Buenos Aires School of Medicine and first recognized medical authority to report on the case, said newspaper announcement of the births apparently was unwarranted by the data he had uncovered.

The skepticism arose when no trace of quintuplets could be found in official birth records. The parents explained then that they had tried to keep the event secret because of the fear of publicity.

Dr. Beruti declared that examination showed all the Diligent children were now in perfect health although, he said, the last to be born, a girl, had required artificial respiration, warm baths, and stimulants.

The doctor said that according to his inquiry Señora Diligent was attended only by a midwife in whose home the births occurred. He said the first child was born at 9 a. m., the second 10 minutes later, the third 15 minutes after the second, the fourth at 10:05 and the last at 11 a. m.

The total weight of the infants at birth, Dr. Beruti said, was 6,400 grams (approximately 14 pounds) while at eight months the total had increased to 41,000 grams (nearly 90 pounds). The doctor expressed the belief the infants were born prematurely.

His inquiry, he said, showed a number of multiple births in the mother's family, an aunt having born triplets and twins, a sister twins, and a sister-in-law two sets of twins.

Beruti told his colleagues that "the legal, moral or intimate aspects of the case were omitted from the report because they are extraneous to the subject from a medical standpoint."

Miners May ...

(Continued From Page One) deferments of men under 26 but that group later reversed its position and decided against any deferments for miners under 26.

Paul V. McNutt, chairman of that committee of manpower claimants, was to lay the question before the War Manpower Commission today, but all indications were that the inter-agency group's decision would not be reversed again.

This, said Ickes, would have a "serious effect," and "it looks as if we'll have to live on a hand-to-mouth basis." He said the nation entered the last coal year, beginning April 1, 1943, with 90,000,000 tons of soft coal in stockpiles; this is down to about 50,000,000 tons at present, an average of only 28 days, whereas "we have to keep at least three weeks' supply as a cushion."

The situation will become aggravated to the degree that more of the younger, able-bodied miners are taken, he said. Pointing out that the average age of coal miners has risen from 32 to 45, Ickes said:

"I may have to go myself. Who'll go with me?"

Says Farmers ...

(Continued From Page One) furnish their proportionate part of the men for the armed services. The situation demands that agriculture make its proportionate contribution of young manpower, as has been made by industry.

General Metts said the recent directives "concerning younger men will not interfere with the normal flow of older men to the armed forces."

Governor Broughton, who conferred with the delegation after its session with Metts, said that "since the system for deferring farmers has been thrown out the window, some yardstick should be established for the guidance of local boards. He said Metts would confer with national selective service officials.

Several Die ...

(Continued From Page One) cause of the blast was unknown, gave this report:

"This explosion occurred at 1:20 a. m., first in a railroad box car that was on a siding beside a cooling shed for bombs and mines. This box car was being loaded.

After the explosion of the box car the cooling shed exploded. It was filled with mines and depth charges. The cooling shed, about 100 by 100 feet, is built of concrete, heavily barricaded. Three people in the shed survived, but they are quite badly hurt."

NOTICE

North Carolina—Pitt County. Mamie Jenkins -vs- Lonnie Jenkins

The defendant Lonnie Jenkins, will take notice that an action entitled as above has been commenced in the Superior Court of Pitt County, North Carolina, to obtain a divorce on the statutory grounds of two years' continuous separation; and the said defendant will further take notice that he is required to appear at the office of the Clerk of the Superior Court of Pitt County, on or before the 19th day of April, 1944, or the plaintiff will apply to the Court for the relief demanded in the complaint.

This the 8th day of March, 1944. J. F. HARRINGTON, Clerk, Superior Court Pitt County.

Grain Market
Chicago, April (AP)—Favorable weather for the development of the winter wheat crop and reports that efforts will be made to import 20,000,000 bushels of Canadian oats by May 15, combined to create a little selling in grain futures today. Declines were confined to minor fractions in a quiet trade.
At the close wheat was unchanged to lower, July \$1.71 1/2, oats were unchanged to lower, July 78 1/2, rye was down 1/4-5/8, May \$1.31 1/4, and deferred barley contracts were off 1/2 cent, July \$1.25 1/2. May barley was bid at \$1.28.

New York Cotton
New York, April 6—(AP)—Cotton futures opened unchanged to 20 cents a bale lower.
Noon values were 20 cents a bale higher to 25 cents lower, May 20.87, July 20.56, October 20.02.
Futures closed 40 cents a bale higher to 25 cents lower.

N. Y. Stock Market
New York, April 6—(AP)—A few rails, motors and specialties gave the stock market another moderate and selective lift today although many leaders again found difficulty in negotiating recovery.
Quotations improved after a mixed opening and plus signs of fractions to a point or so predominated near the close. There were fast and slow periods but turnover for the full proceedings approximated 700,000 shares due largely to activity in low-priced issues.

Russian Troops...
(Continued From Page One)
and that "violent fighting" is raging on the approaches to the city.
Northwest of Odessa, where the Russians have encircled German and Rumanian troops in the Skala area and in the city of Tarnopol, the merciless battle for their extermination has reached new fury with the end of the blizzard which has

been sweeping southern Russia for three days and nights.
A dispatch from Major Mikhail Mikhailov to Red Star said the Germans lost 1,000 dead and 20 tanks in their first big attempt to break out of the Skala trap to the west and north yesterday, and a second effort cost them even more dead.
The Russians were said to be seizing one street after another in Tarnopol, killing a large number of Germans, while others threw down their arms.
At Skala, Junkers transport planes were reported making numerous trips in attempts to evacuate Nazis trapped in that sector west of Kamenets Podolsk, Mikhailov's dispatch said, and 11 of them have been shot down within the past 24 hours.
In a drive on Kishinev, capital of Bessarabia, northwest of Tiraspol, the Russians have captured Tutsienny, 24 miles to the north, and 30 other towns, after repulsing a series of fierce German counterattacks.
British military experts expressed the opinion today that Rumania's days as an effective fighting power were collapsing under the combined onslaught of Russian armies and Allied bombers.
Premier Ion Antonescu, it was believed, is unable to take his country formally out of the war since German troops hold all key points, but the people's will to fight apparently has been broken, with Rumania now in the same apathetic state as Italy.

terday's operations over Germany, a U. S. communique said last night, but formations of Liberators which hit the Pas-De-Calais coast came back without a single plane lost.
* The Berlin and Munich sweeps were another first for the long-range, hard-hitting P-51 Mustangs. They have gone deep into Germany on many occasions as bomber escorts, but never before on their own.

Killed At Crossing
Wilmington, April 6—(AP)—I. C. Webb, 50, who lives near here, was killed instantly yesterday when his truck stalled on a grade crossing and was struck by an Atlantic Coast Line passenger train. State Highway Patrolman W. B. Riddick reported.

Junk Man Sentenced
Raleigh, April 7—(AP)—Harry Weinstein, Raleigh junk dealer, convicted of larceny and receiving papers intended for scrap paper drives, was sentenced in Superior Court today to three to five years imprisonment. He appealed and bond was fixed at \$3,000.

"Full of Pep at 75!"
How's YOUR Pep at 40, 50, 60?
You know his name as well as you do your own. You've read in the newspapers that at 75 he feels like he did 25 years ago—at 50. Proves it's not natural for you to feel exhausted, out of pep, out of vigor. But you can feel old indeed if your blood lacks iron. Try our unique Iron Tablets. Contain plenty of the iron you may need for pep and vitality. Iron is the life-giving element that helps thousands who feel old, worn-out, listless because blood lacking iron they have never seen, iron and vitality, they feel years younger. Try Oxtens today. Introductory size costs only 35c!

Airmen Blast...
(Continued from page one)
ter operations yesterday, including the attack on Ploesti.
A communique said that rail yards and an oil refinery were blasted in the American air plunge against Ploesti, a blow that was in direct support of the advancing Soviet armies.
Simultaneously, other heavy bombers hit railway targets at Nis and Leskovac in eastern Yugoslavia.
During the day and preceding night more than 40 enemy aircraft were destroyed, the communique said. It did not give a breakdown of those shot down by the heavy bombers and their escorting fighters on the Ploesti run. Allied aircraft flew 1,000 sorties.
Eight fighters of the U. S. Eighth Airforce failed to return from yes-
