American Planes Blasted At Balkans

Italy-Based Bombers Hit Sofia And Belgrade Today In Wake of Yesterday's Raids Against Balkan Industrial Centers

Naples, April 17.—(AP)—U. S. heavy bombers hit Sofia and Belgrade today.

Railroad yards in both Balkan capitals were the targets of the "strong forces" of Fortresses and Liberators, a headquarters announcement said.

The attack on Belgrade was the first assault of the war by Allied bombers on the Yugoslav capital itself, although nearby airbases and an aircraft factory were attacked yesterday by Liberators and Fortresses.

RAF Wellingtons hit the Budapest rail yards and crewmen said new fires were started in the target area, bombed only four days ago by Flying Fortresses and Liberators.

Last Minute Filers Democratic Primary

Candidates among the late filers up to 6 p. m. Saturday for the Democratic primary to be held on Saturday, May 27, were as follows:

Solicitor County Court—Charles Whedbee. County Board of Education—W. H. Woodard, Greenville; R. L. Little, Grimesland, and John Thorne of Farmville.

Bagged 27 Planes

Capt. Richard I. Bong, (above) of Poplar, Miss., has shot down 27 enemy planes in combat to become the highest ranking American fighter ace of all times.

Brasov, an industrial city also known as Kronstadt, is 50 miles north of the Romanian oil center of Ploesti and only 100 miles from the Red army front in Romania—the nearest American bombers have yet come to the Russian lines.

Photographs taken during the attack showed between 75 and 100 bomb bursts on the northern sidings in the yards. Lines to the west were cut in several places, it was said, and the rail station, the warehouse area, the locomotive depot, and a refinery were hit.

Three Others Escape Injury In Plane Collision

In the first serious accident at the Marine Air Station here, Sergeant Robert F. Templemeyer, 22, U. S. Marine Corps, met instant death yesterday morning when two planes taking off in operational flight collided on the runway of the field.

The body was carried to the main base at Cherry Point yesterday to await instructions from the family. It will be accompanied by an honor guard when it is returned home.

TORNADO KILLS THIRTY EIGHT

Hundreds More Injured In South Carolina and Georgia

Atlanta, April 17.—(AP)—Rescue workers, digging into the wreckage left by a tornado that roared over a 100-mile strip in northeastern Georgia and western South Carolina early Sunday, fixed the death toll today at 38, with more than 300 persons injured.

Twenty-one deaths were reported in Georgia—12 in the Royston area and nine in the Naburg community of Hart County. 17 persons were killed in South Carolina.

The first area hit was in the vicinity of Gainesville, in Hall County, Ga., where in 1936 another tornado killed 183 persons and injured more than 200.

Principal damage at Greenwood, S. C., aside from houses leveled, was to the two-story brick hospital. This building was unroofed and so heavily damaged that all patients, except a few on the first floor, had to be evacuated.

The storm struck about midnight with a noise that some likened to the roar of huge motors. Within a few minutes the countryside was covered with timbers of frame farm homes.

The Sunday communique said medium bombers of the tactical air force continued the offensive against enemy communications and in support of ground positions in daylight on April 14 in the Yeu, Shwebo and Mawly areas.

Yeu and Shwebo are approximately 60 miles north of Mandalay where the Chindits—British and Indians formerly commanded by the late Maj. Gen. Orde C. Wingate—would be in position to cut the enemy's supply lines to the north, including those to the India invasion front.

State Guard To Drill Tonight

Captain Jasper Jones announced this afternoon that the regular weekly drill of the local state guard unit will be held tonight instead of tomorrow night.

The change was made, Captain Jones said, on account of the visit here tonight of Lt. Bailey of Fort Bragg, who will present an instructional movie on soldier training.

Seek Interpretation Of MacArthur's Statement

Washington, April 17.—(AP)—Republican party leaders heading for a pre-convention session in Chicago sought today to read between the lines of Gen. Douglas MacArthur's disavowal of presidential ambitions in an effort to determine whether he still could be regarded as a "draft" possibility.

Most of them were inclined to think he could be. They quoted from his statement—"I have not sought the office nor do I seek it—as a plain indication that he might not be averse to letting the office seek him.

MORE ATTACKS AGAINST JAPS

Airmen Smash At Jap Positions Over Wide Area

Washington, April 17.—(AP)—Army planes put 38 tons of bombs on three islands in Japan's Truk atoll in a dawn attack yesterday.

A Pacific fleet communique today said only one enemy plane was in the air at the time of the attack and this aircraft did not attempt to intercept the American planes dropping bombs on Du'fon, Fefan and Moan islands.

U. S. Pacific Fleet Headquarters, Pearl Harbor, April 17.—(AP)—The bombing of Japanese bases along the northern route to the enemy's homeland continued into its fifth successive day with a night attack by Liberators of the Alutian-based eleventh air force on Matsawa island in the Kurile chain.

Allied Headquarters, Southwest Pacific, April 17.—(AP)—Allied airmen who have poured more than 3,000 tons of bombs on Japanese bases along the strategic north coast of New Guinea in the past few weeks kept up the hammering today.

Washington, April 17.—(AP)—The Lockheed Constellation, 57-passenger transport plane, arrived over the Washington airport at 1:54 p. m. (EDT) today, only six hours and 38 minutes after leaving Burbank, Calif., on its maiden long-distance flight.

Sevastopol Fall Is Now Imminent

Russian Forces Storming Into Black Sea Port While Planes And Warships Destroy Nazis Seeking Escape By Sea

London, April 17.—(AP)—The fall of burning Sevastopol, last major Axis bastion in southern Russia, appeared imminent today as Russian troops were reported smashing through the suburbs two miles from the heart of the city.

Field dispatches painted a scene of flaming chaos in the big Black Sea port bombarded incessantly by Russian siege guns commanding the nearby hills and bounded by swarms of planes pouncing on Axis troops streaming for the last ships in a harbor strewn with wreckage and bodies.

Rushing on the besieged city from the southeast, a Soviet communique said, one Russian column early last night swept up Yalta, once summer residence of the Czars, and today it was reported eating up the 30 miles of coastal highway separating it from Sevastopol.

Other troops were converging on Sevastopol from the mountains inland, moving along trails chosen to avoid elaborate German minefields and booby traps sown along the roads in an attempt to gain time.

Recover Bodies Two Negroes In River

The bodies of Claude Jones and Robert (Bob) White, Negro laborers who were drowned when a raft capsized in the river last night, several miles west of Greenville, have been recovered.

Today On The Home Front

Washington, April 17.—(AP)—Remember when the words "inflationary gap" used to pop up so frequently in public discussions of war-inflated prices and incomes?

One of the principal arguments of the higher-tax proponents has been that bigger taxes were needed to "drain off" the money in this "inflationary gap." Otherwise, they said, the people would use this money to "bid up prices."

The WAR TODAY

AN ANALYSIS OF THE NEWS

By DEWITT MACKENZIE (Associated Press War Analyst) The bloody exhibition of warfare at close quarters, now being waged in the environs of the great Crimean naval base of Sevastopol as the Red forces fling themselves upon the cornered Hitlerites, naturally claims the main attention of a world which never ceases to thrill over brave deeds.

U. D. C. Meeting.
The George B. Singletary chapter of the U. D. C. had a most interesting meeting on Thursday with Mrs. Sam White as hostess. The home was lovely with spring flowers.

After the beautiful ritual was spoken, reports were made by the various officers and chairmen of committees. Most of the business was making plans for the district meeting to be held in Greenville on Tuesday, April 18.

Reports were made on the work done by the daughters in the interest of helping to win the war. The U. D. C. of America is raising \$2,400 to establish a blood plasma unit. Donations for this unit were then made.

The highlight of the afternoon was a wonderful talk by Mrs. Richard Stokes, Jr., on "North Carolina Hospitals, Doctors and Nurses During the Confederacy." Mrs. Stokes told how the hospitals were organized under the leadership of Dr. Charles E. Johnson of Raleigh. Dr. Johnson was Surgeon General of the North Carolina army. He established many hospitals in the state. Later he went with the army in the field. His was a wonderful service.

Dr. Bruce Hayward, also of Raleigh, did outstanding work during the Confederacy.

Mrs. Stokes said the N. C. Medical Corps were numerous, efficient, and did a marvelous work especially in finding substitutes for medicines after the blockade became effective. It was the doctors of North Carolina who started the daring blockade running during the War between the States.

Then she told of the doctors who served with the regiments, and their untiring work on the battlefields.

There were so many doctors and hospitals it was impossible to tell about each. However, Mrs. Stokes told of a few of special interest to people in Greenville. Among these was Dr. John G. Brodnax, a Virginian, who married in North Carolina and made the state his home. After serving in various hospitals as manager his special work was examining prisoners of war and arranging for exchange. He was head of hospitals for smallpox and other skin diseases. For this he was excellently fitted, having studied in Paris with Roux, Chamberlain and Pasteur as well as with other great doctors of France.

Dr. Wyatt Brown was very outstanding in his service in the Confederacy. His special work was serving on the Board of Pardons. He was also chairman of the State Examining Board of Surgeons, a very responsible position which

called not only for a good surgeon but a man with executive abilities.

Then Mrs. Stokes told of Dr. Charles O'Hagan—how he came from Ireland and "adopted" Pitt County. His record is one of the most brilliant in the Medical Corps. He was known and loved throughout the Confederacy for his skill and wonderful surgery. Dr. O'Hagan served on the battlefields and in the emergency hospitals. She read a most fitting tribute to Dr. O'Hagan made by no other than our noted General Matt Ransom, afterwards U. S. Senator.

Not much could be found about the nurses, however, work of the women during the Confederacy was told.

Mrs. Stokes concluded by saying that after the war was over each of these wonderful doctors became loyal citizens of the United States and continued to serve.

Of much interest to local people were the three doctors known personally by so many people in our midst. Dr. Wyatt Brown has many kinsmen and descendants in Pitt county and Greenville. Dr. O'Hagan is known, and his memory honored and loved. He is the grandfather of Mrs. Stokes. Dr. Brodnax is the grandfather of Mrs. Eugene Roberson.

After this much appreciated talk, delicious refreshments of cookies, sandwiches and tea were served by Mrs. James Beebe Hawes and Mrs. Carey Mayo, Jr.

The meeting was then adjourned until the second Thursday in May.

Fireside Club Meets.
The Fireside Club of the Eighth Street Christian Church met Tuesday evening, April 11, at the home of Mr. and Mrs. W. L. Allen, with Mr. and Mrs. Arthur Tripp, Mr. and Mrs. J. M. Basart and Mr. and Mrs. A. W. Harris assisting hosts.

Chairman Guy Evans called the meeting to order and very graciously welcomed all new members and visitors. The chairman then appointed Mr. and Mrs. Roy Martin, Mr. and Mrs. Paul Ricks and Mr. and Mrs. Guy Evans to work with Dr. and Mrs. Haney on the Mother's Day program which is sponsored each year by the Fireside Club.

At this time there was a letter read from Mrs. Dink James concerning the Cancer Control drive which is now on.

Mrs. Ruth Harris gave our devotional which was very beautiful and inspiring.

The meeting was then turned over to Mrs. Beth Ricks, who in turn asked Dr. Haney to introduce the speaker for the evening, Mr. T. T. Swearingen of Wilson, which he did in a few well chosen words.

Mr. Swearingen gave his impression on the main trend of the conference which was held at Drake University in Iowa in February. He discussed informally the book "The Church and the World Mind" touching lightly on each chapter as follows: Faith and World Order; Culture and Peace; Statesmanship and Christianity. The three chapters by William E. Hecking, The Church, the Press and World Opinion by Willmott Lewis, Toward Peace in the Orient by Mr. Searle Bates, a Christian View on International Relations by G. Baze Camargo, Peace Begins at Home by Cleon W. Blackburn, Racial Issue and the Christian Church by George Harkness, How Can the Church in America Work for Peace by Walter Van Kirk, the Church and the New World Mind, by Rufus M. Jones. This was very interesting and was enjoyed by everyone.

The club then enjoyed a social hour with a contest and delightful refreshments.—Reported.

She stated clothes always have been and will be an interesting topic for discussion, and while our wartime styles do not now come from Paris, but from the War Production Board and are simplified and cut as to essential details, there is still a chance for a smart, serviceable wardrobe with individuality.

Miss Chapman outlined four points for victory as follows: First, wardrobe planning; second, design; third, making over; and fourth, care, cleaning and mending. Rationing may be avoided by intelligent buying. Read labels carefully, do not

Warn Motorists Of Speed Dangers

Warning hundreds of thousands of car owners that they are entering a period that may prove even more dangerous to their cars than winter, Esso Marketers today asked motorists to watch speeds carefully and take their cars for a periodic check-up of vital parts.

"Warm weather usually means increased speeds," said company officials, "and increased speeds heighten the danger for the many over-age cars now on the road." They pointed out that America's war effort can be seriously hampered if there is any great breakdown of war workers' cars.

Spring, they asserted, will throw an additional burden on war-worn cars. Greater speeds that result from dry roads and longer hours of daylight will place greater strain on thin tires, on winter-worn oil and inadequately lubricated transmissions, differentials and chassis.

The appeal was made as part of a drive Esso Marketers are making to keep cars running. The drive has been considered so vital to the operation of the nation's transportation system, said company executives, that it has backed the drive with even more intensive promotion than usual throughout its territory of the eighteen states and the District of Columbia.

He's still under your Doctor's care!

Your boy! He's away right now in the service of his country. You're proud of him—but you worry, too. In the still, thin hours of the night you lie awake and wonder where and how he is. But think back.

Remember not so long ago when he was ill, and you were sick with fear? Then the Doctor came, and his calm, sure skill and kindly comfort reassured you and gave you strength. You knew your boy was in good hands—under *your* Doctor's care!

And that's the way it is now. Your Doctor, or one like him, has left civilian life to serve in the armed forces. He's there to watch over your boy, to keep him well, to see that he returns to you, safe and sound.

Thousands of Doctors from city and village are in uniform, working night and day, as usual, to maintain the health of our fighting forces.

So be comforted. Know that your son—your husband—your brother—is safe. He's still under *your* Doctor's Care!

BIG LEAGUES OPEN TUESDAY

Uncertainty Prevails As Baseball Begins Its Third Wartime Season

By TED MEIER
New York, April 17 (AP)—Major league baseball managers agreed today that draft uncertainties ruled over actual playing ability, with more than 100 players expected to be called up tomorrow with games at Washington, Boston, Detroit, Chicago, St. Louis, Cincinnati, New York and Philadelphia.

The 17 leaders of the eight American and National League clubs, pooled by the Associated Press, also held a universal view that the season shapes up as one of the most unusual and interesting in the game's history.

In the words of Jimmy Wilson, manager of the 1943 fifth place Chicago club: "Why go out on the limb and try to predict anything for this season? That's an impossibility. All the clubs will be hit about the same during the campaign by Uncle Sam's call. The team with the most 4-5's may be on top at the finish, but they may even take 4-5's, so there you are again."

Here are comments from other managers:
Joe McCarthy, New York, world champion—My kids have the spirit and heart of champions and they'll start digging in Tuesday and go all the way.

Ossie Bluege, Washington, 2nd last year—I have every confidence in our pitching staff and believe our hitting will pick up enough to give the other clubs plenty of trouble.

Lou Boudreau, Cleveland, 3rd last year—We'll be lucky to finish in the first division. Probably entirely up to Uncle Sam.
Jimmy Dykes, Chicago, 4th last year—three or four clubs may be a little weaker than the rest, but generally the league shows pretty good all-around balance. I look for a very interesting race, with the White Sox finishing respectably.

Steve O'Neill, Detroit, 5th last year—We are in pretty good condition, including the pitchers. We are ready for the opener and we may have a few surprises for those who think we are a second division club.

Luke Sewell, St. Louis, 6th last year—I can't tell you what the Browns will do this year, but I know damn well we won't be last. A lot depends on our pitching.
Joe Cronin, Boston, 7th last year—Personal situation makes it look like a close race all the way. Only a crazy man would pick the winner.

exposed use 1 tablespoonful of arsenate of lead and 1/2 cupful of hydrated lime to 1 gallon of water.
Second Spray—Two weeks after the first spray or shuck spray, use wettable sulphur, 3 tablespoonfuls to 1 gallon of water without arsenate of lead and hydrated lime.

Grapes and brambles—Use commercial prepared powdered Bordeaux mixture according to the recommendations of the manufacturer. Apply this material before these plants bloom and immediately after the fruit has set. The canes of the brambles, both old and new canes, should be thoroughly covered with the spray material.

Apples and Pears—Control of Twig Blight Disease—Spray with commercially prepared Bordeaux mixture at the rate of one-fourth the strength used for grapes. This strength of Bordeaux would be equivalent to a weak home made mixture at the rate of 2 1/2 tablespoonfuls of copper sulphate, one cupful of hydrated lime mixed with every five gallons of water. Apply immediately after 25 to 50 per cent of the blossoms are open. Repeat when balance of blossoms are open.

Stokes H. D. Club Meets
The Stokes Home Demonstration Club met Monday, April 10, at the home of Mrs. N. C. Barnhill. Mrs. G. M. Britt, garden leader, gave "Garden Hints for April."

The demonstration was given by Miss Joyner on "Finishes That Are Durable and Attractive." Mrs. Gurganus, the clothing leader, brought a dress sleeve and armhole cut for each member to put together the correct way.

Miss Joyner stressed the importance of a well fitting sleeve. She also taught us the correct way to sew on buttons and snaps, and also the sewing on of collars, making plaquets, etc.

Mrs. Gurganus fashioned her new wool coat suit she had made, also two attractive home dresses.
We were very glad to have our visitors join our club, namely: Mrs. Abe Gray, Mrs. William Parker and Mrs. Richard Barnhill.

After the meeting adjourned, Mrs. Barnhill's daughters served an attractive salad plate with an iced drink.
Jacquelin Barnhill led us in a few games before we said good-bye.

Reported by Mrs. J. B. Congleton, Ballards H. D. Club Meets
The Ballards Home Demonstration Club met at the home of Mrs. Mammie Ruth Holloway on Tuesday April 11.

The meeting was called to order by the president, Mrs. A. C. Turnage.

During the social hour ritz, cakes and grape juice were served by the hostesses.
Bethel Club Meets
Mrs. J. L. Gurganus and Mrs. D. T. House, Jr., were hostesses to the Bethel Home Demonstration Club on Wednesday afternoon at the home of Mrs. Gurganus. Attractive arrangements of lilacs, iris and jonquils were throughout the house.

After a talk on Cancer Control by the health leader the club members contributed generously to the Cancer Control fund.
Mrs. Lucy M. Whitehurst, clothing leader, assisted the home agent in giving the demonstration for the month.

An enjoyable social hour followed. The hostesses assisted by Mrs. Lenwood Gurganus served ice cream and cake.
After the meeting adjourned the club members went to the Rest Crows club to roll bandages for the remainder of the afternoon—Reported.

Farmville Club Meets
Mrs. S. Hobgood and Miss Perry Norman were hostesses for the April meeting of the Farmville Club at the club house on Thursday afternoon.
Mrs. J. H. Eynam, president presided. "Lead On, O King Eternal" was used as the opening song followed by the club collect. Nineteen members answered to the roll call.

During the business session the Finance Committee turned over to the treasurer, Mrs. Ben Lewis, \$12.50 which they had recently made. The club voted to serve the visiting service men in Farmville supper on the fifth Saturday and Sunday nights in April. Mrs. Lewis was appointed chairman of the committee.

Mrs. W. J. Baker, garden leader, gave some helpful hints on Garden-izing in April.
Mrs. W. R. Hinson, clothing leader, assisted Miss Joyner with the demonstration for the month.

During the social hour which followed the hostesses served lemonade, cookies and salted nuts.
After the adjournment of the meeting, Mrs. J. R. Lewis, home beautification leader, requested that the members remain and assist in planting shrubbery in front of the club house. Mrs. Lewis hopes to complete the landscaping of the grounds of the club building this year.

Farmers Optimistic Over Crop Prospects

Farmers in Greenville today, especially the old-timers, played the role of weather prophet and predicted that we are now in for a "spell of warm dry weather" and are going to catch up in farm field work. Tobacco plant beds, now in a race with weeds for quick growth, are getting plenty of attention and there has been little sign of blue mold. A few warm days and seed will begin to go into the ground with a rush, they say. Little is heard about Irish potatoes. This section is not expected to produce more than 40 per cent of last year's crop. Gardens are thriving, but they are later than last year.

SUPPOSING EVERY CAR IN AMERICA HAD ONLY 3 TIRES

Supposing we woke up tomorrow morning and found that every automobile in every garage in America had one flat tire ruined beyond repair... And not one spare tire from Maine to California to replace them! Of course, that isn't going to happen tomorrow, or on any one day... but little by little it could happen... unless we take care now. It's up to every one of us to guard the mileage in our tires as we have never done before... That is our duty and our trust to those who work for us and to those who fight for us.

In a message today to Brigadier General Frank T. Hines, director of retraining and reemployment, Ford said all that servicemen need do, when Ford production lines start turning out automobiles again, is "to come in and go to work."

The Natural Side Dresser
Over 500,000 tons of Chilean Soda have been brought in for this year's crops. More is expected in time for side dressing, but there are distribution complications. The War Production Board and the War Food Administration control distribution of all nitrogen supplies under an allocation program. Principally, this program takes into account three things: (1) total supply of nitrogen products; (2) their respective locations and capacities (3) crop requirements. So, if Chilean Soda happens to be scarce in your section, it is a war-time dislocation, a temporary scarcity.

If you haven't been able to get the Chilean Soda you need for top dressing and side dressing, don't blame your fertilizer man. Put the blame where it belongs... on Hitler and Hirohito.

A vast supply of natural soda is right where nature put it—in Chile. Large quantities are ready for shipment. Every possible ton of this vital material is being brought here in time for this year's crops.
