

Mildly cloudy and moderately warm tonight and Wednesday with scattered showers and thunderstorms.

Germans Burning Warsaw As Reds Drive On City

Suburbs Of Capital Under Deluge Of Shells And Bombs; Other Russian Units Nearing Pre-War East Prussia; New Red Offensive Reported On Finnish Front

(By The Associated Press) London, Aug. 1.—Warsaw was reported in flames tonight as Russian masses pressed upon its northeast suburbs behind a deluge of shells and bombs.

Further north, other Red army forces forced the Nazi defenders of East Prussia back along a 143-mile front to within 11.8 miles of the pre-war frontier of that cradle of German militarism.

Blows of black smoke were reported tolling from the ancient Polish capital, indicating the Germans were putting it to the torch in preparation for evacuation.

Meanwhile Stockholm said the German-controlled Scandinavian Telegraph Bureau had reported from Berlin that 19 Russian divisions supported by "enormous tank forces" smashed at German positions along a 30-mile Estonian front from Lake Peipus to the Gulf of Finland.

Stockholm also reported that a Finnish dispatch through Helsinki censorship said the Red army was carrying out a "great expansion" of its Finnish front in northern Karelia.

The German communiqué said today that Russian troops had "forced one breach" across the Vistula river in the great bend some 20 miles southeast of Warsaw and that Nazi troops had been forced back on the northern slopes of the Carpathians toward Beskidzka Pass.

The Beskidzka pass leads across the Carpathians into the Carpatho-Ukraine province of Czechoslovakia which Hungary annexed in the partition of that country.

The Beskidzka pass is 90 miles south of captured Przemyśl. At (Continued on page two)

Report Germans Leaving Turkey

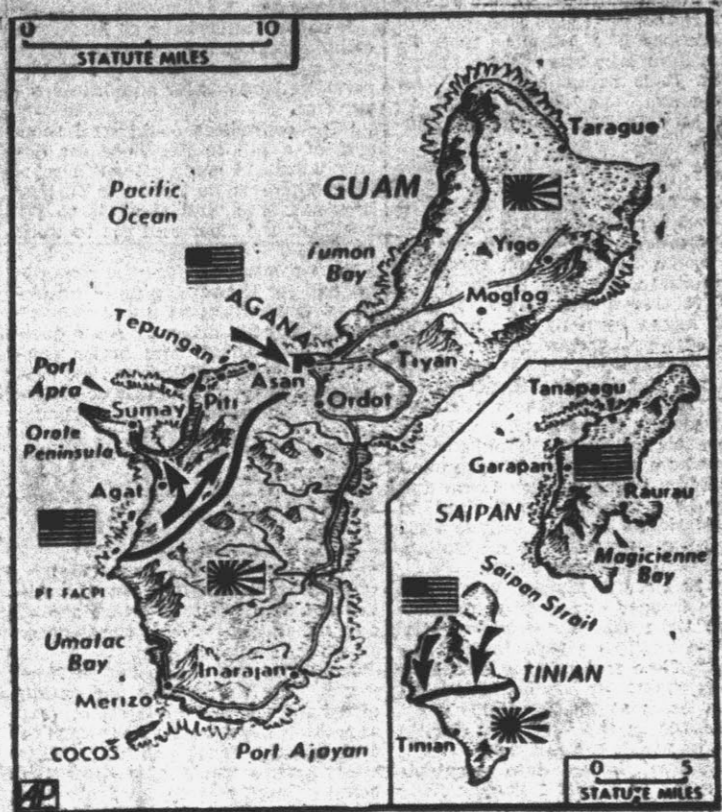

Ankara, Aug. 1.—(AP)—The overnight express train from Istanbul arrived here this morning packed with Germans and their families.

A special plane was loaded at Istanbul yesterday with another group of Germans hastening inland to Ankara, the capital, before the meeting of the national assembly Wednesday when it is commonly expected that the Nazis will announce a break in relations with Germany.

Istanbul newspapers announced that blackouts would begin along Turkey's Black Sea and Mediterranean coasts Thursday.

What happened yesterday was that the Americans in their great thrust through Granville and Avranches ripped out the coastal anchor on the southwest flank of the German line which ran approximately across the base of the whole peninsula. This left the enemy

Yanks Advance on Guam and Tinian

Arrows locate American drives on Guam and Tinian (inset map) in the Mariana Islands. On Guam organized resistance has ceased on the Oroquieta peninsula and the Yanks have captured the main naval base, an airfield, and the old Marine barracks. On Tinian the Americans were compressing the Japanese in the southern half of the island. (AP Wirephoto).

New American Landings Extend Pacific Gains

TIN CAN DRIVE HERE FRIDAY

Housewives Asked to Have Cans Ready For Collection

A tin can collection will be made in Greenville on Friday of this week, according to Miss Louise Homestead, county salvage chairman.

Weather Forecast From 7:30 p. m. August 1 to 7:30 a. m. August 5.

Shower today, tonight and probably Wednesday and again Friday and Saturday. Little temperature trend, except warmer Wednesday or Thursday.

The WAR TODAY AN ANALYSIS OF THE NEWS

By DEWITT MACKENZIE Associated Press War Analyst

The magnificent Allied drive on the Cotentin peninsula has given us a fair answer to the old question of "What's in a name?" By turning the "battle of Normandy" into the "battle of France."

There's plenty in that new name. It's the difference between the confined area of the peninsula, which has badly restricted the Anglo-American operations, the freedom of the open hinterland leading to Paris—and Berlin. It's the difference between slow, grueling progress toward war's end and a quick rush to match the crushing speed of the Red armies in the east.

In short, the significance of this victory is that the western allies through superb effort finally have won sufficient space in which to deploy the vast forces at their disposal. That's of the utmost importance. We've been too crowded heretofore to put all our strength into a blow.

Pres. Quezon Dead

Saranac Lake, N. Y., Aug. 1.—(AP)—Mangrove Quezon, 67, died today, President of the Philippine government, which he had headed since 1935. His death was a summer home here from his heronets.

The magnetic Quezon, who had served from his native Luzon in a cabinet post from February 29, 1934, after the Philippines fell to the Japanese, died at 10:30 a. m.

Long an advocate of Philippine independence, Quezon had his own views on the American war effort. He had opposed the United States.

After his arrival in the United States he used his visiting privilege to bring about a change in the attitude of the Japanese.

Speaking to the U. S. senate he said he hoped America would adopt a new war slogan—"members of the Philippine government will be considered in Washington, there were no immediate definite plans for burial.

Seamster died of his injuries at a Washington hospital at 10:30 today. Jones is in serious condition at a Washington hospital.

Coward's and Seamster's bodies were taken to Wilkerson's funeral home, New Bern, highway patrolmen investigated the wreck.

Both cars were badly wrecked. Coward's body was badly crushed when he was thrown against the electric wires and windblown. Coward's body was found at night to view Coward's body. A jury viewed Seamster's body this afternoon. An inquest will be held as soon as Jones' injuries will permit him to testify, the coroner said.

Funeral services for Mr. Coward will be conducted from the home of his father, Luther M. Coward, near Chapman's Crossroads, at 3 o'clock Wednesday afternoon by the Rev. W. B. Nobles, Free Will Baptist minister of Winterville. Burial will be in the family burial ground near the home.

Mr. Coward is survived by his wife and three children. (Continued on page two)

Calls For Draft Of Men Over 25

Washington, Aug. 1.—(AP)—State draft directors have been ordered to resume drafting men over 25 who are making no contribution to the war effort.

The order, selective service officials said today, took the form of a letter from Draft Director Lewis B. Hershey directing them to conform to the national policy.

This policy permits deferment of men 25 through 29 only if they are "necessary men" in essential industry and men 30 and over only if they are making a substantial contribution to the war.

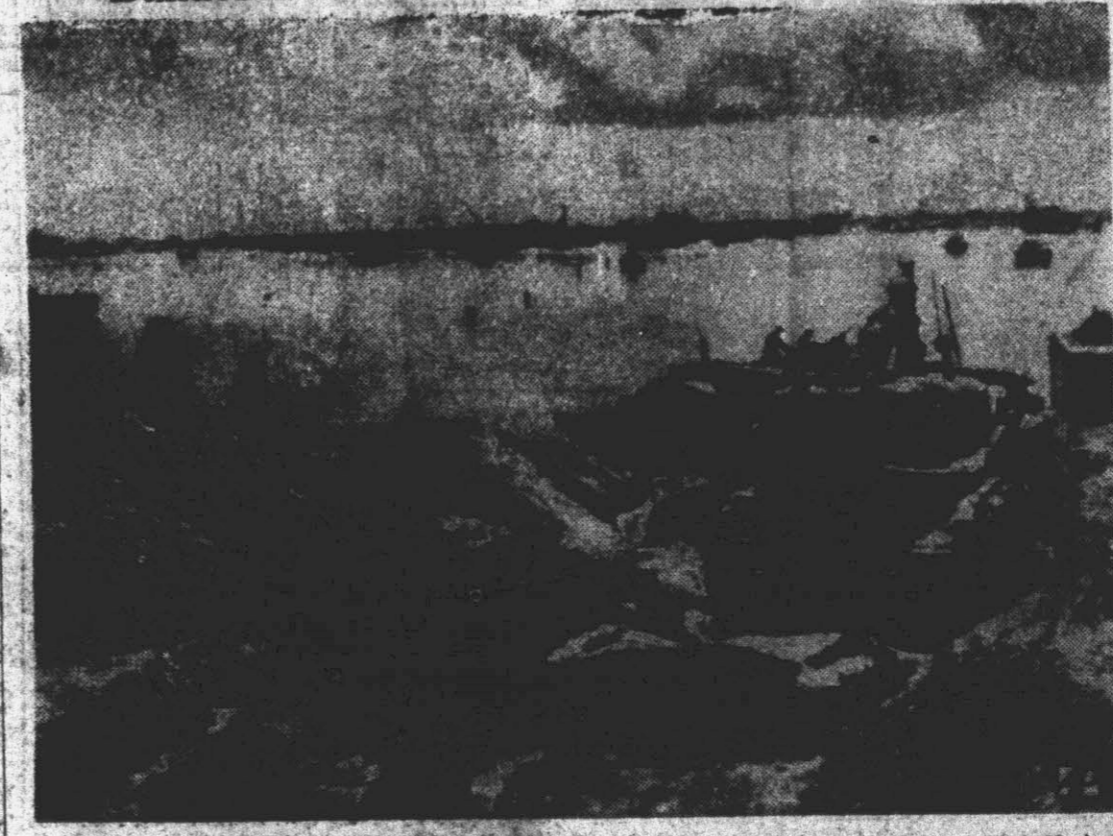

Accordingly, no general call will be sent out for congressmen to return to their posts unless a special need arises, he told a reporter.

Instead, committees considering post-war reconversion legislation will be urged to work at full speed so bills can be submitted to the membership as soon as possible, the Georgian said.

Ramspeck, who made the announcement after an hour-long conference with Speaker Rayburn (D-Tex.) said "the country will suffer no loss by this action."

American Forces Smashing Deeper Into France Today

Bulldozer Plows Out Road For Yanks On Guam

A bulldozer plows out a road on the beach of Guam to facilitate landing operations as U. S. Marines invaded the Jap-held American island in a drive to recapture it. Part of the landing flotilla is in the background. (AP Wirephoto from Marine Corps).

Eighth Army Making Slow Progress Toward Florence

ROME, Aug. 1.—(AP)—Eighth army troops are making slow, methodical progress in their advance on Florence against five German divisions fighting a desperate last stand battle before the Tuscan capital. Allied headquarters announced today.

"South of the city the Germans lunged out with fierce counterattacks along a wide semi-circular front which now forms their defense line.

"It is clear, the enemy is determined to make a real stand as long as he is able, but the Eighth army's advance is relentlessly forcing him from successive strongpoints," headquarters said.

The Germans are using three of the best divisions at their disposal in Italy for guarding the approach to Florence. These units are the fourth Parachute division, the 29th Panzer Grenadiers and the Third Panzer Grenadiers. They have the support of Tiger tanks and are using a new type of booby trap—grenades set off by wires stretched across roads at a height to catch the wheels of radio-equipped vehicles.

The Allies have recognized for some time that Nazi jet and rocket-propelled planes, if allowed to appear in big numbers, could challenge Allied air superiority, and it (Continued on page two)

Call For Quick Action On Postwar Legislation

By ERNEST B. VACCARO Washington, Aug. 1.—(AP)—A slimly-attended Congress reconvened at noon today amid new Republican demands for prompt completion of a legislative program to chart the way to post-war economic stability.

Sixteen Republican senators, meeting in informal conferences, pleaded unanimous support of Senator Vandenberg of Michigan in his efforts to force demobilization and reconversion measures out of the Senate Military Committee.

Senate Majority Leader Barkley and Chairman Reynolds (D-NC) have summoned the committee members to meet here Thursday to act "without delay" on the measure.

A move developed to take part of the reconversion program out of the hands of the Military Committee and put it in charge of the Finance Committee, of which Senator George (D-Ga.) is chairman.

Breaking Out Of Normandy, Yanks Carry Invasion Into Brittany Peninsula; American And British Spearheads Joined Near Vire; More Prisoners Taken

By GLADWIN HILL Supreme Headquarters Allied Expeditionary Force, Aug. 1.—(AP)—American doughboys and tanks ramming into Brittany seized two key dams 10 miles southeast of Avranches today while a swift British-American force advanced to within five miles of Vire, important communications center.

Capture of the dams carried the Yanks across the Selune river, east of Avranches, on the See river, east of the Avranches. The total of German prisoners for the eight-day campaign rose to 18,587.

Tonight the Americans were driving back the Germans without pause in the coastal corridor of the western offensive.

Canadians burst forth with new fighting on the Paris-pointed east flank of the advance line.

The biggest offensive of the invasion lurched into its second week with augmented power. The Germans' trans-Normandy line was smashed in a dozen places. Disorganized Nazis yielded themselves as prisoners in droves.

Fighter-escorts, American columns pushed south of Avranches across the Selune river, the Normandy-British boundary line, four and a half miles to Pontaubert and beyond and ran through Ducey, on the river six miles below Avranches.

The juggernaut headed for Vire was only five miles away from that key communications center. On the way the column captured Le Beny Bocage, a German hill stronghold eight miles north of Vire.

Behind the drive from Avranches in the corridor between the Vire and the sea another American main resistance at Villiers and other forces drove the enemy back in the streets of Percy, to which the Germans had been clinging desperately for two days.

The British enlarged their bridgehead over the Souleuvre river to a width of half a mile and all the Breque forest and the village of La Ferriere were in Allied hands. In the British sector east of Caumont further gains were made in the area of St. Germain's Dectot.

In the central sector east of the Vire river the British joined up with the American drive southeast of capture of Torigny and swept over rough, wooded ridges across the Souleuvre river only five miles from the key communications town of Vire.

Just south of Caen Canadian troops after a deadlock of nearly a week captured Tilly-la-Champagne but later front dispatches said (Continued on page two)

Lieut. Harold Dale Missing In Action

Lieut. Harold B. Dale, an aviator on the Greenville radio station several years and known to many here, has been reported missing in action since July 15 after a rail over Bulgaria, according to a message from the War Department to his father, L. C. Dale of Gastonia. He was a member of the 13th U. S. Air Force and was stationed in Italy. He had been in service nearly two years.

Dale was widely known through his broadcasting of baseball games at Guy Smith stadium for WGTO. He was talented, had a fine sense of humor and liked people.

(Continued on page two)

NAZIS USING ROCKET PLANE

New Fighter Described As Capable Of Terrific Speed

By JUDSON O'QUINN London, Aug. 1.—(AP)—The Germans have now taken the wraps off another new weapon—a rocket-propelled fighter—and all Allied flyers who have encountered the planes agreed today they are capable of terrific speed.

Little is known so far of the effectiveness of the craft. Only seven have been met and they did not stand to fight, but the speed of which they ran away underscores the importance they might assume if the Germans manage to produce them on a mass scale.

Berlin has been hinting at rocket-propelled planes for months. The U. S. air force announced last night that Allied heavy bombers and their convoy of fighters ran into a group of the new planes over Germany last Friday.

The Allies have recognized for some time that Nazi jet and rocket-propelled planes, if allowed to appear in big numbers, could challenge Allied air superiority, and it (Continued on page two)

Germans Fighting Bitterly To Hold Strongpoints Guarding Italian Art City

By EDWARD KENNEDY Rome, Aug. 1.—(AP)—Eighth army troops are making slow, methodical progress in their advance on Florence against five German divisions fighting a desperate last stand battle before the Tuscan capital. Allied headquarters announced today.

"South of the city the Germans lunged out with fierce counterattacks along a wide semi-circular front which now forms their defense line.

"It is clear, the enemy is determined to make a real stand as long as he is able, but the Eighth army's advance is relentlessly forcing him from successive strongpoints," headquarters said.

The Germans are using three of the best divisions at their disposal in Italy for guarding the approach to Florence. These units are the fourth Parachute division, the 29th Panzer Grenadiers and the Third Panzer Grenadiers. They have the support of Tiger tanks and are using a new type of booby trap—grenades set off by wires stretched across roads at a height to catch the wheels of radio-equipped vehicles.

STILWELL TO BE PROMOTED

Nomination Foreshadows Greater Action In Asia

Washington, Aug. 1.—(AP)—President Roosevelt today nominated Lt. Gen. Joseph Warren Stilwell, American commander of Chinese forces in Burma, to be a full general in the army of the United States.

The proposed promotion, raising Stilwell to a rank held by Gen. George C. Marshall, Gen. Douglas MacArthur and Gen. Dwight D. Eisenhower, suggested the probability of new and more important work for Stilwell in the Burma-China area.

In the American military organization, he holds the assignment of commanding general of U. S. army forces in the Burma-China theater. He also holds a top-flight position under Generalissimo Chiang Kai Shek of China and has certain staff duties under the Allied commander in chief in southeast Asia, Lt. Gen. Joseph Stilwell.

Authorities here would not be surprised if Stilwell's promotion as (Continued on page two)

Finland President Resigns

London, Aug. 1.—(AP)—President Risto Ryti of Finland was reported in a Reuters dispatch from Stockholm today to have resigned.

The dispatch, quoting reliable reports from Helsinki, said the new president was Premier Edvin Linnankoski.

(Continued on page two)

Today On The Home Front

By JAMES MARLOW

(Editor's Note: This is the second of three stories on the home front demobilization problem—what Congress has done, what the President has done, and what remains to be done.)

Washington, Aug. 1.—(AP)—Congress is in a sweat now to prepare this country for a pain-free switch-over to a prosperous life when Germany folds up.

The idea is this: If the switch-over is smooth, with little unemployment and industry getting into civilian production quickly, this country may soar upward into a real boom.

If the national machine groans and staggers, with unemployment spreading while the change to civilian production goes slowly because of poor planning, the post-war years may not be happy.

Government and Congress already have made some efforts to smooth the way. Others lie ahead. Here is a general outline of past performance and future intentions.

Last February, at the request of the White House, Bernard M. Baruch and John Hancock outlined a plan for war and post-war policies. It dealt mainly with the financial

problems of getting back on a sound peacetime basis, although recognizing there was a human side to demobilization.

Following are some of the Baruch and Hancock suggestions and what happened to them:

1. Immediate start on disposing of surplus government materials which range from huge war plants to adhesive tape.

(The President appointed Will Clayton as surplus property administrator. Surpluses of all kinds are now being disposed of at the rate of 25 million dollars weekly.)

(But Democratic and Republican Senate leaders say Clayton was appointed under the President's wartime powers, that therefore his authority might be questioned after the war. Both sides now are talking of giving him authority by law through congressional action.)

Forty Years Ago Today

THE DAILY REFLECTOR August 1, 1904

Tobacco Market Opens
The Greenville tobacco market began the new season today under most favorable conditions.

An encouraging feature of the sale was the good prices that prevailed, being fully fifty per cent higher than the opening a year ago. Most of the offerings today were first primings, yet the prices ranged from 3 to 17 cents which was very gratifying to the sellers. Smokers of first primings, green or dark, 3 to 4 1-2 cents; bright and clear smokers, 5 to 9 cents; bright and clean cutters, 10 to 16 cents.

Cox-Gilbert.

Mr. and Mrs. Cleveland D. Gilbert announce the marriage of their daughter, Mamie Ruth, to Johnny M. Cox, Jr. The wedding ceremony was performed at five o'clock Saturday afternoon, July 29, at the Presbyterian Church in New Bern, with Dr. Leon Russell, pastor of the church, officiating.

Mrs. Cox graduated from Greenville High School and has been employed for the past two years at the Pitt County War Price and Rationing Board.

Mr. Cox is the son of Mr. and Mrs. J. M. Cox, Sr., of Cox's Mill. The couple will reside at the home of the groom's parents.

Methodist Stewards To Meet.
The Board of Stewards of Jarvis Memorial Methodist Church will meet tonight at 8 o'clock.

Killed in Action.
Sgt. Desmond J. Dougan, 30, of the Marine Corps, husband of the former Miss Ruby Grant, daughter of Rev. and Mrs. T. M. Grant, has been killed in action in the South Pacific theater of operations. Mrs. Dougan is now working in Richmond, Va.

Birth Announcement.
Mr. and Mrs. Robbie D. Dail of Ayden, announce the birth of a son, Robbie Nile, on July 27, 1944, Memorial General Hospital, Kinston. Mrs. Dail is the former Miss Lucy Jane Mills of Greenville.

Miss Everett in Oregon.
Miss Elizabeth W. Everett, East Carolina Teachers College graduate, who completed her work in December, 1941, has recently reflected much credit on herself and the institution by becoming supervising teacher in the Child Service Center at Swa Island, Portland, Oregon. In this position she has two assistant teachers, who are both graduates of Cornell. This Child Service Center is a development of the Kaiser Co., at the Swan Island Yard.

The center was opened November 18, 1943. It accepts children between 18 months and 6 years. The mothers work in the shipyard. Fees are moderate. A specially built, highly modern nursery school building is used. Children of the same ages are in the same units.

Miss Everett on leaving ECTC taught for a year and a half at Murfreesboro, N. C. She then went to the University of Tennessee and took a masters' degree in child development and nursery school work in June, 1944, whence she went to her present position.

NEWS OF SERVICE MEN And WOMEN

Escaped From Germans.
Pfc. Joseph V. Kittrell, son of Mrs. Olen Kittrell of Winterville, with the armed forces in Italy since last January and who was captured by the Germans in battle, escaped from the enemy five days later, according to information received by his family.

Transferred.
Mrs. L. M. Bullock of this city, has received word from her son, Lt. James E. Bullock, that he has been transferred from England to an air base somewhere in Italy. His address is Lt. James E. Bullock, O-814020, 94th T. C. Sq., 439th Gp., A.P. O. 133, care Postmaster, New York.

Receives Medical Discharge.
Charles McGowan, son of Mr. and Mrs. C. H. McGowan, who has been in a hospital at Camp Kilmer, N. J., for the past two weeks, has been given a medical discharge from the army and has returned to his home in Greenville.

Dr. Pace Speaks At Rotary Club

By WYATT BROWN
Compulsory health insurance under federal direction was discussed last night by Dr. Karl Pace at the weekly supper meeting of the Rotary club. Dr. Pace reviewed the advantages and the limitations of the compulsory system.

The speaker discussed any compulsory system and looked ahead upon a system run by one man in Washington, D. C. Provisions of the proposed legislation does not provide for charity cases he emphasized. The progress of voluntary hospital insurance which in North Carolina now covers \$25,000 is a healthy promising movement Dr. Pace suggested.

Plans for the celebration of the Silver Anniversary of the Greenville Rotary club on December 10, 1944, were got under way last night. John Fleming, chairman of the club service committee, is general chairman and a steering committee of Herbert Waldrop, Carl Adams, and J. B. Kittrell was appointed last night by Joe Moye, the club president. Guests at the club last night were Lt.-Commander Alvin VanNortwick and Douglas Creech, Joe Moye, club president, announced the joint meeting of Greenville club clubs would take place August 10 at the county-city armory. The Rotary club will not hold its meeting on Monday, August 7.

Car Turns Over In Collision On Road

A car driven by Robert Lee Williams, Negro, with Joe Mills, Negro as a passenger, collided with the front of a car driven by Roy Beacham, Greenville, Route 2, entering the highway below Cox's Mill, and after traveling 40 yards turned over, slightly injuring the occupants and badly damaging the car, state highway patrolmen stated. Beacham's car was considerably damaged.

The officers arrested Williams and charged him with driving without a driver's license and careless and reckless driving. They arrested Joe Mills, owner of the car, on a charge of allowing an unlicensed person to drive his car. When the collision occurred, patrolmen stated, Williams was "fearing the car and Mills was holding down the throttle to "see how fast the car would go."

OPENING LEAF PRICES LOWER

Georgia Prices Yesterday \$1 to \$4 Below Last Year

Valdosta, Ga., Aug. 1—(AP)—Georgia and Florida tobacco growers turned to second day auction sales today after watching opening day prices range from \$1 to \$4 per hundred under first day sales in 1943.

The War Food Administration here said the reduction in ceiling prices from 41 cents a pound last year to 39 cents this year accounted largely for the lower average prices yesterday.

Bulk offerings, the WFA said, ranged from 37 to 42 cents a pound, although average prices were lower than opening day last year, there were few rejections on auction floors; the agency added.

A check of individual markets showed opening day averages of 30 to 41 cents a pound, but most of the offerings were better grades of leaf, tending to hold average prices up.

Another contributing factor to the lower average price, WFA said, was that grades offered yesterday were not equal to those of 1943's first sales. Most markets reported block sales with nearly all floors filled to capacity.

A small amount of damaged tobacco appeared on some floors, but

WFA reported the amount was below pre-sales expectations. Gov. Olin Johnston announced at Columbia, S. C., that his market holiday proclamation would be terminated so markets there could open on August 7.

Say Anti-Hitler Faction Crushed

Washington, August 1—(AP)—First reports reaching official Washington from inside Germany disclosed today that the Nazis appear to have crushed definitely the faction involved in the bomb plot against Hitler.

The reports, which are official as distinguished from the German radio and neutral capital gossip, indicate that for the moment at least, Hitler has firm control.

The best description of the popular German reaction to the bombing attempt was apathy, the information says. So far as is known here, there was no rioting in Germany following announcement of the attack on Hitler, nor were there any demonstrations of rejoicing at his escape.

It is confirmed that the Nazis took speedy and far-reaching control measures immediately after the bomb attempt, especially in Berlin. Further, there appears every reason to believe that the attempt on Hitler's life was in earnest, and not a put-up job as some observers originally speculated.

Brownell Claims Dewey Will Win
New York, Aug. 1—(AP)—Herbert Brownell, Jr., Republican national chairman, predicts that Gov. Thomas E. Dewey, GOP presidential nominee, will carry at least 25 states and defeat President Roosevelt in the November election.
The 25 states enumerated by Brownell in a press conference yesterday have 311 electoral votes—or 45 more than the 266 required for election.
Brownell said public opinion polls in Illinois, Indiana, Ohio, Michigan, New York and Iowa indicated that Dewey would carry those states.
In addition, he placed these in the Dewey column: Colorado, Connecticut, Delaware, Idaho, Kansas, Maine, Massachusetts, Minnesota, Missouri, Nebraska, New Hampshire, New Jersey, North Dakota, Oregon, Pennsylvania, South Dakota, Vermont, Wisconsin and Wyoming.

Tobacco Curing In Progress In East

The eastern Carolina tobacco crop was beginning to suffer from the hot, dry weather following seasons that came during the first days of July, however, several good rains coming during the past four or five days have brought relief and great improvement. Coming when they did these rains will give tobacco a chance to fill out normally and consequently add many pounds to the crop. R. C. Rankin, supervisor of sales on the Greenville tobacco market, states in a special crop report today.

At this time it is hard to make any more than a guess at the poundage of the 1944 crop but, taking the East Belt as a whole, present conditions point to a greater yield per acre than was harvested in 1943. Reports from some counties indicate less poundage per acre than was produced last year, reports from other counties indicate about the same yield or an increase. The last mentioned counties, those with a yield equal to or better than in 1943, constitute about three-fourths of the allotted acreage in the East Belt and this naturally points to a general, overall increase in the number of pounds per acre when compared to last year. This prediction is based on a fairly normal weight and the burning of the tobacco in the field. If the crop comes in, or matures too fast, much tobacco will be lost and this will affect the final poundage figures.

Curing is in progress throughout the east. By the end of this week the percentage of the crop in the barn will range from 15 per cent in the northern portion of the belt to 20-30 per cent in the middle section and from 40 to 50 per cent in the southern part. There are exceptions but generally speaking tobacco is coming out of the barn with good color and fair weight. As yet there are no complaints of a labor shortage, except in areas near

IN CELEBRATION OF OUR **First Anniversary** IN GREENVILLE, N. C. **BAKING**

"BUTTERFLAKE" and "ALPHABET" BREAD

The C. and S. Baking Company, which leased Mrs. Morton's Bakery August 1, 1943, has installed a new \$6,000 PETERSON REVOLVING OVEN which doubles the plant's baking capacity.

We wish to express our appreciation to the people of Greenville and Eastern Carolina for the patronage they have given "BUTTERFLAKE" and "ALPHABET" Bread and to assure the public that we will continue to maintain the Greenville-baked bread's high quality and improve it whenever possible.

The C. and S. Baking Company, in a recent test of its bread at a testing laboratory in Minneapolis, Minn., scored 146 points out of a possible 150.

We appreciate the patronage of the retail grocers, cafes and restaurants, and wish to assure them and the housekeepers of Eastern Carolina that there is no better bread baked than "BUTTERFLAKE" and "ALPHABET."

Always ask for—
