Yanks Catch Jap Planes On Ground In Formosa

Americans Drive Inland On All Sectors Of Philippine Front Against Growing Jap Resistance Invasion Force Greater Than That Hurled Against France.

By G. YATES McDANIEL Associated Press War Correspondent General MacArthur's Headquarters, Philippines, Oct. 21—The fall of two Japanese airfields appeared imminent today as well supplied troops of Gen. Douglas MacArthur, backed by overwhelming naval and air might, drove inland on all sectors at Leyte in the central Philippines on the second day of invasion. The 5,000-foot bomber field at Tacloban on the northeast was approached by one force. To the south, another force, which advanced at sunset, met Al Dapkin, Associated Press war correspondent and it was difficult to keep up with the men, who were on the outskirts of an airfield near Dulag.

Japan's 16th division, remembered for its torture of the Americans and Filipinos who surrendered at Bataan, had succeeded nowhere in mustering a large scale counter-attack.

Pending the seizure and utilization of land air bases, American planes from escort carriers swooped as flying artillery on the estimated 20,000 defenders of Leyte, blowing up pill boxes and spreading death among motor convoys.

The enemy air force, operating from the few fields in the Philippines which could be momentarily repaired between carrier plane attacks, managed two scattered night raids against small units of the 600-ship convoy which carried the U. S. Sixth army and central Pacific units to the invasion. A communique today acknowledged a torpedo hit on one vessel of undetermined size.

The ground forces under immediate command of Lt. Gen. Walter Krueger, apparently encountered their most tenacious opposition just below Caramato bay at Pasa.

There, Fred Hampton, Associated Press war correspondent, saw four of the landing ships and several smaller craft blown up by Japanese shore guns and mortars.

For several hours it was tough and go with the Yanks jumping hip-deep into the water and slinging ashore through a hail of machinegun bullets while shells of the front up cinders of water.

"Our ground forces are consolidating their beachhead positions and driving inland on all sectors," read today's communique which MacArthur issued shortly after he had stood in a truck, drenched by rain, before a hand microphone and urged the Filipinos to rise and strike blows to speed their hour of deliverance.

"Food and supplies have been landed on schedule against light opposition."

"Our ground casualties in the preliminary operation have been exceedingly light," the communique said.

Americans Mopping Up Around Fallen Aachen; Canadians Make Gains

British And Canadians Push Ahead In New Offensive To Gain Use Of Antwerp Harbor By Allies; New Gains Scored On Southern Front In Drive On Southwest Germany.

By WILLIAM FEYE London, Oct. 21.—(AP)—Eight hundred German troops, the last defenders of walled Aachen, surrendered unconditionally at noon today and all resistance ended inside and in the suburbs of the first big German city to fall to American arms.

Two thousand prisoners already had been taken by First army men who captured the medieval city 40 miles from Cologne.

Despite Hitler's orders to resist to death, the 800 enemy troops surrendered when Lt. Gen. Courtney Hodges' doughboys pressed them into open traps at the fringe after taking the center of the city.

Seventy miles to the northwest, the Canadian First army pushed a three-pronged offensive four miles nearer the German strongholds of Roersendaal and Breda in battle carrying over rain-soaked fields above Antwerp.

British infantry and Canadian tanks entered the road junction of Westwezel, 13 miles north of Antwerp on the Antwerp-Breda highway, and sent patrols probing out a mile or two northwest of the town.

Two other columns, in twin drives up the roads to Roersendaal, seized Calmpouth and neared the Roersendaal canal.

This offensive was the second phase of the battle to win use of Antwerp port as a supply base. The first phase was drawing to an end with Canadian troops steadily closing on the German pocket around Breskens behind the Schelde Estuary.

In eastern Holland, U. S. forces pushed within 4,000 yards of a German communications strongpoint near the Maas river. British troops meanwhile consolidated positions southeast of Venray on the Dutch battlefield.

German communications farther south were crippled when Thunderbolts operating with the U. S. Third army bombed and breached the Dieuze dam 25 miles northeast of Nancy, flooding the town of Dieuze and the surrounding countryside with a spreading shallow lake which covered the railroad and highways within two feet of water.

Above Antwerp meanwhile Canadian troops had advanced about five miles in their new northward offensive. Late reports placed them seven miles southeast of the Dutch town of Bergen or Zoon and its excellent harbor midway between Antwerp and Rotterdam.

The offensive which jumped off yesterday morning was another phase in Allied strategy to set up Antwerp as the supply port for the western front. Other Canadian forces are fighting to clear the entrance to the Schelde estuary leading to the inland port. (Continued on page two)

CONFERENCE IN MOSCOW ENDS

Much Progress Believed Made In Recent Stalin-Churchill Discussions.

By EDDY GILMORE Moscow, Oct. 21.—(AP)—Moscow's press gave the Churchill-Stalin negotiations the praise today, vividly mirroring the good which official Russia believes resulted from the long, numerous and friendly discussions of the two leaders.

Editorials said differences still existed between Great Britain and the Soviet Union on certain European questions but asserted the road appeared clear towards framing a firm hard peace.

A joint communique summing up the 10-day meeting was issued this morning. It said the two leaders made "important progress" toward settling the Polish dispute, reached an agreement on remaining points in the Bulgarian armistice terms and that their governments have decided to pursue a joint policy in Yugoslavia. Military plans for the war also were reviewed.

Agreements at the conference were said to have the full approval of the United States government represented by Ambassador W. Averell Harriman.

Moscow's morning press and radio gave a smash play to the Prime Minister's departure and Stalin seeing him off at the Moscow airport. The papers printed an eight column front page photograph.

The Moscow conferences show that the U. S. S. R. and Britain could reach a common language for the difficult Polish question, declared Trestia.

"This question has not been solved," the editorial continued, "but judging from the communique, a considerable success was obtained and there are reasons to believe the Polish problem will find a satisfactory solution in the near future."

The editorial said that a unanimity of opinion was reached on questions concerning Romania, Yugoslavia and Greece at the conferences, and declared these agreements did not bring any menace to the small nations of southeastern Europe.

It was learned that both Churchill and Stalin expressed regret that President Roosevelt was unable to attend. Before leaving Moscow Thursday the British Prime Minister said he thought it would be an excellent idea for the three to get together again as they did at Teheran.

Referring to the delicate Polish question which had shaken the United Nations structure, the communique said: "It is an important progress was made toward solution of the Polish question which was closely discussed between the Soviet and British governments."

"They (Churchill and Stalin) held consultations both with the Prime Minister and with the President. (Continued on page two)

PRESIDENT TO SPEAK TONIGHT

Will Deliver Address In New York At 9:30.

By HOWARD FLIEGER New York, Oct. 21.—(AP)—President Roosevelt personally carried the fourth term bid into vote-laden New York City today, casting aside the military secrecy that has shrouded his travels since the war began to resume the role of a political campaigner.

On his crowded schedule were an appearance at an Ebbets Field Democratic rally, visits to four of the City's boroughs and a major address before the Foreign Policy Association in the Waldorf-Astoria Hotel at 9:30 P. M. (EWT, NBS and Blue).

It was Mr. Roosevelt's first public appearance outside Washington since the campaign reached the intensive stage, and it presaged other political trips for the Chief Executive.

Already scheduled are speeches in Philadelphia next Friday and in Boston probably the night of November 4. Chicago and Cleveland are other likely appearance spots.

Thirty seven reporters, photographers and radio men accompanied the President from Washington, the first time they have boarded a Presidential train since Pearl Harbor. On other war-time trips he either has been unaccompanied by correspondents or has taken with him only the White House press corps.

The health department states that it had a case of polio reported this week. The patient is a white girl four years of age living near Fountain street, doing well. This makes the fifth case of polio for Pitt county this year.

Allies Smash Out New Gains In North Italy

Eighth Army Units Occupy Coastal Town On Adriatic; Americans Take Hill In Drive On Bologna.

By LYNN HEINZELING Rome, Oct. 21.—(AP)—Eighth army units burst through the rear guards of German parachute troops on the Adriatic sector today and occupied the coastal town of Cesenatico, 13 miles above Rimini and 15 miles from Ravenna, their next coastal objective.

New Zealand and Canadian troops northeast of the fortress town and highway center of Cesena made similar swift advances. Cesena was occupied and Allied troops were clearing one last enemy pocket in the western outskirts of the town which is 12 miles southeast of Forlì, a suburb of Bologna.

Progress has been made by troops of the Eighth army in the Po valley, north of the Rimini-Bologna road, the Allied communique said.

While successes on the Adriatic sector do not mean a breakthrough of the German line, the fact that New Zealand armor has been able to thrust a little farther into the Po valley raised the hope that the 8th army might yet be able to bring its superior armored forces to bear in the wide plain stretching ahead.

There are many river barriers in the area, however, and uncertain weather makes them formidable.

The fifth army which is driving north toward Bologna captured several high spots, but still was engaged in heavy fighting, particularly in the area north and northeast of recently captured Livernano.

There the Germans increased their artillery fire and were backing up their troops with tanks and self-propelled guns.

On both sides of highway 65 (the Florence-Bologna highway) British American and South African troops nevertheless managed to capture more high ground.

PENSIONS & SOCIAL SECURITY Babson Discusses Effects On Investments

Babson Park, Mass., Oct. 20.—Many businessmen and investors are becoming frightened at the thought of the huge pensions, etc., which the nation will be burdened after the war. In fact, Harry L. Hopkins, the President's chief economic adviser, in the current issue of "American Magazine" calls also for more benefits and bonuses. Instead of suggesting a general tax reduction, he demands lifting all taxes from those in the lower brackets and increasing minimum wages to 50 cents an hour. Certainly, this will not encourage businessmen to enter new ventures and employ more people.

Hedging Against Higher Wages When the price controls and the excess profits taxes are removed, the most businessmen can pass on a good portion of their taxes. This, however, cannot be done by those who have retired from active business except through a most careful selection of investments. What are the investments by which investors can compensate for these federal expenditures for pensions, social security, relief, etc.?

I believe that one answer lies with putting one's money into good merchandizing stocks.

You see that people who are to get veterans or old-age pensions and, in fact, social security will not save the money; but will immediately spend it at the food, variety and chain stores in the neighborhood. Hence one way for investors to protect themselves is to own stocks in these stores. Instead of fighting pensions, benefits, Hopkins' minimum wages or Hillman's labor union rates, it may be safe in the end to let the politicians give this money to the people and then collect it back again through the stores at which they trade.

Buy Merchandizing Stocks But there are other reasons for buying stock chain store stocks besides those above given. Consider the following: 1. Very few of these merchandizing chains have bonds outstanding and a number have no preferred stock. I like best common stocks which are not preceded by either bonds or preferreds.

By DANIEL DE LUCE Moscow, Oct. 21.—(AP)—The red-starred tricolor of Marshal Tito's Yugoslav National Liberation army was raised in victory today over the charred ruins of Belgrade. With the fallen Yugoslav capital as a base a powerful joint Yugoslav-Russian drive appeared to be shaping up toward Croatia's principal city of Zagreb.

Scared by nearly a week of fiery street fighting Belgrade finally was purged yesterday of the last nests of German resistance by the combined efforts of Yugoslav veterans and Soviet forces under Gen. Feodor I. Tolbukhin.

Meanwhile, Marshal Stalin also has announced the capture of Hungary's third city—Debrecen—a conquest that broke the back of German resistance in eastern Hungary after prolonged and furious armored battle estimated to have cost the Germans and Russians a total of 1,000 tanks.

Official Russian silence still enveloped the East Prussian front. But this was not a source of surprise here for when the news finally is released it is expected to be as sensational as the announcement of the Romanian armistice in August.

Berlin announced last night that Red army troops had penetrated 12 miles inside East Prussia on an 80-mile front. The Germans also said the Russians in Hungary had rolled 30 miles beyond Debrecen, reaching the rail town of Tiszacsenge on the Tisza river some 85 miles east of the capital.

The Fourth Ukrainian army group under Col. Gen. Ivan Petrov was pouring down the Rutenian highlands for a concentrated drive with the right wing of Marshal Rodion Y. Malinovsky's Second Ukrainian army in an arc north of Budapest calculated to slice in half the German line between central Hungary and southern Slovakia.

Mainovsky's left wing was embroiled in a fierce struggle with German rearguards in the vicinity of Szolnok, less than 50 miles southeast of Budapest. With reported chaos within the city Regent Nicholas Horthy's repudiation of Hitler seemed more than ever mistimed and misplaced as the Germans managed to retain strategic control of the Magyar capital.

At Zagreb, which appeared to be the next big objective of the drive through Yugoslavia, the puppet premier of Croatia, Dr. Ante Pavelic, has been reported on the verge of flight for some time. Marshal Tito's partisans have been camping almost on the edge of the city. Good rail routes along the north bank of the Sava from Belgrad could be exploited for a Russian advance northward to join with these partisan troops.

MANY KILLED AT CLEVELAND

Thirty-Seven Dead And 20 Missing As Fire Rages.

Cleveland, Oct. 21.—(AP)—Wreaking the greatest devastation in Cleveland's history, a multi-million dollar fire burned into its second day today in a 50-block East Side area, its death toll undetermined.

Reckling from a series of thunderous explosions yesterday afternoon in the East Ohio Gas Co.'s \$6,000,000 liquid gas storage plant, the holocaust's toll in 12 hours soared to at least 37 dead and 20 missing.

An estimated 3,000 persons were made homeless by flames cascading on the heels of blasts which sent tongues of fire towering to a height of 2,800 feet. Possibly 10,000 others were evacuated from yet undamaged buildings.

Washington, Oct. 21.—(AP)—The government on Oct. 21 made it easier for people to cash in their War Savings bonds. Since then they have cashed in more than in any comparable period since the war started.

But the purpose of the new easier-to-cash system was to discourage cashing in of bonds. It was intended merely as a convenience to save time and red tape for people who needed to cash bonds.

The government wants people to hold their bonds and not cash them in. Yet, in the first 18 days of October they redeemed \$29,068,579 in bonds while buying only \$23,857,581. But the Treasury Department says redemptions now have begun to level off.

These are some of the reasons given by the Treasury for the rush to turn bonds into cash: There have been rumors that the government intended to freeze war bonds and refuse to cash them. This is untrue as the new easier-to-cash system shows.

Today On The Home Front

By JAMES MARLOW

Washington, Oct. 21.—(AP)—The government on Oct. 21 made it easier for people to cash in their War Savings bonds. Since then they have cashed in more than in any comparable period since the war started.

But the purpose of the new easier-to-cash system was to discourage cashing in of bonds. It was intended merely as a convenience to save time and red tape for people who needed to cash bonds.

The government wants people to hold their bonds and not cash them in. Yet, in the first 18 days of October they redeemed \$29,068,579 in bonds while buying only \$23,857,581. But the Treasury Department says redemptions now have begun to level off.

These are some of the reasons given by the Treasury for the rush to turn bonds into cash: There have been rumors that the government intended to freeze war bonds and refuse to cash them. This is untrue as the new easier-to-cash system shows.

Some people who intended to cash in their bonds on the latter part of September—when the old red tape method was still in effect—held them until the new operation went into effect Oct. 2.

This helped swell the total amount of bonds turned into cash. The old method took time and work; requests to turn a bond into cash had to move through a Federal Reserve Bank or through the Treasury.

Under the new system a person can walk into a bank, give proper identification, and turn a bond into cash immediately. Not every bank is qualified to render this service, but most are.

Any incorporated bank or trust company can qualify in most cases by asking government permission to give the public this kind of service. The Treasury says this was the main reason for the new system which also saves the Treasury and Federal Reserve Banks a lot of work.

By making it easier for people to cash their bonds, it was hoped fewer bondholders would cash them and this is why: Under the old, long-drawn-out system people would figure they'd need money in another month. Knowing it would take time to cash a bond, they'd turn it in. By the time the next month came around they sometimes found they didn't need the bond money. But then they would not turn that extra cash back into another bond.

With the new system, the Treasury thought, people would hold their bonds up to the last minute of anticipated need of cash. Then if they really needed money, they (Continued on page two)

The WAR TODAY AN ANALYSIS OF THE NEWS

By LOUIS F. LOCHNER (Chief of the former Associated Press Bureau in Berlin, substituting for DeWitt MacKenzie) The cracking of the Siegfried Line which now seems a certainty, poses the problem for Adolf Hitler whether to declare industrial and historical centers like Cologne, Koblenz, Mainz, Duisburg, and Düsseldorf open cities, or whether to doom them to inevitable destruction in the pattern of Aachen. These cities, as far as I could ascertain before I left Germany in May, 1942, are not fortified in the sense in which Aachen was a veritable citadel. The walled Atlantic Wall was intended to be Nazi Germany's first line of defense; the West Wall or Siegfried Line the second. Both were considered impregnable. It was a rude shock to the German people to see the Atlantic Wall pierced so rapidly. They have had a little time to accustom themselves to the fact that even the Siegfried Line is outmoded in view of the stupendous development of Allied firepower. It is at least doubtful whether Hitler and his general staff have prepared rally effectively beyond these two fortifications systems. When I last visited Cologne, Koblenz, Mainz, Duisburg and Düsseldorf, the only visible defenses were the garrisons and numerous anti-aircraft positions. There were none of those pill boxes, dug-outs, "panzerwerke" or major fortresses such as we saw on the Rhine from Karlsruhe to Switzerland. Along the upper Rhine, the Maginot and Siegfried Lines were op-

THE NATURE OF TRUE PRAYER
Professor Tyndall, the famous skeptic once proposed a test for prayer. He suggested that two hospitals of equal size be selected and that a large group of believing Christians begin to pray for the sick people in one hospital. If the people who were prayed for recovered and the people who were not prayed for did not, that, asserted Tyndall, would be a proof, and the only possible proof, of prayer.

Phantoms Defeat New Bern Bears By Score Of 32 To 6

Greenville High School Phantoms defeated the New Bern Bears 32 to 6 last night in the first game played away from home this season. The Phantoms outplayed the Bears throughout the contest and held the lead from the time they scored their first touchdown in the second period of the game.

Greenville's first score came after New Bern had blocked Futrelle's attempted punt from his own 40 yard line. The Bears advanced to Greenville's 35 where an attempted pass was intercepted by the Phantom center, J. T. Williams, on the 30 yard line, who ran it 70 yards for a touchdown. An attempt for the extra point failed and at the half the Phantoms led six to nothing.

The Phantoms racked up one touchdown in the third quarter. New Bern kicked out of bounds on Greenville's 15 yard line. On the next play Dave Perkins, Phantom punting back, ran the ball 85 yards for a touchdown. Billy Harrington placekicked for the extra point. New Bern on a series of passes from midfield went to the Phantoms' four yard line from which position they scored on four plays. The try for

the extra point failed.

In the final quarter the Phantoms racked up three more touchdowns good for 18 points. Receiving the ball deep in their own territory they marched it back to the New Bern 15 yard line from which point Perkins went over the goal line for his second touchdown. The try for the extra point failed. The other two touchdowns were made by Billy Harrington. An intercepted New Bern pass by Jimmie Lee set the stage for Harrington to make his touchdown on a line play from the 30 yard line after which he kicked for the extra point. After a series of unsuccessful passes Harrington on a line play from about the 40 yard line ran over the goal for the final touchdown of the game. An attempted kick for the extra point failed.

The Phantom starting line-up was Dennis Fleming and Julian White, ends; Joe Lupton and Charles Rice, tackles; Dick Pyle and Lawrence Posey, guards; J. T. Williams, center; Mac Batchelor, blocking back; Amos Leggett, wing back; Jimmie Futrelle, full back; Dave Perkins, tail back. Others who saw action in the game were Kenneth

Uall, Bobby Clark, Francis Jordan, Jim Turner, Lewis Lawrence, Jack Whitchard, Jimmie Ward, Rodney Roberts, Moulton Massey, Randolph Mixon, Will Garrett, Jimmie Gibson, Jimmie Lee, Jimmie Glenn and "X" Siders.
