

Partly cloudy and continued hot tonight and Tuesday with scattered afternoon thundershowers in west portion tonight.

WILL BOMB JAPAN TO DESTRUCTION

Four More Nippon Cities Set Afire By Superforts

Destruction Of Forewarned Cities Seems Certain As Result of 3,850 Tons Of Bombs Dropped In Today's Raids; Mustangs Attack Tokyo Area Again

By MURLIN SPENCER. Guam, Aug. 6.—(AP)—Four more Japanese cities were left in a mass of flames by 580 Superfortresses today and their destruction appeared certain, returning crewmen reported. Waves of B-29s dropped approximately 3,850 tons of incendiaries on the industrial cities of Nishinomiya, Maebashi, Imabari and Saga, and demolition bombs on the coal liquefaction company at Ube. One Superfort failed to return. Pilots reported Japanese opposition was light although Capt. Lawrence Bird, Mapleton, Utah, reported seeing a Japanese jet fighter plane over Maebashi. "At first I thought it was a flare or ball of fire. It came to within 500 feet of our B-29," he said. Reporting on the results of the heavy raid on Saga, on "Kochi," Second Lieut. Gordon P. Marchal, of Sacramento, Calif., said, "I could see lines of fire on the ground and believe me, the whole thing was definitely saturated."

Over Nishinomiya, however, one pilot reported seeing more flares, and more fighters and more searchlights than in recent forays over Japan. Fires could be seen 40 miles at sea. Once again an all but helpless Japan—forewarned that the big bombers were coming on a mission of death—was unable to offer effective resistance while the industrial areas of Nishinomiya, Imabari, Maebashi and Saga and Ube coal liquefaction company burned and fell apart from 3,850 tons of incendiary and high explosive bombs dropped by a fleet of 580 Superforts.

Yesterday air raid sirens screamed throughout Tokyo in a warning that 100 P-51 Mustangs had returned to the Tokyo area. Radio Tokyo said 150 Mustangs carried the assault into the daylight today. A single Japanese fighter watched them come yesterday and then fled from the skies.

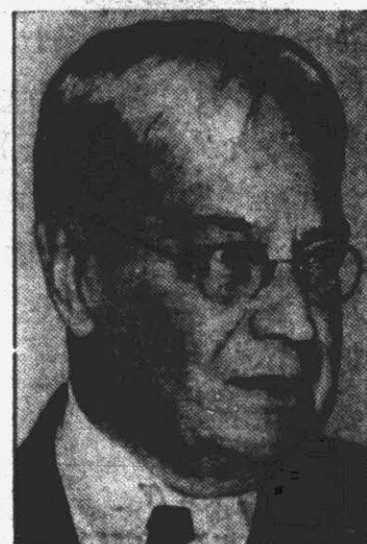

The B-29s in two raids August 2 and today have sown 4,500 tons of dreaded fire and demolition bombs on Japanese cities in warnings to the people of Japan to surrender unconditionally. We have burned out approximately 160 square miles of war-producing cities since the first fire raid on Tokyo March 3.

While the newest series of incendiary raids has always been preceded by warnings to civilians to flee to safety, their effectiveness was told bluntly in a single sentence in General Spaatz' communique which, reporting on the record raid August 2, said: "First photographs available on results of the B129 strike in the early hours August 2 show that the industrial area of Toyama was totally destroyed."

Toyama, with a population of 127,000, was the third largest city on (Continued on page four)

Death Ends Career Of Veteran Senator

Senator Dies

SEN. HIRAM JOHNSON (R-Cal.)

Senator Hiram W. Johnson, of California, opponent of the League of Nations and the San Francisco Charter, died in the Bethesda, Md., naval hospital this morning.

Senator Hiram W. Johnson, of California, militant opponent of the League of Nations and the San Francisco charter for a United Nations organization, died today at 70 years.

The veteran Republican senator succumbed at the Naval Hospital, where he had been confined for two and a half weeks. His physician, Capt. Robert E. Duncan, USN, said he died from a thrombosis of a cerebral artery. His political activities extended over a third of a century, covering some of the most stirring events in the Nation's history.

A striking figure in the Senate since first elected to Congress in 1916, he played a leading part in defeating President Wilson's League of Nations covenant and later in opposing United States adherence to the World Court.

His wife, whom he referred to as "the boss," was with him at the time of his death. Senator McKellar (D-Tenn), president of the Senate, today will appoint a committee to attend the funeral of the silver-haired veteran. One of his last great Senate battles was against passage of the teenage draft bill. He told his colleagues, with tears in his eyes, that he opposed "calling children to fight our battles."

He had been expected to take a lead in opposition to the recently approved world charter, but illness prevented.

Another Senate battle, in which he lined up in opposition to Senator Connally and others, was on the United States-Mexican water treaty. It finally was enacted, but not until Johnson had called upon all the arts of a long career to defeat it.

Johnson, served as governor of California from 1910 until his election to Congress six years later, described himself as a "progressive Republican" and was instrumental in writing into his State's Constitution such provisions as the initiative, referendum and recall, the direct primary, woman suffrage and the wiping out of national party lines in municipal and county elections.

Under his leadership, too, California passed legislation governing workmen's compensation, limiting hours of work for women, creating a state marketing department, regulating railroads and prison reforms.

Co-author of the Swing-Johnson Act which made possible the Great Boulder Dam, Johnson also played an important role in the creation of California's great Central Valley project in which he maintained an active interest.

Although he always retained the Republican label in his Senate act. (Continued on Page Four)

World War 2 Territory Changes

Black areas on map are those parts of Germany which the Big Three proposes will come under Polish rule. Shaded area is that which Russia has taken control over since the start of hostilities on the continent. Northern East Prussia, proposed as Russian by the Big Three, is newest addition to Soviet territory. There still remains some question as to final disposition of the port of Stettin. (AP Wirephoto Map).

Stimson Says Atomic Bomb To Shorten War

Scientific Development Of Atomic Power Will Prove Most Useful In Postwar Era

Washington, Aug. 6.—(AP)—Secretary Stimson predicted today that the atomic bomb will "prove a tremendous aid" in shortening the war with Japan.

The war secretary made his statement as the army reported that an "impenetrable cloud of dust and smoke" cloaked Hiroshima after it was hit by the new weapon from the air.

An accurate assessment of the damage inflicted by the bomb is not yet available, however, the War Department said. As soon as details of its effectiveness are learned, the department added, they will be released.

Stimson said in his statement that the explosive power of the bomb is such as to "stagger the imagination." He added that scientists are confident of developing even more powerful atomic bombs.

Stimson said that security requirements do not permit disclosure of the exact methods of producing the bomb or the nature of its action. He did say, however, that uranium ore is essential to the production of the bomb.

Development of the bomb culminated three years of work by Allied scientists, industry, labor and military forces, Stimson said, adding that he was convinced Japan will not be in a position to use a similar weapon. While Germany worked "feverishly" to develop an atomic bomb, Stimson said, the Nazi defeat now has erased danger from that source.

Stimson promised that further statements will be released in the future to give additional details concerning scientific and production aspects.

He disclosed that development of the bomb was carried out by thousands of persons "with the greatest secrecy." The work has been so divided, he said, that no one has been given more information concerning the bomb than was absolutely necessary to his particular job.

The possibility of using atomic energy in the manufacture of weapons, Stimson said, was brought to President Roosevelt's attention late in 1939. The Chief Executive named a committee to investigate and by June, 1942, Stimson said sufficient progress had been made to warrant a big expansion of the project.

Three plants to produce the bombs were started in December 1942. Two of these are located at the Clinton Engineer Works in Tennessee, and a third at the Hanford Engineer Works in Washington State. The Clinton Engineer Works is located on a government reservation 18 miles west of Knoxville, Tenn. The Hanford Engineer Works is located on a 430,000 acre reservation 15 miles northwest of Pasco, Wash.

In addition, a special laboratory to deal with technical problems has been established near Santa Fe, N. M. The laboratory is directed by Dr. J. Robert Oppenheimer whose "genius and inspiration," Stimson said, has been largely responsible (Continued on Page Four)

President Truman Reveals Use Of New Secret Weapon

To Ask Unlimited Council Authority

Leaders To Ask For No Restriction On Use Of Armed Force

By JACK BELL. Washington, Aug. 6.—(AP)—Senate leaders were reported today to have decided to ask Congress to set up the office of World Security Council delegate without limiting the President's authority to use troops.

The decision to bring the issue squarely before the legislators in October was said to have been reached by Democratic leader Barkley (Ky.) and Chairman Connally (D-Tex.) of the Foreign Relations Committee.

Neither would comment on these reports, but it was learned they had dismissed any thought that President Truman might name Edward R. Stettinius, Jr., former Secretary of State, as the delegate and proceed without further congressional action.

But the administration-sponsored resolution Connally is expected to offer shortly after the legislators return from their summer-fall vacation may be much less a definitive in its terms than a similar measure suggested by Senator Vandenberg (Mich.).

Indications now are that the administration leaders plan to propose a similar resolution fixing Stettinius' duties as ambassador, requiring Senate confirmation, and making him a deputy of the President. The latter would decide how this country should vote on the peace-keeping council.

A final decision on terms of the legislation awaits a conference between Secretary of State Byrnes and Connally, probably this week. But if it is presented in this form, it will contain no definition of the President's authority to use American troops.

Vandenberg, on the other hand, (Continued on page four)

Administrator

Brigadier General Luther S. Smith (above) has been appointed director of the civil administration division of the United States Group Control Council for Germany. He will control, according to the War Department, and administer, German civil administrative machinery within the American zone of occupation. (AP Wirephoto from U. S. Army).

Atomic Bomb With Force Greater Than 20,000 Tons Of TNT Dropped on Jap City Today; Complete Destruction Of Everything Above Ground In Japan Promised

Washington, Aug. 6.—(AP)—The atomic bomb announced by President Truman today packs a punch equivalent to that normally delivered by 2,000 B-29s. The President said the missile has an explosive force equal to 20,000 tons—40,000,000 pounds—of TNT. Assuming a B-29 carries a bomb load of 10 tons of TNT, four B-29 plane raids by the world's biggest bombers would be necessary to equal in destructive power the exploding fury of one atomic bomb. The atomic bomb dwarfs by 2,000 times the blast power of the British "grand slam" bomb, which weighed approximately 11 tons.

Washington, Aug. 6.—(AP)—An atomic bomb which looses pent-up force of the universe equivalent to more than 20,000 tons of TNT and represents one of the greatest scientific advances of history has been dropped on Japan.

President Truman told today of the terrific destructive power packed into the missile which was dropped 16 hours ago on Hiroshima, an important Japanese army base. His statement, released by the White House at 11 a. m. EDT, said the bomb added a new and revolutionary increase in destruction on the Japanese homeland.

This awful bomb is the answer, President Truman's statement said, to Japan's failure to heed the Potsdam demand that she surrender unconditionally at once or face utter destruction.

The product of \$2,000,000,000 spent in research and production—the "greatest scientific gamble in history," Mr. Truman said—the atomic bomb has been one of the most closely guarded secrets of the war.

Franklin D. Roosevelt and Winston Churchill gave the signal to start work on harnessing the forces of the atom. Mr. Truman said the Germans worked feverishly, but failed to solve the problem.

Mr. Truman added: "It is a harnessing of the basic power of the universe. The force from which the sun draws its power has been loosed against those who brought war to the Far East."

The base that was hit is a major quartermaster depot and has large ordnance, machine tool and aircraft plants.

The raid on Hiroshima, located on Honshu Island on the shores of the Inland Sea, had not been disclosed previously although the 20th Air Force on Guam announced that 500 Superforts raided four Japanese cities at about the same time.

The city of 318,000 also contains a principal port. The president disclosed that the Germans "worked feverishly" in search of a way to use atomic energy (Continued on Page Six)

STALIN SEEKS NEW OUTLETS

Russia May Become Mediterranean Power

By FLORA LEWIS

Washington, Aug. 6.—(AP)—Generalissimo Stalin opened the door at Potsdam for Russia's possible emergence as a Mediterranean power.

Focal point for future discussion will be disposition of Italy's one-time possessions. Diplomatic reports received here say that Italian islands in the Mediterranean, especially Pantelleria, will constitute a storm center of considerable political significance than the former Axis partner's North African colonies.

Russia moved openly for a voice in Mediterranean affairs some weeks ago with a request, later granted, for Soviet participation in a scheduled conference to restore Spanish-occupied Tangiers to international status. Tangiers is directly opposite Gibraltar at the western gateway to the Mediterranean.

Russia also has shown a steadily increasing interest in the previously British-dominated European sea with Soviet demands for renegotiation of the Dardanelles' international administration and of her treaty with Turkey.

While Tangier itself appears little (Continued on Page Four)

Whedbee Accepts State Bank Post

W. L. Whedbee has accepted the position of Trust Officer of the State Bank and Trust Co. and assumed his duties August 1st. Mr. Whedbee is excellently qualified for the administration of estates and is well versed in banking and real estate law.

He received his academic and legal education at the University of North Carolina and in the Law School of Wake Forest College. Admitted to the Bar at the spring term, 1925, of the Supreme Court he engaged in the practice of law with his late father, Judge Harry W. Whedbee and Colonel Harry Skinner in the law firm of Skinner and Whedbee. During this time he was elected and served several terms without opposition as Judge of the County Court. After his father's death, he was associated for several years with the firm of Skinner, Cooper and Whedbee.

In 1934 he was appointed Senior Supervising Attorney for Eastern North Carolina for the Home Owners Loan Corporation and was later placed in charge of their entire operations in North and South Carolina. Mr. Whedbee's many years of legal experience and his acquaintance with government financing over the period of the past eleven years eminently prepare him to perform competently the duties of the important position of Trust Officer. (Continued on Page Four)

Army Strength Dispute Headed For White House

Washington, Aug. 6.—(AP)—President Truman, as commander in chief, probably will have to step in to settle the mounting dispute over the size of the army needed to whip Japan.

This word came today from Capitol Hill, where a first class row has developed over the size of the fighting forces for a one-front war. Senators Johnson (D-Colo.) and Taft (R-Ohio) openly criticized the War Department over the weekend and there were signs that their independent campaigns were picking up recruits among other lawmakers.

On the other hand, such senators as Pepper (D-Fla.) and Thomas (D-Utah)—the latter chairman of the Military Committee—were standing by Secretary of War Stimson in his decision to retain about 7,000,000 men in uniform as of next June 1.

Pepper said: "The war and navy departments are charged with prosecution of the war and they know more about the size forces they need than the Senate does. . . . I think the size of the army is a matter which should be left to the commander in chief and the army general staff. Thomas already was on record with this statement, "It is time we stopped fooling around with the size of the army. There is a general rush to collapse the armed services."

Capt. W. C. Tucker On Missing List

Capt. Wayland C. Tucker, U. S. Army Air Forces, has been missing since July 27, according to an official telegram received by his wife late Saturday. Captain Tucker was stationed in India and engaged in flying the hump to China.

Captain Tucker, 24, is the son of Mr. and Mrs. E. F. Tucker of this city. He is a graduate of Greenville High School and was attending East Carolina Teachers College in 1940 when he entered the army. He received his wings and commission at Spence Field, Ga., in the summer of 1942. He has three brothers in the service. Maj. Eric Tucker, Camp Lee, Va., Flight Officer Edwin Tucker, glider pilot recently returned from overseas service, and Pfc. Kenneth Tucker, Camp Bowie, Texas.

In September, 1942, Captain Tucker married Miss Gay Dupree, of Petersburg, Va., and this city. Mrs. Tucker and their daughter, Judy, are at present visiting in the home of Mrs. Tucker's grandmother, Mrs. Joseph Dixon, 906 Evans Street. (Continued on Page Six)

STRIKERS GO BACK TO WORK

Total Idle Still At Alarming Figure Of 60,000

By the Associated Press. More than 20,000 workers returned to their jobs today shrinking the Nation's total involved in work stoppages to about 60,000, compared with some 80,000 toward the end of last week.

The reduction came through ending of walkouts which included the following: The Greyhound Bus Lines employing 950 persons in Louisiana, Mississippi, Georgia, Alabama and Florida;

Ten Reynolds Metals Company plants in Louisville, Ky., affecting 3,500 employees;

1,000 Bath, Me., Iron Works welders and tappers;

Pharix Tire and Rubber Company, Newark, O., affecting 1,050 workers;

1,050 workers at the St. Louis, Mo., Car Company; 7,500 members of the Savannah, Ga., Trades and (Continued on Page Six)

Defense May Rest Meadows Case Today

The defense in the false pretense and embezzlement trial of Dr. Leon R. Meadows was expected to rest its case late today as the trial entered its tenth week. Dr. Meadows, former head of East Carolina Teachers College is charged with the mishandling of \$14,000 in special student and college funds.

After the presentation of a few minor witnesses this morning the defense returned Dr. Meadows to the stand for further questioning and his cross examination by Prosecutor Jesse A. Jones was under way when court recessed for lunch.

The cross questioning dealt with a list of dates on which work was done on pianos at the college and the exchange of letters between the defendant and J. W. Clark.

Replying to the questioning Meadows denied that he requested the teachers who made the piano lists to delete one of the dates. With regard to the Clark letters he declared that he did not know whether the letters were exchanged by mail or were passed between him and Clark by hand or whether they all were exchanged at one and the same time.

After the defense rests the state is expected to take a week to 10 days for presentation of rebuttal witnesses before arguments before the jury begin.

Today On The Home Front

By James Marlow

By JAMES MARLOW. Washington, Aug. 6.—(AP)—President Truman was well prepared to talk about Germany when he went to the Big Three meeting at Potsdam.

He had special information on what should be done to reduce Germany to a third-rate power and prevent it from making war again. There were two main steps:

1. To disarm it and wipe out its general staff.

2. To reduce its industry, which was the backbone of its war effort, to a size adequate only for peaceful living.

Mr. Truman had to do some digging. When the Potsdam meeting was arranged he sent out a call for help.

Word went down from the White House to the government agencies to whip together information on Germany for the President. This was done. What Mr. Truman had to know was how Germany could be deprived of war-making power. The government experts laid their information in the President's lap. The groundwork for the information he needed was laid out months ago by President Roosevelt. As the war against Germany

The WAR TODAY

An Analysis Of The News

By DEWITT BACKENGIE. AP Foreign Affairs Writer

Extension of General MacArthur's Pacific army command to include Okinawa and other Ryukyu islands in preparation "for the final conquest of Japan," has a double significance. It increases the stature of one of the greatest commanders of history and it demors craters that the Allies don't intend to linger unduly over an attempt to force surrender by bombing and by blockade.

We may take this to be an echo from the Potsdam conference. I believe America and Britain are determined to force the issue against Japan.

It must be a matter of extreme satisfaction to MacArthur thus to stand before the Mikado's inner fortress, actively preparing to storm the gates, and the enemy offers early capitulation. Harking back to the general's cry "On to Tokyo!" when he proclaimed the fall of Manila in February, and to other notable orders of the day, one sees the fire of the crusader, whose mission is smite Japanese aggression and barbarity hip and thigh.

Now this doesn't mean there is no chance of Japanese surrender short of amphibious invasion. Cap-

itulation is possible before invasion although we can't go far at this juncture as to say it is "probable."

The little island kingdom of Japan, which is exceptionally vulnerable to bombing, already is enduring an aerial bombardment which exceeds anything that Germany, or any other country, ever underwent. That continued at the weekend despite a fierce typhoon. The flimsily built cities are being crushed by the avalanche from the sky. And this assault—coupled with naval bombardment—is increasing as the Allied forces are augmented by fresh contingents from Europe.

Nippon's navy has been rendered impotent. Her air force is a ghost of its former self. Her war industries are being wiped out. Her railroads and other communications—which never were good—are being destroyed so that neither war supplies for essential food-stuffs can be moved to meet requirements.

The main Japanese islands are almost completely blockaded. To the already formidable naval and air blockade, now has been added the blocking of all important harbors by fields of mines sown by airplanes. Japan is to all intents cut off from the outside world. And (Continued on Page Four)

Social and Personal

Mr. and Mrs. L. B. McCormick and Mrs. Fred James De Masi have returned from Wrightsville Beach.

Capt. James H. Kitchens, Jr., who has been spending a month's leave with his family at the home of Mrs. Kitchens' parents, Mr. and Mrs. D. J. Overton, left Saturday for Camp Shelby, Miss.

Mrs. J. Charles Whiteford has returned to her home, 401 Harding street, from Pitt General hospital.

Friends of Haul Clark will regret to learn that he is ill in Edgecombe General hospital, where he underwent an operation.

Friends of Claude Clark will be glad to learn that he is recovering satisfactorily from an operation for appendicitis in Edgecombe General hospital.

Mrs. Willie Eason of the Snow Hill community is recuperating from an operation in Pitt General hospital.

Mrs. J. Peston Smith has returned from Washington, D. C., where she visited Mrs. Harvey Styron.

Ralph Fleming, Jr., Ph. M. 3-C stationed at Bainbridge, Md., spent the week-end in Greenville.

Mrs. Mary Lou Crosland and little son, Billy, of Charlotte, are visiting Mrs. J. B. White and Mrs. Crosland's little daughter, Lou, who has been spending some time here with her grandmother.

Mr. and Mrs. Mrs. J. R. James and Mrs. D. R. Perkins of Stokes spent today in Greenville.

Mr. and Mrs. W. E. Hooker have returned from Atlantic Beach where they spent about two weeks as guests of Mrs. Travis Hooker.

Mr. J. B. Smith has returned from Duke hospital and will be confined to his home for several days.

Mr. A. G. Walters of Portsmouth is spending this week at his home in Greenville.

Pfc. and Mrs. Raymond Walters and child spent the week-end with Pfc. Walters' mother, Mrs. A. G. Walters. Pfc. Walters who has recently returned from Europe is home on a thirty day furlough.

Mr. and Mrs. E. L. Baker have returned from Atlantic Beach, where they spent last week at their cottage.

Mrs. W. R. (Pete) Brewer who underwent an operation in Pitt General hospital last week is getting along nicely.

Mr. and Mrs. Joe Dixon of Washington, D. C., are visiting Mrs. Joseph Dixon on Evans street.

Nurses' Aid Meet - The Volunteer Red Cross nurses' aid met Friday evening with Mrs. W. A. Batchelor. This was a social meeting. Ice cream and cake were served.

Birth Announcements - Mr. and Mrs. Tommie Calhoun announce the birth of a daughter, Brenda Grey, in Pitt General hospital on Sunday, August 5, 1945.

Birth Announcements - Mr. and Mrs. W. M. Johnston announce the birth of a son, William Morton Johnston, Jr., on Wednesday, August 1, in Pitt General hospital.

Women's Auxiliary - Women's Auxiliary will meet on Wednesday afternoon at 7 o'clock with Mrs. R. S. Pollard, 1411 Broad Street. All members are urged to be present.

Christian Science Service - "Love" was the subject of the lesson-sermon in all Christian Science Churches and Societies on Sunday, August 5.

Golden Text was from I. John 4:16. "We have known and believed the love that God hath to us. God is love, and he that dwelleth in love dwelleth in God, and God in him."

Among the citations comprising the lesson-sermon were the following from the Bible: "Beloved, let us love one another for love is of God, and every one that loveth is born of God, and knoweth God. He that loveth not, knoweth not God, for God is love." I. John 4:7, 8.

The lesson-sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "The starting-point of divine Science is that God, Spirit, is All-in-All, and that there is no other might nor mind—that God is love, and therefore He is divine principle. To grasp the reality and order of being in its science, you must begin by reckoning God as the divine principle of all that really is. Spirit, life, truth, love, combine as one, and are the scriptural names for God." (Page 275)

NEWS ABOUT SERVICEMEN - Returns From E. T. O. Lt. Col. Harry E. Hagerty, veteran of 14 months overseas in the European theater of operations, where he served as battalion commander, infantry, and was awarded the E. T. O. ribbon, three stars and the American Defense Medal, has returned to the States aboard an air transport command trans-Atlantic plane.

He led him at La Guardia airport, N. Y. He plans to reach Greenville this afternoon.

Receives Bronze Star Award - First Lieutenant Cary D. Warren,

Social Calendar

MONDAY 6:30 p. m.—Rotary Club. 7:00 p. m.—Lions Club. 8:30 p. m.—Girls' Circle of Free Will Baptist Church meets with Barbara Clement.

TUESDAY 8:00 p. m.—St. Mary's Auxiliary of the Episcopal Church meets in the parish house. 9:00 p. m.—Rehearsal for Stroud-Rowlett wedding in Eighth Street Christian Church.

10:00 p. m.—Mrs. G. B. Rowlett and Mrs. Charles Gaskins will entertain the Stroud-Rowlett wedding party and out of town guests at a cake cutting.

WEDNESDAY 6:00 p. m.—The wedding of Miss Nannie Rowlett and Capt. J. J. Stroud will take place in the Eighth Street Christian Church. 7:00 p. m.—Mrs. Lucy Moyer will entertain at an informal reception honoring the Stroud-Rowlett wedding party.

FRIDAY 6:30 p. m.—Kiwanis Club. 8:00 p. m.—Improved Order of Red Men meets.

who had been in the E. T. O. for ten months with the 7th Armored Division, has received the award of the Bronze Star Medal for meritorious service in connection with military operations in Belgium and Germany. Lt. Warren is now in a re-employment area in Germany awaiting a thirty-day leave in the States before reassignment to the Pacific.

Receives Purple Heart - Richmond, Va.—The Purple Heart Medal for wounds received in action against the Germans has been presented to Private First Class Letchworth of Farmville, at McGuire General Hospital, Richmond, Va., where he is a patient.

The medal was presented by Colonel P. E. Duggins, commanding officer of McGuire General Hospital, at ceremonies in Letchworth's honor at the army's great medical installation here.

Letchworth, 25, was fighting with the infantry when he was wounded in Germany last March 24. His wife Virginia, lives in Farmville.

With Searchlight Battalion - With U. S. Forces in the Ryukyus - A Greenville soldier, Corporal Sherward C. Wingate, 21, is a machine gunner with an Army searchlight battalion on this newly-secured base close to the Japanese mainland.

"Killing Japs isn't our main job," he admits, "but we did plenty of it before organized resistance ended here."

"As soon as it got dark, they'd begin trying to infiltrate into our positions, and no matter how hard we'd worked all day we'd start tossing grenades at them. Sometimes it was, maybe, but we felt better in the morning when we counted the bodies in our area."

Before going overseas, Wingate's battalion took exhaustive tactical training in searchlight operation in California. On Oahu, T. H., the men received addition rehearsing for their specialized jobs. Wingate, like other machine gunners in the outfit, is trained to operate the powerful searchlights and complex equipment used by the battalion.

Wingate, who has been overseas 16 months, worked at Camp Lejeune, the Marine Corps base, before entering the Army in May, 1943. His wife, Mrs. Leona Wingate, now lives in Elk Park, N. C.

He is the son of Mr. D. A. Wingate, Box 406, Havelock, N. C.

Aboard New Destroyer - Medford, N. J.—Whitehurst, ship's cook, second class, USNR, of Grifton, N. C., arrived at Norfolk, Va., recently to train for duties aboard a new destroyer of the Atlantic Fleet.

Whitehurst is a veteran of 14 months duty aboard a troop transport in the Pacific. He wears ribbons for the American Theater and the Asiatic-Pacific Theater with three stars and the Philippine Liberation with two stars.

Son of Mr. and Mrs. J. M. Whitehurst of Grifton, he has a brother, William, 24, who is a deck officer in the Maritime service. Before enlisting in the Navy, Whitehurst was employed by the Norfolk Navy Yard in Portsmouth, Va.

Playground Notes - The Playground Fair will be held on Cotanche Park on Wednesday afternoon from 4 to 6 p. m. Admission and tickets to all events will be given to all children who come to the fair. The only charge will be 2 cents for drinks and 1 cent for peanuts.

In case of rain the fair will be held on Thursday from 4 to 6 p. m. If it is not raining by 12 o'clock on Wednesday the fair will go on.

All the children of Greenville and their parents are invited to attend Cotanche Park on Wednesday afternoon at 4 o'clock—Frances C. Alex

Forty Years Ago Today

THE DAILY REFLECTOR August 6, 1905

C. B. West of Raleigh came in Friday evening. Sheriff L. W. Tucker returned Friday evening from Norfolk.

The nights feel very much like fall time of the year. Keep your eye on the Greenville tobacco market and you will see something going in prices.

Four cases of diphtheria have developed in Greenville. Mrs. J. J. Jenkins and children have returned from a visit to Plymouth.

Birth Announcement - Mr. and Mrs. Bob Moffett announce the birth of a son, Robert Harvey, on Saturday, August 4, in Pitt General hospital.

St. Mary's Auxiliary - St. Mary's Auxiliary of the Episcopal Church will meet in the parish house Tuesday night at 8 o'clock.

NEWCOMERS AND REMOVALS - Mr. and Mrs. A. W. Glenn have moved here from Roanoke and are living at 521 Evans Street.

Mr. and Mrs. Thomas Bentley, formerly of Oxford, are living at the corner of 4th and Student Streets. Mr. Bentley is employed by Person-Garrett Tobacco Company.

Mr. and Mrs. H. C. Heath have moved from 608 Cotanche Street to 183 Summit Street.

Mr. and Mrs. Carl Jones, Jr., who recently moved here from Greenville, S. C., are living at 304 Eastern Street.

Mr. and Mrs. Freddie Fitzgerald have moved to 22 Woodlawn Avenue.

Cpl. and Mrs. Wayne C. Sinclair have moved to 411 W. 5th Street.

Women in the Church - by Mary Fowler

Supported largely by funds raised by church women through their annual "World Day of Prayer" gifts, and the contribution of home mission boards of churches, religious and social welfare ministries are being provided this summer to some 600-000 migrant agricultural workers by the Home Missions Council of North America. It is announced by Miss Edith E. Lowry, executive secretary, Assisting Miss Lowry in supervising this ministry are Miss Helen E. White of Chicago, and Mrs. F. E. Shotwell of Los Angeles, and there are almost 300 religious workers, teachers, ministers and specialists. This staff included Negroes, Jamaicans, Japanese-Americans, and others of foreign birth. The program is designed to "take the Christian church and its services out to the fields where the workers labor and live."

When Miss Mary W. Hurlbut, Congregational missionary in Elendole, Angola, West Africa, made a long walking trip among the villages, she came to one spot where the whole countryside turned out to see her dolls, a mechanical cat and listen to the victrola. Three campfires gleamed in the darkness. Before Miss Hurlbut spoke the elder rose and said: "This is the first time we have had a white person in our village who came with love in her heart and with no other motive than to be with us and help us. The government officials has been here, and the priest has passed on through, but this is the first time a white person has come to us out of love and good will."

Protestant churches of America—through the Church Committee on Overseas Relief and Reconstruction, 297 Fourth Avenue, New York 10—are planning to unitedly send half a million Christmas packages to France, Belgium, Holland, Norway, Italy and Greece, for distribution to the needy through evangelical agencies. Items to be exported are restricted by the government, but there will be permitted different packages for children, infants and adults. Packages should be shipped by the donors before October 15. For instructions as to what, how and where to ship, write to the committee named above. While individuals are invited to send packages, most of them will be furnished through the working groups of the women's organizations of the several denominations.

Classes have been held in Greenville previously for salespeople in retail stores, but nothing has ever been offered for restaurant employees. Due to the unlimited opportunities opening rapidly for people with food handling experience, and the difficulties which restaurant managers are having at present, these programs have proven timely and popular. Employees have received them enthusiastically and managers have found them helpful in stabilizing personnel and providing more efficient service.

Free Course For Cafe Employees

Miss Miriam Koch of the State Department of Education, Raleigh, will conduct a series of classes for restaurant workers at the City Hall in Greenville this week. Classes begin tomorrow (Tuesday) at 2:30 p. m. and will be held daily through next Saturday. The course is presented by the State Department of Education, assisted by the State Board of Health. It is sponsored by the local public schools, Merchants' Association and the Pitt County Health Department. The course is free. Similar courses are being presented throughout the State as a part of the adult training program in vocational education. The State offers credit for the work, issuing diplomas to members attending a majority of the meetings.

SAY BY UNCLE

DOROTHY BURGESS

Chapter 18
An evil light came into Sophie's sunken eyes as she said, "You could send her up the river for stealin'!"
But Madge didn't hear Sophie as once again she became oblivious to her presence. I've got to, thought Madge, get that purse! I'm powerless as long as Marie has the antidote in her possession. I know what I'll do. I'll wait until they get back to Winston Manor, then I'll call up Uncle Louie. He'll find a way to get that tal away from her. Madge immediately felt easier.
She smiled at Sophie and said lightly, "Everything is going to be all right, Sophie."
"Then you're going to call up the pps?"
"No," laughed Madge. "I'm going to call up Uncle Louie." With that she turned and leisurely sauntered out on the terrace, leaving behind her a wilted, puzzled Sophie.

When John arrived at Winston Manor and drove his car into the garage he grew more concerned as he noticed Madge's car was missing.
"Where is Mrs. Winston's car?" he asked Sambo, who had just enough energy left in him to open the car door.
"Miss Madge," he drawled, "done go drivin' with Mr. Uncle Louie."
"Uncle Louie!" John exclaimed.
"Yes, suh, you-all know dis old gentleman?" he asked hopefully.
"Did Mrs. Winston say where she was going?"
"No, suh. Ah don't think nobody knows nothin' no mo', specially me. If somethin' is before me, ah can't see it, and if it is there, ah don't want to see it, and if I do see it, ah ain't there! Ah is afraid ah is a very sick man." Before Sambo realized he was alone John had hurried off toward the house.
John entered the house by the kitchen, where he found Magnolia.
"Then she saw him she flung her arms heavenward."
"Praise be de Lord!" she sang.
"Praise be de Lord, he done answered one of mah prayers!"
"Magnolia," he brought her down to earth. "Where has Mrs. Winston done?"
"Magnolia's joy began to drip with tears as she cried, 'Mah baby done go to town wid dat Uncle Louie!'"
"Where in town?"
"Ah don't know, suh. She just say at she and Uncle Louie has got some very important business to tend to."
"Business?"
"Yes, suh. Monkey business, dat's what!"
John said quietly, "We must play long with her, Magnolia, do you understand?"
"Yes, suh. Dat's what de doctor done say."
John patted her on the shoulder. "That's a good girl, Magnolia."
John left the kitchen and entered the dining room, where he found Sin Low busily setting the table for dinner. He stopped when he noticed Sin Low arranging places for three.
"Hello, Sin Low, who's the third place for?"
"Sin Low grinned. 'We have house guest.'"
"We have? Who?"
"Mr. Uncle Louie."
John burst out, "Uncle Louie?"
"Sin Low's grin widened as he said, 'Uncle Louie, him velly nice fellow.'"
John completely lost control of himself as he shouted, "Nuts!" and stamped out of the room.
John's hectic state of mind was chilled considerably as he strode into the long gloomy hall. He actually quivered as he started passing, one by one, the family portraits and, be-

ing in a nervous, highstrung condition, his imagination took full control of the situation. He had nearly reached the end of the hall when he imagined he heard something. It stopped like a gay, rippling chuckle. John slowly looked up, and there he saw the life-size portrait of Uncle Louie impishly smiling down at him. "You! You coyote!" shouted John. "You old trouble-making walrus!" John shook his finger at him angrily as he continued to shout, "You were the blight of the family's life." Then he thumped his chest. "But you're not going to continue to be the blight of mine!" Without further ado John yanked up a massive chair, stepped on it, and with an impatient jerk unhooked the huge painting, which nearly pulled him crashing to the floor.
"I'll just put you where no one can find you," said John with finality.

It took every ounce of strength he had to drag the portrait up the long, dark, winding staircase to the empty quarters of the second floor. Several times on his laborious trek up the stairs he was forced to stop for a breathing spell. When he finally reached the second floor landing he was surprised to see the door to Uncle Louie's room wide open. Exhausted and out of breath, John proceeded to drag Uncle Louie across the floor to the closet. He yanked the door open and shoved him in.
"That'll take care of you for the time being," he said gloatingly, as he brushed his hands in good riddance. Then he closed the door with a kick, locked it and pocketed the key.
"Somehow," he said aloud to himself as he started leaving the room, "by hook or crook, I've got to keep Madge from coming up here! With that determined thought in mind, he closed the bedroom door, locked it and proceeded to pocket that key also.

ACTS ON THE KIDNEYS
To increase flow of urine and relieve irritation of the bladder from excess acidity in the urine
Are you suffering unnecessary distress, backache, run-down feeling and discomfort from excess acidity in the urine? Are you disturbed nights by a frequent desire to pass water? Then you should know about that famous doctor's discovery—DR. KILMER'S SWAMP ROOT—that thousands say gives blessed relief. Swamp Root is a carefully blended combination of 16 herbs, roots, vegetables, balsams. Dr. Kilmer's is not harsh or habit-forming in any way. Many people say its marvelous effect is truly amazing.
Send for free, prepaid sample TODAY! Like thousands of others you'll be glad that you did. Send name and address to Department D. Kilmer & Co., Inc., Box 1255, Stamford, Conn. Offer limited. Send at once. All druggists sell Swamp Root.

Now We Can RECAP Your Passenger Car Tires With GRADE A TRUCK RUBBER

Every driver has seen those heavy trucks rumbling down the road with their big heavy loads. You know that truck tires take a terrific beating from the hard grinding wear. Naturally, the rubber to stand that abuse must be especially compounded to be extra tough—extra long wearing.

We can NOW recap the tires of A, B and C card holders with Grade A Truck Rubber—guaranteed to be exactly the same rubber used in recapping the big truck and bus tires. Its extra toughness on your tires means 3,000 to 5,000 miles of extra wear over recaps of ordinary rubber.

Strength FOR THE DAY

By EARL L. DOUGLAS

WE DEFEAT OUR OWN ENDS There are those who tell us that it will never be possible for us to defeat our military enemies until we hate them.

What our Lord said, however, about loving our enemies and overwhelming evil with good sets forth the great law that the more righteousness and love a man has in his heart, the more terrifying and overwhelming he becomes to those who practice evil.

One of the great weaknesses of Germany was her pronounced disposition to hate all other people and to go out of her way to show contempt for them. Certainly nothing would weaken the will to victory in this country quite so much as for our nation to become a nation of violent haters.

So we see a nation of 100,000,000 facing (1) destruction of its cities, (2) terrible civilian casualties which cannot be avoided in these tight little islands with their great concentrations of population, and (3) starvation!

However, we aren't sitting idly by, waiting for the answer. The announcement from General MacArthur's headquarters declares that "a mighty invasion force is being forced" under the primary responsibility of the commander "for the final conquest of Japan."

The American-British-Chinese ultimatum of July 26 to Japan gave the alternatives of immediate unconditional surrender of "prompt and utter destruction."

AMERICA IN WARTIME By JACK STINNETT

By JACKSON S. ELLIOTT (Jack Stinnett is on vacation) Washington—Tip in the Aleutian Islands—kind of "willis-wags" blow down trees, the rains wash them away, and the goats eat most of what's left.

So the Army is trying to plant a forest where none has grown for millions of years.

The islands are nearly barren, and the violent winds have stripped them of even the hardy Sitka spruce. The rainfall is frequently heavy and the roots have found only soggy footing.

But the Geographic Society of New York, which has just disclosed the army project, notes that the growing season—130 to 190 days—is far longer than that in many heavily forested regions of Alaska.

In areas where the temperature is only slightly higher than in the Aleutians there are dense forest stands.

The treeless Aleutians may receive even more sunshine than some forested regions in southeastern Alaska. As to the winds, some parts of north Kodiak Island, where there are forests, are far windier.

In 1905 the Russians transplanted trees from Sitka to Unalaska and repeated the job at intervals. Some trees are still there, but there has been no spread.

Other random plantings were made by the United States, most of them from 1920 to 1940. Success has been slight.

But when the U. S. Army went into the Aleutians, and bill-dozers began to scrape camps into the land, trees were needed to prevent erosion.

It was also felt that trees would relieve the monotonous barren view on all sides.

The late Lt. Gen. Simon Bolivar Buckner, Jr., began a program by importing thousands of trees from Alaska. He even brought many from mainland camps, including white, black and Sitka spruce, mountain hemlock, northern black cottonwood, balsam, poplar, aspen, alder and willow.

The question of whether the forests will develop is open, say the botanists. They describe in the

He Wanted The Gateway--

-AND IT LOOKS LIKE HE'S GOING TO GET THE GATE!

same way the question of why trees have not survived in the past. But the Army's tree-planting program, if it does succeed, will bring the first forests to the Aleutians in millions of years.

The War Today ...

(Continued from page one) she not only is dependent on that outside world for much of her food and most of her other supplies, but she no longer can ship war material to her forces on the continent and on the Pacific islands which she still holds.

So we see a nation of 100,000,000 facing (1) destruction of its cities, (2) terrible civilian casualties which cannot be avoided in these tight little islands with their great concentrations of population, and (3) starvation!

However, we aren't sitting idly by, waiting for the answer. The announcement from General MacArthur's headquarters declares that "a mighty invasion force is being forced" under the primary responsibility of the commander "for the final conquest of Japan."

The American-British-Chinese ultimatum of July 26 to Japan gave the alternatives of immediate unconditional surrender of "prompt and utter destruction."

Death Ends ...

(Continued From Page One) tivities, he several times broke with that party, the most recent being his support of President Roosevelt in 1932.

During Roosevelt's second term, however, the veteran Californian opposed the President on several major issues and took the stump against him when he ran for a third term.

The dean of Republican senators, in point of service, Johnson was born at Sacramento, Calif., September 2, 1866, and traced his ancestry back to Colonial and Revolutionary days.

Stimson Says ...

(Continued From Page One) for development of the bomb. Stimson said that the fact that atomic energy can now be released on a large scale in an atomic bomb raises the prospect that such energy may have a big place in peacetime industrial purposes.

Already in the course of producing one of the elements much energy is being released, not explosively but in regulated amounts.

This energy, however, is in the form of heat at a temperature too low to make practicable the operation of a conventional power plant.

It will be a matter of much further research and development to design machines for the conversion of atomic energy into useful power.

Stimson said the atomic bomb had been developed with the full knowledge of and cooperation of Britain and Canada, and substantial patent controls on the weapon had been obtained in those countries.

President Roosevelt and Prime Minister Churchill many months ago decided that all work on the bombs should be concentrated in the United States in order to bring about quicker development of the weapon and to eliminate duplication.

As a result of that decision, a group of British scientists who had been working on the problem were transferred to the United States late in 1943 and since that time had participated in the development of the project in this country.

In addition Stimson disclosed one of Dr. Oppenheimer's great scientists—Dr. Neils Bohr—was whisked from the grasp of the Nazis in Denmark and later helped in development of the bomb.

Initially, Stimson said the project was placed under the direction of the Office of Scientific Research and Development with Dr. Vannevar Bush, director of OSRO, in charge. At the same time the President named a general policy group composed of former Vice-President Wallace Stimson, Gen. George C. Marshall, chief of staff, Dr. James B. Conant, president of Harvard University, and Dr. Bush.

This group in 1942 recommended a great expansion in the project at its suggestion supervision of the work assumed by the War Department. Maj. Gen. Leslie R. Groves, an army construction engineer, was placed in complete control.

Stimson said that General Groves' performance in developing the weapon in such a short period of time "has been truly outstanding and merits the very highest commendation."

This group, at the outset, included Stimson, Dr. Bush and Dr. Conant for the United States; Field Marshal Sir John Dill and Col. J. T. S. Jellicoe, for the United Kingdom, and G. D. Howe for Canada. Col. Llewellyn later was replaced by Sir Ronald I. Campbell who in turn was succeeded by the Earl of Halifax. Field Marshal Dill was succeeded by Sir Henry Maitland Wilson. Scientific advisers to the group included Dr. Richard C. Tolman for the United States members; Sir James Chadwick for the British, and Dean C. J. MacKenzie for the Canadian.

Stimson said that General Groves' performance in developing the weapon in such a short period of time "has been truly outstanding and merits the very highest commendation."

This group, at the outset, included Stimson, Dr. Bush and Dr. Conant for the United States; Field Marshal Sir John Dill and Col. J. T. S. Jellicoe, for the United Kingdom, and G. D. Howe for Canada. Col. Llewellyn later was replaced by Sir Ronald I. Campbell who in turn was succeeded by the Earl of Halifax. Field Marshal Dill was succeeded by Sir Henry Maitland Wilson. Scientific advisers to the group included Dr. Richard C. Tolman for the United States members; Sir James Chadwick for the British, and Dean C. J. MacKenzie for the Canadian.

To handle the problems arising from the control of the weapon and its implications for the peace of the world, Stimson said, he has also named a committee on which he will serve as chairman.

Other members of the committee are Secretary of State Byrnes; Ralph A. Bard, former undersecretary of the Navy; Assistant Secretary of State Will L. Clayton; Dr. Bush, Dr. Conant, Dr. Karl T. Compton, chief of the Office of Field Service in the office of Scientific Research and Development, and George L. Harrison, president of the New York Life Insurance Company and special consultant to Secretary of War Stimson.

Assisting the Interim Committee as a scientific panel are Dr. Oppenheimer, Dr. E. O. Lawrence, Dr. A. H. Compton and Dr. Enrico Fermi.

To Ask Unlimited ...

(Continued From Page One) proposed yesterday that the President have a free hand to vote for the use of American military contingents assigned to the Security Council but that he be required to obtain prior congressional consent for any additional forces.

The Michigan Senator would have the President report currently to Congress whenever he voted for sanctions or the use of force. He also suggested that the United States and its inter-American Allies assume the responsibility for armed forces required to maintain peace in this hemisphere.

Senator Pepper (D-Fla.) said he thought most of the conditions the Michigan Senator suggested were unnecessary.

Pepper criticized the suggestion that this and other Western Hemisphere nations take all of the responsibility for keeping peace in this part of the world, asserting to a reporter:

"That flies right in the face of the determination that this is not to be a regional organization but a world organization. Then Russia could say that only Russian troops should be used in certain areas and British could say only British troops were to be used in other places."

"Do we want to make everybody subject to a world organization except the Western Hemisphere? We might as well not have the organization."

Rather than annual appointment of the delegates to the general assembly, as suggested by Vandenberg, Pepper said it might be well to have five-year terms with one term expiring each year.

Stalin Seeks ...

(Continued From Page One) more than a wedge, considerable controversy is foreshadowed when the Big Three get down to detail on former Italian possessions.

The Potsdam communique showed that Russia wanted these placed under trusteeship. But it indicated that President Truman and Prime Minister Attlee objected.

It was decided finally that "the question of Italian territory would be considered by the September council" of foreign ministers assigned the task of drafting a peace treaty for Italy.

Pantelleria's great importance is its strategic position—comparable to that of Malta in the eastern Mediterranean.

And along with Pantelleria, according to diplomatic information, Russia also asked that Trieste—recent Anglo-Yugoslav storm center on the Adriatic—be placed under international trusteeship.

Thus, the Russian plan appears to be taking the form of a chain of internationally held bases across the Mediterranean.

A significant factor in this connection was the Big Three announcement on disposal of the German fleet and merchant marine. The communique said an agreement

was reached "in principle" and that experts would work out details to be announced "in due course."

Stalin already has announced that the Red fleet must continue to expand and it long has been a basic Russian policy to reach out for warm water access to the sea and the natural consequence, shipping and shipping lanes.

Grain Market
Chicago, Aug. 6—(AP)—Placing of hedges and selling by commission houses construed to be profit taking, depressed wheat futures today, loss at times extending to more than one cent a bushel. Other grains followed wheat downward.

At the close wheat was 1 1/2 to 1 3/4 lower than Saturday's close. September \$1.64 1/2. Corn was 1/2 to 1 cent lower. December \$1.17 1/2. Oats were 1/2 to 1 1/2 lower. September 63 1/2 to 64 1/2. Eye was 1/2 to 1 1/2 lower. September \$1.46 1/2. Barley was 1/2 to 1 1/2 lower. September \$1.10 1/2.

New York Cotton
New York, Aug. 6—(AP)—Cotton futures opened unchanged to 10 cents a bale higher.

Noon prices were 10 to 35 cents a bale higher. October 22.87, December 22.90, and March 22.88.

Futures closed 5 cents a bale higher to 15 lower.

Open	Last	Prv Cl.
Oct.	22.84	22.82
Dec.	22.85	22.84
March	22.86	22.85
May	22.82	22.79
July	22.56	22.54

Middling spot 22.22, unchanged.

N. Y. Stock Market
New York, Aug. 6—(AP)—Selected oils, motors and rails advanced in today's stock market although the overall trend was mixed in one of the lowest-volume sessions of 1945.

Prices were steady most of the time but near the final hour some gainers had transferred into losing territory. Steels and several of the metals had minus signs. Transfers approximated 500,000 shares.

Everybody raves about your salad, Peg. What's the secret?

MIRACLE WHIP! Its "different" flavor always makes a hit.

MILLIONS AGREE—Miracle Whip does work wonders with salads! A unique combination of old-fashioned boiled dressing and fine mayonnaise. Miracle Whip is far America's favorite salad dressing.

Canadian Troops Arrive In Pacific

Guam, Aug. 6—(AP)—Canadian troops, the vanguard of 30,000 men of the Canadian Army Pacific force, have arrived in advanced Pacific areas.

They will be followed by 17 Royal Canadian Air Force squadrons and 60 ships of the Canadian navy, including two aircraft carriers, two cruisers, destroyers and frigates.

Col. Richard S. Malone, director of the Canadian Army Public Relations, said the Canadians will fight alongside the Americans in the Pacific, using American weapons, organization, tactics and terms.

Shoe Inventory.
Raleigh, Aug. 6—(AP)—The 1,560 retail shoe outlets in Eastern Carolina are required to take an actual inventory of all shoes on hand as of the close of business July 24.

To Resume Oil Drilling
Raleigh, Aug. 6—(AP)—State Geologist J. L. Stuckey said today that drilling for oil in the mid-coastal area of North Carolina would be resumed in a few weeks.

Retains Control
Guam, Aug. 6—(AP)—Admiral Nimitz remains in control of all naval functions in and around the Ryukyu Islands, while control of all strategic air forces units there continues under General Spaat, a spokesman for Nimitz said today in commenting on the expansion of General MacArthur's command to Okinawa and the Ryukyus.

Chicago's growling Cubs clashed Cincinnati twice, 12-5 and 2-1, to stretch their first place lead in the National League to six games over the second place St. Louis Cards. Commissioner A. B. (Happy) Chandler saw the Cubs make it 17 out of 18 against the Rhinelanders.

Fritz Ostermueller, making his initial start for Pittsburgh since his discharge from the Army, was credited with his first victory of the season as the Pirates split with the Cards. Red Barrett won his 15th for the Redbirds in the opener 10-3, rising aiding Ostermueller to a 12-5 win.

Philadelphia's last place Athletics stunned the New York Yankees twice 6-3 and 4-3 to end their 10-game losing streak.

For the second time in three days, a Brooklyn pitcher held the Boston Braves hitless for seven innings as Red Herring blanked the Hubmen in the opener 7-0. The Braves, led by Tommy Holmes and Joe Medwick, who made four hits apiece,

Baseball

By JOE REICHLER
AP Sports Writer
Buddy Lewis today appeared well on his way to completing his 360th mission successfully.

The former Army Air Force captain, who flew 368 missions over "the Hump" in India, was the brightest star in baseball yesterday as the Washington Senators moved to within a half game of first place in the American League by sweeping both ends of a double header from the Boston Red Sox 5-4 and 5-1.

The 29-year-old outfield ace figure mission 389 will hit the mark if he makes a successful comeback and guides the Senators to their first pennant in a dozen years.

Since re-joining his mates, Lewis has sparked the Nats to 10 triumphs in their last 13 games to gain five full games on the league-leading Detroit Tigers.

Lewis' 14th inning single drive in George Myatt with the winning run in yesterday's opener and his three safeties plus two runs scored were the main factors in copping the Duke in the finale. Buddy also contributed brilliant work in the field, including a brilliant catch which started a double play, being instrumental in catching wins No. 10 for Pitcher Mickey Haefner and No. 13 for Roger Wolf.

Chicago's White Sox added to Detroit's misery by belting the Bengals twice 12-8 and 3-2, winning the nightcap with a three-run rally in the ninth. The double win made it four in a row for Chicago over the Tigers.

Chicago's growling Cubs clashed Cincinnati twice, 12-5 and 2-1, to stretch their first place lead in the National League to six games over the second place St. Louis Cards. Commissioner A. B. (Happy) Chandler saw the Cubs make it 17 out of 18 against the Rhinelanders.

won the nightcap however, 10-3. Bostonian Charley Workman assumed the league's leadership in honors by clotting his 18th.

New York Giants dumped the Philadelphia Phillies twice, 14-5 and 4-2 in 13 innings, with Danny Gardella's homer deciding the nightcap. Cleveland and St. Louis' Browns split. Jeff Heath's three-run homer in the ninth winning the opener 6-3 for the Indians, with the Sewell men eking out a 19-9 verdict in the finale.

COLORED NEWS

Usher Board Anniversary
The Mt. Cal. F.W.B. Church Usher Board held its anniversary Sunday, July 29, with the attendance of 98 members and friends present.

The program was very sacred and short due to fixing and arranging for the serving course.

We wish to thank the Corner Stone Baptist Church Usher Board club for their donation.

The Usher Board is doing fine and proud to say that we have 12

LIQUID CAPUDINE

new members to join in one month and a half.

The meeting will be held at the church as usual until further notice. Quarterly meeting is just around the corner and the Ushers are preparing to show up in a big number as never before. The chairman, Claude Brown and the president, Willie Joyner, and the secretary, E. M. Porteur, are striving to make that day a success by meeting the ushers each Sunday in order to get their program of work lined out.

We were also glad to have one of our Deacons with us on our anniversary and that was Honorable Deacon Isiah Corey who gave some splendid remarks to the gathering.

Prayer that God will bless the prayers, we say together—

Dear heavenly Father, as we pray before thee in our times of prayer, we feel the wonder and the mystery of our human life. And deeply do we feel the joy and the sorrow, the prosperity and the adversity that is in our lives and the lives around us. Help us to pray for these our friends, both in our fellowship and the world. Help us to do our part in bringing Thy Word to them. Bless all the ways in which joy may come. Bless the prayers which we say together, the work which we do together and the love which we send together.

Club Reporter, Esther Mae Porteur

LOCAL PLANE FLIES 'HUMP'

Pilot Thanks Greenville High For Selling War Bonds

By CHESTER WALSH
A C-54 Douglas Sky-master ambulance transport plane bought with money from War Bonds bought and sold under direction of the Greenville High School Student Council and Miss Imogene Ricks of the faculty is now in service on the China-Burma-India theater of operations, Supt. June H. Rose announced today.

The following letter from Capt. R. G. Pickhardt in India will be thrilling news to the faculty and students of the school:

"To the Student Body of Greenville High School: I'm writing this with the thought in mind that what I have to tell you will be of interest to you.

"To start — I'm a pilot in the China-Burma-India theater of the Air Transport Command.

"A few weeks ago I climbed into a C-54, you may know it as a Douglas Sky-master, and walking toward the cockpit I noticed a little placard on the door between the cabin and the crew compartment. I don't remember the exact phrasing but this placard stated that this C-54 was purchased through the War Bonds bought by the Greenville High School, Greenville, North Carolina.

"I had the pleasure of flying it over the 'hump' on its maiden voyage and the ship you sponsored performed like a true lady.

"I hope this letter will give each of you a sense of satisfaction in the knowledge that your plane is actively engaged in this part of the World War.

"Sincerely,
"Capt. R. G. Pickhardt."

Mr. Rose was enthusiastic today in his knowledge that the ambulance transport plane was bought with War Bonds sold and bought by Greenville High. "To say that the faculty and student body appreciate this is putting it mildly," Mr. Rose said. "The plane referred to in Capt. Pickhardt's letter is the one bought during the past school year. The campaign carried on throughout the year was under direction of the Student Council and Miss Imogene Ricks of the faculty. The student body appreciates this letter highly because out of a large number of planes bought by Greenville High students and faculty since 1940, this is the first time that the pilot of one of the planes has written a letter. Since 1940 the students and faculty have sold and bought more than three quarters of a million dollars worth of War Bonds, and during the coming year they will keep up the good work," Supt. Rose said.

Will Give Study To-Election Case

Lexington, Aug. 6—(AP)—Solicitor Lee Wilson said today he had not had sufficient opportunity to "sufficiently determine" any action he would take on charges that 24 ballots had been illegally cast in the general election in Davidson county last November.

Since July 15, when he received a 67-page report from the State Bureau of Investigation, he has been in court two weeks, he said, and has not had time to fully go into the report.

"If the result of my investigation shows prosecution is warranted, I shall send a bill to the grand jury," he said.

Wilson said he did not know whether he could complete his study by August 20, when the next term of criminal court opens here.

The original SBI probe was recommended by the State Board of Elections after it held a hearing in Lexington. It reported "flagrant" violations of the absentee ballot laws, and asked for a thorough probe.

In a statement last week, Chairman W. T. Joyner of the state elections board said the SBI report fully supported the stand of his board, and offered assistance in any prosecution that might result.

Will Bomb Japan . . .

(Continued from page one)
in their war effort but failed. Meantime American and British scientists studied the problem and developed two principal plants and some lesser factories for the production of atomic power.

The President disclosed that more than 65,000 persons now are working in great secrecy in these plants, adding:

"We have spent \$2,000,000,000 on the greatest scientific gamble in history—and won.

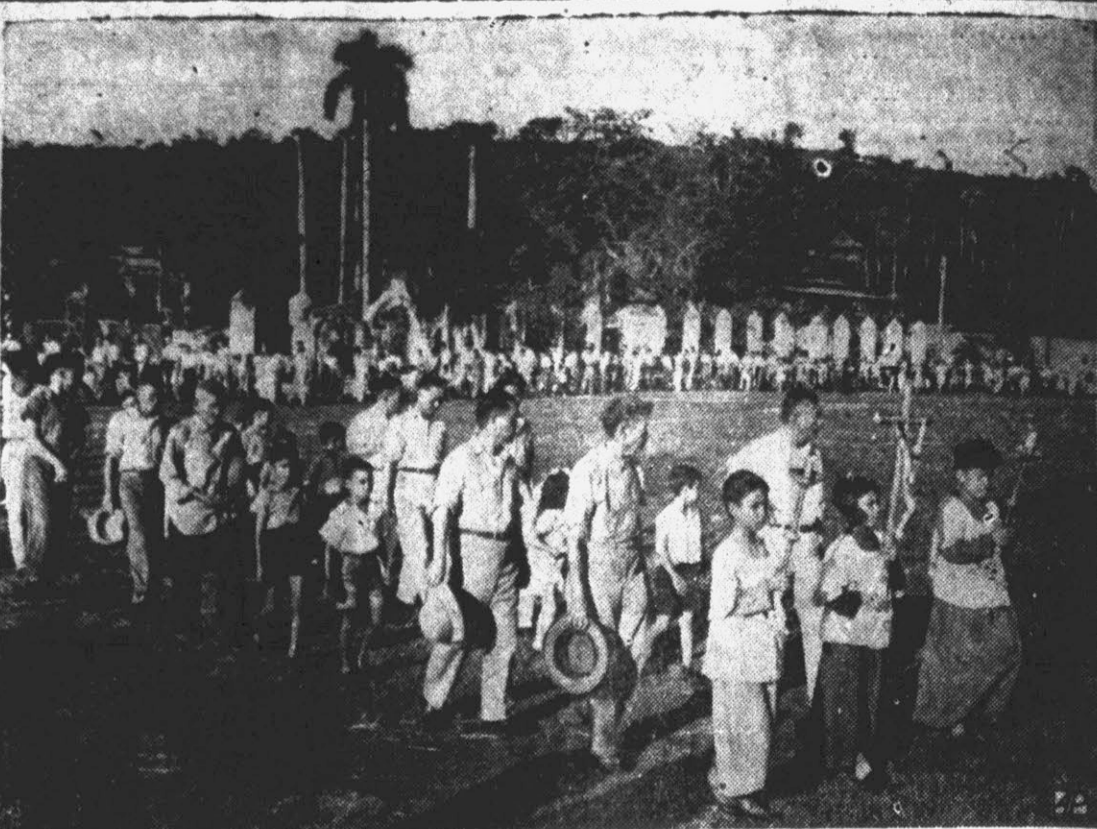

"We are now prepared to obliterate more rapidly and completely every productive enterprise the Japanese have above ground in any city. We shall completely destroy Japan's power to make war."

The President noted that the Big Three ultimatum issued July 26 at Potsdam was intended "to spare the Japanese people from utter destruction" and the Japanese leaders rejected it. The atomic bomb now is the answer to that rejection and the President said "they may expect a rain of ruin from the air, the like of which has never been seen on this earth."

Mr. Truman forecast that sea and land forces will follow up this air attack in such numbers and power as the Japanese never have witnessed.

The President said that this discovery may open the way for an entirely new concept of force and power.

The actual harnessing of atomic energy may in the future supplement the power that now comes from coal, oil and the great dams, he

JAP ATTACK BEATEN BACK

Effort To Break Out Of Philippine Trap Repulsed

By JAMES HUTCHESON
Manila, Aug. 6—(AP)—Desperately counter attacking Japanese were beaten back as they thrust vainly against the tightening Filipino-American noose around General Tomoyuki Yamashita's last hideout on Luzon, General MacArthur reported today.

The 32nd Division meanwhile offered a premium—a 45-day furlough in the United States—for the capture of "any live Japanese general." Yamashita, whose title has faded from "Tiger of Malaya" to the "Gopher of Luzon," is still alive and leading his troops' last ditch fight in the rugged mountains north of Baguio, some Filipinos insist.

MacArthur's communique reported 4,740 Japanese dead were counted and 444 prisoners captured in the last week, raising total enemy losses in the Philippines campaign to 443,012. American losses for the week: 27 dead, 61 wounded.

Two squads of the still-battling Japanese counter attacked Saturday northwest of Kiangang, only a few miles from Yamashita's last known hideout. They were driven back, but still are sheltered by a well-prepared "trench system" and are using mortar and light artillery fire. Smaller counter attacks were reported farther south near Mayayao against Filipino units.

One Japanese company which had been setting ambushes against the Americans in the northeast Luzon cleanup was wiped out in the Sierra Madre foothills.

Fire bombing Mitchells of the 13th Air Force blazed a flaming pathway for many of the American and Filipino ground advances, and accounted for a sizeable proportion of enemy casualties.

Maj. Gen. William Gill announced the 12th Division bounty on live Japanese generals.

The division earlier had to cancel its standing offer of a case of beer and a three-day pass to Manila for each live prisoner; it already had paid off for 50 of these ordinary captives.

It has never been the habit of the scientists of this country or the policy of this government to withhold from the world scientific knowledge," Mr. Truman said. "Normally therefore everything about the work with atomic energy would be made public."

That will have to wait, however, he said, until the war emergency is over.

Summons Violators OPA For Hearings

Raleigh August 6—The Raleigh district OPA announced today that the Gem Store, of Greenville, was among five firms that had been summoned to a hearing before Hearing Commissioner Clement Sutton, of Atlanta, to be held in Raleigh August 30.

The Gem Store is charged by OPA with having failed to post the official OPA table of point values, failure to place point values on meat displayed for sale and transferring ration points in an improper manner.

Others scheduled to be heard during the sessions are Charlie Wilson and R. M. Perry, of Raleigh; Edidson Brace of Rowland and Hkieralla Brocley Grocery of Rowland.

Burned To Death

Detroit, Aug. 6—(AP)—Five persons, including two seven-year-old twin brothers, lost their lives and another inmate was in critical condition after a Sunday night explosion and fire at a Detroit orphanage and old people's home.

More than 120 other persons were led or carried to safety by orphanage employees and firemen.

Police identified the dead as: Albert and Alfred Cade, seven; Christine Lentz, 80; Elizabeth Berch, 82; and Ida Albrecht, 82.

TYPHOON HITS BIG CARRIER

Hornet Damaged By Storm Off Okinawa June 5

Washington, Aug. 6—(AP)—A mountainous wave lifted up and smacked down the 27,000-ton aircraft carrier Hornet so hard last June 5 that the forward corners of the flight deck folded down along the sides.

Thus nature, in the form of a 120-knot gale (138 miles an hour), achieved what the Japanese never were able to do in 14 months of hard-fought action—it damaged the big ship.

The Navy told the Hornet's story today. It let the Japanese know exactly where the Hornet is—Hunter's Point in San Francisco Bay. She steamed through the Golden Gate July 7 and went to drydocks for repair.

Behind her lay 1,270,000 tons of enemy shipping sunk or damaged and 1,410 ruined enemy planes.

Some of the figures: 668 planes shot down; 742 planes destroyed on the ground; one cruiser sunk; one carrier sunk; 10 destroyers sunk; 42 cargo ships sunk.

The Hornet, named for the ship which launched the first bombing raid on Tokyo, was 150 miles off Okinawa when the typhoon struck at 2 a. m. June 5.

Her bow rose atop a great wave and then dropped with an impact which folded down the flight deck. The engines were stopped and the

ship drifted before the raging wind. She had to back into the wind next morning to get search planes off the deck. They helped reassemble the task force. After their return the Hornet retired from the area. The Hornet spent 82 days under Japanese air attack without being hit by even a machine gun bullet. Her crew claims a record in the shooting down of 255 Japanese planes in a 30-day period. In one day she accounted for 67. The Hornet's last major action was the destruction by her planes of a huge new Japanese aircraft factory on the home island of Kyushu before it had time to manufacture a plane.

Chinese Score Important Gain

Chungking, Aug. 6—(AP)—Chinese troops have broken into the highway junction center of Yeung-kong close to the South China Sea and are fighting in the streets of that town 125 miles southwest of Canton, the Chinese High Command announced today.

Yeungkong is at the junction of the Kwangtung coastal highway and a road running northeast to Canton and by breaking into it the Chinese secured control of a 50-mile stretch of "invasion coast" eastward from Timpak east of the Luichow peninsula.

This stretch is now open to a virtually unopposed landing if Americans should choose it for a staging point for supplies to Chinese armies in South China. A stretch of the coast west of the Luichow peninsula as far as Indo-China has been under Chinese control for some time, and a determined Chinese push from both sides now might seal off the Japanese on the peninsula and on Hainan Island.
