New Jap Cabinet Is Being Formed

Baron Kijuro Shidehara, Opponent of Jap Military Aggression, Selected as New Premier; Yoshida to Remain as Foreign Minister.

Tokyo, Oct. 6.—(AP)—The trembling old hands of Baron Kijuro Shidehara, who fought Japanese military aggression from its start today picked up the reins of Japanese government—which he said he hopes to make truly liberal.

The 73-year-old enfeebled baron was summoned dramatically from 14 years of retirement, forced upon him by the military whom he opposed, to become premier of Japan at its most critical point in history.

He promised Emperor Hirohito to "do my best" to form a cabinet that would meet with the approval of Allied occupation authorities.

Shidehara's first official act was to reappoint Shigeru Yoshida as foreign minister, Domei reported.

Yoshida, who had stepped out with the Higashi-Kuni cabinet, was said to have accepted the reappointment.

The new premier announced that he expected to complete his cabinet within two or three days.

Shidehara was invested by the emperor at 1:22 p. m. (11:22 p. m., Friday, EST).

The baron appeared at a press conference dressed in formal afternoon attire—cutaway coat, striped trousers, stiff collar and gold-correspondents his appointment came as a surprise.

He said the emperor had given him no directive, but merely asked him to try to form a new cabinet.

Asked if he knew why Hirohito brought him out of retirement, he said: "I don't ask the emperor why did you choose me?"

Formerly Japan's ambassador to the United States, the new premier said he thought it would be possible for Japan and the United States to become friends.

He said he expected no difficulty in finding liberal, progressive men for his new government.

"There are many of them in Japan," he declared, "and it is to Japan's ambassador there from 1918 appointments."

Asked if his cabinet would be a stop-gap to last only until the January elections, Shidehara said he hoped the body once formed would "continue as long as it has the confidence of the people."

REPORTS ON CONFERENCE

Byrnes Hopes For "Truly Representative" Peace Meeting This Year.

Washington, Oct. 6.—(AP)—Despite the breakdown of the Five-power conference in London, Secretary Byrnes still has hopes today for "a truly representative" European peace meeting before the end of the year.

He indicated Russia's attitude will determine whether it materializes.

Soviet Foreign Commissar Molotov has not rejected the United States proposal for such a conference.

Byrnes strongly emphasized his belief that this means all Allied nations directly involved—not just Russia, Britain and the United States.

At different points in his address he put it in the following way: "At Berlin it certainly was never intended that the three powers present or the five powers constituting the Council of Foreign Ministers should take unto themselves the making of the final peace."

At London "the American delegation at London was over-recognized, independent, democratic world, peace cannot be exclusive concern of a few presently powerful states."

The United States is unwilling to dictate terms of peace to its allies.

Byrnes disclosed that the big difference at London was over recognition of the present Bulgarian and Hungarian governments.

Because the United States and Britain have not yet recognized the regimes, Russia apparently believing they object to the friendliness of the two Balkan governments for the Soviet Union, Byrnes said. He asserted:

"There could be no greater misconception of our attitude."

Byrnes made it plain, too, that another stumbling block was Russia's insistence on excluding France and China from discussion of peace treaties for countries with which they had not been at war.

Russian demands that France be invited to any talks by the Union.

To Boycott Argentina Washington, Oct. 6.—(AP)—Possibility was seen today that the American Republics will freeze Argentina out of the family by signing a mutual defense treaty at a conference outside the Pan American Union.

The United States is attempting to bar Argentina from signing the treaty agreed upon at the United Nations meeting in San Francisco.

Argentina, as a member, must be invited to any talks by the Union.

Infantry Beauty Queen Is A Polio Victim

LAVAL TRIAL IS SUSPENDED

Former French Premier Ejected From Court Room For Second Time.

Paris, Oct. 6.—(AP)—Albert Laval, last elected president of the French Republic, testified briefly at the trial of Pierre Laval today after two court recesses brought on by the defendant and then the hearing was continued until Monday.

Le Brun was called by Judge Paul Mongibeaux as the first prosecution witness while Laval stayed in an anteroom, declaring he would go back into court only in handcuffs.

The former Vichy chief of government, on trial for his life on a charge of having intelligence with the enemy, was expelled from the court by the judge for the second time in three days after a heated argument among the judge, the defendant and the prosecutor, Andre Mornet.

Laval later was readmitted, but an absence of witnesses caused a further delay and suspension of court proceedings.

After ordering Laval from the French high court of justice for failing to answer a question from the bench, Judge Paul Mongibeaux announced that the session was suspended for an "indefinite period."

Laval was brought back into the court a short time later, but went on a one-man, sit-down strike. Mongibeaux immediately discontinued the interrogation of Laval and suspended the session a second time when there were no witnesses present to continue the trial.

Upon his return to the courtroom Laval said:

"The insulting way you put your questions and the behavior of some of the jurors led me to believe you are about to commit a judicial crime in which I will not take part and I, therefore, prefer to sit down."

Laval's expulsion and the day's first suspension produced an uproar in the court. Everyone rose. A juror shouted: "That's not French justice!"

In the French press box someone within earshot of Mongibeaux said: "Laval is right."

Laval, successful yesterday in contesting accusations that he plotted against France's domestic security, still faced the more serious charge of having had intelligence with the enemy during the 1940 meeting of Marshal Petain and Adolf Hitler at Montoire.

Today In Congress

By Max Hall

Washington, Oct. 6.—(AP)—Atomic power and taxes were the big noises today as Congress struggled into the second month of its post-war session.

From now on, this may well be the "atomic Congress."

In Congress this week, there was no longer such a great uproar over army and navy discharges.

White House proposals for more aid to the unemployed and for future full employment were resting—somewhere between the Senate and the House.

They were half way through Congress, but had been cut, bruised and amended in the process.

Congressmen themselves were today resting. They held no meetings.

Here is a review of important proposals and where they stand.

Atomic Energy: A bill to create a commission to study atomic development (the May Johnson bill); The House military committee will start hearings Tuesday. The Senate hasn't decided what committee will consider it.

Congress and the Atom: To create a new Senate-House committee which would consider all atomic bills: The Senate passed the Vandenberg resolution setting up a 12-man group. No House action is in sight.

Taxes: To cut them: House Ways and Means Committee is now ready to send a \$5,300,000,000 tax

reduction bill to the House. House will debate it next week and probably pass it. Then it will go to Senate Finance Committee.

Government Makes Effort To Head Off Coal Strike

TRUMAN OFF ON VACATION

Will Visit Six States During Five-Day Trip

Berryville, Va., Oct. 6.—(AP)—President Truman will fly directly from Washington to Blytheville, Ark., instead of proceeding from Martinsburg, W. Va.

Bad weather at Martinsburg called for a change in the original plan to take off there after the Ch. Heming wedding here at which the President served as best man.

Washington, Oct. 6.—(AP)—President Truman left today for Berryville, Va., to act as best man at a wedding—first engagement on a five-day, six-state trip.

Before departing at 9 a. m. (EST) Mr. Truman added Reelfoot Lake, West Tennessee's favorite rendezvous for fishermen, to his itinerary.

The Chief Executive started his journey by automobile but later is to use a plane.

Besides his official party, the President was accompanied by Mrs. Truman and their daughter Margaret. The latter planned to return to Washington from Berryville later in the day.

Others with Mr. Truman were John W. Snyder, reconversion director; Brig. Gen. Harry H. Vaughn, presidential military aide; George E. Allen, Washington insurance man and advisor on war plant liquidation; Secretaries Charles G. Ross and Matthew J. Connelly and Senate Secretary Leslie Biffle.

The party also included Col. Wallace Graham, the President's physician; Senator Briggs (D-Mo.), who is going to Missouri, and Rep. Randolph (D-W.Va.), who will travel with Mr. Truman as far as Martinsburg, Va.

The President will spend next Monday and Tuesday at the West Tennessee bass wonderland before moving into Kentucky Wednesday for a speech dedicating TVA's big dam at Gilbertsville.

First on his schedule, however, was an engagement at 11 a. m. today as best man at the wedding of Bennett Champ Clark, former Missouri senator and now a judge of the U. S. Court of Appeals, for the District of Columbia.

Judge Clark will be married at Grace Episcopal Church, Berryville, Va., to Violet Heming, the actress.

The President planned to attend the wedding and a subsequent reception at the nearby estate of James N. Thompson, then drive to Martinsburg, to board his plane, "The Flying Cow."

After flying to Blytheville, Ark., he is due there at 5:45 p. m. (CST)—he will drive to Caruthersville, Mo., to attend a county fair Sunday.

On Monday he will go by automobile to Reelfoot Lake, a reservoir in the Mississippi River. He will spend two nights at a private fishing lodge.

The President will be up bright and early Wednesday for the drive to Gilbertsville for an 11 a. m. (CST) speech. He is expected to outline administration plans for a postwar flood control and public power development.

Phone Union Head

Joseph Beirne (above) heads the National Federation of Telephone Workers, an independent union, which called 200,000 telephone workers from their jobs for a four-hour demonstration strike from 12:00 p. m. to 1:00 p. m., eastern standard time, yesterday. (AP Wirephoto).

Labor Secretary Calls Meeting Of Mine Workers and Operators; Strikes In Some Industries Settled, Trouble Looms In Others.

By HAROLD W. WARD Washington, Oct. 6.—(AP)—Secretary of Labor Schwellenbach called in the United Mine Workers and the soft coal operators today in search of a way to avert a nationwide coal strike.

Work stoppages in the mines are cutting deep into bituminous stocks. The Solid Fuels Administration extended its controls over distribution while walkout spread to a sixth state, Indiana.

Schwellenbach turned quickly to this problem after his efforts at conciliation between the CIO-Oil Workers and ten refinery companies ended in failure and navy seizure of the plants by White House orders.

In the offing was more trouble foreshadowed by a "demonstration" walkout of 250,000 telephone workers which paralyzed operator service in the Bell System for a few hours yesterday.

President Joseph Beirne of the National Federation of Telephone Workers said his union would follow up with a petition to the National Labor Relations Board for a strike vote.

More than 150,000 miners are involved in the spreading coal strikes. Production is down by 740,000 tons daily out of the million-ton daily normal average. Solid Fuels Administrator Ickes said 529 mines were idle at the start of business today.

John L. Lewis is seeking recognition of his supervisory workers union, a part of District 56, United Mine Workers. They left their jobs. Since these employees must make inspection before the work shift begins, production workers were made idle.

The operators twice declined Lewis' invitations to come to Washington to discuss the foreman's problem—a piece of unsettled business left from last spring's contract negotiations.

Lewis said the mine workers would have "adequate representation" without saying he would attend the sessions himself.

Edward R. Burke, head of the Southern Coal Producers' Association, accepted for the operators. At the same time, he said they are rigidly opposed to making bona fide supervisory employes a part of the union, because of their ties with management.

Meantime it was learned the navy has agreed to join with the CIO-Oil Workers Union in asking War Labor Board approval of a 15 per cent wage increase which some refinery companies have agreed to put into effect when a 40-hour week is restored.

Some companies already are getting ready to go from a 48 or 44 hour week to 40 hours, but the production loss caused by the strikes beginning September 16 may delay them.

Despite the critical labor picture a labor-management conference scheduled for November cannot (Continued on Page Three)

POLICE DID GREAT WORK

Arrest Alleged Forger Here For Flashing Bad Checks

By CHESTER WALSH Greenville police did some clever sleuthing which resulted in the arrest of Romain F. Daigle, 34, of Williamston, alleged professional forger and bogus check flasher, yesterday afternoon after he had cashed forged checks at Curtis Perkins' and John Saieed's stores for \$57.60 and \$64.50, respectively, when he made small purchases.

When questioned by Chief James E. Tanner at police headquarters Daigle turned over to him about \$200 in cash and requested him to reimburse the two merchants for the checks.

The chief said Daigle told him he had been in similar trouble before and that he had served time for forgery in a federal prison in Massachusetts. He will be tried for forgery in Police Court Monday.

Policeman T. E. Gladson and Marine M. P. Pfc. Eugene Fisher arrested Daigle at the bus station last night after he had bought a ticket for Williamston.

Nipping in the bud of the bogus check flashing yesterday afternoon was a result of cooperation between private citizens and police. Chief Tanner said Daigle went into an office downtown and asked permission to use a typewriter. The businessman obviously was filling out checks. He watched (Continued on page three)

The NATION TODAY

By James Marlow

By ARTHUR EDSON (Substituting for James Marlow) Washington, Oct. 6.—(AP)—Looking after war veterans' needs will cost at least \$2,637,119,250 this year.

That's almost four times as much as it cost to run the entire federal government in 1916.

And the boys have just started to come home.

Each year the cost will go up. New benefits will be added, more veterans will be entitled to pensions.

How high is it likely to go?

The Brookings Institution is one of the few organizations to attempt a partial answer. It doesn't hint at what the maximum may eventually be.

But its economists, in trying to estimate postwar taxes, guessed that by the fiscal year 1947-48 veterans' benefits will cost \$2,889,900,000.

Officials of veterans' organizations—such as the American Legion, Veterans of Foreign Wars and Disabled American Veterans—won't make a prediction, on or off the record.

They say it all depends on:

1. What Congress does in the way of granting additional benefits. For example, they believe a bonus is sure to come. In their opinion there are only two question marks about the bonus—when? and how much?
2. The Legion hasn't come out with a plan yet, but the VFW believes a veteran should be paid a \$3 bonus for each day spent in service in the U. S., and \$4 for each day in foreign service.

Estimated cost: \$31,500,000,000. This compares with a World War I bonus figure of \$3,758,000,000.

1. The economy of the country.
2. When times are bad, a veteran naturally thinks about what he can get from the government. Then claims for pensions mount.
3. He also may take advantage of hospitalization he spurned when jobs were easier to find. In any depression, veterans' hospitals are jammed.
4. How soon a reaction to veterans' benefits sets in. Right now nothing is too good for the boys. The pendulum, the veterans groups say, is bound to swing in the other direction.
5. But they remark there's one thing that you, the taxpayer, should realize.

In this war, with its 15,000,000 veterans, even chicken-feed benefits will run into big money—because so many men and women are entitled to them.

Kid Trouble. Portland, Ore., Oct. 6.—(AP)—A burglar, more scientific than domestic, didn't make any progress in a Portland home.

Clem Johnson awoke and found his bed sprinkled with chloroform. A precautionary measure taken by the scientific prowler.

However, the intruder forgot to treat the baby's bed and the howling child scared him away.

The banjo originated in America. It is named after its inventor, Joseph Sweeney, who, because he played so many instruments was called "Band Joe" or "Banjo."

MacArthur Lifts Press Censorship

Tokyo, Oct. 6.—(AP)—General MacArthur today terminated military press censorship for Allied correspondents, maintaining only his censorship of the Japanese press, and radio.

Authorization to lift or to retain Allied press censorship in Japan and Korea at his discretion was received from the War Department, a headquarters announcement said. Its termination was made effective immediately.

The War Department message pointed out, however, that by accepting accreditation to the army, correspondents were obligated to continue to submit all "doubtful material," even after formal military censorship had ended.

Outlook For Different Industries

Babson Likes Chemicals Best

Babson Park, Mass., Oct. 6.—Since the address of President Truman on September sixth, and with that address in mind, I herewith submit an outlook for the leading industries. Of the few not here mentioned, such as the steels, rubbers and utilities, I will write next week.

Automobiles: Most investors are bullish on the automobile industry. As a result, the stock market has fairly well discounted possible profits. I am optimistic on the industry; but am not certain as to how long automobile stocks will continue to go up.

Air Transport: This industry is heading for huge expansion, but here, again, the stock market has pretty well discounted this growth. Moreover, the industry will call for vast new capital expenditures, possibly putting out bond issues. I am inclined to be moderately bullish on this industry.

Aircraft Manufacturing: The most hopeful fact regarding this industry is that almost everyone is bearish on it! Gross earnings will probably shrink to ten per cent or less of their pre-war peak; but their asset values per share of stock are high. It is uncertain what will happen to these stocks; but the chances are they will sell lower.

Agricultural Equipment: This industry will enjoy a deferred demand for farm machinery; but it faces a decline in farm prices due to a slackening demand for farm products. No increase in dividends can be expected during the early post-war years; but prices should hold firm.

Banking: Bank earnings should improve for several reasons. Moreover, bank stocks, as a group, are relatively attractively priced. They offer one of the safest investments at the present time.

Building: Although building stocks have gone up considerably in price, they are headed for a great housing boom. I, therefore, am optimistic on gypsum, cement, hardware and especially paint sales. Everything favors these building stocks.

Chemicals: Although the chemical industry will temporarily suffer from war cancellations, it should quickly replace these as peacetime goods are manufactured. It also should benefit as the excess profits taxes are reduced. The industry should be a good inflation hedge and profit from atomic energy developments. For these and other reasons, I class the chemicals among the highest grade investment issues.

Containers: The can makers have no re-conversion problems and there soon will be enough tin to satisfy all demands. The can companies, however, must increase their dividends if they expect their stocks to sell at higher figures. The glass container business is bound to fall off during this post-war period and its stocks are not especially attractive at current levels.

Electrical Appliances: The post-war demand for electrical appliances will be tremendous; but the competition between different manufacturers will be very severe. The companies should, however, continue their present dividends. Any purchases made should be spread over several dominant companies rather than be confined to one company.

Foods: Food stocks may continue to hold their own, but the group is not too attractive at present prices. This especially applies to the baking stocks. The dairy industry appears the most attractive to the conservative investor. I do not want to give any opinion on the meat packing industry as no one knows how much it will suffer from frozen foods which industry has a great future.

Machinery: The machinery companies will suffer during the post-war period but this has been discounted to a large extent in the stock market. I should not sacrifice machine tool stocks, but I would not purchase more at this time.

Read my further comments next week.

British Hang Five German Prisoners

London, Oct. 6.—(AP)—Five German prisoners of war were hanged today for the murder of a fellow prisoner whom they had "tried" and condemned for deserting the Nazi creed.

The sentences of death were announced last night by the war office. The men were accused of having tried in a "kangaroo court" Sgt. Major Wolfgang Rostger, whom they hanged in a Scottish prison camp last year, a day after his arrival at the camp.

Chinaman Betrayed Doolittle Airmen

Shanghai, Oct. 6.—(AP)—A bespectacled little Chinese with a round face and a constant grin betrayed five Doolittle airmen, the Navy said today, as they tried to reach free China after crashing their Tokyo-bombing B-25 into Hangchow bay on April 18, 1942.

A naval spokesman said intelligence officers were "hot on the heels of the traitor," with enough evidence in their hands to execute him in short order.

Little was known of the Chinese except that he served the Japanese as an interpreter. The navy said, however, that he encountered the flyers trying to escape overland and pretended to lead them to safety, but instead turned them over to the Japanese army.

The WORLD TODAY

An Analysis Of The News

By DEWITT MACKENZIE AP Foreign Affairs Analyst

It's best.

It's an old saying—and generally true—that when a man has something heavy on his chest, it's best to speak up and get rid of it.

So in the long run the Soviet government organ Izvestia may have helped clear the air by its sharp charges against the attitudes of the Anglo-American Allies in the in-harmonious conference of the Big Five Council of Foreign Ministers which just ended in London. It isn't that the Western Allies agree with the strictures (for they don't), but that Moscow's viewpoint has been banged face up on the table where all can see.

The conference came to an unhappy deadlock over procedure in drawing up the peace treaties for Romania, Bulgaria, Hungary and Finland. American Secretary of State Byrnes and British Foreign Minister Bevan held that France, China—as well as Russia, Britain and the United States—should agree on the terms of these treaties. Soviet Foreign Minister Molotov has maintained that the Potsdam agreement limited the discussions to the signatories of the various armistices.

Izvestia accused Messrs. Byrnes and Bevan of attempting to break the Potsdam agreement. It added that if the Allies persist in their stand it "will shake the very basis of collaboration among the three powers." The paper declared that we must not underestimate the seriousness of what happened.

Of course, such a disagreement is serious. Actually it is more serious than appears on the surface because, as I have pointed out previously, power politics are entering into the situation. However, nothing has come to light thus far to justify the extreme pessimism which one encounters in some quarters. Certainly there's nothing to warrant the unforgivable thought that "you can't change human nature" and "there's bound to be another war."

If one may be permitted the observation, it looks as though a splash of "all take and no give" is trying to jimmy its way into the councils of the great powers. The Allies won the war on the basis of "give" and not of "take." In those days it was pretty much all "give" and no "take" as the United Nations battled for life. Every one gave all he had to the common cause.

It seems mighty queer that this lesson of "all for one and one for all" should have been forgotten so quickly. It's particularly peculiar since the world just now is heading into perhaps the most terrible political energy. To let the Potsdam agreement be the coming winter of starvation and turmoil in many countries is going to be tough whatever you look at it. And it's going to be a period of extreme danger.

The one "must" in this situation is that the Big Three—Russia, America and Britain—have got to stand together if peace is to reign. Their programs should be heading toward peace and not toward. Russia has just made known that she is (Continued on page three)

Johnston-Wilson

The marriage of Miss Dorothy Wilson youngest daughter of Mr. and Mrs. Jesse P. Wilson of Grimesland to Mr. Charlie C. Johnston, son of Mrs. Jeffie D. Johnston of Murfreesboro, Tenn., was solemnized on Saturday, September 29, at five o'clock in the afternoon in the Methodist Church of Grimesland.

The Rev. C. B. Harris, pastor of the bride, officiated using the double ring ceremony.

The wedding music was rendered by Miss Ona Bliss Lewis, the soloist being Mr. A. K. Perkins of Goldsboro.

The bride entered on the arm of her only brother, Robert Wilson, by whom she was given in marriage. Her suit was of green wool with brown accessories. Her corsage was a purple throated orchid.

Mrs. Stephen Caton, sister of the bride, as matron of honor, wore a yellow gaberden suit with black accessories, her flowers were pink roses.

The bridegroom was attended by Mr. F. B. Daly of Goldsboro as best

Roe-Mayo

The marriage of Miss Daisy King Mayo, daughter of Mr. and Mrs. Cary Burwell Mayo of Greenville, and Lt. Clyde Bernhard Roe, son of Mr. and Mrs. C. L. Roe of Sioux City, Iowa, was solemnized on October 3rd at five o'clock in the afternoon, at St. Paul's Episcopal church with the Rector Dr. J. R. Bill officiating.

A program of prenuptial music was presented by Mrs. Ray Tyson, organist, and Mrs. Dink James, soloist.

The bride, given in marriage by her father, wore a gown of white satin designed with fitted bodice, sweetheart neckline, long tight sleeves and a full flowing skirt extending into a train. Her veil was fingertip length held by a band of lace and orange blossoms. Her bouquet was of white roses, showered with tube roses and centered with a white orchid.

The bride was attended by Miss Jane Hardee who wore a rown of blue net with matching half hat of tiny net ruffles. Her bouquet was pink roses tied with pink satin ribbon.

The bridegroom was attended by Lt. Delma Nash of Massachusetts as his best man.

The ushers were Cary Burwell Mayo, Jr., brother of the bride and Lt. Ray Wase of Syracuse, N. Y.

The mother of the bride wore a black sheer dress, black accessories and a corsage of red roses.

The mother of the groom wore a blue crepe with matching accessories and a corsage of white roses.

Mrs. Roe, attractive and popular member of the younger set, is a graduate of Peace College and E. C. T. C. and has held a position with Moselev Bros. Insurance Co.

Lt. Roe is the son of Mr. and Mrs. C. L. Roe of Sioux City, Iowa. Since receiving his degree at Iowa State College, he has been with the United States Marine Air Corps, and has recently returned from duty in the Pacific.

A reception following the wedding was held at the bride's home for the wedding party, out of town guests and some close friends.

After the reception Lt. and Mrs. Roe left for a wedding trip. For traveling the bride chose a black dress with blue trimmings and black accessories. Her corsage was a white orchid taken from her bouquet.

Thurman D. Cooper Found Dead In Bed

Thurman Dallas Cooper, 45, was found dead in bed at the home of W. F. Forrest on Mrs. Hortense Moyer's farm near Bell Arthur Friday afternoon about 3:30. Pitt County Coroner Griffin H. Rouse said he died of natural causes. No inquest will be held.

Funeral services will be held in the Garris family cemetery near Winterville this afternoon at 4 o'clock. Rev. W. B. Nobles, Free Will Baptist minister of Winterville, will officiate.

Mr. Cooper was born and reared near Winterville and spent nearly all of his life in Pitt County.

Surviving are a brother, E. A. Cooper of near Winterville, and a sister, Mrs. Cleveland Vincent of near Winterville.

W. C. T. U.

The October meeting of the Greenville Woman's Christian Temperance Union met at the Public Library Wednesday afternoon at 3:30. After a hymn and prayer the secretary called the roll. Each member present answered with a verse of scripture bearing on the subject of total abstinence.

The time for the regular monthly meetings was set for the first Wednesday in the month.

By unanimous vote an invitation was extended the northeast district meeting to be held with the union October 19.

At the conclusion of the business session, Mrs. Wiley Brown read some short but convincing articles on W. C. T. U. work. The meeting was dismissed with prayer led by Mrs. Irene Stroud.

New members added to the roll since the September meeting are Miss Lill Wilson, Mesdames C. A. Rumley, T. R. Moore, L. W. Tripp, Nan H. Moore, W. O. Bilbro, James Brown, S. B. Hardee, Steve Turlington, and Mrs. E. B. Allsbrook.

Fireworks will feature the Pitt County Fair each night the week of October 15-20. Sponsored by the American Legion. 2-tf.

# Phantoms Trounced Tarboro 32 To 0 Here Last Night

## Spectacular Runs and Passes by Locals Furnished Many Thrills.

Coach Bo Farley's Flying Phantoms ended their first home stay in great fashion last night as they smashed to an easy 32-0 victory over the hard-fighting, but unavailing Tarboro Tigers at Guy Smith Stadium.

Despite the large score, the game was a good one to watch as it provided several sensational runs and passes by the Phantom backfield, with diminutive Wingback Jimmy (Stud) Lee doing more than his share of providing the thrills.

Tarboro put up a much better fight than the score indicates, however, especially when they were on the offensive and threatened the Greenville goal line more than once. They seemed to have a good offensive ball club, but were weak on defense.

Fortunately, the Phantoms encountered no serious injuries and so far as is known, Tarboro was equally lucky, although some of their players were helped from the field on various occasions.

Greenville kicked off and after gaining a first down, Tarboro kicked to Harrington, who got back to about his own thirty-five. Several plays netted a first down for Greenville and then Jimmy Lee turned in the first spectacular play of the game by taking a reverse from Jimmy Futrell and racing 50 yards behind beautiful interference for a score. J. T. Williams' attempted placement for the extra point was not good.

The second Phantom payoff play came a few minutes later when blocking back Mac Batchelor nabbed an aerial from Billy Harrington and romped 35 yards for another touchdown. Williams' placement was good, making the score 13-0.

"Stud" Lee set up the next touchdown by taking another reverse and traveling down to about the five from here. Harrington took it over on an end around. Williams' kick was not good, leaving the score at Greenville 19, Tarboro 0.

The half ended with the ball in Tarboro's possession.

In the third quarter the Phantoms hit pay dirt again. This time on a pass with Billy Harrington doing the throwing and "Stud" Lee on the receiving end. It was a beautiful pass, possibly the best Harrington has thrown all season, and it traveled about 40 yards. Williams failed to convert, making the score stand at 25-0.

The Tarboro boys, after this Greenville touchdown, put on a good drive in an effort to score but were finally halted on about the Phantoms' 15-yard line.

In the final period Harrington pitched another strike. This time to lanky end Jimmy Ward, who took over for a touchdown after catching it on about the Tarboro 45-yard line. J. T. Williams' placement was good this time, making the final score: Greenville 32, Tarboro 0.

Jimmy Futrell's line smashes were another highlight of the game and he threw several beautiful passes from his fullback position. Siders, Futrell's substitute, also played a good game. The whole line played a bang-up game, especially when they halted the Tarboro drive deep in Greenville territory.

The starting lineup for the Greensies was on the line Jimmy Ward and Henry Turner at ends; Lewis Lawrence and "Bud" Whitehurst at tackle; Bobby Clark and Jack Whichard at guards; and J. T. Williams at center.

In the back field were Billy Harrington at tail back; Jimmy Futrell at fullback; Mac Batchelor at blocking back; and Jimmy Lee at the wingback.

## Fans To Meet

Baseball fans from six Eastern Carolina towns will meet at the City Hall in Greenville Sunday afternoon at 2:30 to make plans for reorganizing the Coastal Plain League which was disbanded shortly after the war started. Ray Goodman of Williamston, president of the league when it disbanded, will preside.

Greenville, Kinston, New Bern, Goldsboro, Wilson, Williamston, Tarboro and other towns will be represented at the meeting.

Clay V. Smith, president of the Greenville club when the league disbanded, said the fans here want baseball and that he will help to organize a club in Greenville.

of Japanese government.

Shidehara, one of Japan's best known liberals, waged a strong fight against imperialistic militarists in the late 20s and early 30s during a series of crises over the Nipponese expansion to the Asiatic continent.

He was councillor at the Japanese embassy in Washington before the first World War and served as Japan's ambassador there from 1918 to 1922.

There was immediate speculation that the new Japanese government might be short-lived. Shidehara reportedly accepted only because he, too, believed this.

Sources at General MacArthur's headquarters, who said Higashi-Kuni's "straddling cabinet" had reached an expected end, considered it likely that the Japanese are avoiding selection of the strongest possible premier at this time because the life of the forthcoming government seems foreshortened. These sources believed Japan was holding the strongest man for a future cabinet.

The choice of Shidehara ended a flurry of activity today during which numerous high official sources pointed to another liberal, Shigeru Yoshida, a friend and advocate of Shidehara, as the next premier. Yoshida will remain in the cabinet, Domei news agency said today, having accepted reappointment as foreign minister.

going to expend billions of rubles in a titanic effort to rebuild her war devastated areas in five years. Britain has a real struggle on her hands to reestablish her old prosperity. America is anxious to get the post-war program under way. Well, since nobody wants to fight, an application of more "give" and less "take" is what's called for. There is no problem of "power politics" which shouldn't be susceptible to solution on this basis of compromise. Naturally this means some sacrifices all around. But there's no question in sight that's worth fighting over.

## Government Makes

be held sooner. Schwelienbach declared, because of previous commitments by some principals.

There will be 18 labor and 18 employer representatives. Schwelienbach, Secretary of Commerce Wallace and a so far unnamed impartial chairman will represent the public without votes.

The CIO and AFL each will have eight representatives, and Lewis' United Mine Workers and the Railway Brotherhoods one each.

Management representatives will be chosen by the U. S. Chamber of Commerce and the National Association of Manufacturers.

Purpose of the conference is to produce a peacetime substitute for the War Labor Board.

Elsewhere on the labor front were these trouble spots:  
Automotive: CIO UAW says Kelsey-Hayes strike in Detroit ended

but company disagrees; Ford Motor Company, on basis of expected end of long walkout, recalls nearly 60,000 laid-off workers next week; union to file notice with NLRB on Monday of intent to strike by 145,000 Ford workers; Union-General Motors to renew discussions on 30 per cent wage increase.

Shipping: Indications point to an end of the longshoremen's strike, involving about 60,000 workers, which has tied up shipping in New York harbor this week, as major local union votes back to work Monday.

Communications: Request for strike vote for independent union

of telephone operators and employees indicated after nationwide four-hour walkout yesterday as test of union strength.

Lumber: Water movement of lumber slowed down in Pacific Northwest as sailors union supported the 61,000 striking AFL lumber workers' efforts to close down the industry; some 40,000 CIO lumber workers remain on job.

Transportation: Strike of 2,700 AFL bus drivers over wage demands continues, crippling travel in seven Northwest States.

The bright side of the picture indicated strike lines—bulging with more than 550,000 workers—would

shring to below the 400,000 mark early next week.

**Eighth Street Christian Church**  
In keeping with the world-wide call to communion the Eighth Street Christian Church will observe World-Wide Communion on Sunday morning at 11 o'clock. The pastor, Dr. H. G. Haney, will speak on the theme, "The Christ of the Upper Room" and the volunteer choir under the direction of Mrs. Paul Davendor will sing the anthem, "Savior Like a Shepherd Lead Us," by Holler. Every member of the church and the friends who worship with us from time to time are urged to

make this communion service a time of renewed determination to keep the Christian vows.

On Wednesday evening of this week, October 10, the Fireside Club of the church will meet at the parsonage and the program will be under the direction of Mrs. J. T. Ungle. Guests of the evening will be Rev. and Mrs. R. B. Hurt, the new minister of the Kinston Christian Church and Mr. Hurt will speak. Members of the club are privileged to bring guests to this meeting. A social hour will follow the program.

The convention of the Disciples of Christ in North Carolina will meet

this year in Winston-Salem on November 7, 8, 9. It is to be hoped that a goodly number of Disciples from eastern Carolina will be in attendance on this convention. Greenville usually has a good delegation present for state conventions. This year the Rev. Newton J. Robinson, pastor of the Elder Memorial Christian Church in Raleigh, is the president.

# DANGER ON THE PRODUCTION FRONT

## How Much Will You Have to Pay for Your New Car?

## How Long Will You Have to Wait to Get It?

### RECONVERSION BOGGING DOWN

Strikes are threatening the entire automobile industry. General Motors is being specifically singled out for attack to enforce unreasonable demands. Some of our plants have already been closed and shipment of materials from the plants of many of our suppliers has already been stopped by strikes.

The interests of all Americans should be considered. This is not only a General Motors problem. It is a national one as well. If our plants are closed by strikes the strikes will be against the interests of all the people of our country as much as they will be against General Motors.

### AFTERMATH OF WAR

While the war is over, the aftermath of war presents big problems. War is terribly wasteful in blood and treasure. This one was especially so. It was not prosperity even though to some it may have seemed to be. And the immediate aftermath of such a war cannot be prosperity either. The clean-up, the mopping up, the reconversion still require hard work, patience, understanding, and some sacrifice on the part of all of us.

### INDUSTRY ON THE JOB

Our fighting men crushed our enemies with the huge quantity of weapons produced by American industry. But that is behind us. We would like to have been better prepared for peace, but the terrific demands of the war for men and materials did not make this possible. Now we have planned a second all-out effort and stand ready and anxious to do an equally impressive job.

### PROBLEMS OF RECONVERSION

American industry has proved its ability to perform. It has the know-how, the resources, the courage to push ahead. But even with these fine assets it cannot do the job alone. It must have the goodwill and backing of the people of our country.

Our second all-out effort to meet a critical situation will bog down unless the real facts are recognized and sound measures promptly taken to solve the problems. *Temporarily, while we are liquidating the war, there should be a sound national wage-price policy to stabilize and expand the economy.*

### DANGER OF INFLATION

The most serious threat we face is that of runaway inflation. The danger comes from three sources: first, the wartime and current tremendous deficit spending of

our government; second, the pent-up demands for goods and services to the point where some are willing to pay excess prices even in black markets to satisfy their impatient and selfish desires; third, the desires of equally selfish unions to take advantage of the situation and force unreasonable wage increases.

Inflation is the worst of all economic diseases. It reduces the value of money in terms of what money will buy. It reduces the value of the savings of the people. It undermines security. It underwrites depression. It destroys confidence. It creates unemployment. *Inflation must be avoided.*

### REAL PRICES

In a free market and in the absence of subsidies and speculation, the cost of human effort, be it in the form of wages, salaries or other forms of compensation, quickly determines the price we pay for goods.

Higher wages without a corresponding increase in productivity are inflationary. Nothing is gained unless higher wages mean more goods and services, more customers and more good jobs. This requires individual application to the job in hand and technological progress all along the line—better ways of doing all the things that must be done to produce and deliver products to customers at reasonable prices. This takes time.

A minority, by monopoly or by pressure group action, may temporarily profit at the expense of others. But the idea of wage increases all along the line without a corresponding increase in productivity is a delusion. All the people cannot lift themselves by their bootstraps.

### UNION DEMANDS

Today, unions in our plants are demanding 52 hours' pay for 40 hours' work. Their demands if granted would result in over 67 hours' pay at present base rates for 48 hours of work where plants are working on such a schedule.

Equivalent or greater demands have been made on our suppliers—the parts manufacturers—the electrical industry—the steel industry—the rubber industry—the oil and gasoline industry—the railroads—in fact, on practically every industry involved in the production of automobiles.

### WAGES AND PRICES

General Motors wages are now at an all-time high and are importantly higher than the average wages paid throughout the country for similar work.

The present government stabilization policy

permits wage increases without government approval only if such increases will not result in a request to increase prices. The formula the OPA has proposed for pricing our new products does not recognize or allow all the actual increases in our costs that have been incurred since 1942.

*Neither is there any provision in the present OPA formula for increasing prices to compensate for the additional costs that would be incurred if wages and salaries were increased at this time.*

A sound and equitable solution must be found in the interests of not only our 400,000 employes, but our 426,000 stockholders, our 15,214 automobile dealers, who have had no new cars for over three years, our 10,000 subcontractors and suppliers and their employes, and the more than 10,000,000 potential customers who are anxiously waiting for new cars and our other products they need so badly.

### WARTIME PROFITS

General Motors did not make big profits during the war. Although sales and employment doubled, the average yearly net profit in dollars earned during the war, was less than the average prewar net profit. Dividends paid to stockholders averaged less than those paid before the war.

The war profit limitation policy voluntarily adopted by General Motors immediately after Pearl Harbor was so reasonable that the resulting profits were accepted in renegotiation without change by our government for the years 1942, 1943 and 1944.

During the war, *Victory Was Our Business.*

### EXCESS WAGES REFUSED

Demands are being made for higher wages without any corresponding increase in production, on the assumption that the additional costs can be absorbed from profits previously earned or from uncertain future profits.

General Motors cannot use money saved up for many years for the purpose of modernizing and expanding its plants and providing more good jobs, to pay excess wages for work not performed. The money cannot be spent twice.

Neither can excess wages be currently paid from presumed future excess profits when a realistic forecast of costs shows there will be no such excess profits.

Nor can we pay from current income the increased wages demanded when the present OPA policy holds prices to substantially 1942 levels—especially in view of the fact that there have been important increases in wages and operating costs since 1942.

*Runaway inflation must be avoided. If an adjustment in price levels must be made at this time, the interests of all the people must be fairly considered.*

*If wage and salary increases are made, it must be recognized that they increase costs and such costs must be adequately reflected in the prices of products produced.*

*Internal strife and unemployment must be avoided. Only productive work and more good jobs will increase our standard of living and satisfy the desires of the American people.*

## Strength FOR THE DAY

By EARL L. DOUGLAS

**CHURCH ALONE WILL SUFFICE**  
"Why should I go to church? Is it not possible for me to worship God anywhere I happen to be? Some of the best people I know never go to church at all, and some of the worst people I know are waiting every Sunday morning for the doors of the church to open."

Many people reason thus with themselves and ask these questions. Let us examine them in order. Why should I go to church? Chiefly in order to honor God. A day is set aside for that purpose. Some people use the day only for work, play, or protracted rest following an exciting night of wild pleasure. The Sabbath is given us as a day on which we appear at a certain hallowed place to honor the God who made us. We shall probably be helped by what we hear there, by the people we meet, by the emotions that are aroused within us. But all this is secondary. We are there first of all to honor God.

The answer to the second question is Yes, we can honor God anywhere we happen to be. But if we do not have enough interest in the church to enter it and worship God there, the chances are that we will not worship Him on the highway or on the golf course.

Concerning the people who attend church and those who do not attend, we need only observe that these are matters of no concern to us. If all the saints happened to be outside the church and all the hypocrites inside, that has nothing to do with our relationship to God and the salvation of our souls. On the last great day, we shall be held accountable for what we have done, not for what our neighbor has done. All Rights Reserved—

and China have no part in the Balkan discussions led by Byrnes to formulate a compromise proposal, including the suggestion for a general European peace conference.

Under the Byrnes plan, Russia, Britain and the United States alone will draw up the suggested treaties for Rumania, Bulgaria and Hungary. But those documents would have to be written into final form by the general peace conference. Byrnes made clear that another factor in the London deadlocks was the agreement that all decisions must be unanimous.

This "veto" power of one country, he said, "should not be used by the United States or any other nation to coerce the judgment and conscience of fellow nations."

### Laval Trial . . . .

(Continued from page one)  
after a heated argument between Laval, Prosecutor Andre Mornet and Mongibeaux.

Mongibeaux attempted to obtain from Laval an answer as to who brought him back to power in the Vichy regime in 1942 after Petain had ordered him arrested. Laval refused to answer the question.

The defendant said he had first tried to answer a statement from Mornet whereupon Mongibeaux interjected: "It was Abetz. It was the Germans who put you back in power." (Otto Abetz was the German ambassador to occupied France.)

Laval shouted: "I must answer the prosecutor. He says that I was condemned to death at Marseille. I protest."

The jury almost en masse then shouted: "We want you to answer the question of the judge." "You maintain your attitude?" Mongibeaux asked. "You asked me a question and gave the answer at the same time," screamed Laval. "That is illegal." "I call your questions and charges an aggression," Mongibeaux replied. "Guards, led the defendant out. The session is suspended."

Earlier Laval read into the record a lengthy letter he had written to the minister of justice on September 22 protesting over the early holding of his trial. This action by the defendant brought from Mornet the charge that Laval was using dilatory tactics in trying to "draw out this trial as long as possible."

**AN ORDINANCE REGULATING**

THE OPERATION OF TAXICABS, PROVIDING FOR THE ISSUANCE OF CERTIFICATES OF CONVENIENCE AND NECESSITY AND OTHER MATTERS

The Board of Aldermen of the City of Greenville do ordain:

Section 1. Definitions. (a) "Person." When used in this ordinance shall

mean and include the singular and plural, and shall also mean and include persons, individuals, firms, corporations, partnerships, and associations. (b) "Taxicabs." When used in this ordinance shall be defined as any motor vehicle seating nine or fewer passengers operated upon any street or highway on call or on demand, accepting or soliciting passengers indiscriminately for hire between such points along streets or highways as may be directed by the passenger or passengers so being transported, and shall not include motor vehicles or motor vehicle carriers as defined in Subsection (k) of Section 62-103 of the General Statutes of North Carolina.

Section 2. Unlawful to operate without certificate. That on and after the 4th day of October, 1945, it shall be unlawful for any person to operate a taxicab upon and over the streets of the City of Greenville without having first applied for and secured from the Board of Aldermen a Certificate of Convenience and Necessity as hereinafter set forth.

Section 3. Application Required. Every person desiring to operate a taxicab upon and over the streets of the City of Greenville shall file on forms supplied by the City Clerk an application for a Certificate of Convenience and Necessity.

Section 4. Board Issues Certificate. The Board of Aldermen of the City of Greenville shall have power and it shall be its duty to refuse to issue certain certificates or to issue certificates for a partial exercise only of the privileges sought and may attach to the exercise of the rights granted by such certificate such terms and conditions as in their judgment the public convenience and necessity may require.

Section 5. Duration of Certificate. A Certificate shall constitute a franchise from the City of Greenville for the operation of taxicabs within the city limits subject to the provisions of this ordinance for one year, unless a shorter period of time is specified in the certificate. Applications for renewals shall be filed annually and hearings conducted thereon as herein provided.

Section 6. Determination of Convenience and Necessity. In determining whether the public convenience and necessity requires the franchising of such taxicabs or taxicabs, the Board of Aldermen shall, among other things, take into consideration the following factors:

(a). Whether or not the public convenience and necessity requires such proposed or additional taxicab service within the City of Greenville.

(b). The financial responsibility of the applicant and the likelihood of the proposed service being permanent, responsible and satisfactory.

(c). The number and condition of equipment.

(d). The schedule of proposed rates to be charged.

(e). The number of taxicabs in operation and the demand for increased service, if any, and whether or not the safe use of the streets by public, both vehicular and pedestrian, will be preserved, and whether or not adequate provision has been made for off-street parking of said taxicabs.

(f). The experience of applicants in the taxicab business.

(g). Such other relative facts as may be deemed necessary and advisable.

Before making any decision with respect to the issuance of a Certificate of Convenience and Necessity, the Board of Aldermen, or a committee thereof, shall make a full and complete investigation of all facts, and may, if it so desires, subpoena witnesses and utilize the services of the Chief of Police or any other officer or employee of the City.

Section 7. Hearings, Notices. Each application for a certificate of Convenience and Necessity shall be scheduled for a hearing not later than 30 days after the same is filed, and the applicant shall be notified by the City Clerk by mail to the business address set forth in the application of the date and time of

such hearing, such notification to be sent at least five days before the date set for the hearing. The City Clerk shall also, within the same time, notify all persons, who at that time hold Certificates of Convenience and Necessity for the operation of taxicabs within the municipality, of the date and time of such hearing, and the name of the applicant. In addition, the City Clerk shall cause to be published at least once in a newspaper of general circulation at least ten days before such hearing, a notice setting forth the name of the applicant and the date and time of the hearing. The cost of said publication shall be paid for by the applicant at the time the application is filed.

Section 8. Burden of Proof. The burden of proof shall be upon the applicant to establish the existence of public convenience and necessity for the operation of the taxicab or taxicabs specified in his application, and all other facts required for the granting of a certificate.

Section 9. Failure to Begin Operations. If a Certificate is granted to an applicant, and said applicant shall fail, in accordance with the provisions of the certificate, to begin operations within sixty days after the date of said certificate, then said Certificate shall become null and void.

Section 10. Transfer. A certificate is not transferable without the consent of the Board of Aldermen. Applications for a permit to transfer shall be filed in the same manner as an applicant for a certificate of Convenience and Necessity. The proceedings upon such application for a transfer shall be the same as those described for the issuance of a certificate except that the question of public convenience and necessity need not be proved.

Section 11. Revocation of Certificate. The Board of Aldermen may at any time after a public hearing revoke any Certificate issued by authority of this ordinance for any one, or more, of the following causes:

(a). Failure to operate the taxicabs specified in the Certificate.

(b). Failure to maintain motor equipment in good repair.

(c). Failure to carry liability insurance or bond as is required by ordinance.

(d). Failure to pay to the City taxes or license fees levied or imposed upon said taxicabs.

(e). Repeated and persistent violation by the taxicab drivers of traffic and safety ordinances, or state laws relating to alcoholic beverages or prostitution.

(f). Failure to report accidents.

(g). Willful failure to comply with any provision of this ordinance or other ordinances or state laws relating to the operation of taxicabs.

Section 12. Substitution of Vehicles. The person to whom a Certificate has been issued, by appropriate endorsement thereon by the City Clerk, may substitute another vehicle or other vehicles for the vehicle or vehicles for which the Certificate was granted. In such instance, the liability insurance or bonds shall also be transferred to such substitute vehicle or vehicles.

Section 13. Certain Operators Entitled to Certificates. All persons operating taxicabs on October 4, 1945, shall be entitled to a certificate of Convenience and Necessity for the number of taxicabs operated by them on such date. Provided, however, any person operating a vehicle on that date whose right to operate a taxicab has not been revoked or withdrawn, shall not be entitled to a certificate unless and until provisions of this ordinance have been complied with, and the same has been issued by the Board of Aldermen.

Section 14. Inspection of Equipment. Before any certificate has been issued under the provisions of this ordinance, it shall be the duty of the Chief of Police of the City of Greenville, or his duly authorized agent, to make an inspection of the condition of the taxicab or taxicabs to be operated by the applicant, and the Chief of Police, or his duly authorized agent making said inspection, shall report his findings to the Board of Aldermen at the hearing upon the application for a certificate.

Section 15. Taxicabs to Be Visibly Numbered. Whenever a certificate of convenience and necessity shall be granted to any person under the provisions of this ordinance, the City Clerk shall designate upon the certificate a number for each taxicab to be operated by the applicant, and each taxicab shall be given a different number, and it shall be the duty of each person to whom a certificate is issued to legibly and visibly imprint upon each side and the rear of the exterior of the body of the taxicab the number given it by the City Clerk in figures at least three and one-half inches in size before operating said taxicab.

Section 16. Penalty. Every person, firm or corporation violating the provisions of this ordinance, or failing, neglecting, or refusing to comply with its provisions, shall upon conviction be guilty of a misdemeanor and shall be subject to a fine not in excess of \$50.00, or imprisonment not in excess of thirty days. Each day a violation continues shall constitute a separate offense.

charges against him, and of the time and place of the hearing. If, after the hearing, it is found that the owner is guilty of one or more of the offenses listed herein, the Board of Aldermen shall have the power to revoke the Certificate, or to condition a revocation upon compliance of its order within any time fixed by it.

Section 17. Substitution of Vehicles. The person to whom a Certificate has been issued, by appropriate endorsement thereon by the City Clerk, may substitute another vehicle or other vehicles for the vehicle or vehicles for which the Certificate was granted. In such instance, the liability insurance or bonds shall also be transferred to such substitute vehicle or vehicles.

Section 18. Certain Operators Entitled to Certificates. All persons operating taxicabs on October 4, 1945, shall be entitled to a certificate of Convenience and Necessity for the number of taxicabs operated by them on such date. Provided, however, any person operating a vehicle on that date whose right to operate a taxicab has not been revoked or withdrawn, shall not be entitled to a certificate unless and until provisions of this ordinance have been complied with, and the same has been issued by the Board of Aldermen.

Section 19. Inspection of Equipment. Before any certificate has been issued under the provisions of this ordinance, it shall be the duty of the Chief of Police of the City of Greenville, or his duly authorized agent, to make an inspection of the condition of the taxicab or taxicabs to be operated by the applicant, and the Chief of Police, or his duly authorized agent making said inspection, shall report his findings to the Board of Aldermen at the hearing upon the application for a certificate.

Section 20. Taxicabs to Be Visibly Numbered. Whenever a certificate of convenience and necessity shall be granted to any person under the provisions of this ordinance, the City Clerk shall designate upon the certificate a number for each taxicab to be operated by the applicant, and each taxicab shall be given a different number, and it shall be the duty of each person to whom a certificate is issued to legibly and visibly imprint upon each side and the rear of the exterior of the body of the taxicab the number given it by the City Clerk in figures at least three and one-half inches in size before operating said taxicab.

Section 21. Penalty. Every person, firm or corporation violating the provisions of this ordinance, or failing, neglecting, or refusing to comply with its provisions, shall upon conviction be guilty of a misdemeanor and shall be subject to a fine not in excess of \$50.00, or imprisonment not in excess of thirty days. Each day a violation continues shall constitute a separate offense.

J. H. BOYD, JR., Mayor  
Attest: J. O. DUVAL, City Clerk  
Adopted Oct. 4, 1945.

**NOTICE OF PUBLIC RENTING OF FARM FOR THE YEAR 1946**

Under and by virtue of an order of the Superior Court of Pitt County duly signed and entered on the 28th day of September, 1945, by Honorable D. T. House, Clerk, in that certain Special Proceeding therein pending and entitled, "Guaranty Bank and Trust Company, Executor and Trustee of the Last Will and Testament of Aurelia E. (Betty) Tripp," the undersigned executor and trustee will on Saturday, October 20, 1945, at 12:00 o'clock, Noon, at the courthouse door in Greenville, N. C., offer for rent for the year, 1946, for cash the following described farm lands:

That certain tract or parcel of land lying and being situated in Greenville Township, Pitt County, North Carolina, just West of the City of Greenville, on the Northern side of the Greenville-Farmville Highway, and adjoining the lands of Godfrey Evans, J. L. Cannon and others, and containing 53 acres, more or less, and well known as the Home Place of the late Aurelia E. (Betty) Tripp. There will be excepted from the renting the house and yard whereon the grandchildren of the late Betty Tripp reside and the orchard.

1945 Tobacco allotment, 13.1 acres. The person or persons renting said land for the year 1946 will have the option of renting said land from year to year for three additional years at the same annual rental as that for the year 1946.

The renting of this land is subject to confirmation by the Court. This the 28th day of September, 1945.

# An Emergency Appeal

## From Our Millions Still In Service

Yes, the war is over... but not the work of several million G.I.'s!

Ask any soldier what "Occupation Duty" means—and he'll tell you it may be the most important job in the army right now, but one of the dreariest ones.

He'll tell you the novelty wears off soon, being in a strange country among strange people. That the Main Drag in Tokyo or Berlin can't compare with Main Street in Topeka or Boston.

There are millions of boys thousands of miles from home who'd give anything to listen to an American song, hear American jokes, or talk to an American girl again.

**That's why the U.S.O. cannot and must not quit. Your dollars must keep it going. For if ever those boys needed a lift and a laugh, they need it now!**

The need is so urgent that General Eisenhower asked U.S.O. Camp Shows to quadruple its activities after V-E Day to take care of the boys in Europe. And similar entertainment plans have been made for our forces in Japan and throughout the lonely Pacific outposts.

U.S.O. Camp Shows also entertain the troops in transit... at debarkation and separation centers. U.S.O. Clubs and lounges in the States, Alaska, Hawaii, the Philippines, and many other bases, give the boys "a home away from home." Some 500 U.S.O. Clubs are located near military hospitals... and special Camp Shows tour the wards... to keep the wounded on the sunny side.

**Yes, millions still in service are depending on YOU for a bit of cheer. For a large part of every dollar you give to your local Community Campaign goes to support the U.S.O.**

*The need is greater than ever. So try to give more than ever, won't you? Show the boys you haven't forgotten them!*

## Kiwanis Club Had Fire Prevention Program Last Night

By CHESTER WALSH

Three Greenville mayors were at the Kiwanis Club's weekly supper meeting last night when Vice-President Ed E. Rawl presiding for Dr. J. M. Barrett, who is ill at the hospital, paid tribute to the Greenville fire department as one of the model departments of North Carolina and to Chief George Gardner and the members of the department for efficiency in preventing fires and controlling them.

Dr. H. C. (snr) Hainey, program chairman, presented Chief Gardner as the speaker for "Fire Prevention Week." The veteran fire-fighter gave some valuable pointers on preventing fires, and

escaping from burning buildings. He urged sprinkler systems in buildings and reminded that present firefighting equipment in Greenville brought about a reduction of five cents on the \$100 valuation in insurance rates.

Mayor Jack Boyd, special guest of the club, spoke briefly in praise of the fire department and sought public cooperation in preventing fires.

Former Mayor Bruce Sugg praised the department, commended the present and previous city administrations for providing modern equipment. After the meeting Mr. Sugg said State Fire Marshal Sherrod Brockwell of Raleigh told him that Chief Gardner stands high in firefighting circles in the State, and that Greenville has one of the five model fire departments in the State.

Former Mayor Marvin K. Blount, during whose administration the city made much progress, said some fine things about Chief Gardner and the members of the fire department.

The highlight of the meeting was Gardner's statement that sprinkler systems in buildings have from 40 to 80 per cent of the cost of fire
