President Tells Labor And Management They Must Solve Problems

President Declares Differences Must Be Solved Because Controversies Cannot Be Allowed To Hinder Us In Our Effort For Reconversion Plans

Washington, Nov. 5.—(AP)—President Truman told management and labor today they must solve their differences because controversies "cannot be allowed to stop us" in the struggle to reconvert to peacetime production.

Addressing the opening session of a labor-management conference of 18 industrial leaders and a like number of organized labor heads, the President said the American people do not like industrial strife that has retarded prosperity, "especially after the solemn promise" of both groups that they would cooperate with their government.

"I make no effort to fix the blame," Mr. Truman said to the conference assembled in the auditorium of the Labor Department.

Outside, a picket line had been started before the meeting began by some independent unions whose representatives were not participating.

Asserting he was anxious to remove all wartime controls as fast as it is possible, Mr. Truman said labor and management must find a way of resolving their differences "without stopping production." He added:

"The time has come for labor and management to handle their own affairs in the traditional, American, democratic way."

"I hope that I can give up the President's wartime powers as soon as possible, so that management and labor can again have the full and undivided responsibility for providing the production that we must have to safeguard our domestic economy and our leadership in international affairs."

The President said the conference presented an opportunity to prove that the two groups "can come to an understanding and agreement without political or governmental pressure."

"The American people, he said, never expected anything like the amount of strife which has been threatened" since the war.

WITNESS SAYS JAP IS GUILTY

Yamashita Declared To Have Ordered Islands Rid Of Filipinos

Manila, Nov. 5.—(AP)—A Filipino testified he heard Japanese General Tomoyuki Yamashita angrily refuse to revoke an order to "kill all Filipinos and destroy all of their cities."

He was Joaquin Galang, second witness brought from protective custody as a suspected collaborator, at the war-crimes trial of the erstwhile "Tiger of Malaya."

Galang testified that Yamashita showed great anger when Gen. Artemio Ricarte, Filipino politico-militarist, beseeched the Japanese commander in the Philippines: "I take this time to ask you again to revoke your general order to 'kill all Filipinos and destroy all of their cities.' Yamashita's counsel strongly attacked the credibility of Galang's testimony."

Lapus' testimony, closely linking Yamashita with atrocities he is accused of having condoned by troops of his command, came, surprisingly, under cross examination by the general's sharp-questioning chief attorney, Col. Harry Clarke. This is the seventh day of Yamashita's war-crimes trial before a U. S. commission of five generals.

Lapus said that Gen. Artemio Ricarte, Filipino politico-militarist to whom he was private secretary during the occupation, appealed personally to Yamashita four times to spare Filipino lives, but that the general refused to modify his order.

He said Ricarte told him after one conference that Yamashita ordered the destruction of Manila and other places in the Philippines to rid the country of Filipinos.

Lapus said the Japanese did not trust any Filipinos except Ricarte. He stated Ricarte declined the proposal because he envisaged complete dictatorship and didn't want any interference.

Department Has Set Up Price Of Hogs

Raleigh, Nov. 5.—(AP)—The State Agriculture Department announced today that beginning next October 1 and continuing through September, 1947, an average support price of \$11.70 a hundred pounds for hogs will be in effect in North Carolina.

"For the first time under the price support program seasonal variations are being applied to hog prices," said Market Newsman John Winfield.

He added that "the 11.70 average floor for North Carolina moves up and down according to normal seasonal changes in hog prices, ranging from \$10.45 next November as the lowest to \$12.95 in September, 1947, as the highest."

CURFEW RINGS IN PALESTINE

Precautionary Dusk-To-Dawn Measure Taken In Palestine

By GEORGE PALMER Jerusalem, Nov. 5.—A precautionary dusk-to-dawn curfew was in force at Palestine trouble spots today after a quiet weekend in which there was no recurrence of last week's Arab-Jewish disturbances.

Chairs also was reported calm. However, dispatches said that 1,000 persons were under arrest as an aftermath of rioting Friday and Saturday.

Maj. Gen. C. F. Loewen, military commander of the northern area, issued the curfew order. It commanded all persons living in specified sections between Tel Aviv and Haifa as well as residents of the Haifa port and refinery areas to remain indoors between 5:00 p. m. and 5:30 a. m.

A conciliatory voice was raised over the weekend when Musa Bey El Alami, Palestine delegate to the Pan-Arab League, said that the Arab people would agree to additional Jewish immigration into Palestine if an impartial United Nations body decided the country's economy could carry the load and if all Allied nations agreed to accept Jewish immigrants.

The spokesman explained that the Arabs object not to "the Jews as such" but to Political Zionism. He criticized the Jews for segregating themselves into "water-tight Jewish communities."

May Confiscate Vast Holdings of Germans

Berlin, Nov. 5.—(AP)—The vast assets which Germans hold abroad are estimated to total perhaps \$1,000,000,000—may be confiscated under an edict issued by the Allied Control Council.

The council yesterday set up a four-power German external property commission to seize or gain control of the holdings, which are believed to be concentrated chiefly in Spain, Argentina, Sweden and Switzerland.

Local Elections May Show National Trend

Tomorrow's Odd-Year Local Elections Might Furnish Some National Indicators

By D. HAROLD OLIVER Washington, Nov. 5.—(AP)—Tomorrow's odd-year local elections may furnish some national political indicators, but neutral observers believe they will be very slim.

The New York City and Detroit mayoralty elections and a special congressional contest in the Trenton-Pinceton district of New Jersey, offer the best possibilities in this respect.

Democrats were saying today that a victory for William O'Dwyer, their candidate, in New York, would be something of a setback for Governor Thomas E. Dewey.

They contend that Dewey, who is backing Judge Jonah Goldstein, Republican candidate, would be weakened by Goldstein's defeat and thus rendered easier to beat for Governor next year.

Republicans, however, particularly friends of Dewey, do not see it that way. One, eyeing the GOP split in the mayoralty race and the city's long Democratic-American Labor Party majorities, said an O'Dwyer victory would be like a "Dutchman carrying Holland."

Newbold Morris, Republican, is running against O'Dwyer and Goldstein on a "no deal" ticket. Dewey is expected to run again for governor next year in any event.

What makes so many big Democratic figures interested in the New York outcome is the long chance effect: it might have on a running mate for President Truman in 1948.

There are many possible candidates for the Democratic vice-presidential nomination. The strongest may come from a Democrat upsetting Dewey for governor in 1946.

Among them are James A. Farley, former postmaster general and the party national chairman; Senator James M. Mead of Buffalo; Secretary of the Navy James Forrestal, and Associate Justice Robert H. Jackson of the Supreme Court.

The Detroit race is between Mayor Edward J. Jeffries, Jr., seeking a fourth term, and Richard T. Frankenstein, a vice-president of the CIO United Automobile Workers. It is a non-partisan ballot, but may provide a test of the CIO politically in the big manufacturing city. The campaign has been bitter.

There are five candidates in the field for the congressional seat in New Jersey left vacant by the resignation of Republican D. Lane Fowler, of Trenton. The district long has been Republican and Powers carried it by 14,000 in 1944.

Communists Daily Says Interference

New China Daily News Reaches Heights Of Virulence Against United States' Action

Washington, Nov. 5.—(AP)—The White House said today "there have been no clashes between Chinese Communists and United States Marines."

Eben Ayers, assistant press secretary, made this statement to reporters. He did not indicate what occasioned his comment. There were reports, however, from Communist headquarters in China that American Marines had fired on Chinese Communist representatives at Chinwangtao. The Chinese, the dispatch said, "had to reply" to the fire, but withdrew after about an hour of hostilities.

Ayers told a news conference that President Truman had received a message from Lt. Gen. Albert C. Wedemeyer, commanding general of the United States forces in the Chinese theater.

The general informed the President, Ayers said, that "there have been no clashes between Chinese Communists and United States Marines."

By SPENCER MOOSA Chungking, Nov. 5.—(AP)—The Chinese Communist New China Daily News reached new heights of virulence against the United States today in charging that Lt. Gen. Albert C. Wedemeyer's promise that Americans would avoid participation in Chinese internal strife was "nothing but a lie."

The charge against the commander of American troops in China was carried in a dispatch from the Communist headquarters at Yenan. The Americans, it said, not only armed and equipped Chinese Communist troops, "but have invaded our liberated areas in North China, opened fire on us, arrested some of our army personnel and disarmed some of our troops."

When American Marines first landed at Chinwangtao, the Communists sent representatives to contact them, but "they were fired upon and had to reply," the dispatch said, adding the Communists withdrew after an hour of hostilities.

After the Marines had occupied Chinwangtao and the nearby town of Haiyang, the dispatch said, the Communists, who were not informed of the American's intentions, and considering China's "territorial rights involved" sent six representatives to negotiate with them.

The Americans arrested the negotiators without explanation and before releasing them, asserted the News, "threatened that the Communists would be shot."

White Man Rides The White Horse

Tokyo, Nov. 5.—(AP)—One of the Emperor's white horses finally has been ridden by a white man.

Lt. Dick Ryan, arranging an Armistice Day rodeo here, walked and galloped the pure white stallion Hatushimo (First Frost) 30 minutes at the Japanese Horse Racing Association arena.

He claimed to be the first white man ever to ride the animal which had not been ridden for some time.

Seino Chuzo, manager of the association's stables and coach of Japan's equestrian team in the 1928 Olympics, said the Emperor in recent years preferred to ride First Frost's gelded brother, Hatsuyuki (First Snow) because it was more gentle.

First Frost is being used to sire white horses of the same beautiful strain for the Imperial household.

Ryan expects to exhibit the stallion at the rodeo.

Bus Drivers And Other Greyhound Workers Left Job Midnight Sunday In Seven Southern And Western States Joining With 19 Eastern States

By ASSOCIATED PRESS The shadow of some 265,000 men idle in labor disputes today hung over the opening sessions of the Labor-Management Conference in Washington, although that meeting was expected to deal with the long-range aspects of labor peace.

Major disputes centered about the 60,000 AFL Lumber Workers out in the Pacific Northwest in a wage dispute, and the spreading strike of Greyhound bus employees which already had affected more than 4,000 employees in 26 states both east and west of the Mississippi. Textile workers accounted for another large slice of the ranks of the idle.

Those figures represented the magnitude of the shadow facing the Washington conferees as they gathered at President Truman's behest. The employer delegates were reported as well agreed that there should be a minimum of new governmental machinery to deal with labor disputes, while the CIO representatives were expected to toss the explosive wage issue, cause of the majority of the strikes, into the conferees.

These were the principal weekend developments in the strike scene: 1. Andrew J. Higgins, New Orleans boatbuilder, announced his intention to abandon three plants, despite some \$40,000,000 in orders on hand, in a dispute with the AFL, the AFL City Council in its turn, threatened a city-wide walkout of 75,000 to 100,000 workers if demands for a congressional investigation of the strike were not met.

2. An additional 200 Greyhound employees in eight states west of the Mississippi began to join their eastern colleagues' walkout in a wage dispute with a majority of the Greyhound companies.

3. Seattle AFL Lumber and Saw Mill Workers reported they would (Continued on page four)

Broadcast In Attack On Isolationists

London, Nov. 5.—(AP)—The Moscow radio today broadcast an attack upon "American isolationists" and accused them of being "originators of the idea of using economic and military might as a means of exerting pressure on other countries."

Former President Herbert Hoover and Senators Robert A. Taft (R-Ohio) and Burton K. Wheeler (R-Mont) were singled out for special mention.

The NATION TODAY

By James Marlow

By JAMES MARLOW Washington, Nov. 5.—(AP)—The Labor-Management Conference opens today at a critical time in American life.

Some real and lasting good may come of it. Or it may break up in bitterness. No one is predicting a howling success for it.

President Truman called the conference in an effort to get labor and management to work out some way of settling their disputes more peacefully and reasonably than in the past.

It may last for weeks. Thirty-three representatives of labor and industry—18 from each—are at the conference.

They will run the show, make their own decisions. The government will not try to tell them what to do.

The 18 labor men do not see eye-to-eye on all their problems. Nor do the 18 industry men agree fully. This shows some of the difficulty in getting agreement among 36 representatives on far-reaching solutions for their headaches.

Yet this conference is being held at a time when the country is trying to shift over soundly to peacetime living.

There is deep need now for high employment and full production to get the country launched on prosperous years.

Wide labor troubles in the next six months—with plant shutdowns, strikes and unemployment—might change the future of this country and the rest of the world which

An Analysis Of The News

By DEWITT MACKENZIE AP Foreign Affairs Analyst

For almost a generation now lights of hope from time to time have gleamed through the darkness surrounding the problem of establishing a Jewish national home in Palestine, but always they've proved to be will-o-the-wisps which danced away as quickly as they came.

So one is cautious in approaching what look to be encouraging signs in connection with this highly dangerous Arab-Jewish imbroglio. Still, despite the fresh crisis, there are new flashes of hope.

One good indication is that England seems anxious for aid in carrying out the responsibility of her Palestine mandate. She's fishing for American assistance in solving the problem. The Jewish national home might be dealt with, not solely by Britain or by Britain and America, but by the United Nations Security organization. The Jewish national home has become an international issue.

Observers anticipate that British Prime Minister Attlee will raise the Palestine question during his visit to President Truman a week hence. There has been no official statement to this effect, but it would be a logical move.

Certainly the time has come when some concrete action must be taken. If the affair drags on, there will be the danger not only of war in Palestine between the Arabs and the Jews, but neighboring Arabs are threatening to take a hand in sup-

port of their brothers. But other things cut deeper than the political dangers. There is the humanitarian angle. Untold thousands of Jewish people in Europe are facing a winter of terrible suffering and even starvation. They have no place to go. They must be provided with homes somewhere—and they want to go to Palestine if that is feasible.

What looks like another flash of hope is seen in the statement issued by Musa Bey El Alami, Palestine Arab delegate to the powerful Pan-Arab League. He says the Arab people would agree to additional Jewish immigration into Palestine if an impartial United Nations body decided that the country's economy could carry the load—and if all Allied nations also agreed to accept Jewish immigration.

Here again the real significance seems to lie in the suggestion of bringing the United Nations into the settlement. If Musa Bey's statement means what it seems to mean the Palestine Arabs are willing to accept United Nations mediation. Surely there could be no better jury to decide the case than one picked from impartial members of the World Security organization.

This wouldn't mean, of course, that Britain was surrendering her mandate over Palestine, unless she wanted to. Probably she would wish to continue, because her interests in the Middle East are vast, though one would expect Palestine to become a sovereign state when able to administer its own affairs.

Hospital bound...

Nothing we can ever do can adequately repay the more than 250,000 American heroes who died that we might live.

But we *can* and *must* provide hospital care and treatment for the hundreds of thousands who are maimed and crippled—some in body, some in mind.

To do less would be a lasting reproach to the free institutions of democracy for which *they* fought.

THE MONEY COSTS WILL BE HIGH

Hospitalization of our wounded will require high amounts of money. This is only one reason for the Victory Loan. Millions of men must be fed, clothed, transported home, for remember, until they are restored to civilian life the war is not over for them. And it's not over for *you* either till you do your share.

HEROES ON THE ROAD TO VICTORY—

Four Marine airmen attacked thirty Jap planes off Okinawa May 25, 1945. They shot down thirteen and probably four others in a twenty minute battle.

Our men often fought against great odds and won. We must see to it that the odds are not against them here at home.

Does your home need a coat of paint or a new roof? Would you like to add a room or decorate the interior of your home. We have money available for these purposes, and you'll be surprised how little red tape it takes to put it to work for you.

"GREATEST FORD EVER BUILT"

Says Public from Coast to Coast!

"How Soon?" and "How Much?" Ask Throgs In Dealer Showroom:

On October 26 the new Fords for 1946 went on display in dealer showrooms the country over. In city after city, town after town, dealers reported that the crowds who came to view these fine new automobiles equalled those who greeted the introduction of the famous Ford Model "A" back in 1927—when showroom attendance passed the 10,000,000 mark.

The opening day throgs were matched by those who came Saturday and later. And their opinion has been unanimous. The words most frequently heard have been "The Greatest Ford Ever Built." They backed up their acclaim with orders—326,840 on "V-8 Day", October 26—and Saturday, October 27.

This advertisement is published to record

the deep gratification of the entire Ford organization at this splendid public reception . . . and to answer, as directly as we possibly can, the two questions most often asked.

"How Soon Can I Get My New Ford?" We sincerely believe the answer is : Sooner than you think! And here's why—Ford, first with assembly line production of postwar cars, first to stock dealers for a nation-wide display, is first in quantity production—1,000 units a day reached last week . . . 2,000 a day in prospect within 30 days.

"How Much Will My New Ford Cost?" We think the answer to this is found in Ford's unvarying policy through more than 40 years of operation: always the highest quality at the lowest possible cost.

TO THOSE WHO HAVE NOT YET SEEN THE NEW FORDS: All our dealers have them on display. Please make it a point to see if you, too, don't agree that these are the "Greatest Fords Ever Built".
