## Britain Awaits Final Approval

### Britain Looks To America For Approval Of \$4,400,000,000 United States Loan Terms Accepted By House Of Commons

London, Dec. 14.—(AP)—Britain looked today to the American Congress for final approval of a \$4,400,000,000 United States loan, terms for which were accepted by the House of Commons last night after a very stormy session rife with party disputes and personal clashes between labor and conservative leaders.

Concluding a two-day debate, Commons voted 345 to 98 to approve the loan terms and then moved toward discharging its first obligation under the agreement by voting on second reading of the Bretton Woods monetary stabilization pact, 314 to 50. A third and final reading on the Bretton Woods bill is expected today.

Led by former Prime Minister Winston Churchill, many Conservatives abstained from voting and drew caustic criticism from Foreign Secretary Ernest Bevin, who headed the government's fight for loan approval.

Bevin and Churchill dined on the Commons floor in debate over acceptance of the loan terms. The wartime prime minister declared: "I certainly am of the opinion we (the Conservatives) could have got better terms."

Bevin termed Churchill's assertion a "label on the administration of the United States."

Churchill asked his Conservative adherents to refrain from voting, warning that a heavy opposition vote would injure British interests in the United States. Answering Churchill's abstention instructions to Conservatives, Bevin remarked: "The egoism of it, the actual consciousness of my right as a Conservative friend, the horrible assumption that the American government would go on its knees to him because there was a labor government in being."

"I saw to members of my own party, don't let us have any cowards on this side. The fact is we have to borrow and are not in a position to dictate terms. Therefore, we had to negotiate."

Bevin declared no one could come away from a money lender's office and calculate the repayments without feeling discomfort. "This discomfort," he said, "is added to when the catastrophe falls."

## TROUBLE SEEN IN INFLATION

### Signs Multiply That Government Sees Inflation Ahead

Washington, Dec. 14.—(AP)—Signs multiplied today that the administration sees trouble ahead—mainly inflation trouble—unless it braces some of its wartime controls.

The government prepared to celebrate the fifth month of peace beginning tomorrow by putting back to work part of its discarded priority machinery.

The decision to restore priority control over building materials in an effort to boost the construction of sorely needed houses is the latest in a series of moves tokening a firmer government grip on some parts of the economy which appear to be headed for pitfalls.

The moves all are aimed at familiar wartime problems: Prices, very scarce materials and work stoppages.

President Truman mentioned the problems only briefly in his recent optimistic report on the first 100 days of reconversion. But since that time the administration has:

1. Asked for immediate fact finding and compulsory cool-off legislation to prevent spreading labor troubles from thwarting the speedy return to peacetime standards of living.

2. Opened a vigorous drive for prompt extension of the price control act beyond its present expiration date of next June 30.

3. Put a brake on OPA's schedule for removing individual price ceilings. This happened after OPA had lifted ceilings from such scarce fruit and vegetables as citrus fruit and coconuts only to see prices zoom.

4. Reversed its position on real estate ceilings by asking Congress for price control on both new and old houses to go along with the priority on residential building materials.

Even the restored priority control is anti-inflationary in nature. It will reserve materials only for the builders of houses costing less than \$10,000, thereby discouraging the flow of scarce bricks, tile, lumber and hardware into the so-called luxury homes which builders prefer to erect.

## WAR CRIMINALS PAY PENALTY

### Beast Of Belsen And Ten Others, Hanged For War Crimes

Hamburg, Germany, Dec. 14.—Field Marshal Montgomery's headquarters announced today that Josef Kramer, the "Beast of Belsen," and ten others of the Belsen gang, including blonde Irma Grese, were hanged yesterday for committing crimes at the notorious concentration camp.

The executions were carried out at Hamelin by Pierpont, official British hangman.

The eleven condemned to death were moved from Luenburg's jail to the ancient prison on the banks of the Wesser River at Hamelin five days ago. The gallows were built by the Royal Engineers.

Marshall Montgomery denied all appeals Saturday. The eight men and three women hanged were condemned to death by a British military court November 17 for atrocities committed at the Belsen and Oswiecim concentration camps. Nineteen other persons drew prison terms.

Three of the condemned accepted the court verdict without appeal. They were Elizabeth Volkenrath, 26, head women's supervisor to the SS "Elite Guard," Juana Borman, 42, a fanatic who gave up missionary work to join the SS, and Franz Hoessler, 34-year-old SS member who helped pick victims for the gas chamber.

Kramer, 49, was camp commandant. Irma Grese was the pistol-packing "queen" of the Belsen gang. Others who died were Dr. Fritz Klein, 58, who chose inmates for

## Millions Slaughtered In Extermination Plan

### Six Million Slaughtered In Nazi Campaign Of Extermination Says German Secret Police Organization

By DANIEL DE LUCE  
Nuremberg, Dec. 14.—(AP)—Six million European Jews were ruthlessly slaughtered in the Nazi campaign of extermination, said German secret police estimates placed today before the International Military Tribunal trying 21 of Hitler's top leaders on war crimes charges.

American prosecutors filed an affidavit by Dr. Wilhelm Hoettl, right hand man to defendant Ernst Kaltenbrunner in the secret police giving the estimated

Approximately 4,000,000 Jews had been killed in the various extermination camps while an additional 2,000,000 met death in other ways, the major part of which were shot by operational squads of Security Police during the campaign against Russia. Hoettl said in his affidavit.

Hoettl attributed his figure to Adolf Eichmann, chief Jew culler in the Secret Police. He said Eichmann confessed to him in August, 1944 in expressing the conviction that he would have to pay for "the millions of Jewish lives on his conscience."

Gestapo Chief Heinrich Himmler thought Eichmann's total was too low.

No attempt by Allied officials to write an account of the mass murder in the Ghetto has yet equalled the shocking clarity of the SS reports themselves.

## Huge Nation Wide Strike Appears To Be Imminent

### Formal Demand For Real Attack Story

### Senator Wants Pearl Harbor Story From Enlisted Men; Barkley To Resign As Committee Chairman

Washington, Dec. 14.—(AP)—Chairman Barkley (D-Kv) announced today he may resign from the Pearl Harbor Committee. His statement came after the committee's entire legal staff asked to be excused from further participation in the inquiry.

Barkley told his colleagues that during the next few days before arriving at a final decision he would weigh his "relative obligations" to the committee and to the Senate where he is majority leader.

"If I conclude that my obligations are greater to the Senate, I shall resign as a member of the committee," he added.

Previously William D. Mitchell, committee counsel and his entire staff asked to be relieved of duty. Barkley called this move by the staff a "tragic development."

Mitchell said he and his aides would continue to present testimony this month, but Barkley said it would be difficult for the committee to find other counsel.

Mitchell asserted in his statement that all of his staff accepted appointment on his expectations and assurances that they would not be held up for any considerable period after January 1.

"My own obligations and responsibilities put me in the same position," he said.

Mitchell explained that when he accepted the council's post weeks ago he wanted to be relieved of duty by the first of the year.

Barkley noted that Mitchell and some of his assistants had said they desired to serve without compensation.

Both the counsel staff and Barkley protested that the hearings were ranging over such a wide field and witnesses were being questioned at such length that the investigation would go on for months.

The chairman said that he had not wanted to serve on the committee in the first place because as majority leader he had "all any one man ought to be asked to do."

Since the hearings started, Barkley added, he had been forced in effect to give up his work as majority leader "and almost as senator."

It had now become apparent, he said, that the investigation could not be concluded by January 3, as

## Threat Of Another Country-Wide Strike, Involving 200,000 CIO Electrical Workers In Plants Of Big Three Corporations Adds To Gloomy Picture

By The Associated Press  
A threat of another huge country-wide strike, involving some 200,000 CIO electrical workers employed in plants of three big corporations, darkened the nation's already-gloomy labor picture today.

Following the pattern set by CIO workers in the steel and automotive industries, CIO employs in plants of General Electric, Westinghouse and the electrical division of General Motors yesterday voted almost five to one in favor of a work stoppage to enforce demands for a \$2 a day wage increase.

The strike of the union workers in the plants of the country's three largest manufacturers of electrical equipment in 75 industrial centers in 16 states, said a union spokesman, would not be called until after Jan. 1. Returns of yesterday's vote, reported by the National Labor Relations Board, showed to date 86,794 workers in favor of a walkout and 18,216 against. Complete returns were expected later today.

The CIO United Auto Workers, currently engaged in wage negotiations with the automotive industry's "big three" have about 175,000 workers on strike at General Motors plants in support of a demand for a 30 per cent wage rate hike. The CIO United Steelworkers Union, seeking a \$2 a day pay boost for about 700,000 members, has called a strike for Jan. 14. Officials of the CIO United electrical, radio and machine workers estimated that yesterday's strike vote would mean a walkout of 200,000 workers.

Current labor disputes continued to pile some 400,000 workers.

Meanwhile, in Detroit, the CIO-UAW prepared to resume wage negotiations with Ford Motor Company officials as a General Motors Company official predicted the 24-day old strike at its plants might continue for six weeks longer.

Harry W. Anderson, GM vice president, said the corporation does not contemplate any increase in its twice rejected offer of a 10 per cent wage hike of 13 1/2 cents an hour.

At the same time GM disclosed it was seeking court injunctions against strikers in Cleveland and La Grange, Ill., charging them with using "threats and personal abuse" to prevent non-striking employees from entering company plants.

Walter P. Reuther, UAW vice president, said the injunctions "will only breed bitterness, and good will is what is needed." He reiterated his charge that the corporation was

## REBEL TRIBES ON THE MOVE

### Government Sources Says Rebellious Tribesmen Threatening

Teheran, Dec. 14.—(AP)—A high government source said today rebellious tribesmen threatened imminent capture of the Azerbaijan province capital of Tabriz, and the town of Ardabil, 110 miles to the east.

The announcement came as provincial Governor Bayat arrived in Tabriz. Bayat said he has been forced to leave by leaders of the movement for local autonomy. He said he was accompanied by his plane by Jafar Pishevari, president of the newly formed Azerbaijan government and Democratic Party leader.

Iranian garrisons in both cities were reported surrounded by insurgent forces, demanding immediate surrender. The embattled force at Ardabil was said to be hemmed in by 2,000 attackers.

The Tabriz garrison, said a government official, was awaiting orders from Tehran to fight or surrender. Orders to both garrisons were dispatched in code last night, but their nature was not disclosed.

British Ambassador Sir Reader Bullard, and U. S. Embassy representative, John D. Jernegan, left Teheran by plane for Moscow today and the foreign ministers meeting.

Meanwhile, Premier Ibrahim Hakim prepared to leave for Moscow for discussions with the Soviet government and the ministry of foreign affairs.

## Planning Release Of Many Civilian Goods

Washington, Dec. 14.—(AP)—The War Department advised senators today it is releasing immediately more than \$400,000,000 worth of scarce civilian goods.

The War Investigating Committee was given a list of items valued at \$203,721,370 and an aide said that another \$200,000,000 worth also is being released.

The list was submitted after Undersecretary of War Kenneth C. Rovell and Gen. Courtney H. Hodges had assured members that the army would do its best to alleviate civilian shortages, consistent with essential military activity.

## Trailers And Houses To Be Available

Raleigh, Dec. 14.—The federal public housing authority will soon release a list of the trailers and public housing units available to the State of North Carolina. State Public Works and Contract Director W. Z. Betts announced yesterday.

Betts was directed by Governor Cherry to secure as much housing as possible for the use of veterans who wish to attend the University of North Carolina and N. C. State College. Critical housing shortages exist at both places.

## Today In Congress

By Max Hall

Washington, Dec. 14.—(AP)—A Pearl Harbor committee member decided today he was "tired of hearing brass" and wanted the enlisted man's angle on the attack which touched off war with Japan.

Rep. Geawhart (R-Calif.) told a reporter he would demand that the investigating group subpoena some of the non-commissioned service men who were present when the Japanese planes came winging in to wreck the Pacific fleet.

In the meantime the committee recalled another high-ranker, Lt. Gen. Leonard T. Gerow, for testimony today. He was chief of Army war plans in December, 1941.

In the House, Representatives lined up for their first voting showdown on the "full employment" controversy. At issue was a proposed substitute by Rep. Dirksen (R-Ill.) for a bill setting forth federal policy in maintaining employment.

## War Memorial

At a recent meeting of representatives of local civic organizations regarding a suitable living memorial for Pitt County's war veterans, it was decided to invite citizens to contribute ideas and suggestions for such a memorial.

In order to aid the movement columns for the publication of these suggestions. All interested citizens are invited to write their suggestions in a concrete and constructive manner and limit their comments to about 300 words. All articles for publication must bear the writer's signature.

## Atomic Bomb Test To Be In Pacific

Washington, Dec. 14.—(AP)—The atomic bomb is expected to get its ocean test in a remote corner of the Pacific some time next spring.

Although a White House announcement that President Truman himself suggested the joint army-navy test against warships indicates a desire for early action, those in a position to know say the preparations may require as much as five months.

In addition to selecting and preparing target ships, it will be necessary to assemble an array of precision instruments and scientists to work with army and navy officials on the test.

## Germany Might Be Buyer For Cotton

Washington, Dec. 14.—(AP)—Germany may become an outlet for a portion of this country's surplus of low-grade cotton.

The government is considering ways of placing at the disposal of German textile mills a part of the 2,500,000 bales of such cotton the government acquired before the war under its grower price support program.

The objective is two-fold: to help defeated Germany get back on its economic feet and to provide more cotton clothing for needy Europe.

Before the 30's Germany was one of this country's biggest cotton customers. Then the Reich turned to other cotton and to synthetic fiber.

## The NATION TODAY

By James Marlow

Washington, Dec. 14.—(AP)—The government controls on building affect you if you're thinking of building a home or anything else. They'll be announced in detail shortly. Here's an outline of why the government thinks they're necessary.

New housing is critically needed, moderately priced housing. And building materials are not plentiful.

If there are no controls on the distribution of those materials—there have been none for two months—they can be used for less necessary high priced dwellings, or stores, or industrial plants.

John B. Blandford, Jr., boss of the National Housing Agency, says materials have been diverted to large size construction.

So—to channel materials into moderate priced housing, the government will take control of half the building materials in this country. It will do it this way: By setting up priorities on that 50 per cent of materials.

Then a priority—permission to get the controlled materials to be granted to builders who agree to use the materials for construction of dwellings costing 10,000 or less. This is intended to make sure at least half the materials go into dwellings.

But the government will leave the other 50 per cent free to anyone who can get them. This undoubtedly will mean a big

## President Accepts Carr Resignation

Washington, Dec. 14.—(AP)—President Truman accepted today the resignation of James O. Carr as U. S. attorney for the eastern district of North Carolina, a post to which Charles F. Rouse of Kingston, N. C., was confirmed last Monday.

The White House announcement said Carr asked to be relieved because of ill health.

## Disastrous Hotel Fire Takes Lives

Glenwood Springs, Colo., Dec. 14.—(AP)—Volunteers were searching the icy ruins of the ancient Glenwood Hotel, destroyed by fire early today, for the bodies of from three to 12 guests believed to have perished in the blaze.

Seven persons were injured and nearly 125 guests fled into near zero weather of this western Colorado resort town of 3,000 population.

Fire Chief Joe Bianco said only three persons were unaccounted for but Police Chief Charles Wells declared a dozen may be missing and some of them transients. Wells estimated the damage was between \$200,000 and \$300,000.

The fire chief said cause of the fire remained undetermined.

An Analysis Of The News

By DEWITT MACKENZIE  
AP World Traveler

Dublin, Dec. 14.—(AP)—One of the most extraordinary personalities in generation without the shadow of doubt is Eamon De Valera, prime minister of Eire—a man whose name is received at home and abroad either with applause or disdain but never with halfway emotions.

Here we have a onetime college professor who so far departed from his sordid role as to become one of the leaders of the ill-starred bloody Easter week rebellion of 1916 against British rule. When this rebel failed he was condemned to death but his sentence commuted and finally through a long line of imprisonment and other vicissitudes became prime minister of Eire.

And the most remarkable feature of this story of adventure is that he finally won his position not by armed force as he once tried but through political leadership of his people, in which he matched his keen wit against those of England's best. Mrs. Mackenzie and I have had a long conversation with the prime minister whom I have known for many years. I wish I could report it here, for he discussed Irish affairs and international relations with great candor one of his characteristics. But it was all "off the record."

I frequently have inquiries from readers from this column as to just what the status of Southern Ireland is and this would seem to be a good time to repeat the definition given by De Valera himself in parliament a short time ago. "The position, as I conceive it to be, is this: We are an independent republic associated as a matter of our external policy with the states of the British Commonwealth."

He added that the King "acts for us under advice in certain specified matters in the field of our external relations."

The manner in which this position was achieved is one of the high-water marks of De Valera's strategy. As described to me by one of his henchmen back in 1932 when De Valera became head of government

## Instructions For Problem Solution

Washington, Dec. 14.—(AP)—The United States and Britain today laid down a four-point set of instructions to the 12-man committee set up to investigate the Palestine problem.

The terms of reference, made public simultaneously in Washington and London, direct the committee to:

1. Examine "political, economic and social conditions" in Palestine to determine how they affect Jewish desires for increased immigration into the Holy Land, taking into account the well being of the people now living there.

2. Investigate the plight of Jewish refugees in Europe and estimate how many want to migrate to Palestine and also to see "what practical measures" have been taken or are contemplated in the European countries where they now live to enable them to live without discrimination or oppression.

3. Hear the views of "competent witnesses and to consult representative Arabs and Jews" on Palestine problems before making specific recommendations.

4. Make "such other recommendations" as may be necessary "to facilitate the emigration and settlement of Jews to countries within and outside Europe."

The committee has been instructed to report within 120 days.

## Gen. Patton Shows Some Improvement

Col. R. Glen Spurling, chief specialist attending Gen. George S. Patton, Jr., said today the American commander was "out of danger of death" but there was a possibility that he never would be able to command his troops again.

He described Patton's condition as a touch and go affair.

He said the general might recover fully from the broken neck received in an automobile crash last Sunday, but again that he might be partly paralyzed for life.

The rooms were festive with Christmas decorations including red candles, sprays of red berries and a brightly lighted tree on which gifts for each member were hung. Seventeen members of the organization spent the evening wrapped gifts for underprivileged children and enjoying contests and games. Refreshments were served by the hostesses at the close of the meeting.

### Garden Club Meeting

The Greenville Garden Club met at the club house Wednesday afternoon, December 12, at 2 o'clock with Mrs. Key Brown and Mrs. E. C. Hollander as hostesses. Due to illness, a large number of members could not be present, but the 36 on hand spent a very busy afternoon packing 150 stockings, most attractively decorated and packed with many useful gifts for the boys still being held in the hospital at Camp Lejeune. The members also brought evergreens, swags and wreaths and many things to decorate a Christmas tree for the boys and to make the hospital bright for our boys still in the service who have been wounded and who desire so much to be home this Christmas, 1945.

Mrs. J. H. B. Moore presided over the interesting business session while coffee, sandwiches and cookies were served by the hostesses. The members voted to decorate the club house on Thursday, December 14, starting at 2 o'clock, members coming later if more convenient for them, and all members were urged to prune their evergreens and make wreaths and swags and bring branches to make the clubhouse a delightful place for our boys in the service who will be in Greenville this Christmas, 1945, and the judging will take place on December 15.

### CHRISTMAS PROGRAM

The Christmas program presented each year by the High School Glee Club and the Senior Class will be given Sunday at 5:00 o'clock, December 16, in the auditorium of Greenville High School. This year Mrs. Rose's speech class will participate and read the Scriptures.

The program will consist of a professional tableau of the Christmas scenes, and carols. Accompanying the tableaux, presented by the Seniors, the Glee Club will sing appropriate carols, and the speech students will read selected Scriptures. The second part of the program will be centered around the four freedoms: "Freedom of Speech," "Freedom from Fear," "Freedom of Worship" and "Freedom from Want." While each tableau is being shown for the freedoms, the Glee Club will sing "The Nations Prayer," "God News From Heaven," and "Nightfall in the Sky." The last tableau is "Peace and the Christ Child." The climax of the program is "The Hallelujah Chorus."

Yesterday closed the girls volleyball tournament. The winning team, captained by Frances Bennett, won four games and lost none. The other three teams captained by Helen Rowland, Mary Smith and Pat Parrish won two and lost two.

The basketball team lost to Wilmington last night by a score of 27-27. The next game is here with Wilson Tuesday night.

The sale of bonds ended today in the school. For all those who sold bonds, free tickets were given to attend the movie at the Pitt Theatre tomorrow morning at 10:30. The picture is "Hold That Blonde" with Eddie Bracken and Veronica Lake.

The sale of Tuberculosis seals ended today and all gifts for White Christmas were supposed to come in. However, they may be brought next week.

# MORE CHARGES AGAINST JAPS

## Murder Of Eight Nationals Filed by U. S. Eighth Army

Tokyo, Dec. 14—(AP)—The murder of eight Allied nationals was charged today in specifications filed by the U. S. Eighth Army against the first five Japanese to be prosecuted in Japan for prison atrocities.

A U. S. military commission appointed to conduct the trials will meet in Yokohama Monday morning and arraignments may be held then. No date has been set for the trials, however.

The five Japanese are former prison camp officials and the specifications charge them with inflicting brutalities and suffering in hundreds of specific cases involving thousands of prisoners. Each defendant is charged with the death of at least one American.

Cruelties listed in the specifications included deliberate starvation and forcing prisoners to stand naked in the snow.

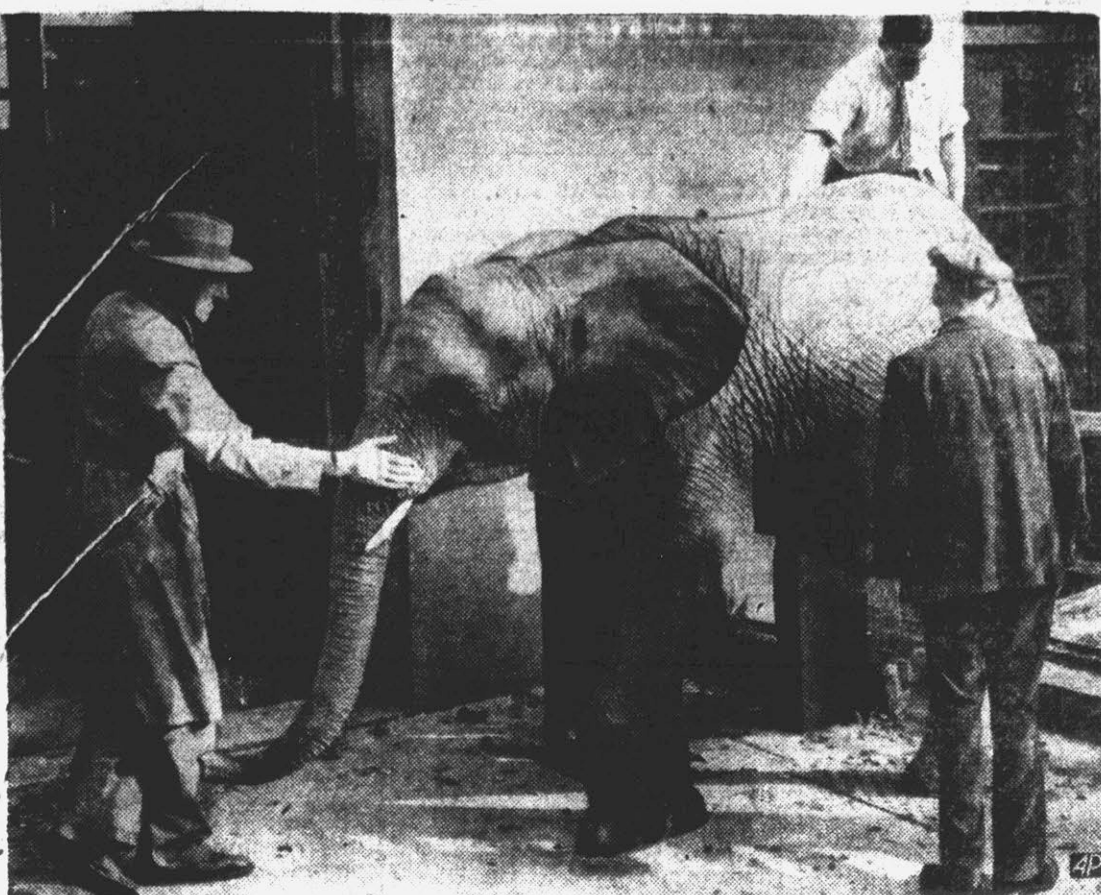

As Allied occupation authorities filed the accusations, opposition to one of General MacArthur's directives for Nippon's reform appeared openly in the ranks of Diet members.

The expressed opposition to the directive, which is aimed at helping thousands of Japanese farmers to acquire ownership of land, accentuated the growing estrangement in post-war Nippon between city and rural inhabitants. The Diet critics said the farmers already were better off than many urbanites and were refusing to sell badly needed food.

The Diet is treading such a wary path that the session to date has produced not a single piece of major legislation toward the peacetime reconstruction and reconversion of the better country.

Independent movements are at work in Japan which would have been suppressed under the military dictatorship. Japanese workers on one of Tokyo's electric train systems struck for higher wages, continuing to operate the lines but allowing passengers to ride free.

## Canned Food Given To War Sufferers

The campaign for canned goods which began the early part of the week has met with a splendid response from many private purchases at the various stores, yet the goal set for Greenville is not in sight.

The students of the Greenville High School have undertaken to lend their support by giving a can each.

Dr. McGinnis and Dr. Slav of East Carolina Teachers College, are giving splendid assistance, and the students are working to do their part.

Similar movements have been started by Professor Johnson, principal of the Ayden High School, and Professor Putrell, principal of the Griffin School.

## To Parole Prisoners Christmas

Richfield, Dec. 14—Approximately 100 prisoners will be paroled before Christmas, Governor Cherry said today.

He said he would follow a precedent and free those who ordinarily would be eligible for parole before the holiday, and those who would be eligible between Christmas and New Year's Day.

No out and out Christmas paroles will be granted, however, the governor said.

## All Aboard?

Los Angeles, Dec. 14—(AP)—Miss Tere Richter, 25, has been sitting in the Union Depot four days and nights trying unsuccessfully to get on a train to go to Manchester, Iowa.

She almost made it once I got all the way out to the train and put my foot on the platform before the conductor came out and said, "That's all this time," she related as she settled down for more waiting.

## Biggest Loss

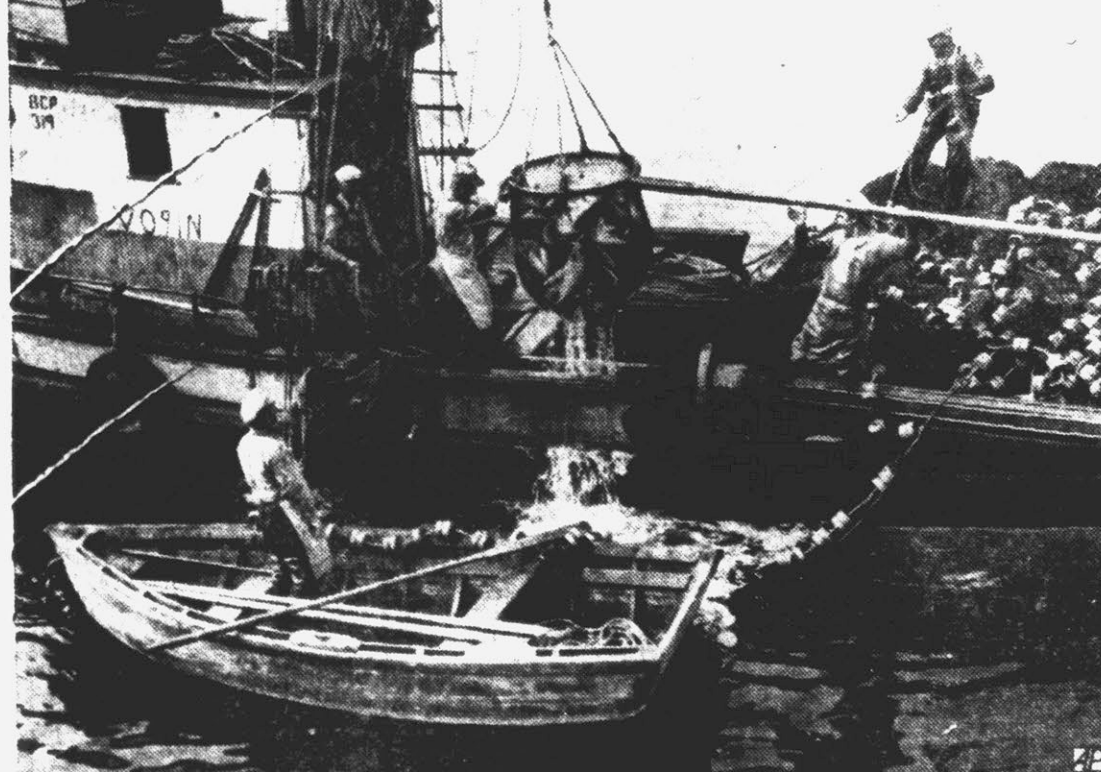

San Bernardino, Calif., Dec. 14—(AP)—Temperatures dipped well below freezing in Southern California's citrus belt again today, but the biggest loss wasn't to fruit. It was attributed instead to a by-product of orchard heating—a traffic accident on a smoke-shrouded highway involving 44 cars and trucks.

## Christmas Gift

Albany, N. Y., Dec. 14—(AP)—Governor Dewey's household staff eyed the executive mansion driveway eagerly today for the approach of an express truck bearing a toilet seat.

From Schenectady last night, James P. Kallieux, a lawyer, wired the governor that he had expressed "one white toilet seat for the McKinley room in the executive mansion."

## Strength FOR THE DAY

By EARL L. DOUGLAS

**OURS THE COMFORT.**  
It is a terrible experience to  
watch a loved one die, and mil-  
lions of people are having that ex-  
perience every day. Sometimes it  
is an elderly parent who is pass-  
ing away. Even more tragic, it is of-  
ten a husband or wife, a son or a  
daughter, a brother or sister, or  
perhaps a lifelong friend.

What word of comfort is there to  
be said to such? No human word,  
certainly. But there is a divine as-  
surance on the matter of death  
which runs through the New Testa-  
ment from beginning to end. It is  
the comforting assurance that  
death in the Lord is not a calamity  
for the one experiencing it, no mat-  
ter how grief-stricken it may leave  
us here in our solitude. If we could  
see with the eyes of God we would  
no doubt be willing to give up our  
loved ones, knowing full well that  
they are safe in the Lord's hands  
than in ours. If we could divest our  
minds of the idea that the material  
world is everything, and realize that  
as a matter of fact it is scarcely  
any consequence at all compared  
with the spiritual world, we would  
take our sorrows in a different spir-  
it.

"Whether we live, we live unto the  
Lord; and whether we die, we die  
unto the Lord. Whether we live,  
therefore or die, we are the Lord's."

## WASHINGTON DAYBOOK

By JACK STINNETT  
Ev J. FRANK TRAGLE  
(Substituting for Jack Stinnett)  
Washington — Absent-mindedly  
poking one's finger into a revolving  
fan may not be so annoying as  
plunging from a six-story scaffold,  
but the federal government ad-  
visers against it anyhow.  
This suggestion is included in a  
little illustrated booklet prepared by  
the Federal Interdepartmental  
Safety Council to help prevent gov-  
ernmental workers from knocking  
and cutting themselves to pieces.

The booklet discourages such in-  
conspicuous "clamping into  
locked" doors, tripping over open  
desk drawers and climbing up such  
improvised ladders as a book-on-a-  
box-on-a-chair.  
The advice is of general applica-  
tion. For not in government of-  
fices alone can one find such go-  
lings-on.

A reading of the booklet brought  
forth these impressions:  
Don't run up or down stairs and  
it is suggested that you restrain  
the impulse to ignore the last four  
steps in a downward flight. It is  
also pointed out that a piece of pa-  
per on a marble step can act for  
all the world like a banana peel.  
If your office is so arranged that  
an electric cord must extend across  
a floor barricade the entangling  
passage. Your work won't be in-  
terrupted so often by unexpected visi-  
tors falling into your typewriter.  
Files are made to put things in  
not on the ground. Also don't load  
unsecured filing cabinets with the  
heaviest material at the top. Top-  
heavy cabinets like old vaudeville  
comedians on top of pyramided  
chairs have a tendency to fall over.  
Broken glass in a wastebasket  
can make you unpopular with the  
janitor or with a neighboring work-  
er looking for discarded notes. Wrap  
shattered glass in paper.  
And when you decide to sharpen  
your pencil with a razor blade, re-  
member: (1) it probably has two  
edges; (2) it's probably sharper than  
your wit; (3) it's a darn fool thing  
to use in the first place, unless  
equipped with a guard.  
Tobacco can quiet the nerves,  
but remember that a smoldering  
cigarette in a wastebasket can drive  
your fellow workers nuts. It also  
can cause unemployment by burn-  
ing down the building.

Another point to jot down is that  
people on the street do not look  
kindly upon burning butts flicked  
from windows.

It's as good an idea to maintain  
a speed limit when walking in an  
office building corridor as it is  
when driving on a highway. And  
when you negotiate a corridor cor-  
ner to keep to the right—there may

### A War Memorial

A community building which  
could be used as a recreation center  
for the youth of our city would be  
a living memorial which would con-  
tribute to the life of the community  
and by a means of character mold-  
ing for our young people. The  
building should be adequate for the  
needs of the adults and the youth.  
And the building should be avail-  
able for all ages of youth, recreation  
which would be supervised on all  
occasions.  
The Teen-Age Club of our city  
has recently been forced to dis-  
continue its activities due to the lack of a club  
home. There were around 200 girls  
and boys who were members in good  
standing and enjoyed the privileges  
of the club. Any organization which  
furnishes good, clean wholesome  
fun, properly supervised for such a  
number of young people is certainly  
worthy of the public interest and  
effort in securing a shelter. And  
any organization which is a means  
of keeping our youth interested in  
proper activities is worthy of back-  
ing by the parents of the city.  
I would like to see the erection of  
a community building as a living  
war memorial which I feel would be

## The Nation

The Builders agreed they would not  
out more than \$8.00.  
This, NAA says, relieved some of  
the housing shortage and kept the  
building industry going.  
When L-41 was knocked out in  
October, its ability to control new  
home prices also went out of the  
window.  
It's possible that if L-41 had been  
modified, instead of eliminated, it  
would be necessary now to set  
up new controls.

of Lords. The action came barely  
14 hours after Commons had ap-  
proved terms of the loan by a vote  
of 345 to 98.

Congress had stipulated in its en-  
gaging resolution.  
"At the rate of progress made,"  
he said, "it would be difficult to  
prophesy how many months may be  
required to complete the investiga-  
tion."  
In announcing the legal staff's  
desire to withdraw, Mitchell read

to the committee a statement, not-  
ing that although the inquiry had  
been in progress since November  
15, the examination of only eight  
witnesses had been completed.  
"There remain at least 69," he  
said.  
Mitchell said the legal staff would  
be glad to help a new staff take  
over, but said they could not work  
longer than December and through  
the early part of January.  
When Mitchell had concluded his  
statement, Chairman Barkley (D-  
Ky.) told the counsel:  
"So far as this committee, the  
Congress and the country is con-  
cerned, this development is tragic."  
Rep. Gearhart (R-Calif.) deman-  
ded today that the Pearl Harbor in-  
vestigation "get the real story" of  
the Japanese attack from enlisted  
men who were in Hawaii December  
7, 1941.

Gearhart said he would make a  
formal demand on Chairman Bark-  
ley for the Senate-House committee  
to subpoena "some of the ordinary  
men" who got caught in the raid.  
A member of the committee which  
began its inquiry November 15, Mr.  
Gearhart said he is tired of hearing  
brass.  
"I want to know what the enlisted  
men think," the Californian told a  
reporter.  
The committee thus far has heard  
only high ranking officers and civil-  
ians. Lt. Gen. Leonard T. Gerow,  
chief of army war plans in Decem-  
ber, 1941, was recalled to the stand  
for today's session.

of Pearl Harbor. But late yesterday  
members were handed a two-volume  
"narrative statement" on investiga-  
tions the navy has conducted. The  
bulk of the data was not new.

## Rebel Tribes ...

(Continued from Page One)  
eign affairs appealed to Russia, Bri-  
tain and the United States to with-  
draw their troops from Iran imme-  
diately.  
A foreign ministry statement said  
the question of evacuating foreign  
troops from Iran would be brought  
to the attention of the Russian, Bri-  
tish and American foreign minist-  
ers during their forthcoming con-  
ference in Moscow.  
Official reports earlier in the  
week from the turbulent northwest  
province told of small skirmishes  
taking place there, although infor-  
mation has been scarce ever since  
Iranian troops were turned back by  
a Russian commander southeast of  
Zenjan.  
The official Russian explanation  
for not permitting government sol-  
diers to enter the Soviet-occupied  
territory was that such a move may  
cause unnecessary bloodshed.  
A prominent member of the Iranian  
Parliament, who would not per-  
mit the use of his name, said Thurs-  
day that the government garrison  
at Tabriz could not hold the city  
more than two weeks without as-  
sistance.

## Phantoms Drop Game To Wilmington By 30-23 Score

By DAVE CLARK

A fast, ball hawking, and sharp shooting Wilmington High basketball team came to Greenville last night and threatened to run away with the ball game until the badly off Phantoms partially found themselves in the last half and cut the final score to Wilmington 30, Greenville 23.

The speedy Wildcats recovered most of the loose balls, intercepted Greenville passes, and cut loose with a barrage of successful shots in the first half to gain a 22-11 advantage by halftime and go on to win without being too seriously threatened.

The Phantoms did pull up to within five points of the Wildcats, however, when they put on a rally in the last quarter only to have the Cats pull out of reach in the final minutes. As the score indicates, the Greenies outscored their rivals in the last half by 12-8, but its final score that really counts.

Julian White a reserve forward was high scorer for the Phantoms with 10 points and seemed to be the only Greenville player whose usual name Jimmy Futrell dropped in seven points to follow White in the tallying. He sank three free throws out of three attempts and made two field goals to gain his total.

Last night's game is another indication that as yet, the Phantoms are badly off their stride but they should come around by next Wednesday night when they travel to Wilmington to meet the Cats in a return match.

The next Greenville engagement is Tuesday night with the Wilson Club Greenville beat Wilson last Tuesday by a 23-16 count.

The starting lineup for GHS was Jimmy Futrell and Ed Williams at forwards, Billy Harrington and Mac Batchelor at guards and J. T. Williams at center.

## Baseball Meet In Fayetteville

By CHESTER WALSH

Guy V. Smith, president of the Greenville Baseball Club will go to Fayetteville on January 16 to attend the Coastal Plains Baseball League directors meeting. President Ray H. Goodmon of Williamston, will preside. The president of the eight clubs comprise the board of directors. The clubs are Greenville, New Bern, Kinston, Goldsboro, Tarboro, Wilson, Rocky Mount and Fayetteville. Fayetteville was admitted to the league at a directors meeting in New Bern recently to take the place of Williamston after that club decided to withdraw from organized baseball.

The directors will adopt a schedule set the price of admission and set a date for the opening and closing of the 1946 season.

The Coastal Plains League disbanded at the end of the 1941 season. It was reorganized at a meeting held at the City Hall in Greenville last October.

## Atomic Gray Hair

Washington, Dec. 14—(AP)—Did the atomic bomb test explosion in New Mexico last July turn the cat-tle gray?

The War Department is going to try to find out.

Sixty head of range cattle that have developed gray hairs on their backs since the Alamogordo, N. M. atomic test now are en route to Oak Ridge, Tenn., a War Department official said, where a test will be made to determine if the gray hairs resulted naturally or from the blast.

**Mt. Calvary F. W. B. Usher Board**  
The Mt. Calvary F. W. B. Usher Board met Sunday at 4 p. m. at the home of Miss Esther Mae Porteur. The attendance was greatly attended. The club was opened in the usual manner. Devotional exercise was splendid with the Christmas spirit in the air. The club was proud to have a new member to join in the organization with them Sunday. Mrs. Hattie Ellis Ford was the member. She did not want to be told what to do but will join right in along with the others and put her shoulder to the wheel and began to help out with the club plans as if she had been there all the while.

Plans are being shaped for a Christmas Recreation Day for the Usher Board which means each member can fully get acquainted with one another.

Each member expressed themselves at length at this meeting and each was left with the spirit as the following verses were read:

"Little Jesus, Little Jesus,  
Wise Men numbered three  
Merry and frankincense and gold  
These they brought to thee,  
"Little Jesus, Little Jesus,  
My gift is my heart,  
Full of wonder, love and praise,  
For thee, as thou art.

Club meeting will be at the home of Miss Clara Cherry, West 5th St. Club reporter, Esther Mae Porteur.

**Forgotten Man**

One trouble with the theory that buying power can be increased merely by boosting wages is that it forgets the man who doesn't live by wages—

The only effect he feels is the higher prices that sudden wage boosts help bring about.

A large portion of our people do not live by wages. Farmers are a good example. So are doctors, dentists, lawyers and those who run small shops and stores—

Even more seriously affected are people like ministers, teachers and government employes of all kinds—and the millions of men and women living on insurance benefits, pensions or life savings.

Their buying power doesn't go up—it goes down!

As a matter of fact, the rising prices that follow general wage increases tend to eat up even the gains that wage earners seem to have made.

These things are important to consider in connection with the UAW-CIO wage-demand strike against General Motors—

And all the other strikes for sudden wage boosts that are sweeping the nation like an epidemic.

# Santa and the White Bunny

BY LUCRECE HUDGINS

## THE THREAD WENT ROUND AND ROUND

### CHAPTER 9

**David Goes After a Star.**  
 Santa and David explained to Patrick Tweedleknobs about the fine thread they must have to break the giddy spell. Then off they all went to the toy shops gathering up spiders in big paper bags.  
 Mrs. Claus stayed in the cottage and David left the white bunny with her because he knew his little sister had always been afraid of spiders.  
 Patrick Tweedleknobs grumbled loudly at the task but it was clear from the start that he would collect the most spiders—so nervous he was to help in the breaking of the evil spell. When they had 17 bags of spiders they went down to the barn where the reindeer and sled were kept. The stable dwarfs turned out the deer and sent them kicking their heels through the snow—(how they loved it, too—like pampered children who had never before been allowed to get their feet wet).  
 Then they emptied the bags of spiders on the floor of the barn and right away the little creatures scurried up the side walls and over the ceiling an' on to seconds at all there were wisps of thread dangling in the air as the spiders frantically worked at their webs.  
 Meanwhile, other dwarfs had rolled in a great spool—almost as large as David himself—and as the wisps of thread were spun the dwarfs caught the ends and wound them around the spool.  
 David clapped his hands and laughed with joy as the thread went round and round. Then Santa nudged him and they stole out of the barn.  
 "We must get out before Tweedleknobs realizes how many folks I've taken from their Christmas work," he said. Then he put his arm around David's shoulder. "See, he whispered, "Already we have done one of the impossible."  
 Edith in spite of himself David's hopes began to droop. "How shall we get a star?" he wondered. "Time is so short but even if I had a hundred years I do not see how I could get a star."  
 "Look, then," laughed Santa suddenly. "And you'll see how it can be done in less than a day."  
 David looked and saw that Santa was pointing in the sky. But instead of stars in the sky there was a rainbow. And beautiful as the rainbow when seen from Santa's Land. With more colors than you have ever dreamed of and a magic mist about it, too, so that it seems to be something you are seeing with your minds eye and not your real eyes at all.  
 "You mean—" gasped David. "I should climb the rainbow and pick a star?"  
 "Can you do it?" asked Santa and he looked close at the boy's upturned face, at the open lips and the eyes filled with hope and daring.  
 "Oh, I will do it," cried David. "I will!"  
 "First you must go to the rainbow's beginning," said Santa. And quick you must be for a rainbow does not stay forever in the sky.  
 Then Santa ran down in the snow covered fields and caught his very

reindeer, the most fleet-footed of all. "Ride him," he said, leading him to David. "But bring him back safely, or I'll never make my own rounds on Christmas Eve."  
 David leaped on the deer's back and turned the sensitive head towards the start of the rainbow. Away they sped, the deer's hoofs barely touching the ground.  
 But the farther they rode the farther away seemed the rainbow. Every time they climbed a hill David thought, "Surely, in the next valley there it will be!" But it never was and on and on they sped until it almost seemed they had covered half the earth.  
 But, then, at last, when the boy was about to drop with fatigue, there it was, on top of a hill—a pool of purple and gold and yellow and blue and orange and a dozen magic shades of magic colors.  
 And out of this wondrous pool arched the rainbow.  
 (Tomorrow: David Climbs the Rainbow.)

# Wait for the New General! THE GREATEST TIRE EVER BUILT!

Meanwhile, make your present tires last! Your General Dealer has the definite Plan available to you now!

WELL WORTH WAITING FOR!  
THE GREATEST TIRE EVER BUILT!

AS SOON as rubber restrictions are lifted, General will present—proudly and without qualification—to the car owners of America the greatest tire ever built!  
 It will be well worth waiting for! Already thoroughly tested, the new General is ready to go into production as soon as—but not before—the finest natural rubber is again available and government restrictions permit the use of more natural rubber in passenger car sizes. The present allowance is only a little more than an ounce. This increase should come soon, if the government releases only a small part of the crude rubber stockpile now on hand.  
 Then, General will build into this new tire all the extra performance its advanced design makes possible and bring you the complete satisfaction you would expect of a tire designed to enhance General's famed Top-Quality reputation.  
 Even when our dwindling stockpile of natural rubber was one of America's most potentially dangerous wartime shortages, tire manu-

facturers were permitted to use 30% natural rubber in truck tires, because the military recognized that a certain percent of crude rubber is absolutely necessary for satisfactory tire performance. With 30% natural rubber and 70% synthetic, General is building the best truck tires ever built, proving that all that is needed to get the same performance from passenger car tires is a small amount of natural rubber.  
 All during the war, General was a large producer of synthetics and its research produced a number of important developments.  
 But, synthetic passenger car tires, while they have served during the era of 35-mile-an-hour top speed, do not represent even the starting point for the kind of tire that General wants to produce...and will soon!  
 Meanwhile, we have a definite Plan available to keep your present tires serviceable and guarantee you priority delivery of the new Generals as soon as they are available.

Annual Meeting Of PCA Stockholders

The twelfth annual stockholders' meeting of the Greenville Production Credit Association was held in Greenville on December 12, 1945, at which time Mack G. Smith of Bell Arthur and D. F. Hardison of Snow Hill were re-elected as directors.

The other directors of this association are: Jno. R. Carroll, president, of Whiterville; G. L. Mewborn, vice-president, of Snow Hill, and J. P. Davenport of Pactolus.

Jno. R. Carroll, president, presided over the meeting. He said that the association had experienced another successful year and that the association has improved its services to the farmers this year. Frank L. Little, Jr., secretary-treasurer, and B. M. Richardson, assistant secretary-treasurer in charge of the Snow Hill office, made the secretary-treasurer's report. In this report they stated that the association had made 635 loans totaling \$961,285.00 during the past year and that it had built up a reserve of \$56,734.00 since its organization to protect the investment of its members.

Robert A. Darr, secretary of the Production Credit Corporation of Columbia, S. C., made an interesting talk on "Your Association and its Future." He stated that the association has continued to make pro-

Comedy Presented at College "Thursday Evening" Christopher Morley's sprightly comedy of a young married couple and two mothers-in-law, was presented at a special performance given in the Austin auditorium of the college at noon, Thursday, December 13, by the class in high school dramatics.

The parts were taken by Emma Lee Garris of Ayden and John Johnston of Raleigh, as Mr. and Mrs. Gordon Johns, and Mary Elizabeth Carr of Wallace, and Betty Joyce Kinlaw of Ayden, as their mothers. Other members of the class, who acted as producing staff, include Sara Moore of Greenville, Kay Mann of Middletown, Myra Edmondson of Stantonsburg, Katie Owen of Roseboro, and Francelle Barden of Magnolia.

The stage setting, which represented a kitchen, was attractively designed and was complete with stove, refrigerator, and sink with running water.

Several hundred students and faculty members were present to express their approval of the excellent performance by the student-players.
