OPA FACES A STRONG FUL IN CONGRESS

Assurances Of "Fair And Reasonable" Controls Needed To Save Bill

Washington, April 16—(AP)—Senator Morse (R-Ore) said today assurances from President Truman of "fair and reasonable" OPA actions will be needed to save the price control agency in Congress.

Morse told reporters he spoke as a friend of OPA who wants to continue "regulations necessary to the objectives of price control as a check against inflation," he added: "It is perfectly obvious that the President must take a hand in this matter and give us some definite assurances that OPA is going to function in a fair and reasonable manner, in accordance with the facts rather than in accordance with some ideology of some subordinate official."

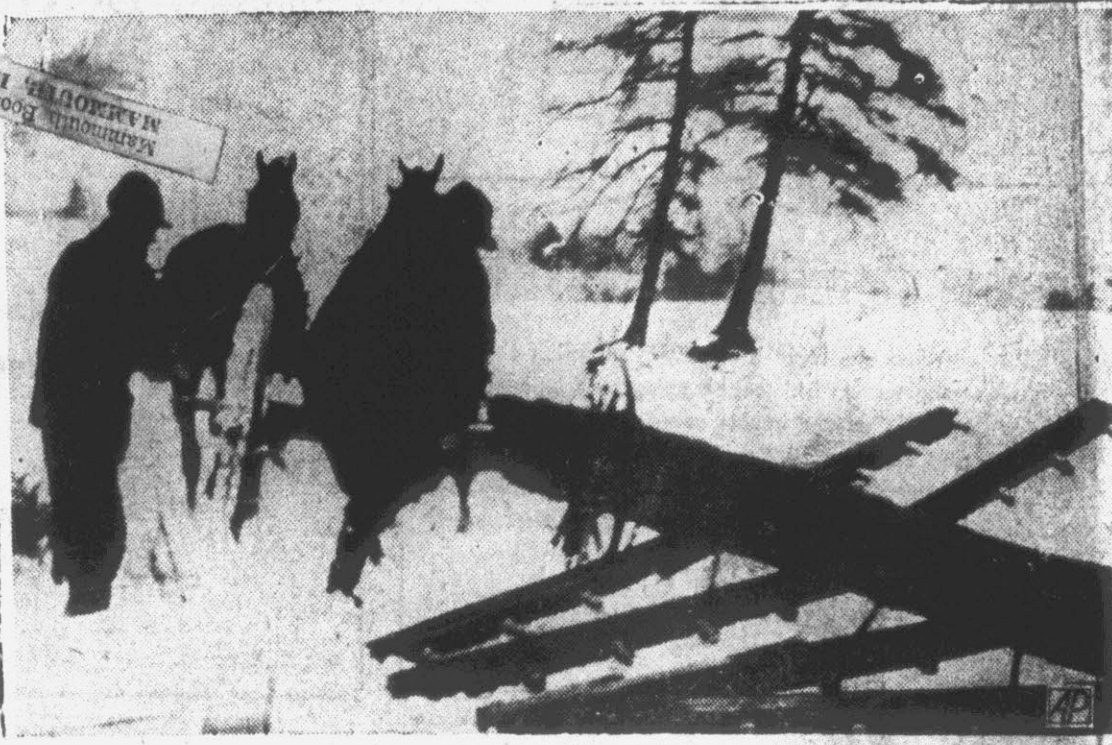

Given those assurances, Morse said, fighters of inflation "will be able to prevent emasculatation of the OPA program." The Oregon lawmaker spoke as the Senate Banking Committee recalled Economic Stabilizer Chester Bowles for further testimony on legislation to extend OPA a year beyond June 30.

Meanwhile, the House resumed debate on the bill after yesterday's opener produced such varied remarks as these: By Chairman Spence (D-Ky) of the Banking Committee: To lose control over prices would mean that "a disaster that is indescribable would come upon our people."

By Rep. Taber (R-NY): "OPA has done nothing but throttle production." Lending a new tone to the situation was the presence of a "housewives' lobby" led by Mrs. Leon Henderson, wife of the former OPA chief, and Mrs. Ernest K. Lindley, wife of a Washington newspaper man.

Mrs. Lindley estimated there were 1,500 women in the group who came to Capitol Hill yesterday to urge a year's extension of price controls. She said they had "three or four long petitions with 1,000,000 signatures." Administration-opposed amendments, on which House voting will start tomorrow, include: 1. To take farm products out of OPA's control.

Spring Blizzard Lashes 'Down East' Maine

Workers with a team of horses struggle to clear away one of 26 telephone poles lying across U. S. highway No. 1 near Machias, Maine, in the wake of one of the worst spring blizzards in a decade. Snowfall measuring up to 16 inches disrupted travel and communications in the area which is the easternmost part of the United States. (AP Wirephoto).

Wartime Dairy Controls Are Restored By Govm't

New Attack Planned On Snarled Food Situation In Bid To Spur Butter Production And Spreading Of Meat And Bread Supplies; Controls Set To Fight Black Market

By WILLIAM A. KINNEY Washington, April 16—(AP)—The government mapped today a new attack on the snarled food situation involving butter, bread, meat and black markets.

Wartime controls were ordered stepped back in an effort to spur butter production and Stabilization Director Chester Bowles forecast a "real improvement within the next 30 days" on this front.

The Senate Agriculture Committee called for more details on factors dislocating meat distribution while OPA and the Agriculture Department moved to restore other wartime controls on slaughtering with the aim of spreading available supplies more evenly.

A potential bread problem had members of the Senate small business committee seeking ways for various without impairing the nation's flour supplies. Baking industry spokesmen told the committee yesterday that if these supplies fall 15 percent below last year government bread rationing or black markets in the food are probable.

The move for butter production was bracketed with OPA action to keep consumers bills at their present levels for milk, butter, cheese and other dairy products. A program of large subsidies for dairy farmers was announced yesterday to compensate for higher feed and labor costs.

On butter, the OPA aimed at overcoming a situation which had made it more profitable to use butterfat for ice cream and other products than for butter. Accordingly, the wartime ban will be restored on the sale of whipping cream and restrictions were placed on the amount of butterfat in ice cream. The program also includes price ceilings for the first time on cream (Continued on Page Four)

Draft Bill Waiting For Senate Action

"Cooling Off Period" Indicated For Draft Extension Bill And Accompanying Service Pay Boost Measure

Washington, April 16—(AP)—A "cooling off" period in the Senate appeared in store today for the chopped-up draft extension bill along with its companion pay boost measure.

Senate leaders indicated an inclination to do nothing for at least a week about the two pieces of legislation passed yesterday by the House.

What they would do then was doubtful. But it seemed highly unlikely the Senate would accept the Selective Service extension in anything like the House version—with its five-month "holiday" on inductions and a ban against drafting teen-agers.

Chairman Elbert D. Thomas (D-Utah) of the Senate military committee told reporters he thought "the sensible thing" would be to extend the draft law as is until July 1 of this year.

Thomas' committee, however, has recommended a full one-year extension from May 15, and it has evidenced little sympathy with the House "holiday" plan.

Spokesmen for the War Department, upset over the House action, said privately they are hopeful of salvaging the measure in the Senate. Particularly disturbed by the ban on teen-age inductions, they claim the army can't meet its manpower needs if that restriction stays in the bill.

NEW FREIGHT RATES ASKED BY RAILROADS

OPA Considers Effect Of Twenty-Five Percent Freight Rate Increase

Washington, April 16—(AP)—The OPA hauled out its price charts today to determine what effect a requested 25 per cent boost in railroad freight rates would have on living costs.

Although an official of the agency emphasized that it has no jurisdiction over rate matters, he told a reporter privately that OPA would intervene before the Interstate Commerce Commission if its study shows the proposed increase might have "inflationary tendencies."

The Association of American Railroads asked the ICC yesterday to grant a general 25 per cent hike in freight rates effective May 15. The carriers at the same time also asked the commission to make permanent the 10 per cent higher passenger fares first ordered in 1942.

Passenger rates now are due to revert to their prewar level six months after the legal termination of hostilities.

The petition said "The situation of the railroads has now become critical x x x (as) the result of an extraordinary combination of war and postwar conditions x x x and more particularly the result of three factors of recent development: 1. The increase in wages of rail-

MARSHALL TO FLY TO SCENE

Special Envoy To Pit His Influence Against Civil War

By the Associated Press General Marshall, recognizing the urgency of the Manchurian fighting, tomorrow will fly direct from Tokyo to Peiping, the Sino-American truce headquarters, to again throw his powerful influence into peace negotiations.

Marshall, President Truman's special envoy to China, cancelled an important conference with Chinese Premier T. V. Soehnle in Shanghai to go direct to the truce headquarters city.

There he will meet the impotent Sino-American committee of three which—without substitutes for all three—(Continued on Page Six)

Greenville Men Gain State Masonic Posts

Information was received from Raleigh today that Doctor Robert S. Boyd, pastor of the First Presbyterian Church of this city, would be named grand chaplain of the Masonic grand lodge of North Carolina, now in session in Raleigh.

William J. Bundy, also of this city, now deputy grand master will be elevated to the post of grand master.

Council Postpones Decision On Iran

Madrid Radio Expresses Fear Of Invasion; Denies Atom Research

London, April 16—(AP)—The Madrid radio expressed fear that Russia was planning to invade Spain as the Franco government awaited replies today from five "friendly" nations invited to send technicians to investigate charges that Spain is a threat to world peace.

The countries are the United States, Britain, Egypt, the Netherlands and Brazil. The Madrid radio, which is controlled by the Franco regime, said there was a secret agreement between France and Russia which might lead to a Soviet march through France and into Spain. The existence of any such agreement was promptly denied in Paris by a source close to the French foreign office.

The broadcast said that "all indications" were that the Spanish republican government in exile, which has headquarters in Paris, was "preparing military intervention by means of frontier incidents" in the Pyrenees.

"Once such an incident has taken place," the Madrid radio continued, "Russian troops could come to the assistance of their allies by marching through France from the German and Austrian zones of occupation."

The source close to the French foreign office said the broadcast was "just what you would expect to come" from Franco's radio. The Spanish foreign office, meanwhile, denied Paris reports that an atomic bomb laboratory was being operated at Portugalete, near Bilbao, by German scientists. It termed the reports "totally and absolutely false."

Butte, Mont., April 16—(AP)—This strike-bound copper capital of 40,000 began relaxing today from three days and nights of vandalism as Sheriff Al McLeod credited volunteer war veterans and members of the striking CIO miners' union with helping ease the tension.

While police and sheriff's officers last night waited for telephone callers to carry out threats to visit more homes of nonstrikers, representatives of the International Union of Mine, Mill and Smelter Workers (IUMS) patrolled Butte pleading with crowds to keep order. McLeod said groups of girls, boys and women broke up without trouble and he added before going home early today for his first sleep since Friday night.

"We don't expect any more trouble, and won't need outside help. But I've been authorized to swear in 100 special deputies and I expect to have them all today, just in case." Several groups of women and children, threatened by anonymous telephone callers, were moved from their homes for protection last night. And McLeod disclosed three juveniles are in custody for alleged rioting. He added several others were being "watched."

As on previous occasions, the crowds gathered last night at homes of Anaconda Copper Mining Company employees who remained on jobs as maintenance workers after the CIO miners went out last Tuesday in a dispute over retroactivity of a pay raise offered by the company.

From the start of disorders, the union officially has condemned the hoodlumism and house wrecking. "The union men have been very level-headed in all this—and have been very cooperative," said McLeod. "There were groups as big as 250 last night, and the union men (Continued on Page Six)

COAL PARLEYS IN DEADLOCK

Schwellenbach Reports No Change In Stalemate

Washington, April 16—(AP)—Secretary of Labor Schwellenbach rattled his efforts today to break the deadlock in negotiations between John L. Lewis and strike-bound soft coal operators.

The cabinet officer told reporters he could not honestly report any change in the stalemate, but he said he would keep on trying. The Secretary said there would be no resumption today of the conference which Lewis broke off last Wednesday and added he had not determined whether to try to set up a meeting tomorrow.

Lewis is still standing pat, Schwellenbach said, for a commitment from the operators to the principle of a tonnage levy for a health and welfare fund, to be operated by the union.

The operators still reject that proposition, he said, which they already have described as "unsound and un-American." They have asserted that rejection must stand as final.

The producers offered, instead to consider a plan to create a joint fund to be administered by some independent agency.

Lewis has insisted to Schwellenbach and Assistant Secretary of Labor John W. Gibson that further discussion with the operators would be fruitless until they consent to commit themselves beyond that.

Schwellenbach meantime asked Solid Fuels Administrator J. A. Krug and Civilian Production Administrator John D. Small for detailed information of the effect of (Continued on Page Six)

Bitterness Flares In Debate On Dropping Of Iranian Question; Three Delegates Demand Immediate Consideration Of Poland's Charges Against Franco Spain

New York, April 16—(AP)—The United Nations Security Council today postponed action on Russia's proposal for dropping the Russian-Iranian case and adjourned until tomorrow with three delegates demanding immediate consideration of Poland's charges against Franco Spain.

Dr. Quo Tai-Chi, chairman, announced the council would meet at 3 p. m. (EST) tomorrow. He did not state what would be taken up then. But France, Russia and Poland joined in asking immediate consideration of the Spanish case.

Poland has charged Franco Spain with endangering world peace and harboring Nazi scientists doing research on new weapons in this atomic age.

Eight delegates lined up yesterday and today against Russia's proposal that the council immediately strike the Russian-Iranian case from its agenda.

The eleventh nation on the council, France, presented this morning a compromise proposal designed to have Secretary General Trygve Lie obtain complete information on the case for the council's report to the General Assembly which meets here Sept. 3. This would have the effect of taking the case off the council's docket.

Secretary Lie this morning handed the council a memorandum expressing doubt that the council could legally keep the case on its agenda. He noted that the council had not selected a dispute existed, that the governments had announced an agreement and that Iran had withdrawn the case.

The council referred the Lie memorandum to its committee of experts for a report within two days. This could bring the matter up on Thursday again.

The council saw a brief recurrence of the bitterness that marked its session last yesterday when the Russian delegate, Andrei A. Gromyko, expressed doubt that the United States and Britain wanted a peaceful settlement of the Iranian case.

Edward R. Stettinius, Jr., the American delegate, told the council today that his government still thought it not wise to drop the Iranian case immediately.

Sir Alexander Cadogan, the British delegate, did not reply today (Continued on page six)

Edwards In Race For Commissioner

There are three candidates for county commissioner for the Fifth District, which includes Chidcock and Winterville townships. They are G. S. Porter, incumbent, and M. W. Smith and B. J. Edwards. Mr. Edwards' name was inadvertently omitted from yesterday's story of candidates in the Democratic Primary, May 25.

Clarence Vincent is the candidate for justice of the peace in Winterville Township. He has no opposition. The three candidates for State Senator are Arthur B. Corey, incumbent; J. F. (Flick) Arthur and Frank M. Wooten, Jr.

the All-India Congress, and by highly placed Britons as well. Thus we have an indication of the trend in handling this crucial matter. The likelihood is that if success crowns the current conference on Indian liberty, the agreement will provide for the elimination of the great majority of the some 600 potentates who have autocratic authority over about 90 million subjects.

The pandit says that the maharajahs of the major Indian states can well continue their rule during the life of the provisional federal government until their future is decided by their people. But the rulers of the small states, many of which are merely glorified estates containing perhaps a couple of hundred people, will be pensioned off.

These small "princes"—and some of the big fellows as well—offer serious barriers to Indian unity and progress. There's only one thing to do: That is to get rid of them and incorporate their lands and people in a federal government that will include the whole vast sub-continent of India.

There is a fair number of the major rulers who are progressive (Continued on Page Four)

FARM BUREAU IS CONCERNED

Urges Removal Of Dairy Products from OPA Control

Greensboro, April 16—(AP)—North Carolina Farm Bureau offices today telegraphed the state congressional delegation urging removal of dairy products from OPA control and saying that the present milk subsidy fails to provide a fair income to the producer or an adequate supply to the consumer.

"High feed cost and low ceiling prices are liquidating some of the finest dairies in our state, and future liquidation will continue unless something is done," the telegram stated. "We know that sooner or later the \$600,000,000 subsidy will be removed and unless it is made up by an increased price in the market place it will bankrupt every dairyman in the country."

The dairy farmers of North Carolina do not want the subsidy, they are going along with it merely to (Continued on Page Six)

Publishers Ask Suit Be Dropped

Tallahassee, Fla., April 16—(AP)—Dismissal of a \$500,000 libel suit brought by Governor Caldwell against Colliers magazine has been asked by the Cronwell-Collier Publishing Company.

In a motion filed in federal district court here, the Tampa law firm of McKay, MacFarlane, Jackson and Ferguson, representing the magazine, said that statements contained in an editorial protested by the states chief executive "were true and therefore not actionable."

The editorial, which appeared in Collier's Feb. 23 issue, concerned Caldwell's statements about the killing of Jesse James Payne, a Negro who was taken from an unguarded Madison County jail and shot after being indicted on charges of attempting to rape a five-year-old white girl. No date has been set for a hearing on the motion.

TODAY IN CONGRESS

A Review Of Your Government In Action

Washington, April 16—(AP)—The House today voted approval of contempt proceedings against 17 persons whom its committee on un-American activities said displayed willful and deliberate refusal to supply subpoenaed records.

The 17 included Miss Helen R. Bryan, executive secretary of the Joint Anti-Fascist Refugee Committee in New York, and 16 members of the organization's executive committee. The evidence in the case will be turned over to the U. S. attorney for the District of Columbia.

On the other side of the capitol Senator Edwin C. Johnson (D-Colo) wrote a bristling letter to Secretary of War Patterson in which he said the War Department was responsible for what he termed the confused and chaotic draft extension bill passed by the House. Mr. Johnson said the department apparently had assumed that members of Congress are dummies and that they can be awed and influenced by a mass of distorted mathematics. He urged support of his proposal for a six weeks' draft extension from May 15.

The NATION TODAY

By James Marlow

Washington, April 16—(AP)—If you're an 18-year old boy or a 19-year old girl, take a deep breath and wait bit—Don't start making plans now based on the draft bill passed by the House yesterday. That bill would forbid the drafting of anyone under 20 years of age after May 15. But it still is only a bill, not a law. It is just what the House thinks the law should be. Now it's up to the Senate to act, maybe in a week or two. And the Senate probably will vote for something quite different from the House version. Then the House and Senate will have to get together to work out some kind of compromise on the two different bills. That compromise will be the one that becomes law, provided the President signs it. Undoubtedly it will be different from the individual House and Senate versions. But no matter what happens, the House and Senate will have to come through with their compromise bill by May 15. That's the date when the present Selective Service Act—the draft law—dies, unless Congress extends its life. It surely will.

The WORLD TODAY

An Analysis Of The News

By DEWITT MACKENZIE Visibility is restricted here in New York because of the smoke from the big guns of the U. N. Security Council battle, but while we are waiting for the clouds to lift over this unprofitable clash there is another development which we should not overlook in connection with the negotiations between England and India, regarding Indian independence. Pandit Jawaharlal Nehru, who next to Mahatma Gandhi is the greatest figure in the dominant All-India Congress, has served warning that the hundreds of rulers of the small Indian states must lose their golden thrones. This statement is of vast importance, coming as it does in the midst of the parleys over Indian sovereignty. The question of how to deal with the principalities is one of the great problems to be solved. Nehru speaks with authority—a point to which your attention is especially directed, because he is a man worth watching. What he believes in this matter is believed by the Mahatma and the All-India Congress as a whole. I know from personal study in India that a similar view is held by many Moslems, who are political opponents of

RESOLUTIONS OF RESPECT
The Pitt County Medical and Dental Society lost one of its most loyal and best-loved members when death claimed Dr. Alfred M. Schultz.

Dr. Alfred M. Schultz died Sunday, February 24, 1946. He was born in Greenville fifty-two years ago the son of Mrs. Bluma Abram Schultz and the late Samuel M. Schultz. He attended the city school, the University of North Carolina, and the University of Pennsylvania, where he received his degree in 1915. He began his practice of dentistry in Greenville immediately after graduation. During World War I he served as a first lieutenant in the Army Medical Corps, following this with three years of public health work in North Carolina. In 1921 he resumed his private practice which continued until his death.

Dr. Schultz was a charter member of the Pitt County Medical and Dental Society and served several years as secretary.

Inasmuch as it has pleased our Heavenly Father to call from among us our beloved brother and co-worker, whose generous, unselfish life, devotion to his home and community, and capacity for friendship will be a challenge to all who knew him. Therefore, be it resolved:
First, That Pitt County Medical and Dental Society has lost one of its most loyal and devoted members, and that in his passing we and the community have lost a loving and helpful friend.

Second, That we wish to express our deepest sympathy to his family, and to commend them to God, the creator of the heavens and the earth. Who knows all things and comforts the sorrowing.
Third, That these resolutions be recorded in our minutes, a copy be sent to his family, and a copy sent to the Daily Reflector for publication.

Eno Art Exhibit
Art lovers and even amateurs will enjoy the beautiful Eno paintings now being shown at the City Art Gallery. It is located on the second floor of the City Library and may be seen without charge.

Already many visitors there have said, "This is the most beautiful exhibit ever displayed by the Community Art Center." Mrs. Eno, a great lover of birds herself has reproduced her pictures in a most realistic way. Her other paintings being shown here are realistic reproductions of exquisite flower arrangements. In Mrs. Eno, the critic finds formal art at its best.

It may be said that this artist who is the wife of a millionaire belongs to the old school of art. Friday night, April 15th about 50 guests gathered at the home of Mr. and Mrs. Tucker Mills of Greenville, Route 3.

The occasion was a delayed birthday party honoring their son, Norman, who was recently discharged from the armed services. It was his first birthday at home in four years.

Mrs. B. L. Tyson entertained in the delightful manner with her knack for full of songs, stunts and games. She kept everyone singing or dancing for two hours.

Strength FOR THE DAY

By EARL L. DOUGLAS

IT SURVIVES EVERY STORM
There are three Greek words for
love, and the New Testament uses
two of these. One is "philia," mean-
ing friendship, cordial good will
and is "eros," meaning romanti-
c or sexual love. The third is
"agape."

This word is a strictly Biblical
word. It is used throughout the
thirteenth chapter of I Corinthians
and is translated both "charity"
and "love." It does not mean
friendship or romantic love. It ex-
presses something far higher than
this. It is an emotion and a moral
purpose men have because they are
children of God, because they are
made in God's image and after his
likeness. It signifies the love God
has for man and the love he ex-
pects to have for Him. And this
means that this variety of love is
the good will, the enthusiastic moral
purpose, God expects us to have in
all our dealings with our fellows.

Paul declares that knowledge, wis-
dom, eloquence and practical gifts
are valuable and necessary for the
world's life, "And yet," he says,
"show I unto you a more excellent
way." This way is the way of love—
the way of boundless good will and
unshakable moral purpose expres-
sed in the Greek word "agape,"
which is translated into the English
word "love."

The proof of Paul's statement is
found not in logic but in experi-
ence. Everyone who has tried the
"agape" way of life has found that
it works. Whenever everything else
in the world has gone to pieces, love,
good will, sacrificial service, endur-
ance remain. "Love (the agape vari-
ety) never faileth."

Where The Blame Still Lies

(Greensboro Daily News)
So East Carolina Teachers
college, after all these
months, is right back where
it started with no president
and the trustees called upon
to begin all over again in
securing an administrator
with their task made all the
harder by ensuing develop-
ments.

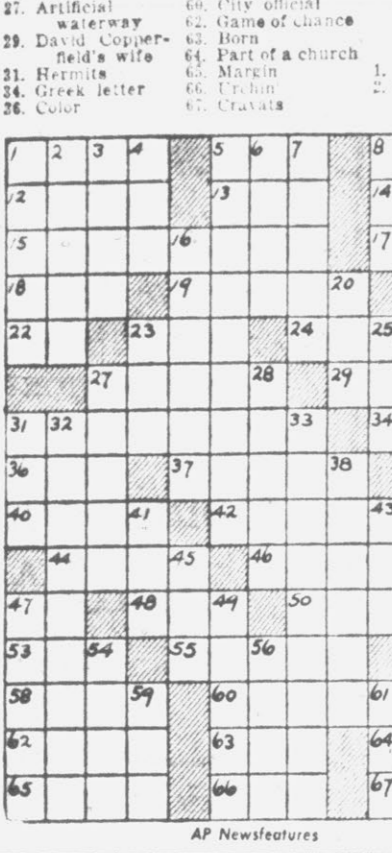

As for Dr. L. E. Spikes'
decision not to accept the
presidency offered him, we
think it shows that he pos-
sesses sound common sense
in keeping with his acad-

The Nation . . .

(Continued From Page One)
The House put the 18-month limit on service but, as noted, chopped continuance of the draft to nine months.

The officials frankly said they'd much prefer to fill the army ranks with volunteers instead of draftees. But they wanted the draft continued uninteruptedly for these reasons:
1. With the draft hanging over their heads, youths might be more inclined to volunteer.
2. If the army couldn't get enough men through volunteering, the draft would fill the gap between the number of volunteers and the number of men the army needed.

An average of about 30,000 men a month—ranging from 18 years upward—have been volunteering every month.
About 100,000 youths become 18 monthly. Not all can be taken into military service. Some are deferred to finish high school, some are not physically fit.
Since Germany quit last May, the army has discharged about 6,600,000 men. It now has 2,500,000. By July 1, 1946, that will be down to 1,550,000.
By July 1, 1947, the army figures it will have to have 1,070,000 and will lack 170,000 of that number if the draft isn't continued.
The 1,070,000 which the army says it needs to have by July 1, 1947, will be a standard figure for some time after that.
It bears that many, the army says, to carry out its obligations, such as occupying Germany and Japan.

The Senate Agriculture Committee was plainly exercised about the meat situation which packer James D. Cooney testified was "a national scandal" which makes prohibition look like petty crime.
With the FBI ordered into action against one group of black marketers, there were hopes of curbing some illegal transactions in meat but opinions differed sharply whether the reimposition of slaughtering

controls would achieve its aim of improving general meat situation.
Price Administrator Paul A. Porter said the effect of the controls would be to "provide for better distribution of meat supplies at cut prices to retail stores." Secretary of Agriculture said it meant "in reality a share-the-livestock program."
The opposite view was taken by Cooney, vice president of Wilson and Co., one of the big four packers. He told the Senate committee the new order "won't do any good."

on our profits . . .

SOMETIMES, although an idea is wrong, it does no harm. Like the idea that a square jaw is the sign of will power. That winters aren't as severe as they used to be, or that red hair denotes quick temper.

But there are other wrong ideas, when are definitely harmful to public confidence in and understanding of industry. One such idea is the current "guessing" about profits made by large business organizations.

Many people are apt to grossly exaggerate the money made by business. So Opinion Research Corporation (an independent organization) made a survey to learn just what the public thinks about profits. Compare these guesses and yours with the International Harvester profit figures given below.

Public guess on war profits . . . 30.0%
I H four war years average profit . . . 4.9%

In this survey, the average of the guesses by the public of the war-time profits made by industry was . . . thirty per cent (30%).
But in the four war years of 1942, 1943, 1944, and 1945, the profits of International Harvester Company averaged only . . . 4.9%, on sales. Less than one sixth of what the general public "guessed" for all industry.

For this period, the year by year per cent of profits on sales was: 1942—7.34; 1943—5.59; 1944—3.95; 1945—3.93.

Public guess on peace profits 18.0%
I H four pre-war year average profit . . . 7.17%

In the four peace years of 1938, 1939, 1940, and 1941, the profits of International Harvester Company averaged . . . 7.17%. This is well under half of what the public "guessed" for all industry.

Majority think fair profit in normal times is . . . 10%
I H ten-year average is less than 7%
The survey indicates the public knows that in our economy profits are indispensable. And the majority regard 10% as a fair

Wages and materials consume nearly all of every dollar Harvester takes in from sales. A Government board has recommended and the Company has agreed to pay a general wage increase of 18 cents per hour for Harvester factory employees. The Government has also allowed price increases on raw materials which we purchase in large quantities. Steel has had an average increase of 8.2%.

There has been no general increase in our prices since they were frozen by the Government early in 1942.

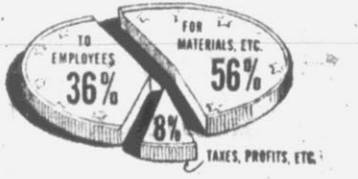

So our situation today is that what we BUY costs us 1946 prices. We will be paying average hourly wages 56% above 1941. For what we SELL we get only 1942 prices. This condition cannot long be met out of our present low rate of profit.

Future Prices on I H Products
It is plain that price relief will be needed to meet the increased wage and material costs which we must carry.

We regret this necessity. We prefer to lower prices, when possible, rather than raise them and we know our customers prefer to have us do that. We had hoped to be able to "hold the line," at least.

But we do not see how we can avoid operating at a loss if our prices continue to remain at their present frozen levels. We will NOT "cut corners" on any of our products, because QUALITY IS THE FOUNDATION OF OUR BUSINESS.

Our customers can be certain that we will seek no more than a moderate profit, both because of our policies and because we have approximately 300 competitors fighting us vigorously for your business. Our request for price relief will be no more than is necessary to insure continued service to our customers, continued work for our employees, and a reasonable return for our stockholders.

With beautiful murals depicting a typical Spanish street scene, the Pan American fiesta, an annual affair in commemoration of Pan American day, was held last Friday night, April 12.

A program was given in the form of a one-act play, written by the members of the second year Spanish class, under the direction of Mrs. Howard Mims. The play was the dream of a boy, played by Lewis Evans, whose spirit arose to meet the old Spanish heroes. The spirit was enacted by Jack Whitchard.

The musical side of the program consisted of a solo, "Cielito Lindo" sung by Lindy Corey to the accompaniment of his guitar. Directly following this solo, Jim Haney sang "La Paloma." A lovely piano solo, "Pompompoma" was offered an appreciative audience by Joe Bowen. Later, Jack Whitchard and Hogan Gaskins, accompanied by Joe Bowen, delighted listeners with a trumpet duet, "La Golondrina." Appearing from the stage, Al Smith and Joanne Bloom did a tantalizing Spanish dance, El Fandango.

Near the close of the fiesta, refreshments were served and the traditional souvenirs of Pan American day, painted eggs filled with confetti, were distributed to add to the color of the occasion.

In addition to the fiesta, two other programs were given in observance of Pan American day. The Latin American Geography class presented a play entitled, "Let Us Be Friends," directed by Mrs. Mims. Miss Ona Shindler presented this same group of students in a program of Spanish American songs. Fittingly, the song program was dedicated to our late president, Franklin Delano Roosevelt.

Rat Controls To Be Put In Effect

Rats as destroyers of property and carriers of disease are going to be attacked by a clean-up campaign and a rat eradication effort. Last night at the Rotary Club H. A. Harris, a member of the Pitt County Health Department staff, told the Rotarians all about the rats and what to do to get rid of them. He told them about the rat habits and methods of eradication. Greenville plans during the clean-up week to get rid of the rats' food, and a poisoning program to get rid of those that are now.

Howard Keeler of Seattle, Washington was a visiting Rotarian last night. Guest of the Club were Pete DeLoach of Charlotte, Norman Wilkerson and Harry Jarvis. Urcell Webb presented the program last night to the Program Committee. Charles Bessette read a letter from H. M. Hardee of Norfolk who gave Camp Rotarians to the Greenville Girl Scouts.

John Proctor, Club president, suggested the fullest cooperation of Rotarians in the Clean-up Campaign and the Rat Eradication program.

To Hold Revival

The Memorial Baptist Church, Fourth and Greene streets, will hold a revival meeting beginning Sunday, April 21, and running through Sunday, April 28.

The visiting minister in this series of meetings will be Rev. J. Clyde Yates, for the past several years pastor of the Allen Street Baptist Church of Charlotte. Mr. Yates will deliver his first sermon Monday evening at 8 o'clock, and each week day evening at the same hour. He will also speak over WGTC radio every morning at eight-thirty on the daily devotional program. The services this Sunday will be in charge of the pastor, Rev. Richard E. Hardaway.

Mr. Yates is a graduate of Wake Forest College and is the moderator of the Mecklenburg Baptist association. Before going to his present pastorate he was pastor at Kannapolis, Bessemer City, and Statesville. He has also held many successful revivals, and is active in many phases of the religious life of his city and state.

A cordial welcome is extended to the people of Greenville to attend these services.

They were sent to Fort Bragg, for a physical examination. After passing this examination they will be sworn into the regular Army and assigned.

Blind Students Are Making Progress

The Pre-Conditioning Center for the Blind, training school for the sightless, is doing wonderful work in developing the students to live more normal lives. The entire system is practical and tends to give them confidence in themselves to do things like other people.

The training is comprehensive. Students are first taught to get about freely. They are trained according to their aptitudes and talents. They are taught commerce, the professions, industrial arts and other things to enable them to become self-supporting. One feature of the course is having representatives of different lines of business and industry and the professions go to the pre-conditioning center and make talks about their particular business. Recently Charles E. Blair, manager of Blount-Harvey's department store, spoke to the students on retail merchandising—how goods are bought and sold, and how to deal with the public. His talk impressed the students. They were given a practical insight into business methods and they appreciated it. Other business and professional men will, from time to time, be invited to speak to the blind students at the Pre-Conditioning Center.

Clean Up Greenville

Greenville needs much improvement such as a community building, playgrounds, parks, and many other things. Greenville's citizens would enjoy it. It also needs public swimming pools and its streets need widening.

When George Washington came through Greenville he said it was a dirty little town and it still is. Can't we improve it by not throwing paper on the ground and cleaning the homes and yards? If all citizens in Greenville would do better than they are doing, Greenville wouldn't be a dirty town for long and its citizens would enjoy it. —Eleanor Stoneham.

How to Clean Greenville

George Washington called Greenville "the dirty little town on the Tar." He was right. Greenville is dirty and will be unless we do something about it. Old houses should be painted and cleaned. Back yards should be

GOOD JOB— but what about MONEY?

A lot of things go to make a good job. Interesting work, vacations, the people you work with. But the big consideration is money. Take-home pay — savings — provision for the future. Those are the things that count.

Compare the average job with a job in the Army.

Suppose you make \$200 a month, when you're working. After all the deductions have been taken out — and after paying for rent, groceries, clothes and doctors' bills — how much have you left?

Army pay starts at \$50 a month for a Private. But a big proportion of men in the new peacetime Army are specialists, with higher grades and pay. Suppose you're a Technical Sergeant, making \$114 a month base pay. You get your food, clothing, housing and medical and dental care free. Insurance, amusements and incidentals cost you far less. And if you enlist before July 1, 1946, you get a family allowance for your dependents. You'll have money to save!

With a yearly 30-day furlough with pay, you work eleven months and get paid for twelve. You get the best technical training in valuable trades and skills. Chances for advancement are excellent. On a 3-year enlistment you can choose your branch of service and overseas theater — and overseas service pays you 20% extra! If you enlist before October 6, 1946, upon discharge, you'll have the privileges of the GI Bill of Rights.

The educational privileges alone after a 3-year enlistment are worth more than \$2000 (48 months of college, trade or business school — free!). Where else could a young man save that much in 3 years?

Most important of all, after 20 years' service you can retire at half-pay for the rest of your life — or on up to three-quarters pay after 30 years' service. To get that kind of retirement security in civilian life you'd have to buy an annuity costing you \$54 a month!

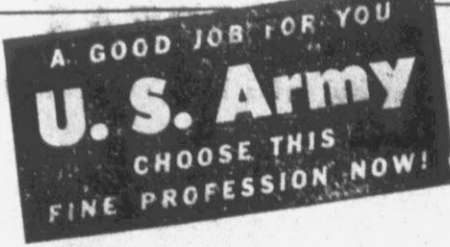

If you are aged 18 to 34, inclusive (17 with parents' consent), and physically and mentally fit, you can enlist now in the U.S. Regular Army for 1½, 2 or 3 years for one of the world's best jobs. Without obligation, get full details at your nearest U. S. Army Recruiting Station.

Prisoner Tells Of Camp Brutalities

Lichfield, Eng., April 16—(AP)—A GI prisoner who refused to testify last week in the Lichfield detention camp trial because he said he was afraid of retaliation, returned to the witness stand today and asserted that Americans in the camp were viciously beaten.

He was Otto C. Holt of Gilman, Ill., a witness in the court martial of Staff Sgt. James M. Jones of Muskogee, Okla., who is charged with assaulting Lichfield prisoners.

Holt said when he was first called to the stand last week that "I don't believe it would be safe for me to testify—officers in this camp don't approve of our testifying."

He said this morning that he had seen Jones force another prisoner against a courtyard wall at Lichfield and beat him in the stomach with his fists for 20 minutes.

Holt also testified that a group of guards—among them Jones—had beaten another prisoner in the yard until he foamed and bled at the mouth. He said this prisoner later was taken to the hospital.

President Signs "Petrillo" Bill

Washington, April 16—(AP)—President Truman signed today legislation making it a federal offense to use coercion against radio broadcasters.

Sponsors said the measure is designed to halt certain practices of the AFL musicians union headed by James C. Petrillo. It carries penalties of up to a year's imprisonment

and \$1,000 fine for compelling or attempting to compel broadcasters to:

1. Hire more employes than they want.
2. Pay money for services not performed.
3. Pay unions for the use of phonograph records.
4. Pay again for broadcasting a transcript of a previous program.

The same penalties could be invoked against persons interfering with broadcast of cultural or educational programs originating in foreign lands.

The legislation developed from an original attempt by Senator Vandenberg (R-Mich) to override a Petrillo ban against broadcast of a student music festival at Interlochen, Mich.

Petrillo contended the program took jobs from professional musicians.

Marshall's decision to fly to Peking was made after the No. 2 Chinese Communist leader, Gen. Marshall conferred with McArthur in Tokyo today.

There was a virtual news blackout—unexplained, but presumably caused by poor communications—from Manchuria today.

However, Associated Press Correspondent Spencer Davis radioed from Mukden that the situation in embattled Changchun, the Manchurian capital, was so tense that a neutral plane probably would be sent there to remove five American correspondents—one a woman.

Latest news from Changchun said Communists, attacking from three directions, had captured Changchun's three airfields.

The official Chinese Central News Agency, in a Changchun dispatch, reported belatedly today that Communist troops had entered the capital city yesterday after one night of continuous attacks. There were no details. The Communists were reported to have 30,000 to 40,000 troops around Changchun; the government only 4,000.

Associated Press Correspondent Tom Masterson, one of the five American correspondents in the Manchurian capital, yesterday said the Communists had been attacking 10 hours when his dispatch was filed. The assault began two hours before the scheduled departure from Changchun of the last Russian occupation troops.

the nationwide intermittent strike now in its third week.

While describing the overall picture as not yet critical, Schwellenbach said there were many individual cases of hardship.

Gilson reported that before the strike began April 1 the steel mills were operating at 90 percent of capacity. Last week, he said, that had dropped to 72 percent. He estimated the volume would decline to 50 percent by the latter part of this week if the strike continues.

One lady said a few days ago that she used to be afraid to go to bed at night. She was swollen with stomach gas, which always got worse when she went to bed, and the gas would rise up in her throat after she lay down and would nearly choke her. She couldn't lie flat. Had to prop herself up on pillows. Recently this lady got INNER-AID and now says gas is gone, stomach feels fine, bowels are regular and she can go to bed and sleep soundly.

INNER-AID contains 12 Great Herbs; they cleanse bowels, clear gas from stomach, act on sluggish liver and kidneys. Miserable people soon feel different all over. So don't go on suffering! Get INNER-AID. Sold by all drug stores here in Greenville.

"2. Large increases, both present and prospective, in the prices of railway materials and supplies.

"3. A sharp decline in volume of railway traffic and an even greater decline in railway revenue."

The railroads said the wage increase will add about \$618,000,000 to 1946 expenses and that higher prices will add "not less than \$167,000,000 x x x."

"Moreover," the petition added, "operating revenues for 1946, on the basis of 1945 rate levels, will be more than \$2,000,000,000 under the operating revenues in 1945."

The proposed rate hikes would yield \$626,000,000 in additional revenue this year, the petition stated.

stay in business. Milk and butter will return in abundance to the tables in North Carolina if and when the dairy farmers of this state are permitted a price that will give them reasonable profit and some assurance of a fair return for their investment."

R. Flake Shaw, executive secretary of the bureau, was one of a group of state farm organization representatives in Washington today to confer about China's recent "lamppoon" on American tobacco imports. Others were Carl T. Hicks, Walstonburg, bureau tobacco chairman; Mrs. Harry B. Caldwell, Greensboro, state Grange master; and T. W. Allen, Creedmoor, Grange tobacco chairman.

The group was scheduled to meet with state congressional delegations and representatives of the state, commerce and agriculture departments.

to the Russian remarks.

Gromyko closed the discussion by telling the council that he had called things by their names yesterday and I did not expect the delegate from the United States to agree.

Dr. Quo received the thanks of the council for his work as chairman. He will be replaced tomorrow by Dr. Hafez Afri Fasha, the Egyptian delegate, in accord with council rule that each delegate will be president for a month at a time in alphabetical order of the nations of the council.

Early in today's session the secretary general made known his doubts that the council could retain the heated Russian-Iranian case on its agenda.

Gromyko in his remarks yesterday expressed doubt that the U. S. and Britain want a peaceful settlement of the case.

The main points of Lie's memorandum were:

1. The council had made no finding that a dispute actually existed.
2. In view of this the only possible action was to order an investigation under the charter. This had not been done.

3. Iran has asked the council to drop the complaint.

Henri Benoit, the French delegate, handed in his resignation before the council convened this morning.

He proposed that the council take note of Iran's withdrawal of its case against Russia.
