

EXPERTS SEEK CLUES IN BIG CHICAGO FIRE

"Blue Ribbon" Jury Probes Disaster; City Clamps Down On Fire Regulations

Chicago, June 6.—(AP)—A series of official investigations was under way today into all phases of the undetermined and terrifying flash fire in the La Salle Hotel yesterday morning in which 58 persons lost their lives.

As city, county and state officials proceeded with their separate inquiries into Chicago's worst hotel disaster in history, the hotel management ordered complete evacuation of the fire swept ruins of the 12-story structure at La Salle and Madison Street. More than 1,000 transient and permanent guests at the 1,000 room, 37-year-old loop hotel were affected.

In the wake of the tragic blaze city officials ordered the immediate closing of two legitimate loop theaters and five night clubs because of alleged failure to comply with fire and building code regulations.

Five nursing homes also were ordered closed but action was delayed pending arrangements for new quarters for the inmates. Spokesmen for the two theaters, the Shubert and the Great Northern, said they would protest the closing order. Mayor Edward J. Kelly said other buildings with fire hazards would be closed.

Meanwhile, a "blue ribbon" inquiry of 11 engineers, safety, architectural and hotel management experts probed the conflagration, seeking to determine the cause and the reasons why the flames spread so rapidly from the lobby up the stairways.

Fire department officials said that hundreds of the 1,100 guests in the hotel when the fire broke out knew nothing of the fire until fire engines arrived about 12:35 a. m. The first three floors of the hotel were engulfed in flames a few minutes after the blaze was discovered, trapping scores. Fire damage was confined mostly to the lower six floors. Damage to the upper floors was caused chiefly by smoke and water.

While firemen rescued several from upper floors and others groped through smoke-filled halls and fled to safety, there were many caught by the flames and fatally burned. Others were suffocated and others died in leaps from windows. Of the 58 dead, all but three had been identified, while 32 of approximately 500 injured remained in hospitals. Four reportedly were in serious condition.

The hotel management said there was no delay in sending in an alarm and that all precautions had been taken to provide for the public's safety. Divisional Marshal John L. Penn, however, said there was a delay of about 20 minutes in sending in an alarm.

In Springfield, a legislative investigation was requested in a resolution introduced in the Illinois State Senate and sent to the House. Other inquiries were being made by Mayor Kelly, Assistant Corporation (Continued on Page Four)

Anthracite Contract Talks Nearer Accord

New York, June 6.—(AP)—Leaders of the AFL United Mine Workers and anthracite operators were reportedly nearer accord today in forging a contract which would end the strike of 75,000 Pennsylvania hard coal miners.

Following a previous announcement that the groups had made "definite progress" toward framing a new pact, John Boylan, secretary of the Anthracite Conciliation Board, said in a statement after yesterday's talks that the conferees "made some more progress."

THE NATION TODAY

By James Marlow

Washington, June 6.—(AP)—A lot of people may be able to get their money back—if they're being overcharged in rents or prices—by taking advantage of a Supreme Court decision this week.

If you're one of those, you can do this: Complain to the OPA area office. If OPA can't settle the problem out of court, it has the right to go into federal court and get a refund—for you—of the money overcharged.

And OPA lawyers say that, under the decision, people who have been illegally thrown out by their landlords can force their landlords to take them back.

The procedure—going to OPA—would be the same in the case of illegally evicted tenants as it would in the case of people overcharged in rents or prices.

All this may seem like something that has been going on regularly and that there isn't very much new in the Supreme Court decision. Not quite.

Here's the story, using a tenant for example: Under the law a tenant can sue his landlord in federal court—if he's

Bulletins

By ASSOCIATED PRESS WASHINGTON, June 6.—The Senate Banking Committee today amended a bill to extend the time for sending it to the Senate floor for action next week.

ROME, June 6.—The Royal house announced officially tonight that Queen Maria Jose of Italy was en route to Portugal aboard the Italian cruiser Duca Degli Abruzzi.

La Grande, Ore., June 6.—Union Pacific streamliner and the Portland Rose passenger train collided at Hot Lake, Ore., 12 miles east of here early today, killing at least one person and injuring several others.

FRANCO PRESS FEARS RUSSIA

Says Only Soviet Would Gain In UN-Backed Isolation Of Spain

Madrid, June 6.—(AP)—The Falange party newspaper Arriba said in a first page editorial today that only Russia would benefit from a world-wide rupture of relations with Spain and asked if the United States and England "want the iron curtain to begin at Algiers."

"It does not seem that the Anglo-Saxons are too interested in cutting the throat of the only portion of Europe which maintains order and liberty—yes, liberty—and those good intentions indispensable to the normal living together of nations," Arriba said.

"A Spain sunk in chaos or in terrible, ordered Communist silence would not suit either the commerce and politics or the spiritual values which the Anglo-Saxons defend. Or do they want the iron curtain to begin at Algiers?"

The Catholic newspaper YA said a rupture would be "good business" only for Russia "because Russia's business is this: disorder, oppression and hunger for all peoples."

The monarchist publication ABC printed an attack on Spanish exiles by Mariano Daranas, press chief of the Ministry of Interior, accusing them of having offered Spanish territory to Russia.

The Franco government maintained that Spain would rather endure "sacrificing isolation" than (Continued on Page Six)

Italians Seek First President

Rome, June 6.—(AP)—Grizzled, 86-year-old Vittorio Emanuele Orlando was winning wide mention today as a likely compromise candidate for first president of Italy's new republic as the nation awaited formal proclamation of the end of the monarchy.

Orlando, only survivor of the Big Four of Versailles, was being proposed, political observers said, because as a Sicilian he would be able to repair the schism shown at the polls between the industrial north—which favored the republic—and the south—which supported the House of Savoy.

It appeared likely, however, that Orlando would face powerful opposition from the Communists, third strongest party in the weekend elections. Palmiro Togliatti, minister of justice, and a Communist leader, declared in a final campaign speech that the Communists "never" would collaborate with Orlando, whose National Democratic Union ran fourth in the balloting.

Another "venerable old man" of Italian politics, 78-year-old Ivanoe Bonomi, who led two provisional governments during Italy's status as a co-belligerent, also was being suggested as a presidential candidate.

King Umberto Votes In The Italian Election

King Umberto of Italy (right) votes at Rome June 3 in the Italian election to determine whether the nation will operate as a monarchy or a republic. The election also chooses delegates to the constitution assembly. (AP Wirephoto via radio from Rome).

Big Powers Gathering For Franco Showdown

Veto Powers May Be Imposed On Subcommittee's Appraisal Of Spain As A Menace To Peace As Security Council Meets

By CHARLES A. GRUMICH New York, June 6.—(AP)—Russia and the big western powers in the United Nations Security Council—all three armed with the veto—headed for a showdown today over a subcommittee's appraisal of Franco, Spain as a potential menace to peace.

As the council prepared to assemble at 3 p. m. after a 15-day layoff, the spokesman for a delegation represented on the subcommittee said he understood one of the big three might invoke the veto unless the report is modified, but he expressed hope that the committee's conclusions on Spain may be adopted without too much cutting or watering down.

The report called for a collective U. N. diplomatic break with Madrid by the General Assembly next September if Spain is not rid of Generalissimo Francisco Franco by then.

It was authoritatively reported unacceptable in its present form to Russia, the U. S. and Britain for divergent reasons.

The subcommittee spokesman said Soviet Delegate Andrei A. Gromyko could be expected to argue for action against Franco immediately and that the Russian would oppose any attempt to hand the issue over to the General Assembly.

Gromyko throughout has contended that Franco is a proven menace and that action against him should not be delayed. He also has held out against transfer to the General Assembly of authority that he maintains should be exercised by the Security Council.

Britain and the U. S. have joined in moral condemnation of the Franco regime, but have maintained that Spain does not menace the peace and that a break in relations would end the surveillance they are able to keep over the Falangist government through various agencies there. They advocated a peaceful overthrow of Franco by the Spanish people.

Before the subcommittee inquiry was launched April 29, Poland—which brought the case before the Security Council—had won the en- (Continued on Page Six)

Chatham Charges School "Purge"

Winston-Salem, June 6.—(AP)—Thurmond Chatham, congressional candidate in the Fifth District, charged today that John W. Comer, superintendent of Surry County schools, was using his public position to purge the Surry County school system of all teachers who openly supported Chatham in the recent Democratic primary.

"Three Surry County teachers, Mrs. Myrtle Needham Snow, Henry Wolfe and Walter Callaway, all teachers in the Surry County schools, were discharged by Mr. Comer either shortly before or directly after the primary of May 25," Chatham stated. He declared "the sole reason for these discharges was that John Comer, an active and open supporter of John Folger, refused to tolerate any political beliefs within the Surry County school system which were contrary to his own beliefs and those of the Folger political machine."

Chatham produced affidavits from all three teachers, asserting that their dismissals from the Surry County system were an outgrowth of failure to support Folger for Congress.

Big Powers Gathering For Franco Showdown

HALF MILLION IN BUILDINGS

Building Inspector's Report Shows Unusual Activity

By CHESTER WALSH Fire Chief George Gardner, who is also building inspector for the city of Greenville, today issued a report of building permits issued here during the first five months of the year. The report does not include buildings outside the city limits. It shows that the cost of new buildings erected during the period from January 1 to June 1 totalled \$520,400; alterations and improvements, \$13,725.

More than half a million dollars of building and construction work in the reversion period is not bad at all. It is worth the trip to ride around town and observe the new commercial and industrial buildings and dwelling houses erected here since January 1.

The building inspector's report follows:

January: Dwellings (3), \$12,000; commercial buildings (2), \$3,500; alterations (3), \$9,500.

February: Dwellings (8), \$28,400; commercial buildings (8), \$88,000; alterations (1), \$1,600.

March: Dwellings (14), \$84,600; commercial buildings (5), \$57,000; alterations (1), 350.

April: Dwellings (18), \$99,450; commercial buildings (4), \$51,500; alterations (1), \$600.

May: Dwellings (7), \$39,000; commercial buildings (2), \$57,000; alterations (1), \$1,675.

Total for the first five months of 1946—50 dwelling houses, \$263,400; 21 commercial buildings, \$257,000—total cost of new buildings, \$520,400. Total alterations (7), \$13,725.

Inspector Gardner said he did not know the valuation of new buildings (Continued on Page Six)

Soviet Science Gains

Russia Places Greatest Emphasis On Research Says AP Observer; Probing Atomic Secrets Is Keystone Of Program; Still Believed Behind U. S. Scientists

New York, June 6.—(AP)—Russia is devoting a large portion of her national energy to atomic research—toward peacetime possibilities, she says, not toward a bomb.

However, with other nations in possession of the bomb's secrets and showing no inclination to share them, it would be extremely unrealistic, to say the least, to assure that Russia is closing her eyes to that side of the laboratory.

It is, of course, impossible for a newsman stationed in Russia, with the limited amount of information he has on hand on this highly secret subject, to say anything with finality about the Soviets and the bomb. However, there is reason to believe—and I emphasize the word, believe—that Russia must be well behind the United States. There are those in responsible diplomatic and military positions who hold the same opinion.

But it should be borne in mind that Foreign Minister Molotov, speaking at the Kremlin last Nov. 6, said that Russia soon would have atomic energy and many other things. One never should underestimate the Russians.

Heavy emphasis is being placed on science in Russia today—heavier than on any other single field. Always respected in Russia, scientists now have been ranked several sta-

AIR SERVICE IS PROMISED

Examiners Recommend State Air Lines For Greenville

By CHESTER WALSH If the U. S. Civil Aeronautics Board accepts the recommendation by the Board of Examiners that State Air Lines application to operate plane service through Greenville, tobaccoists who go on the Kentucky or Tennessee markets can board a plane in Greenville and drop off after a few hours' flight at Louisville, or Bristol. That's what Willard T. Kyzek, executive secretary of the Greenville Airport Commission, said today after looking over the examiners' report. The planes would transport passengers, mail and cargo.

State Air Lines planes leaving Greenville would connect with the principal north-south and east-west airlines.

Proposed schedules indicate that passengers could leave Greenville and go by way of Raleigh, Burlington, Greensboro, Winston-Salem to Louisville, Ky. or make connections with through airlines.

Going south passengers could leave Greenville and go by way of Raleigh, Fayetteville, Wilmington, Myrtle Beach, Florence and Columbia, S. C. with main line connections at each place.

Another flight would be by way of Raleigh, Fayetteville, Rockingham, Charlotte, Statesville to Hickory, and south from Charlotte through Rock Hill, Camden and Columbia, S. C. also with main line connections at each place.

The schedule would include flights from Greenville east to New Bern to Morehead City.

Interesting features of State Air Lines' proposed schedules are that planes leaving Greenville would connect at New Bern with National Airlines; Eastern Airlines at Raleigh, Greensboro, Winston-Salem and Charlotte; Delta Air Lines at Asheville, and Penn-Central Air Lines planes at Greensboro and at Bristol, Tenn.

The Civil Aeronautics Board's examiners had been at work on ex- (Continued on Page Six)

SENATE DRAFT BILL FACING HOUSE BATTLE

Two Chambers In Tug-Of-War Over Teen-Age Draft; Compromise Hinted

By WILLIAM F. ARBOGAST Washington, June 6.—(AP)—House and Senate braced today for a tug of war over resuming the teen-age draft. But there were hints of a compromise making 19-year-olds eligible and exempting those of 18.

The two chambers found themselves poles apart on the teen-age issue in their efforts to decide how to continue the draft. The Senate is overwhelmingly for continued use of teen-agers in the services, the House just as overwhelmingly against it.

The Senate pushed the question toward a showdown when it gave a thumping 69-9 majority yesterday to its bill for keeping the main provisions of the wartime draft act in force until next May.

Although it differed on a number of points from the House measure voted April 13, the teen-age provision promised to be the big stumbling-block in the bill which the Senate passed along to a Senate-House conference committee.

The conferees, seven senators and seven representatives, must adjust all the differences and persuade congress to accept their recommendations between now and June 30, when the present law expires. Here is their problem:

Length of extension: The Senate voted to continue the draft until next May 15; the House until next February 15. (Continued on Page Four)

Congressmen Try Averting Strike

AUSTIN FELT GOOD CHOICE FOR UN POST

New U. S. Delegate Raises Hope of Shift In Moscow's Stubborn Stand

Washington, June 6.—(AP)—President Truman's choice of Senator Warren R. Austin as American representative on the United States Security Council prompted official hopes today of encouraging a new Soviet attitude in that body.

The Vermont Republican said only that as the successor to Edward R. Stettinius, Jr., he considers himself the President's deputy, to carry out policies Mr. Truman formulates.

But Senate colleagues noted that the 68-year-old New Englander will take into his new post a public-recorded understanding of what he has termed the "security-conscious" position of Russia.

As American representative, Austin will deal directly with Andrei A. Gromyko, his Soviet counterpart, who on more than one occasion has failed to see eye to eye with the United States on world controversies called to the council's attention.

Noting that he has not publicly (Continued on Page Four)

House Labor Committee Takes Hand In Threatened Walkout; Thousands Of AFL Seamen Quit Ships For Meetings Today; New York Stoppage Called 100% Effective

By MAX HALL Washington, June 6.—(AP)—AFL seafarers called a surprise walkout on all coasts today as a congressional committee decided to try to avert a CIO maritime strike scheduled June 15.

Thousands of AFL seamen at Atlantic, Gulf, Pacific and Hawaiian ports made ready to quit their ships and hold simultaneous meetings at 2 p. m. (EST) to discuss "matters of great importance."

The call for the sudden walkout of uncertain duration—crashed into the already tense maritime labor situation.

The House Labor Committee empowered a subcommittee headed by Rep. A. B. Kelley (D-Pa.) to step into the picture in an effort to prevent a shipping strike.

Kelley said he would open hearings "as soon as possible"—maybe tomorrow. He said "key figures" in the dispute between employers and CIO seamen and dock workers would be called to testify.

The AFL "stop-work" meetings will halt activity aboard ships for as many hours as the discussions continue. Seamen on the Great Lakes are not affected.

New York, June 6.—(AP)—A union official said today a work stoppage on AFL-named snips in the port of New York, which started at noon, "was a 100 per cent stoppage."

Jack Dwyer, New York agent for the Sailors Union or the Pacific (AFL), said he based his statement on "contact with 75 ships" in the port.

"Nobody is working," he added. This applied, he said, to his own union as well as the members of the Seafarers International Union, also AFL, with which his union was scheduled to meet at 3 p. m. (EDT). Dwyer said he had received word (Continued on Page 5)

People Of Normandy Pay Tribute To Landing Two Years Ago Today

By G. K. HODENFIELD Trier, France, June 6.—(AP)—The people of Normandy paid tribute today to a memorable morning two years ago when allied troops in the greatest invasion in history surged over their beaches to begin the long, bloody attack against Hitler's fortress Europe.

The commemoration was held for the most part without fanfare or revelry, but with a dignity befitting an occasion when men fought and died to liberate other men from the yoke of oppression.

In St. Mere Eglise there was an all-day observance honoring the men of the 82nd airborne division which floated out of the sky two years ago to begin the invasion. In Bayeux and Caen there were anniversary celebrations honoring the British and Canadian troops who fought there.

But in most of the little villages and along most of the dusty roads bordered by hedge-rows the people of Normandy regarded the day quietly. They prayed for the men who came to liberate them and who stayed behind under the white cross or star of David in one of Normandy's nine American military cemeteries.

Many of them told once again (Continued on Page Six)

HALT ORDERED IN CHINA WAR

Kai-Shek Calls Fifteen Day Truce Effective Tomorrow

Nanking, June 6.—(AP)—Chiang Kai-Shek today issued a cease-fire order calling a 15-day halt in the long, bloody conflict in Manchuria.

The truce, effective tomorrow, is expected to clear the way to permanent settlement of differences between the Chinese government and the Communists.

"I am issuing orders to my armies to hold all advances, attacks and pursuits for a period of 15 days from noon Friday, June 7," the generalissimo announced in a message delivered to newspapermen through Minister of Information Peng Hsueh-pei.

"Doing this gives the Communist party an opportunity to demonstrate its good faith and intention of carrying out the agreement previously signed. In taking this action, the government in no way prejudices its right under the Sino-Soviet treaty to recover Manchurian sovereignty."

The previous agreement was a January political-military truce, since violated by both sides.

Chiang stipulated that the following three matters must be settled within the 15-day period.

1. Detailed arrangements governing the complete termination of hostilities in Manchuria. 2. Detailed arrangements and time schedules for the complete restoration of communications in China. (Continued on Page Six)

Ruling On Carolina Escheats Law Made

Raleigh, June 6.—(AP)—Under the North Carolina Escheats law, all banks deposits on which no debts or credits have been entered for a five-year period, and where the owner or heirs cannot be found, are eligible for transfer to the University of North Carolina, Attorney General Harry McMullan ruled here yesterday.

Derelict deposits, McMullan said in an official ruling, "shall be paid to the University and held by it, without liability for profit or interest, until a just claim therefor shall be preferred by the parties entitled thereto, and if no such claim is preferred within 10 years, the property shall be held by the University absolutely."

The University Board of Trustees has agreed to waive the 10-year provision of the law in all instances, the attorney general said, and will return the entire amounts of deposits to legal owners should they ever be found.

The University also has agreed, McMullan said, to turn all Escheats funds into an endowment for worthy students.

Moslem Council Said Supporting Proposal

London, June 6.—(AP)—The All-India radio, in a broadcast recorded by Reuters, reported today that the Moslem League Council has voted by a large majority to support the British Cabinet Mission's proposals for Indian independence.

Dispatches from New Delhi last night had reported considerable sentiment in the council in favoring of accepting the British plan, despite the insistence of Mahomed Ali Jinnah, league president, on a separate Moslem state (Pakistan).

The council, composed of 475 representatives from 11 provinces, assembled in New Delhi yesterday to pass upon the British plan.

THE WORLD TODAY

An Analysis Of The News

By DEWITT MACKENZIE Those two bitter political opponents—England's ruling Socialists and the Conservatives whom they unseated in the last general election—have found common ground in their fear that, as former prime minister Churchill puts it, "The seeds of a new world war are being sown" in the areas under Russian influence in Eastern Europe.

This general theme was emphasized by both parties in the full-dress debate on foreign policy in Commons the past two days. Foreign Minister Ernest Bevin began with the statement that permanent peace in Europe could be guaranteed "only if Russia enters freely into the European settlement."

He added that one of the greatest obstacles to peace is that Russian diplomats appear to believe that "the security of Russia can only be maintained when every country in the world adopts the Soviet system."

Churchill, who has been riding the Socialists hard under the lash of his clever tongue, took the floor and declared in handsome terms that the government had made "an important contribution to world

peace" by a "resolute denunciation of communism." He praised Bevin as "a representative of much that is wise and courageous in the British character."

This solidarity of viewpoint between England's political extremes is significant of their mounting concern over the continued Communist thrust westward. It has taken the approach of the towering Red tidal wave to bring the Socialist and Tories together—but together they stand in this crisis.

By coincidence—or otherwise—the British debate on foreign policy came as France had just finished another general election and Italy was voting on the question of whether it should retain the monarchy or have a republic. Both these countries are vital strategic theatres in the European set-up, and in both of them the real question at stake has been the extent of the Communist strength, which has been developing under an intensive and systematic Red drive.

In the face of it the Communists sustained a set-back and there was a moderate swing to the Right. (Continued on page four)

Social and Personal

Mrs. M. E. Eborn is in Pitt General hospital for treatment.

Mrs. Nannie Evans left today for Louisville, Ky., to spend the summer.

Midshipman W. W. Lee, Jr., is home from Annapolis to visit his parents, Mr. and Mrs. W. W. Lee.

Mrs. H. P. Holster of Clifton, N. J., is visiting Mr. and Mrs. C. R. Flye.

Mrs. Alan Smith and son, Jimmie, and Mrs. Jack Marshburn of Wilmington are visiting their sister Mrs. W. R. Skinner.

Mrs. S. Jack Corey of St. Petersburg, Fla., is the guest of Mrs. S. J. Corey.

Social Calendar

THURSDAY
6:30 p. m.—Junior Chamber of Commerce meets at the Old Towne Inn, Baywood Dale, guest speaker.

8:00 p. m.—All undergraduate nurses and nurses aids to meet at the home of Miss Louise Elks, 108 Jarvis Street.

8:30 p. m.—American Red Cross nurses' aid graduation in Episcopal parish house.

FRIDAY
3:30 p. m.—General meeting of the Woman's Club in the club house.

6:00 p. m.—Dinner for out of town guests here to attend the Williams-Taylor wedding at the Old Towne Inn.

6:30 p. m.—Kiwans Club.

7:00 p. m.—Rehearsal for Gallagher-Rogers wedding in Jarvis Memorial Methodist Church.

8:00 p. m.—Mrs. P. T. Anthony, Jr., will entertain the Gallagher-Rogers wedding party and out of town guests.

8:00 p. m.—Rehearsal for Williams-Taylor wedding in Jarvis Memorial Methodist Church.

8:30 p. m.—Mr. and Mrs. T. G. Basnight and Mr. and Mrs. Richard H. Evans will entertain the Williams-Taylor wedding party and out of town guests at a cake cutting at the Basnight home on Rock Spring Road.

SATURDAY
12:00 Noon—The wedding of Miss Edla Taylor and Mr. Gene Williams will take place in Jarvis Memorial Methodist Church.

12:30 p. m.—Mr. and Mrs. R. R. Taylor will entertain the Williams-Taylor wedding party and out of town guests at breakfast at their home, 704 E. Fourth street.

8:30 p. m.—The wedding of Miss Jane Rogers and Mr. Joseph J. Gallagher will take place in Jarvis Memorial Methodist Church.

9:00 p. m.—Mr. and Mrs. H. R. Rogers will entertain at a cake-cutting at the home of Mr. and Mrs. R. E. Rogers, honoring the Gallagher-Rogers wedding party and out of town guests.

Returns Home From Hospital
Mr. J. Brooks Tucker has sufficiently recovered from a major operation, which she underwent in Pitt General hospital May 20, to return to her country home near Smpson.

General Meeting of Woman's Club
The Greenville Woman's Club will hold its last meeting on Friday, June 7, at 3:30 at the club house.

This will be a business meeting. All chairmen of departments and officers will give a report on work done this past year. All members are urged to be present and not to forget contributions or material for clothing drive for Greek children. The club house will be open from 9:30 a. m. to 5:30 p. m. to accept any material from friends or club members.

Birth Announcement
Mr. and Mrs. G. W. Jordan, 16 Summit street, announce the birth of a son on Tuesday, June 4, in Pitt General hospital.

In Hospital
Mrs. J. L. Williams, Jr., is recuperating from an operation in Pitt General hospital on Tuesday.

Birth Announcement
Mr. and Mrs. J. Ebert Jackson announce the birth of a son on Saturday, June 1, in Pitt General hospital.

Engagement Announced
Mr. and Mrs. Peter Brown announce the engagement of their daughter, Johnnie Elizabeth, to Mr. Earl Carlton Huband, Jr.

The wedding will take place on July seventh.

Mr. Huband is the son of Mr. and Mrs. C. E. Huband of Wilmington, N. C.

Playground Notes
The Greenville play grounds opened on Tuesday, June 4. Mr. Boley Farley is supervisor and has arranged 8 teams of baseball and softball already. Other supervisors are Miss Frances Hobgood, Miss Ruth Taylor, Miss Virginia Brooks and Mr. Guthrie.

Last year on second day of opening attendance was as follows: West Greenville 34, Cotanche 37, Third Street 36. This year our attendance was Third Street 70, West Greenville 68, and Cotanche Park 83.

If you are interested in supervised play for children, help us to make our program a success.

Mt. Pleasant News
The Ladies Aid Society of Mt. Pleasant Christian Church will meet Monday, June 10, at 3 o'clock in the community building. Mrs. J. J. Jenkins, Mrs. W. S. Pollard and Miss Pattie Jenkins will be the hostesses.

In the absence of R. L. Topping, the regular minister, Henry Speight, Jr., conducted the morning services at Mt. Pleasant Christian Church. Henry gave a most inspiring message on "What Things Are Certain."

New class officers have been elected for the next Sunday school class. Wilburn Smith of Greenville was elected president and Mrs. Nina Vainright, vice president. Mrs. Peter Brown is secretary.

Mrs. Nannie Evans of Greenville taught the adult class Sunday and as usual when Mrs. Evans talks everyone listens and enjoys it.

On Sunday afternoon Mrs. J. J. Jenkins was honored at a surprise party at her home, Sandy Knoll, by

Forty Years Ago Today

THE DAILY REFLECTOR
June 6, 1946

The furniture trust has agreed to advance prices 5 per cent. No use to kick as all the factories are in it.

The water and light commission has decided to install a day electric current. It is expected to be ready in two or three weeks.

From 1900 to 1905, 1,459 new public school houses, were built in North Carolina. In 1905 alone, 440 new houses were erected with an average value of \$425.

her daughters, Mrs. B. L. Tyson, Mrs. James Allen, Miss Pattie Jenkins, Mrs. W. S. Pollard and Mrs. J. O. Teel.

Mixed spring flowers were used in the living room and dining room.

Refreshments were served from a beautifully appointed table at one end of which was a lovely birthday cake with 72 lighted candles. The color scheme of green and white was carried out. Green and white brick cream, salted pecans and cake were served to the fifty guests present.

Mr. Jenkins received many lovely gifts.

Mr. and Mrs. Berry G. Jenkins and children, Joy and Berry, Jr., of Wilmington were the week end guests of Mrs. Jenkins.

Mrs. J. O. Teel is ill at the home of her parents, Mr. and Mrs. J. J. Jenkins.

Rose Hill Young People's League
The Young People's League met Tuesday night, May 28, at the Rose Hill church. The meeting was really successful, since we organized a very nice choir. There are nineteen members in it, and that sounds like music to us! Incidentally, we hope everyone else thinks so, too.

We had four new members, making 52 on roll.

It was suggested to us that since we have such large crowds at the church services, we needed two ushers. We nominated Guy Wilson and Eugene Haddock for this and it is felt that much of the confusion caused by late-comers will be eliminated.

We also decided that since everyone will be working through the summer, we will have the meetings at the church instead of in the homes. This will avoid all the rush that goes with the preparations for the meetings and it will also be much cooler.

Most of our time Tuesday night was taken up with a discussion of our trip we had previously planned. On Sunday, June 2, the league went to Bath, N. C., in order to visit the St. Thomas Church, which is the oldest church in North Carolina. Forty-one of us left our Sunday school about 11:30 a. m. on a large truck. At 1:30 we had reached a beautiful spot on the Pamlico river, where we really enjoyed our lunch. At 2:30 we went to the church. A very nice lady took us in and explained all the things to us. I wish I could tell about all the things we saw, but all I can say is it was really an inspiration to see these things and know that they had been used for years. I think we all particularly noticed the balcony since we are interested in one for our church.

We enjoyed playing the organ and singing two or three hymns. We arrived home about 5:30 with quite a few sunburns, but I don't think anyone minded that at all. I know everyone was truly inspired by this trip and we hope to take another like it soon.

We invite the young and old alike to come to our meetings and enjoy them with us. The next one will be Tuesday night, June 11, at the church.

Sunday, June 9, Sunday school at 10 a. m.—Jacqueline Armstrong, class reporter.

Miss Brooks Honored at Bridge
On Tuesday evening, June 4th, Mrs. Francis L. Norris and Mrs. D. C. Whitehurst entertained at bridge honoring Miss Patricia Brooks, bride-elect of this month at the home of Mrs. Norris.

The home was beautifully decorated throughout with larkspur, sweetpeas and baby's breath. The bride-elect's place was marked by a corsage of gardenias and baby's breath.

During the game coca colas were served to the guests.

After two progressions the game was ended, and high score prize was presented to Mrs. Hugh Winslow. Delicious refreshments consisting of ice cream molded in bridal designs, cakes, mints and nuts, were served. Mrs. W. D. Pruitt, mother of the bride, Mrs. Glyn Brooks, and Mrs. Beulah Brown joined the guests for refreshments.

The hostesses presented the honoree with a silver and crystal compote.

Students Enrolling For Summer Quarter
A heavy enrollment was anticipated today as students registered for the first term of the summer quarter at East Carolina Teachers College.

Class work will begin on Friday. Registration for the first term of the summer quarter will close on Thursday, June 13, and registration for the second term will be held on Monday, July 15.

Wanted! Men And Women Who Are Hard of Hearing
To make this simple, no risk hearing test with Ourine drops used with simple syringe. If you are deafened, bothered by ringing, buzzing head noises due to hardened or coagulated wax (cerumen), try the Ourine Home Method test that so many say has enabled them to hear well again. You must hear better after making this simple test or you get your money back at once. Ask about Ourine Ear Drops today at **BISSETTE'S DRUG STORE**, Greenville, N. C.

Whedbee Issues Tobacco Report

The first official report this season of the condition of the tobacco crop in the fields has been issued by W. L. Whedbee, sales supervisor of the Greenville tobacco market. The report is a valuable document. The information contained in it was procured from approximately 400 farmers, county farm agents and others over the Eastern Bright Leaf Belt.

The report follows:

"Despite unusually heavy rains which have been intermittently present over the entire eastern section of North Carolina since the 1946 crop was set out, this year's tobacco crop appears to have suffered only to a slight extent, and most of this damage has occurred on light, sandy soil."

"Generally, the stands are very good and the tobacco is growing nicely."

"The damage from cut, bud and wire worms has been only normal in amount. The farmers are now attempting to cope successfully with grass, which has been growing rapidly after each successive rain."

"Many of the tobacco growers who can obtain fertilizer are side-dressing their tobacco now. Except in those sections which have particularly light, sandy soil, a large and thoroughly conducted cross-section of this entire area indicates that the present scarcity of side-dressing material has not as yet materially affected the crop."

"A detailed and specific inquiry reveals the fact that the prospects are good only for a very slight increase in acreage, if any, over last year's crop."

"It is the general belief in all communities that so far the prospects for the Eastern Belt are good."

UNC Alumni To Meet Friday In Greenville

The alumni of the University of North Carolina will hold a dinner meeting at the Old Towne Inn in Greenville at 7:30 p. m. on Friday, June 7, in the interests of athletics at Chapel Hill. The meeting is being sponsored by the Pitt County Chapter of the Educational Foundation, Inc.

Carl Snively, Head Football Coach at the University, will be the guest of honor and will be the principal speaker. In addition, motion pictures will be shown of the 1945 football games.

All Carolina alumni interested in football are urged to attend this meeting.

The majority of Finland's more than three and a half million people make their living by farming and dairying.

Strength FOR THE DAY

By EARL L. DOUGLAS

AGENTS OF THE MOST HIGH.

Everything we have in life we have by the grace of God. It may appear at times that we have created some of the things in which we take pride. But this is only in appearing. We achieve in life only what God permits us to achieve. What appears the work of our hands is God's work through our hands. Everything good in the world is the result of God's grace, and everything evil exists only because a good God for some good reason permits it to exist. This conviction of the complete power, the complete goodness, and the undeviating moral purpose of God has possessed the minds of all the great Jewish and Christian teachers through the ages—Abraham, Moses, Isaiah, Jeremiah, Peter, Paul, Augustine and Calvin. The sophisticates of every generation have regarded such religious beliefs with good-natured disdain. Many modern thinkers in their attempt to regard religious truth, as well as all other truth objectively, have cast aside such doctrines as untenable. The fact remains, however, that most of the men who have really changed the course of history have had this belief in divinely appointed destiny and have lived greatly because they accepted it as true and fashioned their lives after the pattern it set. We never begin to live until we realize that everything we have we have by the grace of God.

WASHINGTON DAYBOOK

By JACK STINNETT

By CHARLES MOLONY
(For Jack Stinnett)

Washington—Russia has become one of the biggest customers for the scientific and industrial reports gathered and published by the United States government.

Russia also has continued a buyer of printed copies of American patents since obtaining a \$27,000 order—good for 270,000 patents, or about a 10 years' complete file—nearly a year ago.

The Commerce Department's Publication Board, which disseminates the scientific and industrial reports, says that in the four months that the scientific and industrial reports have been offered for sale, the Soviet Purchasing Mission has placed \$1,356 in orders and Amtorg, the Russian trade organization, another \$11,000.

The reports cover wartime developments from German, Japanese, Italian, French, Swiss and other foreign sources, as well as some American ones. Sometimes there is a Russian report.

One Russian order called for copies of all reports listed—around 1,000, covering a wide range of topics—in a single weekly catalog. Officials got the impression that a major Russian interest, both in the reports and in patents, was the chemical field, which covers synthetics and plastics.

The board put out the gathered reports as unedited and uncorrected data in "hopes that they will be of direct benefit to American science and industry." It fills orders from any source, however. A no-cost exchange arrangement exists with the British.

The board's executive secretary says: "Nothing comes to us until the Army and Navy have cleared it until all secrecy restrictions have been removed.

"Our men in the field have collected, for American business, invaluable information in the French, British and Russian zones of Germany, and in return have let their investigators gather information in our zone."

Why Worry About The Neighbor Kid's Health?

but quit because the U. S., which did not then extend diplomatic recognition to Russia, failed to send its patents to Russia. No exchange agreement exists yet. Applications for patents can be kept secret. Ooms says, but secrecy ceases when a patent is issued. U. S. law requires that there be sufficient description of a device to enable another to construct it, but not the best way to do so. He said no patents had been issued on the atomic bomb as yet, and "only a couple" on the subject of atomic energy, dating back to pre-war days.

Soviet Science . . .

(Continued From Page One) summer home, an institution dearly beloved by every Russian. Some of these include onetime playgrounds of the czars.

These dachas are not just something quaint knocked together on the side of a lake or mountain. They're sumptuous. They have electric lighting, heating and modern sanitation. They have tennis courts, volley ball courts and many will be enclosed by high rustic fences.

Some upon request are being supplied with sail boats or motor boats. Spacious quarters for servants are being built apart from the main houses.

Russia's leaders have no illusions about how far her scientists must progress to catch up with the United States and Britain. They are well aware and impressed with the excellence and skill of Americans. I'm quite sure they are not kidding themselves into thinking they can catch up quickly with the United States in the atomic field anymore than they can draw abreast quickly in making automobiles or refrigerators.

The leaders and the scientists know they must work and work hard and even then they may lag behind this side of the world. They may have obtained something from Germany, but they are realists enough to know that, if they found something there so did their allies. This very fact that the Soviets don't say much about the bomb is

revealing. It is the belief of many informed foreigners stationed in the Soviet Union that, while the Russians haven't asked for the secret of the bomb, it constitutes a great and ponderous factor in all their thinking and action. The use of such phrases as "atomic diplomacy" is referring to moves of her allies is significant.

With America holding the bomb secret, and Britain and Canada in on it some way (something the Russians never have fully understood) it becomes alarming to the Soviets and their people to see the United States not only talking about but doing something about Atlantic and Pacific bases.

It is very well for Americans to say, "We'll never use the bomb for aggressive purposes," but just try and convince the man who hasn't got the bomb of that.

(Tomorrow: How U. S. and Russia differ on the function and duty of a free press.)

The Nation . . .

(Continued from Page One) and ask that the tenant, not OPA, be given back the money overcharged.

OPA did this in a number of cases. And some federal courts did what OPA asked.

Then came a snag. It was a case that started back in the summer of 1943. Several tenants in Minneapolis were overcharged by their landlord.

OPA went to federal court to get their money refunded to them. That particular federal court said it had no authority under the law to order such a refund to a tenant where OPA was doing the suing.

The case went to the federal court of appeals. That court ruled the same way. There had been no Supreme Court decision on this point.

So from that time—until the Supreme Court could decide, which it did Monday—OPA did not generally try this method. It wanted the high court to rule on whether OPA could act to get a refund for a tenant.

The court decision said, in effect, what was outlined above:

OPA can go into federal court and sue a landlord to get a refund for a tenant whom that landlord has overcharged.

The same can happen in the case of a man who had paid over-zealous prices for goods he bought, for instance: an automobile.

The World Today . . .

(Continued From Page One) Italy the people chose a republic and the king is leaving his native land. The middle-of-the-road Christian Democrats came out well on top, with the Socialists second and the Communists close behind.

However, the important point to remember is that communism retains great strength in both France and Italy. That's a fact of moment to western democracy, and especially to Britain which is standing in the path of that Red tidal wave.

Control of France might give Moscow domination of the entire continent. Churchill says that there can be "no revival of European dignity and splendor without a strong France." Domination of Italy might make Russia master of the Mediterranean theatre, thereby severing Britain's life-line to the Far East and so slashing the empire in two. It must be remembered that Moscow already controls Yugoslavia and Albania, and is backing Yugoslavia's claim to the vital port of Trieste at the head of the Adriatic.

Experts Seek . . .

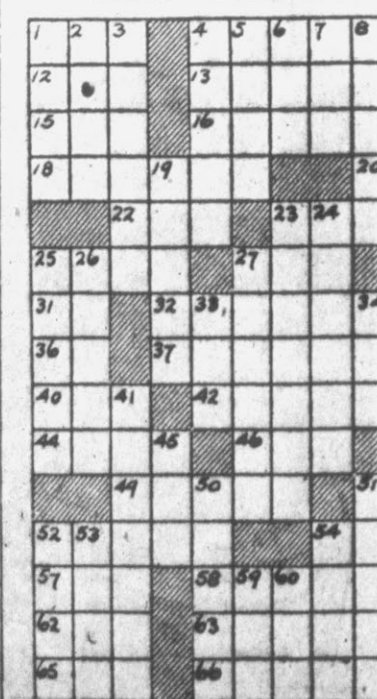

(Continued From Page One) Counsel Henry Eckhart, State's Attorney William J. Tuohy, the State Fire Marshal's Office and police. An inquest is scheduled for tomorrow.

Senate Draft . . .

(Continued from Page One) Age of inductions: The Senate by a 53-26 count voted to continue inducting 18- and 19-year-olds; the House by a 195-96 tally ordered a halt to teen-age inductions. The top draft age in the House bill is 29, in the Senate, 44.

Pay raises: The Senate wrote into its bill pay raises for enlisted grades only, ranging from 50 per cent for buck privates to smaller boosts for top sergeants and corresponding ranks in the other services. The House refused to put pay raises into the draft bill but voted in separate legislation for raises ranging from 50 per cent for buck privates to 10 per cent for 5-star generals.

Induction holiday: The House ordered a moratorium on all inductions prior to October 15. The Senate turned that proposal down.

The two branches are in virtual agreement on these provisions of their separate bills:

A ban against induction of fathers, regardless of age.

A limit of 18 months of service for inducted men.

A prohibition against any inductions that will give the army more than 1,070,000 men by July 1, 1947.

Continuation of re-employment benefits specified in the wartime draft act.

The conferees expect little difficulty compromising all the differences except the teen-age provision.

Austin Felt . . .

(Continued From Page One) criticized Russia, Austin referred a reporter's request for a statement of his attitude toward the Soviets to the June 1 commencement address he delivered to the School of Advanced International Studies of the Foreign Service Educational Foundation.

In that address, Austin mentioned the House vote for a Selective Service holiday and said it must have caused "consternation" in Russia when that country saw "her greatest ally bowing in subservience to an isolationist minority."

Russia could not be blamed, he went on, for concluding that the United States would fail in her occupation duties and "could not carry out her express obligations under the United Nations charter."

Austin's theme was that if Congress extended the draft act, voted for universal military training, approved unification of the armed forces and provided for control of atomic energy developments, Russian confidence in this country's ability to fulfill United Nations commitments would be restored and her search for individual security diminished.

But friends said Austin is not so impressed with Russia's position that he could ever forget that American interests come first.

Democrats and Republican colleagues joined in praising his selection.

EDGEcombe COUNTY DRAINAGE DISTRICT NO 2—SALE OF PROPERTY FOR ASSESSMENTS NOTICE OF SALE

Recent medical reports reveal that an amazing number of children and grown-ups may be victims of Pin-Worms—often without suspecting what is wrong!

Watch out for the warning signs that may mean Pin-Worms in your child or yourself—especially the tormenting, embarrassing rectal itch. Because now you can and should do something about it. After centuries of distress caused by Pin-Worms, a highly effective way to deal with them has been made possible. It is based on the medically recognized drug called gentian violet.

This special drug is the vital ingredient in P-W, the Pin-Worm tablets developed in the laboratories of Dr. B. Jayne & Son. P-W tablets are small and easy to take and they act in a special way to remove Pin-Worms. So if you suspect this ugly infection, ask your druggist for JAYNE'S P-W and follow the directions. Satisfaction guaranteed or your money back. It's only to remember: P-W for Pin-Worms.

RE-ARMAMENT SECRET BARED

Proof Found Germans Planned Arming Before Hitler Era

Nuernberg, Germany, June 6—(AP)—Confiscated records of the Krupp dynasty laid bare today the secret origin of German rearmament in the supposedly beaten and bankrupt Weimar Republic barely a year after the treaty of Versailles was signed and 13 years before Hitler came to power.
Documents in Allied hands provide evidence that a hush-hush \$48,000,000 loan was made available to Krupp in 1920 by a man who was reich chancellor and finance minister three years before Hitler had even marched in his 1823 beer hall putsch.
In 1940, when Germany had beaten France and was poised to invade England, the ex-chancellor wrote proudly from exile in Switzerland to old Gunmaker Gustav Krupp von Bohlen und Halbach in his stone palace in the smoke-wreathed Ruhr.
The letter, "signed Joseph Wirth and recovered from the Krupp files in Essen, is regarded by Allied investigators as typifying brazenly the hidden partnership of industrial magnates and presumably democratic politicians to restore German military might.
Attached to Wirth's letter was a confidential memorandum by one of Krupp's staff which is expected to figure prominently in any Allied trial of German industrialists.
The memorandum stated that Wirth put \$48,000,000 worth of German marks at Krupp's disposal at Mendelssohn and Company, Berlin, from which the money was later transferred to an account carried under the name "Custodia" in Amsterdam.
He frequently lifted his brown fedora as lusty banzais greeted him everywhere. From Odo he came to Choshi, a fishing center, where he inspected several war destroyed schools, the Choshi dockyard and a fishery and soy sauce plant.
School children broke into tears at the sight of the shy, awkward ruler, who seemed to lose some of his nervousness as the day wore on.

Farmer Injured In Auto Wreck

State Highway patrolmen today said that a car driven by Robert Morgan, 20, of Farmville, a seaman in the U. S. Navy, failed to take the sharp curve on the Greenville-Farmville highway about a mile and a half from here Tuesday evening and plowed up a field. The officers arrested Morgan on a charge of driving while drunk. Cpl. John Laws, C. L. Teague and W. H. Chadwick investigated the wreck.
John Earl Vandenberg of Farmville, a tenant farmer, was seriously injured about the chest and suffered face lacerations. He is at Pitt General Hospital. Lloyd Vandenberg, his brother, and Morgan, driver of the car, were painfully injured. They were treated at the hospital and released. Lloyd Vandenberg was arrested and charged with being drunk after he left the hospital, police said.

Hirohito Visits Farming Areas

Choshi, Japan, June 6—(AP)—Emperor Hirohito trudged through heavy mud along rice paddies today and urged farm workers to help overcome Japan's food crisis. Traveling to Chiba prefecture, south-east of Tokyo, for another visit among his people, he stopped at the little farming community of Odo to watch planting.
Obviously nervous, he talked to men and women in flooded paddies. He joined his party in laughter when a cow impeded the way of correspondents on a parallel embankment.
He frequently lifted his brown fedora as lusty banzais greeted him everywhere. From Odo he came to Choshi, a fishing center, where he inspected several war destroyed schools, the Choshi dockyard and a fishery and soy sauce plant.
School children broke into tears at the sight of the shy, awkward ruler, who seemed to lose some of his nervousness as the day wore on.

League For Crippled Children Ends Meet

Raleigh, June 6—(AP)—Dr. Lennox D. Baker of Durham was re-elected president of the North Carolina League for Crippled Children at yesterday's concluding session of the league's two-day conference.
Other officers, all of whom were re-elected are: C. E. McInnes of Chapel Hill, treasurer; Ethel Honeycutt of Chapel Hill, executive secretary; Charles W. Phillips of Greensboro, Dr. Clyde Erwin, Roscoe D. McMillan of Red Springs, and Thomas O'Berry of Goldsboro, vice presidents.
Re-elected as members of the board of directors were Dr. G. M. Cooper and James T. Barnes, both of Raleigh; Charles McCrary of Asheboro, and R. B. Tapp of Wilson. Eugene Brown of Raleigh was elected to membership on the board.
A proposed bill providing for installation of courses in the state's schools for physically handicapped children was discussed as a feature of the concluding sessions. The bill will be introduced in the 1947 legislature.

Fifty Million Cans Of Food For Relief

Washington, June 6—(AP)—Secretary of Commerce Wallace estimated today that 50 million cans of relief food will be collected by the volunteer means by July 1.
"This should save many lives," he said.
Wallace testified before the Senate small business committee as chairman of the emergency food collection program. This is a private organization formed to collect canned foods and cash for relief.
He said the group's New York headquarters has received \$323,000 and 349,848 cans of food from its 4,726 local committees and that shipments to New York are only beginning.

Reorganization Bill In Senate

Washington, June 6—(AP)—The tradition-proud Senate drew a ticklish assignment today—what to do about streamlining Congress and getting it up to date.
Reorganization has been talked about for years, but the lawmakers approached the subject with some reluctance, conscious that it might end many time-honored practices.
The overhaul was recommended by a joint House and Senate committee which reported Congress was creaking with outmoded machinery overworked and suffering from worry about the future.
The "what to do about it" discussion began yesterday with Senator LaFollette (Prog-Wis) opening debate on a bill to give Congress a virtually complete renovation.
Most of the members retted the legislation's chances pretty good, although they anticipated hot argument over clauses affecting individual senator's prestige, such as the projected new lineup of committees.

Congressmen . . .

(Continued from Page One)
from Baltimore that the Maryland port also was completely tied up as far as AFL ships are concerned.
Sixty-two thousand members of the two AFL unions were instructed last night to take part in a simultaneous work stoppage at 3 p.m. (EDT), in all Atlantic, Gulf and Pacific ports.
The union members will attend meetings in each port to discuss "matters of great importance."
Union officials said one of the chief matters to be discussed at the sessions would be what they described as ship owners' refusals to negotiate with them.

BEWARE OF PIN-WORMS

Recent medical reports reveal that an amazing number of children and grown-ups may be victims of Pin-Worms—often without suspecting what is wrong!
Watch out for the warning signs that may mean Pin-Worms in your child or yourself—especially the tormenting, embarrassing rectal itch. Because now you can and should do something about it. After centuries of distress caused by Pin-Worms, a highly effective way to deal with them has been made possible. It is based on the medically recognized drug called gentian violet.
This special drug is the vital ingredient in P-W, the Pin-Worm tablets developed in the laboratories of Dr. B. Jayne & Son. P-W tablets are small and easy to take and they act in a special way to remove Pin-Worms. So if you suspect this ugly infection, ask your druggist for JAYNE'S P-W and follow the directions. Satisfaction guaranteed or your money back. It's only to remember: P-W for Pin-Worms.

Mrs. D. L. Moore New County TB Treasurer

Mrs. D. L. Moore of Greenville is now treasurer of the Pitt County Tuberculosis Association and the Pitt County Seal Sale Fund, according to an announcement made today by J. Herbert Waldrop, president of the association.
Mrs. Moore formerly resided in Winterville, and, as local Tuberculosis Seal Sale chairman there, did outstanding work, according to Dr. N. Thomas Ennett, general tuberculosis seal sale chairman for Pitt County. Dr. Ennett said he considered Mrs. Moore well qualified for the position and said she would mean much to the future Seal Sale campaigns in the city of Greenville.

The Tennessee Valley Authority was created by Congress in 1933.

How To Hold FALSE TEETH

More Firmly In Place
Do your false teeth annoy and embarrass by slipping, dropping or wobbling when you eat, laugh or talk? Just sprinkle a little FASTEETH on your plates.

Greenville Wins Second In Series

Seven errors, plus the resurgent batting power of the Greenvilles, spelled defeat for the Fayetteville Cubs last night. The Greenvilles nine clinched the game in the ninth frame with a four run rally. The Cubs, in their half of the ninth, scored four but could go no further. Final count was Greenville 10, Fayetteville 6.

In an attempt to produce a more efficient infield, Payne took over third base, shifted M. Blackwell to second, and Mayer into right field. The new line-up appeared to work smoothly in its first appearance.

Ballam, pitching all the way for the local club, allowed eleven hits, of which only six runs were scored. Helms, Fayetteville's catcher, led the field in last night's hitting, with three doubles in four times at bat, and driving in four runs.

The Greenville Club goes tonight to Wilson for a double-header, starting at 7:00 and tomorrow night meets Wilson in the Guy Smith Stadium.

Sports

Pittsburgh, June 6—(AP)—Major league baseball faces the threat of the first union strike in its long history here tomorrow night in a scheduled game between the Pittsburgh Pirates and the New York Giants.

Robert Murphy, ruddy-faced labor relations director of the American Baseball Guild, announced last night the Pittsburgh Pirates had voted unanimously not to take the field against the Giants unless Bucs' officials meet their demands for an immediate collective bargaining election.

He said he would telephone President William E. Benswanger today and ask him for his decision. Only a dramatic eleventh-hour session in the Pirates' clubhouse kept the strike from coming off before last night's game with Brooklyn, which the Dodgers won, 5-3.

Greenwood Lake, N. J., June 6—(AP)—Challenger Billy Conn may enter the ring at Yankee Stadium for his heavyweight title fight with Joe Louis June 19, weighing less than 180 pounds. Conn weighed 182 after yesterday's workout, in which he boxed eight more rounds to bring his total for the training camp session to 217 frames.

Pumpkin Lakes, N. J., June 6—(AP)—Joe Louis takes his final workout here June 17 in preparation for the defense of his heavyweight boxing title against Billy Conn in New York two nights later. The champion rested yesterday but will box today and seven additional times before breaking camp.

YESTERDAY'S STARS
By the Associated Press
George Kell and Dick Wakefield, Tigers—Each homered to give the Tigers a 2-0 victory over the Philadelphia Athletics.

Ed Waitkus, Cubs—Singled with two out and the bases loaded in the ninth to give the Cubs a 6-5 verdict over the New York Giants.

Buster Adams, Cardinals—Hit a pinch hit single to drive in the winning run in the ninth as the Cards shaded the Boston Braves 2-1.

Pee Wee Reese, Dodgers—Drove in two runs and scored another as the Dodgers defeated Pittsburgh, 5-3.

Mickey Vernon, Senators—Banged a double and single, scored twice and drove in a teammate as the Senators downed Cleveland, 5-1.

Organize Club For Meadowbrook Men
Organization of the Meadowbrook Community Club was completed last night at Meadowbrook Presbyterian Church. The purpose of the organization is to draw the men of the church closer together in promoting community activities. P. O. Allen was elected president, Cliff Rhodus, vice president; A. T. Moore, secretary, and Ed Fuller, treasurer. The club meets the first Wednesday night of each month. Rev. Hayes Clark is pastor of the church.

The Rev. Sam Zerley, pastor of First Presbyterian Church, Washington, N. C. was the speaker at "Brer Rabbit" supper was served.

For HEADACHE
CAPUDINE
Liquor
Capudine relieves headache fast because it's liquid. Its ingredients are already dissolved—all ready to begin easing the pain. It also soothes nerve tension due to the pain. Use only as directed. 75c, 30c, 60c.

Cars In Collision Eighth And Evans

The fire department was called to Eighth and Evans street shortly before noon today when one of two cars in collision caught fire. The fire did slight damage. Fire Chief George Gardner said:
A Buick car owned by W. B. Peele and driven by H. M. Gardner and a car driven by Mrs. John H. Coward of Ayden collided at the intersection, doing considerable damage. Inquiry at the police department this afternoon revealed that police had no record of the wreck at headquarters.

tigitations and hearings more than a year. It held its sessions at Sedgwick Inn, Greensboro, on what is known from the various air lines and made its findings on the merits of each case and with a view to the best public air transport service.
The U. S. Navy still owns its lease on the Greenville Airport, but arrangements were made for local aeronautics authorities to plan for commercializing the field. The airport has three 5,000-foot runways, public utilities, etc.; is near a railroad and a paved highway and is little over two miles from the post-office. The Hill Bus Lines, holder of a passenger franchise in Greenville, operate their buses to the airport.

Charlotte, June 6—(AP)—J. K. Gilbert, head of State Air Lines said he hoped to obtain certification of his proposed routes "in a minimum of three months."
Civil Aeronautics Board examiners recommended yesterday the approval of Gilbert's applications for franchises to operate in the Carolinas, Tennessee, Georgia, Florida and Kentucky. The line has headquarters here.

Gilbert, who talked to the Charlotte News by telephone from Norfolk, Va., said negotiations had already started for planes to operate

over the proposed routes, but that he did not know what type craft he would acquire.

Big Powers . . .

tire support of Russia, France and Mexico for an immediate collective severance of relations with Madrid as a threat to peace.
After studying masses of documents and hearing Spanish Republican testimony in 18 sessions, the subcommittee held that the Franco regime is a potential threat and should be isolated unless Franco is withdrawn by September.

People Of . . .
Continued from Page One
stories they have been telling for two years . . . Personal stories of heroism and sacrifice by the men who came to free them. They also recall many anecdotes which put a touch of humor to the grim days.
"Pierre Aoust, who used to be "Pierre of the Ritz-Carlton" in New York, poured another toast to the men of the 2nd infantry division which captured Trevis and recounted how he stood at the door of his Hotel Laison and yelled: "Come in for a drink. The Boche has gone for a jump in the river."
Many men accepted his invitation for "one on the house," then left again to continue the bitter hedge-row battle.
Not far away, near Le Molay Madame Rene Lubin—known to hundreds of American soldiers as "Mrs. McGinnis"—recalled how she stood along the road in front of her

house waving to the troops and shouting the only words she knew, words remembered from the last war when she worked for two months in a London public house:

"Good afternoon, gin? Whiskey?"
She can show people her scrapbook, full of letters from soldiers who left Normandy to fight their way into Germany and who wrote back to thank her for her hospitality.
In Vaignes they tell again and again the story that has made them laugh so often in the past two
