

PROBE WHETS CURIOSITY OF SENATE BOARD

Testimony In Case Includes Tales of 'And Applie' 'Assure'

Washington, July 6—(AP)—Testimony about party parties, rare Scotch whisky and the wartime influence here of an Illinois munitions combine whetted the curiosity of the Senate War Investigating Committee today.

The committee called Brig. Gen. Roswell Hardy of Army Ordnance to explain why he suggested in 1944 that Batavia Metal Products Company be given a big order for the manufacture of eight-inch shells.

Earlier testimony indicated that Batavia—one of 19 closely-linked concerns whose complicated operations and high profits are under study—got the order within a half hour after the suggestion and without competitive bidding.

Committee members said Hardy will be asked whether the suggestion was advanced at the request of Rep. May (D-Ky.), chairman of the influential House Military Committee. Other Army Ordnance officers asserted yesterday that May put "pressure" on them in the interests of Batavia.

One of these officers, Col. John Slezak, also linked May to a "highly unusual" Army-Navy efficiency award granted to Batavia only after Secretary of War Patterson—then undersecretary—asked for speedy consideration.

During his appearance before the committee, Slezak, former executive officer of the Chicago Ordnance district, but now retired:

1. Verified a telephone conversation with the War Department in which he was cautioned against having Army Ordnance blamed for any delay in the "E" award for Batavia.

2. Declared that he was annoyed because he believed that "public officials should, like Caesar's wife, be above suspicion."

3. Denounced the "E" award as unjustified, adding that as a morale-builder it became worthless elsewhere in that industrial district.

4. Reported that Henry Garsson, president of Batavia, had presented two key officers with cases of "rare" Scotch whisky, asserting "perhaps it was a coincidence" that they arrived while the "E" award was being considered. The Scotch was returned.

5. Said the only "E" award banquets May ever attended in the Chicago district were those given by Batavia and the Associated Erie Basin Metal Products Company, Inc. (Continued on Page Three)

Farm Boy's Fishing Line Rescues Three

Brevard, N. C., July 6—(AP)—A nine-year-old farm boy, Henry Conner, was a hero with a fishing pole along the rapid Horse Pasture River near here yesterday, but his line broke in the final cast and his father, Victor Lee Conner, 45, drowned.

Transylvania County officers related this story by the Conner children:

The father and his children, Doris, 13, H. V., 11, Victor, 7, and Henry were on the banks of the Horse Pasture fishing when Victor, Jr. fell into the river. His father jumped into the stream to rescue him and in doing so knocked Doris and H. V. into the fishing hole. As the four struggled in the water, Henry cast his line to each of the three children in turn and pulled them safely to the bank. In the final cast he hooked his father's overalls, but the weight was too much and the line snapped and Conner sank into the eight-foot deep water.

The body was recovered half an hour later.

THE WORLD TODAY An Analysis Of The News

By J. M. ROBERTS, JR. (For DeWitt MacKenzie)

Despite Mr. Molotov's backdown last night on plans for the 21-nations peace conference, recent developments as a whole seem to bear out the word that is going around that Russia is definitely working toward an accord with the United States.

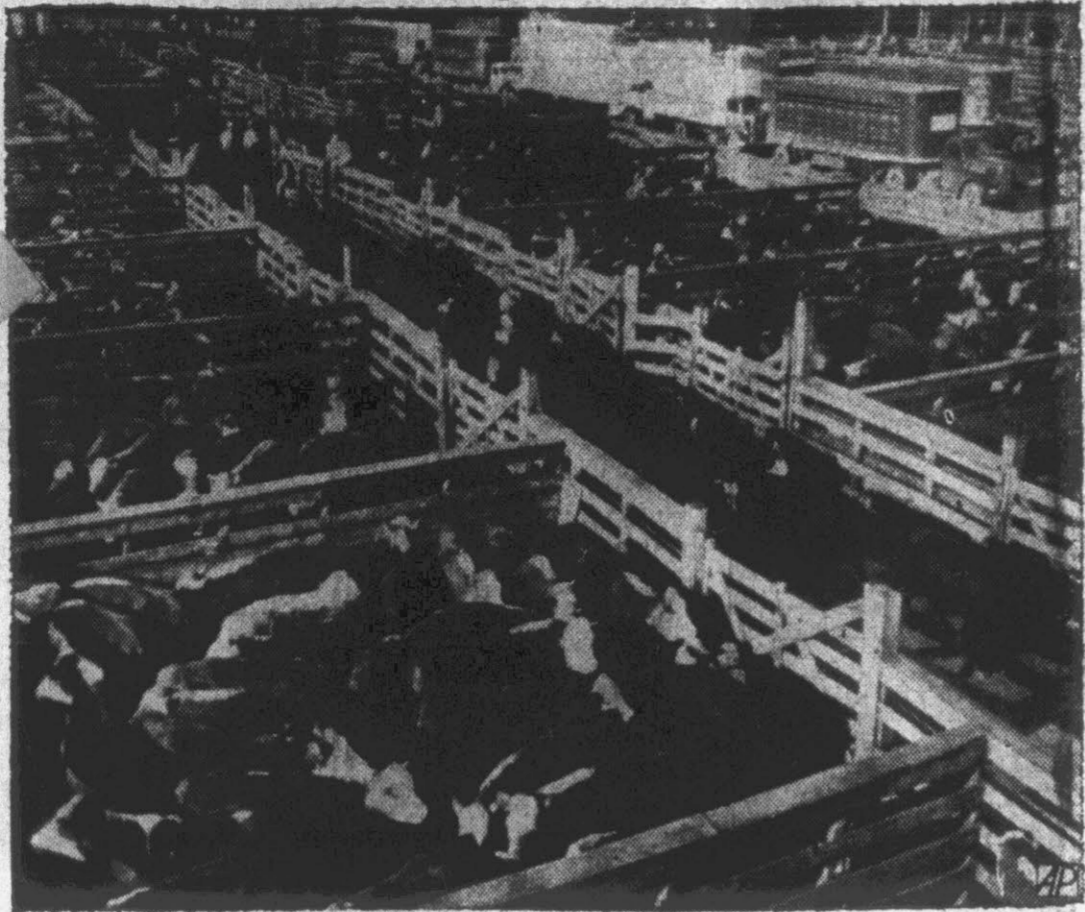

This is particularly bolstered by a new report that the Kremlin may not press, at least for the time being, its ancient ambitions regarding the Dardanelles.

As the story reaches me—and the source is usually a good one—British and American diplomats were not surprised when Molotov suddenly agreed at Paris to give the Dodecanese islands to Greece, in spite of previous indications that the Russians would demand bases there.

The story is that, prior to the conference, the Russians asked the British to indicate to Turkey that now would be a good time to renegotiate the Russo-Turkish treaty of friendship which Moscow had been sending which Moscow had been sending which Moscow had been sending.

The Turkish reaction is reported

Cattle Jam Chicago Stockyards; Prices Fall

Some 9,500 head of cattle, the largest Tuesday run since January, jam pens in Chicago's sprawling stockyards. They were attracted by soaring prices Monday with OPA ceilings removed. But the heavy rain brought a sharp drop in prices Tuesday. (AP Wirephoto).

Shadow Of Veto Falls Over Treaty Making By Big Four

Molotov Blocks Efforts To Convoke 21-Nation Conclave; Byrnes And Bevin Contend Soviet Would Reduce Peace Parleys To 'Rubber Stamp' Status

Paris, July 6—(AP)—British-American opposition to a Russian demand that the Big Four prescribe rules of procedure for a general European peace conference this summer blocked efforts of the foreign ministers' council today to convoke the 21-nation conclave on July 29, the date already fixed.

Both Secretary of State James F. Byrnes and British Foreign Secretary Ernest Bevin contended throughout a stormy four-hour session last night that adoption of the Soviet proposal would reduce the peace parley to "rubber stamp" status but Russian Foreign Minister Vyacheslav M. Molotov adamantly maintained his position.

With the shadow of the big-power veto clouding their efforts, the ministers convened again today for renewed discussion of the problem in another effort to prepare and transmit the necessary invitations for the peace conference to the 17 other nations.

Conversations with members of the American delegation convinced observers that the basic motivation for U. S. policy was a desire to throw international problems into an arena where the big-power veto could not be exercised.

These sources said that without the veto the western powers have the votes to beat Russia on a conflict and that Molotov realizes this, which is the reason for his insistence that the council—where he has veto power—dictate the rules for the peace conference—where he does not.

French Foreign Minister Georges Bidault, in his customary role as compromiser, sought to break last night's deadlock by suggesting that France as the host country merely "inform" the other nations that a peace conference was scheduled to be held.

There are other things tying in with the report published in this column last week that Stalin feels Russia needs little more, internationally speaking, for her immediate security, and that an accord with America has become a priority policy.

What the hitch may become over the peace conference is not quite clear—apparently something came up to make the Russians wish they had not moved quite so fast. Aside

Holiday Deaths

By the Associated Press The death toll from violent causes as the nation celebrated an extended Fourth of July week-end holiday inched to ward the 300 mark today.

With millions swarming bathing beaches and on the highways the bulk of the violent deaths resulted from traffic accidents and drownings.

Since 6 p. m. (local time) Wednesday until early today, at least 269 persons had suffered violent deaths, which was below the estimated total made by the National Safety Council. It said that in the four-day holiday period 1,300 persons would die violently, including 450 in traffic accidents, and that of the 800 probably killed on right 275 would be traffic fatalities.

Today's survey showed 122 persons had been killed in accidents on the highways; 79 had drowned and 63 others died from miscellaneous causes. In 1941 when the nation observed a three-day Independence Day holiday 698 persons suffered violent deaths.

New York and Michigan led all states, each with a total of 23, including 15 persons drowned in Michigan lakes.

North Carolina had four traffic fatalities and South Carolina two drownings.

Canada Pegs Dollar Value Strengthens Price Structure Against Inflation

Ottawa, July 6—(AP)—The Canadian government, in a four-point program designed to combat the threat of rising prices in the United States and to ease the pressures of inflation, has pegged the Canadian dollar at par with the U. S. dollar and strengthened Canada's price structure.

Finance Minister J. L. Isley, who outlined the program to the House of Commons last night in a surprise announcement in which he referred to the recent abandonment of price control in the United States, said he hoped the new measures would "go a long way toward insulating Canada against unfavorable external conditions and easing the inflationary pressures which now are so strong."

Henceforward, banks and other authorized agents of the Exchange Control Board will buy U. S. dollars at \$1 in Canadian funds, instead of at \$1.10, and will sell at \$1.00 1-2, instead of at \$1.10 1-2. Similarly, the buying price for pounds sterling is fixed at \$4.02 instead of \$4.43, and the selling price at \$4.04 instead of \$4.45. The new rates became effective at 7 p. m. (EST) last night.

This means that Canadian firms holding U. S. dollars—such as hotels, cafes and the tourist trade—will suffer a loss of 10 cents on every dollar they are holding and American tourists will get only a dollar's worth for their dollar, instead of \$1.10 worth.

American investments in Canada, now worth approximately five billion dollars, are worth a half billion more than yesterday. The price of newsprint, Canada's biggest export to the United States, probably will be increased. It is now \$67 a ton delivered in New York. (Continued on Page Three)

FIRST PHASES OF UN'S ATOM STUDY ENDING

Setting Up Of Controls Called Long And Arduous Program For Board

New York, July 6—(AP)—The United Nations atomic conferees hope to complete the first phase of their deliberations by next week end, but it was apparent today that world atomic control could be established only after long, painstaking preliminaries.

One authoritative source said that "only a very optimistic view" would support the idea that any concrete atomic program may be ready for submission to the Security Council in time for action at the meeting of the General Assembly scheduled to begin here Sept. 3.

The United States delegation said that even after the adoption of atomic controls "the process of putting them into effect will necessarily extend over a considerable period of time."

"It will have to be done by stages x x x and according to prearranged schedules based on sound and logical sequence leading to full and effective establishment of all controls," a memorandum from the Americans said.

However, the preliminary work cleared away this far under the fast-paced leadership of Australian Foreign Minister Herbert V. Evatt has resulted in a nearly complete outline charting a course through the areas of mutual dissent in the separate United States and Russian plans for atomic control.

Subcommittee No. 1 will meet for probably the last time Monday afternoon, with Evatt presiding, but will remain on call as a coordinating factor while the working committee sets up other organs to handle subsequent jobs such as the drafting of the subcommittee outline.

(Continued on Page Three)

U. S. Opposed To Soviet Seizures

Vienna, July 6—(AP)—The Soviet command in Austria, in a sudden unilateral move today, announced that \$22,000,000 worth of industrial property in eastern Austria had passed into Soviet ownership along with all other "German external assets" in the Soviet zone.

Chancellor Leopold Figl called his cabinet into a special meeting and General Mark Clark, commander of American forces in Austria, immediately moved into action with messages to both the Austrian government and the Soviet authorities.

The Russians for several months have been taking over control of properties in eastern Austria, which they classified as German assets subject to seizure for reparations under the Potsdam agreement.

The order, published today and signed by Col. Gen. Kurasov as "commander in chief of Soviet occupation troops in Austria" apparently was intended to legalize all these previous seizures and pave the way for complete confiscation of properties which they claim under their interpretation of Potsdam.

The United States has disputed this interpretation in the Allied Council, asserting that property taken forcibly by the Germans after the 1938 annexation of Austria could not be classified as German.

BOY'S STORY STARTS RIOT

Child's Lie Touched Off Righting Which Killed 38

Warsaw, July 6—(AP)—An eight-year-old boy, who said "someone" told him to start a story that Jews had held him for several days in a cellar, was blamed by investigators today for touching off Poland's bloodiest post-war pogrom, which killed at least 38 and injured 50 others in the city of Kielce.

A special commission of inquiry said the boy, Henkrik Blazeyczyk, told the story to militiamen, adding that his life had been threatened and that he had seen at least a dozen bodies of Christian children in his prison.

The angered militiamen were said to have gone to Jewish homes to investigate. Violence then developed and crowds began forming in the streets. Nine women and one security policeman were among those slain in rioting which included mob raids on Jewish shops, homes and apartments. Most of the casualties were Jews.

The rioting lasted for several hours, investigators said, with the Jews firing from windows of their homes in self defense and hurling hand grenades, before the militia reserve arrived in the city to restore order.

With 62 perpetrators already in custody, government officials said additional arrests were being made. They will face military tribunals.

Babson Discusses Inventions And Unemployment

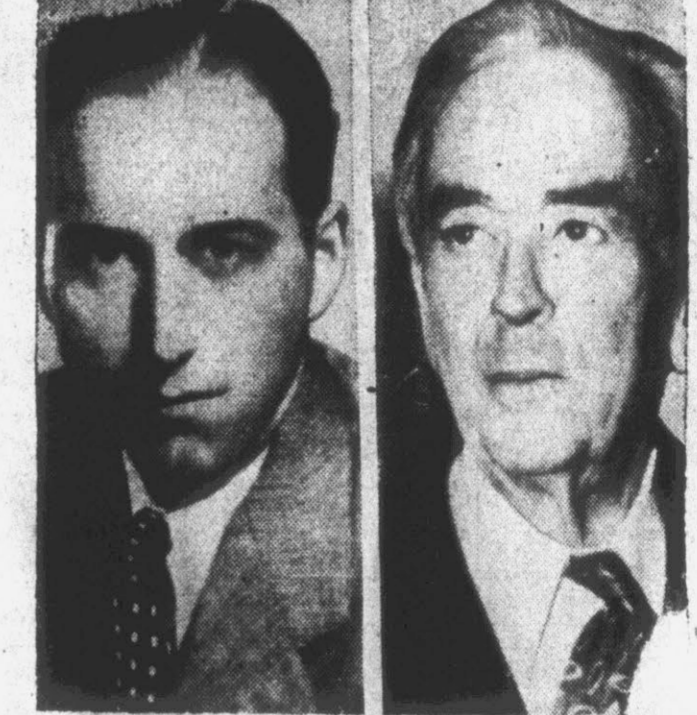

Babson Park, Mass., July 6—As we look back over the centuries we find that almost everything we enjoy today stems from the contributions of religion and-or science. Our standard of living, moreover, should refute the age-old argument that new inventions increase unemployment. Each invention may at first cause an interruption in employment. Yet, eventually it becomes necessary to hire more workers to take care of the increased business which the new machine creates, otherwise we would now be living in caves.

Just a few illustrations: The development of new and improved machines for digging, grading, loading and trucking has made many projects possible which otherwise would never have been attempted. The open pit mines are one such project. Some of these are about three miles wide and close to half a mile deep. Bulldozers and power shovels are continually gouging deeper into the earth and loading the ore into huge trucks. All such pits would have been impossible before modern excavators had been invented, even though these great excavators appear to throw many men out of work.

New Uses For Radar and Airplanes Radar continues to supply employment for thousands even though it was supposed to be only for war use. It is now being used for many peace-time projects. It makes possible full-speed ocean travel in ditch blackness in only sketchily charted waters. It gives our ships the ability to detect and range other

Off-With-Meat-Ceilings Drive Sponsored By GOP

Rep. Rankin Assaults Cameraman

Allen W. Snipes (left), Associated Press photographer from Memphis, Tenn., was assaulted by Congressman John Rankin (right), Democrat of Mississippi, after Snipes took a picture of the congressman outside a polling place at Tupelo, Miss., during the Democratic primary July 2. Rankin ripped off the photographer's shirt, scratched his neck and hands and took his camera. A witness said Rankin shouted "I'll kill you! I'll kill you!" (AP Wirephoto).

Senators Taft And Wherry Spearhead Drive To Crack Open Compromise Price Control Bill; OPA Opponents Maneuver For First Test Vote; Some Democrats Join In Assault

Washington, July 6—(AP)—OPA's senatorial critics counted today on a powerful off-with-meats-ceiling drive to crack open the compromise bill to revive price and rent controls.

Spearheaded by Republican senators Taft of Ohio and Wherry of Nebraska, this fresh attempt to take down OPA, even if it wins new life, gained the influential support of Democratic Senator George of Georgia.

George told reporters he favors leaving meat off of the lists because he thinks most of it would go back into the black market the minute controls were restored.

"We are going to have a meat shortage," he declared, "but it is better to get rid of the controls and the black market that goes with them than to attempt to set prices."

With the Senate in recess until Monday when it will take up the disputed revival bill Democratic Leader Barkley (Ky.) forced out of the Banking Committee, OPA opponents maneuvered to force the first test vote on the meat issue.

Taft said he felt confident enough Democrats would go along with Republicans to write the meat exemption into the bill despite contentions by administration leaders that such a move might precipitate another presidential veto.

Wherry told a reporter it is his judgment that if the Senate were to kill meat controls, it would accept any other compromise bill on which the OPA might be able to pass a bill despite criticism of the terms by OPA opponents.

(D-N), of the Banking Committee, expressed hope that the Senate will stick by the committee-approved measure. But they obviously had doubts about their ability to best off the meat amendment, offered in different forms by Wherry and Senator McCarran (D-Nev.).

Wagner and Barkley apparently were laying plans to get rid of it in a Senate-House conference committee. This strategy worked before, but the resulting bill was so distasteful to President Truman that he vetoed it.

The drive against meat controls took precedence over an effort by Taft to restore a modified version of his manufacturers' profits amendment which Mr. Truman made the major basis for his veto.

Taft offered this identical amendment again with a change in the date. He proposed that individual manufacturers be granted price increases. (Continued on Page Three)

Winds And Rains Hit Carolina Coast Line

Wilmington, N. C., July 6—(AP)—Occasional squalls with winds of 60 miles per hour hit Carolina and Wrightsville Beaches early today, but no injuries were reported there or in Wilmington, where the maximum velocity was 30 miles per hour. Some limbs were blown from trees, but no other damage was reported.

The winds, accompanied by heavy rains that began early last night, were strongest from 1 to 2 a. m. The barometer dropped 1.4 points between midnight and 1:45.

The Wilmington area was heavily overcast, with a mist falling and a spanking breeze blowing this morning.

Price Index Quickly Climbs To New High

PEARL HARBOR REPORT SOON With Four Days To Go, Investigators Still Undecided

Washington, July 6—(AP)—Only four days before its final report is due the Pearl Harbor investigating committee grappled today with where to lay the blame for the surprise element of Japan's 1941 attack.

The full 10-member Senate-House group was called into session to check on progress by a subcommittee of five appointed to draft the report. Members of the subcommittee said they had reached the issue of responsibility and that this was a matter for full committee consideration.

Senator Ferguson (R-Mich.), a subcommittee member, is writing his own version of a proposed report, which aides said he will place before the full committee.

The question of why U. S. forces were caught napping when the Japanese raided Pearl Harbor on Dec. 7, 1941, is the major issue for the investigating group.

A commission headed by then Supreme Court Justice Owen Roberts made an inquiry into 1942 and laid the blame on Lt. Gen. Walter C. Short and Adm. Husband E. Kimmel, Army and Navy commanders in Hawaii.

A later army board of inquiry concluded that Short was remis but also criticized Gen. George C. Marshall, then Army Chief of Staff, and other top Washington officers for not sending him more information. A navy court of inquiry took the attitude that protection of the base was primarily up to the army.

Both Short and Kimmel contended before the Senate-House committee, which began its investigation last fall, that they had been denied vital information and failed to get planes they had advised Washington were necessary if patrols were to be maintained against a surprise attack.

Top-Secret Films Of Bikini Test Stolen

Kwajalein, July 6—(AP)—Theft of a large package of top-secret atomic bomb film after it reached the United States was unofficially but reliably reported today.

A courier reportedly relaxed his vigilance over the 30 to 40-pound package at New York City to make a telephone call either at the airport terminal or rail station while on his way to Rochester, N. Y., where the film was to be developed. A mail, the reports here said, grabbed the package and fled.

The FBI is understood to be investigating the case.

All color and most motion picture and still film made of the July 1 test at Bikini have been sent by officer-couriers to several United States cities for processing and study.

The average "life" of 330,000 miles of surfacing on primary state systems is 12 years.

THE NATION TODAY

By James Marlow

By MAX HALL (Substituting for James Marlow) Washington, July 6—(AP)—One of the next big labor issues will be "guaranteed wages."

You are going to hear more and more about this subject, and these are some of the reasons why:

1. The CIO Packinghouse Workers are demanding a "guaranteed annual wage" in their contract negotiations starting this month.

2. The CIO Steelworkers have decided to make the guaranteed annual wage a major goal next winter.

3. Congress has set aside over \$300,000 for the greatest study of guaranteed wages ever made. A small government investigating staff headed by Murray Latimer already had spent about \$50,000 but was penniless when Congress came to the rescue. Now the investigation is expanding and soon will be going full blast.

Eric Johnston, head of the Motion Picture Association, is one of the key men in this study. It is being sponsored by the Advisory Board of the Office of War Mobilization and Reconversion. Johnston is a member of that board.

What is a "guaranteed wage?" First, it's not necessarily a "guaranteed annual wage." Johnston and Latimer leave out the word "annual." They say they doubt whether it's practical in many industries to guarantee a whole year's employment.

For the purpose of the study, they define a guaranteed wage plan as "a plan under which an employer guarantees a wage or employment to an individual worker for at least three months."

Johnston recently told a congressional committee that instead of "guaranteed wage," he prefers to say "continuous employment" or "regularizing employment."

Labor unions are demanding "guaranteed annual wages." But there probably won't be widespread strikes over the issue, not for a year or two at least. One reason is that rising prices may cause some unions to concentrate on higher wage rates and postpone strenuous efforts to get guaranteed wages. (Continued on Page Three)

## Strength FOR THE DAY

By EARL L. DOUGLAS

### A DAY TO REMEMBER

There is a little plant called  
reverence in the corner of my soul's  
garden," wrote the poet Oliver Wan-  
dell Holmes, "which I like to have  
watered about once a week."  
There are some people today who  
apparently never feel this need.  
They never remember the Sabbath  
day to keep it holy. They remember  
the Sabbath day to keep it filled  
with excursions, or games, or amuse-  
ments of some kind, or perhaps as  
a day for getting over the night  
before. But they do not, like the  
great New England poet, feel the  
necessity of having the little plant  
called reverence, which grows in  
the corner of their soul's garden,  
watered at certain times.

The Sabbath is God's day, and  
one of the Ten Commandments en-  
joins us to revere it as such. It is  
a very arresting fact that the com-  
mandments about the Sabbath are  
not of secondary importance in the  
Bible, but of primary importance.  
We are required to go to church for  
the purpose of paying our respects  
to God. That is the duty side of it.  
The privilege side is that the relig-  
ious people who go to church to pur-  
sue their hearts, at church we meet the  
best people. We spend an hour thinking  
about the higher and more elevating  
things of life. There may be a few  
churches where almost none of the  
privileges are to be encountered;  
the duty, nevertheless, remains  
and is very imperative.  
Men and women make a serious  
mistake when they neglect a mat-  
ter of such supreme importance.

### BABSON

(Continued from Page One)  
corn husks, coal air and water, oil  
and milk is discovered.  
Some of the plastics newer uses  
are plexiglas, windowpanes  
which filter out harmful rays of the  
sun, and nearly perfect artificial  
eyes which actually fit the eye  
socket. Great possibilities await  
plastics in the refrigeration field  
where materials must withstand ex-  
treme changes of moisture and tem-  
perature. Lightweight and nonmag-  
netic qualities make plastics espe-  
cially adaptable for aircraft instru-  
ments. Low pressure laminating and  
high-pressure molding is being used  
for radio cabinets, auto trailers, boat  
hulls, furniture and low-cost hous-  
ing.

**Conclusion**  
Thus, from the new inventions  
spring new industries which con-  
tinue to increase employment. They  
bring to each of us a better and  
cheaper product which is more  
pleasing to the eye and eases our  
daily tasks. These new industries  
employ hundreds of thousands of  
workers and are indirectly respon-  
sible for the employment of further  
thousands. Does it now appear as if  
new inventions are injurious to in-  
creased employment? Rather, it  
strikes me they are an asset.

## NO IMMEDIATE PRICE INCREASE FOR SEALTEST ICE CREAM

We plan no immediate increase in the price of Sealtest Ice Cream in this area, whether Government controls remain lifted or not.

If our costs for quality ice cream rise too rapidly or too much, it may be necessary later to raise our prices. But rest assured we will do everything humanly possible to avoid this.

# Social and Personal

Miss Evelyn Hart of Washington, D. C., is spending the week-end with her mother, Mrs. J. N. Hart. She has as her guest Lt. Myrtle Skinner.

Mr. and Mrs. Tom Phelps have returned from Morehead City and will spend several days in Greenville.

Mrs. Charles F. Blanchard left yesterday for Orlando, Fla., to spend several weeks with relatives.

Friends of Mrs. Loan May will be glad to learn that she has returned to her home from Pitt General hospital.

## Social Calendar

**MONDAY**  
10:30 a. m.—Circle No. 2 of the Presbyterian Church meets with Mrs. W. S. Beard.  
3:30 p. m.—W. S. C. S. circles of the Methodist Church will meet at the church.  
3:30 p. m.—General meeting of W. M. U. of Memorial Baptist Church at the church.  
3:30 p. m.—W. M. S. of Immanuel Baptist Church will meet in the church.  
4:00 p. m.—Circle No. 1 of the Presbyterian Church meets with Mrs. R. C. Deal.  
4:00 p. m.—Circles Nos. 3 and 4 will meet with Mrs. John Clark.  
6:30 p. m.—Rotary Club.  
7:00 p. m.—Lions Club.  
8:00 p. m.—Circle No. 5 of the Presbyterian Church meets with Mrs. Clifton Stokes.  
8:00 p. m.—Coleman circle of Memorial Baptist Church meets with Miss Annie Moore.

**TUESDAY**  
8:00 p. m.—Withla Council Degree of Pochontas meets.

**THURSDAY**  
7:30 p. m.—Executive board of the Business and Professional Women's Club will meet with Mrs. Allie Whitehurst, 300 Meade street.

**FRIDAY**  
6:30 p. m.—Kiwanis Club.

**W. M. U. of Memorial Baptist**  
The general meeting of the Memorial Baptist W. M. U. will be held at the church Monday at 3:30. The Coleman circle will meet Monday night at 8 o'clock with Miss Annie Moore.

**W. M. S. of Immanuel Baptist**  
The Woman's Missionary Society of Immanuel Baptist Church will meet Monday, July 8th, at 3:30 in the Wilson room of the church. The circles will hold a short business session prior to this meeting. All members are especially urged to attend.

**On Terminal Leave**  
Dr. Wardell H. Mills, formerly of the United States Public Health Service, is now on terminal leave after nearly four years of service. On July 1st he reported in at St. Luke's hospital in Cleveland, Ohio, to do further study for specializing in eye, ear, nose and throat work. Dr. Mills completed two years of internship at St. Luke's before going into service in September, 1942.

**St. Paul's Auxiliary**  
St. Paul's Auxiliary of the Episcopal Church will meet Monday afternoon at 4:30 in the parish house.

**Girls Auxiliary of F. W. B. Church**  
The Girl's Auxiliary of the Free Will Baptist Church will meet Monday evening with Mrs. Herman Nobles on Myrtle Avenue at 8 o'clock.

**Card of Thanks**  
We wish to thank everyone who was so kind to us at the time of the death of our mother, Mrs. Lily Fluke Smith.

## Leon H. Walston To Be Buried Sunday

Funeral services for Leon Harvey Walston, 39, of near Bruce, Pitt County, who was drowned while fishing near Belhaven last Sunday will be held at the home near Bruce Sunday afternoon at 2:30 o'clock. The Rev. Harvey Morris, Pentecostal Holiness minister of Goldsboro, will officiate. Burial will be in Ukra Cemetery near Fremont.

The body will remain at the Greenville Funeral Home, 1212 Dickinson Avenue, Greenville, until an hour before the funeral service.

Walston, who fishing from a boat near Belhaven with Johnny and George Garris, Pete Ford and Benjie Little, last Sunday morning about 10 o'clock, went overboard for a swim. He failed to come up. His body was recovered about 20 miles from Belhaven last Thursday.

Surviving are his wife, Mrs. Pennie Mae Jones Walston; four sons Lester Edward, Leon Ray, Robert and Ernest Phillips Walston; three daughters, Dorothy Ines, Ruby Lee the home; his mother, Mrs. Maggie and Barbara Ann Walston, all of F. Walston of Wilson; three brothers, Henderson Walston of Tarboro, Willie Lee Walston of Southern Pines, and Hadie C. Walston, U. S. Army in France; four sisters, Mrs. Beulah May Hayes of Tarboro, Mrs. Lisle Allen McCandler of Goldsboro, Mrs. Dollie Mae Wilson of Winterville, and Mrs. Mary Louise Horne of Wilson.

## Miss Olie Moore Died Early Today

Miss Mary V. (Olie) Moore, 73, died at her home at the old Moore home place near Stokes at 12:50 o'clock Saturday morning after several years of declining health and three months of critical illness.

Funeral services will be conducted at the home at 3:30 o'clock Sunday afternoon by the Rev. Pittman Harris, Free Will Baptist Minister of Micro. Burial will be in the family cemetery nearby.

Miss Moore, daughter of the late Mr. and Mrs. Gifford L. Moore, spent her entire life in the community in which she died, living in the home of her sisters.

Surviving are two sisters, Miss Etta P. Moore and Miss Arley V.

## Cases Tried Friday In Recorder's Court

Judge Jimmy Roberts disposed of the following cases in Police Court yesterday:

Assault on female: Herbert L. Tucker, colored, paid \$15 and forbidden to live at same address as Hattie Allen, colored.

Speeding: Ocie F. Prith and Stephen Harding, each paid \$15.

Assault with deadly weapon: Thomas B. White, colored, \$15 and placed on probation six months; Steven H. Joyner, colored, \$25; Collette J. Simpson, paid \$15, and not to live at same address as Nora Hardee, colored, Fannie Teels, (three cases), bound over to Superior Court, bond, \$500.

Non-supporting and violating court order: Sam Wilkes, colored, 60 days on roads.

Drunk: Henry Moore, colored, paid \$15; James Arrish, (and disorderly), \$15.

Larceny of auto: Raymond Best, colored, probable cause, bound over to Superior Court, \$300 bond.

## President And Wife To Visit Gettysburg

Thurmont, Md., July 6—(AP)—President and Mrs. Truman assumed the role of tourists today for a pilgrimage to historic Gettysburg.

The brief visit to nearby Pennsylvania brought the President's fourth of July weekend vacation near a close.

He and Mrs. Truman planned to leave their "Shangri-la" retreat in the Catoctin mountains soon after breakfast for the 18-mile drive and return in time for lunch.

Mr. Truman said he will be back at his White House desk Monday morning.

## Canada Pegs . . .

(Continued from Page Six)  
payable in U. S. currency. This former meant \$73.70 in Canadian money to the manufacturers but now it means \$67.

## Price Index . . .

(Continued from Page One)  
prices on 35 commodities stood today at 133.76, the highest point since its inception in 1933. Based on 1926 averages as 100, the index rested at 122.28 when the lapse of Opa was sealed a week ago.

When, how and if all these price jumps would be translated into the final cost of what people eat and wear was a matter of conjecture.

## Shadow Of Veto . . .

(Continued from Page One)  
begin July 29 and that invitations be sent later, but Molotov said this would only serve to confuse.

Near the end of the session, Molotov proposed that the entire problem be referred to the deputy foreign ministers and that the council itself proceed to discussion of German peace treaty questions. Byrnes stood firm, however, and the meeting broke up without any agreement.

—Photo by Henry Renfrew  
Mrs. Jesse Bryan Jordan, who bore her marriage on Friday, June 21, at five o'clock in the afternoon in the Eighth Street Christian Church, was Miss Audrey Allen, daughter of Mr. and Mrs. Fenner L. Allen of Greenville, Route One. Mr. Jordan is the son of Mr. and Mrs. R. L. Jordan of Greenville.

## Off-With-Meat . . .

(Continued from Page One)  
creases on major items to cover cost rises since the period of July 1 to 15, 1940. Originally he had proposed Oct. 1 to 15, 1941, and Mr. Truman complained this was a period of unusually high earnings for industry.

The Ohio senator's new version represented a backing away from his earlier compromise position when he agreed to accept a formula under which price increases would be figured on the industry-wide rather than item by item—average, plus the industry-wide rise in costs.

## First Phases . . .

(Continued from Page One)  
In one of his last acts as chairman of all the atomic groups, Evatt kept the United States delegation working through the July 4 holiday on a detailed elaboration of the American plan calling for a world monopoly over the sources and disposal of atomic energy.

## Probe Whets . . .

(Continued from Page One)  
6. Said that at the \$16,000 Erie banquet guests received expensive presents as souvenirs, valued at \$25 to \$300 and including watches and pen and pencil sets.

## The Nation . . .

(Continued from Page One)  
Another reason is that there are admittedly tough problems to be overcome in many industries.

Before you can guarantee wages for any period of time, you have to "stabilize" employment. Before you can do this, you have to "regularize" production. This is hard to do as your supply of raw materials is irregular. Or if people buy your product only at certain times of the year.

You must do away with seasonal ups and downs, at least to some extent. You must abolish layoffs of millions of workers now are subject to layoffs.

Johnston told Congress that most American wage-earners work less than 200 days in a year—"But they have to live 365 days."

Latimer, who is directing the actual research, was chairman of the railroad retirement board for 12 years. He will have 79 people working on the guaranteed wage project at its peak.

Here's what they will do:

## The World Today . . .

(Continued from Page One)  
from this, everything in the past fornicity fits into the picture drawn by the news reports—the Italian treaty, the original agreement on the peace conference, the general atmosphere in Paris, Gromyko's compromise on procedure in the atomic control discussions, and the reassurance of the new Russian ambassador at Washington that "Russia will never start a war against the United States or anyone else."

Probably one of the most pertinent comments of all was that by Yugoslavia's deputy premier, Edward Kardelj, after Molotov's acceptance of the Trieste compromise. Kardelj said it was unacceptable to his country, but that the Soviets had done everything in their power, to aid Yugoslavia and Mr. Molotov "apparently didn't want to deadlock the conference by opposing the French proposal." If he does not spoil the record now regarding the peace conference, the situation should be much easier.

## Forty Years Ago Today

**THE DAILY REFLECTOR**  
Saturday, July 6, 1906

The new board of aldermen that qualified and elected officers for the fiscal year on the 2nd, held its first regular monthly meeting on Thursday night, all the members being present.

The report of the Water and Light Commission for the fiscal year showed total receipts from service and construction \$20,861.30, total expenses and purchases \$20,266.19, leaving cash balance on hand of \$607.11, and accounts due and stock on hand \$1,647.04.

The report of the dispensary commissioners showed a total business during the year amounting to \$66,643.21 and net profit of \$10,338.66. The salaries of officers were made the same as last year: Mayor \$25 per month; clerk \$60 per month, chief of police \$50 per month, assistant police \$45 per month, chief of fire department and building inspector \$20 per month, treasurer \$350 per year.

# LOCALS DROP GAME TO CUBS

## Fayetteville Rallies In Seventh To Win 4-1 Over Greenies

The Greenies' slump was still in effect last night when Fayetteville took the local club over the hurdles for a 4-1 defeat. Greenville scored in the fourth inning, and held their one run lead until the seventh frame when, with three hits, two walks and a hit batsman, Fayetteville scooped up four runs.

The usually potent batters in the Greenville club were held down by

Starrette, pitching for their opponents, to a mere four hits; Paris, V. Blackwell, Wall and Luke being the only ones to connect for the evening. Carlson scored the Greenies only run when he was batted in by Wall.

Weather permitting, Fayetteville is scheduled to play the Greenies again tonight, this time in the Guy Smith Stadium at 7:45.

The box:	
Greenville	Ab R H O A E
Paris, lf	4 0 1 1 0 0
M. Blackwell, 3b	4 0 0 1 2 0

# KIWANIS CLUB FOR CONTROL

## Urges Growers To Vote For It Friay; Convention Talk

By CHESTER WALSH

The Greenville Kiwanians at their weekly supper meeting last night heard an interesting and entertaining report of the Kiwanis International convention at Atlantic City. President Ed Rawl, one of the delegates, who was on a convention committee responsible for escorting celebrities to the stage, gave a dramatic recital of the thousand and one things that happened during the four-day meeting of 2,400 Kiwanis Clubs, embracing 163,000 business and professional men of the United States and Canada. The workings of the convention reflected the activities of all of the Kiwanis clubs in the various communities.

Rawl's report of the convention revealed numerous points which will contribute to the further growth and community activity of the Greenville Kiwanis Club.

Will Whedbee, sales supervisor of the Greenville tobacco market, had charge of the program. Before presenting the speaker with the convention report, Whedbee called attention of the Kiwanians to the crop control balloting next Friday, July 12. He stressed the importance of continuing control in order to maintain prices and give the growers a fair return for their tobacco. The sentiment of the Kiwanians was enthusiastically in favor of continuing crop control and the members have pledged themselves to urge every tobacco grower to go to the polls next Friday and vote for control.

Tom Wilson is program chairman for the next club meeting. John Glover won the attendance prize last night, given by Paul A. Toll. Charley Pyle, Will Whedbee and Milo Smith had birthdays and each one contributed a nickel for each year of his age for the Underprivileged Child Fund.

A JUVENILE DELINQUENT Chicago, July 6—(AP)—Henry Johnson, who is 74, was in Boys Court—the only municipal court opened yesterday—on a charge of shoplifting.

Pleading guilty, he told Judge Joseph Drucker: "I just wanted to give a purse to my girl friend."

"The next time," Judge Drucker told Johnson in imposing a sentence of 90 days in jail, "Go out and buy her a purse."

INFLATION BACKTRACKS Honolulu, July 6—(AP)—The inflation spiral backtracked in Honolulu.

Before the demise of the OPA, the Surplus Property Office placed excess eggs on sale at 45 to 49 cents per dozen wholesale and 49 to 52 cents retail.

There were no buyers. In a few days the asking price had dropped to 30 cents wholesale and 35 cents retail.

Here she is with Sonny Tufts—but it's Ray Milland she really has in her heart, in "The Well Groomed Bride" at the Pitt Sunday-Monday.

# CARNIVAL TO BE NEXT WEEK

## VFW Completes Final Arrangements For Fun Festival

At last night's meeting, members of the Charles Gray Morgan Post of the VFW made final arrangements for the Raftery Shows Carnival which is to be held next week from the 8th of July through the 13th. Opening every night at 7:00 o'clock, except on Saturday when the opening time is at noon, the carnival will feature rides, shows, games, refreshments and fun for all.

Representatives of the Pitt County VFW will be out at the carnival grounds in City Park Track at Guy
