Wallace Asks For Straight American Line In Policies

Reds Interrupt Speech With Heckling And Boos As Secretary Of Commerce Presents "Pro-American" Foreign Policy; Sen. Pepper Applauded For Attack On U. S. Statecraft

New York, Sept. 13.—(AP)—Secretary of Commerce Henry A. Wallace was interrupted by booms and heckling in a White House approved speech at a Madison Square Garden rally last night when Senator Claude Pepper (D-Fla.) was applauded by attacking our "blundering foreign policy."

The two men, who have been on the same side in many foreign and domestic issues, spoke before an audience of 19,000 at a rally sponsored by the National Citizens Political Action Committee and the Independent Citizens Committee of the Arts, Sciences and Professions.

Wallace was greeted with an ovation and cries of "Wallace for President" when he arrived at the Garden. There was some scattered applause during the speech and applause when he sat down.

Wallace, who said the United States must adopt a clear and realistic policy of its own to avoid another war, first was greeted by hisses and booms when he said he was "neither anti-British nor pro-British, neither anti-Russian nor pro-Russian," and added:

"Just two days ago, when President Truman read these words, he said they represented the policy of his administration."

Another round of heckling broke out when Wallace, speaking of Russia, said "her type of land reform industrial expropriation and suppression of basic liberties offend the great majority of the people of the United States."

At this point Wallace laid aside his text and declared: "Well, it's true outside New York City, as my Gallup poll will show."

He resumed his speech and said "the Russians have no more business stirring up native Communists to political activity in western Europe, Latin America and the United States."

Loud hisses interrupted him and he shouted: "Get the whole sentence," adding to complete his remark, "that we have interfering in the policies of eastern Europe and Russia."

He said British "imperialistic policy" in the Near East together with Soviet retaliation would lead the

AFL To Protest Oak Ridge Vote

Oak Ridge, Tenn., Sept. 13.—(AP)—American Federation of Labor organizers planned today to protest to the NLRB results of one of three runoff elections here in which workers at two operating plants voted for unions as bargaining agents and a third plant favored no union.

"We will protest to high heaven the election at Carbide and Carbon," said AFL Organizer James Barrett following the tabulation.

"The CIO will never be certified as the winner, even if we have to carry it to the Supreme Court before it is finished," he continued.

National Labor Board Representative Charles M. Brooks, announcing official totals, said at Tennessee Eastman the vote was 3,120 for no union, and 2,503 for AFL; at Carbide and Carbon, 1,918 for CIO and 1,893 for AFL; and at Monsanto, 331 for AFL and 138 for CIO.

NLRB regulations provide a five-day period after official tabulations in which company or union officials may file protests.

Daring Raiders Rob Banks In Palestine

Jaffa, Palestine, Sept. 13.—(AP)—At least four persons were killed and four injured today when two armed bands, believed by police to be members of the Jewish Stern Gang, raided the Ottoman banks in Tel Aviv and Jaffa, escaping with \$6,000 from Tel Aviv.

Stern Gangs Believed Behind Attacks; Incidents Show Careful Planning; Four Killed And Four Wounded In Raids

Twelve of the 15 attackers in the Arab city of Jaffa were apprehended and all the \$2,000 taken here was recovered from the arrested Jews. All the casualties were in Jaffa.

Both Tel Aviv and Jaffa were placed under a rigid curfew for an indefinite period following the daring daylight robberies.

The simultaneous raids were staged shortly before noon. Divergent incidents at Jaffa, synchronized with the attacks, included the firing of an oil drum in the street to block traffic, an exchange of fire with police at a nearby substation, and a machinegun volley from a moving automobile against an Arab crowd.

Police said casualties included one Arab police officer, two Arab civilians and one Jewish raider killed, and three arrested Jews wounded. An eyewitness said James Annett, English bank manager also was shot through the leg.

A dozen armed men walked into the Tel Aviv bank brandishing pistols and tommyguns, scooped up the \$6,000 in cash and escaped on foot.

But in Jaffa a similar band ran into opposition from Arab civilians. (Continued on Page Four)

Iron Fist Diplomacy Says Balkan Military Displays A Substitute For Diplomatic Notes; Soviet Using "All Means Short Of War" In Program; Not Yet Time For Showdown

By J. M. ROBERTS, JR. (For DeWitt MacKenzie) Military alarms in the Balkans which once would have been taken as the harbingers of immediate war must be studied in a new light today.

There are reasons for believing that military displays are merely being substituted for the diplomatic notes of former times, and that right now, they may be even less explosive.

The Red Army has been concentrating in the area surrounding Greece; Russia is reported equipping 70,000 Albanians for war and there has been a little wild shooting along the Greek-Albanian border; Russia's servants in Belgrade are reported seeking a united Yugoslav-Albanian military area for defense; Bulgaria, Albania and Yugoslavia are presenting claims against Greece, and Russia is doing likewise against Turkey; Yugoslavia is making motions around Trieste.

While Russia may be using "all means short of war" to further her program, she is believed by observers within and without Russia, to be carefully remaining within that limit.

As a matter of fact, amid all the talk, there are few who attribute to Russia a desire for war, now or at any time. Instead, observers in Moscow agree with Communists both there and abroad that the Soviet is determined upon peace for now, and for the future it can be made compatible with Russia's conception of her needs.

Bulletins

By Associated Press WASHINGTON, Sept. 13.—Rising costs of butter and cheese has brought a notice from the price decontrol board today that it may clamp ceilings back on all dairy products.

WASHINGTON, Sept. 13.—State Department officials today disavowed any responsibility for Secretary of Commerce Wallace's speech on foreign policy, thereby pointing up the possibility of a 14-part cabinet split between Wallace and Secretary of State Byrd.

WASHINGTON, Sept. 13.—The 29 nations which make up the multi-billion dollar international monetary fund were called upon formally today to declare the value of their money in relation to American dollars.

URGE FEDERAL ACTION OVER KLAN REVENUE

Organized Labor Group In Georgia Cites Activities Of Kluxers

Atlanta, Sept. 13.—(AP)—Organized labor, represented by the Georgia legislative council, today urged U. S. Internal Revenue Collector Marlon Allen to set on with the business of collecting all available assets of the Ku Klux Klan to satisfy a federal tax lien of \$685,305.

The council, composed of representatives of CIO unions, submitted a letter to Allen declaring that the "operating Klan" and the Ku Klux Klan, Inc., against which the lien was returned, are the same.

Allen filed suit against the Klan May 30 to recover back income taxes which the government charged was due. The suit was filed in Fulton (Atlanta) Superior Court.

The council accepted the Klan membership figure of 60,000 and noted that the entrance fee was \$10 and annual dues \$10. This, said the council, allowing for a \$5 membership renewal fee, would give the Klan an income in the neighborhood of \$1,000,000.

Gen. Pershing Is Host To Truman

Washington, Sept. 13.—(AP)—Gen. John J. Pershing is 86 today and an old artilleryman who helped him whip the Germans in 1918 has a date to say, "Happy Birthday."

President Truman arranged to call in mid-afternoon on his old AEF commander. Mr. Truman served with a Missouri National Guard artillery regiment in the first world war, coming out with the rank of major.

Pershing, retired with the rank of general of the armies, has lived at the army's Walter Reed Hospital here since he suffered a severe illness in 1938.

In a birthday statement, the old warrior gave this admonition to his fellow citizens:

"In this postwar period of international differences, it is incumbent upon our country to enforce our diplomacy with continued strength."

"The first world war would have insured peace had we dictated our terms in Berlin and brought home the suffering of occupation to the German people, and, at the same time had maintained a respectable posture of defense on land and sea and in the air."

Survey Indicates Meat Is Scarcest Food Item

By the Associated Press Meat is the scarcest food item in the nation's cupboard; hundreds of thousands of workers are unemployed in strike-hit cities, and the housing shortage has reached critical proportions in many communities.

These facts were disclosed today in a nation-wide survey conducted by the Associated Press.

Samplings of conditions in cities from coast to coast also showed that the family larder was short of sugar, soaps, fats and oils.

In the housing field, public housing authorities said they had long waiting lists from applicants for practically non-existing living quarters, and that apartments were "impossible to find" in some places.

This is how the situation stacked up in the various cities before the end of the AFL maritime strike on the west coast and before the start of the nation-wide strike of the CIO National Maritime Union:

DRIVE STARTS TO KILL OFF OPA BY APRIL

Move Among Senators Revealed By Taft; Demos Split On Issue

Washington, Sept. 13.—(AP)—A drive to kill OPA next April 1—three months ahead of its scheduled death date—is shaping up among senators.

Discussed quietly by some members of both parties, the proposal was brought back to the open by Senator Taft (R-Ohio).

He told the Ohio Republican State Convention at Columbus Wednesday that price and wage controls should be "completely abolished" by April 1, with rent control for not to exceed one more year transferred to the National Housing Administration.

Expanding on the plan in an interview, Taft noted today that under the current OPA act all food subsidies must come to an end by April. He said he saw no reason why the price administration could be liquidated at the same time.

An influential democratic senator heretofore closely allied to the administration, told a reporter on the condition his name not be used that "the greatest mistake" he had made in his long congressional career was to vote for extension of the price control law last July.

He predicted a successful drive "sometime" on Page Four

Tropical Storm Warning Issued

Miami, Fla., Sept. 13.—(AP)—Bermuda was alerted for a hurricane today as the first major tropical storm of the year increased on Friday, the 13th, to a force of some 90 miles an hour.

Hurricane hunters flew into the disturbance and located its center at mid-morning near latitude 28 degrees north, longitude 75 degrees west. The storm was moving north-eastward at 16 miles an hour.

The storm lashed a portion of the Bahamas with 65 to 85 miles wind during the night and moved out over the open Atlantic. Its present course and speed, said the federal storm warning service, will carry it probably west of Bermuda during the early forenoon tomorrow.

At 10 a. m. the storm forecasters reported the hurricane had a diameter of about 100 miles, and its center was 380 miles northeast of Miami. Its movement was away from the United States' mainland.

State Dept. Defends Yugoslav Shipments

Washington, Sept. 13.—(AP)—The State Department took the stand today that to stop UNRRA relief shipments in retaliation for Yugoslavia's shooting down of American planes would place us in the position of dishonoring our international commitments.

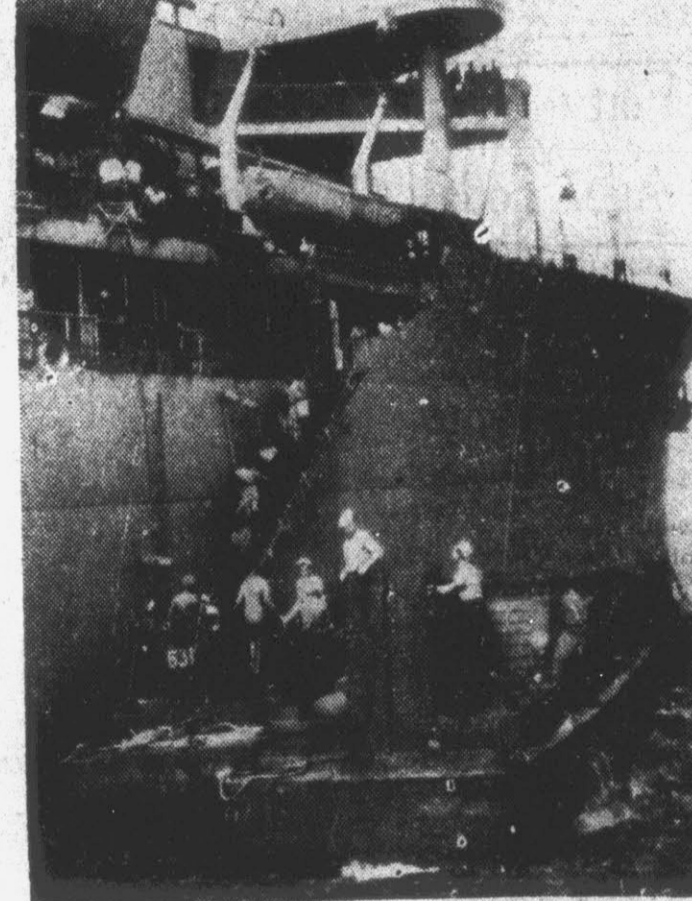

Undersecretary Will L. Clayton acting chief in the absence of Secretary Byrd, made known in a statement the department's decision that the shipments should continue.

About the time of his announcement, press officers confirmed in response to reporters' inquiries that the U. S. apologized for the action of two youths who threw stones at the Yugoslav embassy a month ago.

The incident occurred after disclosure that Yugoslav airmen had shot down a warmed American transport plane, killing all five on board.

Wage Stabilization Board Target Of Verbal Attack

Navy Lands Strike-Bound Passengers

AFL President Demands Resignation Of Four Members Maritime Commission Takes Up Problem Of Giving CIO Same Wage Benefits; Shipping Idle Pending Settlement

Washington, Sept. 13.—(AP)—The AFL swung a new verbal sledgehammer against the government's wage-price stabilization setup today as CIO sailors took over the strike banner which AFL seamen appeared ready to drop.

Moving swiftly to overcome this new crisis, the Maritime Commission met to consider giving the CIO the same wage increase benefits as won by the AFL.

AFL President William Green renewed his attack on the Wage Stabilization Board which the White House bypassed in procuring a formula for ending the AFL seamen's strike. Green demanded that the boards two public and two industry members resign.

With shipping still at a standstill as a result of the sudden CIO work stoppage, Green issued a statement saying:

"The Wage Stabilization Board now stands repudiated and disgraced. Its public and industry members have forfeited the confidence of the public and labor and they should resign at once."

There was no immediate reaction from these members; Chairman W. Willard Wirtz and Vice-Chairman L. Phillips Garman (public), or from Earl N. Cannon and Colman Barrett (industry).

The board, which refused Tuesday to sanction wage increases for AFL seamen higher than those obtained last June by CIO sailors, also has two labor members. The 19 other members were authorized, 4 to 2 on the issue, and the AFL began polling its membership on a proposal to withdraw from the board on Friday.

Cannon and Barrett, the industry members, submitted their resignations to President Truman on July 18, but Mr. Truman prevailed on them to carry on "in the midst of this immediate and perhaps transitional period."

Cannon and Barrett had expressed belief that the continuance of the so-called tri-partite arrangement of this and similar boards is inadvisable.

Members of the Maritime Commission, meeting in executive session, indicated they would adopt the recommendation of their labor relations director, J. Godfrey Butler, that wage boosts be extended to the CIO as well as to AFL seamen. (Continued on Page Six)

ALBANIANS IN NEW PROTEST

Lake Success, N. Y., Sept. 13.—(AP)—Albanians, in another appeal to the United Nations to use its influence to end alleged "Greek Provocation," charged today that the "Monarchist - Fascist rulers of Greece" are aiming at provoking an armed conflict between Albania and Greece. Lt. Gen. Koci Xoxe, Albanian minister of foreign affairs, telegraphed U. N. Secretary-General Trygve Lie that the Greeks aimed to provoke an armed conflict with Albania to "enable Greece to occupy and annex southern Albania under the pretext that it is part of the Epirus."

The charges came as the U. N. security council postponed the meeting set for today until 2:30 p. m. EDT, Monday at the request of the United States delegation because of the temporary indisposition of Herschel V. Johnson, United States delegate.

The council is considering Soviet Ukrainian charges that the Greek government aided by British troops, is a menace to the peace of the Balkans.

Last week Col. Tuk Jakova, Albanian minister of state, appeared before the 11-nation body to back the Ukrainian charges.

Peruvian delegate Alberto Arca Parro, opening a debate in the economic and social council on the refugee question, objected to immediate approval of Secretary-General Trygve Lie's proposal for creation of an interim commission to act until the international refugee organization is reconstituted. Executive Dies In Fishing Camp

New York, Sept. 13.—(AP)—George Washington Hill, 61, who rose from a \$3-a-week helper in his father's tobacco firm to president of the American Tobacco Company, died today at his fishing camp in Matapedia, Quebec Province, Canada.

Announcement of his death was made here by the company. He had been ill for a short time, but the cause of death was not announced.

Hill, whose company popularized Lucky Strike cigarettes, made the tobacco business his life work and rose to become one of the highest paid corporation executives in the nation, averaging more than \$400,000 annually for years as president.

He earned \$5 a week when he joined the company at the age of 20 and once disclosed that his salary and bonuses netted him \$6,500,000 between 1926, when he became president of the firm, and 1939.

The New Wage Ruling

Ruling Handed Down On Maritime Strike Does Not Affect Other Employees; Nothing Changed In Government's Rules On Wages; Here's An Explanation

By JAMES MARLOW

Washington, Sept. 13.—(AP)—To you, the average worker, what does the government's new ruling on wage raises mean?

(The ruling was handed down last night in the maritime strike.) It means nothing to you, for nothing was changed in the government's rules on wage increase unless you're a seaman or perhaps a shipyard worker.

Here's a boiled-down explanation of the new ruling, with background. The government set up its present wage rules last Feb. 14 as a means of keeping wages and prices in line. The boss was to be boss on prices. The boss of wages was to be the Wage Stabilization Board.

The rules worked this way: 1. Suppose a boss wanted to raise wages. Would he have to ask permission of the Wage Stabilization Board? No, unless he wanted to raise prices to offset the pay raise he gave.

2. If he wanted to raise prices, because of the wage raise, he'd have to ask the wage board how much he could raise. The board would set the limit. Then, after getting board approval for a certain pay raise, the boss could go to OPA for permission to raise prices.

3. But on any job where a wage raise was going to cost the government money—such as on ship owned by the government—the wage board had to approve before an raise could be given, no matter how little.

No. 1 and No. 2 still stand, untouched by last night's ruling which affected only No. 3. For it was No. 3 that the maritime strike broke. Here's how:

Two AFL Seamen's Union, on the east coast, one on the west coast, got private shipowners to give them a pay raise of \$22.50 a month on the west coast, \$27.50 on the east.

Unlucky Police Badge Is Retired

Chicago, Sept. 13.—(AP)—Police star 1313 won't jinx anyone this Friday the 13th—or ever again.

The star is in a glass case in the office of James McSweeney, police headquarters secretary, and McSweeney says "it never will be issued again."

Star 1313 was issued in 1923 to Policeman John Bryant, a Negro who died five years later at the age of 32.

Next it went to Policeman Joseph Sevik, who turned it back six years later in 1939. In those six years McSweeney said, Sevik's wife, two children, mother and father died. His brother, Policeman John Sevik, was shot and killed by a prisoner in the criminal court.

Next star 1313 went to Policeman Charles Schwertfeger who was involved in a shooting resulting later in a damage suit. Schwertfeger died in May of 1944, after 13 years service in the 13th district station. The star was turned in May 13.

GMC And Ford Halt Cheap Model Plans

Detroit, Sept. 13.—(AP)—General Motors Corp. and the Ford Motor Co. disclosed today that they have halted operations on projected new low priced, lighter weight passenger automobiles.

GM which planned to market the new vehicle through its Chevrolet division, announced that preparations for the new vehicle had been halted until the basic materials situation plaguing the industry may have improved. The Ford announcement said merely that its light car division had been discontinued for about 30 days.

Speculation in trade quarters was that neither General Motors nor Ford would revive plans for the lighter weight car, although GM officials declined to comment on that possibility.

About Burning Trash
Fire Chief George Gardner today reminded that a city ordinance prohibits the burning of trash or leaves in the "fire zone" of the city. Trash may be burned on premises outside the business district that is zoned, but householders and others planning to burn trash are requested to notify the fire department in advance. A fireman will be there to see that the fire does not spread to buildings. The chief also suggested that trash not be burned on windy days.

Vance Whitehurst To Enter Big Contest

Vance Whitehurst, Route 3, Robersonville, winner of the horse-shoe pitching tournament held here recently as a part of the annual county FCX meeting, will represent Pitt county in a state-wide horse-shoe pitching tournament to be held in Raleigh on September 24.

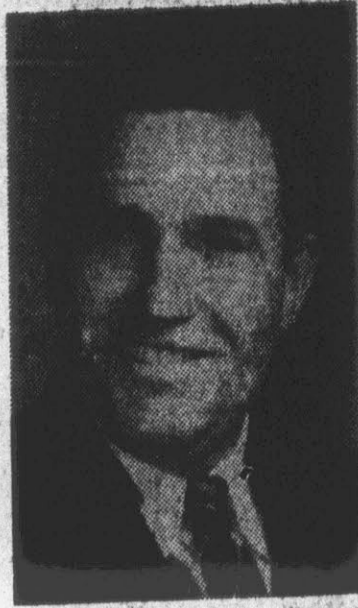

The state tournament in Raleigh will be sponsored by the Farmers Cooperative Exchange as one of the features of its annual state meeting scheduled for September 24.

M. G. Mann, general manager of the FCX, said he had been so impressed during the first 17 meetings held in the western counties by the keen interest and the intense rivalry, as well as the outstanding ability among the farm men and boys, that his organization had decided to invite all the winners of the 34 county tournaments to participate in a state tournament.

Mann said that all of the 34 county winners would be eligible to enter the state tournament with all expenses to and from Raleigh paid by the FCX.

The 34 county winners will compete for the following prizes in the State meet: First place—a three-day all expense trip to the State Fair including—transportation, food, hotel reservations and tickets; second place, \$50 FCX merchandise; third place, \$25 FCX merchandise.

New Pastor

The Rev. Ralph R. Johnson, pastor of the Pentecostal Holiness Church, will speak Sunday morning at 11 o'clock on the theme, "Holiness—God's Challenge To Satan." Evening service at 8 o'clock. Theme "A Practical Prayer."

In that prosperous community. The members are wide awake business and professional men and farmers of Ayden. The club was a success from the date of its opening. The programs are features of the weekly cupper meetings. James B. Hemby is president of the club; Hubert Worthington, Frank Hart and Leon L. Kittrell are vice-presidents, and Clay Stroud, Jr. is secretary and treasurer.

A contributing factor to the excellent attendance at the meetings and continued interest in club activities is the club's weekly Lions Club Bulletin, written and edited by Bennett Phillips, chairman of the Public Relations Committee. A sample paragraph from the Bulletin: "Lovemaking has not changed in 2,500 years. Greek maidens used to sit and listen to a lyre all evening, too."

New Case Workers Welfare Department

K. T. Futrell, superintendent of the Pitt County Welfare Department, announced today the addition of Miss Martha Harris of Oriental and Miss Frances Bartlett of Belhaven as case workers.

Miss Harris replaced Miss Mary Holland, who was transferred to the welfare staff in Winston-Salem while Miss Bartlett replaces Mrs. Madeline A. Vincent who resigned. Both began work September 1.

Miss Harris is a graduate of Woman's College, Greensboro, and has had five years teaching experience. She begins as a case work assistant.

Miss Bartlett is a graduate of Washington College, Chestertown, Md., and begins work as a case work trainee.

Strength FOR THE DAY

BY EARL L. DODDLAG

LIBERALISM & CONSERVATISM
The windshield and the driving
mirror—one to see the road ahead
the other to keep checked up on
the condition of things in the rear. They
are both necessary for safe and
satisfactory driving. Without the
windshield, progress would be im-
possible. Without the driving mirror
collision, at some time or other
would be inevitable.

Some people subscribe only to
the windshield philosophy of life.
They are interested only in the road
ahead, in what they call progress.
There are others who are interested
only in the road behind. These are
the reactionaries who, in every field
of human activity, want everybody
to think and do as their forefathers
did. The radicals want to forge
ahead and pay no attention to the
experience of the past. The ultra-
conservatives want to maintain the
status quo, and to do this by relat-
ing everything to what has been
done by those long since dead.

Like most problems, the statement
of it practically indicates the solu-
tion. Neither the extreme progres-
sive nor the extreme conservative
is a safe guide for society at large
to follow. The road ahead is of
course the most important, so the
progressive has much on his side
when he maintains that the attain-
ing of forward objectives is the most
important quest in life. But he must
be careful—as he turns to the right
or left or has to slow down suddenly
—lest the accumulated mass of past
experience bump into him and put
him and his progressive schemes
in the ditch.

hood of \$1,000,000.
It also pointed out that "the Klan
has signed a contract with a Grif-
fith, Ga., textile mill for robe mate-
rial. The robes are made by mem-
bers of the Klan's auxiliary and
are sold through the Grand Dragon's
office in Jaffa."
The union group also asserted that
the Klan sold jewelry manufactur-
ed under a patented trade name
for prices ranging from \$9 to \$1,500.
As another point, the council
observed the "various Klan posts
have bank accounts of their own."
In conclusion the council at-
tached a list of Klans "known to be
operating as of this date in
Georgia." Five were listed in At-
lanta and environs with the com-
ment that two more probably were
operating in the vicinity.
Others were said by the council
to be operating in Dalton, Port-
erdale, Gainesville, Elberton and
Stone Mountain.

Drive On OPA . . .

(Continued From Page One)
to abolish OPA as soon as Congress
reconvenes next January.
Told of his statement, Taft said
it seemed doubtful to him that the
control agency could be cut off that
quickly unless President Truman ac-
quiesced. But Taft predicted such
a drive would succeed by April, "if
resentment against OPA continues
to pile up."
There is no indication that Mr.
Truman would accede willingly to
abolition of OPA ahead of the pre-
sent June 30, 1947, deadline. In-
voking the original OPA extension
bill and asking for a new one, the
President's No. 1 recommendation
was for a full year's extension.

tance from the Jaffa Bank

Police said they had information
the band had planned to rob the

but their plans went awry.
Avid Douglas Duncan, photogra-
pher for Life Magazine, was stand-
ing in a crowd of civilians on the
corner near the bank in Jaffa when
a passing automobile opened fire
with machineguns.
"The man standing right next to

Three Jews were arrested in a building 50 yards from the police station, where a search disclosed a number of small arms.

Six attackers were arrested while being manhandled by a mob of Arabs. Some of them were badly injured by the beatings and two received bullet wounds from police fire.

(An unconfirmed British military report in Jerusalem said 5,000 English Pounds—\$20,000—was taken from the Tel Aviv Bank.)

Wallace . . .

(Continued From Page One)
United States to war unless it set up an independent foreign policy. He urged that we "look abroad and through our own American eyes."

After the speech for comment on the heckling Wallace said: "It was to be expected," adding in explanation, "I was following a straight American line."

In his speech Wallace said: "But whether we like it or not the Russians will try to socialize their sphere of influence just as we try to democratize our sphere of influence."

"Russian ideas of social-economic justice are going to govern nearly a third of the world. Our ideas of free enterprise democracy will govern much of the rest. The two ideas will endeavor to prove which can deliver the most satisfaction to the common man in their respective areas of political dominance."

"But by mutual agreement, this competition should be put on a

friendly basis and the Russian should stop conniving against us in certain areas of the world just as we should stop scheming against them in other parts of the world."

New Wage Ruling . . .

(Continued From Page One)

But a number of those companies were operating for the government ships owned by the government. If those raises went into effect on the government ships, it would cost the government money.

So, under rule No. 3, outlined above, the wage board was asked to approve the wage increases. But the board ruled that those raises were too much, that on both coasts the men should get only \$17.50 a month more.

The reason for this ruling was that last June the board had allowed shipowners to give the seamen of the CIO's National Maritime Union—rival of the two AFL unions—an increase of only \$17.50 a month.

Thus limited by the board to no more than the \$17.50 allowed the CIO seamen, the two AFL unions struck. They said the owners had agreed to give them \$22.50 and \$27.50, and they wanted it.

The wage board refused to budge. The strike went on. So President Truman turned the problem over to John R. Steelman, his stabilization director. He can change the wage rules.

Steelman changed rule No. 3 a bit, just enough for the seamen to

get their wage increase without any say-so by the wage board at all. He did it this way:
From now on, he said, the government can pay wages as high as those given by private employers in the same industry if the private employers don't try to use the higher wages as an excuse for boosting prices.
And this could be done without taking the case to the wage board at all.
Since in the striking seamen's case a number of the private shipowners were willing to raise wages without trying to raise freight rates they were free to go ahead and raise them without wage board approval.
And for that reason, under Steelman's new rule, the government could give the same kind of raises on its ships.
In none of those raises—unless the private shipowners wanted higher freight rates as a result of the higher wages—would the Wage Stabilization Board have any authority.
The Steelman ruling made it possible the maritime strike by bypassing the wage board which won't have to reverse the ruling it had made in the maritime strike. That ruling no longer counts.
This Steelman ruling won't affect many people, except the seamen and, perhaps, shipyard workers if some are in government yards and some in private yards, and the latter get a raise.

Iron Diplomacy . . .

(Continued From Page One)
When you ask a European Communist why Russia, in spite of all her peaceful protestations, uses her army as a diplomatic weapon, with all the danger that such a policy involves, he will reply:
"Britain and America use money. We don't have the money. We have

men. We used the Red Army." American observers who met and cooperated with the Red Army in Europe, who have surveyed Russia's war-devastated areas and who are familiar with the Soviet economic situation, say it will take years of industrialization and rehabilitation to put Russia in a position to conduct another important war.
When we consider the Balkans in this light, and with the reminder

that foreign policies for all these states except Greece are unified under the Kremlin, the situation becomes clearer.
No country in Europe could conduct a military campaign of any importance now without the direct support of Russia or of the Western Allies. There is every evidence that any of them which might wish to do so—and few of them can even make a public wish without prompt-

ing from outside—will be restrained whatever emphasis they may give. It is a time when troops are being in a war of nerves, but not yet a banded about along with words, for time of showdown.

N. Y. Stock Market

New York, Sept. 13—(AP)—Selected steels, motors, rubbers and industrial special stocks today led the market on a relatively slow-going recovery jaunt with dealings the smallest of the week. From the start the direction was upward although the ticker tape frequently loafed. Gains generally ranged from fractions to 3 points with a few "thin" issues adding 4 to 12 on meager transactions. While extreme advances were shaded in a number of instances at the close, assorted favorites ended at the day's best. The pace quickened a bit in the final hour. Volume of around 1,700,000 shares compared with 1,990,000 the day before.

Frances Perkins On Civil Service Post

Washington, Sept. 13—(AP)—Frances Perkins is bringing her three-cornered hat back to the Washington scene—this time as a member of the Civil Service Commission. President Truman announced at his news conference yesterday that the former Secretary of Labor will

succeed Mrs. Lucille Foster McMillin on the commission.

Miss Perkins resigned from the cabinet June 30, 1945.

Sharp Criticism Of Soviet Moves

Vienna, Sept. 13—(AP)—Sharp criticism of alleged Soviet efforts to hamper the Austrian government, enlarge the Russian power of veto and cramp transportation by withholding petroleum products is contained in a monthly report on the Austrian occupation released today by Gen. Mark W. Clark's headquarters.

Clark is now in Washington for conferences with war and state department officials.

"Especially important during August," the report said, "were efforts

nothing about which to worry. "Wait until you see the young fellow we have coming out of the army," was the word around the Cards' office. That fellow being Garagiola, a dark-haired Peasmo from the "Hill" district of St. Louis. It was the opening game of the "series-of-the-year" at Ebbets Field yesterday and the Cards had lost the day before in Philadelphia, shaving their slim league lead to 1-2 games.

Leo Durocher had primed Kirby Higbe, his ace for the occasion and his pitching staff had run up a scoreless string of 28 innings, through that thrilling 9-0 battle over 19 innings with the Reds.

Higbe had come home from the wars, singing the praises of this kid catcher the Cardinals owned, and Coach Chuck Dresen of the Dodgers also was high on the youngster. He made them sorry they ever heard of him yesterday.

Two runs were across in the first inning and the Cardinals were on a batting rampage but Higbe still had a chance to get out of the inning without losing his shirt until Garagiola came to bat. With runners on first and third, the rookie hammered a Higbe pitch to the top of the screen in right field, near the score board. The ball took one big hop in the air and fell outside the park on Bedford Avenue for a three-run homer.

Johnny Feun To Manage Yankees

Detroit, Sept. 13—(AP)—Stanley (Bucky) Harris said today that Bill Dickey has left the New York Yankees baseball team and that his managerial duties will be taken over for the remainder of the season by Johnny Feun, veteran coach.

Harris said President Larry MacPhail directed the change less than 24 hours after Dickey announced that he did not intend to manage the Yankees after this season.

Dickey has left the team and will probably return to New York City, Harris added.

Harris joined the New York squad Thursday after he was appointed to a front office job on the Yankee team.

Bears Favored Over Philadelphia Eagles

Philadelphia, Sept. 13—(AP)—The Chicago Bears, with two exhibition victories already tucked under their National Pro-Football League belts this season, were the pre-game favorites of the experts in tonight's clash with the Philadelphia Eagles on the Municipal Stadium gridiron.

Officials of the ninth annual exhibition classic sponsored by the Inquirer charities predicted a turnout of 90,000 fans for the first major attraction of the football season here.

Although the Bears defeated the New York Giants 19 to 0 and the Boston Eagles 24 to 17 in pre-season games, Eagles' Coach Earl (Greasy) Neale was confident his National League charges would nip the Bears' winning streak.

The American delegate on the commission said only that he was not prepared to give a precise answer to Molotov's question at this time.

James C. Dunn, U. S. ambassador to Rome and the chief American delegate on the commission, said only that the U. S. plan called for the United Nations Security Council to name the governor of the free city of Trieste and that the governor would be its representative in administering the area.

The debate was begun at the insistence of Slav group delegates who contend that full argument on the question should precede the work of an eight-nation sub-commission appointed two days ago to draft the statute for Trieste on which the Big Four and their deputies have been unable to agree.
