Free Discussions In U. N. At Stake

Right Of United Nations General Assembly To Discuss Small Nation Proposals Key Conflict Between U. S. And Soviet; Big Powers Agreed On Keeping Veto Powers

By JOHN M. HIGHTOWER
New York, Oct. 24.—(AP)—A clash appeared to be developing today between the United States and Russia over the right of the United Nations General Assembly to discuss small nation proposals for ending the big power veto in the security council.

The American delegation, in a meeting today under the leadership of Chief Delegate Warren Austin, decided that it would insist upon the full right of the assembly to discuss this and two other issues listed on a provisional agenda now before the assembly's steering committee.

This means that the United States is preparing to argue for full discussion of a proposal which it intends in the end to be against. The delegation favors rejecting all efforts to eliminate the great power veto, and in this respect is lined up with Russia. But it intends to try to restrict use of the veto and on that point likely will be in disagreement with Russia.

The steering committee, American informants said, is expected to meet late today or tomorrow to go over the list of 53 main items of assembly business which are supposed to come up once for general debate, beginning today, is ended early next week.

In an informal meeting of the steering committee two days ago, Russian Deputy Foreign Minister Andrei Vishinskiy indicated that American informants said he did not make it final—that Russia would oppose assembly discussions of:

1. Australian and Cuban proposals for ending the veto voting system by amending the charter.
2. A South African proposal for annexing the mandate of southwest Africa. (The U. S. may or may not favor this project, but thinks it should be discussed.)
3. A Canadian plan for limiting assembly debate to ten minutes per speaker and otherwise speeding up procedure. The U. S. is reported to oppose the plan, but feels it should be permitted to come up in the meeting.

The Russian desire to block discussion of these items was described by American officials as entirely logical from the Russian viewpoint. Mr. Truman disclosed the main (Continued on Page Four)

Saturday Will Be Last Day Register

Next Saturday is the last day on which citizens may register to participate in the General Election on Tuesday, November 6. The registrars will be at the usual voting places Saturday from 9 o'clock until sunset.

The following Saturday, November 2, will be challenge day. The registrars will be at the polls to hear challenges from 9 a. m. until 3 p. m.

Those desiring to participate in the general election may see the registrars at their homes and register any day until next Saturday at sunset. J. Henry Harrel, chairman of the Pitt County Board of Elections, said:

"The Business and Professional Women's Club of Greenville is actively engaged in persuading more women to register and participate in the election, it is understood."

Dollar Diplomacy

Refusal Of U. S. To Lend Money To "Unfriendly" Nations May Have Bad Effect In Turning Central Europe To Russia; Red Sphere Said Self-Sufficient

By J. M. ROBERTS, JR.

Recent indications that the United States was preparing to consider friendly nations first in distributing relief and rehabilitation supplies when UNRRA ends now has been followed with a definite refusal to lend money where it may be used against us.

However, the United States will overlay its hand if it values the effect of loan restrictions for more than they are worth. Hitler's bankrupt Germany, which many felt would "never be able to finance a long war," dashed forever and a day the idea that orderly financing is always necessary within a totalitarian sphere. Probably no area in the world could do quite so well, if completely isolated from world commerce, as that which the Russians now control.

As a matter of fact, reports from Washington that the new policy first enunciated in the case of

ARMED FORCES CUT BUDGETS FOR ECONOMY

Army And Navy Slash Spending Plans To Meet President's Goals

Washington, Oct. 24.—(AP)—The Army and Navy today pressed toward a \$1,650,000,000 economy goal set by President Truman.

But federal spending for civilian public works appears headed at least \$100,000,000 over the established \$950,000,000 limit.

This prospect is underscored by a new administration decision to provide an extra \$25,000,000 for reclamation projects.

On the economy side: The War Department, under orders from Mr. Truman to pare its budget \$1,000,000,000, disclosed plans for a "substantial" cut in the number of peacetime Army camps and other posts.

And the Navy reported that economies it already has ordered will save more than \$600,000,000.

In his budget message August 3, Mr. Truman instructed the Navy to trim its \$5,800,000,000 budget by at least \$650,000,000. He told the Army then to hold its spending to \$6,000,000,000.

In the case of both services, the revised limits do not include expenditures for terminal leave pay.

Even while the War Department was unveiling its economy plans, officials reported that the Army is running steadily into budget trouble and governing occupied European areas, Japan and Korea.

They predicted privately that Congress probably will be asked to increase the \$425,000,000 appropriated for this program.

Outlays thus far, it was said, have tended to bear out the Army's original estimate that occupation costs would run \$750,000,000 this fiscal year.

The Navy withheld specific information on its economy program, but indicated it expects a big saving through deferring construction work on new bases.

In authorizing the Interior Department to spend an additional \$25,000,000 on dams, irrigation and land reclamation projects, Budget Director James E. Webb said last night that he and Reconversion Director John R. Steelman had decided this was justified. It brought the (Continued on Page Four)

Attlee Attacks Reds' Viewpoint

Brighton, England, Oct. 24.—(AP)—Prime Minister Attlee assailed today what he said was the Soviet viewpoint that all opponents of Communism are fascists.

"If anywhere the Communists fall," he told the Trade Union Congress annual conference, "then however fair the conditions, it is regarded as fascism."

"Thus, an election in Greece supervised internationally, which results in an anti-Communist majority, is at once denounced."

"On the other hand a plebiscite taken where the Communist party is in power is regarded as the sacred vote of the people."

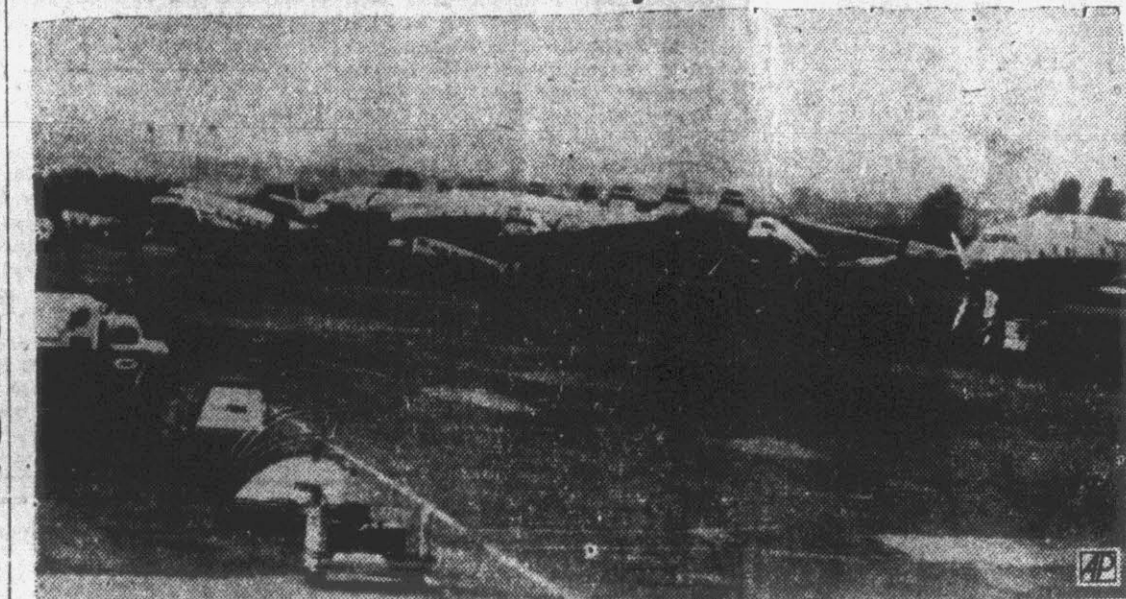

The prime minister said that to Communists "freedom means the denial of liberty to all those who refuse to accept the Communist philosophy."

Czechoslovakia, might apply to a proposed \$1,000,000,000 loan for Russia probably were received in Moscow with a shrug. They have been in a far from begging attitude.

Word traveled back and forth between Washington and Moscow through unofficial channels a long time ago that the United States might arrange a rehabilitation loan and that the Russians might use \$600,000,000 principally to buy equipment in the U. S. That would have been nice for American industry when the shortages are over and might have resulted in some side deals regarding commerce in the Russian sphere, where the Moscow game of freeze-out has been bothering those who look ahead to the time when America will be exporting again, and who feel that trade barriers contribute to international enmity.

TWA Planes Grounded By Strike Of Pilots

Three giant Lockheed Constellations and two smaller DC-3 passenger planes of Trans-World Airlines stand on the ramp before the TWA maintenance shops at Kansas City, Mo., grounded by the strike of Airline Pilots Association (AFL). About 35 planes were on the ground at Fairfay Airport and at the Kansas City Municipal Air Terminal, hub of the TWA system. (AP Wirephoto).

'MOM' HORNE ON THE JOB

Servicemen's Home Popular Place; Provides Good Cheer

By CHESTER WALSH

Mrs. John Horne ("Mom"), as she is affectionately known to thousands of "servicemen," is still looking after "my boys" in the armed forces, but with limited facilities at the Servicemen's Home, Fifth and Pitt streets. It may appropriately be said of her that she is "the woman who lives in the house by the side of the road and is a friend to man."

Under sponsorship of the Salvation Army, "Mom" Horne has provided a home-like atmosphere for servicemen who visited Greenville. She has been (and is now) a mother to many of them—listening to their troubles, mending their clothes, wisely advising them for their own good, and otherwise making life pleasant for them.

One thing that is worrying Mrs. Horne now is that she does not have room for all of the servicemen who go there, and she does not have any refreshments for those who drop in to spend the night or weekend. During the war many Greenville people sent her all kinds of fruit, candy and nuts and other tempting foods to complete the cheerful home atmosphere of the Servicemen's Home.

At this time there are 36 ETO students living at the Servicemen's Home, and she looks after them as a nice way. She could pack the servicemen into rooms, but the college boys must have plenty of room for their clothing and to study.

One hundred and fifty-seven servicemen were at the Servicemen's Home last week and 67 were there Saturday night. Mrs. Horne had them sleeping in the kitchen and dining room, too. She has given up her apartment and only has for herself sleeping quarters. But the Good Samaritan said the Servicemen must be looked after and she is asking Greenville people to contribute fruits and other "goodies" to pass around.

Incidentally, Mrs. Horne has innumerable requests daily for rooms, but she cannot provide them. The Servicemen's Home is for servicemen and college boys. She cannot rent rooms to others.

Baby Pianist Solos With Full Orchestra

Washington, Oct. 24.—(AP)—When a six-year-old pianist solos brilliantly with a full-fledged Mozart orchestra, Maestro Michel Piateiro declared today, "It's nothing short of a miracle."

But little Doris Webster of Fredericksburg, Va., just said "It's fun" along with dolls, toy guns, going to school and playing cowboy.

The curly haired prodigy completed Mozart's concerto in a major before more than 2,000 amazed Washingtonians last night, then deftly gave them Chopin's Minuet waltz and a nocturne.

It was her second major appearance on a concert stage since she began her formal music studies at the age of four. She modestly asked Piateiro to "tell the men" her performance with the Chamber Music Guild orchestra of Washington was the "first time I've ever played with an orchestra."

Kings Daughters Share In Community Chest

By MRS. AUBREY SHACKELL

President Kings Daughters

The Patient Circle of the Kings Daughters and Sons is one of the agencies that benefits from the Community Chest fund of Greenville.

The Kings Daughters' work is doing things for others. It is interdenominational, which means that it is made up of women of all faiths.

The Kings Daughters was organized in 1888 in New York City by ten women in a fashionable girl's school. Now in 1946 there is a branch in every country in the world except Tibet, with a membership of more than 10,000 members.

The North Carolina Branch has two Ladies' homes at the present time. The Sheltering Home in Durham and St. Luke's Home in Raleigh, with another one under construction in Rocky Mount. Our state work for the last ten years has been to build a chapel at the Stowell Jackson Training School at Concord. One chapel was built there twenty years ago by the Kings Daughters, but has been abandoned because of its inadequate room.

The Patient Circle of Greenville was organized in 1889. It was started in the Episcopal Church of Greenville.

During the past year many different calls have been made on the

Open House

Open house, at which Dr. Dennis H. Cooke, president of East Carolina Teachers College, Mrs. Cooke, and new members of the staff will be honor guests is to be held on Sunday afternoon, October 27, in the reception rooms of the New Classroom Building on the campus.

Friends of the college are cordially invited to attend. No invitations will be issued except through the press.

Guests are asked to call at the New Classroom Building between the hours of three and five to meet Mr. and Mrs. Cooke and new members of the faculty and their families.

Members of the college staff are eager that the people of Greenville should meet new members of the East Carolina Teachers College community.

EXPECT EARLY END FOR OPA

Officials Predict Congress May Knock Out OPA In January

Washington, Oct. 24.—(AP)—Congress may kill OPA in January, some high administration officials predicted today.

But they added that by then only a slim list of very scarce, badly needed items in addition to rent will remain under ceilings.

As if to emphasize this forecast, OPA snatched its price tags from cosmetics and a long list of non-food products today in a quick followup to last night's sweeping food and beverage decontrol.

Together the two actions swept overboard another big segment of wage control because the government applies its price curbs only when higher price ceilings are involved.

Statisticians said that in the case of food and restaurant industries alone, some 1,500,000 workers were cut loose from wage control.

On the food list, only sugar, syrups and rice remain under OPA. Frankly acknowledging that there is widespread belief in the government that Congress will come back primed to knock out OPA quickly and finally, one ranking official said privately the policy between now and year's end will be to get rid of ceilings rapidly but in order. (Continued on Page Six)

Blue Mold Control Bulletin Is Ready

College Station, Raleigh, Oct. 24.—Complete information on improved methods for producing an abundance of better tobacco plants, even under blue mold conditions, has just been released in a new publication by the State College Extension Service.

The new circular is divided into four parts and combines suggestions by the departments of agronomy, plant pathology, and entomology.

Growers interested in this new publication, Circular No. 293, may obtain a free copy by writing the Agricultural Editor, State College Raleigh.

Refugees May Be Permitted Entry

Washington, Oct. 24.—(AP)—Attorney General Tom Clark today ordered a temporary stay for 18 Estonians who had been ordered to leave Miami today.

Clark directed the Immigration Service to try to arrange admission for the group to some country in this hemisphere, a Justice Department spokesman told reporters.

The Estonians sailed in a fishing sloop from Sweden to Miami. They claimed to be political refugees.

The Department ordered them excluded last week for lack of immigration visas.

The spokesman did not say whether the postponement was granted in connection with arrangements, pending in Miami, for the group to go to the Dominican Republic.

PILOTS AGREE TO MEDIATION

Gov't Steps Into TWA Strike Picture; Outlook Brighter

Washington, Oct. 24.—(AP)—The government stepped into the three-day-old strike of 1,400 Trans World Airline pilots today, with both sides accepting a federal mediation offer after 15,000 additional company employees were thrown out of work.

Frank Douglass, chairman of the National Mediation Board, called opposing leaders in the dispute to his office today.

The speed with which both parties responded to Douglass' invitation rekindled dwindling hope for an early settlement of the walkout which has grounded 115 planes, tied up 28,000 miles of routes extending from California to Arabia and paralyzed a \$150,000 daily payroll.

David L. Behncke, president of the AFL Air Line Pilots Association, and Jack Frye, president of TWA, agreed to the meeting.

The pay issues in the dispute—confusing enough with such items as base pay, hourly pay, mileage pay, differentials for day and night flying, and extra pay for flying international routes—have been further complicated by the fact that the company and the union use different working periods in computing them.

In his 30-hour ultimatum to Frye Saturday, Behncke said the union wanted a top figure of \$1,096.98 a month (\$13,163.76 a year) for a Douglas DC-4 Skymaster pilot flying. (Continued on Page Six)

REVERSAL OF NLRB RULING

Court Upholds Right Of Firm To Give Views To Employees

St. Louis, Oct. 24.—(AP)—In an unanimous decision quashing a directive of the National Labor Relations Board, the U. S. Circuit Court of Appeals yesterday upheld the right of Montgomery Ward & Co., Inc., of Kansas City, Mo., to present its views to employees on the question of a scheduled NLRB collective bargaining election in January, 1947.

"The right of free speech guaranteed by the constitution is not limited to any class and is not denied to an employer, the court ruled, declaring that an employer is 'not required to stand mute' because of the National Labor Relations Act and that he has the right to defend himself and maintain his employees' loyalty."

The ruling exonerated the company of anti-union motives in its release of six employees and refused to order the company to comply with an NLRB directive to re-hire them.

The free speech issue involved a talk by James A. Barr, Labor Relations manager for Ward's, several days before an NLRB election to select a bargaining agent.

A union-organizing publication circulated among employees had termed working conditions "rotten" and described Sewell Avery, corporation head, as "fascist minded."

"We think they furnish a setting which indicates that Montgomery-Ward was meeting and joining an issue before its own employees with those who were assailing it," the opinion said.

In the election, the 1,876 mail order employees chose to be represented by no union; 205 retail store employees chose the union. (Continued on Page Four)

Sugar Shortage

An Analysis Of Why Shortage Exists, How Long It Is Expected To Last, And Who Is Affected; May Be Several Years Before World Supply Improves

By JAMES MARLOW

Washington, Oct. 24.—(AP)—Why the acute sugar shortage? How long will it last? When will everyone get more sugar?

Here are answers. They come from the government's Agriculture Department.

The shortage is acute in the eastern states only. The reason: the maritime strike.

Those eastern states depend almost entirely upon sugar brought into this country from Cuba and Puerto Rico.

Ships loaded with about 60,000,000 pounds of sugar from those two countries are strike-bound in eastern harbors.

When they can be unloaded—and the steady flow of sugar is resumed—the acute shortage will end.

That is, just the acute shortage will end. There is a national shortage, but it is not so severe elsewhere as in the east now. Why?

RUSSIAN HAND OVER BALKANS BRINGS ACTION

Bulgaria's Compliance With Soviet Orders Barrier To Recognition

Washington, Oct. 24.—(AP)—Bulgaria's swift compliance with Kremlin inspired censorship order plummeted that nation's chances today for speedy American diplomatic recognition.

The suppressive action that brought a new outcry from this government also:

1. Placed fresh emphasis on an apparently developing Russian policy to slam the door against what Moscow regards as "interference" in the Balkans by the Western powers.
2. Underscored anew the ideological differences between Russia and the Western Allies which are at the root of many of the problems now confronting the United Nations General Assembly in New York.

The State Department bluntly accused Russia yesterday of forcing the Sofia government to suppress an American protest against its failure to provide guarantees for a free Bulgarian election next Sunday.

The Department charged that Col. Gen. Sergei Biryusov, Soviet member of the three-power allied control commission, had issued flat instructions to block publication of the protest in the Bulgarian press.

Hence this government promptly put out its shortwave radio—"The Voice of America"—a message to the Bulgarian people informing them in their own language both of the protest and the Russian-imposed censorship.

Angry, the State Department asserted that the suppression constituted a "direct contradiction" of Bulgarian Prime Minister Kimon Georgiev's statement that freedom of the press there "is fully assured."

U. N. POLICING FORCE PUSHED

International Military Contingent Slow In Forming

New York, Oct. 24.—(AP)—President Truman's reference to the failure of the United Nations thus far to reach agreements over setting up global military contingents was viewed today as the forerunner to increased United States pressure for drafting such pacts, with the moves apparently aimed principally at the Soviet Union.

What form this pressure would take remained to be seen, but the United States has a direct hand through membership on the military staff committee, the arm of the Security Council charged with providing an international force to maintain peace and security. Other members are Russia, France, China and Great Britain.

"We shall press for preparations of agreements in order that the Security Council may have at its disposal peace forces adequate to prevent acts of aggression," the President told the assembly yesterday.

In its present state, the United Nations has no military force ready to snuff out acts of aggression.

On the basis of information available from the highly secret committee, it appears that Russia has been largely responsible for the delays so far.

(Continued on Page Six)

Churchill Files Libel Suit Against Author

London, Oct. 24.—(AP)—Winston Churchill sued Harper Brothers, New York and London publishers, and Author Louis Adamic today for libel, seeking damages for passages in Adamic's book "Dinner at the White House."

The suit also sought an injunction banning further publication and sale of the book, which was written around a White House dinner table conversation among President Roosevelt, Churchill, Adamic and other guests.

The libel writ listed no specific amount of damages, which in England are determined by a jury if it decides in favor of a plaintiff. The writ will be tried in the high court, at a date which the court will set later.

President Leaves Mine Walkout Threat To Secretary Of Interior; Krug Expresses Doubt Mines Will Shut Down On November 1; Marine Engineers Reach Agreement

By ASSOCIATED PRESS

President Truman today left the threat of a new nationwide soft coal strike up to Secretary of the Interior Krug.

The chief executive declined to discuss at his news conference John L. Lewis' ultimatum that the government reopen its wage contract with the United Mine Workers before Nov. 1.

New York members of the CIO Marine Engineers Beneficial Association voted 1,549 to 93 to accept an agreement union representatives reached earlier with east and gulf coast shipowners for ending the Maritime strike in those ports. Union members in other eastern and gulf ports also were voting on the question of ratification of the agreement.

Secretary of Interior J. A. Krug has expressed doubt that the mines will shut down on Nov. 1 as Lewis, president of the Mine Workers Union, has intimated

Social and Personal

Mrs. R. C. Deal is quite sick at her home on East Eighth Street.

Mr. and Mrs. S. B. Underwood, Jr., left this morning for Raleigh, where Mr. Underwood will attend a special meeting of the North Carolina Bar Association today and the annual meeting of the North Carolina State Bar on Friday.

Miss Ann Smith, who is attending R. P. L. William and Mary extension, in Richmond, spent the week-end with her mother Mrs. Ivey Smith, near Greenville.

Miss Ann White is sick at her home on East Fifth Street.

Mrs. J. R. Carrington, who has been a patient in Duke hospital for the past week, returned home last night.

Masonic Meeting
Greenville Lodge No. 284, A. F. and A. M., will hold a special communication for work in the second degree Friday night at 7:30. If fellowcraft and Master Masons are invited. N. R. Joyner, secretary.

Party at Methodist Church
There will be a party for the Junior department of the Methodist Sunday school from 7 until 9 o'clock on Friday night at the church.

banked with ivy and centered with a miniature bride and groom. Burning tapers were used at the ends of the mantel.

Games and contests were played and prizes were awarded the winners.

The hostesses presented Mrs. Alexander a corsage of pink carnations and gifts of china in her chosen pattern. Mrs. Walter R. Whitehurst, recent bride, was also remembered with a gift.

Punch, sandwiches, hors d'oeuvres, cookies, mints and puts were served after which Masters Ormand Whichard and Buster Adkins presented the honorees with a wagon loaded with lovely and useful gifts from the guests.

Well Known Man Died Suddenly

Elias (Zane) Nobles, 68, died suddenly at Herman Avery's store near his home at Nobles town, near Winterville this morning about 8:45 after suffering a heart attack. He had been in ill health the past six years.

Funeral services will be conducted at the home Friday afternoon at 4 o'clock. The Rev. R. N. Hinnant of Micro, pastor of the Piney Grove Free Will Baptist Church, will officiate. Burial will be in the Nobles family cemetery nearby. The Ayden Masonic Lodge will have charge of the services at the grave.

Mr. Nobles was first married to Miss Dora Phillips of Greene County. She died in 1920. Surviving this marriage are two sons, Jasper Nobles of near Farmville, and William Nobles of the home, and a daughter, Mrs. Lonnie Hathaway of Greenville. Mr. Nobles was married to Miss Allie Barnhill of Pitt County in 1923, who survives him. Surviving this union are two sons, Jamie and Harold Nobles of the home, and a daughter, Miss Margie Nobles of the home; three grandchildren; three sisters, Mrs. Louis Speight, Mrs. Oscar Speight and Mrs. Herman Avery, all of near Winterville.

Mr. Nobles was a member of one of Pitt County's oldest families. He spent all of his life in the Winterville community. He took an active part in community affairs and was well known. He was a member of

The seals, bonds and other supplies have been received at the Pitt County Health Department Offices. Mrs. C. C. Risk, Jr., is General Seal Sale Clerk with offices in the Health Dept. Phone 3225 and 4209.

Homemaking Taught Ten By Experience

Living in the Home Management House of the department of home economics at East Carolina Teachers College are ten women students, who are learning there at first hand the details of homemaking. Among them is Nellie Ruth Crawford of Route 2, Greenville.

Mrs. Adelaide E. Bloxton, chairman of the home economics department, is advisor and lives with the students. Meal planning, shopping, budgeting, cooking, cleaning, entertaining—all the varied activities of the home—keep the students busy and provide practical experience under expert direction.

Club Hears Talk On GI Education

With approximately 100 members present on Tuesday evening, October 22, for the first meeting of the 1946-1947 term, the International Relations Club of East Carolina Teachers College had as speaker Dr. Elmer R. Browning of the college faculty. Experiences and impressions of a year's work in American GI universities at Shrinham, England, and Biarritz, France, were presented by Dr. Browning, who taught accounting there during 1945-1946.

"One main thing about American democracy stands out in my mind," stated Dr. Browning in comparing systems of education in Europe and the United States, "it is founded on freedom in education." The education of the masses, he said, in state supported schools in which there is freedom of instruction promotes progress in a country. European countries, he added, must accept this idea and act upon it before they can hope to equal the United States.

Institutions of higher learning in Europe, Dr. Browning observed, were more thorough and efficient in instruction, but more limited in curriculum and in activities for students than ours.

Dr. Browning presented a number

MANY NEVER SUSPECT CAUSE OF BACKACHES

This Old Treatment Often Brings Happy Relief

Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 5 pints a day. When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 40 years. Doan's give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Get Welcome Relief From Stomach Gas, Sour Food Taste

Do you feel bloated and miserable after every meal? If so, here is how you may rid yourself of this nervous distress. Thousands have found it the way to be well, cheerful and happy again.

Everytime food enters the stomach a vital gastric juice must flow normally to break-up certain food particles, else the food may ferment. Sour food, acid indigestion and gas frequently cause a morbid, touchy, fretful, nervous condition, loss of appetite, indigestion, restless sleep, etc.

To get real relief you must increase the flow of this vital gastric juice. Medical authorities in independent laboratory tests on human stomachs have by positive proof shown that SSS Tonic is amazingly effective in increasing this flow when it is too thin, scanty due to a non-organic stomach disturbance. This is due to the SSS Tonic formula which contains several potent activating ingredients.

Also, SSS Tonic helps build-up non-organic, weak, watery blood in nutritional anemia—so with a good flow of this gastric digestive juice, plus rich red blood you would eat better, sleep better, feel better, work better, play better.

Avoid punishing yourself with over-doses of soap and other laxatives to counteract gas and bloating. Then what you so dearly need is SSS Tonic to help you digest food for body strength and repair. Don't wait! Get the best of happy people SSS Tonic. It's helped millions of bottles. Get a bottle of SSS Tonic from your drug store today. SSS Tonic helps Build Strong Health.

EASY WAY!**

Prepare delicious, tasty desserts with a minimum of time and trouble.

Helen Ann Fruit-Nut Mix contains glucose chopped fruits, pecan and almond meats, spices, mixed for dinner-time magic. Add ordinary cake batter and you'll have a delicious fruit cake. Use it for toppings, fillings, puddings, ice box desserts, fondant rolls, nut and fruit bars.

TONIGHT'S TASTE TIP:
Mix generous quantities of Helen Ann Fruit-Nut Mix with Jell-O. Stir thoroughly. Chill. Serve.

**Helen Ann
FRUIT-NUT MIX**

of interesting facts and statistics in describing the American GI student abroad. English composition was the subject most in demand, he said. Of the students attending the army universities, 5 percent were from farms and 47 percent from large cities; 79 percent held the rank of Sgt. T-4 or less; 54 percent had been out of school three years or more; 74 percent were men recently in combat; the average age was 24.

Mrs. Nell O. Barnhill of Greenville presided. Jeanne Moore of Turkey was elected secretary. Ozzie Pipkin of Murfreesboro introduced Dr. Browning.

Third Street School News

Editorial on Safety First

"Safety First" should be a slogan for everyone in the home, at work, or on the streets. Hundreds of accidents come from careless driving such as driving while drunk or driving through red lights.

Another major cause of accidents is carelessness in the home, such as leaving things on the stairs or putting things in reach of a young child.

Another thing is carelessness at work. For instance, if you work in a factory, don't wear your tie and roll up your sleeves for flying sparks may catch on to these things. Don't throw cigarettes in the waste paper basket for they may catch on fire.

So you see most of our accidents are due to carelessness. The best way to make life safer is to take up the slogan, "Safety First." But not only take up the slogan but live by it for the rest of your life.

—Sam Hux.

Safety in the Home

Many people are killed in home accidents, the cause of which is either neglect or carelessness. A proof of this is given in your daily newspapers in which you will find almost every day an account of someone losing his life in a home accident.

Many accidents are caused by gas fumes coming from leaking pipes, jets not properly closed and faulty equipment.

Electricity is fast and modern but it also causes many accidents. Faulty wiring, neglect in turning off current, handling light plugs with wet hands, and using a penny when a fuse is blown are some of the causes of accidents.

Fires are largely caused by the careless use of cigarettes and matches. Often people go out and leave cigarettes burning only to return and find no home. Other causes are smoking in bed and leaving matches where young children and rats can reach them. Overheated stoves and faulty chimneys also cause many fires.

Many lives are lost because of ignorance in the use of medicine, such as using medicine without a doctor's prescription, taking medicine in the dark, leaving it in reach of children and taking an overdose.

Other accidents in the home are caused by faulty floors, steps and furniture.

The causes of these accidents in the home can be prevented by checking carefully all the causes of home accidents.—Edwina McMullan

Teacher For a Day

Last week the seventh grade decided to have a pupil for a teacher on the coming Tuesday. The grade voted and Glenn Scott was elected.

Glenn and two girls planned the program. For the devotional Marty Hadley read the 121st Psalm from the Bible. Jake Higgs then read a poem, "Knee-Deep in June" by James Whitcomb Riley. Three chapters from Silas Marner were read aloud by Edwina McMullan. Arithmetic, reading and geography were a few of the subjects Glenn taught. Jake Higgs conducted the English lesson.

The room was very orderly and everyone enjoyed having Glenn for a teacher.—Frances Estelle Greene.

Chief Tanner

Chief Tanner has been coming to Third Street School a lot in the last two or three weeks.

You may wonder. Have any of the children done anything wrong? No, this is not why he comes. He has been coming to help the children get up a minstrel for the Halloween

Festival which is to be held Thursday, October 31st.

Chief Tanner also came Thursday morning along with Dr. Haney to hold chapel. He gave a fine talk on Safety.

The boys and girls are very grateful to Chief Tanner for helping us as he does.—Shirley Owens.

Strength FOR THE DAY
BY EARL L. DOUGLAS

LIVE AND LET LIVE

People of cultivated musical taste often speak in terms of disgust of the so-called gospel hymns. They stamp them as musical monstrosities, utterly unworthy to be used in a religious service of praise.

But the fact remains that many very devout people find these hymns a most satisfactory adjunct to worship. They sing them with enthusiasm and like them. There are many for whom the better type of hymn has but little appeal. Would it not be better if those of us who prefer the established hymns of the Church refrained from criticism and encouraged men to praise God in the way which best suited their needs?

A young man, well trained in music, used to assist in the services of a gospel mission. The hymns which were used galled him no end, and he often wondered if he could stick it out, even though he greatly admired the work which the mission was doing and liked the people. Then he recalled that the man who played the little reed organ each Sunday morning and the tiny piano every Sunday evening, was a musician of the highest order. Certainly he found very little appealing in the so-called "popular hymns" he had to play twice each Sunday.

"That settled me," said the young man. "I decided that if he could put spiritual results first and musical taste second, I could do the same. The important thing was that people were being helped."

Dollar Diplomacy . . .

(Continued From Page One)

The Russians finally wrote a letter inquiring what the terms of such a loan might be if they did ask for it. It amounted to an initial deal of \$1,000,000,000. The letter got shunted aside for many weeks while the State Department was absorbing some of the wartime agencies which dealt with such matters, but finally came to the end and the Russians were told in effect, "Well, we'd like to talk about it, but we feel about that. Why don't we talk about the interest rate?"

It became apparent that the Russians were willing but not so needy as to barter any part of their foreign policy. Instead, they made a deal with Sweden to cover some of their more immediate needs. Presumably, too, Russia will see that her satellites have the machinery and materials with which to work as long as they are producing mostly for her.

The Russians could be regretting the weapon they handed Byrnes at Paris when they questioned America's motives in aiding the small countries. He has made good political use of it. But Russia could also consider a temporary loss of face worthwhile if its end result is to drive the satellites more firmly into her economic arms.

Sugar Shortage . . .

(Continued From Page One)
of the country into zones—for the distribution of beet sugar—but had put restrictions on the shipment of that kind of sugar into the strike-bound east.

An OPA official today said OPA would not lift those restrictions because OPA did not want to be put in the position of being a strike-breaker.

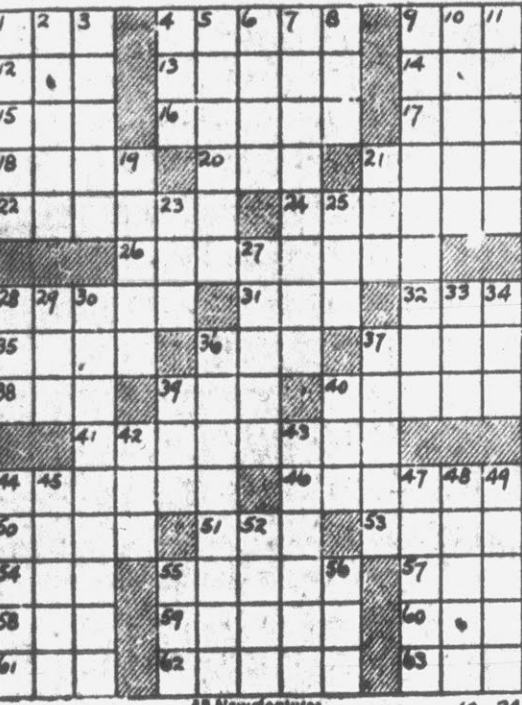

He said labor leaders in the eastern strike would blame the OPA for trying to break the trucking and maritime strikes.
At this time rationing in this country is intended to provide about 35 pounds of table sugar for each person a year. It's expected to stay that way at least until next April. By that date this government will know pretty well how the supplies for 1947 will be. If they're better than in 1946, there may be an increase in the amount of table sugar all of us can get.

But why the national shortage and the rationing? Here's the story of that:

Before the war this country used about 7,000,000 tons of sugar a year. Of that total we grew about

maintenance workers selected an AFL union, and eight engineer workers selected an AFL union. In Washington, Louis Silverberg, NLRB information director, said the decision was similar to other appellate and Supreme Court rulings in the past which held that an employer's speech free of threats was privileged.

"In the St. Louis case, the court undoubtedly differed from the board's interpretation and appraisal of the facts involved," he said.

U. N. Policing . . .

(Continued From Page One)
lines of American policy on the veto issue in his speech. In it the president pledged that the U. S. "to the full limit of its strength" would continue to work for a "just and lasting peace" and urged that the United Nations get on with the tasks of controlling atomic energy, suppressing mass destruction weapons and otherwise creating the conditions of peace.

Senator Connally (D-Calif.), a member of the American delegation, told newsmen the U. S. would continue to favor a discriminate use of the veto power but would oppose its use in inconsequential matters. Russia is known to oppose any change in the voting system also and indicated a desire that it be broadened where possible, rather than curtailed.

WILSON'S WEEKLY Bulletin

By George Rector
Food and Nutrition Consultant to Wilson & Co.

Family fun on Hallowe'en

You'll want to bring the fun of Hallowe'en right into the kitchen—come October 31. Whether it's the family, guests, or "ghosts" you're entertaining that mystic night, it's fun for all. A main dish that will delight the kiddies is sausage patties in acorn squash with Jack O'Lantern faces.

Sausage Patties in Acorn Squash... a la Jack O'Lantern

Cut 3 acorn squashes in halves and remove all seeds and stringy portion. Season with
a dash of salt and fill centers heaping full with
2 lbs. WILSON'S COUNTRY SAUSAGE (½ lb. in each half).

Added Attractions

To complete the festive menu, add escalloped potatoes, glazed carrots with parsley tops, orange gelatin fruit salad molded in the shape of a pumpkin (with a stem of green pepper), and pumpkin tarts.

Gay Decorations

Reflect the party atmosphere in table decorations with colorful paper napkins and black cats, witches, or owls cut from construction paper. Choose a huge pumpkin for the centerpiece, and, instead of cutting out a face, make the features with vegetables fastened on with toothpicks. Give it a carrot nose, cornhusk hair, onion ring eyes, and green bean mouth and eyebrows.

If the "party" includes place cards, an orange or tangerine may be transformed into a witch's head by adding crepe paper hair and a black hat made from construction paper. Sift the orange skin on the side and insert the name card.

Solve Shortages Simply

Save sugar and precious wheat and still be the winner. There's nothing better for dessert than cheese and fruit—a variety of each, please. Wedges of Wilson's Certified Cheese add zest and color to any fruit tray.

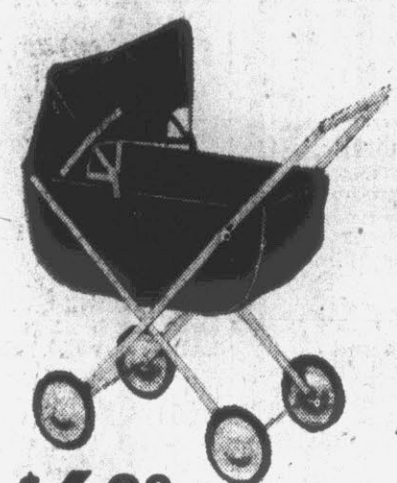

An apple paired with a slice of Certified Cheese is grand for that between-meal snack, too.

And did you ever sprinkle pear halves with grated Certified Cheese and add a dash of Wilson's Mayonnaise? It's inspired.

Yours for helping,
George Rector

THIMBLE THEATER

BLONDIE — By Chic Young

But It Does Take Practice.

Fine Tailbacks Menace Deacons Saturday Tilt

By the Associated Press
The Wake Forest Deacons will be facing two of the finest tailbacks anywhere in the land when they go against the powerful Tennessee eleven in Knoxville Saturday.

Captain Walter Slater and Bob Lund have been right smack in the limelight in keeping the Vols unbeaten through a season in which they've faced Georgia Tech, Duke, Chattanooga and Alabama.

The Demon Deacons probably will have Nick Sacrinty handling most of the tailback work when they tangle with Tennessee for John (Red) Cochran once more has pulled the same leg muscle that has been giving him so much trouble all season. It looks like James (Bud) Lall and Tom Fetzler will be assisting Nick. Tom, after missing every game so far this fall, may be ready to take to the gridiron Saturday.

Today's only Southern Conference contest, which will see Clemson at South Carolina, is rated at just about a toss-up now that the Gamecocks are showing up with multiple injuries. Four regulars who would have meant a lot to the Carolina eleven, ends Bobo Carter and Steve Nowak and tackles Phil and Kale Alexander, will be unable to start.

N. C. State yesterday wound up its rough work in preparation for their trip to Virginia Tech Saturday. It was a spirited scrimmage against a reverse team running VPI plays—plays which, incidentally, proved extremely deceptive as reserves switched from Tech's "T" formation to the single wing.

Coach Carl Snavely of the North Carolina Tar Heels says he "looks for plenty of trouble from Florida" when the Gators arrive for their game Saturday. The Tar Heels will use the air lanes a good part of the time and smoothed out their aerial attack with trying numerous passes in practice scrimmage yesterday.

Now comes word that Tommy Mont, University of Maryland quarterback, stands fourth nationally in the percentage of completed forward passes. Tommy was given a 571 rating by the National Collegiate Athletic Bureau of New York for 28 completed forward passes out of 49 tries. Mont suffered a broken finger in the Virginia Tech game last week, but will be ready to go against William and Mary Nov. 2.

Whirlaway's Colt Is Off To Flying Start

Lexington, Ky., Oct. 24—(AP)—First Whirl, the first son of Whirlaway whose birth out of foaling season drew some uplifted eyebrows among thoroughbred breeding in-

terests, won a race at Keeneland yesterday to give his all-time champion money-winner papa a rousing send off as a potential champion sire.

Unlike the Immortal Whirlly, First Whirl moved to the front early and ran hard to withstand the challenge of favored Matty M. Whirlaway is remember for his great stretch runs.

The Greenville "Midgets" will journey to Goldsboro tonight to battle the Goldsboro Mites in a return game. Greenville and Goldsboro are

now jointly leading the Eastern N. C. Midget football conference; Goldsboro with four wins and one loss; Greenville with three wins and one loss. The Greenville loss came at the hands of the Kinston "Baby Reds" last Friday night.

Greenville defeated the Goldsboro eleven here earlier in the season. 20-6, however, tonight's engagement is expected to have a much closer score.

No more home games are on the Midget schedule at present, but Coach Greene is endeavoring to arrange at least one more engagement in Greenville. This will probably be with a team not in the conference.

Midgets To Play Goldsboro Mites

The Greenville "Midgets" will journey to Goldsboro tonight to battle the Goldsboro Mites in a return game. Greenville and Goldsboro are

FINEST OF THE FAMOUS "SILVER STREAKS"

PONTIAC

When you consider how much more you'll get by waiting for a new Pontiac—you'll agree that here is one case where waiting pays off in handsome dividends.

Pontiac leads its field by such a wide margin because there is no substitute for what it offers. There is no substitute for Pontiac beauty—for Pontiac performance—for Pontiac comfort—or for Pontiac safety and handling ease. And the years of wartime usage proved conclu-

sively that there is no substitute for Pontiac dependability! For reasons beyond our control, which we regret as much as you, production is below what had been anticipated. But improvement is being made—and the wait, from here out, may be shorter than you think. But whatever the time before your Pontiac is ready—wait! When you do get it—you'll have the finest automobile offered at anywhere near the price!

COMPLETE SERVICE OFFERED
While awaiting your new Pontiac, keep your present car running at peak efficiency with proper service and upkeep. Money thus spent may prevent failures at some inconvenient time and will protect your car's trade-in value. Our complete service facilities are offered at reasonable prices.

VFW PLANNING EXPOSITION

**Eastern Carolina
Merchants And
Manufacturers
Goods To Be Dis-
played**

Officials of the local post of Vet-
erans of Foreign Wars stated last
night that the post had gone on

record as sponsoring the first an-
nual Eastern North Carolina Mer-
chants and Manufacturers Expon-
sition in Greenville. The affair will
be held in the New Carolina Ware-
house for one week, commencing
December 2nd, and from all indi-
cations it will prove highly suc-
cessful. It is now planned to have
entries from every town in Eastern
North Carolina and to have a num-
ber of representatives from National
Manufacturing Plants on hand to
advertise their products.

A firm of national decorators has
been engaged to decorate the ware-
house and an outstanding New York
state show has been engaged to
present their performance each
night during the whole week. There
will also be a free dance to all who
wish to attend the affair each night.
Blue print manufacturers have al-
ready made a floor plan of the
building and large blue prints have
been made to enable the merchant
or manufacturer to properly select
his or their booth space in the
building.

The floor show, or stage show
mentioned above, comes to Green-
ville highly recommended as will
the dance band.

From all reports the warehouse
will be transformed into a veritable
fairland, as neither time, money
nor effort has been spared by the
Veterans to make this one of the
many features of the exposition.

Booths will represent every walk
of business life in this section of
the state in the building, and will
run from automobile dealers to all
other businesses who desire repre-
sentation.

It is expected that the exposition
will prove of great value to the
merchants and manufacturers who
participate in same, and that it
will be a boon to the business house-
hold in the city due to the fact that
it will no doubt bring a great deal
of out-of-town business to our var-
ious merchants.

United Nations

(Continued from Page One)
All members except Russia tossed
their proposals in the hopper by Ap-
ril 3. From that date until Septem-
ber 17, the committee idled along
awaiting the Soviet viewpoint.

Last month Russia finally sub-
mitted her paper, which was de-
scribed by persons in high author-
ity as mainly a series of questions.

Should the Russian paper even-
tually turn out to be a refusal to
participate in the program, even in
a limited way, close observers of the
charter said this would be a serious
blow to the United Nations.

Fourteen industries unknown in
the United States in 1870 now em-
ploy 25 percent of all workers.

End For OPA . . .

(Continued on Page Eight)

This official said the view is that
it would be to President Truman's
political advantage to trim the con-
trolled list to the bone, then let
Congress take the responsibility if
it wants to go the rest of the way.
Housewives and their husbands
meanwhile watched retail costs at
groceries, restaurants and liquor
stores, as OPA officials predicted
the cost of living and drinking
would certainly go up, at least tem-
porarily, as a result of the bread to
beer retreat from ceilings.

Pilots Agree . . .

(Continued from Page One)

(Continued on Page Six)
ing 920 hours a year, and \$1,187.43
a month (\$14,249.16 a year) for a
Lockheed Constellation pilot flying
862 1/2 hours a year in the domes-
tic service. An unannounced sum
in addition is sought as extra pay
for flying the same planes along
international routes.

Frye issued a computation of the
union demands on the basis of 85
hours a month (1,020 hours a year)
of flying, calling for \$15,296 a year
top pay for Constellation pilots and
\$13,366 for DC-4 pilots.

The present extra pay for inter-
national flying is \$750 a year.

John R. Crawford Died Today

John R. Crawford died about 1:30
this afternoon at his home near
Ballard's Cross Roads. He had been
ill some time. Funeral arrange-
ments were incomplete.

Homecoming Day At ACC On November 9

Plans are being made at Atlantic
Christian College, Wilson, N. C., for
the annual Homecoming to be held
this year on Saturday, November 9.
Hundreds of alumni, many of whom
spent several years in the service
of their country during World War
II, have indicated their desire to
attend and help make this the
greatest Homecoming in the history
of the college.

The program will officially open
at 2:30 p. m. in Howard Chapel and
will be concluded with the annual
A. C. C. - E. C. T. C. football game
at 8:00 p. m. in Wilson's Municipal
Stadium. Many former A. C. C. ath-
letes will be present to see the game
that puts at stake again the famed
"Bohunkus", an old wooden trophy
which has created rivalry among
the two schools for over a decade.
Many pre-war traditions are being
revived for this peacetime Home-
coming. Sorority-Fraternity teas
open houses in the dormitories, and
the Alumni Dinner are some of the

features included in the day's pro-
gram.

Miss Sarah Bain Ward of Kinston
N. C., president of the Alumni Asso-
ciation, states that she is anticipat-
ing the largest and most enthusias-
tic alumni gathering ever held on
the campus of the institution.
