### Fuel Ministers Blamed; Political Tension Mounts; Employment Drops

London, Feb. 8.—(AP)—A widespread attack was loosed today on Fuel Minister Emanuel Shinwell as Prime Minister Attlee's labor government faced a severe storm of public and parliamentary criticisms over the coal crisis which will force a major shutdown of England's industries Monday.

"Shinwell must go," three Conservative provincial papers proclaimed, and then the Laborite London Daily Herald took to task Shinwell and other members of Attlee's cabinet, accusing them of failure to keep the public informed of the developing crisis which has been aggravated by the severe cold wave that has gripped Europe for 11 days.

On the continent the spreading coal crisis caused a drastic industrial shutdown in the American zone of occupation in Germany leaving some 250,000 workers virtually idle. About 80 per cent of the factories in the state of Wuertemberg-Baden began slowing down production of heavy equipment this morning in preparation for a total halt ordered Monday.

The U. S. zone shutdown was ordered last night by the American and German authorities, as coal and power shortage also began to affect the states of Bavaria and Hesse. Wuertemberg-Baden officials said the shutdown would last about 10 days. In Bavaria the ministry of economics said a catastrophe loomed if more coal was not delivered soon.

Political tension mounted in Britain. (Continued on Page Two)

Final services were scheduled a half hour under the officiating of Gardner's pastor, Dr. Zeno Wall, assisted by the Rev. John W. Suttle, moderator of the Kings Mountain Baptist Association.

Notable figures in the nation and state were among those here for the funeral.

## Park Work Given Krug's Approval

Washington, Feb. 8.—(AP)—A delegation of Western North Carolinians today had the approval of Interior Secretary Krug for immediate development of the Great Smoky Mountains National Park and the Blue Ridge Parkway—its Congress grants the money.

Republican members of a Senate-House Budget Committee have been reported agreed on slashing \$5,500,000 from President Truman's \$37,500,000,000 budget for the fiscal year beginning July 1. The full committee is to report by next Saturday.

Some 50 members of the Western North Carolina Associated Communities met with Secretary Krug yesterday. After the meeting Rep. Monroe Redden of the 12th North Carolina District said "I believe we made the most progress we ever did in the park's history. The park was started in 1926.

## Discourse On Exiles

Representatives Of Over-Run States Want Recognition By U. N. On The Absorption Of Their Homelands By Russia; Work For Independence By J. M. ROBERTS, JR.

A renewed propaganda campaign by representatives of the Baltic States operating in exile indicates an effort to bring their situation before the United Nations.

Latvians, Lithuanians and Estonians still operate legations here which are listed as officially recognized by the United States government, although the countries were annexed by Russia six years ago actual trade with the areas is handled through Russia's trading corporation, Amtorg.

The Lithuanians are particularly bitter, accusing the Soviets of deporting their fellow-countrymen for slave labor by the thousands and of practicing all the brutalities which have become attendant on such enslavement movements in Europe under totalitarian governments.

Russia occupied the Baltic states in 1940 following through on her deal with Germany for the division of Poland and her campaign for strategic position in Finland. She staged plebiscites which resulted

## Guarantees U. S. Reply To Russian Propaganda

### Secretary Marshall Commits United States To Counter-Attack On Soviet Russia's World Propaganda

Washington, Feb. 8.—(AP)—Diplomatic officials today viewed Secretary Marshall's first major policy statement as a guarantee of determined counter-measures against Soviet world propaganda and attempts to link atomic energy control with disarmament.

Marshall declared the United States must back up its foreign policy with real military power until there is "peace with a dependable basis of collective security."

"That, to me, means there must be a universal military training program to supply the armed services with manpower.

He told a press conference he does not agree with the Russian view that atomic energy control can be dealt with as a part of the disarmament question. In any case there can be no disarmament until there is international security, Marshall said.

Without mentioning Russia by name, he said the State Department must blanket the earth with truth in the midst of a riot of propaganda. If the United States continues to give the world an accurate statement of its position, Marshall declared, others will accept the truth in the end.

The State Department is preparing to beam its first broadcasts of news and other program to Russia on Feb. 17.

Chairman Gurney (R-SD) of the Senate Armed Services Committee commenting on Marshall's remarks to newsmen about military power said:

"Universal military training on a basis that provides actual protection for this country is a prime necessity at once."

Marshall covered a wide range in his 40-minute press conference statement yesterday. He said:

1. The State Department still insists that Argentina drive out Nazi influence and refugees, as demanded a year ago.

2. The United States will not accept suggestions by Russia, Britain and Australia that its plan for a United Nations trusteeship for Pacific Islands under American administration be postponed until a Japanese peace settlement is made. The plan will be presented to the Security Council.

A preliminary meeting of hotel men and fire-fighting groups here yesterday discussed proposed legislation, and agreed in principle on a legislative bill.

Objective of the group is to make it a misdemeanor for anyone to start a fire negligently to hotel property. Present statutes make it difficult to obtain a conviction if a fire was begun by carelessness.

The legislation would embrace this program requiring: automatic sprinkler systems, watchman service, fire-alarm system, fire walls to separate main hotel structures from shops operating in the hotels, and condemnation of unsafe hotels and school buildings.

## ARABS READY FOR WAR OVER NEW FORMULA

### Leader Says They Will Fight If Jews Are Allowed Into Holy Land

42—ARABS READY walsh London, Feb. 8.—(AP)—A new British cabinet plan for the strife-ridden Holy Land faced the scrutiny today of Palestine Arab leaders, one of whom said that if the plan let one more Jew into the country it will mean war.

Jewish agency leaders were expected to be given the formula before next week and possibly today. Jamal Hussein, head of the Palestine Arab delegation here, was handed the plan last night but put off its consideration till this morning because, he said, "I'm sure it would ruin our night's rest."

Undisclosed at the time it was turned over to the Arabs, the cabinet plan was based upon a compromise between Foreign Secretary Bevin and Colonial Secretary Arthur Creech Jones. Informed sources said it called for immediate entry of 100,000 displaced European Jews into the Holy Land, in place of the current 1,500 a month.

The fear of war was voiced last night by Emile Ghouri of the Arab delegation. Arab leaders have stood firmly against an increase in Palestine's Jewish population of some 600,000. More than 1,000,000 Arabs also live in the country. Zionist leaders have demanded that 1,000,000 Jews be settled there soon.

In addition to more Jewish immigration, informants said the Bevin-Jones compromise envisaged:

(1) An amended Morrison Plan (this plan would have divided Palestine's 10,429 square miles into a British zone in the strategic Negeb Desert, Arab and Jewish provinces with limited authority and a neutral Jerusalem.)

(2) Jewish supervisory control for at least five years, with reconsideration of the situation at the end of that time.

(3) Immigration authority in the hands of a central administration. In their conferences, Creech Jones was said to have proposed that no limit be put on the number of immigrants.

## "Spring Fever" Was Great Show

By CHESTER WALSH

Greenville High School students again demonstrated their exceptional talent and histrionic ability in presentation of Glenn Hughes' three-act play, "Spring Fever."

The show was a credit to the school members of the cast and all of those who contributed to its success. The entire action of the play took place in the living room of Mrs. Spangler's rooming house at Brookfield College, a small co-educational college in the east, on the day before commencement.

When the high school students put on a show the public may always feel sure that it's going to be good—better than good, many of those who attended last night's performance said.

The cast: Betty Jo Wilson was Mrs. Spangler; Frances Aman was Anne Parcell; Eloise Tucker was Vivian George; Billy White was Vic Lewis; Sherod White was Ed Burns; Barbara Gardner was Lou Herron; Jim Haney was Howard Purcell; Lina Worthington was Maude Corey; Muriel Shotwell was Phoebe Purcell; Tommy Diener was Ed Dixon; Billy Sutton was Prof. Virs; Bean, and Guy Evans, Jr. was Howard Brendt.

Mrs. Howard Drums directed the play. Mary Dawn Drum was student director. Don Smith, technical director; Loraine Smith, stage manager; John Mayo, electrician, and Willie J. Lewis and Henry Turner were business managers.

"Spring Fever" was presented by special arrangement with Row Peterson & Co.

### Nation Looks Expectantly Toward Federal Judge's Ruling; Decision May Be Announced Sometime Today

Detroit, Feb. 8.—(AP)—All the nation today looked expectantly toward Detroit and a federal judge's ruling in a pay dispute.

There was a possibility the verdict of Judge Frank A. Picard if the celebrated Mt. Clemens Pottery Co. portal pay case would be handed down.

Judge Picard himself was making no pronouncement in court circles, however, it was hinted he might be in position to announce his decision before the day was over.

Against its towering background of nearly \$5,000,000 in portal-to-portal pay claims by labor, the meaningful case approached its moment of decision with all American industry and labor attentive.

The U. S. government, aware of its significance to many more billions in wartime cost-plus contracts with industry, was a watchful onlooker as well.

The task for Judge Picard, who first dealt with the Mt. Clemens pottery workers pay claims five years ago, was to determine the sum of compensable working time and make ready time of the plaintiffs.

This, in the popular terminology is portal to portal time.

When the U. S. Supreme Court sent the case back to Judge Picard, it was for a fifth ruling in a court fight which has taken its place beside noteworthy battles of America's legal history.

So far a court-appointed master in chancery and the U. S. District Court, Sixth Circuit Court of Appeals, and the Supreme Court had played parts in the drama.

The Supreme Court, in effect, overruled Judge Picard's original holding that the pottery workers—a mere handful of plaintiffs—were entitled to overtime pay.

The Circuit Court of Appeals also overruled Judge Picard on overtime, but the Supreme Court injected the portal pay issue.

It sent the case back to him, directing him to determine how much compensable portal time was involved and whether this might be a "de minimus" nature—too trifling for the law's concern.

Industry asked dismissal on the grounds of "de minimus," awarded Judge Picard, in 1943, awarded (Continued on Page Four)

## Reach Agreement

London, Feb. 8.—(AP)—The big four deputy foreign ministers agreed today that the Allies should withdraw all their troops from Austria within 90 days after a treaty of independence is signed with that country.

The agreement also accepted the principle that control authority over Austria should end when the treaty comes into force, British sources reported.

Hartley first announced the committee's new plan last night after hearing testimony from eight witnesses representing Philadelphia fruit and vegetable dealers.

These witnesses, testifying under oath, said officials of Local 689 of the AFL Teamsters Union had "coerced" and "intimidated" them and virtually shut down the Philadelphia wholesale produce market.

Hartley also disclosed he was sending a telegram to the FBI and the Philadelphia Director of Public Safety. (Continued on Page Two)

### Georgia Superior Court Backs Thompson Claim Of Office

Atlanta, Feb. 8.—(AP)—Lt. Gov. M. E. Thompson today held on to Georgia superior court's flat recognition of his claims to the state's disputed governorship as his attorney prepared their answer to a demand for dismissal of his suit against his rival claimant, Herman Talmadge, in another superior court.

The decision in favor of Thompson came from Judge Claude H. Porter of the Rome circuit in his ruling in a suit which had been moved up from an original hearing date of February 12.

Thompson himself heard of the judge's decision as he sat in Henry County Superior Court at McDonough where Judge Walter Hendrix was hearing Thompson's plea for an injunction to prevent Talmadge from exercising executive authority as governor. After listening to Talmadge's attorneys argue for a dismissal of the suit on several grounds, Judge Hendrix continued the hearing. (Continued on page two)

## Marshall's Attitude

### News Conference Displays New Secretary Of State To Be Modest Yet Determined; Earnest In His Desire For Clear Understanding Of Office And Work

By JAMES MARLOW

Washington, Feb. 8.—(AP)—Gen. George C. Marshall has made it clear that he is not going to tear the State Department apart.

Ever since he became secretary of state Jan. 21 Washington has been full of rumors that he'd shake up the place.

Marshall made it clear at a news conference yesterday—his first—that:

1. He plans no severe housecleaning.

2. He refused the resignations of his top officials.

The rumors of a shake-up must have been damaging to the morale of State Department workers.

Marshall used the news conference as a means of reassuring them and, at the same time, quieting the rumors.

He said he learned in the army, as chief of staff, the need for good morale among the people under him if they were to do good work.

He didn't close the door on chan-

## ASKING FUNDS FOR PROBE OF UNION RACKET

### House Group Would Investigate Complaints To Write New Measure

Washington, Feb. 8.—(AP)—The House Labor Committee, which started out to write a new labor law, sought today to broaden its hearings into a \$50,000 investigation of "all complaints of union racketeering."

Chairman Hartley (R-NJ) told reporters that if the House grants the money, the committee also will "make any other investigations into the entire labor situation which would help in writing a bill."

This, he said, would involve sending subcommittees into the field to look into complaints. Three days ago he disclosed plans to send out investigators who will get the views of rank-and-file union men on labor legislation.

Hartley first announced the committee's new plan last night after hearing testimony from eight witnesses representing Philadelphia fruit and vegetable dealers.

These witnesses, testifying under oath, said officials of Local 689 of the AFL Teamsters Union had "coerced" and "intimidated" them and virtually shut down the Philadelphia wholesale produce market.

## U.S. Formally Indicts "Big Five" In German Industry Of War Crimes; All Accused Now In Jail; First Effort To Fix Guilt

Nuernberg, Feb. 8.—(AP)—The U. S. formally charged five German industrialists with war crimes today in an indictment linking the business brains of the Third Reich with the worst deeds of the politicians and generals.

Brig. Gen. Telford Taylor, chief American prosecutor, served the indictment against Friedrich Flick, 63-year-old industrialist who had vast power and four men associated with Flick in a farflung iron and steel enterprise.

Named with Flick were Otto Steinbrink, Konrad Kaletsch, Bernard Weiss and Herman Terberger names known throughout Germany but seldom if ever heard beyond the borders.

These five ran the "Flick concern," biggest private enterprise of its kind in Europe and second only to the Herman Goering works.

The indictment charges the industrial leaders with:

1. Participating and profiting by the slave labor program, torturing and killing conscripted workers.
2. Plundering industry of occupied countries.
3. Using the Nazi racial policy to squeeze Jews out of business and seize their holdings.
4. Financing the SS, the Elite Guard terror organization.

Steinbrink also is indicted as an SS general.

All the accused are in jail and probably will be brought to trial in March—the first effort by any of the allied nations to fix guilt on industrialists.

It will be entirely an American venture.

## Strength FOR THE DAY

By EARL L. DOUGLAS  
CONCERNING PASTOR AND  
PEOPLE

Many people are saying today  
that the greatest need in the church  
is not the need of eloquent preach-  
ing but of faithful pastoral inter-  
est.

From New Testament times until  
recent decades, ministers consid-  
ered it their duty to go about among  
their people. The work of the min-  
ister consisted largely of preparing  
sermons and calling on his people.  
Today he has had all sorts of duties  
delegated to him so that he has  
become a sort of executive secre-  
tary for all benevolent movements in  
the community. The result is that  
the minister is almost never a  
scholar, seldom a diligent student,  
and frequently not a pastor at all.

Some ministers try to make up for  
this deficiency by setting up as  
psychiatrists and inviting people to  
come to the church study and talk  
over their troubles with a man who  
has specialized in Jung and Freud.  
But the psychiatrist cannot take  
the place of the pastor. The execu-  
tive secretary cannot take the place  
of the diligent student who dwells  
long on the Word of God for the  
enrichment of his people's souls.

Let congregations stop making  
errand boys of their ministers, and  
let ministers give up the idea that  
anything can take the place of pas-  
toral attention and a thoughtful  
reflection on the Word of God. Re-  
form along this line would go a  
long way toward giving us a new  
and revitalized church life.

(Continued from Page One)  
10. The improved political outlook.  
The new Congress is determined to  
reduce expenses, cut income taxes,  
and amend the liquor laws to treat  
fairly all interests. There may never  
be a real solution to the labor prob-  
lem; but Congress can very much  
improve the present unfair situation.  
Conclusions: Considering these  
ten reasons for higher stock prices,  
why does the market continue to  
drift around? Why are people now  
timid to buy for permanent invest-  
ment and income? Millions would  
be content with a fair rate of interest  
with safety, irrespective of whether  
the market goes up or down, were it  
not for some hidden reason which  
I now will explain.

**Strikes — Communism — Morals**  
We have witnessed the use of old-  
fashioned brute force in the settle-  
ment of political and labor disputes.  
It is this revived use of force, now  
apparent all over the world, which  
is frightening investors. Even Com-  
munism—as an economic philoso-  
phy—might not be feared if the  
Communists were willing to leave  
the question to the free vote of the  
people. But they use force. In fact,  
Communism is merely enforced So-  
cialism, the same as Fascism is en-  
forced Capitalism. Russians blame  
me for talking about the possibili-  
ties of World War III and ques-  
tioning the success of the United  
Nations; but if labor, management  
and politicians cannot get along in  
this country peacefully and leave  
decisions to the courts, how can we  
expect over fifty different races to  
unite and do so?

"Juvenile Delinquency" which  
really should be known as Parental  
Delinquency is undermining confi-  
dence. Parents are responsible for  
the filthy picture shows, with their  
jungle dances; and low stuff that  
was not even allowed in schools a  
decade ago. We parents are respon-  
sible for the bad radio programs  
from which our children learn of  
the underworld doings of gangsters,  
cowboys and petty burglars. Even  
our magazines, in their stories and  
illustrations, appear to be lowering  
their standards by featuring drink-  
ing, carousing and the like. Modern  
"art" does not bother me, but with  
"sensible" people buying such crazy  
pictures it is not surprising that  
too many conservative investors are  
bearish on everything!

## Marshall's

(Continued from Page One)  
Marshall took command from the  
start and surprised everyone with  
what followed:  
He talked about 40 minutes cov-  
ering such a wide field of foreign  
affairs that he answered most of  
the questions before they could be  
asked.

The newsmen were deeply im-  
pressed by Marshall's modesty and  
his fluency.

All through his talk he empha-  
sized that he had much to learn in  
this new spot where he was placed  
by President Truman.

He made this clear at the begin-  
ning when he said he would not  
answer questions about the soon-to-  
be meeting in Moscow.

He's going there to talk with the  
foreign ministers of Britain, France  
and Russia about peace treaties for  
Germany and Austria.

He said he was preparing him-  
self for the meeting, still needed to  
do plenty of studying, and would  
answer no questions till he knew  
more.

## Discourse

(Continued from Page One)  
they feared the Reds. At the same  
time, their families at home were  
conducting a battle of passive re-  
sistance against the Germans, and  
in the forests men gathered by the  
tens of thousands to fight whomever  
necessary for liberty at the  
proper time. They were fed by the  
peasants despite stringent German  
rationing. But by the time the  
Russians drove out the Germans  
guerrilla warfare was of no avail.

Ever since the plebiscites, inde-  
pendence leaders among the Balt-  
ics have looked to England and the  
United States for help. They had  
offered to revolt against the Ger-  
mans in 1943 and 1944 provided only  
Russia would give assurance of

### WANTED: To Rent Office

My law offices in White Building, have been surreptitiously, with utter disregard of common courtesy or fairness, rented out from under me, and I have been ordered to vacate same immediately so that a Whiskey Distillers' representative may install and entrench himself among the Lawyers near the Court House.

The obsession for money by my present landlord, and the extravagant and arrogant use of it, so characteristic of easy whiskey profits, is the combination which is driving me out. Money and liquor, as usual, ruthlessly and triumphantly marches on.

I want to rent an office. If you have one I can use, let me know.

### Arms Reduction Fight Tossed Back To Security Council

New York, Feb. 8. (AP)—The still unsolved problem of devising machinery for world wide arms reduction was tossed back to the United Nations security council today, raising the prospect that a veto might be exercised either by Russia or the United States.

After three days of debate behind closed doors, a six-nation committee gave up efforts to reconcile American-Russian differences and drafted two separate resolutions.

One set forth the U. S. position and the other the Soviet stand.

Both the U. S. and Russia stood firm to the end on their basic difference—the place of atomic control in any overall disarmament plan. Thus, when a showdown vote comes the one in the minority will have to give in or veto.

This forecast was based on the assumption that the council would hold the matter substantive and thus subject to veto. The American delegation felt that it could be ruled procedural and not open to veto, but admitted this was unlikely on the basis of past council operations.

Regardless of the parliamentary outcome, all persons close to the problem agreed it would be virtually useless to adopt an arms resolution which was opposed flatly by a great power—veto or no veto.

## Jaycees Discuss Future Projects

The local Jaycees held their regular meeting Thursday night, February 6, at 7:30. Jimmy Harris, vice-president, presided in the absence of Tom Wilson, president, who is on vacation.

The meeting was largely a business meeting, with thoughts toward future projects and the reorganization of committees. The following committee, composed of Howard Hodges, chairman; V. C. Fleming; Ed Waldrop, and Frank Wooten gave a report of possible projects for the coming year, and the committees necessary to carry out these projects. This committee presented a wonderful report toward reorganization, and local Jaycees present felt that with such plans in mind the Jaycee Chapter would accomplish a great deal in 1947.

Howard Hodges was elected treasurer of the Chapter, and Harold Staton was elected secretary to replace Frank Wooten, who was filling an unexpired term.

The meeting was very well attended and much enthusiasm was expressed over the new plans submitted.
