## HIDDEN FIGHT ON ATOM BACK IN LIMELIGHT

### Gromyko Renews Demand Of Priority In Outlawing Atomic Weapons

Lake Success, N. Y.—(AP)—The bitter conflict between the United States and Soviet Russia over atomic control was brought into the open again today by a new Soviet demand that atomic weapons must be outlawed before any control system is set up.

Soviet Delegate Gromyko disclosed his position as the United Nations security council prepared to meet to resume debate on a blue print for atomic control, based on American proposals and approved by the U. N. atomic energy commission last December 30, with Russia and Poland abstaining.

Since the Soviet proposal already had been rejected by the atomic commission last summer, the move to raise the issue again was interpreted as an indication that Gromyko was prepared to make a last-ditch fight against the U. S. plan.

In disclosing his plans to reporters, Gromyko did not state whether he would go so far as to invoke the big power veto to kill the American proposal, but he did serve definite notice that he still stood by the basic proposition he first put before the atomic commission last June 19.

At the same time Warren R. Austin, U. S. delegate, said the United States stood firmly behind its own plan, which calls for a system of international controls of inspections and veto-free punishment for violators as a condition for outlawing atomic weapons.

Austin said it would be useless for the council to try to approve a plan without unanimity of the big powers. It was apparent, however, that agreement would not be achieved immediately and not at all unless Gromyko eventually reversed his position.

The atomic debate was opened last yesterday by Gen. A. G. L. MacNaughton, Canadian member of the Atomic Commission, who had been invited to take part in the council's discussion. He immediately brought the issue into the open by calling on Russia and Poland for frank statements on any reservations they might have.

These two were singled out since they were the only two members of the 12-nation Atomic Commission which did not vote for the American plan. They chose instead to abstain.

## U.S. Ambassador To Leave Poland

Warsaw—(AP)—U. S. Ambassador Arthur Bliss Lane prepared today to depart for Washington on Feb. 24 to hold consultations with the State Department and considerable doubt was expressed in official American circles here that the veteran diplomat would return to Warsaw.

Lane last night notified Jozef Olsewski, acting Polish foreign minister, of his intention to leave for the United States. A source close to the ambassador said he was not expected to return to Warsaw, but probably would get a new diplomatic post if he did not retire. Lane has been a career diplomat for 31 years.

(In Washington, a State Department official said that whether Lane returns to Warsaw depends upon Lane's own personal wishes.)

## Shy, But Willing

Possible Presidential Candidates (Excepting Stassen) Are Afraid To Get Out On A Limb So Early In The Race; Plenty Of Tall Timber In Woods; Review

By J. ROBERTS, JR.

Washington—(AP)—The shy little tune you hear is the song of the possible presidential candidates. It goes:

I didn't say I wouldn't run.  
I didn't say I would.  
I mean I've only just begun.  
I hope that, yes, I could.

A lot of Republicans would like to get their mail at the White House for four years after 1948.

But none of them yet has been caught saying so, except Harold E. Stassen, former Minnesota governor.

(On the Democratic side President Truman isn't saying what he'll do in 1948 although it's been said for him.)

Stassen is the only Republican who so far has walked out on the chilly, lonely limb and said publicly "I'm a candidate." He said it Dec. 17.

The next day Governor Thomas E. Dewey of New York had five words to say on the subject.

(He was Republican candidate in 1944 and there's no widespread feeling he'd snub the chance again

## Gas Cuts in Offing For Short Britishers

Governmental Moves Are Warning Gas Cuts Be Next Step In Fight Against Coal Shortage; Plans Are Laid

London—(AP)—Browed-out shivering Britain faced a threat of widespread gas cuts today as the next sacrifice to combat a coal shortage which has led the nation to the brink of disaster.

As the island's 49,000,000 residents entered their fifth day under

drastic electricity restrictions with slight gains in the coal stocks at power stations, the British Gas Council alerted the country's 1,100 gas plants to be ready to shut off gas supplies to non-essential industries.

The special nine-man "coal cabinet," headed by Prime Minister Attlee, scheduled a meeting with gas company executives today to discuss the problem.

The Labor Party organ, the Daily Herald, proclaimed in front-page headlines that a gas cut was likely in a few days.

Attlee reported to Parliament yesterday that the coal situation was "still critical despite the breaking of the snow and ice blockade by ships and trains carrying fuel to London and other metropolitan areas."

The prime minister said low coal stocks at gas plants are "giving cause of anxiety." The Gas Council shortly afterward announced that all gas plants were being warned to plan for the possibility of shutting off service to all industrial and commercial consumers except those "engaged in essential services or continuous process operations."

Attlee told the House of Commons that 78,000 tons of coal had been saved as a result of the first three days' restrictions on electricity. Since Monday factories in a 38-county industrial area of England and Wales have been shut down. Householders in that area have been forbidden to use any electric power during five daylight hours in each day. The latter ban was extended yesterday to all of England, Scotland and Wales.

Authorities reported, however, that compliance with the household ban was still "not so good" despite threats of heavy penalties.

Thirty-seven coal ships carrying more than 60,000 tons of coal beat their way through icy channel gales

## Marshall Report Is Tendered Senators

### BENJ. FIELDS IS SENTENCED

### Jail Term And Fine For Contempt Of House Committee

Washington—(AP)—Benjamin F. Fields, Washington public relations man, today was sentenced by Federal District Judge Alexander Holtzoff to 90 days in jail and fined \$250 for contempt of a House committee.

Defense attorneys announced they will appeal to the U. S. Court of Appeals and Fields was released on \$500 bond.

Fields was convicted February 5 by a district court jury of failing to give the House Surplus Property Committee last year all his financial records in connection with the sale of surplus bronze screen wire to C. B. Warr, an Oklahoma City builder.

The government contended Fields failed to submit documents in response to a committee subpoena showing division of a \$4,400 commission received for sale of the screen. The government said Fields

### Secretary Of State Goes Into Huddle With Foreign Affairs Committee; Leaves Favorable Impression Of Work

Washington—(AP)—Secretary of State Marshall reported "the world is in a very critical condition" in his first meeting today with the Senate Foreign Relations Committee.

The new secretary of state gave this word to newsmen as he left the closed committee session.

Chairman Vandenberg (R-Mich.) said that he found Marshall's report on world affairs "encouraging in many respects."

Marshall declined to elaborate on his hour and a half talk. He told reporters on leaving that the recall of Ambassador Arthur Bliss Lane to report on conditions in Poland does not mean a rupture in diplomatic relations. He declined to say, however, whether Lane itself would return to his post in Warsaw.

Asked specifically whether he had made a "hopeful" or "encouraging" report to the senators on international conditions, Marshall replied:

"I told them the world is in a very critical condition."

Marshall said he talked about "most of the world's trouble spots." After the committee meeting, Mr. Marshall was closeted with senators Vandenberg and Connally (D-Tex.) for 15 minutes. The secretary declined to say whether they discussed the possibility that the two, who served as advisers to former Secretary James F. Byrnes, might join him later in Moscow for the foreign ministers' conference there.

Vandenberg listed this conference of foreign ministers as one of the subjects covered by Marshall. Relations with other nations, particularly China and Latin-American republics, also were mentioned by the committee chairman.

Vandenberg commented that the review showed the new secretary of state

It is thought that a Mobile X-ray unit can be purchased for \$8,000 to \$10,000.

## Plane Wreck Is Fatal To Seven

Macon, Ga.—(AP)—A search party which best its way through a swamp today to reach the wreckage of an Army plane which crashed after a take off from Robins Field reported that the seven persons aboard were dead.

Capt. H. R. Daniels, public relations officer at the field, said all seven persons apparently were killed instantly.

Army officials did not release the names of those aboard.

### Reopen Case

Pitt County Coroner Griffin H. Rouse announced today that Fifth Judicial Solicitor D. M. Clark had ordered a reopening of the inquest into the death of Leroy Wakston, 19-year-old boy of the Bruce community, last December 23.

The coroner said eye-witnesses to the "highway tragedy" had been located and that they will be summoned to testify at a new hearing at the City Hall in Greenville next Monday night at 7:30.

It was testified at the original inquest that Wakston, riding a bicycle on the highway between Bruce and Farmville was struck by a car driven by Jack Dupree, Negro, of Falkland and that the boy died shortly after arriving at a hospital.

The coroner's jury at the first inquest found that Wakston's death was accidental.

## Truman Shuts Door On Rivals For Race

### DECLINES AID FOR ENGLAND

Attlee Says U.S. Coal Needed In Europe As Well As Britain

Washington—(AP)—President Truman made public today a message from Prime Minister Attlee, declining an American offer of aid in the British coal crisis.

Attlee's message to the President asserted that the need for coal in Europe is "no less pressing" than that of the British Isles and added "we could not ask that cargoes should be diverted from Europe to the United Kingdom."

Attlee's message followed a statement by Mr. Truman yesterday offering whatever aid the United States could muster and proposing to divert coal shipments to Europe to meet the English fuel emergency.

## Columbian 'Traitor' Tells Court Plans To Follow Germans Step

Atlanta—(AP)—A witness, called by the defense which later disavowed him as a traitor to his Columbian leader on trial, told a Superior Court jury here last night that the local brown shirted order was to be the start of a nationalist party like "the one in Germany."

The puzzling development, climaxed by the filing of defense counsel for contempt of court, came near the end of a night session in the trial of Homer Loomis, Jr., an organizer and secretary of the Columbians, on a charge of incitement to riot.

James Akin, tall ruddy-faced youth who said he had joined the anti-Jewish, anti-Negro organization a few days after its incorporation last summer, was the second witness to be called. Homer Loomis, Sr., the defendant's father and his attorney, had asked only routine questions when lie directed Akin to tell what he knew of the younger Loomis' beliefs on the subject of "American nationalism."

"I just know he was trying to set up a nationalist party similar to the one in Germany," Akin responded.

Loomis tried to ask Akin if he had been "solicited by" the anti-Nazi league of New York, which helped gather evidence against the Columbians, but the court sustained a prosecution objection and Loomis gave the witness over to cross-examination by Solicitor E. E. Andrews.

Under a series of questions to which he answered "Yes, sir," or "that's right," Akin corroborated statements by Andrews that the Columbian leaders in general and Loomis in particular had:

Recruited youths for training in "street fighting."

Boasted they would "take over" Atlanta as a political power "within six months."

Sent Columbian members out on patrols, armed with various types of weapons, to order Negroes out of the white areas.

Talked of "dynamiting the city auditorium during a Negro meeting."

## Party Lines Collapse Over GOP Budget-Slashing Plan

### OPPOSITION TO LILIENTHAL IN GOP MOUNTING

### Friends Of Former TVA Chief Anxious Over Effects Of Attack

Washington—(AP)—Republican opposition to David E. Lilienthal as chairman of the Atomic Energy Commission piled up today.

Almost simultaneously with President Truman's personal pledge to stand behind his nominee to the finish, GOP Floor Leader Wallace White announced his determination to vote against Lilienthal because he is "temperamentally unfitted" for the job.

Friends of the former TVA chief who speculated anxiously what effect White's declaration might have on his fellow Republicans, especially the big squad of first timers, had a quick if not conclusive answer.

Scarcely an hour after the floor leader issued his statement, freshman Senator James P. Kem of Missouri joined the anti-Lilienthal forces with a declaration that he cannot countenance "an outstanding exponent of government ownership as head of the Atomic Energy Commission."

"Atomic energy may have unlimited commercial and industrial possibilities," Kem asserted. "I believe that the control of this great new force should be entrusted to staunch supporters of our characteristic American system of private initiative and free enterprise."

White said his "compelling objection" to Lilienthal "springs from his controversial and arbitrary mental attitude towards those who do not accept his views." He called Lilienthal "restive and defiant of congressional restraints."

White is the second of the "big five" Senate Republicans to come out flatly against Lilienthal. Ken-

## Lawmakers Meet To Fight Out Proposal To Cut \$6 Billions Off What President Truman Calls His Essential Budget; Military Outlays Subject To Criticism

By JACK BELL

Washington—(AP)—Party lines caved in on every side today as upwards of 100 lawmakers met to fight out a Republican proposal to cut \$6,000,000,000 off what President Truman calls his essential \$37,500,000,000 budget.

The Chief Executive, who previously had termed his spending estimate tight and rock bottom, added the essential label at a news conference.

Mr. Truman endorsed flatly Secretary of War Patterson's assertion that a planned cut in military outlays would endanger national security and said the budget he sent to Congress last month was absolutely necessary for the same operation of the government.

This White House action yesterday aroused applause and criticism alike among members of both parties.

There were these other developments as members of the House and Senate taxing and appropriating committees, numbering 102 in all, assembled for a session which leaders said may be kept going continuously until a decision is reached before tomorrow's midnight deadline.

1. Chairman Millikin (R-Colo.) of the Senate Finance Committee told reporters he would renew his effort to hold the budget cut to \$4,500,000,000, a move defeated by the Senate. House subcommittees which voted for the \$6,000,000,000 slash, Millikin said he, too, feels the larger reduction would imperil national defense.

2. Senator George (D-Ga.) said he would support the \$4,500,000,000 cut, although he believes it somewhat too deep.

3. Senator Byrd (D-Va.) announced he would vote for the \$6,000,000,000 reduction because he believes the Army and Navy can stand some cuts in their outlays. Byrd also said he is joining with Senator Butler (R-Nebr.) in offering a bill to lump all 11 major appropriation measures into one.

4. Rep. Cannon (D-Mo.) announced he will propose that the deadline for fixing the limit on spending be delayed until April 15, despite a demand by Chairman Taber (R-NY) of the House Appropriations Committee for action within the February 15 deadline set.

## Believe "Fence" Has Hesse Gems

Washington—(AP)—New evidence was received in the Hesse jewel theft case today pointing toward the possibility that the Chicago underworld obtained and may still possess part of the \$1,500,000 fortune.

It came in testimony from Dr. Lemoine Snyder, medical-legal director of the Michigan State Police at the trial of Col. Jack W. Durant, accused looter of the Hesse family's Kronberg, Germany, castle.

Snyder backed up the story of earlier witnesses that Durant, while in custody of Army investigators in Chicago, arranged by telephone for a "fence" to leave some of the gems in a railroad station package lock-box.

When the package was recovered and opened, he said, Durant maintained the "fence" had not returned all the diamonds and emeralds.

## "The Ides Of March"

Foreign Ministers Meeting In Moscow Looked Upon With Misgivings By Analyst; Berlin Deputies Divided; Little Groundwork Prepared; Prospects

By JAMES MARLOW

Unless something happens, the foreign ministers will meet at Moscow March 10 with even less hope of concrete results than when the conference was first scheduled.

For one thing, they are going to have to do themselves a great part of the spade-work usually performed at lower levels.

The expected recommendations from the German peace- from the four power administrators in Berlin apparently will be no recommendations at all, consisting primarily of an innocuous report on the history of the occupation. Negotiations there have fallen to the stage where the lie is being passed, and instead of a real report to the council, each delegation will be reporting home blaming the others.

The situation is the deputy foreign ministers meeting at London a similar with regard to progress and only slightly more polite. With the more week to run, the deputies haven't even been able to make up a good catalog of the points where they disagree.

They started out with the idea of drawing up a peace for Austria and arriving at recommendations on Germany, but apparently will close without succeeding in either.

The situation is further clouded by the dispute over press coverage in Moscow. When the United States agreed to the Russian capital as the site it was with assurance from Molotov that correspondents would be able to report from Moscow just as from Paris or New York.

Now the Russians are requesting that press delegations be restricted to a fraction of those accustomed to attend in the other cities. They give their housing shortage as an excuse. Anyone accepting this, of course, would be entitled to draw the conclusion that if Russia cannot house a few hundred people for such a meeting she is not the power which her diplomats would have to believe. Actually, of course, Russians just feel unhappy under the searching eyes of foreigners. It is one of their Asiatic qualities which plays an important part in all of their international relationships.

Republicans, too, had their almost-but-not-quite candidate in Senator Robert A. Taft of Ohio.

Taft told a news conference a

Miss Lena Ellis, one of our group fortunate enough to have seen some recent plays on Broadway, gave us two reviews: "O' Mistress Mine," starring Alfred Lunt and Lynne Fontayne, and "Happy Birthday" starring Helen Hayes. Miss Ellis gave us sidelights on the plays which only a student of dramatic art would have noted; unusual effects of lighting and stage properties and stage business. We must remind you that Miss Ellis has done valuable work at E. C. T. C. as coach and director of college productions in the days before a faculty member was employed to do this work. She is now a member of the Commerce Department of the college—Reported.

THE DAILY REFLECTOR

The prayer of the educational spirit of the east was uttered last night before the joint committee of the senate and house on education. It was for the establishment of an Eastern Carolina training school whose purpose would be to prepare teachers for the public schools and the modest sum of \$30,000 is asked for creating this institution. Representative men of the east appeared before the committee and the members were greatly moved by the power of the speeches of ex-Governor Jarvis and Professor Raysdale. Prof. Raysdale said he employed ten teachers in Raleigh last year to teach in his schools but when he arrived home he found letters from six who said they accepted his offer sincerely, but upon their return home their parents had refused permission to go to Eastern Carolina. He used this statement in some of his remarks about the impossibility of securing teachers from western and central Carolina who are afraid of the supposed malaria in the east.

Dr. C. O'H. Laughinghouse spoke for the bill. He stated the difference between climatic conditions of the east and west, holding that the "teachers in the east must be indigenous; bred in the east, with a knowledge of the eastern people and conditions."

Newspapers can be made from the pulp of one tree. Another wanted to know how the weather reports are obtained. The children manifested the results of exceptionally good training.

### Need Authentic Costumes

Will you look in the old trunks in your attic and see whether you have a costume of the Gay Nineties? The senior class and the Chi Pi Players of East Carolina Teachers college, busy at present with their production of the Broadway comedy hit "I Remember Mama," are looking for authentic costumes of the period. Audrey May of Greenville, in charge of costumeing, already has the loan of a handsome beaver hat and other period pieces.

Mrs. May says that any of the furbelows of the nineties can be put to use in the play. A frilly, sweeping skirt, a blouse built to fit the ample lines admired fifty or sixty years ago, a lacy parasol, a be-feathered or be-flowered hat will add color and atmosphere to the play. Anything from a good bustle to a handsome vest will be appreciated by the

dramatic group. If you can help the staff with the costumeing for the production of "I Remember Mama" on February 28 and March 1, notify Audrey May of 1308 East Ninth Street, telephone 4374.

**Article Carried By Publication**

Deanie Boone-Haskett of the faculty of the Greenville High School and Dr. Meredith N. Posey, professor of English at East Carolina Teachers College, are contributors to the latest edition of the "North Carolina English Teacher." The publication is issued quarterly by the North Carolina English Teachers, a state-wide organization "for more effective teaching of English

in the schools and colleges of the state."

Miss Haskett's article describes a project conducted by students in the ideal high school in which they correspond with girls and boys in foreign countries. Entitled "International Friendship Through Correspondence," the article points out the value to students of sharing information and opinions with those in far-away lands.

Dr. Posey, addressing beginning teachers of English, suggests to them that the best way to initiate students into the art of composition is to start with the writing of a whole composition.

**WORN OUT FROM GETTING UP NIGHTS?**

If you get up nights—have frequent desire to pass your water—yes, and have backache, due to excess acidity in the urine, be glad you're reading this: Three generations ago Dr. Kilmer, a famous doctor, found hundreds of his patients with this trouble. So he made a medicine of 16 herbs, roots, vegetables, balsams. He called it "Swamp-Root." Millions of men and women have taken it—often with amazing results.

Swamp-Root goes right to work to flush out kidneys . . . increases flow of urine, helping relieve excess acidity . . . so the irritated bladder gets a good flushing out, too. Many report getting a good night's sleep after the first few doses. Caution: take as directed.

For free trial supply, send to Dept. E, Kilmer & Co., Inc., Box 1255, Stamford, Conn. Or—get full-sized bottle of Swamp-Root today at your druggist.

Distress From Nervous Indigestion Had Nagged Her For Years, But She Can Eat Plenty Now And Feels Better Than In Years, Says Mrs. Owens. Regains Lost Weight

Among the most recent of the many thousands of well-known individuals in every walk of life who have voluntarily given Retonga unstinted praise is Mrs. Sid Owens, 610 Gossett St., Anderson, S. C.

Distress from nervous indigestion nagged me for years," stated Mrs. Owens, "and I got to where I had to live on soft foods. I had no appetite and even the lightest diet made me feel bloated and like I had

swallowed coals of fire. Gas frequently shoved up against my chest until I almost had to gasp to breathe. I felt high-strung and many nights I couldn't sleep as much as an hour. Mornings I hardly had strength to dress myself. I lost weight and felt so weakened I simply couldn't do my housework.

"Retonga brought me grand relief from all this distress. I now eat anything I want and enjoy it. I have regained my lost weight and I get refreshing sleep. I feel better and stronger than in a long time. No one could be more thankful for Retonga than I."

Retonga is intended to relieve distress due to insufficient flow of digestive juices in the stomach, loss of appetite, Vitamin B-1 deficiency and constipation. Accept no substitute. Retonga may be obtained at Bissette's Drug Store.—Adv.

## Strength FOR THE DAY

By EARL L. DOUGLAS

**SOME ALWAYS REMEMBER.**  
A woman who has an income of \$35 a month and a pension from a church organization of \$25 a month recently wrote the treasurer who sends her the monthly pension check and requested that it be reduced from \$25 to \$15 per month. "I find," she wrote, "that I can get along very well on this reduced sum and I think the extra should go to someone who needs it more than I do."

The whole picture of course is amazing. It is almost unheard of that a person finds it possible to live on \$50 a month. It is equally incredible that a person should decline pension payments which an organization is entirely willing to pay. Most astonishing of all is the fact that a person who has little in life should be so concerned over the fact that there are others who have less.

One of the most alarming symptoms of social decay in recent years has been the willingness of an increasing number of people to look to the government for subsistence. The rugged independence which lies at the basis of all wholesome character and makes people passionately anxious to provide for themselves has been trickling away. The picture of a woman who in the midst of straightened circumstances could forget herself and think of others is worth pondering in a day when most slogans are built about the world "security."

### Shy, But . . .

(Continued From Page One)  
Meanwhile, Senator Bricker, also of Ohio, was expected to say yesterday that definitely he is not a candidate. But he didn't. Instead, he said he has made no commitments.

And President Truman yesterday had to do some talking because of some talking.

The Democratic chairman, Robert E. Hannegan, Postmaster General, went up to New York a few days ago and said:

President Truman's hat is in the ring. He'll be the Democratic candidate for President in 1948.

Mr. Truman knew he was going to be asked about that at his news conference yesterday.

He was asked. He had a statement all ready and he read from it. He didn't mention Hannegan or, directly, what Hannegan said.

He didn't say "Yes" and he didn't say "No" about being a candidate at all. He didn't say anything about being a candidate at all.

He just said he wanted to try to do a good job as President.

So far General George C. Marshall—who hasn't been claimed by the Republicans or the Democrats, although he's the new Secretary of State—has made the only positive statement against presidential candidacy.

He said he can't be considered a candidate for political office and that he never could be drafted for one.

### Gas Cuts . . .

(Continued from Page One)  
to London yesterday and the movement of snowbound coal trains in northern England and the Midlands was speeded by the labor of thousands of railway workers, soldiers and German prisoners working around the clock.

One collier, identified as the 642-ton Ary, of Panama registry, was reported to have foundered and sunk off the Irish coast while carrying coal from Wales to Eire.

At least one death was attributed to the virtual wartime blackout of street lights which went into effect last night.

Tarboro Quintet Falls To Eppes

Eppes High scored a double-barreled win over Tarboro last night, when the local girls easily out-scored their opponents 60-17.

Tarboro, with a strong and fast team, was unable to break through the man-to-man defense that Eppes' boys held on them.

YANKEES LOOK AT GREENBERG

MacPhail Sounds Out Pittsburgh On Possible Purchase

New York—(AP)—Hank Greenberg, who only last Sunday announced he was "considering" retirement from baseball, may yet be an active player this season—with the New York Yankees.

This was learned today from a reliable source, who claimed he "knew" that President Larry MacPhail of the Yankees had sounded out Frank McKinney, owner of the Pittsburgh Pirates, via telephone to ask if Greenberg was for sale.

The informant said MacPhail offered the Pirates more money than they paid to the Detroit club for Greenberg's release.

That MacPhail and Bucky Harris, manager of the Yankees, are interested in Greenberg is borne out by Bucky's reply to a direct question put to him at a recent press conference.

Asked whether he was still interested in obtaining the veteran first baseman-outfielder, Harris answered, "We certainly would be interested in him provided he were a free agent."

It is no secret that the Yankees are desperately seeking a first baseman, and Greenberg fits the picture in the best tradition of home-run-hitting Yankee first sacker, MacPhail earlier had admitted he tried to land Greenberg, but gave up the idea when it was made plain to him that the Tigers wouldn't sell Greenberg to the Yankees at any price.

Whether the Pirates have a price on Greenberg is unknown.

Billie Davis came into the game as a sub and played himself into a 45-minute position. J. B. Tait was high scorer for the night with 22 points. The entire squad saw action in last night's contest.

Eppes will travel to Wilmington Friday February 21 for what is considered a decidedly close contest with a strong team there.

should be diverted from Europe to the United Kingdom. Mr. Truman stressed in his statement yesterday that the British had not asked for aid.

Dr. Ennett Goes Carteret County

By CHESTER WALSH

The Pitt county Board of Health at a meeting last night at the County Health offices discussed at length plans for selecting a county health officer to succeed Dr. N. Thomas Ennett, who recently resigned to accept the place of Beaufort County health officer with headquarters in Beaufort. Dr. Ennett winds up his connection here tomorrow.

It was stated at the meeting that the County Board of Health will proceed carefully in selecting a new health officer. In the meantime, a local physician will handle important matters for the department.

The Pitt County is composed of seven members. They are: County Commissioners Chairman W. Jasper Smith of Bethel, who is chairman; Dr. "Red" Williams, physician of Farmville; S. M. Edwards, druggist of Ayden; Mayor Jack Boyd of Greenville; Don H. Conley, county superintendent of schools, of Greenville; Dr. B. McKay Johnson, dentist of Greenville, and Z. V. Bunting of Bethel.

Opposition To . . .

(Continued from Page One) neth Wherry of Nebraska, the Republican whip, led the way Monday.

The other three have not made their positions formally known—President Pro Tempore Vandenberg of Michigan; Ohio's Robert A. Taft, policy committee chairman, and Eugene Millikin of Colorado, chairman of the Republican Senate conference.

Palestine Issue Will Go To U.N.

London—(AP)—Foreign Secretary Ernest Bevin said today Britain would take the Palestine issue to the United Nations.

Bevin made the announcement to Arab delegates in the final session of the British-Arab conference which attempted unsuccessfully to solve the Holy Land problem by agreement.

A communique said Bevin told the Arabs that, since no proposal put forward by Britain had proved acceptable even as a basis for further discussion, Britain decided to refer the whole problem to the United Nations.

Benj. Fields . . .

(Continued from Page One) made 59 per cent profit on the transaction.

Fields had given the House committee last August a memorandum showing one third of the commission was to be paid to Glenn A. Dies, an associate; one third to "John Doe" and \$400 to another "John Doe" with the remainder to himself.

In 1931 Fields was sentenced to 15 years by a federal court in Oklahoma for using the mails to defraud in the sale of oil stocks. He was paroled in 1938 and the sentence committed in 1940.
