Nations Give Up Some Sovereign Rights Says Pope

Recent Events Fail To Add Up To Marked Improvement Of World's Outlook For Just And Lasting Peace Says Pontiff

By CHARLES H. GUFFILL and JOHN F. M'NIGHT

(World Copyright, 1947, By the ASSOCIATED PRESS)

Vatican City.—(AP)—On the eve of the eighth anniversary of his coronation, Pope Pius XII told the Associated Press today that nations must surrender some of their sovereign rights if a just and lasting peace is to be achieved.

The development of destructive atomic weapons, with the total war they threaten, should persuade the leaders of nations of their obligation to reach agreements insuring peace, he said.

In the last year—the first entire year of the pope's reign in which there has been no declared warfare—there has been no marked improvement in the world's outlook for peace, he said.

The pontiff evidently was preoccupied over the prospects for the Moscow conference of foreign ministers, which opened yesterday. He nodded assent to comment that the circumstances of the conference's beginning did not augur well for solid achievements in the shaping of peace.

The frail, friendly pontiff, who 10 days ago celebrated his 71st birthday and the eighth anniversary of his election as pope, tomorrow will commemorate at Thanksgiving services in the famed Sixtine Chapel of the Apostolic Palace the anniversary of his ascension to the throne of St. Peter.

Today, quite simply, he received these correspondents in his red and gold library, and talked with them freely on the problems facing the world and the church.

Last year—with the end of the great war which broke out in the first year of his reign—the pope had shown evident concern that the ideal of peace with justice would not be realized. He had announced this ideal at the start of his pontificate, and had urged it upon the world in many other wartime and postwar pronouncements.

Today, he gave these writers to understand that the events of the last year had not greatly raised his hopes.

Today, the pontiff who has set aside so many other precedents hampering his ministry in this modern world laid aside one more and

gave the correspondents permission to record his answers to their questions, although not as direct quotations.

The pope was asked whether events of the last year had tended to dissipate the world's feeling of uncertainty and anxiety over prospects for a just and lasting peace.

Despite the incalculable damage and determined efforts made by certain statesmen and some progress for the moment along one or another particular line, he replied, the events of the last year did not add up to a marked improvement in the world's outlook for a just and lasting peace.

Moreover, the pope said, he is afraid that this unfortunate condition will continue so long as the peace of Europe and of the world is considered solely under the light of what each state demands for its own individual security, and in the existing precarious circumstances one is allowed to increase its strategic positions and present its own neighbor with accomplished facts.

As yet, entered into the building have not entered into the building his hope that the United Nations Organization soon may be placed in the position effectively to assume guarantees for the security of all.

At least six persons were injured. They were taken to General Hospital.

Chief Houston expressed doubt that five of the trapped men could be reached in time to save their lives.

Houston, whose firemen still were digging two hours after the collapse of the brick structure, said: "I talked with two of the men who are trapped on the first floor but their voices are getting fainter by the moment. I believe there are four others under the wreckage in the basement."

The fire chief said all buildings in the area had been weakened by recurring Ohio River floods.

Sam Ostrov, head of the Western Fixture and Bar Supply Co., was trapped in the basement and pinned by debris. He was able to tell firemen that another man was near him and alive.

A Manila barber who related freely and in precise detail how he had thrown the grenade was held in Bilibid Prison. Manila police said he was "a crank," rather than a member of any anti-administration conspiracy.

The United Nations estimates provide more food than Hoover's, he said, and include some help for industrial reconstruction.

Hamilton, Bermuda.—(AP)—British Colonial Secretary Arthur Creech Jones has assured Bermuda's house of assembly that Britain has no intention of transferring Bermuda or any other "British colonies and dependencies in the western hemisphere" to American ownership.

"You may say quite emphatically, Creech Jones informed Governor Sir Ralph Leatham, "that His Majesty's government do not contemplate any transfer of the sovereignty of British colonies and dependencies in the western hemisphere."

Does anyone ever really check it to see whether you're right, or wrong, or maybe cheating?

Every return is checked. But only three per cent are investigated in the sense that a government agent tries to take them apart.

Why are so few investigated; manpower, or rather the lack of it. The Internal Revenue Bureau has about 27,000 auditors and investigators.

HINT SEEN IN COURT RULING OVER FOREMEN

Congress Told To Write New Labor Law Provisions If Unsatisfied

Washington.—(AP)—The Supreme Court left a broad hint with Congress today that if it wants foremen excluded from unions it will have to write a new law on the subject.

A 5 to 4 decision by the tribunal presented these choices to the lawmakers on the controversy over unionization of the men who boss a nation's plants, mills and mines:

1. To write a provision in the Wagner Labor Relations Act relieving employers of the obligation to bargain with a union of their supervisors. This, in effect, would cancel out yesterday's Supreme Court decision.

2. To write a provision specifically extending collective bargaining protection to unions of supervisors which are not affiliated with rank and file organizations. This would pull out by law the interpretation of the present statute which the court handed down.

3. To grant or withhold those privileges where the bosses are members of the same union as production workers. This point has not yet been passed on by the Supreme Court, and probably won't be before next October.

A case involving John L. Lewis' mine foremen's union is headed toward the tribunal but is still before other courts.

Significantly, the court's decision yesterday involved supervisory employees who were not in the same union as the rank and file workers. It concerned the Packard Motor Car

ROXAS SHRUGS OFF BOMBING

"Just Part Of The Game" Smiles Filipino President

Manila.—(AP)—Unperturbed by last night's assassination attempt which he shrugged off as "the work of an amateur," President Manuel A. Roxas this morning cast his oar in favor of equal rights for American investors in the Philippines.

His polling place, at the old Roxas family home, was heavily guarded by presidential palace security guards armed with carbines and Tommyguns as well as by Manila police.

The smiling President waited his turn at the polls. Chattering with women, he termed the would-be assassin an amateur, who didn't wait long enough after pulling the pin of his American-made grenade.

Roxas said he was lighting a cigar when the grenade bounced on the speakers' platform a few feet away. He first realized he was in danger, he related, when Brig. Gen. Mariano Castaneda and Senate President Jose Avellino kicked the grenade into an aisle and shouted "Duck!"

Roxas pushed his wife into a hair while Castaneda, the military police provost marshal, and Avellino shielded them from the blast.

"It's all part of the game, I suppose," the President said with a wry smile.

Before voting, Roxas called at North Hospital where Photographer Emilio Magalang, wounded by the grenade, was reported out of danger.

A Manila barber who related freely and in precise detail how he had thrown the grenade was held in Bilibid Prison. Manila police said he was "a crank," rather than a member of any anti-administration conspiracy.

The United Nations estimates provide more food than Hoover's, he said, and include some help for industrial reconstruction.

Agree To Disagree Over Atomic Plans

Fiscal Action

Raleigh, N.C.—(AP)—A record-breaking \$355,000,000 appropriations bill, including permanent improvements, was reported to the House today soon after the \$311,000,000 revenue bill passed second reading.

The appropriations bill, completed by a \$9,500,000 item for permanent reserve, was reported out by Rep. Arch T. Allen of Wake County, chairman of the House Spending Committee.

The spending measures went on the calendar for tomorrow. They do not require separate readings.

The revenue bill will come up for third reading tomorrow. Most of the difference between the tax and spending bills will come from surplus or increased tax returns.

HOOVER GIVES RELIEF COSTS

Long Or Short Range Relief Program Up To Congress

Washington.—(AP)—The question of whether Congress wants a long or short range foreign relief program was raised today by a report from Herbert Hoover urging that \$155,000,000 be spent in Austria during the next 15 months.

The former President said relief in Austria must continue at least until July 1, 1948, and "I have felt it better to face the fact now" rather than propose "renewed appropriations later."

But Rep. Bloom (D-N.Y.), top Democrat of the House Foreign Relations Committee, told a reporter he believes the report will prefer to take a new look at foreign relief later "and make a supplemental appropriation then if necessary."

Hoover explained in his report to President Truman his proposal would provide Austria with less aid than a United Nations program contemplates but said he has in mind "world supplies and the drains upon the American taxpayer."

The United Nations estimates provide more food than Hoover's, he said, and include some help for industrial reconstruction.

The United Nations proposal would involve spending \$148,000,000 in Austria for the rest of 1947 and in Austria for 15 months, would

RAIL MAGNATE SLAIN; POLICE SEEKING CLUE

Assassination Caps Two Weeks Of Violence In Prolonged Labor Dispute

Peoria, Ill.—(AP)—George P. McNear, Jr., central figure in a prolonged strike on his little railroad, was assassinated last night and investigators attempted today to determine whether the shotgun blasting was a fulfillment of old threats.

In another phase of the investigation, State's Attorney Roy Hull said he would question officials of the striking railroad brotherhoods "and anyone else who might throw light" on the killing of the 55-year-old president of the Toledo, Peoria and Western railroad as the took a walk near his fashionable home.

A close friend of the McNear family, Mrs. Robert Clark, related that as long as two years ago McNear had received threats by telephone from an anonymous caller. One of these calls, she said, carried a threat to "blow up your house."

Another was a warning that McNear's car would be blown up, Mrs. Clark said.

Whether McNear had received any threats recently, Mrs. Clark said she did not know. McNear, she added, was prone to hide such incidents to keep from worrying his family.

McNear's assassination capped incidents of violence along the short-line railroad during the last two weeks. Since 1941 he had defied 13 railroad brotherhoods whose strike against the freight-by-pass line is one of the country's longest labor disputes.

Police have been unable so far to solve the recent firing of shots into an automobile carrying non-union workers near the T. P. and W. yards at East Peoria or the firing into the cab of a T. P. and W. locomotive near Hollis, Ill.

Detective Chief Fred Nussbaum said he was rechecking all witnesses to the McNear assassination to determine whether his killer fired from an automobile or was on foot.

Coroner Chauncey Wood said he found no powder burns on the victims' body, which he said indicated he was not fired upon at close range.

Three witnesses said they saw an automobile speeding away after the shot was fired. No one could be found who saw the shot fired.

Chicago Favored Convention City

Chicago.—(AP)—A bid by Chicago for the Republican party's 1948 national convention has won the approval of a special subcommittee of the GOP National Committee with recommendation of its selection to be made to the full committee next month.

Three other cities—Detroit, Philadelphia and Atlantic City—also submitted bids. The special committee yesterday voted to recommend that the convention meet in Chicago the week of June 21, provided the city "makes adequate financial expense arrangements."

Carroll Reece, GOP national chairman, said he had "no doubt Chicago would raise the money" for the convention, which he estimated at about \$100,000.

Batavia, Java.—(AP)—James W. Ryan, counsel for the Isbrandtsen Company of New York, said today he had cabled Gen. MacArthur protesting against the action of Dutch authorities in using surrendered Japanese personnel to unload the disputed cargo of the American Liberty ship Martin Behrman.

The Japanese took over the work Monday after native coolies had refused to continue unloading the ship, which is chartered by the Isbrandtsen Company from the U. S. Maritime Commission.

Ryan said yesterday he would file a claim for \$10,000,000 damages through the U. S. government unless the Dutch restored the Behrman's cargo within 24 hours and allowed her to sail.

Vandenberg Says Huge Obligations Involved

Decision To Aid Greece Take On World-Wide Flavor As Senator Awaits Presidential Report To Congress Tomorrow

Washington.—(AP)—An assertion by Senator Vandenberg (R-Michigan) that the United States may shoulder world wide obligations by helping Greece sharpened congressional attention today on President Truman's promised report to the Mediterranean diplomatic crisis.

The president goes before a joint session of the House and Senate at 1 p. m. tomorrow for a policy statement which members seem certain to weigh word by word before they reach any decision to pump American dollars and prestige into Greece and Turkey.

There were strong indications that the form in which Mr. Truman couches and proposal to help the two countries may tip the scales for or against American intervention at the strategic backdoor of Europe.

From what they learned at White House conferences, legislative leaders have concluded the president will recommend a loan of \$450,000,000 for Greece and a credit of \$150,000,000 for Turkey.

The jewels were lost off a delivery truck enroute to Mrs. Jewett's home. The necklaces and a \$700 sapphire ring were located with the assistance of a seven-year-old who promised to "go right to work on it" after demanding to see an FBI agent's credentials.

DISASTER HITS BIG BUILDING

Six Men Trapped As Five-Story Structure Falls Apart

Cincinnati.—(AP)—A five-story building collapsed in the Bottoms area of downtown Cincinnati today and Fire Chief Barney J. Houston said he believed six men trapped in the debris were still alive.

At least six persons were injured. They were taken to General Hospital.

Chief Houston expressed doubt that five of the trapped men could be reached in time to save their lives.

A Moscow Newspaper Pins Down The Facts On When A German Treaty Will Be Written; Main Hope Of Conference; Time For Showdown Has Arrived

By DEWITT MACKENZIE

The consensus is that there's small likelihood the Big Four will be able to achieve the main object of their present Moscow conference—the framing of the all-important German treaty upon which the peace and rehabilitation of Europe so largely depend.

Why the pessimism? Well, the Moscow newspaper New Times pins it down rather neatly when it says that a satisfactory German settlement must follow, not precede, a satisfactory settlement by the allies of their mutual relations. Commenting on this viewpoint, the reserved London Times says:

"This is timely and realistic. Unless the tone of discussions, as reflected in much current comment from all sides, can be changed, there is a danger that final and unanimous decisions about Germany may never be taken at all."

That makes sense, although it's wrapping an altogether grim situation in soft language which might well be more blunt. The Big Four

Seniors Entertained

Mrs. J. O. Edwards entertained the Winterville High School seniors at a party on Monday night, February 24 at the Teenage Club room.

The room was attractively decorated with red and white, the senior class colors, with the dance floor decorated by red and white streamers from the other part of the room.

Mrs. Fred Worthington, Jr. directed the games. The guests were greeted at the door by Mrs. Edwards and had pictures of animals pinned on them. Then the group was separated according to the kind of animal and asked to search for corn, which when they found it to make sounds of the animal they represented. Baas, hee haws, cackle, doo, doo, gobble were heard from all directions. Delicious punch was then served by Fannie Sue House and Joyce Hardee. Several other games were enjoyed and then the dancing began. After which Mrs. Edwards, assisted by Miss Alva Ray and Mrs. Worthington and Mrs. H. H. Mobley, served a beautiful lunch. The center was decorated with a small crystal candle holder with red candles, individual cakes with white icing and the words seniors written on top, red and white ice cream and nuts. After everyone was served the candles were lighted and it made a lovely circle around the room. Among those attending were all members of the Senior class of 1947 and their guests, the mascots, Elaine Nobles and Richard McLawhorn, their parents, Mr. and Mrs. Manning Nobles and Mr. and Mrs. R. Over 400 Home Demonstration Club women attended the meetings in February to see the demonstration on Housing in Relation to Health, given by Mrs. Fred T. Langford, Home Demonstration Agent and Miss Vera Belle Lowery, assistant home demonstration agent.

Because of the impossibility of obtaining labor or material during the war years, the 1946 census figures, which are the latest available, probably give an accurate picture of conditions as they are now. These figures were used by the agents as follows: Of the 6,852 occupied units in Pitt county, 280 had running water in dwelling unit, 3,817 had hard pump in dwelling unit, 133 had running water within 50 ft., 2,536 had water supply further than 50 ft. from house, 6,011 had outside toilets, and 787 had no toilet or sanitary facilities.

The Pierce Home Demonstration club meeting was held on February

Installing Traffic Lights 4 Corners

Traffic stop lights have been installed at four dangerous intersections in Greenville, and they are expected to be in operation in a day or two. Police Chief Jim Turner said today.

The stop lights are at Second and Greene, Third and Washington, Fourth and Washington and Fifth and Washington streets.

These intersections are known as "accident corners." Installation of the traffic signal lights is expected to facilitate traffic and make safer for vehicles and pedestrians alike.

Chapter 19

"Just take a look at this," Mr. Halliday was back from Palm Springs with the Saturday afternoon paper. With a triumphant smile, he handed it to Bert and Eddy. "That Mr. Shayne is sure a friend."

Goggle-eyed, the boys read the reporter's glowing write-up:

"SWING WIZARD, BERT McLANE, CONDUCTS ALVARADO MERRY MAKERS AT NEW HACIENDA NIGHT CLUB.

"More than a hundred well-dressed people motored from Los Angeles last evening to applaud the Alvarado Merry Makers at their gala opening at the new Hacienda restaurant and night club, seven miles out along the main road. Nice tribute to the popularity of the band's tall, dark-and-handsome conductor, Bert McLane, who, with his brother, Edward, arrived in Palm Springs a few weeks ago to open their establishment."

The article described the transformation of the fire-wrecked residence into a colorful hostelry, concluding with a wonderful plug:

"Swing music, with an extra something, plus novel entertainment guarantee a lift even to the chronically bored. And if the food served is a fair sample, Palm Springs residents have a gastronomic treat in store. Those who can take a hint will make their reservations early."

"This explains why the phone's

been ringing ever since you left—reservations for tonight and tomorrow!" Eddy said.

"It's better than a thousand dollars worth of advertising," Bert declared with enthusiasm. "Good old Pepper Shayne!"

"You made a hit with him, he said, when you put your show on just for him, last night."

The telephone was ringing again. Eddy answered, like a well-trained operator: "Hacienda Restaurant. How many? Hold the wire, please."

Covering the mouthpiece, he shouted, "Hey, Tony! Party of 12 want to know if you serve Sunday dinner at three o'clock."

Tony came to the door, wiping flour off his hands. He was smiling broadly. "Certainly, Sunday we serve dinner. Other days, tea and dinner only, from five o'clock."

"Yes, we can take care of you," Eddy answered courteously, and hung up. "Phew! This makes a hundred and fifty already."

"Can you manage all this, Tony? Sure you have enough food and everything?" Bert said anxiously.

Tony assured him that he had ample supplies and that, compared with a big hotel, cooking for this crowd was child's play.

Bert saw Pete outside, smoking a cigaret. He couldn't resist crowing. "We're booked solid for tonight and tomorrow, Pete. What have you got to say, now?"

Pete blew a cloud of smoke. "I still say you've got to bring 'em back again. When they find out you're not selling any booze, it's doubtful."

"Oh, come on, be a little cheerful, Pete. I've a hunch you'll be sticking around with us a good long time."

That night, in his tuxedo, Mr. Halliday was maitre d'hotel, and, in her becoming pink gown, Mrs. McLane presided over the busy cash register.

Pete's prediction was all wrong. These strangers were as enthusiastic about the place, the food, the entertainment, as their friends had been the night before. And evidently had a lot of fun on beer and soft drinks. There was a good sprinkling of evening dresses, but most of the crowd, Bert saw with satisfaction, were evidently townspeople, young folks like themselves, who probably would come again. The boys didn't know it, but the homey feeling, the complete absence of formality and swank—was the asset that would bring them often.

At closing time the cash register showed a gratifying intake. When the last car had driven off, they all sat down to coffee and turkey sandwiches. Mr. Halliday put his hand on Bert's shoulder.

"It looks as though your worries are over, boy. That crowd tonight will give you a lot of free advertising, too."

"Well, what I'm worrying about, right now, is how we'll get along without you folks to help us." He turned to Eileen, who sat beside him. "The customers are going to feel gipped if you aren't here to sing for them the next time."

Mrs. McLane looked at Eileen. She seemed as animated as the younger girl by the night's activity. "Haven't you told him yet, Eileen?"

SPEEDY WATER SKIERS—Lou Withey, Grand Rapids, Mich., ski expert, and Marjia Mitchell set a fast pace as they practice water skiing at Cypress Gardens, Fla.

What's she holding back now?" Bert demanded.

Stars in her brown eyes, Eileen told him quietly, "I resigned from position two weeks ago. Bert—before I came down here. I guess I had a hunch that you were really going to need me."

"All my life I'll need you, honey," He hugged her to him, before them all. "But I think you must be psychic. We weren't sure of things, ourselves."

"Your mother must be psychic, too, then," She stopped, letting Mrs. McLane make her own announcement.

"Eileen means I hired a woman to cook for the boarders, when I went home a few days ago."

"You're going to stay, too—for good?"

Their mother nodded. "Mrs. Van Buren has been bored with idleness. She's going to look after everything for me. If your business keeps up like this, Tony is going to need me to look after the baking."

"I told you the women in my life were angels," Bert said, draping an arm around them both.

Pete Seanlon had been listening to the conversation.

"We've still got that Blockey Davis guy to reckon with," he said skeptically. "And don't forget it!"

Strength FOR THE DAY

By EARL L. DOUGLAS

WHAT IS LIFE?
It is interesting to note the different ways in which people regard

There are some who look upon it as an opportunity to wield power. Others think in terms of accumulation. Still others consider a day's work unless it has been filled with pleasure and made exciting by some variety of indulgence. A few think of life as a school of suffering, a discipline preparing them for a higher life to be lived through the eternal ages. Many would say that people who take this view of life are dull, uninteresting, overserious, and with a capacity for joy in their hearts. The contrary is true. People who think of this life as preparation for a larger life are usually happy, vastly contented, kind, and of such attractive quality that everybody loves them. The man who attended Voltaire in his illness said that for all his trials of Europe he would not trade again the death of an infant.

WASHINGTON LETTER

DOORKEEPER STARTS FIGHTING UP ON EMPLOYEES

By JANE EADS
Washington—Monroe L. Meletio, St. Louis, who wears pince nez, a brown suit with a thin blue stripe in it and tan shoes, looks like a cross between a dress man and a banker, has "on the hill" 30 years. For 20 years he was Republican clerk of the House of Representatives.

pair clerk is the man who arranges for a pairing of votes. After roll is called, the majority and minority leaders of the House, or anybody designated by them, tell pair clerk that an absent member of the opposite opinion. Thus, when absent, the two are reported as having voted.

is what some members did during the long drawn-out OPA trial last summer. Members got together permanently paired on subject and never showed up in chamber.

Meletio says being pair clerk is his job. He doesn't think his job is going to be a snap.

Meletio has just been made door-keeper of the House. He sits behind a big desk, smack in a straight line from the factory doors of a big fancy office on the first floor of the Capitol building, his stocky figure outlined against high windows draped with velvet.

There are American-made "oriental" rugs on the floor and black chairs and every now and then a splatoon of the most beautiful blue you ever saw. Though Meletio hasn't been door-keeper very long, he's already set up a new system to keep tabs on 300 to 400 employees, whose salaries range from \$100 a month to \$5,000 or \$6,000 a year.

Employees reporting to the door-keeper are all put in by the patrol committee, whose chairman is Leo Allen (R-III), and it doesn't consider an applicant unless he is recommended by a Republican.

Employees include about 100 men and women who work in the big room, where documents, records, year books and what-else to members, are dispensed. At 25 persons in the document

room, where all bills introduced during a session of Congress are kept; about 35 janitors and lady washroom help, barbers, pages, doorkeepers, and telephone attendants.

Meletio has other duties. It is his job to like it best, too—to announce any dignitaries that arrive at the House. The Speaker recognizes Meletio, and nods, and then Meletio announces.

His very second day on his new job he had the honor of announcing the arrival of President Truman, the president pro tem of the Senate and Senate members and about 60 ambassadors, ministers and attaches of foreign missions here. The last bunch he announced all together.

The making-up and distribution of gallery tickets on important days is another job of the doorkeeper.

more time to consider the proposal. The question was held in suspense.

The ministers decided to hear a report of the interrelated reparations mission, which Molotov suggested be included on the agenda. Bevin, however, suggested that it be considered with the whole question of reparations and this was adopted.

The four then took up the allied control council's report on Germany dealing first with demilitarization.

Molotov opened this discussion by repeating many charges made by Soviet spokesmen.

conferences, pointed up present congressional jurisdiction.

The Michigan senator, twice a visitor at White House talks, in which Mr. Truman discussed the critical situation with legislators, said he is withholding any judgment until a full statement is made to the country by the president.

Vandenberg told a news conference after a meeting of the Senate's 51 Republicans last night he hopes the total implications of any American economic intervention in the Mediterranean will be explained to Congress and the people by the president.

"So far as the Greek loan is concerned," he said, "I simply indicated to my colleagues my opinion that it is not an isolated phase but may prove to be symbolic of a general policy which may have to be pursued around the world, inasmuch as the same fundamentals are involved in so many situations."

Traffic Control

The Traffic Training School for officers which started at the City Hall here on February 18 and is held each Tuesday night, is being well attended. Twelve Greenville and five Washington officers are members of the class. There are 20 similar schools being conducted in various parts of the state. Instructors of the class have been Police Chief Jim Tanner, Judge J. W. H. Roberts, Solicitor Eli Bloom and Attorney Bill Speight.

An FBI agent will be the instructor tonight. His subject will be "The Traffic Problem: The Responsibility of Police in Traffic Control."

"Amber" Is Back On Boston's Bookshelf

Boston—(AP)—"Forever Amber" was back on Massachusetts bookshelves today with the approval of a superior court judge who decided the book was "conducive to sleep" rather than "obscene."

During the three-day trial Judge Francis J. Donahue reported that on his first attempt to read the Kathleen Winsor novel of a gay beauty of England's restoration he fell asleep after scanning a few passages.

Librarians In Talk Before Rotary Club

By WYATT BROWN
The Rotarians were told about libraries and librarians last night by Wendell W. Smiley, librarian of East Carolina Teachers College, and Dale M. Bentz, a member of the ECTC Library Staff, at the Greenville club's meeting.

The speakers allowed that a few years ago libraries were considered a "female" world professionally, but men are entering in increasing numbers. The training required for library work is longer than most fields in that pay bracket, Mr. Smiley brought out.

Librarian Smiley told how county-wide library service is available in eight-fifths out of North Carolina's one hundred counties and that the N.C. Budget Commission granted an increase for this work in the face of its having refused increases for other purposes.

Prior to the program John G. Fleming, Pitt County Chairman of the American Red Cross, announced the annual drive for funds.

Bob Rouse of Farmville was a visiting Rotarian last night. Guests of the club were: Dr. Walter Pott, Jimmy Griffith, and Paul Tart. The program was presented by J. H. Waldrop, chairman of the Vocational Service Committee. Judson Blount, club president, presided.

Protest Quota Cuts On Guilford Sugar

Greensboro, N. C. — (AP)—The Greensboro Merchants Association and Chamber of Commerce have protested the 15 percent cut in basic sugar allotments for industrial users in Guilford County.

The cut was announced Sunday by the Office of Temporary Controls in Washington which said it was brought on by population shifts.

The protests were made to Rep. Darnham (D-N.C.).

Dr. Glenn Haney Kiwanis Speaker In Washington

By CHESTER WALSH
The Washington Kiwanis Club organized about a month ago under the sponsorship of the Greenville club, at its weekly supper meeting at Salsbery's restaurant last night, heard an interesting talk by Dr. H. Glenn Haney of Greenville on "The Spirit of Kiwanis." He congratulated the 31 representative business and professional men of Washington and promised them that as time goes on they will find that Kiwanis is a lifting agency and a promoter of the "good neighbor" spirit. Miss Smith of Greenville introduced the speaker. President Mory Harrington presided. Arthur Tripp had charge of the program.

Kiwanis Lieut.-Governor Ed Rawl introduced Miss Ona Shindler Greenville High School director of music, and her boys' quartet, Howard Proctor and Carl Denton, tenors, and Sam Northrop, baritone and Rufus Stark, bass. The talented and well trained vocalists sang songs the Kiwanians like to hear and the boys made a hit. Miss Elva Bunch, director of music for the Washington club, sang a song and played her own accompaniment.

Greenville Kiwanians present were Rawl, Tripp, Smith, Vice-President N. C. Brooks and Chester Walsh. The Greenville Kiwanians are providing programs for the club for 13 weeks.

The Washington Kiwanis Club is working on plans to observe charter and ladies' night Easter Monday night, April 7, at the army. Carolinas Kiwanis District Governor DuPhree Rhame of Columbia S. C. will be the main speaker. The nine clubs of Kiwanis Division 7 will be represented at the meeting.

Germans To Give Up Confiscated Properties

Stuttgart, Germany—(AP)—The German council of states of the U. S.-occupied zone approved today a law which will restore up to \$125,000,000 worth of properties to persons whose possessions were confiscated during the Nazi regime.

The measure required a full year to draft and must have final approval of the United States military government before it is promulgated.

The Germans announced they believe the law should be extended throughout Germany and that it did not leave enough discretion to restitution courts.

More than 15,000 Jews in the American zone of Germany, who now are strangers running their businesses, will benefit. So will hundreds of refugees who fled Hitler Germany to escape racial, religious and political terrorism.

17 1/8% FREIGHT RATE INCREASE INCREASE IN FREIGHT RATES \$985 MILLION PER YEAR 55 7/10% INCREASED COSTS INCREASE IN WAGES \$1 BILLION 565 MILLION NEW PAY-ROLL TAXES \$90 MILLION INCREASE IN MATERIALS COSTS \$683 MILLION \$2 BILLION 338 MILLION PER YEAR

Why freight rates are going up... Since 1939, railroad employes have had three general pay raises totaling 52 1/2%, and the prices of fuel, materials and supplies have risen 61 1/2%. But when the war ended in 1945, the railroads were still hauling freight at rates no higher, and in some cases lower, than when the war began. Without increased revenues, railroads could not meet these costs and also provide improvements in equipment and facilities—improvements that are essential for the low-cost freight and passenger services which are necessary to America's high standard of living. Under these circumstances—and almost a year after the last major wage increase—the Interstate Commerce Commission recently approved an average increase in freight rates of 17 1/8%. All the price increases in America today, few have been so little and so late as that in the price of railroad transportation. How important are healthy railroads to a prosperous country? Only when the railroads are financially healthy can they provide the new equipment, improved road beds, and better terminal facilities needed for still better service to you. The defense of the nation depends upon the continuance of the efficient transportation which served the nation so well in the last war. The railroads are among the largest employers of labor. They buy over 100,000 different products. They pay big taxes—taxes which are spent not only for public schools, public health, and police, and fire protection, but even for highways, airways, airports and inland waterways. Railroads are America's lifeline—keeping goods flowing among the 48 states day and night in all weather. They can continue to do this only if there is a reasonable balance between income and outgo. Like yourself, the railroads must make ends meet! We are publishing this and other advertisements to talk with you at first hand about matters which are important to everybody.

Feller's Goal, To Pitch World Series
Tucson, Ariz. - (AP) - Know what Bob Feller, the man who may make as much as \$80,000 this year, wants more than anything?
"I'd like to pitch in the World Series," the ace pitcher said in a short pause between workouts with the Cleveland Indians.
"That," the onetime Iowa farm-boy shrugged, "is about all that's left for me."

Dear friends and members of Mt. Calvary F. W. B. Church, greetings and joy extended from Usher Board No. 1 Club to you with great emphasis on fellowship, a gift of a bright new page on which we all have the chance to write new words of hope and courage and determination. Board No. 1 Club served at the morning service on Sunday, March 9th, at Mt. Calvary Church with Rev. Churchill Thomas presiding, after which the senior choir and Board No. 1 accompanied the Rev. Churchill Thomas to Rock Spring Church in the afternoon service.
After the short spiritual journey by the board, a club meeting was carried out as usual briefly at the home of Mrs. Lucy Jones. The hostess served 18 members present a fine tasty refreshing dessert, after which the club members returned to church for practice. Esther M. Porteur, secretary and music instructor of the board had planned a wonderful outline for her group of which all participated wholeheartedly. Their music instructor and secretary has high hopes of arranging Board No. 1 a musical program in the near future. Chairman Claude Brown, Presidents Willie Joyner, Mrs. Roberta Payton, and Mrs. Mary Roundtree are working conscientiously with the board members and instructor to carry out the program. Club adjourned with prayer and chant by Secretary-Treasurer E. M. Porteur.
Prayer for the week - "When earthly help is of no avail, there is one friend who will never fail. Just life your eyes, the answer is there for nobody knows the power of prayer."
Until we meet again at the home of Mrs. Cleo Harris, Pitt Street, March 16, may God bless you all. Reported by E. M. Porteur.

Marquis James tells of "ONE OF METROPOLITAN'S GREATEST YEARS—1946"

IN LINE with its long-established "Open Book" policy, Metropolitan recently asked Marquis James, noted historian and a Metropolitan policyholder, to write the Company's Annual Report to Policyholders for 1946.

Mr. James was unusually well equipped to do this because he had just finished, at the request of the Company, a three-year study of Metropolitan's operations from the time it was founded. The results of this study have been published by the Viking Press under the title of "The Metropolitan Life, A Study in Business Growth," on sale at any bookstore.

In Mr. James' report of the Company's operations for 1946, he tells a story of continued progress in service to policyholders.

He points out—

- that payments to policyholders and their beneficiaries last year exceeded \$630,000,000.
- that 2,400,000 people bought new Metropolitan policies in 1946.
- that the amount of new insurance purchased in 1946 topped anything in Metropolitan's 79 years in business.
- that the gain in insurance in force set a new high record.
- that the Company had one of the lowest death rates in its history.
- that, despite a trend toward increased costs caused primarily by a continued decline in interest rates earned, the

Company has found it possible to continue dividends on Ordinary and Industrial policies during the coming year at the same rates as during 1946.

Mr. James' report is much more than a compilation of statistics. Among other things, he discusses the social value of Metropolitan's investments. For example, he characterizes Metropolitan's housing program as a—

—"vivid demonstration of how private enterprise works for the public good."

Whether or not you are a Metropolitan policyholder, you will find the Annual Report to Policyholders well worth reading. To get your free copy, just fill in and mail the coupon below.

Breadon Takes Look At Cards, Starts Talking

By the Associated Press
 "We have a young team and with this fine-looking squad of recruits to pick from and to develop I don't see how we can be kept out of championship rating for several years."

That's St. Louis Cardinal Owner Sam Breadon talking after his first look at the 1947 Redbird squad at their St. Petersburg, Fla. training base.

"Some baseball people said we didn't have much talent in our minor leagues last year," recalled Breadon, "but this is one of the finest groups of recruits we've ever had in camp."

Other training camp notes:
 Tampa, Fla. — The Cincinnati Reds suffered no special outfield shift for slugger Ted Williams in the Reds' exhibition with the Boston Red Sox today. "We'll play him just like any other good lefthanded pull-hitter," said Johnny Neun Redleg field boss.

Balboa, C. Z. — Stan Rojek, stand-in shortstop for Pee Wee Reese was left behind when the main squad of the Brooklyn Dodgers came to the Canal Zone and there was talk of a deal with any one of a number of National League clubs. That Rojek may go is indicated by Leo Durocher's use of Eddie Miksis as a replacement every time Reese is pulled out of the exhibition games. The Dodgers trounced the Panama Chesters 8-1 yesterday in the opener of their 12-day stand here.

Orlando, Fla. — Al Evans, first-string catcher for the Washington Senators, will be out of action for two weeks. Evans was struck by

a foul tip in Sunday's exhibition, bursting a fluid sac below the knee joint and causing considerable swelling. Rookies Frank Mancuso and Ted Majeski will share the backstopping in the meantime.

Miami Beach, Fla. — Pittsburgh Pirate Prexy Frank McKinney and General Manager Roy Hamey were to go to St. Petersburg today officially to take part in the dedication of All Lang Field, but also to talk with Sam Breadon of the Cardinals. The Bucs are reported to have lined out for Pitcher Murry Dickson, Outfielder Buster Adams and Third Baseman Whitey Kurovski.

Los Angeles — An exhibition with the Portland Beavers of the Pacific Coast League yesterday saw the Chicago Cubs suffer a relapse in the ninth inning, allowing the Beavers to tie the score 5-5 and extend the game to a final 7-7 deadlock before it was called in the 13th because of darkness.

First Round Of Tournament Ends

First round in the Pitt County Basketball Tournament was run off last night in the Wright gymnasium, East Carolina Teachers College with the Arthur girls winning over Bethel by the score of 33 to 11; the Chico girls emerged victorious over Belvoir by a score of 30 to 24 in the boys' division, Winterville defeated Stokes by the score of 41 to 29, Farmville defeated Grimesland by the score of 36 to 21. The second round will be played

Bivins KO'd By Light-Heavy In Fourth Round

Cleveland — (AP) — Cincinnati's Ezzard Charles today was primed for an early title clash with Light heavyweight Champion Gus Lesnevich after his fourth-round blitz of Heavyweight Jimmy Bivins here last night.

Already ranked by the National Boxing Association as the logical contender for the light heavy diadem, ebony Ezzard proved his right to that listing by disposing of Bivins, one of the better heavies who entertained hopes of a title bout with Joe Louis this summer.

The Cincinnati clouter staggered Bivins in the first round with rights to the jaw and continued to jar him in the early part of the second. Bivins began opening up late in that round and Charles was almost dropped by a left to the chin.

The near-capacity house of 11,519 was unprepared for the fourth round knockout, when Charles suddenly connected with a left to the jaw and followed through with a short right.

Bivins hit the canvas and took the count lying flat on his back. It was the first time Bivins ever took the full count.

beginning at 7:00 o'clock onight in the Wright Building. Ayden girls will play Grifton and the Winterville girls will play Stokes. In the boys' division, Ayden will play Chiloc.

The third round Wednesday Farmville girls will play Grimesland, Bethel boys will play Arthur and Grifton boys will play Bethel

Eppes Downed In Semi-Finals By Chance High

Chance's strong high school basketball team advanced near to the final play-off of the North Carolina Negro Athletic Association by defeating Eppes High last night in a nick and tuck contest by the score of 27-24. This was a Class A Eastern play-off.

Taking an early lead, Chance came to a standstill in the first half and Eppes led at the halftime. Hap Davis, with 10 points, led the scoring for the contest and Briley of Parmele was high scorer for the winners with 8 points.

Eppes used Clemons, Taft and Taylor as forwards; Struten and Johnson as guards and "Hap" Davis center.

Chance will meet the winner of the Durham (Hillside) and Laurinburg contest in order to see who will represent the East in the state play-off.

 The defendant, Mary Catherine Suiter Barbee, will take notice that an action entitled as above for absolute divorce has been commenced in the Superior Court of Pitt County on the grounds of adultery, and the said defendant will further take notice that she is required to appear before the Clerk of the Superior Court of Pitt County in his office in Greenville, N. C., on or before March 18, 1947, or within twenty days thereafter, and answer or demur to the complaint in the said action, or the plaintiff will apply to the Court for the relief demanded in said complaint.
 This 18th day of February, 1947.
 D. T. HOUSE, JR., Clerk of the Superior Court of Pitt County.
 Feb. 19-11w-4wks.

Ever Seen a Smashup?

It gets you—being there during those interminable minutes before medical help arrives. The suffering. The anxious waiting. The intense, helpless desire to do something for injured human beings.

Then—the feeling of relief as competent hands take over!

Often it's the Red Cross first—bringing comfort and skilled first aid—before the doctor comes.

Yes, your American Red Cross mans 12,000 highway first aid stations and mobile units to fight the terrible toll of America's fourth biggest cause of sudden death—accidents.

Too, your Red Cross works continuously to prevent accidents. Sound programs for water safety and home safety save countless lives every day.

Think about that when your American Red Cross neighbor comes to call. Think—and give gladly to your Red Cross.

GIVE—so your RED CROSS can carry on!

Yes, your American Red Cross mans 12,000 highway first aid stations and mobile units to fight the terrible toll of America's fourth biggest cause of sudden death—accidents.
