Negotiations Drag On In Telephone Walkout

Counsel For Striking Long Distance Phone Operators Says Optimistic Reports Groundless; Night Session

New York—(AP)—Henry Mayer, counsel for striking long distance telephone operators, said tonight that reports of settlement of the strike within 24 hours are entirely groundless.

Washington—(AP)—Negotiators in the nationwide telephone strike ended an eight-hour session early today with agreement almost within reach for a key unit in the vast Bell System.

All indications were that the cross-country shutdown would continue for at least another 24 hours, however.

The last-minute obstacle in government-aided negotiations for the long distance lines of the American Telephone and Telegraph Company involved the cost of arbitrating wages and other issues in dispute.

It was learned from persons close to the night-long discussions that the company proposed submitting its case to three arbitrators. The union tentatively agreed to arbitrate but wanted it to be a one man job. The union said it could not afford the \$20,000 it estimated a three-man panel would cost.

Top flight arbitrators get \$100 a day, and the record would cost another \$200, the union figured, making a total of \$500 a day. The case run about 40 days, the bargaining committee for the 20,000 long lines workers said.

As a compromise the union offered to assess its members \$1 apiece, if the company would check it off the workers' paychecks. This the company refused to do, and the stalemate on that point forced postponement of the negotiations—strategic in the whole nationwide strike picture—until 10 a.m.

Past practice has been for the government to assume arbitration costs in emergencies, but this was ruled out because of sharp cuts by the House in the Labor Department's appropriation for the next fiscal year.

Representatives of the company, union and this government Conciliation Service said at the end of a conference which lasted until 4 a. m. that they had come close to reaching agreement on disputed issues between the American Telephone and Telegraph Company's Long Lines Division and the American Union of Telephone Workers.

The union's an important segment of the striking National Federation of Telephone Workers. Assistant Secretary of Labor John W. Gibson and Conciliation Director Edgar L. Warren told newsmen "we have got the printing press going" but that the meeting had to be recessed until 10 a. m.

Washington—(AP)—The House committee on Un-American Activities voted unanimously today to cite Eugene Dennis, communist party secretary, for contempt after he failed to respond to a subpoena.

The committee also decided to ask the justice department to look into the possibility of prosecuting Dennis for conspiracy to commit contempt.

The contempt citation will have to be approved by the House, referred to a U. S. district attorney, and become subject to a grand jury indictment. The maximum penalty upon conviction is a \$1,000 fine and a year in jail.

Conviction on conspiracy to commit contempt is punishable by a maximum of \$10,000 fine and two years' imprisonment.

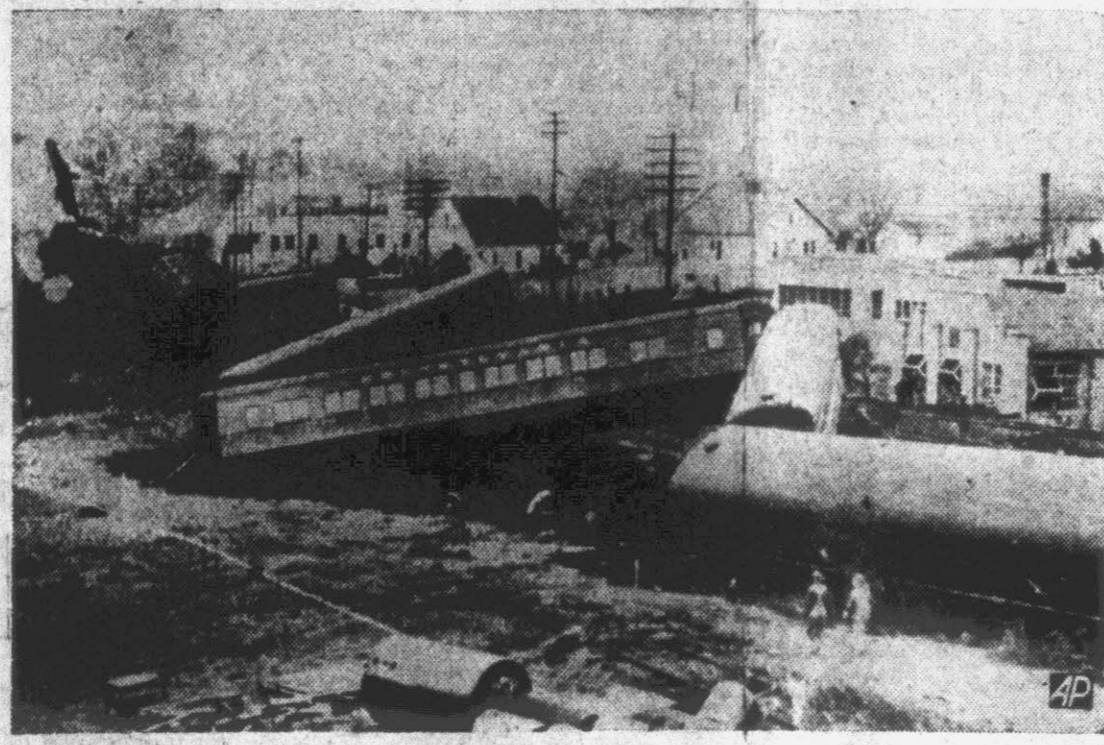

The committee also voted to ask the justice department to consider prosecuting Leon Josephson and Gerhart Eisler for conspiracy to commit contempt.

The committee has received evidence that Josephson participated in a Soviet espionage and false passport ring in America. It has called Eisler the supreme communist authority in this country.

Both Josephson and Eisler, like Dennis, have challenged the right of the committee to question them on grounds that it is illegally set up.

Pennsylvania Train Wreck In Indiana Injures 40

Cars of the Pennsylvania Railroad's passenger train, the Gotham Limited, lie scattered like jack-straws at Columbia City, Ind., after the locomotive and 13 cars were derailed. About 40 of the train's 300 passengers were injured. No one was killed. The locomotive is at far left headed east. The limited was en route from Chicago to New York. (AP Wirephoto)

GROWING LIST FOR GOVERNOR

Two More Join Ranks Of Possible Candidates In 1948

Raleigh, N.C.—(AP)—The names of Secretary of State Thad Eure and C. L. Shuping, Greensboro attorney and former democratic national committeeman, were added today to the growing list of possible candidates for governor next year.

Eure said today that it was "neither impossible nor improbable that I will be a candidate." Secretary of state since December, 1936, he also has been mentioned as a possible candidate for the U. S. Senate.

Although Shuping withheld comment on reports that he might announce, his name was mentioned here in connection with a reported move to defy the traditional swap between the east and the west. Supporters of that move argue that the Piedmont has been ignored too much.

Meanwhile, State Treasurer Charles M. Johnson said today that he probably would announce for governor "within the next two or three weeks," adding there were a few matters to be attended to before he threw his hat into the ring.

In connection with the Johnson announcement, it is believed that Rep. J. B. Vogler of Mecklenburg will announce for treasurer after Johnson's formal statement.

Lieut.-Gov. L. Y. Ballentine is known to be seriously considering running.

A number of others also have indicated they were giving thought to the race, but as yet no one has formally announced, although R. Mayne Albright of Raleigh has said he would run.

Wallace Fears War Crisis In Truman Policy

London—(AP)—Henry A. Wallace said today he feared the Truman policy of lending money for what he called "the political purpose of stopping a Russian expansion" would establish during the next three months a pattern which might lead to war.

The former vice president of the United States fixed no date for a war crisis in his hypothesis, but he told more than 200 newsmen in a news conference that he felt a sense of urgency in "watching these two great giants, America and Russia, getting ready for a death struggle."

Asked what specific action he recommended, Wallace said: "We should make clear that American power is being used to increase the productivity of the common man in peace all over the world, instead of being used to divide the world into warring camps."

For his own role, Wallace said he felt he could not help the cause of peace by a trip to Russia now because "I would be under suspicion from both sides."

Sinatra Bruises Movie Columnist

Hollywood—(AP)—Frank Sinatra, the crooning idol of the bobby soxers, took an assortment of pokes at Lee Mortimer, 42, movie columnist for the New York Daily Mirror at Ciro's Night Club late last night Mortimer told sheriff's deputies today.

Mortimer appeared at the West Hollywood sheriff's station, his head bruised and, sheriff's Deputy R. I. Wright said, claimed Sinatra "and three heavies" set upon him without warning, knocking him down and pummeling him.

Subsequently a representative of Sinatra said the fracas was set off when Sinatra overheard Mortimer call him an unprintable name, claiming the crooner's two-year irritation over articles Mortimer had written about him.

Lilienthal

Washington—(AP)—The Senate came to a final vote on confirmation of David E. Lilienthal today with his backers claiming gains in strength since their 52 to 38 victory in a preliminary test last week.

By unanimous agreement, the Senate set 5 p. m. (EST) for its decision on the nomination of Lilienthal for chairman of the Atomic Energy Commission.

This will be followed by votes on confirmation of the other four commissioners individually. They are Robert F. Bacher of New York, Sumner T. Pike of Maine, Lewis L. Strauss of Virginia, and William W. Waymack of Iowa.

FORD EMPIRE PAYS TRIBUTE

Humble And Proud Meet At Bier Of Fabulous Mechanic

Detroit—(AP)—The humble matched strides with the proud today past the bier of Henry Ford whose industrial genius captured the imagination of the world.

The family, its grief at his sudden death locked in the heart, invited the public to share its final respects to Ford, who succumbed Monday night of a cerebral hemorrhage at the age of 83.

They were to come today, the grimy mechanic from the automotive plant, the gray men and women who followed his fabulous rise from the obscurity of a farm near Detroit, and the titans of industry to pay tribute to a dangerous but respected foe.

The body was to lie in state until 10 p. m. tonight at Greenfield Village, amid the monuments of Ford's—(Continued on Page Four)

Will Institute Milk Program

Raleigh, N.C.—(AP)—The State Agriculture Department, acting on legislative authority, planned today to "set up an adequate milk program necessary to protect consumers."

Director C. W. Pegram of the State Dairy Laboratory, said that although authorized in 1945, only recently could all the necessary equipment be obtained. It now will be in a position to do a better job from the standpoint of "adulteration and mislabeling," he said.

"Since the legislature did not see fit to pass legislation of a statewide nature, giving the State Board of Health authority in the general statewide program, the Board of Health through the local county units can certify milk as to grade and quality," he said.

Truman Stealing GOP Thunder Asserts Reece

Washington—(AP)—Extra! Extra! Republican high command agrees President Truman is more popular than he was last November!

But wait a minute. There's a hitch to it. GOP Chairman Carroll Reece conceded an upswing in the President's popularity in a talk prepared for a group of Republican women today. It was enough to knock his listeners off their seats. But the speaker quickly pulled them back.

He said Mr. Truman had "appropriated" some of the Republican program.

Reece, asserting that Administration "apologists" have made much of popularity polls "purporting to show that the President is more popular now than he was last November," continued:

"I am inclined to agree that he is somewhat more popular now than he was last November. And as I see it, the reason for this improvement in his position lies in the fact that he sought to appropriate to himself, ostensibly at least, some important parts of the Republican program. His present anti-Communist crusade is a good example of what I have in mind."

Reece said "it is flattering, of course, to have the President adopt this 'me too' technique of campaigning for election next year."

"If Mr. Truman wishes to campaign for the Presidency on a Republican platform, I am willing to accept that as an indication of his good judgment and I believe such procedure would be good for the country generally."

POLICE FIND DEAD RECLUSE

Langley Collyer Victim Of Own Booby-Trap Say Officers

New York—(AP)—The finding of Langley Collyer's body amid the filth and squalor of the once fashionable home he shared with his blind brother Homer left the long-provocative Collyer legend just about finished today.

There will be an autopsy to determine the cause of death—but police held little doubt the 61-year-old recluse, whose rat-gnawed body was found late yesterday, had been the victim of one of his own booby-traps, rigged to tumble heavy junk on an intruder.

Langley's body was wedged between a wooden dresser and iron bookcase which evidently had supported the heavy debris that had fallen on the body.

"This only bears out what the police thought all along—the Collyer was caught as the victim of one of his own booby traps," said Police Commissioner Arthur W. Wallender.

A rat described by a detective as "big as a rabbit" ran away when the body was uncovered.

Homer had died only nine feet away—partly from malnutrition.

The Collyer brothers were reared in a prosperous, old and cultivated family, the sons of Dr. Herman Livingston Collyer, a gynecologist who died in 1923, and Mrs. Susie—(Continued on Page 5)

Pleas For Money Swamp Oil-Man

Houston, Tex.—(AP)—A flood of mail from virtually all over the world has swamped the office force of H. R. Cullen, wealthy Texan whose gifts in recent months to have reached an estimated \$165,000,000 or more in oil properties.

The mail, estimated at 200,000 pieces, includes many appeals for aid for all sorts of causes.

"Obviously I have no recourse but to burn this vast lot of mail. It would take my secretary ten years to even get this enormous accumulation," Cullen told a reporter yesterday.

Schacht Begins New Fight For Freedom

Stuttgart, Germany—(AP)—Pale and drawn after three years in various prisons, Hjalmar Schacht one-time top Nazi financier, opened a new fight for freedom before a German denazification court today.

Schacht demanded his acquittal on the grounds he had never been a Nazi party member and could prove he had tried to oust Adolf Hitler.

The Coast Guard immediately dispatched a seaplane from Elizabeth City; the cutters Cherokee and Agassiz from Norfolk, the buoy tender Speedwell from Chesapeake Bay and motor lifeboats from the Parramore and Machipongo lifeboat stations.

Coast Guard headquarters in New York said that a Coast Guard PBM plane also had been dispatched from Elizabeth City, N. C.

The vessels in collision were believed to be in a foggy area, the Coast Guard added.

Slow Progress In Dawson Trial

Kinston, N.C.—(AP)—Judge Q. K. Nimcock threatened today to hold night sessions of Superior Court to expedite the manslaughter trial of Joe Dawson, former Kinston recorder.

German Frontier Revision Opposed

Anglo-American Plan Would Put Agricultural Lands Inside Germany; Quote Stalin Speeches; Molotov Still Obdurate

Moscow—(AP)—Britain and the United States proposed to the council of foreign ministers tonight a revision in the present German Polish frontier to put agricultural lands inside Germany, but Russia opposed any changes.

French minister Bidault proposed that the whole question be studied further but he did not commit France as being in favor or opposed to present German boundaries.

Secretary of State Marshall and British Foreign Secretary Bevin quoted heretofore secret speeches of Stalin at Potsdam to show that the generalissimo did not consider as final the present administrative Polish border—set at the Oder and Neisse rivers by the big three Potsdam conference.

Both maintained that Stalin agreed that the border set at Potsdam was provisional and would be settled finally at the peace conference.

Marshall proposed that the council of foreign ministers name a special boundary commission to recommend a permanent German-Polish frontier.

The commission would be composed of the U. S., Britain, Russia and France, plus Poland and some other allied states.

Marshall suggested that the commission also study measures to assure that the natural and industrial resources in question shall fairly serve the economic needs of Europe.

The United States developed a German boundary program which would retain the Ruhr in Germany and Upper Silesia in Poland.

At the same time the program would give other European states a hand in administering the vital economic resources of both regions.

The main points of the program are 1. The council of foreign ministers should accept the principle that the resources of the Ruhr and Silesia must fit into the whole European economy so that neither Germany nor Poland should have exclusive control.

2. The U. S. is willing to agree to French demands for the Saar.

3. German areas which Poland now is administering under the Potsdam agreement, including East Prussia, Upper Silesia and north-east Pomerania, should be given fully to Poland, but the agricultural lands immediately east of the Oder and Neisse river lines should be restored to Germany.

4. The Ruhr and Rhineland for which the French have been demanding separate regimes, should be retained in Germany.

Washington—(AP)—Owners of the seized soft coal mines accused John L. Lewis today of engineering a "deliberate and premeditated" new strike by his United Mine Workers in defiance of federal courts.

The Justice department kept secret its own view pending another appearance by Lewis tomorrow before the judge who pestered him and the UMW with fines totaling \$3,510,000 for violating a no-strike order last December.

The order holds good until the government returns the pits to private ownership.

The National Coal Association declared the latest move by Lewis is a "deceitful dodge" intended to break up a back to work movement which brought bituminous production up to 40 percent of normal yesterday.

Lewis advised his union locals by telegram during the day that he approves "resumption of production at each mine as fast as it is certified by federal mine inspectors as being in conformity with the federal mine safety code."

John D. Battle, executive secretary of the Coal Association, asserted in a statement:

"He is in reality telling his miners not to return to work until the federal inspectors have had time to revisit all the mines and recertify them—a matter of weeks or months."

Capt. N. H. Collisson, the Coal Mines Administrator, turned down last Saturday a demand by Lewis that the government close the mines until federal inspectors certify their safety.

Collisson advised Lewis that except for 516 mines which the government had shut down as hazardous he would permit the pits to reopen if the operating manager certified them as safe and the local union safety committee made no claim of "imminent danger."

Lewis goes back before Judge T. Alan Goldsborough tomorrow to ask for the return of all but \$710,000 of the fines assessed in connection with the 17-day walkout which began last November.

Grade "A" Milk Supply Located For Greenville

Milk consumers in Greenville tomorrow will receive Grade A milk for the first time since war conditions made it almost impossible to procure the best quality milk.

John E. Webb, manager of Carolina Dairy Products, Incorporated, stated this morning that he had been able to find a source of supply at Cumberland, Md., and that beginning tomorrow the milk delivered locally would again carry the Grade A cap. Working in cooperation with Mr. Webb, the State Health Department sent inspectors to the Cumberland area to check on the source of the milk and they have also made a thorough inspection of the plant here and its methods of handling milk and placed their stamp of approval on the new supply and on the local firm.

The milk situation has been acute and alarming throughout the state for some time and Mr. Webb today expressed pleasure that he was able to again assure this community of an adequate and absolutely safe milk supply.

Economic Advisers Meet With Truman

Washington—(AP)—President Truman explored the economic possibilities of rising prices during an hour and 40-minute cabinet session today, but the White House announced afterward "no action was taken or is planned."

Charles Ross, presidential secretary, gave this report to newsmen after the special midweek session of the cabinet and Mr. Truman's top economic advisers.

Added to the lineup around the cabinet table were Edwin Nourse, chairman of the president's economic advisory council; Marriner S. Eccles, chairman of the federal reserve system, and James E. Webb, budget director.

The participants referred all of the questions to Ross. He said there was a general discussion of the price and economic situation and that President Truman did a lot of listening.

Ross declined to detail Nourse's report on the inflationary outlook. Yesterday, Nourse told reporters he viewed it as serious.

Ross said Nourse gave the cabinet officer a four or five page memorandum on economic matters. Then each cabinet officer gave his views.

But Ross said the official family made no attempt to arrive at a consensus.

The presidential secretary added that the earlier description of the meeting as a sort of seminar turned out to be a good one.

"I feel as if I've been in a session of a graduate class in economics," Ross said. "It was very enlightening."—(Continued on Page Four)

Ships Collide, Freighter Tries To Make Port

Norfolk, Va.—(AP)—The freighter American Farmer advised the Coast Guard at 9:36 a. m. today that she had been damaged in a collision with the large Collier Pittsburgh Seam 50 lies northeast of Cape Henry and was "trying to make Newport News."

She was hit on the starboard side between No. 4 and No. 5 holds and was listing nine degrees to starboard, the freighter radioed. The collision occurred off Parramore Banks whistling buoy.

The Coast Guard immediately dispatched a seaplane from Elizabeth City; the cutters Cherokee and Agassiz from Norfolk, the buoy tender Speedwell from Chesapeake Bay and motor lifeboats from the Parramore and Machipongo lifeboat stations.

Coast Guard headquarters in New York said that a Coast Guard PBM plane also had been dispatched from Elizabeth City, N. C.

The vessels in collision were believed to be in a foggy area, the Coast Guard added.

Discourse On Prices

Here's Where You Fit In: Living Costs Up 53 Per Cent Since 1939; Terrific Jump Last Year; President Worried; That Word "Recession" And Definition

Washington—(AP)—Here's where you come in on all this talk about high prices.

The cost of living has gone up 53 percent since 1939.

That's why every housewife knows the meaning behind President Truman's appeals to businessmen to cut prices.

The President is so worried about prices now that he called a special Cabinet meeting today to talk about them.

He has reason to be worried. So do you. We're having a real inflation, you may not like the word. But that's all.

You may not like to hear this either, but it is what's beginning to scare some businessmen and government officials:

Unless prices start coming down we may have a "recession." That's a pretty word, "recession." It's fancy for depression.

A recession may start by being only a mild depression but, once it starts, no one can tell when it will plunge into a real depression.

Sound gloomy? Maybe so. But that's where we stand at this minute. We have inflation and may have a recession.

This will show you just how real the inflation is by showing you what happened to your living costs since World War II in August, 1939.

Between August, 1939, and June, 1946, the cost of living rose 33 percent.

But that was only a 33 percent rise in six years and eight months.

In the next eight months—between June, 1946, and February, 1947—living costs jumped another 20 percent, or 53 percent above August, 1939.

Living costs hit that 53 percent mark last December. They've stayed there. They're there now.

Why the terrific jump between June, 1946, and February, 1947? Because in that time OPA all but died and almost all price controls went out the window.

Businessmen wanted it that way. "Take controls off. We'll produce goods. We'll compete with one another for customers. We'll have to cut prices to get customers."

It sounded good. But it didn't happen. Business jacked up their prices.

Frying Pan And Fire

Jumping From The Mired Arguments Over German Reparations And Form Of Government To Deciding German Frontiers Is No Solution For Ministers

The Big Four foreign ministers in Moscow have broken their conference deadlock, but the way it looks from here they've done so by the unprofitable expedient of jumping from the frying pan into the fire.

What has happened is this: The parley got badly bogged down in the mired arguments over German reparations and the form of government to be installed. In order to escape this predicament and prevent a complete collapse of the meeting, the ministers yesterday agreed to take up other subjects.

And first on the agenda is the problem of the German frontiers—one of the most controversial issues because the bitterly debated Polish-German boundary is involved.

So while there still is life in the conference, it doesn't follow that where there's life there's hope. The chances for early accord over a German treaty are about the size of a mustard seed.

The argument about what form of provisional government should be given Germany had been long and hot. The Western Allies had stood out for a loose federation, the idea being to break the country into its component parts and thus pre-

vent a centralization of power which might enable the Germans to undertake further aggression.

Finally Soviet Foreign Minister Molotov proposed that the German people be permitted to choose by plebiscite the form of government they desire. America, Britain and France promptly stepped on this as inviting more trouble from the Reich. Western diplomats also figured that Molotov's proposal was put forward with the idea of placating the German public in the matter of Russian demands for \$10,000,000,000 reparations from the defeated nation.

Observers have noted another possibility in connection with the Soviet proposal for a centralized government. Such a set-up might make it easier for Moscow to acquire political control of all Germany, which is the key position for any power aiming at domination of the continent.

Of course a German government must be so constructed as to carry out the original allied agreement to expiate militarism and nazism and to make sure that the country never again will threaten world peace.

He is a native of Brevard, and was educated at Davidson College, Georgia Tech and the Cincinnati Art Academy. He spent sixteen years as artist and art director with various printing and advertising firms in Charlotte, Atlanta and Houston. About five years ago, while a member of one of the south's largest advertising agencies, he decided to turn from his successful career in this field to devote all of his time to painting.

Since then he has been active in Texas, Oklahoma, Colorado and North Carolina. He has divided his work between landscapes in water color and about fifty portraits in oil. He began to exhibit his work about three years ago and since then his paintings have been shown in the American Water Color Society's annual exhibit in the National Academy in New York and in numerous art galleries and museums. Included among them are ones in San Antonio, Dallas, Houston, New Orleans, Atlanta, Charlotte, Chapel Hill and Duke University. Elected to membership in the southern State Art League last year, two of his water colors are included in its current traveling exhibit.

Last August he held a one-man show at the State Art Gallery in Raleigh. The exhibit broke the gallery's 23-year record for attendance and number of paintings sold. In commenting on this exhibit the News and Observer said, "By far the best exhibition that the N. C. Art Society has put on. It has attracted more attention than any similar exhibit ever shown in Raleigh." The Greensboro Daily News added: "It is not often that an artist captures the beauty of these common sights with the simplicity, integrity and charm evidenced in these paintings. North Carolina owes many thanks to Kenneth Harris. It may be that he is the kind of an artist she has been waiting for."

More recently he was commissioned by a major oil company for an extensive series of paintings of West Texas and New Mexico scenes. These are to be published soon, and as a result of this commission, he has been given a new series and is now engaged in working on that. Mr. Harris now has a painting on exhibit in the Virginia Museum of Fine Arts at Richmond as part of its exhibit "Contemporary Art in the South."

eastern section of the state. The symphony concert will be sponsored by the college entertainment committee and will be a number on the series offered here during the school year.

In addition to the concert on Monday evening, the orchestra will present a free performance in the afternoon for children in this area

Mr. Harris will come to Greenville today and tomorrow will open a one-man show in the Art Gallery Thursday afternoon at 4 o'clock. He will speak using for his subject "What an Artist Owes the Public—and What the Public Owes the Artist."

The public is cordially invited to hear Mr. Harris and to see his exhibit which is made up entirely of scenes in North Carolina—part of them made near Durham and part around Wrightsville where he now lives with his wife, the former Dr. Irene Anderson and their two children.

Planning Cancer Drive In April

By MRS. W. C. HARRIS, Publicity Director.

In Greenville and Pitt county at the present time plans are being made and organizations completed for the 1947 cancer campaign to be put on during the month of April.

The Greenville chapter of the American Cancer Society is working in cooperation with the state and national organizations in putting on this campaign for the control of cancer through education, service and research and is being directed by: Mrs. Helene Higgs Kirkpatrick, Pitt county commander; Dr. J. L. Winstead, county campaign chairman; Mrs. W. C. Harris, publicity director; Charles H. Whedbee, radio chairman; W. H. Woolard, treasurer. K. T. Furell is a member of the permanent executive committee.

Mrs. L. W. Tracy and Mrs. G. N. Renfro are serving respectively as commander and co-commander of the Greenville unit and will have charge of the organization for, and the actual solicitation of funds in the city. For a successful drive additional workers must be found until there are sufficient to do a thorough canvass of all people in our community. Volunteer workers are needed to assist in this campaign.

Frederick K. Stamm has said "All we have to do to preserve the heroic in man, is to set them fighting their real enemies, and the real enemies of mankind are ignorance, disease, superstition and war. The most treacherous of all diseases is cancer. Therefore, give when called upon, and give generously through your local chapter of the American Cancer Society whose great coordinated attack on cancer is opening a new era of hope to millions.

Unless we act, one in eight will die of cancer. Guard those you love. Give to conquer cancer.

New Trial For Howard Moore

By CHESTER WALSH

The State Supreme Court today granted a new trial to Edward E. Moore, Negro, of Greenville, convicted in Superior Court here last August of assault with intent to commit rape and sentenced to seven to 10 years.

Moore contended there was insufficient evidence to convict him of the charge. The Supreme Court upheld the claim.

At Moore's trial here it was testified that he followed Mrs. Emily Jones, cashier for a local theater several blocks on West Fourth street on the night of last May 26; that he went ahead of her, stopped and then accosted her near Sam Northrup's home; that she ran to Northrup's porch for protection. Her assailant disappeared. Mrs. Jones said she could recognize him and that he wore loud "clacking" heelplates. Police apprehended him a week later on a charge of assault with intent to commit rape.

In Police Court, Judge Jimmy Roberts found probable cause and bound Moore over to Superior Court under \$5,000 bond.

In habeas corpus proceedings in Kinston on June 11, Judge R. A. Thompson said testimony was not sufficient as to the attempted rape charge and reduced Moore's bond to \$500.

George Williamson Died Early Today

George Riley Williamson, 73, died at his home near Stokes at 8:05 a. m. today after being critically ill a week. Funeral services will be conducted at the home Thursday at 3 p. m. by Elder A. B. Ayers and Elder B. S. Cowan, Primitive Baptist ministers of Bear Grass Burial will be in the Robersonville cemetery.

Mr. Williamson was born and reared near Bethel and spent most of his life in the Bethel and Stokes communities.

Surviving are his wife, Mrs. Amanda Jefferson Williamson; three sons, William Luther Williamson of near Stokes, George G. Williamson of Tarboro and James Daniel Williamson of Pinetown; six daughters, Mrs. Maggie Bullock of near Norfolk, Va., Mrs. Hattie Terry of Robersonville, Mrs. Rosa Dail of Tarboro, Mrs. Mary Edwards of

Southpaw Truman Warms Up Again As Ball-Thrower; Best Since Taft

By ARTHUR EDSON

Washington—(AP)—The first ball thrown this baseball season probably will be the best Presidential pitch since the days of William Howard Taft.

The pitcher, of course, will be H. Truman, a well known left-hander. There has been no official announcement. But Mr. Truman has promised that—barring complications—he will drop around April 14 for the opening game between the Washington Senators and the New York Yankees.

Since the President looked very good last year in his first try in the majors, he doubtless will look even better this April.

And that will be very good indeed.

The authority for this is Morris A. Bealle, the town's No. 1 fan and near Paclous. Mrs. Annie Jones of near Bethel and Mrs. Josephine Butts of near Fountain; several grandchildren; and a brother, James Alfred Williamson of Norfolk

Wants Woodcock For Next Fight

New York—(AP)—The quest for a challenger for Joe Louis' heavyweight title assumed an international aspect today with Matchmaker Nat Rogers gone to England to stalk the only foe the champion is interested in meeting for his scheduled June tea party in Yankee stadium.

The objective of Mike Jacobs' emissary is, of course, to sign Empire Title-holder Bruce Woodcock, who at the moment is playing hard to get. And although the Briton is far from ready, the word has gone out that Woodcock is the man most likely to be on hand when Joe comes out for the 24th defense of his diadem.

Strength FOR THE DAY

By EARL L. DOUGLAS

A GREAT WORLD NEED

In the eighth chapter of the Epistle to the Romans, St. Paul says that "the earnest expectation of the creation waiteth for the revealing of the sons of God." In modern parlance this means that with earnest expectation the world waits for the revealing of men with the real Spirit of God in their hearts.

Great scientists may bring the world much happiness and usually do, but they also bring the world much grief, if they use scientific discoveries to blight human life instead of to build it up. Military men in time of danger are indispensable, and many a soldier has put the world under lasting debt to his fidelity. Always we need statesmen, administrators, and business men who keep the economic order in good running shape. But above everything else we need men with the Spirit of God in their hearts. It makes not so much difference what profession they hold in life; the important thing is that they be distributed like brightly burning tapers in the midst of a dark world, to take the chill off its unkindness and to light men through the darkness of discouragement.

In every business firm today, the high executives are looking for what they call "a high type man." A broker and distraught world is waiting in expectation for the revealing of sons of God, children of light, who will lead sad multitudes into the brightness of a new day.

WASHINGTON LETTER

Washington—Ever since she came to the capital, 16 years ago, Mrs. Dennis Chavez, wife of the Democratic senator from New Mexico, has been collecting place cards from her dinner partners.

Mrs. Chavez has gone to a lot of dinner parties in that time, and she has had many a famous gentleman for a dinner partner. She collects the cards and stores them away for the time when she will write a book of reminiscences.

A recent requisition is a place card autographed by President Truman. Mrs. Chavez sat next to Mr. Truman, and she asked him if she might have his card for her collection.

The card was inscribed according to protocol, merely: "The President," but Mr. Truman volunteered to autograph it.

The marriage of Senator and Mrs. Chavez's daughter Gloria to Jorge Tristram, son of a wealthy Puerto Rican sugar planter, was one of the spectacular events on the town's social calendar last year.

Margaret Truman, daughter of the President, was one of the 12 attendants, and all of the top-notch society folk of the capital attended the splashy reception.

Mrs. Chavez has filled a whole "memory book" with cards, clippings and what-not on that affair.

Pretty and youthful-looking Mme. Slavik, wife of the Czechoslovakian ambassador, speaks seven languages fluently—Czech, Slovak, Hungarian, German, French, English and Polish—and has a nodding acquaintance with Russian.

One of the most popular of the capital's diplomatic wives, Mme. Slavik nevertheless is nostalgic for her great brick home in the High Tatras in the Carpathian mountains.

From October through March, Mme. Slavik's skiing is a necessity in the region from which she comes. At night, instead of calling taxicabs, party-goers ski from one place to another in evening clothes.

While the Philippine Ambassador, Joaquin M. Elizalde, is visiting his old home in Manila and getting his first glimpse of his eight-month-old grandson, the new Philippine embassy is being done over.

The re-decoration is all being carried out according to the ambassador's own dictates, with special places of honor for the 60 or more silver cups. These were won by Mr. Elizalde and his brothers when they had a one-family polo team that was internationally known.

peace. With this in view the Western Allies have been encouraging the Germans to establish state and local governments and, so far as feasible, to run their own affairs under guidance of the occupation authorities. There has been recognition, however, that it would be dangerous to allow political coalescence of the German population before nazism and the spirit of aggression had been eradicated.

It will take a long period of education to achieve these results. Regarding the border questions the Polish-German frontier along the Oder River was settled—so far as the Poles and the Russians were concerned—before the war ended. Russia awarded Poland the rich Silesian area of eastern Germany as compensation for the eastern half of Poland which was annexed when Hitler overran the western part at the beginning of the world conflict.

Both Russia and Poland claim that the Western Allies agreed to this Polish-German frontier, while the latter say there was no definite settlement. Furthermore the Western Allies express the belief that German economy has need of some of the resources of Silesia.

This Polish-German frontier question presents a particularly tough problem because the Poles already are in occupation of the territory—and the wise men say possession is nine points of the law. Not only have the Poles occupied the area but they have evicted large numbers of Germans and replaced them with Polish settlers.

This one can see that if any when a German treaty finally is drawn up in it will represent a lot of bargaining among the powers.

prices and they've kept them there. This isn't true of all businessmen. Ford, Plymouth, International Harvester and some others—but no many—have cut prices in an attempt to set other businessmen to follow them.

Few have followed. Last Saturday President Truman asked businessmen not to "go whole hog for profits."

He said that if they don't stop being hungry for profits, this will happen:
People will stop buying. Which will mean business will have to cut down on the amount of good it produces. In turn, that will mean will mean business will have to avert the recession.

A lot of business men complain now they're afraid to cut prices because they don't know what wage

demands the big unions will make. But the other side of the argument is: The higher prices stay the higher wages labor will demand.
This whole problem has become so serious that R. H. Macy and Company, in last Sunday's New York Times, bought a full page advertisement to appeal to business everywhere to cut prices.

TRUE FACTS

I feel that I am duty bound to come out and state the true facts pertaining to the recent change of my former business known as J. B. Oakley & Son which was established 13 years ago.

It was no thought or desire of mine to institute any change in the business.

AT THE REQUEST OF MY SON

I agreed to sell out to him. However, under no circumstances did I refuse to be connected with the firm as was stated in Friday's advertisement in The Daily Reflector and signed by Godfrey Oakley Ins. Agency. The true fact is that my son offered me a smaller compensation than I could accept.

HE ALSO OFFERED TO SELL

the business back to me at a much higher price than he paid me for it, which I could not accept. Under the circumstances I feel it is only natural that it is best to inform the public the true facts in this transaction.

Cases Tried In County Court

Judge Dink James disposed of the following cases in Pitt County Recorder's Court Tuesday:

Abandonment: Larry Pittman and Cora Lee Stokes, both cases continued; Robert Lee Best, (and non-support and disorderly conduct), continued; James Walter Mann, not prosed with leave.

Assault with a deadly weapon; Charlie Rogers, continued.

Driving while drunk: Frank Wilson, three months on the roads suspended on payment of \$50 and costs and driver's license revoked for a year; John Lloyd Corey, not guilty.

Sale of illegal whiskey: Leroy Thigpen and Willie L. Hopkins, six months for Leroy Thigpen, suspended on condition that he pay \$9 and costs and forfeit driver's license for a year; his car to be confiscated and sold and proceeds to be applied to the school fund of the county, and that he be placed on probation for two years. Willie L. Hopkins to pay \$50 and costs and six months on the roads, suspended on condition that he not violate any liquor law for two years.

Jan Garber To Play VFW Spring Dance

14-JAN GARBER, Walsh, The Charles Gray Morgan Post, Veterans of Foreign Wars, has

play for a spring dance to be held booked Jan Garber's orchestra to at Keel's warehouse Wednesday night, April 30, starting at 10 o'clock.

Jan Garber created a big following by virtue of his ability to adapt of music. Recognizing the current trend toward swing music, he augmented his orchestra with top-flight instrumentalists, making it one of the finest swing orchestras in the land. Tickets will go on sale this week at places where VFW veterans work.

Last GIs Sail From Iceland For America

Reykjavik, Iceland.—(AP)—The last American soldiers stationed in Iceland were en route home today thus ending nearly six years of American military protection of this island.

The 20,000-ton transport Edmond Alexander departed yesterday with 361 soldiers and 20 more left by plane. Several Icelandic brides accompanied their GI husbands on board the troopship.

EGGS A DOLLAR A DOZEN?

LAGGING CHICK SALES POINT TO SHORTAGE OF EGGS AND POULTRY BY FALL AS EXPECTED SURPLUSES FAIL TO DEVELOP

How much money could you make next fall if eggs were selling for a dollar a dozen? It could happen. In fact, in New York last week, the President of the Butter and Egg Merchants' Association said it may happen.

IT MAY HAPPEN! WHY?

Because every sign today points to a shortage of eggs and poultry next fall. Two months ago—even 30 days ago—nobody would have believed such a prediction. Folks were talking of an egg surplus. The Government said it would support the price of eggs. But what has happened—?

There is no surplus. Eggs are disappearing as fast as they are being laid. And far too few baby chicks are being started to meet the demand for poultry and eggs next fall.

Poultry experts don't need a crystal ball to predict this coming shortage and high eggs and poultry prices. They just look at these cold facts of the U. S. Dept. of Agriculture which tell the story:

THESE FACTS POINT TO HIGH EGG AND POULTRY PRICES

1. At the season when eggs would normally be moving into storage in great volume, stocks of shell eggs are dwindling.
2. In February this reduction amounted to 70,000 cases. On March 1 there was only about half an egg in storage for every American. A year ago there were one and one-half million cases—about 7 times as many.
3. Frozen eggs in storage decreased by 7 million pounds in February as compared to an increase of 6 million pounds in February a year ago.
4. Egg production in February was 4% below a year ago due to 6% fewer layers.
5. Americans are eating eggs at a record rate because of high purchasing power and high meat prices.
6. There were 55 million fewer chickens on farms January 1 than there were a year ago.
7. Virtually all signs point to an excellent grain producing season in 1947 which normally means lower feed prices. A record wheat crop and another 3 billion bushel corn crop are forecast.

IT'S A GOOD YEAR TO START CHICKS

Yes eggs may sell for a dollar a dozen next fall, but you'll have to start chicks this spring—to cash in on this golden opportunity.

Our advice is to buy good chicks and start them right. Feed them Purina Chick Startena to get them off to a flying start. It's America's Favorite Chick Starter for Life and Growth and this year it's the best Purina ever made. We have a good supply in stock. Come in and see us for chicks and all your chick raising needs.

South East Planes Continue Operate

W. C. Teague, president of South East Airlines, Inc., of Charlotte, today announced that his company will continue to operate its schedule and will protest the Civil Aeronautics Board's decision not to approve South East Airlines for its schedule of planes between New Bern, Greenville, Wilsos, Raleigh-Durham, Greensboro, Winston-Salem, Charlotte and Asheville.

If the Civil Aeronautics Board's ruling is upheld, Greenville would be without daily passenger plane services. Two planes stop here daily—one going east, the other west.

MORAL:

DO IT RIGHT THE FIRST TIME

HERE'S a little story right out of the book:

A fellow came into a Buick dealer with a rap in his engine. The dealer said it was carbon—and recommended a valve job, naming a price.

The owner thought that was too much "to get rid of a little noise" so he took it to a "friend" who "knew about automobiles."

The friend said all that was needed was to set back the ignition timing. He did. The rap stopped. But in a while it was back again. So he repeated the process—with the same result.

Finally, after several such "cures," he woke up to the fact that he was treating symptoms, not correcting troubles. By then, he really did need a valve grind job at the first cost quoted by the Buick Dealer. But in the meantime he had lost good engine performance and the pleasure of driving a well-serviced car.

MORAL: It pays to have the job done right the first time. May cost a little more than some expedient—but it keeps little troubles from growing into big ones, gives more satisfaction from your car over the months and years.

That's what we're in business for—to keep good cars good. We're busy enough that we're not going to waste time on needless work—but we're never too busy to do what you ought to have done

JUDGE DUNN IS EXALTED RULER ELKS

Prominent Attorney To Be Installed Thursday Night; Active Lodge

By CHESTER WALSH
Judge Allbon Dunn, Greenville attorney, will be installed as exalted ruler of Greenville Lodge No. 645, Benevolent and Protective Order of Elks, at a meeting of the lodge Thursday night at 8 o'clock. He succeeds John W. Glover.

Other officers to be installed are: J. Con Lanier, esteemed leading

knight; Guy V. Smith, esteemed loyal knight; J. A. Bunting, esteemed lecturing knight; Dr. P. W. Picklesimer, secretary; David Proctor, treasurer; C. A. Bowen, tiller.

Appointive officers to be installed are W. W. Aycock, esquire; Chester Walsh, chaplain; Billy Norman, inner guard.

The Elks Lodge was organized in 1940. Curtis Perkins was its first exalted ruler. He served two terms during unusual growth of the lodge. W. J. Bundy, now grand master of North Carolina Masons, succeeded him. Then E. Hoover Taft was exalted ruler, and John W. Glover followed him. The Elks Lodge, organized with less than 50 members has grown considerably. It now has nearly 200 members, representative of the business, professional, farming and industrial life of Pitt County.

The lodge's motto, Charity, Justice, Brotherly Love, and Fidelity has been exemplified by various charities. It has donated during its years of service thousands of dollars to worthy cases and justifiable charity.

The Elks' Home is at 639 Evans Street. The lodge meets every second Thursday night.

ECTC Debaters Holding Place Among "Big Ten"

East Carolina Teachers College won a place among the "Big Ten" debate teams taking part in the Grand National Forensic Tournament under the auspices of the Strawberry Leaf Society held at Mary Washington college at Fredericksburg, Va., on April 3-5. The negative team from the college, composed of Edward Bright of Chocowinity and Gibbon McNeely of Waxhaw, by winning six debates and losing two, attained eighth place among approximately 90 teams representing more than 40 colleges and universities in the United States.

The affirmative team, the members of which are Robert Russ of Washington and Milton Fields of Scotland Neck, contributed two more victories during the intercollegiate contests in Fredericksburg. The total record of the East Carolina teams was 8 debates won and 8 lost. During the contests the college squad met teams from colleges and universities from Florida to New York and from Louisiana to the state of Washington.

Rev. P. H. Mumford, pastor of York Memorial Church, takes pleasure in congratulating his members and friends for their hearty support in making the Easter drive a success, along all lines. We are pleased to say that many of our visiting friends, played well their part in this effort.

At 7:30 the youth program under the direction of Mrs. Petty Grimes and Mrs. Naomi Dupree was a charming success, and a great pleasure to all who registered in this special exercise.

We are happy in the fact that the service and program met the approval of everyone. But the happiest hour of all was Monday night, when the pastors aid board came as a mighty storm to the parsonage about 10:15 singing, "Remember Me," and circling around the dining room table and leaving on the table every article of food that's required for the human body.

Mrs. Lena Cherry is president of the board. May God help this faithful board to live long in the world to work for His cause.

The Ten Virgins will make their final report, next Sunday at 11 a. m. See your captain this week and finish your pledge.

Usher Board No. 1 of Mount Calvary F. W. B. Church visited the home of Mr. and Mrs. George Newton, Route 2, Greenville, on Sunday, April 6.

The club meeting was splendid with the added Easter spirituals and poems. The club meeting was very

secured and heart touching.

The business side of the meeting was brief after which recognition of visitors came forth. Mesdames Rebba Tyson, Helena Tyson, Violetta Worthington, Miss Helen Forbes, and Messrs. George Prayer, James Tyson and George Hardy.

All visitors took part in the group singing and each made splendid remarks enjoyed by all. The hostess Mrs. Charity Newton served the group a heavy course followed by a tasty dessert.

The club meeting will be at the home of Mrs. Cherry Maye, Hudson Street, April 12th.

Prayer for the week, "My Prayer for Others."

Lord help me live from day to day in such a self forgetful way That even when I kneel to pray My prayer shall be for others.

Others, Lord, yes others. Let this my motto be, Help me to live for others. That I may live like Thee.

The club adjourned by repeating the chant. Until our next friendly visit with you let love always be your daily key. That is God's will for you and me.—Reported by E. Fortner.

Get Welcome Relief From Stomach Gas, Sour Food Taste

Do you feel bloated and miserable after every meal? If so, here is how you may rid yourself of this nervous distress. Thousands have found it the way to be well, cheerful and happy again.

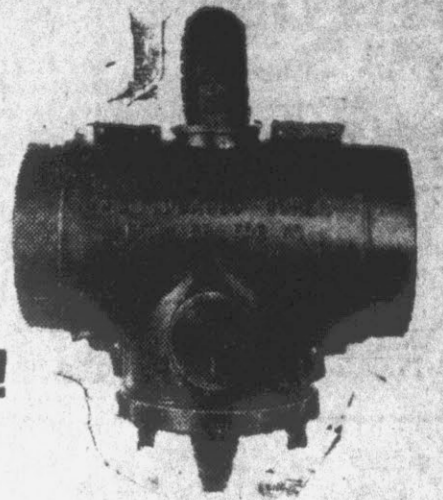

Everytime food enters the stomach a vital gastric juice must flow normally to break-up certain food particles; else the food may ferment. Sour food, acid indigestion and gas frequently cause a morbid, touchy, fretful, peevish, nervous condition, loss of appetite, underweight, restless sleep, weakness.

To get real relief you must increase the flow of this vital gastric juice. Medical authorities, in independent laboratory tests on human stomachs, have by positive proof shown that SSS Tonic is amazingly effective in increasing this flow when it is too little or scanty due to a non-organic stomach disturbance. This is due to the SSS Tonic formula which contains special and potent activating ingredients.

Also, SSS Tonic helps build-up non-organic, weak, watery blood in nutritional anemia—so with a good flow of this gastric digestive juice, plus rich red blood you should eat better, sleep better, feel better, work better, play better.

Avoid punishing yourself with over-doses of soda and other alkalis and counteract gas and bloating when you so dearly need SSS Tonic to help you digest food for body strength and repair. Don't wait! Join the host of happy people SSS Tonic has helped. Millions of bottles sold. Get a bottle of SSS Tonic from your drug store today. SSS Tonic helps Build Sturdy Health!

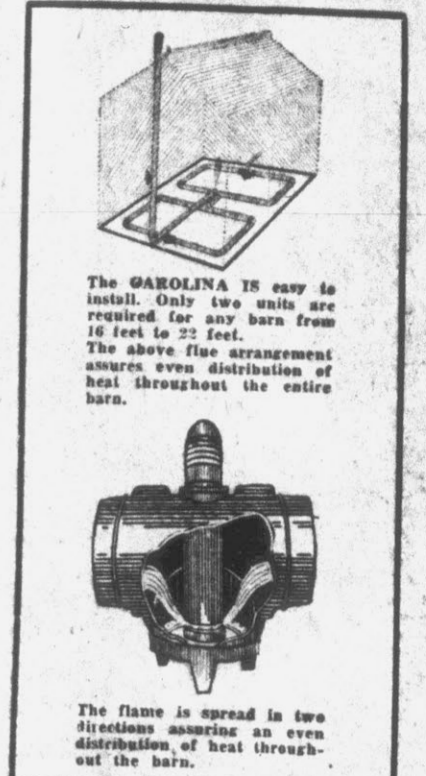

If You Want High Quality Low Cost Cures See the CAROLINA Today!

This year you can make more money from your tobacco by installing CAROLINA CURERS. You'll cure out a high quality golden leaf with less work, less time and for less fuel costs.

The CAROLINA is an easy curer to operate... only a few adjustments are necessary. There are no wicks to clean... no parts to wear out or be replaced. The CAROLINA is designed and built to last a lifetime!

You are assured of SAFE, trouble-free operation day in and day out. There are no dangerous flare-ups when the barn doors are opened because the flame is enclosed in a heavy cast iron body... with no leaks. The down-draft extends from the outside of the barn to the center of the burner, supplying oxygen to the flame. This assures you of a smooth, even flame at all times and eliminates any fire hazard from back-drafts. It is actually safer than an ordinary brick furnace!

Come in and see the CAROLINA today. One of the most economical curers on the market.

Suspension of Betz Signals Tennis Scrap

New York—(AP)—The suspension of tennis Champion Pauline Betz by the U.S. Lawn Tennis Association means, among other things, that there will be a feminine battle royal at Forest Hills late in August such as hasn't been

seen there in some years. Miss Betz, who with Mrs. Sarah Palfrey Cooke was removed from the amateur ranks yesterday because of a projected tour of the pair as professionals, had come to dominate the women's division almost as thoroughly as Alice Marble did just before her, but there has been a terrific scrap for second place. The executive committee of the Tennis Association, which could hear an appeal by Miss Betz, will not meet until September, there is no possibility of her defending the

MITES DEFEAT WINTERVILLE

Smith Pitches Full Route; Locals Triumph 35-8

Guy Smith, pitching his first complete baseball game, completely mastered the Winterville Midget batters Saturday afternoon as he struck out eight batters and allowed only eight well-scattered hits in the five-inning game. The first three men to face Smith went down swinging, as his fast ball completely puzzled them. When the Greenies came up to bat in the first inning, they garnered nine runs on which advantage Smith coasted the rest of the way.

Eddie Farley proved to be the big gun for the locals as he pounded out two home runs and a single in three trips to the plate. Earl Stocks slammed out a homer and a double in three tries. Jerry Phillips, who just joined the squad, had a perfect day at the platter with two singles in two times at bat.

Faulkner of Winterville, who hit a home run and two triples in four turns at the platter, was best for Winterville.

Dean Hines, ace hurler and scheduled starter for Winterville, was absent due to sickness. This seemed to be a bad omen for the Winterville lads, as they committed 11 miscues and the pitchers allowed 21 hits and gave away 13 free passes.

The Mighty Mites, who play their first conference game here Saturday afternoon at Third Street Park will face Goldsboro.

Goldsboro, who beat Greenville for the championship in Midget football and copped the championship in basketball, will be out for their third cup. Coach Kittrell will call on his ace hurlers, Julian Vainwright and Joe Clark, to do the hurling for the locals.

Starting lineup: S. Briley, 1b; Sam Hux, 2b; Earl Stocks, ss; Johnny Aman, 3b; Eddie Farley, rf; Kent Lee, cf; Brady, lf; Leon Moore, c; and Julian Vainwright, p. Fans who wish to see this game are cordially invited. The admission is free.

Disciplined

Cincinnati—(AP)—Leo Durocher, manager of the Brooklyn Dodgers in the National League, today was suspended for the 1947 season by Baseball Commissioner A. B. Chandler. Chuck Dressen, former coach of the Dodgers and now a member of the New York Yankee coaching staff, was suspended for 30 days beginning April 15. The Brooklyn club and the New York Yankee club each was fined \$2,000. Harold Parrott, traveling secretary of the Brooklyn team, was fined \$500. The actions were taken as a result of an investigation made by Chandler after Larry McPhail of the New York American League club brought charges of defamation against Durocher and Branch Rickey, head of the Brooklyn club.

Giants Drop Game In Plymouth Invasion

The Greenville Giants, colored baseball team under the sponsorship of the American Legion, returned from Monday's invasion of Plymouth with the final score 3-2 against them. It was a distinct setback for the locals after Sunday's whitewashing of Washington (21-4). Manager J. ... team has not yet scheduled their next game.

SENATORS TO PLAY RALEIGH

By BERT MOYE. The Harrisburg Senators of the Interstate League, who are holding their spring training here at Guy Smith Stadium prior to the opening of their league on April 30th will play their first in a series of exhibition games in this section on Thursday afternoon at 3:00 o'clock when they play host to the Raleigh Caps of the Carolina League.

Local fans who have witnessed the daily practice sessions of the Senators from Pennsylvania declare that they have one of the hardest hitting teams to be seen here in a long time. Incidentally, the Senators play Class "B" ball and the Raleigh Caps play Class "C" ball. This is assurance that local fans will see a fast game when the two teams play here tomorrow afternoon.

Following the game here Thursday, the Senators will travel to Tarboro on Friday where they will meet the Tars of the Coastal Plain League in an exhibition game that afternoon. On Saturday they return to the local diamond where Saturday afternoon they will play the Hartford, Conn. team and on Sunday afternoon at three will meet the Greenville Greenies. Both of these games are to be played in the local park.

The tentative line-up as announced by Manager Les Bell is as follows: Don Buell or Bob Ankrum shortstop; Al Koerner or Fred Wolfpert, centerfield; Herb Gonyers, 1b; Ken Manarik, 3b; Jimmy Burns or Ed Yeash, rightfield; Whitey Greifzu or Bill Pardon, leftfield; Dick Carson, catcher; Walt Hergert, Ed McCluskey, and Bill Rook, pitchers.
