Snyder Appeals in Senate Tax Fight

Secretary Of Treasury Renews Administration's Opposition To Any Tax Cut At Present; Suggests New Review Of Tax System For Later Reductions

Washington.—(AP)—Secretary of the treasury Snyder urged the Senate today to kill the bill—passed overwhelmingly by the House—to cut income taxes from 30 per cent at the bottom to 10-3 per cent at the top.

Snyder renewed the Truman administration's opposition to any tax cut for at least another 14 months, but suggested that Congress with help from the treasury, "review the whole tax system in anticipation of later reductions."

Declaring that a general cut now is neither necessary nor appropriate, the first witness before the Senate finance committee hearing on the house-passed bill marshaled these arguments:

1. Employment is high, national income is at record, peacetime level, and "under these favorable economic conditions present taxes do not impose an excessive hardship on the American people."

2. "Inflationary pressures have still not subsided. So long as inflationary pressures exist, there (Continued on Page Four)

TAFT ASSERTS STEEL RUINED PRICE POLICY

Senator Says Pay Hike Tossed Price Cuts "Out The Window"

Washington.—(AP)—Senator Taft (R-Ohio), said today big steel's agreement with the CIO for a \$1 a day wage boost probably has "tossed out the window" any real chance to bring prices down.

Taft called the senate-house committee on the economic report together today to issue a brief statement on its study of prices.

But the committee chairman told a reporter in advance of the meeting that he believes the U. S. Steel-CIO agreement is likely to set a pattern for similar wage increases that will prevent any substantial reduction in the prices of manufactured products.

"It looks like price cutting has been tossed out of the window," Taft said. "We now see pretty clearly that corporations are going to raise (Continued on Page Four)

Survives Leap From Golden Gate Bridge

Frank H. Cushing, 42, a professional high diver, says he leaped from the Golden Gate Bridge at San Francisco in a "practice dive" and survived without apparent injury. A war veteran, Cushing says he made the jump seeking publicity for his "GI Joe's Thrill Circus." With him at his bedside is his wife, Marjorie (left), holding son Frankie, 2. The Cushing's four-year-old daughter, Marjorie, is at right. In ten years 76 persons have died by leaping from the famous bridge. (AP Wirephoto).

ABLE TO STOP ARAB TACTICS

Egypt's Bid For Free Palestine Lacking UN Votes

Lake Success, N.Y.—(AP)—A preliminary survey indicated today that the United States and Great Britain would be able to muster enough support in the United Nations to block a move by the Arab states to gain Palestine immediate independence.

Egypt formally proposed last night that the forthcoming special session of the United Nations Assembly put an immediate end to Britain's 25-year-old mandate and declare the Holy Land an independent country.

Both American and British sources, however, were confident that the Arab states would not be able to obtain the required two-thirds vote of the Assembly necessary to place the item on the agenda of the extraordinary session which opens next Monday.

The Latin American nations, with a bloc of 20 votes, were said to be getting ready to assume a neutral position in the battle over Palestine, but there were strong indications they would support the United States and Britain in opposing inclusion of the Egyptian proposal on this session's agenda.

Police Seeking Clues In "Lonely Road Murders"

Sylva, N.C.—(AP)—Local and state officers were seeking today the assailant or assailants who beat Jack Hall, 39-year-old taxi company operator, and his wife to death by hitting them with powerful blows on the head.

Sheriff Griffin Middleton said Hall, found with \$387 in cash in his pockets, was discovered dead in his car on a lonely country road yesterday. His wife, Margie Maples Hall, 20, was unconscious beside him, he said. She died later without regaining consciousness.

Coroner C. W. Dill said Hall's skull was shattered by a terrific blow above the left eye and that he had been hit twice across the back of the head. He said any one of the blows was sufficient to kill him.

The sheriff said he had no clues and could think of no motive for the murders. Mr. Hall, he said, had been hit on the head four times. Parts of Hall's skull were found on the road beside his car, Middleton said.

GOP Convention At Philadelphia

18-GOP CONVENTION waish Kansas City.—(AP)—The 1948 Republican nominating convention will be held the week of June 20 in Philadelphia, the city where the party nominated its first standard bearer in 1856.

Choice of Philadelphia as host to its fifth GOP convention came late yesterday as the Republican National Committee overwhelmingly disregarded the recommendation of its site sub-committee which had given the nod to Chicago.

The committee's action met with the general approval of party leaders here for the two-day meeting to pick a convention city and to discuss finances for 1948.

A "Dirty Trick"

London.—(AP)—Lord Vansittart today dubbed Henry Wallace's speaking tour in Britain "an exhibition of bad taste" aimed at hindering British Foreign Secretary Bevin in his dealings with Russia.

"Some of Mr. Bevin's critics imported the woolly Mr. Wallace at the moment when he was most likely to embarrass Mr. Bevin in the conduct of his arduous and thankless task," the Conservative peer said during a House of Lords debate.

"I think it was a rather dirty trick."

NINE SLAIN IN AIR COLLISION

Planes Meet In Mid-Air; Plunge To Ground In Flames

Columbia, Ga.—(AP)—Nine persons were killed today when a special Delta Airlines plane carrying eight employees of the company, including one top official, collided with a civilian plane and both crashed onto the airport here where they were enveloped in flames.

The Delta plane was coming into the airport for a landing when, airline officials said, the civilian plane "came down from overhead and struck the tail of our ship." Both planes plunged 30 feet to the ground, the civilian plane falling underneath the tail of the Delta ship which had broken in half.

The two planes burned for more than an hour after the crash. (Continued on Page Four)

Greek Guerrillas Under Pressure

Athens.—(AP)—Official and unofficial reports from all sections of Greece today said leftist guerrillas were suffering heavy losses under the constant pressure of the army the gendarmierie and the cold.

In Lamia, the general commanding the First Army Corps said the first phase of the army's operations against the rebel bands had "exceeded the expectations of the general staff."

Grandcamp Survivors To Testify In Probe Of Blast Razing Texas City

Texas City, Tex.—(AP)—Tragedy-stricken Texas City was today thrown into frightened excitement when a warehouse containing 1,000 tons of ammonium nitrate caught fire and burned for two hours. It was extinguished at 11:25 a. m. (CST).

Texas City, Tex.—(AP)—Survivors of the French freighter Grandcamp were expected to testify before a Coast Guard investigating board today on the blast which led to the death of hundreds and destruction of most of this little Gulf port.

Announcement that survivors of the Grandcamp were expected to testify before the board came as a surprise. All of the crew members have been in Galveston hospitals and previously the board had indicated it would take the hearings to their bedside.

Yesterday, Ben Lapham, Jr., 29, of Mission, Texas, second mate on the SS High Flyer, testified that the explosion of that ship could have been averted.

Lapham testified the ship could have been saved had tugs been ordered to its aid within the early hours following the original explosion of the Grandcamp.

The High Flyer exploded early Thursday morning, sinking a third ship, the Wilson B. Keene.

There was a new atmosphere of cooperation at the City Hall as Mayor J. C. Trahan and American Red Cross officials resolved their difficulties.

Sunday in a conference with Gerald Wessellus, Red Cross official of St. Louis, Trahan had stated "the real relief that has been given to the people of Texas City has not come from the Red Cross."

"I was talking," said Trahan "about the super-duper national organization, the big boys who have been getting all the credit. I just didn't want them to get credit they are not entitled to get."

SIGN NEW PAY TERMS TODAY

"Big Steel" And Union Heads Put Signatures To Pact

Pittsburgh.—(AP)—Top officials of the CIO-United Steelworkers and the U. S. Steel Corp. today put their signatures to a new pact which Union President Philip Murray declared "assures peace in the industry for two years."

The signing will climax more than three months of negotiations and will make official the agreement providing a \$1-per-day increase for 140,000 employees of five U. S. Steel subsidiaries.

The Steelworkers executive board approved the agreement Sunday and the union's 175-man wage policy committee added its unanimous endorsement yesterday.

Murray termed the wage pact "an answer to all congressional labor baiters hell-bent on destruction of labor unions in America."

With its major task of signing "Big Steel" completed, the CIO's biggest union turned to the job of winning wage contracts for the remainder of the year. (Continued on Page Four)

Young Musicians Attend Contest

Greensboro.—(AP)—Music filled the air this morning at Woman's college as an advance guard of several hundred boys and girls from all parts of the state arrived on campus for initial events of the 28th annual state high school music contest. Competing this morning were solos, pianists and single and group instrumentalists.

Among ratings announced at noon today of the morning events included from Greenville: James Haney, class B-C, rating of two (violin); Mary Smith, class B-C, rating of one (piano).

FILES FOR ALDERMAN.

Heber E. Tripp, real estate dealer today filed with the city clerk as a candidate for the Board of Aldermen from the First Ward, N. C. (Jefferson Standard) Brooks is the incumbent and chairman of the Street Committee. So far, this is the only contest in the municipal primary-election to be held here on Monday, May 5.

Andrew J. May And Associates On Trial Today

Washington.—(AP)—Andrew Jackson May, former Democratic congressman from Kentucky, goes on trial with three co-defendants, today charged with conspiracy to defraud the government.

The others are: Henry M. Garsson, fired from an \$1,800-a-year government job in 1926, but who later became president of 16 companies.

His brother, Murray Garsson, sales manager for these companies, which had \$73,000,000 in war contracts.

Their Washington representative, Joseph P. Freeman.

The trial was assigned to U. S. District Judge Henry Schweinhaupt's court.

The first day—and maybe longer—is expected to be used for choosing a jury.

The government charges, in an indictment returned in January, that the Garssons gave May money illegally in connection with certain of their war contracts.

GOING TO SWITZERLAND.

J. P. Fort, a special representative of the Tobacco Association of United States, was in Greenville today conferring with J. Con Lanier, Mr. Fort will shortly leave for Geneva, Switzerland, to attend a world trade conference in the interest of expanding the sale of the tobacco.

Senate Near Vote On Truman's Plan For Greek-Turkish Relief

AFL Prepares For War On Labor Bill

Top Leaders Anxiously Await Reply From CIO President Murray On Proposed Merger; Telegram Not Received

Washington.—(AP)—The American Federation of Labor executive council opened a detailed search today for a way to combat the far-reaching union curbs which the Senate will begin debating tomorrow.

As the first step in its counter-offensive, the AFL's 15 top leaders invited the CIO to discuss merger here Thursday—and they waited with frank anxiety for a reply from CIO President Murray.

One council member, asking not to be named, told a reporter "this is the time for merger—the workers of the country want it, and it will show those fellows in Congress that labor stands together."

Murray, in Pittsburgh, delayed his answer because the telegram of invitation was slow arriving, he said.

AFL President William Green told a news conference after the invitation was extended that the AFL would enter the proposed peace conversations without any preconceived plan for bringing about the consolidation of the AFL's 7,650,000 members and the CIO's 6,000,000 dues-payers.

Heretofore, the AFL has insisted that physical merger should come first with cooperative action as a followup. To that, too, the CIO has taken the position that the two

MINISTERS IN SECRET TALKS

Big Four In Two Sessions Today; No Hint Of Results

Moscow.—(AP)—The Council of Foreign Ministers went into a second secret session of the day this afternoon in an effort to reach an accord on the Austrian peace treaty.

It was the third such meeting, but no conclusive results were announced on the apparently stalemated issues.

Secretary of State George C. Marshall's advisers in the restricted group included Gen. Mark W. Clark, the ranking American authority on Austrian questions. Also with him were U. S. Ambassador W. B. Smith and Interpreter Charles Bohlen.

There was no immediate indication as to whether any change had occurred in the Soviet position, or that of any other delegation, but speculation continued that the Western powers were hopeful of some concessions soon by Soviet Foreign Minister V. M. Molotov—perhaps as a result of new instructions from the Kremlin.

Actually, there is nothing definite upon which to base such speculation except that persons familiar with what happened at yesterday's secret session of the Council of Foreign Ministers said they still saw some chance of final agreement, implying that some compromise efforts were in the wind.

That Union Merger

Many Problems To Be Solved Before Such Action Could Be Accomplished; Its Importance; Political Power; How It Would Be Done; Some Background

Washington.—(AP)—The AFL has asked the CIO to talk about merging the two huge labor organizations.

This won't happen overnight, if it happens. Many problems need settling. The AFL and the CIO have mumbled about the idea several years, done nothing.

The AFL—American Federation of Labor—and the CIO—Congress of Industrial Organizations—are not unions in themselves.

They are organizations of unions. The AFL has 104 unions, claiming 7,650,000 members. The CIO has 40 unions with 6,000,000 members.

This latest suggestion of a merger comes when Congress is about to pass the toughest labor laws in history.

A merger would mean a solid labor front of 13,650,000 union workers, all in one organization.

Unlike the AFL, the CIO has taken a strong part in politics. As an organization it backed candidates it considered friends.

If the two groups merge and adopt a strong political policy, it will be a giant force in national affairs because:

Measure Certain To Win Approval; Some Supporters Acting Reluctantly; New Foreign Policy Venture Gets First Showdown This Afternoon

Washington.—(AP)—With a rare certainty of approval, the Senate votes at 4 p. m. (EST) today on President Truman's plan to give Greece and Turkey \$400,000,000 in financial and military aid to keep them from collapsing into the arms of communism.

The new venture in foreign policy approached its first congressional showdown amid indications that it would receive far less emphatic backing than the last major decision in that field—the Senate's 89 to 2 ratification of the United Nations Charter on July 28, 1945.

A score, more or less, of dissenters apparently stood ready to cast their votes against the first segment of the developing program of aiding "free peoples." They have predicted variously that it will (a) bring eventual war with Russia, (b) bankrupt the American economy and (c) destroy the United Nations.

Nearly three times that number of senators have lined up to pass the bill and send it to the House. Favorable action there also seems assured later. This would put into almost immediate effect, through a proposed \$100,000,000 RFC advance, a program Secretary of State Marshall called "indispensable" in a message from Moscow yesterday to Chairman Vandenberg (R-Mich.) of the Senate Foreign Relations Committee.

But despite Marshall's endorsement some supporters of the legislation such as Senator Taft (R-Ohio) made it clear they are acting reluctantly.

Many agreed it may be necessary for Uncle Sam to plant his foot firmly in Europe's strategic back door, lest it be slammed shut by the Communists.

But few hid any enthusiasm for the affair.

Even Vandenberg, chief sponsor of the bill, called the eventual outcome of the whole venture a "guess."

Senator Pepper (D-Fla.), who has lashed at the proposal repeatedly but said he would vote for it in the end if all modifying amendments were rejected, announced last night that he had decided to vote "no" on the final roll call.

Asks House To Vote Charges Of Contempt

Washington.—(AP)—The committee on un-American activities called upon the House today to vote contempt charges against two alleged Communists, who scoff at American laws.

Committee Chairman J. Parnell Thomas (R-NJ) asked for the contempt action against Eugene Dennis, Communist party secretary, and Leon Josephson of New York. He described Josephson as the "official procurer" of false American passports or Communist "functionaries."

Dennis and Josephson both refused to testify to the committee and were held in contempt. Should the House back the committee, a contempt case can be laid before a grand jury. Conviction carries a maximum punishment of a year in jail plus a \$1,000 fine. Thomas wants to increase the penalties.

Land Mines Wreck British Troop Train

Irgun Zvai Leumi Said Responsible; Attack Train With Small Arms; Another Refugee Ship Nearing Palestine

Jerusalem.—(AP)—A British troop train en route from Egypt to Palestine was blown up today southeast of Tel Aviv and first official casualty figures listed seven dead and three injured.

A British spokesman said, however, it was "highly possible that the casualties may be considerably more."

Four coaches of the train, which was heavily loaded, were reported wrecked by the blast, attributed to a series of electrically operated mines.

The British spokesman blamed the mining on Irgun Zvai Leumi, militant Jewish underground organization which had threatened vengeance for the execution of four of its members in Acre prison last week.

Ambulances were rushed from Tel Aviv to the scene of the disaster. First reports said there were "many dead and wounded."

After the blast hidden gunmen were reported to have sprayed the train with grenades and small arms fire, which was returned by the troops.

Almost simultaneously another official announcement disclosed that a ship carrying approximately 130 un-certified Jewish immigrants had been spotted by British naval craft near the Palestine coast.

The announcement said that the naval vessels were "in touch with the refugee ship, but indicated that she had not yet actually been boarded."

Princess Elizabeth

Heiress Presumptive To British Throne Especially Trained For Work In The Future; Her 21st Birthday; Britishers Firm In Their Monarchy

By DEWITT MACKENZIE

Princess Elizabeth, heiress presumptive to the British throne, who is touring South Africa with other members of the royal family, yesterday celebrated her twenty-first birthday and dedicated her life to the vast empire "upon which the sun never sets."

There was widespread observance of this memorable event in the life of the cornely girl who may one day sit on the world's greatest throne. Socialist Prime Minister Attlee cabled congratulations to her from London, declaring that "the steadfast leadership and selfless devotion of the royal family shine forth as one of the greatest blessings and surest bulwarks of this land."

The Communist Daily Worker's greeting was a bitter editorial which sounded the only discordant note of the day. Said this paper:

"We mean no sort of personal disrespect to a young woman who within the narrow confines of her caste, is no doubt worthy and amiable. But what a reflection on the institution of hereditary monarchy it is that the titular headship of the British State should descend to a princess whose political and intel-

lectual qualifications for a great public office are no more than those of any wealthy squire's daughter brought up in the most limited Victorian wax x x x Surly the fundamental conclusion is obvious. The institution of monarchy is an anachronism in the middle of the 20th century x x x."

Certainly absolute monarchy is an anachronism because it is a totalitarian dictatorship which circumscribes the right of the individual. But the British monarchy, and the few other remaining monarchies of Europe, are constitutional. The real head of government is the prime minister who is answerable to a Parliament elected by the people. They are democracies.

England likes her monarchy, as witness her socialist prime minister's striking tribute to the throne. And there's a great deal more to it than just a fondness of tradition and pageantry, for the greatest of the bonds which hold together the globe encircling British commonwealth of nations is the throne. You'll find many British people who believe that the commonwealth whose political and intel-

American Policies Discussed By Foreign Students At AAUW Forum

An enthusiastic audience heard Dr. Lillian Parker Wallace of the history department of Meredith college and a group of students discuss America's foreign policy last night in an open meeting of the American Association of University Women, sponsored by the International Relations Committee.

Mr. John Saunders of State College, Raleigh, briefly outlined the policies of our government in the past as they affected the present situation, calling attention to the Monroe Doctrine, the Hay Doctrine and the Truman Doctrine. Miss Rita Paz, from Quito Ecuador, gave the Latin American attitude toward these policies, mentioning particularly our failures to live up to the Monroe Doctrine. She said our Good Neighbor Policy was very popular with her people, and expressed the hope that America would continue to practice non-intervention in Latin

America's internal strife. The diminutive Miss Paz, whose father is a former president of Ecuador, won the heart of her audience with her explanation of Latin American dictators. "The peoples do not ask for their rights because they don't know their rights. A large percentage of the people are 'unalphabetical.' Then laughingly added, 'My English fails me, sometimes.'"

Mr. J. T. Woo, a student from Shanghai, pictured China as hopeless unless America is willing to help in her fight against Communism. He could not understand our urging China to make peace with the reds to the extent of taking communists into the government when we wished to block the spread of communism in Turkey and Greece.

The Greenville branch of AAUW welcomed the retiring state president, Mrs. R. A. Herring of High Point who gave a few words of greeting to the group.

Start Campaign On Rats Here Friday, May 2

The following announcement from the Pitt County farm agent and the home demonstration agent concerning a war on rats will be of general interest:

"A campaign to deal the rats of the county a death blow is being planned for Friday, May 2. This campaign is being sponsored by the Pitt County Extension Office in cooperation with the U. S. Fish and Wildlife Service.

"Rats each year cost the people of Pitt County an estimated \$200,000. This is in addition to the deadly diseases which they spread and the annoyance of having these pests on your premises.

"Fortified Red Squill, the poison which will be used, is harmless to people and domestic animals, but has proven deadly effective in rat campaigns which have been conducted by the U. S. Fish and Wildlife Service for a number of years.

The bait will be prepared for you on the campaign date and put up in 3-lb. packages, which is the quantity needed to bait an average farm. Complete instructions for using this bait will be furnished with each purchase. The cost will be only \$1, simply the cost of the material.

"In order to mix the proper quantity of bait we must know in advance the number of people who desire to participate. If you wish to take an active part in getting rid of these harmful pests, send or take your order, along with a dollar to one of the places where the rat poison may be obtained" before April 29.

Rip 29. Bait will be prepared only for those who send in orders by that date. The person with whom you placed your order will have your rat poison bait at 4:30 on May 2. Be sure to be there at that time. If no one is taking orders in your own neighborhood, you assume this responsibility and send the orders for your community to the farm agent's office by April 29.

"Rats travel from farm to farm. Encourage your neighbor to put out some of the poison."

Robber Enters Service Station

A robber who entered the Carolina Service Station, on Dickinson Ave., on the suburbs of the city some time last night, got little loot but left his raincoat, which had chewing tobacco and other articles in the pockets. Red Blood Cells Must Be Kept Up If You Want To Feel Alive

Thousands Now Regaining Old Time Pep, Vigor and Drive By Releasing Vibrant Energy To Every Muscle, Fibre, Cell

Overwork, undue worry, and lack of certain foods often reduce the red-blood strength—and starved, puny blood just hasn't the power to keep up your energy and drive.

Every day—every hour—millions of tiny red-blood-cells must pour forth from the marrow of your bones to replace those that are worn-out. A low blood count may affect you in several ways: no appetite, underweight, no energy, a run-down condition, lack of resistance to infection and disease.

To get real relief you must keep up your blood strength. Medical authorities, by analysis of the blood, have by positive proof shown that SSS Tonic is amazingly effective in building up low blood strength in non-organic nutritional anemia. This is due to the SSS Tonic formula which contains special and potent activating ingredients.

Also, SSS Tonic helps you enjoy the food you eat by increasing the gastric digestive juice when it is non-organically too little or scanty—thus the stomach will have little cause to get balky with gas, flat and give off that sour food taste.

Don't wait! Energize your body with rich red-blood. Start on SSS Tonic now. As vigorous blood surges throughout your whole body, greater freshness and strength should make you eat better, sleep better, feel better, work better, play better, have a healthy color glow in your skin—firm flesh all out hollow places. Millions of bottles sold. Get a bottle from your drug store. SSS Tonic helps Build Healthy Health.

Legion Lays Plans For "Boy's State" Program

Three members of the Junior or Senior Class of Greenville High School and one member of the Junior or Senior Class of Bethel High School will be selected by May 1 to attend the Seventh Tar Heel Boys' State 1947 session at Chapel Hill June 8-15. Boys' State is sponsored and operated by the North Carolina Department of American Legion.

Of the four boys who will be sent under Post 39's quota, the Greenville Elks Club will provide the cost for one; Forty and Eight will send one; and Post 39 will provide the funds for two. One vacancy in Post 39 quota remains to be sponsored.

The purpose of Boys' State is to train and inspire the youth of North Carolina in full realization of their responsibility to God and country and to teach them the duties, rights and privileges of citizenship through participation in governmental functions.

The method of selection of boys for attendance at Boys' State is left entirely to the local post and other sponsors, but the cooperation of school principals and superintendents is always obtained in choosing the type of boy desired for Boys' State.

All expenses, including instruction, housing, medical service, recreational and athletic programs transportation and other incidental expenses will be borne by the sponsoring organizations.

Women IN THE CHURCH

Miss Joan Dawkins, of New York City, a graduate of Wellesley College and taking post-graduate work at Union Theological Seminary, is the second American woman to be admitted to the Ecumenical Institute in the Chateau de Bossey at Coligny, Switzerland, for training in ecumenical work with young people.

The other American woman is Miss Virginia C. Markham, of Bryn Mawr. After a semester at the Institute, Miss Dawkins will join a team of American students, sponsored by the American Youth Hostels, to share in the actual work of rebuilding student hostels in Germany.

Visiting the United States and speaking before Y. W. C. A. and church groups is Mrs. Henry Lin, president of the National Committee of China's Y. W. C. A. and wife of the president of Shanghai University. Mrs. Lin was Al-fang Yang, of the class of 1929, Mt. Holyoke College. She is a third-generation Christian, both her grandfathers having been Presbyterian clergymen in Shanghai. She was educated at the McTear School for Girls (Methodist) and at Shanghai University (Episcopalian) before entering Mt. Holyoke. She taught school before her marriage. Since the war, she and President Lin have been busy with the reconstruction of the University which was occupied by the Japanese military; and she with the reestablishment of the Y. W. C. A. work.

Church women are now engaged in a world-wide study of the status and the work of women in all Christian denominations, and the results of that study to be issued in 1949 promise some interesting disclosures. Miss Rhoda E. McCulloch is directing the American study, while that of the remainder of the world is directed by Mrs. Samuel Cavert on behalf of the World Council of Churches. "The war years have brought new significance to the contribution of women, and have stirred women to question the conventional thinking which has limited their responsible place in society," says Miss McCulloch. It is expected that the American study will show a national trend for placing women in higher positions in church bodies — based upon their numerical strength, their contribution to church work, and their stake in the causes for which the church exists in the world.

State Wage-Hour Act Revised In Assembly

Senate Bill No. 384, passed by the North Carolina legislature in the recent General Assembly, is an amendment to this state's Wage and Hour Act.

This act formerly provided that men over 18 were limited to ten hours per day and fifty-six hours per week and also to twelve days in any period of fourteen consecutive days.

The new amendment revises that statute to provide that any concern which is complying with the Federal Wage and Hour Law no longer is bound by the ten-hour maximum and fifty-six hour week.

Jenkins of Wilmington.

Set Plans For Alumni Award

Members of the East Carolina Teachers College alumni advisory committee and representatives from various chapters of the alumni association, at a recent meeting of the group at the college, completed plans for conferring the annual alumni award to an outstanding graduate of the college at the June commencement exercises, according to an announcement made on Thursday by Mrs. Ruth Garner, alumni secretary. According to custom, the identity of the recipient of the award will be made known at

Rep. Bonner Voted For Labor Measure

Washington—(AP)—Rep. Bonner was one of the ten North Carolina congressmen who voted in favor of labor legislation passed last Thursday by the house and sent to the senate.

In transmitting the roll call of North Carolina congressmen on this legislation, Rep. Bonner's name was omitted in an Associated Press story through a typographical error.

Bonner and all other North Carolina congressmen, except Reps. Cooley and Folger, voted in favor of the measure.

The alumni meeting to be held at the college on May 31.

Seven graduates of the college have been so honored in the past by the alumni association, last year Robert Eason of Rocky Mount having received the award.

Strength FOR THE DAY

By EARL L. DOUGLAS
DISTANCE LENDS
ENCHANTMENT

A young man who has recently
moved away from home and taken
up work in another part of the coun-
try wrote his mother an enthusiastic
letter telling her about the deli-
cious dish he had eaten in a home
to which he had been invited. He
asked his mother for the recipe and
sent it to his mother. She looked it
over and was amused to note that
in the a'st detail it was a recipe
she had been using throughout this
boy's life and long before.

It was the old story over again
of discovering the value of familiar
things in unfamiliar surroundings.
Every parent has had the experi-
ence of dining a certain truth into
the ears of children over a number
of years and then having these chil-
dren discover this truth elsewhere
and return home with the thrilling
announcement that they have dis-
covered something new. The boy
who liked the cheese souffle he ate
in a home 500 miles from his moth-
er's home can probably never be
convinced that it was exactly the
same dish he had always been eat-
ing, and that without any appreci-
ation of its extraordinary quality.
When we come upon old truths
dressed up in new garments, we hall
them as comrades for whom our
hearts have always longed. Likewise,
when we encounter old fallacies dis-
guised in the garments of light, we
often embrace them and call them
brilliant new discoveries of truth.

WASHINGTON LETTER

Washington—Though Lithuania
has been taken over by Russia, the
little country on the Baltic Sea is
still an independent nation as far
as some of the 700,000 Lithuanians
in this country are concerned.

Like Latvia and Estonia, also in-
corporated into the USSR, it main-
tains a legation in the United States,
and recently the Lithuanians here
celebrated the 29th anniversary of
the country's independence.

Out on Sixteenth Street which
has come to be known as the capi-
tal's new "embassy row," some 50
members of the Lithuanian colony
trekked to the pleasant legation.
They were entertained at a festive
affair given by the minister, Povilas
Zedekis, and his gracious wife.

Sausages and sauerkraut, potato
pancakes and sour cream were the
main attractions at the buffet table,
though the popular diplomatic fare
of turkey and ham was also served.

Krupnik, a cordial made of honey
and all sorts of spices, was served
with the coffee and pastries. The
minister made an informal little
speech and there was music, lead-
ing off with the Lithuanian Nation-
al Anthem.

In the old days, Mrs. Zedekis
says, the President of Lithuania al-
ways made a speech on Independ-
ence Day and reviewed the nation's
troops and the State Opera presented
a gala performance.

Like other wives of middle-Euro-
pean diplomats, Mrs. Zedekis oc-
casionally wears her native dress
at parties at the legation. The other
evening she chose a simple Ameri-
can-made gown. The native dress
consists of a pleated skirt of striped
or checked hand-woven wool in dark
colors.

This is topped by a small apron
of brighter-colored hand-woven
wool, a white hand-woven linen
blouse and a brocaded, sleeveless
jacket. A crown of ribbons is worn
on the head with streamers floating
gaily down the back.

The costume is never complete
unless accompanied with strands
of pearls, earrings and bracelets of
traditional Lithuanian jewelry. This is
all of amber, picked up by the
handful on the shores of the Bal-
tic.

This custom goes back to Lithuan-
ian mythology. It is the story of the
amber palace.

Jurate, beautiful Goddess of the
Sea, who lived in a shimmering
palace of amber on the floor of the
Baltic, fell in love with a poor fish-
erman named Kastytis. This so an-

Don't Look Now

gered her father, Perkunas, who
was ruler of the Gods, that he sent
a bolt of thunder, killing the fish-
erman and shattering the palace in-
to millions of pieces.
When the pieces were washed
ashore they were gathered by the
people and, the legend goes, the
amber brought them good luck.

Princess

(Continued on Page Three)
wealth would dissolve if the money
they were abolished.
But to get back to Princess Eliza-
beth. That young lady is a very
highly educated person for her
years. She not only has had the
usual scholastic training, coupled
with fine arts such as music and
painting, but she has specialized in
those things which are essential for
a sovereign. For instance she speaks
French and German well and hand-
les Spanish and Italian acceptably.
History and constitutional law have
been emphasized, and she has been
constantly drilled in the duties of
royalty towards the people.
Then of course she has had training
in public speaking, and for a
considerable time has been making
outfit appearances at public func-
tions.

Union Merger

(Continued on Page Four)
1. Craft unions—only workers
doing one kind of work are mem-
bers. So carpenters have their own
unions, machinists have theirs, and
so on.
2. Industrial unions—All workers
in one industry, regardless of spe-
cial skills, are members. Example:
autoworkers, steelworkers.

The AFL, organized in 1886, start-
ed out as a group of craft unions.
The CIO started out in 1935 as a
group of industrial unions.

When the depression hit in the
1930's, the AFL, although it had
been in existence since 1886, had
only 3,000,000 members.
When Congress in 1933 and 1935
passed laws compelling bosses to
bargain with unions, unions began
to make big strides.

Until then the AFL had been
made up mostly of craft unions
although it had some industrial
unions, like John L. Lewis' mine
workers.
But a split occurred within the
AFL in 1935 when some of the AFL
leaders, notably Lewis, felt this
way:

Greater efforts should be made
to organize the new mass produc-
tion industries, like rubber and au-
tomobiles, still largely unorganized.
Lewis and his group thought they
should be organized as industrial
unions, instead of along craft lines
because they were so vast.

To do just that, Lewis' mine
workers and 11 other AFL unions
still within the AFL, organized the
CIO.
(It then was called the Committee
for Industrial Organizations but
later was changed to Congress of
Industrial Organizations.)

The split widened. The CIO group
was expelled altogether from the
AFL in 1938.
Lewis kept the CIO in 1940, kept
his mine workers out of any or-
ganization until 1946, and in that
year back into the AFL.

Taft

(Continued on Page Four)
wages and with increased costs they
are not likely to fall in with the
idea of cutting prices.
Taft, who also heads the senate
Republican Policy committee, has
supported President Truman's re-
peated appeals to business to bring
prices down.
Mr. Truman asked for "moderation"
from business, "forbearance"
from labor, and an "all-out" effort
from the farmers to prevent a boom-
and-bust inflation in addressing the
annual luncheon of Associated Press
members in New York yesterday.
Taft told a reporter that even if
wage increases make tax reductions
less desirable from an inflationary
standpoint, he still believes the time
has come to push levies downward.

Nine Slain

(Continued from Page One)
Flames made it impossible to re-
scue any of the victims.
The Delta plane was on a survey
flight. The identity of the civilian
plane pilot, the ninth victim of the
crash, was not learned immediately.
"No one escaped," Delta's head-
quarters in Atlanta reported, ex-
plaining that the burning ship
made it impossible to rescue those
aboard.

The Delta plane was a twin-
engine DC-type. It was obtained
from the army and had been con-
verted for pilot training and survey
flights.

Snyder

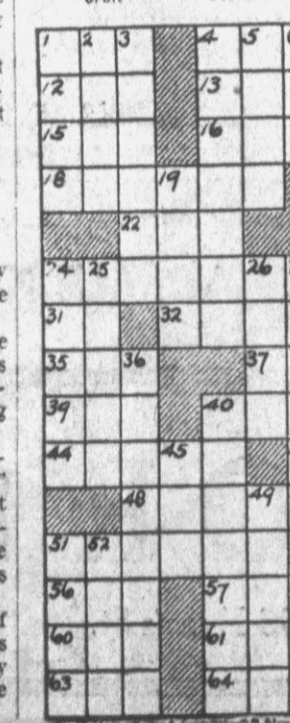

(Continued from Page 1)
is good economic reason for main-
taining high taxes.
3. The current budgetary situa-
tion calls for the maintenance of
existing taxes. He said there is
no clear evidence that expenditures
in the next fiscal year can be re-
duced below the president's bud-
get figures of \$37,500,000,000.
4. It would be sound financial
policy to achieve as large a budget
surplus as possible and apply it
against the \$258,000,000,000 public
debt.
By concentrating a large re-
duction in the individual income
tax alone, later well-balanced tax
revision would be made more dif-
ficult and perhaps impossible.
6. The House bill, he contended
is inequitable, and would compli-
cate the individual income tax.

MERCHANTS IN MONDAY MEET

Group Would Back Clean-Up Drive; Straw Hat Day May 3

The Greenville Merchants Asso-
ciation directors held their monthly
meeting in the association's offices
at the City Hall Monday night. Pres-
ident John W. Glover presided.
Judson H. Blount, who had at-
tended the meeting of the directors
of the North Carolina Merchants'
Association in Raleigh, representing
the local association, made a re-
port of the proceedings. The 45th
annual convention will be held in
Raleigh June 16-17.

Director Tom Wilson was con-
gratulated by the group for having
been voted the man of the year in
Greenville.
President Glover told the group
of the fine annual banquet of the
Rocky Mount Merchants' Associa-
tion, and that he and Mrs. Cora S.
Powell, executive secretary of the
Greenville Merchants' Association
attended during April. He said
that Mr. Webster Rhoads, of Mil-
ler-Rhoads of Richmond, gave a
very timely message for merchants.
A proposed "Clean-Up and Paint-
Up Campaign" was discussed. The
directors indicated that they
would fully support the movement
and cooperate in the campaign.
The Trade Promotion Committee
reported that official "Straw Hat
Day" had been set for Saturday
May 3.

Nazi Loot Sent Back To Hungary On Armed Train

Frankfurt, Germany—(AP)—The United States shipped \$25,000,000 worth of Nazi-looted Hungarian silver and art objects back to Budapest today in a new gesture of friendship.

One hundred and twenty tons of silver—needed by Hungary to keep her economy on a sound basis—and 370 priceless cultural pieces were returned to the former enemy country under an agreement between the U.S. State Department and a Hungarian economic mission.

The precious cargo was enroute to Hungary's capital city aboard a heavily armed U.S. Army train which reached Vienna this morning after passing in almost total military secrecy across Germany and Austria. It is scheduled to reach Budapest tonight or tomorrow.

Queen Elizabeth Aground Off Southampton

Observers on short watch as tugs try to free the 85,000-ton liner Queen Elizabeth, world's largest passenger ship, aground on a sand bar eight miles off Southampton, Eng. land. The Cunard White Star vessel ran aground in a fog while nosing her way into port with 2,445 passengers near the end of her voyage from New York. The giant vessel was re-floated after 24 hours delay. All Aboard B-29 Die In Explosion

Honolulu—(AP)—A B-29 bomber in which 16 American airmen were taking off for Guam rose from Kwajalein Island's narrow airfield, exploded into a flaming ball and crashed into the sea killing all aboard, U.S. Seventh Air Force Headquarters reported last night.

Spectators on Kwajalein, some 2,100 miles southwest of Honolulu and about 1,400 miles from Guam, watched the takeoff and explosion.

Colored News

Fight blue mold if you are to have a tobacco crop this year. Wet cold weather has damaged tobacco plants very much and has caused quite a setback in planting, but if farmers will watch their plants daily and be on the alert they can combat the blue mold.

Watch for the brown rot disease that often attacks peach trees during wet springs.

All peach orchards should receive a good spraying just as the petals fall from the blossoms.

Sow pastures for poultry. Grazing can cut poultry feed bills one fourth per cent and also reduce disease hazard.

Barns must be kept free from flies. All barns, outbuildings and stables should be thoroughly sprayed inside and out with D.D.T. during the month of April.

The next point of importance is to push pigs for fall, in feeding for rapid gains self-feeders will help and will also save labor.

Remember that bread is the staff of life, therefore plant plenty of corn.

Keep in mind the long time program which is before you for the year and other years. Remember home safety, help to keep a healthy neighborhood. Improve the looks of your home.

Try hard to have more cows, a quart of milk per day for every growing boy and girl, one pint for adults. Let our motto be a cow for every family.

Gardening time and now is the time to turn the ugly furrows in to a place of rare beauty by planting a garden.

For the next ten weeks farmers will be very busy. The key to your success will be not let your work get behind, don't fret over so much to do but do it cheerfully and keep your eyes on the goal of a good harvest in the fall for we shall reap if we faint not.

The agent attended 12 4-H Clubs and gave demonstrations in grooming to the boys while Miss Clay, the Assistant Home Agent, gave demonstrations to the girls in the use of Measuring Happiness in the Home. The agent also checked on their projects and found each boy at his post of duty when it comes to growing pigs, chickens and gardens.

It is very gratifying to see the improvement slowly being made in the county in keeping with the long time program. It can be seen that farmers are not afraid to try to begin improving their home. It must be admitted that they were afraid they could not get the money was the monster that swallowed up their ambitions. Painting, fixing up old buildings and quite a few are wiring their homes.

The workers council will hold its regular monthly meeting in the agricultural building Saturday morning April 19, 1947 at 10:30 a.m.

Where Cissy Spent Her Honeymoon

Most of the young newlyweds in our town spend their honeymoon at Roundstone Lake or Jackson Falls; why the Martins even went as far as New York City.

But when Cissy Copper married the young Carter boy, they allowed as how they were going to spend their honeymoon right here.

"There's no place better than our town," Cissy says. "And I'd like to start married life at home, with things Bud and I are used to."

Makes sense, come to think of it. Folks naturally left them alone.

Greenies Clinch Third Straight In Wilmington

By BERT MOYE
Manager Johnnie Pare's Greenies won their third straight exhibition game last night by defeating the Wilmington Pirates at Guy Smith Stadium at 7:45 p.m.

White Sox And Bobcats Win In School League

The White Sox continued their winning ways yesterday and stayed on top of the league by beating Dave Clark's Bears by the score of 15 to 2. The Sox made a track meet of the first inning, scoring 14 runs before Herbert Corey, the third pitcher of the inning retired the side. After the first, Corey tamed the winners and allowed them only one unearned run for the remainder of the game.

Score by innings:
R H E
Greenville 003 092 230—10 12 2
Wilmington 029 000 041—7 8 3

Game Tonight

The Greenies wind up their exhibition play here tonight when they meet the Wilmington Pirates at Guy Smith Stadium at 7:45 p.m.

White Sox And Bobcats Win In School League

The White Sox continued their winning ways yesterday and stayed on top of the league by beating Dave Clark's Bears by the score of 15 to 2. The Sox made a track meet of the first inning, scoring 14 runs before Herbert Corey, the third pitcher of the inning retired the side. After the first, Corey tamed the winners and allowed them only one unearned run for the remainder of the game.

Tommy Lupton and Horace Carawan were the leaders for the winners with two hits each. Bobby Bradshaw pitching for the Bobcats held the Flies to four hits, but his wildness kept him in trouble. Dwight Garrett starred in left field for the losers.

DIAMOND DUST

By BERT MOYE

Four more Greenville players were given their releases yesterday according to an announcement made by Manager Johnnie Pare. Those who were released are Edward Dunkel, outfielder; Walter Collier and L. W. Wilson, infielders; and Chester Subovski, pitcher. With the release of these four men, the squad has been cut to eighteen men, which includes three outfielders, five infielders, three catchers and seven hurlers.

Speaking of the league meeting in Wilson tomorrow night each town in the league has been asked to send a representative from their Jaycee organization. Representing the local Jaycee at the meeting will be Johnny Laitares, who in the opinion of the writer is one of Greenville's most ardent baseball fans. Others from here who are planning to attend the meeting are President Guy Smith, Secretary-Treasurer, David C. Moore, Jr., Manager Johnnie Pare; Vice-President Bill Lee, and yours truly.

President Guy Smith is very busy these days getting the ball park in shape for the opening game here on Friday night when the Greenies play Tarboro in the first official home game of the season at 7:45 o'clock. A new wire has been put on top of the grandstand and in addition a new ticket office of brick construction has been built on the back of the stadium which is much larger.

Ralph King, who will run the concession stand this year, has installed a telephone in his place which can be used to anyone who wishes to call for a doctor or any other emergency. The telephone number is 4282. There will also be a telephone in the press box this season but this is being put there by the News and Observer in order that they may have a report of the game as soon as it is finished and cannot be used by the general public to make calls. Your cooperation in the matter will be greatly appreciated by me.

Pirates Divide Tilts On Tour

Garland Little, southpaw from Ayden, struck out nineteen men and gave up only four hits, as the East Carolina Pirates edged a 5-4 victory over the Little Creek, Va. Navy Amphibians in a game played there Saturday.

Little bussed the Amphibs all the way except for the seventh when they scored all their runs. After taking a two-run lead in the first on successive singles by James Hayes and Wynne, Coach John Cameron's collegians clinched victory with a three-run party in the fifth. Little struck out nine of the ten batters to face him in the first three innings.

Summer Session At College Opens June 5 With Eight New Instructors

Dean R. J. Slay of East Carolina Teachers College has announced that the summer session at the college will open on June 5 with a faculty of 49 members, eight of whom will be at the college for the first time. Dr. Harold C. Jones, now professor of biology at Berry College in Georgia, and Mrs. Bernice W. Wragg, a supervisor of art in the Houston, Texas schools, will begin during the summer session their duties as members of the reg-

ular college faculty. Six others will be at East Carolina for the summer only. L. W. Hennen, who is now doing graduate work at Duke University, will teach education. He is a graduate of Oberlin College and has the master's degree from Duke. Marjorie Crisp of the faculty of Louisburg College will be a member of the health and physical education department.

Dr. Stanley N. Reeves, superintendent of schools in York, S.C. who received his doctorate at Peabody College, will join the faculty here as a member of the department of administration.

Dr. James R. Patrick, member of the department of psychology at Ohio University at Athens, will teach psychology. He is a graduate of the University of Georgia and received the doctor's degree at the University of North Carolina. Mildred Johnston of the Wilmington city schools, an M.A. graduate of East Carolina, will teach here in the department of social studies.

At the Training School on the campus Mrs. Herma Taylor Stancill will be a member of the faculty. Mrs. Stancill received her training at the State Teachers College in Commerce, Texas, and at Peabody College, where she was granted the master's degree.

IT IS

Economically Sound

To Bring Prices DOWN!

●IT'S ON A BASIS OF LARGE VOLUME AND SMALL PROFITS AND FAIR DEALINGS THAT WE HAVE MADE THIS GREENVILLE'S BEST FURNITURE STORE.

We've always made it our business to keep prices down. We did it before the war because large producers with volume items to sell naturally brought them to Quinn, Miller & Stroud for quick distribution.

We did it during the war by strict cooperation with OPA. No Quinn, Miller & Stroud item has ever been sold at a black market price, or on anything but a "first come, first served" basis.

We're doing it NOW. Wherever manufacturers are producing new items at lower prices, or increasing volume to bring prices down — you get that saving immediately at Quinn, Miller & Stroud.

●WE HAVE BEEN WORKING WITH MANUFACTURERS FOR GREATER PRODUCTION AT A LOWER COST. YOU'LL SEE THE RESULTS TODAY AT QUINN, MILLER & STROUD.

WE SAW THE NECESSITY — AND IMMEDIATELY MET THE ISSUE! EVERY ITEM IN OUR STORE HAS BEEN SUBSTANTIALLY REDUCED, EITHER FOR CASH OR ON CREDIT WITH THE SAME QUINN, MILLER & STROUD GUARANTEE OF SATISFACTION. IT WILL BE TO YOUR INTEREST TO PERSONALLY LOOK THESE NEW LOW PRICES OVER BEFORE BUYING ELSEWHERE.
