PHONE STRIKE IS VIRTUALLY ENDED TODAY

Nationwide Tie-Up Winds Up As Failure For Telephone Union

Washington, May 21—(AP)—The return to work today of 26,900 Western Electric installation workers virtually winds up this country's first nationwide telephone strike.

Only two disputes—between the Western Electric Company and equipment workers at Point Breeze Md., and Lincoln, Neb.—remain of the scores which brought on the walkout April 7.

At one time 340,000 persons were idle, but that number shrank fast in the past two weeks, after four independent unions in New York City settled for a \$4 weekly pay increase.

The installation men, employed in 42 states and able to keep other telephone workers from their jobs by picketing major exchanges, settled with the Bell System's Western Electric subsidiary yesterday under government conciliation pressure.

Like many others among the National Federation of Telephone Workers and independent unionists made idle by the strike, they settled for barely one-third of the flat 112 weekly pay increase which they had demanded.

The installation workers, members of the Association of Communications Equipment Workers, received an hour or \$4.00 a week.

Most of the telephone operators, clerks and equipment workers who joined in the walkout probably received an average weekly boost of between \$3.50 and \$4 plus "rings" adjustments which the A.P.W. said would boost take home pay by about another \$1 a week.

The Bureau of Labor Statistics placed the average pre-strike weekly earnings of telephone workers at \$44.19.

By NPTW acknowledgement, the strike was not a union success.

Parachute From Burning Bomber

El Paso, Texas, May 21—(AP)—Twenty Army airmen parachuted from a burning B-29 last night before it crashed near Merkel, Texas, 16 miles west of here, and 13 of them were injured in landing.

At Roswell, N.M., the plane's base, the public relations office said it had accounted for 18 of the fliers.

Four received broken bones when they fell heavily in the darkness and nine others were less seriously hurt.

The plane was seen in flames as it passed over Sweetwater, Tex., at dusk. The Civil Aeronautics Administration said that the pilot, Capt. Alfonso Camarena, reported the fire started in the No. 3 engine.

Pitt Is Leading Tobacco County

Raleigh, N.C., May 21—(AP)—Pitt County is the leading tobacco-growing county in the United States, Johnston County is second and five other North Carolina counties are in the first 10, according to figures released here by the Department of Commerce's Bureau of the Census.

Pitt County grew 37,360 acres of tobacco in 1944 as compared with 43,365 in 1939 when it was also in first place.

Other North Carolina counties in the first 10 are: Robeson, Wake, Wilson, Nash and Columbus.

Agro Quads To Celebrate First Birthday

The Plutz sisters, only living Negro quadruplets, prepare to celebrate their first birthday anniversary May 23 in their farm home near Madison, N. C. They weighed only four pounds each when born to Annie Mae Plutz, 37-year-old deaf mute, and her husband, James Plutz, 54. Left to right in the order in which they were born: Mary Ann, Mary Louise, Mary Alice, and Mary Catherine. (AP Photo)

Phone Companies Ask Tax Repeal

Urge Congress To End Excise Levies On Communications; Would Save Taxpayers \$400 Million; Plea Put Before House Committee

Washington, May 21—(AP)—With the Senate ready to open debate on the House-approved \$4,000,000,000 income tax cut, the telephone industry asked Congress today to repeal the excise levies on communications.

This would save taxpayers another \$400,000,000. The excise is levied on telephone, telegraph and other communications service.

The recommendation was placed before the House Ways and Means Committee in statements submitted by the American Telephone and Telegraph Company, A.T.&T.'s associated companies, and the United States Independent Telephone Association.

It was the first recommendation for a new tax cut in the committee's move toward general revisions of the tax structure, which Chairman Knutson (R-Minn.) said should mean "substantial" tax reductions beyond the current \$4,000,000,000 bill. The committee plans to write the general revisions into law next year.

The telephone industry asked that the communications excise repealer be made a part of the 1948 revision. The industry described this excise as a tax upon a necessary business and social service and not a "luxury" tax.

Meanwhile, in the Senate, Senator Millikin (R-Colo.) predicted that opponents of a 1947 income tax cut will reach their "high water mark" on a postponement vote—but that the mark won't be high enough to block the tax slash.

Attacks Potato Policy In U.S.

Washington, May 21—(AP)—Rep. August H. Andresen (R-Minn.) accused the Agriculture Department today of "wanton destruction of potatoes" while potatoes are being imported from Canada at high prices.

"While Department of Agriculture agents pour kerosene on huge piles of new potatoes in Alabama, North Carolina, Virginia, and other southern states," Andresen told the house, "Potatoes come in from Canada to supply those markets, and at higher prices for consumers already staggering under the cost of living."

African Development

Great Britain Turns To Colonies In Africa For Huge Effort To Rebuild Long-Accustomed World Might; Whole Character Of Vast Empire Seen Changing

By DEWITT MACKENZIE

British military authorities in London disclose that the projected withdrawal of England's main Mediterranean and Middle Eastern defenses to East Africa is to be accompanied by an economic, social and political development in Africa which will be "truly historic."

Hot on the heels of this momentous statement we see British, French and Belgian colonial administrators meeting in Paris to discuss a program for intensive development in southern, central and equatorial Africa. They tell us that this great project is to be started at once.

All this has been got under way without blare of trumpets. Indeed it's only now we get a close-up preview of a vast enterprise that is calculated to strengthen a British Empire which some gloomy prophets have said darkly was breaking up. This prediction has been voiced more persistently since mighty India with her four hundred millions has been granted her independence thereby removing one of the brightest gems from the imperial crown. Winston Churchill said a few days ago that Britain would con-

tinue to play a leading role in world affairs, "albeit not in the full stature of former days." He added: "It is my unquenchable faith that if we have hard times ahead—we shall come through the difficulties in the end."

The term "breaking-up" isn't an apt one to use in connection with the changes in the British Empire. It is undergoing a metamorphosis which thus far has resulted in dividing it into two parts—the British Commonwealth of Nations (comprising the sovereign states) and the Empire (including the dependencies). These two divisions complement each other.

There is a question of whether India will want to remain within the commonwealth when her independence has been formalized. However that may be, Britain has scattered around the globe many great and potentially rich colonies which are inhabited largely by primitive peoples. In the ordinary run of things these colonies must remain within the empire for many decades before they will be capable of self-government.

NAVY RESERVE DRIVE GROWS "Operation" In City And County Gaining Many Recruits

Operation "Naval Reserve," in action over the entire country, is showing very satisfactory progress in Greenville and Pitt County according to Lieut. Commander David W. Mosler, publicity officer, as the halfway mark is reached in Naval Reserve Week. Many former servicemen and non-veterans have declared their intentions to join this fast-growing organization dedicated to maintaining this country's pledge to the family of nations and to our own security.

Attention has been focused on Naval Reserve Week through the fine cooperation of the merchants, civic clubs, and other organizations. On Monday placards and posters were distributed throughout the city; Lt. Commander Ty Wagner addressed the Rotary Club; Commander Mosler spoke to the Lions Club; and in a special program at the radio station, Charles Whedbee was sworn into the Naval Reserve. Leaflets were dropped over the city from an airplane flown by Bill O'Connell of New Bern. Another special broadcast featured Mayor J. H. Boyd interviewing Lt. Commander Stuart Carr, chairman of the Naval Reserve committee, which was heard at nine o'clock Tuesday night.

Activities will move tonight to E. C. T. C. where there will be a mass swearing-in ceremony and the presentation of medals to servicemen. Following the program, which will also be broadcast, Lieut. Charles Bissette will make a short talk.

The two service organizations in Greenville have pledged their full support. Lt. Commander Wagner addressed the American Legion at their meeting Tuesday night and there will be a special Naval Reserve program for the Veterans of Foreign Wars at their meeting Thursday night.

Warren Upholds VA Refusal To Pay Strikers

Washington, May 21—(AP)—Employees who strike against the government forfeit not only their jobs but their right to unemployment pay for work done before they walk out. Comptroller General Lindsay C. Warren ruled today.

His decision came in a case involving three union carpenters who were employed by the Veterans Administration in remodeling its Waco, Texas center.

Warren notified Gen. Omar Bradley, VA chief, that the VA had been right in not only removing the men from its payroll but also refusing to deliver salary checks covering work before the strike.

The ruling constituted an interpretation of the law passed by Congress last year forbidding payment of wages or salaries to anyone striking against the government or holding membership in an organization of employees claiming a right to strike against it.

Wrecked Army Plane Is Found

Champaign, Ill., May 21—(AP)—An Army B-25 airplane crashed in a farm field four miles from the air base at Chanute Field last night, causing an undetermined number of fatalities. The wreckage was found today.

In Missouri

Washington, May 21—(AP)—The White House said today that President Truman will sign the \$400,000,000 Greek-Turkish aid bill at a ceremony in Missouri tomorrow.

Eben Ayer, assistant press secretary, told reporters the bill will be flown to the President at Kansas City this afternoon.

FORD FOREMEN CALL STRIKE

Action Unanimously Approved By Chapter Of FAA

Detroit, May 21—(AP)—The Foreman's Association of America (F.A.A.) ordered a strike of its 3,700 members at the Ford Motor Co. effective at 10 a.m. (EST) today.

Robert H. Keys, president of the union, said the action was unanimously approved by the Ford chapter of the FAA Tuesday night.

A spokesman for the union predicted that the walkout would halt auto production at Ford "within 70 days."

The FAA filed its strike notice April 17 and the 30-day waiting period, which expired Saturday, was extended to permit a conference with company officials earlier this week.

A contract between the company and the independent union was terminated almost simultaneously by both sides early in April. Ford later offered a one-year renewal of the pact.

Keys outlined the chief issues at dispute as raiding of ranks of the (Continued on Page Four)

Elaborate Program At College For Graduates

Commencement exercises at East Carolina Teachers' College will begin Saturday, May 31, with the annual alumni meeting and will continue through June 2, when 135 students are scheduled to receive diplomas. All but four of the graduates are North Carolinians. Thirty completed their courses at the end of the fall or the winter quarter, and the other 105 will finish their work at the close of the present quarter.

Candidates for the AB degree conferred upon students taking the teacher training course, number 107; those for the BS degree, 27; and those for the master's degree, 6. Of the total, 116 are women and 19 are men.

Principal speakers for the exercises will be Bishop Clare Purcell of the Methodist Church, Charlotte, who will deliver the baccalaureate sermon on Sunday morning, and Dr. Alexander J. Stoddard, superintendent of schools in Philadelphia, who will address the graduates Monday morning.

Dr. Dennis H. Cooke, who became president of East Carolina Teachers' College in August, 1946, will officiate for the first time at the June graduating exercises.

Mrs. J. L. Marcom of Raleigh president of the college alumni association, will preside at the meeting of the organization, which will take place Saturday morning at 10:30. New officers will be elected and the recipient of the annual alumni award to an outstanding graduate of the college will be announced. The classes of 1912, 1922, 1937, and 1946, will hold reunions and will be honored at the alumni luncheon on Saturday.

At the alumni allegiance service Saturday afternoon, Mary Cameron Dixon of Wilmington, president of the senior class, and other graduates will be received into the association as members.

Seniors, alumni and staff members will be entertained at a tea at the home of President and Mrs. Cooke on Saturday afternoon. The annual recital presented by students of the department of music will take place Saturday evening.

Members of the YWCA and the YMCA will hold a vesper service Sunday evening, with Bishop Purcell as the speaker. Omelia Monroe of St. Paul's, Alma Arrington of Hollister, and Paul Craver of Lexington will be student leaders at the ceremony, which has become traditional at the college.

President's Plan For Merger Of Services Is Given Support

Washington, May 21—(AP)—Chairman Gurney (R-SD) said the Senate Armed Services Committee "tentatively agreed" today to a provision setting forth the basic aims of President Truman's bill to unify the armed forces.

He hopes the committee will act finally upon it tomorrow, Gurney told newsmen after a committee session behind closed doors.

"No specific amendments were actually adopted," he said, "but a clearer definition of the secretary's power was quite generally tentatively agreed to."

The section of the bill under discussion deals with the authority of a proposed Secretary of National Defense, who would head up three separate branches: the Army, Navy and Air Forces.

Across the capitol, the House Expenditures Committee sidetracked the unification issue to open hearings on two other, but far less controversial, Presidential plans for government reorganization.

And Chairman Hoffman (R-Mich.) of the House group told a reporter:

"If anyone is blocking Army-Navy

unification, it is President Truman. "How does he expect us to get out a unification bill when he sends us a couple of these reorganizations we have to act on in a hurry? We've got to get them out before July 1."

The reorganization hearings have been scheduled to last a week. They might run longer.

Asked whether he thought that might mean no unification legisla-

tion this session, Hoffman replied: "I think we'll get it. all right. But I don't know in what form."

That was the big question before the Senate committee as it met behind closed doors.

"We are going to try to decide whether there is to be a super-secretary of national defense, and to my way of thinking the whole thing hinges around that," Senator Maybank (D-SC) told a reporter.

Mother's Dive Saves Son

"IRON LUNG" FOR FIREMEN IS PURCHASED

Medical Men Approve Life-Saving Service For Rescue Truck For Department

By CHESTER WALSH  
The Fire Department's Rescue Truck Committee, which raised a considerable sum of money to buy and equip an emergency rescue truck and equipment, yesterday sought an "iron lung" from the W. J. Mullikin Life Saving Equipment Company, Washington, D. C., for \$900.

The "iron lung" will be exhibited in a window at White's Store on Dickinson Avenue for public inspection beginning next Tuesday, Fire Chief George Gardner said today. It will be there through Thursday night.

Purchase of the "iron lung" was in line with the policy of the fire department to provide the best available equipment for life-saving purposes. The Board of Aldermen bought the special truck. Funds were obtained by public subscription. (Continued on Page Four)

Jury Awaits Charge In Trial Of Accused Mob

BULLETIN  
Greenville, S. C., May 21—The case of 28 white men, accused of lynching a South Carolina Negro, went to a Greenville County jury at 3:20 p. m. (EST) after an eight-day trial.

Jury Expected To Get Case Sometime This Afternoon; Final Arguments End On Note Of Sectional Prejudice

Greenville, S. C., May 21—(AP)—J. Robert Martin Jr., 37-year-old circuit judge, spent this morning preparing his charge to a South Carolina jury in the unprecedented mass-trial of 28 white men accused of lynching a Negro.

He had planned to convene court at 10 a.m. (EST) but four hours later the jury had not been called in to hear his charge.

There was no indication as to how long the judge would need to give his charge but the jury was expected to get the case sometime this afternoon.

Legal arguments in the lengthy case were concluded yesterday on a note of sectional prejudice.

Public Prosecutors Samuel Watt and Robert Ashmore demanded conviction—but not the death penalty. (Continued on Page Four)

MRS. TRUMAN GIVEN CHANCE

President's Physician Says "Will To Live" Is Important

Grandview, Mo., May 21—(AP)—President Truman's personal physician, today gave his 94-year-old mother a chance for recovery, if she maintains her present gradual improvement.

Brig. Gen. Wallace H. Graham said everything depends on Mrs. Martha E. Truman's will to live.

The presence of the President at her bedside, he said, has been an important factor in the slight improvement noted in the past 48 hours.

Graham in a news conference in nearby Kansas City emphasized over and over again that he was "an optimist."

He said the elderly patient had a very tired heart and a generally weak body and that she was fighting. (Continued on Page Four)

Lewis And Mine Owners Resume Negotiations

Washington, May 21—(AP)—John L. Lewis and the mine owners settle today, in an air of great secrecy, to bargaining for a new contract to keep the United Mine Workers digging coal after June 30.

Neither Lewis nor Ezra van Horn, chairman of the negotiating conference, would disclose how much progress was made yesterday and Friday at preliminary talks between the UMW chief and those who represent 75 percent of the nation's bituminous production.

LEGION NAMES OFFICERS FOR COMING YEAR

James S. Jenkins Succeeds Tom Wilson As Commander; Elects Convention Delegates

By CHESTER WALSH  
Pitt County Post No. 39, American Legion, last night elected James S. Jenkins commander to succeed Tom Wilson, whose term expires shortly.

J. Howard Moye, Frank Taylor and Harry M. Brown were elected vice-commanders, W. C. Eagles, adjutant, Larry Averette, finance officer, Dick Forrest, sergeant at arms, and Amos Hudson mess sergeant.

Commander Tom Wilson presided. The post endorsed Howard Moye for state administrative adviser to represent the Fifth District of North Carolina. Five state advisers are to be elected at the state convention to guide the affairs of the North Carolina Department of the American Legion.

The state convention will be held at Carolina Beach June 14-17. The following convention delegates were elected to represent Pitt County Post No. 39: James R. Worsley, J. Howard Moye, W. C. Eagles, L. B. Cowan, E. B. Peele, Herman McLawhorn, Jack Edwards, A. B. Corey, Alfred Kennedy, Walter Cherry, Paul A. Scott, John Timberlake, W. G. Garner, P. A. Jordan and James S. Jenkins.

The post unanimously endorsed the universal military training bill now before the Congress, and ordered that letters be sent to our representatives and senators requesting them to support the UMT bill.

The Legion also endorsed the Naval Reserve recruiting program being carried on this week.

The Legionnaires gave a rousing vote of thanks to retiring finance officer L. B. Cowan for his good work during the past year.

Congressmen Call On Briton Over Leaf Taxes

Washington, May 21—(AP)—Five congressmen, calling on the British ambassador to tell him the "distress" of American tobacco growers at the recent rise in British tobacco taxes, were told that the action was necessary to enable Englishmen to purchase the necessities of life.

The delegation calling on Lord Inverchapel was composed of Reps. Chapman, Gregory and Clements of Kentucky and Clark and Cooley of North Carolina. They were accompanied by J. B. Hutson, official of Tobacco Associates, Inc.

The British ambassador explained the action as necessary "in all respects" so that British people would lessen their tobacco use and first purchase the necessities of life.

Roxas' Airplane Reported Lost

Manila, May 21—(AP)—President Roxas tonight announced the loss of the Presidential plane Lily Marlene in the wilds of northern Cotabato in Mindanao.

The plane was carrying from 12 to 15 government officials.

The four-engine C-54, formerly the personal plane of Lord Louis Mountbatten, was last heard from at 9 a.m. Sunday when it took off from Buayas airfield at Cotabato bound for Bacolod, Negros Island.

Senate Approves Setting Up Center For Building Up Trained Scientists In Many Fields; No Money Limits Yet Set; How It Would Be Spent; Research Work

By JAMES MARLOW

Washington, May 21—(AP)—The Senate has just approved setting up a National Science Foundation.

This is its purpose:

1. To build up a big supply of trained scientists, particularly by helping educate young people with scientific brains.

2. To open basic research in many fields. For example, to find the cause and cure of cancer.

The foundation won't become a fact unless the House also approves. It's expected to vote soon.

Preston Tyson came home this morning from Greenboro. The man with a vegetable patch is a prince these days.

The assessors and list takers will soon be at their work as June is the month in which to list property for taxation. A new re-assessment of all real estate will be made this year.

It is warming up for the next cold spell.

Her belief in the need of our town led her on to a patient and devoted duty to that cause. She gave her services for many years that the library should be kept open and through the dark days of small funds, fires and other tribulations, she remained faithful to that trust.

Our club has always been proud of her membership and as an expression of our love and gratitude to her, her portrait hangs above the library shelf in the Shepherd Memorial Library dedicated to her years of unselfish devotion in keeping alive the library of Greenville.

As a further tribute to her usefulness after ill health caused her to resign as an active member of the club she was made an honorary member for life. Although through the frailties of the body, she was cut off from active contact with the world in her last years yet she met these infirmities with fortitude and cheerfulness and by living wholly in submission to the Divine influence she created for herself internal pleasures infinitely greater than any she could otherwise attain.

In her passing we feel deeply our distinct loss but we know full well that she has gone on into a fuller life and that her influence will linger long among those of us who knew and loved her.

Let us pause in silent tribute to our friend and honored member of this club—Louisa Tucker Bowen.

tables and throughout the home. Mrs. Moore presented Dr. Lucille Charles who is director of dramatic arts of the English Department of East Carolina Teachers College. Dr. Charles' lively introduction of her subject and reading of a dramatic essay on the little-known contribution made by Tom Paine to the winning of the American Revolution was most entertaining. Mrs. D. H. Conley, president, presided during this club year. Books were exchanged and since this is the last spring meeting, it was announced that the books will be in the home of Mrs. E. R. Browning during the summer. Members may exchange them there.

The next meeting of The Ladies of the Round Table will be the first Tuesday in October.

Members and their guests departed reluctantly, declaring the year and each meeting had been most enjoyable and profitable.

Funeral For Mrs. Pattie Forbes Here Tomorrow

Mrs. Pattie Forbes, 78, well-known and beloved resident of this city, died at the home of her daughter, Mrs. Swanson Graves in Washington, N. C. Tuesday afternoon at 1 o'clock after suffering a stroke of paralysis Friday morning. Funeral services will be conducted at the Memorial Baptist Church Thursday afternoon at 3:30 o'clock by the Rev. Surviving are two daughters, Mrs. Swanson Graves of Washington and Mrs. J. P. Royer of Manassas, Va.; two sons, Percy Forbes of San Francisco, Calif., and Earl E. Forbes of Greenville, and seven grandchildren.

Tables and throughout the home. Mrs. Moore presented Dr. Lucille Charles who is director of dramatic arts of the English Department of East Carolina Teachers College. Dr. Charles' lively introduction of her subject and reading of a dramatic essay on the little-known contribution made by Tom Paine to the winning of the American Revolution was most entertaining. Mrs. D. H. Conley, president, presided during this club year. Books were exchanged and since this is the last spring meeting, it was announced that the books will be in the home of Mrs. E. R. Browning during the summer. Members may exchange them there.

The next meeting of The Ladies of the Round Table will be the first Tuesday in October.

Members and their guests departed reluctantly, declaring the year and each meeting had been most enjoyable and profitable.

# "Music in the Valley"

On Friday, May 23, the Black Masquers and Dramateers of Greenville High School will present "Music in the Valley," a comedy-drama by Dana Thomas. The play will be the final production of the year and the drama students have done their best in preparation for "Music in the Valley" to make it the best production ever to be staged by high school students.

The presentation is under the direction of Mrs. Howard Mims. Those who have the principal roles are seniors who will make their last appearance on the high school stage. Tickets for the production to be given at 8 o'clock in the high school auditorium, may be obtained from any of the drama students or at the door.

## Employees Flanagan Buggy Co. Present Portrait To Son

By CHESTER WALSH  
The fifty-five employees of the John Flanagan Buggy Company, in a surprise but impressive ceremony in the office Monday evening, presented a portrait of the late Col. E. G. Flanagan to E. Graham Flanagan, who succeeded his father as president of the company after he died in June, 1942. Rudolph Fleming, who has been with the company 34 years, made the presentation.

Pointing to the portrait on the wall, Mr. Fleming said the employees for some time had planned to present a gift which would represent their sincere love for Mr. Graham Flanagan and their sincere appreciation of the many favors and considerations which he and his distinguished father have shown them during the years.

"We believe that this portrait painted by Mrs. Georgia Pearsall Hearn, which we are presenting today will fulfill our desire and show the great love and respect we all have in our hearts for your father. We trust that this portrait hanging in your office will give you, and all of us, a daily incentive to carry on the high business principles and traditions which Col. Ed represented and that the John Flanagan Buggy Company may continue in its high position in the years to come."

The employees hung the portrait in Mr. Flanagan's private office after he had left for the day. He was called back. When he walked into the office and saw the more than half a hundred employees gathered there he was shocked and wanted to know what had happened. When he saw the portrait of his father he was visibly affected by emotion and found difficulty expressing his appreciation. It was a

## Louisburg High Hears Dr. Cooke Give Address

Dr. Dennis H. Cooke, president of East Carolina Teachers College spoke on Monday evening at the commencement exercises at the Louisburg High School, using as his topic: "Building Character as an Investment."

"The school is a place," Dr. Cooke said, "where children should be taught how to live." He emphasized the ideal of service to others and the responsibility of each man to his fellows and stressed the value of work in accomplishing some good in the world. Dividends may be expected, he said, from the kind of education which teaches students a reverence for God, obedience to parents, respect for law, integrity of character, loyalty to one's fellowman, and a willingness to work hard.

Dr. Cooke spoke on Tuesday morning at the commencement exercises at the Parmele school and will make addresses at Aulander on Thursday and at Elizabethtown on Tuesday.

## "Silent" Plane On Test Flight

Langley Field, Va., May 21.—(AP) Aeronautical engineers have combined all known noise-silencing devices to produce the first "silent" airplane.

One of aviation's major developments in recent years is the way 200 experts here for a demonstration yesterday describe the new ship.

Taken up above 300 feet the plane made only slightly more noise than a glider. Its five-bladed propeller, which revolves at a slower speed than the conventional ones but propels the ship at a higher speed, and an engine muffler contribute to its "silence."

## -even standing still

HERE you see — in one sleek and tidy package — all the things it takes to make the style-setter and the standout performer of the year.

One eye-filling glance will tell you that here's the clean-lined beauty and hint-of-tomorrow look that will cue the trend of car design for many seasons to come.

But just wait till you get this beauty in motion, and you'll know why folks are saying there's nothing on wheels to match it.

That bonnet's not broad and haughty for looks alone; it's brim-filled with power — the satin-smooth power of Buick's big Fireball straight-eight engine.

Go where you will, its two solid tons and soft coil springs on all four wheels make byroad and highroad equally smooth.

You get this in any Buick. But you get something more in the one pictured here.

Its snug top shelters you at the touch of a finger. Its door windows and even its front seat are power-operated by push-button control.

And thanks to the magic of Buick's new Silent Zone mounted bodies, you ride in a solid and road-steady silence such as Convertibles have never known before.

In other words, here's style and size, power and room, convenience and comfort all wrapped up in one of the most exciting

models of the year's most wanted car.

That means, of course, that it takes a bit of waiting before one can be yours. But the best way to shorten that wait is to take the all-important step — and get your order in now. We'll take it with or without a trade-in.

A FINGER TOUCH—and the door window runs up or down automatically. Other handy controls raise or lower the top and adjust the front seat.

## Strength FOR THE DAY

**PRIMROSES AND ANGELS**  
The poet Wordsworth wrote about a certain figure named Peter Bell. Of him it was said:

"A primrose by the river's brim,  
A yellow primrose was to him,  
And it was nothing more."

On the other hand, the poet William Blake declared that the setting of the sun was for him not the mere retreat of the sun behind the hills, but a time when he heard the angels singing "Holy, holy, holy."

The world is full of Peter Bells, and it would perhaps be a pretty dismal place in which to live were it not for the people who see things just as they are and see nothing more. Poets are important, but the people who carry on the everyday business of living are for the most part like Peter Bell rather than like William Blake. But it is glorious to have a man now and again for whom the customary processes of nature are filled to overflowing with spiritual significance, who in the sunset hour hears the angels singing, who in sunrise and birth and death, who in the daily conversation of his fellows and in the simple acts of life sees God marching through it all and hears him speak.

Blessed is such a man and blessed the community and the generation which know his influence. We look to Peter Bell to keep the home fires burning, but men of the William Blake variety light these fires.

## WASHINGTON LETTER

Washington—With the exception of the Goddess of Liberty, Nellie Taylor Ross is the only woman to have her likeness on a medal or coin produced by the United States mint.

Presidents, secretaries of the treasury and mint directors automatically get medals. Mrs. Ross was appointed director of the mint in 1933 by President Roosevelt and has held the job ever since.

Mrs. Ross was the first woman to be appointed director of the mint. She also had been the first woman governor of a state, having succeeded her husband, William Bradford Ross, as governor of Wyoming after his death in October 1924.

The public hears little of Mrs. Ross. But the first woman of whom the mint has made an impression also has made an impression on the mint.

She directs all the mint institutions, determines which coins should be made in each mint, allocates all mint appropriations and is in charge of personnel.

From the time she first took over the job, Mrs. Ross has made changes in the mint methods.

She saw that coins were being cut from ingots too narrow, causing many to have to be made over. She had the ingots widened. She noted that designs on the quarters were too high for stable stacking and she had them lowered.

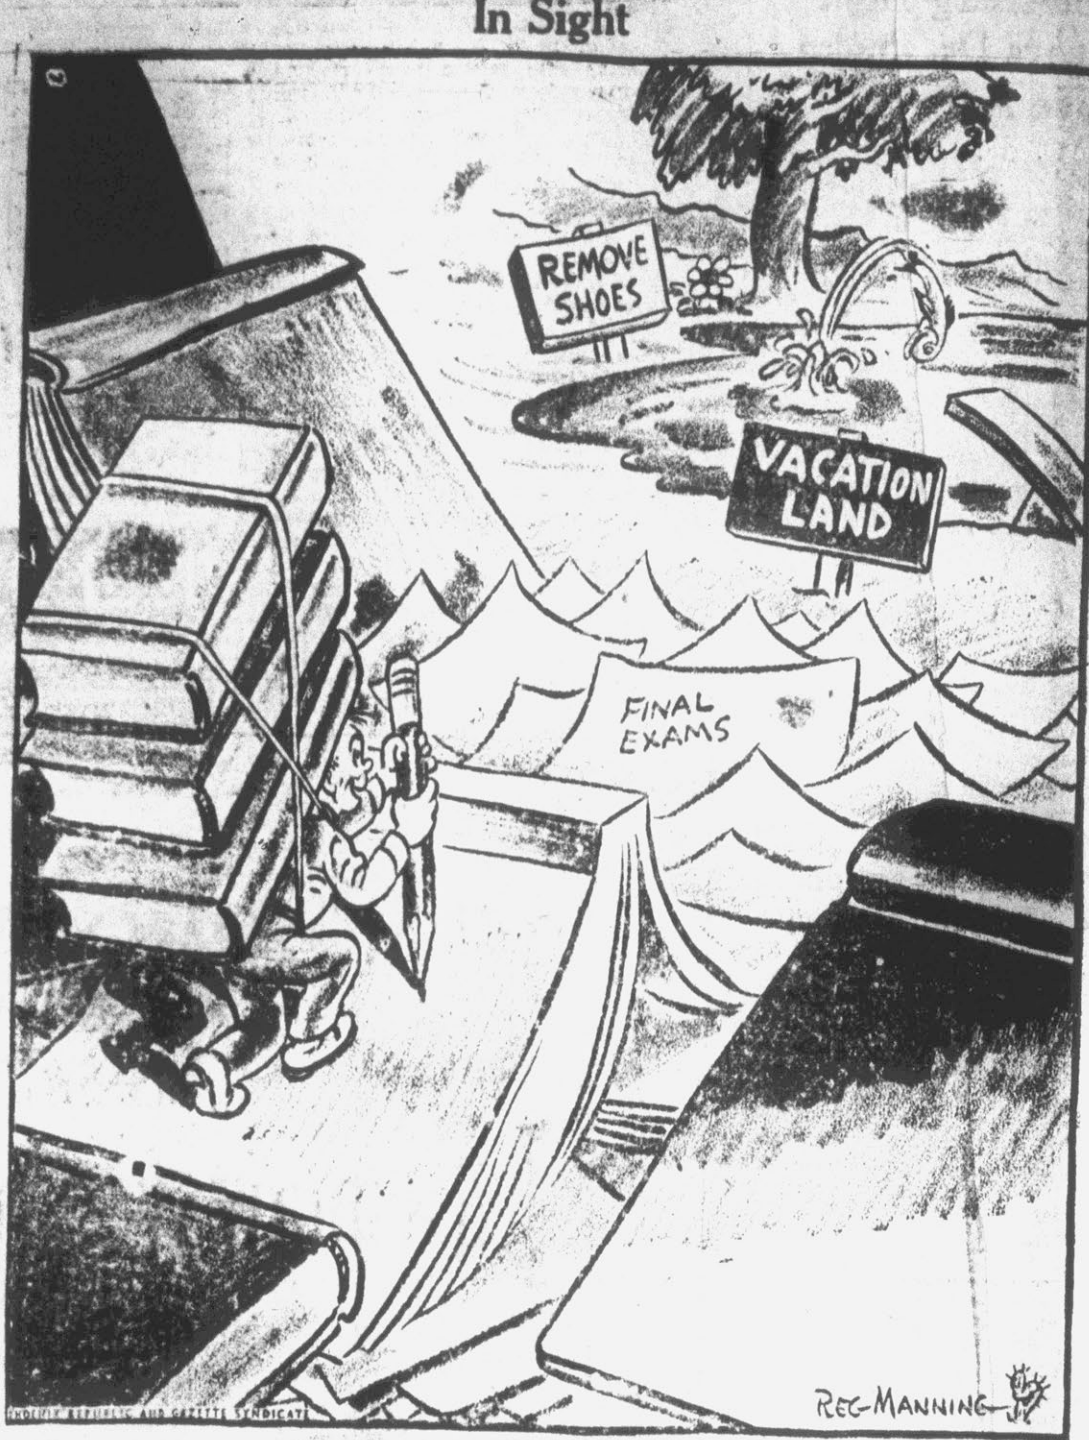

Mrs. Ross is a little woman, dainty and feminine. She was married in September 1902 and before the death of her husband her sole claim to distinction was home-making. She had four children, two of whom are living now—George Ross, with the International Chamber of Commerce in New York, and Bradford Ross, general counsel for the Federal Power Commission in Washington. She is four times a grandmother.

Her old-fashioned nine-room apartment in the capital is filled with antiques she has collected from all parts of the country. She is mistress of a century-old, 200-acre tobacco plantation, "La Trappe" at Prince Frederick, Md., and until recently owned a 250-acre stock and grain farm in Virginia.

## African . . .

(Continued From Page One)

It is to some of the most important of these colonies that England now is turning vigorous attention. Within British East Africa and British West Africa and British South West Africa are a large number of colonies, totalling hundreds of thousands of square miles and in-

habited by many millions of Africans.

These possessions contain rich natural resources and there are great tracts which are prime for the growing of cotton, tobacco, rubber, peanuts, and many other products, as well as for cattle raising.

I understand that it is planned to grow an immense amount of peanuts in Kenya, British East Africa which is particularly suitable for this crop that is so rich in oil.

But when England has weathered her present economic crisis, and has set the wheels to turning in her richest colonies, she should do well for herself.

But the foundation couldn't dictate to scientists what work they should do.

The foundation's job would be in research. It would have nothing to do with treatment. For example: It might pay for finding a cancer cure but not for giving the cure to cancer victims.

Once the cure was found, giving the curing treatments would be up to doctors or hospitals. The foundation wouldn't pay for that.

The state reminded the jury that they represented the public conscience of South Carolina in dealing

The defense, which rested its case without offering witnesses or testimony, argued the state had failed to establish its contentions beyond reasonable doubt, and assailed "Northern interference" in Southern affairs.

Defense Attorney Thomas Wofford, in closing the case, shouted: "We get along pretty well down here until they start interfering with us from Washington and the

North. If they would sympathize with us instead of criticize us, we might get along toward recovering from the time they laid waste to this country" (in the War between the States).

## "Iron Lung" . . .

(Continued From Page One)

The "iron lung," part of the rescue truck equipment, will be used under the direction of a physician or surgeon. When occasion arises for its use at a fire or other disaster, the first physician or surgeon to arrive at the scene will be in charge of it.

Upon invitation of the Rescue Truck Committee, Dr. J. L. Winstead, Dr. D. L. Moore, Dr. C. F. Irons and Claude D. Ward, business manager of Pitt General Hospital, inspected the "iron lung" yesterday and gave it their full approval.

All of the fire department's oxygen equipment and the "iron lung" will be used under the direction of medical men. The three-quarter ton truck bought by the city for rescue work was traded in for a one ton truck, which will be sent to Wilson to be equipped with a special body.

The Rescue Truck Committee will make a report of funds on hand and purchases made within the next few days.

## SEARCH CANCELLED

New York, May 21—(AP)—A stamp exhibited as the world's most precious at the International Stamp Exhibition, a British Guiana 1856 issue valued at \$50,000, was missing when officials made their daily check of exhibits yesterday.

They hastily took its mounting apart and found that the stamp's fastening loosened by a spotlight's heat, had slid behind a wooden frame.

### Manchurian Capital Surrounded by Communist Army

Nanking, May 21—(AP)—Besieged Changchun, capital of Manchuria, is now completely encircled by Chinese Communist forces. Nationalist dispatches reported today.

Government troops, however, were credited with retreating Kimchuling, 36 miles to the southwest. Fighting was reported in the streets.

In Changchun itself, Generalissimo Chiang Kai-shek's forces began digging trenches and setting up machinegun nests. They made other preparations for a possible fight inside the city.

Information Director Hollington Tong placed the total Communist strength against Changchun at 90,000 troops, including 20,000 Korean Communists.

He said the Koreans had been fighting in Manchuria for some time. Sidestepping a question on whether any had come from north Korea since the Soviet occupation, he said the Korean unit included remnants of the Japanese Army and recruits from southern Manchuria.

## Engineers Want Five Millions For N.C. Work

Washington, May 21—(AP)—Army engineers want approximately \$5,000,000 for flood control and rivers and harbor projects in North Carolina for the year beginning July 1.

They will ask a House appropriations committee tomorrow for \$4,600,000 for the Buggs Island power and flood control project in Roanoke River Basin of Virginia and North Carolina, chiefly affecting the latter.

Eric Rodgers, of Scotland Neck of the Roanoke River Flood Control Committee, told a reporter his committee is hopeful Congress will increase that figure.

The engineers also are asking a total of \$133,000 for planning projects in North Carolina.

Washington, May 21—(AP)—The House agreed today to a \$350,000,000 foreign relief program, as asked by President Truman.

The vote was 238 to 36. Its acceptance of this figure—which Senate insisted on—made final congressional approval largely a formality. Before the legislation goes to the White House, however, the Senate must approve a conference committee report.

### Indict Two Children For Killing Farmer

Statesville, N.C., May 21—(AP)—Two Mooresville Negro boys aged 12 and 13 have been indicted for murder by an Iredell County grand jury.

George Philter, 12, and Ernest Mitchell are charged with shooting Rob Lipe, 57, bachelor farmer, last Feb. 24.

Police quoted the boys as saying they meant only to hit the farmer in the foot after they got the idea from a moving picture they had seen that week.

He was sentenced in Guilford in June 1945 to 25-30 years for second degree murder and escaped from the Catawba County Prison Camp in January 1946.

### Pie Throwing Said "Soul-Satisfying"

Jackson, Miss., May 21—(AP)—Thirty-year-old Diana Guance, a former waitress, knows what it feels like to slap a pie in the boss' face.

"It's soul-satisfying," Miss Guance told reporters last night as she contemplated charges of assault filed against her by Chris Costas, operator of the Ritz Cafe.

### Slayer Captured After Manhunt

Raleigh, N.C., May 21—(AP)—Henry Hadie Agner, convicted Guilford slayer, was back behind bars today, and Prison Inspector Kyle Matthews said his recapture ended the "biggest man-hunt" the prison department has staged in recent years.

Agner was taken when a posse of state and local officers surrounded a farm house near High Point yesterday.

### Heart Attack Cheats Chair

Chicago, May 21—(AP)—Julius (Dolly) Weisberg, a former Chicago night club owner and convicted slayer, who had lost all court appeals to escape death in the electric chair and who was to have been executed early Friday morning, died yesterday in his death cell, apparently of a heart attack.

Weisberg, 50, who was convicted a year ago of the slaying of an out-

### Andrew J. May Claims Right To Intercession

Washington, May 21—(AP)—Andrew J. May told a federal jury today that his wartime authority as chairman of the house military committee gave him the right to intercede at the War Department in behalf of munitions makers Henry and Murray Garson.

May's counsel placed in evidence at the former Kentucky congressman's war fraud trial copies of House resolutions empowering the military committee to investigate various phases of the war program.

"Under authority of the committee and its chairman I made all the telephone calls and wrote the letters referred to in this case, as well as many other similar inquiries," May declared.

Army officers have testified May frequently called or wrote them in behalf of Garson interests. Most of them said that May never inquired about any other war firms.

### Lost Liberties By Regulation Held Most Vital

Asbury Park, N.J., May 21—(AP)—Leon H. Keyserling, vice chairman of President Truman's council of economic advisers, says that liberties which might be lost as a result of government price regulation are more vital to the nation than economic stability.

Addressing the New Jersey League of Women Voters, Keyserling last night blamed present high prices on manufacturers' attempts to fortify themselves against what they fear will be another recession. The Presidential aide said, however, that private industry should be left to work out the problem without government regulation.

He said decisions made in the free enterprise system were "more important than all government programs put together in maintaining economic stability."

He said, however, that the individual decisions of industrial leaders often fail to achieve what would make for a coherent system for economic stability but suggested that this could be corrected best if "pressure of informed public opinion is brought to bear on industry for improved practices."

### Demands Defense Plan For Alaska

Washington, May 21—(AP)—Rep. Lawrence H. Smith (R-Wis.) told the house today that Russia "has its eyes on Alaska" and "if we are not careful a Pearl Harbor is a possibility" there.

He called on military experts to "map out a plan of defense for Alaska."

Moreover, the Wisconsin member said the Communists are preparing to take over the Canal Zone "at the proper time."

There is ample evidence, he said, "of increased Russian air activity over Alaska, and that's not 'just for fun'."

### CALL HEARING

Raleigh, N.C., May 21—(AP)—The State Utilities Commission has called a hearing on Aug. 8 on an application of North Carolina's major railroads for an increase in their intra-state coach fares from 1.75 to 2.2 cents per mile.

Interstate rates have been at the higher figure since shortly after the war began, but the Utilities Commission refused to allow them to become effective in North Carolina.

VFW Post To Combat Reds In North Carolina

Winston-Salem, N.C., May 21—(AP)—The Veterans of Foreign Wars post here has adopted a resolution to employ counsel to submit purported evidence that Communists are violating state law requiring registration of lobbyists and are committing the felony of advocat-

ing overthrow of the U.S. Government by force. The anti-Communist and registration laws were enacted by the recent General Assembly. Post 1134 appointed a committee of three to arrange an immediate hearing before John H. Clement, resident superior court judge, requesting he order a grand jury investigation. It was announced at a meeting last night that Linville K. Martin, Winston-Salem attorney, had indicated his willingness to be retained by the post.

HOME RUNS BY LEAFS EARNED 7-4 VICTORY

Greenies Lose "The Hard Way" As Rivals Bat Two Homers In Eighth

By BERT MOYE. Manager Pare's Greenies lost a tough one to the league-leading Leafs in Rocky Mount last night 7-4, with two home runs counting the blame for the Greenies' loss.

Greenville took the lead in the first stanza and held it until the eighth when the Leafs turned five hits and a walk into four runs to take the lead and give them the ball game. In the third frame May's two-run homer accounted for their first two runs, and Fowler's homer in the seventh accounted for their other tally.

The Greenies put across two markers on two hits and three errors in the first stanza. With one away Bill Lynch reached first on error, Charlie Chute hit to centerfield with ball getting away from Colombo and Lynch scored. Jack Bomar hit to centerfield and brought home Chute for the second run.

The Greenies did not score again until the eighth frame when they scored twice to force ahead by one run. Tommy Lee led off with a single to right field and went to second when Harrison miscued Mauney got an infield hit, Chute singled, scoring Lee with Mauney taking third, and then Johnny Pare hit a fly into foul territory back of the third base line and leftfielder Musial made a sensational catch of it, but Mauney was on the alert and came home on the catch.

Larry Baldwin, losing his second game with the Greenies against one who pitched nine-hit ball, struck out nine men and walked seven.

Jack Bomar with two for three and Charlie Chute with two for four led the eight-hit attack of the

DIAMOND DUST

By BERT MOYE

In last night's game with Rocky Mount Larry Baldwin really pulled himself out of some tight places. In the fifth frame after leading the oases on three walks he retired the sides on strikeouts to end the score. Rocky Mount had ten men stranded on bases and the Greenies eight. After Luke led off in the ninth frame with a single, Ranweiler went in to pinch hit for Baldwin but failed to come through, hitting to short to force out Luke at second.

The ball park in Rocky Mount is the only one in the league where they sell for an extra two bits a reserved seat in the grandstand. And as you might guess it, they are the choice seats in the stand. Quite a few of them were empty last night too.

Joe Alamo will pitch tonight's game against the Leafs at Guy Smith Stadium and Joe says that he is going to cop that victory tonight or die trying. So far this season he has won two and lost four.

All clubs in the Coastal Plain League will have to cut their roster down to 15 men on Saturday of this week as league rules specify that only 15 men, including the manager, can be carried after the first 30 days.

Bill Kennedy, the pitching pride of Rocky Mount last season, pitched his first game for Toronto (International League—Class AAA) on May 10th and lost the game 13-2 to the Newark Club. Kennedy in his initial appearance with Rocky Mount last year lost the opener when Wilson gave him a 6-2 setback.

Score by innings: Greenville 200 000 020-4 Rocky Mount 002 000 14x-7

Golf Tournament At Local Links On May 25

Members of the Greenville Golf and Country Club will play an 18-hole flag and handicap tournament Sunday at the local course, it was announced yesterday by A.C. Ruffin, chairman of the tournament committee. Handicap ratings have been assigned to more than sixty golfers and most of them are expected to try for one of the six prizes being offered in this medal play match.

The prizes will be given to the golfers who score the low gross, the low net, low runner-up gross and low runner-up net; also to those hitting their shot nearest the flag on the two par three holes, numbers three and eight. Entrance fee for the tourney is two dollars and all receipts will go into the prizes. A special "bogey" prize will be given to the player matching the "bogey" score.

It was also announced that there would be no deadline for entering but it was hoped that those who plan to play declare their intentions before noon Sunday.

Big Forest Fire Out Of Control

Jacksonville, N.C., May 21—(AP)—A forest fire which burned over 10,000 acres in the Hofmann Forest Reservation was of incendiary origin, Forest Supervisor J. M. Stingley has reported. The fire, which began Saturday is not yet under control, but firefighters are making good progress. He added, Tractors and bulldozers of the N.C. Pulp Company and the State Forest Service are being used to build firebreaks, but lack of moisture has caused the fire to spread rapidly.
