FIRE CHIEFS WOULD FIGHT RURAL FIRES

Mayors Of Cities And Towns Petition Commissioners For Special Equipment

By CHESTER WALSH The chiefs of the organized fire departments of the various cities and towns of Pitt county, at a recent meeting, voted to petition the County Board of Commissioners to provide specially equipped trucks to fight rural fires in order that fire departments in the various towns may more successfully fight rural fires and possibly save human lives.

Sentiment among those who live in the country appears to favor the proposal. Following up the fire chiefs' action, the mayors of the towns and cities will present the following petition to the County Commissioners at their meeting next Monday: "Whereas, the Fire Departments of the various towns in the county are continuously being called to fires of property in rural areas, and, "Whereas, we are always glad to service the calls of our friends and neighbors and do what we can to save the property involved from destruction by fire, but due to the fact that the equipment we use in town fires is of little value in the country because of the fact that the water supply on the farms is not adequate and the equipment we have can only carry a very small amount of water which make it almost impossible for us to do efficient work in saving the property of our farm friends.

"Now, therefore, Be it Resolved that we agree to present the matter to the County Commissioners as follows: "That if the commissioners in their judgment would be willing to supply each organized fire department in the county with a truck equipped with a tank of 1,000 gallons of water capacity and chemical equipment, we will assume the obligation of helping to fight these fires with the equipment provided. "Answering such calls as the chiefs of the various departments may deem necessary and not of a trivial nature." (Continued on Page Three)

Firemen and police dig through the charred ruins of a United Airlines plane after it crashed at LaGuardia Field, New York, on a night take-off. Bodies of victims lie in the foreground. Several sources said 38 persons were killed and 10 injured. The big four-engine plane carried 44 passengers and a crew of 4 (AP Wirephoto).

Planes Loaded

Miami, Fla., May 31—(AP)—Passenger planes leaving Miami today were fully loaded despite news of crashes in Maryland and New York. All scheduled air lines operating from here reported fully booked reservation lists through the weekend with no abnormal number of cancellations. Two men with newspapers under their arms telling of the Eastern Air Lines crash at Port Deposit waited at Eastern's terminal early today, hopeful that last minute cancellations would permit them to fly to New York. They were disappointed.

Congress Told To Study 1949 Needs

Washington, May 31—(AP)—Senator Russell (D-Ga.) proposed today that Congress get busy at once on the 1949 national budget "so we won't be working in the dark" in attempting to cut government expenditures. Russell, a member of the Senate Appropriations Committee, told a reporter he believes the over-all Congressional Budget Committee should begin organizing a staff to make a detailed analysis of departmental needs for the fiscal year beginning July 1, 1948. "We're working in the dark now in trying to cut the budget," the Georgia Senator said. "We're like a grand jury because we only get one side of the case—the claims of the government agencies on their needs for funds. It's awfully hard to make any intelligent budget cuts that way."

Reds Turn Pressure On President Of Hungary

Budapest, May 31—(AP)—The Hungarian Cabinet announced today that Lajos Dinnyes, 46-year-old minister of war, had been chosen premier to succeed Ferenc Nagy, who resigned two days ago while on vacation in Switzerland. The Cabinet also announced that Istvan Kertesz, recently named minister to Rome, had been appointed to replace Foreign Minister Janos Gyongyosi, whose pro-Western views have been opposed by left-wing parties. It said that new national elections would be held in September. Reports circulated meanwhile that the Communists, having forced Nagy from office, had turned the pressure on President Zoltan Tildy in continuation of what some informants said was a determined drive to turn Hungary into a police state. ABRUPTLY END COAL PARLEY

Negotiations Suspended Indefinitely; Lewis Silent Washington, May 31—(AP)—Negotiations between John L. Lewis and soft coal operators of the North and West were suspended indefinitely today without explanation. Lewis had nothing to tell reporters as he led his delegation from a 35-minute wage contract conference with the operators' representatives. He referred questioners to Ezra Van Horn, Ohio operator representative and chairman of the joint conference. Van Horn, sober faced, said: "This meeting was adjourned by joint consent." He refused to comment further or explain the breakup of negotiations. (Continued on Page Three)

Communism's Prize

Hungary, Recently Escaping Hold Of Nazis, Appears Doomed To Be Forced Into Russian Sphere; Coup D'Etat By Reds Tantalizing To Russian Seizure BY DEWITT MACKENZIE Barring an unforeseen eleventh hour reprieve, Hungary shortly will have joined the list of Sovietized countries behind the "iron curtain" as the result of what non-Communist circles in Budapest describes as a Red coup d'etat that has substituted Communist rule for what was trying to be a democracy. Thus, with a brief intermission, the land of the Maygars bids fair to pass under totalitarian rule again, for it was only with the close of the war that Hungary escaped the clutches of Hitler's totalitarian Nazi regime. By the time of the Munich conference in 1938 the German Fuehrer had established a firm grip on Hungary, as I found during a European tour just after that, and he hung on until his own citadel was tottering under the allied onslaught. So the Hungarians got rid of Hitler, but those who were opposed to communism felt that they had jumped from the frying pan into the fire, for it was the Russians who occupied the country. This

Record Vote On Liquor Question

Salisbury, N. C., May 31—(AP)—Rowan county citizens voted today on the establishment of ABC liquor stores with heavier balloting than in any election since 1936. No western North Carolina county has voted wet since State prohibition became effective 40 years ago. At that time Salisbury was the last city in the State to go dry. The election here is the first of several scheduled in western counties this spring and summer. Gust Of Wind Caused Accident New York, May 31—(AP)—Relatives and friends sought today to complete identification of 40 persons killed in the holiday week-end crash of a DC-4 airliner near La Guardia field, which United Air Lines said probably was caused by a freak gust of wind "of almost unbelievable suddenness." The other eight persons on the plane, crashed and burned before a takeoff for Cleveland Thursday night, remained in hospitals, five of them in critical condition.

FORMS ITALY'S NEW CABINET

De Gasperi To Head Gov't Without Reds, Socialists Rome, May 31—(AP)—Premier Designate Alcide De Gasperi finished shaping up his fourth cabinet today and for the first time in three years Italy will have a government without any Socialist or Communist members. The new cabinet which was approved last night by President Enrico De Nicola, is composed solely of Christian Democrats and Independents. It awaits only the acceptance of two designees to become official. De Gasperi said the names would be made public today and it was expected the new ministers would take the oath of office from the President tomorrow. Included in the new ministry, sources close to De Gasperi said, are Carlo Storza, 63-year-old diplomat-author, as foreign minister—a post he held in the outgoing cabinet—and Luigi Einaudi, governor of the Bank of Italy, who was expected to receive a new cabinet post in which his responsibility would be to balance the Italian budget. Christian Democrats aides, conceding that De Gasperi's decision to freeze out the left placed him in

TRUMAN SIGNS RELIEF BILL

\$350 Millions To Be Spent For War-Damaged Nations Washington, May 31—(AP)—President Truman today signed the \$350,000,000 bill for relief of war-damaged countries in Europe and Asia. Presidential Secretary Charles G. Ross announced Mr. Truman's approval of the measure, along with issuance of an executive order delegating broad authority in administration of the relief program to Secretary of State Marshall. Senator George (D-Ga.) meanwhile said he would be "very much surprised if any additional, long-range foreign aid program is brought to Congress in the current session. Appropriation requests totaling \$1,475,000,000 for various forms of foreign assistance already await the President's signature." (Continued on Page Three)

British Male Leaves His Cocoon Of Conservatism In Wearing Apparel

London, May 31—(AP)—No, just for your eyes are not deceiving you. That is a pink jacket which the man is wearing down Piccadilly. Yes, that other one is cream, and the one coming out of Bond Street is blue. "Nobody ever thought it would happen but the English male is coming out of his cocoon of conservatism, so far as clothes are concerned, and he is really something gorgeous to behold. Look at that yellow necktie with the brown dots, junior! Cool! It's not only on Charming Crossroad, which has a raffish Broadway atmosphere, that the black Anthony Eden hat and the dark suit are giving ground to the colors of the rainbow. Pale pastel shades are even creeping out of the snootier Mayfair shops. "I suppose it's a reaction against the drabness of London life generally," said a Bond Street haberdasher who admitted a little "shamefacedly" that he had laid in a stock of apple green fedoras and was actually selling some of them. Little of this sartorial brilliance has penetrated London's financial district, where the bowler (derby) hat and the tightly rolled black umbrella remains the hallmarks of respectability. But a stock broker did turn up in a yellow waistcoat the other day. He said it lost him two customers.

Babson Discusses Tax Incentive

St. Louis, Mo., May 31—Many ask how present high prices can be reduced. My answer is that the best way to reduce high prices is by producing more goods at lower cost. But how can costs be lowered in the face of current high wage rates? To this I reply that production costs can be reduced by increasing the investment in labor-saving machinery. This will raise the real wages for all the people—not for just the strongly organized union groups. Lower Taxation the Key America has heretofore outproduced the world with steadily falling prices by continually raising the amount of money per worker invested in labor-saving machinery. To keep up this progress we must have incentive: (1) To save and (2) To invest savings profitably. Unfortunately, our present system of taxation is not only destroying capital that has already been accumulated, but it is also preventing the gathering of new capital. This can only end in a declining standard of living for all. As an example of the destruction of accumulated capital by taxation, I like to cite the story of the House of Morgan. When the elder J. P. Morgan died in 1913 he left more than \$70,000,000 to his son, J. P. Morgan Jr. This son died and, after his death taxes were settled, he was able to pass on only \$5 million to his heirs. Such a destruction of capital may be good for the morals of the heirs, but it bores ill for you and me. There is little incentive to invest more money and hire more workers under such conditions. Common-Sense Taxation Wiping out of capital by death taxes would not be so bad if our income taxes were not also damming up the flow of new capital into industry. The bulk of savings must come from those of sufficiently large incomes to create a reservoir of capital. Yet, today an executive with a fair salary has no urge to invest in a sound stock paying 5 per cent. (Continued on Page Two)

Crash Of Airliner Takes Heaviest Toll On Record

Air Disasters Set New Fatality High

Twenty Four Hours Of Tragedy Boost Total Number Of Air Casualties To At Least 170; Plane Mishaps All Over World

By the ASSOCIATED PRESS The two worst disasters in the nation's commercial aviation history killed 93 persons within 24 hours and four other plane crashes around the globe—in Japan, Iceland, the Netherlands, and Alaska—boosted the total number of dead to at least 170. Three persons were missing and 30 suffered injuries in the six plane mishaps. The most disastrous of the crashes occurred yesterday—Memorial Day—near Port Deposit, Md., when an Eastern Air Lines DC-4 transport cracked up, killing all 53 persons aboard—49 passengers and four crew members. Less than 24 hours before the Memorial Day crash in Maryland, 49 persons lost their lives when another DC-4, a United Airlines transport, crashed-landed at New York's La Guardia Field. In other plane mishaps around the world on Thursday: Forty were killed in Japan; 25 in Iceland; 12 in the Netherlands and three were missing in Alaska. The series of plane crackups in the last 24 hours increased to 424 the total number of persons killed in the world since Jan. 1 in 16 major commercial and military crashes.

Grim Tragedy Climaxes 48 Hours Of Air Disaster Around The World; All 53 Aboard Giant DC-4 Killed In Explosion And One Thousand Foot Plunge

Port Deposit, Md., May 31—(AP)—Grim investigators today plected together the burned and broken bodies strewn along a wooded hillside last night when a four-engine airliner suddenly plunged from 1,000 feet and killed all 53 aboard. It was the worst disaster in the history of U.S. commercial aviation. Forty-nine passengers, one of them a babe in its mother's arms, and four crew members were aboard the Eastern Airlines DC-4 on a non-stop flight from Newark, N.J. to Miami, Fla. Three eyewitnesses said the giant plane exploded in the air. Two said it turned on its back and dived to the ground. Searchers today collected all but one of the mutilated bodies and removed them over improvised trails to the nearby Bainbridge Naval Training Center. Comdr. J. S. Schmidt, duty officer at Bainbridge, said attempts to identify the dead would begin at 10 a.m. today under the supervision of Cecil County Coroner R. C. Dodson and an Eastern Airlines physician. The crash in the Maryland hills climaxed 48 hours of air disaster around the world. "Only the night before a United Airlines Mainliner was wrecked at New York with the loss of 39 lives. For 24 hours that wreck had the macabre honor of being the worst commercial air catastrophe the United States had known. The plane came in low over the hills around this northern Maryland community about 6:30 p.m. (EDT), winged over and plummeted into a forest a short distance from the Susquehanna River. "It went right smack into the woods," reported J. C. Higgins of Baltimore who was diving along a nearby highway. "Then there was a terrific sheet of flame, followed by a thick cloud of black smoke. Then there was a wisp of white smoke." Eyewitnesses at Bainbridge and Port Deposit reported seeing the DC-4 passing over a few minutes before the crash. Although it was flying low, they said, and engines were roaring, the plane did not appear to be in trouble. The explosions which followed the crash shook buildings four miles away. The fire burned for three hours and prevented rescuers from approaching the main section of the ship. Large trees were mowed down and small parts of the plane were hurled. (Continued on Page Two)

ROCKET GIVES CITY A SCARE

Took A Bomb In Stride, But V-2 Was Something Else El Paso, Tex., May 31—(AP)—This southwestern city and its sister, Juarez, across the border in Mexico, took the world's first atomic bomb explosion in wartime stride, but got a real scare from a near hit by a "defanged" German V-2 rocket. The atomic bomb was tested at White Sands, N.M., proving ground two years ago July 16. It lit the night over Mount Franklin and El Paso "bright as day," but under censorship the residents didn't know its significance till the bomb was dropped on Japan. The rocket was fired Thursday evening from a proving grounds site that is more than 40 miles north of El Paso. It was an experiment to test secret American developments toward "push-button" warfare. A German-made gyroscope failed. (Continued on Page Three)

BRITTON WINS ALUMNI AWARD

Goldsboro Instructor Recognized As Outstanding Graduate Clifton Britton, director of dramatics in the Goldsboro High School, received today the award made annually by the East Carolina Teachers College alumni association to an outstanding graduate of the college. The announcement was made at a special ceremony during the meeting of the association held this morning in the Austin auditorium on the campus. James M. Buller, executive secretary of the Goldsboro Chamber of Commerce and vice-president of the college alumni association, made a short talk outlining Britton's work at the college and since his graduation. Britton received the bachelor's degree at East Carolina in 1940. He returned to the college for graduate study and received the master's degree in June, 1942. After completing his work at East Carolina, Britton accepted a position in the Goldsboro High School, where he is director of the Goldmasquers, dramatic club which has won state-wide recognition. He is also in charge of the high school radio studio, one of a very few such broadcasting units in this country.

Recover Bodies From Wreckage

Tokyo, May 31—(AP)—The First Cavalry Division announced tonight the bodies of all 40 persons killed in the fiery crash of a four-engine Army courier plane Thursday night had been brought to Hadano Command Post from the crash scene on a mountainside 30 miles southwest of Tokyo. Maj. McGinn of the Eighth Army Graves Registration Section was attempting to identify the bodies which will be transferred to Yokohama military cemetery for burial. Soldiers under Brig. Gen. William Bradford worked for hours to bring the bodies out of the rugged country.

President Plans To Visit Canada

Washington, May 31—President Truman will make an address in Kansas City next Saturday and leave for a good will visit in Canada the following Monday, the White House announced today. Press Secretary Ross told reporters Mr. Truman has definitely decided against making a trip to Alaska this summer. Ross said the president has no plan now for any vacation trip. The president will leave here by plane Friday morning for Kansas City. He will speak the next day before the memorial reunion of the 35th division, his World War I outfit, at the municipal auditorium.

Harold McDougale Goes To Florida City Next Week

By CHESTER WALSH Harold A. McDougale, director of instrumental music at Greenville High School the past 13 years, has tendered his resignation to the Board of Trustees, and will leave Monday for Apopka, Fla., near Orlando, where he will be director of music at the consolidated high school. McDougale has done wonderful work in Greenville. He has developed a nearly 100-piece band at the high school which has won statewide recognition. He has been training a 25-piece band at Eppes Negro High School. In addition, he has been a prominent leader in music circles here many years. City Supt. June H. Rose today said the trustees regretted to let McDougale go, but he has a proposition in the Florida city which he could not turn down. The superintendent paid high tribute to him for his great work here, and said he will be a wonderful asset to the Florida community. Mrs. McDougale's father is a large citrus grower in Florida.

Emmy Goering Ill In Prison

Augsberg, Germany, May 31—(AP)—Emmy Goering—Widow of the former Number Two Nazi of the Hitler regime—lay stricken with rheumatism in an humble prison cell today, awaiting trial as a member of the Nazi party. In Miesbach, Mrs. Hans Frank, widow of the Nazi governor-general of Poland, also was in custody, awaiting transfer to Augsburg to face trial on the same charges. Frau Goering—once social queen of the Third Reich—has aged greatly since her illness.

Difficult Decisions

President Truman Facing Two Biggest Problems Of His Presidency So Far, What To Do With The New Tax-Cut And Labor Bills; Issues Behind Dilemma BY JAMES MARLOW an answer somewhere around June 15. This is what he can do with the bills: 1. Veto them. This will kill them unless Congress can muster up a two-thirds vote to re-pass them into law over the veto. That's not easy. 2. Let them become law without his signature. They automatically become law if he fails to sign or veto them within 10 days after they reach him. 3. Sign them into law. Both House and Senate approved the labor bill by more than a two-thirds vote. Not so with the tax-cut bill. That passed by a simple majority vote only. The Republicans were unable to whip up a two-thirds vote for that in either House. So if Mr. Truman vetoes the labor bill, Congress once more may be able to produce a two-thirds vote on it and pass it into law over the veto. (Continued on Page 1)

Newspapers are catching it on the paper of paper now. A good grade of paper has been selling for years at an average of 2 1/2 cents a pound. Since January 1 the price has advanced to 3 cents and just where it will stop we don't know.

The work of removing the Memorial Baptist Church tower has begun.

It may bring some warm weather, but we will wait and see.

Funeral services will be held at Hickory Grove Baptist Church Sunday at 3 p.m. Rev. D. W. Alexander, the pastor, will officiate. Burial will be in the Bethel Cemetery.

Surviving are five sons, William, E. B. and J. B. Briley of Bethel, G. B. and Gus Briley of Greenville; eight daughters, Mrs. Louis Dail, Mrs. Elmer Bland and Mrs. Fred Boyette of Bethel, Mrs. Raymond Lee, Mrs. Henry Lee and Mrs. J. J. Farmer of Williamston, and Mrs. W. D. Cratt and Mrs. H. L. Wingerly of Greenville; 23 grandchildren and two great-grandchildren.

Mrs. George Crawley of Aurelian Springs became the new president of the East Carolina Teachers' College Alumni Association at the regular annual meeting of the group held in the Austin auditorium on the campus Saturday morning.

James M. Butler, executive secretary of the Goldsboro Chamber of Commerce, and Mrs. Thornton Meeks of Greenville were inducted into office as vice president and treasurer, respectively. Mrs. J. L. Marcom of Raleigh, retiring president, led the installation service. Music by the college Glee Club under the direction of Dan E. Vornholt of the faculty was included on the program.

Four classes holding reunions at the college were honored at a luncheon given in the college dining hall at the close of the alumni meeting. Graduates of 1912, 1912, 1937, and 1946 were welcomed to the campus by Mrs. Chester Walsh member of the Greenville chapter of the Alumni Association.

President and Mrs. Dennis H. Cooke entertained at a tea in the afternoon in honor of the senior class, visiting alumni, and the staff of the college.

An allegiance service at which seniors will become members of the Alumni Association will take place in the early evening, with Mrs. Crawley and Mary Cameron Dixon of Wilmington, president of the senior class, as leaders in a traditional ceremony.

Alumni Day at the college will close with a recital to be presented this evening by students of the department of music.

Appointment of Dimnyes to the premiership surprised parliament members said that up to this morning Imre Olivanyi, former president of the National Front, had been the Communist choice for the post and therefore the most likely candidate.

The informants said Olivanyi had been turned down at the last minute in a message from the Russians, who have occupation troops in Hungary. They declared that it was too early to learn the real reason for the Russian veto, but first reports in Parliament were that it was because Olivanyi was of Swabian origin and had served in the intelligence section of the Hungarian Army which fought the Russians.

A presidential military aide said the Communists were threatening to compel President Tildy to resign unless he bowed to their wishes.

Dimnyes, a noted Hungarian secretary payer, was a sergeant in the last war. He was named war minister a few months ago when the Communists demanded the evolution of War Minister Albert Bartha and other pro-Western Hungarian officials. Dimnyes has been a member of the National Assembly (Parliament) since 1931.

cloud nature. We would have understood that we cannot answer forest fire calls nor calls where the building involved was already destroyed, unless there were exposed buildings that could be saved.

"We would further agree to keep such equipment housed, grouped and in running condition so as to be able to render this service."

"We believe that the property owners out of the corporate limits will appreciate this service" and that the saving from loss by fire of rural property would be a great deal more than the equipment would cost even the first year.

"Our volunteer firemen have agreed to give their service free for the first year in order to help our friends out of our fire districts. Please let it be understood that we are not asking the commissioners for a gift of any kind, but this being made only with a desire of rendering assistance in order to save the property of the people who have no means of protecting or saving from loss the property that they have constructed."

KIWANIS MADE LARGE PROFIT ON MINSTREL

Underprivileged Child Fund Increases By Nearly \$2,000; Approve Hospital

By CHESTER WALSH

The recent Dixieland Minstrel, produced by Eli Bloom for the Greenville Kiwanis Club, made a net profit of \$1,933.15 for the club's Underprivileged Child fund, Lieutenant Ed E. Rawl, chairman of the Minstrel Committee, announced at the club's weekly supper meeting last night.

The home talent show was presented two nights at the college. It is an annual event. Funds derived from the minstrel enable the Kiwanis to do much good work. The Kiwanis minstrel is a community affair. Special thanks were extended to the Kiwanis and others who helped to make it a success and to the college officials for use of Austin auditorium. Minstrel tickets were sold in more than a dozen Eastern North Carolina cities and towns.

Kiwanis Governor Rawl last night recognized all of the committee chairmen and thanked them. The club presented President Eli Bloom, minstrel producer, and Mrs. Bloom with an electric mix master and Miss Joanne Bloom with a student radio for their fine work.

A feature of last night's Kiwanis meeting was the generous approval the members gave to District Highways Commissioner John G. Clark, one of Greenville's "best servers," and chairman of the Memorial Hospital Committee, when he outlined plans for securing for Pitt County a modern 150-bed hospital. The project would be financed—one-third by the federal government and one-third by the state government and the other third by a bond issue by Pitt County.

President Bloom told Mr. Clark that he and his committee can count on the Kiwanis club for support.

Charles E. Blair had charge of the program and introduced Mr. Clark.

Bill Taft and Tom Wilson had birthdays and they donated a nickel for each year of their age to the Underprivileged Child fund.

Mrs. Ray Tyson, after playing for the "Happy Birthday" song, chimed in with strains of Handel's "Wedding March," dedicated to Tom Wilson, whose marriage to Miss Sadie Mann of Richmond, Va., will take place next Saturday.

Milton Adams of Greenville and Carl S. Ingle of Jacksonville, Fla., were guests.

The Kiwanis seventh division banquet will be held at the Woman's Club on June 13. Two hundred guests from 10 cities and towns are expected to attend.

Chester Walsh won Dr. Melvin Hoots and Ted Ashworth's attendance prize—Oxford glasses.

Strength FOR THE DAY

THE UNIVERSE IS ONE In his poem "Mandalay," Rudyard Kipling refers to the place "where there ain't no Ten Commandments."

The expression, of course, is figurative and not intended to be taken literally. But for the good of our souls, it is worth our while occasionally to remind ourselves of the complete universality of all law, including moral law.

"Where there ain't no Ten Commandments." Where could such a place be? In the impenetrable forests, in the center of a great desert, on the top of the highest mountain, amid the tumult of a great city?

The 4 1/2-ton missile did not carry the ton or more of explosives that the Germans used in it against London. Yet the concussion of its 12-miles-a-minute crash into the earth jarred windows out of the El Paso central fire station, broke windows and cracked plaster in homes on both sides of the international border, and upset an empty airplane at an El Paso airport.

(Continued From Page One) cent because his net income from that stock is reduced by two-thirds through income taxes. All incentive has been destroyed.

The President has recently asked businessmen to lower prices so as to increase the volume of production. I believe the President should direct that same advice to Congress. Just as a business can sell a greater volume of products at a lower price, so can the government expect a higher tax-take if it can increase the national income. I believe the best way to increase the national income is by lowering taxes now. The stimulus to incentive will be so great that national income will rise. Then a smaller percentage tax rate would produce a greater total federal revenue. Let the government take its own advice and lower the unit cost (i. e. taxes) of its selling price for its service. The resulting jump in total tax collections from a stimulated national income should soon balance the budget and leave enough to start a real job of debt retirement.

Rome, A Warning If Senators and Congressmen would only study history in greater detail, they would see at once how many nations have been brought to their knees by burdensome taxation. More empires have been destroyed

by oppressive taxes than by enemy armies. Today's heavy burden on enterprise if continued will surely lead us along the road followed by Egypt, Rome, Spain, France and now England—all sunk by taxes.

The New Deal tax policy is to soak the rich—to fleece the sheep that have the fewest votes. This may be considered "good politics," but it certainly is bad business. If Uncle Sam confiscated all incomes above \$10,000 a year, the total amount of money taken in would pay less than half the current annual expenses of government! Of course, if that were done, there would not be any incomes above \$10,000. That's what would happen to incentive. However, I warn you—our present tax course is less spectacular than such outright confiscation. But it is none the less certain in the long run.

No Plea For Wealthy

When writing the above, I am not interested in saving money for taxpayers. That is purely secondary. The less money my heirs inherit, the better off they may be. I am interested solely in the future of U. S. voters, who sincerely hope that every Senator and Congressman feels the same way.

Decisions . . .

(Continued From Page One) But if he vetoes the tax-cut bill it probably will stay killed. Congress is not likely to get up a two-thirds vote to re-pass that into law over the veto.

Mr. Truman can give plenty of reasons for vetoing the tax bill. For example:

Congress won't know until late in June how much money is needed, in taxes, to run the government an-

other year and pay off some of its debts. Yet the tax bill would cut \$4,000,000,000 of government income before it knows how much money it needs to run. Mr. Truman could say this is poor business.

But suppose he kills the tax cut bill with a veto. What will be the effect on millions of Americans who are expecting a cut?

Because of disappointment in this, a lot of voters may blame Mr. Truman and his Democrats and take it out on them in the 1948 elections.

Labor unions already are bitter against the Republicans for cooking up the labor bill which puts more restrictions on unions than any measure in history.

So even if Mr. Truman signs it into law he isn't apt to lose the support of unions which have supported the Democrats for years.

Communism's . . .

(Continued from Page One) informant said he had been pushed from office in a communist coup. Actually Nagy apparently had resigned the day before, but the news had been withheld in Budapest.

Nagy, according to a non-communist source in the Hungarian capital, had been accused by the Russians with being mixed up in a plot to upset Hungarian democracy. This accusation is said to have been based on a deposition by Bela Kovacs, former secretary general of Nagy's party, who had been arrested by the Russians February 26. Mova's arrest led Washington to send a note to the Soviet military authorities in Hungary, declaring that the communists were trying to seize power.

In Washington, Russia reported charges of plotting against Nagy were viewed as part of a Soviet attempt to clinch communist control of Hungary before the red troops withdraw.

Crash . . .

Greenville And Tarboro Divide Double Contest

Tars Win 12-5 On Home Grounds; Greenies Take 8-4 Victory At Local Stadium Behind Baldwin's Hurling

By BERT MOYE
Afternoon Game

The Tars collected 16 hits off the Greenies' Phil Redden, which included a four-run homer by Caldwell, a two-run homer by Parker and a homer by Kennedy to win in the afternoon contest.

Greenville scored a marker in the first when Jenkins doubled, went to third on Lee's long fly to deep right field, and came home on Catcher Ferguson's error when he attempted to catch Johnny Pare at second. Another marker was scored in the fifth when Jenkins singled, Lee walked and Charlie Chute's timely single brought Jenkins home. Greenville's big inning was the seventh when they scored three tallies, on Bomar's walk, Chute's double, Ranweiler's single and Bobby Pare's triple.

Phil Redden in his second loss of the season as against no wins struck out two men and walked two.

Bobby Pare with a triple and a single in three trips to plate, Charlie Chute with a double and a single and Jenkins with a double and a single in four trips to the plate, led the Greenies' nine-hit attack.

Score by innings:
Greenville 160 010,300—3
Tarboro 005 104 10x—12

Night Game
Larry Baldwin won his second straight game as many days as he pitched the Greenies to an 8-4 win over the Tars in the second contest of the day here last night. Pitching eight-hit ball, he kept the hits well scattered with the exception of the first frame when two of their hits figured in three of their runs. He struck out a total of six men, walked a like number.

The Tars put across three runs in the first frame to take the lead, which they held until the fifth.

Greenville put across a run in the first frame when Lee singled, Bomar walked and Johnny Pare singled.
