

Partly cloudy with moderate temperatures tonight and Friday. Widely scattered thundershowers Friday.

STUDY IMPACT OF NEW COAL SALARY HIKE

White House Council Watching Closely For Signs Of Wage-Price Spiral

Washington, July 10.—(AP)—The White House watched closely today for signs of any wage-price spiral growing out of the record pay boost won by John L. Lewis for his 400,000 soft coal miners.

Edwin G. Nourse, chairman of President Truman's three-man council of economic advisers, told a reporter the council is studying the possible impact of the coal settlement on the nation's economy.

He added the council will wrap up its findings in a mid-year report to be submitted to the President later this week.

The Administration meanwhile showed no signs of reopening the mine wage controversy by proceeding against the operators under the Taft-Hartley Labor Act as Rep. Hartley (R-NJ) declared it could do.

The co-author of the union curb measure insisted in a House speech yesterday that the contract provision under which the mine owners agree not only to check off union dues but initiation fees and assessments as well is a "clear violation of the act."

He contended that only union dues may be withheld from workers' paychecks and that in going beyond that field the operators "agreed to pay money for an illegal reason."

Lashing out, too, at the provision that the miners need work only when "able and willing" to do so, Hartley said the law meant for labor unions "to become responsible organizations."

"In my opinion," the lawmaker declared, "this agreement clearly reflects collusion between the mine operators and the UMW with the intention of violating the law."

Hartley said the operators who signed could be charged under the act and, if convicted, would face a \$10,000 fine and one year in prison.

Truman Accepts Explanation Of Atom File Theft

Washington, July 10.—(AP)—Senator Hickenlooper's (R-Iowa) statement yesterday on the removal and recovery of atomic energy files was described by President Truman today as a clear explanation of what happened.

The subject came up when a reporter asked the president if any other papers were missing besides those which were taken from a New Mexico project by two army sergeants.

The president replied that Senator Hickenlooper had clearly explained the situation to the Senate yesterday. Hickenlooper said today the Senate-House atomic energy committee hopes to double its staff assigned to study ways of protecting a bomb secrets.

The Iowa senator said his disclosure yesterday that night secret papers had been filched from the Los Alamos, N. M., atomic testing station had no bearing on the matter.

Two-Yolked Egg Hatches Freak

New York, July 10.—(AP)—A Barred Plymouth Rock chicken with our legs, two tails and a double-barreled egg laying apparatus walked spryly about a Brooklyn yard today while poultrymen came, saw and marvelled.

Murray Weiss, 20 years in the poultry business, is the owner. He said his four-month old freak hatched from a double-yolked egg, something Weiss said shouldn't happen—even though it did.

73-Year-Old Princess On Relief

Mrs. Oia Jane Humphry Broadwood, 73-year-old American-born widow of Prince Ibrahim Hassan, uncle of King Farouk of Egypt, is wheeled out of a clinic at New York's Mount Sinai hospital after receiving treatment for a fractured shoulder. The city Department of Welfare disclosed she has been living on an old age pension in New York for more than five years. (AP Wirephoto)

States In Soviet Orbit Turn Down Paris Offer

Boycott Developing As Hungary Joins Bulgaria, Romania, Yugoslavia And Poland In Rejecting Invitation

Paris, July 10.—(AP)—A boycott of the European economic conference by virtually all states within the Soviet sphere developed today as Hungary joined Bulgaria, Romania, Yugoslavia and Poland in rejecting a British-French invitation to meet at Paris Saturday.

With today the deadline for replies, attendance by at least 15 of the 22 invited nations was certain. Only two nations in the Russian sphere, Finland and Albania, remained to be heard from.

Albania was expected to follow the lead of Russia, whose foreign minister, V. M. Molotov, opposed the plan for economic cooperation in three-power talks last week. Observers last night said there was only a 50-50 chance that Finland would accept.

Hungary's Council of Ministers announced after a long session this morning that "Hungary regrets it cannot participate in a conference in which all the big powers do not take part together." To some observers, the decision was a surprise because of Hungary's grave economic condition.

A Polish government spokesman in Warsaw, commenting on Poland's rejection of the bid, told a news conference the Poles still looked to the United States, principally, to supply what would be necessary to rebuild the ravaged nation. Poland recently sent notes to envoys of the four big powers expressing Poland's willingness to participate in European reconstruction through coal deliveries, but regretting that the nations invited to the Paris conference would be excluded from making amendments and changes in the Marshall proposal.

Switzerland, meanwhile, announced three conditions for her participation. The government announced that the Swiss would assume no obligations contrary to Switzerland's traditional status as a neutral state, that the conclusions reached at Paris concerning Swiss economy would be subject to Swiss government approval, and that the Swiss reserved the right to maintain trade agreements with nations not represented at the conference.

Excitement ran high on Evans Street for a few hours today as word spread that an old "civil war" safe had been unearthed by workers constructing a building on the W.E. Hooker property beside the A.B.C. store.

The safe was discovered by the workers, and Foreman Jimmy Speight used a truck to pull the rusty iron mass out of the ground. The safe, about four feet square and partially filled with dirt, was buried ace down and was minus the door when it was pulled up.

Speculation as to where the safe came from, and the possibility of finding money or gold in the ground near the resting place of the safe ran high for a while until old-timers of the city informed members of the younger generation that the safe was buried to fill up a hole after the fire which consumed the old court house, the jail, Flanagan Buggy Company building and several other buildings in 1910.

According to Wiley Norcott, 73-year-old Greenville Negro who helped bury the safe, it was buried in "late 1911 or early 1912" when a fish market was being built beside the lot where the safe was found. Norcott said the safe belonged to Jim Tucker and was in his building which was burned in the fire which destroyed most of that section of town. The safe, Norcott said, was buried to help fill a hole from which sand was removed when the buildings were being rebuilt after the fire.

Corn Production Estimate Is Low

Wheat Forecast Sees New Record Crop But Pessimists See Forced Reduction In Meat Supplies Due To Corn Scarcity

Washington, July 10.—(AP)—The Agriculture Department today forecast this year's corn crop at 2,514,095,590 bushels and all wheat at 4,653,511,000 bushels.

The corn estimate compares with last year's record of 3,287,927,000 bushels and with a 10-year (1936-45) average of 2,639,102,000.

The prospective reduction in corn reflects damage caused by spring floods and by delays in getting the crop planted due to wet weather.

Officials hope for a crop of at least 2,850,000,000 bushels. They say a crop of less than this amount would force curtailment in livestock production and prolonged high prices for meats.

The government's goal is 3,000,000,000 bushels. The wheat estimate is the largest of record, comparing with 1,155,715,000 harvested last year which was the previous top crop, and with the 9-year average of 890,306,070. This year's crop was forecast at 1,409,893,000 a month ago.

ONE SOLUTION TO "SAUCERS"

Weatherman Says Balloon Gadget Responsible For Hysteria

Atlanta, July 10.—(AP)—Lieut. Commander Thomas H. Rente of the Atlanta Naval Air Station said today he believed the "flying saucers" reported over the country were tin foil screens used in weather balloons.

The tin foil screens are used to reflect radar rays and determine the velocity of the wind at various altitudes, he said.

The helium filled balloons burst when they reach about 25,000 feet. The silver screens which they are carrying are then caught in the wind and sail along at a speed up to 165 miles an hour.

A demonstration of the apparatus, known as a "ray wind," brought a quick telephone report from a farmer in nearby Henry county that he had seen a "flying saucer."

North Hollywood, Calif., July 10.—A saucer-shaped mechanical contraption, resembling a chicken brooder top with a few gadgets added, was found in a geranium bed at the home of construction engineer Russell Long last night and the first official reaction was from the battalion Chief Wallace E. Newcombe who looked at it skeptically and said:

"It doesn't look to me like it could fly."

Long called the Van Nuys fire department and excitedly pointed (Continued on Page Two)

REPORTS CAVE HUNT A HOAX

Missing Man, Believed In Cavern, Found In New York City

42-REPORTS CAVE Nashville, Tenn., July 10.—(AP)—State Safety Commissioner Lynn Bomar announced today John T. (Tuck) Hurn, for whom a week's search had been made in Nickajack Cave at Shellmound, Tenn., had been located in New York City and that Hurn's reported disappearance in the cavern was "a hoax" from beginning to end.

Bomar said John Hurn had never been lost in the gloomy, bat-infested commercial cave which had been searched by the State Highway Patrol, the Red Cross, National Guard, Boy Scouts and scores of private parties since Hurn's brother reported his disappearance.

Hollis Hurn, who with John is part owner of the cave, still insisted today, however, that he believed John was lost in the cave when he first reported his disappearance last Tuesday.

Bomar said that instead of getting lost in many-passaged, miles deep Nickajack John Hurn was driven to Birmingham in an automobile July 1 and boarded a train there the next day for New York.

The commissioner said a telephone call from New York City (Continued on Page Two)

Scouts Search Cave For Lost Man

Jimmy Major, 17-year-old Eagle Scout from Atlanta, Ga., leads a group of fellow-Boy Scouts in searching treacherous Nickajack Cave near Chattanooga, Tenn., for John T. Hurn, war veteran from Nashville, who disappeared July 1 while exploring the cavern. Veteran miners and Red Cross officials have been searching the cave for days without finding trace of the missing man. (AP Photo)

Truman Will Veto Tax-Cutting Bill

Backs Out

Prague, July 10.—(AP)—Czechoslovakia withdrew tonight from the European economic conference.

The government informed the British, French and United States embassies in Prague that Czechoslovakia could not "under our situation" accept the Anglo-French invitation to discuss the Marshall aid-to-Europe proposals.

Czechoslovakia had stated three days ago that she would be represented.

SEEK HIGHER FARM PARITY

Farm Representatives Begin New Drive To Include Labor Costs Seek Higher . .

Washington, July 10.—(AP)—Southern representatives began today a new drive to require the government to include current farm labor costs in figuring parity and support prices which it guarantees for various agricultural commodities.

They urged a House subcommittee on education and labor to insert the requirement in a pending bill which would boost the minimum wage of industrial workers from 40 to 60 cents an hour.

In figuring parity and support prices, the government now uses farm labor costs as of 1909-14. Parity is supposed to give the farmer the same today as it did in 1909-14 in relation to the things he must buy. Support prices usually are 10 per cent of parity.

While the minimum wage law does not cover agricultural workers, Repp, Pace (D-Ga.), Cooley (D-NC), Poage (D-Tex.), and Abernethy (D-Miss) insisted an increase in minimum for industrial workers would be reflected directly in the amount farmers must pay to obtain workers.

Pace predicted that if the minimum were advanced from 40 to 60 cents an hour farm labor costs would advance "to 50, 55 or possibly 60 cents an hour, although not immediately."

Both Pace and Cooley pointed out that the House twice has passed a bill to require the inclusion of current farm labor costs in the figuring of parity prices. The Senate passed a similar bill last year, but it died in the House Rules Committee.

He disclosed he had been informed by an underground source that a "pair of assassins" are en route to Paris to "take care" of Miss Hill, who departed for the French capital two weeks before an unidentified assailant fired a fusillade of 30-caliber rifle bullets into the former public enemy. He indicated, however, he was not unduly impressed with the tip.

Admits Failure In Blocking Oil Sales To Soviet

Washington, July 10.—(AP)—Chairman Welch (R-Ohio) of the House Merchant Marine Committee acknowledged today that he is now stumped in his efforts to block oil shipments to Russia.

He blasted as arrogant the action of the commerce department in allowing export licenses that will permit the departure of three Soviet-bound tankers now being loaded on the west coast.

Under Secretary of Commerce William C. Foster conceded to the committee yesterday that his office had granted the licenses only a few hours after Welch phoned him to insist that they be refused.

Foster said (a) the shipments were normal, (b) the department intends to continue to export petroleum products and (c) a halt may upset the world market and result in a drop in this country's own imports.

Groundwork Is Laid For Future Hospital Plans

Tentative arrangements for the construction of a new 140-bed County hospital, funds for which would be brought to a vote on September 16, are already well advanced by the County Commissioners.

Upon the completion of the proposed hospital, the present Pitt General Hospital will be closed. The Board of Trustees have passed a resolution to the effect that the equipment in Pitt General will be transferred to the new hospital. They have further agreed in writing to sell the present hospital property, retire the existing indebtedness of \$16,000, and turn the remainder of the proceeds from the sale over to the Board of Trustees of the new hospital for use in operation and maintenance. Under the terms of the Federal Aid bill, the operators of a hospital must obligate themselves financially to the full extent of any operating deficit which might exist during the first two years after the hospital is opened. In this connection, it is thought that the funds received

from the Trustees of Pitt General, resulting from the sale of that property, will more than amply cover any deficit which might arise in the first two years.

The law provides that a site must consist of five acres, but preferably ten acres. Federal and State aid cannot be applied toward purchase of the hospital land and consequently some means must be devised to acquire a suitable location. It is thought that arrangements can be made, without undue difficulty, to take care of the problem of a site. As to its selection, the County Commissioners will appoint a Board from the people to choose a proper location. This Board is expected to be named in the near future.

The County Commissioners will appoint a Board of Trustees from the county-at-large and this Board will have a president and a secretary. These Trustees will be vested with full authority and responsibility for the operation and maintenance of the hospital, the handling (Continued on Page Two)

Popular Princess Receives World's Congratulations On Her Betrothal

London, July 10.—(AP)—A radiant Princess Elizabeth, her eyes sparkling like the three-diamond engagement ring on her third finger, received best wishes from all parts of the world today on her betrothal to Lt. Philip Mountbatten.

"We are very, very happy," she told a friend as she beamed through pile after pile of congratulatory messages in Buckingham Palace, where her handsome blond fiance also was in residence.

Outside the palace, a crowd of more than 2,000 stood in steady rain for a glimpse of "Princess Lilybet" when she left with her family for a Westminster Abbey ceremony.

The slender, blue-eyed Elizabeth, sitting beside demure Princess Mar-

SAFE DUG UP BY BUILDERS

Excitement ran high on Evans Street for a few hours today as word spread that an old "civil war" safe had been unearthed by workers constructing a building on the W.E. Hooker property beside the A.B.C. store.

The safe was discovered by the workers, and Foreman Jimmy Speight used a truck to pull the rusty iron mass out of the ground. The safe, about four feet square and partially filled with dirt, was buried ace down and was minus the door when it was pulled up.

WILLING AND ABLE MINERS BACK AT WORK

Soft Coal Production Heads Towards Normal; Some Mines Hold Up Signing

Pittsburgh, July 10.—(AP)—The nation's bituminous production spurred toward normal today as "able and willing" AFL miners from the North and South dug coal under terms of a new and unprecedented wage agreement.

Southern mine operators—last holdouts to the "take-it-or-leave-it" terms of John L. Lewis—capitulated yesterday. The vast West Virginia and east Kentucky bituminous mine interests signed first, leaving less than 10 per cent of the nation's soft coal production unaccounted for.

However, mines in Tennessee were described as temporarily withholding signature because they feared collision with state laws regulating the closed shop and dues checkoff.

The only sour note came from Washington where Rep. Fred Hartley (R-NJ), co-author of the Taft-Hartley labor law, warned that coal operators risk criminal prosecution for signing the Lewis contract. He claimed it violates the new labor act.

Laurence J. Tierney, Jr., a signer and a spokesman for the Southern Association, summed up the employers' reaction to Hartley's charge: "If you're wrong, we're perfectly willing to be wrong. And we hope Fred Hartley is right. I hope we'll be able to pick comfortable cells. We'll probably have good companionship."

Virtually normal production in the northern, western and mid-western coal fields was expected today. Nearly 135,000 of the 300,000 miners covered by the northern signing reported yesterday.

Many of the South's 100,000 coal diggers also prepared to work today although industry sources did not expect normal operations there until the end of the week.

President Hints Special Session For Congress

Washington, July 10.—(AP)—President Truman said today a special session of Congress will be called this fall if one is necessary to carry out the Marshall plan for European recovery. But, the President added, he sees no present need for such a session.

Mr. Truman told reporters it will be impossible to say definitely whether it will be necessary to call the lawmakers back to Washington, before next January until the results of the Paris conference are ascertained.

(The Paris conference opens Saturday at the call of Britain and France, with attendance by at least 15 of the 22 nations invited already assured. The session will consider Secretary of State Marshall's proposal that Europe work out a self-help program of rehabilitation and then advise the United States what additional help may be needed.)

Russia Objects To Admitting Austria To UN

Lake Success, July 10.—(AP)—Russia raised firm objections in the Security Council today against consideration of Austria's application for United Nations membership.

However, the application was sent without vote to the council membership committee, which also holds bids from Italy and Hungary.

Soviet Deputy Foreign Minister Gromyko pointed out the peace treaty with Austria has not been signed and said he could not discuss Austria's qualifications at this time.

Herschel V. Johnson, deputy American delegate, replied it was unfortunate that a treaty which would regularize relations with Austria had been retarded for reasons well known to the world. He said this was a "most unfortunate situation."

WORLD TODAY

The Greek government's announcement of a Communist plot to overthrow the Athens regime acquires special significance from the fact that a few hours earlier Deputy Soviet Foreign Minister Gromyko had charged before the United Nations Security Council that the situation in Greece was due to Anglo-American interference and had demanded that the U.N. order foreign military personnel (meaning U.S. and British) off Greek soil.

It was in the pre-dawn of yesterday that Greek police and military made swift raids which netted close to 3,000 people who were charged with plotting rebellion against the State. Many important Communists reportedly had fled to the mountains or were in hiding. Officials stated that all those arrested would have hearings and that those implicated probably would be exiled on the numerous islands off the Greek coast in the Aegean. The

zero hour for the coup is said to have been one A.M. today.

One wonders whether Gromyko would have delivered exactly the same speech if he had known that the Greek police were to swing into action against the Reds a few hours later. Anyway, the Soviet delegate's attack on America and Britain and his defense of Communism in the Balkans provided another Gromyko drama for the Security Council at the Lake Success.

The occasion was a debate on the investigating Commission of the Security Council. This report was based on study of the situation or the spot. It places responsibility for fomenting disorders in Greece upon the neighboring states of Yugoslavia, Albania and Bulgaria—all Communist and Satellites of Moscow.

Gromyko said the Greek government should be held responsible for the coup. He said the Greek government should be held responsible for the coup. He said the Greek government should be held responsible for the coup.

Gromyko said the Greek government should be held responsible for the coup. He said the Greek government should be held responsible for the coup. He said the Greek government should be held responsible for the coup.

NATION TODAY

By JAMES MARLOW Washington, July 10.—(AP)—Congress is finishing its busiest year of doing something about the presidency.

It's acted to limit any President to two terms. It's acting now to make the Speaker of the House President if there's no President or Vice President.

That's more than any other Congress has done in one year on this subject. Take them separately: No. 1—Limiting a President to two terms.

In mid-March the Republican-controlled Congress, House and Senate, okayed a proposed amendment to the constitution setting a two-term limit.

Before the constitution is amended, at least 36 state legislatures also must approve.

Since mid-March, 17 have done so. That leaves 19 to go. They have seven years in which to do it. The

amendment would work like this: No man could be elected President more than twice.

If a Vice President succeeded to the presidency, but didn't serve more than two years of his predecessor's unexpired term, he could be elected to two full terms.

But a special exception is made for President Truman. By the time of the 1948 elections he will have served more than three years of President Roosevelt's unexpired term.

Because of the exception in his case, he'll be able to run in 1948 and, if successful, to run again in 1952.

There's no limit in the constitution as it now stands to the number of times a man can be President. Except for Mr. Roosevelt, four times elected, no President has been elected more than twice.

No. 2—Letting the Speaker be elected more than twice. (Continued on Page Three)

Social and Personal

Mrs. J. F. Manning of Brooklyn Md., is spending a few days with her parents, Mr. and Mrs. A. J. Cox of Greenville.

Miss Ada Hearne of New York City is visiting her parents, Mr. and Mrs. W. A. B. Hearne, 710 Wadr street.

Ernest Cahoon is recovering nicely from an operation for appendicitis this morning in Pitt General hospital.

Birth Announcement
Mr. and Mrs. Jimmy Jones of Greenville, N. C., announce the birth of a daughter, Evelyn Marleen, on Tuesday, July 8th, at the Pitt General hospital. Mrs. Jones is the former Miss Evelyn Finch of Raleigh, N. C.

Announce Birth and Death of Son
Mr. and Mrs. Bob Forbes of Summerville, S. C. announce the birth and death of a son. Mrs. Forbes was formerly Miss Pauline Butler of Greenville.

Special Masonic Meeting
A communication is hereby called for Greenville Lodge No. 284, A. F. and A. M., to work in the Fellowship on Friday night, July 11th at 7:30 o'clock. All local brethren and visiting Master Masons invited to attend.

L. F. STOKES, Master.
A. R. HOUSE, Secretary.

Card of Appreciation
We wish to express our deep appreciation for the sympathy expressed during the illness and death of our husband and father, Mr. H. C. Waters.

MRS. H. C. WATERS
And Children

Return From Extended Trip
Mr. and Mrs. W. A. B. Hearne and daughters, Miss Laura Hearne of Greenville, and Mrs. James Pentecost, of Roxboro, have returned from an extended tour of the states and to Montreal, Canada. During the trip they visited Mr. and Mrs. Dwight Arnolds of Newark, N. J. Miss Ada Hearne, of New York City and Mr. and Mrs. William Hearne of Middlebury, Vt.

Mrs. White Luncheon Hostess
Mrs. H. L. Hodges, Mrs. L. W. Gaylord, Mrs. Frank Wooten, Mrs. J. E. Kirtrell, Mrs. S. H. Williams, Mrs. W. H. Dail, Mrs. A. M. Moseley, Mrs. W. E. Hooker, Mrs. Charles Forbes and Mrs. C. M. Warren spent yesterday at Atlantic Beach with Mrs. S. T. White. Mrs. White was luncheon hostess at the Dunes Club. Covers were laid for 21.

W. C. T. U. Notes

A recent issue of the Watchman Examiner carries an editorial entitled "Cigarettes - Hated of Christ." The editorial quoted an advertisement for Comfort cigarettes which said, "For Comfort, if lonely, if you need a friend, take a cigarette." And the Examiner in commenting on this advertisement said, "Is the cigarette supplementing Christ?"

"Even though most doctors smoke," says Dr. J. B. Lawrence, editor of Southern Baptist Home Missions, Atlanta, Ga., "the medical fraternity is unanimous in its opinion that cigarette smoking is injurious to the health. If it is, it is a sin and if it is a sin our preacher should call attention to it. I can remember when I was a boy preachers used to preach against cigarette smoking." Included in the L. T. J. pledge are these words: "From all tobacco I'll abstain."

The F. B. I. reports that major crimes in the United States in 1946 reached 1,683,203, one every 18.7 seconds, 119,662 more than in 1945. It is also stated in the report that the United States Brewers' Foundation plans to double its advertising program in 1947; and the Anti-Saloon League reports that the 3,070 counties in the United States 978 prohibit liquor, 887 wine and 480 beer.

Of the 20,469 local option elections held since 1933, the dry forces have been victorious in 12,519. Of the 2,079 elections held in 1946 the dry won 1,276.

So we are making progress for prohibition. How long will the Christian forces in Pitt county wait to unite in an earnest effort to make this a dry county? It can be done! Do we really want prohibition? If the citizens of Pitt county had been awake to their duty years ago with reference to the liquor traffic many would be the number saved from tragic death and a drunkard's grave, because of liquor sold to them from ABC stores in our "fair" city. When will the churches lead in a definite crusade against this nefarious traffic? "The Lord's work requires haste!" "Procrastination is the thief of time!"

Rose Hill News

The Young People's League of Rose Hill has been traveling again. This time it was a winter road. We took our crowd and our food preparation and went down to Riverside. That is a few miles on the other side of Washington, N. C.

We first let the little children play in the water a while. They enjoyed that because the water was warm and the day was so pretty. Finally the boys made a fire and then got some sticks for us to roast our weiners.

After everyone had their tummies full we tried to sing a few songs. Some just couldn't sing because they were so full. Others tried but finally gave up and then packed up our things and started home.

We had 40 people with us. Some were visitors and we certainly did enjoy them being with us.

We have our choir practice every Friday night and League every other Friday night. We want to see our visitors and we welcome anyone who will join us then.

Due to the hot weather we have lanta, Ga. are visiting Mr. Thomas' continued our community sing parents, Mr. and Mrs. E. B. Thomas, which took place each second Sun-

Social Calendar

THURSDAY

7:00 p. m.—The Business and Professional Women's Club will hold its regular dinner meeting at the Woman's Club.

8:00 p. m.—Meeting of the teachers of the Church School of St. Paul's Church at the parish house.

8:00 p. m.—The Carrie Wilson Sunday School class of Immanuel Baptist Church will meet with Mrs. H. L. Elks on Dickinson Avenue.

Forty Years Ago Today

THE DAILY REFLECTOR
July 10, 1907

Greenville has been awarded the Eastern Carolina Training School for Teachers, authorized by the last legislature on 43 acres on the east side of town.

The decision for Greenville meets the approval of almost the entire state, and the Harrington site gives more satisfaction to the people here than any other offered. The site is a beautiful one and on it the school will compare with any institution in the state.

Greenville and Pitt county are delighted that the school comes here, and later the occasion will be appropriately celebrated.

Please take note of this because there will not be one next Sunday.

Until next time, this the reporter of the League telling you goodbye.

THOSE ELIGIBLE FOR OLD-AGE AND SURVIVORS INSURANCE BENEFITS ARE URGED TO FILE A CLAIM FOR PAYMENT

Marshall H. Barney, manager of the Social Security Administration, today called attention to the fact that there may be people in this section who are losing payments of Old-Age and Survivors Insurance because they have not filed claim for benefits. Some of them are young widows of insured workers, some are the children of deceased workers and some are aged men or women. The Social Security Act requires that a claim must be filed before benefits are paid.

Mr. Barney explained that in addition to the monthly benefits, payable to the insured worker who retires at age of 65, or after, the Old-Age and Survivors Insurance system provides monthly benefits for his wife, if she is 65 years old or over, and to his children under age 18. Monthly benefits are payable to the widow of an insured worker who dies, regardless of age, provided she has in her care, his children under 18. Old-Age and Survivors Insurance may be paid to insured worker's widow if she is 65 or more, or when she reaches 65 (if she does not remarry). The field manager said he sometimes find a case where a widow received a lump sum payment following the death of her husband three or four years ago, and although she has since reached age 65, she has not applied for the monthly benefits for which she is eligible.

Mr. Barney stated that the Social Security Administration stands ready to pay benefits to all those who qualify for payment, and anyone who has reason to believe that he or she is eligible for benefits should visit the nearest office of the Social Security Administration. "No matter where you work or live, you're not very far from a Social Security Administration field office or one of its part-time service points," he said. "I you work or live in the Rocky Mount area, call, write, or visit the Field Office of the Social Security Administration located at 208 Post Office Building."

FAMOUS DOGS ENTERED SHOW AT ARMORY SUNDAY. Dick Stokes III, president of the Greenville Kennel Club, reported today that entries were continuing to come in from North and South Carolina, Virginia and Georgia, for the American Kennel Club sanction match to be held at the Greenville armory next Sunday, July 13. Some of the finest pedigreed dogs have been entered. Any owner of a purebred dog is eligible for entry in this dog show. Pitt county dog owners are entitled to entry for the local classes as well as the regular classes. Nationally known judges will be here.

Entry blanks may be had at the Copeland Motor Company, General Insurance Agency and the Reflector office. The entry fee is a dollar for each dog. The Junior Chamber of Commerce is sponsoring the show. Advance admission tickets may be had from members of the Junior Chamber of Commerce.

MISS ROSALIE BROWN GETS IMPORTANT JOB IN DUNN. Miss Rosalie Brown, daughter of Mrs. Rosa H. Brown of Greenville, who has been director of the Granger High School music department in Kingston the past two years, has accepted the position of program and commercial advertising director of radio station WCKB in Dunn. Miss Brown received training in such work at a national music camp at Interlochen, Michigan, some years ago. She is a graduate of East Carolina Teachers College.

FAIR POSTPONED
The recreational fair scheduled to be held this afternoon at Colesburg Park was postponed because of inclement weather. Mrs. J. Vance Perkins, recreational director for Greenville, said the fair will be held tomorrow afternoon at 4 o'clock.

LEGIONNAIRES AT FUNERAL. A delegation from Greenville Post No. 39, American Legion, attended the funeral of William J. Baldrée, 38, of Abingdon, Md., at 4 p. m. today at the home of Mrs. Walter Cox, 229 West Eighth street. Burial was in Greenwood cemetery. Mr. Baldrée formerly lived in Farmville. He was killed when his plane crashed near Annapolis several days ago.

Mr. J. B. Bell Died In Hospital Wednesday

J. B. Bell, 69, died at Pitt General Hospital at 5:50 p. m. Wednesday following two weeks' illness. Funeral services will be held at the home at Belvoir at 3:30 p. m. Friday by Rev. D. W. Alexander, Free Will Baptist minister of near Bethel. Burial will be in the Bell family cemetery nearby.

Mr. Bell, son of the late Ben and Dillva Warren Bell, was born, reared and spent his entire life in the Belvoir community. He was a member of Gum Swamp Free Will Baptist Church and was a prominent farmer.

Surviving are his wife, the former Georgia Ann Clark of Belvoir; six sons, J. O. Bell of Wilson, J. W. W. E. and J. B. Bell, Jr., all of the home, and C. P. and G. B. Bell of Rocky Mount, three daughters, Mrs. R. R. Faithful and Mrs. Linwood Manning of Rocky Mount, and Mrs. C. G. Harris of Havelock, and 10 grandchildren.

Laura L. Raper Chosen "Miss Summer School"

Laura Lynn Raper of Lucama, sophomore at East Carolina Teachers College, was introduced as the Students' choice for the honor of being Miss Summer School of 1947 at a college dance held in the Wright building at East Carolina on Wednesday evening. Announcing the election of Miss Raper in an address conducted by the Teo Echo, a student newspaper, was made by Boyd Raeburn, popular orchestra leader, who with his nationally famous band furnished music for the dance. Miss Raper took a bow before cheering guests and was presented with a sheaf of red roses.

Sponsored by the summer school entertainment committee of the college, the dance was a leading social event of the current school term. Several hundred guests, including students, faculty members, and alumni of East Carolina were present.

Decorations followed a color scheme of blue and white. The dance floor was canopied with an arrangement of streamers forming a dome, and clusters of balloons hung from the ceiling.

School Budget . . .

(Continued From Page One)
The range is as high as 25.30 per cent, with no certificate holder receiving less than 20 per cent. It was estimated that there would be 1,301 holders of the lower certificates. In addition, it was expected there would be about 390 teachers who would be unable to qualify for a certificate of any kind. The salary for these persons will be fixed at \$10 a month, with a percentage increase of 13.21.

Groundwork . . .

of the trustees, the keeping of the buildings and grounds and such other matters as may pertain to hospital operation. In short, the Trustees will direct the policy for every phase of activity relating to the conduct or maintenance of the hospital. Any doctor within the county is eligible to practice in the proposed hospital but the Trustees must first examine his credentials and certify him before he may use the facilities.

A number of public spirited citizens from this county have contributed freely of their time and effort to promulgate the details of this new hospital program. Before the election, on September 16, there will be other meetings held in various sections of the county for the purpose of explaining the program in its entirety. "A new and larger hospital potentially effects every individual in Pitt County and we should take full advantage of this priceless opportunity to help ourselves and our less fortunate neighbors."

'MOTHBALL' WARSHIP—A fleet of tugs moves the USS Washington from Brooklyn Navy yard to Bayonne, N. J., to be decommissioned and put in the "mothball" reserve.

CANNED GOODS FLOOD MARKET

Congress Told Huge Surplus Threat To Country's Economy

Washington, July 10.—(AP)—Representatives of food growers, processors and distributors told Congress today that a huge surplus of canned foods holds the threat of economic disaster for the country. They urged, at a hearing before a House agriculture subcommittee, that the government send at least a part of the surplus abroad as a part of its foreign relief program.

Senators and representatives from many states attended the hearing, which had been requested by Reps. Miller (R-Mo) and Ladd (D-La). Various witnesses told the group that:

1. At government insistence that food is needed to win the peace, farmers have continued to increase production.

2. Canniers processed huge crops last year, with the result there now is surplus of 67,000,000 cases of canned foods.

3. With this surplus confronting them, canniers will be unable to purchase much of a big crop now coming up for harvest and farmers may suffer big losses.

'Dry' Town Is First In Line

Charlotte, N. C., July 10.—(AP)—The town of Davidson, the only place in Mecklenburg County where the establishment of ABC stores is specifically prohibited by law, will become the first beneficiary of the county's share of liquor tax revenue. The county commissioners yesterday voted that the extra money for a new Davidson public school, to cost \$245,000, or \$100,000 more than earmarked, shall come from first liquor store profits.

The county recently voted establishment of ABC stores. Production of reclaimed rubber in the United States increased from less than 200,000 tons in 1940 to more than 300,000 tons in 1943.

Strength FOR THE DAY

THE MIRROR HAS ITS PLACE
The word "modern" comes from the Latin word, "modo," which means "just now." Anything modern is "just now." Modern thinking is "just now" thinking.

Progress is achieved not only by thinking about the present but also by peering into the future and guiding one's self by the experience of the past. A man sitting in an automobile must give considerable attention to the steering wheel, the gears, the switchboard. All this is right before him. It represents the present. But he also looks out through the windshield. When he wants to slow up or pass another car or make a right or left turn, he looks into the mirror above the windshield and acquaints himself with what is going on behind.

This is a parable of life in motion. We have to give plenty of attention to the present, which is the steering wheel and the gears. We have to be intensely concerned with the future, which is the windshield and the road before us. But also we have to keep a cautious eye on the past, and the "rear view" if we want to take any chance involving a departure from the straight line in which traffic is moving.

We could not drive an automobile one foot without giving our attention to the steering wheel, the gears the windshield. But we must also remember that the mirror which enables us to look backwards is a very present help in time of trouble.

THE \$1,000 QUESTION

Mr. Farmer, will you go to the polls Saturday for \$1,000? That's what the experts calculate the export market meant to every tobacco grower in Pitt county last year.

Saturday, 18 polling places will be open in Pitt county for every flue-cured tobacco grower, whether landlord, tenant or share-cropper, to vote in the tobacco referendum regarding the assessment of 10 cents per acre of tobacco for the promotion of the foreign tobacco trade.

The referendum was authorized by the last session of the North Carolina General Assembly and provides for the assessment of 10 cents per acre of tobacco allotment to be turned over to a non-profit organization known as Tobacco Associates, Inc. The funds acquired will be used in the protection and development of export markets for American grown tobacco.

Normally about 40 per cent of the North Carolina crop of tobacco is shipped to foreign markets, which means that last year approximately \$182,000,000 was returned to North Carolina farmers for flue-cured tobacco exports; an average of about \$1,000 for each tobacco grower in Pitt county and North Carolina. Saturday's vote is more than a balloting to assess each farmer about 45 cents a year for the next three years. It is a vote to determine whether the farmers of Pitt county and the state are concerned enough with their tobacco trade to invest 10 cents per acre to protect the market which brought them the extra \$200 an acre they received from exported tobacco in 1946.

The importance of this

Flying Saucers?

referendum becomes evident when it is considered that approximately 40 cents out of every dollar received from flue-cured tobacco comes from that portion of the crop which is exported.

Let's change our first question. Mr. Farmer, can you afford to risk losing \$1,000 a year by not going to the polls Saturday.

WASHINGTON LETTER

By JANE EADS

Washington—The public's interest in the private life of its servants has not entirely died out. Maj. Gen. Philip B. Fleming, Administrator of the Federal Works Agency, singles out as an example Rep. Earl Wilson's (R-Ind.) proposal in 1942 that all government girls should be locked in their rooms and tucked into bed by 10 p.m. and his more recent effort to make an issue out of the girls' use of lipstick and rouge.

Rep. Wilson suggested the curfew as a means of increasing efficiency in the federal service in hearings before the House Public Buildings and Grounds Committee in 1942. The proposal attracted wide attention at the time. The subject came up during Gen. Fleming's discussion of "management techniques" before the Society for the Advancement of Management here.

In the course of his discussion Gen. Fleming cited a set of rules drafted by the management of a large department store in Chicago in 1880 for the guidance of its employees. He suspects that one time the government might possibly have supplied some of the same

sort to its employees.

Rule one was that the store must be open from 6 a.m. to 9 p.m. the year round.

The rules continued: "The store must be swept; counters, shelves and showcases dusted, lamps trimmed and filled and chimneys cleaned; quill pens made; doors and windows opened; a pail of water and a bucket of coal brought in before breakfast. If there is time to do so, attend to customers who call."

"The employe who is in the habit of smoking Spanish cigars, being shaved at the barber's, going to dances and other places of amusement, will assuredly give his employer reason to be suspicious of his integrity and honesty."

"Each employe must pay not less than \$5 per year to the church, and attend Sunday school regularly."

"Men employes are given one evening a week for courting, two if they go to prayer meeting."

"After 14 hours in the store, the leisure hours should be spent for the most part in reading."

Gen. Fleming said the public's employes, like the preacher's son, always have been expected to conform to higher standards of conduct in their private lives—or at least more rigid ones than anybody else in the community.

He wound up his speech by telling the Society that "among the most indispensable qualifications for the government executive are a sense of humor and a stiff upper lip."

A GOOD BUY

Columbia, Mo., July 10—(AP)—A young man applied to Hamilton Holt, supervisor of the Veterans GI Insurance and explained it was Administration office, for \$10,000 in a new policy, not reinstatement he was asking.

"Been in the Army, bud?" Holt inquired.

"Yup, three years."

"Mind telling me how you avoided Army high pressure drives during that period?" Holt continued.

"That was easy; I was the insurance officer," came the reply.

BUSY VISITOR

Port Jefferson, N.Y., July 10—(AP)—It's something like a family reunion when Mrs. Sarah Ventieri visits Mather Memorial Hospital. In one ward are the three youngest of her 13 grandchildren—the sons born July 2 to Mrs. Eugene Police and Mrs. Salvatore Ventieri, and the daughter born July 7 to Mrs. Michael Garafola. All are from Patchogue, N.Y.

Greenies Lose By 13-5 Score To Kinston Nine

By BERT MOYE

The Kinston Eagles continued to hold on to top position in the Coastal Plain League play as they walloped the hapless Greenies 13-5 here last night by blasting 21 hits off two Greenville hurlers.

Sam McLawhorn, pitching for the Eagles, pitched 10-hit ball and kept them well scattered with the exception of the first and eighth frames, to take his seventeenth win of the season. He has lost four games.

The Greenies started off like a house on fire when they put across two runs in the first frame to take the lead, but after the first frame were held scoreless until the eighth, while the Eagles scored in every inning after the second with the exception of the seventh and eighth.

In the first frame Lee singled, W. Mauney reached first on Collins' error at second, Timm walked leading the bases, Bomar hit through the pitcher's box to score Lee and W. Mauney scored from third on an infield out.

Kinston came back in the second frame to take a one run lead from which point they were never halted afterwards. They scored three runs on singles by Winkel, Peters, Sweet and Tepedino, aided by errors by Jacobs and Bomar, plus a stolen base, scored in the third on Collins' double and Winkel's single; two more in the fourth on two singles and a walk and four in the sixth on four singles, double and two errors and three more in the eighth on a single two doubles and Tepedino's homer over the left field fence.

Greenville scored its final three runs in the eighth frame when Anderson reached first on a fielder's choice, Ranweiler singled, an error advanced them a base, Larry Baldwin doubled to bring them home and Tommy Lee doubled to bring home Baldwin.

Garland Little, who lost his second game in as many tries for the Greenies this season, pitched the

first three and one-third innings, allowed 9 hits, six runs, one walk and one strikeout. Larry Baldwin, who went in to relieve him in the fourth with two men on base pitched the balance of the game and allowed 12 hits, seven runs, two walks and no strikeouts.

Tommy Lee with a double and two singles in four trips to the plate, led the 10-hit attack of the Greenies. Ranweiler with a double and a single in two trips to the plate and Jack Bomar with two singles in five trips to the plate were the only Greenies to get more than one hit.

Score by innings:
Kinston 031 204 003—13
Greenville 200 000 030—5

Hole-In-One

D. Larkin of Kinston joined goldom's Hole-In-One Club at the Greenville Country Club on Tuesday afternoon, when in company with Lucian Bryan, Carlos Murray and Gentry Galway, he scored his ace on the difficult eighth hole.

Larkin carded a 33 on the round, with three birdies and an eagle to add to his one-shot masterpiece.

DIAMOND DUST

By BERT MOYE

Sidelights: Kinston's 21 hits gathered off the two Greenville hurlers were for a total of 29 bases and included five doubles and a home run with every man on the Kinston club hitting safely at least one time.

Manager Ordie Timm, playing right field for the Greenies, made two beautiful catches in last night's game to take fielding honors for the night.

Two double plays were executed by the Eagles and one by the Greenies. Ten Eagles were left stranded on the bases and a like number of Greenies were left stranded there.

Howard Jenkins stole a base for the Greenies and Peters stole a base for the Eagles to take honors in this division.

Neither team was able to put across a sacrifice hit. The four errors made by the Greenies figured in all of the Eagles' runs.

Prior to the start of last night's game a minute of silence was observed by players and fans as a mark of respect for Judge William Bramham, former high commissioner of minor league baseball, who died Wednesday in Watts Hospital in Durham.

Greenville has two more home games this week when they play the Wilson Tobs here Friday night and on Sunday afternoon at three p.m. meet the Goldboro Bugs.

Referendum Talk

Young Nancy Bunker, Mt. Airy, N. C. is a tobacco landowner who believes in talking up the flue-cured referendum, Saturday, July 12, to "get out the vote." Nancy is shown exchanging views on the referendum—which will decide our future program—with Ernest Sauls, (right), owner, and H. H. Pollard, tenant, at their Garnet farm.
