LEFTIST RAIDS ON YUGOSLAV-GREEK BORDER

Bands Reportedly Withdraw Into Yugoslavia; UN Probers To See Konitsa

Athens, July 21.—(AP)—Press dispatches reported today that guerrilla bands had attacked two points in northern Greece near the Yugoslav border, and that in each case they withdrew after battle to Yugoslav territory.

Greek troops pursued harassing action against leftist forces in the mountain near the frontier of Albania, Yugoslavia's western neighbor, after repelling the offensive against Konitsa last week.

Dispatches today from Salonika said 400 guerrillas had attacked Mories, 25 miles north of Salonika, at dawn yesterday but were repelled by Greek commandos who killed 10 before the remaining guerrillas fled across the Yugoslav border two miles away.

Army casualties were two killed and two wounded.

Other dispatches said 300 guerrillas raided a police station at Mesochori, about two miles south of the Yugoslav border and 11 miles north east of Florina, where Greek authorities said they have feared a possible invasion.

Simultaneously a band armed with heavy machine-guns and mortars was reported to have attacked the nearby village of Mesokambos, setting fire to nine houses, despite strong opposition by armed peasants.

One newspaper account declared the attack was supported by machine-gun fire from the 58th Yugoslav frontier post.

Meanwhile, the United Nations sub-commission investigating Greek border disorders announced that it planned to visit Konitsa to inspect the area where guerrilla forces had launched their first big attack on government forces eight days ago.

A government military leader told the sub-commission the guerrillas at Konitsa wore Albanian uniforms and launched the offensive to set up a free government at Konitsa.

NCEA President Backing Johnson

Raleigh, N. C., July 21.—(AP)—State Treasurer Charles M. Johnson today had won the support of R. I. Fritz, Jr., of Hudson, President of the North Carolina Education Association.

In announcing he was actively supporting Johnson, Fritz ignored the candidacy of State Rep. Oscar G. Barker of Durham, who led a legislative drive for higher pay for school teachers.

Secret Session With Marshall

Washington, July 21.—(AP)—Secretary of State Marshall talked to the House Foreign Affairs Committee for almost two hours today at a session which Chairman Eaton (R-N.J.) said was held "under a pledge of absolute silence."

Eaton refused to tell reporters what subjects were discussed. There were indications one purpose of the meeting was to mollify some committee members who felt Marshall has been giving far more attention to the Senate Foreign Relations Committee than to the House group.

Forecast By Bevin

Britain's Foreign Secretary Takes Reputation As Prophet In Hand, Predicts No War For This Generation, Cautions Today's Mistakes May Wreck Future

Ernest Bevin, Britain's ever daring foreign secretary, took his reputation as a prophet in his hands at the weekend and told a coal miners' picnic in northern England that there is no danger of another war in this generation so far as he can see.

And why should this statesman, whose voice carries around the world, raise the harrowing subject of conflict on the supposedly cheerful occasion of a picnic? Well, because it's a question which never is far from the minds of all thinking people, as you and I well know from the conversations we daily encounter. So Mr. Bevin made his prediction to calm fears, but he was quick to add this important qualification:

"But in every act you perform, you must keep in mind the children of thirty or forty years from now. Not a day passes, not a moment passes in the job in which I am now engaged without my being fully conscious that a wrong decision, wrong judgment or petulant answer may now condemn a generation."

Was counsel that, for nobody can afford mistakes in these dangerous days. However, that doesn't mean that we are to refuse to face facts, to apply ourselves energetically to laying plans to meet emergencies, and to put those plans into operation forcefully when the emergencies crop up.

It would have been interesting if Mr. Bevin had amplified his forecast. Had he done so I dare say it might have developed several "ifs."

We shall have war if and when some aggressor nation acquires sufficient strength to wage a major conflict and so dares to carry out its aggression in the face of any and all hostile opinion. It strikes me that it might not take a generation for such a hypothetical situation to be created. Still, we do know that the only nation now physically capable of waging a major war of conquest is the United States—and the U.S. isn't an aggressor.

The present danger of war of course lies in the continued expansion of aggressive communism. The world revolution for the spread of that ism is going full tilt, and it will keep going with increasing intensity until it strikes an obstacle which it can't move. Every new country which is absorbed in the Red campaign adds strength to Russia's powerful communistic empire—and all this is gained without a major shooting-war.

So far as Moscow is concerned, it can avoid war by sitting aloof and being in a position to wash its hands.

American And Family Reported Held By Soviet

Relatives at Worcester, Mass., have charged that Mrs. Valeramas Carnecks, American-born former resident of that city; her husband, a former preacher of Lithuania, and their children are being held "prisoners" by the Soviet Union in Siberia. The Worcester Telegram identified this group as the "imprisoned" family. Twin sons Peter and Paul stand behind their mother. Daughters Larisa, Elena and Aron (left to right) are in foreground. A sister said Mrs. Carnecks retained her American citizenship, and had registered her five children as American citizens in Washington in 1938. (AP Wirephoto)

Soekarno Says His Republic Under Attack By Land, Air And Sea; Dutch Planes Raid Airfields; Nationalists Ordered To Counter-Attack

Batavia, Java, July 21.—(AP)—President Soekarno said by radio tonight the Dutch were attacking his Indonesian republic by land, air and sea. He appealed to the world to force the United Nations Security Council to take up the issue.

A Dutch communique said Dutch warplanes had attacked Republican airfields in Java and Sumatra because of "unprovoked" attacks on Dutch planes.

The Republican radio, over which Soekarno appealed, said Dutch artillery had opened fire south of Bandoeng, 100 miles southeast of Batavia. The report said that two Dutch planes throwing rockets attacked Tasik Malaya, in West Java, and that other Dutch aircraft had strafed a Soerakarta-Straden railway train.

Gen. Soedirman, Indonesian commander, spoke after Soekarno and said his side still hoped for a peaceful settlement, but that he had ordered the Nationalist army (about 200,000 troops) to concentrate and attack every time the Dutch struck at them.

The shooting resulted after some months of wrangling in which the Dutch and natives failed to agree on methods of implementing the Cheribon agreement, providing for complete independence under the Netherlands crown in 1949.

Indonesian broadcasts and other sources said the finely equipped

UAW President Says Big Steel Plans Shortage

Washington, July 21.—(AP)—Walter P. Reuther, president of the CIO United Auto Workers, contended today the program of steel corporations is one of "planned scarcity calculated to enhance profits and to fortify their monopoly hold over this basic industry."

Declaring that the industry is engaging in "big business featherbedding," Reuther said if it "cannot or will not equip itself to produce the steel required for full employment, then the government must be prepared to see that the steel is produced."

"We shall need 100,000,000 tons of steel for full employment in the United States in 1950. Witnesses from the steel corporations assert that 80,000,000 tons will be enough for the next five or ten years.

"If their plan is carried out it will mean 14,000,000 workers unemployed by 1950."

Kenneth Royall Seen Candidate For Governor

Salisbury, July 21.—(AP)—Entry into the North Carolina gubernatorial race next year of Secretary of War Kenneth Royall of Goldsboro is very likely, the Salisbury Post reported this afternoon in a special story from its Washington bureau.

"Congress is now passing the armed forces merger bill and Royall when that becomes effective, will revert from cabinet to 'little cabinet' status," says the Post.

"From that position," the paper continues, "it is believed he will return to Goldsboro and to Raleigh," he formerly practiced also in Raleigh—to have out his law shingle again and enter the race for governor.

Upwards of 100,000 card-carrying members of the communist party.

Another 100,000 candidates for party membership.

Approximately 4,000,000 members of communist front organizations. As for their political activity, Steels asserted:

"They are now pushing for a coalition of leftists with the expectation of forming a major third party."

Pressure For Passage Of Veterans Benefits

Four Measures Sent To President; Increased On-The-Job Training Pay And Higher Grants To Disabled Vets Sought

Washington, July 21.—(AP)—Republican Senator Morse (Ore.) applied fresh pressure on party leaders today for passage of two more veterans aid bills.

Four of them—including the terminal leave bond cashing measure which went to President Truman—won Senate approval in a long Saturday session.

But Morse's chances for quick action on his proposals appeared dim as the result of a promise by GOP chiefs giving top priority today to legislation seeking an investigation into the Justice Department's handling of vote fraud charges in the 1946 Kansas City Democratic Primary.

Despite the prospect of prolonged debate on this measure, Morse said he intended "to do whatever I can to bring my two bills to a vote today. They would:

1. Increase salary ceilings covering on-the-job veterans training from the present \$175 a month for single veterans to \$200, and from \$200 to \$450 for those who are married.

2. Authorize a 15 percent hike in grants to disabled veterans under rehabilitation program.

Neither bill has been acted upon by the House, which makes it doubtful that Congress could complete consideration by Saturday, the date scheduled for adjournment.

Both measures were put aside temporarily Saturday after the Senate passed the four other bills and sent a fifth back to the banking committee for further study.

The terminal pay bond measure won approval by a vote of 85 to 0. It authorizes, but does not require, the cashing after September 1 of an estimated \$1,800,000,000 in special five-year bonds held by an estimated 9,000,000 veterans.

While intended primarily to allow GI's to collect on unused furlough time, the measure enacted last year also provided that officers were to receive bonds for any leave in excess of 60 days which had accumulated up to Sept. 1, 1946.

An Explanation

A news story originating in Asheville, North Carolina, during the past week was not carried, nor commented upon by The Reflector because of a previous warning from the Department of Justice stating that Federal Post Regulations forbade mention of lotteries, games of chance, their participants, and incidents pertaining thereto . . . in newspapers using the privileges of the U.S. mail.

Violations of this law are punishable by fine and/or imprisonment.

EXPLAIN MOVE IN INDONESIA

Dutch Say Dilatory Tactics Over Pact Prompted Attack

The Hague, July 21.—(AP)—The Netherlands Government said today it was using its armed forces in Indonesia reluctantly to establish conditions "more favorable" to implementation of the agreement under which the islands would gain independence.

The foreign office charged in a memorandum that the regime of President Soekarno was "totalitarian in inspiration," lacking in full support of the islands' people, and continued the practice of keeping hostages.

The note, copies of which were handed to the U.S. Embassy at The Hague and to the British chargé d'affaires, concluded that the Dutch

Foremen Seek Reinstatement

Detroit, July 21.—(AP)—A strike threat was held back as a trump card today as the Foremen's Association rolling in an effort to gain reinstatement of 32 discharged Ford Motor Co. foremen.

Smarting from the firings and an admitted setback in their recent 47-day walkout, the foremen were exhorted by union leaders to "go back into the plants and organize a real effective strike" while attempts at a peaceful settlement of the dispute are being made.

Boston-Born Woman Is Convicted Of Slavery

San Diego, Calif., July 21.—(AP)—Convicted of slavery charges in a case rare in the nation's modern annals, Boston-born Mrs. Alfred Westley Ingalls was held a federal prisoner in the county jail today awaiting sentence July 29.

A federal court jury Saturday night convicted the 62-year-old Mrs. Ingalls, a descendant of Massachusetts colonial Governor Bradford, of enslaving her negro maid Dora Jones.

The maid had testified that she was threatened with jail "and hell" for nearly 40 years because of an affair with Mrs. Ingalls' first husband in Washington, D. C. which resulted in pregnancy.

Mrs. Ingalls' second husband, Alfred W. Ingalls, 64, was at liberty on bail of \$2,500 after the jury was unable to agree on conviction or acquittal on a similar slavery charge.

The four week trial was described as the first outright slavery case under the 13th amendment to the United States Constitution since 1880.

Maximum penalty for the offense of which Mrs. Ingalls was convicted is five years imprisonment or \$5,000 fine, or both.

Prosperity Hits All-Time Record

BILL TO BAN POLL TAX HAS EASY VICTORY

President's Mid-Year Economic Report To Congress Says Nation Surpassing Past Peaks Of Production; Cautions U. S. Must Strengthen Defenses Against Inflation

Washington, July 21.—(AP)—President Truman said today the nation has surged to a pinnacle of "unprecedented prosperity" but must strengthen its defenses against inflation.

In a special mid-year economic report to Congress, the Chief Executive declared that production now is running at a rate of \$225,000,000,000 a year, far surpassing anything in history, and added:

"We can place the high production and the high employment that we have today on a firm foundation of enduring prosperity and peace."

But threaded through the 30,000-word document were four cautions overseas—named by Mr. Truman as developments which mean that "inflationary problems may become stronger."

Termining price reductions still necessary in many areas, the President said they must not be swamped in a wave of speculation caused by the forecast of a short corn crop or by a wave of new wage and price boosts pegged to John L. Lewis' coal contract settlement.

Mr. Truman said there are as yet "no grounds for real alarm nor for general speculative increases in food prices" arising from the forecast of a corn harvest 20 per cent below last year's. But in the event real shortages should develop, the report recommended:

1. Full publicity as to the true farm outlook, perhaps including a campaign for "strict economy" in the use of some foods.

2. Quick planning for conservation, through export controls and possibly by renewing the government's recently lapsed power to control the amount of grain used by distillers and other processors.

Mr. Truman stressed his statement ten days ago that coal, steel and other industries forego immediate price increases until they test the real costs of the wage boost won by Lewis' miners.

In a capsule summary of national well-being, the President told Congress:

"At midpoint in the year 1947, we have surpassed previous high records of civilian production, and are now producing goods and services at a rate of \$225,000,000,000 annually."

Argentine Plane Crashes; Report 36 Persons Die

Buenos Aires, July 21.—(AP)—An Argentine Army transport plane crashed today near the El Palomar military airport and first unofficial reports said 36 persons were killed.

Reports from the airfield, 20 miles outside Buenos Aires said the plane crashed in flames upon striking telegraph wires shortly after its take-off.

Several persons were reported to have escaped by leaping from the plane cabin. Those remaining inside were burned when gasoline tanks exploded when the craft hit the earth.

The plane was a Douglas DC4. It took off at about 8:40 a.m. Eastern Standard Time and apparently had difficulty gaining altitude, because it traversed the length of the runway and barely cleared a fence before striking the wires.

Armed Forces Merger

No Actual Unification Of Army, Navy And Air Force Intended; Aim At Providing Means Of Better teamwork For Nation's Defense; It Will Soon Be Law

Washington, July 21.—(AP)—This explains the latest step in national defense.

The Senate and the House have voted to "unify" the Army, Navy and Air Force.

This isn't a merger of melting together of the armed services. All it means is getting them to work better together for national defense.

For example:

1. Better team-work in planning.

2. They can save money, time, effort, materials and manpower in buying what they need.

The Army, Navy and Air Force will be under their own civilian secretaries and their own commanders. They'll be separate branches of the armed forces.

But all of them will be under a secretary of national defense. That's a new job. It's never existed in this country before.

All this seems so natural and useful you might think it would have been done long ago.

True, it's been cooking a long time. But it hasn't been easy to do. And it isn't finished. It should be. There's still a slight hitch.

This is it: The Senate voted for one bill to unify the services, the House voted for another.

The bills are almost identical. But there are some differences.

There isn't much time for doing this since Congress may quit for 1946 by the end of this week.

It's expected an agreement will be reached quickly. Then the bill agreed to by both Houses will be sent to the President for him to sign into law.

He'll sign it promptly because, to a large degree, this has been his baby. He's pushed hard for it.

The idea of unification isn't new. It isn't something which sprang suddenly out of World War II. There's been talk of it since World War I.

Since 1921 at least 60 bills to unify the armed services have been introduced in Congress.

A number of studies were made. But until now, no action was taken. Yet, the real drive for unification did spring out of World War II.

That war showed some real weakness in this country's national defense set-up. For example:

The scrambling the Army and Navy did to get what they needed when the war started.

Former Burmese Premier Captured By Police In Gun Fight

Rangoon, Burma, July 21.—(AP)—Burmese police held former Premier U. Saw and 19 of his lieutenants today after killing three of the opposition leader's followers in a gun fight at his home yesterday as they arrested the group in connection with the Saturday massacre of seven cabinet ministers.

U. Saw—leader of the Myochit party—was held under heavy guard in the Rangoon central jail while authorities imposed a dusk to dawn curfew on the city.

Authorities said the raid on the former premier's home was led by Ba Maung, inspector general of Burma police. A violent gun fight ensued before U. Saw and his followers surrendered. During the battle three Myochit party members were killed.

Officials said a search of U. Saw's house unearthed a cache of arms and ammunition.

The Burmese press said nearly 50 persons all told had been arrested as a result of the assassinations of Maj. Gen. U. Aung San and six federal ministers who were cut down by machinegun fire during a meeting of the nine-man executive council in Government House Saturday morning. Six of the victims died soon after the attack and a seventh succumbed the next day.

Stalin Appears In Good Health

Moscow, July 21.—(AP)—Prime Minister Stalin made his first public appearance of the summer yesterday when he attended a monster sports exhibition in Moscow's Dynamo stadium in which approximately 30,000 Russian athletes participated.

The 67-year-old Stalin, who was dressed in a military uniform, appeared to be in good health and high spirits when he entered his special box and received the cheers of an audience of 70,000 which crowded the stadium to capacity.

Customs Bureau Gets Hesse Gems

Washington, July 21.—(AP)—In the first step toward eventual return to the German House of Hesse, more than \$1,900,000 of recovered royal jewels and heirlooms today were turned over by the army to the customs bureau.

The army said the jewels are no longer needed in connection with the court-martial proceedings.

AAF Developing Enormous Bomb

Washington, July 21.—(AP)—The Army Air Forces is developing and probably will test in the next few months a 42,000-pound super-size bomb.

So far as is known, this will be the largest standard-explosive—that is, non-atomic—missile ever made.

The weight of the bomb is that it is intended for use in such aircraft as the B-36, which is capable of carrying 36 tons of explosives and is equipped with a bomb bay of enormous dimensions.

Christian Science Service
"Life" was the subject of the lesson in the Christian Science church service on Sunday, July 14.

Golden Text Psalms 16:5 "Thou Lord is the portion of mine inheritance, and of my cup; thou maintainest my lot. Thou wilt show me the path of life."

Among the citations comprising the lesson-sermon were the following from the Bible: "How excellent is thy loving-kindness, O God! therefore the children of men put their trust under the shadow of thy wings. For with thee is the fountain of life; in thy light shall we see light." (Psalms 36:7-9). And from "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Because Life is God, Life is eternal, self-existent, Life is the everlasting I am, the Being who was and is and shall be, whom nothing can erase." (Page 289).

National Safety Week—July 20-26
In the United States 6,000 persons were killed in farm accidents in 1946. As many as 4,500 workers were killed on the job. In addition 1,300 were killed in motor vehicle accidents, the National Safety Council reports.

President Truman designated the week of July 20 as National Safety Week.

Insecticides and protective chemicals are useful, necessary and safe but they are something like matches and gasoline and are to be treated accordingly, state the National Safety Council.

Storage insecticides in closed metal containers, clearly labeled and kept away from kitchens or food stocks.

When using DDT inside of houses, extinguish all open fires. Do not spray children's toys, food or eating and drinking utensils.

Some of the rules of safety in operating farm tractors are:

1. Reduce speed before making a turn or applying brakes.
2. Never ride on draw-bar of tractor or on drawn implements.
3. Always stop power take-off before dismounting from tractor.
4. Never refuel tractor while motor is running or is extremely hot.
5. Don't operate a tractor in a closed building or close to inflammable material.

Gasoline storage facilities, to be absolutely safe, must be far enough away from buildings so flames cannot spread to them should the storage tank catch fire.

Never smoke near explosive fuel containers or while refueling a motor.

In case of gasoline fire, do not use water which will only spread the flames. Fire extinguishers should be available on every farm, everybody informed of their location and how to use them.

The National Safety Council says: One out of every 10 farmers will suffer a disabling injury, either on or off the job, in 1947, unless extra precautions are taken.

One out of every 350 farm families will suffer the pain and sorrow which accompany accidental deaths, unless extra precautions are taken.

A disabling injury will strike some farmer in the United States every minute unless extra precautions are taken.

Fifty-two farm people will die as a result of accidents every day in 1947, unless extra precautions are taken.

Four farm buildings are destroyed by fire every hour according to the National Fire Protection Association.

This week two Home Demonstration clubs held their annual picnics.

The members of the Sweet Gum Grove club met at the attractive country home of Mr. and Mrs. W. S. Brown on Tuesday, July 15, for their "family night" meeting. Parking space, lights, and tables were arranged for this occasion on the spacious lawn of the host and hostess' home. About 75 people enjoyed the picnic supper.

The Bell Arthur Home Demonstration club picnic was held on Friday, July 18, at the Farmville Recreation Park. Children and adults present enjoyed swimming and the playground equipment before the delicious picnic meal was served. About 35 club women and

In the United States 6,000 persons were killed in farm accidents in 1946. As many as 4,500 workers were killed on the job. In addition 1,300 were killed in motor vehicle accidents, the National Safety Council reports.

President Truman designated the week of July 20 as National Safety Week.

Insecticides and protective chemicals are useful, necessary and safe but they are something like matches and gasoline and are to be treated accordingly, state the National Safety Council.

Storage insecticides in closed metal containers, clearly labeled and kept away from kitchens or food stocks.

When using DDT inside of houses, extinguish all open fires. Do not spray children's toys, food or eating and drinking utensils.

Some of the rules of safety in operating farm tractors are:

1. Reduce speed before making a turn or applying brakes.
2. Never ride on draw-bar of tractor or on drawn implements.
3. Always stop power take-off before dismounting from tractor.
4. Never refuel tractor while motor is running or is extremely hot.
5. Don't operate a tractor in a closed building or close to inflammable material.

Gasoline storage facilities, to be absolutely safe, must be far enough away from buildings so flames cannot spread to them should the storage tank catch fire.

Never smoke near explosive fuel containers or while refueling a motor.

In case of gasoline fire, do not use water which will only spread the flames. Fire extinguishers should be available on every farm, everybody informed of their location and how to use them.

The National Safety Council says: One out of every 10 farmers will suffer a disabling injury, either on or off the job, in 1947, unless extra precautions are taken.

One out of every 350 farm families will suffer the pain and sorrow which accompany accidental deaths, unless extra precautions are taken.

A disabling injury will strike some farmer in the United States every minute unless extra precautions are taken.

Fifty-two farm people will die as a result of accidents every day in 1947, unless extra precautions are taken.

Four farm buildings are destroyed by fire every hour according to the National Fire Protection Association.

This week two Home Demonstration clubs held their annual picnics.

The members of the Sweet Gum Grove club met at the attractive country home of Mr. and Mrs. W. S. Brown on Tuesday, July 15, for their "family night" meeting. Parking space, lights, and tables were arranged for this occasion on the spacious lawn of the host and hostess' home. About 75 people enjoyed the picnic supper.

Cars Damaged In Crash Saturday

Alvin L. Cannon, 16 year-old youth of Greenville, was arrested by police Saturday night about 10:45 and charged with careless and reckless driving.

An officer said Cannon made a left turn on West Third street and collided with a car driven by Louis Little, 36 Negro, causing considerable damage to both cars. None of the occupants was hurt.

Cannon will be tried in police court Friday.

Find Negro Not Guilty Trespass

By CHESTER WALSH
In Police Court today Judge Jimmy Roberts found Milo Reese Nelson, 30-year-old Negro tenant farmer of near Grimesland, not guilty of trespassing as a "peeping Tom" on the premises of Mr. and Mrs. Sam Northrop, 507 West Fifth Street, late Saturday night. They could not positively identify the defendant as the man they saw in their back yard.

Mr. and Mrs. Northrop testified that when they heard a noise outside a window they saw a Negro man outside. They said they asked him what he wanted. He replied, "I'm looking for Mr. Young."

They ordered him off the premises and telephoned police. Detective Corbett, in the radio car, arrested Nelson at the bus station. Mr. and Mrs. Northrop said they could only identify the prowler by his dress and hat and a package he was carrying. They identified the package and the clothing, but could not swear Nelson was the man.

Information and application blank may be obtained from Mrs. Andrews secretary, Board of U. S. Civil Service Examiners, at the Bethel postoffice.

Applications will be accepted by the director of the director of the Fourth Civil Service Region, Nisshie Building, Winston-Salem (3), N. C., until the needs of the service have been met. Competitors will be required to report for written examination, which will be held as soon as practicable after the date set for the close of receipt of applications.

Blind Students Hurt In Wreck

Police arrested Billy S. Moss, 15-year-old white youth of near Stokes, late Sunday night and charged him with careless and reckless driving.

Chief Jim Tanner said Moss collided with an AA Taxicab Company car at 14th and Evans Street, damaging both cars and injuring three students from the Pre-Conditioning Center for the Blind—Miss Carrie L. Thompson, Miss Lela Grant and Miss Jessie M. Barrett. The injured were treated at Pitt General Hospital.

Neither Moss nor the taxi driver, Elton Keel of Greenville, was injured. Moss will be tried in Police Court next Friday.

Deafened People May Now Hear Clear

Science has now made it possible for the deafened to hear faint sounds. It is a hearing device so small that it fits in the hand and enables thousands to enjoy sermon music and friendly companionship.

Accepted by the Council on Physical Medicine of the American Medical Association. This device does not require separate battery pack, but battery wire, case or garment to bulge or weigh you down. The tone, clear and powerful. So made that you can adjust it yourself to suit your hearing as your hearing changes. The makers of Belsone Dept. 6, 1450 West 19th St., Chicago 8, Ill., are so proud of the achievement that they will gladly send free descriptive booklet and explain how you may get a full demonstration of this remarkable hearing device in your own home without risking a penny. A-Bomb Devastated City Preparing Festival Dedicated To World Peace

Hiroshima, Japan, July 21.—(AP) Citizens of this atomic bomb-devastated city are preparing for a three-day festival starting August 5, dedicated to world peace.

Convinced that another war will bring mass slaughter of civilians, they will stand in humble silence for a minute at 8:14 a. m., August 6—the second anniversary of the searing bomb burst which all but destroyed the city and left 78,150 dead and 13,983 missing.

Hiroshima's mayor Shinzo Hamai, in a proclamation prepared for the observance, observed:

"This epoch-making weapon of the century has taught us the great lesson that mankind must forsake war forever."

The mayor, a victim of the bomb radiation, said he was proud that none of the survivors had shown resentment against the thousands of allied nationals who have visited Hiroshima since Japan's surrender.

Reconstruction has proceeded slowly. Two years of toil have resulted in 20,000 rebuilt homes and shops—most of the makeshift structures which hide the scars only superficially. The four-story municipal building is one of the few that are standing in the heart of the city.

Hamai said Hiroshima's population had increased from 130,000 after the bomb blast to more than 210,000.

Dr. W. A. Browne Resigns Post On ECTC Faculty

Dr. Walter A. Browne, faculty member of the department of geography at East Carolina Teachers' College, has resigned his position at the college and will begin work in the fall at East Missouri State College for Teachers at Kirksville, Mo. He will be professor of geography and head of the geography division of the department of social sciences.

Dr. Browne, a native of Missouri joined the ECTC staff in 1937. Previously he taught for 10 years at the Nacogdoches, Texas, State Teachers College. He also had been a faculty member of Peabody College in Nashville, Tenn., and in other schools in Missouri.

At ECTC he has served as president of the Faculty Lecture Club, chairman of the committee on graduate work, and member of the Publications Board, which edits two official college bulletins. Recently he was elected a member of the Association of American Geographers, an exclusive national organization. Dr. Browne is author of a number of articles which have appeared in such publications as the Journal of Geography and Economic Geography.

Strength FOR THE DAY

WHERE SHALL WE START TO SERVE?

An aged teacher of mathematics performed a service, during the last war, which called forth the admiration of many people in the community in which he lives. Because of his age and feebleness there was little he could do for his country. He volunteered, however, to wrap packages for the Red Cross. Into his work he put that precision to which his life as a mathematician had habituated him. People say that the packages he wrapped up and tied were works of art indeed.

But the lifting which this work involved proved too much for him and after two years of faithful service he went down with a heart attack.

The students of that community since a college came about this quaint old professor. Who would have thought that his skill as a mathematician could have been transferred over into a helpful and quite necessary war service?

We need not be fussy about what we do in order to serve God and our fellows. The thing which makes the difference both in the eyes of the almighty and in the eyes of our fellow men is the spirit of fidelity which we carry into any task. "He that is faithful in that which is least is faithful also in much." The place to serve is where we happen to be. The time to serve is now. The spirit of true service is always characterized by good will.

WASHINGTON LETTER

Washington—The Washington Children's Museum, which has the backing of many prominent people and has won wide attention in a losing fight to keep a roof over its head, has been presented with a trailer in which to house its treasures.

The trailer, a gift from a group of dealers, is taking a United Nations exhibit on an extensive tour.

First stop is Quebec, Canada, where the American Association of Museums is holding its 42nd annual meeting. Next objective is Montreal then Syracuse, N. Y., where two museums will be visited.

After that the traveling museum will cross eight states, stopping at 23 museums in 18 cities and going as far west as Bloomington, Ind.

In the exhibit are six carved wooden dolls wearing the native dress of six Polish provinces; British and Canadian films of special interest to children; Greek models of famous statues; French ceramics and miniatures and maps of the Pacific by the Mexican artist Covarrubias.

Accompanying the museum's exhibit will be Miss Matilda Young, museum director, and Mrs. Grace Golden, chairman of the Children's Museum section of the American Association of Museums and director of the Children's Museum of Indianapolis.

Also in the party will be Maurice Newman, the artist who installed the exhibit in its former quarters here and in the museum's new trailer.

The Children's Museum was established here in February 1942 by a group of citizens as a "concept of voluntary education on the part of the child."

It was set up in a handsome pink stucco residence, the Villa Rosa, which had once been the property of Rep. William Bailey Lamar of Georgia. A donation was free to all children in their leisure time.

Clubs were formed at the children's request for the study of nature, minerals, stamps and radio. Washington's youngsters found it a haven during out-of-school hours.

Villa Rosa then, belonged to the District of Columbia. However a month after its transfer in January 1944 by the D. C. Defense Homes Corporation to the federal government it was sold privately.

Bills were introduced in Congress protesting the sale and museums all across the country wrote letters to members of Congress. Museum sponsors argued the sale should have been public so that the museum could have a chance to buy the property.

Since Sept. 1945 the museum has maintained only an office where the business of sponsoring its children's

plays during the winter has been conducted.

The museum's more than 1,000 members have been building up a fund to buy a permanent home.

they could have saved time, money, effort, materials.

The failure of the Army and Navy big shows to agree on unification threw a huge stumbling block in the way of getting the idea through Congress.

The admirals didn't want to wind up being bossed by a general. The generals wanted to be sure they did not lose ground to the Navy.

And the Air Force didn't want to be under the thumb of the Army or Navy. It wanted to run its own show.

Last year the Army came up with one plan for unification. The Navy came up with another. They were miles apart.

Congress worked on the plans but, even though President Truman asked for action, the 1946 Congress went home without doing anything.

Before this year's Congress came here in January, Mr. Truman finally got the Army and Navy to agree on a single plan.

He gave this plan to Congress in February. Since then, committees of both Houses have held hearings on the unification plan.

The top Army, Navy, Air Force and Marine commanders went before the committees and spoke in general favor of the plan.

(With their boss, the President, behind the plan it wasn't likely that any of those commanders were going to come out flat-footedly against it.)

Finally, both committees okayed the plan, passed the word on to the House and Senate, and both Houses this month voted for it.

Forecast . . .

(Continued from Page One)

of any set performed by one or more of its satellites. The case of Greece for example. That unfortunate little

country—already crippled by world war—is fighting a life and death battle with Communist forces which it asserts are backed by its Red neighbors to the north—a claim supported by the majority finding of the United Nations Investigating Commission in the Balkans.

Russia ostensibly isn't directly involved, and doesn't intend to become involved, because she doesn't want a war for which she isn't prepared.

America and the other democracies don't war either, and so must move circumspectly. Still they have vowed to protect weak countries from being communized against their wills by such strong arm methods as have been employed against Hungary, Romania and Poland, among others, and now are being used again by Greece.

The only way this can be achieved without precipitating war is to provide the little fellows with the wherewithal to protect themselves against the Red satellites. That is the significance of the action of the U. S. State and War Departments Saturday in urging the Senate to move quickly in approving funds to aid Greece and Turkey and start the world towards reconstruction.

Dutch . . .

(Continued From Page One)

Dutch army of about 120,000 men, using mostly U. S. lend-lease and surplus military equipment, was striking simultaneously at numerous points.

Dr. H. J. Van Mook, acting governor general for the Dutch, called the skirmishing "police action."

Prosperity . . .

(Continued From Page One)

As impossible of attainment. Our standard of living is exceptionally high and purchasing power has almost far outstripped the supply of goods.

Farm income has attained a record level. The financial position of business is strong.

Western Rail Strike Looming

San Francisco, July 21—(AP)—While the government attempted last chance mediation, the Brotherhood of Locomotive Engineers prepared to strike the Western lines of the Southern Pacific Railroad at 6 p.m. today.

Failure of eleventh-hour efforts to avert the strike would tie up some 8,000 miles of track of the Southern Pacific and affiliated carriers from Oregon to Texas during a season of heavy eastward movement of agricultural products from the West.

LEAF'S BLANK GREENIES 7-0

Shutout Is Third Of Season; Locals Get Only 3 Hits

By BERT MOYE

Manager Timm's Greenies received their second whitewash of the past week as the Rocky Mount Leafs blanked them over in Rocky Mount yesterday to the tune of 7-0, in the only weekend contest played by the two clubs as the double-header was rained out here at home on Saturday night.

The shutout against the Greenies was the third of the season, with Tarboro and Goldsboro being the only other clubs in the league to hand the local a shelling job.

Al Jarlett, veteran righthander, led the Greenies down with three hits as the Leafs registered their eighth win of the season over the Greenies. Incidentally, the locals have defeated the Leafs only three times this season. Tommy Lee with a double and a single and Arthur Jacobs with a single were the only Greenies to get base knocks in the contest. In addition to his brilliant pitching an even dozen Greenies went out via the strikeout method.

Joe Alamo, who on his previous mound duty yielded a no-hitter against the Tarboro Tars, went the entire route for the Greenies and yielded a dozen hits which included three doubles and a homer by Varrault. He failed to strike out a single man and walked only one during the contest.

The Leafs scored two runs in the third frame which was enough for a win, but came back in the fourth frame to tally three more and then

scored singletons in the seventh and eighth frames.

Score by innings:
Greenville 000 000 000-0
Rocky Mount 002 300 11x-7

DIAMOND DUST

By BERT MOYE

The Greenies play host to the Roanoke Rapids Jays here tonight in the first of four games scheduled here this week. Tuesday night the Greenies play the return game with the Jays at their home park. Wednesday night Goldsboro comes here and Thursday the Greenies go to Goldsboro. On Friday New Bern plays here and Saturday a return game is played in New Bern. Next Sunday will find a home game here with Kinston furnishing the opposition.

The double-header rained out here Saturday night with the Rocky Mount Leafs means that all games with the Leafs here will be double-headers. The Greenies meet the Leafs three more times at home this season and all of the games will be twin bills.

Don Anderson, who last year was manager of Fayetteville during their short stay in the Coastal Plain, and who took honors in the stolen base division, is now manager of the St. Augustine Club in the Florida State League. The fleet-footed manager who topped the Florida State League in stolen bases with 35, through July 15, has tallied four times from second base this season on infield double plays pulled with the sacks loaded. Anderson is shooting for the league record of 64 set

by Sanford's Ralph Ryder in 1940. Editors of Funk and Wagnall's New College Standard Dictionary give sports credit for contributing many words, some doing double duty and taking on "idiomatic meanings" their coiners never dreamed they would assume. Among the baseball terms so credited are fan, roofer, bleachers, home run, homer, pinch-hitter, double-header, grandstand-play, Charley-horse, gate money, strike out, bunt, root and shutout.

The Giants spotted the Cards from W. Greenville four runs in the first inning last Friday, but then came back to win the game 7 to 3. The Giants made three runs in their half of the first, when Bobby Lee homered Haynes tripled and then Watson hit for the circuit to score Haynes.

McLeod, with a double and single, led the hitting for the Cards. Bobby Lee, with two singles and the home-run, led for the Giants.

Third St.'s Tigers walked the Senators from W. Greenville 15 to 9 last Friday and continued their hold on first place for the second half of the Senior League. Sydney Briley, with three for four, and Chico Burton and Speedy Sideris with two for three led the batting for the Tigers. Troy Wilson with a triple and singled led the way for the Senators.

Third St.'s rejuvenated Dodgers pinned another defeat on the Lions of W. Greenville, the first half winners, in a free scoring game. The final score was 14 to 7.

While with two triples and a single and Roebuck and Cox with two singles were the leaders for the Dodgers. Wingale and Phillips with three hits each led for the Lions.

Government "has, with the utmost reluctance, come to the conclusion that measures must now be taken to create conditions more favorable to the implementation of the Lingard-Jati (Oberbon) Agreement."

"It should not be supposed," the memorandum continued, "that the Netherlands Government has lost patience or is lacking therein. . . . The decisive consideration is that dilatory tactics so obviously pursued by the republic can only result in the aggravation of an untenable economic position without there being any prospect in the shape of a speedy political settlement."
