TAFT TO TOUR WEST SEEKING GOP REACTION

Results May Determine Whether He Will Seek Presidential Nomination

Washington, July 22.—(AP)—Senator Taft said today he will make a western speaking tour to test reaction to the Republican-controlled congress before he decides whether to seek the 1948 GOP presidential nomination.

Balkan Countries Warned To Cooperate--- 'Or Else'

League Success, July 22.—(AP)—The United States warned the Balkan states today that any refusal to cooperate with the proposed border watch commission might bring punitive action by the United Nations Security Council.

The warning was voiced by Herschel V. Johnson, deputy U. S. delegate, in reply to Soviet contentions that the council could do no more than make recommendations under Chapter VI of the U. N. charter under the present case is being considered.

Johnson said refusal of any country to cooperate with the proposed border commission would be open to much graver charges and action under another chapter of the charter. He presumably referred to Chapter VII, which provides for a paragraph of an American resolution which Russia and the Soviet satellites had attacked on the ground that it presumed the guilt of Albania, Yugoslavia and Bulgaria.

A spokesman for the American delegation said the British amendment would be accepted by the U. S. This was one of two conciliatory moves made at this morning's council session in an effort to reconcile conflicting Soviet and American views. The other move was made by France.

PREPARE FOR LEAVE BONDS

Treasury Will Let Banks Do Job If President Signs Bill

Washington, July 22.—(AP)—The treasury—in order to be ready when and if President Truman signs the bill permitting veterans to cash their terminal leave bonds—is drafting regulations to let banks do the job.

Under the plan the nation's 15,000 banks would cash the bonds in the same manner as they handle government savings bonds. The measure to permit cashing of more than \$1,829,000 terminal leave bonds after September 1 cleared congress Saturday night.

INDUCES WAA BOSS TO STAY

Truman Persuades Littlejohn To Remain; Praises Work

Washington, July 22.—(AP)—Robert M. Littlejohn offered to quit as War Assets Administrator this month but President Truman persuaded him to stay on.

Government officials who reported this privately today said the incident occurred after a House committee report lashed out at what it called "confusion, carelessness and chaos" in WAA and urged that Littlejohn, a former major general, step out to make way for a "business-like" civilian management.

Mr. Truman not only urged Littlejohn to remain, but wrote a laudatory letter which the WAA chief released last night along with a report detailing large gains in disposing of surplus war property during his 12-month administration.

Excise Tax Cut By Bill In House

Washington, July 22.—(AP)—The house passed unanimously and sent to the senate today a bill exempting from the 20 per cent excise tax on jewelry any article of jewelry sold for less than \$25.

On motion of Rep. Forand (D-RI), the jewelry purchase exemption was written into a bill excluding from excise levies musical instruments sold for the use of religious and non-profit educational institutions.

Pomatoes

Petersburg, Ind., July 22.—(AP)—John Ogden came to town today to tell of his crop of potatoes.

Ogden said he planted some tomatoes this spring near his potato patch and now tomatoes are growing atop of the potato plants and potatoes are growing on the roots. He believes bees crossed the pollen.

Boy's Confession Not Accepted By Prosecutor In Massillon Mystery

Massillon, O., July 22.—(AP)—Mrs. Roger Gue of Navarre, mother of the six-year-old boy reported by police Chief Stanley W. Switzer to have admitted the accidental killing of two babies in city hospital last month, said today her son again had changed his story and that she did not now believe her son dropped the infants.

Massillon, O., July 22.—(AP)—A six-year-old boy's statement that he dropped two infant girls on the floor at City Hospital while "playing" with them was accepted today by the Massillon police chief as the solution to the babies' mysterious deaths June 6, but the county prosecutor said he doubted the boy's story and would continue investigating.

Dutch Troops Stage Amphibious Attack

Storm Ashore On North And East Coasts Of Java In First Such Operation Since End Of World War II

Batavia, July 22.—(AP)—Indonesian sources said today Dutch troops had stormed ashore on the north and east coasts of Java yesterday and been engaged in heavy fighting. The Dutch, reporting all objectives reached in the operation, said resistance was "less than expected."

A Dutch Army communique placed Dutch casualties yesterday at 150 dead and wounded.

President Soekarno of the Indonesian Republic announced that former Premier Sultan Sjahrir had left Java on a mission to explain the republic's position abroad.

(Arriving in Singapore, Sjahrir said he would visit the United States, India and Australia on his mission.)

A Royal Netherlands Navy communique said landing craft of the Navy and warships disembarked troops at Banjoreng on the east coast of Java and at Pasir Putih on the north coast. It was the first amphibious operation since the end of World War II. A Dutch Army communique said the troops gained initial objectives and made additional advances.

A severe five-hour engagement in the Pandang sector of Sumatra yesterday and other clashes on that island were reported by an Indonesian Army communique. The bulletin also said that on Sunday, two Dutch warships off Merak on the extreme western tip of Java were shelled by Indonesian mortars and left the area after suffering damage.

The fight, which began Sunday with the Dutch acting first, originated in disagreements over the future government of the East Indies, rich in oil, rubber, sugar, tin and other products. The Republicans call it a "colonial war," the

FRAUD CHARGE SLOWS SENATE

May Turn To House For Help As Time Runs Short

Washington, July 22.—(AP)—With the Senate stalled on demands for a congressional investigation into Attorney General Clark's handling of Kansas City vote fraud charges, prospects mounted today that Republican leaders might turn to the House for help.

Senator Kern (R-Mo.) said he still has not given up hope that the Senate will approve his resolution authorizing an inquiry.

But with time running out on the Saturday adjournment goal, Democratic senators showed no inclination to let the matter come to an early vote.

Meanwhile, a highly-placed House Republican who asked that his name not be used said a number of representatives have been pressing for an inquiry by their chamber. He said the matter might be brought before the House Administration Committee today.

Rail Strike Ends Seven Hours After Announced

San Francisco, July 22.—(AP)—A strike by the Brotherhood of Locomotive Engineers which immobilized the Western lines of the Southern Pacific Railroad ended early today six hours and 45 minutes after it began.

Thirty-nine minutes later the first of hundreds of locomotives filled by the brief strike puffed back into service. It was a switch engine in the railroad's Oakland, Calif. yards.

L. B. McDonald, Southern Pacific vice president in charge of operations, announced at 12:45 a. m. (P. S.T.), that an agreement with the union was reached in negotiations

which had continued in session after the walkout began yesterday at 6 p. m.

Shortly afterward P. O. Peterson, general chairman of the Brotherhood of Locomotive Engineers, announced "an agreement has been signed and the strike indefinitely postponed while the remaining issues are settled by direct negotiations with the railroad."

Peterson said 15 of 20 points at issue, mainly affecting working rules, were settled satisfactorily for the union and that a demand for a guaranteed minimum wage increase from \$10.02 to \$12.95 was waived.

"I think the employees got the best of the bargain," he said.

J. V. Corbett, general manager of the railroad, said "Five of the issues were withdrawn by the union. Some were compromised and some were settled as requested. The rest of the issues as to the first 20 demands are subject to mediation."

A company spokesman announced rolling stock over the vast Western network of 8,000 miles of rails was being returned to service as fast as the engineers could be recalled.

Royall Disclaims Political Rumor

Washington, July 22.—(AP)—Kenneth Royall of Goldsboro, N.C., who will be sworn in as Secretary of War Thursday, says "I have not recently or at any other time made a public or private statement about seeking the Democratic nomination for Governor in North Carolina in 1948."

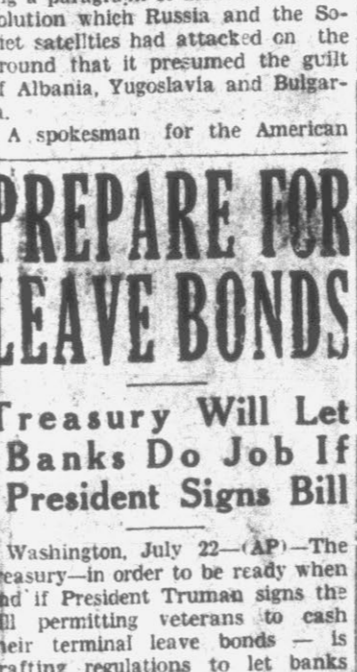

He made that comment last night when told that the Salisbury, N.C. Post had published a dispatch from Washington saying he would seek the nomination. Last April, when questioned about similar newspaper reports, Royall said he was "too busy" to be thinking about the Tar Heel governorship. His name has been mentioned in that connection for the past decade.

Senate-House Conference Agree On Appropriation's Cut

Senate Has Pigeonhole Ready For Poll-Tax Bill

Washington, July 22.—(AP)—The Senate Judiciary Committee dusted out a pigeonhole today to keep the House-passed anti-poll tax bill handy until its backers decide to expose it to a new filibuster.

That will not be this session, which is slated to end Saturday. But there is every indication that the Senate will act promptly when it reconvenes next January.

Three times previously the House has passed similar bills only to have them killed by Senate talk fests.

Republicans who drove the bill to House passage yesterday over the objections of Southern representatives said present plans call for speedy Senate action in 1948, in time to put the bill onto the law books for next year's congressional balloting.

Privately, they said they hope the law will be helpful in unseating some Democrats in the seven so-called poll tax states of Texas, Tennessee, Virginia, South Carolina, Arkansas, Mississippi and Alabama.

The House-passed bill would make it illegal for any state or local government to require payment of a poll tax as a requirement for voting in a presidential or congressional election.

The measure sailed through the House by a count of 290 to 112, or 22 votes more than the two-thirds required under the procedure that brought the bill to a vote out of its regular order.

Led by Rep. Bender (R-Ohio), backers of the bill argued that it is necessary to protect the voting rights of citizens.

INDONESIAN OUTBREAK

There is no dark mystery about the warfare which has erupted again between the Indonesian Republic and the imperial Dutch forces; it's just another of many indications that the day of empire is fading.

INDONESIAN OUTBREAK

No Mystery As To Why War Has Again Broken Out In Far East; Another Indication Day Of Empire Is Fading; Demand For Independence Growing Over World

There is no dark mystery about the warfare which has erupted again between the Indonesian Republic and the imperial Dutch forces; it's just another of many indications that the day of empire is fading.

To understand the cause of the current crisis we must go back a bit. The revolutionary Indonesian Republic has been the de facto government for the major portions of the rich islands of Java and Sumatra since the winter of 1945.

Lengthy negotiations between the Dutch and the rebels (heavily punctuated by warfare) finally resulted in an agreement whereby a United States of Indonesia, encompassing both the republic and the remainder of the East Indies, would come into being in 1949.

This new nation was to have dominion status. Holland was to retain a hand in foreign relations, defense, finance and, in subjects of an economic or cultural nature, the queen of Holland also was to be queen of the dominion. Disagreement over the method of implementing the new government is credited with precipitating the latest upheaval.

However, I think we must go deeper than that. If we could look into the mind of the Indonesian we likely should encounter some such reasoning as this:

"The Dutch and the Indonesians are racially as far apart as the poles. We have little in common. The queen of The Netherlands is a benevolent and lovable personage, but she is not one of us. The members of her government are foreigners to us. We want absolute severance from Holland, so that we may rule ourselves in these fair lands of wealth which have been inhabited by our race for untold generations. It isn't that we like the Dutch the less, but that we like our absolute freedom the more."

That's what your correspondent believes they think. And that is the basic cause of this fresh outbreak. If we believe the writing on the wall this means that sooner or later (and probably sooner) The Netherlands must relinquish all claims on the wealth of Indonesia.

The same is true of all imperial powers, because the demand for independence is growing over the world.

SURVEY EARNS APPROVAL OF TWO SENATORS

Truman Analysis Draws Praise By Seekers Of Anti-Depression Formula

Washington, July 22.—(AP)—President Truman's analysis of America's economic assets and shortcomings drew general praise today from a Republican and a Democrat on the congressional committee seeking an anti-depression formula.

Slating up the Chief Executive's special mid-year report which couched a description of "unprecedented prosperity" with a call for greater efforts against inflation, Senator Flanders (R-Vt.) told a reporter:

"By and large, it looks like a good, careful job. I think the most important thing the President said is that the food price and supply situation merits the most careful watching."

"I am afraid I don't quite agree with him that there is no ground for general alarm now. There is. The President should make an appeal to the people now for 'strict economy' in the use of food, and not wait, as he suggests, for real shortages."

Senator Myers (D-Pa.) said in a separate interview that Mr. Truman "has emphasized once again the necessity for affirmative action to stabilize our high level of prosperity on a solid foundation."

Declaring he is in "full accord" with the President's general recommendations, Myers added that "unfortunately Congress up to now has given little attention" to similar proposals contained in Mr. Truman's first economic report to Congress last January.

Both Myers and Flanders are members of the joint committee on the economic report, set up to study White House findings and make its own soundings.

In the survey he submitted yesterday, the President urged among other things that prices be cut and wages increased where profits are high. Profits are high, he said, in "many cases."

Dutch Marines Were Trained At Camp Lejeune

Washington, July 22.—(AP)—About 7,000 Dutch marines, now fighting in eastern Java, were trained and equipped at Camp Lejeune, N. C., during the summer of 1945.

Marine Corps headquarters, in response to an inquiry, said today that Dutch marines were trained at Lejeune. An official at the Netherlands embassy said the unit is now in Java.

The Dutch fighters were trained at the request of the Netherlands government, this official said, and were given the same basic training as U. S. marines, including instruction in the use of automatic weapons, hand grenades, flame throwers, etc.

They were issued the same equipment as that given a brigade of U. S. Marines, he said.

Jap Ship Has Brief Career As A Target

Tokyo, July 22.—(AP)—As a target ship, the former Japanese destroyer escort 104 had an extremely brief career.

The Japanese ship was towed 100 miles off the entrance of Tokyo Bay Monday to provide gunnery practice for the cruiser Toledo, the destroyer Ogburn and the seaplane tender Duxbury Bay. The Toledo's five-inchers opened up first.

And that was the end of the 104.

Proposed New Pitt County Hospital Discussed Before Rotary Club Meet

By WYATT BROWN
A hospital for Pitt County was discussed last night at the Rotary Club meeting by John G. Clark, chairman of the committee appointed to promote the hospital. Following Mr. Clark's presentation Dr. Karl Pace spoke on the matter, urging full cooperation and all possible haste in view of the opportunity and the need.

In his opening statement Mr. Clark assured his hearers that the hospital for Pitt County was the biggest thing for the county since Haywood Dail ate the votes in connection with bringing East Carolina Teachers College to Greenville. Mr. Clark related how in conference with Dr. Rankin and Dr. Ferrell, the 140-bed hospital was determined on a ratio of two and one-half beds per thousand population in the county. The two doctors came to Pitt county to advise with local leaders.

In speaking of Pitt General Hospital's attitude, Mr. Clark said they would be raised and thanked for they are ready to sell their building and turn all funds over their present debt to the new county hospital. The county has been asked to

have someone take an option on the 12 acres required. The election to decide the issuance of county bonds is set for September 16. Four Saturdays prior to that, places of registration for prospective voters will be open. Mr. Clark advised that the election slogan be "Vote against ill health."

If Pitt county provides the money and the state and national governments find Pitt qualified, the hospital will be run by a Pitt county committee appointed by the County Commissioners. In the selection of the 12 or 15 trustees for the hospital, Mr. Clark believes that many obstacles facing the proposition now would be eliminated.

In concluding his remarks, Mr. Clark said, "Don't argue with anybody about this proposition, don't fall out with anybody about it; if you don't like the proposition, don't hold that against me; if you don't like me, don't hold that against the proposition. Let's work together for the hospital. He bespoke the cooperation of the Rotarians and assured them he was confident they were ready to help.

Dr. Pace made the point that some people fear that getting federal money will mean strings at-

ached, but he assured the Rotarians that this time there are no strings attached to the federal grant though he is somewhat mystified that Congress let it happen. The federal government only requires that the acreage and county part of the funds be provided; the rest is under local supervision.

Dr. Pace said that Surgeon General Parran has said that only four states besides North Carolina had offers so arranged now as to be able to qualify for a federal grant at that other states were trying to get in line as rapidly as possible; hence, Pitt county had better lose no time. Dr. Pace urged that the Pitt county application be gotten right away. So far, he declared, Pitt county is a step or two ahead of all the others.

The Rotarians were warned that the day of the small private hospital is past. With hospital insurance so widely used today, it is easier to meet hospital expenses. Mr. Clark had said that Dr. Rankin had estimated that the new hospital in Pitt would lose money the first two years, but after that would make a profit.

Since the purchase of the necessary 12 acres must be outside the money put up by the county, Mr. Clark said he and Sturt Carr had underwritten the cost of the acreage when the matter was presented to the commissioners—he said he new the people of Pitt county.

Strength FOR THE DAY

TWO CONTENTING THEORIES

The statement that we can attract more bees with molasses than with vinegar finds many applications in life. We get much further with our fellows when we see the good in their natures and appreciate those good qualities than when we criticize and berate them.

A woman speaking recently about the lovely atmosphere of the home in which she lived said it was largely because the members of the family genuinely admired one another. They are probably not more worthy of admiration than any other group of people, but each sees in those about him something to praise and speak of with enthusiasm. They all proceed on the molasses theory rather than on the vinegar theory, and they seem to get along famously as a result.

That means the gift of soft touch. Contact with some people is like a blow across the face. These people may not be bad people at all, but they lack the gift of gentle touch. It is amazing how often a soft answer turns away wrath; how frequently the turning of the other cheek produces the effect our Lord said it would. In that same sermon on the Mount, he spoke about seeing the mote in the brother's eye and perceiving not the beam in our own eye. This is the Biblical repudiation of the vinegar theory. We get further by admiration than by fault finding, by praise than by criticism.

Recreation Commission Report Indicates Improved Activities

Mrs. J. Vance Perkins, chairman of the Greenville Recreation Commission, made the following report to the Board of Aldermen:

"Before submitting my report to you, I wish to thank the Mayor and Board of Aldermen for making this report possible by increasing the appropriations last July from \$2,500 to \$4,000. The increased appropriation has enabled us to offer more wholesome recreation for the youth and adults of Greenville.

"During the fiscal year \$2,497.27 has been spent for salaries of supervisors for the summer and winter programs, maintaining a janitor at the armory from January to May 1, caretaker at Cotanche Park (the caretaker is maintained full time during the summer and decreased to two days per week during the winter months). This also includes labor for fixing three city tennis courts and for caretaker to maintain them.

"The remainder of the appropriations \$1,512.73, has been spent for equipment, repairs and maintenance of the four playgrounds, teen-age club, midget baseball team and the tennis courts. We have purchased during the year a new eight-piece swing set for West Greenville, a slide for Cotanche, a lawnmower, wheelbarrow five garbage cans, rakes, swing blade, lumber, paint, nails, etc.

"The following have been built this year: Two new storage boxes, one for Third Street and one for Fourteenth and Charles, three new baseball backstops, three new sandboxes, six horseshoe pits, two ping pong tables. We have purchased sand for the tennis courts and the four playgrounds. Clay has been purchased for the horseshoe pits.

"Baseball equipment, including bats, balls bases, and catcher's equipment have been bought. Also, during the year, softballs and bats,olley balls, basketballs, four croquet sets, quiet games, crayons, paper and scissors have been bought for various playgrounds.

"Through the courtesy of Mr. J. H. Reese and the city schools a truck has been loaned to us for transporting the nine baseball teams. We have paid for the upkeep of the truck.

"Our seven-point program consists of: Four playground areas, Cotanche, Third Street, West Greenville, and a new playground area which property was loaned by M. K. Blount, Judson Blount and F. L. Blount at Fourteenth and Charles. Teen-age Club situated in the basement of the high school, a baseball program for boys of all ages, and three tennis courts.

"At each park is a capable supervisor. They are Miss Pat Waldrop, Third Street; Mrs. R. C. Pierce, West Greenville; Mrs. W. G. Smith, Charles and Fourteenth; and Miss Frances Helms, Cotanche. The playgrounds are open from 10 to 12 in the mornings and from 3 to 6 in the afternoons, Monday through Friday, and Saturday morning.

"The Teen-age Club is supervised by Mrs. Jake Hadley. The club is open every afternoon from Monday through Saturday from 3 to 6 and from 7:30 to 10:30 at night. The Teen-age Club provides recreation in the form of table tennis, dancing, quiet games and reading for the students of high school age. The officers and students make their own rules and regulations which are passed on by the Recreation Commission.

"Mr. Bo Farley is supervisor of the baseball teams. He has nine teams of boys of all ages, and they average around three games a day which are played at the various playgrounds. Records of the games and schedules are published in "The Daily Reflector" each day.

"In January the Recreation Commission subleased the armory from the American Legion. A three-point program was organized, a midget basketball team under the supervision of Mr. Bill Kittrell, Teen-age Club under the supervision of Mrs. Vance Perkins and Mrs. Sam Northrop, with the Service League acting as chaperones, and adult program three nights a week with Mr. Shuford as supervisor. The Commission paid the water, light, coal and janitor service from January to the first of May. The cost of the armory program was approximately \$737.86.

"In cooperation with Chief Tanner the Junior Woman's Club was secured as chaperones for the four skating rinks. The streets were roped off by the police and the Junior Woman's Club acted as chaperones at these four areas.

"The park is not only used as a playground in the summer, but it is used by all ages year round for picnics and parties. The commission pays for the entire upkeep of Cotanche Park the year round.

"In 1945 the average attendance on the playground was 108 children per day. In 1946 the average attendance increased to 186 per day. In 1947 the first week in June over 240 children per day attended the playgrounds. For the first 20 days the playgrounds were open in June 1947 over 4,460 children attended. Over 125 children attend the Teen-age Club per day. In 22 days over 2750 have attended."

"The purpose of the recreation program in Greenville is to provide wholesome activities for its children and adults, good citizenship and sportsmanship. It stresses in the program by teaching honesty, sharing, fair play, consideration of fellow playmates and property."

TIME BOMB IS DISPLAYED IN MURDER TRIAL

Criminologist Demonstrates How Overell Yacht May Have Been Blasted

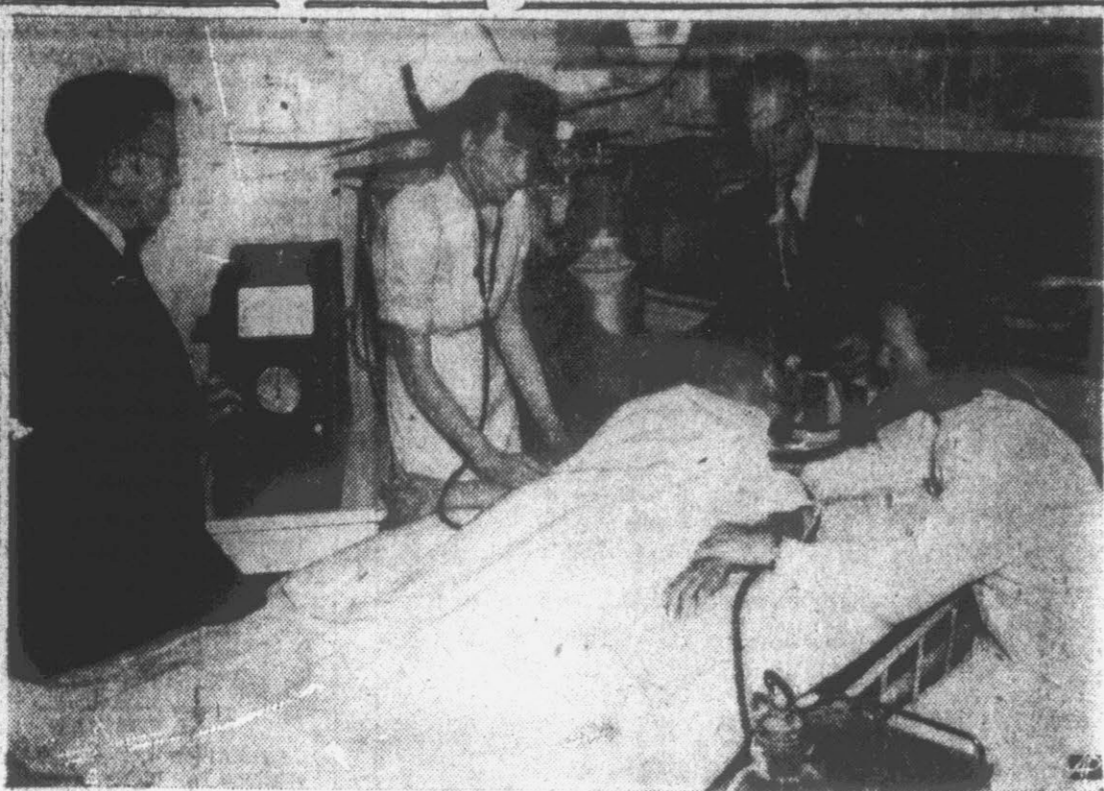

Santa Ana, Calif., July 22—(AP)—A tense, hushed, expectant courtroom was startled as an alarm clock rang, completing a circuit from a storage battery to a detonator wire, and a tiny trail of fire and blue smoke shot into the air at the Overell yacht blast murder trial.

Louise Overell, 18-year-old heiress, and her college sweetheart, George (Bud) Golum, 21, charged with murdering her parents, smiled as the prosecution late yesterday presented for the jury a demonstration reconstructing how it claims Mr. and Mrs. Walter E. Overell's yacht, the Mary E., was dynamited after the elderly couple had been bludgeoned with a hammer or a piece of pipe.

A 12-volt battery, a standard make household alarm clock and the detonator wire were on a counsel table, directly in front of the jury, while five minutes ticked away. As the clock's minute hand corresponded with the alarm hand, a bell rang and the detonator cap set off its fiery charge.

The demonstration proved, Prosecutor Eugene D. Williams contended, that a circuit could be completed from a battery to a charge of dynamite.

Roger Greene, criminologist for the state attorney general, conducted the experiment. He said the alarm clock was identical with a battered one found in the Mary E.'s engine room, near 30 sticks of unexploded dynamite. Investigators previously estimated that three sticks exploded in the blast.

ELECTRIC SLEEP DEMONSTRATION—University of California researchers demonstrate electrically-induced sleep which they say is helpful in treating a form of insanity. Treatment keeps patient unconscious for 7 to 15 hours. Left to right: Dr. K. M. Bowman, nurse Katherine Stewart, Dr. Alexander Simon, Dr. Jane Ralston, Nurse Margaret...

DEMONSTRATE STEAM TRUCK

Revolutionary Engine Uses New Jet Fuel Burner

South Bend, Ind., July 22—(AP)—A steam-powered truck that derives its power from a revolutionary jet burner was demonstrated here today by W. C. Miner, a Mishawaka manufacturer, and his chief engineer, F. Harold Lee.

Miner describes the engine as "the first completely successful engine for highway vehicles." Miner explained that the jet burner used in the truck was perfected only six months ago by Calvin D. MacCracken, an eastern inventor. He said he has purchased from the inventor exclusive rights to use the jet burner in highway vehicles. MacCracken had invented the burner for use in furnaces.

The burner uses almost any type of liquid fuel and the steam generated by it enters a small four-cylinder engine connected directly to the truck's rear axle. The steam also operates a small auxiliary engine that runs the generator and water pump. Lubrication is accomplished by introducing oil into the steam. Miner said plans for manufacturing steam propelled trucks are still indefinite.

Select Location Of New Hospital

Goldsboro, July 22—(AP)—Commission for establishing a State Hospital for spastic children will meet in Durham at 11 A. M. Thursday to select a location for the institution. Senator Thomas O'Berry, Chairman of the Commission, announced today.

A site for the hospital has been donated by Duke University and accepted by the state. The commission will visit the site and decide at what spot the hospital should be placed. O'Berry said. Plans will be considered, he said, for "going ahead" with funds earmarked for the hospital by the last General Assembly. The funds were appropriated subject to the approval of the Governor and Council of State.

The purchaser of said timber shall have three years from the date of the commissioners' deed in which to cut and remove the same and shall have the full right of ingress and egress over all the above described lands for the purpose of cutting and removing said timber and shall have the right to cut smaller trees than those purchased whenever it shall be actually necessary to cut said trees for the purpose of getting out said timber, but in cutting and removing the same he shall not disturb any crops on any part of the lands in cultivation.

That the deed executed to the purchaser for said timber shall provide that he shall have three years from the date thereof in which to cut and remove the same and shall limit to once only his right to cut and remove said timber, and shall further provide that the purchaser shall have the full right of ingress, egress, and regress, over and upon said lands for the purpose of cutting and removing the same and shall have the right to construct such buildings, tramways, and roads over and upon said lands as may be necessary to cut and remove the same, and said deed shall further provide that the purchaser in cutting and removing said timber shall not disturb any crops that may be growing upon any part of said lands.

The purchaser of the timber shall be required to deposit with the commissioners at the time of sale five per cent of the amount of his bid as evidence of his good faith and upon failure to make such deposit at once said trees shall be immediately offered for re-sale without further advertisement.

Map of timber acreage above described may be seen by interested parties at the offices of A. C. Carter and Orimes and Grimes in Washington, North Carolina, and at the office of Albion Dunn in Greenville.

Dodgers And Cardinals Shape Up Pennant Race

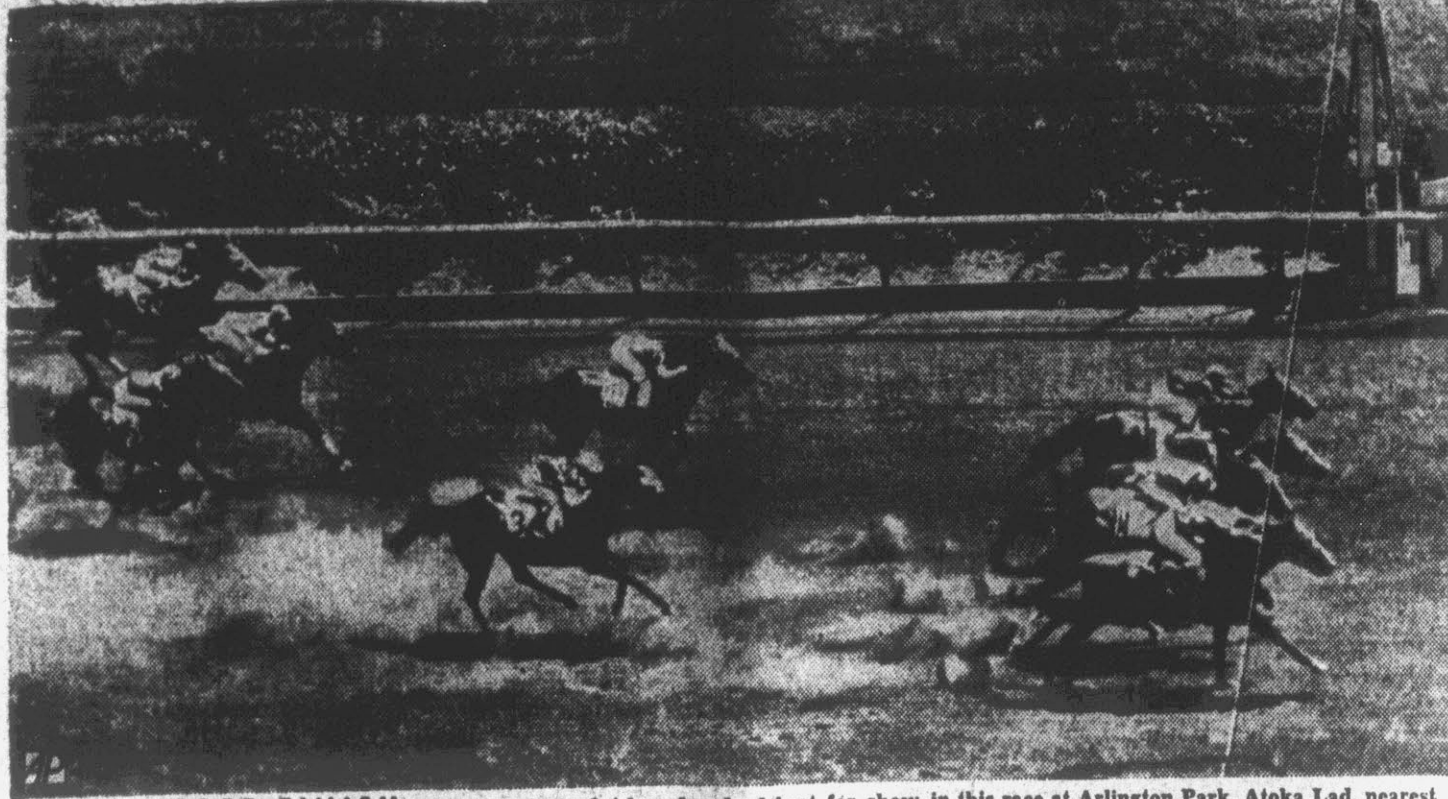

Another Hectic, Last-Minute Scramble For National League Pennant Seen As Leaders Surge To Front

By JOE REICHLER
Associated Press Sports Writer
Baseball fans are hereby given fair warning to be prepared for another hectic down-to-the-wire finish in the National League pennant race with the Brooklyn Dodgers and St. Louis Cardinals once again assuming the leading roles.

Despite the Brooks' handsome four-game bulge—six and a half over the fourth-place Redbirds—the Cardinals are not as bad off as first glance would seem to imply. The schedule is heavily in their favor.

Of the four chief contenders—Brooklyn, New York, Boston and St. Louis—the Cards have the most games left to play at home—38. The Giants have 30, the Braves 28 and the Dodgers have the least number of all, 26.

Of 51 games played in the friendly confines of Ebbets Field, the Dodgers have won 36, lost 15 for a remarkable .706 percentage, fully 110 points above their season's overall record. No wonder the Dodger entourage, heading west today for the

FOUR-HORSE FINISH—It was a photo finish and a dead heat for show in this race at Arlington Park. Atoka Lad, nearest camera, won; Hasty Victory, second from rail, second; Ermilla, on rail, and Sgt. Bill, dead heat for third.

start of an 18-game road trip, was today by knocking off the Cincinnati Reds in both ends of a double-header, 7-4 and 4-3. Catcher Bruce Edwards was the big gun for the Dodgers, driving in four runs in the opening victory and knocking in the winning run in the nightcap with Giants boast a 596 figure for 28 a ninth inning single.

The Dodgers were forced to come from behind in each game, much to the delight of 35,092 cash customers

making up the largest home attendance of the season.

In the only other game played in the majors yesterday, the Phillies whipped the Pirates in Pittsburgh in a night game 8-1 to stay out of the National League cellar. The Phils hopped on Roger Wolff for six runs in the first inning to make Dutch Leonard's 11th win his easiest of the year.

No other teams were scheduled, although the New York Yankees met the Boston Braves in the annual Hall of Fame game at Cooperstown, N.Y., with the Braves eking out a 4-3 decision in 10 innings.

DIAMOND DUST

By BERT MOYE

With the Greenville-Roanoke Rapids game rained out here last night, the Greenies now have a total of five double-headers piled up on them, with four of them scheduled to be played here at home. The first of the double-headers will be here Friday night, August 1st, when the Rocky Mount Leafs return here for their next game. On the following night the Greenies go to Tarboro to play a twin bill for a game that was rained out last Wednesday night over there. On Monday August 11, the Greenies meet the Roanoke Rapids Jays in a double-header for the game that was rained out here last night and Tuesday night they play the Rocky Mount Leafs a twin bill here. The final double-header scheduled so far for the Greenies is for Wednesday night, August 27, when they meet the Rocky Mount Leafs in a twin bill, which by the way is the last meeting of the two clubs for the current season.

A new shortstop has been added to the Greenie roster. He is John Joseph Posavec, rookie, who hails from Halifax, Pa. He played several games with Sanford at the start of the season in the Tobacco State League, and also has seen some action at Duke University. Glenn Jarvis has been placed on the voluntary retired list and has returned to his home in Alabama. Paul Simmons has been placed back on the suspended list as his injured ankle continues to give him trouble. Marvin Mauney has been taken off the suspended list and placed on the active list. Willie Mauney and Howard Jenkins, who went to their respective homes on business, are expected to return to the Greenville lineup tonight.

Of the 52 games lost by the Greenies this season, five have been lost by a one run margin, five by two runs, seven by three runs, seven by four runs, four by seven runs, seven by eight runs, two by nine runs, two by ten runs, one by eleven runs, one by twelve runs and one by a fourteen run margin. Of the 34 games won by the Greenies, twelve have been won by a one run margin, five by two runs, five by three runs, four by four runs, two by five runs, three by seven runs, one by eight runs, one by ten runs and one by an eleven run margin. Of the 34 games won by the Greenies 17 have been won in the last two innings of play. In 13 of the 52 games lost by the Greenies they were defeated in the last two innings of play. So far this season the Greenies have had four extra inning games with opponents and have been victorious in all but one of them. On May 23 they won from Wilson here in an eleven inning game 7-6; on May 29 they defeated Roanoke Rapids in a 12-inning game here 5-4; and on July 11 they defeated Wilson in a 10-inning game here 5-4; and on July 11 they defeated Wilson in a 10-inning game here 3-2. Their only loss in an extra inning tilt was with New Bern here on June 24 in an 11-inning game which was won by the Bears, 4-3.

The Greenies' standing with the other clubs to date is as follows: They have won six each from Tarboro, Roanoke Rapids, Wilson and Kinston; four from Goldsboro and three each from Rocky Mount and New Bern. In the loss column they have lost nine games to Wilson and New Bern, eight to Goldsboro, seven to Tarboro and Rocky Mount, and six each to Roanoke Rapids and Kinston.

The pitching records to date for the Greenville hurlers is as follows: Larry Baldwin won 8 and lost 6; Joe Alamo won 8 and lost 11; Johnny Foell won 9 and lost 12; Jerry Chitty won 4 and lost 6; Hank Ranweiler won one and lost 4; and Garland Little won none and lost 2.

Boys League

In the best game of the year in the Intermediate League, the Red Sox won over the Cardinals 4 to 3. The Cards were held scoreless by Doug Morgan until the fifth when the Cards rallied to score two runs. In this inning walks and doubles by Jerry Phillips and George Phillips had Morgan in trouble but a fast double play, Brady to Evans to Wooten, retired the side after two runs had scored. The Cards came back to tally a singleton in the sixth to complete their scoring for the day.

The Sox hit Jerry Phillips rather freely but he kept the Cards' eleven hits widely scattered. Hylton Quinn with a double and three singles

and Brady with two singles were the leaders for the Red Sox.

Joint chiefs of staff—To plan military operations, help combine the education and training of men in the three services, and act as military advisers to the president.

Members: Chief of staff of the army (Gen. Eisenhower is army chief of staff now), chief of naval operations (now Adm. Chester W. Nimitz), chief of staff of the air

In voting for this national defense plan, House and Senate passed separate bills which were the same except on these points:

The House wanted the director of central intelligence to be a civilian, not a military man, and it wanted the Marine corps to be assured it would remain intact. The Senate said the director could be either a civilian or military man, and it left out the marine provision.

House and Senate must iron out this difference before they send a single agreed-upon bill to the president to be signed into law.

They're expected to do that this week but—until they do, this plan is not law. If they don't agree, the whole plan is dead this year.

National Defense . . .

national resources board.

Central intelligence agency—to gather information on the military strength of other nations and what they're up to.

This information is to be gathered from all sources everywhere abroad and here. The director is to be appointed by the president.

War council—to advise the secretary of national defense on problems of the armed forces to get better team-work out of them.

The chairman will be the secretary of national defense. Other members: Secretaries of the army, navy, air force and chiefs of staff of the three services.

Research and development board—to suggest the best ways of getting scientific research done for the armed forces with the least lost motion.

The president will appoint a civilian chairman. Other members: Two representatives each from the army, navy and air force.

Munitions board—to keep constant check on this country's industrial capacity for waging war. Example: How many plants can make tanks?

The president will appoint a civilian chairman. Other members: Undersecretaries of the army, navy and air force.

Dutch Troops . . .

(Continued From Page One)
Dutch "local police action."

Dutch troops, mainly United States-trained Marines, were said to have captured four east-Java coastal points after going ashore from naval vessels in a large-scale operation yesterday. They were reported to have established bridgeheads along a 55-mile coastal road between two of those points—Probolinggo and Sitobondo.

They're expected to do that this week but—until they do, this plan is not law. If they don't agree, the whole plan is dead this year.
