LEFTISTS AND MINORITY NOW IN SAME CAMP

Attlee's Speech Finds Conservatives and Leftwing Group Together

London, Aug. 7.—(AP)—Conservative and Left Wing laborites found themselves in the same camp today in opposition to Prime Minister Attlee's new program to avert economic disaster in Great Britain...

The Leftwing were disoriented because the announced reduction in Britain's armed forces would leave more than 1,300,000 men under arms by next spring...

The conservative opposition blasted the Attlee program on the ground that it was "too little, too late."

1. They said the government was dealing with the crisis too hurriedly, at too late a time.

3. They said the plan was not detailed enough.

3. They said the government had failed to give the country a full statement of the perils it faces.

Several London newspapers predicted the conservatives would vote against the government tonight...

The Daily Express said dissenting laborites had called on Hugh Dalton, Chancellor of the Exchequer...

Tries Again for Globe-Girdling Solo Record

Chicago, Aug. 7.—(AP)—William P. Odum, 27-year-old former British Ferry Command officer, took off at 12:53 p. m. today in his converted twin-engine Army bomber...

While a handful of spectators at Douglas Airport shouted good wishes, Odum, piloting the "Reynold Bombshell," started off on the twice-postponed flight with a bag of chicken sandwiches and some fresh oranges and tomatoes.

The plane, with about a two-thirds load of gasoline, gained altitude swiftly, circled the field, and headed toward Gander, Newfoundland...

Return to Steel Export Controls

Washington, Aug. 7.—(AP)—The United States will revert October 1 to its strict wartime controls over steel exports.

These require government approval of both the country to receive the metal and the use there to which it is to be put.

Shortly after the war American exporters have been permitted to lump their orders and ask permission to ship a specific tonnage.

M. E. Sweeney, chief of the Commerce Department's export control division over general products, told a reporter today the return to the wartime allocation method is necessary because of the large sums the United States is spending on foreign reconstruction.

Washington, Aug. 7.—(AP)—The war-inspired boom in farm real estate continues to grow despite repeated government warnings that there is danger of a collapse that would bring financial ruin to those buying on credit.

In its latest regular report on the boom, the Agriculture Department said farm real estate values for the country as a whole increased two percent during the four months ended July 1.

Average values are 10 per cent above a year ago; 95 percent above the 1935-39 pre-war average and only 5 percent below the 1920 inflationary peak.

The latest warning on land prices was issued by a conference on farm real estate prices held here two months ago at the direction of President Truman.

The conference urged buyers to use more caution in paying inflated prices and recommended that creditors adopt tighter loan policies.

The department also reported that the volume of farm sales at inflated prices during the past year was the highest of record.

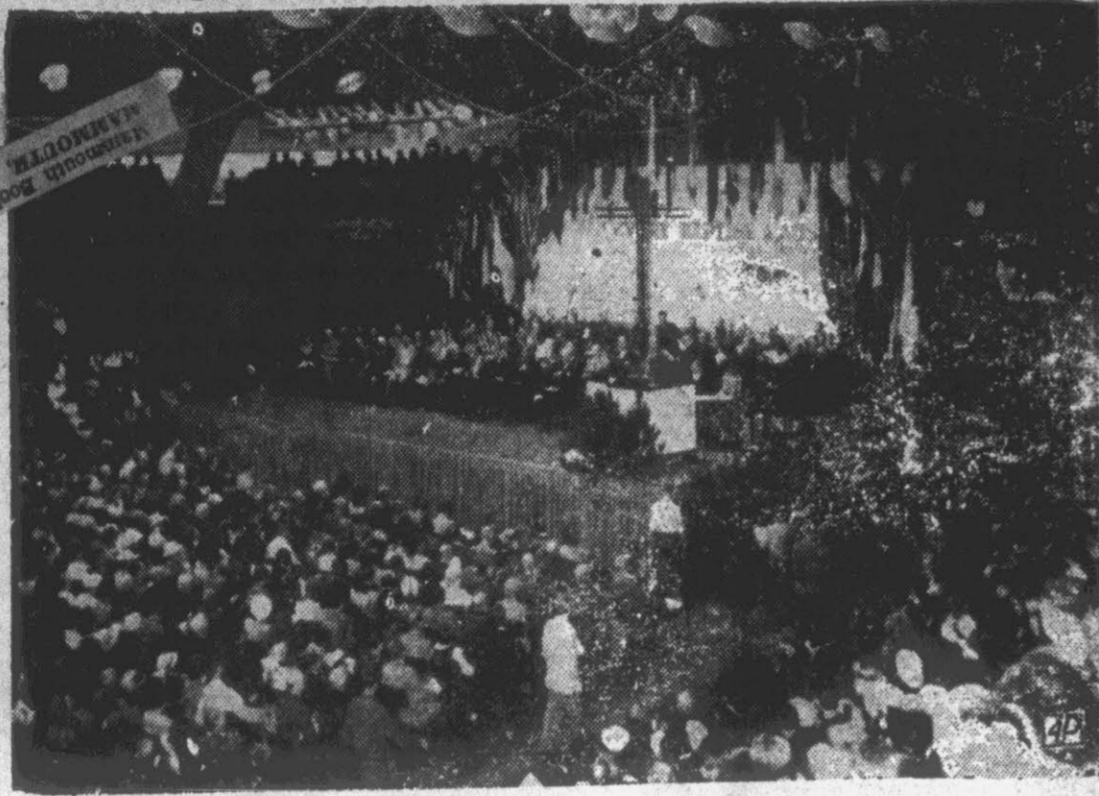

As has been its custom since early in the war, the department report said there is danger that some farmers may have difficulty in meeting mortgage payments and other fixed obligations once farm commodity prices have readjusted themselves from present abnormally high levels.

The department said sharpest increases in land values during the past four months were in the wheat and livestock producing areas, particularly range areas.

A slight falling off in values was reported for southeastern states. It has been in the latter area that the sharpest increases have occurred over pre-war levels.

Explaining this difference, the department said sharply increased receipts from wheat, corn, the livestock in the west central and range states are reported, while returns from fruit and truck crops in the south Atlantic states have been significantly below those of last year.

Baptist World Alliance Meets in Copenhagen

This is a general view of the K. B. Hall in Copenhagen Denmark, during a session of the seventh Congress of the Baptist World Alliance. Five thousand delegates from about 45 nations are attending. Many from the southern states are there. (AP Photo).

Turbulent Session At Hughes' Inquiry

Chairman Says Hughes Trying to Discredit Senate Committee; Hughes Claims "Unfair" Tactics; Calls Brewster's Story "Pack of Lies"

Washington, Aug. 7.—(AP)—In an angry clash, Senator Ferguson (R-Mich) accused Howard Hughes today of "trying to discredit" the Senate committee investigating Hughes' warplane contracts.

The outburst from the chairman of the Senate war investigating subcommittee came after Hughes during a turbulent session in the district.

Accused the committee of being "unfair" by firing cross questions at him but not at Senator Brewster (R-Me) whom Hughes charges once attempted to "blackmail" him into agreeing to an airlines merger.

Called a "pack of lies" Brewster's denial that there is any truth in the "blackmail" story.

Finally, Ferguson flared up. "We appreciate what you are trying to do here indicates clearly you are trying to discredit the committee," Ferguson said in measured phrases.

He told the multi-millionaire airplane manufacturer that he cannot control the committee "by your great wealth."

Senator Pepper (D-Fla) stepped in at that point. He said it was obvious that Ferguson was reading from a prepared statement.

After Four Bad Years Of Polio Relief Is Seen In '47

Washington, Aug. 7.—(AP)—After four bad polio years, a break is in sight for 1947, a U. S. public health service official reported today.

At that same time, however he urged the public to observe the usual precautions during the rest of the infantile paralysis "season," which runs from June through September.

Reporting a total of 1955 cases this year up to August 2 compared with 3400 for the same period last year, the official told a reporter: AFTER FOUR—2 col 24 reg... E.

"It is not really too late for a sharp rise—that is, a fairly limited explosive outbreak—in a particular locality of the country.

"But, from the figures to date this year the indication is that the high incidence of the past four years for the country as a whole will be broken."

Full year case totals for those four years were: 1946, second worst epidemic year on record—25,247. (In 1916, there were approximately 30,000.)

1945—13,619 cases. 1944—19,029. 1943—12,449.

This year, since March 15 (the approximate average date of lowest incidence) there have been 1,344 cases, compared with 4983 for the same period a year ago.

For the week ended August 2, there were 219 new cases compared with 167 for the preceding week, and 1284 for the corresponding week last year.

In 1916, the "peak" of the outbreak—that is the week with the highest number of new cases—was reached in mid-August.

There were 1,816 cases in that week, but the health service official said today "I doubt that the peak week this year will have more than 400 cases."

State Tops Rest of U.S. in World Relief

Chapel Hill, Aug. 7.—North Carolina has exceeded all other states in contributions to the overseas relief drive sponsored by the Church World Service organization according to State Chairman Henry E. Ruark of Chapel Hill.

At a cost of less than one and a half cents a pound, this state has collected and packed 600,000 pounds of clothing, bedding and shoes.

Reverend Ruark said, Pennsylvania was second with 450,000 pounds.

UN EXPLORES NEW ROADS TO BALKAN PEACE

Greek Delegate Makes Blunt Attack On Russia Pessimism Apparents

Lake Success, Aug. 7.—(AP)—Spurred on by Greece's warning that she would be swept into the Russian sphere unless the United Nations acted, Security Council delegates today explored new avenues in efforts to reach agreement on quelling Balkan disorders.

Greek Ambassador Vassil Dendramis said Russia's veto of the American plan for a watch-dog mission in the troubled Balkans clearly indicated Moscow's aim.

"The object is to give the appearance of a solution and to let the world into a false sense of security until it is too late—until the papers have reported that it is all over and that one country is reduced to vassalage," Dendramis told the delegates last night in one of the bluntest attacks ever made on Russia in the council chamber.

The moment will come when there will no longer be any frontiers between Greece and her northern neighbors," he concluded.

With an air of pessimism, delegates set up a sub-committee of seven nations to go over all proposals submitted so far and try to find a common ground.

The sub-committee had before it the newest resolution—from Australia—calling on Yugoslavia, Greece, Bulgaria and Albania to "cease all acts of provocation" immediately and enter into direct negotiations to settle their frontier differences.

However, Soviet deputy foreign minister Gromyko already has announced that he will oppose the proposal. Observers interpreted this to mean he would veto it.

Final Arguments Close; Jurg Charged Jury This P.M.

Lillington, Aug. 7.—(AP)—Solicitor Jack Hooks finished his final argument in the Charlie Phillips wife-murder trial early this afternoon and Judge John J. Burney said he would charge the jury after a luncheon recess.

The jury probably will begin considering the evidence tonight.

Hooks described the accused 31-year-old tenant farmer as an "ice-water killer" in asking for a first degree murder conviction.

Phillips sat solidly reading a transcript of testimony of a previous trial last September when he was convicted of slaying his wife, Etta Mae Phillips, 28. On the eve of his scheduled execution he won a new trial through a purported suicide note found by his sister.

Once Hooks picked up the gun found beside Mrs. Phillips and shouted to the defendant, "You had better read the law about murder, too."

He said that Phillips and Neil McK. Salmon, chief defense counsel, had rehearsed re-enactment of the shooting "100 times."

Salmon objected and the court told the jurors they need not consider what the lawyers in closing arguments said was the evidence. But only their own recollection of statements of witnesses.

U.S. Prices Said Hurting Britain

London, Aug. 7.—(AP)—A British official blamed rising American prices and the rapidly increasing surplus of U. S. exports over U. S. imports today for the sudden worsening of Britain's economic crisis.

Britain's plight is linked to a "worldwide dollar famine" caused by America's selling to foreign countries more than twice as much as she buys, the Chancellor of the Exchequer, Hugh Dalton, told the House of Commons.

In addition to setting up a new promotion system for the army and tightening the navy's existing advancement system, the bill cuts down on the number of high-ranking officers in both services and abolishes in peacetime the wartime rank of five-star officer.

However, it does not effect the rank of the eight officers now holding five star rank.

Affecting directly or indirectly the status of an estimated 175,000 officers in both services, the legislation is intended to encourage the better-qualified men and to weed out through process of elimination those unfit for command.

It will take several years for the entire new program to get into full operation, for some parts of the new law don't become effective until after 1951 though most are effective immediately.

The new plan provides for promotion of officers by selecting in the lower ranks, with boards of officers determining the qualifications of applicants for advancement. Failure to meet the advancement qualifications twice in succession.

RAW MILK BANNED

Charlotte, N. C., Aug. 7.—(AP)—The sale of raw milk will be banned in Charlotte beginning January 1, 1948.

The city council last night adopted that amendment to the milk code, on recommendation of Dr. M. B. Bethel, health officer.

Plane And Passengers Fall Into Huge Chimney

Montreal after visiting Mrs. Cyrus Craig, another daughter of Mandell. The battered bodies were found in debris at the bottom of the flue portions of the craft identified by authorities as a Stinson—were stuck in the 25-foot high, 10-foot wide chimney. The wings were sheered as the ship hit the vent.

Witnesses reported that the crash was followed by a series of blasts apparently caused by exploding gasoline in the plane. Firemen extinguished the flames quickly.

Company officials said that speedy shutting off of the plant's gas possibly averted a more serious disaster. The craft flying in a low hanging fog, narrowly missed hitting a 200 foot high gasoline-cracking unit in the refinery plant, the scene of a serious fire last winter.

Border Belt Leaf Market Opens; Good Prices Seen

Western Europe Has Tight Squeeze Ahead

No New American Financial Aid Expected Until Congress Passes On Marshall Plan; Attlee Report Well Received

By JOHN M. HIGHTOWER

Washington, Aug. 7.—(AP)—All evidence, including prime minister Attlee's report to Commons, indicates that western Europe faces a tight squeeze between now and the time the Marshall plan can become effective.

It is generally evident that no new American financial aid will be forthcoming—arriving economic disaster abroad—until Congress can pass early next year on the Marshall recovery program.

Attlee's report evidently was well received here because of the way in which it emphasized Britain's intention to survive the next few months on her own dwindling resources with a minimum of help from the United States.

This was regarded as dovetailing with the Truman administration's promise to Congress that there will be no further foreign financing on a piecemeal basis and that the only workable solution is to try to promote European recovery as a whole.

Officials here are sensitive to the fact that this country's initial post-war economic policy for Europe was based on a bad miscalculation: That the multi-billion dollar credits authorized for the British, French and Italians last year would be sufficient to get all of Europe back on its feet.

Since events have not turned out that way the American government has continued forward with the Marshall program of a continental approach.

Hence once again the government is staking its judgment on a promise to Congress that this time Europe really will be restored and that further American loans for straight out recovery purposes will be unnecessary.

A second miscalculation in this connection—even one concerning the ability of the Europeans to carry out recovery—(Continued on Page Five)

U.S. ASKED TO USE INFLUENCE

Indonesians Seek International Arbitration Commission

Batavia, Java, Aug. 7.—(AP)—The Indonesian government asked the United States today to use its influence with the Netherlands and the United Nations to have "an international arbitration commission dispatched without delay to Indonesia" to mediate Dutch-Indonesian conflicts.

The statement, broadcast in the name of Republican Premier Amir Sjarifeddin over the Jogyakarta radio, was in response to a United States offer of its "good offices" in mediating the dispute, in which an uneasy truce prevails. The Dutch previously accepted the offer.

In effect, the Indonesian statement amounted to rejection of the United States as sole arbiter of the controversy.

"The Indonesian government feels the statement said, "that in view of the fact that two years of mediation and negotiation have failed to halt hostilities, United Nations arbitration is the only means to settle the matter."

Sjarifeddin earlier said he hoped that such a commission would be made up of the United States, Great Britain, Australia, India, the Philippines and perhaps Siam.

"The government and the people of the Republic of Indonesia are fully prepared to submit to a decision in which arbitration is recommended as the primary means to settle the dispute," the government statement said.

Truman Signs Army's New Promotion-By-Merit Bill

Washington, Aug. 7.—(AP)—The army's archaic system of promotion, by seniority went out the window today with President Truman's signing of legislation setting up a permanent promotion by merit program for the army and the navy.

One of the lengthiest and most complicated measures enacted by the 80th Congress at its first session, the legislation is the outgrowth of months of study by committees.

In addition to setting up a new promotion system for the army and tightening the navy's existing advancement system, the bill cuts down on the number of high-ranking officers in both services and abolishes in peacetime the wartime rank of five-star officer.

However, it does not effect the rank of the eight officers now holding five star rank.

Affecting directly or indirectly the status of an estimated 175,000 officers in both services, the legislation is intended to encourage the better-qualified men and to weed out through process of elimination those unfit for command.

It will take several years for the entire new program to get into full operation, for some parts of the new law don't become effective until after 1951 though most are effective immediately.

The new plan provides for promotion of officers by selecting in the lower ranks, with boards of officers determining the qualifications of applicants for advancement. Failure to meet the advancement qualifications twice in succession.

RAW MILK BANNED

Charlotte, N. C., Aug. 7.—(AP)—The sale of raw milk will be banned in Charlotte beginning January 1, 1948.

The city council last night adopted that amendment to the milk code, on recommendation of Dr. M. B. Bethel, health officer.

Opening Sales Average Between 50 and 53 Cents A Pound; Quality Generally Very Good; Growers Well Satisfied With Returns; Only Few Bid Price

Raleigh, Aug. 7.—(AP)—The North Carolina Department of Agriculture reported that opening sales on the Carolina's Border Tobacco Belt today averaged between 50 and 53 cents a pound. The official average on opening day last year was \$32.48 a hundred pounds.

Much of the tobacco sold for between 50 and 58 cents a pound. Good lemon cutters brought as much as 62 cents a pound. Fair to fine lugs were in demand.

A number of farmers, however, refused to accept the bid price and turned their tags, by which they were to be sold. There was not much of that, the department said.

All of the 17 market towns in the Carolina were crowded with tobacco farmers and their families.

At Kingstree, S. C., where from 500,000 to 600,000 pounds, were on warehouse floors a top of \$60 was paid, and the early overall average was estimated at \$52. The quality was good.

A booking system, whereby farmers were allocated space and time in advance, was instituted at Kingstree to avoid confusion on the warehouse floors. Warehousemen said they believed no other market in the belt had a similar arrangement.

Lumberton, with 500,000 pounds on sale, estimated the early average at \$50, with one lot bringing \$63. The sales supervisor described the quality as poor, including 60 per cent of lugs and 20 per cent primings.

The first two rows sold at Taber City yielded an average of \$54.40. Quality was rated good. About 20,000 pounds was on sale.

Conway reported a top price of \$65 but the estimated early average was \$47. The tobacco was described as of poor quality. No tickets were turned.

At Darlington, much of the tobacco sold at \$54 to \$58 per hundredweight, though the average was around \$48.

A top of \$68 was reached at Timonville where more than 500,000 was on the floors. Opening average prices were estimated at about \$50. Quality was good. Growers appeared satisfied with prices.

At Dillon, S. C., initial offerings were heavier than had been anticipated, with an estimated 120,000 pounds on the floors. Quality was poor, but the price averaged around 47 cents a pound.

Some 650,000 pounds was on the floors at Fairmont, where the early average price was between 44 and 59 cents, with a top price of 64 cents a pound.

U.S. Mission to Oppose 'Bandits'

Athens, Aug. 7.—(AP)—Dwight Griswold, chairman of the American Aid Mission to Greece, said at a news conference today that the Mission was not here to support Greek forces for "international war" but only to help in "anti-bandit" enforcement.

"The Greek government often refers to guerrillas as 'bandits,'" Griswold declared that his policy had been outlined by a congressional committee in the course of debate on Greek aid.

Washington, Aug. 7.—(AP)—The authors of the bill said, will automatically drop an officer from the service.

Therefore the army has promoted its officers largely through a seniority system—a man's rank usually being contingent upon his length of service rather than his qualifications. The navy has followed a system of selection, with modifications, for years.

That was a most convincing speech which Socialist Prime Minister Attlee made in the House of Commons yesterday in dealing with England's economic crisis—convincing from the viewpoint that the politico-economic system of this America of ours, the system that Britain forsook for Socialism, is the best of them all.

Mr. Attlee's explanations of the collapse, and the drastic remedies which he proposes show clearly that his country's first all-out Socialist experiment has in the short period of two years arrived at the point of considerable governmental reorganization of the individual.

In short, the royal road to Utopia has made a sharp turn toward a regime which certainly partakes—perhaps only temporarily—of totalitarianism. Right here it should be said in fairness that the government has been saddled with many burdens inherited from the war. Of course former Prime Minister Winston Churchill says there will be no recovery from the country's present misfortunes until "the guilty men, whose crazy theories and personal incompetence have brought us down, have been driven from power."

However, he is leader of the conservative opposition to the Attlee regime. Thrusting politics aside we note that Mr. Attlee made these striking admissions:

"I would agree that it might have been better if we had a greater concentration of effort. Maybe we have tried to do too much in a short time.

"It may well be that we have relaxed controls too soon. There has been a failure on the part of some workers to realize that shorter hours and higher wages must be matched by greater effort."

And so because of this lack of realization, the prime minister said his government would have to take some measure of control over the employment of labor in order to stimulate production. He added:

"This will involve some sacrifice of individual liberty, though as little as possible. It may be necessary to take steps to limit employment of non-essential work."

The government will take action against any industries operated with industries will have to work longer, and coal miners will be asked to (Continued on page six)

A Convincing Speech

Attlee's Crisis-Ridden Address To Commons Convincing Prof To This Analyst That America's Politico-Economic System Is Far Ahead Of Their Socialism

By DEWITT MACKENZIE

That was a most convincing speech which Socialist Prime Minister Attlee made in the House of Commons yesterday in dealing with England's economic crisis—convincing from the viewpoint that the politico-economic system of this America of ours, the system that Britain forsook for Socialism, is the best of them all.

Parking Meters To Speed Up Traffic On City Streets

By CHESTER WALSH

One feature of the installation of the "Mark Time" parking meters in Greenville is the fact that on Evans street from Third to Five Points today traffic was speeded up at least 20 per cent after cars were parked parallel to the curb.

Another feature and decided advantage is that with cars parked parallel to the curb, motorists can see when they enter the block, whether there is an available parking space, and motorists parked at the curb can see clearly in both directions and get away promptly. Meters will be installed in these blocks by tonight.

Officially they will not be required to be used until all of the 355 meters are in place. Chief Jim Tanner said motorists will have a chance to familiarize themselves with the simplicity of their operation. All parking meters will be in place within the next several days, he said, supervising engineer for M. H. Rhodes, Inc., manufacturers, said today.

The most outstanding advantage and feature of the parking meters is that they cause ample parking spaces to be available in the business section of the city for those who do their shopping and trading in Greenville.

A motorist may insert a nickel in a meter and remain parked for an hour. He can only park for one hour at a time. Don't put in two nickels—just one. Turn the crank until it clicks. If you decide that you must be parked more than an hour go out and place a penny in the meter and you may remain 12 more minutes. Every time you insert a penny you may stay parked another 12 minutes.

A dial on the back of the meter which is operated by a clock mechanism—indicates at all times how much more time you have. When the dial shows "all red," then that's when you are unlawfully parked. But, the police are going to be lenient with motorists and instruct them in the use of the parking meters.

The meters are so placed that no vehicle will be too near a corner. That's where the traffic jams occur, and where most accidents happen. Incidentally, when a motorist enters a block he may at once see if there is a parking place, instead of creeping along, looking for a place, and delaying following traffic.

A man active in community progress suggested today that there are several intersections in the downtown area where "left turns" should be forbidden, and that also will speed up traffic. Authorities and others anticipate a decided improvement in the movement of vehicular traffic, and storekeepers who have to "lug," "tote" or transport customers heavy packages blocks to their cars will begin to "twirl" one of them said today.

Stray Cats and Dogs Nuisance This Time Year

By CHESTER WALSH

Residents of Riverdale, in the northwestern section of Greenville, resent persons taking litters of kittens and mangy cats there and throwing them out of their cars to become neighborhood nuisances and spreaders of fleas and disease, a woman who takes a lot of pride in the neighborhood told a Reflector reporter last night.

Cars have been observed passing through that section after dark and dropping the felines—sometimes a litter of kittens in an untied paper bag. The practice has become so frequent that the score of the residents of Riverdale plan to take the license numbers of cars whose owners are said to be engaging in the nefarious practice.

Stray dogs—hundreds and hundreds of them—which prowl the streets night and day, become public nuisance No. 1 at this time of hot summer, when hydrophobia, or rabies, becomes prevalent among the canines. A "mad dog" running at large, snapping and biting at anybody within its range, can cause a lot of suffering.

Privately owned dogs are a genuine pleasure. They are well cared for, vaccinated against hydrophobia and seldom run at large.

A public-spirited citizen said today that the city authorities should employ a dog catcher and dispose of those canines without owners. Cats as well as dogs can be a menace to the public health.

Smithfield, N. C., Aug. 7.—(AP)—C. J. Overby was having a new house built, and he dreamed for months of living in it.

Before the home was completed he became seriously ill. He had made arrangements with fellow members of the fire department to move in last Monday. However, last Saturday he decided he'd better move on that day.

So they moved him in an ambulance, and the fire siren was sounded to summon the firemen to come and help move his furniture.

After the furniture was arranged, Overby said:

"Isn't it beautiful? Now I'm ready to die."

Overby died Monday in his new home.

Five Foot Chicken Snake Rides On Car

By CHESTER WALSH

M. C. Sermons of Winterville spent some uncomfortable moments while driving with a 5-foot chicken snake entwined about some of the machinery of the car.

He saw the long snake in the road and ran over it, but didn't kill it. He backed up to run over it again, but the reptile viciously bit at his tires and wiggled so swiftly that Sermons looked for a long stick to tackle it.

In the meantime the snake had crawled up under the car and entwined its slithering five-feet about the driving shaft. Sermons drove along slowly, with the car door partly open, ready for a quick exit if the reptile should get into the car.

The snake found it too hot near the engine and dropped to the road. When the car stopped the snake was still biting at the tires and at its own tail. Sermons said, "I killed it dead" that time.

Ready Evidence Against Eisler

Washington, Aug. 7.—(AP)—The government readied documentary evidence today in a move to counter testimony of Gerhart Eisler that individual communist parties are

not directed by the Russian comintern.

Before the alleged No. 1 communist in this country returned to the witness stand in Federal District Court, William Hitz, Assistant U. S. District Attorney, said he planned a new line of questioning "on the subject of the makeup of the communist party."

Eisler, accused of withholding information in applying for a passport to return to Germany, denied previously that he ever had operated in this country as an agent for the comintern.

Bigamist Asks For New Chance

San Francisco, Aug. 7.—(AP)—Francis Van Wie, 60-year-old former street car conductor whose 13 marriages sent him to prison as a bigamist has appealed to Superior Court for a chance to escape his past.

In tears, Van Wie-paroled to work on a fruit ranch—appealed to Judge Herbert C. Kaufman yesterday.

"I'm an old man; I pick fruit all day and load trucks. I can't stand it," he said. "Actually, I suppose I could like the work but those college boys—they jeer me all day long. They call me ding dong daddy of the d-car line. I can't stand the humiliation."

Big Brush Fire Is Fatal To Two

Los Angeles, Aug. 7.—(AP)—Weary fire fighters, 900 of them fought grimly today against the still uncontrolled big Tujunga Canyon brush fire which has killed two men, injured or burned an esti-

imated 75 and scorched 3,500 acres of watershed.

Now in its third day, one branch of the fire jumped the southeastern rim of Big Tujunga and licked down toward the town of Tujunga. This constituted the most serious threat to homes but water lines had been laid between the town and the fire five miles or more away.

Strength FOR THE DAY

LIFE BEGINS WITH TRUSTING

We can be sure of one thing—God is always ready to give. The Epistle to the Hebrews tells us that faith is the giving of substance to things hoped for; that is, it is the power within us that so enables us to cooperate with the Holy Spirit that God can give us the things He has always wanted to give us. Faith is the means by which hope is materialized into achievement. The Bible tells us that there is a victory which overcometh the world—even our faith.

If people only knew what faith could do for them in solving of their problems, the quieting of their minds, the fulfilling of their desires, the achieving of their tasks, they would stop leaning on their own powers, which are broken reeds, and would begin to lean on the everlasting power of God. The experience of devout believers has further-
more been that they can pray for others, people in far distant places and have things happen in their lives which are simply beyond any explanation other than that the power of God works where and how it will.

Religious faith is the greatest blessing any man can have. It raises the mediocre into the realm of achievement, the sorrowing into comfort, the despairing into triumph and the wicked into forgiveness. Greater blessings than these do not exist on God's fair earth.

TOUCH OF NOSTALGIA

"Progress" takes peculiar quirks. Today on Evans Street they're putting back the old hitching posts (parking meters) that were taken down years ago when Greenville went modern.

After absorbing this bit of revelation we acquired some nostalgia for the days when such conveniences were taken as a matter of course. And we wondered how long it would be before some more of those old institutions would be revived and appraised for their true value once again.

For example, there were those wooden sidewalks, with some spring in them, that were easier on the feet and took away part of the unpleasantness in the chore of shopping. Sidewalks were usually covered by an overhang that protected the pedestrian from sun and rain. (Today we loiter in the doorways of stores and forget that a short generation ago it would have been need-
less.)

In those days most of the stores had a couple of benches out front where the weary or waiting citizens could rest a minute, talk over the news, whittle, or just sit and watch their busier friends go by. Part of the old-time neighborliness we enjoyed then is missing because folks can't stand and talk as comfortably as they can sit and talk.

Such blessings are gone but not forgotten; and somehow we have a feeling that as we grow more "modern" a few more of those old institutions will return—like the hitching post, in a different form. The lucky people of that day will be so busy congratulating themselves for their progress that they

will forget to look back-
wards to only a few years
ago.

WASHINGTON LETTER

Washington. — Rep. Margaret Chase Smith of Maine wins her race for a seat in the Senate in 1948. She will be the second woman ever elected to the upper branch of Congress.

Hattie Caraway of Arkansas who in December 1944 completed 13 years in the Senate was the first "Miss Hattie," however, entered the Senate by appointment of Gov. Harvey Parnell to serve out the unexpired term of her husband, Thaddeus Caraway, who died Nov. 6, 1931.

Other women have similarly been appointed by governors to fill out unexpired terms. Rebecca Latimer Felton, of Georgia, a Democrat served one day, Nov. 21, 1922, when a special election named a permanent successor. She was the first woman ever to sit in the Senate.

Mrs. Rose Long, Democrat of Louisiana was appointed in February 1936 to fill the unexpired term of her husband, Huey Long in the 74th Congress. She served only a few months.

In August 1937, when Hugo L. Black, Democratic senator from Alabama, was appointed by President Roosevelt to the Supreme Court, the governor designated Mrs. Dixie Bibb Graves to fill out his unexpired term.

The governor of South Dakota in November 1938 appointed Miss Gladys Pyle, a Republican, to serve the remaining two months of the term of the late Senator Peter Norbeck, but Congress was not in session.

Incidentally, Miss Jeanette Rankin, Republican of Montana, elected in November 1916, was the first

woman member of Congress and the only woman to serve before the adoption of the federal suffrage amendment.

Unlike other women who have sat in the Senate, Mrs. Smith already has seen active service in Congress. She has been a member of the House of Representatives since June 1940, when she was elected to fill the unexpired term of her late husband, Clyde H. Smith.

As a member of the Naval Affairs Committee, she went into nine areas of naval establishments and to Hawaii to determine what the federal government could do to relieve municipalities of burden thrown on them by the war. She also served as chairman of the Armed Services Medical subcommittee and as a member of the Scientific Research and Development Committee.

As chairman of the first committee she brought out the first unification bill under the Congressional Reorganization Act for the nurse corps in both services. As a member of the second committee she brought out the medical services corps bill to relieve doctors in service of administrative duties.

Mrs. Smith lives in a small apartment on 29th St. here, drives to the "Hill" listening to the news on her car radio every morning. She answers some 75 letters a day and writes a weekly column, "Washington and You," which goes to all the newspapers and radio stations in Maine.

After Congress adjourned she went home to Skowhegan for a few days before a tour of the seven counties of her district.

After this jaunt, she expects to drive over the entire state calling on the canneries, the fisheries and woolen mills. She will make about a half-dozen scheduled speeches as an official representative in Congress.

She will not begin her campaign for senator until January.

ADMINISTRATOR'S NOTICE
Having qualified as administrator of the Estate of J. A. Clark, deceased, late of Pitt County, North Carolina, this is to notify all persons having claims against the estate of said deceased, to exhibit them to the undersigned, or to J. H. MANY NEVER SUSPECT CAUSE OF BACKACHES

This Old Treatment Often Brings Happy Relief

Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys. The kidneys are nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 3 pints a day. When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 50 years. Doan's gives happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Western Europe . . .

(Continued from Page One) ry on with what they have until the new program can become effective—might have extremely serious results for any future aid proposals.

The immediate help Britain requires from the United States involves only relaxing the American-Britain loan agreement to permit Britain to conserve her supply of dollars.

Leftists and . . .

(Continued from Page One) that Dalton "will try to appease these critics" when he speaks later today.

Attlee, in his grim and gloomy speech yesterday, told Britons that his program would mean less food, less gasoline, less wood for new houses, less goods for the stores, fewer Hollywood movies and longer hours of work. He said it entailed "limited" labor controls, "some sacrifice" of personal liberty and Spartan hardship.

N. Y. Stock Market

New York, Aug. 8—(AP)—Assorted oils, rails and industrials attracted timid buyers in today's stock market but amusements softened along with many other leaders. Transfers held to around 650,000 shares.

Educator Says Best Way To Fight Communism Is To Explode Its Tenets

Chapel Hill, N. C., Aug. 7—The best way to fight Communism or Fascism is not by a hush-hush attitude but by a complete and impartial exposition of the tenets of both doctrines. Dr. Henry Harrington Hill, president of George Peabody College, Nashville, Tenn., and retiring president of the American Association of School Administrators asserted here today.

Addressing the second and final convocation of the University of North Carolina Summer Session, President Hill, native of Statesville, N. C., and a Davidson College graduate, declared that "the story of Communism ought to be told in simple, honest, factual fashion, painting it neither as a kind of over-devil nor as a great ideal."

For example, he said "do you know how long it takes the average worker in the United States to earn his daily food? Or how long it takes in Russia? It is three hours here and nine hours there.

"To earn a cotton shirt takes three hours work in the United States but three hundred and twenty hours in Russia. Even a simple alarm clock takes one hundred and sixty hours in Russia compared with four hours in the United States. Do these facts make you want to be a Communist?"

"Aren't facts better evidence and argument against Communism than the average emotional, ill-informed outburst of a run-of-mine politician, business man, or labor leader? A thousand times yes."

Making a plea for a strong government and military preparedness, President Hill declared "it was not Hitler's strength but the weakness of the democracies that brought World War II. He quoted Winston Churchill as saying "there never was a war in all history easier to prevent by timely action."

"We wanted peace without military strength and without cost," Dr. Hill said.

The best way to preserve the principles of democracy in America, he said, is through more and better education, both formal and informal, for old and young.

NOTICE

PLAIN OR SELF-RISING
Enriched ROLLER CHAMPION FLOUR

You can't match the "heart" of BIG-CAR QUALITY AT LOWEST COST

World's Champion Valve-in-Head Design!

The new Chevrolet is the lowest-priced motor car with a Valve-in-Head Engine—the type of car engine which holds all records for efficiency—for giving maximum power from every ounce of fuel. Moreover, Chevrolet's Valve-in-Head Engine is the "champion of champions" on all these counts: (1) Valve-in-Head performance at lowest prices; (2) billions of miles of service to owners; and (3) number of owners served. In fact, this sturdy Chevrolet Valve-in-Head Engine has delivered more miles, for more owners, over a longer period, than any other automotive engine built today, regardless of type, size or price!

In addition to giving you the outstanding performance-efficiency of a Valve-in-Head Thrift-Master Engine, Chevrolet gives you the BIG-CAR styling and luxury of a Unisteel Body by Fisher—the pattern of fine coachcraft—and, of course, "Body by Fisher" is exclusive to Chevrolet in the lowest-price range.

You and your family want real motoring safety—whenever and wherever you travel—and here again your choice is Chevrolet. It's soundly and sturdily built, with BIG-CAR QUALITY through and through, typified by Fisher Unisteel construction, the Knee-Action Ride and Positive-Action Hydraulic Brakes. That's a combination of safety factors found only in Chevrolet and higher-priced cars.

You can't match Chevrolet's BIG-CAR COMFORT at lowest cost, either, for it brings you the higher degree of riding-smoothness and roadsteadiness imparted by the famous Knee-Action Gliding Ride—and this, too, is exclusive to Chevrolet in its price range.

Be wise! Keep your present car in good running condition by bringing it to us for skilled service, new and at regular intervals, until you secure delivery of your new Chevrolet. Come in—today!

Locals Come From Behind To Beat New Bern By 6-5

Manager Ordie Timm's Greenies came from behind with a three-run rally in the seventh frame and blanked New Bern the rest of the way to score a 6-5 triumph over the Bears here last night.

The Bears went into the lead in the first frame when they chalked up two markers on three hits and an error. Palmer singled, stole second, Knowles doubled to bring him home and Soufas singled to bring home Knowles.

The Greenies came back in their half of the first and scored one run on three hits. Jacobs led off with a single, went to second on a wild pitch, Anderson reached first on a fielder's choice forcing Jacobs a third, Bomar singled advancing Anderson to third and Willie Mauney singled to bring home Anderson.

The Greenies went out in front in the second frame with two runs Lynch walked, went to second on a wild pitch, Simmons singled with Lynch taking third, Alamo singled to bring home Lynch and Lee singled to bring home Simmons.

The Bears then went out in front by two runs in the sixth frame by chalking up three runs on two hits walk, stolen base aided by an error.

In the seventh frame the Greenies took the lead by scoring three runs and held it for the rest of the game. Jacobs and Anderson walked, Bomar got an infield hit to load the bases, Willie Mauney singled to bring home Jacobs and Anderson, an error by pitcher Motley advanced Bomar and Willie Mauney to third and second respectively, Lynch beat out an infield hit to bring home Bomar, for the winning run.

Joe Alamo registered his tenth win of the season last night as he pitched five hit ball against the

Bears. He walked two men and struck out three. Jack Bomar with three singles in five trips to the plate and Willie Mauney with two singles in five trips to the plate, led the 10-hit attack off the four New Bern hurlers.

Score by innings: New Bern 200 003 000—6 Greenville 000 000 30X—5

DIAMOND DUST

By BERT MOYE

Wedding announcements and 20 victories aren't every-day occurrences in the life of a pitcher, so it was a big day for Sam McLawhorr last Saturday when he became the first hurler in the state to achieve that charmed circle of 20-game winners for the 1947 season.

McLawhorr's announcement though almost caused Sam who started under Col. Carl P. Helt at Oak Ridge a few years ago, to miss No. 20. Sam who pitches for Steve Collins' Kinston Eagles, was moving along with a 3-0 lead over New Bern when the announcement was made in the seventh inning.

That was enough for New Bern. The next inning the Bears rolled up two runs and undoubtedly had Sam questioning the timing of such a disclosure before he retired the side and was able to mark down a 3-2 decision. McLawhorr probably won't equal Bill Kennedy's record of 28 games and three lost of last season and chances are he won't break Kennedy's professional baseball record of 45C strikeouts set in the Coastal Plain League last season, but he is certain to be one of the few 20-game winners in the state this year.

Only a handful of others even stand of hitting that mark. For instance in the Coastal Plain League, Sam is a half dozen games ahead of his nearest rival.

During the month of July, the lead in the Coastal Plain League changed hands no less than eight times. Rocky Mount and Wilson moved on and out of first at the fastest rate of speed, but sharing the spotlight, New Bern always a top contender, has failed to make

the top billing at any time during the season.

Catcher Bill Swel of Kinston Eagles has been out of the line-up most of this week because of a Naval pension expiration in Chicago, and Clay Croom, the reserve catcher, has been working as regular backstop.

STOLEN BASE RECORD FALLS

New Bern's Zunno Steals 64 Bases for New CPL Mark

New Bern, N. C., Aug. 7—(AP)—A 155-pound, 5-foot, 7-inch package of diamond dynamite—Sal "Zippy" Zunno, has smashed the class C Coastal Plain League Stolen Base record and won the hearts of New Bern fans with his colorful all-around play.

The Brooklyn, N. Y., speedster center fielder and leadoff man for the Bears has stolen 64 bases in the team's first 106 games—14 more than the old record and, with 34 more games to, will pass the 80 mark if he maintains his pace over the last month of the campaign.

Zunno, the "Zippy" was pinned on him by the fans after they'd watched him zip around the bases and the outfield, is doing more than just snatch a few sacks, however.

His general all-round play has been one of the main reasons New Bern is in the thick of a battle for a first division playoff berth.

His 108 runs lead the league and a .384 batting average puts him well up among the pace setters. He really can go and get them on defense, employing his speed with sad results for the opposition and his throwing arm has won the respect of enemy basemen who take no liberties with it.

Convincing Speech

(Continued From Page One) "Inefficiency or lack of will." Employees in the more essential work half an hour a day additional.

Attlee appealed to workers not to press for increases of wages. He asked industry and commerce to refrain from declaring high dividends.

England's imports are to be cut down in a manner that will mean "hardships for many people." Among other things there will be further food restrictions.

The armed strength is to be reduced by 420,000 men from the present total of about 1,297,000. America will be asked to ease clauses in the loan agreement.

It is a gloomy picture which Attlee painted, but he faced the issue with determination and he stood by his Socialist guns. At this early stage in his great political experiment he feels impelled to resort to regimentation, thereby most surely creating an issue upon which the next general election will be fought.

That issue is: Will the British public stand for peace time, regimentation?

the top billing at any time during the season.

Catcher Bill Swel of Kinston Eagles has been out of the line-up most of this week because of a Naval pension expiration in Chicago, and Clay Croom, the reserve catcher, has been working as regular backstop.

Hughes' Inquiry

(Continued From Page One)

ed, typewritten manuscript although he purportedly was criticizing Mr. Hughes for something which occurred only a minute or two before.

"Obviously it was prepared in advance," Pepper said, "and I am authorized to say for the minority members of the committee that neither they nor I have seen the statement prior to its delivery."

Ferguson acknowledged his statement was prepared.

Just minutes before, Brewster had interrupted when Hughes was reading a statement. The Maine senator in teeth-clenched tones demanded to know whether Hughes had prepared the statement himself or if it was prepared by Carl Meyer, public relations counsel.

In the statement, Hughes had offered to put his reputation for truthfulness up against Brewster's and asserted the Maine senator "has the reputation of being one of the greatest trick shot artists in Washington."

Hughes said it was his own statement that Brewster "made many statements which are obviously untrue" when denying Mr. Hughes story of the proposition.

NCEA Meeting

(Continued From Page One) Educational Association director for the state.

Miss Alexander said, "I did not think there was any authority given by law for the State Board to take such action." She added that the constitution of the NCEA provides that its president be a member of the teaching profession.

So Round, So Firm, So Fully Packed—So Free and Easy on the Draw

Wilson's Weekly Bulletin By George Rector

Keep it Cool On a sizzling hot day, a cold meal complete with tall glasses of iced beverage is guaranteed to lift both spirits and appetites. A cold, crisp salad that is filling, simple to prepare, and easy on the eyes fills the bill perfectly for all including the "cook."

a Rector Recipe Mor Hawaiian Salad Chill thoroughly, then combine 1 can MOR, cut in cubes (reserve a few cubes for garnishing) 2 cups sliced pineapple, cut in wedges 2 cups shredded cabbage 2 cups sliced celery 1/4 cup green pepper, diced 1 1/2 cups WILSON'S MAYONNAISE Serve in a salad bowl lined with lettuce. Garnish with remaining cubes of MOR. Serves 6.

Summer Star Let Mor Hawaiian Salad play the star role in your summer menus. It's simple to prepare, yet makes an elegant main dish for the family supper or a bridge luncheon. Rolls with plenty of Clear Brook Butter and marmalade are all that are needed to complete the main course. For dessert? Fresh peach upside-down cake with cream (or a generous topping of whipped cream, if you prefer).

Appeal to Appetites A cold appetizer course is a life saver these hot days when appetites need a little teasing. Serve glasses of iced B-V cocktail with crackers or potato chips spread with Wilson's Certified Deviled Ham. Watch the appetites perk up. Cold plates are no doubt the most popular of all meals on hot days. Remember though that we need as much high quality proteins of the kind meat supplies in the summer as during the winter. Wilson & Co. offers you a large assortment of delicious cold cuts —Certified Braunschweiger, New England Brand Sausage, Dutch Braided Loaf, and Roast Beef Loaf to mention a few. Serve them frequently for good eating... good health.

Sincerely, George Rector
