ANDERSON TO DIE IN STATE GAS CHAMBER

Judge Sets Execution Date As October 14; Defendant To Make Appeal

By CHESTER WALSH

In Superior Court today Judge Henry A. Grady of New Bern sentenced Booker T. Anderson, 29-year-old Negro, to death in the gas chamber at State Prison in Raleigh, on Friday, October 14, between the hour of 10 a. m. and 2 p. m.

Anderson was convicted of four capital felonies, one of arson and three of murder. Defense Attorney W. J. (Dick) Bundy gave notice of appeal to the Supreme Court. The court allowed 45 days in which to perfect the appeal, and the state 30 days in which to file answer.

Tobacco Men Favor Reduced Acreage In 1948

Raleigh, N. C., Aug. 29—(AP)—Flue-cured tobacco members of the North Carolina Farm Bureau Federation, cognizant of an unstable world leaf market, are in favor of drastic acreage reduction in 1948 in hopes of maintaining a good price for the growers.

Over 300 farmers, warehousemen and others of the tobacco industry, meeting here yesterday, passed a resolution formula which would set up a minimum acreage reduction of 20 per cent and as much as 30 per cent in order to insure a fair profit for the farmer.

The group also voted to ask Secretary of Agriculture Clinton P. Anderson to announce "as soon as practical" 1948 acreage quotas for tobacco.

Carl Hicks of Walsington, chairman of the bureau's Tobacco Committee, offered the resolution-formula.

Hollywood's Headache

Film Industry In Troubled Period; Foreign Sales Shrinking In World-Wide Industry; Exports Needed; Eric Johnston Proposes New Types Of Pictures

By MAX HALL

Washington, Aug. 29—(AP)—The film industry is in a time of change and agitation. It is especially shocked over its sinking foreign sales.

During this troubled period the No. 1 spokesman, salesman, and man of the industry is Eric Johnston, a handsome, suave, 50-year-old manufacturer from Spokane, Wash., who knew nothing about movie problems until two years ago.

Johnston is president of three big film associations. He is often called the "gear" of the film industry. He has no power to compel Hollywood studios to produce certain kinds of pictures, but he has ideas and he has powers of persuasion.

One of his ideas: "We in Hollywood have to make more realistic motion pictures if we want to continue our leadership in the world."

Johnston wants the movies to show how Americans really live. He also wants the movies to "enlighten," to express "ideas" while they entertain audiences. He would like to see more pictures that present "problems," such as anti-semitism and labor-management relations.

Approval Of Pan-American Defense Pact Is Assured

Montevideo, Brazil

A last-minute Pan-American defense pact is assured today of approval by the Inter-American Commission on the subject of joint armed forces to aggression.

The conference committee on aggression planned to meet this morning to accept a three-nation subcommittee's outline of an American zone of maritime security stretching from pole to pole and from Greenland to the Aleutians.

The full conference was scheduled to assemble shortly after to approve the treaty article by 19-11. The pact is to be signed next Tuesday at Rio de Janeiro in the presence of President Truman.

The Colombian delegation had threatened to filibuster against a treaty article on settlement of conflicts within the hemisphere and indicated that unless the pact was amended Colombia might refuse to ratify it.

The treaty as drawn up in committee had provided that in case of conflict between two American nations, the others would order the two to suspend hostilities and then would take steps to settle the dispute peacefully.

Colombia contended that an unqualified order for suspension of hostilities would deny to the nation that had been attacked the "legitimate right of self defense" guaranteed by the United Nations Charter.

She demanded that, instead of providing for such an order, the treaty should provide that the peacemaker nations order the states in conflict to withdraw to prewar positions.

The Colombians said, would prevent one American state from grabbing a piece of territory from another and "holding onto such territory for possibly years while the dispute was being settled."

Peru strongly opposed inclusion of the Colombian provision on the grounds it would "pretermine aggression" before the consulting American republics had handed down their decision.

The wartime leader of allied armies said that "no great nation is today in position deliberately to provoke a long and exhausting conflict with any hope of gain."

Eisenhower spoke to massed thousands of legionnaires at the second session of their 29th annual convention in the 71st regiment armory.

Two other of the nation's top military men, Fleet Admiral Chester W. Nimitz, and General Carl A. Spaatz, commanding general of Army air force, also were speakers.

Eisenhower said that "as long as deliberate aggression against the rights of free men and the existence of free government may be a part of the international picture, we must be prepared for whatever this may finally mean to us."

He declared, "I do not want to be understood as seeing a global war as an immediate threat" and added: "We must so gird ourselves that a predatory aggressor will be aware of the risks he runs and will realize, should he provoke war, it will likely be fought over his territory."

Unification of the armed forces, Eisenhower said, "provides flexibility to meet changing conditions of warfare."

He said the national military establishment, charged with overall supervision of the new defense setup, "makes possible the organizing of a comprehensive civil defense, something that assumes greater importance, day by day, as time brings nearer the possibility of quick, destructive blows against our cities and production centers."

Ejected From Security Council Meet

Ahmed Kamel Koteb (center), is ejected from the United Nations Security Council chamber at Lake Success, N. Y., by two security guards after disturbance in which another guard was bitten. The disturbance came during debate on Egyptian case against Great Britain. (AP Wirephoto.)

Hitler's Aides

Nuernberg, Germany, Aug. 29—(AP)—The prosecution introduced to an American war crimes court today statements by directors of I. G. Farben Industrie, German chemical trust, in which they boasted that Hitler was unable to wage war without their help.

The directors are on trial for their lives. The prosecution said the documents also disclosed that the Farben leaders realized in 1936 that Hermann Goering had embarked on a vast rearmament program to which they lent their full strength.

PRISON CAMP HEAD RESIGNS

Raleigh, N. C., Aug. 29—(AP)—Highway Commission Chairman A. H. Graham said today he had "accepted the resignation" of J. E. Delbridge, superintendent of the Martin County prison camp near Williamston.

Delbridge had admitted to officials that he struck a recaptured convict shortly after he was apprehended near Littleton the night of August 20.

The statement followed a conference between Graham and Prison Director Clyde Robinson, after Robinson's return from Halifax County where he conducted an investigation.

The convict, Marion Knott Williams, 20, escaped with Claude Gregory, 45, the manhandling of whom brought about the resignation of three highway patrolmen. The mistreatment of Williams, who was captured a day before Gregory, did not become public until after the Gregory incident.

Graham said he had statements from a number of persons—including Williams—in connection with the affair. He said that Williams "was slapped once with a man's open hand. Graham said that he had several conflicting statements as to whether Williams was handcuffed at the time but that it was his (Graham's) opinion that he was.

New Under-Sec. Of War Is Named

Washington, Aug. 29—(AP)—President Truman today named Maj. Gen. William H. Draper, Jr., of Scarsdale, N. Y., as under-secretary of war and announced his choice of five others for key positions in the new unified defense setup.

Draper, now in Washington as Gen. Lucius Clay's representative at the conference with the British on Ruhr coal, was given a recess appointment to fill the vacancy caused by the promotion of Kenneth Royall to secretary of war.

Army Chief Of Staff Says U.S. Must Stay Prepared

New York, Aug. 29—(AP)—General of the army Dwight D. Eisenhower, army chief of staff, told American legionnaires today the immediate threat of a global war has added that United States armed forces should be strong enough to make an aggressor realize war would likely be fought over his territory.

The wartime leader of allied armies said that "no great nation is today in position deliberately to provoke a long and exhausting conflict with any hope of gain."

Eisenhower spoke to massed thousands of legionnaires at the second session of their 29th annual convention in the 71st regiment armory.

Two other of the nation's top military men, Fleet Admiral Chester W. Nimitz, and General Carl A. Spaatz, commanding general of Army air force, also were speakers.

Eisenhower said that "as long as deliberate aggression against the rights of free men and the existence of free government may be a part of the international picture, we must be prepared for whatever this may finally mean to us."

He declared, "I do not want to be understood as seeing a global war as an immediate threat" and added: "We must so gird ourselves that a predatory aggressor will be aware of the risks he runs and will realize, should he provoke war, it will likely be fought over his territory."

EXTEND TIME ZONE IN N. C.

ICC Orders Extension Of EST Zone As Far West As Knoxville

Washington, Aug. 29—(AP)—The Interstate Commerce Commission today ordered additional areas of Virginia, North Carolina, Kentucky and Tennessee, including the city of Knoxville, placed in the Eastern Standard Time Zone.

The change, effective at 2 a. m. (CST) Sept. 28, will be made by moving the time boundary slightly westward so as to take in the western tip of Virginia and North Carolina, plus additional sections of southeastern Kentucky and eastern Tennessee.

The action was taken on petition of the Knoxville senior and junior chambers of commerce and a number of adjacent communities in Central Time territory which have long operated on Eastern Standard Time through adoption of local ordinances.

The original petition sought a westward extension of the Eastern Time line in Tennessee to include Chattanooga. The commission said it was unable to find adequate justification for including the Chattanooga area and that it had determined the new line to meet the needs of railroad operations and at the same time fit the federal standard as far as possible to the local observance.

"Tamed" Atomic Bomb Is Developed For Research

Los Alamos, N. M., Aug. 29—(AP)—The development of a "tame" atomic bomb for research into ways to get useful power from nuclear fission was announced today by the Atomic Energy Commission.

Instead of a devastating blast, the toned-down bomb produces a steady output of fast neutrons, needed for experiments to determine what kind of chain reaction is best for practical power purposes.

It is a new type of chain reaction plant or "pile" utilizing high-energy neutrons for atomic fission of plutonium. The commission's announcement described it in a sense "a controlled version of the atomic bomb itself."

Dr. Norris E. Bradbury, Director of the commission's Los Alamos scientific laboratory, said the new unit has been in successful operation at low power since November, 1946.

Declaring the reactor gives a more intense source of "fast neutrons" than physicists heretofore have been able to obtain, except during the brief time of the test of the first A-bomb in New Mexico in July, 1945, Bradbury said: "It is hoped that such a source will make possible the study of more detail, and thus be another step toward finding the best type of chain reactor for the production of useful power."

The Atomic Energy Commission's release on the subject said: "It is the first (pile) to employ the fission of the man-made element plutonium, instead of normal uranium and it is the first to use fast neutrons. Other chain reactors at other Atomic Energy Commission installations utilize slow neutrons."

New Record Holder And Old

Standing by the plane in which both flyers made a new world speed record at Muroc, Calif., are Marine Major Mario Carl (left) whose new record was 650.6 miles-an-hour, and Navy Commander Turner F. Caldwell (right), who set the old record of 640.7 miles-an-hour flying the same plane, a jet propelled D-558 Skystreak. The tests were held at Muroc Army Air Base. (AP Wirephoto.)

Crucial Decision Faces Congress In Next Term

SCHOOL STILL IS BOYCOTTED

Attendance Lowers; No Nearer To Ending Controversy

Kinston, Aug. 29—(AP)—A boycott by patrons of the Wheat Swamp Consolidated School continued today with attendance of classes falling even lower than opening day yesterday.

School authorities reported today's attendance at 111—seven lower than yesterday.

Protesting patrons and members of the district's school board apparently were no nearer a solution of the controversy, which stemmed originally from the board's refusal to reemploy Mrs. Georgia Foster Barnes principal for a third term.

Protesting parents, who finally acquiesced in the election of D. W. Maddox as her successor, stood firm in their demands that the school board members resign.

A rumor that authorities planned legal action under the state's truancy laws against the parents who kept their children away from the school proved groundless. County education Supt. Emmet E. Sams said his office contemplated no such action and county welfare Supt. G. B. Hanrahan, who has jurisdiction in such cases, said he had received no official reports of the school incident. He added he would await further developments.

Heavier Sales Expected Today On Leaf Market

Raleigh, N. C., Aug. 29—(AP)—Heaviest sales of the week were expected today on the markets of the North Carolina and South Carolina flue-cured tobacco belt and on the Eastern North Carolina flue-cured belt.

Prices generally were up on both belts yesterday after a series of fairly sharp losses. Smoking leaf and cutters led the way on the border belt and medium and lower lugs and lower orange leaf and primings were the pacesetters on the eastern belt.

KOREAN TALKS SUGGESTED BY UNITED STATES

Call For Big Four Conference To Speed Up Independence For Korea

Washington, Aug. 29—(AP)—The United States called today for a four-power conference to speed Korean independence.

The request was made in a new note to Moscow saying that the present deadlock on a joint Russian-American commission to arrange for a provisional government cannot, in this country's opinion, continue.

"The United States government cannot in good conscience be a party to any such delay in the fulfillment of its commitment to Korean independence and proposes that the four powers adhering to the Moscow agreement meet to consider how that agreement may be speedily carried out," the note said.

It suggested that conversations on the problem begin Sept. 8. Nations participating in the Moscow conference on Korea were the U. S., Britain, Russia and China.

The talks would be held in Washington. As part of the note, the U. S. flatly denied charges by Soviet Minister Molotov in a letter to Secretary Marshall Aug. 23 that there has been oppression or persecution of Korean parties or individuals in the U. S. zone of Korea.

The note said arrests in the zone have been necessary to control subversive activities aimed at the destruction of constituted government and law and order.

Simultaneously, the State Department disclosed a summary of proposals by this country for Korea's future.

They included the American suggestion for a general Korean election which has been rejected by Russia.

Nurses' Demands Are Referred To Institutions

High Point, N. C., Aug. 29—(AP)—Demands of the North Carolina Nurses Association for wage increases and job security have been referred by the State Hospital Association to individual institutions.

The hospital group took the action in a two-hour called session here yesterday with representatives from approximately 70 institutions attending.

Dr. A. L. Daughtridge of Rocky Mount, president of the Hospital Association, disclosed after the meeting that the nurses' demands had been directed to individual hospitals instead of to the association.

"For that reason," he said, "the trustees (of the association) recommend that the (nurses') proposal be placed in the hands of each individual hospital."

He said the nurses' organization has proposed to serve as negotiator between nursing personnel and hospitals in requests for a minimum salary of \$150 for staff nurses and \$180 for head nurses, plus \$10 a month for each year's service up to three.

Ripples In The Pond

Effects Of School Children's Questionnaire On Pie Will Have Direct Effect On Future Foreign Policy For It Took Everett Dirksen To Congress; The Story

By ALEX H. SINGLETON

Sixteen schoolchildren's questionnaire on the diminishing popularity of pie will have a direct effect upon this nation's future foreign policy.

### Airplane Castaways Stumped; Navy And Coast Guard See No 'Emergency'

Miami, Fla., Aug. 29—(AP)—What Crusoes was no emergency at all from all appearances was an acute to Uncle Sam's Coast Guard and emergency for three flying Robinson Navy.

As a result, the three were castaways with their little two-engined Wagon plane today on tiny Swan Island in the Caribbean Sea 600 miles south of Miami. They needed gasoline, oil and a gasoline pump to get away.

They identified themselves by radio as Albert Jones of Orlando, William A. Krusen of Tampa and Krusen's son and appealed urgently for assistance.

Replied the Coast Guard's life-saving service: "Due to lack of emergency unable comply with your request."

"Send the Navy to our assistance," castaways appealed.

Said the Navy: "This is a commercial responsibility and the Navy is unauthorized to act in such cases."

"We don't care who brings it—we want gasoline," radioed the Floridians.

That was the status of the "emergency" for the moment.

### William H. Bullock Rites Yesterday

Ayden, Aug. 29—Funeral services for William H. Bullock, 34, of Ayden, were held from the Ayden Methodist Church Thursday afternoon by the Rev. J. E. Early, assisted by the Rev. W. H. Brunson, pastor of the Ayden Christian Church. Burial was in the Ayden Cemetery.

He was a veteran of World War II, and served four years in the Army, 13 months in the European theater. Since his return from overseas he had been in ill health.

Surviving are his wife, the former Ethel Croom; a 2-year-old son, William H., Jr.; his parents, Mr. and Mrs. W. J. Bullock of Ayden; two sisters, Mrs. E. C. Hubbard of Raleigh and Mrs. Stanley Makowiecki of Washington, D.C.; his maternal grandmother, Mrs. Mary A. Cannon of Ayden.

A vulture is known to have lived for 95 years.

### Radio Speaker

FRANK C. BROWN

The Rev. Frank C. Brown, DD, of Dallas, Texas, will speak on the Presbyterian Hour over WPTF Sunday morning, August 31, at 8:30. Rev. Brown was elected Moderator of the General Assembly in 1940 and is now chairman of the Assembly's Committee on Evangelism and a member of the Assembly's Committee on Home Missions.

### Drug Smuggling Ring Smashed

Washington, Aug. 29—(AP)—The Treasury said today that customs officers at Laredo, Tex., have smashed what they believe was a large-scale scheme to smuggle drugs from Mexico into the United States by plane.

E. J. Shamhart, deputy customs commissioner, reported the arrest at Laredo of a man he identified as "Taylor Crossland, said to be a resident of Dallas" on a charge of violating the Narcotic Drugs Export-Import Act.

### Milk Prices Up In Asheville Area

Asheville, N.C., Aug. 29—(AP)—The Asheville Times said today that the price of milk will be increased a penny a quart in the Asheville area on Monday.

The newspaper said the wholesale price of milk would be increased from \$5.50 to \$5.80 a hundredweight because of increased cost of dairy cattle feed. Daily operators were quoted as saying they planned to pass the cost increase on to consumers.

### Tarheel Catches Giant Sailfish

Southport, Aug. 29—(AP)—Robert R. Dees of Burgaw today held undisputed title to catching the

largest sailfish ever taken from North Carolina ocean waters.

Trolling from Capt. Vic Lance's cruiser "Moja" off Southport yesterday afternoon, Dees boated a seven-foot, 11-inch giant after a half hour battle. Part of the sail's bill was broken off during the struggle, which would have put the fish into the eight-foot "Florida" class.

### Will Not Grant Refugees Writ

London, Aug. 29—(AP)—The high court of justice refused today to grant a writ of habeas corpus that would have prevented the British government from forcing 4,400 Jewish refugees, intercepted while trying to run the Palestine immigration blockade to go to Germany. The refugees now are en route to Hamburg in three British ships. The application, sponsored by the Jewish Agency, sought the writ on behalf of six of the refugees in a test case applicable to all the Jews.

### STALEMATE IN U. N. COUNCIL

Delegates Concede Hopeless Deadlock Over Egypt's Case

Lake Success, Aug. 29—(AP)—Weary of debate and completely deadlocked, the Security Council was called back into session today in a final effort to reach some agreement on the Anglo-Egyptian case before Labor Day and open the way for its long-awaited vacation.

A new Colombian resolution, that was conceded little chance of passage in its present form, was the only formal proposal on the table for the meeting today.

Fernand Van Langenhove, Belgian delegate, summed up the general feeling after two torrid meetings yesterday with this statement: "The council is in a complete deadlock."

Actually delegates were within one vote of a decision once but hopes for a verdict were shattered with Dr. Alfonso Lopez of Colombia abstained in balloting on a Brazilian proposal. That plan recommended that Egypt and Britain resume direct negotiations over Cairo's demand that British troops be evacuated immediately and unconditionally from the Nile valley.

A British spokesman said: "I actually don't know what we will do." There was even the possibility that delegates would go back to the Brazilian proposal and attempt to amend it in their desperation.

### AGAIN REJECT ATOMIC PLANS

Russia Uses Old Charges To Block Atomic Control Agency

Lake Success, Aug. 29—(AP)—Renewing monopoly charges against the United States, Soviet Russia today rejected a group of proposals for setting up and operating an international atomic control agency. This made it virtually certain that the second report of the United Nations atomic energy commission to the Security Council, due September 15, would be submitted with Russia again refusing to vote.

Andrej A. Gromyko, Soviet delegate, told the commission's political committee that the papers amounted to the same thing as the original U. S. proposal for atomic control. He repeated his old charge that the U. S. was trying to set up a monopoly favoring one nation—obviously the U. S.

The Russian said the papers were incompatible with the fundamental principles of the U. N. charter. He said they were founded on a basis which does not correspond to the principles of the United Nations and the assigned task of controlling atomic energy.

The United States and six other nations on the 12-member commission have approved the papers, which will form the basis of the second report.

### WANT FAST HELP? GETTING UP NIGHTS?

Here's good news for you folks who have to get up at night to pass water, have backache, too, because of minor functional kidney disorders.

Three generations ago, a famous doctor developed a medicine for this very trouble. Now millions have used it, often with amazingly fast, effective results. The medicine is Dr. Kilmer's Swamp-Root, made of 16 herbs, roots, vegetables, and barks — truly nature's own way to relief. Instantly you take it, it starts to work. Flushing out kidneys... increases the flow of urine, helping to relieve excess acidity... so irritated bladder gets a good flushing out, too. Caution: Take as directed. You'll say it's marvelous.

For free trial supply, write Dept. D. Kilmer & Co. Inc., Box 1255, Stamford, Conn. Or — get full-sized bottle of Swamp-Root today at your druggist.

Horse and tractor stalk cutters, Frick, Turner and Livermon Peanut Pickers, Roanoke and Turner Hay Balers.

Bears Defeat Greenies With Uprising In Eighth

2c 24 Hit!—BEARS DEFEAT GREENIES... With the score standing 5-3 in the first half of the eighth, hopes of the local team were blacked out by a nine-run uprising in that frame by the New Bern Bears who walked off the field with a 12-7 victory hanging from their belts.

led at bat for the Greenies with two hits in four times at bat... The win—that was pulled-out-of-a hat by New Bern took on a double significance for the Bears as it put that club in second place in the CPL standings, and their Zippy Zunno set a new league record of 124 runs by scoring twice in last night's contest.

SENTENCE NAVY CPO New York, Aug. 29—(AP)—Harold E. Hirschberg, 29, chief navy signalman convicted of striking two fellow prisoners of war of the Japanese, has been sentenced to serve 10 months at the U.S. Naval Retraining Command at Norfolk, Va., and then to be dishonorably discharged from the Navy, the Navy announced today.

PLAN TO SPUR PRODUCTION IN GERMAN ZONES

U.S. And Britain To Go Ahead Despite Objections From France

London, Aug. 29—(AP)—Despite French objections, the United States and Britain intend to boost the industrial production ceiling for their zones of Germany in an effort to spur European recovery. Their decision was made public in a communique issued here last night after U.S., British and French diplomats had spent six days discussing the level of German industry.

This communique said the U.S., British plan would be disclosed in detail in Berlin today.

U.S. and British authorities in Germany agreed to the plan in mid-July, but French objections forestalled its announcement and led to the three-power conference in London, which began last Friday and ended Wednesday night.

Authoritative London sources said last night that the plan contemplated steel production of up to 11,500,000 tons a year in the American and British zones, while the French had asked that the top be held to 10,000,000 tons.

The steel ceiling for all Germany, as set by the four-power Allied Control Council in March, 1946, has been 5,800,000 tons a year—about 39 per cent of pre-war. The July output was 237,306 tons—an annual rate of less than 2,850,000 tons.

Last night's London communique said the French took the view that they could not withdraw their objections to the plan until they had had a chance to discuss their demand for more coal and coke from mines of the Ruhr, in the British zone of Germany, in a three-nation Berlin meeting scheduled during the London talks.

Anderson . . .

(Continued From Page One) he repudiated similar testimony he gave when he took the stand at the coroner's inquest.

His alibi that he was at home when the fire broke out was broken down when two Negro witnesses testified that they saw him near the woman's house shortly before the fire started.

Under the name of "Booker T. Andrews, 18," (the record shows) Anderson was convicted in Pitt County Superior Court in January, 1937, after pleading guilty of second degree murder of his brother, Theodore Anderson, during a fight on Christmas Day. He was given 30 years. The prison record shows that Anderson seriously wounded a fellow-prisoner in a highway prison camp and caused disturbances during 1941 and 1942. The governor paroled Anderson in 1944 after serving less than eight years.

The cases of Henry Flood, Jr., Guy Kite and Dave Wiggins, charged with assaulting Guy Buck, 50-

year-old Negro with a deadly weapon (a bottle) with intent to kill, were called late yesterday afternoon and a jury was secured. When court resumed this morning it was testified that the three men, in a car, drove up to where Buck was standing in the Shelmerdine community, called him to the car and asked him if he wanted to ride and one of the men struck him with a bottle, inflicting a serious head wound and knocking him unconscious. It was testified that after the Negro regained consciousness he crawled about 75 yards to a home to get transportation to a hospital.

In passing sentences this morning, Judge Grady gave Henry Flood, Jr., 12 months on the charge of driving while drunk, and continued prayer for judgment in the case charging assault with a deadly weapon with intent to kill. He continued judgment in the cases against Guy Kite and David Wiggins on assault with a deadly weapon for five years provided they are of good behavior and taxed each with one-half of the court costs.

The jury in the case of Louie Bell Phelps, Negro, yesterday afternoon convicted him of assaulting Moses Spencer, deaf mute Negro tobacco worker of Farmville with a deadly weapon with intent to kill. Farmville Police Chief L. T. Lucas testified that Phelps and Spencer and others at a drinking party at the home of Effie Tyson, Negro, in Farmville, had a row and that Phelps struck Spencer with a hatchet, inflicting a serious wound on his head.

Judge Grady sentenced Phelps to three years after he had offered, to give a lighter sentence if he would pay Moses Spencer, the wounded man, \$150.

The Craven County jurist essayed the role of Solomon in disposing of the cases against Delmont Gray and Willie Hardy, Jr., Negroes, convicted of highway robbery David Jackson, elderly Negro tenant farmer, of \$927 of his crop money. He had warned the defendants he would deal out some stern justice if they failed to pay back the stolen money. Gray raised his half of the money

Pitt: "BOOMERANG" starring Dana Andrews, June Wyatt. State: "STARS OVER TEXAS," Eddie Dean and Flash.

and appeared in court this morning. "Count it out to Jackson," the court ordered, and \$458.50, half of the stolen sum, was handed over to the beaming Jackson. Judge Grady gave Gray a year on the roads; Hardy, five years in State Prison. After disposing of some other cases court was adjourned for the term.

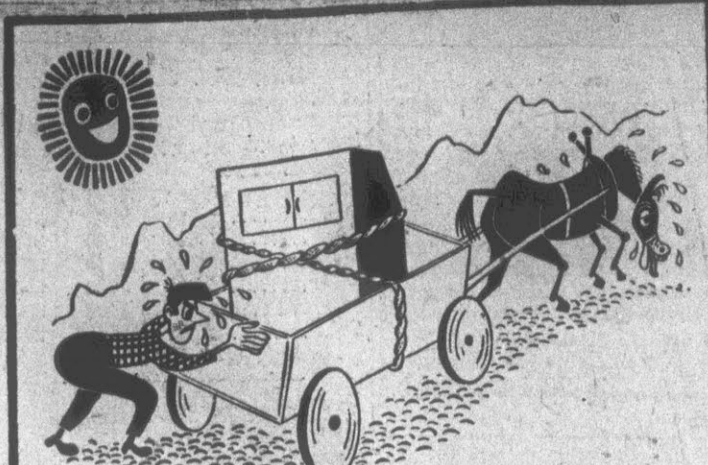

At Last, A Man Who Can Beat The Races

San Francisco Aug. 29—(AP)—The barstool can be beaten, Victor W. Nielsen assured the court—but the percentage wasn't anything to shout about.

Nielsen, testifying in a divorce case yesterday, pulled out a little black book on his bets to counter his wife's claims that he squandered the family's money on the race horses.

In two years, he told the court, he had bought \$311,000 worth of parimutuel tickets on an original capital of \$4,500.

His profit? \$26.41.

This nag eats just as much as a big, strong horse . . . and still doesn't carry the load. That's expensive. It's something to look out for in specifying refrigeration equipment. Ask us about it. It won't cost you anything, and: WE'RE SPECIALISTS IN:

Willie Tip Says! Have you heard that radio program that Charlie Whedbee is putting on for the Greenville Tobacco Market at 12:15 p. m. every day. If you haven't you've really been missing a treat. Tune in just once and then try not to listen, if you can.

This Started Something! You're looking at the beginning of a new day in the history of the automobile. A new day of super-safety for motorists when steel girders replace old-fashioned body bolts. A new day of bigger, more comfortable cars, operating on far less gasoline. A new day in which cars won't rattle or squeak in body or frame. This is what you see in X-ray view below—Nash's single unit body and frame! With 8,000 welds joining every piece of structure steel in "pocket battleship" strength... engineers predict it's the construction that's bound to come someday in all automobiles. But you have it today in a Nash "600"! You see it in Nash "600" mileage of 25 to 30 miles on a gallon... 500 to 600 on a tankful, at moderate highway speed! You see it in the roomy size of a Nash... feel it in Nash performance... enjoy its smooth ride on Nash's deep coil springs at all four wheels. Even the air is different in a Nash! Always fresh, pure and draft-free... because the famous Nash Weather-Eye System of Conditioned Air has automatic control! You get it all in a Nash... plus value that's making Nash the fastest growing car in popularity today. And it's value you want in your 1947 car. Your Nash dealer has the new Nash "600" and Nash Ambassador. See him today for—The Pattern of Cars to Come!

Table Top Electric Water Heaters 30 GALLONS We have just received a shipment of the above mentioned heaters. City Plumbing Co. 201 E. Third Street, Dial 3813

When waiting is necessary Waiting certainly can be tough at times. While we're proud of the progress made in our expansion program, we would like to complete the job in a hurry. The main thing slowing us up is the continued lack of central office equipment necessary before we can install new telephones. Meanwhile, we're expanding service with all possible speed—for we know how important telephone service is to everyone. Carolina Telephone & Telegraph Co. Incorporated

YOU... ONE-MAN HUSKING CREW The new CORN HARVESTER converts your WC Tractor into a one-man picker in a half-hour or less. Tractor-mounted, it opens up the field on the first round. There's no hand picking—one man driving the tractor does the whole job. The CORN HARVESTER is simple and compact. Over four-fifths of its weight is carried on the rear tractor wheels, giving extra traction for soft ground conditions. That's why it husks where heavier pickers mire down. Above all, it's safe. Not a single dangerous moving part within reach of the driver's seat. Husking rolls are shielded, low-down, out of danger's way. It's the mechanical picker family farms have waited for. ALLIS-CHALMERS SALES AND SERVICE Hear the NATIONAL FARM AND HOME HOUR with Everett Mitchell... every Saturday, NBC. Hendrix-Barnhill Equipment Co. Greenville, N. C.
