

Molotov Says A-Bomb Secret 'Has Long Ceased To Exist'

London, Nov. 6—(AP)—Foreign Minister V. M. Molotov of Russia asserted today that the secret of the atom bomb "has long ceased to exist."

Molotov, speaking on the eve of the 30th anniversary of the Russian Revolution, told the Russian people in a speech broadcast from Moscow:

"It is interesting that in the expansionist circles of the United States a new, peculiar sort of illusion has been formed about their internal strength—a belief in the secret of the atom bomb, although this secret has long ceased to exist."

A Moscow radio commentator said cheers greeted this remark.

"Evidently the imperialists need this faith in the atom bomb, which as is known, is not a means of defense but a weapon of aggression," Molotov said. "Many are indignant that the U.S.A. and Great Britain hamper the United Nations from adopting a final decision on the prohibition of atomic weapons."

Russia's "industrial output has reached prewar levels," Molotov said.

"Had there been no war, there would today have been unheard-of advances in our cities and towns. But for the war, which destroyed many important agricultural centers, we would be better supplied today than any other country in Europe or elsewhere."

Molotov said the 30 years of Russia's history since the revolution could be divided into three periods:

"The first, between 1917 and the firm establishment of Soviet power, up to the first five-year period."

"The second, the period of the second World War—the great patriotic war."

"The third, the new period which is just beginning."

Former Hughes Official Says Meyer Fired In '45

Dropped Publicity Man From Payroll Because He 'Had No Control Over Him'; Never Saw Expense Accounts

Washington, Nov. 6—(AP)—A former general manager of Howard Hughes' aircraft company told a Senate committee today he fired publicity man John W. Meyer "because I had no control over him."

Charles W. Perelle, who was hired by Hughes at \$75,000 a year to take over management of the Hughes Aircraft Co. said he discharged Meyer because he couldn't find out what the publicity man was doing.

He said he does not know under what terms Meyer remained in Hughes' employ, but that he was cut off the Hughes aircraft payroll in the fall of 1945.

Perelle, now president of the Gar Wood Industries at Wayne, Mich., appeared before a Senate War Investigating Subcommittee which is inquiring into \$40,000,000 worth of wartime plane contracts awarded Hughes.

Meyer told the committee that he spent nearly \$164,000 of Hughes' money entertaining high government and Army officials before the contracts were awarded Hughes. The publicity man is reported ready to testify again if he is wanted.

Perelle said he never saw any of the expense accounts referred to by Meyer.

Representatives of Hughes complained before the hearings began today that they were being prevented unilaterally from answering immediately a committee claim that Hughes should pay the government \$5,919,921 more in taxes for the war years.

Committee Chairman Ferguson (R-Mich.) contended, however, that Hugh Dietrich, executive vice-president of the Hughes Tool Co. told him he did not want to resume the stand at once.

CHINESE REDS STILL ADVANCE

Gain Another Manchurian Objective; Changchun Battle Is Near

Peiping, Nov. 6—(AP)—Warring Chinese Communists gained another objective in the battle for Manchuria today with word that they had forced withdrawal of Government troops from the major coal, iron and steel town of Anshan.

Dispatches to the Catholic newspaper Social Welfare and the Independent Peiping Daily News indicated the Nationalists had been driven out of Anshan—only 55 miles southwest of Mukden—by Communist forces pushing down the Mukden-Chinchow railway from Liaoyang, 29 miles to the northeast.

A press compilation showed that since the start of the present Communist military campaign in September, Red troops have destroyed 233 miles of Manchuria's rail system. Losses included 128 miles of the Mukden-Changchun railway.

Reports spread, meanwhile, that a large-scale battle was imminent around Changchun, capital of Manchuria, with 100,000 Government fighters pitted against 150,000 Communist positioned outside the city's defense perimeter.

One Hundredth Ship For Italy

Venice, Nov. 6—(AP)—Ambassador James C. Dunn, here for the arrival of the 100th ship bearing United States aid to Italy, declared today that this "impressive feat" was "the measure of American friendship toward the Italian people."

The first ship of the new program arrived at Genoa less than two months ago.

Reports Poultry Prices Down; Market Glutted

Washington, Nov. 6—(AP)—The Agriculture Department reported today on the fifth poultryless Thursday of the food conservation program—that the nation's markets are being glutted with poultry.

Prices are going down, it added, and city dealers are urging country shippers to hold their chickens back for lack of a market.

Cold storage stocks of frozen poultry, which on Oct. 1 were at record levels for that date, continued to increase last month to such an extent that the industry was said to be running out of space to store dressed poultry.

The department added in its monthly report on the poultry market that the low volume of consumer buying "mystified" the trade because poultry was being offered at prices relatively low as compared with other meats.

City-Operated ABC Stores Are Upheld By Court

Raleigh, N.C., Nov. 6—(AP)—City-operated ABC liquor stores at Lenoir and Franklin had the sanction today of the State Supreme Court.

The court yesterday upheld action of the Superior Court in dismissing dry force petitions which sought to have the stores padlocked as public nuisances.

The court declined to pass on constitutionality of laws which authorized liquor elections in the two Franklin County towns, but on the question of declaring the stores public nuisances, Chief Justice W. Stacy wrote:

"It would be strange indeed if the same government which authorized the establishment of a liquor control store should also provide for its padlocking at the instance of a private citizen and thus render all who are connected with its maintenance 'guilty of a nuisance.'"

Foreign Policy Book

If You're Confused By Flood Of International Events, Here Is Your Chance To Get Briefed On American Policies; State Department Booklet; What It's About

By JAMES MARLOW

Washington, Nov. 6—(AP)—Americans by the thousands write into the State Department every month and ask questions like these:

"What's our foreign policy? What's our policy on Germany? On Austria? On Japan? On Korea? On Palestine? And so on, endlessly."

Individuals write in, asking the questions. So do groups and organizations. They ask because, under the huge flood of international events, they get hazy or bogged down.

So, if you're one of those who have asked such questions, you have plenty of company. And plenty of congressmen are puzzled on a lot of the points, too.

The State Department finally has decided to wrap up the answers in a single package, one handy booklet. So it has put out a booklet.

Its name is "Aspects of Current American Foreign Policy."

This booklet, 54 pages long, will be published Friday by the government printing office.

If you want a copy—it's not free—write to the Superintendent of Documents, Washington, D.C.

The price? The printing office hasn't decided yet. Probably somewhere between 15 and 50 cents.

In the introduction to the booklet, the State Department says:

"Never before have the American people asked so many questions about the facts of our international life. x x x"

"The foreign policy of the United States cannot be codified or given formal legal expression in any single official document."

"It does not lend itself to such treatment, for it must remain flexible and capable of adjustment to the changing circumstances of the times."

The booklet doesn't try to cover the entire field of foreign policy. And it doesn't go into great detail in the parts it explains.

But, the State Department says, the booklet outlines a "number of the major foreign policy problems confronting the United States today, and some of the difficulties involved in their solution."

It is hoped, however, that this relatively brief discussion will help American citizens to understand better certain of the issues and problems in our relations with other nations.

This is what the booklet explains:

1. The problems of making peace and occupying enemy territory, like Germany, Japan, Austria, and territory like Korea, which the Japanese had held.

Priority Given To Emergency Relief

President Wants Congress To Act On European Aid Before Anti-Inflation Measures, Though Equally Vital

Washington, Nov. 6—(AP)—President Truman said today he wants Congress to act on emergency aid for Europe before taking up anti-inflation legislation.

But he considers inflation control and European aid equally important, and both should be pursued with vigor, Mr. Truman told a news conference.

He said it would do no good to make an appropriation to buy 100,000,000 bushels of wheat if the money appropriated would actually buy only 25,000,000 bushels because of a rise in prices.

At the capitol, Senator Ball (R-Minn.) said the aid program should be tailored to give the bulk of help to those countries which do most to help themselves.

Ball, a member of the Appropriations Committee which will pass on funds to pay for the Administration's proposed European recovery program proposed that economic rebuilding materials be furnished on an "incentive quota" basis.

As he explained the plan countries which could show increases in their home production in semi-annual surveys would continue to draw full American aid while those who indicated less inclination to help themselves would be penalized.

Vandenberg, who has declined specific comment on the impending economic assistance program since his return to Washington, is expected to announce later today a time schedule of committee hearings on emergency relief proposals and the long-range Marshall Plan.

Indications are that he will recommend that the committee listen to witnesses on the full recovery program but concentrate its efforts on clearing before Christmas legislation authorizing an emergency outlay of \$640,000,000 of food and fuel to tide France and Italy over the worst of the winter.

CATCH SECOND OF ESCAPEES

Tubercular Convict Admits Nine-Day Crime Wave

Gastonia, N.C., Nov. 6—(AP)—James A. Stennish, 22, of Belmont, one of three tubercular convicts who escaped last week from the prison ward of the state sanatorium at Sanatorium, was captured with resistance last night in a Gastonia cafe, Sheriff Hoyle E. Ford said.

Another of the trio, Odell Holder, 34, of Greensboro, gave himself up near there earlier this week.

Still sought is Ballard Martin, 23, of Newton, Ga., Policeman Jack Sarver and W. R. Hazen, who captured Stennish, said, a man ran from the cafe as they arrested Stennish.

Frank Holloway, a guard at the Newton State Prison Camp, said he had recognized Stennish in the cafe and gave the alarm. He said Stennish had once been a prisoner at the camp.

Stennish was taken to the Dallas Prison Camp where Superintendent Fred Friday said he would await word from federal officers.

Federal authorities said in Asheville yesterday they had taken warrants charging kidnapping and automobile theft against the three escapees.

German Fiance Arrives In U.S.

New York, Nov. 6—(AP)—Wearing a topaz engagement ring, dark-eyed Thelma Damerian, former Army nurse of Taunton, Mass., greeted her German fiance with a hug and a kiss when he arrived at La Guardia Field last night.

The fiance, Wilhelm Mueller, came to this country on a quota visa, the first German since the war to fly here to marry an American girl.

Aldermen Name Prominent Men For Commission

The Board of Aldermen at a called meeting at the City Hall last night unanimously elected W. H. Woolard, banker, a member of the Greenville Utilities Commission, to succeed L. B. Garrison, who died recently, and J. B. Kittrell, merchandise broker, to succeed K. W. Cobb, who resigned October 7. Mayor Jack Boyd presided and all aldermen were present.

Other members of the commission are Judson H. Blount, chairman; Dr. K. B. Pace, vice-chairman, and J. Roy Martin.

Byrnes Calls On U.S. To Demand Prisoners Return

Winston-Salem, N.C., Nov. 6—(AP)—Former Secretary of State James F. Byrnes called on the U.S. to demand the "immediate return" of an estimated 828,000 Japanese prisoners which he said Russia is holding in violation of the Potsdam agreement.

In an address last night before the House of Bishops of the Protestant Episcopal Church, Byrnes also strongly criticized the time France, Belgium and Britain are taking in repatriating prisoners held by them.

"Our good faith is involved," he asserted, because we took the initiative in the Potsdam declaration that promised Japanese troops a safe return home to encourage them to surrender.

Russia, he said, is bound by this pledge but instead, "they took hundreds of thousands of them to Russia."

Declaring that governments are bound by the Geneva convention to return prisoners as soon as possible after the fighting, he said that even now "the ugly truth is that prisoners of war are being held in allied countries in order to force them to work."

France, Britain and Belgium are moving to return the prisoners under schedules which he asserted might see the prisoners returned by the end of 1948.

But the Russians, Byrnes declared, by their own figure of 10,000 a month, will take more than seven years to release their German prisoners who number an estimated 890,532.

Don't Laugh, The Agriculture Dept. Just Shattered An Ambitious Dream

Washington, Nov. 6—(AP)—With a quail, the Department of Agriculture shattered a dream today.

"No," said the Department of Agriculture man firmly, "this coffee pulp does not impart a coffee flavor to the milk, otherwise we never would have issued the... no, it's impossible. No, you couldn't feed he cow coffee pulp and cane sugar pulp and have... fantastic."

Okay, Okay. It was just an idea. Now what do you suppose a cooperative cow could do with some eggs, whiskey, rum and nutmeg during the forthcoming eggnog season?

Truman And GOP House Speaker See Eye-To-Eye

Both Oppose Any Tax Reduction Legislation At Special Session Of Congress On Nov. 17

Washington, Nov. 6—(AP)—Speaker Martin lined up with President Truman today in opposition to any tax reduction legislation at the special session of Congress starting Nov. 17.

Martin (R-Mass.) told a news conference he believes the special session will be kept too busy considering foreign aid and price legislation to take up taxes.

But he said it was his own "personal inclination" to consider tax reductions as the first order of business at the regular session starting in January.

Shortly before Martin gave this opinion:

1. President Truman had informed a news conference that his message to the special session will contain no suggestions for revision of taxes.

2. Official in a position to know said the Truman Administration is definitely planning to offer its own tax program to Congress some time next year.

Martin's views ran counter to those previously expressed by Chairman Knutson (R-Minn.) of the House Ways and Means Committee who is demanding that the special session pass a "quickie" \$4,000,000,000 tax reduction bill.

The speaker emphasized that his views are strictly his own. He said the Republican House Steering Committee, which will meet shortly after Nov. 17, may have different ideas.

President Truman declined to say whether he would veto a tax reduction bill if the special session would send one to him.

However, he told a news conference his own message would be confined strictly to the purposes for which he has called Congress back into session. These purposes, he said, are European aid and curbs on inflation.

Told that Rep. Doughton (D-NC) had predicted a veto for any tax reduction bill at the Nov. 17 session, Mr. Truman said he will take care of that situation when it reaches him.

However, it was learned that the Administration is definitely planning to offer its own tax program to Congress next year.

CAA DECREES SAFETY MOVES

Order Immediate Alterations In All DC-6's; Inspections

Washington, Nov. 6—(AP)—The Civil Aeronautics Administration has ordered certain alterations made immediately in all Douglas DC-6 planes, the type of aircraft that caught fire and crashed recently in Utah, killing 52 persons aboard.

The alterations, which must be made by 7 p. m., tomorrow, consist of the removal of fibre glass insulation from the bottom of the baggage compartments.

The CAA also ordered a general inspection of equipment on the planes and said the check must be completed by Dec. 1.

Charles Dyer, director of CAA's aircraft and components service, said that removal of the insulation, which itself is fireproof, is intended to prevent it from acting as a wick in event of an oil or fuel leak which would permit inflammable fluids to gather in the baggage compartments.

The order specifies an immediate inspection of DC-6's to determine whether insulation is oil-soaked, and immediate removal of the insulation if it is soaked. Otherwise, it may be removed at the next convenient stop within 48 hours of the issuing of the order yesterday.

U.S. Desire For Early Peace Faces Big Four

By the Associated Press

The coldest weather and heaviest snowfall of the season hit the northern and central Rocky Mountain regions and parts of the plains states today.

Temperatures dipped to around the zero mark in Montana, Idaho and Wyoming and colder weather moved into the midwest. Falls of snow measuring from one to eight inches were on the ground from Salt Lake City to central South Dakota.

The freezing temperatures extended from the Rockies eastward across the northern plains into the upper Mississippi Valley, with the mercury dropping to below the 32 mark in some sections as far east as Illinois.

Butte, Mont., was the coldest city on the early morning weather map with a low of two above. Salt Lake City reported 5 inches of snow on the ground; Rock Springs, Wyo., was covered with 8 inches; Philip, S.D., 5 inches and Chadron, Neb., 4 inches. Snow was predicted for sections of Minnesota today and northwestern Wisconsin tonight.

A large group of representative property owners at a meeting at Clark's, across the river, Tuesday night, organized the Greenville Chapter of the National Home and Property Owners Foundation, and elected W. W. Lee, president, B. B. Sugg, vice-president, and A. C. Tadlock, secretary-treasurer.

Directors are J. B. Kittrell, chairman; S. T. White, A. C. Tadlock, W. H. Woolard, B. B. Sugg, C. W. Howard, S. Reynolds May, R. M. Garrett, E. G. Flanagan, Jr., and Judson H. Blount.

President Lee announced that he would appoint membership committees at a luncheon meeting of the chapter to be held at the Ode Towne Inn tomorrow at 12:45 p. m.

S. T. White suggested that a county-wide canvass of members be made, including farm property owners.

Attorney General Says Law Requires Warrant

Raleigh, N.C., Nov. 6—(AP)—The practice of law enforcement officers of arresting persons without a warrant is strictly illegal, Attorney General Harry McMillan ruled today.

"Our statutes, law enforcement officers have the right to make arrests without a warrant in case of all criminal offenses committed in their presence," the ruling said. "Where the offense is not committed in the presence of the arresting officer, a warrant is required before a lawful arrest can be made."

In other rulings, the attorney general held:

Penalties imposed by town ordinance, and voluntarily paid by persons charged with violation of the parking and other motor vehicle ordinances of the town, do not become a part of the school fund, but may properly be retained by the municipality by which they are collected.

Any person who procures another to issue a worthless check and put it in circulation, knowing it is worthless at the time, would be aiding and abetting in its issuance, and indictable and punishable as for a misdemeanor.

A motor truck used to haul farm products from the farm to the first or primary market is not required under our law to carry a "for hire" license, even though charges are made for such hauling.

The chief of a fire department is a public officer, and as such is required to be a resident and an elector in the municipality in which he serves; the other members of a fire department are not, as such, public officers, and it is not required that they be residents or electors of the municipality in order to become municipal employees entitled to the protection of workmen's compensation laws.

ABC store funds should be deposited daily, and a depository bond should be required.

Growing Resistance

Opposition To Totalitarian Ways Stronger In Czechoslovakia As Seen In Cabinet Crisis; Swing To 'Right' Spreading In West Europe And Affecting The East

By DEWITT MACKENZIE

Democratic resistance to communism within Russia's own satellites in Eastern Europe continues to spread.

The latest country to develop a crisis between left and right is Czechoslovakia. This difference grows out of Communist insistence on broadening the basis of Red influence in the government. A meeting of the coalition cabinet yesterday under Communist Premier Klement Gottwald resulted in his being given full powers.

This political clash wasn't unforeseen, because Czechoslovakia while small in size is huge in love of independence and couldn't be expected to endure indefinitely, without protest, efforts to impose totalitarian regimentation. So after two years of anxious effort to fit herself into the Russian zone of influence and still retain her independence she now has displayed a strong element of resistance to communism.

Czechoslovakia thus joins other Russian bloc nations which have parties of dissidents to Communist domination. These include Poland, Hungary, Romania, Finland and even Yugoslavia, although in the last named country Red opposition has been fairly well stifled—or has it?

Of course one would expect the current Czechoslovak crisis to be bridged temporarily. But the anti-totalitarian element cannot be stifled. It will remain to raise its voice whenever it can, and in this connection it should be noted that smoldering opposition is explosive.

The Czechoslovakian imbroglio is particularly interesting in light of a U.S. State Department statement made in a review of the development of the Marshall Plan for European recovery. This declares that any governments, political parties, or groups which attempt to prolong human misery for political profit, will meet with unequalled opposition from the United States.

The report says the interest of the United States in European recovery arises primarily from the fact that "American security has traditionally been based on the kind of democratic Europe which is now in jeopardy." It adds that "further deterioration might be disastrous to Europe."

It's an ironic circumstance that of all the countries within the Soviet zone of domination in Eastern Europe, Czechoslovakia should have been the one to declare her adherence to the Marshall Plan. That, however, lasted only a long (Continued on Page Eight)

Chatham Book Club
Mrs. N. S. Beard was hostess to the Chatham Book Club on Tuesday afternoon, November 4, at her home on Elm street. The home was most attractive with colorful fall flowers.

The president, Mrs. Charles Blair, welcomed the members and guests and presided over a short business meeting. Books were exchanged. The meeting was then turned over to the program chairman, Mrs. W. P. Moore, who introduced Mrs. Luther Bowling as the speaker for the afternoon. Mrs. Bowling gave a most interesting and informative talk on "Anticipating New Books." Much merriment was enjoyed when several club members read short autobiographies. The hostess assisted by Mrs. T. M. Watson and Mrs. J. C. Lanier, served a dessert course, nuts and coffee.

Guests for the afternoon were Mrs. M. P. Hoot, Mrs. J. D. Aman and Mrs. Frank Brown.—Reported.

Returns From Europe
Miss Bertha "Bert" Browne of Washington, D. C., who has been on duty for the past several months in Vienna, Austria, as a member of the United States delegation to the Austrian Treaty Commission has returned to the states after having spent several weeks touring Europe. She visited her parents, Mr. and Mrs. W. S. Browne of Bethel R. P. D., for a short time and is now visiting friends in Cordele, Ga., and Daytona Beach, Fla. Miss Browne received a promotion August 1 and after vacationing will return to her work in the European division of the State Department.

Sara Soule Book Club
On Tuesday afternoon Mrs. J. H. Waldrop was hostess to the Sara Soule Book Club. Her home was lovely with its arrangements of fall flowers.

Mrs. W. I. Wooten, the president, called the meeting to order, after which the secretary called the roll with a good attendance present. Mrs. Mann of Richmond, and Miss Eunice McGee were guests for the afternoon.

Mrs. G. B. W. Hadley and Mrs. Waldrop were in charge of the program. Mrs. Hadley gave a most interesting paper on Book Week which was first observed in 1919. Mrs. Waldrop had a lovely display of new books which everyone enjoyed seeing and hearing about. Many of them were children's books while a good many were for grown ups as well. Then we had a lively contest, guessing the principal character in some well known books. It was a tie between Mrs. W. L. Hall, Mrs. C. S. Forbes and Miss McGee, the prize going to the visitor, Miss McGee. The hostess, assisted by her daughter, Miss Mary Ann Waldrop, served a delightful salad course with coffee.—Reported.

Strength FOR THE DAY

Burdens Make The Going Good
A prominent businessman was once threatened with a very ugly type of blackmail and the exposure of certain things in his life of which he was not particularly proud. His accusers demanded a large sum of money, but he decided instead to take them into court and fight the thing out, regardless of the shame and humiliation it involved.

He won his court action and with it the added esteem of his fellow men, even though people henceforth knew some unsavory matters about his personal life which neither he nor anyone else would have wanted to disclose. After the court decision was announced, he requested an opportunity to speak to his accusers.

"Most of the trouble I have had in life," he said, "has come about through trying to help people."

would say to all young persons here present that if you want to avoid trouble, never go out of your way to help anybody. Be hard and demanding. Then he smiled in a rather enigmatical fashion and said: "But if you do, you will have no friends. Everybody will keep clear of you and secretly hate you. And worst of all you won't get much fun out of living."

The way to avoid trouble is to avoid responsibility, but life of no responsibility is sterile, vapid, lacking in every factor which brings true happiness. Responsibility and love for others involve effort, but nothing else is so worth while.

Relief At Last For Your Cough

Chronic bronchitis may develop if your cough, chest cold, or acute bronchitis is not treated and you cannot afford to take a chance with any medicine less potent than Creomulsion which goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Creomulsion blends beechwood creosote by special process with other time tested medicines for coughs. It contains no narcotics.

No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough, permitting rest and sleep, or you are to have your money back. (Adv.)

Sizzling Mor and Pancakes

Cut 1 can Mor into 8 or 12 slices.
Melt 1/2 tsp. ADVANCE SHORTENING add MOR and brown on both sides.
Meanwhile bake pancake batter (see recipe below).
Serve with plenty of WILSON'S CERTIFIED MARGARINE or CLEAR BROOK BUTTER and syrup accompanied by sizzling MOR. Serves 4 or 6.

Take Your Choice

Whether you like thick fluffy pancakes or prefer them thin like New England flapjacks, you may have your choice. The only difference is the amount of liquid used. There is an excellent recipe:

Pancake Batter

2 cups flour
2 Clear Brook Eggs
1 tsp. salt
2 tsp. baking powder
2 tsp. sugar

Sift flour, salt, baking powder and sugar together. Beat egg yolks and add milk and melted Certified Margarine or Clear Brook Butter. Stir in the dry ingredients, beating until smooth. Fold in the stiffly beaten egg whites and bake on a hot griddle until light golden brown on both sides. Turn only once.

Depending on thickness of cake desired.

Did you ever put English walnuts in pancake batter? They glomerize it into a grabby mess for Sunday night supper or after the show snack.

There's a Trick to It

Half the trick of baking pancakes easily is having the griddle at the right temperature. A drop of water should form a ball and "dance" on the griddle. If the water flattens out, the griddle is too cool; if water vanishes in steam, the griddle is too hot.

Keep It Handy

The flavor of Mor is especially good with pancakes. And what a team they make for a nutritious as well as delicious breakfast! For Mor contains the same high quality proteins and B vitamins as the sweet tender pork shoulder meat from which Mor is made. So keep several cans of Mor on hand for everyday meals and emergencies.

Sincerely,
George Rector

MANY NEVER SUSPECT CAUSE OF BACKACHES

This Old Treatment Often Brings Happy Relief

Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the excess acid and waste out of the blood. They help most people pass about 3 pints a day. When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder. Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 60 years. Doan's give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

ference victory. Glyn Perkins and "Mac" McLawhorn, injured in last week's 12-0 victory over Williamston, join Paul Stokes on the cripple list. Stokes will make the trip but will probably see only limited action due to the fact that he has not done any rough work in three weeks. Perkins and McLawhorn are out for the remainder of the season.

Consequently, Coach Farley has had to juggle the lineup considerably. Jimmy Cox, utility backfield man, will take over the tailback duties. Cox has a passing arm practically equal to that of Perkins.

End Van Morgan has been shifted to blocking back with big George Minshew moving up into his left end slot. Sam Northrop, who has filled in for Stokes in past weeks, will probably once again hold down the right end position.

Roanoke Rapids will be favored to top the G-Men due to the fact that they stopped Edenton 7-6. Edenton topped Greenville 7-6.

Greenville ends its 1947 schedule next week in their homecoming game with the Washington Pam-Pack. The Greenville-Washington rivalry is one of the oldest and most bitter in North Carolina, and although the Pack is heavily favored anything can happen when these two meet.

PIRATES PLAY HOST NOV. 8 TO AMPHIBIANS

Night Contest To Be Feature Attraction Of Homecoming Day Here

The East Carolina Teachers College Pirates play host to the Little Creek Amphibians of Virginia on Saturday night in what promises to be a thrill-packed ball game.

The contest will take place in the Guy Smith Stadium and will start promptly at 8 o'clock. The Amphibians are rated as one of the best service teams in the east and boast a season record of 5 wins, 2 ties and 1 loss, against the Pirates 3 wins and 3 losses.

The Pirates are pulling hard for this tilt and have high hopes of pulling an upset over this talented Navy team. Coach Johnson has had his backfield men throwing everything but the waterbucket. As he told his boys, "If we can't go through them, we'll take to the air lanes and go over them."

This game is the feature attraction of Homecoming Day for alumni of East Carolina.

A special invitation is being extended to all high school students in Pitt County for this tilt. They are to be the guests of the Pirates with the admission gate wide open. It has also been announced that any high school team would be admitted free of charge if accompanied by the coach or an official representative of the school.

and place in the East Central Conference and the game may well decide the final position in the season's standings for either team, as Ayden play shut one more conference tilt against Clinton.

Ayden's probable line-up in tonight's homecoming game: Left end, Holland; left tackle, J. Bright; left guard, McLawhorn; center, O. Bright; right guard, Mason; right tackle, D. Stokes; right end, McCormick; fullback, J. W. Stokes; right halfback, Bullock; left halfback, Wilson; and Cox at quarterback.
